CHEAP VENISON FOR TORONTO

Government Supplies Deer Meat from Algonquin Reserve at Ten Cents Per Pound

TORONTO, Nov. 1.—Venison at ten cents a pound will shortly be within the reach of Torontonians through the offer of Hon. G. Howard Ferguson on behalf of the Provincial Government.

The Board of Control accepted the offer to-day, and referred the matter to Property Commissioner Chisholm, who will arrange for distribution to merchants in the city through the Civic Abattoir.

The offer is contained in the following letter:

"As you are doubtless aware, Algonquin Park, which is a large forest reservation owned by the Province, is also a splendid game preserve. It is necessary periodically to thin out the number of deer in the park. Heretofore the department has disposed of the carcasses in the open market. Owing to the excessive cost of living at the present time and the anxiety of this Government to contribute in every possible manner to ameliorate this condition, it is felt that this venison should be handled in a way that will contribute most towards a cheaper food supply.

"My suggestion, therefore, is that I will undertake to furnish to the city of Toronto, at ten cents per pound, with from 400 to 600 carcasses of venison if you will undertake the distribution of the same in some manner which will most effectually achieve the object in view.

"While this contribution of from 20 to 30 tons of fresh venison is not scientific keys to allow a Provincial-wide distribution, it seems to me that it would at least be of some effective assistance in the city."

CUT OUT PARTY SAYS THE PRIME MINISTER

OTTAWA, Nov. 1.—The following official statement was issued yesterday:

"On behalf of the Government the Prime Minister desires to emphasize the considerations set forth in his public announcement of October 25.

"Men prominent in public life, in both political parties, have unselfishly stood aside in order that union might be achieved. The members of the present Administration have put their party differences, disregarded all minor considerations, and united in an earnest effort for a supreme national purpose. They feel that it is not too much to ask the people of Canada, of whatever party allegiance, to pursue the same course, to unite in the same spirit, and thus to aid in the same purpose.

"The Government have no desire or intention of interfering with the right of the people in each riding to select the candidate of their choice, but they desire united endeavor in making the selection. It is hoped that the women in each riding will be invited to co-operate for that purpose.

"Those who are prepared to support Union Government naturally expect that they shall have a voice in the selection of Union candidates. Any course which prevents this is liable to provoke discord and undermine unity of effort when it is most needed."

A Case in Point

In Ottawa a newspaper and public controversy has been raging for the past few days regarding the straight party convention which transmitted Messrs. Fripp and Clabot as Union candidates. Attendance at this convention was said to be confined to members of the former Conservative association.

SCHUTZENGRAB—AND THEN SOME

Takes Nearly Half a Day to Say "Tank" in German

WASHINGTON, Nov. 1.—Thirty-five letters are required to spell the odd word which, in German, is the equivalent of the four-letter English "tank," or land battleship, which has worked such havoc in the present war. The German word as it appears in official despatches received here is "schutzengrabenkampfwagen," or so the bible," and which, freely translated, is "A machine for suppressing shooting trenches."

NATIONAL NEED TO BE THE TEST AT TRIBUNALS

Broad Principles to Guide Work of Considering Claims Laid Down—Economic Fabric Must be Kept up—Certain Products and Services Must be Maintained

OTTAWA, Nov. 1.—All preparations have been completed for the opening of exemption tribunals on November 8. How the tribunals will proceed in their work, the broad principles by which they will be guided in considering applications for exemption, have been laid down and will shortly be in the hands of the tribunals. The instructions are general rather than specific. They lay down that it has been found neither necessary nor desirable to exempt any particular occupation as such. In considering the claim for exemption on the ground of occupation, for instance, tribunals are to exercise their best judgment and to use their common sense.

Regard will be had to local conditions, and to the domestic and world situation from the point of view of production, manufacturing and commerce.

"The dominant factor," the instructions proceed, "is of the course the national interest and every claim under this head must be determined by that test. In the most general terms it may be said that the maintenance of the supply of food, with particular reference to fish, wheat and meat; of coal, steel and certain kinds of metal, and of timber of certain kinds, is, or may be, of primary importance.

Other Things Necessary

"The same is also true of certain manufactured products and of the operation of railways, steamships, telegraphs, telephones, light, heat and power plants. The machinery of finance must also, of course, be kept in full and efficient operation to ensure the continuance of production and distribution of produce as they are required. It is understood, however, that it is not only to the production and manufacture of articles directly necessary to the conduct of the war to which regard must be had. Canada must not only show her strength into the field but must maintain that war her industries upon which depend her capacity to bear the financial interest investment.

"While, therefore, national interest is primarily concerned with the process and the products essential for that purpose, it is also vitally concerned with the maintenance so far as is consistent with the performance of her military obligations, of the economic fabric of the nation. In case of all industrial, financial and public service undertakings regard should be had by tribunals to the extent to which the substitution of the labor of those, both men and women, not available for service has been or can be substituted for the labor of those whose services can be advantageously used for military purposes."

TETANUS GERMS FOUND IN U. S. VACCINE LYMPH

ST. PAUL, Minn., Nov. 1.—Health officers were asked today by manufacturers of vaccine sent here for use in vaccinating against smallpox to return it, as in certain instances it has been found to contain tetanus germs. The vaccine was accordingly shipped to Washington, where it will be analyzed.

How the supposed tetanus germs got in the vaccine is unexplained, though it was suggested that enemies of the country might be responsible.

LEAVE FOR "ORIGINALS"

Sir Edward Kemp Will Take it up in England

OTTAWA, Nov. 1.—Sir Edward Kemp, the new Minister of Militia Overseas, will take up with the Canadian authorities in England and the Imperial War Office the question of giving a furlough to the members of the first contingent who are still left in France. Sir Edward is leaving in a few weeks' time for England, and it is intimated by the military officials here that this will be one of the first questions he will take up. In the meantime no action is likely to be taken by Ottawa, although it is recognized and has been for some time that there is only justice that these men should be given a prolonged holiday if not their discharge.

As to Educational Claims.

"In considering a claim for exemption on the ground of education and training effect should not be given to this ground of exemption unless it be manifest to the tribunal." The instructions continue, "that the education or training of the individual concerned is designed to qualify him for service which will increase the national strength for war purposes or which will be necessary for the maintenance and upbuilding of the social whole of the nation and its stability during and after the war. In applying this principle, tribunals will keep in mind that war as now waged is a war of exports and that it is no longer, as it was once considered to be, a question of human physical force available for bodily contact with the enemy, that the prevention of disease among the men and even among the animals at the front, their cure from disease and wounds and the care and direction of very highly specialized apparatus involving knowledge of scientific principles, is now of an importance which cannot be exaggerated. The supply of specially trained men for these purposes is therefore a matter of high national interest, and losses among men of this type have been, and continue to be, great, so that constant renewal of the supply is of the first importance.

A claim made on the ground of domestic position will be considered in its relation to any financial support the man had been in the habit of providing for relatives or others who, as a result of withdrawal for military service would be in want.

Where One or More Serve

The instructions proceed: "Where from a given family, one or more are already members of the Canadian Expeditionary Force every humane consideration would point to the propriety of a single remaining member being granted exemption on this ground, which reasons might also apply to more than one member of a family from which voluntarism has already taken two or more members especially if one or more has already been wounded or killed.

"Special attention is emphasize "that the importance of the careful and conscientious impotance by tribunals of their duty cannot be overestimated. An exemption granted for insufficient reasons not only deprives the State of a soldier, but tends to sow the seeds of bitterness and discord in a community. The arbitrary refusal of exemptions is, on the other hand, to be avoided."

Coming Election a Criminal Thing

Declares Minister in Addressing Large Audience at the Coast

VANCOUVER, Nov. 1.—During his address here Hon. Martin Burrell declared that the coming election, which would be held in five or six weeks, was not at the asking of the Government. In some respects it was almost a criminal thing. The life of Parliament should have been extended. But one province was against it, especially the view of the Government respecting the Military Service Act, which the Union Government intended to enforce strictly. In view of the stand of the one province it was thought unwise to have the election at without going to the people. The disenfranchisement of the alien enemy, he felt, in war times was just. When the war was ended those people would resume their rights of suffrage.

The obvious difficulty of having full woman suffrage because of changes necessary in other statutes, was overcome as much as possible and the Government gave the votes to the wives, mothers and sisters of the men at the front.

HELP FOR ITALIANS

Allied Forces Have Reached Italy to Stem Teuton Invasion

LONDON, Nov. 1.—Military critics here hazard the guess that the first instalment of Entente troops have already reached the line selected by General Cadorna to give battle to the Teuton invaders of Italian soil. They are supremely confident that this line cannot be broken by any troops that the Germans dare to concentrate there.

Since last Friday the War Committee of the French Government has held sittings, at which in close accord with London and Rome, French military authorities have perfected a plan which is expected to relieve the terrific pressure of the Italian forces.

GOV'T CONTROL OF PACKERS

Program is Outlined and Controller on Board Established—Five Intermediaries

OTTAWA, Nov. 1.—Executive Government control of the packing-houses and cold-storage plants of Canada was the program outlined yesterday by Hon. W. J. Hanna, Food Controller, to a representative gathering of packers and produce men. Following Mr. Hanna's address, a committee representative of the packing-house industry was appointed to co-operate with the Food Controller. The produce men indicated their willingness similarly to co-operate.

In his address, Mr. Hanna explained that his office was working in co-operation with the Food Controller. The produce men indicated their willingness similarly to co-operate.

French Captured Over 12,000 Huns

PARIS, Nov. 1.—The official communication issued by the War Office last night reads:

"To the north of the Aisne our operations occurred in the neighborhood of Pinon.

"The number of prisoners captured by us in the course of our offensive from October 23 to 27 was 12,157, of whom 537 were officers. The cannon numbered 180.

"On the right bank of the Meuse the Germans attempted this morning against our positions in the sector of Beaumont a surprise attack, which we repulsed. Between the Meuse and Bezonvaux there was a quite violent bombardment during the course of the afternoon.

"On October 30 six enemy airplanes were brought down by our pilots; four were left in a damaged condition within their own lines. Our bombing escadrilles last night dropped 7,500 kilos of projectiles and explosives on the railway stations at Thionville, Bettembourg, Maizieres-les-Metz, Longuyon-les-Metz, Joeppy and Conflans, as well as on the station at Luxemburg. All our objectives were reached."

GOVERNMENT MONDAY, DECEMBER 17 DOMINION ELECTION

Government Ready for General Election—Nominations on November 19—Sir Robert Laurier Will Issue Manifesto Explaining His Position on Public Questions

OTTAWA, Nov. 1.—On Monday, December 17th, has been fixed as the polling day for the general election to be held throughout the Dominion that day. polling in Canada, acording to the provisions of the new election law, is November 19th as the day for the nomination of candidates. It was passed by the Cabinet yesterday afternoon, approved by the Governor General. The writs instructing the returning officers to hold elections in the constituencies of the Dominion will be issued today. Then the names of

PLEDGED TO REPEAL MILITARY SERVICE ACT

OTTAWA, Nov. 1.—That the followers of Sir Wilfrid Laurier have broken with the United Liberals and not to spare them in their feelings is indicated by yesterday's proceedings. Russell county, which returns Charles Murphy was put in nomination against Hon. Dr. Beland, Union candidate, because it was the first Laurier riding to be nominated to be held in the province since the Union Ministry was brought about. Supposedly it furnished the keynote of the campaign in Ontario.

"I am a true win-the-war candidate as you are win-the-war electors," declared Hon. Mr. Murphy to the enthusiastic gathering at Russell. "But I, like you, resent the idea of being driven from a batch of scoundrels who form a camouflage, and in the meantime sell rotten boots to soldiers, steal their surgical dressings and profit thereby, stuff bacon with salt and water and sell it at 28 cents a pound and perform other acts worthy of only unprincipled scoundrels.

"GAME OF LOOTERS"

That opposition to conscription is still the Laurier platform, was likewise indicated by Hon. Rodolphe Lemieux, who, speaking at the same meeting, declared that his only son had volunteered, but he never would have gone to the front if the hand of a sergeant had been laid on his shoulder. "The game of the Union Government," said Mr. Lemieux, "is a game of looters, and the people are being robbed by a gang of looters hiding under the noble cause of patriotism."

Laurier's chief lieutenant in Quebec, after announcing conscription declared that if the Liberals are elected the Conscription Act will be withdrawn from the statute.

Coming from such a source, the statement is taken to forecast the Liberal policy in the coming manifesto, which it has been stated that at this point Laurier would not go to the length of the Quebec demands.

LONDON BOMBED BY THE HUNS

(Special to The Intelligencer)

LONDON, Nov. 1.—An official statement says that thirty-six Hun machines participated in last night's air raid, only two of which succeeded in reaching London. Seventy persons were killed and 117 injured by the bombs. The damage in casualties were slight, it is declared.

TWENTY-FIVE CENTS DAMAGES

KITCHENER, Nov. 1.—Geo. Gillard of Elmira, a grocer, who unwittingly became a witness in the case of Rex vs. Chant, was awarded 25 cents damages in an action for libel against Chant.

HOSTILE AEROPLANE DRIVEN FROM KENT

LONDON, Nov. 1.—The following official statement was given out yesterday:

"A hostile airplane crossed the Kentish coast early this morning. It did not penetrate inland, and, being engaged by anti-aircraft guns, immediately dropped bombs in a field and made off to sea, dropping the rest of the bombs in the water. There were no casualties and no damage was caused."

U. S. GIRL AVIATOR TO BOMB BERLIN

LONDON, Nov. 1.—According to Mrs. Florence Allen Degen, who spoke at a meeting at a meeting of the British Women's Patriotic League, there is an American girl who is an expert aviator, and who has the ambition of being the first person to drop bombs on Berlin.

A FABLE ON VICTORY BONDS

There was once a Person who talked boastfully about his Swell Home and his Uppishly Upholstered Car. If Money Were Fifty Miles to be present at a Picnic where there were Free Eats. He always Finished First in races where there were Rich Prizes and No Entrance Fee. When somebody blew him to a Fine Supper at the Big Hotel, he would hurry home to uphrad his Poor Wife because she could not provide such Delicacies of Diet out of an Allowance which kept her Skimping on her own Clothing in order to Furnish Decently Digestible Dinners for her Lord and Master. No Child could Consume Candy in his presence, lest the Omnivorous One should take it away, on the plea of saving the Little Folk from Severe Indigestion. At Home he was a Regular Hurricane, for his Business Associates regarded him as a Big Blow.

When a Neighbor Took Sick, our Hero was always sure to have a Sudden Engagement calling him rapidly to Another Quarter of the Town, where he would not have to bother Calling the Doctor. When Giggling Girls came around to collect money for the Red Cross, he was ever ready to give them Free Advice, but looked Pained when they asked him for Cold Cash. If the Piano was Pressed, he took care to thrust his Surplus Earnings into a Pocket with a Button on it, and would shortly be seen beating a Strategic Retreat.

In moments of Extreme Exasheration, induced by Strong Waiters for which Somebody Else had Paid, he was wont to describe himself as a Hundinger of a Good Fellow. At Home, however, he was privately considered a Grouch, and at the Office everybody Hated him.

Moral—You can't judge the Size of a Man or a Motor Car by the Noise they make. When Canada, in a week or two, floats a Victory Loan for $150,000,000, the man who Loosens His Pocketbook will not necessary be a Patriot, but the man who won't will in most cases be a Prune. The Fellows at the Front are Buying Victory Bonds with Blood. The Fellows at Home are Poor Sports if they do not help buy it with their Money.

SUCCESS OF THE BRITISH RED CROSS FUND ASSURED

Over $6,000 Collected at Noon—Fund Will Remain Open To-morrow—Names of Contributors Will be Published in the Press

The British Red Cross campaign workers report excellent progress towards the $12,000 objective set them. Up until noon today more than $6,000 had been subscribed, and not half the workers heard from. A great many people have been found not at home. These people have been reported to the main committee and their names entered for future reference, as every home in Belleville must be heard from as to whether they will subscribe to this vitally necessary work or not. It will lighten the work of the committee if any who have been out, or overlooked during the day will call at the headquarters in the City Hall tonight and leave their subscriptions with Mr. Frederick, who will be on hand until 10 o'clock. Otherwise, they will be called upon in the course of the next few days by the workers.

The names of all contributors will be published in the press in the course of the next couple of weeks, and from the way in which the citizens are coming up, those who have not paid will be conspicuous by their absence from the lists.

Any who feel that they have not given enough should mail their contributions so that they will be received tomorrow or call at headquarters with them.

The case of King vs. Hawkes, will be traversed from the fall to the spring assize. The accused, who resides near Coe Hill in the northern part of Hastings County, is charged with using seditious utterances.

HEAVY CRIMINAL DOCKET.

At the fall assize, which opens here on the 12th inst., before Hon. Justice Mastin, there are a number of criminal cases to be investigated, including two charged with murder, which may be reduced to manslaughter. Three young men will be charged with attempting to wreck a railway train by placing obstructions on the track. Mr. Frank Sommerville, of Toronto, will be the Crown prosecutor.

HALLOWE'EN FAVOR DANCE

In their spacious hall on Campbell Street, this city, Prof. and Mrs. Albert Johnston held their annual Hollowe'en dance last evening. The hall was prettily decorated with Hallowe'en colors and the music rendered was all that could be desired. Each lady and gentleman upon entering the hall was presented with a favor, the gift of Prof. and Mrs. Johnston, which consisted of fancy caps and when worn while dancing by the large attendance added greatly to the success of the evening. Dancing was continued until after midnight.

DID THE GOBLINS GIT YE?

Witches, hobgoblins, bats and Jack o'Lanterns had the freedom of the city last night, and many strange and fearsome creatures roamed the streets. The fays, pixies and goblins knew, ever, were in a merry mood, for little damage was done. An occasional gate was disturbed, and flaming yellow heads were more or less alarming to those not inoculated with the spirit of Hallowe'en. An army of small pixies with blow pipes bombarded windows with tiny pellets while an occasional "Tick-Tack" made mysterious sounds on the outer panes, and dances and parties otherwise marked the occasion.

CIVIC COMMITTEES

A regular fortnightly sitseting of the various civic committees will be held this evening. There is not much business to be transacted.

MANY DEER HUNTERS.

A number of sportsmen from Trenton and the surrounding country were in the city yesterday procuring licenses for the shooting of deer. The number of licenses issued in this locality this year are in excess of former years.

ACCIDENT TO AVIATOR.

While attempting a landing at Sydenham during a heavy wind, Flight Cadet Thomas, of Camp Mohawk, after reaching the ground safely and before his machine stopped, was blown against a wire fence and the machine was slightly wrecked. One of the blades of the propeller was broken and other minor damages were caused. Cadet Thomas was unhurted. A telephone message was sent to Deseronto for assistance and a relief plane arrived and took the aviator home.

CHANGED THE MEANING.

In the report of the sermon preached by Rev. A. H. Hubly on "Father and the Spirit of the Reformation" published in yesterday's issue of The Intelligencer the word "infallibility" was used in error instead of "stability," materially changing the meaning of the speaker. The paragraph referred to the spirit of the Reformation and should have read: "Spiritually, its success has not been what its founders and ardent advocates might have expected. The reasons are many and such as in no way discredits its value, suffice for the benefit of man nor for the glory of God, but are altogether because of human fallibility in the use and ordering of that which is divine."

NOW IT'S A BEERLESS DAY

Idea is Advanced in Milwaukee—Sunday is Suggested

MILWAUKEE, Nov. 1.—This, the wettest city in the United States, is the incubator of a "beerless" day. . . .

In resolutions forwarded to Gov. Phillip yesterday the Wisconsin Anti-Saloon League urges that as an economy measure he proclaim Sunday a "beerless" day, to be strictly observed. The league also suggests that every beer drinker deny himself one glass of beer a day.

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, wavy, silky and have an appearance and incomparable softness that is pleasing.

Be sure to get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

ANCIENT MOLDAVIA

Has Become One of the Battlegrounds on Eastern Front.

With the Austro-German armies hammering the gates of its defenses on the north, and with Central Power forces attacking on the south, Moldavia, the northern ring of Roumania, which lies between the Carpathians on the west, and the Dniester River on the east, promises to become a theatre of unusual war interest.

Moldavia, the north wing of the butterfly-shaped kingdom of Roumania, has approximately one-fourth of the population, and one-fourth of the area of that country, the population being a little less than 2,250,000, and the area a little less than 15,000 square miles. To the west of it lies Transylvania, and the Austrian crown land of Bukowina. To the east lies Bessarabia, with the river Pruth marking the boundary of the entire district. On the south is Wallachia, and the other wing of the Roumanian kingdom.

The Sereth River divided Moldavia into eastern and western sections, flowing the entire length of the principality along the foothills of the Carpathian Mountains. Moldavia, composed mainly of the high plateau lying between the Pruth and the Sereth, is approximately 275 miles long, and has an average width of about 50 miles. Western Moldavia is entirely mountainous, the crest of the Carpathians forming the boundary between it and Austria-Hungary, and, speaking, the Central Powers' battle line on the Moldavian front stretches from the mouth of the Pruth and the Sereth rivers with the Danube, through Focshani and to the mountains.

There are more railroads in Moldavia than are found in the rest of Southeastern Europe. One line skirts along with the Sereth from Bukowina and parallels that river all the way to Focshani. Another line enters through the Carpathians from Bukowina by way of the Grimese Pass and forms a junction with the Sereth River line some 30 miles north of Focshani. A third line follows in a general way the River Pruth from the mountains to the south end of Moldavia to its confluence with the Danube. In addition to these there are several branch lines, running at right angles to the main lines, which afford excellent facilities for the movement of troops in the Moldavian theatre.

The history of the principality of Moldavia is of startling interest. It was founded about the middle of the fourteenth century by the Wallach Voivode Bogdan. It soon came to be a large state, embracing the present Moldavia, Bukowina, and Bessarabia. Poland and Hungary were both friends for many years of Moldavian court, with neither able permanently to dominate principality. Stephen the Great ruled Moldavia from 1457 to 1504 and defied the Turks, winning a signal victory over them at Rakova in 1475. Gradually growing stronger, however, the Moslems succeeded again, under Stephen the Magnificent, successor, in establishing their mastery.

Although the Turks never settled in the country, they established strong fortresses, and thus managed to hold Moldavia.

Up to 1821 the country was governed by native princes under the Sultan from the families of Gregory and Mavrocordato, that year native princes were once more allowed to head the Government, but in 1829, Russia, having gained a victory over Turkey, was accorded a protectorate over Moldavia under the Treaty of Adrianople. This treaty was terminated by the Treaty of Paris and the Treaty of Paris. Thereafter the Powers agreed to set up the two principalities of Moldavia and Wallachia, which in their turn decided, in 1859, that they would unite under one head and become one country. They later elected a German prince to the throne, which accounts for the Teutonic origin of the present dynasty ruling Roumania.

A Cubist Compliment.

Paris is laughing at the latest Cubist story. The wife of one of the Cubist painters went to a dressmaker ing from Spain to France. The customer appeared in the salon and discovered a remarkable canvas. The picture was supposed to represent a collection of old iron, which, admittedly strongly colored. "Qu'est-ce que c'est ca?" asked the dressmaker, starting with astonishment, mingled with admiration. "It is a portrait of art," replied the lady coldly. "Indeed, madame," the dressmaker; "that must be the plan of a mansion or aeroplane." An engineer as his opinion that it was a plan for a masterpiece for a long time and turned it round and round. Finally, he said, "it is possibly a machine, but I never saw anything like it." The artist was allowed to depart, which she did joyously, for was it not a tribute to the marvellous miraculous skill?—London Chronicle.

Travelling in Africa.

The one-wheeled rickshaw of Africa, like the two-wheeled jinrikisha, the jinrikisha of Japan, was the invention of a missionary, the designer of the African vehicle being a Swede engaged in mission work on the Congo. An early form of the vehicle consists of a framework of bicycle tubing, supporting a cushioned chair-seat over a single, low rubber-tired wheel. The handle in front forms a continuous loop and the rear handles are similarly shaped. A rickshaw-man Two native boys can easily transport a passenger in the rickshaw, and it is the only vehicle practicable for many of the narrow and crooked foot trails which are all the only roads in the greater part of Africa.

The brown rat, erroneously called the Norway rat, was originally a native of India and Persia. It entered Europe through Russia about 1727 and was brought to America about 1775.

Gen. Cadorna in the Limelight

IT is announced that German troops have been sent to support the Austrians, and the unbroken cable to mind the general character of the strategy that has been pursued by the Allies ever since the main Teutonic offensives were checked. An attack is made upon the East front, for instance, and it is pressed until reinforcements can be hastened from the Western front. Then upon the weakened Western front an offensive is launched, drawing back reserves from the East. Then Italy strikes, the Allies taking turns in delivering their sledge-hammer blows. Had Russia remained staunch Germany by this time would have had no surplus men to shuttle back and forth. Her armies would have been nailed in their positions, and there they would have had to die or conquer. Russia's defection, however, permits the Teutons to keep up their old tactics for some time longer, and many have the effect of limiting the great victories achieved in the past few weeks by the Italian army.

Gen. Cadorna again comes on the scene. There are few Italians about him that are of particular interest. In the first place he is the only Allied general who has been fighting from the beginning of the war on enemy territory. In the second place, he is the only Allied general in supreme command who has not been promoted out of his job or otherwise relieved of the responsibility of directing the armies in the field. This must mean that he has given satisfaction all his way to the Parliament, and also to the representatives of the Allies. Finally, too, the Italian armies have the utmost confidence in him. His every activities, among the most striking in the war, show that this confidence was well bestowed. It is said that the Italian soldier dislike their commander-in-chief and that he is not seen among them as possible, but as all soldiers are supposed to entertain similar sentiments about their superior officers we do not see the point.

Nevertheless, it is easy to understand why they have confidence in Cadorna, and why the Italian people should implicitly trust him. He has by his every activities, among the most striking in the war, shown

MILITARY NOTES.

The headquarters staff at Kingston is now arranging for the receiving of 1,000 men who will be secured under the terms of the Military Service Act. The Depot Artillery batteries will in all probability secure their full complement of men before the actual drafting takes place. The draftees will then have to report for service with the Depot Battalion. This battalion is now made up of men who enlisted months ago with various draft companies but is only about one quarter of full strength.

The question of selection of those to go is not yet clear though it is under discussion by the military authorities. At first it was thought that unfitted men outside of those applying for exemption would be secured. With the large percentage applying to be allowed to keep in their civilian occupations, this situation is all changed.

It has been estimated that there are 8,000 medically fit men eligible for military service in Military District No. 2. At present the orders call only for the filling up of the one depot Battalion. In that case only one seventh man in every eight will be wanted. The percentage so far has not been this high of men volunteering but the throwing out of many exemptions will make it lower. Whether the lottery system as used across the border, will be necessary is still undecided.

Naval Air Service Calls for Recruits

LONDON, Nov. 1.—In the past forty-eight hours British naval planes have carried out the greatest series of raids since the start of the war, according to authoritative information obtained by the United Press. It was said that 200 or more bombs had been dropped by the R.N.A.S. flyers.

HUN SUB. TOTAL DROPS

LONDON, Nov. 1.—The number of British vessels sunk by submarines during the last week will show less than the number lost during the preceding week, according to an authoritative forecast of the official statement given the United Press this afternoon.

Famous General Talks About First Dark Days Of Fighting in France

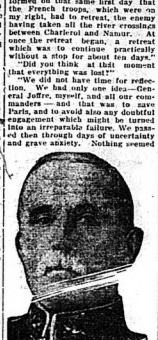
LE JOURNAL, of Paris, publishes the following statement made by Lord French in an interview:

"August, 1914, was a month of trials and surprises. Concentration having finished on the 21st, we took up our positions on the 22nd. On the following day, Sunday, the 23rd, we were thrown into the fighting. In front of us, instead of one German army corps, which we expected, we found several, and two cavalry divisions.

"To make matters worse I was informed on that same first day that the French troops, which were on my right, had to retreat, the enemy having taken all the river crossings between Charleroi and Namur. At once the retreat began, a retreat which was to continue practically without a stop for about ten days."

"Did you think at that moment that everything was lost?"

"We did not have time for reflection. We had only one idea—General Joffre, myself, and all our commanders — and that was to save the army, and to avoid also any doubtful engagement which might be turned into an irreparable failure. We passed then through days of uncertainty and grave anxiety. Nothing seemed



SIR JOHN FRENCH

assured; nothing on which we counted were going wrong; positions which we hoped to hold had to be abandoned; we wondered when we would be able to stop.

"One day at last General Joffre informed me that he was going to stop his retreating movement and would defend Paris on the line of the Marne. I spent that day in personally reconnoitring positions in the neighborhood of Lagny and La Ferte-sous-Jouarre. On the following day, changing his opinion under the pressure of events, he decided that we should fall back still further down to the line of the Seine, and there take the offensive.

"Then about September 2 or 3 there came the extraordinary manoeuvre of von Kluck, who, instead of descending south as direct, moved obliquely towards the south east. He was actually exposed in this manoeuvre when he learned of the presence of the British army, still firm, and of the existence of the Sixth French Army, formed to protect the capital.

"He was then menaced on his flank, and even in the rear, by the new General Manoury created the Oureq line and by the immediate retreat von Kluck saved his army, but I am astonished that he did not continue straight forward in an attempt to force a passage. We were then able by a counter-attack movement to contribute usefully to the success of the great battle; the full honor of which belongs to Marshal Joffre."

I then asked Lord French to what he attributed the relative stagnation to which we were reduced for long after that great victory.

"Regarding the operation which I directed," he answered, "I see the insufficiency of effectives and of material. Had we had 500,000 men expected from us at the most six divisions, which were to have helped her to wait for the moment when Russia would be absolutely ready. We paid there the price of that handicap consented to conscription in peace times, which had been our elbow-here, to relinquish the plan of advancing, as I had the right to hope, as far as Lille. However, all that is passed.

"Now we have the men, and, as to material, we have more than I ever dreamt of having. During 1914 and 1915 I made continual representations in order to obtain guns and munitions, without which it is impossible to obtain victory. I remember in connection with the point that one day Lord Kitchener, after having studied with experts my programme, which was certainly less ambitious than has since been realized, declared it would take what years to manufacture what I asked for. Fortunately we found Mr. Lloyd George, who accomplished the work, which will remain to his eternal honor.

"I have not the slightest doubt that we shall emerge victorious from the conflict; and if we were threatened with the horrible catastrophe which a German victory would be, would it not be better to die to the last man?"

ADVERTISE IN THE INTELLIGENCER

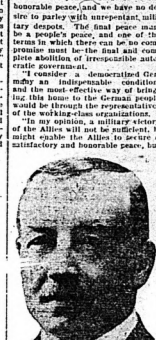
Arthur Henderson Says German People Are Ready To Strike For Freedom

BELIEF that Germany is ripe for revolution was expressed by Arthur Henderson, deposed labor representative in the British War Cabinet, in an interview in The Weekly Dispatch justifying his attitude in favor of the Stockholm conference.

"Nothing is further from my mind," he said, "than concurrence in a peace settlement that would not be final, democratic, and lasting. Inconclusive peace would be a dishonorable peace, and we have no mission to parley with unrepentant, military despots. The final peace must be a people's peace, and one of the terms in which there can be no compromise must be the final and complete abolition of irresponsible autocratic government.

"I consider a democratized Germany an indispensable condition, and the most effective way of bringing this home to the German people would be through the representatives of the working-class organizations.

"In my opinion, a military victory of the Allies will not be sufficient. It might enable the Allies to secure a satisfactory and honorable peace, but



ARTHUR HENDERSON

it could not guarantee a lasting peace. This can only be secured by the good will of all the peoples concerned. I want in no sense to add to any effort by a properly organized and wisely directed political propaganda.

"Both before the war and during actual hostilities the German people have been tricked and deceived, and even now they are by no means cognizant of the vital facts and developments of the international situation. They will continue to remain blood-winked and ignorant until the war ends, unless the Allies find means of placing in their possession a complete and undistorted statement of the facts.

"To my mind the only satisfactory channel of communication is through the German Socialists, and particularly the German trade unionists. I would rather consult with the German Government representatives after the war, even though Germany has been completely defeated in a military sense. For it is to the lasting credit of the German minority Socialists that, though they formed part of a nation built up on military victories and inculcated from birth with a worship of militarism, they have in the midst of the greatest crisis of history stood aloof from their own Government's policy of territorial and unequivocal language its crimes and designs of conquest and domination.

"The German Socialists are the strongest political party in Germany. When they learn that the people of Allied countries are determined that there shall be no compromise between autocracy and democracy, and that they will have to set their own house in order before the world can figure in the visiting list of the Allies, there may be big news.

"I do not accept the suggestion that the overthrow of the present government and the democratization of the machinery of government is an after-war problem, and I have reason to know that this also is the view of some of the best Socialists of Germany.

"We have it in our power to strengthen enormously the hands of the Socialists in Germany who are anxious to break forever the power and authority of the Kaiser and his military clique. The German people are ripe for something. They are undergoing great privations and sacrifices out of all proportion to the small military satisfaction obtained from the fact that their armies are still lodged in foreign soil. Hunger, death, and reverses have combined to up a permanent lodgment with them, and the phantom of starvation and disaster is already flapping his wings overhead.

"The soil is fertile in Germany, ready for the sowing; the sower is in hand. All that is lacking is the seed, which we can supply in abundance.

"So I am in favor of a conference in order that we may hand over to the German Socialists unlimited supplies of seed for the revolution for which I am convinced Germany is ripe."

"MEDACO"
THE PERFECT VIOLET RAY GENERATOR !

At the Office and Showrooms of

THE HYDRO ELECTRIC
32 Bridge Street
SATURDAY, THE LAST DAY

Let the "Medaco" cure you

MEDACO is the latest and most improved instrument of its kind for the relief of pain and cure of disease. It transforms the ordinary house current into what is known by the medical profession as High Frequency Current. It is a generator which overcomes all the defects of other generators on the market today. It is the last word in medical current generators. There is no other like it and it is protected by patents.

WHAT "CLINICAL MEDECINE" SAYS: "High Frequency Current as a therapeutic agent has now long passed the experimental stage, and has become an established fact. Everywhere the best and most progressive physicians are taking up electrotherapy as a mode of treatment, and all modern hospitals are equipped with high frequency outfits."

NO PAIN, SHOCK OR MUSCULAR CONTRACTION

is felt when MEDACO is being used. By a special patented current controller, the current can be regulated to give a very mild current for internal use. Eleven different strengths of current can be obtained from the generator—an exclusive feature with MEDACO.

FOR HOME USE. Wherever there is an electric light in the home the Medaco can be used. Simply attach cord to the lamp socket and turn on the gentle, radiant, penetrating violet rays... Every ailment shown here may be prevented or cured by the use of Medaco. It purifies the blood—it cleanses—it removes congestion and makes rich red blood.

HIGH FREQUENCY CURRENT is a recognized medical treatment. It is used in almost every hospital, convalescent home and military hospital here and in England. It is endorsed by all progressive physicians.

AN AID TO BEAUTY. By using "Medaco" you can have a beauty parlor in your own home. It makes the hair grow and stops it falling. It removes pimples and blackheads.. It tones up the nerves and stimulates circulation.

PAYS FOR ITSELF in a few treatments.. The whole family can use it if necessary. It is an investment which will last a lifetime.

SUCCESSFULLY TREATS THESE DISEASES: Neuralgia, Neuritis, Nervous disorders, Lumbago, Insomnia, Goitre, Skin Diseases, Rheumatism, Constipation, Bronchial Affections, Sciatica, Weak Eyes, Pimples, Falling Hair and many others.

A FREE TREATMENT will be given to anyone suffering from pain of any kind.. **An expert demonstrator** is in charge and you will receive courteous attention.. Private demonstrations also arranged if you phone 270.

COMPLETE INSTRUCTIONS furnished with each generator, showing the length of time to treat each disease and the strength of current to use. You cannot go wrong.

"Medaco" Has Helped Others. It Will Help You

"I cannot refrain from writing you regarding the benefits derived by Mrs. McKee through treatment with your machine 'MEDACO'. Mrs. McKee has been a great sufferer from rheumatism, is now fully recovered.

"When the first treatment was given, Mrs. McKee was confined to her bed and absolutely helpless, she could not move hand or foot.

"After the first treatment she was able to put her hands to her head, and after three treatments was able to help herself and within ten days she was up and taking care of her household duties."

President Ontario Lumber and Supply Co., Ltd."
"Toronto, 5-6, 1917.

"It gives me much pleasure to state that your High Frequency Generator called 'MEDACO' was of much benefit to me.

"As a matter of fact it saved me from an operation. My doctor was going to operate on the prostate gland, and the use of your machine relieved the gland to normal condition in three days.

"I am also using it for shoulder trouble, and it is producing marked results, though my physician states it will be two years or more before I regain normal condition; if the progress I am now making by the use of your machine continues, I fully expect to be restored to normal health within sixty days.

POLITICAL IDOLS MUST BE LAID AWAY.

Opposition to Union Government is not confined entirely to the Laurierites, those afflicted with the little Canada fetish who view national affairs through Quebec windows obscured with fantastic dreams of a little republic on the banks of the St. Lawrence, worshippers of Sir Wilfrid Laurier whose genial personality and political asset of French-Canadian votes is magnified into the pleasing shadow picture of what his supporters are pleased to call "The greatest of all Canadians"; or to the rabid politicians who can see no good in any system except extreme partizanship and the principle of "to the victors belong the spoils." Those remnants of the real Liberal party have no monopoly of hate for the Union Government which they seek to destroy. There is a class of virulent partizanship, which refuses to be parted from its idols and as yet can see no virtue in Union Government, and this class answers to the name of Conservative. Toronto, where the political circus has always been divided with the Conservatives under the "Big Top" and the Liberals running the Side Show, is just now very much disturbed over the "menace" to political ideals and opportunities (otherwise known as patronage) of Union Government. Conservatives are so thick in Toronto that patronage is a nightmare, nationally, provincially and municipally. Not that Toronto loves the Conservative party more but it hates to think of any system of Government which will interfere with its patronage system.

Scrapping the Plums.

While the crop of plums has never been anywhere near adequate to satisfy the hunger of the faithful in Toronto, still "hope springs eternal in the human breast" and the announcement that the patronage evil is one of the rocks which the Union Government will blast out of the highway of national progress coincides strangely with a wild chorus from Toronto Conservative associations that the party is being wrecked by the inclusion of leading Liberals in the War Cabinet in an effort to form a National Government.

No Turning Back.

Whatever there may be in the wrecking theory the movement for national government has gone too far now to turn back and any hesitation or hitch now promises only national demoralization. Outside of Quebec agitators and confirmed partizans the prospect of National Government is hailed with joy by representative Canadian citizens from coast to coast and a number of prominent public men have staked their political future upon its success.

National Government in war time has everything to commend it if those who take part in it are honest and true to themselves and to the nation, regardless of past or present political affiliations. National Government must receive the hearty support of all true Canadians, rising superior to the suspicion and distrust engendered by years of party strife, and, faced by a common danger, unite in high national ideals until the happy day arrives when "wars shall cease to the ends of the earth" and it is safe again to return to the party system.

Political Housecleaning.

Whether the National Government will have any effect upon the future of either political party is only a matter of conjecture but one thing is certain, that National Government will make easy a much-needed political housecleaning in both parties and give politics in Canada after the war a new start upon a clean and better basis.

If there is such a thing as abolishing patronage, the curse of politics and the despair of public men, a National Government is the medium through which such a needed reform can be accomplished, and already a welcome beginning has been made in this direction. In fact before the Union Government arrived at the point where success seemed remotely possible Sir Robert Borden, the Premier, laid down the principle that vacant positions in the public service must be filled where possible by returned soldiers without regard to previous political affiliations and this has been carried out with the result that many of Canada's hero sons are filling public positions with credit to themselves and rendering valued service to the country.

After the War Problems.

National Government will permit a much needed housecleaning and naturally an army of political camp followers are disturbed at the prospect of being separated from present or promised sources of easy money. The interests of the nation are the first consideration, however, and the greatest good to the greatest number should result from effective national government. The prosecution of the war, problems of food, fuel and transportation together with preparation for reconstruction after the war when the soldiers return to civil life will all be better solved by a national government, and the feeling of all patriotic Canadians should be to give a fair trial and hearty support to Sir Robert Borden and his colleagues, representing the best elements in both political parties, in their efforts to provide a government in Canada during the war based upon the highest ideals of citizenship.

CRISP COMMENT

It perhaps will sound a little odd this election to hear that the majority is such and such, with Mesopotamia still to hear from.

Toronto Globe devotes some praise to Hon. Mr. Graham for saying he supports the Union Government. With that little pat on the head Hon. Geo. E. ought to be able to secure a place in the sun to run, says the Ottawa Journal.

What? says the Kingston Whig. No campaign funds of any kind with any party? Sir report from Ottawa announces. "An old woman's election," shouts a veteran campaigner. "I am out of it."

Robert Bickerdike, M.P., of Montreal, who at every session of the Dominion Parliament introduces a bill to abolish capital punishment, then calmly watches his pet child led to the guillotine via the six-months hotel, has been busy organising a general uplift society. Abolition of capital punishment, votes for women, abolishing the treating system, and penitentiary and prison reform are the four main planks in the Bickerdike platform of uplift; but if the society does not hurry up and get going the treating system will have been swept away by the prohibition wave, except in New York, Tokio, Manilla and one or two other obscure hamlets. Votes for women also seems destined to outpace the Bickerdike society.

What's the matter with Hanna? Bill Hanna, the man who insists upon winning the war by starving the garbage can. Hanna says the pretty little packages surrounding breakfast foods must go, and if we insist upon having our food concealed in photographs it must be in twenty pound packages. Pretty soon if Uneeda biscuit will be a case of Uneeda wheelbarrow to carry your groceries home, for the Food Controller figures that a large part of the high cost of living is caused by the high cost of delivering and small portions in fancy packages. What with the prohibition of small packages and the threatened evolution of the delivery horse into remounts or sausages the outlook is indeed dark for the man who carries the pay envelope home.

OTHER VIEWS

No Shelters for Slackers.
Toronto Telegram

Commissioners in the Canadian Militia cannot be utilized as a bomb proof shelter for slackers. Few officers will plead their military rank as a reason why they should be exempt from conscription. Every officer who attempts such an evasion of duty should have his commission cancelled and be dismissed from the Militia.

Tobacco in the War.
Hamilton Herald

The cigarette is doing more to win this war than any other one thing outside the essentials of warfare. This is the opinion of an army surgeon quoted by the New York Sun. It is too bad that any army surgeon will thus unkindly interfere with the work of the good ladies who are trying to prevent the sending of tobacco to soldiers.

Road Hogs.
Ottawa Journal

The driver of a vehicle in Ottawa was fined $2 on Friday for not keeping close to the curb on the right hand side of the street. The fact should be noted that the law requires vehicles to not only keep to the right in meeting other vehicles, but it also requires vehicles to keep well on the right side of the street as they go.

You occasionally see road hogs who are out in the middle of the street, and pay no attention to any signal from behind to get off to the right side.

Such hogs disregard not only civility but law. Their numbers ought to be taken whenever possible, and a prosecution follow.

As W. F. Nickle is not the choice of both parties in Kingston it is reported that the Liberals will oppose his return and that they will select a candidate shortly.

Liberal Association of Glengarry and Stormont heard John McMartin, nominee explain his union stand, and decided to hold a new convention in Alexandria on Saturday, Nov. 10.

Hon. N. W. Rowell is mentioned as win-the-war candidate for South Ontario.

A conference is called for Saturday in Whitby to select a union candidate in South Ontario.

GUILTY OF CAUSING FATAL M. C. R. WRECK

CHATHAM, Ont., Nov. 1.—Frank McDonald, of Ridgetown, was found guilty of manslaughter by a jury after a five hours' deliberation today. The prisoner was charged with the murder of Russell Oakes and Stephen Quinlan, fireman and engineer of a M. C. R. express which was derailed on the morning of May 31, 1911, as a result of the removal of a section of the rails. His Lordship Justice Clute, after the jury returned with their verdict at 8 o'clock, intimated that he would pass sentence tomorrow morning. Henry McDonald, brother of the prisoner, will face a similar charge at the present sitting.

Are The Four Fruits Used In Making "Fruit-a-tives"

"FRUIT-A-TIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-tives' because I have tried other remedies and they did not do good". On the other hand, the fact that "Fruit-a-tives" *is entirely different from any other preparation in the world*, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bowels, Kidneys or Skin. "Fruit-a-tives", *is composed of the active principle of fruit and the greatest nerve tonic ever discovered*. 50c. a box, 6 for $2.50, trial size, 25c. HELD FOR EATING U. S. MAIL.

Negro Post Office Employee Devoured Cake Addressed to Soldier.

CHICAGO, Nov. 1.—Charged with eating United States mail, William May, a negro post office employee, is being held here under $2,000 bonds.

May was at work in the post office when he came upon a fragrant package. He gazed at it intently when the string broke and a fruit cake of large dimensions and alluring appearance leaped into his willing hands which, before he was aware of it, were heading large chunks of the cake in the direction of his mouth. This process continued until the entire cake was devoured.

The cake had been addressed to one of the men of the National Army at Camp Grant, Rockford, Ill., and now mother will have to send a new one to her soldier boy.

MORE MUTINIES OCCUR IN THE GERMAN ARMY

AMSTERDAM, Oct. 31.—According to the newspaper Le Matin, a serious mutiny has occurred in the German army at the Ruhleben Camp at Berlin. The men, it is said, refused to go to the front and demanded their own rifles in some cases, while others fired on their officers, many of whom were wounded. The mutineers were finally mastered and removed on cattle trucks.

The frontier guard at Bruscheuil, according to the same authority, deserted on October 15.

NO ROOM FOR STRADDLERS.

Toronto News:

When Thomas Carlyle went to the polls he felt that Heaven and Hell hung on his vote. That should be the attitude of every Canadian elector in the coming elections. The fate and future of the country depend upon the contest. If the slacker elements and the Kaiser's agents are able to defeat the Win-the-War Government and its plans for the prompt reinforcement of the Canadian Army, the Dominion will be forever disgraced in the eyes of its gallant defenders and in presence of mankind. Sir Wilfrid Laurier and the opponents of the Selective Draft are victorious in the 100 Canadians who have already given up their lives have made the great sacrifice largely in vain. They have ennobled the name of Canada only that it may fall in the dust again.

Must Supply Paper To Canada First

OTTAWA, Nov. 1.—Newsprint manufacturers who have been refusing the requests of publishers for newsprint paper were called, to time by Commissioner Pringle at the enquiry in the City Hall. The refusal of the Donnaconna Paper Company to supply the Montreal Star with paper precipitated his remarks. George M. McKay, president of the company, was on the stand and when asked by Mr. Pringle where all his company's paper went, he said, "to the New York Times." His company, explained Mr. McKee, was bound by contract to supply its total output to that newspaper. He was sorry of that fact, that, if ordered to do so by the commissioner, the company would have to supply Canadian publishers.

"There are a number of Canadian papers needing paper badly," said Commissioner Pringle, "yet the manufacturers are saying they are not in a position to supply it. They might just as well understand right now that they have got to supply it.

"Don't be surprised," he said to Mr. McKee, "but you get an order directing your company to supply so many tons of paper irrespective of what contracts you may have. I am having the same trouble in British Columbia. A lot of British newsprint manufacturers seem to think they are not bound to supply paper, but it will be better for you if you realize the opposite."

Better Prices by Exporting

Commissioner Pringle said he had in his possession a lot of correspondence between publishers and manufacturers over paper, and it is on the letters he said he had come to the conclusion that in nearly every instance the manufacturers were sidestepping on the supply of paper to Canadian publishers, possibly because they were getting better prices by exporting. Most of the requests for paper were from the West. The whole situation in regard to newsprint was chaotic, the commissioner said, and in Canada, rightly or wrongly, the position had been assumed that there had to be State control of the product under these conditions. He felt that the manufacturers appreciated this step on the part of the Government as a wise one. Had this action not been taken the press of the country would not have had sufficient paper, and many publishers would have gone out of business.

The commissioner also deprecated the action of a newspaper publisher in the West in storing up a sufficient supply of paper for three months.

Will Fix New Price

After a short session yesterday, when the only statement remaining on hand was dealt with, the newsprint enquiry conducted by Commissioner R. A. Pringle, K.C., under authority of the Dominion Government, came to a close. Owing to frequent adjournments it has lasted several months.

As the commission is empowered to fix the price of newsprint paper to Canadian publishers at $50 a ton expired on Wednesday, the last day of the month, the commissioner has to make a recommendation to the Government very promptly, and he hoped to place an interim report on his findings in the hands of the Minister of Finance by Wednesday night. It is likely that a new order-in-Council, fixing a new price based on the actual average costs arrived at by the commissioner in his investigation, will shortly be promulgated, to last, it is understood, for the duration of the war.

Meanwhile, at the closing sitting, the manufacturers present agreed to continue the supply of newsprint paper at $50 a ton until Saturday, three days beyond the time limit.

SUGAR PRICES DROP!

Atlantic Sugar Refineries Lead in Reduction of Price of Sugar

OFFICIAL announcement is used to-day reads as follows: It is our opinion that the price of sugar in the United States and Canada will be gradually reduced during the next three months, and in accordance with this view, this Company has to-day marked down all grades of "LANTIC" 10c per 100 pounds. In following the markets through the year 1917 this Company has been consistently correct in its advice.

NO SUGAR FAMINE THREATENS

Our Refinery has been operated steadily throughout the Year, and while we have not a large stock of sugar to distribute at the moment, we intend to keep the refinery running continuously and we are doing everything possible to meet the demands of the purchasing public.

We believe that there has been sufficient raw sugar contracted for to fill the normal Canadian requirements, if hoarding and speculating are eliminated, until the new sugar crop is available.

Further reductions in price will be made by us from time to time as conditions warrant.

OBEY THE LAW!

Report at once for Service or Claim Exemption

Under the Military Service Act, all men in Class One are soldiers today, absent with leave and without pay. Failure to obey the law amounts to DESERTION and can be punished as such.

Class One includes bachelors and widowers without children (not otherwise excepted) who were 20 years old on the 13th October, 1917, and whose 34th birthday did not occur before January 1st, 1917.

DO IT TODAY!

The rush in the last few days may be such that in the hurry and stress a number of men may fail to comply with the requirements under the Act. That will not be recognized as an excuse, as every man is being given ample time to report for service, or claim exemption.

GO TO YOUR POST OFFICE TODAY and ask for a form for reporting for service or for claiming exemption. Understand, it is a matter of LAW that all the men in Class One must report for service or claim exemption not later than November 10th, 1917.

Issued by the Military Service Council.

Kerensky Began Career As Champion of Masses Against Cruel Autocracy

THAT terrible April week of 1912 which saw the Titanic go down, and the unfolding of a great human tragedy of the sea, witnessed also the unfolding of a lesser tragedy in far-off Siberia. The significance of the lesser one was lost in the horror of the greater. In fact, the Western world, engrossed in its sorrow, hardly knew that Russia was in trouble, and it was a month at least before the news of the outbreak in the Lena goldfields made its full impress on the public mind. A massacre had occurred there, which, at any other moment, would have stirred up the wrath of civilization.

The Titanic tragedy, as we remember, blasted several reputations. The Lena troubles made a reputation, and produced a man—a real man. His name was Kerensky. He was just over thirty at the time. Five years later he was Premier of the new Russia at Petrograd—the idol of the masses, and the man in Russia to whom an awakened nation looked for guidance in its hour of peril.

What had happened in the goldfields? Nothing serious—at first. Merely a demand for shorter hours and better wages from a few thousand miners, who were groaning under uneconomic conditions of labor and had determined to better themselves. The quarrel between the owners and the men could have been settled peaceably had not the Government, with its usual provocative interference, arrested one of the

PREMIER KERENSKY

workers on a charge of political agitation. This put the fat in the fire. The next day, three thousand workmen marched in procession to the office of the manager to present their demands. They had almost reached their destination when they found their way blocked by a hundred gendarmes, in command of two officers. They were told to stop, within 160 paces, and to go back to work. The vanguard of the strikers was forced onward, when crack went the rifles of the peasant guard, and over a hundred men fell dead.

The crack of those rifles—the senseless killing of the Lena strikers—echoed through Russia, and aroused a great public indignation. "Rarely," said one writer, "has an event called forth such intense reprobation. The Douma accepted urgent interpellations. The "Srietz" said: "In England a strike of 5,000,000 did not cost a single drop of blood; in Siberia a strike of 2,000 costs hundreds of lives." It was a caustic and truthful summary of a humiliating situation. When Makaroff tried to defend, in the Douma, the action of the military under Captain Trestakovsky, by saying that the troops fired in self-protection, he was laughed into his seat. A political inquiry was promised and took place after many months, with the verdict that the strike was a direct result of the company's repeated violations of the law. It was also a result of economic conditions, and not of political agitation. The guilty officer was rewarded the shooting was duly punished. But the humiliation he had suffered by the outrage were not forgotten, and in 1912 the anniversary of the strike was celebrated with remarkable expression of public feeling throughout the Czar's turbulent domain.

Kerensky emerged as counsel for the strikers and their families. He was practising in Moscow at the time of the outbreak. The strikers, despair, had telegraphed to the ancient secret Liberal party, for the organization of their case. Kerensky, born and bred in the old central Russian town of Tashkent, and grown up with an understanding of the peasant mind and sympathy for the underworld in its struggle for betterment, responded to the call. He leaped into the very scene of action, took charge of the interests of the strikers, fought for them in the courts of law, and won for them their just dues. And by this fearlessness of the police, his eloquence, his daily doings, reported, as they were throughout the country in a friendly press, brought an instant personal reward in the terms of enormous popularity. With little more than a local reputation as a public speaker, gained during the revolutionary period of 1905, he had leaped into national fame as a Defender of Right, a Friend of the Oppressed.

Laurier May Run Against Premier

May be Opposing Candidate If Sir Robert Stands for Ottawa

OTTAWA, Nov. 1.—The Capital may see a political battle royal with the two leaders as candidates, Sir Robert Borden and Sir Wilfrid Laurier. There is trouble in the wind in the ranks in Ottawa over the nomination of A. E. Fripp, and Dr. J. Chabot, the members for the last House.

It is claimed they were nominated at a straight Conservative convention, and no attempt was made to invite wing-dcwar Liberals. There is an agitation on foot for Sir Robert to run as the English-speaking candidate for Ottawa, as well as in a Nova Scotia seat. It is said now that if this is done by the Unionists, the Laurier men will nominate Sir Wilfrid. So far no Liberal convention has been called. In 1908, when there was trouble in the Liberal ranks in Ottawa, Sir Wilfrid was the candidate.

SIR SAM IS OUT

Endorsed as Win-the-War Candidate in Lindsay.

LINDSAY, Ont., Nov. 1.—Sir Sam Hughes has already commenced his campaign and has been declared by his friends as the first win-the-war candidate in Canada. He has the appearance of scores and scores of Liberals that he will be accorded election by acclamation.

Cossacks Lose Privileges

THE most famous fighting force of the Russian empire has lost the great privileges it has made it its pleas, through the opposition of a delegation of Jews who went to Russia from the city of New York, in the code of the Cossacks there has even been a provision that prohibited any Jew from enjoying any right that the adventurous force had to offer. Under the law of the old Russian regime the Cossacks might control their local affairs, they might base the privilege of conducting such mines and other items of business as might happen to be in their realm; but there was a strict limitation that prohibited any Jew from having a place in the Cossack life.

So it transpired that when the Czar fell, and the bolshevist down in Russia to such refugees as had fled from the persecution of the Russians there went from America a band of Russians, many of them Jews, to take a hand in the task of bringing the revolution to a fruitful end. In this returning force were many men who had been members of labor unions. They had learned the lesson of free speech and of taking part in more or less deliberative bodies in the atmosphere of a big city.

Many of them had never been citizens of the United States. The intention of their Russian citizenship made it unnecessary for them to obtain passports to go back. An amiable authority says that 30,000 Russians went from the United States to Russian ports immediately following the fall of the Czar.

The Jewish members of the returning legions insisted that no special privileges should be known to the armed forces that, since the nineteenth century, had fought every religious idea that did not have the sanction of the Greek church. To the Jew the term Cossack meant persecution.

The whole history of the world's military organization does not contain any more unusual or picturesque chapter than is supplied by the body that has been built up under the privileges now abolished. The very term "Cossack" carries the story. It is taken from a Turkish word that means a freebooter, or adventurer.

The Cossacks constitute ten separate voiskos, or states, scattered along the Russian frontiers, with a few minor additions that later got the same privileges that the inhabitants of the ten regions were accorded. Their voiskos were known as Don, Kuban, Terek, Astrakan, Ural, Orenburg, Siberian, Semiryechensk, Amur, Ussuri, and the Amour divisions. As a basic unit the Cossacks had their stanitsa, or village, which held all of the land in its borders under a communal system. The village might allow any person who did not belong to the Cossack clan to settle in its limits.

Excepting Jews.

For the right to use the lands of a village a certain rent was collected, and in return the Cossack gave to his country military service from the eighteenth year of his age for twenty years. Three years were spent in the preliminary divisions. Twelve years were passed in active service, and five years went to the reserve. The Cossack provided his uniforms and his equipment, as well as his horse, if he were mounted. The Government furnished only his arms.

The Cossack population of Russia amounted at the opening of the war to 3,000,000 souls, half of whom were women. They held under their especially privileged relations with the Imperial Government 146,500,000 acres of land. It was so distributed as to give to each Cossack an average of about eighty-one acres, leaving a reserve supply of land for community purposes. The Government gave to the villages approximately $3,500,000 each year for the payment of administrative expenses.

So priest was there to advise that they had at the ministry of war delegates who discussed with the ancient regime all new laws that might in any way affect the Cossack people.

By the terms of their service they were bound to supply to the Government in time of war 80,000 men, or squadrons of 125 men each, and 108 infantry soldiers, or companies of 250 men each, with 256 guns.

In return for this service the Cossacks got what no other part of Russia received—education and freedom. The officer's quarrel of this situation is that they were originally equipped serfs and refugees and they demanded and got for freebooting military service the thing that was denied to the original state.

The Cossacks elected their own chief, or hetman. They also chose his subordinate commanders. The Government's idea was to leave them alone as much as possible so long as they guarded the frontier of the realm.

It was this force of rough riders, loyal to the Czar and to freedom in Russia, that the new revolutionists found on the piling ruins. The revolutionists resented the time-honored privileges that had been accorded to them. They resented the consistent anti-Semitic policy that had dominated the voiskos. They insisted upon a program that would place the Cossack under the same plane as the other residents of the country.

With what success their ministerial pen," says the correspondent of The Intelligencer, "the provisional government wiped out the traditional privileges of this race.

Close students of the country regard the shearing of this remarkable aggregation of fighting men as one of the most important developments of the turn over in Russia.

Official figures show 6,000,000 cattle in Madagascar during 1916.

No Exceptions With Class One

Explicit instructions to the men of Class 1 as regards their duty in filling their ranks with the pontifical authorities, and as to when medical examination is necessary, are contained in a statement issued yesterday by Col. John St. Mors of the Military Service Council. The statement follows:

An impression seems to prevail in some quarters that a man who has been medically examined and placed in a medical category other than "A" need not put in a claim for exemption. This impression is erroneous and should be corrected.

All members of the first class called out by proclamation of the 12th October must report for service or claim exemption in the prescribed manner. Those who have been placed in a medical category other than "A" will be granted temporary exemption, but they must take the trouble to ask for it.

The medical examination prior to report for service or claim for exemption is optional. Facilities for exemption before compliance with the act were provided in order to meet the convenience of the public, but no one is required by law to be medically examined until he has reported for service or his claim for exemption on other grounds has been refused, when medical examination, if not already had, is compulsory.

It is improbable that there will be any considerable number of men who will fail to comply with the law. The fact that the great majority of the members of Class 1 are submitting themselves to it cheerfully makes it incumbent that those who fail to do so should be strictly dealt with, and the consequences of disobedience are so disastrous for the individual concerned that the folly of such a course must be apparent to all. Not only does a man who fails to report or claim exemption within the time specified incur a very severe civil penalty, but he also loses all right to claim exemption, and will be liable to be placed immediately upon military service in whatever capacity his physical condition may make appropriate.

"THE BARRIER" THROBS WITH VIRILE WESTERN LIFE

Week End Attraction at Griffin's.

I don't think said Violet Palmer, The Sellig Star, that there is a more romantic or mysterious place in the world than the American desert.

Miss Palmer made this remark while sitting on a bench in an abandoned mining town known as "Broken Cinch" on the desert and in the shadow of the famous Panimint range of picturesque mountains where she and the Sellig Company were filming the exterior scenes of "The Barrier" the 7-part photoplay from the famous novel by Rex Beach, which is an-

Too Nervous To Sleep

Nerves Wrecked by Accident—Was Afraid to Go in a Crowd or to Stay Alone—Tells of His Cure.

London, Nov. 1.—Much sympathy was felt in this city for Mr. Dorsey, who met with a distressing accident when his foot was smashed in an elevator.

The shock to the nervous system was so great that Mr. Dorsey was in a pitiable condition for a long time. He was like a child in that he required his mother's care nearly all the time. He feared a crowd, could not stay alone and could not sleep because of the weakened and excited condition of his nerves.

Detroit doctors did what they could for him, but he could not get back his strength and vigor until he fortunately heard of Dr. Chase's Nerve Food.

It is no mere accident that Dr. Chase's Nerve Food proves to be exactly what is needed in so many cases of exhausted nerves. It is composed of the ingredients which nature requires to form new blood and create new nerve force. For this reason it cannot fail and for this reason it succeeds when ordinary medicines fail.

Mr. Arthur E. Dorsey, 33 Stanley street, London, Ont., writes: "About three years ago I cut my foot smashed in an elevator in Detroit, which completely wrecked my nerves. I doctored with the doctors there, but they did not seem to be able to help me. My nerves were in such a state that I could not go down town alone, or go any place where there was a crowd. Sometimes my mother would have to sit and watch over me at night, and sometimes I could not get any sleep at all. But one day last winter I commenced using Dr. Chase's Nerve Food, and before I had completely used the first box I could see a difference in my condition. I continued using those pills for some time. The result was splendid. I feel so much better, can sleep well at night, can go out on the street and attend gatherings like the rest of people. I am so pleased to be able to tell you what Dr. Chase's Nerve Food has done for me, and to recommend it to other people."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for $2.75, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do Not be talked into accepting a substitute. Imitations only disappoint.

nounced for exhibition at Griffin's tonight, Friday and Saturday. "Really" Miss Palmer continued, looking out at the broad expanse of dry sage and brush from which, although it was only the middle of March, the heat waves could be seen shimmering, I have read Robert S. Hichens' wonderful description of the vast solitude and silence of the Sahara desert, and this must be almost the same. Last night I left my hotel and took a short walk down the road and into the old town which not so many years ago was the home of several thousand people and the Mecca of many thousand more. I stood in the street after nearly everybody I passed had retired, and their wasn't a sound. Overhead the sky was so clear that one felt he could almost touch the stars. It was perfectly still. Then I went back to my hotel and fell asleep and awoke in the morning refreshed and saw "The Barrier" at the studio I realized that, impossible as it may seem, the camera had caught the vastness and solitude of the desert, and I know you will appreciate it when you see the picture.

Sugar Price Comes Down

Atlantic Sugar Refineries Limited Make Important Announcement at Montreal

MONTREAL, Nov. 1.—A clean cut drop in the price of sugar was announced to-day by the Atlantic Sugar Refineries Limited, which lowers the price of Lantic Sugar by ten cents per 100 pounds, and grades. Furthermore, the Company promises further reductions as conditions warrant them.

With no very large stock of sugar on hand the Atlantic Sugar Refineries Company nevertheless expects no trouble in securing enough raw sugar to keep its refinery running continually. It believes sufficient raw sugar has been ordered to meet the regular Canadian demand, if hoarding and speculating be eliminated."

The news that no sugar famine threatens will be received with joy by the average consumer, even if it does come as a shock to those who have been storing unusual quantities away and talking about the move as proof of their smartness.

A QUIET HOLLOWE'EN.

The Belleville police report that everything was exceptionally quiet about the city last evening for Hallowe'en. A large number of the younger citizens braved the inclement weather and paraded about the street, being garbed in many cases with ridiculous costumes. It was a jolly happy crowd, but not on mischief bent. In a few cases gates were removed, but were this morning found by the owners in close proximity to their property.

DIED LIKE A SOLDIER.

Mrs. R. M. Prest, 75 Great St. James street, city, has received a letter from Major R. Prest died like a soldier fighting for his King and County in a noble cause, that during his connection with the 2nd Canadian Battalion he made many friends and by his steadfastness and courage won high commendation from his officers and respect from his comrades, and will be greatly missed by them.

Try Magnesia for Stomach Trouble

It Neutralizes Stomach Acidity, Prevents Food Fermentation.

Doubtless, if you are a sufferer from indigestion, you have already tried peptic, bismuth, soda and charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic let us suggest that you get a little magnesia—not the ordinary carbonate, citrate, oxide or salt but the pure bisurated magnesia which you can obtain from practically any druggist in either powdered or tablet form. Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in your stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the blood-curdling sour, sickening feeling that seems to follow most everything you eat.

You will find that, provided you take a little bisurated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort. A fellow said moreover the continued use of the bisurated magnesia will not injure the stomach in any way so long as there are any symptoms of acid indigestion.

Kingston Masons Visit Local Lodge

The Worshipful Master and officers of Minden Lodge, A. F. & A. M., of Kingston, to the number of twenty-five, were last evening a fraternal visit to Eureka Lodge No. 283 of this city. The visit proved to be both instructive and pleasant. Not only were the members of Eureka Lodge present in large numbers but many brethren from other lodges in the city were in attendance.

After the opening of the lodge a degree team of the visiting brethren exemplified the first degree, which was done in a faultless manner. At the conclusion of the lodge business all present repaired to the banqueting hall, where a fine spread was partaken of. This part of the gathering was presided over by Wor. Bro. W. J. Holmes, W.M. of Eureka Lodge. The following toast list was carried out and the various speakers handled the subjects in a most capable manner.

King and Craft—The National Anthem by the company.

A song of a patriotic nature was heartilyfully rendered by Prof. Staples of Albert College.

Grand Master and Grand Lodge of Canada—proposed by V. W. Bro. A. R. Walker and responded to by R. W. Bro. Mayor H. F. Ketcheson.

Song by Bro. Knight MacGregor, who delighted all present.

His Majesty's Forces on Land, Sea and Air—proposed by R. W. Bro. Mayor Ketcheson, followed by the singing of Rule Britannia.

Bro. J. O. Herity gave an appropriate reading.

The Visiting Brethren—proposed by R. W. Bro. F. E. O'Flynn, and responded to by W. Bro. Milne, V. W. Bro. Sweaton and Bro. Higgins of Kingston, Bro. Rev. C. G. Smith and R. W. Bro. Col. W. N. Ponton of Belleville. These addresses were interspersed with vocal selections by Bro. Prof. Staples and Knight MacGregor. Bro. Prof. Hunt presided at the piano.

Before the company dispersed a hearty vote of thanks was tendered the visiting brethren for their attendance by Wor. Bro. J. W. Holmes, who referred to the pleasure it gave the members of Eureka Lodge to have the Kingston brethren as their guests. The vote of thanks was fittingly acknowledged.

The Junior Warden's toast brought the pleasing proceedings to a close.

A Piano Made To Last a Lifetime

Reasons why the **WILLIAMS PIANO** New Scale **Retainsits Tone**

1—Full iron Plate weighing 325 pounds

2—The Harmonic Prolonging Bridge cast in the plate imparting elastic rigidity and giving to the strings a perfectly graded scale of full resonant tone.

3—The Agraffes through which each of the tri-cord strings are attached to the Harmonic Bridge, thereby keeping the strings in perfect alignment so that each bound will strike the full trial three strings, thus the like iron will not rust, therefore the strings at no point can rust and cause breaking and the tuning can be maintained to one tone than iron, a finer quality of liquid sizing tone is obtained through the combination of the Harmonic Bridge and Agraffes.

4—The Overstrung Bass Bridges produces a deeper, more sympathetic tone quality, not otherwise secured.

5—The Laminated Bridge. The Bridge running diagonally through the centre of the piano, over which each of the treble strings pass in very little bends to the wrest pin, the strings which receive the full force of the piano action blow. By giving nine separate points of bearing Williams New Scale Pianos are enabled to stand in tune longer than any piano of similar construction. It is easily seen that this bridge cannot be affected by changes of climate. This is why the Williams will retain its tone.

This Artists' Choice piano is equipped with finished tuning pins, brass flange and best grade of Australian wood hammer heads and ivory keys. The Williams Piano is built to last.

DOUBLE TEUTON THREAT FACES ITALY'S ARMIES

Two Strong Enemy Movements are Developing on Lower Isonzo—Foe Claims 120,000 Prisoners and Over 1,000 Guns—Generous Aid Given by the U. S.

PARIS, Nov. 1.—One of the latest developments of the Austro-German action against Italy affords a pretty clear understanding of their strategy and its objectives. The new Austrian army, under von Krobatin, have moved southwestward from the Carnic Alps, on the extreme enemy right, and is attacking Germans, which defends the upper reaches of the Tagliamenti River at a point fifty kilometres north of Udine. The enemy plan is clearly to cross the river at this point, thus outflanking the Italian line of defence further south. At the same time the Fourteenth German Army, under von Buelow, is pushing southwestwards from Udine in an attempt to nail the Italian forces from Carso and southern Isonzo to their retreat along the narrow passage still open along the sea coast. The Italians are thus doubly threatened.

Serious Situation.

In the south von Buelow may compromise their withdrawal to Tagliamento in the north—even when that retreat is successfully accomplished—von Krobatin may turn the whole Tagliamento line and force a general retirement to the Piave River considerably nearer Venice. In short the Austro-Germans have succeeded in re-establishing the classical type of strategy to their own advantage.

It is useless to deny that Italy's position is serious. On the other hand, every mile that the Austro-Germans advance weakens their striking force, and every mile the Italians retreat brings them nearer to their reserves, which will throw an enormous numerical superiority in their favor. Secondly, the news from Rome shows that the heart of Italy is sound, that all the dikuldge has been forgotten in the common danger, and that the possibility of fighting international political weakness—which is said, to be one of the enemy's principal objectives—has disappeared.

Teutons Claim 120,000 Prisoners.

LONDON, Nov. 1.—There were various lull and canal engagements between the Italians and the invading Austro-German troops yesterday, says the Italian War Office announcement to-day. "The Italian covering units and cavalry permitted the other troops to continue to move towards their new line.

The Italian War Office to-day called to the colors all classes from 1874 to 1899.

CONFLICTING REPORTS FROM ITALIAN FRONT

Berlin Reports Highly Colored of Sweeping Victories—Rome Reports Stubborn and Effective Resistance—Thirty Thousand Germans Killed in Great Battle

BERLIN, Nov. 2.—(British admiralty per Wireless)—Yesterday's official announcement on the Italian operations, follows:

"The fact that the development of our operations against Italy has been so successful may be attributed to our rapid blows on the east and to the incomparably stubborn endurance of our troops on all fronts, notably in the west. Yesterday the allied troops of the 14th army gained a further great victory. Portions of the enemy army made a stand at the Tagliamento. In the mountains and in the Friuli plain, to the Udine-Codroipo-Pordenone railway, on the western bank of the river. Bridgehead positions on the eastern bank were held by him near Pinzano, Dignano and Codroipo. He offered violent resistance at rearguard positions projecting Dunce toward Udine-Martignacco, Passolo and Laverlano, to cover the retirement of his third army to the western bank of the Tagliamento.

"Inspired by the allied victory and capably directed by prudent leadership, the German and Austro-Hungarian corps have gained successes which even in the present war rarely have been attained."

According to the announcement, all the Tagliamento bridgeheads have been captured. Several hundred guns are said to have been taken by the Germans and Austrians. The enemies penetrated the rearguard positions of the Italians to the east of the lower Tagliamento where they met and repulsed 60,000 Italians. The total number of prisoners taken is now 180,000, while 1,500 guns have been captured.

The Italian Statement

ROME, Nov. 2.—Thwarting the plan of the enemy the rapidity of their promptly decided upon movements and by the brave resistance of the covering units which have defended his advance," reads the official statement, "our troops have effected the withdrawal on the Tagliamento in the extremely difficult tactical and logical conditions. The third army is nearly complete, a beautiful example of strategy and unity.

"The first and second cavalry divisions and especially the heroic regiments of Genoa and Novara and the untiring artiglio are worthy of mention to the admiration and gratitude of the country.

"Last night enemy airplanes brutally bombed several unprotected towns far from the lines of communication, causing a few casualties amongst the civilian population."

30,000 Germans Killed

Washington, Nov. 2.—Thirty thousand German soldiers, including two generals of division, were killed in the great battle on the Bainsizza Plateau, according to cabled reports received here to-day.

It is further stated that General Cadorna is pushing reserves rapidly forward the Italian front, with every prospect of checking the enemy's advance. Assurances of British and French support, which will be immediately forthcoming, have been given by a War Council held in Paris yesterday.

Holding Enemy Near Udine

Italian Headquarters, Nov. 2.—In the bulletins of General Cadorna, the commander-in-chief indicates, the Italian troops, perfectly reorganized, are holding back the enemy at a distance of seven miles west of Udine.

The Germans and Austrians did not succeed in their prearranged plan of rushing beyond the Isonzo into the Italian army, which occupied the region of Cividale and the Carso. Although they broke the Italian line from Plezzo to Tolin the resistance offered by picked Italian contingents, who offered themselves for the supreme sacrifice, so delayed the southwestern outskirts of the Monfalcone army had time to cross the middle and southern Isonzo in orderly retreat. The main body of Italian troops is intact, ready to face the invaders in the counter-offensive which is being prepared.

Italian troops has entered into action on a large scale for the first time in the war. The wounded troops have made brilliant charges, obstructing the advance of the enemy.

DEFRAUDED GOVERNMENT

Welland County Woman Drew a Pension for Ten Months.

NIAGARA FALLS, Nov. 1.—An official from Pensions Department at Ottawa, has found, after a full investigation, that a woman living in Welland county has systematically defrauded the Government, drawing a pension from the Government for herself and three children on the suppositious death of her husband, who has been found to be alive and well in the West.

As a matter of fact the woman's husband never even enlisted. He left her in 1911.

The fraud was made easy when a telegram marked Thorold, from Ottawa last winter was addressed to a woman bearing same name. This gave the woman in question an idea and she claimed the telegram.

RECRUITS FOR AIR SERVICE

TORONTO, Nov 2.—The Royal Naval Air Service has made another appeal for young Canadians to join this branch of the service, Lieut.-Col. W. R. Lang, of Headquarters staff, having been appointed to enlist a hundred men at this centre. The chief appeal is for University students, though any youth of collegiate education may be signed on. The age requirements are from 18 to 22 years, the idea being not to interfere with the enrolment of Class One men in other units, and an example of how the members of the University Training Company are lining up for this air work may be gained from the experience of Col. Lang on Saturday. During parade the announcement was made, and after parade 14 of the men handed in applications, and all were accepted yesterday. The recent census and medical examination of Toronto University students shows that there are 81 members in Grade A under 20 years of age, all of whom are eligible for this service, and the indications are that Col. Lang's hundred will be secured in record time. It is understood that the Naval and Military branches of the Royal Air Service will shortly be merged into one, while an entirely new uniform will be used to designate this branch of the service. The dress will be distinctive in color and design from anything now used in the Imperial forces.

DISSATISFIED WITH NAVY

London, England, Newspapers Criticize Policy of The Admiralty

(Special to The Intelligencer)

LONDON, Nov. 1.—While the morning papers generally praise Sir Eric Geddes, First Lord of the Admiralty, for the frank and businesslike statement he made in the Commons yesterday complaint is made that in spite of everything the fact remains that Germany is still forcing the fighting at sea. The criticism in the connection is directed chiefly against the conduct of the submarine war and ship construction. Sir Eric's figures of submarine losses are challenged by some experts who claim that the Allies and neutrals have lost eight million tons so far.

Three Raiders Reached London

Eight Persons Killed and 21 Injured in Wednesday Night's Raid

LONDON, Nov. 2.—Three German aeroplanes penetrated the heart of London in Wednesday night's raid. Eight persons were killed and 21 injured. The official announcement follows:

"Determined and repeated attacks were made upon London by groups of hostile aircraft. The first group of raiders crossed the Kentish coast at about 10.40 p.m., and proceeded toward London overland. They did not penetrate inland, however, but turned in an easterly direction and dropped bombs at various places in and near the coast.

"Meanwhile two more groups of raiders were steering toward London along the south bank of the Thames. The sky was partly covered with thin low clouds which rendered extremely difficult observation of the enemy machines. None the less their attitude was correctly calculated and they were broken up by barrage fire on the south-eastern outskirts of the Metropolis at about 11.50 p.m., where some bombs were dropped.

Steered Along the Thames.

"The fourth group of machines, which came along the Thames estuary, was turned back about half way to London. Meanwhile the fifth group crossed the Essex coast at about 12.15 a.m., and steered toward London by way of the north bank of the Thames. Some of these raiders were turned back by our defensive, but one or more penetrated into south-east London where bombs were dropped.

"The sixth group followed along the same course about a quarter of an hour later. Some of these machines penetrated into the southeast outskirts of London, where some bombs were dropped. Meanwhile one or more enemy machines dropped bombs in the south-western outskirts of London. The seventh group, which approached along the south bank of the Thames, was dispersed by gunfire before reaching the outer London defences.

"In addition, individual raiders at different points on the coast between midnight and 1.30 o'clock. Reports indicate that each group consisted of three or four machines, the total number of raiders engaged being about thirty. Of this total only about three machines succeeded in actually penetrating into the heart of London.

BRITISH ENTER BEERSHEBA

Cavalry Forced Entrance to the Famous Biblical City After Battle With Turks

LONDON, Nov. 2.—The city of Beersheba, in Palestine, has been captured by the British, it is announced officially.

The text of the War Office statement says: "General Allenby (commander of the British forces in Egypt), reports that after a night march our troops attacked Beersheba yesterday morning. While our infantry attacked the defences covering the town from the west and south-west, mounted troops made a wide turning movement through the desert and approached it from the east.

"Beersheba was occupied in the evening in spite of determined resistance by the enemy."

Civil Officials To Chase Dodgers

Military Men on Tribunals to Treat Applicants as Civilians

TORONTO, Nov 2.—One more step towards the enforcement of the Military Service Act was taken, when Major-General W. A. Logie and Mr. Glyn Osler, chief registrar for the province, met some hundred and fifty military representatives on the tribunals, and went into a detailed discussion as to the best methods to check up any man who attempts to dodge their duties, as defined by the proclamation issued a couple of weeks ago. General Logie, who presided, pointed out quite plainly that the raising of Canada's army of 100,000 rests in the hands of the civil authorities, and while the military representatives had been appointed to the tribunals to see that the army is not depleted of men by the granting of exemptions which should not be allowed, he emphasized the fact that they must deal with all cases on their civil merits. Any man appearing before the tribunals claiming exemption must be treated as civilians, and the military representatives are asked to forget the fact that they are military men, forget army strictness, and remember that the man applying for exemption does not know anything of military routine. The representatives, he added, are not to attend the hearings with the belief that they must get every man into the army, but they should consider each case on the individual merits, from the standpoint of national interest. Further, the duties of the military men will stop with checking up the men who attempt to beat the tribunals, the work of following up the slackers being put upon the civil authorities. The duties of the representatives, which have already been announced, were discussed in detail, one important point being that they are not permitted to examine any witnesses who attend a tribunal to support the claim of the individual under oath. Too great weight must not be attached to the written statements of civilian doctors on the physical examination of men claiming exemption, such declarations not to be given preference to the finding of a military medical board unless the latter decides to order the applicant back for a further examination.

Canadians Took Fortified Farms

Ploughed Through Deep Mud In the Face of Machine Gun Fire

CANADIAN HEADQUARTERS IN FRANCE, Nov. 2.—As well as near Meetchele and Crest Farm, the Canadians captured three other fortified farms on the left of their advance after encountering determined resistance from the enemy, whose machine gun detachments had to be driven from concrete strongholds by the advancing battalion, who carried the positions after crossing an almost impassable morass. Prisoners who are returning from these fights tell of innumerable heroic incidents, among them one where a man, advancing under heavy shell fire, facing the hail from deadly machine guns, stopped to bandage a companion's wounded or put injured men out of the treacherous water-filled holes which threatened death to the unwary at every other step.

MUTINY ON HUN WARSHIPS

Sailors Throw German Admiral Overboard—Battle Royal With Mutineers

(Special to The Intelligencer)

AMSTERDAM, Nov. 2.—Authentic details have been received here of a recent mutiny aboard the German battleships Schleswig Holstein and Kron Prins at Kiel. The crew of the latter vessel threw Admiral Schmidt overboard, but he was rescued. Several sailors and officers were killed in the battle which followed. All the mutineers surviving were arrested.

The Basil-Spratt Case

Examination of Defendant for Discovery—Sister Gabriel to be Examined at Moosejaw

(Kingston Whig)

The examination for discovery of the defendants in the Basil vs. Spratt et al. case was conducted at the Queen House by A. B. Cunningham, K.C., counsel for the plaintiff, on Wednesday. Rev. Dr. Nayler, Rev. Dr. Daniel Phelan and Archbishop M. J. Spratt were examined in the forenoon, and on Wednesday afternoon it was expected that the examination of Archbishop M. J. Spratt, Mother St. Regis and the other defendants would be continued.

An order was issued at the Court House on Wednesday morning for a special jury of forty names to be selected from the grand jury list by the sheriff. The defendant and the plaintiff can each object to twelve names, and from the remaining sixteen the jury to hear the case will be sworn in.

A commission has been issued to Moosejaw to examine Sister Gabriel, superior-general of the Order to which Sister Mary Basil belonged, who until the early part of 1917 was Superior of the convent in Belleville where Sister Mary Basil resided for a short time.

W. N. Tilley, K.C., Toronto, is to be the leading counsel for the plaintiff in the case, which will be heard in November 13th.

GREAT BATTLE IS PENDING

(Special to The Intelligencer)

LONDON, Nov. 2—A despatch from the Italian army headquarters in northern Italy says that Italian and allied troops are preparing for a counter offensive and a great battle based on the line of the Tagliamente river is forecast.

RUSSIA WANTS TO QUIT WAR

PETROGRAD, Nov. 2.—Russia entered the war early, and she is now the first to quit the arena, Premier Kerensky told the Associated Press. He said that Russia claims as her right that the other allies now should shoulder the burden of the war.

Premier Korensky declared that Russian public opinion was agitated by the statement: "Where is the British fleet, now that the German fleet is out in the Baltic?"

U. S. TRANSPORT HIT BUT REACHES PORT

Former Red Star Liner Finland, 12,700 Tons, Escaped Serious Damage When Attacked by Invisible Foe—Was Under Escort—Vessel Was Homeward Bound

WASHINGTON, Nov. 2.—Secretary of the Navy Daniels issued the following statement.

"The Navy Department has received dispatches stating that the transport Finland was torpedoed while returning from foreign waters. The damage to the ship was slight and she returned to port under her own steam. The Finland was under escort but no sign of the torpedo of the submarine was seen."

The Finland is the second transport to be attacked while returning from its mission to Europe. The Antilles, on October 17, was torpedoed and sunk with the loss of 67 lives.

The Finland is a 12,700-ton steamer commanded by Captain Jensen. She was built by Cramps in Philadelphia in 1902. She is 560 feet long.

Prisoners to Get Fair, Square Deal

TORONTO, Nov. 2.—An open enquiry into the conditions of prison life in the Ontario Reformatory at Burwash was begun by Hon. W. D. McPherson, Provincial Secretary, on Wednesday, and will not be closed until every phase of the situation has been most thoroughly investigated. The enquiry was ordered by the Provincial Secretary to determine what foundation there was in fact for reports which have been flashed broadcast by and which were based upon rumors spread by men who had completed their terms of sentence. To ensure a full and efficient probe of all conditions at the reformatory the Provincial Secretary invited a representative from each of the Toronto newspapers to accompany him on his visit to the institution, and whilst there he made provision for the press paper men to interview the men themselves and question them as to the conditions under which they were being detained. The inmates of the institution were encouraged to make a candid recital of their grievances and given adequate assurances by the Minister that they would not be prejudiced in any way for plain speaking. No guards or prison officials were within hearing whilst the men told their stories, and as a result the men's version was given in a definite and outspoken manner by many members of their own ranks.

The men complain of long working hours, thin clothing and object to flogging machine.

German Warship Sunk by Mine

COPENHAGEN, Nov. 2.—A German warship has been sunk in the Sound, according to a despatch from the National Tidende from Malmoe, Sweden. It is reported that the vessel struck a mine.

Major H. Sauva Wounded, Returns

Brighton Officer, Formerly of the 59th Battalion—Recovering Nicely

KINGSTON, Nov. 2.—Major H. Sauva, Brighton, was a visitor in the city on Wednesday, reporting at headquarters. The Major came to the city in 1915 as an officer of the 59th Battalion, and after training at Northfield came overseas with that unit under Lieut.-Col. H. J. Dawson. In England the battalion was broken up, and Major Sauva transferred to the 21st Battalion in France.

Major Sauva states that Col. Dawson, formerly of the 59th, who now commands the 21st Battalion, is known to be one of the most capable officers who ever left Canada. In his quiet, efficient way this colonel has done a great amount of work, and while now commanding the 44th Battalion in France, his will undoubtedly continue to have a brigade. Major Wells, Capt. and Capt. George Bawden, of 59th, are in England on duty work. Lieut. T. C. McGill, who left the Merchants Bank to go as paymaster of the battalion, decided that fighting was more in his line, and is now holding down the responsible position of machine gun officer.

Major Sauva speaks in the highest terms of the work that is being done by the soldiers from Military District No. 8. The 21st Battalion, with such officers as Lieut.-Col. Elmer Jones, D.S.O., Major H. E. Fenne, Major T. Elmitt, Major Bowerbank and others, has become famous throughout France.

The Major arrived in Quebec on Sunday, and will spend a few days with his wife at Brighton before returning to France, but is progressing satisfactorily now, after about a year in hospital.

County of Prince Edward

What are the Win-the-War electors in the old U. E. Loyalist County of Prince Edward doing in the way of securing a proper and reliable Unionist to contest the by-election coming campaign? A short time ago it was announced that Major Hepburn, now serving his country overseas in a Forestry Battalion, had intimated to his friends in Ontario that he would not seek re-election, owing to the important work in which he is engaged and the impossibility of his giving the time necessary to canvass the County. This should not be reason for his retirement. Re-election by acclamation should be the reward given to one who has volunteered as did Major Hepburn to serve his county in time of trial, when fighting for very existence, and the continuance of that liberty which all British subjects now enjoy.

The electors of Prince Edward should recognize these qualifications, and have done so, says the press, by cabling the Major and asking for his consent to allow his name to be a candidate, promising the undivided support of his former friends and other Fusionists who are supporters of the Union Cabinet.

Major Hepburn should yield to these requests and the electors would honor themselves and the County by electing him by acclamation. This is no time to create division and stir up strife in any community. In fact there should not be an attempt at the present moment to put anti-conscription to clasp the "Bloody Key" with which to open the door of office. Loyalists of the old type and of the new realize this fact and should act accordingly.

In many Counties in Ontario and in the West gentlemen on both sides of politics who had been nominated and selected as candidates for election in their respective Counties have withdrawn, some in favor of the sitting member who supported the War Policy of the Government; others have placed their resignations in the hands of the party giving them the nomination, leaving the Unionists to select a candidate favorable to the policy of the present Government, irrespective of party as it existed in the past.

Will the Prince Edward nominee of the Liberal party follow the example set him? It would be not only a graceful but patriotic act on his part.

SERBIA OF YESTERDAY AND SERBIA OF TO-DAY

Intensely Interesting and Instructive Recital of the Tragedy of Serbia Given by Miss Losanitch of Belgrade, Serbia

Overwhelmed by force of numbers and superior modern war machinery with a German army, an Austrian army and an army of Bulgarians, all directed by Germany's greatest general, Von Mackensen, little Serbia was crushed after twice driving the armies of Austria from her soil. Then the great retreat began of Serbian soldiers and civilians over the snow-clad hills of Albania in bitter December weather with all its horrors and suffering. The retreat was marked by a bloody trail of dead and dying, hunger, exposure and the malignity of fierce mountain tribes who murdered refugees for their clothes, making a terrible nightmare of reality which those who safely passed through it will always remember with horror.

The story of Serbia as told by Miss Losanitch before the Women's Canadian Club last evening in the High School Assembly Hall is one of thrilling interest and as one of the darkest chapters of the war was brought into close and sympathetic touch by the speaker who is a native of Serbia and served as a nurse in that country during the war.

Miss Losanitch speaks English with a quaint accent which added interest to her stirring recital of the heroism and suffering of this little kingdom which must needs be destroyed because the Kaiser wanted an interrupted highway from Berlin to Bagdad.

Miss Losanitch is a pleasing speaker, and her recital needs neither elocutionary emphasis or dramatic effect, the plain simple story of Serbian sufferings as she tells it is thrilling enough in itself without any artificial coloring.

Mrs. MacColl, President of the Women's Canadian Club, presided in a very pleasing manner, and there was a large attendance.

A PEACE LOVING PEOPLE

Miss Losanitch described Serbia as a happy, contented people before the war, concerned only to be left alone in peace to till the soil and cultivate their orchards. After taking part in two wars in 1912, first with the Balkan allies against Turkey and next with Bulgaria, who was dissatisfied with the peace settlements, Serbia's military and financial resources were exhausted, but no one dreamed that another and more colossal struggle was at hand.

In Serbia, which is a 5-acr country, with Roman affiliations, there were no large landholders, every farmer owned his land and the country was very prosperous. There were no poor and beggars were unknown. Smiling fields and splendid orchards stretched away on every hand, evidencing a happy and prosperous nation. The mad ambition of the Hohenzollern monster changed this peaceful scene to one of the most abject misery and today Serbia lies bruised and broken by war, starvation and malignant foe. The splendid orchards were cut down through sheer spite and the insane desire to destroy the homes and property of the people were wrecked and looted and valuables which could not be carried away were destroyed.

AUSTRIAN ATROCITIES

The Austrians vied with the Germans in frightfulness and young children were murdered, violated and deported, never to be heard of again. One instance given by Miss Losanitch shows the devilish temper of the invaders. The Serbian women at the first invasion remained in their homes anticipating no troubles from the soldiers of a "civilized" country. One woman standing in the doorway of her little home with a wee baby in her arms was approached by an Austrian soldier who deliberately snatched the baby from her arms, cut it in two and threw the pieces to the horror-stricken mother. Forests there were with the dead body of a Serbian peasant hanging from every tree and no atrocity of the Hun in Belgium was worse than those inflicted upon the Serbians by the Austrians..

THE GREAT RETREAT.

The great retreat through the mountains, led by their beloved sovereign, King Peter, was described in all its terrible reality by Miss Losanitch, and the sympathy of her hearers for stricken Serbia was intensified and made real and personal.

When it was realized that Serbia's fate was sealed and that no power at hand could resist the concentrated strength of the whole Teutonic host arrangements were made to evacuate the country, and hemmed in by Austria, Germany and Bulgaria, there was no escape except through the mountain passes in the dead of winter, menaced with hunger, exposure and fierce and brutal mountain tribes to whom murder and robbery was as childsplay. For twenty days of this terrible journey left a trail of dead bodies frozen in the snow, the little children suffering most.

21,000 BOYS PERISHED.

First the boys from 14 to 18 were sent out of the country, and 20,000 of them bravely set out with little bags of food and a few francs to win Adriatic Sea coast where it was hoped they would secure transportation to Italy and afterwards France and England.

Thirty thousand of the best and bravest boys of Serbia left their homes to escape the maimed fat of the Prussian monster—only six thousand reached the sea, twenty-four thousand died of hunger, exposure and wounds received from mountain bandits.

Many other incidents of the great retreat were told and the devilish cruelty of the Austrian foe who rained shells and bombs on the refugees after they reached the coast, shelling them from their submarines and bombing them from aeroplanes which swung so low that they all but touched the trees on the slopes leading down to the sea.

AUSTRIA SOWS TYPHUS GERMS

The terrible typhus epidemic caused by the Austrians purposely distributing 1200 people, suffering from the disease, throughout Serbia was another terrible blow. When Austria found that alone she could not conquer Serbia the devilish expedient of introducing typhus was employed and over 250,000 Serbians were hurried to untimely graves.

ENGLISH GIRL IN SERBIAN ARMY

Miss Sanders, a wea'thy English girl, who will some day be recognized as one of the great heroines of history, accompanied the Serbians in the great retreat, acting as nurse, and doing whatever help and comfort through the trying ordeal. Later Miss Sanders joined the Serbian army and is now Lieut. Sanders in active service in the Saloniki region. She has been in the trenches and was wounded by shrapnel but is back again eager to take an active part in crushing the German menace, and mitigate, even in small part, the memories of the horrors inflicted upon Serbia by the Kaiser and his allies.

At the close of her address Miss Losanitch showed a number of Serbian scenes, in war and peace, on the screen which gave added interest to her inspiring address.

A hearty vote of thanks was tendered the speaker on motion of Miss Turley, seconded by Mrs. Bell.

Hallowe'en Party At the Y.M.C.A.

The Junior Boys' Department of the Y.M.C.A. held a very successful Hallowe'en party on Wednesday evening, Oct. 31st. At half-past seven about 40 boys lined up to be admitted into the gym. nasium. The first thing on the programme was the initiation, which all the boys took in good style. Following this was a billiard tournament to see which boy was the best at it, after which the boys lined up for some games, consisting of blindfold boxing, bottle balancing, ducking for apples, earth, fire and water, a stage coach. After the games the boys enjoyed a taffy and apple feast followed by a swim for all. Each reported having a good time.

In the Senior Rooms the older boys and their lady friends dressed in Hallowe'en outfit were enjoying some very mysterious tricks. The boys were in overalls and looked just the thing, while the girls looked very charming in their gingham aprons and sunbonnets. At 8.30 some 27 couples lined up to take a trip around what was known as "the ins and outs". Each group of 14 left with a leader to show them around, and from the trips the different parties every person was finding out a few of the mysteries that lay in wait for them. A few of the mysteries were: the elevator, the slippery slide, roller coaster, the cave of the winds, the river Styx, Satan, a ghost scene, and a few passing events. From there each one found their way to the fortune teller's room and received his or her fortune where for the next few minutes small groups were seen eagerly trying to find out what their fate was destined to be.

The second part of the programme was carried out in the gymnasium, consisting of games, social circle and a hoe down, after which all prepared for lunch, which was served "picnic plan, "eat what you get." After lunch each person lined up for an indoor athletic meet. The party was divided up into four teams under a captain. The events were 100 yard dash, standing broad jump, standing broad grin, under arm stretch and relay race. After the awarding of a prize to the winning team and a speech from the captain the party closed by the singing of the National Anthem. Each person expressed themselves as having spent one of the happiest evenings ever spent at the Y.M.C.A.

A TREATMENT FOR NERVES

Woman Tells How Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous troubles all my life until I took Lydia E. Pinkham's Vegetable Compound for nervousness and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, as I

shows that I stand it real well. I took the Compound when my ten year old daughter was sick and I helped me as I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCERBAUGH, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headache, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound.

This famous remedy, the medicinal ingredients of which are derived from roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

Saturday Sale of Millinery Shapes

About One Hundred Travellers Samples in a Big $1.50 Sale Tomorrow at Ritchies

Ladies who are planning a smart new Hat for the coming season, should have no hesitation in regard to the styles and exclusiveness of these shapes that go on sale tomorrow at just $1.90. They are the sample models from Canada's most authoritative Millinery House, embracing the most up to the minute styles and being samples, there are no two shapes exactly alike. These were for the travellers use on the regular wholesale price, and are offered tomorrow at an equally large reduction, for $1.90 each. Many of them are unusual, why they would be as high as $5.00 and $6.00. Ritchie's advertisement on Page 8 will tell you further about the special offering, and they can be seen in the Centre Show Window to-night.

"Jim the Penman" Again Hits Trail

James Henderson, Check Artist, Breaks from Kingston Arrawed to the Teeth

Pte. James Henderson, alleged degenter, forger confidence man, highwayman and general desperado, who for a few weeks past has centred upon him the spotlight of publicity in Northern New York and this section of Ontario while he pursued a heedless career, is once more upon the war path, and a hurry order has been issued to all police officials and military units to be clothed in khaki to set out for him and to arrest on sight and hold with especial care.

Henderson when last located was in Renfrew, wearing corduroy trousers, a black raincoat, black leather cap, brown military puttees, grey underwear and black or tan boots. He is travelling as a Military Policeman and in his course fo. as before when he left the road, had centered upon cheques ranging in amounts from $10 to $60.

He is carrying two .38 calibre revolvers and one .32, as well as several pairs of handcuffs which are utilized in carrying out the character he is assuming as a military policeman on special duty.

In the notice sent to all police headquarters throughout Eastern Ontario the Provost Marshal for M. D., No. 3 says:

"Shoot at this man on sight and take every means to hold him as he will break jail if possible. For the past ten days he has been travelling under the name of James Hendersell, which is his real name, although he may at any time change the name. He is travelling through the North Counties and has been in the following towns: Trenton, Havelock, Castleton, Colborne, Wooler, Danby, Madoc, Kilkenny, Eldare and Renfrew, being at Renfrew last Saturday night. He is travelling much by automobile and paying for car hire with forging cheques."

This is the individual who arrested the Mayor, Chief of Police and others at Castleton, placed them in the lockup and then passed some worthless checks on Castleton merchants.

Successful Raid Into Germany

LONDON, Nov. 2.—Another successful air raid carried out by twelve British machines has been made on German munitions factories in Bavaria, according to an official communication issued last night. The communication says: "Today another successful raid was carried out into Germany. Munitions factories at Kaiserlauten (Bavaria) were attacked by two groups of six machines each."

Casualties Small at Battle of Bellevue

LONDON, Nov. 2.—Pte. N. Adsire, member of the Canadian Immigration staff who is in hospital at Leith, Scotland, wounded, gives some interesting details of the advance at Ypres. He speaks of going over the top with a famous Imperial division.

"We were in the centre of the attacking line," he says. "When we got up to the line we found no trenches at all, just mud and shellholes. Our first job was to dig ourselves in before daylight. We had had eighteen miles march before this, so our men were pretty tired when we had finished. We held on all that day under very heavy fire in position only 300 yards from Frits the day previously. Then we were warned to be ready to attack at daybreak. We were ready.

"At four o'clock next morning, layers were fixed, rifles loaded, a red rocket went up in the half darkness, and in another instant true Brit was let loose from thousands of guns. It was a creeping barrage, and lifted every minute. After the barrage had passed over our barrage had properly put the "wind up" on Frits, who also blazed away with heaps of machine guns and rifles as we ran on his first line. Our casualties were amazingly small getting through his barrage. We only lost one man in our platoon for instance. When we reached his first line which was very soon taken, Frits just threw everything down and ran. Then we went for his second line, where it was caught by the same bit. I was first shot through the foot, a bullet entering the top coming out just through the ankle. I was caught afterwards in the arm and could not get back. Frits's barrage having become very heavy, so I made for the shelter of a shell-hole in the open where I stopped all day and the next night. I was covered with mud and blood. Then I was picked up and taken to the dressing station."

JIM DALE

By Ellis Parker Butler of the Vigilantes. Young Jimmy Dale, across our street, Is just a gawky lad. He's not afraid of doctors said, His heart was mighty bad;

They wouldn't let him do much work Or any hearty play. But, just the same, they drafted Jim, And Jim has gone away.

Jim was a sort of great, big kid, And fooling all the while, So, when they ordered him to camp, He went there with a smile.

Jim Dale is in the army now, Lank legs, bum heart and all. To fight like other drafted men That got the country's call.

God, yes! Jim's heart may drop him dead, Or he may live to be Shot all to pieces 'over there"— What odds to you or me?

By thunder! It's these odds to you! If kids like Jim can go, With smiles, to fight our wars for us We can put up the dough.

If we can buy a bond or two And don't, while Jim, poor cuss, Goes smiling off to death or wounds— Then hell's too good for us!

Retributive Justice.

The month's prize for the most strenuous job goes to the Kansas editor who admonished his readers in the following words: "In order to combat the constantly soaring cost of living, we advise our readers to biplane food."

It was a nice murder.

LETTERS FROM OVERSEAS

FROM CORPORAL R. W. FELSTEAD
ISLE OF WIGHT, ENGLAND,
TO REV. MR. HUBLY

15th October, 1917.

Dear Mr. Hubly—Your welcome paper received here this morning. I really ought to feel a bit ashamed of myself for not writing before, but the fact of the matter is that I have been so busy that I hardly have any time to myself at all.

I have one piece of news for you, which I expect in a way you are expecting to hear. Bruce Tulloch and I met at last, three weeks ago. Bruce came down to Portsmouth to see me, and then came over to the Island to spend the week end as he thought, but I am pleased to say that I was able to change the programme, instead of him staying over here with me, I took him over to a rather pretty place called Southsea, where my dear wife is staying, and we spent a rather pleasant week end together, for Bruce had never met my wife until then. I have very few holidays coming my way at present, but you can rest assured that we had a very nice time together. It was the first time that we had met since the war broke out, and of course it was a great meeting.

Well now I will tell you why I am so busy. I am at present and have been for the past nine months Paymaster for A Company of Canadian Graviteurs and 56 infantry who are attached to us for pay rations and accommodation, so you can guess that I have a pretty busy time of it here. In fact I have the assistance of seven young women and girls, but I must say with all due respect to them that they are not as well up in the work as men are, and the result is that they require a great deal of watching, or they would in all probability do a lot of mischief, and make a great deal more work for me, for a little mistake in accounts makes a big difference at time. I have had some experience with that once. One clerk that I had made only one mistake in one of the monthly accounts that I have to render, with the result that I got it back with a very nasty letter, and it was over a week before I found out the mistake and put the whole thing square again.

Well I am afraid that my career on the railway is at an end, for the reason that ever since I was invalided home to England with rheumatic fever my heart has been affected, and instead of getting better it gets worse. I have had two Special Boards approve of my discharge and it has been approved each time, but owing to the fact that I am Paymaster, it has been cancelled at the last minute. The only thing I have to look forward to now is the fact that I am sure of a pension when the war is over.

Well how are all in Belleville getting on now, as well as ever I hope. I have read your sermon in the paper that you sent me, and I will say it was very interesting in more ways than one.

Will you ask the editor of the Daily Intelligencer to remember me to those in Belleville who I have not seen for many years, for it is years now since I left Belleville. Well, I guess that I shall have to look out for some kind of easy work when I get back again, though at times I think I shall not return, but still it is of very little use looking on the black side.

Well, dear friend, I must close now with best wishes to you and all in Belleville.

Sincerely yours,
R. W. FELSTEAD.

BECAUSE OF RED CHEEKS HE SENT SUBSCRIPTION.

"Because our Jackie has bright red cheeks, because he is full of life, and is everything one could want a manchild to be."

This was the reason given by an American contributing for the relief of Belgians.

Another man who sent a subscription, wrote that he had just completed the building of c little home, and the thought entered him that it would not be fitting to enter it if he did nothing for the homeless, starving little ones of Belgium.

In some places local committees have put boxes in public places, with an appeal posted over them telling of Belgium's need. In other places good work is being done by raising community contributions. It has been found that a good round sum is always raised in a community where influential citizens take the lead.

The Central Belgian Relief Committee here feels that these examples will be an inspiration to Canadians to come forward with greater help than ever for the relief of this afflicted nation.

No fewer than 10,000 persons are dependent for their very lives on the food which is sent from this continent. These ten million people are not allowed to be heard on their behalf. They can only rely on the people who are conducting the Relief Commission.

Subscriptions will be thankfully received by the Belgian Relief Fund.

MONTREAL SOAP BOX ORATORS

MONTREAL, Nov. 2.—Two anticonscriptionist speakers who are to appear in court next Tuesday on charges of violating the Military Service Act by opposing conscription in public, Paul Lafortune and Alphonse Bernier, addressed a gathering of about 500 people from a balcony near the corner of St. Lawrence and Beaubien streets, and declared that prison had no terrors for them.

Lafortune intimated that although of military age, he would not be found in the draft.

He found fault because young men had to go before the medical boards naked, just as pigs and other animals were sent before the inspectors at the abbatoirs. Bernier asked his hearers to reflect before going overseas to fight those who had never done them any harm.

L. O. Mailly, who says he is a parliamentary candidate in St. Denis proposed to reduce the salaries of the Governor-General, Premier Borden, Sir Wilfrid Laurier and members of the Government.

HON. GEO. P. GRAHAM DESERTS S. RENFREW.

Such is the flaming heading of a short statement made by the Brockville Recorder, organ of the Hon. Geo. Graham, Laurier's personal and political friend, admirer, and adviser, that he, Graham, had announced "that he will not be a candidate for re-election in South Renfrew, having announced his retirement in a letter to the president of the Liberal association." The Recorder learns that a strong effort is being made to have Mr. Graham reconsider his decision, but so far without success. The article further intimates that "the former member for South Renfrew has been offered a nomination in several ridings, but will give definite in this regard in not obtaining."

All this buncome about Mr. Graham "retiring" from a contest in South Renfrew is mere clap-trap. At a meeting of the Liberals of the riding held months ago a candidate was nominated to run in the interests of the party in South Renfrew and has been in the field ever since. Mr. Graham is in the position of the man who, when asked why he had left a certain room replied he was "kicked out, and begorra I took that as a hint that I was no longer wanted there." Such is the position of the Hon. George. He has taken the hint and generously and magnificently leaves the Riding.

No one will be surprised to learn for long of the honorable gentleman having been taken under the fatherly wing of Sir Wilfrid, and a seat in Parliament found for him in Quebec. Such an act would be simply one of gratitude on the part of Sir Wilfrid, for George was in the past, and is now, one of the most servile followers of the anti-conscriptionist leader in Parliament.

CONSPIRATORS CONVICTED

Of Planning a Rebellion in India.

Judge Landis in the United States District Court at Chicago imposed prison sentences and fines on the four men recently convicted of conspiring to foment rebellion in India. Gustav H. Jacobsen, leader of the conspiracy; Albert Wehde and George Paul Boehm were sentenced to two years' imprisonment, and fined $10,000 each. They are Germans. Hermaba Lal Gupta, a Hindu, was sentenced to 18 months in prison, and fined $500.

The Government of Canada is too lenient with the blatant anti-conscriptionists in the Province of Quebec, who are constantly offending. The guilty ones are beginning to think the Government dare not imprison them, and unless the law is enforced, and that rigidly, others will agree with them.

Another Case.

United States Secretary Daniels stated at Washington that the Navy Department's investigation of the attempt of Count James Minotto, a son-in-law of Swift, the Chicago packer, to get into the Naval Intelligence Service, had been a large contributor to the action for the Count's deportation from the United States, now being conducted in Chicago. It was pointed out that as Minotto is an Italian subject and liable for military duty in Italy, he will be sent to Italy if deportation is ordered.

PRINCE EDWARD.

The Liberals of the County of Prince Edward are to have a gathering of the faithful in Picton on the 3rd inst., ostensibly to learn the views of their candidate, Mr. Herbert Horsey, upon the present order of things. Everybody is invited except Conservatives and win-the-war candidates.

The electors of that County should not forget that Mr. Horsey was one of the Laurier faithfuls who attended a meeting in Toronto where the anti-conscriptionist was besmattered with fulsome praise by those present, Mr. Horsey being one of them. It was also stated in the public press that that gentleman attended a meeting of the faithful in Ottawa which was held lately to consult with Sir Wilfrid Laurier and take instructions from him as to what they should do in the coming contest. Mr. Horsey should be asked for an explanation of what he did at that meeting, and what instructions he received from his beloved leader.

RUSHING TO COVER.

From down east comes the news that Hon. William Pugsley, G. W. Kyte of Richmond, E. M. Macdonald of Pictou, John Sinclair of Guysboro and others, are out as upfront candidates and expect 'recognition.'

Of course all these Lauzieites are "Win-the-War" men, NOW, knowing they would have little chance of being elected if they did not make that confession. Brave men under compulsion!

CRISP COMMENT

The Jail Farm near Fort William has had to close down, prohibition having cut off the supply of prisoners' labor. Former topers are now working for themselves.

Hon. George P. Graham announces his support of Union Government, but a day or so later he's caught conferring with Sir Wilfrid and some of the stand-pats, says the Ottawa Journal.

A Massachusetts bill provides that every motorist shall pass a road test. As originally worded it called for a road test for new drivers, but the Committee on Roads and Bridges changed it to make it include every one. Quite right! Let's have it in Canada.

The Brewster Government in British Columbia is being assailed by office-seekers in its own party because it has decreed the abolition of the patronage system. They have declared war on the Prime Minister. He ought to accept the challenge and fight back. Good citizens of all parties will rally to his support.—Globe. This is not bad, coming from the Toronto Globe. It's reforming wondrously!

Professor Graham Bell says that a man near Washington recently talked by wireless telephone with another on the Eiffel Tower in Paris. The great disadvantage lay in the fact that he was overheard by a man in Honolulu. The trouble with the election campaign is that what Sir Wilfrid Laurier says in Ottawa will be overheard with approval in Berlin.

The Standard welcomes the advent of straight-out candidates in Kingston and we believe that, while this is now only a temporary expedient, it will be found, to work so satisfactorily that these women may continue in this position after the war. And there is no reason why they should not. While the hours are not short, the work, on the other hand, is not difficult—not nearly so difficult, for instance, as working all day long in munition factories, as many women are doing.—Kingston Standard.

How is Union Government progressing throughout Canada? It is getting along fine, overcoming many natural obstacles, and soon English-speaking Canadians will be almost a unit in its advocacy. Western Canada appears to like the new idea with increasing favor, and in the West today appearances indicate the most remarkable coalition of political parties that Canada has ever experienced. Everything seems to have been left behind by the Westerners except the problem of winning the war, and of building up a greater Canada to carry the burdens imposed upon it.

OTHER VIEWS

German Luck.

Burlington Gazette

The Turkish Government has recalled the governor of Palestine on account of his excessive brutality. Here is a chance for Germany to get a new boss for Belgium.

The Kaiser and Peace.

Washington Star.

Berlin's discussion of peace does not go much further than to contemplate peace as a commercial commodity whose supply the Kaiser arbitrarily assumes to control.

Mr. Maclean and Mr. Fielding.

Ottawa Journal

Hon. Mr. Fielding, in his statement issued in support of the Union Government, endorses the entry of Mr. A. K. Maclean into the cabinet, and speaks warmly of his patriotism and ability. We imagine that Mr. Maclean's high qualities are universally recognized. Few men in Parliament are more respected. A strong Liberal, he never showed himself a narrow one. An entry of Premier Murray of Nova Scotia into the union cabinet might have been supposed by some to confer a more complete official recognition by the strongest of the maritime province Liberals upon coalition, but Mr. Maclean falls little short of Premier Murray in that respect, while as a younger man and one of better experience in Dominion affairs, he should be of greater value in the Unionist Government.

Mr. Fielding, a report comes, will run for the House of Commons in some Nova Scotia constituency. That would be an excellent thing if it can be arranged; but if not, an excellent thing would be to put Mr. Fielding into the Senate. The Senate could hardly have a better member than an ex-finance minister of the Dominion. That is the sort of thing the Senate was instituted for.

Two of a Kind.

New York Times

A dispatch from Constantinople says the Sultan of Turkey has conferred on the Kaiser the diamond star of the Iftichar Order, Turkey's highest war decoration, and that the Kaiser presented to the Sultan the star and chain of the Hohenzollern Order with diamonds.

The martyred dead of "Scio's rocky isle," for centuries unavenged, the victims of Turkish massacres in Herzegovina's slums, of Turkish atrocities in Bulgaria's rocky fastnesses, the hosts freshly slain in Armenia, upon the one hand; and upon the other the shades of all the millions who lie in graves upon the battlefields of France, Belgium, and Poland, of Galicia and Rumania, of Macedonia and Mesopotamia, and thousands who have been sent unnerved and unkneiled to burial beneath the waters of the sea, looked upon this strange, astounding scene. Those two men, in their unapproachable supremacy as the world's greatest destroyers of human life, with hands drenched in blood, blood enough in all literature to incarnadine the seas, affixed each to the breast of the other an order of highest distinction, symbols and testimonials of exalted rank in the terrible art they practice and do not shudder at.

Alexander Borgia should have been there to confer his blessing upon this twain, who have so far surpassed him that his deeds of horror dwindle to mere peccadillos.

Daily Progress of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

John Harold received the Liberal nomination as win-the-war candidate in Brant.

Hartley H. Dewart, K.C., M.L.A., says he is not unwilling to accept the leadership of Ontario Liberals.

East Hamilton Liberals accepted the resignation of Major Chisholm, but have not committed themselves to support Gen. S. C. Mewburn.

C. C. Smith, Conservative, resigned his candidature in Assiniboia to leave the way clear for the nomination of a union candidate.

Followers of Sir Wilfrid Laurier in Alberta have called a convention at Edmonton, Nov. 10, to complete a provincial organization.

Joseph Merrifield, Prince Rupert, nominated by the Conservatives of Skeena, has withdrawn in favor of Lieut.-Col. Peck, a returned soldier.

Gen. C. H. Mewburn, minister of militia and defence, and T. J. Stewart, were nominated for east and west Hamilton ridings by a win-the-war convention.

British Columbia unionists have reached an agreement on a fusion slate, putting into the field one returned soldier, four Liberals and eight Conservatives.

R. C. Henders, candidate of the grain growers in Macdonald, has endorsed the Union Government, and will probably receive nomination as unionist candidate.

DURHAM STANDS TILL CONVENTION

Col. R. A. Mulholland of Port Hope replied as follows to Mr. J. B. Bartram of Toronto, who had written resigning as Liberal candidate in Durham because he is in favor of Union Government:

"I have to acknowledge receipt of your letter and have given it my serious consideration. I may say, however, that your position and mine are rather different. As you say, you have received the Liberal nomination for the county and therefore are the project candidate of that party. At this time of writing and until the proposed convention is held on next Tuesday, no candidate has been selected by the Conservative party, and it would be a very invidious thing for me to assume anything as to what the convention may decide or do."

WM. R. BROCK IS DEAD

TORONTO, Nov. 2.—In the death of Mr. W. R. Brock, last evening, one of the outstanding figures in the business life of Toronto has been removed. He was formerly member of Parliament for Centre Toronto and was a leading business man. He was one of the founders of the Toronto Electric Railways Co.

What are Canada's Victory Bonds?

CANADA'S Victory Bonds are the solemn promise of the Dominion of Canada to the holders that Canada will repay, at the time stipulated in the bonds, their full face value in money, and will pay interest at the rate stated in the bonds, every six months.

As a financial investment Canada's Victory Bonds are in the first rank of the world's investments because:

—the security of the principal and interest is certain as anything human can be, being nothing less than the entire assets of Canada, the pledged honor of the people of Canada and all the assets of all the people of Canada.

—they are the most "liquid" form of investment; they can be promptly turned into cash at any time.

—they bear interest which, if saved and compounded, at ordinary bank interest rates would double the amount of the original investment in about fourteen years.

They are also free from Dominion taxation, present or future.

FOR the investment of estate funds, trust funds, sinking funds and all other funds which by law or other necessity must be invested in unquestioned securities, Canada's Victory Bonds are the premier investment.

Executors, trustees, municipalities and public service corporations and all others with trust or sinking funds to invest, can render to Canada valuable patriotic service by investing their funds in Canada's Victory Bonds.

* * *

AND because of the high rate of interest they bear, coupled with their supreme security, there is every reason to expect that Canada's Victory Bonds will increase in value when peace is declared.

The English Rothschilds laid the foundation of the fortune of that branch of the family by buying British war bonds before the battle of Waterloo, thereby making huge profits from the increase in value which followed the declaration of peace.

* * *

BUT Canada's Victory Bonds are much more than merely a sound money investment; they are Canada's renewed pledge to fight the war to a finish, till victory is with the Allies and lasting peace is secured to the world.

Every one of Canada's Victory Bonds bought by you is a new assurance to every Canadian soldier that Canada stands behind him ready to send him food and munitions, and to care for those he has left in Canada.

Canada's Victory Bonds guarantee that Canada will keep on producing the food, the munitions and machines to bring victory to the Canadian soldiers in France, and that Canada will keep the home-fires burning for their loved ones while they are fighting for our freedom.

* * *

SO when you buy Canada's Victory Bonds you help Canada finance the war,

—you help to maintain the production of food, munitions and supplies which our soldiers must have,

—and the money paid for those products helps to maintain business and industrial conditions by which the productive efficiency of Canada can be kept at high pressure.

Your investment in Canada's Victory Bonds will be a link in the complete chain of helping our soldiers, helping the country and thereby also helping yourself.

Investment in Canada's Victory Bonds is Sound Business Patriotism

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

BUILDING WOODEN SHIPS

QUEBEC, Nov. 2.—The first wooden ship of its kind built here since the old days of the sailing vessel, when the shipbuilding industry flourished in Quebec, was launched today at St. Laurent, Island of Orleans. The vessel is a four-master, with auxiliary power, and its length over all is 222 feet, 42 feet beam, and the depth of hold is 22 feet. Its tonnage is figured at about 1,350, while the dead weight will be about 2,100 tons. The schooner was constructed by the Quebec Shipbuilding and Repair Company, and it was named the Martin Connolly, after the local representative of the company, the head office of which is in Montreal. Mrs. Connolly performed the christening ceremony.

SATAN RESIGNS HELL'S CROWN TO KAISER

The Satanic Pupil Has Become Master and Astonished the Infernal Regions with His Diabolical Cunning and Cruelty —Unspeakable Turk and Filthy Hun

Louis Sybrekrop, of Creston, Iowa, has acquired much fame in recent weeks as author of satire on Kaiser Wilhelm. Requests have come to him from Timothy, Secretary Daniels and Hoolevelt, and people in every state of the Union and in Canada have asked for copies of Mr. Sybrekrop's article. It is:

"Ottumwa, Iowa.

"The Infernal Region,

"June 32, 1917.

"To Wilhelm von Hohenzollern, King of Prussia, Emperor of all Germany and Envoy Extraordinary of Almighty God:

"My Dear Wilhelm:—I can call you by that familiar name, for I have always been very close to you, much closer than you could ever know.

"From the time that you were yet an undeveloped being in your mother's wound, I have shaped your destiny for my own purpose.

He Hates England

"In the days of Rome I created a roughneck known in history as Nero; he was a vulgar character and suited my purpose at that particular time. In these modern days a classic demon and efficient super-criminal was needed and as I know the Hohenzollern blood I picked you as my special instrument to place on earth an annex of hell. I gave you abnormal ambition, likewise an over supply of egotism that you might not discover your own failures. I twisted your mind to that of a mad man with certain normal tendencies to carry you by, a most dangerous character placed in power. I gave you the power of a hypnotist and a certain magnetic force that you might sway your people. I am responsible for the deformed arm that hangs helpless on your left, for your crippled condition embitters your life and destroys all noble impulses that might otherwise cause me anxiety, but your strong sword arm is driven by your ambition that squelches all sentiment and pity. I placed in your soul a deep hatred for all things English, for all nations on earth I hate England most; therefore England plants her flag she brings order out of the chaos and the hatred from follows the Union Jack; under her rule wild tribes become tillers of the soil and in due time practical citizens; she is the great civilizer of the globe and I HATE HER. I planted in your soul is cruel hatred for your mother because SHE was English and not my good friend Bismarck to fan the flame I had kindled. Recent history proves how well our work was done. It broke your royal mother's heart, but I gained my purpose.

"The inherited disease of the Hohenzollerns killed your father, just as it will kill you, and you became the ruler of Germany and a tool of mine sooner than I expected.

"To sustain you and further hasten my work I sent you three evil spirits, Nietzsche, Treitschke and later Bernhardi, whose teachings inflamed the youths of Germany, who in good time would be willing and loyal subjects and eager to spill their blood and pull your chestnuts, yours and mine; the spell has been perfect—you cast your ambitious eyes toward the Mediterranean, Egypt, India and the Dardanelles—and you began your great railway to Bagdad, but the ambitious archduke and his more ambitious wife stood in your way. It was then that I sowed the seed in your heart that blossomed into the assassination of the duke and his wife, and all fell out exactly as I knew you would when you saddled the crime on to Servia. I saw you set sails for the fjords of Norway and I knew you would create an alibi. How cleverly done, so much like your noble grandfather who also secured an assassin to remove old King Frederick of Denmark, and later robbed that country of two provinces that gave Germany an opportunity to build the Kiel canal. Murder is dirty work but it takes a Hohenzollern to make away and get by.

"Your opportunity was at hand; you set the world afire and bells of hell were ringing; your rape on Belgium caused much joy, it was the beginning, the foundation of a perfect hell on earth, the destruction of cities and cathedrals and other infinite works of art was hailed with joy in the infern'l regions. Your trade secret on frightfulness and the murder of civilians showed my teachings and borne fruit. Your treachery toward neutral nations hastened a universal upheaval, the thing I most desired. Your undersea warfare is a master stroke, from the smallest standpoint of evil; the great Lusitania you shoe no favorites; as a war lord you stand supreme, for you have no mercy, you have no consideration for the baby clinging to the mother's breast as they both go down into the deep together, only to be torn apart and devoured by sharks dining among the corals.

The Devil Abdicates

"I have ridden over the battle fields of Belgium and France. I have seen your hand at destruction everywhere; it's all your work, "superior Kultur." Ha! Ha! Ha! You have made the fields of Poland one wilderness fit for prowling beasts only; no mercy shown in the conquest; they all succumbed to that cruel starvation. I drifted down into Galicia where formerly Jews and Gentiles lived happily together. I found you would make a clean job of it. I felt a curious pride in my pupil for it was all above my expectation. I was in Belgium when you drove that peaceful population before you like cattle into slavery; you separated man and wife and forced them to hand labor in trenches. I have seen the most fiendish rape committed on your women and those who were forced into maternity were driven by the father of their offspring and I began to doubt if my own inferno was really up to date.

"You have taken millions of dollars from innocent victims and called it indemnity; you have lived fat on the land you usurped and sent the real owners away to starvation. You have strayed away from all legalized war methods and introduced a code of your own. You have killed and robbed the people of friendly nations and destroyed their property. You are a liar, a hypocrite and a blasfter of the highest magnitude. You are a part of mine and yet you pose as a personal friend of God. Ah, Wilhelm, you are a wonder. You wantonly destroy all things in your path and leave nothing for coming generations.

"I was amazed when I saw you form a partnership with the impossible Turk, the chronic killer of Christians, and you a devout worshipper in the Lutheran church. I confess, Wilhelm, you are a pupil at times. A Mohammedan army commanded by German officers, assisting one nation in acts of arraying Christians in a new line of warfare. When a Prussian officer can witness a man's throat being disemboweled by a swarthy Turk, committing double murder with one cut of his saber, and calmly stand by and see a home full of innocent Armenians looked up, the house saturated with oil and fired, then my teachings did fall short with you, but you have been extended to the whole German nation. I confess my Bantanic soul grew sick and there and then I knew the pupil had become the master. I am a back number, and my dear Wilhelm, I abdicate in your favor. The great key of hell will be turned over to you. The gravel that has struck the doom of damned souls since time began, is yours. I am satisfied with what I have done; that my abdication in your favor is for the very best interests of hell—in the future I am at your majesty's service. Affectionately and sincerely,

"LUCIFER H. SATAN."

5 months on an Ice Floe

Bovril saves life of Shackleton's Men

SIR ERNEST SHACKLETON, *wrote:*

"WHEREVER Eskimos make in the Weddell Sea, we had to seek refuge on the shifting ice. Most of the stores had to be scrapped, as the avoidance of weight was of great importance. It was then that the Bovril rations were of such splendid help. During our five and a-half months' drift on the floe, the Bovril rations formed one of the staple diets; and after the ice broke up, and we took to the boats, they were our mainstay. I think it is not too much to say that without them, few, if any of us, would have survived."

In spite of the increase in the cost of Beef (the raw material of Bovril) there has been no increase in the price of Bovril during the War.

Body-building power is of Bovril proved to be from 10 to 20 times the amount taken.

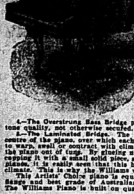
A Piano Made to Last a Lifetime

ILLIAMS PIANO

New Scale

Retains Its Tone



1.—Cast Iron Plate weighing 250 pounds stripped.

2.—The Harmonic Tone Proportioning Bridge cast in the plate insuring absolute rigidity and giving to the strings a perfectly graded scale of full resonant tone.

3.—The Brass Agraffes through which each of the triocord strings pass are attached to the Harmonic Bridge always keeping the strings in their proper position so that each hammer head will strike the full (trio) three strings. Brass at the iron will not rust, therefore the strings will always remain in tune. And as brass has a most mellowing influence on tone than iron, a finer quality of liquid singing tone is obtained through the use of the Harmonic Bridge and Brass Agraffes.

4.—The Overstrung Scale Bridge produces a deeper and more sonorous tone. Quality not quantity secured.

The Overstrung Scale Bridge running diagonally through the centre of the plate, over which the strings pass, are set very close to wrest, bend or distort, with climatic changes, the tone of the piano out of tune. By placing nine separate pieces of wood together and capping it with a solid gold piece, as is done on all Williams New Scale pianos, it is easily seen that this bridge cannot be affected by changes or climate, and that the piano will retain its tone.

The Williams Piano plate is equipped with bonded tuning pins, brass flange and plate bearings, hammer heads and ivory keys. The Williams Piano is built on quality.

SEE THIS PIANO BEFORE DECIDING.

McDonald Gets Life Imprisonment

CHATHAM, Ont., Nov. 2.—Life imprisonment in the penitentiary was the sentence imposed by Mr. Justice Clute on Frank McDonald, who was convicted of manslaughter for causing a rail on the Michigan Central Railway near Ridgetown, Ont., on the night of May 31, 1911, causing the wreck of an express train and the death of Engineer Quinlan and Fireman Russell Oakes. Ontario and Detroit police denied McDonald's assertion that his confession at Detroit was obtained under duress.

McDonald's brother Harry is still awaiting trial on the same charge.

FIND MUCH WOOL IN U. S. MARKET

The census of wool stocks in the hands of United States dealers and manufacturers, made by the United States Bureau of Markets of the Department of Agriculture from tabulation of reports as of September 30, shows a grand total of 324,184,000 pounds of grease, scoured and pulled wools, tops and noils. The report of stocks as of June 30 gave a grand total of about 437,000,000 pounds.

The increase in the three months since the first census report is 77,000,000 pounds. Of this increase 16,500,000 is in grease wools, 17,500,000 in scoured wools, 5,000,000 in noils and 500,000 in tops. Pulled wools declined 5,000,000 pounds. In grease wool the increase was wholly in manufacturers' stocks, in scoured dealers' stocks increased proportionately more, and in pulled wools the increase was equally shared. The increase is restricted almost wholly to clothing wools, with the combing totals only slightly changed.

The largest specific increases are in half-blood greasy wool and in quarter-blood secured wool. There is also noted a marked increase in stock of low grade tops and a decrease in quarter-blood tops.

An effort was made to obtain information from all concerns in the United States having wool, tops and noils on hand September 30, 1917. Schedules were sent to 1,300 textile manufacturers and wool dealers.

For the June census 2,900 schedules were sent out, 1,138 were returned showing no stock held and fifty-four firms failed to return schedules. A comparison shows less waste circulation. It is understood that the census is to be a regular quarterly occurrence.

IN FAVOR OF MEXICO

MEXICO CITY, Nov. 2.—Great excitement has been created through the publication in L'Universal of a statement by General Pablo Gonzales, former commander of the Carranza forces in Mexico City, and a well known constitutionalist, in favor of Mexico following the example of other Latin-American countries and severing diplomatic relations with Germany.

"COOK'S TOURS" TO TRENCHES.

Soldiers at the front are complaining of the number of "Cook's Tours" as they call them, so constantly organized to show the people in British Isles in France. One financier who has recently been there is reported to have tried to float a company in No Man's Land.

She Went Days Without Food

When Hospital Treatment Failed an Operation Was Advised — But Cure Was Effected Without the Use of the Knife.

Glace Bay, N.S., Nov. 2.—Here is a case which sorely puzzled the hospital doctors. It was evident that the great suffering from pain under the left shoulder-blade was due to torpidity of the liver, but no medical treatment seemed to do any good.

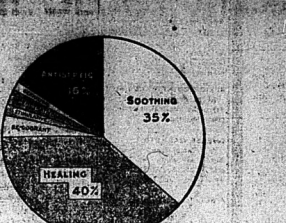
In fact medicines failed, and the doctors said an operation was the only hope. But Mrs. Watkins hesitated before the enormous risk of an operation and decided to try Dr. Chase's Kidney-Liver Pills first.

The result was that she was perfectly cured three years ago, and feels now that she can report the cure as thorough and lasting. This is not an isolated case, but proves that this great medicine cures when ordinary prescriptions fail.

Mrs. Annie Watkins, Glace Bay, New Harbor, N.S., writes: "I think it is time for me to give my experience with the great wonderful Kidney-Liver Pills. For seven months I suffered with what the doctor called indigestion; but whatever it was, I suffered terribly. The pain would start under my left shoulder and pass down my side until it reached the pit of my stomach. It just seemed as if my flesh were being torn from the bone. At times I used to go without food from one morning until the next; had no energy left for work at all. At last the doctor sent me to the hospital for a month. For four days and nights my liver broke my fast asleep for a drink of water. After four weeks' treatment there I returned home, and was back only four days when the pain came back worse than ever. Then I was told I would have to undergo an operation, but I would not consent to that. At last I read about Dr. Chase's Kidney-Liver Pills and started to take them. At first I did not notice much difference, but still I kept on using them, and by the fifth box or so were used I was feeling well again. That was in 1914, so you see I can safely say that I was cured. I shall always be grateful to Dr. Chase's Kidney-Liver Pills, as they did more for me than four doctors."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers or Edmanson, Bates & Co., Limited, Toronto. Refuse substitutes, for they only disappoint.

THE SECRET OF ZAM-BUK'S POWER



The above diagram shows the proportions of the various medicinal qualities contained in Zam-Buk, which is all medicine.

This diagram represents a type of ordinary ointment, which contains only a small proportion of medicine.

The secret of Zam-Buk's power lies in the fact that it is *all medicine*. Ordinary ointments contain about 5% medicine and the balance animal fat. Seven important qualities combine to make Zam-Buk a unique balm.

1st. The *Healing* quality—which you will see from the diagram predominates. By comparing the diagrams you will see that one box of Zam-Buk contains more healing power than a great many boxes of ordinary ointment.

2nd. The *Soothing* power of Zam-Buk is very great. Almost immediately it is applied it ends the pain and irritation of a wound or sore. It then draws out the inflammation and reduces the swelling.

3rd. The *Antiseptic* power of Zam-Buk is three times as great as is commonly met with. This is the quality that prevents the growth of injurious microbes, and thus prevents festering.

4th. Zam-Buk is *Germicidal*. That is, it is capable of destroying all germs in a wound or sore, while its antiseptic power prevents their spreading. These two qualities, combined, make Zam-Buk a certain preventive of blood-poisoning.

5th. The power of *Penetration* which Zam-Buk possesses is extraordinary. This quality makes it invaluable in the case of deep-seated troubles, such as rheumatism and sciatica, and also for chronic skin diseases. Zam-Buk gets to the "root" of the trouble.

6th. The *Stimulative* quality of Zam-Buk is very important, as it enables the balm to act as a tonic on the surrounding tissues and hastens the healing process.

7th. *As a Deodorant* Zam-Buk is unequalled for discharging sores, bad legs, ulcers, wet eczema, etc.

It is obvious that in buying Zam-Buk you get the best possible return for your money, which is always—and particularly at the present time—a matter of great consideration to a good housekeeper. All dealers or Zam-Buk Co., Toronto. 56c box, 3 for $1.25.

FREE — Send this advertisement, name of paper and 1c stamp (for return postage) to Zam-Buk Co., Toronto, and a free trial box will be sent you.

Would Declare Act Unconstitutional

Suit Launched Against Military Service Act in Montreal

MONTREAL, Nov. 2.—Mr. Justice Bruneau, of the Superior Court, granted a writ of prohibition to Paul Emile Mongeau, committed for trial for alleged seditious utterances.

In the petition for the writ, Mongeau alleges that the Military Service Act, which he had attacked, is unconstitutional. The action of Judge Bruneau suspends action in Mongeau's case until the writ is returnable and argued upon its merits.

The decision of Mr. Justice Bruneau has caused a great deal of speculation as to the exact position of affairs as regards the application of the Military Service Act, in the forming ition of the Montreal Superior Court.

In some legal quarters, as Mongeau asked that the Military Service Act be declared unconstitutional in the course of his petition, it is believed the Act cannot be applied here until the final decision of the petition is rendered.

Other legal lights are arguing that the Military Service Act will not be affected at present.

Hon. C. J. Doherty, Minister of Justice, directly that he heard that the writ of prohibition had been issued, asked for a copy and also for copies of all the papers in the case.

The petition claims that the Military Service Act is unconstitutional, illegal and vexatious, because the Royal authority vested only in the King has been superseded. It argues that according to the British North America Act of 1867, in which are contained the constitutional rights of Quebec, military service as applied to Canada is for the defence of the country.

The petition further alleges that the Imperial Parliament never granted Canada any extra-territorial powers outside of the limits or borders of Canada, and that legislation otherwise by the Parliament is therefore illegal and unconstitutional.

Parties named in the petition are Judge St. Cyr, who committed Mongeau for trial, and Hon. C. J. Doherty, Minister of Justice.

COST OF PRODUCING POTATOES.

Port Hope Guide

The fellow on the corner wants us to tell those wise guys in Toronto and Ottawa, who have been figuring out that it costs $1.37 a bag to grow potatoes to take a tumble to themselves. Every farmer in the country knows they are talking nonsense. With a good average crop—and this season's is more, any farmer worth the name, can make potatoes pay at from fifty to sixty cents a bag. Of course the farmer wants more, and who can blame him, but add say ten cents a bag to the price I have named to allow for the extra cost of his seed, and even this year he would suffer no hardship. The Toronto and Ottawa figurers are perhaps judging from the cost of growing potatoes on some of the city lawns. That experience no doubt was costly. But growing potatoes in the country, by experienced farmers, under favorable conditions, is another matter. You need not tell these city chaps that they are silly, but you might at least give them a broad hint.

MARGARINE FACTORY

TORONTO, Nov. 2.—That a prominent American concern is ready to spend $250,000 on a factory in Toronto and an equal sum in launching production of margarine on a large scale, is the advice handed The Globe. The company is ready to go ahead providing it is assured by the Federal authorities that the manufacture of margarine will not cease when peace is declared.

Mr. Fitzpatrick of New York is looking over some mining properties in the north part of Hastings County. He is particularly interested in feldspar, and is negotiating for the purchase of a very promising prospect near Bird's Creek, which is being worked by Mr. T. D. Leonard of Toronto.

TRACE OF MISSING CAR FOUND.

Chief of Police Newton, of this city, this morning received a communication from Chief of Police Smythe of Cornwall, which stated that on Monday last a party named Everett Abrams was in that vicinity in charge of a Ford car with permit number 42233. This was the number of the permit on the car which was stolen in Belleville on Wednesday 24th ult. and belonging to Mr. Patrick Cain, of Stirling. Abrams is also wanted in Kingston for the theft of a car which he stole and which was recovered near Cornwall.

Lover Jailed, Girl's Mind Unhinged

TORONTO, Nov. 2.—"Oh, come with me and be my love," whispered Dominic Ilpo of J. H. Ferguson, a man of probably forty years, to a pretty little New York nurse, member of one of that city's most respectable families. Leaving her home, her position, her professional ambitions, just as he left his lawful wife and his position of trust in a Gotham drug store, she followed him, first to Buffalo, then to Toronto. Here they lived, she supporting the household by her earnings in a downtown business office. Jewels of hers, valued at $900, were pawned by him during their eight months' residence in the city. Little is left now; home and happiness are gone; the girl lies, mentally deranged, in the Reception Hospital, raving to be near her false lover, and soon to be deported as an undesirable. For-quron himself was yesterday committed by Magistrate Denison to one year at Burwash Prison, on a charge of stealing from his employers, the Drug Trading Co., a safety razor and other articles. A further charge of defrauding the King Edward Hotel out of food and lodging to the value of $16.40, was withdrawn. Even hardened court officials looked with severer eyes than usual on the destroyer of human happiness. They say that it was one of the worst cases of infatuation and criminal hypnotism known to them.

WEDDING BELLS.

RUTTER—YATEMAN

George Wesley Rutter of Sidney Township, and Gertrude May Yateman of Tyendinaga Township, were quietly married at Holloway Street parsonage by Rev. Mr. Clarry, Thursday, November 1. The couple were unattended. Mr. and Mrs. Rutter will reside in Sidney Township.

CHANGE IN TRAIN SERVICE

The Canadian Northern Railway announce the following changes in Train Service effective November 1. Train No. 9 will be cancelled between Napanee and Belleville. Will leave Belleville at 7.00 a.m. and run on same schedule as at present, arriving Toronto (Union Station) 11.35 a.m. Daily except Sunday. Train No. 10 will be cancelled between Trenton and Napanee. Will run on same schedule as at present between Toronto and Trenton leaving Toronto 4.45 p.m. arriving Trenton 8.50 p.m. Daily except Sunday.

MONTREAL DRAFTEES LOOK FOR EXEMPTION

10M in Six Months

Of Seven Thousand Men Found Fit for Overseas Service, Over Six Thousand Appeal for Exemption.

MONTREAL, Nov. 1.—Since the proclamation was issued calling the young men to the colors, 6382 men have presented their papers at the Registries of Montreal. Of these 6034 have applied for exemption, while only 348 men have expressed any willingness to serve without seeking exemption. Of the 348 men, many have since joined the colors of their own accord.

To date the medical examination boards in the city have examined 12,678 men of the first class. Of these 6470 passed into A Class, 1741 into B, 2207 into C, 445 into D, and 2593 into E class. In other words, 7211 men have so far been found fit for service overseas, with an additional 2207 available for duty in Canada, so as to relieve overseas men of that work.

NEW TRAIN SERVICE

Travellers in Central Ontario will greatly appreciate the new through service which is being operated by the Canadian Northern Railway between Picton, Belleville, Kingston and Tweed, via Trenton. Harrowsmith and Yarker. Trains leave Belleville for Kingston 8.00 a.m., for Tweed 6.45 p.m.; and for Picton 1.10 and 8.25 p.m. For further particulars see latest Time Table Folders, or apply to W. Nicholson, Town Agent, or E. M. Fisk, Station Agent. oct-m.w.f4d

PRIME MINISTER'S NEW SECRETARY

Mr. George W. Yates, who has been appointed Private Secretary to the Prime Minister, Sir Robert Borden, is one of the young "old boys" of the newspaper world. Years ago he was a newspaper writer of ability and of indefatigable energy. Prior to joining The Globe staff Mr. Yates was in turn a member of the staffs of The London Advertiser and The London Free Press. He was present at the memorable City Hall disaster in London, but escaped without serious injury.

Mr. Yates resigned from The Globe some fifteen years ago to accept the position of Secretary of the Provincial Department of Crown Lands, subsequently Lands, Forests and Mines. He served under three Ministers: Hon. E. J. Davis, Hon. A. G. MacKay and Hon. Frank Cochrane. When Mr. Cochrane went to Ottawa in 1911 to join the Borden Administration he asked Mr. Yates to accompany him.

As an old newspaperman "George" is a warm friend of the "press boys," and they experience much courtesy and consideration at his hands. He is efficiency and indomitable industry combined. He has unusual executive ability. Although quiet and retiring in manner, he impresses his personality upon the whole Department. George Yates will always be popular with those who work with him, for he insists on doing the bulk of the hard work himself, and doing it well!

CALLED BY DEATH.

JANET B. WARHAM

A maiden lady, Miss Janet B. Warham, died last evening at the residence of her brother, Mr. George R. Warham, 167 West Bridge street. Although for the past 15 years, deceased had been afflicted with blindness; she was in apparently good health until yesterday morning, when she was taken suddenly ill and the illness proved to be fatal. Miss Warham was 77 years of age, and was a daughter of the late Thomas Henry Warham. For many years deceased had been a resident of Belleville, where she was well and favorably known. She was a member of Emmanuel Reformed church. Surviving of one brother, Mr. George R. Warham, who is connected with the Intelligencer office.

ROBERT J. FLETCHER

Robert J. Fletcher of Toronto, died Wednesday at the Cochrane Hospital as the result of injuries received from a railway accident a week ago. He was born in Brampton 50 years ago, and lived there some time. He later went to Toronto, where he was employed by the G. T. R. on the Toronto-Sarnia division. Mr. Fletcher was also a prominent lodgeburger, having done business in Napanee and Markdale. His widow, Mrs. A. Fletcher, and four children survive, Howard and Robert of Detroit, William of Toronto, and Mrs. George Couch of Toronto.

LITERARY NOTES

"JOYS OF THE WINTER CAMP"

Rod and Gun for November, which is now on the newsstand, contains as usual many stories and articles of particular interest to the lover of outdoor life and sportsmen generally. R. J. Fraser in this issue describes the "Joys of the Winter Camp" and Charles Cannell writes of the Wood Buffalo of our North-Western Canadian plains. Fred Copeland tells an entertaining story, "The Domini's Mascot," and there are many more stories intervening between these and the regular departments devoted to Fishing, Guns and Ammunition, Kennel, Along the Trap Line, etc. The Kennel for this month contains a write-up of the recent bench show at Ottawa and Montreal with a list of awards given at each Show. Rod and Gun is published by W. J. Taylor, Ltd., Woodstock, Ont.

DEATH NOTICES.

WARHAM—Died on Thursday, November 1st, 1917, Miss Janet B. Warham, in her 78th year.

Funeral from the residence of her brother, Geo. R. Warham, 167 West Bridge street, on Saturday, November 3rd at 2.30. Services at the house at o'clock. Interment Belleville Cemetery.

Music and Drama

WHY FILM FOLKS

SHUN THEATRES

Few motion picture players have to see their own pictures in the theatres. They watch, study and critize themselves at private exhibitions. A recent experience of Edward Roseman who appears in "The Barrier" at Griffin's tonight and Saturday, may explain why. Mr. Roseman was watching a picture in which he kills several defenceless persons and was apparently unconcerned, but in fact, acting in so unnatural a role. Imagine his surprise when as a bullet finds the hero's gun hits him a woman sitting next to him exclaimed fervently:

"Thank Heaven, the cut-throat is dead."

Since then Mr. Roseman has attended only private runs of films in which he was involved.

Rev. W. T. Ellis, Editor of "The Continent" (Presbyterian) in his syndicated article on the Sunday School Lesson for Sept. 23rd says: "Our generation has lacked supremely in faithful shepherds and most of the present failures of our Christian Civilization are due to failures of our moral and religious leaders." Those are strong words coming from such a reliable source, but—hear how the Bible describes the present crisis and its outcome. Next Sunday in the City Hall at 3 p.m. Pastor Whelpton covers the subject in his thrilling lecture "The Fall of Babylon and why it is necessary." By special request Mr. O. K. Pimlott will sing. Come one and all. Seats free. No collection. 1

BRANDING THE CANDIDATES.

(Peterborough Review.)

Every candidate who faces the people at the coming election must wear the trademark of his leader. The Wartime Election Act provides that within three days after the nominations are made, Sir Robert Borden and Sir Wilfrid Laurier must designate their respective followers. This is designed to assist the soldiers overseas, who, when they vote, will be able to distinguish between the friends and the opponents of the measure which was framed to help the nation's fighting men, to whom a list of the candidates will be sent. No tricky politician can operate in the campaign under false colors, professing to be of one faith while he really cherishes another. If he is a Unionist candidate, the endorsation of Sir Robert Borden is all he requires to make that fact clear. If he is a follower of Sir Wilfrid Laurier he must wear the trademark of the Liberal chieftain and accept the consequences of his associations. In Ontario a man so branded will be in about the same position as the unfortunate cast into the sea and weighted down with a millstone.

GERMANY'S OTHER POLICY.

Might Have Changed the Whole Map of Europe.

The famous German Drang nach Osten is not a mere phrase, for it expresses the essence of recent German foreign policy. Among the European powers Germany had to choose between Russia and Austria-Hungary for her alliance, and an alliance with the latter against the former best suited her plans of conquest and of domination. If Germany had contented herself with Russia, Austria-Hungary, as a supernaturated historical formation, would have been remembered in the interest of Europe; her peoples would have become liberated; they would have grouped themselves into small nationalistic states. In the place of Austria-Hungary, there would exist to-day Serbia or Jugo-Slava, embracing the Serbs, Croats, Slovenes, who are one and the same people; a Bohemia; a Rumanian state; a Hungary, without the Jugo-slavs and Roumanians; and a Poland. With these states, Roumania, Bulgaria, and Greece would be associated, and a federation of them would comprise all the Balkan peninsula and the whole southeast of Europe. The purely German provinces of Austria would have been added to Germany. If Germany had had a true conception of civilization and a real desire to promote its best interests, she would have facilitated this regrouping of states arranged according to the desires of the peoples concerned. Moreover, by such a combination she would have gained economic advantages and prevented a commercial debouche on the Adriatic and Trieste. Turkey would have been driven out of Europe, her Christian subjects liberated from a most odious regime, and all the nations might today be living in peace and quiet.—Tate Bertow.

KINGSTON, Nov. 1.—In Kingston Liberal circles the names of Hon. Geo. P. Graham, Hon. N. W. Rowell and Dr. A. W. Richardson are mentioned as possible candidates.

SYNOPSIS OF CANADIAN NORTH WEST LAND REGULATIONS.

The sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Application for entry must be made in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any Agency (but not Sub-Agency) on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Entry fee, $10. A homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence in each of three years after earning homestead patent; also 50 acres cultivation. He may pre-empt a quarter section alongside his homestead. Price $3.00 per acre.

(2) If the father (mother if the homesteader is an orphan) resides upon a farm in the vicinity of the homestead, the requirements as to residence may be satisfied by residence upon the farm of the father (or mother).

(3) If the homesteader has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price $3.00 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader may obtain a pre-emption patent as soon as he has fulfilled the conditions of his homestead entry, including cultivation of fifty acres, and may then acquire a purchased homestead.

GEO. P. GRAHAM, LAURIER'S CHIEF LIEUTENANT, WIRES HIS APPROVAL —CONVENTION OF ONE MIND, NO JARRING NOTES OF DISCORD, THEY CAME TO BURY POLITICS, NOT TO PRAISE LAURIER, AND THE TRUE VOICE OF THE PEOPLE WAS HEARD—MANY PROMINENT LIBERAL WOMEN BROUGHT THEIR KNITTING AND PLEDGED PATRIOTIC PRINCIPLES TO SUPPORT UNION GOVERNMENT.

RESOLUTION 1.—THAT IN VIEW OF THE PRESENT POSITION OF THE WAR AND THE NECESSITIES OF THE EMPIRE, WE DECLARE OURSELVES IN FAVOR OF THE ENFORCEMENT OF THE MILITARY SERVICE ACT PASSED AT THE LAST SESSION OF PARLIAMENT, AND IN ADDITION THE CONSCRIPTION OF THE WEALTH AND PRODUCTIVE FORCES OF CANADA SO AS TO EFFECTUALLY ORGANIZE ALL THE MATERIAL RESOURCES OF THE DOMINION TO BEST SUPPORT THE FORCES IN THE FIELD AND ASSIST IN CARRYING THE FINANCIAL BURDENS WHICH ARE ENTAILED BY THE VIGOROUS PROSECUTION OF THE WAR TO A SUCCESSFUL CONCLUSION.

RESOLUTION 2.—THAT WHEREAS SINCE THE NOTICE CALLING THIS CONVENTION WAS SENT OUT A UNION GOVERNMENT HAS BEEN FORMED IN THE DOMINION WAR HAS FINALLY DESIRABLE, AND IN THE BEST INTERESTS OF CANADA, AND BELIEVING THAT THEREBY THE SHARE OF CANADA IN THE GOOD OF THE PRESENT WORLD WAR WILL BE BEST SERVED, AND THE GOVERNMENT OF THE COUNTRY MOST EFFECTIVELY AND SATISFACTORILY CARRIED ON DURING THE PERIOD OF THE WAR, EXPRESSES ITS APPROVAL OF THE ACTION OF THE LIBERAL MEMBERS OF THE PRESENT UNION GOVERNMENT IN ENTERING SAME.

RESOLUTION 3.—THAT THIS CONVENTION PLEDGES ITS SUPPORT TO ANY CANDIDATE SUPPORTING THE UNION GOVERNMENT WHO SHALL BE THE NOMINEE OR CHOICE OF A JOINT OR FUSION CONVENTION CALLED IN PURSUANCE OF A CONFERENCE OF LIBERALS AND CONSERVATIVES AND OPEN TO AND ATTENDED BY BOTH LIBERALS AND CONSERVATIVES IN ANY CONSTITUENCY IN ACCORDANCE WITH THE DECLARED POLICY OF THE UNION GOVERNMENT.

HAMILTON, Nov. 3.—The above resolutions were enthusiastically adopted with a dissenting voice at the great meeting held in Hamilton yesterday by conscriptionist Liberals and addressed Hon. General H. H. Mewburn, Canada's new Militia Minister, himself a Liberal, but a Canadian first.

Patriots Not Politicians.

Patriots rather than politicians, hundreds of conscriptionist Liberals from all over Ontario gathered in convention here to discuss and come to a decision as to the new Union Government and its policy. Indications before the main afternoon meeting were that the gathering is a representative one, and most particularly representative of those Liberals who have kith and kin on the field and flood and firing line doing their duty for the Empire.

"Hardly one of those fellows but has a brother or a son at the front," said Mr. H. M. Mowat, K.C., of Toronto, past-president, of the Ontario Reform Association, "that's what makes them feel so keenly on the issue of the day, whether the boys at the front are to be backed up by Canada."

The delegates seemed to be dominated by one thought, to keep Canada in the war until it is won, doing her full duty. Party must go when patriotism calls.

Some Women Were Crepe.

On every train that pulled into Hamilton came delegates, men and women, young and old and middle-aged. Some of them wore eloquent crepe on their arms, the little bit of black speaking trumpet-tongued their determination that their loved ones' deaths should not be in vain. They gathered in big crowds at the Royal Connaught Hotel and stood about in groups discussing the war and the political crisis.

The morning was devoted to a registration of the delegates, and a meeting of the arrangements committee.

Mr. G. G. S. Lindsay, K.C., of Toronto, was unanimously chosen as permanent chairman of the convention, and Alex. Stewart, of Guelph, as secretary.

Mayor Advises Prayer.

Mayor Booker welcomed the delegates, and said that the time had come for the people to form themselves into one strong movement to destroy Prussian militarism and win the war. Though he was an old Tory he had never introduced party politics into municipal affairs. The present time was not the occasion to remember whether they were Liberals or Tories. One theme only should be remembered now, and that was the boys at the front, "fighting and dying for you and for me." It was the incompetency of the British that had stood against tyranny from time immemorial and it was this that must destroy Prussian tyranny. There must be conscription of men and conscription of wealth, and anybody who talked of making an apologetic for conscription was a poor creature.

Mayor Booker emphasized the need of prayer to win the war, and quoted Admiral Beatty's statement that only by getting on the knees would Britain win the war.

Canada and the Empire were passing through the crucible of war and suffering, and would come out of it the refined gold.

"We cannot leave God out of this war," he said.

"Our country first," was the stirring slogan on the motto placed upon the platform of the conscriptionist Liberal convention when it buckled down to business yesterday. Scores of women were in the hall, many of them busily plying their knitting needles. The big hall was packed and filled when the convention got under way. It was a serious sort of a gathering, no wild noise and fuss, but a quiet, deep-seated determination to do things rather than say them.

"To hell with party during the war," was the slogan that the chairman, Mr. G. G. S. Lindsay, K.C., gave the meeting in his opening address. It was cheered lustily.

Telegrams regretting inability to be present were received from Messrs J. A. Campbell, former Liberal member for the county of Dundas; P. P. Pardee, late Chief Liberal Whip;

Halifax Liberal Opposes Laurier

Says Success for His Party Would be Calamity—Will Support Union

HALIFAX, Nov. 3.—The following letter from J. T. Wilson, manager of the Canada Life Assurance Company for Nova Scotia and President of the Dominion Life Underwriters Association, published last evening, has caused considerable comment. It appears in consequence of a resolution adopted at the annual meeting of the Halifax County Liberal Association:

"The Halifax County Liberal Association, at its annual meeting held last night, adopted a resolution expressing its confidence in Sir Wilfrid as the man to lead the Liberal party to victory in the coming elections, etc.

Is Opposed to Laurier

"I have been a member for some years, both of the Halifax County Liberal executive and its executive committee, and all my life time have been a steadfast believer in the principles of Liberalism, and therefore find it necessary to make my position at the present time quite clear. While still affirming my faith in Liberal principles to be as sound as ever my position with respect to the resolution touching the leadership of the Liberal party is directly opposed to the action of the Association. My attitude was definitely expressed at an executive committee meeting, largely attended, held on Monday evening.

"I am a strong supporter of the Unionist Government, which is now an accomplished fact.

No Other Government Capable

"I do not believe that any party is capable of dealing adequately with the problems which Canada is facing now, and with those which will arise during the next few years. I recognize the service which Sir Wilfrid Laurier has rendered the Dominion as leader of the Opposition, and as Prime Minister. His attitude, however, towards the Military Service Act and coalition has been, and still is such as to make it impossible for me to give my confidence, and I would consider the success of the Liberal party in the forthcoming Federal elections under his leadership in the nature of a calamity to the country.

"If I did any act or thing calculated in any way to interfere with the success of the present Government as led by Sir Robert Borden, I would feel myself a traitor to the cause for which the Empire and her allies are fighting.

(Signed) "J. T. WILSON."

Women Take Part in Nomination

Hon. T. W. Crothers Nomination Meeting Conforms to New Conditions

The Hon. T. W. Crothers, Minister of Labor, was unanimously nominated in West Elgin at the convention held in Dutton in that county, on the 29th of October. Notwithstanding unfavorable weather there was a large and enthusiastic attendance of delegates, both Liberal and Conservatives, and among them many women delegates, who took an active part in the proceedings of the convention.

The resolution nominating Mr. Crothers was moved by Edwin Cameron, a prominent and lifelong Liberal of St. Thomas.

Eloquent addresses were made by Hon. Finlay Macdiarmid, M.P.P., Minister of Public Works; Miss M. Coyne, B.A., and Mrs. A. A. Bailey, of St. Thomas; Lieut. M. McLachlan, Lieut. Kirkland and Pte. Nat Ellepper, returned soldier, and the candidate.

Police Received Chinese Actors

TORONTO, Nov. 3.—When a Chinese dramatic company arrived in Toronto yesterday the members received an unusual reception. When the Montreal Express pulled into North Toronto station no less than six detectives were waiting, and station platform to take the Orientals in charge. The entire company, numbering about 35, were promptly packed into police vans and removed to police headquarters, where they were held until their luggage was thoroughly ransacked for opium. The operation was a big one, for the actors and actresses did not travel "light" by any means, and before the police searchers finished the afternoon had almost passed.

Following the searching of the baggage 10 members of the company, including the woman "star" and three of the leading men, were taken into custody on a charge of having opium in their possession for other than medical purposes, and these dramatic lights were arrested on a similar charge. They were distributed among three stations, where they gave their names as follows: Miss Ong Hoy, John Chong, Lung Chung, Hoo Sing, Gee Wing, Hoo Pat, Lo Shan, Lee Sing and Ah Ying. The whole remainder of the arrested thespians got into trouble for certain writings that were found in the luggage and he is held on another charge.

The action of the police in nabbing the Chinese show created a sensation in the Police Courts this morning, bail in each case was placed at $600, there was no lack of wealthy celestials to put up the necessary surety. Apparently all were anxious yesterday to see the performance, which is scheduled to open tonight. The title of the show is "The Yellow Peril," and represents an interpretation based on the teachings of Confucius. The company is said to be the largest that ever left China and to contain many prominent Chinese actors. As is usual with Chinese productions, it will take two months to present the entire play.

LITTLE OPIUM FOUND

The troupe left China about two months ago, and came to the city from Montreal. Apparently they were under suspicion in that city, for a Government agent made the trip to Toronto with them, and he has been watching the company during their stay in the Eastern city. Little opium was found on them, it is supposed, and such as was gathered in the police are convinced was only for personal consumption.

In fact chief interest was centred in the women members of the troupe. They were attired in the latest Western fashions, and were always dressed with gems. Their bracelets are said to be extremely valuable and the leading actress was noticeable owing to the police, represented a small fortune. Her arms were covered with heavy bracelets of gold, the metal stamped by circles of rubies, diamonds and thickly studded with diamonds. Beside these she wore many fine rings.

DETROIT PEOPLE BUYING SUGAR IN WINDSOR

WINDSOR, Nov. 2.—With stocks of sugar running so short in Detroit that stores are selling not more than two pounds to a customer, and with prices not had any to sell at all, residents of the Michigan metropolis have been coming over to the east of Windsor at a great rate recently.

Yesterday, however, acting under instructions from Dalton McCarthy, Customs J. S. Smith put into effect an order-in-Council passed last year which prohibits the export of glucose from Canada in any form. Military police on duty at the ferry dock here have been instructed to see that the order is carried out to the letter. Sugar has been selling at from 11 to 12 cents, but some stores have offered it as low as 10 cents a pound.

15,000 NURSES ENROLLED IN THE UNITED STATES

WASHINGTON, Nov. 3.—About two thousand Red Cross nurses have already been sent to Europe. Fifteen thousand nurses have been enrolled, a number estimated as sufficient for an army of a million and a half men. Approximately 1,000 nurses are being added every month, "To meet the demand for more nurses, if it should become necessary, there has been a slight modification in the requirements. The more important change contemplated is a lowering of the age limit for especially qualified persons.

Russian Situation Is Unchanged

LONDON, Nov. 3.—A host of morning papers print the interview with Premier Kerensky prominently, but comparatively little comment is devoted to it. The General belief is represented that Russia has done about all she can be expected to do and that Britain and her allies must increase their efforts if complete victory is to be assured.

Allied Diplomats in Conference

ROME, Nov. 3.—Thomas Nelson Page, the U.S. ambassador, today conferred with Foreign Minister Sonnino, the Rumanian Minister and other allied diplomatic and military officials, and as a result a declaration of war by the U.S. against Austria-Hungary is looked for as the next step towards complete co-operation with the Allies. Complete confidence is felt that the German invasion of Italy has been stopped.

German Raider And Trawlers Sunk

(Special to The Intelligencer)

COPENHAGEN, Nov. 3.—The German commerce raider Crocodile and five armed trawlers were sunk by British destroyers in Scandinavian waters after a two and a half hours fight. Wounded men from the German cruiser were landed at Elsine.

Drug Store is Destroyed by Fire

(Special to The Intelligencer)

TORONTO, Nov. 3.—Fifty thousand dollars damage to the premises have been caused by a fire which gutted Liggett's drug store, 106 Yonge Street, early this morning. The stock and fittings were completely ruined.

Shell Factory Destroyed by Fire

TORONTO, Nov. 3.—The shell forging plant of the Gluff company on Jefferson avenue, covering an area of 40,000 feet, was destroyed by a fire which broke out at 3.40 a.m. The loss on building and machinery is estimated at $200,000, which is covered by insurance. The cause of the fire, Mr. Gluff stated this morning, was an overheated shell in the forging room.

French Army Still Advancing

(Special to The Intelligencer)

PARIS, Nov. 3.—The French War Office report announces the occupation of Courcelon, Cerny, Ailles and Chevreux in a French advance over a frontage of thirteen miles on the Chemin des Dames to the result of the German retreat from the Aisne sector, which is described as due to pressure by the French infantry and the crushing effect of the French artillery. The French are advancing between the Oise canal in the region of Corbeny, and have reached the south bank of the Ailette river. The Germans have retreated to the north bank of the river. The bridges across the Ailette were destroyed by the Germans. The French, since October 23, have captured 422 guns and 720 machine guns.

RETURNING OFFICERS APPOINT ENUMERATORS

OTTAWA, Ont., Nov. 3.—The appointment of enumerators will be left in the hands of returning officers, and in this connection the Prime Minister issues an appeal for the selection of men who will command "the confidence of the community and that just representation shall be given to both political parties in making such appointments."

It is estimated that over fifteen thousand enumerators will be required to carry out the provisions of recent amendments to the Dominion Election Act. In every polling sub-division in the Dominion an enumerator will immediately on appointment, set to work compiling and revising the electoral lists.

HUNS START RETREAT FROM AISNE REGION

Berlin Officially Announces Withdrawal in the Aisne Sector, but Gives no Details—Retirement Forced by French Bombardments—Further Enemy Withdrawal Likely

LONDON, Nov. 3.—THE GERMANS HAVE RETREATED FROM POINTS ALONG THE HISTORIC CHEMIN DES DAMES SECTOR, ON THE AISNE FRONT IN FRANCE, WHERE FOR SEVERAL MONTHS THE FRENCH TROOPS OF GENERAL PETAIN HAD BEEN KEEPING THEM SHARPLY TO TASK.

JUST WHERE THE RETROGRADE MOVEMENT TOOK PLACE AND HOW FAR IT EXTENDS CANNOT YET BE TOLD, AS THE GERMAN OFFICIAL COMMUNICATION ANNOUNCING IT MERELY SAYS THAT THE TEUTONS, "UNNOTICED AND UNDISTURBED BY THE ENEMY," SYSTEMATICALLY WITHDREW THEIR LINES FROM THE HILLY FRONT IN THIS REGION. THE ENTIRE LINE TO THE NORTH OF THE AISNE, WHERE THE GERMANS WERE LAST REPORTED AS FACING THE FRENCH, IS UNDULATING IN CHARACTER FROM THE SOISSONS SECTOR EASTWARD TO THE VICINITY OF CRAONNE, AND THERE IT IS IMPOSSIBLE TO DETERMINE FROM RATHER INDEFINITE ACKNOWLEDGEMENT OF WITHDRAWAL THE TERRAIN WHICH HAS BEEN GIVEN UP.

NEVERTHELESS IT SEEMS THAT THE GERMANS, TIRED OF THE TERRIBLE ORDEAL THEY HAD BEEN FROCED TO UNDERGO FROM THE FRENCH ARTILLERY AND VIOLENT INFANTRY ATTACKS, HAVE DECIDED TO FALL BACK UPON LAON, CAPITAL OF THE DEPARTMENT OF THE AISNE, WHICH, WITH ITS NETWORK OF RAILWAYS, HAS BEEN THE QUEST OF THE FRENCH. IT IS POSSIBLE, AND SEEMINGLY PROBABLE, THAT THE WITHDRAWAL OF THE GERMANS WILL COMPEL ALSO THE FALLING BACK OF THE GERMAN FORCES IN THE TURN OF THE BATTLE LINE IN THIS REGION RUNNING NORTHWARD TO ST. QUENTIN, IF, INDEED, IT DOES NOT AFFECT THE GERMAN POSITIONS AS FAR NORTH AS ARRAS.

What Will Happen After Nov. 10th?

MONTREAL, Nov. 3.—What is going to happen after November 10? Is a matter which is seriously concerning the military authorities and public men in this Province. With only a week from that date left, there remain some 70,000 men who have not registered, while in the many weeks in which registration has been open to them only 9,000 have gone before the Examining Boards. It looks very much like an organized effort to evade military service through passive resistance, and in a very large measure the Government itself is responsible for this state of affairs

A year ago when an appeal was sent out for men to sign the National Service cards the young Canadians of the Province simply ignored the cards sent them. Threats of a more or less mild nature were published in the papers to the effect that those who did not register were liable to be punished, but this did not affect the situation in the least. The men who did not sign never heard any more about it. They were not told that they must register under the Military Service Act or they will be treated as deserters after Nov. 10. In view of the stories they heard a year ago the average French-Canadian regards the present threat as another bluff on the part of the authorities, and is simply ignoring the whole question.

It is true that less is being heard at the present time in regard to anti-conscription. The arrest of a few anti-conscription agitators a few weeks ago has put a stop to that position. Apparently, however, the opposition is taking another form, and next week will tell what the young men have not appeared before the Medical Boards, and from all indications do not intend to put in an appearance. What are the authorities going to do in regard to the matter?

Naval Engagement In the Kattegat

(Special to The Intelligencer)

LONDON, Nov. 3.—The Admiralty today issued the following statement: "Our naval forces operating in the Kattegat have apparently been engaged with naval forces. Patrol vessels have been detached to bring in prisoners."

American shipyards will complete a million tons of bottoms by March 1st, according to Chairman Hurley of the Shipping Board.

TONS OF EXPLOSIVES DROPPED ON ROULERS

British Airmen Also Fire Several Thousand Rounds Into the Hun Infantry—Trains Attacked from Low Height—One Was Completely Destroyed and the Other Wrecked.

LONDON, Nov. 3.—An official statement on aviation says: "On Wednesday advantage was taken of the change in the weather, and both our own and enemy airplanes were in the air all day. The visibility was not very good for artillery work, but a great deal of bombing was carried out by our machines, and many photographs were taken.

"Our airplanes also co-operated successfully in a raid carried out by our infantry yesterday afternoon northeast of Loos, reported in last night's official statement, firing several thousand rounds from their machine guns and dropping bombs on hostile troops in the communication trenches.

Five Tons on Roulers

"During the day five tons of bombs were dropped by us on Roulers, causing fires and explosions, and on many hostile billets. At night a further two and one-half tons were dropped on aerdromes at Ingelmunster and Courtrai, the airdrome at Gontrode, and on the railway stations at Roulers, Thourout and Courtrai. Two trains were attacked from a low height. One of them was derailed and the other was destroyed completely. The enemy aerial forces were more active and aggressive than the bombing machines. In the air fighting seven hostile hostile machines were brought down. Nine of our machines are missing.

Raid Bavarian Factory

"Today another successful raid was carried out into Germany. The munitions factory at Kaiserlautern (about 40 miles west of Mannheim) was attacked by two groups of six machines each. Cloudy weather impeded the accurate dropping of bombs. The machines encountered enemy defending scouts and brought one of them down. All our machines returned safely."

George Starkweather's Mission

A Story of Secret Service In the World's War.

By F. A. MITCHEL

George Starkweather was dressing for dinner at his hotel in Rome when a stranger entered his room and closed the door behind him. Starkweather looked at him, indignant at this cool impudence.

"Why do you enter my room without knocking?" he asked sternly.

"Because I do not wish to be seen entering your room. I chose a moment when there was no one in the corridor, and it was essential that I should lose no time. Signor, you are wanted at the Quirinal palace."

"I—at the palace?"

"Yes, signor, and I am ordered to take you there without your going below knowing. As soon as you have finished your toilet go down and out. You will find a cab standing by the sidewalk. Enter it and tell the cabman to drive you to the Plaza de Venetis. He will take you to the palace."

"But why this mystery?"

"There are spies watching the movements of every one who has any communication with the government. That is all I can tell you now. You will soon know the rest. May I trouble you to look out into the corridor and advise me if it is empty?"

Starkweather did as requested and presently reported that the coast was clear. The stranger went out, and George finished dressing. While doing so he was wondering what this summons to the king's palace meant. He was an American traveler who had gone to Italy some six months after the breaking out of the world's war to look for himself how things were going. He knew no one in Rome except the American lady who had married an Italian and who now held a portfolio in the cabinet. But he could not see why that acquaintanceship could cause him to be summoned by the king.

When Starkweather had finished his toilet he put on ordinary clothes instead of evening dress—he went to the dining room, partook of one course of the table d'hote, then went out and got into a cab which he found waiting. He told the driver where the man who had entered his room unbidden.

"You have been a long while, signor," said the stranger, "in finishing your toilet. You do not seem to hesitate to keep his majesty waiting."

"If the king calls for me," replied George, "then I am about to dine either he or my stomach must wait. Since I am an American citizen, not a subject of the king of Italy, I do not feel compelled to sacrifice my stomach to royalty."

When they reached the gates of the palace grounds they passed in through lines of guards and alighted at a side entrance of the building. Starkweather was conducted to a room in which sat the king and his prime minister. At his entrance both rose and greeted the American in a friendly manner.

"Mr. Starkweather," said the prime minister in fair English, "Signor Barzoni and his wife is a countryman of yours, has suggested you as one fitted for the secret mission for his majesty to France. Would you be willing to oblige us by doing so?"

"I am at a loss to know why I am selected for such a purpose," replied Starkweather.

"You are an American, thus far a neutral in this war. Therefore you would be less likely to be suspected of bearing a message from the Italian government."

"For you must know that the central powers are watching us closely to know what we are going to do and, if we should take sides at once with the allies, to know it at the earliest possible moment. Were we to send an agent from one known to be in our confidence it is quite likely that the message would be stolen from him before he had crossed the border. We hope by using an American who has not been previously known to us to baffle the spies off the track.

"We are aware that the allies can move a million men they now hold to oppose us against the central powers. Even in a disputing of the French premier that Italy will remain neutral. It must be delivered with the utmost dispatch, and the central powers must not know of our policy.

"You are to carry the dispatch to Edward Bruson, who is waiting for the king's decision in Locerne. He will immediately act to the best means of reaching Paris."

It was suggested to Starkweather that the cab in which he had come to the palace would be watched on its return, and he was advised not to use it further. It was dismissed, and that night the messenger left the palace by a private exit, entered his hotel by a rear door and, having thrown what articles he needed for his journey into a lightweight suit case, left the house in the gray of the morning when no one was about, proceeded to the railway station on the Esquiline hill and took a train bound for Milan.

It did not seem to the American that after such precautions any one except those who had dispatched him could know that he was on a mission, probably the most important to France, to the world, that had ever left the Italian capital. He did not know that the eyes of the system of the central powers, which in this case was operated by the Austrians. The man who had taken him to the palace was shadowed and Starkweather's movements from the palace he left at his hotel to go there were known to those who were interested in report in Vienna every movement of the Italian government.

Starkweather reached Lugano, a resort for tourists at the foot of the southern slope of the Alps, before he was obliged to halt. At Lugano he was obliged to stay over till the following morning. He asked the landlord of his hotel how he could kill an evening and was told that the baccarat, or casino, was open. Soon after he entered and took a seat at a table betting bank.

The man looked like a German or an Austrian; the woman was dark complexioned and appeared to be French. At any rate, she spoke French to the man, whose accent was Teutonic. She answered to it at once.

Presently the man arose from the table and went to the cashier's desk. He had not been left the woman then she leaned toward Starkweather and said:

"Monsieur, are you French?"

"No, madame; I am an American."

"I am French and am trying to get to France. This man is trying to beat me off. For heaven's sake, help me!"

The woman's appearance at this moment turned and, seeing her thus appealing to Starkweather, the man who had returned at once to her, and together they left the kursaal.

An American gentleman is nothing if not a defender of women. Starkweather knew nothing of this one, but did not know how to go about it. Besides, he considered the responsibility he had assumed in getting the dispatch to Italy's message quite enough for him to attend to without getting into trouble with a Teuton who was interested over a lady. He therefore resisted an impulse to go to the woman's aid and endeavor to afford the poor woman another chance to communicate with him. He sat where he was till he had finished his cigar and his wine, then returned to his room at the hotel.

The next morning at the railway station one of the uniformed attendants who carry hand baggage for travelers snatched at Starkweather's suit case and wrenched it from his hand. The American, who was something of an athlete, sent the man sprawling with the fist. At once a dozen officials of Starkweather jumped on the train, which was moving out. He had not carried his dispatch to Italy, but of the incident warned him that wherever he was it was to be disputed. Looking out of the coach window, he saw the man he had knocked down running after the train. He was left in the distance, and the train had achieved a good headway, so he was almost out of sight.

As soon as Starkweather had become established after his fracas he looked about him, and presently found a seat at the other end of the compartment from the woman who had appealed to him at the kursaal the previous evening. She smiled at him, and he took a seat beside her. Then to him she had succeeded in eluding her persuer and had reached the station and boarded the train.

During the day the train sped through a mountain pass and entered a stream. Early in the afternoon the Mt. Cenis Gotland tunnel was reached, to pass through which required ten minutes. Starkweather and the woman conversed while in the darkness, and from him that she was on secret service for the French government. When the tunnel was reached Starkweather was surprised to notice that the lamp in the top of the car was not lighted. Why it was not he could not explain till after having passed through the tunnel, when he found that it was held how the failure to light it had been accomplished.

When the train entered the tunnel Starkweather was sitting in his own seat, which was next to the door. Being plunged in total darkness, he mechanically placed his hand on his dispatch, which was in the left breast pocket, directly over the heart. The train had not been in the tunnel more than a minute when he felt a pair of vise-like arms about his chest, pinioning both his own on one known to be his own. Then he was held by one arm of his assailant while the other, which he could not identify, was engaged his hand which held the dispatch.

It was Greek meet Greek. Starkweather's grip was of iron, and his adversary's was of steel. But Starkweather had the advantage of knowing the dispatch, though he was not in training for a struggle, whereas his opponent finally clutched his throat.

Starkweather before leaving his hotel had picked up a stiletto that he bought for a curio and hung it. Americans, like Italians, delight in daggers. He just had time before losing consciousness to free one arm, draw the stiletto and stab his foe in the neck.

When the train shot out into the light, revived by fresh air he saw the woman who had appealed to him for protection lying on the floor in a pool of blood. Her dress disarranged showed under it the clothes of a man.

Starkweather climbed out of the window on to the footboard and as the train slowed up at the station near the mouth of the tunnel he jumped down on terra firma and ran like a deer.

At the time the world wondered why Paris from day to day, hour to hour, the Italian frontier, sent them against the Austrians and vice versa. Now it is known that the prime minister of France received the message of the king of Italy at midnight and at once set free the troops held on the Italian border.

CALLED BY DEATH.

ELIZA DENYES

The remains of the late Mrs. Eliza Denyes, who died in Toronto, arrived here today and were taken to the residence of her daughter, Mrs. Lucia Reid of Corbyville. Deceased was a widow of the late Simon Denyes of Thurlow Township. She was born in Ireland in the year 1826, and was a daughter of the late Mr. John Hanniston. She had virtually resided at Zion's Hill all her life. Mrs. Denyes was a Methodist in religion, and took an active part in all church work. Death to mourn her loss are three sons, W. A. Denyes, Chas. H. Denyes, and John Denyes of Toronto, and one daughter, Mrs. Lucia Reid, of Corbyville.

Hon. Dr. Beland Acts as Cook

LONDON, Nov. 3.—The Canadian Press had an interview with a civilian who just escaped from Germany. He was an American fellow-prisoner of Dr. Beland, former Canadian Postmaster-General. The gentleman escaped on his third attempt, having twice served periods of solitary confinement as a punishment for his previous endeavors. Dr. Beland, he says, enjoys good health, and did not regret early live in prison, but had done since June, although allowed out twice weekly under guard. He seems to have recovered his spirits a good deal after the blow of his wife's death.

The news of her death says this informant was kept from Dr. Beland three days, apparently so he could not have a good excuse for asking to go to Belgium to attend the funeral. Dr. Beland had mentioned going to Rhinebeck Camp, but prefers to remain in his present quarters. He is well liked by his fellow prisoners and has given his medical services freely among them. British prisoners maintain their kitchen at their own expense, in which Dr. Beland is a most efficient cook. He has received parcels from Canada and the High Commissioner in London, of which he is most grateful.

Norway Next to Join the Allies

LONDON, Nov. 3.—The stinging note delivered to the German Foreign Office by the Norwegian Minister at Berlin yesterday, apropos of the recent sinking of a Norwegian ship in the North Sea, part of the convoy destroyed by two German warships, is regarded as particularly significant because of the tone of the closing paragraph, which suggests that Norway is approaching the end of diplomatic relations with Germany and is preparing the Norwegian people for the drastic vigorous possible measures thereafter, which could only mean war.

Among all the minor neutrals none could so much injure Germany by entering the war as Norway. She possesses ports that would be of immediate value to the allies' naval forces if given for their use as bases. The merchant marine of three times would greatly shorten the British naval lines and render it much easier to intercept raiders and submarines in the North Sea. Also, possession of these ports would perfect the blockade of Germany by shutting in Swedish and Denmark and release the British naval power now used for operations elsewhere.

Finally, a declaration of war by Norway would compel Sweden to remain sincerely neutral or join the allies.

GALT IS SELLING COAL

GALT, Nov. 3.—There was a big rush in the City Hall yesterday morning for the municipal coal, and the carload available was disposed of in little over an hour. About a hundred more, desiring fuel, were disappointed. The coal was No. 3 nut and sold at $9 per ton. Two more cars have passed Buffalo and are expected to reach the city next week.

MOTION PICTURE FILMS.

How They Are "Edited" Before They Reach the Public Eye.

After a motion picture film has been developed and printed it is sent to the general manager to the director to be "edited." Like an author's manuscript in the hands of an editor, it is shortened here and there, the positions altered, some parts entirely "cut" or deleted and the whole film arranged to suit the ideas of the men closest in touch with the theater going public.

The editing takes place in the projection room, says the Popular Science Monthly, but the altering—cutting the film and changing it—is done in the cutting and assembling room by men who do nothing else. Sometimes the scene in the cutting room ("cutters," in the trade lingo) are so overwhelmed and confused with orders issued by the studio officials that they are compelled to ask for additional instructions. Needless to say this wastes much time.

By means of the phonograph, however, one motion picture company is eliminating this waste and saving money. As the director watches a picture in the projection room he utters his instructions into a receiver instead of a dictating machine. The film is then sent back to the cutting room with the phonograph record.

A SUBMARINE BASE.

It Is a Supply and Repair Station For Undersea Boats.

What is a "submarine base?" Well, a submarine base is, in a word, a supply and repair station for undersea boats. Craft of this kind are very elaborate, and consequently complex pieces of mechanism; they are liable to need tinkering at frequent intervals.

Hence there must be a machine shop on shore at the service of the boats when at intervals they return from cruises. There must be a store house containing all kinds of supplies and spare parts for the submarines. Most important of all, there must be tanks of fuel oil.

Usually there is attached to the base a "mother ship"—a good sized steamer, with machinery aboard making emergency repairs. The steamer also carries gyanose, which may be used for charging the batteries of the boats —though at sea the charging is accomplished by the oil engines that propel the submarine when on the surface.

When it is not practicable to establish such a shore station the "mother ship" may be utilized temporarily as a floating base.

Curious Land, Curious People.

Near Cape Horn, on the islands of Tierra del Fuego, live the most curious people in all South America. It rains or snows or sleets nearly every day, and yet they look on their country as the finest in the world. They wear hardly any clothing and seem not to feel cold. Because he saw fires on the shore the explorer Magellan, the first European that rounded the Horn, called the island "the land of fire," which is about the worst name the world have chosen. Their huts are made of bent boughs and covered with grass and give only the poorest shelter. The fish are vain, too, wearing necklaces of the teeth of fish. Fishes are their painting patterns on their bodies. Among them many colors are used with meaning. White is the sign of war and red of peace. They are great mimics and will imitate voice and gesture perfectly.

Changed Ideas.

Mrs. Smarty (sad to hear that she never let her mind run upon filthy lucre)—

"Well, does she?"

"I should say not. She can't talk of anything but her baby."

Circumstantial Evidence.

"What makes you think all women hate each other?"

"Because a woman so seldom brings up a man for to be another woman's husband."

To make knowledge valuable you must have the cheerfulness of wisdom.—Emerson.

LIBERALS CENSURE FORMER FRIENDS

BRANTFORD, Nov. 3.—Rejecting the proposal that Newton Wesley Rowell be nominated as a Union window-case candidate in North Brant, the Liberals of that riding this afternoon renominated John Harold, their former standard bearer, who tendered his resignation three weeks ago. The meeting, which was an open one, attended by women as well as men, was marked by considerable excitement.

Scott Davidson, M.P.P., declared himself a supporter of John Harold in preference to N. W. Rowell, although for the latter he had unbounded respect and admiration. He belittled the efforts of Harry Cockshutt, who was nominated as a Union candidate two weeks ago, declaring that whatever money the latter had spent in recruiting the 215th Battalion he could well afford it.

John Harold was nominated by John Inkster, and seconded by Wm. Webber. He expressed his personal respect for Mr. Cockshutt, but charged that the rights of the Liberal party in North Brant had not been respected, and there was no breaking back. He expressed the hope that an election in the riding might yet be avoided.

Mr. J. J. Hurley of Brantford attributed the entire credit for Union Government and the Liberals who had entered the Cabinet. He threatened to tell "the true story of the 215th Battalion," insinuating that it would prove discreditable to the interests of Lieut.-Col. Cockshutt, and declared that it was "big men" such as the latter who had wrecked Russia and Germany today.

"Harry Cockshutt is the last man in the world to be the leader of North Brant should elect to Parliament, and if he is chosen by the farmers of this riding they are fools."

"THE BARRIER" A STRONG SCREEN STORY

The lure and mystery of the Yukon, that land where nature's millions are guarded behind formidable ramparts of ice and snow, where men have struggled and died and won in the big game of "sex-rich-quick" so vividly depicted in "The Barrier", Rex Beach's thrilling story, which is the next-week attraction at Griffin's Theatre. "The Barrier" is admittedly one of the strongest stories of the screen, with its beautiful love story erased by "The Barrier" of Indian blood; its two-fisted red blooded men in bloody battles, man to man primitive fashion, the scenes in the dance halls and gambling dens, where soft voiced sirens and soft handed men separate the miners from their hard-earned gold in brief beside moments of hilarious booze-inspired jollifications. The mountains and trails of the Yukon with their haunting mystery of human tragedy, the rivers and lakes of the Northland, are featured in "The Barrier" with all the wonderful lights and shadows of which the motion picture drama is capable.

The cast of characters in "The Barrier" could not be improved upon, from the rugged, honest French-Canadian voyageur, Napoleon Dore, to the hard-faced Kiddies, a type that is so natural that one forgets that it is not real, and especially is this true of the fight scenes, where the interest of the audience is marked in the labored breathing, gasps of surprise, and even fear expressed. Some ladies actually cryin out, while the male portion of the audience enthusiastically applauds the struggling gladiators who are actually inflicting physical injury to make a realistic picture.

See "The Barrier" tonight and catch the spirit of the Yukon.

"MY IRISH CINDERELLA"

Critics, who are ever on the alert for an opportunity to make comparisons, have sometimes styled "My Irish Cinderella" as another "Peg O' My Heart." The comparison has never been objected to, for it has never been alleged that "My Irish Cinderella" lacked distinction in that it resembled "Peg" at the expense of originality. Everyone loved "Peg O' My Heart" and not without reason, for Peg was so intensely real, so vitally sincere and so lovably human, that one could no more help loving her than one could help loving the violets and the wild flowers in the spring.

Every word in "My Irish Cinderella" is just as lovable as the other Peg, and "My Irish Cinderella" will be the attraction at Griffin's Opera House next Friday night.

JAPANESE SCHOOLBOY WILL DRIVE AWAY "BLUE DEVILS"

A comedy that will prove a most effective antidote for the blues or anything faintly resembling them, is "Hashimura Togo," a fascinating screened version of Wallace Irwin's own Japanese schoolboy stories which are so familiar to readers of the magazines and newspapers of this country. Sessue Hayakawa, the well-known star of "The Bottle Imp," "Alien Souls," and other productions is the star of the production, and he has been able to lend to the character of Togo all the charm and humor of his great genius.

Margaret Fotham will present Hashimura Togo" at the Palace Theatre this Monday, Tuesday and Wednesday, matinee and night.

WHAT THEDA BARA SAYS

Miss Theda Bara who appears in the startling and tremendously powerful photoplay, "The Serpent" a play of Russian peasant life in which she is seen as the daughter of a serf, and which is announced as the feature offering at Griffin's this Monday, Tuesday and Wednesday, has issued a warning to all "screen-struck girls. Miss Bara is deluged with queries as to the best way to get into photoplays, nor are the inquiries all from young people. "If the average girl only knew the sacrifices necessary to obtain success in motion pictures, she would certainly consider before electing to enter the business," she says. "Here are the demand made on the time of the motion picture actress are greater than those made on the time of the women engaged in the pursuit of any other art.

HASTINGS COUNTY READY FOR VICTORY LOAN

Splendid Organization Formed to Spread the Advantages of Canada's Great Victory Loan Before the People as an Investment and Patriotic Duty

Very few people have any idea of the magnitude of the work connected with Canada's Victory Loan. For three weeks Mr. W. B. Deacon, the County Chairman, has been tireless in organizing and has succeeded in surrounding himself with an organization which is well nigh perfect. It is not a question of Belleville in this matter. Every village and hamlet and farmhouse right back to Nipissing District will be organized and canvassed. Mr. Deacon and Mr. W. B. Evans have travelled all the county from end to end and are handling the entire undertaking in a purely business-like manner. Teams have been formed to cover the entire field, and these teams are composed of men who have made it their business to sell. They are men of weight in their localities, and better than all, they are giving their entire time to the placing of these bonds. They will do nothing else for the duration of the campaign. The names of the members of these teams appear below and one can readily see that no effort has been spared in securing the very best men of each community in the County. These men as well as the team members of Prince Edward County, Lennox and Addington, and Northumberland will hold a grand rally in Belleville on Wednesday next, Nov. 7th. They will be addressed by Mr. W. H. McKinnon of Toronto, the Eastern Divisional Organizer. This address will be in the form of instruction for the carrying out of the undertaking, as well as to inform them with the knowledge of the patriotic nature of the work. They will know that they are doing more than that is as necessary for the success of the war as is that of our glorious soldiers fighting in France. They will be instructed to impress upon the people that they visit the necessity of subscribing liberally to the Victory Loan. Because the Victory Loan falls down the money that could have been subscribed will be no good as the war cannot be won without money.

PUBLIC MEETING NOV. 12TH

Throughout the country there will be public meetings held on the evening of November 12th. Belleville will have a famous speaker from Toronto, and the local speakers are expected to give their services to the Publicity Committee for that night. Belleville is famous for its public speakers, and they have never used the organization powers in a better cause, and they will be called upon and assigned to different communities for that date. Lieut.-Col. E. D. O'Flynn has this end of the publicity in hand, and he reports excellent response from the public spirited citizens of Belleville. Col. O'Flynn is also calling on local speakers from every community in the county to give this evening to the cause.

LOCAL ORGANIZATION.

While Belleville, being the county seat is the headquarters of the Victory Loan, the committee rooms on Campbell street are by no means local, but the rallying centre of activity. In this office at all times will be found Mr. L. R. Terwilligar, the county secretary, and Mr. Terwilligar will be pleased to have any one call and learn the loan explained. He is a very busy man now and glories in it. The publicity committee expects the co-operation of every citizen of Belleville in boosting for the loan. Make Canada's Victory Loan known to every man, woman and child in the county by talking, by placing advertising matter in windows, by displaying Victory Loan stickers, which can be secured at Headquarters, 10 Campbell St., or automobiles, buggies, autos, by lending space in their advertisements, and by boosting in every conceivable way for the success of Canada's Victory Loan for 1917.

A CHALLENGE FROM QUEBEC

The political clique which appears currently rules Quebec and claims ability to swing the province as one man at the polls by appeals to race and creed prejudices deliberately challenged Canada through Premier Borden, and demanded the withdrawal of the Military Service Act which did not fit in with their scheme of colonizing and conquest of the vacant spaces of Canada in order to fasten thoroughly the French language and institutions firmly upon Canadian life. The Quebec clique threatened Sir Robert Borden with political death and Canada with the amputation of a province which they would pluck out of Confederation if their demand were not granted. Backed up by the press, soap-box orators and dynamiters, with threats of violence and death to the Premier and members of parliament, the noisy campaign continued, but Canada accepted the challenge and faces the political manipulators and their allies and dupes with the front of Union Government standing men of both parties have buried their politics to show the world that Canada is loyal to her soldier heroes and is patriotic first and political last. It is up to the electors to make the endorsement of Union Government so thorough and unmistakable that political tricksters will know at all time that they are wasting their time trying to stir up trouble and dissension here when outside foes menace the nation. The Huns without will fall before the mighty patriotism of Canada united and the pertinent demands of

in a long leading editorial upon the

duty of the hour comments in part

as follows:

"In his Vancouver speech the Hon. J. A. Calder turned the searchlight upon recent proceedings at Ottawa, and showed why he and other Liberals, who regard the adequate reinforcement of the Canadian army corps now operating in Flanders as the supreme duty of the Canadian people, can no longer follow the leadership of Sir Wilfrid Laurier.

"Mr. Calder was not only an ardent supporter, but also an intimate personal friend of the

Liberal leader. He says that Sir Wilfrid told him he did not believe in the principle of the selective draft, and if he was returned to power would not enforce it. 'When he said that,' Mr. Calder told the people of Vancouver, 'I, knowing what I did of conditions, realized that I simply had to part company with him.'

* * *

It was a choice between needed bayonets for the front and submission to the authority of a party leader who refused to promise immediate and effective aid for the men who are standing between us and the world-wide rule of brute force. Mr. Calder turned away from his leader sadly, as many other Liberals have turned from him. Such partings are always painful, but it is to the credit of men like Mr. Calder that they have the strength of will to choose the path of duty and follow it, regardless of the frowns and jibes of former friends. The Globe is glad to support Mr. Calder and his Liberal fellow-members of the Union Government in giving heed to the insistent call of conscience. It is in better company when doing so than it would be in were it consorting with men so lost to all sense of fairness as to speak of the Liberal Unionist Ministers as 'a bunch of sharks, moustachbanks, and misfits.'" Had it fallen to the lot of Sir Wilfrid Laurier to form a Liberal Government we may be very sure that most of the men who now represent conscriptionist Liberals in the Union Government would have been invited to join it.

CRISP COMMENT

Beersheba has been taken, but Dan is still carrying on a vigorous offensive in the matter of C.N.R. purchase, remarks the Toronto Globe.

* * *

Speaking in London recently, Lloyd George said: "One of the reasons why we have succeeded beyond expectations in destroying so many German submarines and protecting our merchantmen is due to the insight, courage and persistency of Sir Edward Carson." I fear he will not be popular at Petrograd.

* * *

Sir Edward Carson can afford to follow his upsurging grief about being unpopular at Petrograd.

* * *

The city of Hull sued the Great West Life Insurance company for six years' taxes at $50 a year under a bylaw requiring insurance companies doing business within the limits of the city to pay an annual tax of $50. Mr. Justice Chauvin, in Hull yesterday, decided that, as the company had no office in Hull, and any business done by it had to be sent to the head office in Winnipeg or to the office in Ottawa or Toronto, the company was not "doing business within the limits of the city of Hull." Is this not a strained interpretation of the law.

* * *

Much of the apparent insurgency in Liberal and Conservative ranks will disappear when the fact sinks in that the soldier vote will be a big factor, and that the government will designate who will be the recognized Union, Opposition or Labor candidates. The soldiers' ballots will be printed, space to mark the voter's choice for Union, Opposition or Labor and these votes will be apportioned only to candidates as officially recognised by the Government. The rush of opportunists to claim union principles now will avail little, the Union candidates will be recognized by the Joint Cabinet upon past record only and eleventh hour repentance will not save a single sinner.

Daily Progress of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

Liberals of Frontenac decide that unionist candidate must be placed in the field.

A union convention will be held at Whitby for South Ontario this afternoon.

Liberal win-the-war convention is called to choose a candidate in Brantford tonight.

Young Liberals of Stormont and Glengarry meet in Cornwall Tuesday to secure a straight Liberal candidate.

Col. Wm. Coles was chosen in London by the Great War Veterans as soldiers' representative and win-the-war candidate.

The Social-Democratic party has decided to contest several seats in Toronto. Isaac Bainbridge has been asked to be a candidate.

The Central Liberal-Conservative Association of Toronto decides to defer calling conventions in Toronto pending a conference with win-the-war Liberals.

Committees recently appointed by both political parties of North Waterloo to consider selection of union candidate, differ on powers, and convention is delayed.

At a meeting in Hamilton for the purpose of nominating Union Government candidates, Major-Gen. Mewburn nominated for East Hamilton, and T. J. Stewart, late member for West Hamilton, was renominated for that seat. On the platform were six Liberals and eight Conservatives.

OTHER VIEWS

IF UNION IS BROKEN

Winnipeg Telegram.

If the Union Government is beaten next December the whole world will accept the decision as Canada's notice to quit.

To prevent the disgrace of such a happening no precaution is sufficiently trivial to be neglected.

THE NEWSPAPER OUTLOOK

London Advertiser.

If the price of newsprint is increased as a result of the second inquiry into the cost of manufacture which is again proceeding before Commissioner Pringle at Ottawa, many newspapers will be compelled to close up, shop or amalgamate with their competitors. Several rumors are now in circulation to the effect that certain cities of the Province will soon be compelled to get along with a "neutral" newspaper, which will be a combination of two political policies. Newspaper costs have risen by great degrees since war began.

A ROLAND FOR AN OLIVER.

London Daily Express.

The wife of a prominent public man who was recently knighted has been doing excellent war work of late in connection with one of the Government departments. Having a sense of humor as well as a sense of her own dignity, she tells the following story on herself:—She was driven in one of the Government motor-cars to a committee meeting, and on leaving the car the good-looking young woman who acted as chauffeuse turned round and said: "How long do you think you will be? When shall I call?" The committee woman answered: In one hour; and while you are about it, you might as well address me as 'milady.'" Thereupon the chauffeuse replied: "Oh, very well, milady, and, while you are about it, I think you might also address as a chauffeuse, because I am the wife of ——." And she gave the name of a well-known baronet.

CONSERVATIVES AND LIBERALS

London Free Press.

A Conservative is a Conservative. A Liberal is a Liberal. A Unionist is a Unionist. The Union Government is neither Liberal nor Conservative, but can it be. Except the eight or ten Liberals who are members of the Union Government are traitors to Liberal principles, they are Liberals still, and the same is true of the Conservative ministers.

The issues in this election lie between the principles as set down by the Union Government and the party led by Sir Wilfrid Laurier. This does not preclude a candidate from running as a Conservative, any more than it prevents a Liberal or a Labor man from being candidates. If a Conservative accepts a candidature as a Unionist, then if he is honest he is a Unionist and cannot properly be classified otherwise.

If a Conservative be chosen as the Union candidate, it follows that he has accepted the principle of Union for the period of the war, and that he will give his support to the measures that are brought forward by the Government at Ottawa that be composed of Liberals and Conservatives alike.

An Important Discovery For Swollen Veins Relieved

That Absorbine, Jr., would relieve varicose veins was discovered by an old gentleman who had suffered with swollen veins for nearly fifty years. He had made many unsuccessful efforts to control and finally found Absorbine, Jr., knowing its value in diminishing inflammation and soreness in muscular troubles.

Absorbine, Jr., relieved him and after he had applied it regularly for a few weeks the veins began to look more as smooth as when he was young and all the pain and soreness had ceased.

Thousands have since used this antiseptic liniment for this purpose with remarkably good results.

Absorbine, Jr., is a powerful germicide of oils and extracts from pure herbs and when rubbed upon the skin is quickly taken up by the pores; the blood circulation in surrounding parts is thereby stimulated and healing helped.

"HARD THEY DO NOT KEEP—IS SUPPLIED

COLBORNE, Nov. 3.—Driver G. M. Teasdale of this place celebrated on Oct. 13 his fifty-eighth birthday doing his bit in France at the front. He went overseas early in the war. Writing home he says: "I am fifty-eight years old—pretty old to be in the war but I can't be beat. I am in the finish. Remember me to all the boys and tell them to join the ranks and help win the war."

"There was about four months in the spring," Driver Teasdale says, "that I did not see a civilian of any kind, but where we are now there are lots of them, and some are killed nearly every day. I saw one woman hit yesterday on a street next to ours, and if Fritz had thrown another shell two minutes later he would have got a hundred, for they were running out of every house to see what the matter was. But it was 'only' one woman killed, another wounded and a little girl hurt.

"I am in the best of health. This is healthy work if you can dodge the hard-heads.

"The Canadian army has done itself proud in the war, and all the countries admit it, and that is a big thing for Canada. It seems kind of hard that they do not keep us supplied better with more men, as it will be a shame if we cannot keep our end up till the war is ended."

Twenty thousand enemy patents are now available for manufacture under license in the States.

FORD HAS TO DISBURSE $60,000,000 PUT AWAY

DETROIT, Nov. 3.—The suit brought against the Ford Motor Co., and Henry Ford, by John F. Dodge and Horace E. Dodge, to compel Ford to disburse accumulated dividends to the stockholders, instead of using the money to increase the company's business, was decided in favor of the Dodge brothers. The decision was announced by Circuit Judge Hosmer. Witnesses testified several weeks ago that about $60,000,000 was involved. The Dodge brothers, who are stockholders of the Ford Motor Company, attempted by injunction to prevent Ford from using his company's profits to erect great blast furnaces at River Rouge, near Detroit.

Little Sister Pushed Bed Clothes Into His Mouth

CHATHAM, Nov. 3.—Robert, the four months old son of Pte. and Mrs. Robert George, met a peculiar death yesterday. The mother left him in bed while she lit the fire. The little girl pushed the corner of some bed clothes into the little fellow's mouth, England as a member of the Canadian and he strangled. The father is in France.

STANFIELD'S

Unshrinkable UNDERWEAR

Owes its Popularity to the Very Best of Wool

Of the kinds of wool needed for the favorite lines of Stanfield's Underwear, the finest grades are purchased in Canada. We grow the cream of the market, so that we are able to assure just what we want in weight and length of fibre—in fact, we get the pick of the kind of wool best suited to the many different weights and classes of Stanfield's Underwear.

Our practice is to buy our wool supply months ahead of requirements. This gives plenty of time to grade it accurately and clean it thoroughly. During the cleaning and before it goes to the machines to be spun and knitted, the secret Stanfield's process takes the "kinks" out of the wool.

Made up into garments, this wool is delightfully soft, and so strong and durable that Stanfield's actually costs less per year of wear than the cheaper, less comfortable kinds.

Stanfield's Unshrinkable Underwear

For the growing child, Stanfield's new Adjustable Combinations and Stanfield's Sleepers (with feet) are simply perfect. By means of the special buttons each combination or sleeper can be kept just the right length till it is worn out, and the feet part of the sleepers can be easily removed.

ITALY TO RESIST AND CONQUER

Cadorna Says that His Army Will Avenge the Country's Invasion

ROME, Nov. 3.—"The army is determined to resist and conquer, to answer the cry of pain issued from the country's sacred soil," General Cadorna, Italian generalissimo, declared to-day in a telegram to Premier Orlando. His message was evoked by the new Premier's telegram apprising Cadorna of a union of all political elements and Rome's unlimited support and confidence.

"Let the country have confidence," General Cadorna concluded.

Italian newspapers all over the country to-day commented on the nation's extraordinary calm under the threat of the Germanic invasion.

The evacuation to the new battle lines has been carried out without serious loss. Every report from the front emphasized that the army was still of fighting efficiency.

Bourassa on "Why Peace Comes Not"

Could Not be More Objectionable if Meant to Make Allied Mischief

MONTREAL, Nov. 3.—In Le Devoir, Henri Bourassa, has an editorial on "Why Peace Does Not Come," which could not be in more objectionable terms if it was designed to make mischief among the allies.

"If the war, he says, lasts another year the two great Anglo-Saxon nations will be masters of the finance, industry and commerce of the world. Therefore Lloyd George appeals to France to fight on for Alsace Lorraine, Britain meantime reserving her man power for after the war commerce.

"It is needless to add," he proceeds, "that if Germany were to offer England, France and United States the undisputed mastership of finance and commerce, peace would be arrived at right away no matter whether Alsace Lorraine were restored to France and no matter if the liberation of all small nations were effected."

Offensive Towards Wilson.

Equally offensive is Bourassa's charge that President Wilson is insincere in his demand for the democratization of Germany.

Bourassa writes: "It is not because he claims divine right, or because he built up the most powerful army of the world that the money barons hate Wilhelm. It is because he brought German industry up to such a point of efficiency that if threatened English supremacy and American ambitions. It is because he reduced to a minimum social disturbances among the German proletariat and made their lot (excepting Military Service) much better than that of English and American workers."

Yoke As Heavy As Prussia's

"When we see the Anglo-American plutocracy imposing on the English people, on the American people and on ourselves here a militaristic yoke as heavy as that of Prussia, when we see them trampling under foot all political and civil liberties and when we see an autocratic oligarchy constituting itself into a body as arrogant as the Prussian Junkers the high sounding words of Lloyd George, Mr. Wilson and of our own local parrots on the necessity of crushing the autocracy of the Hohenzollerns and Prussian militarism become but the most nauseating hypocrisy.

"No, if instead of putting millions of men to the slaughter the world had simply jailed a hundred or so of the financial brigands, this war would not have happened. Even if it were done to-day, the slaughter would cease."

Bourassa says that when Lord Northcliffe says the end of the war is a long way off, the wish is father to the thought.

SEVEN YEARS TORTURE

Nothing Helped Him Until He Took "FRUIT-A-TIVES"

ALBERT VARNER

Buckingham, Que., May 3rd, 1915.

"For seven years, I suffered terribly from severe Headaches and Indigestion. I had belching gas from the stomach, bitter stuff would come up into my mouth after eating, while at times I had nausea and vomiting, and had chronic Constipation. I went to several doctors and wrote to a specialist in Boston but without benefit. I tried many remedies but nothing did me good. Finally, a friend advised "Fruit-a-tives". I took this grand fruit medicine and it cured me well. I am grateful to "Fruit-a-tives", and to everyone who has miserable health with Constipation and Indigestion and Bad Stomach, I say take "Fruit-a-tives", and you will get well".

Explosion Wrecks Cement Silo

An accident of an unusual character occurred this week at the farm of Mr. N. J. Fleming, near Pickering, when his fine large cement silo was destroyed. The silo was sixteen feet in diameter and fifty-one feet in height, and contained the product of 35 acres of corn which was valued at least at $2,000. A terrific explosion was heard which could be heard at Dunbarton, a distance of four miles, but which was taken for distant thunder. The explosion was due to the generation of gas from the fermentation of the ensilage, and which could find no way of escape. When the explosion took place the silo toppled over. No time was lost in making preparations to save the ensilage. Metal silos much smaller in size is being put through the cutter again, and it is hoped that the greater part of it will be saved.

Profiteering by Retailers in Food to be Made Impossible in U.S.

WASHINGTON, Nov. 3.—Profiteering by retail dealers in foodstuffs will be made impossible after November 1, the Food Administration announced tonight, under a plan to cut off supplies to those not satisfied with reasonable margins. Manufacturers, wholesalers and other handlers in foodstuffs whose business will go under license, will not be permitted to sell to distributors who seek undue profits.

"This is one of the most sweeping safeguards," the announcement said, "against high prices which will be incorporated in the licensing system for which complete rules and regulations will be made known within a few days."

This plan, food administration officials declare will give the Government entire control of retail prices. Wholesalers and jobbers will continue to sell to retailers after they are forbidden to do so by the food administration will be denied the right to sell goods under license.

THREE ALDERMEN PLACED ON TRIAL

CHATHAM, Nov. 3.—Ald. Baxter, Brisco and Cantsworth went on trial in the Supreme Court, before Mr. Justice Clute and a jury. They are charged with an attempt to solicit some consideration from the Chatham Gas Company to influence their vote on a by-law providing for the purchase of a portion of the company's business by the city. T. Agar of Simcoe and W. G. Richards of Chatham are conducting the case for the crown, T. Scollard of Chatham is appearing for Ald. Baxter, J. Fraser of Chatham for Ald. Brisco, and Mr. Bingham, Q.C., Eroy of London for Ald. Coatsworth.

Evidence was given for the Crown by P. S. Coste, Manager of the Gas Company, who testified that he had been approached, and that he had been told that if the solicitation continued he would be paid $5,000 the three would not oppose the purchase by the City. He was given a hard searching cross examination, but he never varied his story.

Loading Liberals Strong for Union

Continued from page 1.

Frank Beer, and Hon. George P. Graham.

GRAHAM STRONG FOR UNION.

Mr. Graham telegraphed to say that his engagements in Ottawa prevented his attendance, but he said:

"I do not recede one iota from the position I took up in the House of Commons. The platform of the new Government shows the infusion of Liberal principles and is identical almost with that proposed by myself in the House. If that program is achieved to I will support it. Our boys at the front have to be supported and the quickest and the fairest way to accomplish this is compulsory service. This view I held when conscription was introduced. This I still hold."

Hon. Thomas A. Crerar, Canada's new minister, wasting his time on the boats, or in some town, and Hon. Dr. Beland, casualties up to October 1st totaled 15,584, made up as follows: Officers 5,859; N.C.O.'s and men 19,727.

In eight or three days casualties are being received at Ottawa; 3 to 5 officers, 60 to 80 men. Yesterday's list of casualties as referred to in the House of Commons, was 20 officers and 200 soldiers. It was also reported in Ottawa that Andrew Mc Phail is ill in hospital in England now and I am afraid we will have to break the sad news to Canadian division in France to provide reinforcements for the other four divisions."

To send 10,000 Men a Month

"We are going to get the men," said the general," we aim to get 25,000 men into uniform as soon as possible and get them over to England to be trained there. Then we will get 10,000 every month, it will be for us to see that the boys at the front to know that reinforcements are coming."

The Militia Minister made a fine impression and moved the convention to great enthusiasm, when he declared that Canada should raise not a mere 100,000 over 10,000 a month, if in the war as far as she could go, as far as she was needed.

Time Limit on Speakers

The convention first fixed a ten minute limit on movers-of resolutions, and five minutes on other speakers.

The first resolution was moved by F. J. Pettypiece, of Forest, and Geo. Michaelson, of Stratford.

"We have differed conscientiously from our honored leader," said Mr. Pettypiece. "Conscription is the best call. Look at the record of Sir Wilfrid Laurier before the war when 375 men reported, and 174 applied for exemption. The cause of the split was one man named Napoleon (Cheers and laughter.)

"The voluntary system is unfair, as it gives one man the chance to a another and call for him. What we want is conscription here if it is necessary. I refer you to the record of Sir Robert Borden as shown at Ypres and Festubert."

He argued that the conscription of wealth would naturally follow that of men.

Three Ministers Cheered.

At the point the three Ministers, Hon. N. W. Rowell, Hon. Frank Cordell, and Hon. S. C. Mewburn entered and were widely cheered as they walked up the platform.

Then the convention rose and gave them three cheers.

Ovation for General Mewburn.

General Mewburn was given an ovation and gave the convention a Gilbertian speech, candidly characterizing the home defence force as a foolish thing; and could never succeed. He at first refused to be responsible for touring the west to "make the goat," and he was.

A voice asked why Sir Robert Borden had wasted three years to pass conscription.

Quick came the retort: "Why did you wait three years to enlist, or why did any man wait?"

"I am not defending Borden or Laurier, but what I say we want to say is action." Cheers.

Women Strong For Union Gov't.

One of the most satisfactory signs of the times is the growing sense of political responsibility which is being displayed by the Liberal women of Canada.

From early morning many of the most representative women were eagerly registering at the Conservationist Liberal convention here in order that they might be entitled to a vote and thus lend their hearty support to the men.

Although the vast majority came with an enquiring mind to learn the attitude of the men, it was manifest in their willingness to firmly support any measure which stood for conscription of wealth as well as men.

Mrs. Cowper Cliff, president of the Toronto Women's Liberal Association, Mrs. Geo. Deeks stated the case in favor of Union Government, and was anxious to learn the attitude of Messrs. Pardee and Carvell, and Conservative Members, which might enable her to formulate any plans to strengthen their support.

Hon. G. G. S. Lindsay stated the women had come with open minds and although as an association the women's association had not pledged themselves, she believed they would be unanimous in their support of the Union Government.

An Army of Internal Bathers

Over half a million bright, keen, up to-date Canadians and Americans have found that Internal Bathing is more essential to their well-being than the external bath.

Have found that taken occasionally at night, they feel like different beings the next morning. No more headaches, "blues," nervous condition. Just living by Nature's own cleanser, antiseptic warm water, removed all the poisonous waste from your Lower Intestine, duly awake then, ought refreshed by a normal sleep, with all their functions acting, and healthy accord, bright, happy, clear-headed and confident, eager and capable for the duties of the day.

A Born Speculator

By JANICE BLAKE

"Dad," said Miss Jessie, "the big car we've been saving up for is for sale. Simms, no money to buy anything, has got to sell it. Simms paid $4,000 for it, bought just right and kept in perfect condition, and you have never seen such a car. You simply must let me give up trying to live with you!"

Father Martin looked very thoughtful. Undoubtedly for any kind of pleasure he did not count a way of making a living a pleasure. He was known to be a shrewd and successful lawyer, but it is notorious that a lawyer usually finds it hard to put himself in the way of anything else. When Jim had married he had just made enough to get started and when he had put that check on paper—that it, without any cash. Before his credit strike another one he set back his great wad of notes.

"Well, Betsy," he said, "you married a man noticed for the saving and grab of life, and you must take your medicine. I'll go and get the car, and something to do, but it's not anything it won't last very long. I'll probably be discharged within a few weeks."

"Not if you attend to business. Keep a close mouth and don't try to advise your employer."

"I won't if I don't see him making mistakes, in which case I shall simply throw your advice to the winds."

John Martin found a position with a man named Sidney Gates who had made quite a business on a small capital. Jim had lived within his salary for a month when he told him how he could make a lot of money by the investment of a very small capital.

"I didn't buy you to tell me how to run my business," said Gates, and after drawing a check for his salary Jim discharged him.

Jim had been waiting home cursing himself for a fool when he encountered a pal, Sag, at the door of a warehouse, having a fellow friendly with a big dray, which usually denote forced sales, he learned from Sag that a stock of copper was to be sold for a man who had gone under financially. The building was just beginning to be built up to Jim and, slipping a ten dollar bill into his hand, whispered to him to raise the first bid. Jim did as request-ed and was relieved by hearing the man who had paid him raise his bid.

But the rise in the bids was very slow. The great European war had just broken out, and Jim, who was a man who was familiar with a soldier's requirements, that some time before the composition of ammunition and knew he was instead long enough the stock of the investment of a copper would go up. He had no idea of buying the stock, for he had nothing to pay for with, but somehow it would not resist the temptation to go on bidding. He was excitement at the opening, and he was encouraged, and he suddenly found to the first that $1000.00 worth of copper had been knocked down to him. He had reached the price copper was selling at in the open market, and one had any use for this lot at any higher figure. The buyer was at once called upon for 10 per cent of the price to be paid.

Jim was equal to the occasion, and, taking one of his principal competitors by the sleeve, he said: "You wanted this copper, we did I. I don't know why you wanted it, but I have been a soldier, and knowing the necessity for copper in the manufacture of ammunition and considering the amount of ammunition that will be required by the combatants, I believe copper is going up. Within a few weeks or a few months this stock will be worth a great deal more than it is today. If you'll pay the 10 per cent required to carry it I'll take you in for 20 per cent of the profits."

"Wait a minute Ol I get the last quotation," said the man, "and I'll let you know."

The last quotation was a quarter of a cent higher than the price Jim was to pay. "Make it half the profits," said the capitalist, "and I'll go you." Jim assented. The man paid the market on the copper, and before the balance was to be paid copper had risen half a cent a pound.

Meanwhile Jim had gathered statistics as to the copper on hand and the amount likely to be required. Contracts for ammunition were beginning to come from abroad, and copper kept going up. Jim consulted his partner that the price must continue to rise, and the latter consented to hold on.

One day after the war had been going on for nearly a year the copper was sold, and Jim pocketed what was for him a small fortune. He and his wife had, on the strength of Jim's copper holdings, been able to borrow enough to keep them, and now they were in fine fettle.

"My dear," said Jim, "as I told you a year ago, you married a man entitled for his ordinary humdrum of life. They say you can't make a silk purse out of a sow's ear, but in this case a speculator has been made out of a fool."

"I expect you're right, Jim," was the reply. "You were not born for a drudge. A drudge may always be able to make a living, but he is not likely to get rich. A genius is pretty sure to get a good many times, but he finds his vocation and an opportunity at the same time he will surely lift himself far beyond his fellows."

Jim Martin met his old employer, Sammons, on the street the other day, and Simmers asked him if he knew of a good thing in which to invest some money for a friend.

Whipping a Tired Horse Does Not Give Him Strength

YOU may whip a tired horse so that he will win a race or get him tired over a fast spot in the road, but that does not add to his strength. In reality it further depletes his reserve of strength and leaves him exhausted.

And so it is with the nerves of the human body. You may by use of stimulants accomplish the work in hand or by deadening the nerves with narcotics you may stop the headaches.

Any temporary relief obtained is won at an enormous expense to the nervous system and you are left more exhausted than ever.

The introduction of Dr. Chase's Nerve Food was revolutionary in the treatment of nervous diseases, because it replaced the old idea of obtaining temporary relief with the new method of reconstructing the starved and depleted nerve cells.

Neither Do Stimulants Restore the Tired, Worn-out Nerves

The Food Cure

Mrs. A. North, Grand Street North, Hereford, Que., writes: "Both my husband and I can speak very highly of Dr. Chase's Nerve Food, having used it with splendid results. My husband suffered from weakness and a run-down system, and became so bad he finally had to give up work. He also had spells of melancholia. He commenced using Dr. Chase's Nerve Food, and after a treatment of this medicine I never saw such a change in anybody. He is now able to attend to his work, and is enjoying splendid health.

"Before I started taking Dr. Chase's Nerve Food I was troubled with nervousness, sleeplessness and a pain around the heart. The Nerve Food built up my system, made me feel stronger in every way, and relieved me of the annoying symptoms from which I had suffered. We always keep Dr. Chase's Nerve Food in the house ready for use in case it is needed."

A fair patience is required to follow out this building-up process, but this is the only way in which diseases of the nerves can be really cured. The nerves are starved for proper nourishment. You supply the nutrition in Dr. Chase's Nerve Food. The results are certain, because you are working hand in hand with Nature.

As strength is restored the appetite is sharpened, digestion improves, you get the good of the food you eat, headaches disappear, you find yourself gaining in confidence, in vigor and in energy. You begin to have new ambitions, to enjoy your work and to feel again that life is really worth living.

Incomes to Pay Heavier Tax

HAMILTON, Ont., Nov. 3.—An audience which filled every available foot of space in the Connaught Hotel, was last evening carried to the highest pitch of enthusiasm for Sir Robert Borden's Union Government by the simple, unvarnished statement of the cause of Union Government by Hon. Frank Carvell, Minister of Public Works, at an open meeting of the conservative Liberals. Mr. Carvell dealt with his subject as if he were having a heart-to-heart talk with a few intimate friends. He told why he had abandoned a leader of many years for Union Government, but, above all, he told of a few things that Union Government has to face and a few things that Union Government intends to do, and if there were any in the hall who did not agree with him at the outset, his entire audience was with him when he closed.

Mr. Carvell gave notice of a substantially heavier income tax, which is to be imposed, he hoped shortly, after the new Parliament first meets. He opined that the rich man would, under this tax, pay a great deal more to the state than ever before, and he declared that the war tax will affect men of all incomes, on the principle that all men should contribute to ease the country's tremendous financial burdens.

Ten States have been ordered to send the balance of their quotas of drafted men to the cantonments tomorrow.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

The sole head of a family, or any male over 18 years old, who was at the commencement of the present war and has since continued to be, a British subject or a subject of an allied or neutral country, may homestead a quarter-section of available Dominion Land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at Dominion Lands Agency or Sub-Agency for District. Entry by proxy may be made on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of land in each of three years.

A homesteader may, if he so desires, secure an adjoining quarter-section as a pre-emption. Price $3.00 per acre. Residence duties must be performed in each of three years after homestead entry (including the time required to earn homestead patent) and also cultivate fifty acres extra. A habitable house is required except where residence is performed in certain districts.

A settler after obtaining homestead patent, if he cannot secure a pre-emption, may take a purchased homestead in certain districts. Price $3.00 per acre. Must reside six months in each of three years, cultivate fifty acres and erect a house worth $300.00.

Holder of entries may count time of enlistment as if homesteading in Canada during 1917, so residence duties under certain conditions.

When Dominion Lands are advertised for sale for entry, returned soldiers will have special privileges and have been granted a reduction of fifty per cent. in price for 160 acres purchased. Apply Secretary of Interior, or Agent or Sub-Agency for district. Agent's Office (not sub-agency) for Dominion Lands must be procured in person to secure entry.

W. W. CORY,
Deputy Minister of the Interior.

EXPLOSION DAMAGES SUB, YARDS AT KIEL

Ten Persons Were Killed or Wounded German Paper Says.

COPENHAGEN, Nov. 3.—The Kiel Neueste Nachrichten reports that through the explosion of a torpedo in the submarine yards at Kiel a submarine vessel was badly damaged and ten persons were killed or wounded. The newspaper says that "all other reports are without foundation," referring probably to reports of extensive mutinies in which various ships are said to have been damaged.

Thin, Weak, Nervous Men Need Zoetic

Men who are daily absorbed under the strain of modern business—men who tax their nerve energy to the uttermost—the help of this world's greatest tonic.

Zoetic is a scientific preparation compounded from the most powerful nerve restoratives. It is a rich properties of phosphoglycerides which form the principal constituents of the brain, nerves and marrow of the bones.

All vitality and nerve force lost in early indiscretion, overwork, worry or disease is quickly and positively restored under prescribing Zoetic. Its use means the building of solid flesh, the enrichment of the blood, the steadying of the nerves and invigoration of the entire body.

Upon the Numerical Strength of the Foot Soldiers Depends the Size of the Other Branches—Vital Importance of Industrial Resources.

In every army of the world the foot soldiery, or infantry, form the main fighting force. All other branches of the service are organized in ratio to the strength of the infantry. Thus the number of cavalrymen enlisted depends upon the numerical strength of the infantry organization. For this reason, in considering the numerical units by which infantry may be estimated.

First comes in the squad made up of eight men under the command of a corporal. A platoon made up of five squads and comprising from forty to fifty men is under the command of a sergeant or lieutenant. A company comprises two, three or four platoons is under the control of a captain. A company of infantry contains from 80 to 200 men. Four companies make up a battalion under the command of a major, while battalions form a regiment led by a colonel. Three regiments form a brigade under the command of a brigadier general, and three brigades form a division. These divisions, if they represent various branches of the service, are grouped into a corps or field army. The division is commanded by a major general as is also the field army.

"The army" in its entirety consists of as many field armies as a country is able to muster, plus the entire military organization and its accessories.

There are a few slight differences between the divisions of infantry organizations, for the infantry company in cavalry terms becomes a troop and the battalion becomes a squadron.

In the artillery branch of the service there are some slight variations. At the present time we hear much about the coast artillery, which is made up of fixed or stationary cannon, set in batteries made up of two or more guns within proper fortifications at various strategic points where they may effectively oppose naval attacks. Artillery for fortifications is of a character similar to coast artillery. Siege guns are of as heavy calibre or power as the guns used in fortifications, but are mounted so that they may be moved with motor power or "run from one point to another. Field horse and mountain artillery are exactly what their names imply—the former always the guns of an army.

Then we have the third main "arm" of the army. The smallest unit to which any two of these arms are joined to form a military brigade, which sometimes includes light artillery. This we may call the height of the unique "mixture" unit, while the division is the smallest "mixed" unit—but the smallest unit made up of infantry, cavalry and artillery.

The whole strength of a field army or corps (throughout the world) is between 30,000 and 40,000 men. The field army is supposed to contain representation from every branch of the army organization, and to be able to act as a complete and independent unit.

Virtually every activity of civil life is represented in the army organization, either on its technical or administrative side. The more one delves into army organization the keener becomes the appreciation of the necessity of properly classifying every civilian of military age, that in emergency he may be called forth to serve his country in that capacity in which he is best fitted to give the highest results. Every tradesman, mechanic, laborer, professional man, artist or poet can be fitted into the vast organization when in such a way that his vocation or avocation will be turned to his country's advantage.

Wars are no longer entirely decided on the firing line. They are, rather, struggles between the resources of nations, and that country possessing the greatest industrial stamina is almost certain to win, provided it has a reasonable representation of arms in the field.

The private soldier, standing at the bottom of the army status, has nine steps to climb before he arrives at the top—a general. His first promotion is to corporal, and the next to sergeant. He is elevated to these grades by his regimental commander. The next step to a commission, bearing the president's name was formerly the most difficult to negotiate, but it is now fairly easy to take for men who honestly possess the qualities necessary to make the right kind of officers. After he becomes a second lieutenant time and opportunity will give the man his first lieutenancy and later a captaincy. Next he becomes a major. Depending upon the major stands the lieutenant colonel, who is one grade below a colonel. At the top, for final reward, is a general's star.

Easy as the ascent seems to the layman, a superficial examination of the facts will prove it a difficult climb, but by no means a forlorn hope.—Richard Smith in Leslie's Weekly.

Nervous Ailments

Few people realize that nervous ailments often arise from digestive troubles. Unable, for some reason, to digest food properly. Then the system languishes and the nerves are exhausted. Instead of striving to cure these nerves, the nourishment is carried to the nerves by the blood. It will be seen what an important connection exists between the stomach, the nerves and the blood, and how such troubles as nervous headaches, nervous dyspepsia and insomnia may begin.

In such cases relief is easily obtainable by means of Dr. Williams Pink Pills. These pills replenish the blood with the food elements on which the nerves thrive. At the same time they exercise a tonic influence on the digestive organs, enabling the system to derive nourishment from the food taken. By this perfectly natural process nervous ills are steadily dispelled by Dr. Williams Pink Pills. If you are suffering from nerves, or require a blood-making tonic, give these pills a fair trial, and see how speedily the best of health will be yours.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

DEATH NOTICES.

PATERSON—In Toronto, on Friday, November 2nd, 1917, Isaac Paterson, aged 30 years.

The funeral will take place from the residence of her mother, Mrs. W. H. Gill, corner of North Front and Moira streets, on Monday 5th inst., at 2.30. Services at the house at 3 o'clock. Interment family plot, Belleville cemetery.

In and About The City

OUT ON BAIL

The young man, S. McDonald, who was taken in custody charged with being implicated in the theft of an auto from Napanee, by the mad Henderson, has been allowed his liberty by furnishing bail. The author ties are making every effort to locate Henderson, who is wanted on several charges.

DIED IN TORONTO

Mrs. Ida Fayola, a former Belleville, died in Toronto Hospital yesterday morning after being ill for some time. Deceased, who was in her 43rd year, was the second daughter of the late Mr. W. R. Gill of this city where she was born and lived the greater portion of her life. She was a member of the Methodist church. In addition to the husband two sons of tender age survive. The remains have been brought here for interment.

NO TRACE OF BODIES

A paddle belonging to a canoe which overturned in Drag Lake causing the death of two hunters, Lee Lindsay and John Laking, was found this week, but up to the present time there has been no trace of the bodies of the victims. They were drowned some days ago whilst duck hunting.

BARN DISCHARGED BY FIRE

Mr. Milton Green of the 6th Concession of Rawdon suffered a serious loss on Thursday evening last about 6 o'clock when his barn containing the season's crop of hay and grain were totally destroyed by fire. Spontaneous combustion is supposed to be the cause.

A PECULIAR ACCIDENT

On Wednesday evening some of the boys were removing machinery from Mr. W. Graham's at Sidney, when that gentleman gave pursuit, requesting them to bring it back. At the point a buzzy driven by a party from Rawdon came along and striking, as we understand, a post and with the result a piece hit Mr. Graham inflicting a serious wound. Mr. Graham was carried to the house in an unconscious condition.

THREE very important points are definitely proven by the stupendous fact that thirty different artists have stood beside the new Edison and sung or played in unison with their re-created voices, before over 1,000,000 people in the United States and Canada, and over 500 newspaper critics have stated in their own columns that it is absolutely impossible to distinguish the *artist* from the re-created voice.

These three points are:—

1st. That the New Edison flawlessly re-creates *every* form of music, because these tests have been given by sopranos, contraltos, tenors, baritones, and bassos, also by violins, flutes, cornets, and banjos.

2nd. That it is a *genuine* acid test, because the thirty artists who have made these tests in public include such famous Metropolitan stars as Marie Rappold, Anna Case, Thomas Chalmers, and Arthur Middleton, whose voices are well-known to the leading music critics, and say variation of quality cannot be instantly detected.

3rd. That the New Edison is the *only* instrument that really *re-creates* music so perfectly that it cannot be told from the original, because no talking-machine would *dare* make such a test.

You cannot weigh and consider such positive, conclusive evidence as this without at *least* deciding that

The **NEW EDISON**

"THE PHONOGRAPH WITH A SOUL"

is worth *hearing*—and once you have *heard it* and compared it with "talking-machines" you will realize that here is the instrument you *must* have in your home.

We have two booklets "Edison—his life and his favorite Invention," and "What the Critics Say," that we want you to read. One tells you about how Edison invented this wonderful instrument, the other shows what newspaper critics think of it. Call or send for them—they are free.

Potatoes Are Dear.

News from London, received lately, was to the effect that the Food Controller of Great Britain has been able to notify the order which restricted the use of potatoes to one day a week in hotels, restaurants, and clubs. Potatoes may now be served any day in the week instead of on Friday alone.

The new order was issued because supplies of new potatoes are increasing and also for the reason that there will help conserve bread. It is intimated that at the meals at which potatoes will be permitted to be used, bread may be omitted or will be served in reduced quantities.

New potatoes are now selling in London at eight cents per pound.

NORWAY SHIPS NICKEL TO FOE

How Far Down Protests Against German Sub Atrocities are Felt

WASHINGTON, Nov. 3.—Information reaching Washington indicates that Germany is on the verge of receiving considerable quantities of nickel from a Norwegian plant for use in the manufacture of tubes for torpedoes, and that some of the Norwegian papers are voicing dissatisfaction at the fact that Germany is to receive such aid in view of the sinking of Norwegian ships in U-boat campaign. According to the information reaching Washington, the Christiania nickel factory is about to resume operations, and, beginning in January, will deliver 100 tons of nickel a month from Norway to Germany.

Exportation of nickel from Norway to Germany has been practically cut off for a considerable time, and the promised supply will be of very great military value to her. The nickel is used for making torpedoes for the tubes.

The Christiania Midagsavisen, commenting on the report of the early resumption of operations by the nickel factory, and, after stating that the Norwegian Government officials are maintaining silence concerning the plan of the factory to export a stipulated amount of nickel monthly to Germany, says:—

"Looking at the matter generally, this exportation of nickel, if it is to be continued, cannot be allowed to take place in secret. If not others, at least the families of our drowned seamen have a claim to know who it is in the Government and Storthing that bears the responsibility of the German-torpedo manufacturers being able to obtain their nickel in Norway: all the more so since Norway has the honor of holding the monopoly in this field."

Will Not Prevent Act's Operation

OTTAWA, Nov. 3.—The proceedings instituted at Montreal attacking the selective conscription act and the writ of prohibition reported to be issued in connection with the prosecution of anti-conscription orators in no way affects the operation of the Act itself. What happens is that—pending the argument of the case on the merit before the judge who has issued the order or some other judge, the proceedings in the court below in this particular offence are stopped. A report from Montreal interpreting the proceedings as declaring the whole Act unconstitutional, and thus suspending its operation in Quebec is declared at the Justice Department to be wholly unfounded and ridiculous. In the case of the anti-conscriptionist speakers, immediate steps will be taken to contest any decision or order which operates in their favor.

The department is securing from its agents in Montreal a report as to just what has happened, the reports of the proceedings instituted and the orders made being rather confusing. In any event the enforcement of the Act will not be interested with. It constitutionally admits of no doubt, but if such were not the case, it would become unconstitutional only when the court of last resort in the Empire has pronounced upon it to that effect.

MARTIN LUTHER IS CLAIMED AS ALLY

Germans Invoke Him as a Foe to the Spirit of Democracy.

AMSTERDAM, Nov. 3.—On the occasion of the 400th anniversary of the Reformation, the German Evangelical League launches from Wittenburg a manifesto in which the multitudinous sayings of Martin Luther are applied at random to present day events. The manifesto rejects pacifism and thunders against the Pope's peace proposals as being invested with no religious authority. The manifesto declares:

"We especially warn against the heresy promulgated from America that Christianity enjoins democratic institutions and that they are an essential condition for the establishment of the Kingdom of God on earth. As Luther said;

"The freedom of a Christian does not depend on the forms of government, which are shaped by historical developments and the accumulated experience of nations."

AMERICAN TROOPS IN FRANCE TAKES FIRST ENEMY PRISONER

With the American Army in France, Nov. 2.—The first German prisoner of war taken by the American expeditionary forces died in a field hospital, having been shot when he encountered a patrol in No Man's Land. The prisoner was a mail carrier, and letters of some value were found on him. He declared that the German soldiers did not know that Americans were on the front or in France, the officers telling them nothing.

WORST SPIES NOT GERMANS

LONDON, Nov. 2.—Sir Richard Cooper in urging the alteration of Great Britain's naturalization laws in the House of Commons yesterday, declared that German submarines had obtained information from enemy aliens in this country concerning ships leaving British ports, many of which had been sunk without trace.

Sir George Cave, the Home Secretary, replied that the most dangerous spies in England, because they were the most difficult to detect, had not been German subjects.

HEADLIGHTS OUT CAUSED FATALITY

GUELPH, Nov. 3.—After sitting for two nights hearing all the evidence in connection with the death of Bert Galloway, the victim of the fatal auto accident on the Dramosa road, a week ago last Sunday morning, the Coroner's jury found it to be due to an accident caused by the headlights going out.

James Brohman frankly told the Coroner and the jury that when his headlights went out he did not know what happened until he found himself crawling out from under the car in the ditch. There was no evidence of excessive speeding at any time.

Jamie Henderson Who Pays for What He Gets in Phoney Checks

One James Henderson, deserted from military duty at Carleton some time ago and after leaving a trail of bad checks behind him in many places, was rounded up in New York State, and brought back to Kingston. James is again at large with his little check book, and going strong.

On Oct. 29th a "gentleman" styling himself James Henderson stole a car at Napanee and with it certainly did the sights of our country and those adjoining. Henderson posed as a Military Police Officer and might have taken as far behind the uniform and badge. He engaged S. McDonald to drive his car and agreed to pay him $6.00 a day and his board for his services. They started from Napanee and went to Belleville ,and from there to Trenton. At Trenton, Henderson tried to borrow a pair of handcuffs from the police, but failed. Then they went on to Brighton and here, they were successful in securing a beautiful pair of swivels. He had a couple of blow-outs along the way and bought a new inside tire, which he paid for by cheque.

The Castleton Stunt

Leaving Brighton, he went on up the front road, claiming to be looking for deserters. At Castleton he arrested Pte Gill and McIntyre, who were deserters from guard duty at the Cobourg detention camp. After putting them in the city jail at that point and passing a few attractive 'cheques' on the obliging merchants, he left town.

Henderson had no authority to arrest these men, and on Tuesday Bergin, Sayes and Bethune of the Garrison Police Force at Kingston, came up and brought the prisoners to Colborne where they were taken to Kingston to be tried by Court Martial.

Henderson, before leaving town, said he would be back again, and left for Havelock. Leaving Havelock, they struck north. Henderson claiming to be looking for another deserter. When they got about 10 miles north of Havelock, a front spring was broken, and McDonald started back to Havelock, where he was arrested. He claimed to know nothing about the car, and said Henderson had only hired him to drive it. Henderson was supposed to have started north for Coe Hill, when McDonald left him. He was next heard of at Bridgewater, where he hired a horse from friend Jones and drove to Queensboro and Cooper.

Here Henderson hired a soldier who was home on leave and employed on Mrs. Kane's farm, to drive him to Flinton, using his employer's car. There he gave him a cheque for $25.00. Then he said to him. "You might as well drive me tomorrow; I want to go to Denbigh." So the soldier said he would, but first he took off his uniform, as Henderson said, "we won't be able to catch any deserters if we wear the khaki." Henderson had changed his uniform for a long black raincoat and cap.

When they went on to Northbrook, where Henderson came upon a soldier, who probably had over-stayed his pass, and he arrested him. He took $50 off this chap, it is alleged, and let him go, saying he was coming back that way and would pick him up on his return.

Landed At Renfrew

The couple went on up through the north country and finally came to Renfrew. Here Henderson went to the local Police Station and wanted to enlist their help to arrest a deserter. The police were suspicious of him and asked him to show his badge, which he did. Finally he, with a policeman went out and captured the deserter, bringing him back to Renfrew. There he paid the policeman by cheque, signing himself "Sergt. McDonald."

The fellow he engaged at Queensboro was still with him and together they started out on their return trip. When about 5 miles back of Cloyne, the car broke down, the ball bearings in the front wheel being worn out. Henderson telephoned Felix Rishotte, of town, for repairs, and Mr. Rishotte sent his men back on Saturday morning.

Objected to Checks

The men fixed up the car and when finished, Henderson wanted to pay them by cheque. They said they did not want a cheque, but would rather be paid in cash. "Well," said Henderson, "my cheque is all right. I have $700 to my credit in the Bank of Commerce at Madoc." But the men wouldn't take a cheque and finally, they got $23 out of him, with the balance of $2.00 still to be paid.

The men wanted him to come to Tweed and settle up his account, but he said he had no time to make Tweed, as he wanted to catch the train at Kaladar. So they drove on to Kaladar, where Henderson also paid the driver by cheque. The driver didn't want to take it, but it was all that he could get. Henderson asked information at the station about the train to Renfrew, but the station agent, Mr. O. H. Dunn, who is supposed to know everything, said he wasn't sure, which train he took, and it is just likely, he came west.

The driver came to town on Saturday night, and when told by the chief Molyneux that his cheque was worthless, he became anxious and called up the Madoc Bank, where it was found that Henderson had never deposited a cent. The cheque was for $60.25. It is supposed Henderson had on his person $75 or $100 and is well armed, having two revolvers, and belt of cartridges and two pair of handcuffs.

The authorities are still busy looking for the modern "artist."

To Penalize Coal Strikes.

WASHINGTON, Nov. 3.—Measures to penalize strikes and lockouts in union coal fields were taken up by the fuel administration to-day at a conference with coal producers. In union districts, under an agreement signed recently, heavy penalties are provided when coal production is stopped without just cause. Non-union districts produce about one-third of the country's bituminous coal output.

Who Should Buy Canada's Victory Bonds, and Why

WHO wants to help win the war?

Who wants to give our soldiers all the support which their bravery and self-sacrifice and imperative needs demand of our gratitude and our patriotism?

Who wants Canada to do her full part in producing food, metals, ships, munitions and clothing for our fighting men; her full part in winning the war?

Who wants to help Britain to buy in Canada all she wants to buy of the products of Canada's fields and industries and labor?

From the mighty heart of Canada hear the full-throated answer roll from the Atlantic to the Pacific, echo back and up from the southern frontier, far and away into the frosty wastes of the Arctic circle:

"Every Canadian Loves His Country and will do His Full Duty"

AND every woman whose son or husband, or brother or father is fighting in France, because it means support and comfort and victory to him, sends up a prayer that Canada will provide the money to help him win the war for home and freedom.

Every boy and girl, because they want to have a part in winning the war, and in uniting Canada's name into a glorious chapter of the world's history, will help Canada to raise the money by buying Victory Bonds.

* * *

THEN from the business point of view: The farmer will buy Victory Bonds because it will enable him to continue to supply the armies and the people of Great Britain with live stock, grain and the other products of his fields. The farmer must have a market for his produce and it is essential to Canada that Britain shall be enabled to pay cash for that produce with money provided by Canada's Victory Bonds.

Canada's Victory Bonds make it possible for Canada and her farmers to continue doing business with Great Britain and our allies and it is supremely necessary that the farmer shall continue to produce, and that Britain shall continue to buy his products.

Every man in Canada who works for his living or operates a business of any kind can help himself and help Canada to win the war by buying Victory Bonds. When he buys Victory Bonds he helps to maintain that general prosperity which is essential to his own.

And the prosperity of each individual is indispensable to the nation, because it is from individuals that the nation must get the money to win the war.

It is both Good Business and True Patriotism for every Canadian to buy Canada's Victory Bonds to the utmost of his or her ability

VAMPIRE OF THE OCEAN.

"Ironing" the Devilfish is a Mode of Fleeing With Death.

"Ironing" the devilfish, the largest of all the rays and one of the largest creatures of the sea, means flirting with death. The devilfish is also known as the ocean vampire. Its scientific name is Manta vampirus, and all these names tell something of its habits. It gets its name devilfish from the fact that projecting from either side of the head is a horrible appendage which in reality is a detached part of the pectoral fin or wing. The horns, sometimes three feet long and freely movable, are used to bring food to its mouth.

These fins have been known to circle above the bow of a boat, lifting the vessel out of the water and dislodging the occupants of the boat with gallons of water. When they flop back to the surface they make a noise that can be heard far off. Exciting? Dangerous? The sport is both. The only thing that saves devilfish hunters at a time like this is preparedness. Every man must be at his station, all must obey the will of the harpooner, and if a bit of luck is thrown in the mania is killed.

The devilfish gets its name of manta, meaning blanket, from the peasants of the Caribbean sea, who are of the belief that it devours people after encircling them in its enormous wings.

The fish has prodigious strength and has been known to tow a hundred ton vessel far out to sea. An authenticated story is told of a manta that towed eight boats, lashed together, for hours until finally the crews were compelled to cut the rope and let the devilfish escape.

Its vitality is wonderful. There are records of specimens escaping after having been harpooned, lanced and shot many times with rifles of heavy caliber. It fights even after the brain and heart have been pierced. Death comes only when the spinal cord back of the brain, is severed.

TRAVEL IN THE AIR.

The Safety That Goes With Transportation by Aeroplane.

It is a new idea that the aeroplane is a safe means of transportation in safe hands, yet it is an idea that we must firmly get into the popular mind. The average citizen is still frightened at the prospect of leaving the ground and having no support except the air itself. Yet at the speed which we expect an aeroplane to maintain—sixty or eighty miles an hour—there is no means of transportation that is so safe. The obstructions that cause accidents with trains and automobiles do not exist for flying craft. A locomotive has to follow a definite track, which may cause a frightful calamity. The aeroplane is not restricted to any. Its tracks are wherever it wishes to go. There are no obstructions in the air—unless we regard "air pockets" as such—no bridges to cross, no mountains to penetrate, no signals to run by and no switches to be misplaced.

Or compare this new craft with the rough road of the automobile. The slightest mistake or even inattention on the part of the driver, going, say, forty or fifty miles an hour, may hurl the machine over a precipice or overturn it on a countryside. But even if a lapse on the part of an aviator has no such deplorable results. There are no precipices to fall from and no obstructions to collide with.

The aeroplane is even safer than some forms of water travel. The motorboat, going at a speed of forty miles an hour or even slower, is a more risky form of transportation than an aeroplane. If such a boat strikes even a small obstruction, such as a floating plank, its side is punctured and it sinks in a few minutes. But there are no such dangers in the air.

Flag of the Chinese Republic.

The flag of the Chinese republic shows five equal horizontal stripes—red, yellow, blue, white and black, reading downward. The red stripe at the top stands for China proper, the yellow for Manchuria, the blue for Mongolia, the white for Tibet and the black for Turkestan.

"She's been telling folks how young she was when she married."—Pele Press.

Old Time Spelling Reform.

Centuries ago spelling reformers published whole works in the "rational spelling" and left an interested or uninterested public to take them or leave them, as written the following, published in 1735: "A Knots Fable's in true Oyte-graphy with Grammar-oots. Therynton ar'she jooised the short sentences of the wys Cato imprinted with lyk form and order; both of which Authors ar translated out of Latin into English. By William Bullokar."

Fixed Ammunition.

It is to Gustavus Adolphus of Sweden, whose reign began in 1611, that history gives credit for the invention of fixed ammunition. In his cartridge the bullets and the charge were united in a paper case. It was not, however, until 1860 that the first successful metallic cartridge was patented by an American.

He Didn't Bleed.

Apparently So.

"No, I guess somebody stole a march on us."

Only one week remains for the men in Class One to respond to the call under the Military Service Act. In order that every man may fully understand and fulfil his obligations, the following questions and answers are given.

Who is in Class One ?

All Male British subjects, ordinarily resident in Canada, who between the 6th day of August, 1914, resided in Canada, who between the 13th October 1917, attained the age of 20 years, who were not earlier than the year 1883, and were on the 6th day of July, 1917, unmarried, or are widowers, but have no child, who

required to report for duty or be placed on active service earlier than the 10th day of December, 1917.

How should claim for exemption be made ?

Claim for exemption may be made by any man in Class One, by his employer, business associate or any relative, but it is desirable that not more than one claim be made for any one man.

Forms of claim for exemption will be found in all Post Offices and will be transmitted free by the postmaster to the Registrar.

What are the grounds for Exemption ?

(a) That it is expedient in the national interest that the man should, instead of being called for military service, be engaged in other work in which he is habitually engaged ;

(b) That it is expedient in the national interest that instead of being employed in military service, he be employed in other work in which he wishes to be engaged and for which he has special qualifications ;

(c) That it is expedient in the national interest that, instead of being employed in military service, he should continue to be educated or trained for any work for which he is then being educated or trained ;

(d) That serious hardship would ensue, if the man were placed on active service, owing to his exceptional financial or business obligations or domestic position ;

(e) That he is conscientiously objects to the undertaking of combatant service and is prohibited from so doing by the tenets and articles of faith, in effect on the 6th day of July, 1917, of any organized religious denomination existing and commonly recognized in Canada at such date, and to which he in good faith belongs.

(f) That he is exempt from combatant service because distinguished under the War Times Election Act.

How should Report for Service be made ?

Men who do not desire to claim exemption will report for service either by mail or in person.

Forms of report will be found in all post offices, and will be transmitted free of postage.

What is the next step ?

The man who has reported for service will be advised by Registered Letter as to anything thereafter required of him. He will not be

Rubber Smugglers Convicted

NEW YORK, Nov. 3.—A verdict of guilty of violating American laws by attempting to smuggle dental rubber to Norway on a Norwegian ship was brought in to-day by the Federal jury which tried Joseph Newgass, a New York importer and exporter; William S. Henn, one of his employes, and Sven Durfels, a Swede. Oscar Newman, brother of Joseph, was acquitted.

Ifs---and the Victory Loan

If you, Mr. Citizen, had a debt of Fifty Dollars coming due a few weeks from now, and

If you, Mr. Citizen, lost the Fifty Dollars which you had on hand to discharge that debt, and

If you, Mr. Citizen, knew that the safety of your home and of Mrs. Citizen and of all the Little Citizens would be imperilled if the debt were not paid—

Wouldn't you scrape up another Fifty Dollars somewhere and PAY THAT DEBT?

Of course you would. And the point is that you can raise at least a moderate sum if the need is urgent enough. Then see here:

Your country needs money; not merely wants money—needs it, must have it. It needs it to finance the purchase of munitions which the Allies are making in Canada, the munitions which afford work to thousands of Canadians and which are required in ever-increasing quantities if victory is to be won. It needs it for many other purposes in connection with the war, and remember: Upon the winning of this war depends the safety of your home and of Mrs. Citizen and of all the Little Citizens.

Mr. Citizen, your country needs money and it comes to you. It does not ask yo uto give; it merely asks you to lend, and it will pay you the urgent debt of Canada, her debt to the cause of civilization, to the salvation of mankind. Think about it. Don't only think—act. Lay by the money. Get it somehow. Be ready to subscribe to Canada's Victory Loan.

Wilson Cuts off All Festivities

WASHINGTON, Nov. 3.—President and Mrs. Wilson, together with the Cabinet wives, have put the lid on the usual winter social season.

The White House will no closed except for strictly private functions on account of the war. The ladies of the Cabinet have decided to abandon their customary Wednesday "at homes."

Gorgeous receptions at the White House and famous Presidential dinners have all been eliminated under the stress of war. The diplomatic dinners, dinner to members of the Supreme Court and the other dignitaries, the glittering army and navy reception, the Congress reception formerly marked by capacity throngs in the White House—all have been placed under the ban by executive decree.

Collapse of the social calendar comes as a climax to the general decline in Washington festivities which the war has brought in the last two years. When America was neutral President Wilson was first forced to eliminate the brilliant diplomatic receptions owing to the presence here of diplomats representing fighting powers. Then he was compelled to have two diplomatic dinners instead of the customary one, giving rise to considerable embarrassment in selecting guests.

Now Minister Panaritoo of Bulgaria is the sand in the social bearings. Recognized by the United States, but not by any other allied Powers, any dinner or reception of a diplomatic nature is practically impossible because of Panaritoo's peculiar position, in view of these increasingly difficult situations the President and the Cabinet members decided to call off all social events heretofore given on a large scale.

ROASTED QUEBEC

Gives $260,000 to Red Cross. Contrasted with Ontario's $5,100,000

MONTREAL, Nov. 3.—While the Province of Ontario has given $5,100,000 for Red Cross purposes in the past three years, the Province of Quebec has given only $260,000, so W. R. Miller, president of the Quebec Provincial Branch of the Red Cross Society, stated Monday at a meeting held in the Windsor hotel to organize a campaign for the Our Day special appeal of the British Red Cross. Caustic references to Quebec's small showing were made by Sir Frederick Williams Taylor, Huntley R. Drummond and others.

"As to this Victory loan," said Sir Frederick, "there is plenty of fire and a half per cent. patriotism in this country—what we want is more people who will lay up wealth in bonds, instead of laying up investments at 5½ per cent." Committees were formed to undertake the campaign.

Artillery Called To Kill A Canary

WASHINGTON, Nov. 3.—How one little canary bird caused consternation among an entire division of British troops and had to be killed, is told by Robert Davis, recently arrived in the United States to lecture at the officers' training camps on activities of the Red Cross in Europe.

"For more than a month on a northern sector of the line, the British had been secretly mining beneath the German trenches," said Dr. Davis. "The work was almost complete. During the operations several canary birds were on hand kept in the excavations to warn the workers of the presence of fire damp, which is fatal to the birds. One little engineer however, escaped from his job, flew into the middle of No Man's Land and alighting on a bush began to sing.

"Consternation reigned in the British lines. If the bird had been discovered by the Germans, the work of weeks would go for naught, as the enemy would easily interpret the meaning of its presence and prepare to combat the sappiug operations. The infantry was immediately ordered to open fire on the canary to destroy it But it seemed to bear a charmed life. Even the sharp-shooters failed to bring it down, as it hopped from twig to twig. Finally the artillery had to be called on. A trench gun with a well-aimed shell, blew the bird and the bush and the song into nothingness."

"Accident" is Now Called Murder

OTTAWA, Nov. 3.—Baptiste Lavoie, only son of Mrs. L. Lavoie, who was reported accidentally shot at Green Lake, 33 miles from Fort Coulonge, on Tuesday of last week, was murdered, according to the conclusion of a coroner's jury at the inquest held in Fort Coulonge. The verdict was arrived at after Coroner T. B. Davies, of Hull, had told of exhuming the body, which was found buried in a field adjacent to his home, and finding a bullet wound which could not have been self-inflicted.

Lavoie, who was seventeen years old, was shot while out hunting. At the time of his death he was accompanied by a woman named Chaussen, whose husband was on the other side of the lake, also hunting. Mme. Chaussen in her story to the authorities, claimed that Lavoie was playing with his rifle when it went off, the bullet lodging in his chest.

Taking to The Boats

By M. QUAD

Copyright, 1917, by The McClure Newspaper Syndicate.

One hour after noon on the twelfth day of February, 1865, the brig Gull, bound from Liverpool to the Cape of Good Hope, and having forty-eight souls aboard, burned to the water's edge and sank, leaving us 200 miles off the Africa coast.

There was some confusion, of course, when we took to the boats, but we got away from the brig in good shape, with no one lost or hurt and with water and provisions enough to do us for a week. We were in charge of the boatswain, and, but for a terrible accident, I know we should have pulled through without mishap or suffering. He was an oldish man, a good sailor, and he had either lit or put off in the best. Besides the crew, there were three young men and a woman and a girl. The woman was the girl's aunt.

It had come 9 o'clock or later, and some of the men were slowly, when the boatswain went forward and stood on the thwart with his arm around the mast to steady himself. I think he was looking about to see if he could find anything of the other boats. Just how it happened no one could tell, though three of us had our eyes on him when he suddenly pitched overboard. We were still pitching briskly about and perhaps it was a sharp drive of the boat which sent him to his death. If he rose to the surface he did not get near us. He simply went right out of sight and never even called out.

Little or nothing was said that night as to who should command the boat, but morning had hardly dawned when each was now about it. Being a lad not yet out of my apprenticeship, I was of course out of the question, but each of the other three sailors was determined to act as captain. From words they came to blows, and another knife fell upon us. The three young men were driven into the quarter, and the second had a savage fight with such weapons as could be laid hold of. It was a dead calm, with the sea quieted down, and a couple of sharks were lying off our port quarter. They had been there, but did not pay one see them until two of the young men were knocked overboard. It was only five seconds before both were seized and drawn under. This horrid climax to the row cooled the men off at once.

One of the sailors had been stabbed in the back, another badly hurt about the head, and the third young Englishman had his right arm broken.

The sailor who had been stabbed took command of the boat, and when things were settled down breakfast was served out. We had not to exceed two gallons of water and a dozen biscuits, and the day was hot and not a breath of air stirring.

The sand, as I now heard called Mrs. Morton, were very sick, and we were terrified at our helplessness. She was now in a high fever and raving.

About 9 o'clock the aunt sank into a stupor from which she never awakened, and all of us slept for some time. We were finally awakened by a wound-er sailor getting up and calling for water. This movement he caught sight of the man in the bow, and he rushed for sword and seized him. I ran to pull him off, but before I could reach him both had gone overboard. The two other sailor sat up, asked me what happened and then fell back and slumbered as soundly as before.

It was sunrise when the sailors awoke. With a leader these men would have suffered and endured for a week and made no complaint. They no sooner saw that the calm still continued than they began cursing and threatening, and they looked at the girl in that she covered in terror. Presently they went forward and sat close together and talked in whispers, and the girl crept over to me and said: "I know what they are planning; they intend to kill me!"

I gave her one of the knives and told her I would protect her to the last. The men talked for an hour or so and then lay down and went to sleep again.

I was half mad with hunger and thirst by that time, and I knew the best girl was, if anything, worse off. We talked in low tones of the good things we had eaten and the springs we had drunk from, and we kept our heads constantly wet with the salt water to alleviate our thirst as far as it could. At 4 o'clock or soon after the men awoke and called to me. They wanted to kill the girl. I resigned with them and told two or three deliberate falsehoods and finally prevailed upon them to wait another day. I felt they would do so and slept soundly that night. The sun came up next morning like a mass ball of fire, and my native would have told that the calm would last another day. What happened along forward soon I can never distinctly remember, for I had little reason left. There must have been a fight, for I remember none of the details. It is like trying to recall a dream of years ago. What I can remember back to was waking up in the cabin of the German steamer Bergen, very ill and very weak. We had picked up our boat the day before. In it were two living skeletons—the girl and I. We were alone, and there were two blood stained knives in the bottom of the boat to deepen the mystery. The girl pulled through as well as myself, but there was no after romance. She married an Irish lord some years later in her own, but there was no love. She was a lady bred and born, and I was only a poor sailor lad.

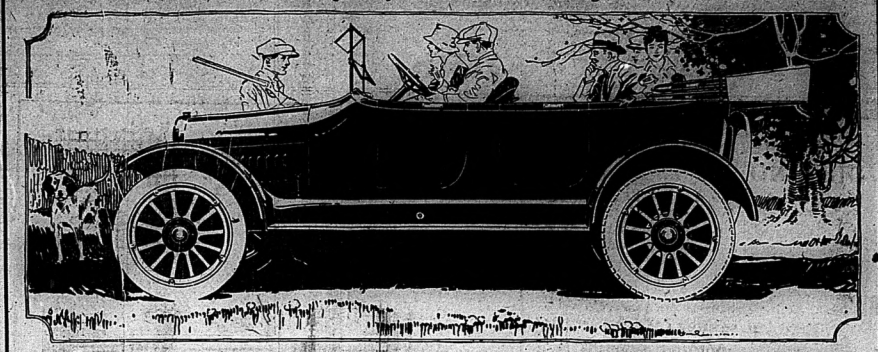
"The Quality Goes Clear Through"



THE DOUBLE GUARANTEE

TWO reputations guard your investment when you purchase a Gray-Dort.

Two liabilities are your assurance of doubly-satisfactory use and service.

Two institutions striving in united effort to maintain the foundation on which they have been built—full value to you, the purchaser.

In Chatham, Ontario, the Wm. Gray & Sons Company and Gray-Dort Motors Limited—the one hale and solid at sixty-two, the other strong and lusty in two years.

In Flint, Michigan, since 1885, the Durant-Dort Carriage Company; since 1915, the Dort Motor Car Company.

Gray—the Industry and its Builder

Our fathers and grandfathers rode in Gray Carriages—and found them built on honor and character.

In 1855, William Gray built the first of them—built them so well that Gray quality became proverbial.

Growing up in this atmosphere of big business, of successful enterprise, of worthy endeavour, was Robert Gray.

Under his guiding hand the Gray institution has been builded solidly on its original foundation—value and service to the purchaser.

When others rushed into the motor car industry, Robert Gray bided his time.

Others experimented—on the motorist.

Others gained the reputation of a day—and lost it.

Robert Gray knew that the car bearing his name must have the same underlying qualifications as the Gray carriage—so he waited.

Dort—at the Same Time, in Flint

Paralleling the growth of Gray in Canada, was a similar institution in the United States.

Blue Ribbon Buggies were to Americans what Gray Buggies were to Canadians.

J. D. Dort, too, was building in Flint, as Robert Gray was building in Chatham.

J. D. Dort, too, was analyzing the motor car industry.

In 1915, Robert Gray decided that a *good* motor car could be built and sold at a reasonable price.

In 1915, J. D. Dort, studying the situation from the same angle, came to the same conclusion.

The two men met. Their identical views and aspirations inevitably attracted them to one another.

They chose as the engineering groundwork for their organization, Etienne Planche, designer of the world-famed Pugeot motor. They surrounded him with men of equal calibre, who round out an institution unique in its man-power.

After Such Preparation—

With two institutions so solidly founded the first Gray-Dort was built.

Is it any wonder that in three days the entire 1916 output was sold?

It was to be expected that a doubled output for 1917 was heavily oversold.

The output for 1918 is doubled again—and may be inadequate.

LUCID STATEMENT OF NAVAL POLICY

LONDON, Nov. 2.—Premier Premier Asquith paid a tribute to Sir Eric Geddes' maiden speech in the House of Commons to-day. It was the most lucid and enlightening statement of the naval policy ever listened to, he said, and aptly sums up the general opinion of his hearers. In an hour and a half the First Lord of the Admiralty had amply covered the burning questions of the composition and administration of the Board of Admiralty, had dealt with the desirability of announcing tonnage losses of mercantile ships, with the general situation arising from submarine warfare, and what is being done in the construction of a mercantile fleet, and also had frankly met the criticisms of certain newspapers regarding North Sea convoy affair, Baltic intervention and the general policy of the navy in relation to offensive or defensive warfare.

Sir Eric Geddes, whose brother is known to many Canadians, made a fine figure in the front bench, with black hair and strong clean-shaven face as he presented his statement, in a clear voice, which he practically read as it lay on the table, in violation of the ordinary Parliamentary usage. But facts and figures were thereby rendered all the more clear and convincing. There was a touch of business man rather than the politician in his whole deliverance, and arguments in which he demolished superficial criticism and depended upon the facts and figures and expert opinion rather than rhetoric. The whole effect of his speech was to reassure the nation that all is well with the navy, while in no way minimizing the dangers and necessity of a supreme effort being made to retain sea power.

FARMING AND FINANCE AT BANQUET BOARD

Eleventh Annual Complimentary Banquet to the Belleville Cheese Board Tendered by Mr. John Elliott, Manager of the Standard Bank, a Great Success—Eloquent and Inspiring Address from Prof. G. C. Creelman, Commissioner of Agriculture for Ontario

The City of Belleville is noted for many things, but one annual event stands out prominently as one of the best and most enjoyable chapters in local history, one which is looked forward to with pleasurable anticipation by all fortunate enough to be privileged to participate—the complimentary banquet tendered each year to the Belleville Cheese Board members by Mr. John Elliott, the popular manager of the Standard Bank branch in this city. The eleventh gathering of this kind sponsored by Mr. Elliott occurred Saturday afternoon at the Hotel Quinte, and surpassed all previous efforts in point of attendance and interest. More than one hundred and fifty men prominent in the cheese industry in this section with other representative men were the guests of Mr. Elliott on this occasion, and at its close there was but one thought expressed, that the event was the most interesting and instructive that those present had ever experienced. No detail was lacking to make the event an outstanding success and Mr. Elliott is to be congratulated upon giving his friends of the Belleville Cheese Board a genuine treat which it would be difficult indeed to improve upon.

A Splendid Address

The feature of the occasion was the presence and splendid address of Prof. G. C. Creelman, President of the Ontario Agricultural College, at Guelph, and Commissioner of Agriculture for Ontario, a man who is an outstanding figure in Canadian life, one of the most useful citizens of Ontario, and a man to whom the food producers of Ontario, and indeed the world at large, owes much from having the benefit of his practical ability and life study of agriculture and kindred pursuits. Prof. Creelman's address was eloquent, inspiring and intensely practical, and delivered before an audience of practical farmers and food producers will have a far-reaching and beneficial effect, the only thing to regret being that such a splendid and inspiring address should not have had an audience of thousands.

Of the banquet itself, simple as to course, but altogether stately in its excellence, great praise is due to the management of the Hotel Quinte, this splendid public house of entertainment of which Belleville citizens are so justly proud. The service was good, friends reminded of "as Mother used to make" when the Minister was the honored guest, and the table decorations and appointments correct to the last detail.

The Worthy Chairman

Another large factor in the success of the occasion was the ability of the genial chairman, Mr. F. E. O'Flynn, who has proved his fitness for the office of presiding over this banquet, which has become such a popular institution by filling the position year after year with credit to the host and to himself. Saturday last Mr. O'Flynn was at his best, and the proceedings moved with a smoothness which added materially to the general enjoyment of the occasion.

A pleasing feature of the event was the singing of patriotic songs by the guests, printed cards with various popular songs being provided. Songs were also rendered by Mr. John Meehan and Prof. Staples, which were very much enjoyed, the accompaniments being played by Mrs. Campbell.

Letters and telegrams of regret were read by the chairman from a number of prominent men in the cheese industry and transportation officials who were unable through pressing business engagements to be present, and complimentary reference was made to the presence of Mr. Thos. Watkins, a veteran of the cheese industry, one indeed who is looked upon and respected as the father of the cheese industry in this district, the first factories to be established here being the direct result of his active efforts in this direction.

The banquet was begun with the asking of Divine Blessing, by Ven. Archdeacon Beamish. The first toast honored, "To Our Boys Across the Seas"—was proposed in fitting terms by the chairman, Mr. O'Flynn, and heartily responded to by the singing "Keep the Home Fires Burning", led by Prof. Staples.

Honored The Vacant Chair

In proposing the toast to "Our Host" the chairman referred to the banquet as one of the greatest events in Canada, representative as it was of the backbone of the nation, the cheese and agricultural industry generally. He referred also in kindly terms to the vacant chair at the board, caused by the death of Mr. A. M. Chapman, County Clerk, who had been one of the guests last year, but since had answered the call which knows no delay or come to all. Though absent from the board this year his memory still remains in the deep respect and warm friendship which he had inspired in life.

The toast, said the chairman, was to the most progressive banker in Canada, one who had made a special study of the relations of the farmer with the bank and to whom the food producers are indebted for the introduction of much needed banking facilities.

"Our Host"

In replying to the toast Mr. Elliott expressed his deep gratitude and satisfaction at the confidence reposed in him during his eleven years of business life in Belleville, and the splendid testimonial to the pleasant relations existing between himself and the men interested in the cheese industry as evidenced by the splendid gathering before him which typified the spirit of co-operation and the working together as one for certain results which had been attained. This, the eleventh gathering of the kind, carried his memory back to the first little banquet where only about twenty sat down, but which increased each year to this representative gathering of over one hundred and fifty practical cheese men, and it would have been even larger this year had it not been for the troublesome the farmers of Picton who must needs hold a meeting on the same day and thus keep many away who would otherwise have been present.

Mr. Elliott paid a high tribute to the value of the cheesemakers who backed up and made more profitable

STATE WEDDING AT OTTAWA

Lady Maud Cavendish Becomes Wife of Capt. Angus Mackintosh

OTTAWA, Ont., Nov. 5.—With the ultra-impressive wedding ceremony Saturday afternoon at half-past two o'clock, in Christ Church Cathedral, of Lady Maud Louise Emma Cavendish, eldest daughter of Their Excellencies the Duke and Duchess of Devonshire, and only child of Beaulieu Rideau Hall romance culminated, but an event of national and international significance was added to history's pages.

Capt. Angus Mackintosh is a hero of the present war and went through some of the earliest of the big engagements when he was severely wounded in the lung.

Long before the appointed hour the avenues leading to the church were thronged by hundreds anxious to catch a glimpse of the bride, and the distinguished guests from near and far who had arrived for the much-anticipated ceremony.

The service was fully choral and other than, however, apparent from the choice of the bride, were "And Now, O Father, Mindful of the Love," and "Praise My Soul the King of Heaven."

Among the guests were Mr. and Mrs. Ackerman of Belleville.

Twelve "Sammies" Were Captured

(Special to The Intelligencer)

WASHINGTON, Nov. 5.—The War Department announces that the commanding general of the American expeditionary forces reports that Germans raided a salient occupied for instruction by a company of the American infantry before daylight Nov. 3, with the result that three men were killed; five wounded and twelve captured or missing. The enemy's losses are unknown. One German was taken prisoner. A heavy barrage fire put down by the enemy cut the salient off from the rest of the American forces.

FRENCH GAIN 16 MILES

(Special to The Intelligencer)

PARIS, Nov. 4.—The French War Office announces that a further advance of new front have been organized by French troops on the Ailette river despite terrific artillery fire from the enemy. On the Meuse the artillery battles continue of great intensity. An important move by French forces is believed to be impending in this sector.

Liberals Divided In Prince Edward

Convention at Picton Endorsed Candidature of H. H. Horsey—Strong Plea For Union Government

PICTON, Nov. 5.—The Liberals of Prince Edward County held a mass meeting in the town hall Saturday afternoon to consider the resignation of Mr. H. H. Horsey, Liberal candidate for this riding for the past three years. In his letter of resignation Mr. Horsey announced himself as an independent Liberal, and intimated his willingness to contest the county on this platform. A letter was also read from the Conservative executive of Prince Edward suggesting that since Col. B. R. Hepburn was the only Unionist candidate for the county, that the Liberals allow him to be elected by acclamation. This suggestion was rejected, and the convention endorsed Mr. Horsey's candidature as an Independent. Strong partisan addresses were made by the candidate, Mr. Horsey, Dr. H. A. Carlow, ex-M. P., and Dr. J. M. Platt, ex-M.P., the speakers criticising the Union Government and the Liberal newspapers. That these speakers did not fully represent Prince Edward Liberal sentiment was, however, apparent from the address of Mr. James Purtelle, a lifelong Liberal, who announced himself as a supporter of the Union Government, and defended the present attitude of the Globe and other Liberal papers.

TWELVE GERMAN SHIPS ARE SUNK BY BRITISH

New Enemy Auxiliary Cruiser and Eleven Patrol Craft Sent to the Bottom in Arm of the North Sea

LONDON, Nov. 5.—British destroyers have put an end to the career of a German commerce raider in an arm of the North Sea. Copenhagen despatches today report the sinking of the raider, the Crocodile, a new vessel of about 1000 tons and, with a crew of 100 men, together with five armed German trawlers. The engagement took place in the Skagerrack, between the Norwegian and Danish coasts.

A British admiralty announcement tells of an engagement in the Cattegat, the adjoining arm of the North Sea, between Sweden and Denmark. It seems probable that the same encounter as that reported in the Copenhagen despatches is alluded to.

The statement issued by the British admiralty says: "Further reports from our forces operating in the Cattegat have been received. We destroyed a German auxiliary cruiser armed with six-inch guns and we also destroyed 10 armed patrol craft. Sixty-four prisoners have been rescued by our forces. No British losses have been reported."

Further details will be published on the return of our forces to their base."

Another Ship Sunk

LONDON, Nov. 5.—Thirty men on the German auxiliary cruiser Marie of Flensburg were killed in an engagement with British destroyers according to an Exchanging Telegraph despatch from Copenhagen. The Marie, a 3000-ton vessel, met the British destroyers 12 miles north of Kullen. She immediately opened fire, which was answered by the destroyers. In ten minutes the Marie was ablaze. Of the 81 members of her crew, the despatch says, 30 were killed and the others took to the boats. Seven wounded sailors subsequently were rescued by the Danish steamer Dalgas. Another man was picked up by the steamship Trondjem. They were landed last night. The other members of the crew are believed to have been rescued by the destroyers.

LAURIER HAS ISSUED ELECTION MANIFESTO

Sir Wilfrid's Platform Includes Removal of War Increases on Tariff, Free Agricultural Implements, Fixing of Food Prices and Confiscation of Profits

OTTAWA, Nov. 5.—Sir Wilfrid Laurier has issued his manifesto in a document addressed "to the Canadian people" the opposition leader declares his policy and outlines his aims.

On the all-important question of participation in the war, Sir Wilfrid claims that "a fundamental objection to the government's policy of conscription is that it conscripts human life only and does not attempt to conscript wealth, resources, or the services of any persons other than those who come within the age limit prescribed by the Military Service Act."

The first duty of a democratic administration would be to "find the men, money and resources necessary to ensure the fullest measure of support to our heroic soldiers at the front and to enable Canada to continue to the very end to do her splendid part to win the war." To this Sir Wilfrid adds:

"As to the present Military Service Act, my policy will be not to proceed further under its provisions until the people have an opportunity to pronounce upon it by way of a referendum. I pledge myself forthwith to submit the act to the people, and with my followers to carry out the wishes of the majority of the nation as thus expressed."

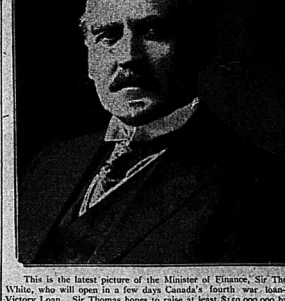
As remedies for an economic situation, "which is admittedly critical," Sir Wilfrid promises:—

Tariff reform, control of food supplies and prices, stop to profiteering, free agricultural implements, fixing of food prices and confiscation of profits.

Will Attack Austrian Fleet

(Special to The Intelligencer)

LONDON, Nov. 5.—A Rome despatch indicates that while the Italian forces hold the Austro-German armies on the Tagliamento activity on the Adriatic is increasing and Italian and other naval units are gathering for important operations against the Austrian fleet at Pola.



This is the latest picture of the Minister of Finance, Sir Thomas White, who will open in a few days Canada's fourth war loan—the Victory Loan. Sir Thomas hopes to raise at least $150,000,000 by the sale of Victory Bonds, in the period between November 15th and December 1st.

DIVISION COURT.

Division court was held here today presided over by His Honor Judge Willis. A number of cases were disposed of.

WHERE IS THAT CAGE?

Sir Mackenzie Bowell requests us to say that he will compensate the boys who on Hallowe'en night carried off the gate which protected his lawn on Bridge street, if they will return it, or give information where it can be found.

ADJOURNED MEETING OF COUNCIL.

An adjourned meeting of the City Council will be held this evening when some matters of importance, which were held over from the regular meeting held last week, will be considered.

BARN BURNED.

A fine bank barn, the property of Mr. George Thompson, of Westwood, near Fenelon Falls, on Friday afternoon, destroyed by fire with the season's crop. The fire caught from a threshing machine, which was working on the place, and the loss will be heavy.

FINED FOR DRUNKENNESS

Walter Kiser appeared before the Police Magistrate this morning, and pleaded guilty to a charge of drunkenness. The minimum fine of $10 and costs was imposed.

MANY ASKS FOR EXEMPTION

Up to the hour of noon today 430 eligibles who have passed the Military Medical Board had made application at the Belleville Post Office for exemption papers. Only four have taken out active service papers.

SOLDIERS RETURNED

Pte. Huddleston and Smith of Belleville; Ptes. Travers of Napanee; Sgt. Whitlaw, of Picton; and Pte. Brant, of Deseronto, invalided home from overseas, arrived in Kingston Saturday.

AUTO COLLISION

An automobile owned by John Grotto, liveryman, and driven by Thos. Aman, came to grief in a collision with another car on Dundas street Saturday afternoon. The front wheel was broken, fender, headlights and radiator and the frame bent. The other machine escaped with less serious damages. No personal injuries are reported.

ON SICK FURLOUGH

Lieut. Harry E. McCrudden has returned to Canada on sick furlough, and is expected to arrive in Belleville this afternoon on his way to visit his father, Mr. R. H. McCrudden, formerly of Belleville, now of Murray Canal. Lieut. McCrudden has many friends in this city, who will give him a warm welcome. He was formerly in the employ of the C.P.R. here, and was in this third year in arts at McGill College when he enlisted for overseas service, and left for the front in June, 1915, with a volunteer draft. He has had many exciting experiences in the firing line, was gassed, and repeatedly shaken out of dugouts by shell explosions.

FRESH FISH AT HATCHERY.

At the Government fish hatchery situated on the bay shore, just east of the city limits, the extracting of spawn from white fish for propagation purposes commenced to-day and will be in progress for several days. Mr. A. W. McLeod is in charge of the hatchery, and Mr. S. J. Walker from the Department of Marine and Fisheries is here superintending the work. Heretofore when the spawn has been extracted the fish have been returned to the bay, but this year, owing to the high cost of living, the procedure will be departed from. They will be sold to any one caring to come for them to the hatchery, any afternoon between the hours of 2 and 5 o'clock. No doubt this offer on the part of the department will be appreciated and taken advantage of.

KNOCKED DOWN BY HORSES.

Mrs. Lucinda Ellis, an aged woman, who resides at 170 Mary street, in this city, was on Saturday afternoon the victim of a painful accident which might have proved fatal. She was attempting to cross the street at the junction of Front and Bridge streets, which at the time was filled with passing autos and vehicles, when she was knocked down by a team of horses driven and owned by Mr. Harry Dunning, of Thurlow township. The animals did not pass over her, owing to the fact the horses were only walking. But one of the animals brought his feet upon her face, inflicting an ugly wound over the left eye and bruising other portions of her face. Mrs. Ellis was also bruised about the body. The unfortunate victim was conveyed to her home where she received medical attention. Nothing serious is anticipated from the accident.

HE CURED CHRONIC COLD WITH VINOL

Mr. Bagley's Letter Printed Here as Proof

Having had a cold settled with a chronic cough, coughed night and day, and could not get rid of it, I saw Vinol advertised in the paper, and I bought a bottle and it relieved me from the first dose. I continued taking Vinol and it completely cured me. Vinol is a constitutional builder and tones the whole system, enriches the blood and creates appetite. Then coughs and colds naturally disappear and will be relieved. It does not help you.

ONLY HALF HONEST.

Mr. Alfred Cook, 75 Geddes St, who advertised in The Intelligencer that he had lost two twenty dollar bills, but one of the bills wrapped in a bill of newspaper and enclosed in an envelope dropped in his door between eight and ten o'clock Saturday night. The conscience stricken person evidently thought one bill was enough to return but if he or she would return the other bill the advertised reward would be given to him.

Sapper Bunnett Won the M. M.

Another Belleville Soldier Wins Royal Recognition for Outstanding Bravery

In a letter to his sister of Oct. 11th, a Belleville boy tells how Carlos O. Bunnett, son of Mr. Ed. Bunnett of this city, won the Military Medal in France. Sapper C. O. Bunnett enlisted in fall of 1914 with the 4th Field Company of Engineers at Reigina and went overseas in the spring of 1916. Sapper Bunnett has been too modest to tell his family of the honor he won, and this extract from a letter is the first and only intimation they have had of it:

"Carlos Bunnett was over to see me the other day and he looks finer than I've ever seen him. Bunnett won the Military Medal and when I saw the ribbon I asked him what stunt he'd been pulling off now. He only laughed and said they issued them with the rations. But I learned the truth from another fellow in his outfit. He told me their section were caught in a pretty tight hole and suffered heavy casualties. Carlos and another chap were "put to sheep" by a couple of big "crumps" bursting near them, and when they came to they worked for several hours carrying out the men of their section who had been badly wounded. Guess it was pretty warm at the time, for there are very few of their old men left. It isn't like Carlos will ever mention it in his letters, and if he does, he will pass it off as 'nothin' much,"—but from all accounts he more than earned it.

Exemption for Newspaper Men

Operation of Newspapers is Essential for Winning the War in Opinion of U.S. Board

Joseph M. Stephenson, business manager of the South Bend (Ind.) News-Times, was recently granted exemption from service in the draft army, on the ground that "the operation of a newspaper is just as essential for the winning of the war as fighting in the trenches," and that he could not be spared from his newspaper duties.

Gabriel R. Summers, father-in-law of Mr. Stephenson, and principal owner of the News-Times, made a written statement in which he claimed "discharge from liability for military service for the said Joseph M. Stephenson upon the ground that he is engaged in an industrial enterprise necessary to the maintenance of the military establishment or the effective operation of the military forces of the maintenance of the national interest during the emergency.

Hard to Drop Meat?
All depends on what you eat as a substitute. It is a good time to study "food value." You may be eating the wrong foods, the foods that cost most and give the least nutriment. **Shredded Wheat Biscuit** contains more real, body-building nutriment, pound for pound, than meat, eggs or potatoes and costs much less. Two of these Biscuits with milk and a little fruit make a nourishing meal at a cost of a few cents. Make Shredded Wheat your "meat." A satisfying breakfast on which to start the day's work. Methodism Loses Great Figure

Canada lost a good citizen on Sunday morning by the death of Rev. Vict. Albert Carman, the grand old man of Canadian Methodism, and general superintendent of the Methodist Church from 1883 to 1914.

Born in Dundas County, near Iroquois, on June 27, 1833, of United Empire Loyalist stock on both sides of the family, Dr. Carman had his life in full, carrying out the ideals of his forefathers. He was educated at Victoria University, then at Cobourg, receiving his degree from that institution. Later he was connected with Albert College in Belleville, which was named in his honor. There he served in all capacities on the teaching staff, and eventually, with its affiliation to Toronto University, becoming principal. He was instrumental in founding Alma Ladies' College at St. Thomas, of which school he had been chairman of the board of managers ever since. In July, 1860, he was married to Mary Sisk, Belleville, daughter of Captain James Sisk.

In 1874 he was ordained bishop of the Methodist Episcopal Church, and in 1883, when the union of all the branches of Methodism was under consideration, Dr. Carman was the presiding officer of the committee which considered the feasibility of the amalgamation. Later, when it was an accomplished fact, he was made general superintendent.

Much sympathy is expressed for Mrs. Carman and Miss Alexandra at home, and the two sons, Albert of The Montreal Star and Francis of Ottawa.

Dr. Carman had many friends in Belleville who will always hold his memory in the deepest respect as a guide, counsellor and friend and one who was always a great force for good in the nation.

Tribute of Respect

At the service in Bridge Street Methodist Church last evening, the pastor, Rev. Dr. Scott, announced the death of Rev. Dr. Carman, General Superintendent Emeritus, of the Methodist Church in Canada. Dr. Scott referred in fitting terms to Rev. Dr. Carman's connection with Albert College in Belleville and his great services to Methodism and the nation. As a mark of respect the congregation stood in silent prayer at the request of the pastor.

WANTS CHEESE PRICE RAISED FOUR CENTS

BROCKVILLE, Nov. 5. A resolution was passed by the local Cheese Board urging the Dominion Government and the Imperial Cheese Commission to take prompt action in influencing the British Government to set at once to increase the price of Canadian cheese at least four cents per pound. It was claimed that the present low production at a larger cost made the present fixed price unprofitable and unsatisfactory to the farmers supplying milk to cheese factories.

Objection was taken to the resolution by two buyers, who agreed that the difficulty of financing the cheese market was responsible, not the British Government, for the seemingly low price of cheese.

LAWYER MADE KISS THE AMERICAN FLAG

By Leased Wire to Journal-Press.

WELLSBORO, Pa., Nov. 5.—Assertions that Germany was justified in her invasion of Belgium caused a crowd of several hundred men gathered to lionize drafted men to mob and drag W. M. Kehler, a local lawyer, across the street, and force him to kiss a AAmerican flag.

The remarks were made by Kehler on the Court House steps while the drafted men were receiving comfort kits. Kehler was roughly handled before breaking away, and later, when a concerted attack on his office was planned, he managed to evade the angry crowd and hurriedly left town with his family in a motor car.

FARMING AND FINANCE AT BANQUET BOARD

Continued from page 1.

the efforts of the farmers by producing the high class of cheese which has made Quinte district famous. His name read a letter received from the firm of J. J. Lonsdale, & Co., in Kingston, Jamaica, stating that Belleville cheese always brought the highest price over there due to its superior quality, that no cheese from Canada could touch Belleville cheese in flavor or general fine quality. Difficult problems had confronted the cheese industry in Canada this year on account of the war conditions, which made transportation so uncertain, although relieved to some extent by the even price of $12.4 cents set by the Cheese Commissioner. While the cheese output in Canada this year would realize forty million dollars, the large sum did not mean an increased production, but rather was the result of higher prices, and although the price might seem high to some it was really low from the standpoint of value as a food product compared to other food prices. Although the financial yield had been greater the production this year was 180,000 boxes short of that of 1916.

Value of Co-operation

During the past ten years, said Mr. Elliott, he had asked the cheese men to get together and increase production so as to bring more money into the Quinte district, and the response had been indeed gratifying in the growth and expansion of the industry and the high quality of cheese which had made Quinte district famous in the markets of the world. He also paid a high tribute of praise to the cheese men for their patriotic efforts since the war began in increased production and contributions to the various patriotic funds so necessary to the successful prosecution of the war. The women's department of the Belleville Cheese Board had rendered splendid service to the Empire, 1600 women being busy producing comforts for the soldiers, which in value exceeded one thousand dollars each month. Mr. Elliott announced a recent gathering in the Parish Hall of St. Thomas church, where Christmas gift parcels for the soldiers of this district were packed to the estimated value of $1,500, which would carry a message of love and appreciation from the homeland to the true soldier boys fighting for the protection of our homes and the liberty of the world on the battlefields of Europe.

Cheese Men Patriotic

The cheese factories of this district contributed $5,300 for patriotic purposes this year, and a grand total of $17,000 since the war began.

Mr. Elliott spoke feelingly of the gallant deeds of Canada's brave soldier sons overseas, and mentioned the fact that this gathering was honored by the presence of the soldier son of the Mayor of Belleville, Lieut. Kelcheson, who had enlisted as a private and won his promotion on the field of battle, besides winning the Military Cross for outstanding bravery under fire and exceptional service to the Empire. Wounded in action Lieut. Kelcheson had been invalided home, carrying honorable scars with the shells of the enemy and distinguished by his King as one of the Empire's heroes.

Prayers For Soldiers

Our thoughts and prayers will always attend the soldier boys overseas, said Mr. Elliott, who voiced his firm belief in the efficacy of prayer and his satisfaction in recently receiving a letter from his sister in King's County, Ireland, who wrote that

BROKEN DOWN IN HEALTH

Woman Tells How $5 Worth of Pinkham's Compound Made Her Well.

Lima, Ohio.—"I was all broken down in health and could not do my work. One of my lady friends came to see me and she advised me to write to Mrs. E. Pinkham's Veg. Medicine Co., Lynn, Mass., and to use Lydia E. Pinkham's Vegetable Compound and Sanative Wash. I began taking your remedies and using the Wash and in two months I was a well woman. I have since done all I have ever had to do, and have been well ever since. I was a miserable, sick woman before I took the Vegetable Compound to every one who is sick and suffering as I was I say, take Lydia E. Pinkham's Vegetable Compound and Sanative Wash, and they will get along so nicely that it surely is a godsend to suffering women. I would be glad to have you use my name, Mrs. Minnie Myers, 824 N. LIBERALS CALL TO LIBERALS TO DROP POLITICS IN THE LARGER PATRIOTISM.

"We are in this war, or should be, not with one, two or three hundred thousand, but to the very limit of our resources."—Gen. Mewburn.

"I did not want to get into public life, and I will not get into politics."—Gen. Mewburn.

"I don't believe there is a man in Canada today who hates the war or the word conscription or the word compulsion any worse than I do; but we are up against condition nobody ever knew of before in Canada. It is merely a question if we shall do our duty to civilization or humanity or if we shall not."—Hon. Frank B. Carvell.

"If Union Government meets disaster it will not be because of the strength of the opposition, but because of the prejudice of friends who will not get together."—Hon. Newton Rowell.

"If this Government is returned to power I promise you that, so far as I am concerned, the rich man will pay much more than he has done in the past."—Hon. Frank B. Carvell.

UNION GOVERNMENT AND NATIONAL CREDIT.

Formation of Union Government has strengthened Canada's financial position at home and abroad. The announcement that the strong men of the Conservative party and the Liberal party had decided to lay their differences and unite their efforts for the period of the war, has had an immensely improving effect upon the standing of Canadian credit in New York, which has become the great money centre. And throughout Canada the effect has been the same. There are indications that the next domestic loan will have many times the number of subscribers that took bonds in the two domestic war loans.

The return of the Union Government in the coming election will still further strengthen the financial standing of Canada. The defeat of Union Government in the coming election would unquestionably have a depressing effect upon the financial standing of the country.

At the present time there is as great a need for dollars as there is for men. It is as much the duty of the good Canadian to vote for the return of Union Government as it is his duty to subscribe to the extent of his financial ability, to the next domestic war loan.

The New York financier will think less of the security of Canadian investments, if the people of Canada vote into office the elements that are opposing the Union Government in the coming contest.

The man who has a stake in the land should apply the principle of Unionism and co-operation to his past political pledges, before he casts his next vote.

FINANCE AND FARMING.

The annual banquet of the Belleville Cheese Board is one of the events which has become a local institution. These banquets were inaugurated eleven years ago by Mr. John Elliott, manager of the Standard Bank branch here, and starting with twenty guests have grown to the magnificent gathering of one hundred and fifty practical food producers who sat down Saturday as the guests of Mr. Elliott at the eleventh annual banquet. The idea is grounded in the "get-together" spirit which is the key-note of Mr. Elliott's busy and useful life, and the eleventh annual will long be remembered for its pleasure and instruction. The practical and inspiring address of that great student and authority on agriculture, Prof. G. C. Creelman, added the master touch to an already enjoyable occasion. Prof. Creelman is the Commissioner of Agriculture for Ontario and his life is devoted to the principle of farming for profit and applying business methods to food production so that the greatest benefit accrues to producer and public. Through him the government of Ontario is making exceptional efforts to assist the farmers in every way, one instance of the new helpful policy instituted by the new commissioner being the purchase and operation of one hundred and thirty tractors which ploughed up thousands of acres and demonstrated that ploughing has been transformed from a hard task to a pleasurable exercise and that great areas can be broken up and made to produce as the result of the extended use of power machinery on the farm.

Mr. Elliott is to be congratulated upon being able to provide his friends with such an intellectual treat in the address of Prof. Creelman, who is held in the highest esteem all over the world as an agricultural specialist with no superior.

UNION IN PRINCE EDWARD.

The Liberal-Conservative party of Prince Edward County has publicly endorsed the Union Government in the following notice published in the county newspapers:

The Prince Edward County Liberal-Conservative Association endorses the Union Win-the-War Government as now constituted at Ottawa, and wishes to put the Association on record as being entirely and unreservedly in favor of the policy of this Government. The Association will give their united support in this crisis in the world's history to the government whose sole aim is to win the war and maintain the honor of Canada by giving adequate support to our Canadian boys now in the service of the Empire.

LIPTON ANXIOUS TO BUY "AMERICA"

English Sportsman Desires to Purchase Schooner Yacht.

BOSTON, Nov. 5.—Sir Thomas Lipton, four times challenger for the America's Cup, to-day expressed a desire to purchase the schooner yacht America, and brought the cup to this country in 1851. In a cablegram to Hollis Burgess, he said that he had just heard that the famous craft was for sale and asked to be informed immediately as to the price and other particulars. Mr. Burgess turned the message over to C. H. W. Foster and Henry A. Taggard, Boston yachtsmen, who recently bought the America's cup of her from being broken up for junk.

Members of the New York Yacht Club, custodian of the America's Cup, also are said to be anxious to purchase the yacht but the present owners have not announced whether they will sell.

FORTY-FIVE FIGHTERS

FRENCHMEN FORCE FOUR HUNDRED FOES TO FLEE.

A Heroic Defense of a Salient to the North-West of Verdun Which Will Be Remembered Among the Outstanding Incidents of a War Filled With Gallant Adventures.

FORTY French cavalrymen were the heroes of one of the most brilliant feats of arms —which stands out by itself among innumerable stories of heroic deeds of this war—during the German attack on June 10 on the French positions around the Mort Homme, to the northwest of Verdun. Three few men who were in charge of a sharp salient whose point stuck far into the German position, not only held out against half a battalion (about 400 men) of the famous German shock troops supported by flame projectors, grenadiers, and machine guns, as well as by one of the most intense artillery bombardments ever experienced, but beat them back, after inflicting heavy losses upon them.

The German attack, preceded by a bombardment in which more than 500 of their cannon rained shells on the French positions along a front of only 1,500 yards, was led by the model battalion of German shock troops headed by Captain Roehr himself, the inventor of the new system of selecting special troops to make sudden strong rushes on the opposing positions. These shock troops, while their comrades were attacking the other part of the French line, came forward with an impetuous rush on to the little salient held by the forty dragoons, since it was most important for the Germans to take that point if their attack was to be completely successful.

The dragoons comprised two sergeants, four corporals, and thirty-four privates. They could see the enemy approaching rapidly. Three squads of pioneers led the way, each equipped with a flame projector, throwing burning liquid before them as they advanced. Behind them in the intervals could be seen ...ree squads of hand-grenade throwers and still further in the rear a wave of ordinary infantrymen, carrying, besides their rifles with fixed bayonets, spades for the purpose of organizing the French position after they had captured it. Other lines could be seen dimly in the distance carrying sandbags and munition supplies.

This overwhelming force did not affect the nerves of the dragoons, who belonged to the determined Breton race — their regiment, the Twenty-fourth, is recruited in Brittany—and had all participated in the cavalry fighting of the beginning of the war as well as in many a battle in the trenches. One of their sergeants took command. Their rifles spoke out with rapid fire and their portable machine gun worked unceasingly.

Soon they saw Germans falling everywhere in front, and the frontal attack on the salient wilted away. The Germans, however, were determined to take the salient, and they immediately organized a flank attack, but it was foreseen by the French sergeant, who placed two of his men kneeling on each traverse with three men below in the trench to supply them with grenades. Gradually the Germans advanced as the Frenchmen fell back wounded, but for each section of trench they were compelled to make a fresh fight until the Frenchmen had retired for a distance of 200 yards along the front trench.

It took three hours to make this progress, and by that time the dragoons had reached the opening to a communication trench leading to the rear. Here they decided to form a redoubt and make their last stand.

Just then the sergeant in charge of the dragoons noticed a relaxation in the German attack. He gathered all his remaining men together, made a dash forward, and in less than half an hour had reoccupied the entire salient and had taken four prisoners. He then hastily wrote a report and sent it to the rear: "Quiet has been restored and nothing has been lost."

The roll call showed that only twenty of the dragoons had escaped wounds or death. They had accounted during the fight for two full companies of Germans, and had retained the salient which had been entrusted to their charge.

Scores the Fatherland.

Prof. Max F. Meyer of the University of Missouri has issued a letter protesting against the anti-conscription propaganda of the so-called "People's Council of America for Democracy and Peace" of New York, in reply to a circular requesting a subscription from him.

Professor Meyer is a naturalized American, was in Germany and spent 19 years in German schools as a student and a teacher. His letter says:

"If Germany wins this war, fifty years hence the government will be the American people. I do not want that American blood is to be put under the yoke which I escaped by coming to America. My hope is that the German Government will be overthrown and that the German people, its relatives and friends, will enter an international organization for peace and justice. But the German Government, this fearful danger to our future, can be overthrown only by raising armies, not by sitting around the tasteful table of the People's Council of America and working for the repeal of the conscription laws."

Tall of a Rat.

The tail of the rat is a most important appendage. It has more muscles than the human hand, being used as a hand, as a balancer, and as a spring to aid in jumping.

The Library Council is planning a million dollar drive to supply books to the army and navy. New York has pledged a quarter of this sum.

Are you doing your full share in winning the war?

BETWEEN you and your conscience the answer to that question must be made. No one but you can answer it.

Every day you see the men who have done their share—you see the empty sleeve, the tucked up trouser leg—and the cheery smile.

In quiet sanitarium and hospital are those whom the furies of bursting shells and hellish drum fire, and the wearing hardships in miry trenches have shattered in nerve and broken in body.

These men have sacrificed.

AND more than thirty thousand Canadian soldiers sleep beneath wooden crosses in France.

What have those men fought and sacrificed and died for?

Have their sacrifices been worth while?

Are you—we—worth their sacrifices?

What are you—each of us—doing to prove our worth?

What kind of support are we giving to the ideals these men have bled and died for?

Ask yourself those questions—it is you who must answer them. In the years to come, it will be your conscience that will, tell you whether or not you failed in your duty in the greatest crisis in human history;

—whether or not you neglected the most sacred demand humanity and your God have made upon you.

The liberty that Canada's men have fought for; the freedom they have died for, is a gift to you, to each of us.

The country—this Canada of ours—in defense of which those men have given all, suffered all and died, is yours and the heritage of your children.

Are you doing your duty by this country, the ideals of which have been made precious beyond price by the blood and the lives of Canada's men?

WE cannot all go into the trenches.

But there is a share, a duty, that each one, every one of us must do in winning the war.

Each individual Canadian must save and pay, work and lend to his last ounce of strength and his last penny before he can truthfully say: "In this at least I have done my share."

To Clear Farms For Settlers

As a starter upon a far-reaching policy of settling Northern Ontario by making partly cleared farms available for incoming settlers, the Ontario Government is taking steps to have two whole townships on the Transcontinental partly cleared this winter. By next spring it is hoped that at least five hundred quarter-sections will be cleared and ready for settlement in the townships of Idington and Owens.

The new plan was outlined by Hon. G. Howard Ferguson, Minister of Lands, Forests and Mines, who has been working upon the project for some time. The Minister proposes to make the pulpwood upon the townships pay for the clearing up. Tenders for the sale of all pulpwood and timber along a strip four chains in width on either side of each concession line will be called for at once. The firm whose tender is accepted will be required to start operations without delay and to have the land cleared by the first of June next.

By securing a cleared strip on either side of each concession line the Department will have available for settlement two whole townships with at least five hundred farms each, with a cleared area along the road of about ten acres. The land will not be stumped, but will be in such shape that the settler going in next spring will be able to put in a small crop of potatoes, vegetables and feed for his cattle. The following year, with the stumps rotted and ready to be cleared out, he will be able to raise enough to keep him going while cutting and marketing the pulpwood upon the rest of his farm.

OUTLOOK ENCOURAGING.

In addition to eliminating for the settler the heart-breaking task of clearing started in the woods, the clearing of so much land will, it is expected, have a marked effect upon climatic conditions, reducing the chances of frosts, which are such a problem in new districts.

The township of Owens is located just west of Kapuskasing and the Transcontinental traverses its northeastern corner; Idington is a little further west, with the Transcontinental dividing it about equally. Both townships have good clay soil and are so well covered with pulpwood that, with the demand for pulp as it is today, the Government will be able to get the land cleared and have a surplus to boot.

"We are making a start on these two townships as an experiment," stated Hon. Mr. Ferguson, "in order to see whether this plan of clearing the bush lands can be applied generally. It is a part of our plans to prepare for the rush of settlement that will surely come after the war, and we propose, so far as it is in our power to do so, to see that the tide of immigration which in years past went in largely to the West, is turned toward Nothern Ontario."

PEOPLE THINKING IN QUEBEC

MONTREAL, Nov. 5.—A peculiar brooding calm is upon the face of Quebec, which is variously interpreted to the inquiring visitor. A leading public man whom one asked: "Is it the calm before a storm?" answered: "Neither. The people are thinking; and the Conscription Act is preventing them from talking." He would not say precisely what they were thinking —nobody can tell that. When the ballot boxes talk it will be in a thunderous Canarian tone. With Bourassa as undertone? Yes and no. The Bourassa influence is the enigma of these latter days; and even Mr. Bourassa could not expound all its mysteries. The conscription machinery is slow in getting under way throughout the province. It is impossible to say confidently whether there will be any effective, concerted abstentions from registration. Wise men counsel "Obey the law," but there are no popular shouts of "We will."

There is a half pathetic, half angry, devotion to Sir Wilfrid Laurier in his party adversity. If Sir Wilfrid cannot hold English men, who have followed him for thirty years, then the fountains of the great deep must be breaking up, and a strange isolation may be in store for a people who are misunderstood and maligned. And so, the silence of the multitude has a funereal quality.

An Amateur Detective

A Young Woman's Efforts to Find a Missing Girl.

By RUTH GRAHAM

"Another schoolgirl disappearing," said Grace Barlow, laying down the morning paper. "Helen Bowers left home to go to the high school one morning, and she and three girls in a row have never been heard from since. Why is it that we have so many secretive cases occurring in this city of ours, and yet no one ever solves real clues?"

"Why, dear girl, you're excited on this case, Grace?" asked her sister, Amelia. "Take it up independently of the police and investigate it yourself. You complain of having nothing to interest you. By endeavoring to find out what has become of this missing girl you will be relieved of ennui and may do a great deal of good."

Miss Barlow, a young woman twenty-three years old, possessing an independent fortune, was supposed, if educated, intensely practical, was set to thinking by her sister's words. She was not a person who would venture upon a work to abandon it at the first obstacle encountered. Consequently she seized over in her mind the rebuffs she would be obliged to encounter. One of the principal of these would come from the police, who are not disposed to brook any amateur competing on their legitimate domain. On the other hand, the family of the missing girl might be thankful for her effort. It required two whole days for Miss Barlow to weigh these considerations, at the end of which she decided to begin work on the case of the missing girl and never cease her efforts so long as there was a clew to follow.

Her first visit was to police headquarters. She found Inspector Blakeley, a middle-aged man, sitting behind a rosewood desk which was covered with papers.

"I've called," she said, "to ask if I can be of any assistance to the police in their efforts to discover the whereabouts of Helen Bowers, who disappeared recently and has never been heard or heard of since. I have decided to interest myself in the case. I shall work independently of the police, but before beginning I desire to know if you will give me such information as you may possess concerning the mystery."

"That we cannot do. We work upon our clews in our own way. They are known only to ourselves. Any giving away of them would be likely to defeat our success. A secret once parted with ceases to be secret."

"You are perfectly right about it," said Miss Barlow. "I did not expect that you would put me with your information you may possess. But I prefer that you should know that I am working on the case. I presume you have no objection."

"The law allows any one to work on the case, and you are perfectly free to do so. I can only say that the more amateur detective's work that is left to the police in hunting for crime the less chance there is for us experienced investigators to succeed."

Having thus delivered himself, the inspector signified that the interview was ended and turned again to his papers. Miss Barlow withdrew.

She had kept the address of the family of the missing girl as given in the newspapers, and her next visit was there. She found the girl's mother and three sisters in deep grief.

"Mrs. Bowers," said Grace, "I have determined to try to solve the mystery of your daughter's disappearance. I do so simply for the sake of doing good. Tell me about your daughter."

The woman gave a description of the missing girl. She was fifteen years old, considered pretty and was of excellent character. She had no lover so far as the mother knew.

"Have you any suspicions as to what has become of her?" asked Grace.

"I know what has become of her up to a certain point. One of her schoolmates saw a woman speak to her on the street the morning she disappeared."

"Have you stated this to the police?"

"I have told only what it is the fact, but have begged them to investigate this woman, who is known to us, since my daughter was seen to go with her into a candy shop she keeps."

"What have the police done about it?"

"They tell me that they have gone through the house containing the candy shop and interrogated the woman, who admits she took a girl answering Helen's description to her shop on the morning Helen disappeared to sell her some candy. She makes a peculiar kind which girls are very fond of and sells it very cheap. She sometimes solicits custom of children and assured Helen, who went with her to her shop and bought some candy. A young man followed them into the shop, bought some more candy, which he gave to Helen and after left the shop together."

"What do the police say about this?"

"They say that the woman in question bears an excellent reputation; that hundreds of young girls every year go off with young men willingly or under deception and are never heard of again. They theory is that Helen went away with the young man who followed her in the store."

Grace Barlow pondered awhile on the statement, then asked:

"Is there any evidence of your daughter having left the candy store with a man except that of the candy seller?"

"No."

"Is there any other evidence of her having left the store at all?"

"No."

"That means for me that this part of the case is of no moment, whatever. We must look for the girl's abductor. The fact that persons what I already know that she had been abducted in the presence with whom she was last seen. The story that this woman solicits customers for her candy on the street is not probable. If the police pretend to believe it they pretend to what they do not believe. Be of good heart, my good woman. I think I can get results in the matter. I shall do some investigating, and in the meanwhile say nothing of this visit. Keep a sharp watch for me as the police."

Miss Barlow completed the police of collusion with the candy woman. What object they had in screening her she could not know. She had heard that the police of the city were notoriously corrupt, and it was known to most persons that they were bribed for permitting houses to be used for gambling and other illegal purposes.

She reconsidered the candy shop. It was a small place with a very poor trade. She spied a drowsy girl behind the counter for a certain kind of candy, of which the proprietor made a specialty. She also handled a confection of which she bought a small quantity. Nowhere had her eyes seen such. She noticed that the shop was on the ground floor and there were three rooms behind it. Access was in way to reach the upper stories except through the candy store.

Miss Barlow's mind was concentrated on what those upper stories were occupied for. How could she find out? If she called on the police for information, in case the missing girl were found she would be handed over to the candy woman the girl would be removed after which quite likely the home would be openly investigated.

Miss Barlow faced a problem. Before determining on her detective work she must learn what was in the upper stories. The matter seemed simple enough. Indeed, it was too simple to be used in a detective story. But it stumped Miss Barlow. She was obliged to call in a man to assist her.

Tom Armstrong was an intimate friend of Miss Barlow. Indeed, he would have liked to be more than a friend and might have been had he not been considered too much of a man about town. Grace knew very well that he was far more competent to direct out anything in the way of gilded than she was. One of his vices was a disposition to gamble. He would likely know or be able to find out whether a certain house was used for gambling or, indeed, for any illegal purpose.

Grace wrote Tom an invitation to call upon her. He responded with alacrity, thinking that she had relented toward him. Grace told the story of her detective work and asked him to find out for her what the rooms above the candy store were used for beyond that it is pretty minutely known. Tom said he would do his best. When he reported he gave no evidence of his possessing detective but he gave the information Grace needed. He said that the premises paid premiums to the support of a police insurance fund.

Miss Barlow's next move was to gain access without warning to those in the candy store building. For this she let two or three weeks and then studied the contents. She was obliged to call again on the man whom she considered too wild for a treatment. Tom Armstrong promised to help her.

It was not long after this that one evening a party of young men rolling along the street, supposed to have been drinking, turned into the candy store and, after making purchases, walked through the back room and door, despite the efforts of the girl behind the counter to prevent them, and disappeared. Tom followed, stumbled upon a staircase. They found bedrooms, one of which was locked. Bursting open the door, they found a bed by a girl, who, frightened at their approach, shrank away from them.

"Who are you?" asked one of the men.

"Helen Bowers."

It was Tom Armstrong who asked the question, and the moment the reply was given he wrapped a blanket around the girl, took her in his arms and, followed by his companions, carried her down the stairs and out into an auto standing near. It was like carrying a football guarded by interferers to goal. He had scarcely left the door when there were several policemen, summoned by the girl in the second floor, dashed up to the door.

They met not the girl, pointing to the auto, which was just turning a corner.

The police were too late. Having no conveyance, they lost their prey.

Miss Barlow was sitting in the living room of her home when there was a sharp ring at the bell. She opened the door herself, and Tom Armstrong, followed by his friends, carried Helen Bowers into the house and laid her on a sofa, for she was too weak to stand.

Tom received a pressure of the hand that made his heart leap. A telephone message was sent to Mrs. Bowers that her daughter had been rescued, and there was a joyful meeting.

The men were not charged with knowing that the missing girl was in the house being the candy store. They were receiving money for protection the place from prosecution for illegal practices and thought it best to believe the candy woman's story.

"Grace," said Tom Armstrong later, "have you got any more work requiring one who knows the ropes?"

"Will you refuse?"

"Certainly, as soon as married."

"Then I think you had better be married."

FRUITY VINEGARS

How to Make Use of Leftovers You Really Can't Can.

NO ADULTERATION IS HERE.

Experts Tell Us How to Use Peelings, Apple Cores and Nubby Fruits to Make Enough "Cosh" to Last an Entire Year.

[Prepared by University of California.]

Vinegar can be made in the household from many waste fruits that are not suitable for canning or jelly making. For example, fruit peelings, cores, etc., can be used to advantage. In certain seasons of the year grapes can be obtained for a very moderate price and can be used for vinegar making.

Vinegar from whole fruit:

Crush the fruit thoroughly and heat it to the boiling point. Strain it through a jelly bag or cloth while the fruit is still hot. Allow the juice to cool overnight in a cool place. On the following day add a cake of compressed yeast to each three gallons of juice. One cake of yeast is enough for three gallons, but will not be too much for twenty-five gallons. Just dissolve the yeast cake in the juice so that it is intimately mixed with it. A wooden, bone or barrel or a stoneware crock should be used. Do not use a kettle that is made of metal to hold the juice. Allow the juice to ferment. This will take about ten or twelve hours. The fermentation is over and ready to each three gallons of the fermented juice a quart of strong vinegar. If less than three gallons of juice is used the vinegar in the same proportion. Leave the vessel open to the warm air and cover it with cheesecloth to keep out insects. Allow it to stand until it becomes vinegar. The vinegar is ready to use when the vinegar is the fermentation is over. The yeast fermentation is complete when the liquid no longer gives off bubbles and when the sediment is no longer a taste of sugar.

Vinegar from fruit scraps:

Such scraps as peach peelings, apple cores, etc., can be used for making vinegar. Sugar, however, must be added in this case. To every quart of fruit scraps add about three quarts of water and boil for fifteen or twenty minutes. Press out the watery juice. To this juice add about a pint of sugar to the gallon and dissolve. Allow to cool overnight. Add compressed yeast and proceed in the same manner as directed. The vinegar made in this way will not be as good as that made from the whole fruit, but still a very palatable product to be produced.

Herbs: Basil, marjoram, tarragon and nasturtium leaves added to these vinegars, let two or three weeks and then strained off, add a fine flavor to all salad dressings.

Raisin and Nut Fudge.

One pound two cups sugar, two tablespoonfuls cocoa or grated chocolate, half pint cup cupfuls milk, two table spoonfuls thick cream, half ounce (one tablespoonful) butter, two cupfuls nuts, cupfuls chopped nut meats, two ounces (half cupful) raisins, one teaspoonful vanilla extract. Mix the sugar and cocoa, late together in the chafing dish, add the butter, the milk and cook until it forms a soft ball when tested in cold water. Remove the pan from the flame, add the cream, nuts, raisins, vanilla extract and beat until creamy. Return to the flame, stir gently until dissolved and pour into a greased tin. When cool mark into squares.

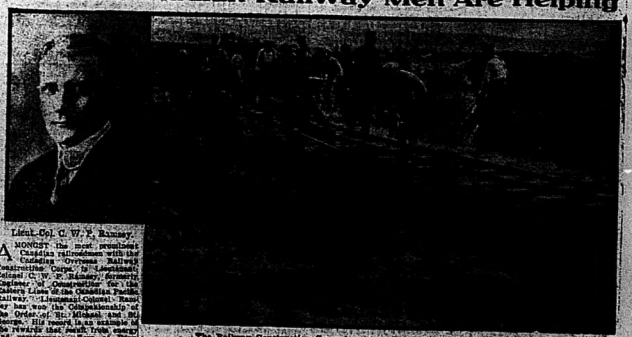
How Canadian Railway Men Are Helping



Lieut.-Col. C. W. F. Ramsey.

AMONGST the most prominent Canadian railroadmen with the Canadian Overseas Railway Construction Corps is Lieut.-Colonel C. W. F. Ramsey, formerly Assistant Superintendent for the Eastern Lines of the Canadian Pacific Railway. Lieutenant-Colonel Ramsey has won the Companionship of the Order of St. Michael and St. George. His record is an example of the rewards that await those energy and perseverance. Born at Perth, Quebec, in 1863, he began to serve his apprenticeship at Smith's Falls. Afterwards Shops, Mechanical Department, in Montreal. Later he was foreman, inhabitant, assistant master mechanic, superintendent, and, in 1912, was made Superintendent of the Eastern Lines. In February, 1915, he went to join the Canadian Overseas Railway Construction Corps in France. Besides having received the distinction already referred to, on June 3rd, 1916, he was several times mentioned in despatches. The C. P. R. has given 7,000 recruits to the Army, and many of these are adding to the glory of the gifted railroad makers in France.

The work of the Canadian Overseas Railway Construction Corps has been the subject of a great deal of praise from all sections of the British Army at the front. The Military Department at Ottawa has just issued an article received from a war correspondent at General Headquarters, France, describing the importance of the service rendered by these tireless recruits to the railroadmen of the Dominion. The article says:—

In this devastated country, over a pile of broken bricks arrangements with which to reveal as the track that had been mended, to an advancing enemy, that he knew of. His wound had been fixed by a comrade, and his arm was tied up as an improvised sling. Samson climbed on a tractor which was hauling a trainload of shells and ammunition. When they got to a junction near the front line both guard and driver were wounded by splinters from a high explosive shell. The little train had made the crest of the grade and was gathering momentum, every second with the driver of the tractor bearing down and necessitating from his part. Samson pulled him up to a side of safety and shut off the engine, but the heavy train had too much headway to be stopped, and in addition the brake gear had been blown away by another shell. Climbing to "carry on" at his job of mending lines closed to by Fritz shells, so that more ammunition could be rushed up. Finally his arm got so painful he decided to go back to the dressing station and get it attended to. On the way back he met a wounded signaller, who told him that the officer in charge of the signallers had been killed and that he was the only one left who knew how to work the instrument. Samson turned back and established communication with headquarters. Then he went back to the dressing station and had his arm attended to.

The Railway Construction Corps lays the rails as fast as the armies advance.

WORLD'S GREATEST QUESTION.

Rev. A. M. Hubly preached in Emmanuel church last evening the first of a series of seven sermons on the world's greatest question: What think ye of Christ? Last evening the question itself was presented.

In beginning one great personage was presented: One supreme master-ly life, that for all ages has stood pre-eminently for all that is truly elevating and noble in the history of the race. Testimony of the fact was drawn from many sources, including personages and events. The conclusion answered the question presenting one to whom every knee shall bow and every tongue confess.

Next Sunday evening: The question will present, Christ in His relation the world's ethics.

THE FALL OF BABYLON.

The last of the series of Bible Lectures under the auspices of the International Bible Students Association was held in the City Hall Sunday afternoon, Pastor Whelpton of Hamilton speaking for over an hour and a half on the subject: "The Fall of Babylon and why it is necessary." It proved to be one of the most pleasing and plain heart-to-heart talks ever heard in this city. A delicate subject to treat on at any time and more especially at present, it was nevertheless handled lovingly but firmly in a way that could not well be misunderstood. The speaker sketching out the magnificence and wealth of ancient Babylon, which name, God says means confusion, showed how mystic Babylon the great also possesses the same qualities. He sketched out the history of the early church, showing how the great "falling away" spoken of by Paul led on to the establishment of a united government of civil and religious rule, by reason of the worldly spirit creeping stealthily into some of the Christian's minds, which old beliefs and dogmas were enforced by the sword of the magistrate. He showed how God's kingdom is the hands of the israelites as an overturning and to remain so until he came whose right it is, then He would receive the kingdom (Ezek. 21:26-27). He argued that Messiah's kingdom is to be 1000 years long and in it is to be found the "Desire of all nations," all was to cease and all the dead to come forth the grave. If the popular idea be true that Christ's Kingdom was established at Pentecost, we should have witnessed those facts, said the speaker. Again he quoted how Daniel, describing the "Time of the End," in which time Michael (another name for Messiah) was to assume authority, would witness a great running to and fro and knowledge being increased, and so argued that this could not refer to Christ's first Advent. In respect to the fall of Babylon, he showed it to be necessary because it was the centre of the place which Christ's Kingdom is to occupy—the whole earth, in strict accordance with our Lord's prayer "thy will be done on Earth." Again he compared how that Babylon both ancient and mystic was built up on the Earth whereas the coming Kingdom is pictured (Heb. 11. 10;) as "coming down from God out of Heaven." Altogether this lecture will not soon be forgotten by those present, one leading light of the city declaring it a masterpiece of ory reasoning.

Had Piles For Ten Years

And Tried Nearly Everything—Some a Surgical Operation Without Obtaining Relief — Tells How Quickly Cure Was Effected.

BRANTFORD, Ont., Nov. 5.—There is reported here the case of a chronic case of piles. In all three cases many treatments were tried before Dr. Chase's Ointment was used. Dr. Chase's Ointment is about the only real cure for this distressing ailment.

Mrs. A. C. Stone, Dunsdon street, Brantford, Ont., writes: "I have used Dr. Chase's Ointment for piles and found it very satisfactory. I had suffered terribly for a long time from piles, and suffered from this distressing complaint. I had tried most nearly everything I heard of. After using Dr. Chase's Ointment a few nights I found relief. I used a few boxes and was entirely cured. I read in Dr. Chase's Almanac of the many other people were receiving from Dr. Chase's Ointment, so I wrote to their office for a sample box. I found it gave me much relief. I sent for a full size and purchased a full-sized box. I have used several boxes since, and have derived great benefit from its use than any remedy I have ever tried."

Mrs. Cusson, Victoria street, Iberville, Que., writes: "I suffered from piles and a half, and I was suffering very much. I had many different remedies for piles, but got no relief. Dr. Chase's Ointment was recommended to me, and after using it found that I was completely cured, and have not been bothered in the very since. I can cheerfully recommend Dr. Chase's Ointment to anyone suffering as I did."

Dr. Chase's Ointment, 60 cents a box, at all dealers or Edmanson, Bates & Co., Toronto. Beware of there are no rivals to Dr. Chase's Ointment as a treatment for Piles.

CELEBRATED JAPANESE ACTOR AT PALACE

"Sadakichi Tuzo," in reality young Harry Hirshfield, born at Wallace Ir-wing, Nebraska, twenty-four years ago, is the man whose name appears in magazine and newspaper reading circles, among the screen boys and girls on Wednesday at the Palace Theatre.

Despite from his native land by the Japanese government, Sadakichi, the Japanese, has himself compelled to earn his living in the United States. Having learned the Japanese boy does this partly in order to be near a wonderful young American woman matched her early faith in her ability to see his friend "the honorable George Washington," whom he fondly believes will welcome him with a hand-clasp on his hand.

There is a very interesting love romance woven throughout his adventurous, but in old Japan, where there is a tiny cousin, O Noto San, waiting for him "neath the cherry blossoms during his momentary brief career in America; and also in this country where he worships from afar at the shrine of Certain Eyes, a wealthy American girl, whom he calls his "moon maiden."

THEDA BARA HAS NO HOBBY

Photoplay acting is both my vocation and my avocation, if I may express myself, says Theda Bara, star of "The Serpent" which is announced for exhibition at Griffin's now and till Wednesday. I have no hobbies and no fad like some actresses. If it were a physical possibility for me to work twenty-four hours a day before the camera I should be glad to do so.

I am never so happy as when acting or rehearsing, which keeps two of my art. For it is of more vital importance to me than any other thing in life. Horseback riding, motoring, golf, tennis are but the hundredth part of one other means of diversion which so many actresses follow, are hindrances to one's work. It is true, to be sure, that a certain amount of relaxation is necessary to everyone. I relax by taking long walks in the open air.

"MY IRISH CINDERELLA"

"My Irish Cinderella" is the title of the new four act comedy drama which will be seen at Griffin's Opera House, next Friday night.

It is said to be entirely different from the Irish plays that have been seen here, the scene being laid in the story of a little Irish girl, Peggy McNeil, and her adventures in this country and abroad. It has a good clean, interesting story, and the characters are all human and real. It sparkles with true Celtic wit, and has a delightful catchiness to the race, as is so often seen in so-called Irish plays.

Miss Daisy Carleton, the title role, presents a character drawing which is perfect. The Beauty of the rich Irish dialect is carefully brought out, and Miss Carleton is a charming and delightful little colleen. She is a remarkably clever dancer and during the action of the play has several song bits.

A splendid supporting company adds to the interest of the play and a beautiful scene production is promised by the management.

OBSEQUIES.

JANET WARHAM

On Saturday afternoon the remains of the late Miss Janet Warham of this city, were laid to rest in the Belleville cemetery. At the residence of Mr. George H. Warham, Bridge street, where deceased resided, services were conducted by the Rev. A. H. Hoey, Rector of the Reformed Episcopalian church, who officiated at the interment. The remains of deceased's brother were placed upon the casket. The bearers were friends of deceased.

ELIZA DENYES

The remains of Mrs. Eliza Denyes, who died in Toronto were on Saturday brought to this city and taken to the home of her daughter, Mrs. J. Reid of Corbyville, from which place the funeral took place later to the church. Rev. Messrs. McMullen and Kemp conducted the services at the house, and appropriate solos were rendered by Mrs. Rev. McMullen and Mrs. Anderson of Foxboro. Interment took place at Belleville cemetery. Many floral designs were contributed by relatives and friends. The bearers were relatives of deceased.

LETTERS FROM OVERSEAS

Pte. Harvey Anderson, writes to his mother from somewhere in France.

Dear mother:

Well mother I am in the trenches now. It is quiet and just like a home here. The only thing wrong is that it is raining a little but that does not make much difference. We have good dugouts to sleep in, they are mostly German dugouts, and they are good ones too.

Well everything looks favorable for us. The Germans are being pushed back farther every day and I think they will soon be back in their own country, then I think they will quit.

I saw Frank Rayfield, over here and he looks fine, he came over with the 21st Battalion. Well mother I do not think we will be in the trenches very long now, so I will not write again until we go out ton our billets.

We have our old brass band in the 21st Battalion, but there are only about half of the old players. Ernie Stone is in it and Hinchey is still bandmaster.

The recipes for Tomato and Cheese and Cranberry Pudding, mentioned above, are as follows:

Tomato and Cheese.—Take a tablespoonful of bread crumbs and tomatoes. Melt a little dripping in a saucepan, and add some of the bread crumbs. Put a layer of cooked tomatoes in a pie dish, cover with bread crumbs, then with a layer of grated cheese, and season with salt and pepper. Continue to cover the cheese. Add the liquid from the tomatoes, and bake in a moderate oven until the cheese is melted.

Steamed Cranberry Pudding.—
1 cup suet (ground)
1 cup sugar
1 egg
1 cup flour or 2 cups flour and 1 cup dried breadcrumbs
2 teaspoonfuls baking powder
½ cup milk
1 cup cranberries

Beat the egg and add to milk. Mix the suet, sugar, flour and baking powder. Stir in berries. Put in a greased mould, and steam three hours.

SYNOPSIS OF DOMINION LAND REGULATIONS

The sole head of a family, or any male over 18 years old, may at the commencement of the season of 1917 enter for a homestead in Manitoba, Saskatchewan or Alberta, or a portion of Dominion Land in Manitoba, Saskatchewan or Alberta, not reserved, as may be obtained for homestead purposes. Entry may be made at any agency for the district in which the land is situated, by the person applying or by his father, mother, son, daughter, brother or sister.

Entry by proxy may be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions.

Homesteader may perform the required residence duties by living with parents or on adjoining farm.

When Dominion Lands are advertised for sale they are withdrawn from entry unless they have been previously entered and have been homesteaded. Lands so withdrawn are subject to settlement by way of sale, if application is made within three years from date of entry.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

FARMING AND FINANCE AT BANQUET BOARD

Continued from page 7

scientific and uniform breeding it should be more than easy. Prof. Creelman said that he hoped that in two years there would not be one grade stallion left in Ontario, and the Government would encourage every effort to improve the stock.

Boy Farmers

Prof. Creelman spoke of the good results which had occurred from the securing of 6,000 High School boys for farm work at the suggestion of the Agricultural Department. Many of these boys had been offered men's wages to return next year in the farm.

Girls On The Farm

Then the girls had rendered splendid service, particularly in the farm homes helping the farmers' wives, always overburdened with work. Thousands of girls went out to the farms and vineyards and thus served the Empire effectually, and both boys and girls became better citizens through their patriotic service.

Townspeople thought that $1.75 a bag was too much for potatoes, but did not know it cost $1.25 to raise that bag of potatoes. For twenty-five years the farmers sold produce under cost, and scrimped and saved to pay off the mortgage and he would have gone to the bow-wows financially had he been half as shiftless as the townsfolk.

The boys and girls of the town who worked on farms this year will have a good idea of what the farmer's problems are, and what it costs to produce foodstuffs, and the consumer will be very useful in reconstruction days.

The time was ripe for a practical get together spirit, cutting out politics and petty bickering in a policy of building up Canada. Farming as a business meant knowing the cost to produce a gallon of milk, a pound of butter, the cost of cheese; what the horses and cows cost and which are the most profitable.

Experts from Prof. Creelman's department were engaged now gathering data as to what crops the various counties in Ontario were best adapted for, so that the best results could be obtained. The farmer should work hand in hand with the Department of Agriculture, which was working for him, and of all the benefit which is his for the taking.

The Business Farmer

"We want every farmer in Ontario to know his business as the banker knows his" and with the aid of the Premier and the Department of Agriculture to work out all the difficult problems of the farm," concluded Prof. Creelman.

Brief addresses were made by Mr. W. W. Anderson, Warden of Prince Edward County; Mr. J. R. Bushell, the energetic President of Kingston Fair, famous as the wizard who changed deficits into surplus for his fair and $500 per receipts to $4 000. Mr. W. J. Barber, President of the Cheese Board also made a few remarks and urged that all cheese be sold on the board.

Letters and telegrams were read from the following, regretting that they were unable to accept Mr. Elliott's invitation to be present:

J. W. Wilkinson, Montreal, White Star Dominion Steamship Line.

LAURIER'S MANIFESTO TO CANADIAN PEOPLE

THROWS DOWN BOLDLY THE GAUNTLET OF THE QUEBEC-INSPIRED CHALLENGE TO ENGLISH-SPEAKING CANADA THAT THE MILITARY SERVICE ACT MUST BE STRANGLED IN THE GOOD OLD LAURIER PLEBISCITE WAY —WAR-TIME ELECTION ACT; DEPRIVING ALIENS OF VOTES, IS "A LIBERTY-KILLING" DOCUMENT, BUT A LAURIER PRONOUNCEMENT OF PROMISED POLICY.

(Ottawa Journal-Press)

If Sir Wilfrid Laurier triumphs in the coming election, he will promptly suspend the operation of conscription, and, no matter how great may be the need, no reinforcements will be sent to the front under the Military Service Act until, on some undefined date in the future, the country is given an opportunity to pass upon it by way of a referendum.

That is the outstanding declaration of a manifesto which Sir Wilfrid has addressed "to the Canadian people," and which, in the course of a lengthy survey of the war and domestic issues, outlines the anti-Unionist leader's policies and aims.

Here are the Liberal leader's exact words on this point:

"As to the present Military Service Act, my policy will be not to proceed further under its provisions until the people have an opportunity to pronounce upon it by way of a referendum. I pledge myself forthwith to submit the Act to the people, and with my followers to carry out the wishes of the majority of the nation as thus expressed."

Means Uncertainty and Delay.

It is a declaration which, when analyzed, means that, in the event of Sir Wilfrid's return to power, no reinforcements, in numbers at all adequate to maintain our armies in France, can possibly be sent overseas until next summer, and probably not at all. In the ordinary course of events the result of the election, mainly owing to the difficulty of taking the soldiers' votes, will not be known until the end of January. If the Government is defeated it will at least February 15 before Sir Wilfrid could possibly form an administration and take office. Add to this the delays involved in the summoning of a new Parliament, and the preparations that would be necessary to take a referendum, including a referendum of the soldiers, and it is fair to conclude that it would be nearly the beginning of June before the verdict of the referendum could be known.

What if Conscription Lost?

Meanwhile Canada's war effort would be dependent upon the already broken-down voluntary system; a system which, for the past six months has actually failed to replenish more than three-quarters of the wastage at the front. And if a combined vote of pacifists, racialists, slackers and all others who may be secretly slack or hostile to our cause in the war, added to a vote of mad-hatter partisans should turn the referendum against conscription Sir Wilfrid will abide by the result.

Sir Wilfrid, hostile to conscription in general, is particularly antagonistic to the brand represented by the Military Service Act. Thus, he says:

"A fundamental objection of the Government's policy of conscription is that it conscripts human life only, and that it does not attempt to conscript wealth, resources, or the services of any persons other than those who come within the age limit prescribed by the Military Service Act." The first duty of a Laurier administration would be to "find the men, money and resources necessary to ensure the fullest measure of support to our heroic soldiers at the front, and enable Canada to continue to the very end to do her splendid part to win the war."

Panacea for Economic Ills.

As remedies for an economic situation "which is admittedly critical," Sir Wilfrid promises:

Tariff reform;
Control of food supplies and prices;
Stop to profiteering.

The two increases in the tariff made since the beginning of the war, he would revise. These are 7½ per cent on all commodities coming into Canada from outside Great Britain and 5 per cent. on goods coming from Great Britain. He also "would immediately remove the duties on agricultural implements or other essentials, as demanded by the western farmers." In connection with the high cost of living, he would "take drastic steps to bring under Government control all food producing factories so that food may be sold at a fixed price under the control of the Government." If satisfactory arrangements could not be made with the food producing factories, Sir Wilfrid declares, he would not hesitate to commandeer.

Stop Profiteering.

The manifesto proceeds: "One of the most important contributions towards winning the war is to put a stop to profiteering on war supplies. The Government has deliberately encouraged profiteering for the benefit of its partisan followers. A first duty of my administration would be to ensure the country which pays for war supplies, the excess of exorbitant profits being realized by profiteers." "If necessary," Sir Wilfrid continues, "he would not hesitate to take control of the factories engaged in the supply of war materials." Suitable Government shops also, Sir Wilfrid believes, should be turned to the production of war materials at cost prices.

Attacks Government Programme.

Sir Wilfrid passes in review alike some of the legislation of the late Government and the programme of the present Union administration. He finds no trace in the manifesto of the Union Government that the Liberal members have influenced their colleagues to the adoption of measures they deemed essential. He refers to "most of the articles" in that manifesto as "stale commonplaces . . . resurrected for a new election." He declares of the the War Times Election Act, passed last session, that it "is a blot upon every instinct of justice," and holds the view that the C.N.R. purchase should be adjudicated upon by the new Parliament.

ANZAC HORSE GET BEERSHEBA

Drive Turk Defenders from Judean Town With the Bayonet

With the British Army in Palestine, Nov. 6.—In the early moonlight hours last night Beersheba, where Abraham dug the well of the Oath, was occupied by the Australian mounted troops and the British infantry, after a stern, day-long fight in which our troops displayed great endurance and courage, doing everything that had been planned for them, and working out the Biak scheme as if by the clock. Although meeting with strong resistance from the enemy in extremely strong positions, nothing went wrong and the story of the day will add to the military glory of the Australian, New Zealand, cities and shires and from Australia and New Zealand.

The splendid British infantry made long night marches and attacked with such determination that they tore down the enemy entanglements with their hands, and just as the moon rose over the Judean hills the Australian Horse charged, mounted, and the sharply-held trenches with the bayonets on their rifles, overwhelming the Turks, and galloping and cheering entered the town. Our movements were all done at night.

Obstacles Are Great.

"At dawn yesterday the cavalry were south of the town and the infantry were facing the northwestern defences. These defences, which were cut in a range of hills hiding Beersheba from view. These entrenchments were elaborate, skilfully chosen, and generally heavily protected by wire and guns, which covered all the approaches. The country we had to march over was in bad condition. What were in the spring the fertile rolling downs were now a sunparched desert, the slightest move-ment raising enormous clouds of dust. Only a few trees and cactus hedges were between the sea and the gaunt Judean hills to relieve the picture of a land laid bare by war Yet with these apparent disadvantages against us General Allenby was able to effect a surprise.

HUNS WILL SEEK PEACE

Special to The Intelligencer

AMSTERDAM, Nov. 6.— Rumors are current on the Bourse here that the Central Powers will make offers of peace before the present month is out in the form of a proposal for a preparatory conference at Berne. Each belligerent according to the rumors, will be asked to send two delegates.

TURKS RETREAT IN PALESTINE

Special to The Intelligencer

LONDON, Nov. 6.—A Palestine despatch reports that the Turks have been dislodged from Abuirger, eight miles northwest of Beersheba, and are retreating precipitately. Yesterday's advance at Gaza reached 800 yards at Umbrella Hill on the right and about 2000 at Sheik Paas on the seashore, west of Gaza. A detachment of Italian troops took part, under the guidance of British monitors and destroyers lying before Gaza, as stated.

86 HOSTILE PLANES WERE SHOT DOWN

PARIS, Nov. 6.—The Paris War Office announces that during the course of the battle of Malmaison, which ended in the withdrawal of the Germans across the Ailette, French aviators attacked the enemy troops with their machine guns, bombarded stations and points of concentration. They fought 411 aerial engagements. Sixteen German aeroplanes were brought down, and three captive balloons set on fire. In addition, 59 enemy aeroplanes fell inside their own lines, the greater part of them being completely destroyed.

Buggy Struck by C.P.R. Train at Crossing—Seriously Injured

(From our own Correspondent)

TRENTON, Nov. 6.—A serious accident occurred at the C. P. R. crossing between Smithfield and Trenton this morning when an eastbound train struck a buggy in which were seated Mr. and Mrs. Paul Twiddy, of Smithfield. Both were thrown some distance but fortunately fell clear of the rails. They are seriously injured and but small hopes are entertained for Mrs. Twiddy's recovery. Mr. Twiddy is also seriously injured but will recover it is expected.

The buggy was instantly killed and the buggy smashed.

Mr. Twiddy is favorably known far and wide as the blacksmith at Smithfield where he has stood at his forge for many years.

(Special to The Intelligencer)

LONDON, Nov. 6.—Major Sir Arthur H. Lee, Director of Food Production, leaves shortly for the United States to confer with Herbert H. Hoover and other officials regarding food supplies.

WAR MENUS.

How to Save Wheat, Beef and Bacon for the Men at the Front. Issued from the office of the Food Controller for Canada.

MENU FOR WEDNESDAY

Breakfast
Baked Apples
Buckwheat Griddle Cakes Syrup
Tea or Coffee Milk Sugar

Luncheon
Tomato Soup Crutons
Potatoes au Gratin
Brown Bread—Syrup Tea

Dinner
Baked Beef Heart Potatoes Onions
Apple Dumplings Sauce

The recipes for Scones and Apple Dumplings mentioned above are as follows:

Scones.

2 cups flour, 4 teaspoons baking powder, ½ teaspoon salt, 2 tablespoons lard or substitute, 4 teaspoons shortening, 1 egg, milk to mix.

Mix and sift together flour, baking powder and salt. Rub in lard or shortening with tips of fingers; add egg and sufficient milk to make a soft dough of unbeaten white of egg. Toss on a floured board, pat, and roll in rectangular shape to ½ inch thick. Cut in squares, brush with reserved white, sprinkle with sugar, and bake in hot oven fifteen minutes.

Apple Dumplings.

Make pastry as for tea biscuits, using part instead of butter. Roll to a quarter of an inch. Cover with a thin layer of sliced apples. Sprinkle over with sugar and cinnamon. Roll this into cheese cloth as for Rolly Poly. Fasten the ends. Plunge into boiling water, and boil rapidly forty minutes.

Lord Beaverbrook The King-Maker

He Alone Engineered the Selection of Lloyd George as Premier

LONDON, Nov. 6.—Lively interest was evoked in the publication of a book entitled "Lloyd George and the War." The author styles himself an Independent Liberal, and gives a fascinating account of the crisis last December resulting in the fall of the Asquith Coalition Ministry and the substitution of Lloyd George as Premier.

According to this anonymous author the gentleman who had most to do with these events was Sir Max Aitken (now Lord Beaverbrook), described here as a rich Canadian newspaper proprietor, "with the secret of personal diplomacy," who brought Lloyd George, Bonar Law and Carson together. There were breakfasts, dinners, suppers and numerous conclaves with Aitken as host, go-between and intelligence chief.

Regarding the description of Aitken as a newspaper proprietor, it is generally understood he once had a large interest in the Globe, that once big paper published here. Now he has an interest in the Daily Express, a half-penny morning paper.

No More Grain To Make Liquor

Order-in-Council is Passed Prohibiting Manufacture After November 30

OTTAWA, Nov. 6.—No grain of any kind and no substance which may be used for food shall be used in Canada after November 30 for the distillation of potable liquors. An order-in-Council to this effect has been passed upon the recommendation of the Food Controller. It will remain in force "until the Governor-General-in-Council shall by order declared that the present abnormal conditions have ceased." The penalty for violating of the regulation is a fine of up to $5,000, or im prisonment for a term not exceeding six months, or both fine and imprisonment.

OTTAWA, Nov. 6.—A gratifying report in connection with the output of coal in district 18, which comprises part of the Province of British Columbia and part of Alberta, has been received by the Minister of Labor from W. H. Armstrong, Director of Coal Operators in that section.

Mr. Armstrong states that the total output in Alberta for the third quarter of the war is 1,324,451 tons an increase over the same period last year of 35,384 tons. His statement does not include the output in the mines of Southeastern Br ish Columbia.

KILLED INSTANTLY ON RAILWAY CROSSING

Belleville Motor Car Struck by a G.T.R. Train at Sidney Crossing this Morning—Miss Bonisteele Killed, Bert Ketcheson Seriously Injured

In recent years a number of fatal accidents occurred at railway crossings in and adjacent to this city, and this morning another was added to the list. The scene was Sidney Crossing, on the line of the Grand Trunk Railway, in Sidney Township, about 7 miles west of the city limits, and the victim was Miss Deborah Bonisteel of Belleville, an aged maiden lady, who was well known to many residing there. It appears that Mr. Bert Ketcheson of this city, who at this season of the year is engaged with his engine in operating a threshing machine, was in his automobile, accompanied by Miss Bonisteel, who by marriage, is a relative, proceeding at an early hour to a farm in Sidney, for the purpose of threshing, when the unfortunate affair occurred. The morning was cold and very foggy. When Sidney Crossing was reached, we are informed, that two freight trains going in opposite directions were approaching the crossing, and that Mr. Ketcheson waited for the west bound train to pass before he attempted to cross the tracks. As the train passed by he attempted to drive over, and as he did so the engine of the east bound freight struck the auto, smashing it to pieces, and throwing the occupants clear. The latter was brought to a standstill and members of the crew went to the assistance of the victims. Miss Bonisteel, it was apparent, was killed outright, as she was frightfully injured. Mr. Ketcheson was severely injured, but was partially conscious. The remains of the victim were conveyed to this city, and taken to Tickell & Sons, whilst Mr. Ketcheson was as soon as possible conveyed to the Belleville Hospital for treatment. The direct cause of Miss Bonisteel's death was a fracture of the base of the skull. She also received a severe scalp wound, and her left arm at the shoulder was fractured. There were also bruises about the face.

Mr. Ketcheson's injuries consisted of a scalp wound between eyes and four inches long, but fortunately the skull was not injured. He has also a severe cut on the right side of the face and on the chin. He complained of pains about the shoulders. Unless he is internally injured no serious results are anticipated. Mr. Ketcheson and family reside at 30 Henry street. His condition this afternoon was reported as favorable.

The Victim

Miss Bonisteel, the victim of the terrible affair, is well known in the city and vicinity. Some 60 years ago she was born in Sidney Township, and had lived in this vicinity all her life. For the past 30 years she had made her home with Mr. Wilmot Lane of this city, who is a brother-in-law. Deceased was highly respected by a large circle of relatives and friends. Mr. and Mrs. Lane, who temporarily living on a farm in Sidney, and Miss Bonisteel was enroute to them when the deplorable accident occurred.

An Inquest

An inquest to enquire into the circumstances of the sad affair was opened at 11.30 this morning at Tickell & Sons undertaking establishment, being presided over by coroner Dr. Boyce. Mr. Wm. Carney, County Attorney, represented the Crown.

The jury empanelled were Messrs. R. W. Adams, J. B. Archibald, W. Brown, Wm. Thomson, Jesse Harris, Wm. Smith, Alex. Farmer and F. Harrison. Mr. Adams was elected as foreman, and after being sworn in the jury viewed the remains and after evidence as to identification of the deceased was taken.

Sergt. Naphin testified that he, as a County Constable, received a warrant from the coroner, Dr. Boyce, to take charge of the remains of Deborah Bonisteel, and also summoned the jury, who were qualified to serve. He had no personal knowledge of the accident. It occurred at Sidney Crossing on the line of the G.T.R. Deceased was in an auto with Mr. Bert Ketcheson, which was struck by a train.

Mr. C. B. Cole testified that he was on an errand with Tickell & Sons undertaking establishment, and found the deceased who resided with Mr. Wilmot Lane, at the corner of Everett and Moira street, Belleville. He saw her alive yesterday, and she was in good health. He heard of the accident about 8 o'clock this morning. Mr. George Smith and another party whose named Waite, brought the body of the deceased to Tickell & Sons' undertaking establishment. Mr. Bert Ketcheson was driving the auto when it was struck by a train. It was a McLaughlin car, and Mr. Ketcheson was a careful driver. He saw the car last night, and it was all closed up.

The completed the taking of evidence for the present, and the jury was adjourned until Tuesday evening next at the police court room.

Notes

The auto, a McLaughlin make, was virtually reduced to kindling wood.

The scene of the accident is a level crossing, but there is no excellent view of the tracks on both sides for a considerable distance.

STOLE SOME LETTERS.

Ald. Dr. Marshall reports to the police that some composition letters were extracted from one of his window sign, by a party who was not authorized to do so.

FALL OF A PLANE.

Yesterday afternoon a plane from the Mohawk Camp came to grief by falling its field some distance north of the city. Fortunately the airman escaped serious injuries, but the machine was considerably damaged.

AURA LEE DANCE.

An enjoyable dance was given last evening in Bennett's Academy by the Aura Lee Club. Excellent music was supplied by the Standfast orchestra, of Toronto and dainty refreshments were served. Over one hundred couples were in attendance.

VISIT OF FORMER CITIZEN

Mr. R. H. McCrudden of Murray Canal, a former well-known resident of Belleville, was in town yesterday renewing old friendships and waiting for his son, Lieut. Harry E. McCrudden, invalided home from overseas on sick leave.

GUNPOWDER PLOT REMEMBERED.

Under the auspices of Derry Lodge True Blues of this city an entertainment was held last evening in their hall on Front street to commemorate Guy Fox Day. A varied programme consisting of songs, recitations, etc., was given and thoroughly enjoyed. At the conclusion of the programme refreshments were served.

THAT GATE

The advantage of advertising is proved by the fact that over one dozen telephone messages were received last evening at the residence of Sir Mackenzie Bowell apprising him of the location of his gate, which the Hallowe'en pixies had spirited away and which he advertised for in yesterday's Intelligencer.

HEALTH BYLAW CASE

Before Magistrate Masson this morning, a lady of this city, who is the owner of a property on Victoria Avenue, was charged with a violation of the Health Bylaw of the city by not providing proper sewer connection, but instead using a cesspool. The accused, through a relative, pleaded guilty to the offence, but promised to remedy any defects. A fine of $1 and costs was imposed and the Magistrate also advised that the bylaw be complied with by having proper sewage connection.

WARE MATCHES.

The peculiar antics of a box of matches in the residence of R. H. Ketchenson Saturday evening caused the family some concern. The box was upon a shelf in the pantry not near any source of undue heat and suddenly ignited the resultant explosion blowing the box to the floor. Only the match heads facing one way were burned, the other side of the box refusing to join the general conflagration. Henceforth Mr. Ketchenson will keep his matches in the safe.

WORKING FOR SERBIA

Miss Helen Lossaitch, the honorary secretary of the Serbian Relief Committee of America who recently lectured in Belleville under the auspices of the Women's Canadian Club, is the daughter of Prof. Lossaitch of the University of Belgrade, former minister to London, Paris and other capitals. At present he is head of the Serbian Government Committee for reconstruction and for relief of the prisoners. All the members of his family are either in the Serbian army or the Serbian Government. Miss Lossaitch came to this country in January, 1915, to found the Serbian Relief Committee. Since that time she has divided her time among Canada, United States and Europe.

REAL VALUE

is based on the value paid for a commodity, but on the benefit derived. That is why Zam-Buk is the cheapest skin healer on the market—because the benefit derived is 25% greater than that got from ordinary ointments. This is due to the fact that Zam-Buk is 25% more concentrated—100% against 75%. Ordinary ointments are 75% medicine and the balance animal fat.

The superiority of Zam-Buk is proved by the many cases of chronic skin troubles and old sores which yield to Zam-Buk's healing after all other treatments have failed.

The natural power of penetration which Zam-Buk possesses enables it to reach the infected tissues, where skin troubles have their "root." Then the germicidal properties in Zam-Buk kill all germs. Until this is done healing can never be thorough. The reason why sores that have been treated with ordinary ointments break out again is because the remedy has never got to the seat of the trouble, but has only healed over the outer skin. Zam-Buk, on the contrary, heals skin disease, and the cure is complete and permanent.

Zam-Buk should always be used for eczema, ringworm, scalp sores, pimples, abscesses, ulcers, blood-poisoning, bad leg, piles, cuts, burns and scalds. All dealers or Zam-Buk Co., Toronto, 50c. box, 3 for $1.25.

The Worries of a Housewife.

Women are given to worry more than are men. When anything threatens to worry a man, he finds solace in the little brown jug. But women cannot look adversity in the face with such calm abandon. They are not built that way. As near as I can make out, it is a difference in temperament. Women is more highly organized than man. Her nervous system is much better developed. If you notice a look of worry on your wife's face and ask, "Well! What's up to-day?" she sighs and says, "Oh, dear, dear! Everything's up. We're getting old and shabby and the house is becoming dreadfully dilapidated, and now to cap the climax I've broken my mop stick!"

John Wesley's Portrait.

The portrait of John Wesley is now in the possession of an art collector in Philadelphia. This picture is one of the finest that came from the brush of George Romney. Romney, in this connection it is interesting to note that for the portrait, measuring thirty inches by twenty-four inches, and its frame, the artist charged but $40.

CHEESE COMMISSIONERS NOT WAR PROFITEERS

The Cheese Commission has been "Dissolved" by an order in council. They have handled in the past season a co-operative business with a turnover of $30,000,000, and they have received no remuneration for their services.

The important "discovery" we make at the last meeting of the Belleville Cheese Board, when the following resolution was unanimously passed:—

"Now that the producing season is nearly over, it is in order to move a resolution thanking the Cheese Commission of Canada for the straightforward and business-like method in which they have handled the cheese business this season in face of great difficulties, for instance in the way of securing freight to keep the cheese moving, where the whole industry was threatened with all sorts of obstacles owing to the war. These three gentlemen, we feel, have worked hard without any remuneration, whatever and certainly have succeeded in the work they undertook without fuss or noise. In fact lately, those directly interested know there is a Cheese Commission, so quietly has the work been done. We have only to think that the enhanced value of the cheese they have handled this season will amount to from thirty-seven to thirty-eight million dollars, to realize the amount of work this involves."

The three gentlemen to whom the thanks of the Nanaimo district pay this tribute are: Mr. J. A. Ruddick, Dairy Commissioner, Ottawa, Mr. Robert Alexander, Montreal, and Mr. J. McGowan of Great Britain. The whole cheese export business of Canada was placed in their hands.

At a meeting of the Belleville Cheese Board held last week the above resolution was unanimously endorsed.

Hon. Robt. Rogers' Nephew Killed

Word has been received from Winnipeg that Captain Clarence G. Rogers, M.C., a nephew of Hon. Robert Rogers, has been killed at the front.

Captain Rogers, who was in his twenty-eighth year, was a squadron commander in the Royal Flying Corps. He went overseas at the outbreak of the war with a western infantry battalion, fought through Ypres and most of the subsequent severe engagements in which the Canadians participated, and for gallantry in action was rewarded with the Military Cross. Later Captain Rogers joined the Royal Flying Corps and was soon promoted to be a squadron commander.

The young officer was a particular favorite of his uncle, Hon. Robert Rogers, and his death will be a severe blow to the ex-Minister of Public Works.

Were Weak and inactive as result of Nervous Prostration — Lost Twenty Pounds — Had to Take Sleeping Powders to Get Any Rest.

St. Catharines, Ont., Nov. 6.—Many people never realize that the movement and action of every organ of the human body is dependent on the energy supplied by the nervous system.

When the nervous system gets run down there is weakness throughout the entire body. You feel tired, languid and your stomach and other organs become similarly affected. Appetite fails, digestion is poor, you lose the good of what you eat and get gradually grow weaker and weaker.

This process can only be stopped by such treatment as Dr. Chase's Nerve Food, which goes directly to create new nerve force and thereby to invigorate the whole human body.

Mrs. Geo. S. Elias, 46 Davidson street, St. Catharines, Ont., writes: "My husband had an attack of nervous prostration, and, although he doctored for some time and tried different other medicines, he could not get relief. He had to resort to sleeping powders given him by the doctor to make him sleep. The greater part of the trouble seemed to be with the nerves of his stomach. He began to lose weight, and kept on going down until he had lost twenty pounds. We had read advertisements in the newspapers for Dr. Chase's Nerve Food, and noticed that it seemed to be doing a lot of good for people troubled with nervousness, so my husband decided to try it for his trouble. He found relief from the start, and continued this treatment until he had taken about twelve or thirteen boxes. The results were the most satisfactory. He is now enjoying good health, sleeps well, and has gained back nearly all the weight he lost. He also uses Dr. Chase's Kidney-Liver Pills occasionally, and thinks them an excellent remedy. I have also used this bitter medicine for dizzy spells and liver trouble, and was completely cured of these complaints. We think a great deal of Dr. Chase's medicines, and cannot speak too highly of them."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for $2.75, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

Boards of Appeal To Revise Lists

OTTAWA, Nov. 6.—Boards of appeal, which will revise the voters' lists prepared by the enumerators in Ontario cities and county or district towns having populations of 9,000 or more, according to the last census, have been constituted for the purpose of the approaching federal election.

These boards are, in fact, the voters' registration boards, established in every county under the provisions of the election law passed by the Ontario Legislature at its last session. They are composed of the county judges, sheriffs, clerks of the peace, and in some instances, include police magistrates, local registrars of deeds or local masters of the Supreme Court of Ontario.

The boards of appeal will commence their sitting ten days before polling day, that is, on December 7, and may continue in session for six days. The boards may, if necessary in order to hear all the appeals, divide into two or more sections. Four days before the election the clerks of the appeal board will deliver the revised lists to the returning officers. These revised lists will be final, and the provisions of the new election law for placing names on the list on election day and for "tied ballots" will not be applicable to Ontario cities and county or district towns of 9,000 population and upward.

Slacker Mauled in British Court

LONDON, Nov. 6.—There was a remarkable scene in the High Courts when a "conscientious objector" was haranguing the court in his own defence.

Justice Rowlatt halted the proceedings, saying, "I have serious business in another court," and left the bench. The law reporting two days to sit on an application such as that pending, Justice Darling said, "I cannot stand alone." The applicant contested and then Justice Darling answered:

"Because the court has been hearing this application an officer of this court has heard that his son was severely wounded a second time, fighting for the men like this."

The applicant became noisy and the Justice ordered him to leave the court room. Whereupon the slacker, who had been discharged from the army by reason of wounds, seized the applicant by the throat and threw him out of court, crying:

"You dog, it's for the likes of you I have been wounded."

WALLACE IRWIN'S

JAP CHARACTER

Millions of readers who have followed the screamingly funny antics of Hashimura Togo in the magazines and newspapers of this country will be interested in the presence of having this quaint and original character visualized for the screen by so popular and talented an actor as Sessue Hayakawa, America's most famous Japanese actor. "Hashimura Togo" is at the Princess Theatre tonight and Wednesday along with the latest chapter of "The Gray Ghost" serial, and "Seventh Day" an amusing Edison comedy.

Guarding the Home Cellar

Rumored Attack Upon the Supply of Preserves Scares Picton Housewives

(Picton Gazette)

There is no end of the ridiculous and sometimes malicious rumors which are circulated about people during patriotic work. As soon as a person is generous enough to give of their time for the benefit of the public, she becomes the target for suspicion.

As an instance a most absurd rumor was raising around the country side to the effect that Mrs. W. R. Munro of Bloomfield, who had been appointed by the Food Controller to examine the cellars of the people to see that they were not storing away too much fruit and vegetables.

Everyone who knows anything about Mrs. Munro knows how unselfishly she has devoted herself to doing her part in winning the war. Not only has she given tireless patriotic service through the Women's Institutes and organizations, but she has also worked. As a member to the Recruiting Committee, elected in the summer at the conference of Ontario women, Mrs. Munro has given whatever time she could spare to furthering the influence of that committee.

It is in this connection that the absurd suggestion of searching people's cellars is made. Moreover Mrs. Munro, like other voluntary workers, has been accused of drawing a big salary, when as a matter of fact she does not get a cent, but gives freely of her time and energies.

People do not stop to consider that it would be impossible to store away too much garden produce, whether dried or canned. It is the very thing we are being told to do—to save all we can.

Another similar rumor was circulated in another section of the Province recently, to the effect that the Secretary of the Women's Auxiliary in that locality was to go through cellars and confiscate everything over their limits. It is, of course, absolutely without foundation and the more jars of fruit and vegetables you can put away, the better are you carrying out the Food Controller's suggestion.

LETTERS FROM OVERSEAS

Mrs. H. Bartlett, Tyrboro, receives the following letter, her son Corporal Ernest Bartlett, 4th Can. Res. Brg., Seaford, Sussex, Eng.

Seaford, Oct. 14, 1917.

Dear Mother and Father,

Received your letter and box yesterday, and was much pleased with them. The box arrived in good shape and the honey was delicious. Was on down town picket last night and did not get back until ten o'clock, so was pretty hungry and waded right in to the honey and cake. Have smoked better cigars than these but still they are better than you can get here.

Did not do anything part of last week, for while I was bayonet fighting on Wednesday in jumping over a trench I hurt my side, but am all right again. I am ready for church and as it is a little early, I thought I would write a line, as we have so much brass to shine and rifles to clean, that we have to write any time we get the chance.

I think I will get a pass for Brighton next Sunday, as it is so dead around here. If you can get to soldiers' Every McCoy is going with me. He came over with us. I guess it is a nice place and I want to see it while I am over here, as I may get a transfer and go to London, it would be too far to come way down here. As it is only about forty miles from Seaford.

Well, mother, as this is the first nice day we have had for two or three weeks, I want to go for a little walk. So as I can see, shows for you. Will close, sending you and the rest of the family my best love.

Three Canadian Historic Spots

(1) Inside the old fort at Annapolis Royal. (2) Martello Tower, West St. John, N.B.
(3) Evangeline's well.

THREE unique and interesting historic spots are to be found in the Maritime Provinces of Canada. Each tells its own story of a romantic past as it links us up with generations that have long since passed away.

The three are: the old French gate and barracks at Annapolis Royal, the ancient Willows and well-sweep of Grand-Pre, and the massive Martello tower, overlooking the Bay of Fundy from the bridges of West St. John.

Each of the trio is worthy of a pilgrimage, and no better objectives could a traveller have in this delightful maritime land than to visit each in turn.

Let us, in the meantime, visit them in imagination. The Annapolis of today was the Port Royal of the olden times. It was one of the first European settlements in America, the only habitation of civilized man on the great continent on the fringes of a vast wilderness, stretching from Florida to the North Pole. Champlain and de Monts visited Annapolis Basin in 1604, as did many another knight of the old French days.

So the little settlement was formed, and for a century and a half thereafter it tells the story of attack, capture and recapture. It witnessed many a baptism of blood, did this ancient French stronghold, until in 1710, England won it, at the hands of a force of New Englanders. And so in 1781, it was captured by an American force, but to-day it is a picturesque corner of Canada attuned to one of its earliest spots, and facing a long arm of the sea.

Next let us go to Evangeline's land, where the apple blossoms make a beautiful world in the summer time and where a glimpse of rustic river the valleys in memory of an Acadian maiden who was only a dream, a child of a poet. Here is the site of the old French farmstead, there the ancient willows, and there the ever-living willows where real Acadian maidens grew, were wiled back by the sunlit's forge that figure in the poem, as well as the little well-sweep. What a story the willows could tell if they had the power of speech—of the days when France ruled half of the continent and England was challenging her supremacy.

And finally there is the old citadel-walled martello tower perched on a high rock above the City of the Loyalists, as it looks out to the sea. These miniature fortresses still wear an aspect of strength and dignity, a reminder, one of the old-fashioned era, when they were built in England as a means of defence, and later, in Canada. Similar specimens are to be found in Quebec, Montreal and Kingston.

R. A. PRINGLE CHOSEN NEWSPRINT CONTROLLER

OTTAWA, Nov. 6.—The Government has appointed R. A. Pringle, K. C., of Ottawa, as controller of the newsprint situation in Canada. He is given full power, subject to Government consent, to fix prices and regulate the supply of paper and to appoint officers to aid in carrying out his orders.

Mr. Pringle will co-operate with the Federal Trade Commission in the United States, which is dealing with the same subject. Before determining any price he will have a meeting of interested parties in Toronto on Friday next.

ALLEGED DYNAMITERS INDICTED

MONTREAL, Nov. 6.—True bills were found against the ten men charged with complicity in the anti-conscription dynamiting outrages by the grand jury of the Court of King's Bench, over which Mr. Justice Pelletier is presiding. A true bill was also found against Chas. Desjardins, the Dominion police agent, who assisted in the investigation of the outrages, and who is charged with attempted murder.

BOILING WATER IN KINGSTON

KINGSTON, Nov. 6.—The Medical Health Officer asks the citizens to boil their drinking water till further notice. There have been quite a number of cases of illness during the past week and it is thought that contaminated water is the cause. The severe storms of late have stirred up the water more than usual.

CHINESE IN COURT

TORONTO, Nov. 6.—The nine Chinese actors who were taken into custody as they arrived in Toronto on Friday morning, on a charge of having opium in their possession, appeared in the Police Court before Magistrate Denison on Saturday. They pleaded guilty, and were fined five dollars and costs. On an added charge against one of them of carrying obscene photographs the Magistrate imposed a fine of twenty dollars and costs. The leading lady was discharged.

LAURIER'S MANIFESTO.

Sir Wilfrid Laurier has issued his long-expected manifesto to the electors of Canada outlining the policy he promises to carry out if the people of Canada have enough confidence in him to elect a sufficient number of Laurier candidates in the coming election to make him Premier of Canada.

The "Laurier Manifesto" is just that and nothing more—it is not the platform and policy of the Liberal party, duly formulated and confirmed in convention assembled, nor does it claim to be, for no national representative Liberal convention could be organized and held now which would endorse Sir Wilfrid Laurier's policy on the Military Service Act, hence the old chieftain must plow the lonely furrow, cut off by his war policy from all Canada except Quebec.

Sir Wilfrid Laurier is clever enough politician to include in his manifesto everything that would influence a vote and take full advantage of the brief preliminary announcement of the Union Government.

But all the glittering promises of the manifesto fail to hide the grinning skull of deadly Quebec-inspired opposition to the Military Service Act, and Sir Wilfrid comes out boldly and admits what has long been suspected, that if returned to power he will suspend the operation of the Military Service Act and take a vote of the people as to whether Canada's army overseas is to be kept up by universal military service or by volunteers. In the meantime Canada's heroes overseas, working overtime in the mud and misery of Flanders, facing death that the Lauriers and Pugsleys and Oliverss of Canada might be protected in peace and prosperity from the filthy Hun, must wait for much-needed reinforcements.

Laurier broke his promise on the prohibition referendum after every province but Quebec endorsed it. Would he not do the same even if the Military Service Act was endorsed by referendum because Quebec was against it?

Laurier professes to believe that a voluntary recruiting campaign could be started which would bring the young men of Canada, still in mufti, to the colors with a rush.

Yes? Sounds fine, doesn't it? But let Mr. Laurier examine the applications for exemption which are pouring in and then say where his voluntary recruits are coming from.

Quebec, perhaps?

If Laurier and his Quebec following, by any mischance, should emerge from this election with the reins of the Government of Canada in their hands, can any one imagine a worse calamity? Would it not weaken Canada's financial credit in every nation of the world? Would it not shake national confidence in Canada to its foundations and create a condition favorable to panic? And what effect would it have on the army overseas? Our soldier boys, feeling themselves deserted and unappreciated in the homeland would be in danger of losing that high spirit of gallantry inspired by loyalty to a homeland proud of its soldier sons and burning the midnight oil to provide them comforts besides making every sacrifice to pack up in men, money and supplies that's been efforts.

A Laurier victory would be worse than a calamity, it would be a decisive defeat for all that Canada is fighting for and a debacle which would be hailed with joy in the courts of Berlin, Constantinople and Vienna.

A GRIT GATHERING

A number of those who constitute what is called the Liberal party met in Ottawa the other day for the purpose of swearing fealty and continued allegiance to their anti-conscriptionist leader, Sir Wilfrid Laurier, and hand him the "Bloody Key" with which to open the door of power, with a lingering hope of participating in the days of picking and grabbing.

There was a good attendance of the expectant from different parts of Ontario, composed in a great measure of candidates in the different Ridings. Among them, reported to be showing a tendency to align himself behind the new Government, declaring that the Union Government preliminary announcement set forth a platform upon which the Liberals could stand; while others frankly stated that only by endorsing the Union Government and its policies, including compulsory military service, could they hope for election. Again, there was a group from rural constituencies which denounced the Liberals and the Liberal newspapers that had renounced their allegiance to Sir Wilfrid Laurier to support the Military Service Act and the union of the war parties in Canada.

Sir Wilfrid, who was present, it is said, repeated his belief that the necessary reinforcements for the Canadian forces overseas might have been secured by voluntary enlistment, had proper methods been followed." Perhaps they might had he taken off his coat and gone among his supporters in the Province of Quebec, and pointed out to them the necessity of united action to secure success in the contest now raging. Instead of doing this he harkened to the rebellious diatribes of the Bourassa-Lavergne Nationalists. He did, however, reiterate his promise to consult the British Government if called upon to assume the reins of power, in order to ascertain the precise character and extent of the aid required from Canada.

This is worse than contemptible subterfuge, and Laurier must be under the impression that the electors of Canada are ignorant of passing events. In all probability those upon whom he relies in the Province of Quebec are,—the intelligent men of other provinces who read, are not.

Sir Wilfrid knows, and so do the reading men of the Dominion, what the British Government wants, not only of Canada, but of all the outlying portions of the Empire. It has intimated and expressed over and over again the needs of the Empire. Sir Wilfrid must be fast approaching dotage or he would never attempt such subterfuge in the hope of success with an intelligent electorate.

WHO CAN VOTE.

The wife or widow, mother, sister and daughter (qualified respecting age and residence) of every member of the Canadian Expeditionary Force, who has gone overseas are entitled to vote.

There are a large number of this class of voters in the City and in the County. What is being done to have them located and their names placed upon the voters list? There is no doubt as to the character of the vote which each one of them will cast. Organizers, get to work!

Daily Progress Of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

J. Miner accepts nomination as independent to contest Camrose, Alta.

Quebec labor men, meeting at Montreal, organized new political party.

T. E. Simpson was endorsed in West Algoma by Conservatives and Unionist Liberals.

The West Algoma Labor party decided against joining other parties in union proceedings.

Sir Charles Hibbert Tupper refuses to allow his name to go before the convention of Vancouver Centre.

Leading Conservatives of Nova Scotia conferred in Halifax and passed a resolution of confidence in Sir Robert Borden.

J. H. Dickenson, Liberal nominee for Wentworth, says that no party has claim on him and says he is out to win the war.

Wentworth Conservatives have called a meeting at Dundas for Wednesday night to endorse G. C. Wilson as union candidate.

The Win-the-War League will endeavor to prepare contests in Hamilton and Brantford conference or all parties for next Saturday.

Whitby convention adjourned without naming a candidate, to confer with Liberals with a view to holding a big union convention.

C. A. Munson does not intend to withdraw as Conservative nominee in West Northumberland in order to allow selection of fusionist.

Lloyd Harris, chosen by Liberals for Brantford, asks parties to come to agreement on selection of union candidate. But if Conservatives refuse to fuse he will fight to the finish.

Brampton Conservatives held Liberals would be unfair at this stage to ask Sam Charters to withdraw in order to consider fusionist and call a union mass meeting for Saturday next.

Mr. Reuben Truax, Liberal member for South Bruce in the recent Dominion Parliament, will probably be returned unopposed. Mr. John Purvis, the Conservative candidate, has resigned in view of the appeal made by the Premier on behalf of the Union Government. Mr. Truax won the riding at a by-election following the appointment of Senator Donnelly. He voted for the Military Service Act in the last Parliament.

The Poets' Corner

THE AFTERMATH.

By Robert Partridge.

The hand I clasped lies trampled red,
The lips I pressed are cold;
From that dear face the smile has fled,
All still, that heart so bold.
My life is empty, drear and bare—
All—all but an empty chair.

A hero! Yes, to the console
Comes in that thought, and blest
Is knowledge that his mighty soul
Lies not in earthy rest.
But that may not ease the pain,
The agony . . that ne'er again . .

If I am bitter—should I rave,
When memories dim my mind;
And see nought but a blood-stained grave,
Where lies . . that heart . . so kind?
Can I be blamed should thoughts arise,
And I hurl curses to the skies?

Oh, help me, Lord! . . Vindictiveness
And malice, too, is rife
Within my heart . . Let me caress
Once more that brave young life.
I am but human . . make me brave
To nurse that balm—a soldier's grave.

Betting has begun on the New York mayoralty elections. One sum of $10,000 is offered on Mitchel at 5 to 5, but little was placed at this figure. A supporter of Hylan is offering $5,000, but demanding odds of 8 to 1.

LE CANADA WAITS.

Le Canada prints the manifesto in English as well as in French, but initially it simply points out what Sir Wilfrid promises to do.

POLITICAL BUNKUM.

Montreal Gazette, Conservative

Only men of narrow vision will accept Sir Wilfrid Laurier's declaration in this regard as anything but political bunkum.

ATTRACTATHE DISAFFECTED

Brantford Expositor, Liberal

Sir Wilfrid Laurier's manifesto is a able but disingenuous and subtle appeal intended to reach the disaffected voters of whatever class.

SENSELESS.

Calgary Albertan, Liberal

To hold a referendum now would be a senseless occurring as it was in France or Britain on sending help to Italy. The reference to conscription of wealth is indefinite.

SIR WILFRID'S INFLUENCE

Hamilton Spectator, Conservative

Sir Wilfrid Laurier had exerted properly his influence in his own province there would have been no need for conscription throughout the Dominion.

LONDON ADVERTISER PLEASED

London Advertiser, Liberal

Sir Wilfrid's statement is a broad policy, ... it is the rallying cry for a united Canada that should with renewed strength guard its heritage abroad and at home as well.

NO MORE REINFORCEMENTS

Ottawa Journal-Press

No persons will be sent to the front until on some undefined date in the future the country is given an opportunity to pass upon it by way of a referendum.

BASED ON THE PAST

Port Arthur News-Chronicle, Independent-Conservative.

The weakness of the manifesto is that it is based on a review of the past, not on the necessities of the future.

EMPIRE'S HOUSE BURNING

St. John (N.B.) Standard, Conservative-Unionist)

Patriotic Canadians . . . . . realize that the Empire's house is burning, and they do not want to cease all effort to extinguish the flames until the people have taken a vote.

LAST HOPE GONE.

London Free Press, Conservative

Sir Wilfrid Laurier has removed from the issue of the war-time election the last hope of conscriptionist Liberals that he would at least give recognition to the Military Service Act now that it has been enacted into law.

WON'T SHAKE OUR FAITH

Vancouver Sun, Liberal

Those who take the broad view that the party spirit should be expelled from Canadian affairs until the war is over will find nothing in the manifesto to shake their faith in Union Government.

AN EMPTY BLANK CARTRIDGE

Toronto Mail and Empire, Conservative.

The "startling bomb" promised was a false alarm. The old chief's shot had neither lead nor fuse in it, it did not even flash. It is an empty cartridge.

UNSATISFACTORY.

Toronto Star, Liberal.

The people of Canada who believe we should go on and do in this war all that we can do will be unable to extract much satisfaction from this refreshing attitude of Sir Wilfrid Laurier.

ELECTION SETTLES IT

Montreal Gazette, Conservative.

The question of whether conscientious are to be drafted is to be settled in the forthcoming election and not in any subsequent reference of that question to the voters.

OLIVER'S PAPER SUPPORTS

Edmonton Bulletin (Hon. Frank Oliver, Proprietor)

Sir Wilfrid's challenge is: Give Quebec a fair chance. Under sympathetic leadership, she will do her share. If she does not, then enforce conscription by mandate by the people, but not in defiance of the people or by disfranchisement of a large part of them.

The American Peril

At Welland, Hunga province, an amazing incident occurred during a campaign against homeless. Following the lecture, in which the dangers of the day had been emphasized, some Chinese ladies were being shown the health exhibit. One of the pictures showed a common housefly magnified many times. On seeing it one of the ladies exclaimed: "Is that the kind of flies they have over in America? No wonder Dr. Pedge talks about the danger. If we had such big flies here in China we would have to be careful of them too."

Fourteen Inch Guns.

The making of fourteen inch guns is a stupendous operation, requiring batteries of open hearth furnaces to produce the material, a great casting plant and presses and hoisting tackles of the largest size, running into millions in value. The tube of a fourteen inch navy rifle is about sixty-two feet long, and a ninety inch ingot, five feet in diameter, is required.

Wide Awake Eskimos.

The Eskimos are rapidly learning the value of money. The day has long gone by when they would give a polar bear skin or a tale of fotskins for a fashook. They now know the value of their furs and bring them to the best markets.

A String to Them.

The Real "Third Degree."

An appalling story of the torture of a prisoner in the local magistrate's room at Hingi (south-west Kwei-chow) is told by the correspondent of the North China Daily News.

The writer is a missionary, who, obtained permission to treat the pain after the torture, the object of which was to obtain evidence against another prisoner.

The torture began by handing the man's hand on a wooden block in which a hollow had been cut in to receive it. The hand was soon shattered to pieces.

Then the victim was lashed to the "great stool"—twisted and contorted into various shapes with cords behind against the fleshy parts of the stool's legs and corners.

A piece of hardwood was then brought, and the magistrate himself is said to have beaten the unfortunate fellow was on both his shoulder blade. Then he took a rifle and gave savage blow.

When the prisoner pleaded to be shot outright the magistrate replied: "Shooting is too merciful; I'll kill you by inches."

The man was then untied and the magistrate took for a brick and a hammer. The prisoner's ankle was placed on the brick and the bones smashed with the hammer.

Finally, the victim's cangue was broke down, and he gate the desired evidence.

Odd Geographical Division.

The map of the line of mountains in Pennsylvania is divided by a river every twenty miles, as follows: From the Susquehanna to the Swatara, twenty-seven miles; from the Swatara to the Schuylkill, twenty-seven miles; from the Schuylkill to the Lehigh, twenty-seven miles; from the Lehigh to the Delaware, twenty-seven miles. At the next twenty-seven miles is a bolter of New Jersey, in which nestles a lake known as Culver's pond.

BOAR HUNT SHOWN IN "THE SERPENT"

A boar hunt is seen in "The Serpent," in which Theda Bara is starred, and which is being screened at Griffin's tonight, and Wednesday. The picture is one of Russian life, and it depicts the customs of Gentry and peasantry. Boar hunting is one of the chief sports of the Russian Empire. It is a dangerous pastime, for the boar once cornered, fights with the ferocious of the bear and other ferocious animals. The closing chapter of the "Mystery of the Double Cross" series, and the Mutual News Weekly are also being exhibited on the same program.

Old Phrases With New Meanings

"DO YOUR BIT." That has been the catch appeal of this war. Soldiers have answered it—with their lives. Ministers' workers have answered it—with their toil. Women have answered it a hundred ways—by the sacrifice of their sons; by their administrations to the wounded and the dying; by their knitting and their letters and their parcels of good things for the boys at the front.

"PAY YOUR BIT." That is another appeal. It has been made by the Red Cross, by the Patriotic Society, by all the various associations which are looking after the welfare of soldiers and soldier-folk. And Canada has answered. She has given, unprodigiously, and will give yet again and again.

"LEND YOUR BIT." That is war's latest demand. Canada needs money; the great conflict has already cost her over $700,000,000; will yet cost her hundreds of millions more. Of these immense sums, she has to borrow the greater part. But borrow where? Not in London, for Britain has a tremendous burden to carry. Not in New York; the United States, is raising its own huge loans. Canada must borrow at home, and the sums she requires are so large that the whole people must LEND THEIR BIT.

"CARRY ON." That is the watchword of this war. It is the watchword in the trenches; it must be the watchword at home. It is in order to CARRY ON that Canada is floating a loan for $150,000,000. It is to be a People's Loan, available in "small portions," so that every citizen may share in it. And the citizen who subscribes, no matter how much or how little, will be assured of three things great advantages: 1. A high rate of interest. 2. Quick sale of his holdings if he later wishes to turn them into cash. 3. Unimpeachable security for his money in the shape of the whole wealth and resources of Canada. But, best of all, by LENDING HIS BIT he will be DOING HIS BIT and helping the Dominion to CARRY ON.

Governor's Office For Hon W. Pugsley

Will be Successor to Late G. W. Ganong in New Brunswick

OTTAWA, Nov. 6.—Hon. William Pugsley will succeed the late G. W. Ganong as Lieutenant-Governor of New Brunswick. The appointment will be made this week.

Mr. Pugsley was Premier of New Brunswick for a short time after Hon. H. R. Emmerson retired to succeed Hon. A. G. Blair as Minister of Railways and Canals. When Mr. Emmerson retired from the portfolio Hon. William Pugsley came to Ottawa as Minister of Public Works and New Brunswick representative in Sir Wilfrid Laurier's Government, a position he held until the defeat of that Government in 1911.

In opposition Sir Wilfrid Laurier's proposal for a referendum on conscription and voted against the conscription measure. It is understood that he was opposed to coalition and union, but when the Union Government was formed, he announced his intention of supporting it. Mr. Pugsley was one of the keenest debaters in Parliament and Sir Wilfrid's ablest lieutenant.

NEW STYLE OF CRAFT USED AGAINST BRITISH

LONDON, Nov. 6.—An attack was made Saturday on British patrol vessels by an "electrically controlled craft. The craft was destroyed. The official statement says:

An attack was made to-day on our patrols circulating the Belgian coast by an electrically controlled high speed boat. The attack was defeated and the craft destroyed.

The term "electrically controlled" suggests a device similar to that invented some years ago by John Hays Hammond, who said he had perfected a motor boat of swift type which could be controlled by radio from shore stations. According to the inventor this device could be applied to any and larger type of craft and the radio waves would control its every movement and operation by the simple manipulation of a device ashore.

Congress appropriated a sum approximating $1,000,000 for the purchase of the Hammond patent and a committee was appointed to look into it, and should it do all that its inventor claimed, it was to be acquired by the Government. Major-Gen. Wood headed the joint Army-navy Board of inquiry, but the work of the board was not complete when war came on and tests stopped.

THE ONLY MEDICINE THAT HELPED HER

"Fruit-a-tives Again Proves Its Extraordinary Powers

Rosmor, Que., March 2nd, 1915.

"I have received the most wonderful benefit from taking "Fruit-a-tives". I suffered for years from Rheumatism and change of life, and I took every remedy obtainable without results. I tried "Fruit-a-tives" and found it was the only medicine that really did me good. Now I am entirely well—the Rheumatism has disappeared, and the terrible pains in my body are all gone. I hope that others, who suffer from such distressing diseases, will try "Fruit-a-tives". MADAME ISAIE ROCHON.

50c. a box; 6 for $2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

LIBERAL SUCCESS CALAMITY

HALIFAX, N.S., Nov. 6.—J. T. Wilson, president of the Dominion Trade Undersigned Association, published a resolution adopted by the Halifax County Liberal Association expressing confidence in Sir Wilfrid Laurier; in Hon. White's affirming his faith in Liberalism, he declares himself a strong supporter of the Union Government, and continues: "His (Sir Wilfrid's) attitude towards the Military Service Act and Coalition has been and still is, such as to make it impossible for me to give him my confidence, and I would consider the success of the Liberal party in the forthcoming Federal elections under his leadership in the nature of a calamity to the country." If I did say act or thing calculated to in any way interfere with the success of the present Government as led by Sir Robert Borden, I would feel myself a traitor to the cause for which the Empire and her allies are fighting."

MYSTERY PRINCIPLE DEAD

NEW YORK, Nov. 6.—Roland B. Molineux, central figure in a famous murder case of the 90's, died recently known as "The Molineux Case," nearly twenty years ago, died yesterday in a Long Island hospital.

A member of a Brooklyn family of culture and social standing, Molineux, a son of the late Edward Molineux, was arrested after Mrs. Kate Adams had died from drinking poison contained in a headache potion.

It was charged that the poison was sent in a silver container as a Christmas present by Molineux to a fellow club member named Guldensuppe, Mrs. Adam's home, and was a rival of Molineux in the courtship of Blanche Chesborough.

Dodging guilt of murder, he was convicted and sentenced to death house at Sing Sing. There he spent several years, meanwhile his counsel conducted a legal battle which ended with his acquittal at a second trial.

A NEW HYMN BOOK FOR THE METHODISTS

Special Committee of Canadian Conference Has Ended Its Labors—Anglicans, Roman Catholics and Others Contributed to Its Making

The new Methodist hymn book is out, and a million or more Canadian Methodists are curious to see what it looks like and what has happened to their favorite hymns.

Six years and more has that book been in the process of making. Several members of the special committee of the Canadian general conference, formed to prepare it, have passed through the portals of death. Now there is a nation-wide curiosity to see and hear what is in the new book.

There are several outstanding features of the new book. Let us take them in order:

1. It is an exceedingly catholic hymn book.

2. It is about one-third smaller than the former book.

3. It contains many more tunes than the old one, and many of these are original, the compositions of Canadian organists.

4. It has only about 100 of the Wesley hymns, as compared with over 400 in the old book.

5. It has a large number of hymns written by Canadian poets.

6. It has banned the use of the word "worm" as applied to human beings except in one instance.

7. It pays more attention to prayer-hymns for the common people than for kings and rulers.

8. It is a little more expensive than the old book.

9. It uses the tune of the Austrian national anthem, but to different words.

HAS MANY AUTHORS.

Probably the most striking characteristic of the book is its catholicity. Note that the word is spelled with a small C. It has nothing to do with Roman Catholicism. Included in the new hymn book is the Apostles' Creed —"I believe in the Holy Catholic Church—which means the church universal, taking Christ as its head. The word "catholic" is the antithesis of "bigoted" or "narrow-minded." It is therefore very properly applied to the Methodist hymn book as it has been revised, for the book is nothing if not inclusive. In fact, some of the staid old pillars of the Methodist Church may find a little difficulty in reconcile themselves to the names of some of the hymn writers, if not the hymns also.

There's the Roman Catholic cardinal Newman with his famous "Lead Kindly Light."

There's Whittier, the American Quaker, with his:

"We may not climb the heavenly steeps
To bring the Lord Christ down."

Sir John Bowering, the Unitarian, is in the book with:

"In the cross of Christ I glory,
Towering o'er the wrecks of time."

George Matheson, the Presbyterian, sings:

"O Love that will not let me go,
I rest my weary soul on Thee."

Edward Bickersteth of the Anglican Church:

"O God, the Rock of Ages,
Who evermore has been."

The Congregational Church has its representative, Washington Gladden:

"O Master let me walk with Thee
In lowly paths of service, free."

John Pawcett, the Baptist, has this hymn:

"Blest be the tie that binds
Our hearts in Christian love."

That master of hymn writers, Isaac Watts, was an Independent and among others is his famous:

"When I survey the wondrous cross
On which the Prince of Glory died."

And last but not least, the founders of Methodism, John and Charles Wesley, with their score or more of famous and stirring hymns.

TOOK THE BEST

No Methodist would want a book full only of Methodist hymns. It would be like a band with nothing but trombones or an orchestra with only cornets. The big committee took the best hymns wherever they found them, and no matter who had written them. Several hymns in the new book were written by J. Edmund Jones, the Toronto lawyer, who is an enthusiastic Anglican, but who sat with the Methodists on their long labors and aided them. He was a hard worker in the big task of revising the Anglican hymnal.

The old hymn book had 596 hymns; the new one has 650. But the tunes are many and varied. In some cases there is a choice of as many as four tunes for one hymn. Dr. A. C. Sanders of Dominion Church, Ottawa, and Mr. W. H. Hewlett of Centenary Church, Hamilton, are two leading Canadian organists who contributed a number of new melodies to the book.

Mexico, Hungry, Asks U. S. Food

Millions of Pounds Said to Be Starving and Revolt Is Feared

WASHINGTON, Nov. 6.—Mexico is sending a special commission to Washington to plead for food. Louis Cabrera, late Secretary of Finance of Mexico, and regarded as one of the shrewdest of Carranza's advisers, is now on his way to Washington in that capacity. Just whom he will arrive the State Department does not know. It is known in a general way, however, what he comes for.

Mexico is once again in serious trouble. Hunger and poverty, gaunt provocateurs of discontent, are spreading their hot on the masses in certain districts of the country and there is apprehension that revolution lurks in the background.

Millions of Mexicans in various parts of the country are said to be actually starving or on the verge of starvation partly through a failure of crops and partly through poverty. The masses depend to a large extent on corn, and the corn crop of the plateau regions has been ruined in part by frost.

No Grain Going From U.S.

There is no grain of any kind going over the border into Mexico from the United States on account of the strict embargo which is being enforced by the Exports License Board in the interest primarily of the United States and her Allies.

At the same time it is realized that unless something is done quickly to relieve the situation, parts of Mexico and particularly those parts that are most susceptible to the voice of German propaganda may flare up in revolt.

A revolution in Mexico, demanding the attention of American troops along the border, of course would be to an extent embarrassing to the operations of the army for work in Europe. Because of this it is believed that the United States will go as far as it can to give assistance and that Cabrera's mission will not be altogether in vain.

Mexican Concessions Necessary

But if Mexico wants food from the United States and if she wishes the United States to lift the embargo on the shipment of gold into Mexico, the United States for its part wants Carranza to let Mexican metals that are badly needed, copper for example, come into the United States.

Also the United States is interested in having adjusted various matters connected with the export of Mexican oil that is threatened from time to time by various degrees.

It is true, too, that Carranza would like to get some of those millions that the United States is lending its allies in the struggle against Germany. In fact it has been stated that he wants anywhere from $100,000,000 to $250,000,000.

Can Lend Only to Allies

Under an amendment to the war bond issue, bills insisted upon by the Republicans when these measures were upon Congress, the Treasury Department is debarred from lending any of the proceeds of these bonds to any country not allied with the United States in the war against Germany. The clause was inserted avowedly with an eye to Mexico. Whether any attempt will be made to have the law changed when Congress reconvenes next month, or whether other means of landing Carranza money will be sought remains to be seen.

In advance of the coming of Cabrera the State Department is declining to speculate as to the proposals he will make. Washington remembers him chiefly for the fact that it was he who blocked any agreement at the Mexican conference at Atlantic City and New London, Conn. It is realized, too, that German influences are still at work strongly in Mexico and are not without effect at Mexico City. The conferences are being awaited with interest by Administration officials.

The Investment Value of Canada's Victory Bonds

THE purchase of Victory Bonds means a distinct benefit to the buyer.

To obtain the money with which to buy bonds may involve much self-denial and even some sacrifice.

But there is nothing but benefit to you in buying Victory Bonds because your money is loaned on the very highest security, and it earns a high rate of interest.

LET us work it out like this:—

Suppose you carried a hundred dollar bill in your pocket-book for fourteen years, what would you have at the end of that time? Just one hundred dollars, and no more.

Suppose on the other hand you invested one hundred dollars in Canada's Victory Bonds, what would it mean to you, merely in money, at the end of fourteen years?

It would mean that your hundred dollars would be just about doubled—because every six months you would receive a sum of interest-money, which in fourteen years, if saved and compounded at ordinary bank interest, would equal the original cost of the bond, and you would also have the bond, worth a hundred dollars.

That is the mere dollars and cents meaning to you of one hundred dollars invested in Victory Bonds.

And there are no Dominion taxes on this issue Victory Bonds, nor will there be any.

* * *

AND then suppose you have right now, a little nest egg of say $500, and you put it all into Victory Bonds,

—and suppose as the years go by you accumulate another little nest egg,

—and you begin to think that with the money you put into Victory Bonds in 1917, and the new nest egg, say in 1922, you could have bought a home or gone into business or bought more land;

—you will be glad your money is invested in Victory Bonds,

—because it is not "locked up" and for these reasons:

—it is the highest class of security, saleable at any time in any market.

you can borrow practically the full value of the bond on the security of the bond alone, and the interest earned by the bond will be about equal to the interest charged for the loan.

Because that bond has behind it the faithful promise of Canada to repay the principal with interest—a promise backed by all Canada's wealth in natural resources and other assets; supported by the moral and legal obligation of the people of Canada, and buttressed by the national honor of Canada.

War Veterans Against Laurier

OTTAWA, Nov. 6.—In a letter issued to all the branch secretaries of candidate who places conscription as the successful prosecution of the war as the primary item in his platform, Sir Wilfrid Laurier, says Mr. Shaughnessy, has not having up to the present lies on slackers and separatists to elect him. Therefore, members of the Great War Veterans' Association must done this, it is apparent that he re-the Great War Veterans' Association, Acting President J. J. Shanahan calls upon all members of the association in every constituency, to make all possible effort to secure the election of a do all in their power, to secure his defeat.

"AN IRISHMAN" SEES LIGHT IN SCOTLAND

Finds That Erin Has No Real War Burden to Bear.

New York Sun

"An Irishman" writes in the Dundee Advertiser: "I have just come from Ireland to spend a few days in Dundee, and nothing in my whole life has struck me more forcibly than the contrast at present between Scotland and Ireland.

In Dundee, for example, you have girls on your delivery vans, girls as railway porters, girls as train conductors, girls as postmen.

"In Ireland we have nothing of the kind; all these posts are filled by young, able bodied men. In fact, you never could guess by anything you see in Ireland that the nations of Europe are locked in a death struggle. It does not hit us in any way; it is no matter of concern to us. We are not troubled by Zeppelins or submarines. The other day, in Dundee, out of nineteen men, each running his business single handed, eighteen were called up. We are free from all that sort of trouble and worry in Ireland; we have no conscription; we have no burden of empire to bear.

"In Dundee you send out your boys willingly to fight for the right; you bear your bereavement with fortitude. In Ireland, according to our own showing, we are the most oppressed people on the face of the earth and are ready to turn to the Germans to deliver us from our oppressors. Which things make one pause and think."

Combing Won't Rid Hair of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

U. S. PAPER CRITICIZED

WASHINGTON, Nov. 6.—The Russian Embassy has issued a statement criticising the manner in which the Washington Post presented the Petrograd despatches, regarding Premier Kerensky's declarations.

"No word in Kerensky's interview gives warrant for any assertion that Russia is out of the war," said the statement. "As a matter of fact the Premier stated the exact opposite."

"What Premier Kerensky expressed," the statement continued, "was only a feeling of the Russian people that aid and support should be extended to them, and that the encouragement from the allies, is justified to a nation that has borne such heavy burdens and is now in a period of fundamental readjustment. No word in the interview was intended to express any blame or sarcasm against allied action."

A cable received lately, and which is given out to the press to-day, shows the real military conditions on the Russian front. The best answer to the malicious assertion that Russia is out of the war will be the fact given by this cable that we are holding at the present time on our front 147 divisions of enemy troops."

Play U. S. Anthem Or Go to Jail

NEW YORK, Nov. 2.—If Dr. Karl Muck persists in his refusal to lead the Boston Symphony Orchestra in playing The Star Spangled Banner, he should be jailed, and the orchestra should be scrapressed, Col. Roosevelt declared to-day.

"Muck ought not to be allowed at large," said Roosevelt. "No Prussian citizen who refuses to play The Star Spangled Banner should have his liberty in America at this time. If the Boston Symphony Orchestra won't play The Star Spangled Banner it ought to be made to shut up."

THE ORCHESTRAL SOCIETY

Under the auspices of the Orchestral Society of this city, a very successful At Home was held in the Johnstone' Academy, Campbell Street, last evening. The hall was very prettily decorated for the occasion with flowers, etc., and the music rendered by members of the Society, not only proved a credit to themselves but also to the able Manager, Mr. Chas Hanna, who with other members of the Society did all in their power to make the affair the success it attained. A very large number were in attendance, including many out of town guests. Luncheon was served at midnight, during which the orchestra rendered many selections, which were very much enjoyed and appreciated. Dancing was continued until the early hours of the morning.

Washington expects some U. S. troops will be in action before Christmas, and that a sufficient number will be sufficiently seasoned to launch an "American" drive next summer.

SIR WILFRID IS IN WRONG

Toronto World.

Sir Wilfrid Laurier has issued his manifesto. He has a lot to say, and some of it is worth saying, but he ignores the great fact that the balance of power in Canada is passing from Quebec to the Canadian west, and it will soon be that the controlling power is altogether in the west. Quebec is not in line either with Ontario or the west on the premost issue that ever came to Canada; that is, shall we fight in this great war for liberty and civilization to our very limit, even if it entails forced military service? Sir Wilfrid's move is now seeking to find an apology for Quebec's distortionas in the war.

There are many Canadians outside of Quebec who are not for conscription, not even for war; but the outstanding fact is that the bulk of English-speaking Canadians are for winning the war, and the mass of Quebec is unwilling to participate in it. Sir Wilfrid is using a lot of arguments, more or less sound on their particular merits and more or less connected with the war to cover up Quebec's attitude. He does not reflect the views of the English-speaking Canadians. They are for winning the war, and for that reason they are forgetting political differences and are joining together to back up a union government.

This Leaves the Skin Free From Hairy Growths

(Toilet Talks)

A simple method for completely removing every trace of hair or fuzz is here given. This is painless and usually a single treatment will banish even stubborn growths. To remove the hair, make a thick paste with some powdered delatone and water, spread on hairy surface and after about 2 minutes rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disappointment, be certain you get delatone.

Music and Drama

"A RAG AND A BONE AND A HANK OF HAIR—"

The weird fascination of Theda Bara's acting in her specialty of the Vampire woman, "the rag and the bone and the hank of hair" is present in full force in "The Serpent" the film at Griffin's for the first half of the week.

As Vania, the beautiful wild and impetuous Russian dancer, in her first experience with society is disastrous and who goes out into the world with but one thought, that of desire for revenge, Theda has a part well suited to her talents As usual she leaves a trail of broken hearts and suicides in accomplishing her revenge on society and those who have so cruelly wronged her. The story ends rather abruptly and in a manner which leaves the audience divided between a desire to laugh or take a cuss word or two. However, it is good entertainment and has the additional charm of novelty the principal scenes being laid in Russia.

QUAINT IRISH DRAMA.

There is something unique and quaint about "My Irish Cinderella" which gives the play of that name a certain distinction. Peggy McNell is a little Irish girl, whose parents died when she was quite small, and when the play opens she is in the poor house.

She is taken to London as the supposed granddaughter of Lord Lonsdale, and while there she meets Clifford Morgan, a young American aviator, in the service of the Allies and falls in love with him at sight.

Miss Daisy Carleton in the role of Peggy presents a pleasing character drawing. She is a remarkably clever dancer and during the action of the play has several real song hits.

A big scenic production is carried and an excellent company of players is promised by the management.

"My Irish Cinderella" will be the attraction at Griffin's Opera House next Friday night.

Red Cross Concert At Plainfield

On Thursday evening in the Orange Hall, Plainfield, under the auspices of the Plainfield Women's Institute, was held a most successful entertainment, which delighted the large audience present.

Excellent addresses were delivered by Messrs. W. C. Mikel, K.C., Rev. F. White, B.A., and Rev. R. H. Bulteel, while numerous songs were sung by Miss Ball, Mr. and Mrs. A. D. McIntosh, Mr. John McIntosh; Mr. Sow and Mr. Barrett, and most entertaining recitations, were given by Miss Turner and Miss Jean Minnon.

Miss Pirkie acted as accompanist and Mr. John Elliott occupied the chair.

The proceeds of the evening were slightly over $50.00.

At the close of the programme, refreshments were served to all those who had taken part in the program.

Mrs. Hubble, President of the Women's Institute, and all others associated with her, are to be congratulated upon the success of the evening's entertainment.

WAR REVENUE TAX ON TRANSPORTATION IN UNITED STATES

MONTREAL, Nov. 1.—Starting today, the United States Government will levy a tax of eight per cent on the amount paid by passengers for transportation on railways or steamboats and ten percent. on the amount paid for seats, berths and slateroome in parlor cars, sleeping cars or on vessels. The tax will not apply on commutation tickets for trips less than thirty miles, nor on passage tickets where the fare is thirty-five cents or less. The tax applies on tickets sold in the United States to points in that country, Canada or Mexico, and will be assessed upon the total amount paid for transportation to destination and not on the amount paid for passage within the United States only. The tax will be collected by ticket agents, who are required under the law to decline to issue tickets to persons who refuse to pay the tax. On tickets issued in Canada to points in the United States this tax will not apply, only the Canadian tax of one percent. being collected on passage tickets, with tax of ten cents per berth on sleeping car tickets, and five cents per seat on parlor car fares.

HUNTING SEASON OPENS IN ONTARIO

TORONTO, Nov. 1.—The hunting season in Ontario opened to-day. Many parties were out in the different territories ready for the event. Reports received indicate that excellent sport will be available in the districts on the outskirts of the Algonquin Park reserve, in Tobazami, the Mazanetwan and French River districts and in Lake of Bays and Muskoka.

In the vicinity of Algonquin Park two of the most popular starting points for hunting expeditions promise to be Kearney, 207 miles west of Ottawa and Oponogo, 122 miles west of Ottawa. The distants reached through these villages are large and are replenished with game by the natural overflow from the big reserve nearby.

The newly opened up hunting districts in Northern Ontario along the Transcontinental Line are also attracting many hunters. The reduction in the charge for non-resident hunting licenses in Ontario from $50.00 to $25.00 will, it is expected, serve to induce many sportsmen from the United States and Canadian centres to hunt this year in the province.

The Military Service Act, 1917

DON'T DELAY! Do It TODAY

THE MILITARY SERVICE ACT is passed; the Proclamation issued October 13th. It is now the bounden duty of every man in Class One to report for service or claim exemption. This includes all bachelors and widowers without children (not otherwise excepted) who were 20 years old on the 13th October, 1917, and whose 34th birthday did not occur before January 1st, 1917.

What To Do

Go to your Post Office and ask for the form for reporting for service or for claiming exemption. The form contains clear instructions for filling in. Do this not later than NOVEMBER 10th.

Beware of the Last Minute Rush

With so many thousands of reports and claims to be dealt with, the rush of Class One Men will grow heavier day by day. You will waste less of your time and serve your own best interests if you avoid the inevitable rush on the last days.

The law is being enforced with the Government and the People firmly behind it. Obey the law. Do it today.

LOOK SUCCESSFUL.

Have Confidence in Yourself and Show It in Your Manner.

To be successful you must look successful. If you can carry yourself with a self confident air it inspires others with the belief in your ability and your success. You get to believe in it yourself. You begin to walk as if you were sure of yourself. You will believe in your ability to do things, and you are confident of results.

It does not take a keen observer to pick out a successful dealer. If he is prosperous every step, every movement, every look expresses it. There is a great deal in assuming the part of the character you desire to play in this drama of life.

There is nothing negative about the successful dealer. He is a winner, and like Hercules, he has conquered the moment he looks upon you. This is personal magnetism. Cultivate it, then you will not need boistering up. Learn to stand alone. Your every glance should carry power. Learn the value of reserve force.

Self confidence is the power to master all the faculties and unite their strength in one mighty cause. It matters not what your talents may be, what your abilities or ambitions may be, if you are lacking in self confidence you can never use them to the best advantage. Self trust is as necessary as ability.

Concentrate your faculties and your good qualities. Carry yourself with a self confident air and you will win still more confidence. Failure is impossible as its true worth in these two little words, "I can't," or "I will." Lose! successful!

Germany Needs Leather.

Germany shows exactly one sign of weakening and she is more, says Dr. Joseph S. Ames, professor of physics at Johns Hopkins university. He saw war activity for more than six weeks as a member of the National Research council sent by the Government to make scientific observations to enable the United States to render the most effective possible service to her allies in the conduct of the war.

"That one sign of weakness," Dr. Ames added, "is the dearth of shoes. Thousands of German prisoners while I was in France, and in none was there the slightest sign of want or dissatisfaction about shoes. They all wore shoes that were in bad shape, and that, you know, is an important sign for the whole army as a

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for temporary bridge near entrance at Port Arthur, Ont." will be received at the office until noon on Thursday, November 15, 1917, for the construction of a temporary pile trestle bridge, including the supply and driving of piles.

Plans and forms of contract can be seen and specification and forms of tender obtained at this Department and the office of the District Engineer, Scotty Building, Fort William, Ont.; Bank Mc. Marie, Ont.; Port Arthur, Ont.

Tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupation and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted bank cheque or a certified bank cheque to the order of the Honourable the Minister of Public Works, equal to ten per cent (10%) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

Note—Blue prints can be obtained at the Department of Public Works for the deposit of an accepted bank cheque for the sum of $10, which will be returned if the intending bidder submits a regular bid.

By order,

E. C. DESBOCHERS, Secretary.

Dear Dr. Redick:—It is just a month now since I stopped taking adjustments of the spine from you. Thinking this a sufficient time to decide what effect they have had, I wish to make these statements which you may publish if you so desire.

I can truly state they have cured me of constipation, also I confess the suits from the adjustments for my head, since my head has not ached no frequently, also I had such a scarcity of saliva when masticating my food I often needed some liquid food, or water to moisten it enough to swallow, now the flow of saliva is greatly increased.

I may say the eighteen adjustments have done me much good and I am sorry circumstances were such that I could not continue until the cause of every trouble had been removed entirely.

I have great confidence in your way of doctoring and trust all who read this may try the adjustments for any disease of which they are afflicted.

Yours sincerely,
MRS. (REV.) J. E. CARSON.

DEER AND THEIR HORNS.

They Get a New Pair Each Year, and the Bravest Get the Biggest.

As every year bones abed their old coats for new ones, so the deer in our forests or parks drop their horns. Often, in about thirteen weeks, a new pair of horns arrives, but they are tender and easily hurt.

As a deer's new horns are called "velvet" because they grow outside of a rough skin which is covered and brown, like plush. For a long time the velvet is not brush his horns in the brush. It would be too painful.

When a deer is without horns he feels weak. When the new horns start and grow he loses his fear of being again. After awhile he comes his head from side to side over, and the velvet he rubs rapidly through the brush and undergrowth.

As his new horns become big they also become less easily hurt. In rubbing through the leaves the very skin or "velvet," is broken and peeled away, in the springtime the "velvet" drops off. The deer is then very proud of his new clothes.

A deer is not afraid of pain he will try out his new horns long before his mates do. He will not wait until the "velvet" is gone. Wherever this outer skin is broken too soon the horn grows longer and larger. Thus it is that the bravest deer has the biggest pair of horns.

"Solid Gold."

Commercially speaking, the term "solid gold" as a substance, like truth gold has not been used for many, many years. Some of the ancient Roman jewelry and some Early British metal alsance period was, indeed, made of solid gold, worked up by hand with the crudest of tools, but since the old days there has been a constantly increasing employment of alloys, for the reason that jewelers found that the harder the gold was rendered by good alloys the greater its wearing qualities and the more secure, therefore, was the setting of the gems it contained. Nowadays jewelry is of 18, 14 or 10 carats, according to the design and character of the article, and it is much more frequently 10 than 18 carats.

The address just issued by Sir Wilfrid Laurier to the electors of Canada is a document which will be read with interest by all who are concerned in the present political situation. Sir Wilfrid is a statesman of long experience, and he has had to do with many crises in the history of the country. He has always been a master of political tactics, and he has always been a resourceful leader in the House of Commons. But he has never had to deal with a situation so difficult as that which confronts him at the present time. Never before has he had to ask the people to support a policy which was so unpopular in Quebec as the policy of conscription. GREAT VICTORY LOAN MEETING IN TORONTO

Canada's Giants of Finance Meet Representative Business Men Of Ontario In Conference—Canada's Great War Loan Will Be Eagerly Taken Up

At a luncheon given by the Ontario Committee of the Canada Victory Loan yesterday at the Royal Cafe in Toronto, business and professional men from one end of the Province of Ontario to the other gathered together to meet face to face the men higher up in the Victory Loan Organization. The organizations representatives were there fro mevery county in the Province, Hastings County having Ald. W. B. Deacon, County Chairman and W. L. Doyle, Publicity manager of the County.

The room was appropriately decorated with flags of the Allies, and the walls covered with advertising matter that has already been shown, or will be shown throughout the campaign, which starts on Nov. 12th. It was inspiring to see the interest and enthusiasm shown by Canada's biggest business men in the success of the loan. These men are giving their valuable time away from their business to attend to the business of the Victory Loan campaign because as the most vital business that one can possibly be engaged in for the next three weeks. If this business is not successful Canada will have to drop out of the war entirely. It is absolutely up to the citizens of Canada to keep Canada in the war by making the Victory Loan the most successful business venture ever attempted in the Dominion.

Mr. G. H. Wood, of Wood—Gundy Co., presided as chairman, and opened the meeting with a toast to the King followed by the singing of the National Anthem. Mr. Woods made an introductory address in which he gave an inkling of the necessity of concerted action on the part of every sub-organization in the Province of Ontario; after which Mr. A. E. Ames, and Mr. E. R. Wood, respectively Chairman and Vice-Chairman of the Dominion Committee of the Victory Loan spoke some plain words on the advantages and necessity of the loan as a domestic proposition. Mr. Woods dealt particularly on the obligations we owe the mother country from a financial standpoint. For the past fifty years Britain has financed Canada, and made possible the development of our vast country and limitless resources. More than 50 per cent. of all the money invested in Canada for the past 50 years has been supplied by Britain, now it was up to Canada to take care of herself. Every Canadian must do something to make this loan a success if Canada is to continue in the war. Mr. Nixon of the Nixon Iron Works told of the organization of the working men in the Victory Bond. Any workingman who can afford it and does not buy a bond will have a traitor's name to his country. Mr. Stevenson, Dominion Publicity chairman, and Mr. J. H. Woods, President of the Canadian Press Association, gave a brief outline of the extensive Dominion Advertising campaign. Mr. R. L. Ruddy told what Toronto was doing in the way of publicity. The committee numbers 1000 members and there's oceans of work for every one of them. The address of the afternoon was that given by Mr. Norman Summerville, the provincial organizer. Mr. Summerville is a most forceable orator and spoke with such dramatic feeling of the sacrifices being made for us by the boys "over there", that resolve was written on the face of every listener to put aside every business consideration, every comfort, every pleasure for the next three weeks and make Canada's Victory Loan a fitting answer to the appeal for help from those heroic soldiers who are fighting our battles.

Probably the most interesting talk at the publicity men present was that of Dr. Abbot, the Provincial Chairman of Publicity. Dr. Abbot spoke in a straight businesslike manner of the work of the publicity committees of the various counties, and many questions were asked and answered by the doctor and in this way points were cleared up that no amount of correspondence would cover. Dr. Abbot shows in his conduct of the campaign of publicity not only considerable grasp matter of his own, but a consideration of every matter in his associates. Publicity is recognized as the most vitally necessary work in the Victory Loan campaign. Then comes the actual sellers of the Bonds, the canvassers. By the time the canvassers get to the buyer he is convinced that it is his duty, and a great privilege to subscribe to Canada's Victory Loan, and Help Win-the-War himself, and not tell the other fellow how to do it.

She Had Suffered For 20 Long Years

Mrs. Morris Had Rheumatism So Bad She Couldn't Walk

"Words can only partially describe the suffering I endured before I began taking Tanlac," said Mrs. Mary Morris, of 602 St. Johns Road, Toronto, a few days ago.

"For twenty years," continued Mrs. Morris, "I have suffered in vain to get relief from stomach trouble, kidney disorders and rheumatism, and when I began taking Tanlac I was a confirmed invalid. During all these years I haven't been able to eat without suffering afterwards. My stomach was all upset. I had no appetite. I simply had to force myself to eat and then my food would sour and bloat me up terribly. I suffered all the time from indigestion and was constantly belching up my food sour and undigested. My kidneys worried me nearly all the time and during the past three years I developed rheumatism, which started first in my shoulders and arms and then got down into my lower limbs, and for more than two and a half years I have almost been an invalid. I was so crippled up that I couldn't walk. I couldn't even help myself and the misery was the most unbearable. Sometimes the pain was like a knife cutting in, then again it was a dull, throbbing pain that seemed close to the bone. My legs would puff up and my joints were so stiff and hurt so I could hardly move them. At times I had cramps in my legs until they felt like they would almost draw double, and no one, unless they have suffered the same way, knows what I have to endure.

"Well, I have spent lots of money for medicines of different kinds, but was never able to find anything to do me one bit of good. I had almost given up in despair, but Tanlac has already done me a world of good and I believe now I am going to get sound well. I have just started in on my third bottle of Tanlac, and I can tell that I am improving every day. The rheumatism doesn't bother me and the third bottle it did and I feel stronger and more vigorous than I have in a long time. While I haven't taken Tanlac long enough to say it has made a wonderful cure, I can say it is doing me good and that's more than I can say for any other medicine I ever took. I am certainly well pleased and I'm going to keep on taking it as I believe my relief will soon be complete."

Tanlac is sold in Belleville by Orr-Ironn's Drug Store, in Trenton by J. H. Dickey; in Deseronto by W. H. Malley; in Stirling by J. S. Morton; in Frankford by W. H. Latimer; in Madoc by J. Will Vince and in Marysville by T. J. McAlpine.

OUR WEEKLY SERMON

HEART YEARNINGS FOR GOD.

By Rev. A. M. Hubly.

Job xxiii-3.

There are times when the heart is desolate. The canopy of the soul is dark and ominous! Sun, moon and stars go out. Hope faints and the cry breaks forth: "All things are against me!"

No man becomes tried and found true, as a believer in God, who has not been some time or other subjected to some such experience.

Moses knew some of the tried, and true among the men of faith.

Moses, prostrate with agony of soul, because of the sin of his people! Hear him: "If thou will, forgive their sin; If not, blot me, I pray thee, out of thy book which thou hast written."

Joshua, in despair, and shame of an ignominious defeat, as prone upon the ground, he cried: "What shall I say, when Israel turneth their backs upon their enemies!"

The psalmist, when in bitterness of soul he cried: "All thy waves and thy billows have gone over me." "My tears have been my meat day and night, while they continually say unto me: Where is thy God?"

Behold Elijah, here of Mount Carmel, cast down, ready to let go of life. "Let me die! What better am I than my fathers?"

In all such trying circumstances there are stores of great soul riches. The deepest strata in which they are found himself asleader of a rebellious host, brought him to know both the justice and mercy of God better than he had done, and the depth that knowledge he obtained a clearer definition of his duty, as the servant of God, in relation to the people of Israel and unto whom the Lord had appointed him law giver and leader.

The same may be said of Joshua, who David was enriched by experience with clearer knowledge of what constituted sin in the life of a king. He learned, what all should learn, that a wrong a fellow being is to sin against God. He learned that his only safeguard against doing evil was nearness to God. This thought is expressed very frequently through his psalms. In the eighty-fourth psalm he says: "How amiable are thy tabernacles, O Lord of hosts! My soul longeth, yea, even fainteth for the courts of the Lord; my heart and my flesh crieth out for the living God."

This soul yearning, for the divine, is evidence of an awakened consciousness of human need, and the birth pains, of new and richer experiences, on a transcendant plain of life.

Human helplessness travails for the strength of the divine, and finds that his "extremity is God's opportunity." "I will lift up mine eyes unto the hills from whence cometh my help," and the vale of trouble will become a well of refreshment.

"Lazarus, thy friend been here," said the sorrowing sister, "my brother had not died." True, but if the brother had not died, neither the sister, or brother could have clomb the eternal day with life enriched a thousand-fold in the knowledge of Him who is the resurrection and the life."

So Job, the man of our text. Terrible desolation had come upon him. He had seen days of great prosperity. Days after years of unbroken success. He was the personification of all that was good and great in the eyes of God. "There was none like unto him, or in the good man of wealth, uprightness and generosity.."

Yet in a sudden calamity came upon him? Blow after blow fell upon him from what seemed an angered and revengeful Providence until he was bereaved of all that he had been considered most royally favored.

The only remnant of his once happy household was his wife and fatal and discouraging wife, who had very likely been spoiled by past prosperity. She was so wretchedly out of sorts with her bolt-covered body and travelling in the ash-heap of their ruined domicile, and so angered by the changed condition from royal luxury, that she counselled him to "curse God and die!"

Yet, in "all these things Job sinned not." He maintained his integrity, saying; "Though He slay me, yet will I trust Him." Why was this good man so tried in the furnace of affliction? God called him His servant and said: "There is none like him in the earth, a perfect and an upright man, one that feareth God and eshoweth evil." Why should calamity attend the life of one like patient Job?

There are many reasons why the good should suffer here. We remember the words of Christ to those of whom it is written: "Having loved his own he loved them to the end"; He said unto them: "In the world ye shall have tribulation; but be of good cheer I have overcome the world."

There is one great fact which is written largely in history both sacred and profane. It is this: God's honor before a world which "cannot know Him," stands in the integrity of His redeemed people. Job's integrity and honor as one who served his God was challenged by Satan, and also the honor and power of the divine to sustain in faithful service the human, when to all human sense all is failure, suffering and loss.

"Doth Job serve God for naught?" Then Satan slandered the servant of the Lord, and the world which knows not God, nor the character of the truly converted Christian, keeps up the slander still, "Do the Christians serve God for naught?" Deprive a man of the tangible blessings of the Church, and will he support it?"

"Take away from men the obvious and visible advantages of religion, and he will cease to be religious."

Such a challenge cannot be met successfully by argument, because all that is discernable and tangible to the unconverted is on the side of the challenger. The man of the world always has the better of the believer because the things which are seen are always on the side of the adversary. Listen to the apostle Paul whose heart-yearning after God very great because of his earthly tribulations. He says: "All things are for your sakes, that the abundant grace might through the thanksgiving of many redound to the glory of God. For which cause we faint not: but though out outward man perish, yet the inward man is renewed day by day. For our light affliction, which is for a moment, worketh for us a far more exceeding and eternal weight of glory; while we look not at the things which are seen, but at the things which are not seen: for the things which are seen are temporal; but the things wich are not seen are eternal." When this vision of the unseen and eternal things, which are attained by a man, he is ready to meet the world's challenge, and suffer all things that he may prove that God is true, and every man who denies the power of His grace to save the sinner and sustain his integrity in adversity as well as in prosperity is a liar.

"This is that which overcometh the world, even your faith."

He that is proved to be equal to the test of faith shall be in the end a recipient of a crown of life.

There is another fact largely written in the history of the race: "Man's extremity is God's opportunity." In trial and affliction, when all else fail, man turns to God, and gives Him the opportunity of doing for man what men cannot do.

Job had many sympathising friends. Some of them sought to comfort him in his distress. They presented to him their religious views which held that misfortune and suffering were visited upon men because of their sin. These men were but friendly critics, instead of comforters. These orthodox critics wounded, as with darts, the heart of the sufferer, yet he had this satisfaction. He had tried to serve and honor God in honesty and unrighteousness, and was conscious that the Almighty in whom he trusted knew it, though his friends knew it not. This one fact is true of all things, of whom all hearts are open and all desires are known, and from whom all secrets are hid. Job's heart appealed for His verdict, and so he cried: "O, that I knew where I might find Him! that I might come even unto His seat!" Job believed in a personal Redeemer whom he would some day see. He yearned from the depths of his being for the presence of one who was as good as he was powerful.

His great suffering had sorely tried his patience, yet his integrity and faith was sustained. He looked unto Him and was lightened, and his face was not ashamed. "This poor man cried and the Lord heard him, and saved him out of all his troubles."

When patience had done its perfect work, the Lord came to him, healed him, and re-established his greatness, and doubly increased his earthly goods. There are many round about us who know the need of a Redeemer. Consciously or unconsciously they are saying "O, that I might know him." And yet if they seek him at all, they do it directly opposite to the way plainly revealed in His word. Such a course can only be accounted for by a condition of unbelief.

Instead of believing that the way of salvation is putting Christ and His religion first in all things, they give them the second or third place in their consideration of what they think is important. It seems to me, a most deadly form of unbelief, that relegates the memorial feast to any place, but the first in the ordinances of worship, or that makes sanctity of the Lord's day a matter of convenience; or that rules as of no importance, the use of the family altar, and Bible study in the home.

"Seek ye first the kingdom of heaven, and its righteousness," is an emphatic statement of Christ our Lord. The unbelief that discounts the value of obeying His word can never help to rely upon Him for sustaining grace in time of trouble.

Many are deceived by looking for the benefits of Christian faith in the life of Christian people, instead of looking for Christ as the seat of His authority and learning His will concerning the individual which every one calls "Me." Looking to struggling, fighting, and often fainting Christians, will never bring a man to the mercy seat of the Son of God. He might be considering the Judases and not the Johns.

The kiss of Judas made the cross heavier for Jesus. So the unfaithful Christian makes the burden of service heavier for those who are faithful. But the increased burden brings greater blessings, making fellowship deeper, and divine communion sweeter.

In conclusion, let us cultivate heart yearnings for God; and judge of the value of true religion by practicing it according to the word, life, and power of Christ.

Let us say with the psalmist: "I have set the Lord always before me." And yet if they seek him at all, they do it directly opposite to the way plainly revealed in His word. Such a course can only be accounted for by a condition of unbelief.

Instead of believing that the way of salvation is putting Christ and His religion first in all things, they give them the second or third place in their consideration of what they think is important. It seems to me, a most deadly form of unbelief, that relegates the memorial feast to any place, but the first in the ordinances of worship, or that makes sanctity of the Lord's day a matter of convenience; or that rules as of no importance, the use of the family altar, and Bible study in the home.

"Seek ye first the kingdom of heaven, and its righteousness," is an emphatic statement of Christ our Lord. The unbelief that discounts the value of obeying His word can never help to rely upon Him for sustaining grace in time of trouble.

Let us say with the psalmist: "I have set the Lord always before me." Make Him the goal of our procedure every day. Then shall we be satisfied when we shall wake up in His image, and be like Him.

ROULERS BEING BOMBARDED

(Special to The Intelligencer)

LONDON, Nov. 7.—A despatch from the Flanders front says the British heavy artillery is today bombarding Roulers, the key to the German line of communications to the coastal submarine bases. Yesterday's advance brought the British lines within five miles of the railroad centre at Roulers.

William Jennings Bryan referred to war critics as anarchists in an address at Chicago.

THE JAPANESE SCHOOL BOY

Another famous author has contributed a picture to Paramount's long list of adaptations of famous stories—this time Wallace Irwin is the convert to the screen world, for his celebrated "Hashimura Togo" stories have been filmed with Sessue Hayakawa, America's most famous Japanese actor in the title role.

The Hashimura Togo stories are familiar to magazine and newspaper readers all over the country and the Palace Theatre will show this most popular and quaintest of characters for the last time tonight, along with the latest chapter of the "Gray Ghost" serial, and "Seventh Day" an amusing Edison comedy.

BILLIE BURKE AND KERENSKY

From the very first foot of film "The Mysterious Miss Terry" which is Billie Burke's latest picture, holds the attention and interest at top notch. A mysterious cab is seen appearing out of the gloom of a London fog. It stops before a stately mansion and a veiled lady descends, peers cautiously around and enters the house.

This inscrutable young person performs all sorts of kindly actions for the people in her boarding-house later on in the picture but it is not until the final absorbing denouement that her identity is discovered. Billie Burke in "The Mysterious Miss Terry" will appear at Griffin's tomorrow, and Saturday matinee and night. As a special attraction on the same program, the man of the hour, Kerensky, appears in the Russian revolution of 1917, authorized by the executive committee of the soldiers and workman's deputies of Petrograd. Two other quality pictures will also be screened.

BRILLIANT IRISH WIT IN "IRISH CINDERELLA"

Manager Forbes will offer a new play to patrons of Griffin's Opera House next Friday night when "My Irish Cinderella" will be seen. This play goes right home to the average audience because the story it tells rings true.

Peggy McNeil a slip of an Irish girl living in a poor house in New York is taken to London by Wingate Earl, the nephew of the Earl of Lonsdale. Peggy is passed off on the old Earl as his grand child by the nephew who is plotting to get control of the Earl's estate when he dies. There is a big love interest in the play and an American aviator enters Peggy's life. Miss Daisy Carleton as Peggy will introduce several big song hits during the action of the play, including "There's Something in The Name of Ireland," "My Irish Cinderella" and "Over in Erin."

Put Vim in Jaded Muscles

by stimulating and arousing the circulation with light applications of Absorbine, Jr., rubbed in thoroughly. This invigorating liniment acts quickly and surely. It is fragrant and pleasant to use—leaves no greasy residue on the skin.

As Absorbine, Jr., is a powerful germicide as well as a liniment, it is effective for prophylactic and antiseptic uses; it destroys the germs in cuts and sores; it may be diluted and used successfully as an antiseptic and germicide for the mouth and throat.

Athlete will find it efficient for lumbering sore, stiff muscles. A good rub-in for a rub-down is one ounce of Absorbine, Jr., to a quart of water or witch hazel.

It is composed of vegetable extracts and essential oils and is positively harmless. Get a bottle today and keep it in your desk, in your traveling bag, in your medicine cabinet or in the side pocket of your automobile. It's health insurance of a high type.

RETURNED HOME

Pte. J. Dickman, arrived at his home here from England on Monday afternoon, and was met at the station by Mayor Ketcheson and a number of citizens and taken to his home by Ald. Woodley.

JESSE JAMES HENDERSON.

There is still no trace of Pte. Jas. Henderson, the soldier who is so much sought by the military and civil authorities. Officials are hoping to hear something from the army of military and civil officers who have been searching for him.

PETERBORO'S RED CROSS CONTRIBUTION.

That instead of the $20,000 originally asked for by the Peterborough branch of the Canadian Red Cross Society the people of Peterborough will subscribe about $30,000 seems reasonably certain. The total recorded had passed $25,000 at last report.

DIED AT OSHAWA.

Mrs. Emma Jane Sarber, widow of the late Mr. E. A. Barber, of Trenton, passed away on Monday at the residence of her son-in-law, Mr. A. C. Hicks, Oshawa. Deceased was 88 years of age, and was highly esteemed by all who knew her. The remains will be brought to Trenton for interment.

LEFT FOR KINGSTON

Mr. E. J. Blaylock of this city, a returned soldier, who has done his bit, and who was severely wounded, has been for some time in the Inland Revenue department in Belleville. Mr. Blaylock has left for Kingston, where he will undergo proper medical treatment for some time.

HEARING FROM CHARLIE

Everything that can be done for a man is expected to do it on Monday next. The church bells will be rung, fire-bells and factory whistles will be turned loose, so that the people of Belleville will be aware that the Victory Loan Campaign has been launched in Belleville. Mr. Jno. Reynolds will be in charge of this end of the publicity, and we expect to hear from Charlie.

WILLING FOR ACTIVE SERVICE.

Messrs. Garnet French and C. J. McClellan, lodge-keepers in the Standard Bank, in this city, having passed as eligibles by the Military Medical Board, have taken out active service papers. Both young men are trusted employees of the banking institution, to which they are attached and have many friends in this city. Five who have passed have taken out active service papers here.

CROWN COUNSEL FOR ASSIZES.

Mr. James Edmund Jones, of the firm of Rowan, Jones & Sommerville, who has been appointed by the Attorney General to conduct the heavy Crown business at the Assizes, which open here before Mr. Justice Masten on Monday next, is an old Belleville boy, having been born here while his father, the late Rev. Canon Septimus Jones was the first Rector of Christ Church. Mr. Jones' mother, whose old residence, well remembered, is still, despite her age, actively engaged with her daughter in good work in Toronto. She was a daughter of William Hutton, the first Warden of the County of Hastings and Deputy Superintendent of Education with Dr. Ryerson, and it is a coincidence that the wife of the present Rector of Christ Church is a great granddaughter of the same William Hutton.

PROTECTING THE FORESTS

At the assembly room of the High School in this city, last evening an illustrated lecture was given. The attendance was not large, but the subject was one that was of vital interest and instructive. The lecture was given by Mr. F. E. O'Flynn, and was under the auspices of the Canadian Forestry Association, an Association which is accomplishing much good in imparting knowledge in reference to reforestry and the taking care of the forest of the county. As Mr. O'Flynn stated, the subject matter of the address had been prepared, and all that was incumbent upon him was to read the introductory part which he did, and to explain the many pictures which were thrown upon the screen. The speaker emphasized the necessity there was of protecting our forests, which were a great asset to the country. Without forests industries would be compelled to close up owing to there being no wood. The picture showed how forests might be preserved by care being exercised by campers and hunters, and also that reforestry was essential in keeping up a supply for future use the growth of trees. Scenes of forest fires in Northern Ontario were shown, also how the settlers were compelled to seek places of refuge. The lecture was certainly one of edification. At the close a hearty vote of thanks was tendered to Mr. O'Flynn, the same being moved by Mr. W. W. Knight and seconded by Lt.-Col. Barrager. This was appropriately acknowledged by the recipient. Mr. B. Mallory, chairman of the Board of Education, occupied the chair.

"Danger Ahead" is the Warning Which Headache Signals to You

TRUE, an occasional headache may result from conditions that pass away, but "persistent headaches" tell of serious trouble, and demand attention.

Women are more liable to headaches than men. The direct cause may be overwork, worry or mental anxiety, but the real source of trouble is debility of the nerve centres.

The brain is the "central station" of the nervous system, and here is first felt any unusual strain. Headache results, and you are warned of the exhausted condition of the nerve cells.

The first thought is of relief, and too often there is formed the habit of resorting to headache powders or tablets, instead of aiming at the restoration of the nervous system.

Nerve Cells of Brain Cry Aloud for Rich Red Blood

The Food Cure

Mrs. G. Storrig, 13 Catharine street, Kingston, writes:—"I have been suffering for the last five years with nervousness, headaches, so that my eyeballs would fairly split, dizziness, and weakness of the heart, and a generally rundown condition. I doctored for several years with different doctors, but without getting relief. Through reading one of your booklets, I thought that possibly I could get benefit from Dr. Chase's Nerve Food, so I decided to try it. I got one box, took the pills, and, feeling better, followed it up with more. Now I am feeling much better, am stronger, and able to get around and do my work without difficulty. I would recommend Dr. Chase's Nerve Food to anyone suffering from nervousness and rundown condition."

Anaemia or bloodlessness is often an accompaniment of headaches. The blood is thin and watery, the nerves are starved, there are spells of melancholy and discouragement, and you feel in many ways the need of reconstructive treatment such as Dr. Chase's Nerve Food.

Fatigue and exertion should be avoided, and you should have exercise in the open air while using this food cure to nourish the starved, depleted nerve cells back to health.

Not only do you cure headache by using this treatment, but you build up the run-down system, and prevent such developments as nervous prostration and paralysis.

Dr. Chase's Nerve Food

50 cents a box, a full treatment of 6 boxes for $2.75, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

NO ELECTION NECESSARY

The success or failure of Union Government will not depend altogether upon the strength or weakness of the opposition. Union Government depends a great deal for its usefulness to the nation upon its friends and well-wishers. Strife and discord over candidates can not help the cause of Union Government, and may seriously weaken it. This is a time of national stress when personal ambitions should be subjected to the spirit of sacrifice in the best interests of Canada and in the hands of the statesmen who are striving to build up a larger and better Canadianism upheld in spirit and in truth. East Hastings, West Hastings and Prince Edward constituencies have been well represented by men who have supported every patriotic measure before Parliament and who have every qualification for Union candidates. No reason exists for a change and the electors should recognize their long and honorable service by insisting upon their return by acclamation as members of the Union Government.

From East Hastings comes rumors that opposition may possibly develop to the sitting member, Mr. W. B. Northrup, K.C., who has served the constituency so well. No blame can be attached to any elector with ambitions to sit in Parliament, but is this the time for a change, and is there any reason why Mr. Northrup, with his long parliamentary experience, should not continue to represent the constituency? He can surely represent East Hastings better than a new inexperienced man and he would certainly be of infinitely more service to the nation as a member of Parliament than would an apprentice member. Mr. Northrup has served on some of the most important committees of the House of Commons with distinction and is highly versed upon all the questions of war and parliamentary procedure.

Electors in the Madoc section, with a lively remembrance of the thousands of dollars that were replaced in the municipal treasury through Mr. Northrup's strenuous efforts in the matter of the lost Hastings road, will agree that an acclamation would be simple justice in recognizing his services and efforts for the entire constituency.

Mr. Northrup spent his own money and time in a long and seemingly hopeless attempt to recover the bonus money for Madoc municipality and that he succeeded is a tribute to his ability and perseverance. Surely nothing but gratitude and support will come from Madoc.

The aviation camp which caused a large and constant expenditure of money in the constituency was secured through Mr. Northrup's efforts, and the location of the Fish Hatchery was also due to his efforts besides looking after the general interests of the constituency and every individual elector to the utmost of his ability.

What's the answer?

It should be an election by acclamation.

A POLITICAL MILLENNIUM POSSIBLE.

It would scarcely be expected that an election in Canada could be allowed to pass without at least some excitement, and, as is too often the case, a little ill feeling exhibited by the zealous and overanxious partizan, who has but one object in view—looking to the future success of his party and a snug berth, a place with little to do and ample remuneration for doing it.

Let us at once intimate to our election correspondents that all letters of a personal character, other than that pertaining to politics and the opinions of those seeking the suffrage of the electors will not be accepted for publication in the columns of The Intelligencer. If there should be any reason why publicity should be given to references of a more or less personal nature pertaining to anyone seeking the votes of the electors, it must be done over the signature of the person making the charges, who must thereby assume full responsibility for his words.

There is at the present time, or should be, a political millennium which all lovers of their country, and sympathizers with the beloved ones in the trenches, should respect. It is difficult for some hard-headed old political heelers, whose only thought is success of party and the rewards expected therefrom, to realize that a union of politicians honestly holding different opinions upon economic questions, and who for years have been fighting along the lines of such views for victory, can be effected and that they can possibly unite upon a question and a policy having exclusively for its object the aiding in securing success in the vital struggle in which the Empire is at present engaged.

As an illustration: One innocent and unsophisticated patriot who evidently has of late read little of political events occurring in England, asks: "Is it possible or reasonable to think that one who has occupied the place of party servant for years can be a leader of the united strength of the most progressive of the two parties?"

The Hon. A. L. Sifton, Premier of Alberta, answered this question in a speech delivered by him on the 31st October at Medicine Hat, where there was a large gathering composed of Conservatives and Liberals who had met for the purpose of nominating a candidate to contest the riding at the coming election. After Mr. Buchanan, the late M.P., had retired in favor of an anti-Laurier Union candidate, Mr. Sifton received the nomination on motion of Dr. Oliver Boyd, the former Liberal candidate, seconded by Wm. Cousins, the veteran campaigner of the Conservative party. The nomination was carried unanimously.

In accepting the nomination Mr. Sifton answered the carpers and discontents who think of nothing but what is to be gained through party success. He could be accepting the nomination in the spirit in which it was made, and among other points upon which he touched, the report says:

"He most emphatically denied that there was any political bargaining between the Liberals who entered the Government and Sir Robert Borden. There was no holding out for tariff or other concessions, or stipulations as to the divisions of the portfolios. They went into the Government to serve Canada and the Empire "in the time of crisis."

Yes, it is quite possible, as pointed out by Mr. Sifton, except to those whose instincts and reasoning powers never soar above hunger for the political flesh pots.

If High Church, Low Church, Protectionists and Home Rulers and Anti-Home Rulers, men of the most opposite views who have been battling for years in the most vehement and unloving style, can forget for the time being their ancient fights and unite for country's sake, surely the same loyal manhood and breadth of thought and intellect is possessed by those who have united on a win-the-war policy in Canada.

It is unnecessary to refer to or point out the important and serious differences of opinion that have existed upon nearly every subject that has agitated the people, held by the leaders of public opinion in Great Britain for the past half century, which has not prevented united effort in war time. This would make a profitable study for the narrow-minded politician in Canada who asks how the leaders of public opinion in the Dominion can unite in Union Government. He should be thankful that Canada has politicians, leaders of parties, who can forget for the time being for the sake of the Empire, past differences of opinion which in many cases were endorsed in too strong language.

If we are to have a fight in the two Hastings constituencies let us have it upon the square issue of a united policy and not throw old experienced M.P.'s aside for new and untried ones.

Now is the time for united action and not party conflict which can wait until the war is ended.

The Intelligencer, if it be necessary, will with its eighty-three years of experience, enter vigorously, when the war is ended, into political warfare in defence of Liberal Conservatism. Let the leaders of what is termed Liberalism do the same, if they have not become, in the meantime, wiser, and changed their views upon public questions.

Daily Progress Of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

Sir Wilfrid Laurier has endorsed W. D. Euler in North Waterloo as anti-union candidate.

A meeting of war veterans endorsed the candidature of Lieut.-Col. Sutherland in North Oxford.

An effort is being made in Brantford to bring all the parties together to consider the selection of a fusion candidate.

In some quarters in Hamilton Laurier's manifesto is well received, but Sir John Gibson, one of the most prominent Liberals in Ontario, comes out strongly against the Laurier propaganda.

It is rumored that Hon. W. L. Mackenzie King will become a candidate in North York and become Laurier leader in Ontario.

T. Dryden was selected by the Liberals of Dufferin to contest that riding. He declares himself in favor of a referendum on conscription.

Parties of North Waterloo failed to agree on a union candidate and Conservatives will likely name W. Weichel as their candidate.

South Waterloo Liberal executive unanimously passed a resolution favoring a union candidate, while some of its members vehemently denounced the policy of the new union administration.

The supporters of W. D. Euler, the anti-conscriptionist Laurier candidate, named a committee to select a date and place for the holding of a convention to ratify his candidature. Mr. Euler has been endorsed as a Liberal candidate by Sir Wilfrid Laurier, who has tendered Mr. Euler his best wishes for success.

Hon. J. D. Reid, Minister of Railways and Canals, was nominated at a Union Government convention at Bonnyville to be a candidate for election in Grenville County, which he has represented in the House of Commons since 1891. Dr. Reid's was the only name brought before the convention, which was composed of delegates from every polling subdivision in the constituency.

CANADIAN PRESS ON LAURIER MANIFESTO

Brief and Pointed Extracts from Editorial Comment of Some of the Leading Newspapers of Canada—Both Liberal and Conservative

More to The Point.

Toronto Globe—Sir Wilfrid's earlier declaration is more to the point than his long manifesto: "If Germany wins, nothing else matters."

Election is Referendum.

Vancouver World—Sir Wilfrid Laurier does not appear to recognize that the coming election is in itself a referendum. When the Union Government is beaten, then conscription, the base of the coalition, will have been beaten, and Sir Wilfrid need do no more than carry on the Government without troubling with a "referendum."

At Variance With Public.

Regina Leader (Lib.)—Many of the policies to which he commits himself, and the pledges he makes will be exceedingly popular with the people of Canada, and particularly of Western Canada. But, on the one outstanding issue of the present day, the immediate and energetic enforcement of the Military Service Act for the raising of all men needed to reinforce the Canadian armies at the front, Sir Wilfrid is hopelessly at variance with public opinion in this country."

Sir Wilfrid's Ordeal.

Hamilton Times (Lib.)—"With much that the manifesto contains The Times agrees. In fact, eliminate the position on the question of conscription and we might be able to endorse everything else of importance in his pronouncement. Sir Wilfrid puts a brave face upon it. He sees his closest friends and strongest champions of Liberal principles one after another declaring that they can no longer follow him and crossing over into what he looked upon as the camp of the enemy. It is an experience which few political leaders have ever been asked to pass through, yet Sir Wilfrid meets the ordeal bravely."

Canada Disgraced

Toronto Telegram—Canada is disgraced by the Laurier manifesto. Tweddle to the people, treason to the soldiers, is the stuff an address to the Canadian people is made of.

The words of the Laurier manifesto—the manifesto has no thoughts—have their sources in the cold heart of a political calculator and in the empty head of a parliamentary notary.

The whole deliverance is contemptible in its utterly non-intellectual quality. The Laurier manifesto is still more deplorable in its revelation of Sir Wilfrid's isolation from the griefs of this war and indifference to Canada's share in the outcome of the mightiest struggle in human history.

SEAT ON JUDICIARY

FOR J. D. HAZEN

OTTAWA, Nov. 7.—Hon. William Pugsley has been gazetted Lieutenant Governor of New Brunswick. Hon. J. D. Hazen is gazetted Chief Justice of the same Province.

Both Mr. Pugsley and Mr. Hazen are former Premiers of New Brunswick. Mr. Pugsley resigned the Premiership, however, after a few weeks to contest a seat for the House of Commons.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Public Building, Port Arthur, Ont.," will be received at this office until noon, p.m., on Monday, November 26, 1917, for the construction of a temporary pile pre-fabricated Public Building at Port Arthur, Ontario.

Plans and forms of contract can be seen and specifications obtained at this office and at the office of the Superintendent of Dominion Buildings, Equity Building, Toronto, Ont.; Small Bldg., Hardy, Ont., and Port Arthur, Ont.

Persons tendering are notified that tenders will not be considered unless made out on the printed forms supplied and signed with their actual signatures, stating their occupation and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10%) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted, the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

Note.—Blue prints can be obtained at the Department of Public Works by depositing an accepted bank cheque for the sum of $10, which will be returned if the intending bidder submits a regular bid.

By order,
E. F. DESROCHERS,
Secretary.

PLENTY OF N. S. APPLES

HALIFAX, N.S., Nov. 7.—The directors of the United Fruit Companies at a meeting held in Berwick Saturday, expressed confidence that the apple season would be most profitable for Nova Scotia growers. The cooperatives have already shipped 53,000 barrels of apples and 25,984 barrels of potatoes. It is estimated that 250,000 barrels of apples yet remain to be handled by the co-operatives.

San Jose Scale and Tussock Moth

Discussed at Annual Meeting of the Belleville Horticultural Society Last Evening

The annual meeting of the Belleville Horticultural Society, was held last evening, and was fairly well attended. It was presided over by Mr. A. R. Thrasher, President.

Mr. W. J. Diamond, Secretary-Treasurer, presented a financial statement, which showed the receipts of the past year to have been $261.66, and the expenditures $209.91, leaving a balance on hand of $73.86.

On motion the report was received and adopted.

Election of Officers

The election officers for the ensuing year resulted as follows:

President—A. E. Thrasher.

First Vice President—M. W. Mott.

Second Vice President—W. R. Vallance.

Secretary-Treasurer—W. J. Diamond.

Directors—H. J. Clarke, F. D. Diamond, John Harris, A. R. Walker, Geo. Harris, W. J. Diamond, Jesse Harris and H. Graham.

Auditors—F. D. Diamond and A. R. Walker.

Delegates to the Ontario Horticultural Association—H. J. Clarke and A. R. Walker and W. R. Vallance, proxy.

Committee on Inducements—John Harris, S. J. Weddeu, H. J. Clarke, A. R. Walker, W. J. Diamond and the President.

The following resolution was unanimously adopted:

Moved by H. J. Clarke, seconded by S. J. Weddeu, that this Horticultural Society hereby expresses its strong endorsement of any legislation which the Government of this Province may enact for the extermination of the San Jose and Tussock moth which have become a pest in the Province and is rapidly destroying all orchards and shrubbery; that we feel that such legislation should be enacted as soon as possible, as individual effort on the part of some of those who realize the importance of protecting themselves against this pest has been, and is wasted without co-operation of every one, it being useless for one person to take measures to eliminate the scale unless his neighbors do the same.

At the conclusion of the annual meeting the directors met and transacted some routine business.

Murder Mystery In Old London

Headless, Armless and Legless Body of Woman Found in Regent Sq.

LONDON, Nov. 7.—The most puzzling murder mystery London has had in a decade developed Saturday. Scotland Yard developed a shade its in trying to trace the identity of a headless, armless, and legless body of a woman found in Regent Square that night. The trunk was wrapped in sacking and a sheet—the latter of fine quality linen. All the amputations were clearly done, apparently by the work of a surgeon. A silk chemise of fine quality was the only garment on the mutilated body, but in the wrapping was a piece of coarse brown paper with the words scrawled thereon, "Hoolie Regium."

When the trunk was found the police systematically searched the whole neighborhood and later found the headless, armless and legless body, pale and lying nearby. The body gives evidence of being that of a woman of considerable refinement.

The recipe for Fish Omelet, mentioned above, is as follows:

Fish Omelet—

1 heaped tablespoonful cooked fish
1 tablespoonful grated onion
1 egg
1 tablespoon butter
Pepper, cayenne and salt.

Beat the yolk of the egg, and add the cheese and seasonings. Fold in the white of the eggs, whipped to a stiff froth, and put the mixture quickly into a frying-pan or omelet pan in which is melted the butter. Cook slowly. When the egg begins to set, stir in the fish, and when ready the omelet is done. Serve immediately.

ITALIANS RUSHED TO SAVE THIRD ARMY

Certain Section of Second Army Held Isonzo Heights Who a proaches Were Literally Alive with the Enemy—Thrilling Tales of Valor

ROME, Nov. 6—Withdrawal of Gen. Cadorna's third army, practically intact, was achieved by unparalleled heroism of Italy's dogged fighting men.

Enough of this story of valor, unfaltering courage and supreme sacrifice—even to death—of the Italian defenders reached here this afternoon to route the whole capital to a thrill of patriotic pride and to make the conviction certain that Italy's men would stem the tide of invasion.

Withdrawal of the third army was in itself a strategic feat not approached in any of the war's manoeuvres. Practically encircled by the German-Austrian lines, the men nevertheless cut themselves out, fighting hour after hour and day after day without complaint, and enduring an overwhelming superiority in arms and men at disposal of the German command in heroic resistance.

Infantry, cavalry, aeroplane corps and motor cycle detachments magnificently faced the great masses of Austro-German troops, fought them to a standstill, delaying the advance inch by inch until the main body of the army could withdraw to pre-arranged positions.

A certain section of the second army held the Isonzo heights at a time when the approaches were literally alive with the enemy. When the pressure got too tremendous, detachments of the Italian soldiery volunteered to rush forward to their death, knowing their bodies and the dead of a charge from men determined to die in defense of their country would temporarily slow up the enemy's progress and permit many more Italian soldiers to escape.

Military To Vote In Various Camps

OTTAWA, Nov. 6.—Forty thousand military voters and three thousand naval voters is the number expected will be cast in Canada in the coming elections. So far as is possible polls will be held in every camp, base, barracks, rest station, ship, dockyard, hospital or any other place where a military or naval unit may be found. Exactly how the Dominion will be organized for taking the naval and military vote has not been finally determined, but the general scheme will probably be along these lines.

For the military votes, a presiding officer will be named in each military district. The presiding officer will in turn appoint deputy presiding officers who will actually take the soldiers' votes in camp, hospital or wherever a unit is stationed.

Military and naval voting in Canada will be during the same hours of the same day as the civil polls are held. All polls held within the cities of Calgary, Edmonton, Halifax, Hamilton, London, Montreal, Ottawa, Quebec, Regina, St. John, Toronto, Vancouver, Victoria, Winnipeg, Stratford, St. Thomas, Saskatoon, Moose Jaw, Kingston, Brockville, (Ont.), Moncton, Hull, Charlottetown, Belleville, Sherbrooke, Victoriaville, (Que.), Chatham, Lethbridge, Medicine Hat, Sydney, Glace Bay and Sydney Mines, will open and close at five o'clock in the afternoon. All other polls will open at 9 o'clock in the morning and close at 8 o'clock in the afternoon.

Tammany Wins In New York

NEW YORK, Nov. 7.—With only 72 districts missing in Greater New York the vote for mayor shows the following totals:

Bennett, 51,956; Hylan, 288,435; Hillquit, 134,800; Mitchel, 145,459. Hylan's plurality over Mitchel was 142,976. Mitchel's lead over Hillquit was 10,569.

John F. Hylan, a county judge of Kings County, and Democratic candidate, was elected mayor of New York yesterday by a plurality of more than 100,000. He carried with him the entire Democratic ticket, including Charles L. Craig for comptroller; Alfred E. Smith, now sheriff of New York County, president of the board of aldermen, and Edward Swann for district attorney. The indications are that the Democrats will have a majority in the board of estimate, which controls the expenditure of the city funds.

Mayor John P. Mitchel, who sought re-election as a fusion candidate, although not formally elected by any party, was a poor second in the race. His vote in the districts out of 3000 in the city was 104,720 compared with 205,268 for Hylan.

Morris Hillquit, the socialist candidate, about whom rallied most of the radical elements in the city and all those who favor an immediate negotiated peace, polled third place, while William M. Bennett, who unexpectedly won the Republican primary nomination from Mayor Mitchel, was fourth with 84,647.

2ND CLASS WILL NOT BE CALLED OUT

OTTAWA, Nov. 7.—The Military Service Council were in conference yesterday afternoon with the Cabinet, and could not be seen, but high officers connected with the Department characterized as unfounded the report sent out to the French press that the second class under the Military Service Act is to be called out in February. There will be no call of the second class, it is stated, or no decision when it will be called, until the first one is sized up.

Too Sick To Work

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

Convincing Proof of This Fact.

Ridgway, Penn. — "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old." —Mrs. O. M. Rhines, Ridgway, Penn.

Mrs. Lindsey Now Keeps House For Seven.

Tennille, Ga.—"I want to tell you how much I have been benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. One druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited."—Mrs. W. E. Lindsey, R. F. D. 3, Tennille, Ga.

TUFTSVILLE.

Mr. and Mrs. Chas. Ashley of West Huntingdon, visited his brother, Mr. H. S. Ashley, on Sunday last.

Miss Nellie Bird, is attending business college, at Belleville.

Mrs. Dan Cooke, after thirty-five years, of absence, visited friends here and is now spending a few days with her brother and sister at Campbellford.

Mr. and Mrs. Werden spent an evening with Mr. and Mrs. Bennett.

Mrs. G. Hamilton of Turney Settlement, visited her daughter Mrs. Nelson Stapley.

THURLOW

On Hallowe'en night our young people attended a miscellaneous shower at the home of Mr. and Mrs. Geo. Greatrix, 2nd line. It was in honor of their son Archie, who was recently married to Miss Mamie Snider of Belleville.

Mrs. Jas. Bunnett, Jr., is on the sick list.

Great excitement prevailed throughout our neighborhood on Saturday night when it became known that Cadet Alcala of Camp Mohawk had landed on the rented farm of Mr. Jas. Bunnett. Glad to report that the cadet was only slightly injured. Many spectators viewed the mangled machine on Sunday.

Miss Rebecca Greatrix is visiting her sister, Mrs. A. Clasie.

Wednesday afternoon a quilting was held at Mrs. B. Sleper's in aid of the Red Cross.

Mr. and Mrs. E. Snider, Holloway, spent the week end with their uncle, Mr. R. Smile, who is seriously ill.

THIRD LINE THURLOW

Mr. and Mrs. Crosby of Redcreville, Prince Edward County, were the guests this week of her sister, Mrs. W. H. Clark.

Mrs. J. A. Wilcox has returned home after spending several weeks at Crookston.

Miss Nelson Schryver of Forin Street, Belleville, is visiting friends in this locality.

A number from here attended quarterly service at Ebenezer on Sunday morning last. Also the Orange service at Canifton in the afternoon.

Miss Pearl Dean has returned home after spending a couple of weeks visiting friends in Belleville.

Mrs. J. Trewin spent last week with her daughter, Mrs. A. Loucks, Canifton.

SHANNONVILLE

Wednesday evening, October 31, the "Comrade Class" held their Hallowe'en at home in the A. O. U. W. hall, which was very appropriately decorated for the occasion.

The programme was well rendered; great credit being due the pianist, Mrs. (Rev.) W. W. Jones, and Mr. Ross, who did exceedingly well with his duties as chairman. Special mention may well be made of the dialogue given by members of the class, entitled, "The Great Church Bell Case," as well as the Hallowe'en parade drill, given by 8 boys and 8 girls. At the close of the marching the members of the drill formed a semi-circle, and to the singing of "The Maple Leaf" Miss Pearl Taylor as "Canada" took her place at the right, to "Columbia the Gem of the Ocean" Miss Jean King as "Columbia" took her place at the left; "To Rule Britania" Miss Ethel Reid as "Britannia" took her place in the centre. Canada and Columbia clasped hands with Britannia and all joined in heartily singing the National Anthem, which proved a very fitting closing, after all went home well pleased with the entertainment of the "Comrades."

GILEAD.

The hum of the threshing machine is heard again in our neighborhood.

Quarterly sacramental service was conducted at Gilead church Sunday morning by Rev. J. C. Mullen. There was a good crowd in attendance.

Miss Helen Cooley visited her aunt, Mrs. George Martin, last week.

Miss Keitha Sheffield of Belleville, was a week end guest at Mr. Tom Coulter's.

Mr. and Mrs. Will Hodgen spent Sunday at Mr. R. Yorke's.

IVANHOE

We are having lovely weather now.

Mr. T. R. Fleming left this morning for the northern part of the Township, where he intends spending a few days chasing the deer.

Mr. and Mrs. M. Hagerman and Miss Florence Hagerman visited Mr. and Mrs. P. Brown one day last week.

There was no preaching service here on Sunday, as Mr. Scott, who was to have taken charge, was unable to attend.

Mr. and Mrs. Paul Hagerman of Minto, were Sunday visitors of Mr. and Mrs. Jas. McKee.

Mrs. M. Sine of Belleville spent a few days last week with her mother, Mrs. S. Reid.

Mr. Moore is still making cheese and is selling a fair amount of milk.

Mr. and Mrs. Foster and family of Moira, visited Mr. and Mrs. Wm. Shaw on Sunday.

VICTORIA

Church was well attended on Sunday evening.

Our chicken dinner was a decided success. Proceeds about $100.00.

Mr. and Mrs. Rae Fox accompanied by Mr. and Mrs. D. McColl of Trenton, spent Sunday with Mr. and Mrs. Harry Bush of Frankford.

Mr. and Mrs. Lorne Coughey and son took dinner at Mr. B. L. Redner's on Sunday.

Canning chicken is the order of the day.

Mr. and Mrs. Norman Wrese spent Sunday at Mr. Clifford Peck's, Albury.

Mr. and Mrs. J. Bryant spent Sunday at the home of Mr. H. Sager.

West Will Go Strongly Union

OTTAWA, Nov. 7.—Sir Robert Borden will issue a statement in a few days reviewing the changes and pledges of the manifesto of the Liberal leader.

Sir Wilfrid Laurier, in addition to intimating his intention, if elected, to delay enforcement of the Military Service Act, declares that he would take drastic steps to fix food prices and prevent profiteering by manufacturers of munitions and war supplies.

The Prime Minister in the manifesto made public a few weeks ago stated the resolve of the Union Government to prevent trade combinations and hoarding to raise food prices and thus to reduce the cost of living. He also set forth the Government's policy with respect to taxation upon incomes and profits. It is expected that in his forthcoming statement the Prime Minister will include an elaboration of the Government's plans for carrying into effect the policies which it has laid down.

$10,000 FOR A SHETLAND.

NEW YORK, Nov. 7.—Sale of King Garnis for $10,000, said to be the highest price ever paid for a Shetland pony, was announced here. The purchaser, James Cox Brady of Oyster Bay, L.I., will enter the pony, a diminutive stallion, which holds more than 100 blue ribbons, in the National Horse Show here next week. King Largo was bred at Washington, Illinois, by George A. Heyl.

SHOT BY A BURGLAR

WALKERVILLE, Nov. 7.—Wallace R. Campbell, Secretary-Treasurer of the Canadian Ford Company, was shot by a masked burglar and seriously wounded. Hearing a noise in the night Mr. Campbell arose and confronted the intruder, who fled, but fired his way into the house. Before Campbell could grapple with the robber, the latter fired four shots, the last one penetrating the victim's side. The assailant then rushed from the house. Physicians declare the wound is serious.

CANADA

Notice to Employers

The attention of Employers is especially called to the following provisions of the Regulations passed under The Military Service Act, 1917, and The War Measures Act, 1914, which directly affects them.

EMPLOYER TAKING UNDUE ADVANTAGE OF EMPLOYEE.

Every employer, and every person acting on behalf of any employer, who stipulates or attempts or offers to stipulate with any employee or other person for any reduction of an employee's salary or wages, or for the alteration of any other term or condition of his employment, in consideration of the employer exercising or refraining from exercising his right to claim exemption from military service on behalf of any employee, or who alters or attempts or offers or proposes to alter, adversely to any employee, any of the conditions of employment affecting such employee by exercising or refraining from exercising or by authorizing or suggesting the exercise or abstention from exercising of his right to claim exemption from military service on behalf of any employee, shall be guilty of an offence, punishable on summary conviction, by fine or imprisonment or both, in the discretion of the convicting magistrate; the fine to be not less than one hundred dollars and not more than one thousand dollars, and the imprisonment not to exceed six months.

EMPLOYING MEN WHO ARE IN DEFAULT.

Every person shall be guilty of an offence, and liable on summary conviction to a penalty of not less than fifty dollars, and of not more than five hundred dollars, who, after the expiry of the time within which a man is by proclamation or regulation required to report in accordance with section 4 of the Act or to apply for exemption, employs or engages in his service, or continues in his service for a period of seven days, any man who belongs to any class or sub-class which has been called out, and who has not reported as required by section 4 of the Act, or in respect of whom an application for exemption has not been made, unless such person prove that, having made the inquiry, he believed upon reasonable grounds that the man so employed, engaged or continued in his service did not belong to any class or sub-class called out, or that he had reported or had at the time a certificate, or that an application for exemption by or in respect of the man was at the time pending.

EMPLOYER TO MAKE ENQUIRIES.

(a) It shall be the duty of every person who is an employer to make inquiries forthwith after the issue of any proclamation calling out men for military service under the Act whether any, and, if any, which of his employees are within the class or sub-class called out by such proclamation; and, forthwith after the expiry of the time limited by the proclamation for reporting for service or claiming exemption, to inquire and ascertain whether there are any, and if any, which of the men in his employ so called out who have failed to report or apply for exemption from service, or in respect for whom an application for exemption from service has not been made.

EMPLOYERS TO ANSWER.

(b) It shall be the duty of every employer to answer any questions that shall be put to him by his employees, and to give any information which his employer may require of him for the purpose of enabling the employer to comply with the duty imposed upon him by this section.

REPORT TO MINISTER.

(c) Every employer shall, forthwith after the expiry of the time so limited by any such proclamation, report to the Minister (of Justice) according to the best of his knowledge, information and belief, the names and addresses and the whereabouts at the time of all employees in his service called out by any such proclamation who have failed to report or apply for exemption from service.

PENALTY.

And any person who is an employer who refuses, neglects or fails to comply with any of the requirements imposed upon him by this section shall be guilty of an offence and liable, upon summary conviction, to a penalty not exceeding, as to each employee in respect of whom he has so refused, neglected or failed to comply, one hundred dollars and not less than fifty dollars, or to imprisonment for a term not exceeding three months, or to both fine and imprisonment in the discretion of the convicting magistrate.

EMPLOYING DESERTERS.

Every person who employs or retains in his service any man who has deserted, or who is absent without leave, from the Canadian expeditionary force, shall be guilty of an offence, punishable on summary conviction by imprisonment not exceeding six months, or by a penalty of not less than one hundred dollars, and of not more than five hundred dollars, unless such person prove that he was not aware, and had no reasonable ground to suspect, that the man so employed or retained in his service was a deserter or absent from the force without leave.

Under the proclamation issued on the 13th of October, 1917, the last day for members of Class One under the Act to report or claim exemption is

AT THE BIG WEDDING.

Sir R. L. Borden and Sir John Hendrie signed the register as witnesses of the marriage of Lady Maud Cavendish and Capt. Angus A. Mackintosh in Christ Church Cathedral, Ottawa, on Saturday afternoon among the guests present were Mr. and Mrs. Northrup and Mr. and Mrs. Ackerman, of Belleville.

FORMERLY OF DESERONTO.

The many friends of Robert H. Watson, at one time Manager of The Standard Iron Co., of Deseronto, will be pleased to learn of his appointment as General Superintendent of the Detroit Iron & Steel Co., and the Detroit Furnace Co. Mr. Watson has been connected with the former company for the past two years.

MISSING FROM HOME.

Ormond Allen Jackson Braden, aged 16 years, has been missing from his home on Hartley street, Peterboro, since Hallowe'en night, since then no trace of him has been found. The following is his description: Sandy hair and complexion, slimly built, freckled face; dressed in grey colored peaks jacket, brown trousers, black boots and stockings; also grey sweater coat with red facings.

"OLD AND ONLY IN THE WAY"

Poor old Thomas David is still being held in the Kingston police cells. He was in Kingston a short time ago, picked up as a vagrant and sent to Picton, but the authorities there packed him off to Kingston again. The Kingston magistrate ordered that he be sent back to Picton again, but there appears to be some hitch about his transportation, and until this is settled the unfortunate is being detained at Kingston police headquarters. David appears to be of unsound mind, and should be cared for in some institution.

CALLED BY DEATH.

WILLIAM FARNHAM

The sudden death of Mr. William Farnham, barrister, of Bancroft, which occurred in this city yesterday afternoon, caused universal regret, as Mr. Farnham was well known and deservedly popular. Heart failure was the cause of death. A few minutes before the fatal summons came, Mr. Farnham was conversing with friends and made no complaint of being unwell. Two physicians were upon the scene shortly after he fell on a landing in the Robertson block, east side of Front street, but he was beyond medical aid. Deceased was 52 years of age and was born in village of Carlton. He was a son of the late Mr. Timothy Farnham, of Carlton, who was for many years the superintendent of Roads and Bridges for Hastings County. After graduating from the public and High school, he studied law, and successfully passed his examination as a barrister. He was for some time associated with the legal office of Mr. Porter, K.C., M.P. of this city and afterwards conducted a law office here for himself for a short period. For the past 14 years he has been residing at Bancroft where he had a lucrative practice. Mr. Farnham was genial and public spirited, and had a host of friends who will regret to learn of his demise. In religion he was a Methodist and he was a member of Moira Lodge, A. F. & A.M., of this city. Holds chapter and King Baldwin Preceptory. He was also connected with the C.O.O.F. A widow survives, also two brothers, Timothy and Henry of Tharlow and one sister, Mrs. D. Farley, of this city. To the bereaved will be extended the heartfelt sympathy of many friends.

LETTERS FROM OVERSEAS

This letter was received by Miss Ella Anderson, Rossmore.

France, 4—10—17.

Dear Miss Anderson:

We the members of the No. 20 Co'y Canadian Forestry Corps, Central Group, B. E. F. France, enjoyed the puzzles and games you sent on the 14th June, 1916 very much indeed, and we wish to thank you for your kindness. We got them last Sunday, I feel sure you would like a personal acknowledgement from a certain unit. So the above address will give it you. Now that the long evenings of winter are going to set in and the daylight hours are at an end in a few days, we need more than ever the assistance of our friends in Canada, for although we are among the warmest hearted and tenderest people imaginable here in France, you will remember many of us do not speak French, and that all of us are in exile and are likely to be for several years. I think Rossmore is in Muskoka, it perhaps would interest you to know our men are very good lumbermen and take a great pride in their work. The French forests are wonderful. So beautifully kept; every few years all the underbrush cleaned out; the trees trimmed regularly, all the other trees that give seed carefully tended and reserved. You look at a forest as you ride by on the perfect roads here, and see trees all of same age growing close together, forty feet straight up without a branch in some forests, and the sight is wonderful. You cannot tire of the French forests.

With kindest regards from Canadians across the sea.

I am, yours very truly,
P. W. T. ROSS, Lieut.

MILITARY NOTES.

Private information has been received in the city from France which states that the boys who left Canada with the First Contingent will be distinguished by a red band worn on the arm. The others will wear one or two blue bands, according to the length of time they have been there. There are only about twenty to receive the red band.

Women of Canada, Make Your Money Fight for Your Boys

CANADA'S women have been foremost in all good works in the war. In thousands of mother hearts are the wounds of the greatest sacrifice the war has demanded of our people. Their spirit of self-denial, their patience in suffering, have inspired Canada's men to greater and still greater effort.

Canada's Victory Bonds give you mothers, and wives, you sweethearts and sisters of Canada's boys in the trenches the opportunity to fight shoulder to shoulder with them in France.

You can fight with your money when you put it into Victory Bonds just as truly as though you stood beside your boy with a rifle in hand.

So you women of Canada have an interest second to no other in the success of the Victory Loan.

—because it means support for your fighting men, the support that is absolutely necessary to win Victory.

Women of Canada, you will grasp this opportunity to fight along with the men of Canada.

Buy Victory Bonds with your savings. Urge your friends to buy. Use your organizations to influence everybody in your community to make Canada's Victory Loan a real weapon for Victory in the war.

* * *

And as an investment a woman's savings can be put into no safer security, drawing a good rate of interest, than Victory Bonds.

Canada's Victory Loan Campaign will begin Next Monday, November 12

RED CROSS BAGS FOR OCTOBER

September's collection was a special one for the boys' Christmas boxes, and when counted amounted to $389.78. This was made up through extra subscriptions to within a few cents of the $400.00, and we trust that much gladness will come to the hearts of those who so generously helped to make a glad Christmas for our brave soldiers.

October's collection was very gratifying, for in the same week three other important collections were being conducted, and the continued interest in the Red Cross Penny Bags was indicated by an increase of more than $20.00 over the month of August. We would like to make our monthly average $3000.00, so this would insure an annual income of $35000.00 and no one would feel the strain of giving if they drop in the bags the occasional coppers which comes as change in the course of buying. Sampson Ward gave largest this month:

	September	October
Samsen	$78.18	$54.47
Ketchenon	26.52	44.25
Halwin	68.50	38.19
Coleman	49.60	32.85

Minister of Finance In Victory Film

TORONTO, Nov. 7.—The Finance Minister of Canada, Sir Thomas White, accompanied by Lady White, and R. A. Stephenson, chairman of the Dominion Publicity Committee for Canada's Victory Loan, attended a private showing yesterday afternoon of the movie film "Victory Calls to You, Canada," in the the office of the Regal Films, Limited, through whom the Victory Loan Committee is releasing the film without charge to every moving picture house in Canada.

Sir Thomas White is one of the two stars in the film, the other being Miss Gwendolyn Haynes, who, as "Miss Canada", after reading the advertising of Canada's Victory Loan, interviews the Finance Minister about it and secures from him the reasons why the loan is necessary and why the people of Canada should make it a success. The film concludes with the purchase of one of Canada's victory bonds by Miss Haynes.

"Victory Calls to You, Canada" will be shown next week in most of the moving picture theatres throughout the country.

Troops Instructed To Disobey Orders

Special to The Intelligencer.

PETROGRAD, Nov. 7.—The Soviets military committee today ordered the troops at Petrograd, Pavlowsk and Tskaro, Selo to disobey orders from the War Ministry.

The Government authorities promptly disconnected all bridges connecting the workmen's quarters in Petrograd and new loyal troops are guarding the city. The Government has decided not to use armed forces against the military committee for the present, but has ordered the Ministry of Justice to prosecute the members.

RETURNED SOLDIERS GIVEN GOOD POSITIONS

Mr. Porter, Parliamentary Representative for West Hastings Has Redeemed His Promise to the Soldiers—Many Now Occupying Good Positions in Public Service

In the early stages of the war, when every effort was being made to encourage the young men of Canada to make the sacrifices necessary to enable them to "sign up" to defend the Empire, their homes and loved ones against the blood-thirsty and fiendish attack of the Hun, Mr. Porter, the member for West Hastings in his public speeches declared that so far as his power would go preference would be given to returned soldiers in filling any positions becoming vacant in the public service in the Riding which he represented. Since then a large number of vacancies have taken place, some by death, others by officials taking up arms in our common defence.

It is greatly to Mr. Porter's credit and shows the warm spot in his heart for the returned heroes when he are able to say that in every instance where such a vacancy has occurred in West Hastings it has been filled by the temporary or permanent appointment of a returned soldier up on his recommendation. A great many such appointments have been made in the Inland Revenue Department, the Customs Department, The Post Office Department both in the City and County. The British Munition Works, The Trent Canal, and other Public Works and contracts.

Some of these appointees have found the work to which they were appointed unsuitable to them and have retired, and invariably their places have been filled with other returned soldiers, and when a public employee has been overseas in the service his position has been reserved for him on his return. Some of these vacant positions have also been given to female relatives of soldiers and all without any distinction of political affiliations.

Our soldier boys, both returned and overseas, know they have a staunch friend in Mr. Porter and one who will enthusiastically look after their interests at all times and render any possible service to help win the war. They are not likely to forget Mr. Porter when they can do him a service, nor will their female friends who have the right to vote overlook their acts of justice done for their boys and husbands.

It is also worthy of note that the twelve or fourteen extra clerks necessary to handle the Christmas rush at the Post Office will be sons of soldiers as the result of Mr. Porter's recommendation.

SIR THOS WHITE FOR LEEDS

Finance Minister Nominated by Union Government Convention at Brockville

BROCKVILLE, Nov. 8.—Sir Thomas White was this afternoon nominated as the national candidate for Leeds at an enthusiastic non-party convention here of 600 odd electors presided over by Fred J. Skinner of Athens, one of which Conservatives in its formed approximately one-third. The nomination was moved by W. J. Gilmour, Liberal stalwart and former parliamentary candidate for Gananoque, being Sir Wilfrid Laurier's candidate against Hon. George Taylor. The nomination was seconded by William Jolly, Conservative, of Elizabethtown, and made unanimous with a great demonstration of enthusiasm on a standing vote, on the initiative of John Webster, representative of Brockville riding in the last parliament, who declined the nomination as proposed by A. E. Donovan, M. L. A. Both candidates and solicitor-general, Hon. Hugh Guthrie, tersely and effectively presented the paramount issues of the hour from the unionist viewpoint, in speeches of less than an hour each, loud resolutions were adopted heartily endorsing the persistent and ultimately successful endeavors of Sir Robert Borden toward coalition government, for the energetic prosecution of war policy.

Mystery Story Of "Colonel" Macklem

Much Fuss But Few Feathers in Newspaper Sensation By Canadian Soldier

TORONTO, Nov. 8.—Romance surrounds the exhibition flights of Section permeates the story of Colonel Omar L. Macklem, formerly of the 16th Battalion, C. E. F., at present held by the authorities in Detroit.

As a war hero who had suffered grievous wounds for his country, he was honored as he must always be honored everywhere. But as a mechanical rank and fortune and social position almost beyond imaginability be appealed particularly to Detroiters. In the recent Liberty Loan campaign in that city he was the outstanding personality.

Edmund Bristol K.C. of this city, was retained by Macklem to look after his interests in Washington while negotiations were under way with respect to the invention of a cabin detonator which it was claimed would make for increased efficiency of used by the armies in the field.

When seen in connection with the matter Mr. Bristol stated that he was not now acting for Macklem nor had he been since Sept. 19th last.

"When did you first meet Col. Macklem?" was one of the questions asked Mr. Bristol.

"On board the 'Corsican' when I was returning from the old country in July."

"Do you know if Col. Macklem sold his hand-grenade invention to the British Government, Mr. Bristol?" queried The Star.

"He told me," replied Mr. Bristol, "that the hand-grenades invention had been disposed of to the British Government for the use of the Allies, and that he had been given an honorarium of $100,000. But that he wished it kept quiet as to why a shell detonator he had recently invented which would save the Allies governments immense sums of money."

"Comet Macklem, who has recently been arrested in Detroit, has had an extraordinary history. At a very early age his father died and he went to work in a factory in St. St. Thomas to help support his mother, and shortly after, at the age of 19 he became assistant to the Packard Motor Works at Detroit. He subsequently went to the Canadian West and is said to have been successful in California in real estate. He married a charming young lady of North Bay, whose father is in the service of the Canadian Pacific, and at the time the war broke out he was again working for the Packard Motor Company at Detroit. Feeling the call of duty he came over to Canada and enlisted in London, Ont., in March, 1915, and went over in France and in the front line trenches in September of that year. He was twice severely wounded—the second time by an explosive bullet, which took out one eye.

Has Invented a Bomb.

"While recovering from the latter wound in the West Cliff Eye and Ear Hospital, Folkestone, Kent, he is said to have invented a bomb, and in accordance with this a letter was written by the lieutenant-Colonel commanding the West Cliff Eye and Ear Hospital to Major Hudson, Canadian Casualty Assembly Centre, No. 1 Lines, Shorehem-by-Sea, dated Nov. 12th, 1916 asking for his discharge on account of wounds and to work on his inventions. Macklem was very friendly with English titled folks and was the permanent guest of Mr. Charles Nelch, Secretary of the Judicial Committee of the Privy Council, Viscountess Maitland, gave Macklem letters of introdcttig to influential friends in the United States and Canada, ——

The Detroit misadventure seems to have a very small basis and relates to an incident occurring in 1914 before Macklem went to war. With all that has been published in the past few days in the sensational American newspapers to the detriment of Macklem there is nothing to his discredit except this affair of a check for $100 which he may be able to explain.

U. S. Patrol Boat Was Torpedoed

WASHINGTON, D.C., Nov. 8. — The American patrol boat Alcedo was torpedoed and sunk by a German submarine in the war zone early Monday morning, and one officer and 20 enlisted men are missing.

The Alcedo, a converted yacht, carried a crew of seven officers and 85 men.

Passchendaele Spires Now Merely a Memory, but Village Slid Looks Across Occupied Belgium—Hindenburg's Best Position in Canadian Hands

BRITISH FRONT IN BELGIUM, November 8.—Field Marshal von Hindenburg's stern edict that if the Germans lost Passchendaele village it must be retaken at all costs had it stirred his beaten-back troops to action up to this morning. The intrepid Canadians were still standing as they had for twenty hours, along a line well beyond this vital point, although rain drenched and shivering under the biting autumn wind in their muddy fastnesses.

Every hour made the British positions on the front of Passchendaele, Moorslede and Gheluvelt stronger, for the work of consolidation proceeded apace during most of yesterday and all of last night.

Passchendaele, whose spires not long ago showed picturesquely against the sky from their elevated position is now a memory. The little hamlet has all but disappeared under the deluge of shells. It was not the village that counted, however, but its invisible site. From it one can see a great distance out across occupied Belgium, and the possibilities for artillery work from here are wide in scope.

EDITORS PLEAD NOT GUILTY

NEWARK, N.J., Nov. 8.—Benedict and Edwin S. Preith, until recently proprietors of the New Jersey Free Zeitung, together with William Von Katzler, editor; Henry Waechter, city editor, and Hans Von Hundebahnen, of the former editorial staff of the paper, pleaded not guilty when arraigned in court here to-day to a charge of treason, uttering false bonds and publishing statements injurious to the United States on which they were recently indicted.

COUNT AGAIN ON TRIAL

CHICAGO, Nov. 8.—The case of Count James Minotto, son-in-law of Ecnie F. Swift, the packer, was resumed before the immigration authorities to-day. The technical charge against the count is that he might become a public charge, and as such should be deported, but the underlying purpose is to develop whether he was a cog in the German espionage system. This the defendant vigorously denies, and his counsel illustrates father-in-law in standing by him.

INVADERS' FLAG IS HOISTED OVER CATHEDRAL OF UDINE

ROME, Nov. 8.—The intruders' flag has floated over the Cathedral of Udine, Italian headquarters has been issued by Field Marshal Mackensen, explaining that the occupation of the conquered territory is provisional. He declares that the mission of the Austro-Germans and their allies is to deliver Italy from the British rule with the object of hastening peace.

THE VICTORY LOAN IS PURELY CANADIAN

TORONTO, Nov. 8.—Sir Thomas White, Canadian minister of finance, stated to-day that in view of the war financing of the American Government in its Liberty Loan issues, it is the desire of the Minister of Finance that the Canadian Victory Loan, 1917, should not be promoted in the United States. No commissions, will, consequently, be paid for obtaining American subscriptions.

DECISIVE DEFEAT OF TURKS IN HOLY LAND

Brilliant Strategy of Gen. Allenby Has Resulted in the Capture of Gaza, Together With Many Prisoners and Guns —Advance on Jerusalem

LONDON, Nov. 8.—The British have captured the city of Gaza, in Palestine, the War Office announces.

The British have made an advance of nine miles, carrying the whole Turkish system of defences in this region and capturing two towns in addition to Gaza.

General Allenby's coup threatens to cut off the whole of the Turkish forces operating in that theatre and give the British one of the most decisive victories of the entire war. By capturing Gaza General Allenby has accomplished the most brilliant manoeuvre recorded in the fighting in the Near East. His forceful methods of debouching his men across the desert country in night marches in a complete encircling movement, which placed his armies to the rear of the Turks, marks the beginning of an intense campaign. It result plainly may end in forcing Turkey out of the war, as her Palestine armies are now in extremely dangerous positions. Their lines of communication are maintained through a narrow strip of country with the British troops threatening it from both sides. It can be stated flatly that the British troops will not spare any effort to win a clean-cut victory and wipe out the previous history of the fighting with the Turks, when a victorious British advance on Jerusalem will be rapidly pushed.

Miss Gwendolyn Haynes of Toronto is said to be one of the most beautiful Canadian girls, and recently acted "Miss Canada" in Sir Thomas White's movie film. "Victory's Call to Canada," which will appear in every moving picture theatre in Canada next week.

CANADIANS CAPTURED TWO HUN COMMANDERS

Brilliant Exploit of Canadian Soldiers in Taking Passchendaele —Captured Commanders and Staffs Besides 400 Soldiers and Ten Guns—Left Huns Without Leaders

British Front in Belgium, Nov. 8.—Two German battalion commanders and their staffs were taken prisoners by the Canadians when Passchendaele fell. In the capture of these commanders probably lies a partial explanation of the failure of the enemy to launch a counter-attack against the village at a time when it would have stood most chance of success—before the British had begun their concentration.

This man was the commander of a reserve battalion which had been brought up for the express purpose of counter-attacking. He and his staff had come into Passchendaele to consult with the battalion chief commanding the troops in the village, and when both these commanders and their subordinates were taken their troops were left without a commander. Consequently the reserve battalion appears to have waited in a state of indecision for the return of their leaders.

Perry Robinson in a despatch to The Times says the Canadians took prisoners not only the officer commanding the troops actually holding Passchendaele, but also the commander of the supporting battalion. They took 400 prisoners, three seven-point and seven field guns.

NINE O'CLOCK MONDAY!

Monday morning at 9 o'clock all the bells and whistles in this city are expected to herald the opening of Canada's Victory Loan.

The clamor is to signify that all the people in this part of Canada, in company with all other Canadians,—are taking up joyfully, optimistically and with determination, the task of making this loan a success.

There are sure to be some among us who will sit back and say: "Oh, a hundred and fifty million dollar loan is out of my class—over my head, how can I help?"

Don't be one of these people. Don't hand back. Don't imagine YOUR contribution too small to help Canada. Five dollars down will, we are told, buy a Victory Bond.

Be ready for this campaign! Watch the Government's advertising from now on—and make ready to render your share of this patriotic yet profitable service to your country.

The Spine and How It Affects Our Health

YOUR SPINAL COLUMN

It is an established anatomical fact that the brain is the great nerve centre of the body, and that it has a prolongation, the Spinal Cord, which passes downward through a canal in the spinal column. This spinal cord also has progressive pairings called the spinal nerves which pass out through the intervertebral foramina (small openings between the movable bony segments or vertebrae of which the spine is built up).

The spine is made up of 33 bones called vertebrae, 24 of which are normally freely-movable. As the foundation of the entire skeleton frame the spine is subject to every jar or strain, and any violent obstruction of the muscles is immediately concentrated upon the spine, and may, by wrenching some of the ligaments which bind the vertebrae together, displace one or more of these bones slightly out of normal position.

When unhindered, the nerves transmit 100 per cent. of energy, and ease (HEALTH) is the bodily condition. When pressed upon and the flow of energy is impinged, DIS-ease is the condition wherever these impinged nerves lead to.

A light impingment may cause an abnormal increase of function, while a heavy pressure inhibits its action and paralysis in part, partial or complete, ensues.

For instance, if the bowels are affected and cannot carry of the poisons of the body, this excrementitious matter remains and permeates every other structure of the body.

CHIROPRACTIC should be thoroughly investigated by those who are sick, or by those whose dear ones are suffering from DIS-ase. CHIROPRACTIC COURTS IN VESTIGATION.

A science which is based upon logical principles delights in being investigated; while a pseudo exodus analysis. Do not insult your intelligence by ridiculing the great science with which you are unfamiliar; nor will you be a stumbling block to those who want to come in touch with it.

The diseases given below are ONLY A FEW OF THE MANY which are caused by subluxations in the spine

1. Slight displacements at this point will cause headaches, eye diseases, deafness, epilepsy, vertigo, insomnia, wry neck, facial paralysis, locomotor ataxia, etc.

2. A slight displacement of a vertebra in this part of the spine is the cause of chronic trouble, neuralgia, pain in the shoulders and arms, goitre, nervous prostration, la grippe, dizziness, bleeding from the nose, disorder of gums, catarrh, etc.

3. The arrowhead marked No. 3 locates the part of the spine wherein subluxations will cause bronchitis, asthma, pain between the shoulder blades, rheumatism of arms and shoulders, hay fever, boils, etc.

4. A vertebral displacement at this point causes heart disease, asthma, pneumonia, bronchitis, difficult breathing, other lung troubles, writers' cramp, etc.

5. Stomach and liver troubles, enlargement of the spleen, pleurisy, and a score of other diseases are caused by displacements in this part of the spine, so slight as to remain unnoticed by others except the Chiropractor.

6. Here we find the cause of gall-stones, dyspepsia of the upper bowels, typhoid fever, shingles, hiccough, worms, etc.

7. Bright's disease, diabetes, floating kidney, ovarian troubles, skin diseases, eruptions, and other diseases are caused by nerves being impinged at this point.

8. Spinal adjustments at this point give relief in such cases as appendicitis, bladder diseases, peritonitis, uterine troubles, irregular menses, lumbago, etc.

9. Why have constipation, rectal troubles, piles, sciatica, prostate trouble, etc., when adjustment of this part of the spine will remove the cause.

10. A slight displacement of one or both innominate bones will likewise produce sciatica, rectal, uterine, and prostatic troubles, together with many other diseases of the pelvis and lower extremities.

Chiropractic research has proven that 90 PER CENT. OF ALL DISEASES are permanently removed by Chiropractic (Spinal) Adjustment.

His Honor Judge Wills and Col. S. Lesler and Major F. K. Ketchenson, Master in Chancery, members of the Exemption Tribunal for the city of Belleville held a meeting today at the Court House, to hear oral claims for exemptions of which there were a few.

LEFT THE MILITARY HOSPITAL.

The police this morning were notified that a man last night slept in a barn on Albion street and was at the home partaking of a meal provided by the mistress. An officer apprehended the man who gave his name as Charles Cecil Smith. He claims that whilst he was working at the British Chemical works at Trenton he enlisted with the 254th Battalion and went overseas with the 15th Battalion. At Seaforth, Eng., he was pronounced by the medical authorities as unfit for service, and was sent back to Canada. Smith claims that he has been in a military hospital at Cobourg, but was dissatisfied and left. As the man is evidently mentally weak Police Magistrate Masson remanded him to jail until the 19th inst., and in the meantime the proper authorities will be communicated with to ascertain if his story is correct. He is a French Canadian born in Montreal, 45 years ago.

If Stomach Hurts Drink Hot Water

"If dyspeptics, sufferers from gas, wind or flatulence, stomach acidity or sensation, gastric catarrh, heartburn, etc., would take a teaspoonful of pure bicarbonate magnesia in half a glass of hot water immediately after eating, the trouble would soon forget they were ever afflicted with stomach trouble, and doctors would have to look elsewhere for patients. In explanation of these words a well known New York physician stated that most forms of stomach trouble are due to stomach acidity and fermentation of the food contents of the stomach combined with an insufficient blood supply to the stomach. Hot water increases the blood supply and bisnuretted magnesia instantly neutralizes the excessive stomach acid and stops food fermentation. The combination of the two, therefore, being marvelously successful and decidedly preferable to the use of artificial digestants, stimulants or medicines for indigestion.

Jan Smuts For Military Leader

(Special to The Intelligencer)

LONDON, Nov. 8.—The name of Gen. J. C. Smuts, the former Boer leader who is now in Rome with Premier Lloyd George, is prominently mentioned in to-day's discussions regarding the proposed position of head of all the Allied forces.

To Make Hairs Vanish From Face, Neck or Arms

Keep a little powdered delatone handy and when hairy growths appear make a paste with some of the powder and a little water, then spread over hairy surface. After 2 or 3 minutes rub off, wash the skin and it will be entirely free from hair or blemish. This simple treatment is harmless, but care should be exercised to be sure and get genuine delat-one, otherwise you may be disappointed.

Fighting Rebels In Petrograd

Special to The Intelligencer

PETROGRAD, Nov. 8.—Officials of soldiers, sailors and citizens are keeping order in the streets to-day. There is no evidence of excitement more than usual. Government forces attempted this morning to retake the telephone exchange, but a force had seized it and a fusilade followed in which there were several casualties.

The Maximalists remained in possession of the building. Most of the city shops and bakeries have been closed.

Liberty Loan Oversubscribed

WASHINGTON, 7-cr, 8.—Complete figures on subscriptions to the second Liberty loan, which closed October 27, have come in from the Federal Reserve district, and after being checked will be announced, together with the allotments, probably within the next day or so.

There is no doubt whatever that the loan has greatly exceeded the three billion dollar minimum sought; there are indications that it will not exceed the five billion dollar maximum, although the subscriptions probably will exceed the allotments.

Pains Over Left Kidney

Warned This Captain That the Kidneys Were Responsible for His Pains and Aches — Freed of Pain and Suffering by a Well-known Medicine.

Hereford, Que., Nov. 8.— Captain Peabody is well known all through this section, and his cures by the use of Dr. Chase's Kidney-Liver Pills has aroused great interest in this great medicine.

The Captain had been suffering for some time, and could never get any treatment to afford lasting relief until he began using Dr. Chase's Kidney-Liver Pills.

Captain Peabody, Hereford, Que., writes:—"For years I suffered from indigestion, rheumatism and neuralgia. Lightning pains would shoot all through my body, and I also had severe pains over my left kidney and through the hips. I doctored for years and tried all kinds of remedies, but the only result was money spent without relief. At last I read in Dr. Chase's Almanac of the Kidney-Liver Pills and decided to try them. One box made such a change that I sent for five more. Before I had finished the pains in my kidneys and hips had disappeared, and I was clear of those sharp, shooting pains through my body. I still take these Pills occasionally to keep my bowels regular, and would not be without them as I have them to thank for my cure. I can also speak highly of Dr. Chase's Catarrh Powder and Linseed and Turpentine. The former cured me of catarrh in the head, which caused frequent headaches. I am completely cured of this now, and Linseed and Turpentine proved of great benefit for a bad cough which bothered me continually for three winters. Last winter I took one bottle of the Linseed and Turpentine, and have not been bothered with a cough since."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box; all dealers or Edmanson, Bates & Co., Limited, Toronto. Don't be talked into accepting substitutes said to be just as good. Imitations and substitutes only disappoint.

MUSIC AND DRAMA

THE ONLY GIRL AT GRIFFIN'S BELLEVILLE, TUESDAY

"The Only Girl," a recent production of the joint writings of Victor Herbert as composer, with Henry Blossom as librettist, will play an engagement at Griffin's Opera House, Belleville, next Tuesday, Nov. 13th.

During an engagement which lasted an entire season at the Lyric Theatre, New York, this delightful musical comedy was pronounced as the biggest hit seen in that city in years. The answer to this great success is not hard to find as in "The Only Girl," Victor Herbert has composed some of his finest melodies and Henry Blossom has never done better work than that found in this new piece. The fun throughout is decidedly clever and far above the average found in so many musical comedy favorites of recent date.

DELIGHTFUL IRISH COMEDY

Often one hears the expression, "It's not the words, but the people in it." Almost as truly it may be said in the case of many plays, "It isn't the play, but the people in it." There is no question but that this play "My Irish Cinderella," which comes to Griffin's Opera House tomorrow night has a success to the strong Irish characters who move through the four stirring acts. They are real people and not automatons manufactured for stage purposes only.

Peggy McNeil is a pretty little Irish lass who is left by her England, finds plenty of adventure there and incidentally loses her heart to a young Irish aviator, Clifford Morgan, whom she meets at the home of Lord Lonsdale to whom she has been taken by a party of schemers who are plotting to get possession of a large estate.

Everyone is bound to like Peggy McNeil Morgan and all her associates are human and doing those things which are logical and conclusive. A complete scenic production is carried and an excellent company of players as promised by the management.

MISS BILLIE BURKE TO-NIGHT

Among the many deft humorous touches Imported in Billie Burke's latest screen drama is the picturization of the rivalry between two Indian princes for the young darling for the hand of "The Mysterious Miss Terry," which, by the way, is the name of the picture. "The Mysterious Miss Terry" has become as assistant in a fashionable store and both young men latest fragrant and equally unnecessary errands there to bring them into the presence of the young lady. Everything in the story they can possibly use—and much that they cannot—is purchased—from Patrons for paper weights to embroidery scissors for opening mail. The play is full of scenes of mystery and intrigue as well as these countless human interest touches. Don't miss Billie Burke's greatest success, at Griffin's Theatre tonight, and Saturday, matinee and night, along with "The Nature Dance" and amusing Keystone comedy and two other quality pictures.

PUNISHMENT IS CERTAIN

British Justice Inexorable in Finding Out Offenders Under the La w

British justice is just as direct and sure to punish those who break the country's law as it is to punish the Huns who break international laws, writes a writer, a British country, but usually necessary firmness. it has back of it a stronger determination and a greater weight of available power than any other law in the country since, for the right to live being, it is probably the most important of our laws, to this country and to the Allies. Those who imagine they can fly in the face of this legislation and carrying out the wishes of their worst enemies, in any number is small but, compared with the majority of all British justice, their influence is smaller than their number.

TOOK MAN FOR BEAR

Winnipeg Hunter Confesses to Fatality in the Woods

WINNIPEG, Nov. 8.—Fred Fritz went into the woods at Lewis, fifty miles east of Winnipeg on Sunday afternoon to hunt bears. He saw a movement in the bush and fired. The bullet struck a man named Rateau, causing almost instantaneous death. Fritz gave himself up voluntarily to the Winnipeg police yesterday, and in telling of the fatality stated that he had taken Rateau for a bear.

CONVICTION SECURED FOR SELLING GINGER

TORONTO, Nov. 8.—The first conviction registered under the Ontario Temperance Act for the sale of essence of ginger, was secured in the Police Court yesterday, when W. H. Adams, a druggist, was fined $50 for selling the essence. Adams pleaded guilty and paid his fine, but an appeal will be entered.

The Supreme Achievement in Sound-reproducing Instruments

Pathephone

THE most remarkable musical instrument in the world—the culmination of a quarter of a century's scientific progress. The Pathephone is something different—something better than you have ever known.

The Pathephone stands alone because it is not only embraces *all* of the most desirable features possessed by other instruments and has them at their most perfect development, but it also has many points of superiority exclusive to itself. Furthermore, the combination of the Pathephone and Pathe' Records presents to music lovers an offering that is unrivalled, for the Pathe' method of recording, with its long, broad sound-wave and the reproduction by means of a smooth Sapphire Ball—instead of a digging, scratching needle, produce a tone wonderfully full—rich—natural and indescribably sweet.

Consider these big Pathe' Advantages

The Permanent Sapphire Ball—no digging, tearing needles to clog.

Records that will wear thousands of times.

An all wood tone chamber (on the principle of a violin).

Pathe' Tone Control—regulates the volume of sound.

Plays perfectly all makes of records, as well as the Pathe'.

The exclusive period design cabinets. Exquisite furniture for every home.

A complete line of instruments to meet every purse.

A repertoire of double disc records, unique, comprehensive and artistically perfect.

Everyone interested should write for the PATHE ART CATALOGUE, containing interesting facts as period furniture.

GERMANS SHOWED NO SPIRIT FOR HAND-TO-HAND CONFLICT

Canadian Headquarters in France, Nov. 8.—Whenever the Canadians approached groups of Germans in their covers to-day the enemy showed he had no spirit for hand-to-hand conflict, and fled or surrendered as the Canadians swept up. They did not want any close fighting with the men who recently at Lens had battled with cold steel through the German ranks in some of the fiercest and most sanguinary fighting the war has seen.

HOLMES OUT-SHERLOCKED

Mederic Martin, Montreal's Mayor, also member for St. Mary's electoral division in the last Parliament, is always saying something, and Mederic is not at all particular what he says. Mederic's habit of extravagant language is picturesque but not particularly adapted to dispel the fog which besets the minds of the simple Quebec habitant who gets his view of national questions from self-elected leaders whose blatant church-door utterances are doted for their narrow provincialism and utter disregard for the truth. Mederic has made a great discovery! He has, by a process of deduction, a la Sherlock Holmes, tracked down the infamous Military Service Act to its place of birth and exposed its fearsome parentage to a shocked and embittered Montreal world. This is how the great Mederic Sherlock Holmes ("Pass the needle, Watson") exposed the great conspiracy to a Montreal audience, as reported in the Montreal Star:

Even more interesting was the Mayor's explanation of the inspiration and origin of the Military Service Act. He had been reading the signs of the times, and they told him that the Grand Lodge of Free Masons, in England, had told Sir Robert Borden that it was up to him to pass the law. It was all part and parcel of a horrid conspiracy to force out all that was religious and French-Canadian. How else could be explained the defection of Fielding, erstwhile Laurier supporter? The might seem strong stuff, but His Worship rarely was deceived, he said.

The fact that Mederic Martin is one of the strongest supporters of Sir Wilfrid Laurier, and is thoroughly one with Laurierism, sleeping and waking, lends interest to his weird ideas, and his latest pronouncement shows to what lengths Laurier's chief supporters are willing to go to try and burden Canada with the leadership of a fickle Canadian by fostering a spirit of distrust and antipathy for English-speaking Canadians among the French-Canadians of Quebec.

National unity can not come from any such teaching and the surest way to unify Canada is for the electors to emphatically endorse the Union Government, which seeks to bury politics and all such mischievous propaganda as preached in Quebec.

The duty of the hour for all patriotic Canadians is to get together in united effort in this hour of national trial, for as Sir Wilfrid Laurier himself once said: "If Germany wins nothing else matters."

CANADA'S ANSWER TO THE "KULTUR" BARBARIAN.

The Victory Loan will be Canada's answer to the German challenge. England and France have answered with their money as well as their men and their treasure stockings and even their trinkets have been cast into the melting pot of war to loosen the grip of the barbarian from the throat of world freedom. The United States has answered magnificently with a Victory Loan which has astonished the world. Now they call upon Canada to do her part. She will not fail.

THEY GAVE HER VINOL FOR BRONCHITIS

And it Cured Her—Read Mrs. Thayer's Letter

West Somerset, Mass.—"I suffered from a severe attack of bronchitis, with a terrible cough, no appetite, and I was all run down in health and strength so I was able to do my housework. Medicine I tried did me no good. I was discouraged. Then I got Vinol and it restored my appetite, stopped the cough and built me up in strength so I am able to do my housework. Vinol is fine."—Mrs. F. B. Thayer.

We guarantee Vinol for chronic coughs, colds, bronchitis, because it is a constitutional cod liver and iron remedy. Formula on every bottle.

E. B. McKeown, Druggist, Belleville, also at the best druggist in all Ontario towns.

Aside from patriotism, the Liberty Bonds are a gilt-edged investment, with interest at five and a half per cent. and the nation as security, but the key-note to the answer should be patriotism, and every little "nest-egg" should be dug up and loaned to the nation to swell the grand total of Canada's war finances and fling the taunt of the insolent Hun back at his greedy, lustful face.

The big investors are sure to come in strong, for they know a good thing when they see it; but it is the little investments of fifty and a hundred dollars that are needed to make the Liberty Loan the national success it should be, with the skimping and saving inspired by patriotism which will make possible the participation in the loan by the many of small means. It is not only the money involved but the national spirit which will be aroused by the feeling that one is part and parcel of the nation and helping in a measure, be it ever so small, to keep the home fires burning by winning the war on distant battle fields. Canada's men cannot win without Canada's money, and the Victory Loan is going to be a big factor in the long or short duration of the war.

The strength of the enemy is known for the enemy is organized to extract the last ounce of support from the people behind the armies. Canada's strength has not yet been fully shown, and the Victory Loan, if the people rise fully to their opportunities, can demonstrate it, and its success will echo round the world and write the message of fate on the walls of the royal palace of the Hohenzollerns so plainly that even the proud Kaiser will need no Daniel to interpret his doom.

A GOOD EXAMPLE.

An excellent example of patriotism is being set by the Liberals of the county of North Renfrew, that might with propriety be followed by the Liberals of the county of Prince Edward. Major Hepburn is now serving overseas in a Canadian regiment with his brother M.P., Col. White, of North Renfrew. If it be possible for the Liberals of Prince Edward to lay aside partizanship for a short time let them follow the example about to be set them, and re-elect Major Hepburn by acclamation.

The following despatch from Pembroke indicates a get-together spirit of unionism there worthy of emulation:

Pembroke, Nov. 7.—Lieut. Col. Gerald White, member for North Renfrew, who is now overseas, may be given an acclamation at the general elections. This was learned today, and it has been intimated that both parties will "get together" and bring out Col. White as a War-the-War candidate.

Leading Conservatives stated today that there was every reason to believe that the Liberals, when in convention next week, will accept Col. White as a War-the-War candidate for this riding. Liberals are also reported to have intimated that there was a possibility of "getting together on some good man."

Col. White is now overseas. He was elected at the last election, defeating J. F. Munro by 708 votes.

Further curtailment of coal to South American and European neutrals is contemplated by the Export Board.

Daily Progress Of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

Lucien Cannon was nominated Liberal candidate in Dorchester.

A new club of young Liberals, endorsing Laurier, was formed at Cornwall.

Dr. J. W. Edwards does not intend to withdraw from the contest in Frontenac.

A party convention will be held by the Liberals in Ottawa Monday or Tuesday.

Moncton City Liberal executive endorsed A. H. Copp and supports Laurier manifesto.

Hugh P. Innes, K.C., Liberal, offers to resign in Simcoe in favor of a Conservative candidate.

Dr. J. McAllister, Liberal candidate in Royal constituency, declares himself a union candidate.

Independent Labor men in Hamilton will cockle Friday night what action they will take in the coming fight.

Great War Veterans ask Premier Borden to designate Lieut.-Col. Sutherland as union candidate for North Oxford.

Equal Franchise League commends action of Brantford parties in endeavoring to reach agreement on feminist candidate.

Conservatives of Halton heartily endorse union cabinet and promise support to Dr. Anderson, win-the-war candidate.

The Conservative, Liberal and Labor executive in Brantford have agreed to choose ten men each to attend a union convention.

Liberals of North Waterloo expect to meet next Tuesday night to select W. D. Euler, Laurier candidate. Union follows fail to break deadlock.

The Poets' Corner

THE TANK.

I am the spirit of the British Army
Made visible in steel
Slow but invincible, I speak in thunder,
But neither hear nor feel.
I bridge the yawning trenches where
man burrows
In darkness like a mole,
And driving straight ahead, one
league or twenty
I travel to my goal.

The wounded shrink in terror at my coming,
Over both quick and dead
I rumble forward on the way appointed,
A ponderous shape of dread,
The hills reverberate, the valleys tremble,
Earth on its axis jars,
Rolling the crimson road of war, behold me!
The juggernaut of Mars!

Tribunals To Hear Oral Claims Made

OTTAWA, Nov. 8.—Exemption tribunals will begin their sittings on Thursday. On that day and on the following Friday and Saturday (Nov. 9 and 10). They will hear oral claims for exemption from military service. During these first three days tribunals are required to sit at least until five o'clock in the afternoon to hear applicants who appear in person.

The purpose of setting the three days apart and the procedure to be adopted in the case of oral applications are indicated in a memorandum prepared for the instruction of tribunals.

"Under the terms of the proclamation," the memorandum reads, "the last day upon which a report for service or claim for exemption can be made is Saturday, November 10th. In order to meet the possible disinclination some men may feel to sign a form of application for exemption, and to afford such men an opportunity of appearing in person before a tribunal to prefer the claim, tribunals are required by the proclamation to open their sittings on Thursday, Nov. 8. On that day and upon the two following days of the week they will receive oral claims for exemption from men to whom the proclamation applies or on their behalf from their employers, business associates or near relatives, and few, if any cases, it will be necessary to

registrars for disposition on each of these days.

No Claim Made Previously

"As the Act forbids more than one application for exemption by or at the instance of any man, tribunals will satisfy themselves that applicants who appear on these days in person to make application have not already done so, either through the post-office or before another tribunal.

"Where in the case of applicants made in person, the tribunal has satisfied itself that the applicant has made no previous application, it will first obtain from the applicant the information called for on the forms of claim for exemption. The applicant may be asked to sign the form, but it is quite unimportant whether it is signed or not. It should, however, be dated and initialed by both members of the tribunal."

The memorandum adds that if the number of personal applications is few, the claims can be dealt with immediately. If the number is large, however, it may be necessary for tribunals to confine themselves on Nov. 8, 9 and 10 to receiving claims and obtaining the necessary particulars. Actual disposition of the claims would be postponed until cases assigned by registrar have been disposed of.

Emphasis is laid upon an old fact that the tribunals are judicial bodies, and that any attempt to use undue influence imposes liability to a heavy penalty.

EXPLOSIONS WRECK PLANT

Police Believe Fire Incendiary in New Kensington Powder Plant—Six Men Killed

NEW KENSINGTON, Pa., Nov. 8.—Simultaneous explosions in several sections in the plant of the Aluminum Co. of America caused death and injury among the employes and partially wrecked the works. Early reports said that six were killed outright, forty injury among the employes and partially jured, and the plant was in flames.

The police believe the fire is incendiary. Plant officials refused to commit themselves as to the cause of the explosion.

The aluminum plant was engaged in manufacturing bronze powder for the United States and its allies, to be used for "star shells."

V. M. C. A. WORKER KILLED

SPRINGFIELD, Mass., Nov. 7.—Word was received here of the death in France of Roland M. Jones, 23-year-old son of the Springfield Y.M.C.A. College in 1915, who was engaged in war-balance work. His home was in Yonkers, N.Y. He was 23 years old and was formerly engaged in boys' club work in Holyoke.

Buying Victory Bonds is Sound Patriotism and Good Business

THE PURPOSE of Canada's Victory Bond issue, the fourth of Canada's war loans, is two-fold:—

First, to maintain and support the Canadian army;

Second, to enable Great Britain to purchase in Canada those supplies which she must have to carry on the war and to provide food for the civilian population at home.

Canada has in both those purposes an irresistibly impelling interest. Canada's patriotism demands that our soldiers lack nothing in food, clothing, guns or service, to win the war.

And, Canada's own self-interest demands that production shall increase, that commercial activity shall continue, that wages shall be maintained.

What is more—Canada's self-interest in this case is also a patriotic duty—for we must maintain conditions of material well-being in Canada in order to sustain a maximum of war effort.

Great Britain's market offers a sure welcome to the products of Canada's fields, mines, fisheries and factories.

But Great Britain must have credit to buy these products.

So in order to provide the necessary credit the Minister of Finance borrows from the people of Canada, by means of Victory Bonds, the proceeds of which will be used to establish that credit.

You, and each of us—up to the greatest sum in our ability to invest; up to the point where it hurts; must all buy Victory Bonds.

Death of Father and Son From Gas
Details of Tragedy at Kingston Where Phillip Pearsall and His Son Were Gas Poisoned
Phillip Pearsall, aged about sixty, and his son, Percy Pearsall, aged about thirty, were found dead Wednesday morning, as a result of having been asphyxiated by illuminating gas in a small room over the premises at 223 Princess Street, Kingston, occupied on the ground floor by Pearsall's millinery store.
The discovery was made by Mr. E. Lawrenson, a plumber, about nine o'clock, when he entered the upstairs rooms to make some changes in the plumbing. As he entered the room and saw a sleeping apartment a strong odor of gas met him, and upon the gas jets in the room was burning. On a chair by the bed he found Phillip Pearsall and lying across the bed was the body of Percy Pearsall. Both men were partly undressed, and the body of the younger man gave evidence of a struggle before being overcome by death.
From the information gained at the inquiry, it appears that on Monday night Miss Howison warned the elder Mr. Pearsall to turn off the gas at the meter when he was through using it, and it appears that this was done, which accounts for the absence of gas in the building on Tuesday. She again warned him last night before she left the store, but from appearances he had not done so. From the fact that the two men were only partially undressed it is supposed that they were intending to turn off the gas when they were ready to retire and that the rush of gas from the open pipe in the closet at one side of their sleeping room overcame them before they had time to do so.
Both the unfortunate men are married and both are survived by widows. They are well-known and highly respected in the Princess district, as successful farmers, and they were down here with a consignment of apples, which they were disposing to local merchants.

BIG ORDERS COMING FOR MUNITION MAKERS
Most Canadian munitions plants will be kept running full blast this winter.
Today an official announcement is expected regarding the placing of American orders in Canada for shells to the value of $60,000,000. Prominent manufacturers and members of the Imperial Munitions Board only recently returned from Washington, and matters wholesale are now being worked out in Ottawa.
The initial order will, it is understood, be of 25-inch shells, which corresponds to the 3.3-inch that has been made for the Imperial Munitions Board, and the 8-inch one that fitted the Russian guns.
It is thought, however, that the orders will be placed through the Imperial Munitions Board and that payments will be made the same way.

The Last Man and The Last Dollar
A gathering of War Workers at the Hotel Ottawa yesterday illustrates still another phase of Canadians' Win-the-War activities, and one of the most important, the financial line behind the armies in the field, without which the first line of defence would break and break in utter demoralization. The meeting was large and enthusiastic to such a degree of the fact that it was the last dollar to go to win the war Canada will be a strong competitor with the rest of the Empire for the honor of putting up that last dollar.
The occasion was a business luncheon of the Victory Loan workers in this district, and the enthusiasm and marked determination of the ten hundred or more representatives who attended is a happy augury of complete success for the Victory Loan in this district. The main object of the gathering was to instruct the workers in the best methods of placing the advantages of the Victory Bonds before the people and addresses were given by Mr. W. L. McKinnon of Toronto, who has charge of the eastern district organization; Mr. W. B. Evans, of Toronto, who has charge of the organization in several counties in this district; Mr. W. B. Deacon, County Chairman; Messrs. J. A. Kerr, Cobourg; Robt. L. Davison, Picton; W. F. Ames, Hamilton township; W. H. Williamson, Prince Edward County; H. J. P. Webb, of Trenton; T. R. Wallace, of Napanee; Thos. Montgomery, Reeve of Rawdon township; Fred Foulds, of Northumberland; Edgar Masten, of Prince Edward County; W. A. Grange, of Northumberland, and others.
Mr. W. B. Deacon, County Chairman, of Hastings, presided in an able manner. Mr. C. C. C. Cross, B. M. Bird, and K. N. Pringle, organizers, gave technical explanatory talks.

MR. McKINNON'S ADDRESS
In his opening remarks, Mr. McKinnon, who was warmly received by the large audience, drew attention to the stupendous task which confronted the organizers and workers in the big Victory Loan campaign. He pointed out that it meant practically a house-to-house canvass of the whole Dominion. He then told of the method of organizing the workers, how each province was divided and subdivided from the province as a whole on down to the townships and wards, and even to parts of these. The net result of the subdivisions was that each member of each team would be expected to canvass 200 people in the three weeks which the campaign lasted. This was arranged in order that every man, woman and child in the Dominion would have an opportunity to become actively identified with the loan and with the war, and each would thus be encouraged to work more enthusiastically for its success.
He contrasted this with the method of securing the last two loans, which was accomplished largely through the stockbrokers and the banking houses. The loans had been raised, but a major object, the educating of the people, had not been accomplished, and this was the aim in this campaign. He likened it to a sporting game, in which there was a keen rivalry between city and city, county and county, and township and township, until each would become enthused and the rivalry so keen that the loan would be much more than subscribed.
A number of questions were answered and all doubtful points cleared up and the meeting went to Kingston for hearing of the tragedy Wednesday, and is much upset by the tragic occurrence.
Both the unfortunate men are married and both are survived by widows. They are well-known and highly respected in the Princess district, as successful farmers, and they were down here with a consignment of apples, which they were disposing to local merchants.

A Simple Way to End Dandruff
There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring, using enough to moisten the scalp and rub it in vigorously with the finger tips.
By morning most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have, your hair will be fluffy, lustrous, glossy, wavy and soft, and you will feel a hundred times better, to say nothing of the way it will improve the appearance.

Front St. Belleville

Is Falling Back in Good Order

LONDON, Nov. 8.—The Italian armies are falling back upon and through the plains of Venetia to a new and shorter line of defence.

From the Felix Valley to the head of the Adriatic Sea the entire line of the Tagliamento River has been given up by General Cadorna, while from virtually the border of Trentino north eastward and eastward through the Dolmites and the Carnic Alps to the Felts the northern army is carrying out a retrograde movement southward through the mountainous country toward the plains. The Germans and Austro-Hungarians everywhere are following up to the Italians in their retreat, but with the Italians offering resistance in rearguard actions along the entire front.

The decision of the Italians to evacuate the Tagliamento line was taken after the enemy had intensified his pressure along the upper reaches of the river in the highlands, and pushed forces across the stream in the centre and to the south. This movement contemplated a simultaneous withdrawal along the northern front from the Felix Valley to Cubicion. Apparently the main Austro-German forces are not in close contact with the retreating Tagliamento army, for the German official says the retreat is indicated by conflagrations over the route of retirement. No claim is made by the Germans of Italians having been made prisoners.

Huns New "Mystery" Boats

LONDON, Nov. 8.—The mystery caused by the recent naval encounters in the Mediterranean has been solved. They destroyed a "fast electrically controlled boat," it is explained. It pays out wire as it travels. Though the boat's course is controlled from an aeroplane, the boat is not manned and told to dash for an objective and jump out just before hitting. The one recently destroyed was the third of its kind. One struck a pier on a German harbor while proceeding and destroyed itself. It is not regarded as a serious development.

Dynamited Train. Looted Bullion

Villa Followers Perform Wholesale Robbery and Murders

JUAREZ, Nov. 8.—Villa followers dynamited a northbound passenger-baggage train on the Mexican Central Railroad at Arrendaras station, fifty miles south of Chihuahua, Sunday. Sixty federal train guards were killed; a number of passengers injured, and 115 bars of silver bullion belonging to an American mining company were taken. The passengers on the train were robbed and several executed, according to Americans who arrived here today on the train from Chihuahua City.

The federal major in command of the train escort was brought to Chihuahua City on Monday badly wounded. He witnessed the execution of a number of his men, after being left for dead beside the railroad track. He said Silvestre Queredo and Martin Lopez, former Villa officers, were in command and it was believed Villa himself was near the scene of the attack.

Tragic Death Of Two Children

Drowned in a Pit Near Northbrook —Father Wounded in France

NORTHBROOK, Nov. 8.—A terrible misfortune befell Mrs Joe Forbes in the loss of her two boys of about three and five years of age.

About noon on Monday the two strolled away a short distance from the house and shortly afterwards a near neighbor, Mrs. John Cabman, in searching for them, found them in a mining prospector's pit, drowned.

The father is a soldier who is lying seriously wounded in France and the shocking news will be a heavy blow to him.

MILITARY NOTES.

INOCULATION COMPULSORY

District orders of the various districts announced the compulsory inoculation and vaccination of all soldiers of the Canadian Expeditionary Forces. Compulsory blood examinations for the prevention of venereal diseases are also promulgated in the orders, it being made plain that the violation of any of the three orders constitute an offence to be dealt with by a court martial. This is an old standing order and has been revived to refreshen the memories of those liable to forget it.

SHOT AT A FOX KILLED HIS COUSIN

RENFREW, Ont., Nov. 7.—William O. Hunter, a resident near Dacre, is dead from a shooting accident when deer hunting in the township of Grattan. He was shot through the back, the bullet passing through the abdomen, by his cousin, who aimed at a fox.

SALE OF MARGARINE

Regulations Are Being Drawn up to Prevent Fraud

OTTAWA, Nov. 8.—The Department of Agriculture is framing regulations for the sale of oleomargarine in Canada, and is making arrangements for inspection in order to prevent fraud. As soon as these regulations are framed, the food controller will issue licenses, a number of applications for licenses having already been received by Hon. W. J. Hanna.

MARRIED LIFE LIKE WAR

Canadian V. C. Says He Believes First Seven Years Will Be the Most Trying

LONDON, Nov. 8.—Cadet J. C. Kerr, V.C., who enlisted at Edmonton, but belongs to Flat River, Nova Scotia, was married today to Miss Gertrude Bridger. At a dinner given him by several Canadians at Perkins Bull Hospital, Kerr remarked that he supposed married life would be like the war, namely, a most trying time for the first seven years.

Kerr received the cross in September of last year when, as a private he ran along the parapet under heavy fire and opened fire on the enemy at point blank range. They thought themselves surrounded. Consequently sixty-two prisoners were taken and 250 yards of trenches captured.

BRIDGE COLLAPSE RECALLS ROMANCE OF NORTHWEST

Telegraph Wire Left by Overland Pioneers Was Used by Indians to Build Safe Remarkable Structure.

The suspension bridge constructed by the Hagwilget Indians across the Bulkley River in Central British Columbia has remained standing since the building of Hazelton Canyon, held by the cables on which it was suspended for more than twenty years. The new bridge, built to replace it, engineers in all parts of the world say, is a trail structure was regarded as a remarkable example of Indian skill in bridge building. It had been a subject of comment in many engineering magazines, while it was also regarded as one of the many features of interest seen along the trains of the Grand Trunk Pacific line. Contained in the bridge is a native and built by his fellow tribesmen, the true principles of the modern suspension bridge were carried into the construction work. The bridge was the third attempt to get a permanent crossing over the Bulkley River, the first two bridges having been swept away by high water. When the Indians built this bridge they had no modern tools, nor did they have nails, spikes or bolts, wooden pulleys and telegraph wire being used at times. The bridge has a span of 148 feet, and was 10 feet wide.

Interwoven with the story of the Indian bridge is a romance of the Northwest. The telegraph wire used in its construction was discovered by Mr. Jenkinson a point some eight hundred miles west of Edmonton and 50 miles inland from the Pacific Coast, where it had been hidden for many years. The story of how it happened: Between the date of the unsuccessful and the first successful attempts to lay a submarine cable which would connect New York and London, a plan was put forth for an overland telegraph line from New York to St. Petersburg. The close of the Civil War found the country full of men of scientific bent, some of the old cable engineers were selected and set to work.

In the meantime, while these engineers were working away in the wilderness, London and New York were coupled up by the submarine cable. Instantly, all interest in the overland disappeared, as the speed of the line no longer depended on the Northern corner of this continent there is a line of fifty-year-old telegraph wire. It is easy to understand, and appreciate the disappointment of these brave fellows who had fought the good fight in cold and rain for three years and a half, only to be told, in effect, that the line they proposed to leave the telegraph wire used in the bridge is a cache on the route which now is the Grand Trunk Pacific railway system, and is now travelling.

When this enthusiastic band of workers went home to the "effete places" fell asleep again, and the younger generation grew. After forty years more of unbroken sleep, other telegraph builders, also with pioneering poles and stringing wires, came into the district. What was regarded as the wilderness was hailed as the new Empire of the North, treasure-house of natural resources. At this time the wire, unused, for the most was the layout of the Grand Trunk Pacific Telegraph Company, and the wires followed the trail-of-'49 route of Canada's new line. This modern layout of the overland has become an important factor in handling the telegraph business of a large section of the continent.

WAGE AWARD RIDICULED

OTTAWA, Nov. 8.—A meeting of the Maintenance of Way employes of the Canadian Pacific Railway Company's Ottawa division was held in St. Patrick's Hall, the recent award of the Board of Conciliation granting the men an increase of from 15 to 30 cents a day was characterized as the most ridiculous and absurd award ever handed down by a Conciliation Board in Canada. A. E. Barker, president of the International Brotherhood of Maintenance of Way Employes announced that the Minister of Labor the railway strike.

had been advised that the men would not accept the award and that a strike vote would be taken among the 6,000 employes throughout Canada.

ST. JOHN PLANT DESTROYED

ST. JOHN, N.B., Nov. 8.—The lumber manufacturing plant owned by John E. Moore, at South Bay, valued at more than $100,000 was totally destroyed by fire last night. About eight carloads of lumber, ready for sale, burned. In addition, Mr. Moore lost a seven passenger automobile which was in a shed. The shifting of the wind saved

The Mother Love

Pte. T. M. Bartlett, in training camp at Sanford, Maryland, is writing to his mother, Mrs. W. E. Bartlett, of Foxboro, pens the following verses, which are of peculiar interest as showing the feeling of the average soldier boy who is preparing to face the hardest death for his country's sake. Over every other thought, sentiment and affection the great mother love claims first place in the thoughts of her hader who in the great crisis of life turns again to the mother love which protected him from evil and harm during childhood, and now takes great comfort from the thought that she is praying for him—black boy in the very real and personal God her faith brings so close. Isn't it a wonderful thought that all over the battlefields the mother spirit bends lovingly over countless soldier boys, sleeping or waking, or sleeping their last sleep on earth to wake across the Silent River "where the wicked cease from troubling and the weary are at rest," there to greet or wait a little while for the great hearted mother whose loving influence played such a strong part in their lives on earth.

The verses may be faulty in metre and far below poetic standard but written by a soldier boy they breathe a tender sentiment, and a conception of which is all to rare in this work-a-day world where parental affection is too often reserved for the floral tributes which mock the empty hesitation of the soul which has been released.

The verses are as follows:

MY MOTHER.

May the Lord watch over 'between me and thee,
When we are absent one from the other.
Are the words that I send with heart full of love
To the dearest of pals, My Mother.

For King, Queen and Country we're fighting
"Honour and Right" is our watch-word true;
Tis' "Might" at first seemed to hold the sway,
Naught shall conquer the Red, White and Blue.
'Twas some time since that, I left my loved home,
To answer old England's cry;
The parting was hard, and the (the tried to be brave,
There was a tear in my dear mother's eye.

"God bless you" said she, "God bless her" say I,
For of Mothers' no man had a better;
And while I'm in camp, or where I go to the front
She knows I shall never forget her.

So cheer up, Dear Mother, my truest of pals,
Tho' at parting your heart may feel sore,
We will look forward with hearts full of hope,
To true happiness when peace comes once more.

Called By Death

HARVEY R. BEATTIE

Following a somewhat prolonged illness, Harvey R. Beattie, formerly of Belleville, died at his home in Toronto, Wednesday morning. Mr. Beattie was taken ill in March last with a form of dropsy, and although able to be around for a time he was confined to the house during the past two months, and the end was not unexpected. Mr. Beattie had a host of friends not only in Toronto but throughout Ontario, and his passing will be deeply regretted. He was a highly companionable man, possessed of a fine sense of humor, and generous to a fault. Deceased was born in St. Catharines about 42 years ago, and in early life was a telegraph operator, working in several of the principal cities of the United States and Canada. Later he entered the brokerage business and for a time had an office in Belleville; Ont., which he subsequently removed to Toronto, where he continued in that business for about three years. He then became a manufacturers' agent, and was for a time travelling city agent for Cluff Brothers. He was prominent in Masonic circles and was an enthusiastic Shriner.

Mr. Beattie is survived by a widow and one child, Bessie, who is about eight years of age. The funeral service will be held at his late residence at 7.30 p.m. this evening. Interment will be at St. Catharines Friday morning on the arrival of the 8.10 train.

The many friends of deceased in Belleville will regret to learn of his demise.

Veterans Behind Policies Of Union

Sergt. Turley, New Organizing Secretary, Issues a Statement

TORONTO, Nov. 8.—Sergt. W. E. Turley, secretary of the Toronto branch of the Great War Veterans' Association, was appointed, organizing secretary of the Ontario Provincial branch of the organization, but will not sever his connection with the local branch for some time yet.

On behalf of the Executive Committee of the Provincial branch of the following manifesto:

Held Aloof From Parties.

"That no branch of the G. W. V. A. should nominate any member of private citizen for Parliament. The G. W. V. A. is a non-political association, and intends to remain such. Once we nominate a man for Parliamentary honors we have departed from our general policy, and have taken action contrary to the spirit of our constitution.

"Great war veterans should endorse any man who is selected by representative organizations supporting the Union Government war-winning policies, and should concentrate their efforts to secure his election.

"It is necessary to the development and power of the Great War Veterans' Association that we should hold ourselves aloof from any political alliance, thus maintaining the right to criticize any candidate for or elected representative to Parliament, whose action on any public matter is not in accordance with our ideals.

"Local branches may send delegates to a non-party convention called for the purpose of nominating a suitable candidate, who will support the enforcement of the Military Service Act, and all other such measures as shall tend to win the war."

Innocent Police Assist Crooks

MONTREAL, Nov. 9—The latest method of separating the man from the country and his money sounds like a moving picture scenario, but certain Montreal police officers vouch for the fact that it has been applied.

The other day Alphonse Lanon, farmer, of Terrebonne, was ploughing in his field when three men drove up in an automobile. They stopped, and out came up to the farmer, and ordered him to come along with them as a deserter from the army. That Lanson had never been in the army in his life, and was not sure which was the business end of a rifle, That made no difference. He was compelled to unhitch his team and head for the house. There, when he asked permission to change his clothes before going to jail, he captures "Trickey" and out of $25 which he had in his pocket.

The "military agents" took their prisoner to Montreal, had, following a circuitous route, finally arrived at No. 4 Police Station. There the captain was told that Lanson was a deserter, and he was lodged in a cell, his captors promising to return for him Sunday morning.

They never came back, of course. At last the police communicated with military headquarters and found that the "officers" had been impostors. Lanson was set free, after having spent two days in a cell, and losing $25. The police are now looking for the three men with the original idea.

WEST FAVORABLE TO UNION GOVERNMENT

"There is an exceptionally strong feeling in the West for Union Government. When things are settled down and nominations made the public will be surprised at the unanimity with which it has been decided to do away with all political parties in the

RUSSIA AGAIN UPSET BY REVOLUTION

Kerensky Deposed By Peace Faction

KERENSKY HAS FLED FROM THE CAPITAL AND HIS ARREST HAS BEEN ORDERED — PETROGRAD REPORTED TO BE IN FULL CONTROL OF THE SOVIET — STREET FIGHTING ALREADY REPORTED — REVOLUTIONISTS LED BY TROTZKY, FORMER RESIDENT OF THE UNITED STATES — LENINE, GERMAN AGENT, IN HIGH FAVOR.

LONDON, NOV. 9.—PREMIER KERENSKY HAS FLED FROM PETROGRAD, THE BOLSHEVIK NEWS AGENCY DECLARES, AND ORDERS, IT STATES, HAVE BEEN ISSUED FOR HIS ARREST.

LONDON, Nov. 9.—Russia's people rose in open revolt yesterday, Wireless advices from Petrograd declared that the Maximalists and Soviet have deposed Kerensky, overthrown the provisional Government, and arrested several of the Ministers. A proclamation issued by Leon Trotzky, president of the central executive committee of the Petrograd Council of Soldiers' and Workmen's delegates, declared that the provisional Government had been arrested.

Premier Kerensky decided upon the dissolution of the sittings of the preliminary Parliament.

The Russian news agency, which was seized by the Maximalists, sent out the following despatch at 2.35 this morning:

"The day brought certain changes in the social situation in the capital. The Maximalist movement spread further and fairly approximate progress but no serious collisions took place. Towards five o'clock in the afternoon the military revolutionary committee of the Soldiers' and Workmen's Delegates issued a proclamation stating that Petrograd was in its hands, thanks to the assistance of the garrison, which enabled the coup d'etat to be brought about without bloodshed."

Cossack Regiments Join Revolution

"Cossack regiments today formally announced they would henceforth disobey all orders of the Provisional Government, and declared their allegiance to the Soldiers' and Workmen's Local Council in the region.

"Preparing for an armed clash with the Bolshevik, Premier Kerensky, through the commander in the Petrograd military district, today ordered that all private motor cars be delivered to the Winter Palace. This step was taken to prevent seizure of these vehicles by the soviet. All Russian troops were prohibited under strict penalties from leaving their barracks today.

An Exchange Telegraph despatch says a strong detachment of troops of the Soldiers' and Workmen's Delegates occupied the Baltic railway station.

Nikolai Lenine received prolonged cheers when he addressed the Petrograd Council, outlining the three Maximalist problems now before the Russian democracy. He declared they were:

Minimalists Disapprove Coup.

First, immediate conclusion of the war, for which the new Government must propose an armistice to the belligerents; second, the handing over of the land to the peasants; third, settlement of the economic crisis.

At the close of the sitting a declaration was read from the representatives of the democratic Minimalist party of the Soldiers' and Workmen's Delegates, stating that this party disapproved of the coup d'etat, and withdrew from the Council of Soldiers' and Workmen's Delegates."

It is pointed out that the Maximalists and pacifist revolters control the Petrograd wireless station, which communicates with the Russian capital, and would be likely to exaggerate their strength.

Street Fighting Reported

An effort by militiamen to disperse crowds gathered in the Nevski Prospect yesterday last night provoked a fight in which one man is reported to have been killed. Minor disturbances, some of them accompanied by shooting, occurred in various quarters of the city. A number of persons are reported to have been killed or wounded, but there is no confirmation. An effort by Government forces to retake the exchange led to a brief fusilade in which it is believed a number of casualties was sustained. Maximalists remained in possession of the building.

Orders issued by the Government for the opening of the spans of the bridges across the Neva later were over-ridden by the military committee of the Council of Workmen's and Soldiers' Delegates. Communication was restored after several hours of interruption. Nowhere did the Maximalists meet with serious opposition.

Most favorable to Kerensky was the refusal of the soldiers in the northern front to agree to the Maximalists' plan for controlling them. The troops will not support the Premier Kerensky in putting down any Maximalist revolt.

Leon Trotzky was living in the United States when the revolution resulting in the abolition of the monarchy broke out. He immediately went to Russia and became chief lieutenant to Nikolai Lenine.

America Sends Coal to Italy

WASHINGTON, Nov. 9.—Before the month is over about 75,000 tons of shipping will have been turned over to Italy by the United States. The first ships are carrying coal. Later a steamboat probably will be worked out by which Italy's coal requirements will be furnished by British, French or Italian ships. The plan some 4,000 miles of transportation would be saved. While America is shipping coal to Italy, Great Britain is sending it to South American countries, and the vessels thus are crossing the Atlantic and going twice through the submarine zone.

Real Battle When Allies Bar Huns

French Experts Say Successful Italian Defensive Will Be Based on Historical Lines

WASHINGTON, Nov. 9.—General Cadorna has not been organized his retreating forces for successful defence along the line of the Tagliamento, in the opinion of French military experts. They contend the line was entirely too near the point where the Austro-German troops had broken through the Italian front. The experience of the French at the Marne is held to have proved that there is an advantage in not stopping a retreat too soon, if a defender wishes to strike a decisive blow.

The real successful Italian defensive, in the opinion of the French experts, will be based upon historical quadrilateral "Mantua, Verona, Peschera and Legnano," and the real battle of the campaign will occur when the Italian armies, supported by the French and British troops, will definitely bar the German invaders on those lines.

The French general staff made all the necessary military plans to aid Italian spread for help. Once the decision was reached to co-operate with the Italians, the French troop trains began rolling towards the Alps. There was no improvisation in their functions; the plans were the result of careful study and preparation, and the general staff had conceived beforehand the whole scheme of transportation.

SPECIAL DAY OF PRAYER

The King Has Requested Special Prayers For Victory in all Churches

LONDON, Nov. 9.—The King has addressed a letter "To My People" appointing Sunday, January 6th, as "A special day of prayer and thanksgiving in all the churches throughout my dominions." The King says: "The world-wide struggle for the triumph of right and liberty is entering upon its last and most difficult phase. The enemy is striving by desperate assault and submarine intrigue to prevent the stream already committed and to stem the tide of a free civilization. We have yet to complete the great task by which more than three years ago we dedicated ourselves.

"At such a time I would call upon you to devote a special day to prayer, that we may have the wisdom, the will and strength necessary to the victory of our cause."

Germans Suffer Huge Losses

Special to The Intelligencer.

PARIS, Nov. 9.—Today's War Office statement says that preceded by a very heavy artillery bombardment, the Germans attacked at Chaume Wood, but were driven back with huge losses in killed, wounded and prisoners. An attack by the enemy in the Arracourt sector also failed.

DOOMS THE FLEMISH FRONT

Only a Questions of Time Until Germans Must Abandon It

LONDON, Nov. 9.—Anxiety has been so general concerning the grave news from Italy that public interest has been somewhat diverted from the momentous happenings on the western front. However, today the newspapers have long despatches describing the taking of Passchendaele. The value of this achievement is fully recognized.

"Our possession of the Passchendaele-Gheluvelt ridge," says the Express, "robs Germany of the last of the heights which they began to fortify at the end of 1914, between the sea and Solesmes. These positions were supposed to be impregnable, but they have gone the way of Albert, Vimy and Messines ridge."

WORK OF TWO MONTHS

"The capture of Passchendaele," says the Times, "crowns the hard work of the British army in the last two months."

"With Passchendaele definitely and irretrievably lost," declares the Daily Chronicle, "the enemy knows the fate of their whole Flemish position is only a question of time. That is why they have dispatched its capture so long and so desperately."

SINN FEIN NEWS IS DOING GOOD

DUBLIN, Nov. 9.—The alarming rumors which prevailed three days ago in Dublin have had one good result, for they have served to let the country to realize the grave dangers in the national situation. Public opinion will be affected in a remarkable way by the Constitutional Nationalists who have been silent and are now declaring for the supreme developments of the Sinn Fein. Newspapers which have utilized the Sinn Fein as a weapon against the Nationalist party have also changed their tone, that the game is not worth the candle.

SHOULD BE NO RISE IN PRICES OF SUGAR

OTTAWA, Nov. 9.—Dealers who have advanced the price of sugar to their customers during the past month are taking an improper advantage of the present temporary shortage and exacting an unfair profit. Such is the effect of a statement issued by the Food Controller. Mr. Hanna added that there was no excuse for retail prices today being higher than they were a month or six weeks ago. It is pointed out that for the month of September the prices of sugar in all parts of Canada were between 10 and 11 cents per pound.

COL. T. C. IRVING KILLED WHILE WRITING LETTER

LONDON, Nov. 9—Col. T. C. Irving, of the Royal Canadian Engineers, who was reported killed in action, met his death by a shell while sitting in his hut and writing a letter, he dying a few minutes later. As a consulting engineer of Toronto, Col. Irving was on the first division and received the D. S. O., while after the battle of Festubert he was mentioned in despatches on several occasions.

GERMANS SHOT DOWN MEN WHO SURRENDERED

LONDON, Nov. 9—The Reuter correspondent at the British front says:

About four hundred prisoners were taken at Passchendaele. A considerable number were killed by the fire of their own guns as they were being brought back, which by no accident or design has not been learned, otherwise the total would have been much higher.

The order attributed to von Hindenburg that if Passchendaele was taken it must be held at all costs is borne fruit. By nightfall the Canadians were reported well dug in among the half-frozen shell pitted ground, and plentifully supplied with machine guns.

The principal feature of the fighting is the enemy's persistent refusal to allow our men to come to close quarters. Their resistance consists of a mass of machine gun and artillery fire, which owing to the unfavorable weather conditions was not very effective.

Our walking wounded agree that the Hun did more running this battle than ever before. Directly our men got within bombing distance the enemy bolted, and the prisoners who fell into our hands were mostly in a state of collapse.

SEND 600,000 GERMANS INTO U. S. INTERIOR

American Officials Plan 100-Mile Zone on the Sea and Lake Coast—Hits Many Families—Buffalo, Detroit and Other Large Cities Included

NEW YORK, Nov. 9.—An order declaring all territory within one hundred miles of the coast line of the United States a barred zone to enemy aliens will be promulgated within a few days, according to Federal officials here.

Such a sweeping order would force Germans out of the States on the Atlantic coast, namely, Florida, New Jersey, Delaware, Connecticut, Delaware and Rhode Island.

Under this order thousands of Germans who have lived in big German centres like New York for years, rearing families and building up business, but who failed to forswear the Fatherland, would have to seek new homes further inland.

Would Affect 600,000.

More than 600,000 enemy aliens would be affected. It is estimated that of the 800,000 enemy aliens in this country more than three-quarters live along the coast.

Naval officers are the principal proponents of the order, which has been discussed at Washington for several days past. Many of these naval officers have had long experience, it is said, in the conferences, insist that the littoral of the Great Lakes be interned to protect the coast line.

This would include Chicago, Cleveland, Buffalo, Lansing, Rochester, Detroit and other big cities near the Great Lakes in the barred zone with New York, San Francisco, Seattle, Portland, Boston and other cities of the Atlantic and Pacific coasts.

The inclusion of the Great Lakes littoral in the order would also make all of Michigan a barred zone.

New York's Barred Zone.

Without waiting for the order to be issued from Washington, the Federal officials will call upon the police of New York to prevent enemy aliens from using any streets, five blocks from the waterfront for any purpose.

The hundred-mile zone order would have a tremendous effect economically. Germans in Boston, Bangor, Portsmouth and the factory cities of Lynn, Lowell, Haverhill, Worcester and Providence will have to move inland. Other big cities in the East affected would be Washington and Philadelphia. Practically all the big cities in the South would be similarly affected.

All the big cities along the Hudson River—Yonkers, Peekskill, Newburg, Poughkeepsie, Kingston and Albany —will be included in the inland zone. Hoboken's German population would have to move. Newark, another big German centre, would lose thousands of its residents.

Like British-French Action.

It is estimated that there are at least 20,000 families, averaging five to a family, of Germans in New York City who do not speak English. Many of the heads of these families have lived here for many years. But living in a pro-German atmosphere these men have never taken out citizenship papers. Federal officials figure there are thousands of these.

Many officials believe that a rule similar to the one in France and England, prohibiting persons from approaching a railroad without a permit, under penalty of trial by a military court-martial, should be enforced. All bridges crossed with food commodities should be placed in the same category with railroads.

KERENSKY'S DOWNFALL UPSETS WALL STREET

NEW YORK, Nov. 9.—Foreign developments loomed ominously upon the financial horizon today, the latest Russian revolt forcing the active stock list lower by three to five points on an outpouring of approximately 1,-300,000 shares.

Weakness spread to bonds and the foreign exchange markets' rates to Petrograd and Rome recording their greatest depreciation since the inception of the war. Liberty 3½ per cent. bonds, which changed hands in round amounts, fell to the low record price of 97.50.

Wall street was slow to realize the importance of the news from Petrograd, which came during the forenoon trading. The selling movement became strong for a period, but on the extent of the coup d'etat became known there was a sharp rally in the list. At one time an hour and a half after the news the losses were almost uninterrupted liquidation.

Declines in the general list were orderly at first, but the movement bordered on demoralization as it progressed.

MAYOR MARTIN ASKS EXTENSION

MONTREAL, Nov. 9.—The number registering at the post office yesterday was 2,407, the number applying for exemption being 2,522. About fifty-seven thousand men remain to be registered in the Montreal district.

Replying to Mayor Martin's suggestion that the time for examination under the Military Service Act be extended, Premier Borden has replied as follows:

"You do not seem to have grasped the meaning of the Act with regard to examinations. Medical examinations may take place after November 10, but young men must report for service or make demand for exemption not later than that date."

Barging against the door of the Orig Street Drill Hall until they broke them in, a crowd of military service eligibles, impatient at the delay in calling their names, stormed into the building, only to be charged and swept back to the street by a squad of police.

Mightier Force Never Existed

MANCHESTER, Nov. 9.—The British Chancellor of the Exchequer, Andrew Bonar Law, at a Unionist War aims meeting here, declared that Great Britain could look to the future not only with hope but with absolute confidence. He said that Great Britain's overseas forces are more than three millions, adding: "A mightier force never existed."

Cabinet Debates Canada's Effort

OTTAWA, Nov. 9.—Some features of Canada's effort in the war were discussed by the war committee of the Cabinet this afternoon. Recommendations in connection with which were described of great importance, but as yet regarded as confidential, were under consideration.

It has been surmised that the message in question had a bearing upon the conference now in progress with the allied nations in London, with a view to the mobilization of the economic, financial and military resources of all the Entente countries against Germany.

MISSIONARY WORK IN FORMOSA

A fine success was given by Miss Charles this week on mission work at the annual Thank Offering meeting of St. Andrew's Auxiliary. The progress made and the interest shown by the natives was encouraging to the workers there. The John St. Auxiliary were present. Misses Helen Johnson and Silvia Johnson gave pleasing solos. The offering was a large one.

"It's a Fine Thing" Says Wm. Cairns

"Tanlac Certainly Changed Things Around For Me" Declares Farmer

"Well, I have tried Tanlac and I just want to tell everybody it's a fine thing," said William Cairns while in Parks & Parks drug store, Hamilton, recently. Mr. Cairns is engaged in farming at Westerton, R. R. No. 1, where he has lived all his life and is highly respected by all who know him. "I have been in a bad fix for three years," continued Mr. Cairns, "and had become so rundown and played out that I could not do much work. My head ached nearly all the time and I could hardly sleep. Some nights I would get awake nearly all night and feel so tired and stiff in the morning I could hardly get out of bed. I always had a mean taste in my mouth, my tongue felt thick, was covered with a foul coating, and I suffered with gas on my stomach something awful at times. Every two or three hours after eating I would have a vomiting spell and get so dizzy I could hardly stand up. At times I was so dizzy and my head hurt so bad I would stagger and hardly knew where I was going. I just seemed to be dazed and things looked faded and misty to me. I had no energy at all, and for two years, that is until I got Tanlac, I haven't felt like doing one thing.

"But, I just want to say, this Tanlac certainly has changed things about for me. I feel like a different machine with no results that I was just about ready to give up, but now life and work is a pleasure. I bought five bottles of Tanlac, have already taken three of them, and it has helped me more than I believed it would. That dizzy spell has left me, my tongue is cleaned off, and I hardly have a headache. Tanlac just seemed to soothe and settle my stomach and I haven't had a vomiting spell since I began taking it. I enjoy all my meals now, and I sleep good every night and get up in the mornings ready for a big day's work and go to work with a vim. I certainly can recommend Tanlac for the good it has done me and I'm glad to make this statement for what it may be worth to others who are suffering as I did."

Tanlac is sold in Belleville by Ostrom's Drug Store, in Trenton by J. Mallory & Son, in Marmora by W. J. Miller, in Stirling, J. Meyers, in Madoc by Frankford, by W. H. Lattimore, in Tweed by J. Will Vince, and in Myrtle by T. J. McMahon.

Ringworm On Child's Head

Caused Great Distress and Spread to Neck and Ears—Cure Was Speedily Effected When Right Treatment Was Recommended

Grand Bend, Ont., Nov. 5.—There is no disease of the skin more obstinate than ringworm, and the mother who writes this letter does so fully realizing what it will mean to other anxious mothers to know about Dr. Chase's Ointment.

This remarkable cure was brought about two years ago and as there has been no return of the distressing disease there can be no doubt that the cure is permanent.

Mrs. D. Stebbins, Grand Bend, Ont., writes: "I am going to tell you of my experience with Dr. Chase's Ointment. My little girl had sores come out on her head which looked like ringworms. They were spreading fast, and I tried home treatment, but nothing helped her. I took her to the doctor, and he opened some of the sores, which were as big as the yoke of an egg. This salve he gave me to put on was very severe, and the poor child would cry for an hour or more after an application. For six weeks it continued to spread all over her head and come down to her neck and ears. She suffered terribly. At last some kind ladies told me about Dr. Chase's Ointment, so I got a box and at the first time I put it on she was relieved of pain, and the second time the swelling was all gone. Before we had finished the first box the sores were nearly all gone. I have told all the people around here about your Ointment, and Leanor praises it too much. In four or two years since the little girl was troubled in this way and it never came back, so you can see she is completely cured. You are at liberty to use this statement for the benefit of others who may be suffering in a similar manner."

Joseph Brenner, J.P., endorses this statement as follows: "This is to certify that I am personally acquainted with Mrs. D. Stebbins of Grand Bend, Ont., and believe her statement, with reference to Dr. Chase's Ointment, to be true and correct."

Dr. Chase's Ointment, 60 cents a box, all dealers or Edmanson, Bates & Co., Limited, Toronto. Be sure picious of the druggist who does not talk you into accepting a substitute.

How an Author Achieved Success

By DONALD CHAMBERLIN

Elliott Kenton was writing a fiction story in his room in a tenement building in which the poorer classes have their abodes. His first dwelling place since he had been writing was a comfortable flat in a fashionable district. He had not found literature profitable and had moved from time to time, each move carrying him deeper into poverty.

His literary aspirations had come down with the progress. He had begun by "doing over the heads of the people" and had ended by tying low enough to reach the people's toes. This was what he was writing at the present time.

The detective who has come among us for reasons to criminal concerned knows what I mean. He is the man we must rely on you and the others to keep us free of the criminal element. He is one of the opportune moment to strike blows at the right time. He knows when to act—whether he is about to attempt. Does he not? Of course he does! I see you there where the danger or witness is not. Let it be known that you are a detective.

Kenton wrote this twice and, seeing the copy that he liked best, he threw the other on the floor. Then he went on with his story, which ended with a certain person known only as the villain being led away in handcuffs blood while crossing the park.

This was his first effort. Somewhere Kenton finished the last chapter and, wrapping up his manuscript and addressing it to a publishing house, with it, dropped it in a receptacle for mail mail and proceeded to a restaurant for dinner. In the meantime, being a deadhead ticket to a movie theater, he attended a show and returned o'clock started for his room. As he approached he saw a number of men standing before the tenement house on whom were several policemen. On his arrival he noticed that the front of the building in which he lived was scattered on the pavement and the street.

"What's the matter there?" he asked a man coming toward him from the wreckage.

"Bomb," said the man as he hurried on.

Kenton paused. He knew that the building had been filled with a miscellaneous people dwelling Greek, French, Norwegian, Italian and other nationalities. He did not relish the fact that he as a roomer should be mixed up with this bomb throwing. He turned to watch the departing figure of a policeman and followed, the fact of his being having excited suspicion. The policeman halted the man ahead of him, where the owner, standing suspicion, the others, recognized him.

"That's the man," said the landlord.

"What man?" asked the policeman.

"Why, the man who threw the bomb found the note."

A pair of handcuffs were clapped on Kenton's wrists, and he was taken to a police station. The landlord went along as a witness. There was a preliminary examination, at which the landlord swore that Kenton occupied a room in which an infernal machine had been found. Then the prisoner was locked up.

The next morning, when Kenton was wondering what it all meant, a lawyer was admitted to his cell and told him he had been retained by certain parties to defend him, but that, of course, he would not amount to anything. The prisoner's friends relied rather upon securing his witness's release than upon testify against him. "But why," asked Kenton, "should anyone be anxious as to leave that letter where it would be readily found?"

"What letter?" asked Kenton.

"That letter to the gang announcing that you were ready to kill the detective."

"I never wrote such a letter."

"Then you have enemies, sir."

"For heaven's sake, man," cried Kenton, suddenly remembering his story, "you don't mean to say that you found a scrap of my Sicilian story?"

The lawyer found a letter offering if those to whom it was written would put the writer on to how to get a certain detective. "Is that the letter?"

"Why, that is fiction."

"Fiction is dangerous. You can't play that game with the public prosecutor, but you needn't be afraid. That letter will never be used against you. Under no circumstances. You keep quiet. Your friends have got it all fixed, and you will be out in a few days."

"You needn't consider yourself my counsel. I'll take care of my own case."

"Very well; if you want to be sent up for a term of years for the crime you abed. All I have to say is the only thing that can save you is terrorizing any witnesses who may be brought against you."

With that the man of law departed, and Kenton sent for a friend who was also an attorney. When the latter arrived Kenton told him that he had a story to fit from writing a blood and thunder story and getting it published. The lawyer called on the publisher to whom his client's manuscript had been submitted and found that the story and paper that had been picked up and found in the room in the novel. He succeeded in procuring Kenton's release without his being brought to trial.

The incident attracted the publisher's attention to the story and procured a reading for it. The reports concerned that the story was thrilling and especially adapted to the class of readers the firm desired to reach. It was published, was a great success and established the reputation of the author.

After a dainty luncheon had been served, the remainder of the evening was spent in singing and other amusements, happy departure dispersing shortly after the midnight hour.

GERMANY CAN FIGHT FOR YEARS

WASHINGTON, Nov. 5.—Germany's economic situation is such that she can fight for years, officials declared today, repudiating reports that the Teutons are "on their last legs." Both American and Entente officials believe the American people have been misled as to Germany's ability to continue the war.

"Including the Italian campaign, the Teutons have occupied 275,000 square kilometers of allied, neutral and subjugated more than 810,000 Latins, Slavs and Semites. Of these, hundreds of thousands are virtual slaves to Germany, and are busily working in German factories, on public projects or producing food stuffs for the Kaiser's armies," said one of them.

"The economic returns from conquered Russian and Roumanian territories have been hoarded in great part, which, together with the Bulgarian and Belgian coal fields, have practically solved the Teuton fuel problem.

"From a monetary standpoint, Germany is profiting by grasping conquered territories of all values. The Belgian people alone are paying war imposts amounting to more than 480,000,000 francs yearly and the levies imposed on other conquered territories are enormous."

Determination to prevent "sugar-coated pills" about Germany's weakness being tendered the American public is outspoken by allied officials. Only by telling the truth about it can made can the alleged indifference to the war in some parts of the country be removed, they believe. Major-Gen. Wood predicted recently war would last from three to seven years more.

Fatal Accident At Brighton

PEOPLE WANT UNION

Saturday Night

In the talk about politics which is to be heard on street corners in most of our towns and cities nowadays the opponents of Union Government usually wind up by expressing their hatred and scorn for the newspapers of Canada. The individual who is willing to end even heartily against that the allies should win the war, so long as they subject him to no inconvenience, the politician with an axe to grind and no grindstone in sight, has a bitter grudge against the press of Canada, because he can find no publication which reflects his views, unless he happens to read French. And even if he does, the overwhelming majority of Quebec he finds them very lukewarm and cautious nowadays in accepting anything like condemnation of the Union Government cries. The fact of the matter is that the newspaper man, be he publisher or editor, is an ordinary rational individual with the same faults and the same merits as other men. As rule he represents the average of intelligent opinion recat on it as it reacts on them. By some growth of tendency almost every English language newspaper in Canada has focused on one idea, that of a Union Government to carry out aggressive war measures and progressive domestic policies. Such unanimity is proof of an overwhelming sentiment in favor of this course adopted by those who constitute the new Government. It is a sentiment that has taken long to solidify, but it is now firm as a rock. It is not a result of the pressure of the newspapers, but of the people plus the newspapers, combined with the taught and we venture to think an exalted purpose.

A dreadful accident occurred on Tuesday, when Mr. Robert Sprentall of Brighton was accidentally killed in the Brighton Canning Factory, about minutes after six in the evening. His sleeve caught in a set screw in the shafting, and he was instantly killed. The victim was in his 71st year. He is survived by a wife and legal heir, seven children. Five sons, Courtland, George, Frank, Harry and Marshall, and two daughters, Annie and Effie. About twenty years ago the eldest son was killed in the same manner.

Exemption Board Is At Work

At the court house the local exemption tribunal composed of Judge Wills, Col. S. S. Lazier and Major P. K. Ketcheson, were in session yesterday and today, and the members were busy considering oral applications for exemption. This class of work will be continued today. These first three days session of the Board are taken up in instructing applicants for exemption to apply for registration first, and after the close of the registration board the examining of claims for exemption will be taken up in earnest.

At the close of each day a report is made up and sent to the proper military headquarters. These reports are then classified and listed by a staff.

Yesterday and today the number who applied before the tribunal for hearing was comparatively small.

It is expected that the work of the board will increase as the days go by, getting into full swing after the close of the period allotted for hearing of the applications.

LETTERS FROM OVERSEAS

FROM G. E. SMITH

October 16, 1917.

My Dear Mother—Just a few lines to let you know that I am in hospital wounded. I was wounded on the 13th, but I am pleased to say that I am getting on as well as can be expected. I expect I shall be off to England as soon as I am able to travel, which will not be in very long. I have got three wounds in my left leg, and two in the right, also a small one in each arm, and one in the head, so I think I have got my share and a little of somebody else. I have not received any letter lately, and I don't expect that I shall receive any as long as I am here. I hope you are in the best of health, also father, sisters, brothers and all the rest. Now do not begin to worry as I am quite all right, and by the time I am well again I hope the war will be over.

So now I will close with the fondest love to you all, I remain,

Your ever loving son,
G. E. SMITH.

This is the second time he has been wounded.

How Genius Covers Faults

One of the most curious facts in history is the manner in which men of genius, to alter the point of view of commonalities with regard to famous individuals, conceal their personal peculiarities.

Take Napoleon, for example. Everywhere, about twenty years ago (since which period in England a Napoleonic boom has set in), we encountered "those" that is probably unequalled in modern literary romance. Books and essays on the great Corsican's character and career, by all trades and grades were published, all tending to show that the "Corsican Ogre" of our forefathers dubbed him, was in fact a rather lenient sort of chap, well deserving of admiration and emulation, rather than of reprobation.

Will our descendants ever make a similar revival of the kaiser? One cannot have a theory that will be useful and is finite one way or another. From analogy that in fifty years or less the whole world will loathe their Emperor.

For to our grandfathers, be it remembered, Napoleon represented not very apotheosis of evil, just as the kaiser does to-day. And the years of the two men, up to a certain point, are not widely dissimilar.

Both raised enormous armies in order to further his own personal ambitions. Each drenched his country's blood for his own selfish ends. Each followed the plan of making his own relatives puppet kings of the countries he conquered. And so on.

In some ways, too, Napoleon was as great a ruffian as the kaiser has proved himself up till now. The latter, for instance, has not so far broken the summary of Napoleon's cold blood of two thousand prisoners of war, as Napoleon did at Jaffa. Nor has he broken his parole—the most unforgivable sin next to cowardice—as Napoleon can be guilty of—as did Napoleon when he escaped from Elba. And that is only because the *chance* has not had the chance so far!

Julius Cæsar again! Our history books are so worded that every Canadian schoolboy is taught to regard him as a pure of the very first water. The Ancient Britons and the Gauls no doubt held quite other opinions concerning him.

Queen Boadicea, if she were alive to-day, could certainly tell an altogether different story about him.

Then there is Peter the Great, whose claim to "greatness" consists in his having jumped and subjugated countries that had done him no harm, and incorporated them in his own dominions after reducing the remnants of their former inhabitants to serfdom. In private life he was a ferocious savage. He murdered his own brother, threw his beautiful young wife into a foul dungeon, and left her there to starve, and committed other deeds of the most shameful like nature.

Frederick the Great is another "heroic" figure, according to the history books. Carlyle, indeed, in his famous "life," makes him almost a demi-god. Yet the many wars of Frederick—a typical Hohenzollern, by the way—were marked by deeds and treachery and cruelty which as well might make even his decadent descendant, the present kaiser, blush with envy.

Genius historians have even attempted to whitewash Attila the Hun, who once explained the kaiser's one historic occasion, urged his troops to emulate. Those who lived in Attila's time—and they undoubtedly knew a lot more about him than the people who penned these whitewashing stories—showed what they thought of him, by christening him "The Scourge of God," or, as we should call him, "Christendom," which he undoubtedly was.

Even the character of Queen Elizabeth—favorably dubbed "Good Queen Bess" by the school history writers—does not bear a too close scrutiny. True, she can scarcely be described as a "Royal criminal," but she certainly did many things that, if done by modern statesmen or by tyrants, were distinctly criminal. She resorted to torture, in order to extract confession, and that freely. Also, one of her biographers puts it: "In days (Elizabeth) reign the rack seldom stood idle in the Tower," she had Mary Queen of Scots in prison, besides captivity for twenty years, and then had her head chopped off at the end. She changed the laws almost as frequently as she did her dresses, and cast off them—the unfortunate Earl of Essex—she caused to be executed in a fit of wounded vanity.

So the Germans firmly believe that in Joan d'Arc's grave" lies quite a large proportion of the earth's population will regard the kaiser as "Great"! We do not think so, for the plain reason that all those royal criminals have been mentioned rogues and their wickedness by some special sort of ability. Napoleon was a military genius, Julius Cæsar was really a great soldier, and Peter the Great was bold and fearless. But Kaiser William has no redeeming feature, and is a weak-minded coward, who feebly tries to emulate the really great men whose name he has desecrated.

STILL MAKING GRINDSTONES.

One Family Has Operated New Brunswick Quarry for a Century.

At Woodhina, N. B., five miles from Sackville, in the Moncton consular district, is a grindstone quarry whose product, until the present transportation restrictions, was shipped in large quantities to ports on the Atlantic seaboard of the United States, says a consular report from Halifax, N. S.

The president of the company operating this quarry is the third to hold the position since it was first quarried in Canada near Minudie, N. S., a little over a century ago. The present head, who succeeded his father in the early part of the nineteenth century, the great-grandfathers of the present holders of the honor, is a gentleman with an associate, director and general of these grandstone lodges, and began the popular stronghold of the grindstone to the United States in small sizes, principally to Boston, New York, Philadelphia and Fox Creek, along the Canadian coast, and also to Gloucester County, in New Brunswick. At the last mentioned operations were started in 1816.

The original Stonehaven quarries are favorably situated for the purpose of consular district. A description, therefore, cannot well be omitted. Stonehaven is situated on the south bank of the Bay of Chaleur, eighteen miles east of Bathurst. The bank of the cliff at this spot is fifty feet or more in height, on the bottom of which is the quarry operated by the same company as that which is mentioned near Sackville. It is said that half the grindstones used in Canada originate at Stonehaven. The product consists of stones of all sizes from eight inches in diameter, for kitchen use, to eighty-four inches in diameter, for the use of factories, including the latter is the largest "stock" stone, though one weighing about three and a half tons. Stones from twelve to twenty inches in diameter, for the hardware trade are made in large quantities. Stones of the latter size, forty-eight inches for machine-shop use, are made in only slightly less quantities.

The Stonehaven quarries were established by a true tidewater by the building of dams. The most recently constructed of these dams is seven feet and a quarter miles long. Like the others, it is built mainly of timber, earthwork filled with stone, and has only rip-rapped on the outside of the sea. After the dam is built the water is pumped out and quarrying begins. The dam is built in horizontal sheets of varying thickness, the total depth of the formation being about twenty-five feet.

Modern methods are employed at the Stonehaven plant. A steam channeler and steam and air drills are used, as required, in the latter use, with powder and wedges, the rock is quarried to the required size and is then hoisted to the "dump" by means of the stonecutters tackle and shape it round. From there, if it is not too thick for a single grindstone, it is carried to the mills to be finished. If the block is two or three feet thick it is sent to the saws and cut to the required thickness. This applies to the larger stones. The smaller stones are split out of the irregular-shaped that come out along with the larger stones. The latter are cut round and shaped as a rough grindstone.

For handling stones three derricks are used—at the quarry, three at the mill, and three at the wharf and station, while a traveling derrick operating under its own power and equipped with an "orange peel" bucket has been used for stripping purposes. One steam plant of fifty horsepower operates the hoisting machinery for the quarry derricks. Another of similar power operates the machinery for the quarry derricks. Another of similar power operates the machinery for the quarry derricks. Another of similar power operates the

THE WOMAN VOTE.

"I say to the enfranchised women of this Province—this Union Government—if you do not use the great purpose of making sure that those sons and husbands are at all hazards and at any sacrifice supported by the nation at home. Let the first woman vote in Canada be a vote for Union, for honor, for fidelity, for loyalty to the cause "war."—Hon. Arthur Meighen at Winnipeg.

CHANGE THE TUNE, GEORDIE!

While the Hon. George P. Graham is flirting with Union Government in a great willingness to be forgiven and taken into the heavenly fold with the Liberal Union Jim down with the Tory Lamb and vice versa, his personal organ, the Brockville Recorder, is playing vigorously on the same old forgotten tunes of partizanship as of yore with double quick discordant effects, rolling out in stright tone the sins and iniquities of the late Borden Government, which the Recorder refuses to see has been succeeded by a non-partizan war time government. Hon. Geo. P. Graham should shut off his player-organ before the time kills his chances of looking among the elect. Better send the old organ a few more recordrolls, George, such as: "The Long, Long Trail from Brockville to Renfrew and Back," "Ballycane and Hardy Too, Wor' Do, My Huckleberry Blue," "Good-Bye Old Cock, You're Out of Date, Me for a Swing on the Union Gate"; and other beautiful ballads of recent composition by such soulful sonnetters as Billicky Pugsley, Atrocious Oliver, George Washington Kyle and others.

THE LAURIER GUILLOTINE.

The professed affection of liberals for their old leader, even though compelled to part with him because of his attitude on the one supreme issue which concerns Canadians at this time, is commendable; and the Old Chieftain's affection for his supporters who can no longer follow him when his policy endangers adequate support being given Canada's heroic sons on the battle line is also touching, as far as Sir Wilfrid Laurier is credited with giving his followers permission to use their own judgment on the one great issue, and to hold no grudge against them for differing with him upon Military Service. All very nice but how does it work out? The first glaring instance of the Laurier "individual freedom" after math comes from Nipissing, where the Liberal candidate is guillotined because he stated his belief that the Military Service Act being now the law of the land, should not be interfered with by referendum or otherwise. That was the excuse, but a weightier reason was because he was not a French-Canadian in a constituency where the majority of the Liberals are French-Canadians and consequently Laurierites of the most extreme type.

A. J. Young spent many years of his life in Nipissing district and, familiar with every phase of that district's needs, was regarded as an ideal Liberal candidate. He was determined to lead the forlorn hope in 1911 when the district was considered hopeless and included all Temiskaming with many English-speaking voters, in an effort to wrest the constituency from the Conservatives. He was permitted to spend his money in the district, and to win the largest and most expensive election contest in all Canada, and since has been generally regarded as the logical candidate for the next election. In fact, when the constituency was divided he received the nomination for the new and smaller riding of Nipissing which is a hive of French-Canadian votes. But his executioners were only waiting for an excuse, and when Mr. Young, with three sons at the front, disagreed with Sir Wilfrid Laurier's expressed policy of holding up the operation of the Military Service Act and delaying the sending of needed reinforcements to the army overseas in case he was returned to power, the axe was ready.

Had Laurier interfere with the execution which was practically carried out? Not much. Not even a single speaker frankly stated to the convention that letters had been received from Ottawa headquarters that it was time Nipissing Liberals nominated a French-Canadian candidate. Mr. Young, who naturally speaks both languages fluently did not save him. The orders from Ottawa were explicit and fitted admirably with the inclination in Nipissing. Despite all Mr. Young's services to the Liberal party in time and expense and his services as president of the Ontario Liberal Association, he was not a French-Canadian and he had committed treason in daring to differ with the great god of the habitants, Laurier, and so nothing else counted.

And the cry comes from Quebec that Ontario is bigoted and intolerant! Where can be found a more despicable illustration of intolerance than the Nipissing incident?

What makes the affair even more significant is the fact that once before Mr. Young was the victim of a similar dose of intolerance and political revenge. He was the acknowledged Liberal candidate for the Legislature a few years ago for West Nipissing, and right up to the day of the convention no word was spoken which would have led him to think otherwise. French and English speaking Liberals promised him support right down to the day of nomination, but a secret cabal was worked and he was defeated for a much inferior candidate in every way but a French-Canadian. The man who engineered the betrayal was one Evanturel, at one time Speaker of the Ontario Legislature, and the excuse then was that Mr. Young had in a long past, and gone Dominion election supported James J. Klock, the Conservative nominee, against Jim Conmee, the Liberal.

Surely Liberals can see the wisdom of standing for the Union Government and an all-Canadian policy as against the threat of Quebec domination and the little-Canadianism of Laurier.

OTHER VIEWS

NEVER AGAIN

Winnipeg Tribune.

Canada must now set its face, determinedly, and forever, against any tainted scoundrel, no matter under which party name he may be known, who would re-introduce patronage.

High Cost of Votes.

Toronto Telegram.

With Dominion elections December 17th, municipal elections January 1st, and provincial elections next summer one of the crying needs of the hour is a controller to prevent undue increase in the high cost of votes.

PARLIAMENT OF JOB-HUNTERS

Toronto Telegram.

Abolition of the patronage system is a sham, applicable only to jobs that members of Parliament do not want.

Canada need not expect to see the patronage system really disappear until Canada's stalwart block is adorned with one straw leg. That few more persons than no member of Parliament could be eligible for employment in Government offices for five years from the date of his retirement from Parliament.

A Parliament of job-hunters who have upon the Premier who can give all jobs, is an even greater curse to Canada than patronage in the Civil Service.

SIR WILFRID AND AUSTRALIA

Toronto News.

With the insincerity of a man who buttresses a bad case with worse arguments, Sir Wilfrid Laurier says that Australia has got along without conscription. Great Britain, New Zealand, the United States, France and all the other Allied nations are in the conflict on the compulsory service basis. Ignoring them all, Sir Wilfrid points to exceptional Australia as not having dropped out of the conflict even though it has rejected conscription.

The Australian Government has had a great deal of trouble with German agents and with the Independent Workers of the world, who are opposed to the real interests of Organized Labor. It has managed to keep in the war thus far because it had the advantage of universal military training for six or seven years before the conflict began. Even so, the military authorities are at their wits' end to maintain the Australian army at full strength overseas. The latest cables from the Antipodes represent members of the Government as stating that "if the men will not come they must be brought." Australia faces the alternative that it is beaten or adopted the foolish referendum policy now advocated by Sir Wilfrid Laurier. Canada has had the benefit of both kinds of folly, and has failed where Dominion and which that sister Dominion is about to abandon.

"RED HERRING DISGUISED"

Montreal Star

The Liberal leaders' election appeal is moulded in the old familiar form; but it is lacks the old force. It reminds one of a few weeks of former days. The voice is labelled as the voice of Laurier, but the hand is the hand of Rainey Bigley and Markeside King. In common with all such utterances, four-fifths is stereotyped and commonplace—the usual melange of election promises. Conscription of wealth, confiscation of food production, reduction of tariff, criticism of opponents, professions of loyalty—all that is a camouflage to obscure and palliate the real essence of the thing, which is a pledge not to enforce the Military Service Act, and to substitute for it some speeches in favor of voluntary recruiting.

"There's the issue. The rest is red herring in various disguises."

Ottawa reports Rowell will be given Brantford, but John Harold, Liberal nominee, thinks otherwise.

South Oxford Liberals have notified Conservatives of willingness to cooperate on selection of union candidate.

Conservatives and Liberals in South Bruce, who are supporters of union government, will name a candidate on Monday.

Hon. J. D. Reid, who is in Toronto adjusting the situation, states that the campaign for the union government is progressing satisfactorily.

West York Conservatives Association will hold a convention at Weston on Saturday afternoon for the purpose of selecting a candidate for the forthcoming election to support the union government.

ACCEPT VENISON OFFER.

Toronto Butchers Will Retail Government Supplies at Ten to Twelve Cents a Pound.

TORONTO, Nov. 9.—The city will accept the offer of Hon. G. Howard Ferguson, to supply about 600 carcasses of venison from Algonquin Park at ten cents a pound. Retail butchers in the city met last night and agreed to retail the meat under the following prices: Loin (whole), 20 cents a pound; leg, (whole), 16 cents a pound; front (whole), 10 cents a pound. In case a customer wants a smaller quantity than a whole joint, then the price will have to be higher, to protect the butcher on account of the wastage. In case a customer could not use a whole leg of venison, Mr. Wright of the civic abattoir, said they could store it there for one cent a pound for a month, and be in pocket. Venison steak sold in the city last fall for 50 cents a pound.

AS CHARLIE SAYS:

No substitution is tolerated.

And yet the price is only 5-for-25c.

Bourassa To Help Laurier Campaign

MONTREAL, Nov. 9.—Henri Bourassa has come out straight for Laurier in his paper, Le Devoir. In today's issue he says: "We ask nothing better than to assist Laurier in upsetting the Government of national treason. We wish, however, that he should surround himself, as well as his party, with warriors solid and high enough to prevent brigands of the Northcliffe and Sifton brand from sneaking 'shirts' in the shoes paid by corrupting the standards and in smashing the watchdogs."

Mr. Bourassa claims that Le Devoir is the interpreter and the dictated spirit of the Nationalists. Then he says: "The Unionist programme is the antipodes of all we admire, of all we believe, and all we desire; while it is the essence of all we detest, both in men, ideas and tendencies of both parties. We are, in fact, at our ease in combatting this detestable combination. We are at ope with Laurier in contesting the right of the Tories to seek pardon for their crimes and acts of the past six years.

"Mr. Bourassa takes a whack at the Liberal members of the Government. He says: 'We in no way share the opinion of the Opposition in the matter of the respectability of the renegade Liberals who have rallied to the Borden Ministry.' We see nothing of respectability in the unanimous support of a Sifton, in the loyalty of a Reid, being or a Rowell, or of the opinions of a Ballantyne, a Guthrie or a Pardee. We see in the Ministry Laurier deserted by most of the most solid opponents and the most contemptible ministers."

Here is a characteristic Bourassa touch, under the cover of the editorial pen, in the first sentence, to which I cannot understand is this: a really respectable man like Laurier should keep a Ministry of Reid, Rowell, Ballantyne and Pardee in power, the case being something like our persuading to making Kaiser, over-all, for Rockville or for Gay, following their demise."

The Military Service Act, 1917.

CANADA

Notice to Employers

The attention of Employers is especially called to the following provisions of the Regulations passed under The Military Service Act, 1917, and The War Measures Act, 1914, which directly affects them.

EMPLOYER TAKING UNDUE ADVANTAGE OF EMPLOYEE.

Every employer, and every person acting on behalf of any employer, who stipulates or attempts or offers to stipulate with any man or other person for any reduction of an employee's salary or wages, or for the alteration of any other term or condition of his employment, in consideration of the employer exercising or refraining from exercising his right to claim exemption from military service on behalf of any employee, shall be guilty of an offence, punishable on conviction by a penalty by fine or imprisonment, or both, in the discretion of the convicting magistrate; the fine to be not less than one hundred dollars and not more than one thousand dollars, and the imprisonment for a period not exceeding six months.

EMPLOYING MEN WHO ARE IN DEFAULT.

Every person shall be guilty of an offence, and liable on summary conviction to a penalty of not less than fifty dollars, and not more than five hundred dollars, who, after the expiry of the time within which a man is by proclamation or regulation required to report in accordance with section 4 of the Act or to apply for exemption, employs or engages in his service, or continues in his service for a period of seven days, any man who belongs to any class or sub-class which has been called out, and who has not reported as required by section 4 of the Act, or in respect of whom an application for exemption has been duly made, unless such person proves that, having made due inquiry, he believed upon reasonable grounds that the man so employed, engaged or continued in his service did not belong to any class or sub-class called out, or that he had reported or had at the time of certificate, or that an application for exemption by or in respect of the man was at the time pending.

EMPLOYER TO MAKE ENQUIRIES.

(a) It shall be the duty of every person who is an employer to make inquiries forthwith after the issue of any proclamation calling out men for military service under the Act whether any, and, if any, which of his employees are within the class or sub-class called out by such proclamation; and, forthwith after the expiry of the time limited by the proclamation for reporting for service or claiming exemption, to ascertain and ascertain whether there are any, and if any, which of the men in his employ so called out who have failed to report or apply for exemption from service, or in respect of whom an application for exemption from service has not been made.

EMPLOYERS TO ANSWER.

(b) It shall be the duty of every employer to answer any questions that shall be put to him by his employees, and to give any information which his employer may require of him for the purpose of enabling the employer to comply with the duty imposed upon him by this section.

REPORT TO MINISTER.

(c) Every employer shall, forthwith after the expiry of the time so limited by any such proclamation, report to the Minister of Justice) according to the best of his knowledge, information and belief, the names and addresses and the whereabouts at the time of all employees in his service called out by any such proclamation who have failed to report or apply for exemption from service.

PENALTY.

And any person who is an employer who refuses, neglects or fails to comply with any of the requirements of this section, shall be guilty of an offence and liable, upon summary conviction, to a penalty not exceeding, in the case of an employer in respect of whom he has so refused, neglected or failed to comply, one hundred dollars and not less than fifty dollars, or to imprisonment for a term not exceeding three months, or to both fine and imprisonment in the discretion of the convicting magistrate.

EMPLOYING DESERTERS.

Every person who employs or retains in his service any man who has deserted, or who is absent without leave, from the Canadian expeditionary force, shall be guilty of an offence, punishable on summary conviction by imprisonment not exceeding six months, or by a penalty of not less than one hundred dollars, and not more than five hundred dollars, unless such person prove that he was not aware, and had no reasonable ground to suspect, that the man so employed or retained in his service was a deserter or absent from the force without leave.

Under the proclamation issued on the 13th of October, 1917, the last day for members of Class One under the Act to report or claim exemption is

A Notary's Discomfiture

By DWIGHT NORWOOD

Many years ago in the city of Rouen, in France, there lived one of his kind, the scene of fighting between the French and English. He was very fond of old relics. In France a notary is looked up to, but in those times a notary was not so much respected as now-a-days. He was very comfortable, however, so far as his purse was concerned, and he lived in with no lack. John Fortiscr, the notary, had a pretty young daughter, Louise, about 20 years, with half a million francs in small pots. This maiden was very fond of quite a few things in those days, especially in French, when everything was very cheap and one could live comfortably on a small income.

The old notary had only a daughter and brother. It was to be expected to follow in the footsteps of his father, and it was also expected that she would marry a man equally as respected and eminent. What was not expected was that she would marry Edgar Bertin, a young artist, who had not yet had the full fall in love with Louise. He was a handsome young fellow, and had graduated from a law school in Paris and settled in Rouen to practice his profession, when he began to paint. The notary mostly forbade the banns, but he knew anything to do with the suit.

Many times men came into John Fortiscr's office after Louise had left the room, and they would ask to take care of the child. To those men he always answered that Louise was not to be married until she was twenty-one years old, and that she had fallen in love with Edgar Bertin. Many fellow men would then say that graduated from a law school in Paris and settled in Rouen to practice his profession, when he began to paint. The notary mostly forbade the banns, but he knew anything to do with the suit.

LONDON SURPRISED AT LAURIER'S STATEMENT

LONDON, Nov. 9.—Australians here express surprise at Sir Wilfrid Laurier's reported reference to conscription in Australia. To-day's Melbourne message indicates the failure of the voluntary system to obtain the numbers required despite renewed efforts. Hence the demand for conscription again has become so strong that the Commonwealth Government has decided to hold another referendum forthwith.

The Times announces that Australia, up to October 31, sent 320,000 soldiers overseas, but that the imperative demand of the western front and the splendid part of the Australian troops in Italy's latest advance convince Australians here that the Commonwealth, having proved the failure of the voluntary system, will now adopt conscription by a large majority. The majority against it last year was 51,000, in a total poll of 2,231,000 while the vote of the Australian soldiers serving overseas showed a substantial conscription majority.

Big Battle Starts On Italian Front

French and British Reinforcements are Massing Back of the Piava Line

WASHINGTON, Nov. 9.—The decisive battle of the Teuton drive in Italy is entering on first stages today, with manoeuvring for position by the opposing armies. Some reinforcements are massing back of the Piava River line and heavy artillery is being rushed from the western front to Gen. Cadorna's relief.

Despite terrible sacrifices, the Italian troops were said to be holding up the Austro-German advance sufficiently to permit defense preparations that make the final outcome hopeful.

Quebec 'Treatment'

In spite of the harm caused by Henri Bourassa in this Province we refuse to believe that there is an enlightened person in our population who does not see in Sir Wilfrid towards which the French-Canadian race is being driven.

To those misguiding the unenlightened portion of the population, whoever they may be, we must forth a cry of thrift and save them in the name of everything they hold dear to prevent their compatriots from committing that error which will isolate them from the rest of the Confederation. Let us be Liberal or Conservative, splinter or dissatisfied with the conscription measure, yet it seems to us that the moment we are French-Canadians and possibly everyone should understand the necessity of putting aside all political thoughts and rally to the best elements of the country in the new Union Government, formed by Sir Robert Borden and comprising the best elements of both parties. We have everything to gain by cooperating with them. It is no fault of Sir Robert Borden if the French Liberal element is unrepresented, since the first offer was made to Sir Wilfrid and, afterwards to other friends.

Do not the great majority of our compatriots agree with the policy of the Government to win the war? The Government is sure of the approval of eight of the nine Provinces of the Confederation, yet it meets with a violent and brutal hostility from the one French Province of the Dominion. The Nationalists are fanatics and have been ruinous to the French-Canadian cause and to everything they touch.

Bourassa Will Help Laurier in Election

National Accepts His Program as Far as It Meets His Principles

MONTREAL, Nov. 9.—Henri Bourassa makes clear to-day in his paper, "Le Devoir," the possible attitude of the Nationalist forces in the coming elections.

In the first of a series of articles, in which Bourassa will study Sir Wilfrid's manifesto, the Nationalist leader writes to-day:. "Although weak and ill-manoeuvring for the future, Laurier's attitude is better than the radically bad politics of the Borden Ministry.

"Unswerving adversaries of the coalition, of all its policies and of all its members, we (the Nationalists), accept Sir Wilfrid Laurier's program in the measure where it meets our principles and ideals; we reject it everywhere it agrees virtually with the Cabinet's platform. We are willing to help Laurier to throw down the Government of national treason, but we want him to surround himself and his party with barriers high and strong enough to keep out the bandits of the Northcliffe-Hilton type."

Bourassa, before coming to this conclusion, says he is surprised that Laurier, a "real, respectable man" still has a soft spot in his heart for the Liberals, who left the party ranks! and for every one of them he has an epithet!

LAURIER DESERTED.

London Free Press.

But who are the Liberals, pray, who stand with Sir Wilfrid Laurier? Not Hon. Mr. Fielding, his Minister of Finance for fifteen years. Not Hon. Geo. P. Graham, who is openly flirting with Union Government and who supported conscription. Not Fred. Pardee, chief Liberal whip for the greater part of the Laurier premiership. Not Premier Brewster, Liberal chief of British Columbia. Not Premier Murray, of Nova Scotia. Not Dr. Neely, and not Dr. Michael Clark. The desertions from the Liberal ranks are not by any means confined to those who have accepted posts in the new Government, but cover the whole country and include the most prominent men of the party outside of the Province of Quebec.

HAM AND BACON PRICE DROPS IN CHICAGO

CHICAGO, Nov. 9.—Prices of ham and bacon to the consumer were cut five to ten cents by the Illinois Food Administrator to-day. The Government's complete control of the packing industry lends importance to the announcement. While for the present the cut applies only to Chicago and suburbs, prices are here eventually will rule as the standard for the whole country.

Western Anniversary

SEPTEMBER 6th is the oldest anniversary in the Red River valley calendar. For, one hundred and seventy-five years ago to that day, the Sieur de La Vergendrye and his voyageurs paddled up the river and landed at the mouth of the Assiniboine, first white man to trace the Western princess. In his report to the Marquis de Beauharnois, governor of New France, La Vevendrye says: "We arrived on the 6th at the Assiniboine (Assiniboines) on the 7th, where I found ten Crees there and two war chiefs who escorted me with a quantity of meat, having been notified by their scouts. They encouraged me to agree to remain, to have the pleasure of seeing me and of giving me something to eat. I agreed, being happy to speak to them."

La Vevendrye remained at the fork two days before continuing his journey west, but left with the Crees one of his men from they had agreed to stay. He describes the Assiniboine as flowing from the west, winding about greatly, wide, with a strong current and many sand bars. It is filled with fine woods on the banks, and the prairies extend beyond sight through whose luxuriant grass cattle and deer. "I chose to go by land, following the prairie; with the useless people in the canoes." He travelled across country to avoid the increasing distance involved by the windings of the river, but he followed its general direction. And when he came to the place where his canoes could go no further owing to low water, he halted and there built Fort La Reine on the present site of where Portage La Prairie now stands. He was subsequently visited by Indian Mandan settlements on the Missouri, arriving early in February to the fort, where he spent the rest of the winter. The small fort named Fort Rouge, at the mouth of the Assiniboine, whose exact site is controversial, was built by his eldest son.

La Vevendrye belongs to the high company of adventurers who, in answer to the irresistible call, have gone out on the deep or into the wilderness, not knowing whither they went. 'His mind was on the Western Sea.' Though he went out under the nominal aegis of the French Crown, he had practically to create the means for his expedition; and this is why trade with the Indians was essential to his success. He gave to the enterprise not only himself and his private means, but his three sons. Before reaching the Mandans, he had lost many of his men and heavy trials had included the death of his nephew upon whom he depended as second in command, and the massacre of his son and of the missionary who accompanied the expedition. He suffered; and his cause suffered. Some men had died and enemies at court. Yet he was preparing for a new expedition when, after explorations farther west, when he died at Montreal in 1749, in his sixty-third year. "If he had but lived to find the Western Sea, nor even to see the Shining Mountains as the Indians named the Rockies—but his two sons were the first white men to travel as far as the Foothills.

We can picture this noble Frenchman landing down there at the confluence of the rivers, now between two cities, as we let him in fancy talk with the eager hospitable Indians as he looks out over the gloomy land under a warm June September sky. Visions must have come to him, some haunting sound of peoples treading westward in future years. If not on that day or on that journey, then surely in those days when preparations for an other inland voyage west was stopped, when he put out to sea for the better country. For this discoverer and man, we are told, was a man of spiritual faith.

La Vevendrye and Selkirk are the two outstanding figures in the earliest history of that west which is Canada's, but one a discoverer, the other a coloniser. Both ought to be commemorated in monuments worthy the men, worthy the best art, and worthy the best ideals of the Province.

Safeguard Lake of Woods.

On the boundary between the United States and Canada, about midway between the coasts, lies the little known Lake of the Woods, one of the most picturesque bodies of water in America and one of large economic importance to the United States and Canada. Because various problems pertaining to the lake and its level have arisen, an international joint commission was appointed some years ago, and recently after extensive investigation and hearings, has reported to the two governments concerned.

This report recommends, among other things, that a certain water level be maintained. This level is established with due regard to the water power which the commission recognized as the dominant interest of the region. The recommendations provide for the protection of the lake, and others, as immense reservoirs for storage purposes.

While this will damage some farm land it is proposed to compensate fully those who suffer. It is also proposed to safeguard fully navigation and the fisheries. Popular Mechanics.

Good Year for Whale Fishers.

Approximately 2,500 barrels of oil have been received at Victoria to date from the whaling fleet engaged in hunting the big fellows in northern waters and from recent reports and indications are that the season will be one of the most successful in recent years. The first shipment of oil was sent north about a month ago, and since that time the stations have sent down large quantities. The oil is awaiting shipment to the east.

TAPPED WHEAT CARS

LINDSAY, Nov. 9.—On a charge of taking grain from a G.T.R. car, about the 26th of October last, two boys appeared before P. M. Bradford this morning. Several witnesses were examined, previous to which the youth and who bored the augur holes in the box-car, which he sold for 11c. a bushel. The evidence of the car gave evidence. His testimony was to the effect that he had taken about 2½ bags of wheat from the car, which he sold for 11c.

SOLDIERS' PENSIONS AND VOCATIONAL TRAINING

Great War Veterans Listen to Instructive Address dy Major Buchanan of the Canadian Board of Pension Commissioners—Pensions and Who are Entitled to Them

The local branch of the Great War Veterans was favored with a visit yesterday from Major Buchanan, of the Board of Pension Pension Commissioners, who is making a tour from coast to coast explaining the workings of the amended pension act and taking up individual cases where there are any cause for complaint or misunderstanding. The Major addressed the local veterans last evening in the city council room on Front Street, and cleared up many points which hither to have been rather vague to the soldiers. He also went into the facilities for vocational training for the soldier and showed with what care the government had provided facilities for the returned soldier taking up a trade or profession to which he was best fitted. In nearly every case soldiers who have taken advantage of the vocational training have been able to earn much higher wages than previous to enlisting. Vocational training in no way affects the soldier's pension, and in a given pay and allowance during the training time is as high as $20 per month, according to the size of his family.

The Board of Pension Commissioners was appointed in November, 1916, taking the place of the Dominion Pension Board which had now proved unsatisfactory. The Board was comprised of J. K. L. Ross, who had spent twenty-two months in the navy, had presented a home for soldiers to the army, gave up his private yacht to be used for war purposes and equipped a battalion for overseas service; Col. J. L. Todd, who served twenty-six months in the medical services, and Col. S. H. Labatt, of the 4th Battalion, invalided home. The staff of the Pension Board consists of 97 men, of a considerable time, although not married.

The pension board was given a great deal of work sifting out the applications for pensions so that only those entitled to them should receive them. One application had been received from a woman in Rosedale, Toronto, who employed an income from $140,000 and received it was disallowed. Two various cases have arisen of two or more women claiming to be the wives of the same dead soldier; in such cases have to be sifted out carefully so that the right woman gets the money. In one case there were three women claimants as supposed wives of one soldier.

The board also looks after the orphaned children of soldiers and places them in good foster homes, being distinctly against having the children of dead soldier's heroes passed in public institutions.

An instance of how the new schedule of pensions works out was given by Major Campbell, in the case of a blind soldier residing at Calumette, near Ottawa. This soldier received in all $1,320 annual pension, divided as follows, pension $696, children (3) $384, attendance on account of blindness, $360.

The board also reserves to itself the power to administer pension money where it is deemed expedient to protect soldier's children, provide them with food and clothing, and see that go to church and school. This applies to cases where the mother, or whoever has them in charge is improvident and permitted them to suffer.

The pension board was working day and night and hoped to have adjusted 16,000 pension claims which had accumulated before Christmas and at the same time handle the claims which comes in daily. Last month 3,000 came in.

Much delay and confusion was caused by dependants when they receive their first pension check not returning filled out promptly the claim sheet enclosed with franked addressed envelope. If this claim sheet is not returned the next month's check will not be sent and another complaint is born.

In speaking of vocational training for the soldier, Major Buchanan told of a bricklayer who had lost his hand in the war, and trained as a mechanical draftsman, receiving now a salary of $125 per month besides his pension of $22 per month.

A hearty vote of thanks was rendered Major Buchanan for his instructive address, moved by President Bilsylock, seconded by Comrade Hutchinson.

At the close of the meeting Major Buchanan answered a number of questions and took up several individual cases of pension applications which seemed to be in a muddle of misunderstanding.

Plaintiff and Defendant

By OSCAR COX.

Having received a note from our cousin, Bella Archer, that she wished to see me very particularly, I found her on the porch of the Hammond residence, where she did not live, but was visiting a friend. She did me by down her novel, but smiled in a hard way as I drew a chair to the table. I took it up and perused it. It read as follows:

"Dear Cousin Archer:

"Dear Cousin Archer:—Owing to pulmonary trouble, Edward Hammond, Esq., has retained our services, directing us to enter proceedings against you for libel of character, demanding dollars ($25,000) for trouble and damage to his client. We are willing to bring on to hear from you with reference to the matter, and if you do not, after awaiting both politely and expense, you will have very reasonably, to answer anything.

GUTSCRACK, SPINNER & MUCHMORE."

I read this letter but only with surprise, but then I recalled that there have been cases of a man suing a woman for breach of promise, but they have been rare. His face twisted during the epistle. I looked up at Bella. She was evidently interested by her book; then what the letter intended for her. Nor was I able to imagine her situation. I knew she had refused him, but she was reading. Then I said:

"I dare say you have deserved this."

"I dare say I have."

"You would not hesitate to jilt an author."

"That's what I am accused of having done."

"Perhaps if you send the plaintiff a letter expressing contrition he will withdraw."

"Perhaps he would, but I'm not contrite."

I thought for a few minutes, then, changing my tone, said:

"Suppose I treat her as treated seriously. Do you wish me to act for you in the matter?"

"I do."

"What evidence has Mr. Angell that you have promised to marry him?"

"I don't know that he has any."

"Then mere libel you have been so reckless in your numerous flirtations that you have not kept track of the men you have accepted and those you have refused?"

"That's about it."

"What course shall I pursue in this case?"

"Do, settle it as lightly as you can. It won't begar me to pay at all."

Considering that Miss Archer was worth several hundred thousand dollars this was true. Angell was worth a million.

"I don't suppose," I said, "the plaintiff wishes money."

"I don't suppose he does."

"What is wanted is apology."

"What?" I asked.

His words in the letter threw over my other suitors for him.

"Oh!"

"Don't you?"

"And you don't propose to be bluffed."

"No, I don't. You may write his lawyers for me that if I get the apology I send for nothing, and don't consider it worth anything. That the damages named are so small."

I wrote Messrs. Gymcrack, Spinner & Muchmore to that effect, and received per the amount claimed. In due time I received from them a letter of typewritten apology that Miss Archer was to sign acknowledging that she had acted wrongly toward Mr. Angell, the plaintiff, humbly begged his forgiveness and that he would drop the contract with him." Bella signed it, but put the word "not" between the words "I" and "dare."

It did not appear to me that Mr. Angell was making much progress in this matter of love suit. I was curious to know what his next move would be, for I did not see why he should be content. He adopted the Fabian policy—he did nothing. When sufficient time for a reply to the letter had passed I received a note from Angell's attorneys to the effect that since the residence of Mr. Bert Ketcheson of Henry street, the body was conveyed to White's Church, Front of Sidney township, Rev. Dr. Scott of the city and Rev. Dr. Marvin of Sidney, conducted an impressive service. Many were in attendance and a number of beautiful floral designs were placed upon the casket by relatives and friends. Interment took place at White's cemetery, Sidney. The bearers were relatives of deceased, namely, Messrs. Marvin Conger, Willis and Benjamin Bonisteel, Jas. Donaldson and Wm. Flinkil.

A police constable will in the future observe decorum in Brantford City Council.

A Strange Conversion

By F. A. MITCHEL.

A tramp called for food at a hotel some country residence. The lady of the house was sitting on the veranda. She was a woman of benevolence and in building up those who needed building up and ordered a maid to bring a substantial meal out on the veranda and place it on a table. Then she invited the tramp to help himself. While he ate she questioned him. It was the cause of his living a life of beggarly independence. His replies were not very satisfactory and indicated that he enjoyed the life of a tramp because he preferred it to work.

The lady, having fed him, gave him some money, and he departed. When her husband came home that evening she mentioned to him what she had done. He chided her for wasting her sympathy on one who was evidently undeserving. Whereupon she declared that all persons were in a sense undeserving; that the mere fact of a person's being in bad condition, even though brought his own fault, was a legitimate object for sympathy, and in any event it was an advantage to the giver to lend a helping hand.

A year passed. The lady was passing one day near the same route as before and bethought himself of the old and comfort he had derived at the place he was approaching. He was no more worthy of help than before, but no gratitude he only wished to get another meal and some more money. On reaching the house he saw evidences of a special taking place in it. The obsequies were for the lady who had befriended him and store. A large concourse had sent much beloved on account of her charities a large number of poor people were in attendance.

The tramp joined those who were passing to have a last look at their benefactress. He noticed on the finger of the dead a diamond ring, and after noticed that when the lid of the coffin was put on the ring was not removed. When the funeral proceeded went to the cemetery he joined the throng and saw the ring placed on the finger. Then the mourners dispersed, and the tramp, after carefully noting the position of the lot, went away.

When night came he went to the house from which his benefactress had been carried, stole a spade and a shovel from among the garden tools and going to the cemetery, began to remove the earth that had been thrown into the grave of his benefactress. Having uncovered the coffin, he took a screwdriver from his pocket and removed the lid. Taking the hand, he was surprised that there was in it a little warmth. The diamond ring was there, and he attempted to remove it. Pulling it so, he took out his knife to cut off the finger. Feeling something warm on the hand, he struck a match and saw that it was blood.

Leaping from the grave, he ran away as fast as his legs would carry him. Then he stopped and began to think. The most likely solution of the case he had stumbled on was that it was one of those very rare cases of a trance having been mistaken for death. If his benefactress was lying uncovered in a grave. What should be do? If he rescued her he would be obliged to confess that he had gone there to steal the ring on her finger.

"There are natures so bereft or what is good that they can only be moved by some momentous event. The tramp was one of these. A sudden revulsion came over him. Instead of going to the grave, he found the body ja he had left it. Removing the coffin lid, he took he wrapped it in his coat and carried it the nearest house and restoratives were applied.

For a long while the invalid hung between life and death. As soon as there was any hope for her recovery her husband was notified of what had occurred. He and his wife were present when the matter broken to any other than the lady herself. Then they knew of it by the lady being revealed to her home.

As soon as the tramp had done all in his power to save his benefactress, he concealed himself and had intended to steal a jewel, taking advantage of the excitement attending the efforts to restore her to consciousness. When the lady became convalescent she asked what had happened, but it was not thought advisable to tell her at once that her finger had been bodily cut, she having fallen into a coma. A story was invented to satisfy her.

One thing puzzled her. Her husband, who had formerly been somewhat pathetic with her charitable work, which was not a part of organized aid to the poor, but, rather, spasmodic, now had suddenly become an unreasoning giver.

The tramp again visited the home where he had received aid and comfort, but not as a tramp. This time it was the time of his first visit, was seated on the veranda when a well to do and well dressed man coming up the walk. She did not recognize him till he made himself known and told her that he had come through her he had become a changed man. She, the benevolent one, called on to discover that she did not know who had been in a grave, and he did not tell her. She knew that he had done anything she could do for him, and he replied that there was. He gave one-tenth of all he earned to charities, and he thought that his gifts would have more effect if they passed through her hands. She accepted the trust. He made his first donation, and they were continued regularly during his life.

A convalescent home for 300 returned soldiers will be erected at London, Ont.

THE VICTORY LOAN CAMPAIGN

"Your credit is good." That is the feature of Canada's Victory Loan, which is offered to the public to-day; that, and the high rate of interest, 5½ per cent. The bonds are in denominations of $50, $100, $500 or upwards, and all anybody has to "pay down" is 10 per cent. on Dec. 1. But though a deposit of only $5 is required for a $50 bond (and a like per cent, for the others), the full first half year's interest will be paid on June 1 of next year JUST AS THOUGH THE SUBSCRIBER HAD PAID THE FULL PRICE ON DEC. 1. That means that while the interest is nominally 5½ per cent., it figures out to 5.61 per cent. for buyers of 20 year bonds, 5.68 per cent. for buyers of 10 year bonds, and 5.81 (over 5¾ per cent.) for buyers of 5 year bonds.

How do invest? It's the simplest thing possible. The citizen simply goes to any branch of any bank and signs an undertaking to pay, on Dec. 1, ten per cent. of the value of the bond for which he wishes to subscribe. If he has a bank account, he gives his check; if not, his promise is sufficient. Then, on the date mentioned, his check is cashed by the Government or his undertaking to pay is made good. Having thus paid his first ten per cent., he continues to buy his bond on the instalment or "easy payment" plan as follows during the year 1918: Jan. 2, 10 per cent.; Feb. 1, 20 per cent.; Mar. 1, 20 per cent.; April 1, 20 per cent.; May 1, 20 per cent.

Part it another way. A man who can afford to pay $5 down on Dec. 1 of this year can buy a Victory Bond by saving the following amounts per day thereafter: During December, a little over 16 cents; during January, February, March and April, about 23 cents. He will then have his bond fully paid up by May 1 of next year, and on June 1 he will receive his first interest rate of 5½ per cent. per annum, not reckoned on the payments as he has made them, but on the par value of his bond as though it had been paid for in cash on Dec. 1, 1917.

Where will he get his interest? At any branch of any bank in Canada by simply presenting a coupon. Everything that need done to make it easy for Canadians to subscribe for the Victory Loan. And everything has been done to simplify the matter. Surely you will get the very generous interest which the country is prepared to pay.

AN OPERATION AVERTED

Pittsfield, Pa.—"One year ago I was very sick and suffered from my side and back until I nearly went crazy. I had given up all hope of ever getting well. Different doctors and their medicines failed to help me. My female trouble and weak back got any relief until I had to be operated on. I suffered from it for two years before this time, but I kept getting worse. I was in bed most of the time and had a trained nurse to wait on me. I had given up hope of ever getting well. I had a bad cough and was very much run down in health. I had smothering spells and pains in my side and back

GERMANY CALLS OUT EVERY AVAILABLE MAN

LONDON, Nov. 9.—Germany called up her last reserves within the last few days, according to the Central News correspondent at Zurich, telegraphing under Wednesday's date.

All men who previously had been rejected were ordered to present themselves for re-examination, and, within a few hours all not utterly incapacitated were on their way to the training centres.

This action, says the correspondent, is attributed to the intention of the German Crown Prince to make a final effort on the western front before America's help become effective.

USING A MEDICINE DROPPER.

The More Shaking it is Held the Slower the Drops Will Come.

When using a medicine dropper, it is important to use it correctly, especially if measuring out drops of some powerful medicine like strychnine, belladonna, veratrum, or few drops vary widely in their size.

Dr. R. E. Glasgow of London recently reported to the Lancet the results of some experiments he had made with a medicine dropper from a bottle of solution. He measured the solution very carefully and took it at random a medicine dropper from the bottle, counted it, drop by drop, holding the dropper at different angles and counting the drops as they fell.

With the dropper held vertically (at an angle of 90 degrees with the horizontal) its contents made 100 drops. Held at an angle of 60 degrees the contents made eighty-two drops; at 45 degrees, seventy-six; at 30 degrees, sixty-eight drops, and held horizontal they made only forty-eight drops.

In other words, the drops become progressively larger as the dropper is moved from the vertical position. A drop from a dropper held at an angle of 90 degrees is one-quarter larger than a drop held at an angle of 60 degrees, one-sixteen drops and forty-eight drops. Holding the dropper at an angle of 45 degrees makes fifty drops, and held horizontal they made only forty-eight drops.

The more slanting the dropper the bigger the drops.

FALLS ONLY TO RISE

An Experiment With a Sort of "Perpetual Motion Effect."

A novel experiment in the domain of scientific amusement can easily be performed simply. A glass tumbler about two inches high and four inches in diameter is filled about three-fifths the height of finest flour and a half inches, and two and one-half inches of granulated or commercial sulfate are added, which will sink to the bottom of the vessel.

The temperature of the water and its contents is now raised to 170 or 175 degrees F. by means of a burner, when it will be observed that the sulfate rises to the surface of the water, from which it falls, leaving it a clear case of pellucid. Almost immediately the sulfate begins to condense to after it has taken shape, and gradually it slows drop by drop to the bottom of the tumbler, where it forms the mass and falls through the water.

At last the detached drop having fallen to the bottom, it in turn becomes the supporting part of the experiment. The flakes drop is seen gradually to rise to the surface, and then joins the mass from which it previously broke away. At once condensation commences to form and, having become sufficiently large, falls risen in the same manner as the previous drop.

So long as the temperature of the water is kept at 170 degrees F. or over this procedure continues.

The Chinese "Five Kings"

"The Five Kings" is the name of the as read book in China, and encompasses the religion of the Chinese as well as a great number of other peoples of the orient. The "five kings" are five divisions or moral, social, political and religious teaching that have been handed on the sentient Chinese traditions, and, although its author lived more than five centuries before the birth of Christ, it is still perpetuated as the state religion of the Chinese down to the present day. Confucianism is a religion without positive revelation, with a philosophy of life teaching whose most popular morality is centered in offering to the dead. It is believed the spirit of duty is retained beyond the sphere

Speaks Boldly

NOT many long ago Dr. Hjalmar Boerstler left his native Sweden disgusted with Swedish barbarism, and has published a book with the "Year of War in Constantinople," the capital he was stationed as correspondent for the Cologne Gazette after having been discharged from the army on account of infectious health through confinement in the Mauritius cesspools in his letters to the Cologne newspaper he denounces Turkish complicity in the Armenian horrors as the most terrible crime in history, and has very promptly fared from his clientele.

The way he says:

"I returned to German soil after many years' absence abroad, particularly in the Levant, during the last period of general mobilization. And now who returned, I did not feel that I could but be gripped by a deep melancholy, by a sort of modern horror of the nation's attitude in these terribly stirred days. As evidenced by countless personal experiences in trains, cafes and restaurants, and by article in the German newspapers, the mind have never been able to think straight politically.

Further on in his book Dr. Boerstler says:

"I have at no time since then (August 1, 1914) believed in a German victory. And this finally, if not surely, the conviction took shape within me that I could not serve as a German victory-lazy leagues. Yesterday, I performed my military service. But of all my experiences at the front, it is so unspeakable as the struggle that I am not able to describe it. And this thing which fills me with hatred of my immediate superior, the prussian officer, his race, a real Prussian. I still see him as he stood there, his face, however, already 65 years old and retired to the reserve, who, in spite of everything, had not been able to forget where the rank of first lieutenant. He had now pushed himself back again into the service because he, as he told me at the beginning, had entirely misplaced confidence, quoth in this way obtain a fully pension. I came and even the prospect of eventual advancement.

"He also told me about those four tracks in Belgium, this Lieutenant Stein, when he was the commanding officer of a battalion. I still hear him speaking about it. He was proud of it, whose teachers had been in the habit of telling him in the days that he steal an altar cloth off the altar to make himself a pair of breeches out of it."

"When we wanted to make requisition or wanted to clear out a house, we had a very simple method of procedure. One of the officers was ordered to slip a Belgian flag through an open pane window, and then a search for concealed Belgians was made. If even one rifle were found, then we were entitled to take everything and take the people away."

"Even now I see the old fellow before me, sniffing me like with much more of the same sort, his expression full of malice and chuckling spitefulness, during those first few days of our acquaintance, before he got really to know me. Oh, how he got gotten it and have much to thank him for, this Lieutenant Stein, who helped me on to that road which, after many detours, led me colonies and abroad. From the very beginning of the war, without serious doubt, I was bound eventually to travel.

"The lieutenant is a type of the dyed-in-the-wool Prussian officer, though somewhat on the down grade of his career. Nothing can harass worthies again—the same man who, in 1911, fell in a drawing-room of the Mary League, the life of the party, the master, and an eloquent barroom world politician. And this same Stein filled me with the greatest disgust for years."

"I later had all his stories literally corroborated by one of the best known German correspondents, Dr. Bernhard Guttmann, author of a four-volume work entitled At the Imperial Headquarters." He, naively enough, put on the fact that I was the special correspondent of a German newspaper, told me of the many atrocities perpetrated by our soldiers in Belgium which with wealth horror of detail, scenes anything I have permitted in the Entente press."

"As so many words submitted, in the beginning of 1918; that we were fighting for our very lives, for the fact that that country, anyway, was living only on what the Countess for the Hinterland supplied, and that we were systematically trying to ruin the industries of Belgium, in spite of all that with our own, by taking away out of the country all machinery and factory equipment." And that was even before the deportation of the working people. But Schweder talked to me about the morality of our soldiers in the trenches, a series of great insanity, thousands on thousands of corpses, of young men and girls of the best French and Belgian families among them, and a leader who must return to the first line and face death after short leave does not consider consequences and in most cases the victim of his bestiality is subjected to the severest punishment seldom overtakes the transgressor."

GERMANS DRIVEN TO KILL RUSS

Strange Appeals and Protests From Mazurian Battles Are Revealed

WASHINGTON, Nov. 2.—The fact that German soldiers themselves appealed to Ambassador Gerard as the representative of a Christian State," in protest against atrocities and barbarities in which their commanders forced them to participate, will be disclosed in a forthcoming issue of a pamphlet by the Committee on Public Information, entitled, "German War Practices." One German soldier, conscience-stricken with the massacre of Russian prisoners, implored the American Ambassador to protect, and signed his letter, "A German Soldier and Christain."

Another, who, through the Ambassador, addressed his appeal to the American Government against the butchery of prisoners, signed his letter "A soldier and man who is no barbarian."

All Must Die

This was the protest of a German soldier, an eye-witness of the slaughter of Russian soldiers in the Masurian lakes and swamps:

"It was frightful, heartrending, as these masses of human beings were driven to destruction. Above the terrible thunder of the cannon could be heard the heartrending cries of the Russians: "Oh, Prussians! Oh, Prussians!"—but there was no mercy. Our Captain had ordered, "The whole lot must die; no rapid-fire!

"As I have heard, five men and one officer on our side went mad from those heartrending cries. But most of my comrades and the officers joked at the unarmed and, helpless Russians shrieked for mercy, while they were being suffocated in the swamps and shot down. The order was, 'Close up and at it harder.' For days afterwards those heartrending yells followed me, and I dare not think of them or I shall go mad. There is no God: there is no morality, or ethics any more. These are no human beings any more; no, only beasts. Down with militarism!"

Hunter Killed At Maple Lake

C. Wasnidge, of Grimsby, Ont., Accidentally Shot By Cousin

LINDSAY, Nov. 9.—The first hunting accident of the season in this county took place in the vicinity of Maple Lake, (Haliburton), when a man by the name of Charles Wasnidge, from Grimsby, Ont., was accidentally shot behind the shoulder by his companion, a cousin by the name of W. F. Wasnidge, of Dundas, Ont.

Few particulars are to hand, but it appears that the two had been shooting ducks. Mr. W. F. Wasnidge was reloading his gun, had pulled the trigger half way up, when it slipped through his wet gloves, discharging its contents into the body of his cousin.

The accident happened about 7.00 o'clock in the evening, the unfortunate man dying four hours later. The remains were taken to Gelert station and conveyed through Lindsay this morning to Grimsby.

PICKED UP BARGE; REWARD, IS $5,500

DETROIT, Nov. 9.—The steamer E. H. Utley, which picked up the barge George F. Hartlinell on Lake Superior, May 8, 1916, and towed her to Sault Ste. Marie after the steamer R. B. Kirby, which had the barge in tow was lost, has been allowed $5,500 for the service by the Advisory Committee for the Great Lakes Protective Association. The award is to be divided as follows:—Four-fifths to the owners of the Utley, the other fifth to the captain and crew. The crew gave $350 to the captain, $125 to the mate, and the balance to the other officers and members of the crew in proportion to their wages.

Capt. C. C. Balfour of Detroit, master of the Utley, was presented with a watch by Harvey H. Brown, president of the North-western Transportation Company, which owns the Hartwell.

Health Dread.

A pint of fresh milk and a pint of water heated in double boiler, a large sinking spoonful of shortening, a large sinking spoonful of sugar, a large mixing spoonful of molasses, a tablespoonful of salt, all in milk and water. Stir in three-quarters cupful of bran, put into bread bowl and cover until cool; then add a cake compressed yeast and enough wheat flour to make a soft sponge. Beat hard and let stand for an hour or more. Mix about 3 o'clock and at 10 o'clock add flour (entire wheat) enough to knead, making it a little stiffer than white bread. Knead well and let it rise well covered until morning. Makes two large loaves and three muffin tin rolls. In one loaf knead in about one-half a cupful of sesame raising. This is a most delicious bread.

"KEEP A PIG," SAYS HANNA

"Let Every Man Who Can Spare Two Hours a Day, Go To It"

TORONTO, Nov. 9.—That the war-ridden countries of Europe were short 25,000,000 hogs was the declaration made by Hon. W. J. Hanna at a meeting of farmers and district representatives at the Parliament Buildings.

"The total hog supply of Canada today," said he, "is but 3,500,000 hogs, and this means that ten times the supply today is short for the use of the Allies at the front."

At this rate the supply of hogs would be depleted at a rapid rate, and "it means the final extermination of the hog before this war ends," said he. "The figures for the United States show that to-day the supply is but 10 per cent. what it was a year ago."

WHAT WILL U. S. DO?

At Washington the best hog experts had committed themselves not only to make up this ten per cent. shortage, but to raise 15 per cent. more. "Every state has been asked to commit themselves to the limit," said he, "not as a patriotic duty, but as a profitable business. "Keep a pig, is the propaganda there. Every suburban dweller has been asked to keep a sow and to the packers that is going to waste to feed it, and to help out the food proposition. Figures, and they don't lie, state that in a year the German population raised 4,000,000 pigs, half a million more than the supply in Canada to-day."

TON FROM EACH SOW.

The propaganda in the States was to make each sow produce 2,000 pounds of pork in the last twelve months.

"Let every man who can spare two hours a day go at it. Get your wonderfolk to raise hogs. Your mothers and mine raised many a fine hog. Yes, and helped to kill them, too," he said.

He promised that the packers and distributors would be regulated so that the producers would get a fair share of the price that the consumer paid.

LEAPED BEFORE HE LOOKED!

Man Rescued Drowning Girl Who Sues Him for $2,000.

When Warren D. Hayden, of Worcester, Mass., plunged overboard from his motor boat on Lake Quinsigamond and rescued Miss Joseph ine Depatie from drowning, he little thought, says "The Brockton (Mass.) Enterprise" that he had started a $2,000 damage suit right there.

A few days later he was enlightened. The girls father, Charles Depatie, brought the action, alleging that Hayden's boat upset the canoe in which Miss Depatie was voyaging, and that in rescuing her Hayden used her so roughly that he brought on a case of appendicitis, for which she had to undergo an operation.

"Wets" Will Win Ohio Recount

CINCINNATI, Nov. 9.—Hay Hil. lenbrand, member of the Board of Elections of Hamilton county, admitted that there had been a mistake in tabulating unofficial returns from 41 in country. He stated that it occurred when the figure "7" was hit on an adding machine instead of the figure "8", and that this error will make a difference of 10,000 votes in favor of the "wets."

NEW MEXICO "DRY"

Albuquerque, N.M., Nov. 9.—New Mexico adopted prohibition by a decisive majority on the face of partial returns from 18 of the 28 counties in the State received early yesterday. The Rev. R. E. Farley, Secretary of the State Prohibition Committee, issued a statement declaring that the constitutional amendment which would make New Mexico "dry" territory Oct. 1, 1918, had carried by at least 20,000.

TRIUMPH FOR WOMEN

New York, Nov. 9.—The women citizens of New York State were given unlimited suffrage in the election by a majority which is expected to reach 100,000 when all the election districts have completed their tabulations. Early today, with 1,348 out of 5,772 election districts missing, the vote stood 533,319 for the amendment and 446,791 against. In the Greater City which reversed its stand of 1915, the suffrage leaders predicted that the missing 572 election districts would greatly increase the already large majority. The incomplete vote for the city was 268,794 for suffrage as against 209,127 opposed.

Judge Hylan's plurality in the mayoralty contest was 147,973.

A Peculiar Army

Of the 400,000,000 persons in China, it is estimated that at least 40,000,000 are not capable of carrying arms or doing the work of labor directly connected with the War. Of this number 20,000,000 are living within reasonable distance of transportation facilities and could be mobilized were it necessary. China has such an abundance of men that millions could be spared to the advantage of those remaining at home.

My Agent

By F. A. MITCHEL

I took my vacation in October in my runabout.

One evening I was keeping an eye out for a place to stay over when I came to a neat, tidy-looking home—and a farmhouse—that looked as if it was or had been inhabited by refined people. But what attracted my attention was a sign fastened to the gate bearing the words, "Matrimonial Agency." It seemed out rather to me that they should be "Courting Quarters." The place was certainly very cozy.

It is needless to add that I put up at "the house." I was received by an elderly lady whose manner seemed quite too refined and courtly for an occupant of such a modest establishment. I asked her if she were the matrimonial agent, and she said she was not. Her daughter was trying to make something in that way. She never appeared to strangers, as they called professionally. Being curious, I told the mother that I was ready for a wife whenever Sis should throw one into my hands and, handing her a fee in advance, asked to see her daughter.

I expected to meet an angular old maid or widow. What was my surprise when the plumpest, rosiest little creature came into the room, dimpling from her eyebrows to the tip of her dimpled chin. She appeared to be about seventeen years old, though she was twenty. Coming at once to business, she asked:

"Do you prefer a blond or a brunette?"

Looking into her blue eyes, I told her that I preferred blonde. "But," I added, "before coming to particulars I should like to talk with you about matrimony. Do you recommend it?"

"It would be absurd for me to recommend what is so important a part, if not the most important part, of nature."

It struck me that this was evading responsibility. I wondered at one so young being so diplomatic.

"Do you vouch for the persons you introduce?" I asked.

"Only for their respectability."

"Then you do not guarantee happiness?"

"I do not. The happiness of married persons depends only on themselves."

"Have you made many matches?"

"A number of persons I have brought together have married."

"Have the unions usually turned out happily?"

"I have not been in the business long enough to find out."

"You surely don't sell under false pretenses."

I described the appearance of the girl I should like to marry, and she might have been the twin sister of the matrimonial agent. She declined to notice the fact that I had given her as a model, and nothing I could do to persuade her to drop her professional attitude had any effect upon her. Her method was to give her business card to the man of the couple she proposed to bring together, with the name and address of the lady on it. But she never introduced a couple unless she had thoroughly investigated both parties and was satisfied that each was in earnest in seeking a matrimonial mate.

Before leaving I gave her my name and address, with references to certain cronies of mine whom I could trust. I had no idea of having her introduce me to a possible wife. My object was to visit her again, and I knew she would not receive the visitor I satisfied her that my application was bona fide. Indeed, in one respect it was bona fide. I was willing to consider the agent herself as a possible wife—not that I had made up my mind to any such result, but it was pleasant to contemplate.

The matrimonial agency was not far distant from my home, and a fortnight after my return I ran out in my car to see the agent again. She informed me—which I already knew—that the report of me was satisfactory and she was ready to give me a card to a young lady who was looking for a husband. I took the card, but informed the agent that, being very busy, I might not soon deliver it. Not wishing that she should be delayed in receiving her fee, I handed her another twenty-dollar check in a business like manner and told me I was welcome to take my own time in the matter.

When I called again I told the agent that I should like several introductions, stating at the same time that I would choose a wife from among those in whom I was interested. She consented to this, and I left her. During the winter I went to see her a number of times, always apologizing for not having called on any of the young ladies whose names she had given me. Toward spring, after having called on the agent many times and upon most of those she had recommended, I went to see her for the last time as a client. I told her that I had decided on a wife and it only remained for the lady to decide on me. She herself was the girl I selected.

Without any expression of surprise she took out her portemonnaie and handed me the fees I had given her.

"You are offended," I said. "You consider that I have deceived you."

"No," she said, with a smile, "I knew your intentions before you knew them yourself. I have accepted and served these fees that you should have the wherewithal for an engagement ring."

Nailing a Lie—Cold!

WE have read letters from Chalmers Distributors in which they have stated that competitors were saying to present owners of Chalmers cars and to prospective buyers, generally, that the manufacture of Chalmers cars would be discontinued.

There are thirty (30) automobile companies in the United States recognized by the general trade that manufacture and sell Touring Cars and Roadsters at retail prices in Canada between $1,500 and $2,000. We haven't heard that all of these companies, or any one of them, were going to discontinue production or quit business. Why, then, should the Chalmers, with a better car than many others in this class of 30 manufacturers, stop production?

WE MAKE A PROPHECY, and will authorize our Distributors to back it up with $200,000 of our money; that the Chalmers Company under the Maxwell Management, will stand ahead of 15 of these companies in production in 1918, and the Chalmers Company will stand ahead of 20 of these companies in production in 1919. This doesn't look as though we expected to discontinue making Chalmers Cars.

The reason some people are trying to disturb the present Chalmers owners is to scare them about service as to get a better "trade-in" on their Chalmers.

The reason for circulating such a story generally would be to prevent the prospective purchaser from inspecting a Chalmers car, because if a prospective buyer of an automobile will look at and ride in the present Chalmers models he will be very apt to buy one. It is the best car selling at $1785 in Canada that we know of.

This is one reason why Chalmers cars will continue to be made, not only in 1918, but in 1919, 1920 and other years.

Another reason is that the Maxwell organization has told the general Public that Chalmers cars would be produced in larger quantities than ever before and we have a way of making good with the public on sales and production.

Lone Aviator Fought Fifteen

Huns Filled Him Full of Lead But He Joyfully Writes "This Is the Life"

TORONTO, Nov. 9.—His observer hit in five places and his petrol tank on fire, Lieut. Emerson Smith, of the R.F.C., graduate of the camps at Long Branch and Borden, tells in a letter how he took his machine back to the British lines in safety, and later brought down the Hun who had been responsible for his descent. Lieut. Smith left Toronto with a draft from the R. F. C. on June 16 of this year, and went overseas, going to the front soon after. He writes as follows:

"I stuck around, 15,000 feet over our lines(and while there were no other machines around, over came fifteen fast two-seater Huns. They were below me so I let them pass, and getting a nice bead on them I dived. They fired some 200 rounds at me with their rear guns, which my observer works, and they hit me in about five or six places.

"There was no serious damage done, so I went after them and they headed for home. I got one down in flames, the other went down in a spin. Think of it! Fifteen two-seaters running from one miserable little Sopwith. That shows what morale the Huns have.

"Filled Me With Lead."

"I made another trip over the lines in a two-seater machine with an observer. After we had been over there some time a Hun scout came over and sat opposite to me. My observer, thinking it was one of our machines, did not fire, and suddenly the big fellow opened fire and filled me full of lead.

"My observer was hit five times. My seat had two holes in it and the bullets passed through my coat. My petrol tank exploded and I made for earth and the nearest hospital, where I got my observer fixed up and he is now getting on fine. I had quite a time in making a landing, as a portion of the oil coming back into my face, I had my vengeance, however, for that same Hun was later brought down by me. He went down with his wings off.

"This is the life."

Nip Another Plot Against U.S. Ships

Man Hiding in Crow's Nest of Former German Liner Arrested

NEW YORK, Nov. 9.—With the arrest of a man caught hiding in the crow's nest of a United States troopship, formerly a German liner, a thorough search of the vessel was begun at once to determine whether any of its machinery had been damaged.

The identity of the man has not been divulged, but it was said that he is a machinist, a fact which made the officials fear that he may have tampered with the machinery or wire lest in some way. He had no business on the ship, it was said. The man was examined by Federal officials in an effort to discover his intentions.

This is the third arrest made here of persons suspected of attempting to damage American vessels. A man named Walnum is awaiting trial on the charge. To-day Matthew Valtekunas, a Lithuanian, was arraigned on the charge of having attempted to place a bomb on board a transport. It was disclosed that he was the employee of a local shipyard, who was arrested on October 15th as he was boarding a transport with a bomb in his possession, but whose name was not then disclosed. He has since been held on Ellis Island.

Valtekunas to-day pleaded not guilty, and was held without bail to await the action of the Federal Grand Jury. The complaint against him charges an "attempt to place a bomb on a vessel of the United States" and with "conspiring" with others to accomplish this end.

U. S. SHUTS THE DOOR ON IMPORTED LIQUOR

None May Come In For Beverage Purposes, Except From Virgin Islands

WASHINGTON, Nov. 9.—All advance for the importation of distilled liquors for beverage purposes except from the Virgin Islands have been closed under instructions sent to Customs collectors based on Attorney-General Gregory's interpretation of prohibition sections of the Food Control and War Tax laws.

Liquor produced on or before October 3, when the revenue act was passed, may not be imported for any purpose, but if produced after October 3, and intended for other purposes than consumption as a beverage, it may be admitted under Customs regulations yet to be made.

Rum and other liquor made in the Virgin islands after October 3, from materials produced there, may be brought into this country, for beverage or any other purposes.

The result of the order probably will be to admit for industrial uses quantities of liquor now held by Customs officers.

The Power Of Love

It Raised Even Life.

By RICHARD MARKLEY

Most young men go to college without any fixed life plan before them. What they will do with their education they just get dazzling stuff after they get it. I was one of them. I was a good classical scholar and one of the best athletes in my class. The closing days of my college life were very pleasant and very exciting. I delivered the valedictory in Latin, having the satisfaction of being considered a very learned young man.

I went home with the plaudits of my admirers ringing in my ears. But there I found a contrasting quiet. The excitement had all died out, and I found myself face to face with the problem of a career. Many young men who take honors in college become pedagogics. I had no such inclination, nor did I care for a profession of any kind. I pictured a stirring life. I went to the city, studied law a smattering and got one with a house doing a commission business. Soon clientele was in South and Central America.

I stood the hazardous of business life for about a year, when another was proposed to go to Honduras to collect a debt owing the firm. I offered to go. My offer was accepted, and within a few weeks I found myself in the country of the rubber tree.

While collecting the debt I was approached by some men who told me that they were plotting to seize the government. They persuaded me to join them. They were defeated. I, with others, was captured in arms and thrown into prison. The same evening we were told that we would all be executed the next morning.

When at daylight an officer entered the room where we were confinedto take us out to execution he said to me:

"I understand that you are an educated man. Am I correct?"

"I counts myself a good classical scholar," I replied.

"Very well." Then, turning to a subordinate, he said:

"Take him to his excellency."

I was led to the president's house and told to wait till called for. About 9 o'clock I was conducted to the president's private office.

"What do you know about the classics?" he asked.

I told him that I was a college graduate and had at commencement delivered an oration in Latin.

"You're just what I want," he said. "My son wishes to enter an American college next year and needs a tutor. If you will fit him for the entrance examinations I will pardon you for your stupid complicity with these rascals who have sought to put themselves in my place. But understand, your sentence is only suspended. You will come into my family and be one of us. Any digression from a straight path and you will suffer under your sentence for treason. Say nothing to any one of your connection with traitors."

I did not understand what he meant by "any digression" till I arrived at his house and for the first time saw that he had a daughter at that tender age when girls are liable to fall in love with any presentable man that happen to be thrown in with. Donna Inez was nineteen and of course a Spanish type. I was plain plain that I had been warned against making love to her.

I was introduced into the family by President Sanches as a college graduate he had imported from the north to tutor his son Pedro, sixteen years old. Senora Sanches was probably the only person in the house that knew I was under sentence of death.

I have a theory that we only enjoy by contrast. Another way of putting it is, "Stolen fruit is the sweetest." The president made a great mistake in warning me. For a young man of twenty-three to be forbidden under penalty of death to make love to a young girl is a terrible temptation. Had Senor Sanches made no such threat I might have lived in the same house with his daughter and not transgressed. As it was, I was tortured with a terrible desire to win her and with a terrible fear of the gaynes if I did.

Whatever were my feelings, I dared not show them even to the young lady herself. And here I made the same mistake with her that her father had made with me. Observing that I had unintentionally inspired her with a sentiment that might lead to love, I confided to her the secret that love with me meant death for me.

From that moment a passion that might otherwise have either never been born or at least soon have died out fanned up in Donna Inez and absorbed her whole being. Could this passion be scientifically analyzed I think it would appear that the predominant element in it would turn out to be a desire that I should accept death in preference to giving her up. There is something paradoxical about this, but nature is full of paradoxes.

There would surely come a time when we would put our necks in a halter, but my neck in the garrote. We were one day in the room where I taught Donna Inez's brother, he having just gone out. She gave me a reproachful look.

"For heaven's sake, senorita, what is it I have or you be capable, Senora

ADVERTISE IN THE INTELLIGENCER

because the position in which I stood.

"I do. But I love you. Why should we be parted? Fate is very cruel."

"I am glad to this passion I must pay the penalty, and if I pay the penalty you will lose me. There is but one cage for me. We must part."

"Are you willing to take my life?"

"Do you wish me to suffer the pangs you suffer?"

She was silent for a moment, with her eyes cast down.

"I do not wish you to suffer, but I wish you to be willing to suffer on account of your love for me."

Her manner was seeming irresistible in her, as she turned her eyes up to me and then dropped them. I closed a kind of hung loosely by her side and felt a current running from her arm into mine. I could tell what was in her mind. I drew her toward me and kissed her. The next few weeks were the most delightful to me of any period of my life. I was constantly stealing interviews with Donna Inez, knowing all the while that it caught in one of them I would pay for the pleasure with my life. Then there were moments when the abyss on whose brink I stood would appear beneath me in all its terrible reality. But had it not been for these moments would my enjoyment with the girl I loved have been keen? I think not. It was the one that brought out the other.

The fatal day on which our meetings was interrupted by a terrible scare. We heard a step in the adjoining room. Each clung to me, clinging as like one drowning. We heard the same step approaching.

"It's father!" she gasped.

Some minutes passed. Then was no recovery for us. Yet we did not know but that we had been discovered. Finally she said:

"If there has been a false alarm and you will not be torn away from me to-day, I vow that I will never again expose you to such a danger. I forbid you to speak to me of love again."

She insisted till I had promised to obey; then, after a long parting kiss, she left me.

When I saw the president again he showed no trace whatever of having discovered the situation. Inez said I had received a terrible warning; we had both been brought to a realization of our danger and had determined never to expose ourselves to it again. Our resolution lasted forty-eight hours. Then we found ourselves again clasped in an embrace. For two days my desire to caress my love once more had been increasing until the last moment, when not a thousand garrotes could have deterred me.

"Heaven," cried Inez, "we are again in the maelstrom! The pitcher that goes often to the well is at last broken."

"There is but one course for us to pursue," I replied. "If you love me living you must love me dead. I will leave you and at last your love will be mine."

"No," she exclaimed; "it will live forever."

Then suddenly the blood left the cheeks of both of us. Again we heard a step in the adjoining room, the same step we had heard before.

"We are lost!" we both cried in a hoarse whisper.

"Your father has been watching us," I said. "The last time he caught us he was not sure. He has waited for more conclusive evidence. He has caught us a second time. I do not expect ever to see you again after this one last parting."

She swooned in my arms. I carried her to a lounge and laid her on it. I dared not call any one; indeed, I feared that some one would come in and find us there together. She soon opened her eyes, but the moment she remembered what had taken place was about to swoon again, when I spoke reassuring words I did not feel, and she regained control of herself.

I had now not the slightest doubt that Senor Sanches knew of what was going on between me and his daughter and would choose his own time as to fulfilling the conditions he had imposed when I had come into his family.

I was kneeling by Donna Inez striving to convince her to the contrary of what I felt when again the step was heard. This time it was coming directly toward us. Abandoning all hope of keeping our secret longer, we clung to each other and awaited the blow. In another moment Senor Sanches stood in the doorway. He saw his daughter's arms fall from about my neck, limp. She had again passed into unconsciousness.

He rushed toward her and, replacing me, took her in his own arms. When she came to herself he began to reassure her:

"Pardon, little one; pardon! I did not intend to put this strain upon you. I was led to it by a desire to test the strength of love." He took her wrists in his hands and folded her arms about his neck. "When the tutor was about to come to us I saw that he was just such a person as would captivate a young girl's fancy, and I endeavored to ward off such a result, having other plans for you. Then when I saw that love was proving itself stronger than the fear of death I kept my eyes upon you both, not from a desire to spy on you, but to observe the power of the bond that united you. Kiss me, my darling. I promise you I shall not oppose that which even the fear of the garrote cannot subdue."

My neck was encircled, but not by the garrote. A wedding garland was thrown over me and Donna Inez's arms as well. I became a stanch supporter of my father-in-law and fought for him when he was again attacked by revolutionists. He swears by me, calling every one that he does not know how he could get on without me.

MONETTE GUILTY OF ATTEMPTING MURDER

No Defence Offered by His Counsel—Other Trials Stand a Week

MONTREAL, Nov. 9.—Charles Edward Monette, one of the gang of alleged dynamiters here, was found guilty of attempting to murder Conrad Therrien, a chauffeur, on August 3 last.

It took the jury just six months to come to a decision. No defence was offered by the prisoner's counsel. Sentence will be imposed after the trial of the other eleven alleged members of the gang. The cases were adjourned till next Wednesday, when Monette will appear on other charges.

NO CANADIAN NURSE KILLED AT THE FRONT

LONDON, Nov. 9.—"No Canadian nurse has been killed," asserts Miss Macdonald, matron-in-chief, in discussing the Toronto despatch of October 9, which stated that Nursing Sister Francis Elizabeth Lacy, of No. 3 General Hospital at Boulogne, had been killed. The matron also pointed out that nurses do not go into the trenches to attend the wounded, as the despatch suggested, nor is there anyone bearing that name in the service. Our nurses, however, have shown the greatest coolness and fortitude in removing patients to old dugouts or trenches when certain Canadian hospitals behind the lines have been bombed by aeroplanes.

The proclamation which issued on October 13th under the Military Service Act requires that each man who is a member of the First Class—bachelors and widowers without children (not otherwise excepted) who were 20 years old on the 13th October, 1917, and whose 34th birthday did not occur before January 1st, 1917, shall, on or before the

10th day of November, 1917

report himself for military service, unless application for his exemption shall then have been made by him or by any person entitled to apply in his behalf.

What is Required Immediately

Any man in Class One, if it has not already been done, must before the Post Office closes to-morrow night, obtain from the Postmaster a form for reporting for service or a form for claiming exemption, fill out the same, and hand it to the Postmaster for transmission to the proper quarters.

Penalty Provided

The Military Service Act provides that failure to fulfil the above obligation entails a penalty "on summary conviction to imprisonment for any term not exceeding five years with hard labour."

a miracle

That's what Rabbi I.C. Shalit of Edenbridge, Sask., says regarding a cure by Zam-Buk, of which he gives the following particulars:—

"A short 10 ago," said the Rabbi, "a man brought his little son to me, and asked me if I knew of anything that would cure the child of a terrible skin disease, which had troubled him for seven years. The head, eyes and ears were covered with sores, and the poor little fellow suffered so much that he was able to rest for three years. As he was an only child, the father and mother grieved sorely over his unmerited, but not unnatural affliction, and had been treated by many doctors, each of whom had given up the case as incurable. I told the father that I knew of a remedy, Zam-Buk. Having great faith in Zam-Buk, I recommended it, and to-day's visit showed the perseverance of the father. The boy has now completely cured the child."

THE FATHER'S ACCOUNT

The following letter from the fath er of the boy expresses his gratitude: "The Zam-Buk Company, Toronto:

Dear Sirs,—I beg to testify that my boy suffered for three years with a severe skin disease, which developed to eczema, but in vain. The doctors were powerless to help him, and I was told that there was no cure. I, however, was not daunted, and resolved to try Zam-Buk. The result was a complete and permanent cure.

I have since recommended it to many others, and have always found it most successful. Each of whom had given up the case as incurable, but in every instance Zam-Buk has done its work. Having great faith in Zam-Buk, I recommended it, and to-day's visit showed the perseverance of the father. The boy has now completely cured the child."

(Signed) I. C. SHALIT.

Zam-Buk is just as good for scalp sores, ulcerated sores, blood poisoning, piles, abscesses, bad leg, cuts, burns, scalds, chapped hands, and all skin troubles and diseases. Also equally good for cuts, bruises, sprains, and all injuries and accidents. Druggists and stores everywhere sell at 50c. box, or post free from Zam-Buk Co., Toronto, for price.

FREE. Send this coupon, with a penny stamp (to pay postage), and you will receive a free sample box, which will prove what Zam-Buk can do.

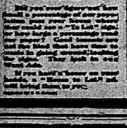
A House on Your Hands

Will your present roof of wood shingles last another year? Or will it be necessary to replace it with a new roof? Better look it over carefully. Better still, let us look it over for you. Then you will know for certain. If it needs repairing, we will tell you how to do it. If it needs replacing, we will tell you what to do. And we will tell you the truth. Send for our free booklet, "A House on Your Hands." It tells you how to make your roof last for years. It tells you how to lay a new roof. It tells you how to save money on roofing. Write for it today.

"Ready Roofing" is "Ready" for you at your dealer's. Ask him for it by name. "Ready Roofing" comes in rolls of 108 square feet, with all nails and cement required for laying. Weight, 50 lbs. Price, $1.50 per roll. Other styles and sizes of "Ready Roofing" at proportionately low prices.



SWINGING A BUSINESS

Modern efficiency in the development of business is manifested in the Canadian Metal Ball Bearing Swinging Door Hanger. It is the only device that will make any door swing on ball bearings. Thus it makes the door easy to open and close. It makes it close automatically. It makes it close noiselessly. It makes it close without slamming. It makes it close without jarring. It makes it close without rattling. It makes it close without banging. It makes it close without shaking. It makes it close without vibrating. It makes it close without trembling. It makes it close without quivering. It makes it close without shivering. It makes it close without shuddering. It makes it close without shaking. It makes it close without vibrating. It makes it close without trembling. It makes it close without quivering. It makes it close without shivering. It makes it close without shuddering.

SELECTIVE DRAFT KNOWN WHEN MOSES FLOURISHED

Names of Males Over 20 Tabulated in Second Year After Exodus From Egypt.

Registration for a selective draft was known thousands of years ago, says the Chicago Tribune. The first chapter of Numbers tells how, more in the second year after the exodus from Egypt was commanded to "take ye the sum" of the various tribes men to tabulate the names of the males over the age of twenty who were able to go to war. The passage, in ppr. follow:

"Take ye the sum of all the congregation of the children of Israel by their families by their fathers' houses, according to the number of the names, every male by their polls, from twenty years of age and upward all that are able to go forth to war: thou and Aaron shall number them by their hosts. And with you there shall be a man of every tribe; each one are mentioned the men who are to assist in the registration.)

"And Moses and Aaron took these men that are mentioned, and they assembled all the congregation together on the first day of the second month, and they declared their pedigrees after their families by their fathers' houses, according to the number of the names from twenty years old and upward."

Nineteen Lives Lost in a Fire.

PATERSON, N.J., Nov. 6.—Eighteen persons have been taken from the ruins of the Salvation Army rescue mission in this city, which was destroyed by fire early to-day. Ten more are in the hospitals with probably fatal injuries and many others are less seriously hurt in escaping from the flames of the burning structure. There were 85 men sleeping in the mission when the flames started in an old frame building adjoining the main structure, used for storing magazines and newspapers.

Rapid spread of the flames made use of the only fire escape on the building impossible, and the ladders many of them old and crippled, were of little help in reaching those who leaped before firemen could catch them in nets.

Worsted By British.

LONDON, Nov. 6.—The Admiralty announced Sunday that a number of vessels had been carried out by the Royal Naval Air Service. The statement says:

"One two-seater enemy machine was brought down in the sea, and another two-seater was driven down damaged, and a scout was probably destroyed.

"A bombing raid also was carried out this evening on the Engel airdrome. Direct hits were seen to fall among the hangars and sheds in the airdrome. Our formation was not attacked by enemy machines, two of which were driven down out of control. All our machines returned safely."

Strike Rich Ore Well.

TIMMINS, Ont., Nov. 6.—A million-foot gusher struck Saturday afternoon near Port Burwell promises to be one of the richest gas wells in the district. It is especially welcome here, as there is not a pound of coal in town.

Philippine Fruits.

There have been found in the Philippines two fruits entirely unknown to science and even to Asiatics. One of these is the durian, which grows on a lofty tree somewhat resembling an elm. It is about as large as a cocoanut, has a shiny shell and contains a white pulp which combines some of the flavors of delicious custard with those of a fine cheese. American soldiers in the Philippines have dubbed the durian the "vegetable limburger." The description is illuminating, indeed, but the exquisitely flavored liquid it contains has not yet been successfully preserved for shipping abroad.

Not the Right Brand.

"I must request the congregation to contribute generously this morning," said the Rev. Mr. Smallpox sadly, "as I stipend is eight months in arrears and my creditors are pressing. I, or couple, would be sorry for love, and love equally, of course, is tender, but it isn't legal tender."

GEN. CADORNA RETIRED FROM ARMY COMMAND

Gen. Diaz Is Made Commander-in-Chief of Italian Army—Badoglio and Grandiso in Second and Third Positions Cadorna for New Allied War Committee

Italian Army Headquarters, Nov. 10.—General Cadorna, who has been in supreme command of the Italian army since the beginning of the war, has been given a place on the new allied war committee.

New heads of the Italian army have been named. General Diaz has been appointed first in command, with General Badoglio second, and General Grandiso third.

General Foch, chief of staff of the French War Ministry, and General Wilson, sub-chief of the British general staff will serve on the inter-allied committee with General Cadorna.

General Diaz is rated as one of the ablest Italian military leaders. He has rendered distinguished service in the present campaign. He is from Southern Italy. General Badoglio is a motherpyer. In the war, he has been in command of a brigade of Bersaglieri, whose heroic deeds have done much to decrease the gravity of the disaster.

Fight is Still in Doubt—Wets Have Small Lead

CINCINNATI, O., Nov. 10.—The wet and dry situation in Ohio early today remained virtually unchanged with the State in doubt as to whether prohibition had carried or not in the election last Tuesday. The wets are quite certain victory because they have maintained a lead of more than 5,000 for the last 18 hours, according to tabulated returns. Leaders of the prohibition forces are making open accusations of fraud.

Canadian Troops Honored in Procession—Much Criticism of Banquet

LONDON, Nov. 10.—To-day is London's great annual municipal festival. For the *first* time in British history Canadian troops will march at the head or swing to the fact that Lord Mayor Hanson and his wife are both Canadians, the former being an ex-Belleville and the latter a native of Delhi, Ont. This has been much emphasized in the welcoming speeches. At the inaugural ceremony the Canadian mounted escort with three officers and one hundred of other ranks, formed a procession through the streets, also a Canadian composite battery.

Some journals comment on the apparent incongruity in the Mayoral feast, while the walls even of the Mansion House are plastered with injunctions to the strictest economy of food. Mr. Bonar Law says that he and Premier Lloyd George accepted on condition that the dinner would strictly observe the Food Controller's regulations. The statement attributed to the civic authorities, however, is that it is ridiculous to suggest that the city's guests should be on rations, also that the banquet is not to be "unduly extravagant."

The Daily Express says: "To Gog and Magog a plate of turtle soup, some filleted sole, half a partridge, a helping of beef, or maybe a slice of game pie, followed by orange jelly, ice and expensive wines, make a snack just sufficient to maintain civic strength."

Lord Rhondda, the Food Controller, is among those invited. If his rations were observed each guest would receive only in ounces: Meat, five; bread, two; flour, one; sugar, three-sevenths.

CADORNA, FOCH, WILSON THE NEW WAR COMMITTEE

Italian Army Headquarters, Nov. 10.—The conference of British, French and Italian representatives held in the creation of a permanent inter-allied military committee. New leadership for the Italian army has been provided. Gen. Cadorna, Italy, Gen. Foch, France, and Gen. Wilson, Britain, have been appointed to the committee.

Among military officers the decision of the allies to create a permanent military committee has caused great satisfaction. It is accepted as evidence that the allies have awakened to the necessity for the closest union of the whole length of the western front for the political and military conduct of the war.

LENINE IS NEW RUSS. PREMIER

(Special to The Intelligencer)

PETROGRAD, Nov. 10.—It is stated that the all-Russian congress of Workmen and Soldier delegates have named a cabinet composed of Bolsheviki and then adjourned. The cabinet is headed by Nikolai Lenine as premier and Leon Trotsky holds the post of foreign minister. The cabinet will serve until the constituent assembly approves it or resigns a new one. The banks in Petrograd reopened today. The city remains quiet.

MAXIMALIST SUCCESS IS ONLY MOMENTARY

PARIS, Nov. 10.—"Those who thought the Russian revolution had been finished made a mistake," said M. Malakhof, the Russian Ambassador, in an interview which appears in the Petit Parisien. "Alas, yet is the blood of our people will flow again in the streets of Petrograd ——

"But, however, all may be the advent to power of the Maximalists, it can be only a momentary success."

CANADIAN POWER FOR BEER SIGNS.

"The Hydro is up against it because the Canadian Niagara Power Company promised a year ago a hair ago, to let the Hydro have 50,000 horsepower and has failed to keep that promise. And at the same time power is being exported to the United States to light beer signs, boulevards and cabarets of Buffalo and other cities. It is time to quit pussyfooting. We should go to Ottawa and demand what we own."—Sir Adam Beck.

FOUR CRIMINAL CASES BEFORE THE ASSIZE

High Court Begins Next week With Important Criminal Cases Including Murder—Three Boys Will be Charged With Wrecking C.N.R. Express

At 1 o'clock on *Monday* the fall Assizes will open in this city before the Hon. Justice Masten. Mr. H. Jones, of Toronto, will be the Crown prosecutor. The Grand *Jury* is composed of the following gentlemen:

Isaac Allum, Deseronto; W. H. Brooks, Madoc; W. H. Cook; Stirling; William Cresswell, Stavely and Grimthorpe; Daniel Hepderson, Wollaston; James Hill, Madoc; Wellington Jones, Thurlow; Jas. McAlpine, Tyendinaga; John F. Milburn, Tyendinaga; Robt. Ramsbottom, Mayo; James P. Tucker, Hungerford; Fred Wells, Thurlow; W. H. Wilkinson, Elzevir and Grimthorpe.

Criminal Cases.

There are four criminal cases to be investigated, and all are of a serious nature. Two are on the calender as murder, but may be reduced to manslaughter.

The cases are:

Rex. vs. Horace Greasy—The accused is charged with killing an aged man named Lapointe at the British Chemical Works, Trenton. The accused was a guard at the works, and it is alleged that Lapointe, who was working at the plant, refused to talk when challenged.

Rex. vs. Rogers—The accused Samuel Rogers is charged with causing the death of James Gallagher, of Marmora township, by striking him over the head with a shovel.

Rex. vs. Evans—This is a charge brought against the accused by his daughter-in-law. The offance is alleged to have been committed near Deseronto.

Rex vs. Wilson and Sanford—The accused are charged with tampering with the C.N.R. express cars at the C. P. R. and C. N. R. near the city and thereby causing a wreck.

Laurier and the "Big Interests"

The opponents of the Union Government hope to defeat that Administration by representing it as'got together for the protection of the Big Interests. This much is to be deduced from Sir Wilfrid Laurier's manifesto and from the daily conversation of his most ardent supporters. The public is to be reminded that the Canadian press, and especially those Liberal newspapers which are supporting Union Government, have been purchased by the Capitalists. The Laurier manifesto contains affecting references to "the common people" and "the masses of the people."

STANDARD OIL TRUST.

Condemned in advance by patriotic public sentiment, the Opposition is bent upon rousing the populace against what it calls the "predatory interests which have so long dominated the nation." This indeed is one of the phrases adopted by the new weekly publication about to be issued under Sir Wilfrid's supervision. If any Canadian politician was ever the bond-servant and obedient agent of the Monied Power that man was and is Sir Wilfrid Laurier. He has ever been a believer in capitalistic domination and the virtues of monopoly. It will not be forgotten that he defended the Standard Oil Trust on the ground that it benefitted the many, even if it brought fabulous fortunes to the few.

GOOD TO PRIVATE CAPITALISTS.

When offered the Booth Railway as an easy means of extending the Intercolonial Railway to the Upper Lakes, Sir Wilfrid allowed that line to fall into the hands of one of the great private transportation companies. He vetoed the nationalization of telegraphs and telephones, upon which Sir William Mulock had set his heart, untilthe present Chief Justice left his Ministerial colleagues. Sir Wilfrid Laurier allowed hundreds of millions of dollars of public cash and credit in providing capitalists with two new transcontinental railways. He told the farmers of the West that if they wanted publicly owned railways they could better wait for someone else. He has ever been, and still is, the outstanding leader of anti-democratic sentiment in this country.

FAVORED QUEBEC BREWERS.

At the instance of Quebec and the powerful brewing and distilling interests of that Province, he refused prohibition legislation after all the English Provinces had voted strongly in favor of such a departure. Sir Wilfrid talked of fair trade and low tariff in opposition. He assured the protected interests that they would not be disturbed if they assisted him to office in 1896. The concessions to freer trade sentiment which he made by the so-called British preference, he largely wiped out by subsequent legislation. The net result of a sixteen years of office upon the tariff policy of the Dominion was so negligible as scarcely to be discernible in the tariff schedules.

SWEETENING IRON FOUNDERS.

Sir Wilfrid Laurier was the man who lavished liberal cash bonuses upon the iron and steel industry. It was owing to his fostering protection and cast that practically all the trusts, combines and capitalistic consolidations now in existence had their birth and begin. So long as he was in power, he was the friend, the backer and politicalbenefactory of the monied men and highly capitalized corporations. In the face of such a long and undeniable record his present campaign should have little prospect of success. It should be remembered that when the Big Interests appeal to the public they procure a crowd of demagogues to delude and mislead their victims. The very fact that Sir Wilfrid Laurier and his supporters now accuse the Union Government of subservience to the capitalistic class is accepted as a reasonable proof that the Opposition is working for the corporations.

Great Meeting In Toronto

Victory Loan Campaign Off to a Good Start With Unlimited Enthusiasm

TORONTO, Nov. 10.—Sir Thomas White, Canada's minister of finance, officially launched the Victory Loan at one of the most enthusiastic meetings ever held in Massey Hall last night, and the sum and substance of his address was "Save and buy Victory bonds." He issued a message of grave importance to Canadians, urged the cutting down of unnecessary expenses, and declared that the foundation of every subject to cut into the war by helping to finance it.

Sir Thomas was supported in his argument by Hon. T. W. McGarry, provincial treasurer, Mayor Church and Stewart Lyon, until recently special correspondent at the front for the Canadian press. Mr. Lyon was given a remarkably hearty reception, which acted practically as a tribute to the men he left a short time ago.

It was a meeting characteristic of a Toronto audience. It augured well for the success of the three weeks' campaign which opens on Monday, and if the spirit displayed can be taken as a prophetic sign Hon. Mr. McGarry's hope that the three issues $150,000,000 will be raised will come true.

Quickly Bagged "New Hun "Terror"

PARIS, Nov. 10.—A description of the German "electrically controlled high speed boat" sunk off the Belgian coast last Monday is at hand.

In general appearance the vessel resembles a racing motorboat, its dimensions also being similar. Its speed is thirty-five knots and it is controlled by the shifting of electric current by wires connecting it with the land.

There is nobody aboard the craft, but a hydro-airplane hovering just above it directs its progress by wireless messages to the shore station. Fear that it was put out of business no one is permitted to say.

The boat was loaded with an explosive, which was supposed to explode when it rammed against a British or a French warship.

British Airmen Attack Infantry

(Special to The Intelligencer)

LONDON, Nov. 10.—An official statement issued today reports much work accomplished by the British airplanes yesterday. Low flying aeroplanes co-operated with infantry raids on German trenches and fired many rounds at bands of infantry, while bombs were dropped on enemy trenches and billets with good results.

Many air flights took place in which twelve hostile machines were downed and six others driven down out of control. Ten British machines are missing.

Million Homeless Refugees In Rome

(Special to The Intelligencer)

ROME, Nov. 10.—To-day's report indicates that the Italian retirement behind the Piave river defence line has been practically accomplished. Countless refugees are arriving from the evacuated territory. It is estimated that there are already a million homeless people in Rome, many in dire need.

Hon. T. S. Sproule Senator, Is Dead

(Special to The Intelligencer)

MARKDALE, Ont., Nov. 10.—Hon. T. S. Sproule, former Speaker of the House of Commons, and afterwards appointed to the Senate, is dead at his home here.

Dr. Sproule was Past Grand Master of the Loyal Orange Association of British America, succeeding Hon. N. Clarke Wallace.

Hamilton Men Found Murdered

Ten From the 129th Battalion Discovered With Their Throats Cut

HAMILTON, Nov. 10.—Word has been received here that the bodies of the following ten men, who enlisted with the 129th Canadian Overseas Battalion, had been found on the Lens front with throats cut: Capt. Alex. Sodeno; Pte. Arthur A. Bland, 624 Spadina avenue, Toronto; Harold Crowe, Alberton; Pte. Stephen Duckhouse, Puslinch; Richard Fenning, Waterdown; Richard Gibson, 1132 Hope street east; Harry Jones, 132 Belmont avenue; W. H. Jones, 333 England street north; N. L. Kirby, Glanford station; Charles F. Kirby, Barnville. They were captured by the Germans, and when the Canadians made a drive they found the bodies.

Monfrealers Are Out Of Breath

MONTREAL, Nov. 10.—Citizens are now tumbling over themselves in an endeavor to comply with the provisions of the Military Service Act. From noon yesterday until noon to-day, 8,564 succeeded in having their forms filed. Of these 119 waived exemption pending their call, and a total of registration in the Montreal district now stands at 40,638, anyhow 80 per cent. of the number who will have to comply with the law before to-night's midnight. Up to noon to-day 1,117 or 17 per cent., of the total number of forms had been filed for service.

It was announced this morning that the claims for exemption would not be heard until Monday.

No Nomination In South Essex

WINDSOR, Nov. 10.—South Essex Liberals failed to unite upon a candidate at a largely attended convention held at Essex yesterday afternoon, and following the casting of the second ballot, which showed more persons voting than there were delegates present, Dr. Beckland of North Gosfield, president of the Liberal Federal Association, and who acted as chairman of the convention, declared the session terminated. The first and seventy-three succeeding ballots showed Hon. Rodolphe Lemieux 97, Graham St. votes, Robert Attin 90 and Thomas Rawley, a farmer of Maidstone township, 89. Ballot No. 9, with Rawley eliminated, showed the remarkable total of 177 votes cast. They were divided: Atkin 89, Graham 88.

RIOTOUS SCENES.

When Chairman Buckland announced the figures there was a wild demonstration, which continued several minutes, during which half a dozen delegates tried to speak at once. Then the violent became the crowd that the convention was promptly declared at an end.

Previous to the voting the three candidates for parliament addressed the Hon. George P. Graham of Brockville, Robert Atkin of Malden township, and Thomas Rawley of Mersea township, addressed the convention.

NEW BRITISH ATTACK ON FLANDERS FRONT

At Sunrise Haig's Men Went "Over the Top" for Another Sledge Hammer Blow at the Huns Who Are Being Driven Out of Belgium

(Special to The Intelligencer)

LONDON, Nov. 10.—The War Office today announces a new British attack on the Flanders front near Passchendaele. The first reports indicate that good progress was made. The weather is stormy with heavy rain and winds.

Today's drive is directed at the enemy's last remaining hold on the Passchendaele ridge.

Called By Death

FREDERICK PALOS

Mr. Frederick Palos, a well known and much respected citizen of Belleville, passed away this morning at the residence of his daughter, Mrs. Wm. Symons, at Bettes Street. Deceased had been ill for some time, and his demise was not unexpected. Mr. Palos was in his 77th year. He was born in Wales, England, came to this country about 50 years ago. He served in the Fenian Raid. Deceased was a stationery engineer by occupation, and a faithful employe for 32 years of the G.T.R. when he received his pension, and has lived retired since. He was a member of Christ Church, and a member of the Oxford Lodge, Sons of England. Mr. Palos had a large circle of friends in this city, who will regret to learn of his demise. A family of four sons and four daughters survive. The sons are, Fred J. Palos, of this city; Thomas W. Palos, of North Pine, Ont.; R. J. Palos, of Buffalo, and Harry Palos of Chicago, Ill. The daughters are Mrs. George Ormand; Mrs. G. R. Brower, Mrs. Wm. Symons and Miss Mabel Palos, all of this city. To the bereaved will be extended the heartfelt sympathy of many friends.

ROBERT BURRIS

Mr. Robt. Burris, who was well known in this city, died last night at the residence of his daughter, Mrs. Robt. Roe, Chatham St. Deceased illness was brief as he was about the city on Thursday apparently in his usual health. Mr. Burris was born in Canada 78 years ago, and had resided here for the past 12 years. He was a member of the Methodist church. Some time ago his wife predeceased him. A family of seven daughters survive. They are Mrs. Robt. Roe, of Belleville, Mrs. W. J. Hamilton, of Windsor, Mrs. Arthur and Fred Dunning, of Brockville; Mrs. J. M. Johnson, of Toronto; Mrs. John Crump, Corbyville, and Mrs. John Wilson, of Niagara Falls.

Cleanse The Large Intestine

Present War Cry of Advanced Physicians.

Some of the leading surgeons of the world have gone so far recently as to remove part of the Large Intestine in cases so serious as that of Tuberculosis and restored the patient to perfect health by so doing.

The New York American has recently said:

"During Constipation the poisons in the Large Intestine often become so great as to form a serious menace to health and even to life. Through the walls of the Intestine they enter the blood and consume the healthy blood cells, impoverishing the blood, and if this process is continued long enough an acute poisoning is produced."

It is impossible under our present day mode of living for the Intestine to rid itself of all waste, and it is easily proven that there is an accumulation, no matter how regular we are.

Drugs, if taken regularly, form a habit, but Internal Bathing by means of the "J. B. L. Cascade" cleanses the Lower Intestine in a entire length with pure warm water and makes it clean, sweet and healthy.

At the same time it regulates the system and makes one feel that every function is working smoothly and naturally—and indeed, this is so.

This letter will convey a message of good cheer to many:

Welland, Ontario,

Dr. Chas. A. Tyrrell,

163 College Street, Toronto, Ont.:

Dear Sir,—We heartily endorse the "J. B. L. Cascade, as we find in our work that a loaded colon means a poisoned system which, in turn, means numerous contractions of the spinal muscles, against which our work is directed.

Anything helping us in gaining relaxation we consider a boon, both to ourselves and our patients.

Most sincerely,

Drs. Harvey and Garland.

Over five hundred thousand men, now enthusiastic users of the "J. B. L. Cascade," which is now being advertised and explained at J. S. McKeown, Druggist, Belleville.

Ask or write now, while you think of it, to Chas. A. Tyrrell, M.D., 163 College street, Toronto, for free and interesting booklet, "Why Man" of To-day Is Only 50 Per Cent. Efficient."

REPORTED WOUNDED

Mr. W. G. Hammett, 5 Albion Street, received word this week that his brother-in-law, Pte. ——— Hammett, 633329, 4th C.M. R., has been wounded in France, on October 26th, and admitted to the Fourteenen Stationary Hospital, Wimereux. He went overseas with the 146th Battalion of Kingston.

KILLED IN ACTION.

Major Ireland of Trenton this week received the following telegram from the Director of Records, Ottawa: "2130 Deeply regret to inform you Captain Alfred Ireland, medical services, officially reported killed in action, October 13th, 1917." The captain, who has given his life for King and country, was well known in this locality and was deservedly popular.

WILL ARRIVE TOO LATE.

The late Mr. Samuel T. Wood, who was buried at Belleville yesterday, has a son in the Royal Flying Corps on active service overseas. This letter he was sent for when it was seen that his father could not recover and secured a leave of absence, but on account of irregular sailings of transatlantic steamships, has not arrived as yet.

STIRRING PATRIOTIC SPEECH .

A feature of the entertainment at Griffin's Theatre last evening was put down on the program. It was an address between acts by Mr. Ernest Longstreth, who took the part of Lord Lonsdale in the play. Mr. Horne strongly urged the purchase of Liberty Bonds as a service to the nation and a good investment. He said that he had but recently left London, England, where he had learned many things about the war in interviews with officers on leave from the front, things which are not published but which if generally known, would, the speaker was sure, cause every eligible young man to rush into khaki and induce the well-to-do to loosen up on their purse strings and contribute their money in Victory Loan bonds in helping to win the war. The terrible atrocities of the heroic Belgium have cast a shadow of dread upon the whole civilized world, and his downfall must be accomplished.

The Markets

There was a large attendance upon the market to-day and much farm and dairy products was offered for sale. Prices were good for all produce sold. There showed a slight decline in prices as did also several chickens. Eggs were no changes to note in prices for grain and other products.

Dangerous Antiseptics and Germicides Are Unnecessary

A dependable antiseptic has come to be considered a necessity in modern homes. Especially is this true since absorbine, J.R., has come into such introduction, because this liniment is at once a powerful antiseptic and germicide but it is absolutely safe and can be used around the house. It is not poisonous and cannot do any harm even if the children do get hold of it. That is why it is so popular.

Absorbine, J.R., is concentrated and therefore economical. It retains its germicidal properties even diluted with 20 parts water, and its antiseptic qualities are not impaired by the addition of 250 parts of water.

The antiseptic and germicidal properties have been carefully tested and proven in many prominent chemical laboratories. Detailed laboratory reports will be sent upon request.

Absorbine, J.R., combines safety with strength and power. It will not discolor skin or postpaid.

Send 10c for liberal trial bottle.

Music and Drama

"MY IRISH CINDERELLA"

A large audience gathered in Griffin's Theatre last evening to greet "My Irish Cinderella," a new Kennedy drama. Judging from the applause and laughter the major portion at least of the audience was pleased with the production which was open to criticism on several counts, but if the audience were satisfied, nothing else really matters. The play is a simple little story with an Irish flavor, a song or two and a jig or two, with vivid contrasts in deep poverty and great riches, a bit of love and a touch as it were—a heaping spoonful of love and jealousy and intrigue. Virtue, of course, triumphed in the end and wedding bells smoothed out all the lovers trials and tribulations. Nuff Said.

OBSEQUIES.

WILLIAM FARNHAM

Many citizens from the city and surrounding country were present this afternoon in attendance at the obsequies of the late Mr. William Farnham, barrister, whose death took place on Sunday. This was an evidence of the esteem in which deceased was held. At the residence of his son-in-law, Mr. Martha Farley, corner Everett and Catherine streets, an impressive service was conducted by the Rev. S. C. Moore, pastor of the Tabernacle church, who also officiated at the interment at Belleville cemetery. A large number of beautiful floral designs were contributed by relatives and friends. During the service at the house, Mrs. Dell sang appropriately a solo, which was feelingly rendered. The bearers were Messrs. Col. Peterkin, K.C., S. C. O'Flynn, W. D. McSharey, F. D. Diamond, A. R. Walker and E. J. Butler.

ONE LIBERAL'S OPINION.

"We differ on a great principle. Sir Wilfrid Laurier stands to-day where he first stood in Parliament when this question came up. He stands to-day in favor of submitting this question to a referendum of the people. I believe that, as we have reached the stage where this is a war of defence, it is the duty of the State in this country to see our men go forward without resorting to a referendum.—Hon. J. A. Calder, at Winnipeg.

THE FIERY CROSS.

Both parties contain strong party men to whom the idea of coalition is not particularly palatable. All their lives they have been fighting each other in political battles until their politics is almost as sacred as their religion. However, the call of country is stronger than the call of party, and the battle flags of party are being furled and laid away temporarily so that all can gather under the national colors and present a united front to a common enemy hungering to gobble up Canada as the spoils of war.

THE LARGER CANADIANISM.

Is Larger now better Liberal than Rowell, Guthrie, Clark, Carvell, Mewburn, Calder, Sifton, Crerar, Brewster, MacLean, Fielding, and other prominent life-long Liberals who have cast aside politics to concentrate their energies in a Win-the-War policy of a non-partizan Union Government? Liberals of the rank and file need have no scruples in following the example of the leading newspapers and most prominent men in the Liberal party unhesitantly endorsing the Union Government. In doing so they sacrifice none of their Liberal principles but will be assisting in laying the foundation of a better and stronger Liberal party than ever after the war is over, should the country again divide on party lines as is extremely probable. One leader does not make a party and he ceases to be a leader when his party cannot follow him.

THE HIDDEN HAND.

The Hidden Hand has almost wrecked Russia and may force that skeleton of a mighty nation from its war, covered with rags and disgrace. The Hidden Hand has almost caused disaster in Italy, and is sowing seeds of rebellion in Ireland, India, and everywhere the soil is at all likely to yield fruit for the Kaiser. The United States has been cursed with the activities of the Hidden Hand which reached even into the innermost recesses of the nation's secret places, sank the Lusitania and destroyed property and lives on land and sea. What the Hidden Hand has done or is doing in Canada is not yet fully revealed, but when it is finally uncovered many things that are hard to explain will be fully revealed. Remember the Hidden Hand is working against the Victory Loan, sending reluctancements to the army in the field and encourages elections and referendums as conducive of delay, which will help the Master Monster, the Kaiser.

COUNTED CHICKENS BEFORE THEY WERE INCUBATED.

It should not be forgotten that Sir Wilfrid Laurier was invited to take part in a coalition government with compulsory military service as the keynote of that government, that he hesitated for several weeks and held repeated conferences with Quebec political leaders before finally declining the offer. The result of the Quebec conferences was violent opposition to the Military Service Act and a forced war-time election, showing clearly that a plot was hatched to open the door of office with a "Bloody Key." The fires of race hatred were vigorously fanned in Quebec to make votes for Laurier and it was expected that the votes of aliens and slackers with a solid Quebec would place Laurier in power at Ottawa with a return of the good old times of easy picking for his faithful compatriots.

Some things were left out of the reckoning which afterwards darkened the rosy dream. Union Government was thought to be impossible with Laurier's opposition, the soldiers' vote was not counted in or the votes of the women folks representing soldiers on the firing line. Then it was never anticipated that the votes of aliens would not be available for Laurier. A number of things went wrong with the made-in-Quebec plan to elect Laurier, and the arrangements are being worse dislocated every day. Candidates have shown that they can place patriotism before politics and lay aside their party clubs when there is a stupendous national task which requires the united effort of every true Canadian to bring to a successful conclusion.

CRISP COMMENT

No doubt they will change the marriage service to read: "Will you take this voter to be your wedded wife?"

Conservative spouses who are united to Grit husbands will kindly kill his vote. Liberal wives joined to Tory hubbies will kindly stay at home.

There isn't much Turkish delight kicking around the Kut-el-Amara region just now.

The young man who wants exemption from military service ought to ponder the fact that there are several thousand young men who, after three years' service, want furlough so that they can visit home for a month and go back again, says the Toronto Star.

Mayor Martin of Montreal says the United States will get Quebec after the war as a reward. But would the United States regard it as a reward or a punishment? asks the Mail and Empire.

Well, Sir Wilfrid Laurier, whose business head predicted and political tongue promised that the National Transcontinental Railway would cost thirteen millions, but which has cost one hundred and fifty millions, declares with the same head and the same tongue that the C.N.R. is worth nothing.

Hon. Charles Cross of Alberta predicts that Laurier will carry at least half of the seats in the prairie provinces, not less than 60 of the 65 Quebec seats, and will command a safe working majority in the next Parliament. Hon. Charles Cross, who is an enemy of Union Government, is probably right about Quebec, says the Ottawa Journal.

If there is truth in that Wall Street report that the C.P.R. offered $15,000,000 for the stock of the C.N.R. the assertion that the stock is worthless and the government did wrong in appointing a board of arbitration to ascertain its value, must be something of an exaggeration, says the Hamilton Herald.

What will the boys do now? The Charlie Chaplin mustache must go—it is forbidden in the army, in an order issued from Canadian headquarters in England. The order is as follows:—"The attention of officers and other ranks is drawn to the fashion which is becoming prevalent of reducing the mustache to a few hairs on the upper lip. It being now optional whether the upper lip be shaved or not by officers and men, it must be understood that if a mustache is worn no portion of the upper lip shall be shaved. This order is to be strictly and literally obeyed."

Now comes the open season for letters in the press from "The People," "Disgusted Tory," "Citizen," "Patriot," "One Who Knows," "Vox Populi," "Life Long Liberal," and many other nameless wraiths of a dead but not forgotten past. Opinions of unknowns, however great and important they may deem themselves, carry little weight with the general public who are not interested in the ideas of people who try to influence public opinion behind the mask of a nom-de-plume. If an opinion is worth publishing it is worth backing up with the identity of the writer and made stronger or weaker by the personality of the writer.

"HE LOVED THE SILENT PLACES"

Beneath spreading trees on a grassy slope where the blue waters of the Bay of Quinte ever sing a soft requiem was laid to rest yesterday afternoon in the bright sunshine of a beautiful Canadian November day all that was mortal of one who although spending his life amid the clang and clamor of the busy city, loved the solitude and the silent places and was a friend of all the winged and furry creatures who make their home in the forests and out-of-the-way places of earth. Mr. Samuel T. Wood enjoyed life while he lived for his was the vision which was not restricted by chronological barriers but was wide and all-embracing of the many delights of nature which so few take the trouble to learn anything about. As a friend at the graveside said truly, "He loved the silent places, he will be quiet here."

The funeral party left Toronto yesterday morning, the body being accompanied by Messrs. Samuel, F. Wood, Jr., son of deceased; William Wood, brother; Hector Prentice, close friend; and Stewart Lyon, managing editor of the Toronto Globe, friend and business associate of the late Mr. Wood, for the past thirty years.

At the railway station several old Belleville friends of Mr. Wood joined the funeral party, which proceeded at once to Belleville cemetery, where Rev. Archdeacon Beamish conducted services, brief, simple and beautiful, in keeping with the great heart and quiet nature of him who is sleeping his last sleep where he played as a boy.

Poet's Corner

THE BOYS' ROOM.

By Louise Morey Bowman

The sunshine was spattering over the floor
In a frolic of golden rain,
And the little green leaves were whispering
And tapping outside the pane.
There were their college banners and posters,
And, hung on the plain gray wall,
Stood bats, shining and tall,
Waiting there for his vision,
In the dream-filled days of yore.

But now they have seen a vision,
And shall [illegible] no more!
Through the open door
Beautiful are of the brave little
[illegible]-eyed mother,
And though she smiled on the threshold,
In her eyes the big tears gleamed,
"It's not just such a happy dream!
We've always dreamed
That little grandchildren might come some day,
And get out the old toys and romp and play
Just as they used to. But now, you know,
There is something greater than that, and she
Sometimes one almost grows afraid to dream!
"Free writes, 'You taught us to "Fall on the gleam",
With our old Galahad there on the wall.
Come up, mother. This life's not all."
Think of Fred—our joker—writing that. Well,
We must go down to lunch, dear, by ourself."

And so we silently closed the door,
And we left the room as it was before,
With the sunshine spattering over the floor
In a frolic of golden rain,
And the little green leaves a-whispering
And tapping outside the pane.

But now when we talk of the war, I see
Above the horrible, death-filled fray
That rises before me, "the boys"
A vision whose beauty shall never pale
A fragile that still guards the Holy Grail,

A THOUGHTFUL ACT.

The pupils of Queen Alexandra school a collection of articles for the school a selection of articles for the filling of boxes for pupils of that school who are on active service overseas. Last evening a number of ladies assembled at the school and packed the boxes, which were to-day mailed to the brave young boys. The remembrance on the part of the scholars will be much appreciated by the recipients.

HEALTHIEST ONE IN THE FAMILY

He Signs Of Despair And Kidney Trouble Show Today—"FRUIT-A-TIVES"

MYTIE WARREN

Rest Robinson, Ont., July 8th, 1916.

"We have used "Fruit-a-tives" in our house for over three years and have found them a good medicine. *Our little girl, Hattie, was troubled with Kidney Disease.* The Doctor said she could not live, as both Kidneys were sick and body was all swollen and we began to think she would not live. Finally, we decided to try "Fruit-a-tives" and *began to show improvement after we had given her a few doses.* In a short time, her swelling had all gone down and her flesh began to look more natural. Now she is the *healthiest one in the family* and has no signs of the old ailment. We can not say too much for "Fruit-a-tives" and would never be without them".

ONE MILLION DOLLARS FROM HASTINGS COUNTY

Victory Loan Publicity Committee Well Organized to Spread the Glad News of Victory Bonds Throughout the Country Opening of the Campaign Will be Ushered in With Noise and Enthusiasm

Last night in the Victory Loan Headquarters the members of the Hastings County Victory Loan Publicity Committee met to organize for the purpose of keeping the people of this county alive to the necessity of subscribing for Victory Loans, and of seeing that the other fellow does likewise, and then, more and more and more yet. No let up will occur until Hastings county has passed its objective, $900,000.00, and goes to the million mark. The committee was divided up into sub-committees, which will cover every branch of the publicity.

Hastings County is the largest county in area, in the Province of Ontario, and every inch of this county will be covered by the activities of the Publicity Committee. Public meetings will be held, posters displayed, banners flown, literature distributed so that no home in the county will be in ignorance of its country's call for financial assistance. Every child in the schools and every workman will know the details of the Loan so that they can go home and explain it all to their parents. No form of publicity will be neglected. In fact the enthusiasm, up to fever heat, and this was explained carefully to the assembled members, and their duties assigned to them, so that there will be no confusion when the campaign begins, and that there will be no overlapping of effort and energy.

On Monday evening at 7.30, all the street lights in the city will be turned off for five minutes, this will give the citizens time to think of where to go to have light and for the attendance of the Victory Loan and sight o'clock should see the City Hall packed to the doors, to hear the speakers who will be there for the purpose of explaining the Victory Loan, and others who will entertain. The audience will receive with the names of these artists and speakers will be found in another column.

At 9 o'clock on Monday morning all whistles will be blown; the church bells rung and every form of noise imaginable will proclaim to the people of Belleville that the campaign for One Million Dollars will commence in Hastings County.

Below is a full list of the members of the Publicity Committee and their various forms of activity:

Make It An Over-Subscription

BY ARCHBISHOP McNEIL

Men, money, munitions—these are strictly the sinews of war. Not all of us can aid King and Country by going to the front or by working in munition factories; but all, both men and women, can and should aid by lending money to the Government for war purposes. The Victory Loan is being placed before the people for subscription in large or small sums, and it is our patriotic duty to see that the Victory Loan is over-subscribed. Anyone who allows the desire for unnecessary luxuries to stand in the way of buying a Government Victory Loan Bond is deficient in patriotism.

The future of Canada is involved in these Government Loans. One of the serious drawbacks of Canada in the past has been the fact that it was entirely a debtor country. We derived no public revenues from investments in other countries, and a large percentage of the revenues raised by taxation went abroad in payments of interest. The war has given us the opportunity to reverse the process. We now lend money to England and spend it in Canada in the manufacture of munitions. This money will be refunded to Canada with interest. Of course, Canada must use a large part of the loans from the people to finance the Canadian Expeditionary Forces; but it we all spend really thrifty in our personal expenses and lost to the Government what can thus be saved, Canada would not suffer seriously during the financial reaction and adjustments after the war.

The Birds Will Miss Him

(TO SAMUEL T. WOOD.)

The birds will miss him when they come again;
He was the first to greet them, for he knew
Their every whim in sunshine and in rain,
And noted all the little things they do
He loved their verdurous haunts by wood and stream.
'Twas his delight to take them unaware,
Or mike upon them, and with mind adream
Worship the God who thought of things so fair.

The birds will miss him—nay, for with the spring
He shall awaken and go out once more,
His way no death that calls for sorrowing;
His spirit shall go wandering as of yore
Beside the streams or in the songful woods,
The genius of his native solitudes.

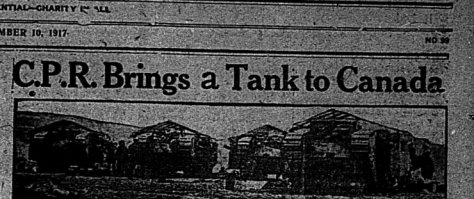
C.P.R. Brings a Tank to Canada



(1) British "Tanks" moving for a charge on German trenches. (2) The "Tank" is equally at home on the level or climbing hills. (3) The side that faces the foe. The shells are pourred from the opening on the right.

—Photos by Central News.

EVERY one remembers the sensation produced on the battlefront in Flanders by the appearance of the land-battleships familiarly known as "Tanks." Through the efforts of Lord Shaughnessy of the C.P.R., who undertook to cover the heavy expense of transport, the British Government has agreed to send one of the "Tanks" to Montreal to take part in a great parade for the Victory Loan. This is due to the urgent need for this "Tank" elsewhere, its play in this country cannot be for long, so that Montreal will be the only city in Canada to have the privilege of seeing this wonderful weapon of war. It carries six machine guns, and will be manned by a crew of gunners, 9 of whom have been wounded in actual "Tank" service at the front. The Tank will be manned and guarded night and day by his own crew, who will be assisted by a large number of C.P.R. police.

King George, while recently in Flanders, rode with the Prince of Wales in a "Tank" almost identical with the one coming to Montreal. The strain of riding in a "Tank" under action is so terrific that after one day each man gets a week's leave to recuperate his nerves. Such, however, is the competition among volunteers to ride in the "Tank" that there is a large waiting list of men who have put down their names for the privilege of fighting the Hun in this way. It will be noted from the picture on illustration that the shield of the machine gun is just like a bullet proofshield, but no human eye was ever more watchful than that of the man behind the gun.

THE SAVING PATRIOT

FATHER:—Hmph! That old suit's good for still another year, dog-gu it! With the money I save on that—and ginger ale—I'll buy another of those Victory Bonds—reeally—dog-gu it!

Daily Progress Of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

Sir Robert Borden will go down to Halifax over the week-end to be present at the Unionist convention in that city at the beginning of next week. The Prime Minister will likely be the unanimous choice of Liberals and Conservatives as one of the Unionist candidates for Halifax City. If he is opposed his opponent will be a straight Liberal, anti-conscriptionist. The suggestion that the Prime Minister would contest Ottawa against Sir Wilfrid Laurier is not credited in Government circles and, in fact, has never been seriously considered. Mr. Fripp, it is understood, is perfectly willing to make way for the Government leader, but Sir Robert so far as can be learned, has no intention of abandoning Halifax.

SEATS FOR SINNERS

The members of the union government who are engaged in straightening out the kinks in Ontario, and getting seats for unionist Liberals are getting forward with the work. Mr. Rowell will find a seat without trouble. A seat has been found for Hon. George P. Graham. It is believed that the opposition to Fred Pardee in Lambton will die down. There is still a tangle in one of the Brants, whether Cockshutt or Lloyd Harris is to have the official benediction, but perhaps this Brant will go to Mr. Rowell.

Among the problems still unsolved is the effort Mr. German in Welland and Mr. McCoig in Kent are making as unionist candidates. Mr. Charlton in Norfolk has practically been recognized. There is also a strong probability of Mr. Carey, the Labor candidate in South Toronto, not being opposed by a unionist.

Evanturel, Political Maverick

The young Liberals of Cornwall held a largely attended meeting in the town hall as a preliminary step to organizing a young Liberal club in the constituency. Alex. Smith, Ottawa; Louis J. Kehoe, president of the Ottawa Liberal Association, and A. W. McIntyre, Liberal Federal candidate for Dundas, were to have been present to address the meeting, but for various reasons they were not present. The speakers included Gustave Evanturel, M.L.A., Prescott County; who spoke in English and French; Col. Robert Smith, K.C., ex-M.P.; C. H. Cline, John A. Campbell of Ormond, who contested Dundas Liberal in the last provincial election; G. I. Gogo, Liberal candidate in Stormont in the last contest; J. W. McLeod, who was the Liberal standard-bearer in the provincial election, and George A. Stiles, who acted as chairman.

Sir Wilfrid Laurier was eulogical by each speaker, and his manifesto of Monday was referred to by complimentary terms, particularly by Mr. Evanturel, and his generally policy was endorsed.

W. D. Gregory, Independent Liberal, is endorsed by Reform Association of Halton County as candidate. The association refuses to consider fusion-ist.

Sir Wilfrid Laurier Then and Now

In 1914 in Parliament.—Sir Wilfrid Laurier moved, seconded by Mr. Pugsley:

"That no said bill be not now read a third time, but that it be resolved that under existing circumstances no assistance should be given to the Canadian Northern Railway Company unless at the same time it is provided that the Government have power within a reasonable time, to acquire the entire stock of the company at a price to be fixed by arbitration, but not to exceed thirty million dollars."—Hansard page 4634.

In 1917 (on eve of election)—"One feature of the act of the last session is that the Government becomes the owner of the stock of the company, of the nominal value of sixty million dollars. There never was a dollar paid on that stock. Experts employed by the Government to appraise the value of the whole enterprise, men of acknowledged ability and experience, themselves have reported that the stock of the company has no value whatever.

"Yet the Government has taken authority to appoint a board of arbitrators to give a value to that property, which their experts have declared absolutely without value."—Sir Wilfrid Laurier's manifesto.

In 1914 Laurier wanted to take over the road by arbitration, and was willing to pay as high as $30,000,000 for the stock. In 1917, on the eve of an election, he opposes arbitration and says the stock has no value at all. If the stock was worth $30,000,000 in 1914, why has it not got some value in 1917? And if it was not worth anything in 1914, why did Sir Wilfrid Laurier give it a possible value of $30,000,000?

Is this striking inconsistency the measure of the honesty and sincerity of Laurier's manifesto "to the Canadian people?"

Life is Scarcely Worth While When the Liver Goes Wrong

Clergyman Had Bilious Attacks for Four Years Now Entirely Cured

If may be putting it too strongly to say that "everything depends on the liver." And yet this is not far astray when you consider what a host of human ills have their beginning in a sluggish, torpid condition of this filtering organ.

You arise in the morning with the tongue coated, a bitter taste in the mouth, and the head aching. You find that you have dizzy spells and are bilious, with loose ness and constipation of the bowels alternating.

Your appetite becomes fickle and what you do eat does not digest properly, and you suffer accordingly. Gases from the fermenting food crowd about the heart, and cause smothering feelings and blinding spells.

As the biliousness hangs on the complexion becomes sallow and muddy, and dark rings form around the eyes. The whole system is poisoned, the kidneys are overworked in an effort to cleanse the blood, and when they fail such ailments as rheumatism, dropsical swellings and Bright's disease have their beginning.

To prevent this chain of troubles it is necessary to keep the liver active by the use of such treatment as Dr. Chase's Kidney-Liver Pills.

The phenomenal success of this medicine is due to the unique combined action which it exerts on the liver, kidneys and bowels.

The liver is aroused, the kidneys are invigorated, the bowels are regulated, and the whole filtering and excretory system is thoroughly cleansed. Pains and aches disappear with the poisons. Digestion improves, and you soon find yourself feeling fine. This letter from Rev. George Alton will interest you.

Rev. George Alton, Gananoque, Ont., writes: "I had been troubled for years with bilious attacks for four years. I was very weak, had headaches, and my stomach was so bad that I could hardly eat anything without being troubled after. I had tried many cures, herbs, pills and salts, and used to suffer the doctor's care for some time, but instead of getting better, I seemed to get weaker. I was unable to follow my appointments on Sabbath, and had to secure help. I used to take dizzy spells and could not walk across the floor straight. I had almost given up all hope, and my wife said that if I did not get better we would have to quit the work of the ministry. However, on looking over The British Whig, the well-known Kingston paper, I saw Dr. Chase's advertisements in it, and read how Dr. Chase's Kidney-Liver Pills cured others who were troubled as I was. I resolved to give these Pills a trial, and I must say that in a short time I obtained relief. I continued taking them for some time, and now I am able to resume my work again. From the benefit I have obtained from these pills, I would recommend them to all who suffer as I did."

Rev. C. Cunningham, 124 First avenue, Toronto: "This is to certify that I am personally acquainted with Rev. George Alton of Gananoque, and believe his statement with reference to Dr. Chase's Kidney-Liver Pills to be true and correct."

Fielding Called Comic.

MONTREAL, Nov. 9.—Le Devoir, speaking of the abandonment of Sir Wilfrid Laurier by Mr. Fielding, says that the "desertions" still continue. It says: Mr. Fielding is but a name and a souvenir. It is a name and a souvenir that the coalition champions will use with a great deal of timidity. It is indeed pathetic to see the former Finance Minister invoked in order to justify this rallying on the part of the Nova Scotia Liberals this fear of isolation, which forged his co-partisans of Quebec to so many sacrifices."

La Presse also refers to the threat of isolation and says: "the Orange men of Ontario who dream of disremembering this Province in order to divide up the fragments with the other Provinces of the Dominion evidently harbor a dream that can never be realized."

A Singular Advertisement

It Led to a Curious Result.

By RYLAND BELL.

I shall never forget the singular incident which made me as it is, I consider, for the purpose of this story, a fine thing to type's in having. That I would never had taught when I had left off. I have never forgotten the resolution. Being penniless, and there was not a great advantage to me, teaching me that all I had learned was going to prove worthless, I had only begun to understand that it I lived a thousand years it would be the same with it.

If there was any one country that seemed to meet of all it was India, which I had always had a great love people. Like other semi-civilized races, there was the gap in their ruin, while their narrow scope has led them into correspondingly restricted investigations. Their marvelous civilization has produced in the way of assistance to the live they have brought forth for death. We have discovered a number of sanitaries; they have discovered a number of sanitaries. Like other semi-civilized races, there was the gap in their ruin, while their narrow scope has led them into correspondingly restricted investigations. Their marvelous civilization has produced in the way of assistance to the live they have brought forth for death. We have discovered a number of sanitaries; they have discovered a number of sanitaries.

I called it India I joined through a friend admission to the pater of the rajah. He seemed do take a fancy to me, and became be found. He was a good fellow. I said nothing except to get my foot into channels that would lead to the rajah. I had no idea my proposals. I was pleased when I found that he was willing to accept my terms, instructions, and them.

I confess I was surprised to learn of the various assistance that will profitable use the knowledge the in these have described handling them.

I interested in the flower to the rajah. I found that the rajah was a poison, taking increased doses of which one may become impregnated to it, and I would be poisoned by others. But my suspicion was chiefly founded on the fact of poison the rajah used which left no trace.

Why was I especially interested in a matter? Because I expected to spend my life in a land where there are always always be, murder and suicide. I knew that as a medical practitioner I would be constantly called upon to give evidence in "murder by poison," meant a great deal to those cases. I expected to have anything to do with such cases, but I was not occurred to me that it a knowledge of the subject would be taken in the Chaldean instrument of murders and suicides.

I did not like poisons with me a sample of the rajah's tracasse poison. In India I was not likely to use it for myself. I did not even care whether or not there was such a thing as a tracasse poison. But my return to England I began some experiments concerning the poisons which had been taken in preparing it by various persons. I took the precaution to notify the chief of police in Delhi to what I was at, for my intended experiments, and he was much interested in them. Then I wrote to an advertising agent, inquiring for a physician whose "sands of life had nearly run out," and to whom a course of life investigating the various aids and causes to human life had succeeded in discovering a poison, the best for the times. He had concocted a powder which, if placed where it could be distributed by vermin, would destroy them, leaving no odor or other disagreeable consequences.

I was well aware that those who would subscribe for my powder would do so for other purposes than killing vermin. My advertisement had appeared in Tuesday. I received a large number of applications for it. Nearly all of the replies were so worded as to conceal the identity of the writers. Some of them gave directions as to sending the powder which were evidently calculated to cover its route to its receiver.

After accumulating a number of replies to my advertisement I took them to the chief of police, who promised to be able to tell what each writer intended to do with the poison. But this was a simple matter, because nearly all of not the intention was legitimate could be directed to the writer took care to conceal his or her identity. The chief desired to investigate a few applications, and I gave them to him. I was not interested in the criminal side of the matter and never took the trouble to ask him for results. I devoted myself to the investigation of those from persons who seemed to me to desserving themselves, for in such cases I might save some one whose mind had become disturbed either by mental or physical suffering.

I received one advertisement that I regarded over a great deal. The writer was a woman, and from certain expressions in her letter I judged that she was young. The chirography, the language used, the evidence in her methods of expressing herself, indicated that she was a lady. Even the paper on which she wrote bore a sweet. There were but three possible reasons why any one would want my powder—murder, suicide and for the extermination of vermin. The writer of this one would not leap out of it a thing of melancholy; therefore I argued that she wished it for the purposes of suicide.

I did not get all this information from her reply to my advertisement

Fine Martin Pleased.

VANCOUVER, Nov. 9.—Joseph Martin is stating that for business reasons he could not seek a place in I drew the applicant into a correspondence on the subject by telling her that I had a powder which I thought might suit her purpose, but that before I would sell anything myself that the person receiving it had no intention of injuring any one with it. She wrote me in reply to this that she had not an enemy in the world, and that the powder was not to be plied then hated. This satisfaction induced her purchase.

Pretending to be satisfied that she did not wish the powder for any the purposes I named, I wrote her that if she would let me know where it would be used I would take it to her. She made an appointment for a certain day at a certain hour. I was to meet her at a house on a certain street, and with one she should admit me unheard of. I was to remain there until I should know her by a rose she would carry in her hand.

If I had needed anything to convince me of the ruleasness of the lady this method by which I might identify her would fully have done it. I was to be a dead liar, while for had no intention of injuring her or any other person but herself, she did not wish it to fall into other hands, lest it might do damage.

I called at the exact time specified. I found a domicile that could be the home of a person of the better class only. I rang the bell, and in a few moments the door was opened.

I often revert to the moment I first looked on the face and figure which then were before me—a girl not over seventeen, a slender figure, a face of every feature of which was as perfect, it seemed to me, as could be made, and but withal tinged with a distressing melancholy. She held a rose in one hand and carried the basket in the other. I was supposed to have brought her. And I was. She was a young man of the appearance of one of her own class she seemed surprised.

"May I ask to come in for a few moments?" I asked, "I need to give you some directions as to the use of the powder."

She closed the door and led me to a little reception room beside it. I do not not ask me to be seated, evidently desiring to secure what I had agreed to bring and then be rid of me. Nevertheless I looked at a chair and said nothing till she indicated that I might me it, and she sank into one herself. Then I said:

"Perhaps you inferred from my advertising that I am a quack, but I assure you I have studied medicine in the first class medical colleges. After graduating I went to India, where I procured the drug of which I have been writing you. Its effect depends on the quantity taken, just as a cup of coffee will keep one awake or a dose of it will produce sleep. I have not the least objection to your using the powder for the purpose you have described, but I must be satisfied that the person receiving it has

SUDDEN DEATH IN RAWDON.

Mrs. Thomas Williams, of Rawdon township, died very suddenly on Tuesday of this week. She was around the house as usual and sat down for a few minutes, when suddenly she fell forward and before anyone could reach her had expired. Besides her husband she leaves a family of eight children, the oldest seventeen years of age and the youngest not yet two. Her mother died in May of the year and a brother Herbert Spry died suddenly in March last.

APPOINTED CHAPLAIN

D. V. Ketcheson, Deputy Mayor Ketcheson of Belleville, who was wounded in action at the front and Lieut. Richard Ellacharged, will act in his stead.

NOTED NEWSPAPERMAN

Mr. Stewart Lyon, managing editor of the Toronto Globe, who arrived in Canada last week after spending nearly a year in the war zone with Canadian army as representative of the Canadian Press, Limited, was in the city yesterday for a few hours, attending the funeral of his friend and business associate, Mr. Samuel T. Wood. Mr. Lyon secured a "close-up" view of the war in his capacity of Canadian Press correspondent and sketched many interesting stories to the press on this side of the ocean. He also learned many things which have not been published about the war and he, it was, who although editor of the foremost Liberal newspaper in Canada, cabled a stern warning against Laurier's policy of referendum on reinforcements as un-Canadian and unwise. Mr. Lyon was obliged to take the next train back to Toronto, as he was the principal speaker last night at the great Victory Loan meeting in Massey Hall.

THE HONOR MAN

How He Made Good.

By VINIE E. ROE

Copyright, Frank A. Munsey Co.

The great, pine shaggy shoulders of the Cascades reared against the turquoise summer sky. Far down below, in the valley, the tall spires of the Rogue river fought in their wild hot, and their power rose to the mountain crests.

Halfway between the two extremes of a fold among the hills a small camp grades along the giant hills.

Along the river, for a matter of a mile, were scattered little groups of men still at work upon it. They were overseers, and straw bosses, and there was nothing in their appearance to differentiate them from other men, yet they were convicts.

Further on the pine shanties and tents of the honor camp straggled along the road, hugging it close by reason of the steepness of the hills.

Here and there, in a space where the life of the camp centered. There was also a log building, anywhere, and McConnel, the superintendent, went about unarmed as far as any one knew.

A quarter mile from the camp, just off the road, stood a single man work-ed alone with pick and shovel deepening a wash from a culvert pipe.

He was about thirty, dark, grim and haired, though the short curls at his temples were dusted with gray. His name was Hall, and he was serving a ten-ton of football and the track meet in the middle of his height.

He looked out of place as he labored, stopping from time to time to wipe the sweat from his eyes. Occasionally he glanced up swiftly to the river below.

"Heavens," he said aloud—"the good green earth!"

Presently, as he worked, holding his eyes to the prosaic task under his hand, with an effort, a girl came along, around the road on the road above him.

"Hello, Impostor!" she called in a strong contralto voice that carried splendidly in the clear air.

He straightened and looked up with a smile.

"Can on your life!" he said. "Haven't I told you I'm where I belong?"

"Rot!" said the girl shortly, and, sitting down on the hill, she flopped her length to the sloping surface a little above him, where she sat down, drew up her knees, clasped them with her arms and smiled at him with clear, ironically gray eyes.

"You're an impostor. You're not one of the boys at heart."

"Never had occasion to get that blunt speaking out of the vanity shimmed by Miss Ethel Shane," he replied with asperity.

She shook her brown head.

"I keep you here, Jim, simply, from a criminal."

He smiled a little grimly.

"Not in this case," he said. "You don't know what's in my heart."

She did not speak, but under her breath she said to herself sharply:

"Try I don't!"

She was McConnel's daughter, and her parole was more important than its governor in the Manor.

"I might be meditating escape right now," he said, flicking his eyes upward and her face as he saw that he interrupted work again.

"It's a mighty good—a mighty call—that of the open woods and the streams."

He stopped again and looked downover the whispering pine tops to the glinting river.

"To you more than to those others," she said, nodding her head toward the shanty where the other trusties and guards grouped, "and a common man might answer it. You are of better fiber."

They both fell silent, while the river roared and the little winds played in the pine tops.

He did not look up again, and she watched his bread shoulders and His dark head as he labored with the motion of the pick for a long time.

Her gray eyes were speculative and very thoughtful, while a little line of trouble drew in around her lips. Presently she shifted her position a little. As she did so a tiny stone under her foot became dislodged, starting to roll down the steep incline. Watching idly she saw it suddenly disappear in a narrow crack in the natural rock of the hillside.

A moment later there came a sharp cry from the hillside, a thud that penetrated with a strangely hollow sound.

The man did not seem to notice it and looked up at last to see other trusties to go on her way.

"Goodby," he said gaily, but she did not speak.

At supper time the men came straggling down from their work and hungrily, ere singing, a pathetic file in the high fierce shadow of the mountains, and crossing the road to the mess hall.

The one girl hung upon the outskirts of the crowd, busy at some task, but secretly watching for the figure that was not like the others.

And she knew—long before her father's step at the cook shack door and checked their progress—that Hall was dead in to the evening meal—she knew. She did not need the whisper that left the girl's cold, the repetition of his name, his iteration, the glances of in-

PANNIE WARD AS THE PRIMA DONNA.

One evening in the theatre and screen, Fannie Ward, will be seen at the Palace this half of next week in "Her Strange Wedding."

Fannie Ward has proved herself to be the most versatile of the season's feminine artists, starting into the boards in the parts so she did by her wonderful performance in "The Cheat," where she has always remained. In her recent production, "The School for Husbands" she showed her wonderful cleverness as a comedienne, and still more recently she had an opportunity to run the full scale of the emotions in "Unconquered." In "Her Strange Wedding," Miss Ward is given a drama of unusual interest and appeal.

The cast supporting Miss Ward is one of unusual excellence, including such well known players as Jack Dean, Tom Forman and Billy Elmer.

The latest chapter of "The Gray Ghost" series and a new comedy will also be screened.

"THE WHIP"

"The Whip" the supreme offering of Gladstone is to play a return engagement by popular request at Griffin's this Monday and Wednesday nights. Its charm, delight and thrill the patrons of this popular playhouse with its thrilling story, its splendid characterizations, its truly wonderful photography and its sensationally impressive scenic effects. "The Whip," is easily the world's biggest motion picture, one scene alone, that of the great train wreck, was staged at an enormous expense merely for this offering. And it is the biggest and best train wreck yet seen in motion pictures. An automobile race and wreck that is so vivid as to hold the spectator's gasping, is another big feature. But, of course, the biggest feature of all the tremendous scenic and events in the production is the horse race.

The Mutual News Weekly with its breezy review of all the latest important news events, and two other selected photoplays will also be screened.

"THE ONLY GIRL"

Of all those writing for the musical comedy stage to-day none have given more pleasure to audiences than Victor Herbert and Henry Blossom, particularly so, when they write together. In the broad sense of its meaning, the ascendency of Blossom and Herbert can be dated to the time when they wrote "The Red Mill," for Montgomery and Stone, although they both had written many excellent plays of a similarly light and gay quality in the preceding ten years. Following the musical play came the bright and fascinating airs, ducts, waltzes, quartettes, etc., of "Mlle Modiste" and "The Prima Donna," both sung by Mlle Fritzi Scheff.

After several years apart, it was by some good chance that they were brought together again last year, when they collaborated on "The Only Girl," the delightful musical comedy success to be seen at Griffin's Opera House this Tuesday night.

In The Clover Field Together.

Hon. J. D. Hazen and Hon. William Pugsley enter the clover field together. The same press despatch announces that Mr. Hazen is made chief justice of New Brunswick and Mr. Pugsley, lieutenant-governor. Not only are they appointed on the same day but by the same government. For years these two gentlemen have been pitted against each other, first in the provincial and then in the federal field. Mr. Pugsley was the directing force in the Tweedie and Robinson regime and was leader of the opposition in the New Brunswick Legislature. Mr. Pugsley got out just in time to join the Laurier Government at Ottawa before Mr. Hazen carried the Conservative banner to victory in 1908, but in 1911 Mr. Hazen left the provincial field and came to Ottawa as minister of marine and fisheries. Here he found Mr. Pugsley as the most redoubtable warrior on the side of the opposition, and no session passed without fierce clashes between them. Both, by the way, represented the City of St. John.

It was said that they were really good friends in private life in spite of the ferocious way in which they sprang at each other on every opportunity in parliamentary debate. No doubt they can meet in amity even in so small a capital as Fredericton. But the sight of Hon. James Douglas Hazen officiating as Justice of New Brunswick, swearing in Hon. William Pugsley as lieutenant-governor while both proclaiming the same premier and national government will cause many an old New Brunswicker to sit up in his arm chair and chew on the supposition that the world at last has come to an end.

Opposition for Frank Cochrane.

That a number of Laurier candidates will be in the field in Ontario seems almost certain. The Liberals of Cochrane, Ont., have elected delegates to the coming Liberal convention for the riding of Timiskaming pledged to support the leadership of Sir Wilfrid Laurier. The convention meets at New Liskeard to-morrow, and will probably place a Laurier Liberal candidate in the field against Hon. Frank Cochrane. A gentleman just in from Cobalt assures The World that quite a lively contest is expected.

New Labor Party.

MONTREAL, Nov. 8.—With the approval of the Trades and Labor Congress of Canada, the projected third party was organized in the Labor Temple in this city by a convention of nearly two hundred men. It will be known as the Labor Party of Canada. Province of Quebec section and its aim is to unite workingmen for independent political action.

President J. A. Watters, of the Trades and Labor Congress, and Secretary P. M. Draper indicated that the Congress was fathering the new party only up to its organization, and proposed to act independently of the Labor party, both in the interests of the Congress and of the party itself.

The first resolution passed by the new party was one condemning all kinds of militarism. This was substituted for a resolution condemning the Military Service Act, which had been proposed.

Sevigny Nominated.

MONTREAL, Nov. 9.—Hon. Albert Sevigny, Minister of Inland Revenue, accepted the nomination of the "Wish-Ha" organization of Westmount-St. Henry, composed of both political parties, English as well as French.

"I may have made mistakes in 1910 and 1911," said Hon. Mr. Sevigny, "but my conscience tells me that I am right now; that I have been right since the war broke out; that it is my duty to support every measure to help our boys at the front; that it is my duty to help the Allies by every possible means, and that, like you, I am in this war to the end."

Further said Mr. Sevigny: "I remember perfectly what I said in 1911, but I never said that I would refuse to have my country defended. This is no time to speak of 1910, but to meet the enemy. Because we made certain declarations in 1911, are we to remain indifferent in this fight?"

Among those who called upon Hon. Mr. Sevigny in connection with the proffered nomination for Westmount-St. Henry, were Hon. G. J. Doherty, Hon. C. C. Ballantyne, Mayor McKeown of Westmount, and Sir Louis Taillon.

The Laurier organization in North Waterloo is trying to get Hartley Dewart to aid Euler's candidature.

A meeting of East Middlesex Liberals expressed hearty accord with Laurier's policy endorsed G. H. Ross as anti-conscription candidate.

What Will Canada's Answer Be?

MONDAY next, Canada's Victory Loan campaign will begin.

In the next three weeks the eyes of the world will be on Canada. Great Britain, the United States, all the other Allies—our own boys in France—all, are expectantly waiting for the answer this young giant among the nations will give to the call of his kin for help and support.

That answer will be no more, no less than the response of each individual Canadian—you and each one of us—to the call to buy Victory Bonds.

SHALL it be said that Canada spares not her sons from the sacrifice of battle, yet withholds her dollars to give them victory?

Rather will it be said that Canada once again, for the fourth time in three years, cheerfully puts up her millions upon millions for the cause of freedom, righteousness and justice,

—that the Canadian hand to the plow of Victory holds steadfast and firm.

* * * *

CANADA'S answer must be,

—that Canada is in deadly earnest when she says "the last man and the last dollar."

That is the answer Canada will give our boys in the trenches, our kinsmen in Britain and our Allies everywhere.

That is the answer we will give to the Huns who thought and said that Canada would desert the Empire before she would fight or pay.

Let us Canadians proclaim to a watching world by a record-breaking purchase of Victory Bonds, that Canada can and will see the war fought to a victorious finish.

Let us by an irresistible flood of dollars declare that:

—our boys in France are to be supplied with everything needful to win the war,

—their kinfolk at home are to be cared for and sustained while they are fighting for us in France,

—production in Canada shall not cease till the last needed bushel of grain, the last quarter of beef has been raised and shipped, the last gun, machine and shell have been made and sent to support our fighting forces.

Banks Will Lend For Victory Loan

Will Advance 90 Per Cent. of Subscription—Repayment in Year

OTTAWA, Nov. 10.—The chartered banks of Canada have united in a plan to assist small investors in their subscriptions to Canada's Victory Loan. Action was taken through the Canadian Bankers' Association after conference between the heads of the various financial institutions. E. L. Pease, of Montreal, president of the association, had written to Sir Thomas White Minister of Finance the following letter:

"In order to encourage small investors to participate in Canada's forthcoming Victory Loan, I am authorised to state that the chartered banks will lend in moderate amounts upon the pledge of the securities themselves to subscribers to the loan who have a reasonable certainty of repaying the advance in one year. The banks will advance up to 90 per cent. of the amount subscribed, and the rate of interest will be 5½ per cent. per annum, with monthly or quarterly reduction payments as may be arranged.

"The banks will also accept from subscribers, for safe keeping without charge, the interim securities and later the bonds themselves to a reasonable amount, for the term of one year."

This action on the part of the banks is about the most important that has been taken in connection with the Victory Loan. Through it tens of thousands of small investors will be able to subscribe for the bonds or to increase the subscriptions they already had in mind. Habits of thrift and of saving will be promoted throughout the entire Dominion, and the success of the loan even more fully assured. The action of the banks in handing advances at the same rate as is being paid on the loan will be especially commended.

All For Laurier All For Quebec

Former Liberal Leader Acclaimed as Hero and Saint by French-Canadians

QUEBEC, Nov. 10.—Sir Wilfrid Laurier's trip from Montreal to Quebec yesterday was in the nature of a triumphal procession. The Liberal leader travelled by the regular Canadian Pacific train, leaving Montreal at five in the afternoon and reaching Quebec shortly before 11. Throngs of wildly-cheering people crowded the stations at almost every stopping place and surrounded the train.

At least, if indeed not more than, fifty per cent. of the big cheering crowds were women. Many of them held their little ones aloft in their arms and shouted, "Dieu vous benisse, Sir Wilfrid!" At Three Rivers he had to leave the train to receive an address of welcome.

The crowd at Quebec was so great that there were fears for Sir Wilfrid's safety. It took him and his party, which included Sir Lomer Gouin and Hon. Jacques Bureau, almost half an hour to reach the station wait, where an address of welcome was read. In reply, Sir Wilfrid said little of politics, but remarked: "My word to you is to fight with faith and devotion to the cause and for your country's sake."

SINN FEIN SUSPECT

He Is Said to Have Posed as Priest When Role Has Best Served Purpose.

NEW YORK, Nov. 10.—A man who is said to have posed as a priest when that role would best serve his ends is being sought by Federal authorities as a result of information contained in three letters found among the effects of Thomas Welsh, a British subject arrested here Sunday and believed to have been a messenger from leaders of the Sinn Sein movement in Ireland to their agents in the United States.

Federal officials to-day announced the letters indicate nation-wide ramifications of Sinn Fein activities in this country. Names of persons in New York City and other parts of the United States are mentioned in the communications, it was said.

Papers found in the possession of Father Daly, "sentenced to three months' imprisonment in Liverpool yesterday and suspected of complicity with Sinn Fein activities, when considered in connection with those taken from Welsh in this city may render material assistance in identifying the American correspondents with Sinn Fein leaders in Ireland, officials believed.

The Boston National Grand Opera Company, Inc., of New York has filed a schedule in bankruptcy, giving liabilities at $132,320.

Dort Motor Car Company, Flint, - 1915

SIXTY years successfully building good vehicles should be a broad preparation for the motor car field.

Especially when those vehicles have been so well known that their name is a household word in practically every home in Canada.

Gray has been building good vehicles since 1855.

Thirty years building vehicles should teach something of transportation equipment—when those thirty years have been years of continued growth and success.

Dort has been successfully building vehicles since 1885.

Place one of these institutions in Chatham, Ontario, with a man at its head who builded successfully because he builded well—at reasonable prices. Give him a keen interest in the motor car industry *plus* the patience to wait till he *knew* he could make a good car at a nominal price. There you have Robert Gray and the Wm. Gray Sons Company.

Duplicate this situation in Flint, Michigan, with J. D. Dort and the Durant-Dort Carriage Company.

Then bring these two men and these two institutions together. Unite them in a common effort to build a motor car success.

It is not surprising that the entire output of 1916 Gray-Dorts was sold in three days.

It was a foregone conclusion that such institutions would build a car that would win unstinted praise from owners.

Praise freely given to the extent of over-selling a doubled output for 1917.

Praise that may over-sell the again doubled output for 1918.

Year In Prison For Disloyalty

TORONTO, Nov. 10.—If a young man, a French-Canadian by birth, a draughtsman by profession, an employe in the Ontario Civil Service—holding down a Government appointment and drawing Government money," as Magistrate Denison put it, sits smoking cigars with a couple of friends in his room some evening, and if the talk just naturally turns on conscription; and if the young Frenchman says he won't go overseas, and nobody can make him go, and that he will shoot the first man who comes for him—is he uttering patriotic sentiment likely to induce persons to observe the Military Service Act?

If he further says that any man who has five cents' worth of brains won't enlist; and that the fellows who stay at home are in a totally different and, inferentially, a far superior class to those who are toiling and dying in France and Flanders—is he uttering sentiments likely to encourage enlistment?

Gives Year to Offender

Magistrate Denison thinks not. That is why, in the Police Court, he sentenced Romeo Brault to a year in the Ontario Reformatory for contravening Sec. 16 Sub-Sec. 2, of the Conscription Act, despite the strenuous plea of prisoner's counsel, T. C. Robinette, and his declaration that this wasn't "British justice."

Employed in the Park

Brault has been for some time employed at the Ontario Parliament Buildings. In a friendly and confidential manner he sat chatting one evening with two friends, a Mr. Coleman of 21 Grosvenor street and Mr. Nellis Crawford of 20 University avenue, in his quarters at 211 Jarvis street. It was their evidence as to what he said that convicted him. When he was arrested by Detective Maurer the officer found in his pocket a printed card containing, in French, the mottoes "Canadians, resist! When called to arms, don't move! Pass this card on to a friend!" etc. He said in his own defence that he had got the card at an anti-conscription meeting which he recently attended merely as a spectator in Montreal; his statements to his Toronto friends, he declared, were simply quotations of what the speakers had said at that meeting. Under oath in the witness box he declared himself a loyal Canadian, ready to go overseas at his country's call.

"Doesn't sound much like it," mused the magistrate.

Contend That Others Do It

"What of it?" said Mr. Robinette, discounting with a sweep of his arms the alleged "unpatriotic" utterances and card. "It's surely no crime to oppose conscription. Go to any Liberal political meeting and you will hear hundreds doing the same thing. You know that La Patrie, La Presse, and other Quebec papers are publishing articles against conscription every day."

"They haven't a Police Magistrate in Montreal," retorted Toronto's great Imperialist. "Perhaps some of our Toronto Liberals will say too much some day. If they do, they had better not come before me."

I wonder what's wrong with my Tea?

My! This certainly IS good Tea

The woman on the left bought some "cheap" tea. You can see she's not pleased. She's sorry now she tried to save a few cents by buying the "cheap" tea.

How different with the woman on the right. The fragrance of her tea tells her how good it is. She paid a few cents more for Red Rose Tea than the other woman paid for her "cheap" tea—and besides Red Rose will prove more economical in the end!

Because of the rich flavor and vigorous strength of the Assam teas of which Red Rose chiefly consists, it will make 250 cups to the pound, or about a fifth of a cent a cup. So cheap that the very poorest can afford it, so good that the rich find nothing better.

WET OR WASHED EGGS.

They Spoil Easily and Cause an Enormous and Needless Loss.

Eggs are condemned every year by washing and wetting. Approximately $7,816,000 dozen eggs spoil every year because some one has let clean eggs get wet or has washed dirty eggs before packing them to market. Figures by the specialists of the United States Department of Agriculture, based on investigation of large quantities of stored eggs show that from 17 to 22 per cent of washed egg losses (sometimes in storage, whereas only 4 to 8 per cent of dirty eggs stored unwashed spoil. The explanation is simple.

Water removes from the shell of the egg a gelatinous covering which helps to keep air and germs out of the inside of the egg. Once the covering is removed by washing or rain, which puts water in its place, germs and mold have ready access to the contents and spoil the eggs.

The enormous loss in storage eggs largely can be prevented if producers and egg handlers, especially during March, April and May, retain from washing eggs destined for the storage markets and take pains to reduce the number of dirty eggs by providing plenty of clean, sheltered nests for their hens.

In view of this great loss of valuable food the department urges country storekeepers and hucksters not to accept washed eggs for shipment in case lots. Shiny eggs, especially in the early spring, probably have been washed and washed eggs purchased should be sold locally for immediate consumption.

CREDIT AS CAPITAL.

Use It, Invest It, but Do Not Impair Nor Squander It.

A prominent member of the financial district, who has had many ups and downs—financially—who has been independently rich on several different occasions and who has as frequently been in the place where he did not know where next month's rent might come from, states unequivocally that "credit is a man's best capital."

He says that credit is something that may be invested and used to great advantage in business, but should not be squandered, lived on or worn away. "A man's credit may outlast a dozen fortunes and enable him to succeed on another attempt," he says, and states further that he has recently written something to the effect that it is useless and foolish to advise men to keep out of debt. Useless, because men who are not so constituted cannot keep out of debt, and foolish because the great majority of men cannot do business without credit.

"To use one's credit in business may be a wise and profitable investment, but to live on credit and thus wear it away is always dangerous. A man should live on what he earns and invest his credit only after careful investigation, and when his best judgment convinces him that it will be safe and likely to yield a profit."

The author of the foregoing is now in circumstances of affluence after having lost nigh well on to a dozen fortunes. He attributes his final success to the fact that he never abused his credit.

Pay, Pray and Peg Away.

In a Long Island village there used to be and still is a group of people who thought a good deal of each other, in spite of what they said, which was frequently of an unsympathetic nature. The group existed under various self imposed names and had a sensational one motto, which ran, "Pay, pray and peg away."

All the members of this little association are still alive, kicking and good natured.

It seems a good idea to suggest that their motto be made public and urged for more general adoption.

Sauce Piquante.

Smother two onions, chopped very fine, in a tablespoonful of butter. Let this cook, being careful not to burn, and add a tablespoonful of consommé or of water if you do not happen to have it. Mince fine two cloves of garlic and add, or not so much if you do not care for garlic. Mince a sprig each of thyme, parsley and bay leaf, mix all together and season with pepper to taste. Cut two small pickles lengthwise into very thin pieces and add to the sauce with a spoonful of vinegar. Let boil for about five minutes.

A SLICE OF BREAD.

The Result of Wasting Only One a Day in Every Home.

A single slice of bread seems an unimportant thing. In many households one slice or more of bread daily is cut and thrown away and not used for human food. Sometimes state quarter or half loaves are thrown.

Yet one good sized slice of bread, such as a child than to eat—weighs an ounce. It contains almost three-fourths of an ounce of flour.

In every one of the country's 20,000,000 homes waster on the average only one slice of bread a day the country by throwing away daily over 14,000,000 ounces of flour—over 875,000 pounds, or enough flour for over a million one pound loaves a day. For a full year at this rate there would be a waste of over 318,000,000 pounds of flour—1,200,000 barrels of flour—enough to make 365,000,000 loaves.

As it takes four and one-half bushels of wheat to make a barrel of ordinary flour, this waste would represent the flour from over 7,000,000 bushels of wheat.

Fourteen and nine-tenths bushels of wheat on the average are raised per acre. It would take the fruit of nearly 470,000 acres just to provide a single slice of bread to be wasted daily in every home.

To produce this much flour calls for an army of men, with teams and horses and people. To get the flour to the farmers' mills for many freight cars and the use of many tons of coal.

But, some one says, a full slice of bread is not wasted in every home. Very well. Make it a daily slice for every four or even ten or every thirty homes, make a weekly or monthly slice in every home or make the wasted slice smaller. The waste of flour involved is still appalling, altogether too great to be tolerated when bread is scarce.

Any waste of bread is inexcusable when there are so many ways of using stale bread to cook delicious dishes.

LIFTING HEAVY WEIGHTS.

How to Work Without Straining the Muscles of the Back.

During housecleaning season it is not uncommon to hear many complaints of backache, sometimes the muscles of the back have actually been strained from lifting or lugging at heavy rugs, etc., and there is soreness for the pain and discomfort manifested. Fortunately there is a way to lift heavy weights without straining the muscles of the back. "A well known metallurgical company," says Popular Mechanics, "has recently issued instructions showing the right and wrong way to lift heavy objects, such as ingots and castings.

"The way which is condemned and which many workmen thoughtlessly follow consists in grasping the load with both hands while stooping and scarcely bending the legs at all, lifting to this position chiefly from the weight on the lower part of the back, where the muscles are weakest, and may produce a severe strain or rupture.

"The proper way is to grasp the load after squatting down close to it, so that the knees are drawn well up against the body, lifting in this manner throws the weight on the thighs and shoulders, which are strong and best suited to the severe stress that comes in raising the body to an erect posture."

The Titian Blond.

A girl with red hair and a very dark complexion must be careful to the selection of the colors she wears. The dull blues, the soft shades of green, the pale lavenders, black, white, creams and tans are the best colors. She should not wear baby blue.

A Simple Fire Extinguisher.

A fire extinguisher easily made and ready at all times, for instant use consists of a gallon of water, to which are added three pounds of salt and a pound and a half of sal ammoniac. Bottle this fluid, and when fire breaks out pour it on.

Healing Lip Salve.

An ounce of cold cream, fifteen drops of tincture of benzoin and thirty drops of glycerin. Rub the cold cream and glycerin together and then incorporate the benzoin with the mass. Rub with a pastels or flexible knife on a flat tile or plate.

CHAPTER I.

Tells of the Fame of Judean Shepherds.

The setting sun, disappearing over the western hills toward the distant Mediterranean, cast lengthening shadows from the great fig tree which sheltered the arch-way to the goodly dwelling. Far off in the distance a single trumpet sounded; faint and indistinct. A nearer trumpet echoed and reechoed the sound. A shepherd bidden in a nearby valley took up the silvery notes upon his own instrument, and sounded the tidings that the day was o'er.

Upon the silken canopied roof of the house of Jesse, of the tribe of Judea, a maiden sat embroidering a girdle. She was fair and slender, with brown-ish hair, which hung in two long braids across her shoulders. But, while she plied her needle industriously and seemed devoted to her task, she ever and anon shaded her eyes to gaze wistfully out over the horizon. Far in the distance the sheep were peacefully grazing upon the hillside, even now being herded together by the watchful shepherds and their dogs in preparation for the coming of the night. To the east and to the west the maiden cast her eyes in vain, for what she was assisted her not. To the north of Hebron, the ancient city where the great King David had first reigned, and beyond the mountains here to the north, as the maiden had been told a great and wondrous city of beautiful buildings, great palaces, rich caravans and fashionably dressed folk—Jerusalem. But of all this the maiden knew naught and had no desire to learn. With a sigh she resumed her work upon the girdle.

Inside the house of Jesse all was expectancy, for the morrow was the hallowed day when souls might "take to the fields." The trumpets called the men from the fields and the women from their labors to prepare for the coming mail which should precede the approaching festival. In the courtyard by the well the faithful Hiamah, she who had been in service as husbandmaid to Hoklah, wife of Jesse, these many years, gathered up the clean linen which had been washed by two girls kneeling the garments with their clean bare feet in a round of water. Nearer the house the women grinding corn between two large flat stones had already reared their labors and were gathering up the grain.

A trumpet blew again—nearer, a shepherd was bringing to part of his flock. Eagerly the girl, watching from the roof, ran down the great flight of stone steps which led to the courtyard and supervised the newcomer.

"Shelah," cried the girl anxiously "Hast thou seen Jether?"

The shepherd, an aged man with a young lamb suspended tenderly in his arms, shook his head sadly.

"Nay, Mistress Naomi," responded Shelah, as he laid the lamb in upon the grass by the well and slowly rose that Hiamah should wash its hurt. "Nay, Jether was not among the hills last night. I found his flock untended. For the second day Jether hath not led them to water, and none knows where the lad may be. Both of the sheep the wolves have slain and others, like this poor lambkin, hath suffered because of his neglect."

The girl clasped her hands together anxiously.

"But what of Jether?" she inquired remotely. "Can he be ill or sick?"

"He should not have left the flock untended," said Shelah sternly. "Nay, he was not ill."

"But can aught have happened to him? Oh, Shelah, last night I dreamed he was in fearful peril, but of what I know not," Naomi, with an agonized sob which she vainly sought to suppress, seated herself on the stone edge of the well and watched Hiamah as she bound up the broken leg of the lamb-kin.

Shelah chuckled significantly.

"Have no fear, good mistress Naomi," he commented wisely. "His worst danger lies in his father's wrath."

"What meanest thou?" cried Naomi quickly.

"On the road hither I met Oren of Hebron, he who keeps au lion there, and Oren told me Jether was there all night with a companion, Tola, as 'ell man whom all know well and far too well to think well of him," chuckled the elderly shepherd, pleased with his own canny wit.

The young girl came to him anxiously and touched his arm.

"Shelah," she said softly, so that none might hear, "thou wilt not say aught to mine uncle against Jether?"

The shepherd lifted his hand as if in protest.

"Nay, he did great wrong to leave the flock alone while he drank through the night with Tola and his friends," he answered. "For a young man like Master Jether to neglect home, his flock, his duties to his father and to his elder brother, Gaal, who some day will be master here, is not right. I know full well the lad is headstrong, impetuous, but he should fear the wrath of his father if he continues in his evil ways."

The girl glanced about her nervously as one by one the laborers from the field, the users of the soil, the shepherds and their flocks passed into the courtyard and the sun sank lower upon the horizon.

"Please, Shelah, thou will not tell me? Do thou hasten to Hebron and find Jether. He has forgotten that at sun down we celebrate the hallowed day Hasten, I beg of thee."

The stolid shepherd shook his head sternly. A trumpet blew in the distance.

"Do not the trumpets sound on every hill? Do they not bid all cease from toil and hasten home to worship the deities before they partake of the holy meal? Listen! Do not the trumpets sound in Hebron? If Master Jether wills to come he will come. Nay, nay, good mistress Naomi, I cannot speak to Jether louder with mine own voice than can these trumpets which sound from every hillside. Give me the lambkin, good Hiamah. I will care for it tenderly."

The shepherd tenderly took the lamb in his arms and, followed by the dogs, which had long about his heels joyously, went into the sheepfold. Hiamah put her arms tenderly about the young girl and sought to comfort her.

"Were it not best that I should leave water in Master Jether's room and lay out fresh garments for him?" she inquired. "His many cooks with little thou to spare."

"Oh, yes, Hiamah! But what if he should not come?" replied Naomi, tearfully. "Suppose that he should not come! There are many wolves in these hills of Judea, and once I knew that Jether killed a lion on foot, with a knife as his only weapon. Suppose that last night when he failed to watch the sheep some evil mishap befell him? Oh, Hiamah, I shudder when I think that Jether may never return to me."

The elder woman smiled reassuringly and caressed the young girl.

"I know thy secret, Mistress Naomi," she whispered. "Nay, do not start in surprise. Jether is a fine lad, beloved of the entire countryside, and not a maiden of Hebron but would be honored to have her hand sought in marriage by the youngest son of Jesse. And thou art a beautiful girl, who must win the love of all who know thee. Yet one thing doth trouble me much, Mistress Naomi."

The girl had dried her tears and turned curiously.

"What dost thou mean?"

The aged servant hesitated, as if trying to speak.

"Say on, Hiamah. What hast thou in thy mind?"

"Much talk I have heard these past few months among the servants in thy good household," said Hiamah softly, glancing around to make sure that none might hear, "much talk have I heard that thy Cousin Gaal casts his eyes many times toward thee, far too often indeed to please those who know of thy regard for thy Cousin Jether."

Naomi sprang to her feet indignantly.

"Gaal plodeed!" she cried, her eyes flashing fire. "Let me tell thee, Hiamah, when Naomi is chosen in marriage it will be by one whom she herself doth select, not by the pious, elder, stern and hard hearted brother who doth treat our Jether so shamefully. For him I care not nor never will. But oh, Hiamah!"

The girl's voice trembled, and it was with difficulty that she kept back her tears.

"Oh, Hiamah, what if Jether come not? Last night I dreamed that on a sudden a black cloud swept across a sky as fair as this one. Jether was near me laughing in his happy way and scorned my warning. Then all at once the world was dark. I could not see him. When the cloud passed Jether was gone. Only his voice came to me from the distance, so sad, so full of pain. But what it was I could not tell, yet, oh, what pain was in it!"

Hiamah tenderly embraced the young girl and led her tenderly the flight of stone steps leading upward to the roof and beyond that to the round dome.

"Come with me to the watch tower," she said softly. "Let us look toward Hebron. There is still light enough to watch the road for the coming of Master Jether. Come, Mistress Naomi."

Together the two women slowly climbed the stone steps, passed under the silken drapery, mounted to the top of the rounded dome, where, from a small platform, one could see the countryside for miles around.

"Another goblet of wine to seal anew our friendship!"

The speaker, a man of middle age, well dressed, with a handsomely embroidered tunic of a rich dark color, bound with a southern girdle, and wearing costly sandals embroidered with gold, seemed in striking contrast to the lad who faced him in the inner courtyard of the inn of Oren, one of the oldest inns of the town of Hebron. They were seated at a rough wooden table in the courtyard of a plain, square building, the open sky above them showing that daylight was not far distant. The elder man seemed trying to convey to his companion some of the good spirit which evidently permeated his own veins.

The lad, handsome, dark boy with long curly hair, clad only in a rough but picturesque garment made from two leopard skins, shook his head as his companion offered to fill his goblet a second time.

NO DISCORD IN NEW UNION GOVERNMENT

Hon. C. C. Ballantyne Denies Liberal Rumors—Laurier War Policies are Criticized—What the Manifesto Means—No Reinforcements For Army Overseas

COCKSHIRE, Nov. 10.—Hon. C. C. Ballantyne, Minister of Marine and Fisheries, made a stirring speech here this evening in support of Union Government. In part Mr. Ballantyne said:

"I have been a Liberal all my life, and have supported that party at any good, loyal Liberal would, and have the honor of being a close friend and admirer of the Right Honorable Sir Wilfrid Laurier. I have read Sir Wilfrid's manifesto over very carefully, and, to say the least, it is very disappointing, not only to me, but I am sure to the great majority of his own party.

"Some of the Liberal party press have tried to make out that there is discord in the Union Government, but let me say most emphatically that there is not an atom of truth in this statement, and during the month that I have had the honor of being one of the members of the Union Cabinet there has been the greatest unanimity of opinion on every question that has been brought before us.

TRIBUNALS WILL BE CAREFUL

"And let me say one word more before I leave regarding the policy of the Union Government regarding the selective draft. What is meant by selective draft is that while the bill calls for 100,000 men, they are going to be carefully selected and those who are recruited on the farm, in the workshops or in any other important place in our community for the carrying on of the business of this country and its further development, will be left, and only those will be selected to go overseas who are best fitted and the country can best spare.

"These selective drafts should not be called conscription; it would have been conscription if Canada had adopted the Militia Act that was placed on the statute books by Sir Wilfrid Laurier, which provides for the calling out of all men from 18 to 60.

"I was born on a farm myself, still own one, and know well the needs of the farmer, and let me say to the farmers present tonight that they need have no fear that their boys and the labor they require to carry on the work of their farms will be taken from them.

"I had the honor of being the first Liberal to enter the Union Government, and I will serve that Government loyally and to the best of my ability at all times while I am a Minister.

SIR WILFRID'S OPPORTUNITY

"Sir Wilfrid Laurier and his colleagues might have had an equal share in this Government had they chosen to accept the offer of the Prime Minister, and which I regret that they declined, and now that they have done so, the Prime Minister has called to his council six loyal and well-known Liberals.

"All these recognized leaders in the great Liberal party have come out against their own revered political leader, and against his policy, and are to a man behind the new Union Government of Canada.

LAURIER'S POLICIES.

"Let us look for a moment now to the policy of Sir Wilfrid Laurier.

"Sir Wilfrid must know that it is futile to talk about returning to the voluntary system. The man does not live in Canada today, not even Sir Wilfrid himself, who can raise a battalion for overseas service 1,000 strong. I have been actively connected with recruiting since the war broke out. About this time last year I was authorized to command and recruit an overseas battalion, the 246th Canadian Grenadier Guards. I had as fine an organization as any commanding officer could have, and adopted the most progressive publicity methods, spent a large amount of money, and every man that I took across to England cost $90 per man, and after eight months work I was only able to take overseas three hundred men.

MEANS NO REINFORCEMENTS

"In plain English Sir Wilfrid's manifesto means that no more men will be sent to reinforce our courageous men at the front. Sir Wilfrid Laurier's policy means a great abandonment of our men, and that Canada does not intend to send any more men to reinforce our divisions at the front or to put forth greater efforts by her man power, to win this war."

Dallas, the most populous county in Texas, voted "dry" in local option election. Officials said the saloons would close Oct. 20.

James Murray Instantly Killed

In Mariposa—Team Ran Away and He Was Thrown From Wagon

PORT HOPE, Nov. 10.—A fatal accident occurred at Manilla Junction on Wednesday morning, when Mr. Jas. Murray, who resides on the boundary between Mariposa and Brock township, two miles south of Manilla, was instantly killed.

The unfortunate man, who was about 62 years of age, had been to Manilla Junction with a load of hogs, and when returning home about nine o'clock his team ran away. He was thrown from the wagon and killed instantly.

The late Mr. Murray was one of the best known farmers in Mariposa township. He was best known as a high-grade sheep raiser, and enjoyed the esteem and respect of a wide circle of acquaintances.

12 Seats For Laurier In West

The Hon. J. A. Calder, Minister of Immigration, has just returned from the West, after a three weeks' tour of Western Canada, says that the general prospects for the Union Government in the four Western provinces are excellent.

"We expect a good number of acclamations," he said, "and everyone is obviously the predominant sentiment of the West is for Union Government and what it stands for."

He was of the opinion that Laurier Liberals would not carry more than 12 of the 56 seats in the four Western provinces.

Preparations of the Belgians for an offensive are shown in an official communication issued reporting the taking of many aerial photographs of the German positions.

TENDERS FOR PULPWOOD LIMIT

In the Closet

Thereby Hangs a Tale.

By F. A. MITCHEL

The city of New York was founded on the southernmost point of Manhattan Island and first grew to the southward. Later it started up Broadway and for the east side, as it is called, followed the shore. But the other the "backing" for the business district, the habitations of gentlemen were to the neighborhood of the East river.

Among these was worth-engaged in trading down an old dwelling near Franklin square—in which Washington lived, when first inaugurated president—and upon a closet built in a wall in which was a skeleton. How it got there was a mystery, for there was no opening to the closet. It being inclosed within four thick walls. The find was reported to a historical society, which appointed Heilmeyer Bogardus, an antiquarian, to investigate the whole matter and report. The following is extracted from the papers filed with the society.

"The fact that the skeleton was found within four solid walls is easily explained. The knee was cramped and altered during the last decade of the eighteenth century, and the wall of the house was then done to the closet in the mode whole. The apartment inclosed is of such size that the contents would not necessarily have been what it originally, especially since there were no shelves to admit light to the closet in the house.

"How is there being such a closet at all, the story connected with it is a sufficient explanation, for the opening, which was walled up, was closed in such a manner that it could be opened only by the most expert of workmen. Whoever was to carry out conditions, of which we shall speak hereafter, which would be known only to

How Canada Is Helping the Allies

Hauling The Grain In Alberta

IT was not great Napoleon who declared that an army marches on its stomach, and nobody knew more about war than he did. The food supply of the nations now fighting is as important as the matter of guns and ammunition. Canada is playing a double important part in the present conflict; she is supplying a vast army of men and a huge supply of food and ammunition.

The freight traffic on the railroads of Western Canada has reached immense dimensions. The task of hauling the wheat is now in full progress, and much of this will find its way to feed the allied legions.

Over three hundred and fifty cars carrying approximately 500,000 bushels of grain are leaving Alberta over the Canadian Pacific daily, according to a recent statement by one of the officials. Freight facilities throughout the entire province are in excellent condition this year to handle the shipments and no difficulty, whatever, should be experienced in the removal of the grain being threshed, and yet to be threshed, in the province.

Large shipments are being made from the southern part of Alberta each day, and the district between Calgary and Swift Current has furnished a good proportion of the cereals for eastern markets. Practically all of the grain has gone east with the exception of the trial shipment sent to the Pacific coast to try out the Panama canal route. That there need be no fear of a car shortage on the C.P.R. lines is the confirmed opinion of the official who discussed the subject. He said that at the present time neither the main line nor any of the branches felt the pull occasioned by the demand for cars to be used in the crop removal.

INCREASE GRADUAL.

Since Sept. 1st, the increase in shipments has been gradual, 350 cars a day was the estimate only for the sixty part of October. This is increasing more rapidly now that the farmers are finding their way to the different shipping points for the completion of threshing. It is the belief of the official that after the fall plowing is fin up the grain hauling will commence in earnest and the demand for freight cars will increase greater than the gradual rise, which has been noticeable in the past fortnight.

The estimate of 500,000 bushels is for the Alberta district of the C.P.R., which takes in the whole province east of Swift Current. The threshing in the south is earlier than in the other parts of the province, and a supply of cars is held in readiness to place at the disposal of the farmers and elevators at the different towns along the main and branch lines.

The car shortage which has been threatened in former years will not be experienced this fall and winter, according to the reasoning elaborated of the C.P.R. official. The yield of the different districts of Alberta has been carefully estimated and it is known to a fair degree of accuracy just what grain will have to be handled. Cars will be available to remove the crops in all districts where the C.P.R. runs and hundreds of orders for reservations are being dealt with each day.

With the price fixed the farmers are assured of a safe figure for their grain, and will-calling to catch high markets or holding off for better quotations will avail them nothing this year.

It is estimated that a freight car will contain 1,250 bushels and figuring on an average of 350 cars a day, which has been the number engaged during a particular week, the removal of grain has been 475,000 bushels each day. Figuring for that week there have been 3,325,000 bushels shipped east from Alberta.

Get Behind the Wheel of a Ford and Drive

TRY it just once! Ask your friend to let you "pilot" his car on an open stretch. You'll like it, and will be surprised how easily the Ford is handled and driven.

If you have never felt the thrill of driving your own car, there is something good in store for you. It is vastly different from just riding—being a passenger. And especially so if you drive a Ford.

Young boys, girls, women and even grandfathers—thousands of them—are driving Ford cars and enjoying it. A Ford stops and starts in traffic with exceptional ease and smoothness, while on country roads and hills its strength and power show to advantage.

Buy a Ford and you will want to be behind "the wheel" constantly.

1 teaspoon salt
2 cups well beaten

Dissolve yeast and sugar in lukewarm milk and add to the cornmeal, flour, salt and lard mixed and sifted fat. Stir in the cornmeal, flour, salt and add the yeast. Mix well, cover and let rise over night. When double full, beat up thoroughly and let rise again for an hour. Be careful that it does not overrise. It should be baked as soon as light. The loaf will require from twenty to thirty minutes, according to the size of pans.

Victoria Cross For Canadians

Major Cowie Swoops in Bombs and Shrieks Them Back

LONDON, Nov. 10.—The London Gazette announces the award of the Victoria Cross to the following:

Major (Acting) Mussey Learmouth, M.C., late of the Canadian infantry, "for most conspicuous bravery and exceptional devotion to duty. During a determined counter-attack on our new positions this officer, when his company was momentarily surprised, instantly charged and personally dispersed the attackers. Later he carried out a tremendous fight in the advancing enemy. Although under an intense bombing fire and mortally wounded, he kept to the parapet of the trench and, combat the enemy continuously, superintended the defence in such a manner as to infuse a spirit of the same nature into his men. On several occasions this very brave officer actually caught bombs thrown at him by the enemy and threw them back."

Sergt.-Major (A.) Robert Hanna, Canadian infantry, "for most conspicuous bravery and attack when his company, pressed by overwhelming enemy reinforced, and his own company officers became casualties. A strong point heavily wired in front and held by a machine-gun and beaten off three assaults of the company with very heavy losses. This warrant officer, under heavy machine-gun fire coolly collected a number of men, and leading them against the strong point rushed through the wire and personally bayoneted three of the enemy and brained the fourth, capturing the position and silencing the machine-gun."

Pte. James O'Rourke, Canadian infantry, "For most conspicuous bravery and devotion to duty. During prolonged operations for three days and nights, Pte. O'Rourke, who is a stretcher-bearer, worked unceasingly in bringing the wounded into safety. On several occasions he was knocked down and partially buried by enemy shells. Three times he went forward under heavy fire, and each time rescued a comrade."

The next of kin of the late Major Learmouth is given as Martha Learmouth, 43 Murray Ave., Quebec.

Pending further information as to the regimental number of Sergt.-Maj. Hanna and Pte. O'Rourke, the Record Office is unable to give the next of kin's address, as there are so many soldiers of the same name.

Bitter Political Fight At Massey

Convention Divide Laurierites and Unionists—"Reginas" and "Kaiser" Epithets

SUDBURY, Nov. 9.—At what was called a "people's convention," at Massey today, a most anomalous situation arose. The meeting was called by Geo. J. MacArthur of Blind River, secretary of the Liberal Association of East Sudbury, in protest to the recent union convention, which sounded Geo. B. Nicholson of Chapleau as the unionist candidate of the constituency, and was to be the "final" union convention of the riding. All classes were on hand. At the outset L. O'Connor of Sudbury called for a definition of the aims and objects of the meeting. Chairman Sandie, a lifelong Liberal, stated that he understood it was in support of Union government. Mr. O'Connor's interpretation was that it was a Liberal convention, whereupon a motion was submitted on behalf of Mr. O'Connor that those supporting union should take one side of the hall, and those supporting Laurier should take the other side of the auditorium. After much jangling this was carried out, and business proceeded in a divided camp, the unionists agreeing upon a man and the Laurierites agreeing upon a man, Geo. B. Nicholson, the unanimous choice of the union convention, was ratified as the choice of the unionist wing by prominent Liberals of the riding. The unionist program, through the anti-conscription Liberals, of which ninety-five per cent. were French delegates, took their innings and nominated L. O'Connor of Sudbury, who has accepted the Laurier banner. Capt. Hurst of Gore Bay, who has led the Liberal convention for the past two years and is just back from the front, refused to split unionist vote and withdrew. It is now a straight fight between a unionist and a Laurier Liberal. Feeling ran very high with Unionist Liberals hurling rebukes across the convention hall at the Laurier Liberals, "Reginas" and "Kaiser" supporters being among the epithets.

IMPRESSIVE SUPPORT.

Montreal Star

The spontaneous rising in support of the Union Government by the strongest Liberal party organs from coast to coast is a conclusive sign of the times. The new Administration could receive no more impressive and significant approval.

A Government headed by Sir Robert Borden has secured the support of such stalwart old friends of Sir Wilfrid Laurier as the Halifax Chronicle, the St. John Telegraph, the Toronto Globe, the Toronto Star, the Hamilton Times, the Manitoba Free Press, the Saskatoon Star, the Calgary Albertan, The Vancouver Sun, the Victoria Times—A list of newspapers which command the confidence of the vast majority of Liberals in the country.

They have been always trusted sentinels on the watch tower of Canadian Liberalism. Their regard for Sir Wilfrid Laurier personally is unquestioned, as is their loyalty to the traditions of the party.

The most exacting observer of our politics must admit that a Union Ministry opposed by Sir Wilfrid Laurier which can win at once the unanimous support of these former Opposition organs has something about it well worthy of approval.

SINN FEINN ARE
SINN FEIN ARE ACTING UGLY.

LONDON, Nov. 9.—The following Central News despatch has been received here from Dublin concerning Sinn Fein agitation there:

"There is intense excitement here owing to wild rumors being circulated by irresponsible persons that steps, measures are under way against the Sinn Feiners. It was stated that Prof. Edward De Valera, who was elected president of the recent Sinn Fein conference here, had been arrested Friday night after addressing a meeting at Limerick but as a matter of fact he is still at liberty.

"Sinn Fein headquarters here has announced that the meeting arranged at Newbridge, which the authorities prohibited, now has been abandoned. There is nothing in recent incidents to indicate that trouble is threatening. The police and military, it is stated, have taken all precautions to prevent any breaches of the peace."

DAVID CREIGHTON DEAD

TORONTO, Nov. 9.—David Creighton, Assistant Receiver-General, died at his home, 26 Spadina road, aged 74 years. From 1864 to 1896 he conducted the Orem Sound Times, and was entrusted by Sir John Macdonald with the task of forming a company to publish an official organ of the Conservative party in Toronto, the result being the Empire, which appeared for the first time in December, 1887. This paper was amalgamated in 1895 with the Mail, under the present title, The Mail and Empire. It was in this year that he received the appointment which he held until the time of his death.

From 1875 to 1890 he represented North Grey in the Legislature. In January, 1895, he was presented with a marble clock by the staff of The Globe in acknowledgment of his courtesies to them on the occasion of The Globe fire at that time.

Mr. Creighton was a past President of the Veterans of 1866, and also an officer of the British Empire League in Canada.

Re-Creation of a Mighty Song

WE INVITE YOU to hear Mr. Edison's re-creation of the "Forge Song" from Siegfried in our Edison Showrooms today.

Jacques Urlus, the Wagnerian tenor of the Metropolitan Opera House, has sung this song for Mr. Edison. His sturdy, virile voice and his masterly interpretation like Wagner's genius is the height of its power.

Come and hear this thrilling aria, and judge if it is indeed possible to distinguish the diamond disc re-creation of Urlus from the artist himself. Has he established a new and an epoch-making art? Please observe, does this re-creation actually deceive your ears in its reality? Come and decide.

Siegfried sings this song as he wields his magic sword. The majestic measures ring with the fire and vigor of the youthful hero's soul. And the strange plaintive note with the weird accompaniment of the woodwinds, casts a spell which dwells with you long after you have heard the song. All these added qualities Mr. Edison has re-created.

We will present others of Mr. Edison's marvelous re-creations, such as the Berceuse from Jocelyn, a cello solo by Bach-Gounod "Ave Maria" sung and played by Maria Zappoli and Albert Spalding; also several selections of lighter mood.

Come and judge Mr. Edison's new art.

A Painful Experience

By SADIE OLCOTT

A number of matron ladies sitting over their morning beaks to talk of home incidents trifling in themselves, but which have caused the separation of lovers. This led to a narration of experiences, also Dorothea said that she had broken off with a lover because she had written him to dismiss and, instead of appeasing, it was the means of his writing a humble apology. Then Mrs. Worthington confessed that she had shown temper while playing tennis with a man who would doubtless have proposed to her. He had sent a ball that struck her on the nose, drawing blood, and stained a newly laundered skirt. There were other confessions, mishaps and displays of mutual imperfections which lovers do not expect to find in each other and which, had the parties been wedlocked, would not have been considered of the slightest consequence.

One lady of the party, still young enough to repair any such damage, sat hotly listening to these revelations wearing the while a woebegone countenance. Being asked if she had ever had such an experience, she admitted that she had, but she had suffered so severely in consequence that she could not bear to talk about it. Every one present urged her to tell the story, promising sympathy, and all were sure that she could not herself in anyway have been at fault. Being finally persuaded, she spoke as follows:

"In my girlhood I always adored boys older than myself, and since I have been grown I have admired not youths who talk of trivial subjects, but men of calibre. Professor Pufnedizer caught my fancy by his dignified appearance and the depth of his understanding. I first saw him at a lecture he delivered on 'Antiquity of Literature.' It seemed to me that every word he uttered weighed a ton. The party I was with remained after the lecture, and I was introduced. I shall never forget the courtly bow with which he greeted me, and my heart fluttered at the look of admiration he gave me.

"The very next day I was informed by one of the ladies of the party with whom I had attended the lecture that Professor Pufnedizer desired to know me, and she asked permission to bring him to call upon me. Of course I assented and, I admit, counted the days, almost the hours, till he came. His was very formal, but this only added to his admiration, I felt, for him. During the week of our acquaintance he never sulked, but always treated me with the most profound reverence, which at times melted to tenderness.

"Again, that it would be fatal for me to make a display of my shallowness, I controlled myself with leading him to speak on ponderous subjects, then listened with my eyes fixed upon him in rapt admiration, though I confess I seldom understood what he was saying. Occasionally when a glimmer of his meaning permeated my dull brain I would venture some question pertaining to the subject, whereupon his words vitally say that what I failed to grasp had puzzled many of the strongest intellects, and he would thus center upon me an explanation that would crown me in a sea of unintelligible mess.

"My admirer was twenty years older than I, but that only added reverence to the love I felt for him.

"I cannot refer to the evening he proposed to me without emotion. I love the speaker wiped away a tear. He went to the drawing room, lighted by lamps with shades of various hues. I was sitting on a sofa, he in an easy chair directly before me. He took my hand in his and——

The narrative was interrupted by a flood of tears.

"Never mind the proposal, dear," said several ladies at once. "It's too affecting. Pass on to the reason for the separation."

The speaker composed herself, wiped away her tears and proceeded:

"We had been engaged a month. I had introduced my professor admirer to my friends, proud of him and his learning. One day we went shopping together, and I bought a few things. My fiance bought was an alarm clock. He said he wished to put it in his room at study before breakfast and needed to be awakened. The clerk showed us how to set it and gave us a package of the alarm, which was loud enough to wake the dead. My fiance concluded to take it home himself, as he needed it the next morning, so he put it in his capital pocket. We went home in a trolley car. Among the passengers I recognized several of my acquaintances, but, fearful of exciting envy, I said no decisive of showing off his learning that I let him talk on an abstract subject. Those who were near enough to hear what he said were listening intently to him.

"The speaker's echo burst forth again, shaking her listeners.

"Poor thing! Calm yourself," came from the listeners, while one curious party cried impatiently, "Stop your sobbing and go on!" Finally the debonnaire came:

"The alarm clock in his pocket went off."

Nothing was heard for a time but the speaker's sobs till a lady asked:

"Did it ring very long?"

"Forever!" gasped the narrator.

"Then what?"

"When we left the car, both red as beets, I cried, 'You old fool, why didn't you have it sent home?'"

A. C. P. R. train struck the buggy of Mr. and Mrs. Paul Turdiff, of Smithfield injuring both.

Dangerous Type Of Opposition

OTTAWA, Nov. 10.—Orders were gone out from the Laurier organization in the Capital to have a candidate in every riding in the Dominion if possible, against the Union Government's official nominee. If straight Laurier men cannot be found they have men or Independents will be placed in the field. And if the feeling in any riding is so strong for Union that it is impossible to find a man willing to enter the fight then the proposal is to put a second candidate in the field who will announce himself as conscriptionist, but a supporter of other Laurier policies. The idea of a candidate in every riding, even if a straw man, is for the purpose of effect in Quebec. It is admitted that if there were a large number of reclamations for the Union Government it might start a stampede towards Union in Quebec. Laurier and his followers are basing any hopes they have for a victory on a solid Quebec.

Straddle-the-Fence

It is growing more and more apparent that in Ontario there will be a lot of Liberal candidates in the field, who are of the Graham type—straddle-the-fence. They propose to run as conscriptionists and promise a certain support to Union, but announce that on all other issues they are in agreement with Laurier. They are most dangerous type of opponent to encounter, there will be in the field. They count on holding the Liberal conscriptionist vote, and yet will canvass and quietly appeal to all anti-conscription element. A half dozen such candidates are in the running now, and it is understood that the Laurier organization is trying to get men of this stamp in every riding, which is a natural Union stronghold. Two candidates who are already making such an appeal are Dr. Rankin in North Perth and E. W. Grange in Lennox-Addington.

Despised in the West

The western climate evidently makes for more openness. The western enemy anyway of all things designed by a two-faced man. The result is that there has been no attempt to straddle the fence by Western Liberals. The Western members who are seeking re-election are wisely-hearted in their support of Union, like Mr. W. A. Buchanan and Dr. Michael Clark, for elsewhere they are straight out and out Laurier men like Hon. Frank Oliver. There is no dissembling where they stand. The same seems to be true of the Western Cabinet Ministers. The recent speeches of Hon. J. A. Calder, Hon. T. A. Crerar, and Hon. Arthur Sifton have a good wholesome ring, which has been rather lacking in utterances of Hon. N. W. Rowell and Hon. Frank B. Carvell, who seem to still cast a worried and lingering glances on their old leader. Their speeches have given encouragement to Conservative opponents of Union, who have been thinking that the Liberal members of the Cabinet would betray Borden at the first opportunity.

Government Will Negotiate Profits

Packing House Control to Safeguard Both Producer and Consumer

OTTAWA, Nov. 10.—That there will be government control of all packing houses was emphasized by both Hon. T. A. Crerar and Hon. J. A. Calder at a live stock breeders conference here yesterday. Mr. Crerar declared that the government was going to absolutely negotiate the margin of profit between the consumer and the producer. There would be a measure of control over the packing houses, so that the best results could be obtained. The United States authorities had decided upon the same course and had actually entered upon it. When they ventured to apply the same methods in Canada it was nothing new, he reminded his hearers, for they were only doing something that had already been done by every country engaged in the world struggle. He said he would himself like to see a definite assurance given as to the prices that farmers would get for their hogs, but that was impossible. In view of the shortage, however, they were going the risk at all.

Mr. Hanna, the Food Controller, emphasized what the Minister of Agriculture had said regarding the proposals regarding the packing houses.

"The packers and," he declared, "will be taken care of to the satisfaction of the producer as well as the consumer." He remarked also upon the difficulty of doing justice. The report of Mr. G. F. Henderson, K.C., who was appointed to investigate the profits of the packing houses has been prepared and it will be placed in the hands of Hon. T. W. Crothers on his return to Ottawa to-morrow. While the report is not yet made public it is that the report will show that the William Davies Company made large profits.

Kerensky Marches On Petrograd With Army

Cossacks Attack Revolutionists

PETROGRAD DESPATCH INDICATES THAT PACIFIST GOVERNMENT WILL BE SHORT LIVED — KERENSKY SAID TO BE RETURNING, BACKED BY 200,000 SOLDIERS —COSSACKS ATTACK REBELS IN STREETS AND REVOLUTIONISTS ARE SAID TO BE READY TO AGAIN DECLARE ALLEGIANCE TO KERENSKY—LENINE, HEAD OF REVOLUTIONISTS, SAID TO BE GERMAN AGENT.

SPECIAL TO THE INTELLIGENCER

LONDON, NOV. 12—A PETROGRAD DESPATCH REPORTS THAT FORMER PREMIER KERENSKY ARRIVED SAFELY AT THE FRONT WHERE HE GATHERED 200,000 TROOPS AND IS RETURNING TO FIGHT THE REVOLUTIONISTS IN PETROGRAD. A LARGE FORCE OF COSSACKS FROM FINLAND ARE REPORTED MARCHING ON THE CITY. THE COSSACKS ALREADY IN THE CITY HAVE ATTACKED THE REBELS AND FIGHTING IS IN PROGRESS IN THE STREETS. THE REBELS ARE SAID TO BE WAVERING AND READY TO FLOCK TO KERENSKY.

The Revolution Made in Germany

The real name of Nikolai Lenine, leader of the Bolshevik, who is reported to have assumed the office of Russian Premier, is Vladimir Ilitch Ulianoff. He was born in Volga, and first came into prominence twenty years ago, when he wrote a book on Socialism, which placed him in bad odour with the Russian authorities.

His activities during the early part of the present month has been as an anarchist in the Petrograd Assembly, at the conference of the Russian Socialist Australian Federation, and was thrown into prison as an enemy. Before long he succeeded in convincing the Russian authorities that he was the enemy of no country but his own, and was released.

At the time of the overthrow of the Russian monarchy Lenine was in Germany. How he got there, or who is not clear, but it is plain that German influence, far from preventing his leaving the country for Russia, aided and abetted his departure. In fact, it was reported at the time that the Germans provided him with a special train.

The Provisional Government denounced him as a German agent, and issued orders for his arrest. He succeeded pursuit and his hiding place was not definitely located, although a later report that he had taken refuge at Kronstadt, disguised as a sailor.

He has published Socialist papers in Paris and Switzerland, and has written several books and pamphlets on Socialist doctrine. He is described as an extremely strong-willed man, intolerant of the opinions of others, and difficult to get along with.

Special to The Intelligencer

LONDON, Nov. 12—A Petrograd despatch reports no further defections from the garrison and army to the Bolshevik-led Kornilof is said to be forming a government in Moscow.

The whole trouble is confined to the two cities. Food conditions in Petrograd are serious. There is general expectation that Premier Kerensky will resume power.

COSSACKS WIN STREET BATTLE

PARIS, Nov. 11.—Premier Kerensky who escaped from Petrograd on the night of Nov. 6 in an auto ambulance, and arrived safely at general headquarters, now has 200,000 men devoted to him, according to a despatch from Haparanda, Sweden, which escaped the Lenine censorship.

The despatch says the latest news from Petrograd is that Cossacks, aided by Municipalists, are mastering the Bolsheviki in a street battle.

KERENSKY MOVES ON PETROGRAD

LONDON, Nov. 11—Premier Kerensky arrived at Luga, 95 miles southwest of Petrograd, last Wednesday, and the garrison there attested its loyalty to his provisional government, according to a Petrograd despatch of Saturday to The Weekly Dispatch. Saturday morning he reached Gatchina, 30 miles southwest of Petrograd, where the same thing happened. The newspaper's advises add that troops loyal to the provisional government are known to be near Petrograd, and a division of Cossacks is on the march from Finland. This news was given out at the Smolny Institute, headquarters of the workmen's and soldier's congress.

The garrison at Petrograd, which two days ago was said for the Kerensky cause, now is said again to be wavering in its allegiance.

REVOLUTION CRUSHED

LONDON, Nov. 11.—The following was received to-day by wireless from Russia:

"To all army organizations and commissaries: The revolt against the Bolsheviki is increasing in Petrograd. To-day open attacks against them began, and fusillades are taking place in the streets at some places. The telephone is in the hands of the Junkers. The Duvenin (?) was occupied by the general army committee, which has removed the Bolshevik guards.

"In Moscow the red guard was defeated.

"Premier Kerensky will approach Petrograd toward evening. Communication with him has been established. A delegation from the committee for the salvation of the country and the revolution has been sent to M. Kerensky.

"Liquidation of the Bolsheviki adventure is only a matter of days or hours.

"A regiment faithful to the government and the revolution in full agreement with the Cossacks, the soldiers' and workmen's delegates and all democratic organizations, occupied the Town of Tsarskoe-Selo and the chief radio-telegraphic station. The rebels are retiring in disorderly mobs on Petrograd.

The open alliance proclaimed between Sir Laurier opposition and the Bourassa Nationalists finally establishes the character of the Opposition war policy. No doubt realization of this will come as a shock to many who have been supporting the Opposition without realizing the extremes of opinion such support entailed.

Sir Wilfrid Opens Quebec Campaign

QUEBEC, Nov. 10—Acclaimed by a great gathering of men, women and children outside and inside the Dominion rink, Sir Wilfrid Laurier, opposition leader, opened his election campaign with a speech that carefully analyzed the policy of the government on conscription, food control and the manufacture of war munitions.

Sir Wilfrid received such a welcome in Quebec East as could probably not be duplicated in any city of the Dominion. Forty years ago almost to the day he received his first nomination in the division, and a petition to run in Quebec North presented to him tonight bears one signature that appeared on his nomination papers nearly half a century ago—the signature of J. Gauthier.

"Laurier is with us; the people are with Laurier," ran a device in huge letters over the platform.

The crowd began to gather outside the hall a couple of hours before the meeting. An hour later traffic was stopped. The hall was jammed from wall to wall with a crowd that shouted "Down with conscription!" and demanded that the correspondent of a government paper in Quebec should be thrown into the street. An appeal not to smoke "for Laurier's sake" met with an instant response. A blind man still bearing his plea for charity was allowed to make his way to the front of the crowd. With the rest, he shouted his assent to every word.

Revolver Shots In Quebec

Electors Refuse to Listen to Union Candidate and Riot Ensues

QUEBEC, Nov. 11.—Firing revolver shots and smashing every pane of glass in the office of Hon. Jacques Amedee, where the Hon. Albert Sevigny had retired after being refused a chance to speak a single word at the meeting of non-Union electors of Dorchester and surrounding counties, the population of Dorchester county showed itself disapproval of the Union candidacy of Mr. Sevigny this (Sunday) afternoon. This evening the trouble had subsided, but everyone was hot in the determination of keeping Sevigny out of the House of Commons, and the campaign bid on election day also.

When the Trouble Started

The trouble started at 2 o'clock this afternoon when Hon. Jacques Amedee, Prefect of the county, was chosen to preside. The meeting opened in front of the Amedee Hotel, the Conservative headquarters in the town. It was there that Mr. Sevigny attempted to speak, but received his first nomination in the division, and a petition to run in Quebec North presented to him tonight bears one signature that appeared on his nomination papers nearly half a century ago—the signature of J. Gauthier.

Two Accidents At Trenton

Newsy Notes of Busy Town on the Trent—Auto Collision

(From our own Correspondent)

TRENTON, Nov. 12.—Miss Jessie Maybee, for several seasons stenographer at Seiditz & Sons, is reported to be gaining strength at the Belleville Hospital, where she has been under treatment for a severe attack of typhoid fever, during the past six weeks. Miss Maybee contracted this during the epidemic of fever at Stockdale, and from which her brother, Mr. Manley Maybee and wife finally recovered, but which resulted in the death of Mrs. Maybee's brother, Thomas Memurter. It is expected that Miss Maybee will be able to leave the hospital next week.

COLLAR BONE BROKEN

Saturday morning Mrs Henry Rathbun driving in from her home on a farm in the vicinity of Consecon, attempted to cross the Trenton Belleville road to attend the market, and just then was getting her horse and big pot-bellied on the north-westerly side, a Canadian Northern freight train came along the track, which is very near to the market square, and the horse, being greatly frightened and unmanageable, threw Mrs. Rathbun out of the carriage, badly injuring her arm and breaking her collar bone. She was given immediate medical attention and as soon as her condition permits she will be removed to her home. The carriage was badly smashed.

Considerable excitement was occasioned Saturday morning on Dundas Street, near the Gilbert House corner, about market time, when a large car collided with a buggy in which were Mr. and Mrs. Wood, and shortly they escaped unhurt, except for a few bruises and being badly shaken up, while their buggy was considerably damaged.

Liberals Select A Candidate

But Pass Resolution in Favor of Avoiding a Contest in West Hastings

At a convention of the Liberals of West Hastings, held in this city Saturday, Lieut. Col. R. O. Ferguson was tendered nomination, his name being the only one placed in nomination. The nomination was not present, but a committee was appointed to wait upon him.

At the convention addresses were given by Mr. F. E. O'Flynn, president; Rev. L. M. Sharpe of Sidney; Dr. Simons of Frankford, and W. Wright of this city. The following resolution was adopted:

"That the Liberals of West Hastings have full confidence in the patriotism of the public mind, do hereby declare ourselves in favor of avoiding a contest in this constituency at the coming election if the public interest can best be served in that way."

"And we hereby express ourselves as favoring the adoption by each section of Liberals and Conservatives of a candidate whose past record is exactly the same as that of the leader who commands the confidence of both parties."

A committee of three was named with full power to act and carry out the spirit of the resolution and to meet a similar committee of Conservatives of the riding and see if a satisfactory agreement cannot be made.

Other resolutions were adopted pledging the party to support by every all measures calculated to assist our forces overseas in winning the war and to favoring the conscription of wealth and nationalization of essential war industries.

Tribunals Must Sit In Public

Minister of Militia Defines the Law For Exemption Tribunals

HAMILTON, Nov. 12.—"Tribunals are required to sit in public, except under special circumstances, as defined in Regulation 12," was the cablegram received from Major-General E. C. Mewburn, Minister of Militia and Defence, as the result of a telegram sent by H. A. Peart, a returned man, asking the Minister for a decision on the question, owing to the fact that some of the local tribunal officers had refused to furnish full particulars of the sittings to the press and the public.

GOVERNMENT ATTACK ON HIGH COST OF LIVING

Many Take Advantage of Cheap Fish Supply at Government Fish Hatchery and Lay in Winter Supply—Interesting Features of Fish Conservation

Fish, fish, and more fish, little fish and big fish, but fish in abundance, was the sight which a representative of The Intelligencer was privileged to see on a recent visit to the Dominion Government's fish hatchery on the shore of the Bay of Quinte adjacent to Belleville. Not only fish ready for the frying pan, but millions of prospective fish in the spawn being gathered to replenish the waters of the bay and lake with the increasing supply.

Mr. A. W. McLeod, superintendent of the government fish hatchery, gave the newspaper representative a very cordial reception and explained all the interesting features of the science of the conservation of fish and the prevention of the depletion of the waters by—constant care of the spawn and their development into "fry" and final return to the waters.

This season on account of the world scarcity of food and the high cost of living the government, acting in conjunction with the Fishery Department and the Food Controller, has decided that instead of returning the fish to the water after the spawn was deposited and secured from the fish, to give the people a chance to get a cheap food supply and dispose of the fish at a low price. This idea of action of the government was timely and appreciated has been evidenced by the rush to buy the fish, mostly white fish but a few herring, which are ready for the latter being greater than the supply as the course mesh of the nets permits the small fish to escape. Many of the people took advantage of the Government's offer to secure a supply of fish for the winter, and on Saturday when the representative of The Intelligencer visited the hatchery there were many farmers with rigs present to get a cheap food supply.

This being the spawning season for while fish the staff of the hatchery have been very busy, and every morning the pound nets have been visited in a gasoline launch and the fish secured. The fishermen are on expert that they can tell at a glance whether the fish are ready to spawn or not and those that are not are returned to the water.

Other seasons the fish after deposit-

THE BLOOD FORBIDS

Kingston Whig—Liberal

General Mewburn puts the war and its needs in the first place in our thoughts He tells us plainly that unless our army is replenished without delay Canada must disappear from the fighting line in France in the face of that decision. Sir Wilfrid Laurier strikes a mournful note when he asks for the suspension of the Military Service Act until the people have had an opportunity to vote upon it in a special referendum. No, the blood of the slain is a national cause, and the choice of the army in distress, call for action, and no other cry has any power with it in ascendancy and power.

ing their spawn were returned to the water, but this year for the reason above the fish are reserved for food.

The government buildings in connection with the hatchery are extensive and well fitted up and adapted to the purpose, including a comfortable residence for the superintendent, Mr. McLeod and his family. Under the hatchery section, some smaller buildings for various purposes and the main building, a commodious structure, is the latter building at the present time with 900 jars each containing spawn capable of producing 100,000 fish to each jar. A constant supply of fresh water feeds the jars and permits the spawn to develop until in due course of nature they become active—"fry"—and of their own accord find over the lip of the jars and into the long troughs which lead to a large reservoir where they are cared for until sufficiently developed to be set free in the waters of the bay.

The water, before reaching the jars, troughs and tanks, is prepared through a large and filter so that it is absolutely pure.

The development period occupies the winter months and in the spring the fish fry are ready for the water. Last year 1,000,000 whitefish fry were placed in the bay, and the million is soon trout. The constant supply of fresh water is an essential feature of the process and 125 gallons per minute of each minute. The buildings are all steam heated from the boilers and an electric pump has recently been installed which will be a supply in itself, by the Hydro system. And the latest improvements will be added for electric lighting.

In connection with the disposal of the fish for food purposes, Mr. T. J. Fisher, chief of the Fish Culture Department at Ottawa, was sent to the hatchery to handle the sale, and this gentleman has proved a most efficient official.

Mr. McLeod, superintendent of the hatchery, is a man who from long years of study and actual experience knows the fish breeding business in all its branches and in the right manner in the right place, and he has surrounded himself with a capable staff.

"UNITED CANADA" IS PREMIER'S WATCHWORD

Sir Robert Borden Issues Manifesto—Terms Military Act Democratic, Calling on Rich and Poor Alike, Making No Racial Distinctions—Compulsion Imperative

OTTAWA, Nov. 12.—Before leaving for Halifax yesterday, Sir Robert Borden issued his election manifesto. Laying down the promise that "it was necessary to sink differences and overcome prejudices" in order to obtain the object of a coalition government, he pledged himself to support the opportunity that a union government gives of extirpating old abuses that have grown up and furnished ground for successive governments. He pledges himself to the elimination of these.

But the way is the chief consideration. The essential outcome of the issue for the allies, he points out, required strong action, and the Military Service Act was necessary for recruiting full away. He emphasized that the act is a democratic measure in that it bears more heavily on the rich than on the poor. It is difficult for a young man of means to secure exemption than for the poor man who has dependents to look after.

The abolition of the patronage evil is promised by Sir Robert, also the wasteful duplication of railways, with all its wasteful expenditure. Compulsion, reasons, suffrage will be given, and in order to attain social justice in taxation, the old system will be revised.

"United Canada" is his watchword

CAPT. FARROW'S APPOINTMENT.

It is reported in Ottawa that Capt. Earl Farrow, R.F.C., son of Mr. R. King Farrow and a well known Ottawa aviator, will take full charge of the aviation ground and school for the Curtiss aeroplane people, at Dunwoody Institute, Minneapolis. He is now engaged on plans for the starting of an aviation school there, in the course of which he will visit the Canadian flying camps both here and across the border on inspections trips. Until recently Capt. Farrow was Flight Commander at Camp Mohawk.

LIEUT. BIGGAR WOUNDED.

In the casualty list of Saturday appeared the name of Lieut. L. H. Biggar, son of Mr. W. H. Biggar, vice-president of the Grand Trunk Railway Company, who has been wounded. Lieut. Biggar enlisted about two years ago and went overseas with the 148th Battalion commanded by Lieut. Col. Magee, but was later transferred to a Montreal Highland battalion in the firing line. He is only 19 years old, and the advice received by his family, who reside at 738 Pine avenue west, Montreal, state that he has been admitted to a London hospital.

The young officer referred to is known to many in Belleville, who will wish for him a speedy recovery.

"WHAT THINK YOU OF CHRIST IN ETHICS?"

Was the subject treated last evening in Emmanuel Church, being the second in the series which Rev. A. M. Hubly is preaching. Christ was setforth as the supreme moral and religious force in the universe of God. The fundamental principle of all ethics presupposes the existence of a personal authority. The essence of ethics is the binding power of truth. That power must be demonstrated by personal authoritative. It is obvious that unless that something is a person, and not merely a thing with out sense or feeling, to invest it with absolute authority would be impossible. To rule in the moral sphere that person must be omniscient. He must have the right and power to punish and reward. He must be just and holy, ruling in the consciousness of men, or nothing approaching practical morality could be produced. Any ethical teaching coming at the production of perfect life must entice to, and rely upon infallible authority with the attributes of diety. Such a personage is presented to us in the gospel and epistles for our acceptance as Lord and Master worthy of our confidence, obedience, adoration and worship. The loftiest and grandest thing that can be said by teachers, preachers or ethical writers, is, we have the mind of Christ.

The Million Dollar Victory Loan Drive Ushered in With All Kinds of Noise and Enthusiasm—Hastings County Knows Its Duty

After nine o'clock this morning every citizen of Belleville remaining in ignorance of the fact that Hastings County and the Dominion of Canada had started into the three weeks drive for the Victory Loan, was either deaf and blind, or a candidate for the Bay Shore rest station. Every noise producting instrument in the city was requisitioned for use. Church bells, fire bells, factory whistles, motor automobile horns and human voices joined in with the rest of Canada in the financial battle the same as her sons who have fought and died in the battle for the world's freedom. The men over there have done their duty. Now those who are unable to go over are about to do theirs. Every man, woman and child who is earning a single cent, or receiving an income, must buy a Victory Bond within the next three weeks. There can be no alternative. Any producer who refuses to take at least one Victory Bond of $50.00, which will cost $5 down, $5 Jan. 2nd, $10 1st of Feb., 1st of March, 1st of April, and 1st of May, is not only doing themselves out of an opportunity to save money which may never come again, but is giving comfort to the enemy as the result of the Victory Loan will be known in Berlin as soon as it is known here. Every man, woman and child will have to buy a bond to do as well as United States, where one in every ten of the population bought Liberty Bonds, and Canada will be second to none in her patriotism at home as her fighting men are second to none in the great Armageddon.

At 7.30 tonight the street lights will go out for three minutes to remind the citizens that it is their duty to go to the City Hall and hear the addresses on the Victory Loan by men who are familiar with the subject, and to listen to a programme of music by Belleville's leading artists. Rev. J. R. Patterson, of Toronto, who was formerly a chaplain in the C.E.F., will be the speaker of the evening. With him will be Sir Mackenz'e Bowell and Mr. J. W. Johnson, M.P.P. The musical programme will be taken care of by Belleville's best talent. There will be four selections in red quartette colors, being rendered by Mr. Mac-F. Nicholson, Mr. Harry Moorman and Mr. Ernest Hoock. Prof. Staples and Albert Cooper will contribute a number each. Instrumental music will be supplied by the Belleville Orchestral Society and the 15th Regt. Band under the leadership of Mr. Chas. Hanna. Every citizen of Belleville should start for the City Hall when the lights go out.

Ald. W. B. Deacon, the county chairman, marshalled his forces on Saturday night as he finished instructions to his district workers for final instructions before the big drive. He let them know that Hastings County must supply One Million Dollars to the Canada Victory Loan, and "A Million or Bust" will be the slogan for the workers of Hastings. This morning saw the workers on early and doing. Every man was in his place to sell the Victory Bonds, and the publicity committee was out in full force to plaster the town with the advertising matter, so that no matter where the people turn they will be confronted with a reminder of a duty that, or ye, to be done. Everyone who buys a Bond will be given a button to wear. It must be worn prominently, not in a boastful way, but for the moral effect on the man who has failed to do his duty, so that before the three weeks will be up a man will be ashamed to appear in public without a button. The absence of the button will be far more conspicuous than the wearing of it. If a bond is bought for the baby, or for the wife, or all the children, every one of them should wear a button. It is their duty, just as much as buying the bond. Because, if you, reader, were satisfied with doing your own duty, you might be the only one who bought a bond. This would be very little good for your country. It is your duty to see that the other person does likewise.

Many merchants have kindly given their newspaper space to be used by the Publicity Committee, and it would be well to read these advertisements, which are terse comments on the necessity of subscribing for the Victory Loan.

An announcement will be made from the stage at the City Hall tonight of the result of the first day's canvass, also at Griffin's theatres.

Automobile owners should call at headquarters and receive their stickers for the windshields. Merchants can get letter stickers, small advertising matter, etc., by calling at the rooms and they will assist the Publicity Committee by doing so.

Now, all together, BOOST, BOOST, AND MORE BOOST FOR CANADA'S VICTORY LOAN AND HASTINGS COUNTY'S ONE MILLION DOLLARS.

Private John Jones Dangerously Ill

The following telegram was received yesterday by Mr. Thomas Jones of this city:

Ottawa, Nov. 11, 1917.

Thomas B. Jones,
75 South John Street,
Belleville.

Sincerely regret to inform you that (63674) Pte John Jones, infantry, is officially reported dangerously ill at South British Red Cross Hospital, Etaples, November 6th, 1917; gunshot wounds in right leg.

Director of Records.

Pte. Jones is well known in this city, where he has resided all his life. He enlisted and went overseas with the 155th Battalion. Previous to enlistment he was employed at Marsh & Henthone's establishment. His many friends will hope for his recovery.

The Tenth International Purity Congress is meeting in Louisville, Ky.

The fate of the prohibition measure now being voted upon in the State of Ohio, still remains in doubt.

The will of Private F. V. Flannery, of Detroit, who was killed with a Montreal battalion, scribbled on the battle field, was admitted to probate in the Wayne County Court.

In District Orders, a recent order-in-council, passed at Ottawa is published. It deals with the discharge of returning soldiers and the payment of the post-discharge pay to those entitled to it. It says in part: "when a board of medical officers has recommended discharge on account of physical unfitness of a soldier entitled to three months' post-discharge pay, discharge shall not be carried out until the day on which the soldier received the first payment of the post-discharge pay or an advance on account thereof. In such cases the ministerial document and proceedings of the medical board shall be immediately forwarded through the regular channels to the Board of Pensions Commissioners in order that the question of pension, allowance or gratuity may be considered.

LETTERS TO THE EDITOR

MOORE ON TRAITORS

Editor of The Intelligencer:

Dear Sir,—The poet Moore of Ireland, known the world over as the author of "The Canadian Boat Song," "Lallot Rook," "The Meeting of the Waters," and a vast number of poems which gave him the reputation in his day as the greatest lyric poet, once lived in a vine-wreathed cottage at Lachine, on the north bank of the noble St. Lawrence. No poet ever wrote more beautiful, heart-bending lays than Moore. He had an Irish heart, and like every Irishman the world over, he was particularly fond of the bewitching charms of Irish maidens.

That lovely song which even in these days frequently appears upon programmes of great singers, "Drink to me only with thine eyes, and I'll reply with mine, and leave a kiss within the cup, and I'll not ask for wine," was written by him. Perhaps some of your readers heard David Bispham sing the song. Poor Sims Reeves often sang it, quite as often as he sang his masterpiece, "My Pretty Jane."

I was talking with the Hon. Thomas D'Arcy McGee, the Cabinet Minister who was murdered by a Fenian. We were speaking of Moore's weakness for pretty faces. It seems that upon one occasion some gentlemen were joking McGee upon this point in the presence of Mrs. McGee, who smiled, and looking at her husband said: "Ah Thomas, if I have great faith in your ugliness." McGee had by no means a beautiful face.

Moore detested a traitor. He felt that there was no criminal upon earth who could compare in depth of villainy with a traitor.

In Lallot Rook occurs this wonderful invective, unmatched in the world of letters. I quote it *nor* because every country at war has its nests of traitors. Russia has been ruined, Italy suffered a frightful defeat. The bottom of the North Sea is strewn with the bodies of thousands of splendid sailors and others sent to their doom through the traiterous action of some of their own compatriots.

Oh, for the tongue to curse the slave, Whose treason like a deadly blight, Comes o'er the counsels of his land! And blasts them in their hour of might. May life's unbleased cup for him, Be drugged with treachery to the brim, Like Dead Sea fruit which tempts the eye, But turns to ashes on his lips His country's curse, his children's shame, Outcast of honor, virtue, fame, May he at last with lips of flame On the parched desert thirsting die, While thirst which abuse in mockery Will aid, Are fading off, untombed, untasted, Like the once glorious hopes he blasted, And when from earth his spirit flies, Just Prophet, let the damned spirit who died Fall in the sight of Paradise, Beholding heaven, and feeling hell.

Kane, R. H.—"I was all run down, had no strength, no appetite and could not sleep, but has a good rest of the time I was unfit for work. My druggist told me about Vinol, I took it, and my cough soon disappeared, my appetite improved and I am strong and well again."—Mrs. Irene Russell Kane, R. H.

Vinol is a constitutional cod liver and iron remedy which creates an appetite, aids digestion, enriches the blood, and in this natural manner creates strength for weak, nervous people.

POLICE REPORTS

Several reports were made to the police on Saturday of articles lost and two reported the loss of money. There were also two reports of robbers being unable to find the address of parties in the city they had sold articles of produce to.

RUSSIA AND SOCIALISM

Russia and socialism was the subject discussed at Christ Church last evening by the Rector, Rev. Dr. Bingham. A large congregation was present and the learned Rector gave a comprehensive and instructive address on the subject briefly depicting Russia and the position in which that country is in to-day, but predicted that it would all work out for good. He also referred to the reassuring news which had been received in reference to the condition of affairs.

LIBERAL CONVENTION

The much advertised Liberal Convention for West Hastings was held Saturday afternoon and fully as many as fifteen or twenty were present to discuss a Liberal's chances of election in the West Riding. The situation was canvassed from every angle, but none of those present expressed a desire to lend a forlorn hope against a Union Government Win-the-War candidate. Finally after a little of the frost had thawed from the feet of those present, three Liberal stalwarts, headed by the "Editor-in-Chief" of the local Laurier sheet, which up to the present has not said or can find anything in favor of Union Government, went into the streets seeking a Liberal candidate and after some search found Lt.-Col. E. D. O'Flynn and preferred him the nomination for West Hastings. We understand that Col. O'Flynn has taken the matter under consideration. When weighed, estimated and calculated, will he accept? —We think not.

WILL CONTEST ALL QUEBEC CONSTITUENCIES

OTTAWA, Nov. 12.—Union in Quebec has apparently taken a different form from the rest of Canada. Set aside that province Conservatives and Liberals are working in support of a non-partisan Ministry. In Quebec Liberals and Nationalists, erstwhile antagonists, are merging their forces to do battle with the new administration.

The open adherence of the Nationalists to Sir Wilfrid Laurier, as announced by their leaders and organ, is regarded here as the outstanding development in the political situation today. There had been expectations of three-cornered fights in many Quebec constituencies, but the merger that is now brought about is presumed to preclude the possibility of this.

In Government circles, however, it is stated that the latest alliance will not deter the Government from contesting every Quebec electoral division, while it will tend to solidify the Unionist vote outside of that Province.

A complete wireless receiving outfit has been discovered by Federal agents near Norwich, Conn., concealed in trees, 150 feet from the ground.

Don't say "Breakfast Food"—say "Shredded Wheat"—for while you no doubt mean Shredded Wheat, you may get one of those mushy porridges that are a poor substitute for the crisp, delicious shreds of baked whole wheat—that supply all the nutriment for a half day's work. Two Biscuits with milk or cream make a nourishing meal at a cost of a few cents.

LAURIER'S SIGNATURE

Toronto Telegram

The Telegram trusted Sir Wilfrid Laurier's promises in 1896 and helped to bring the cabinet ties of Laurierism upon this country by supporting the Laurier campaign. The Telegram learned that the Laurier government never kept a promise that could be profitably broken. The people who believe that SIR WILFRID LAURIER WOULD, IF RETURNED TO POWER, STOP PROFITEERING BY BRAVIER TAXATION are easily deceived. The people of Ontario and of Canada's recruiting provinces are enlightened by an experience that has taught these people the value of the promises in the Laurier manifesto. Sir Wilfrid Laurier's signature to a manifesto promising to respect the rights of the Canadian people against the profiteers is worth just as much as was Germany's signature to a treaty promising to respect the neutrality of the Belgian people against all invaders.

UNDER WHICH FLAG?

"The supreme question to be asked of candidates is: Will 'is your party' leader which flag, Borden or Laurier? Union Government, or party government? The flag which stands for Canada's honorable continuation in the war, made sacred by the life blood of so many thousands of our sons, for Canada's support of Canada's forces at the front until victory is achieved, or the flag which stands for referendum, for delay, for slackening, for cessation of effort at the instance of elements in our population who are indifferent or hostile to our participation in the war?"—Sir Thomas White at Brockville.

POTATOES.

An amateur agriculturist informs us that while potatoes last spring were in the market selling at prices ranging from $4 to $5 a bag, he decided to test the productive qualities of a couple of them. To carry out his test he selected two of good size weighing one pound six ounces—one containing fourteen eyes, and the other thirteen. One he cut into fourteen pieces, each piece containing one eye. These he planted in a row about eight inches apart. The other one he cut in seven pieces, six of which had two eyes, and one, only one. These he planted in a similar manner to the one-eyed ones, and when the crop was harvested this fall the result was a yield of 90 pounds and two ounces.

With a return to the husbandman of a percentage like this, why should potatoes command the price they do in the markets? A combination of speculators and middlemen, not the farmer who grows them, is the answer. This fact is illustrated and proven by a contemporary, which says it has been informed that:

"Men who are not potato factors are speculating in this year's crops. Information has been received that profits amounting to two hundred dollars per carload of 330 bags have been raised in by Toronto middlemen. Potatoes drawn from Grey and Simcoe counties brought the farmers eighty cents f.o.b. early in October, and settled the middlemen in Toronto sixty cents per bag. Forty carloads were shipped from one station up to November 1 last, and thirty carloads are still in sight. It should be possible for the Food Controller to ascertain the facts and let the public know whether the farmer and the consumer are getting a square deal in the matter of potato prices."

Is this not a special case for the Food Controller to investigate and summarily treat?

Correspondents of the Food Controller's office on the 8th inst. reported the following wholesale prices for potatoes, all quotations being on the basis of a 90 lb. bag:

Toronto—Ontario stock, $2-2.10.

Ottawa—Ontario stock, $1.90.

Montreal—Ontario and Quebec stock, $1.75-$1.90, in car lots on track.

Quebec—New Brunswick, Quebec and Lake St. John, $1.90-$2.00.

St. John—New Brunswick and Prince Edward Island stock, $2.00-$2.25.

Halifax—New Brunswick and Prince Edward Island stock, $2.20.

Hillsburg, Ont.—Growers receiving $1.75 in bags.

Daily Progress Of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

Acclamation for Hon. Hugh Guthrie seems likely to South Wellington.

Frontenac Liberal Association has asked Hon. N. W. Rowell to address its members.

Supporters of the union in North Waterloo call convention for Tuesday.

South Waterloo Conservatives refuse suggestion of Liberals to call new convention to select union candidate.

Senatorship suggested for Lieut.-Col. Coles to withdraw from contest in London. He bitterly denounces proposition.

John Herold refuses to resign with Henry Cockshutt and give Brant seat to Hon. N. W. Rowell. He remains Cockshutt his own offer was refused.

Liberals of South York refuse to accept Conservatives' invitation to attend a union convention, and will select a straight Liberal candidate.

Essex Liberal convention showed majority for Laurier. Hon. G. P. Graham was rejected on vote, but nomination of Laurier man voided. Convention resumes Tuesday.

East Hamilton Liberals, at lively convention, rejected General Mewburn, denounced union government, stand by Laurier, and decided to contest riding with straight candidate.

TO SELECT UNIONIST

TILSONBURG, Nov. 12.—At an executive meeting of South Oxford Conservatives here Friday evening a poll from the Liberal executive to drop their candidate, M. S. Schell, if the Conservatives will drop Donald Sutherland was considered and a committee named to meet the Liberals with a view to selecting a union government candidate.

LAURIERITE OPPOSED TO WAR

MONTREAL, Nov. 12.—J. A. O. Ethier, late Liberal member for Two Mountains, has signed a pledge by which he declares that, if he is re-elected, he will ask for the repeal of the Military Service Act, even if the Liberal party opposes such an attitude. Ethier further says that he is opposed to voluntary enlistment and to all participation in the war.

McCREA IS LAURIERITE

SHERBROOKE, Que., Nov. 12.—Mr. F. N. McCrea, who represented Sherbrooke County in the last Parliament, has nailed the executive committee of Liberals that he accepts the nomination offered him some time ago. He is in the field as a straight follower of Laurier.

Three prominent members of the Manitoba Grain Growers' Association will be members of the next parliament. They are Hon. T. A. Calder, minister of agriculture and president of the United Grain Growers, Ltd., a farmers' company with a five million dollar capital; R. C. Henders, president of the Manitoba Grain Growers' Association, and Roderick McKenzie, secretary of the Canadian Council of Agriculture, an executive body representing the United Farmers of Ontario, the United Farmers of Alberta, the grain growers of Manitoba and Saskatchewan. All three gentlemen are members of the Manitoba Grain Growers' Association, and took an active part in the annual convention of that association held at Brandon last January.

The Toronto Telegram publishes the following special from Medicine Hat: The published statement of R. B. Bennett, K.C., late M.P. for Calgary, that he cannot conscientiously accept a nomination for this parliament because of fundamental differences of opinion between himself and Sifton dating back to the very entrance of Sifton into provincial politics has created somewhat of a stir here, but it is no secret that Bennett's attitude on union government is sound, and he will exert his influence for the cause.

Robert Cruise, the Liberal member for Dauphin, who voted for the Military Service Bill and against the referendum at the last session, will be the union government candidate for re-election in that riding at the coming election.

The Political Situation

(Picton Gazette)

Prince Edward County is drifting into a partisan contest there is Union Government in Ottawa but division here Canada's political leaders on both sides have forgotten their differences and are working together for the good of the country. They realize the terrible seriousness of conditions throughout Canada and all over the civilized world. It is because the people of Prince Edward County have not begun to realize the great seriousness of the present situation that they are not following the examples set them by their leaders!

Canada is in the midst of the greatest war that the world has ever seen. Her sons are blooding on the battle lines of France and calling for reinforcements. Men, money and munitions are needed. Canada is being burdened with the problem of giving them the men and raising the money to finance Canada's obligations. To do this many of the most high in political life in Canada have sacrificed their personal ambition that Canada may stand united.

Only one thing has been no serious effort on the part of, those in control of the political destinies of this county to meet on a common ground.

Fifteen people of this county could have their way there would be no election. Why can they not have their way?

The Conservative Executive have shown a disposition to negotiate. Other efforts met with no response. It is idle to say the terms were not acceptable, for no counter proposition has been made.

At the meeting on Saturday last the Liberal speakers devoted their time to condemning the old Borden Government. Those men are living in a past age. This government does not exist. Whatever may have been its shortcomings, of what avail can it possibly be are living in a past age. That government does not exist. Whatever its stead. In it the leading Liberals of Canada have been given honorable positions. The War Cabinet is controlled by Liberals and this is the recognized political authority in Canada's new Union Government. What more do the Liberals want? Surely Prince Edward County Liberals will not be misled. They will rally to the support of the Union candidate and make his election sure.

Buy A
Victory Bond
by following the
Gillette Banking System

DO you pay a man to shave you every day? Then you're lucky if it doesn't cost you more than the price of a $50.00 Victory Bond a year!

This shaving outlay might be $50.00 well spent if it saved some of your own valuable time. But on the contrary it takes three or four times as long to get shaved away from home, as to shave yourself with a Gillette Safety Razor. You're not only wasting your money but your time as well—and you are taking up part of another man's working hours which should, under present conditions, be spent at something of greater service to the nation.

If you have been using a Gillette you have been saving $1.00 per week at least. Buy an extra $50.00 Victory Bond for each year that the Gillette has saved that much for you!

If you haven't been "banking" money this way, buy both a Gillette and a Bond now, and let one pay for the other! Do the same for your son, as a double lesson in practical patriotism and self-reliant thrift.

Dividends will be double, too—from the Bond in cash, and from the Gillette in such shaving comfort as can be secured in no other way.

NOW is the time to make the investment!

Buy your Bonds from your Banker, Broker or Local Committee.
Buy your Gillette from your Druggist, Hardware Dealer or Jeweler.

CHAPTER I.

The Call of Jether.

THE setting sun, disappearing over the western mountains of Judea, left the valley of Hebron wrapped in shadows.

It was the evening of the first day of the week, and the cool of the day, following the heat of the sun, was welcomed by the people of Hebron, who, in all directions, were coming from the fields, their day's labor finished. Some were driving flocks of sheep and goats before them to the folds; others were leading their cattle to the watering troughs, while many were carrying upon their shoulders implements of husbandry, or bearing together the watchful eyes of the Lord to prepare them for the coming of the night. To the east and to the west the shadows of the hills were made, for what they were designed for not. To the north of Hebron, the ancient city where the great King David had first reigned, and beyond that—somewhere in the distance—the sun had paused—was a great and wondrous city of beautiful buildings, and rich and costly palaces, all fashionably dressed (oh—pardon me, but of this the maiden knew not, nor did she desire to know). With a sigh she resumed her work with the spindle.

Within the home of Jesse all was astir. Preparations for the morrow was the subject of the conversation that prevailed in the house. The trumpets called the people of Israel to the feasts, and from that labors to prepare for the coming had been always present the minds of the household. Accompanied by Abi, who the faithful Hannah, she was to go to Shiloh, the city of Jesse, there many years, gathered up the clean linen, which, in the days of the feasts, were hung out to dry. Hannah, the mother of Jether, was busy preparing the meals for the women, grinding the corn between two large flat stones, baking the cakes and preparing the vegetables in a stew.

Jether, with a spirit—never, perhaps, more winging in part of his life—eagerly the girl, watching from the door of the tent, the first flashes of some sign which led to the courtyard of the tent. "Come, come, Abi," cried the girl anxiously, "the feast soon Jether!"

The white-haired maid was with a young lad's energy, eagerly to his call. "Coming, coming, Jether," she answered. "Be patient, child. Abi will be with you soon. Your mother bids you wait, and you must not disobey her. Abi will be with you soon. Your mother bids you wait, and you must not disobey her. Abi will be with you soon. Your mother bids you wait, and you must not disobey her

STAR STREET WEDDING

Sunday Week when Miss Dorothy Wood, a member of the Queen's Conservatory School for Husbands," "Tracey Bridge" and "Jack" Pat Rooney, at the Palace tonight to Wednesday matinee daily, in "Her Strange Wedding." This is one of the most unusual and startling pictures in which Miss Rooney has appeared and she is supported by a cast of unusual excellence including Jean Paige, Tom Forman and Billy Elmer.

"THE ONLY GIRL"

Among the latest additions to Victor Herbert's list of musical comedies, is "The Only Girl", announced for an engagement at Griffin's Opera House tomorrow night.

It has been said that Victor Herbert wrote the score of "The Only Girl" in the Adirondacks, while at his camp at Lake Placid, during the summer months, which no doubt helps to account for the breezy, bracing quality which it abounds in. Among the most popular of its many numbers is "Nobody," "When You're Away," which is introduced in the first act. It come again as an interlude, between the acts first and second and runs as a leading motive throughout the score. It is also worthy of note that much of the merit of the musical numbers arise from the fact that they grow naturally out of the situations instead of being, as is so often the case, dragged into the scene.

"THE WHIP", TONIGHT

A thoroughly consistent and wholly pleasing story is told in "The Whip," which will be the attraction at Griffin's tonight and Wednesday night. The story deals with the interest which is wound around a famous race horse bearing the name of "The Whip." Upon the possession of "The Whip" winning the great race depends the fortunes of several people. A love affair also hangs on the result of the race. When several of the people who are betting against the horse winning find that "The Whip" is certain to win the race they go to great lengths to prevent the horse from appearing on the track. The thrill of the picture are many, several of the scenes alone being spent for a train wreck for just one of the big scenes, and an automobile was smashed to bits in the most thrilling automobile accident ever seen on the screen.

The Mutual News Weekly and two other selected photoplays will also be screened on the same program.

Doctors Said Operation

When Chatham Lady Suffered From Extreme Nervous Exhaustion — Now Feels Just Good Working Large Garden

Chatham, Ont., Nov. 12.—This letter should interest every lady reader because it describes a condition for which many doctors advise an operation. That operation is often unnecessary and very often leaves the patient in invalid for life as is well known.

You will read here of what Dr. Chase's Nerve Food has done for this lady and will then understand the reason why it is accomplishing in many thousands of similar cases throughout this continent.

Every woman should think long and earnestly before consenting to an operation of this kind. It is a simple matter to give Dr. Chase's Nerve Food a trial and the results are almost always entirely satisfactory. You not only avoid the risk and expense of an operation, but find yourself restored to health and vigor.

Mrs. R. McE. Ford, 32 Delaware avenue, Chatham, Ont., writes: "For four years I suffered from my nerves. I was restless and could not sleep well. I had headaches, neuralgic pains through the body and kidney ache. There was a buzzing in my head constantly. I had indigestion and insomnia. I also had palpitation of the heart, which caused shortness of breath. I was easily tired and felt weak away after eating. When walking or on my feet long at a time, feet would seem to go dead in my shoes. I consulted two doctors and both told me that I would have to have an examination and probably an operation, but I would not have either. Shortly after this I commenced using Dr. Chase's Nerve Food, and after a treatment of this medicine I can say I am now feeling fine. I am able to do my household duties without difficulty, and besides this, attend to a half-acre of garden. I can say about without that dead feeling in my feet, and am grateful to Dr. Chase's Nerve Food for my cure and think very highly of this medicine, and can commend it to other sufferers whenever I get an opportunity."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for $2.75, at all dealers, or Edmanson Bates & Co., Limited, Toronto. Do not accept substitutes which is unbeliavable. Imitations only disappoint.

The Anti-Saloon League of New York, declares it will introduce a bill to prohibit the manufacture, importation and transportation of liquors in the States during the war, at the forthcoming session of the State Legislature.

Mrs. Wilson Gave Up Rose, Gains 22 Pounds on Tanlac And is Now a Well Woman

"For two years I spent all my time either in the hospital, in bed or in a rolling chair, and during that time I was given up to die, and I don't guess I would be here now if it hadn't been for Tanlac," said Mrs. E. G. Wilson, Mrs. Wilson is well-known in Atlanta, Ga., her husband having been employed by The Constitution, one of the leading newspapers of the Dixie States, for a number of years.

"I was a great sufferer from chronic indigestion," continued Mrs. Wilson, "and don't guess anybody ever had to go through with what I did. I was very weak and nervous, and at times had those dreadful smothering sensations to the point of fainting spells. I had constant pains, especially across the small of my back and over my kidneys and all my joints ached all the time. For two years I had to have delivery on boiled milk, toast and soft boiled eggs, and even that didn't digest well, and would sour in my stomach. I didn't know what it was to get a good night's sleep. I took one kind of medicine after another until our home was literally filled with empty bottles, but instead of improving I was getting worse all the time. Finally they took me to the hospital for treatment, and I lay there for five long months, but even then didn't make any real gain. My husband's wages to pay my doctor and drug bills—our drug bill alone amounted to fifty or $15 a month, and one doctor bill amounted to $100.

"I looked like a skeleton and had failed to help me, and I had about given up all hope when one day my husband brought a bottle of Tanlac home with him and asked me to take it. He said he had been reading and hearing a lot of good things about it, and didn't see any reason why it shouldn't help me. I was confined to my rolling chair when I began taking it.

"Do I look like an invalid now? I certainly don't feel like one, and I have solidly gained twenty-five pounds on eleven bottles of Tanlac, and feel as well as I ever did in my life. I look after everything I need—even do my own housework. Have a large garden, and can't have it spaded, raked and rolled any better than I get it myself, and I sleep like a log and eat about as much as anybody. And just the other day I walked downtown, and I am running around the neighborhood calling on my friends nearly all the time. It's literally a pain about my health to tell it to my friends, and a man in Atlanta, and I think I have a right to be. I think my recovery is kind of a miracle, for nearly all our neighborhood thinks the same."

Tanlac is sold in Belleville by Ostrom's Drug Store, in Trenton by J. Mallon, in Stirling by J. S. Morton, in Madoc by J. Will Vince, and in Marysville, by T. J. McAlpine."

Military To Seize All Defaulters

OTTAWA, Nov. 10.—Every man who comes into Class One under the Military Service Act, and who refuses to apply for exemption or report for service before midnight Saturday is liable, if he is apprehended later, to a term of five years' imprisonment. By the provisions of a special order-in-council, which is given for the arrest with or without warrant of such absentees, and such defaulters must have a reasonable excuse for default or they will be held guilty. Application with the Minister of Justice as to the disposal of their cases. The order-in-council provides that those who surrender themselves voluntarily as defaulters under the Act into civil or military custody shall not be prosecuted. They may even make claim for exemption, but their claims will have to be made through the officer commanding the military district to which they belong.

It was said to the Canadian Press by a high official connected with the military service council that all men who come into Class One under the Military Service Act have had full notification of soldiers on leave ever since Oct. 12. Those who voluntarily came forward and made claims for exemption, whether they reported for service or claimed exemption, had their leave extended, as it were, until Dec. 10, the date the first draft is to be called up. On the other hand those who failed to register and this extended leave and became soldiers at midnight Saturday. They will be put in uniform at once and kept on active duty pending the disposition of their claims for exemption. All men who fail to register and have not been sentenced to imprisonment, whether they have been arrested or have surrendered themselves voluntarily, must be delivered by the civil police into military custody.

Provisions for Disposition Various Appeals for Exemption According to Reasons Given

Under the Military Service Act and provisions governing the consideration of appeals to be referred to the entire military service various dispositions may be made of the appeals as laid down in the following fourteen clauses for the guidance of the Exemption Tribunals in considering and disposing of appeals:

3. Allowed until——for——191-.
4. Allowed until Class 2, 3, 4, 5, 6, as the case may be is called out by proclamation.
5. Allowed until he ceases to be employed as at present.
6. Allowed if he receives employment within so many days as——and until he ceases to be so engaged.
7.—Allowed until he has completed his education or training as a——not in any event to exceed——months.
8 Allowed by reason of financial obligations until the——day of——191-.
9. Allowed by reason of business obligations until the——day of——191-.
10. Allowed by reason of domestic position until the——day of——191-.
11. —Until the services of men in medical category B, C, or 4 as the case may be are required.
12 Until his physical fitness has been finally determined and his services are required.
13. Exempted from combatant service on account of religious belief.
14. Exempted from combatant service under the War time Election Act.

Conditional Certificates

(a- A certificate may be conditional as to time or otherwise, and, if granted solely on conscientious grounds, shall state that such exemption is from combatant service only.

(b- A certificate granted on the ground of continuance of education in training, or on the ground of exceptional financial or business obligations or domestic position, shall be a conditional certificate only.

(c) No certificate shall be conditional upon a person to whom it is granted continuing in or entering into employment under any specified employer or in any specified place or establishment.

(d) A certificate may transfer a man to the class next in numerical order.

(e- When a conditional certificate is granted the conditions shall be stated on the certificate.

(f) It shall be the duty of any man holding a conditional certificate within three days after the conditions stated therein cease to exist or after his exemption terminates to give notice in writing of such fact to the Registrar of the province in which he ordinarily resides, and if he fails without reasonable excuse to do so, he shall be guilty of an offence and liable on summary conviction to a penalty not exceeding two hundred and fifty dollars

Renewal, Variation or Withdrawal of Certificates

(a) Subject to such conditions as to application and notice as may be provided by regulations, a certificate may, during the currency thereof, be renewed, varied or withdrawn at any time by the local tribunal issuing the same.

The hearing of the deserters filed by officers and editors of the Philadelphia Tageblatt to the indictments against them, which include treason, have been postponed indefinitely.

WAR TIME ELECTION WHO CAN VOTE

The main provisions of the War Time Election Act, its correct interpretation of which is the ordinary duties of first reading somewhat changed in legal phraseology, are provisions are as follow:

Every Canadian solder, firespective of sex or other qualifications, is entitled to a vote i the coming Federal election.

The female relative, that is daughters, mothers, sisters, wives or widows of persons, male or female, serving in the British and Allied forces of Canada or of soldiers who have left their lives while serving in the British army outside of Canada, are entitled to a vote in his election. This also includes all such female relatives of a nurse who is serving without Canada in the British army, but female relatives of a soldier who has been dishonorably discharged from the British Army, are not entitled to a vote in this war time election.

In order to extend the franchise it is provided that people who have all qualification to vote but who at previous elections were debarred from voting because they were holders of public offices, will have the right to vote at the war time election.

Mennonites or Doukhabors not liable for service under the Military Service Act because of the fact that their religion principles do not permit them to fight, are entitled to a vote provided they do not take advantage of their privilege of staying

Prize Address

Congratulations to His Lordship Hon. Justice Masten Upon His Elevation to the Bench

At the opening of the fall assize before the Hon. Justice Masten, this afternoon, Mr. R. J. Butler, President of the County of Hastings Bar Association, extended congratulations to His Lordship on his elevation to the bench. Col. W. N. Ponton, K. C., and Mr. W. D. M. Shorey also spoke in support of the congratulatory resolution on behalf of the Province.

His Lordship thanked Mr. Butler and the members of the bar for their kinds words so well spoken. It was a case of great satisfaction naturally to one who has spent the greater portion of his life in the practice of law to hear such kindly words from the members of the bar. So far as lay in his power by diligent search and otherwise he could be depended upon to uphold the lofty ideals of the bar.

In conclusion His Lordship thanked the members of the bar who had spoken in reference to his elevation to the bench.

Messrs. John Munro, Angus Martin and Samuel Curry were selected to serve as grand jurors in the place of those who were absent.

The grand jury selected Mr. Samuel Curry as their foreman, and after the members had been sworn in his Lordship charged the jury. There were no cases of murder, another of a serious nature, and three parties are charged with interfering with a railway track, thereby endangering life. His Lordship explained the nature of the cases which would come up for consideration before the grand inquest. Where murder is charged the grand jury may, if they so consider, reduce the charge of manslaughter. The law regarding cases referred to by His Lordship, who also explained carefully of the other cases which the grand jury consider would be called upon to investigate.

In the discharge of their important function the Court would be found ready to assist them. The City was not to try the case but to find whether a sufficient evidence to place the accused on trial. Seven must agree to find a true bill.

The grand jury could visit institutions that are assisted by the government if they desired.

His Lordship said this was a critical time in history. They have gone from this county to defend our homes and many will not return. They have made the supreme sacrifice, a sacrifice which we all feel. His Lordship spoke at some length upon the prohibition question, and the necessity there was for us all to do what we can and ought to do.

AUDITORS' REPORT.

We have checked and verified the Cash, Investments and Securities of The Molsons Bank at the Chief Office and Branches on 30th September last. The above Balance Sheet is in accordance therewith. We have also examined and verified the Cash and Securities held at other important Branches of the Bank.

We have compared the Certified Returns from all the Branches with the entries in the Books at the Chief Office of the Bank as at 30th September, 1917, and find that they agree therewith; and all the transactions which have come under our notice have been within the powers of the Bank.

We have obtained all the information and explanations we have required, and we certify that in our opinion the above Statement is so drawn up as to exhibit a true and correct view of the state of the Bank's affairs on the 30th September, 1917, according to the best of our information and the explanations given to us and as shown by the Books of the Bank.

BUY A VICTORY BOND

Buy More Than One if You Can

But Make Sure of that One

Here Are Three Reasons Why We Consider That Every Man Should Buy One or More Victory Bonds

Patriotism

To lending your money to your country you are performing a patriotic duty—in fact it is an obligation you owe your country. If you cannot lend your physical assistance lend your money.

Business

The money you lend your country in return for a "Victory Bond" is all spent in Canada to pay Canadian workmen. If the workingman prospers, then all business prospers.

It is an absolutely sure investment backed by all the resources of the Dominion of Canada.

Personal Interest

Your investment in a Victory Bond will be a remarkable one because it will fill both the above obligations and yet remain to return a handsome cash profit.

WHATEVER WAY YOU LOOK AT IT, A VICTORY BOND DIRECTLY BENEFITS YOU

The Ritchie Company Limited

Violinist Aviator Talented Musician

Musical Treat Under Auspices of Canadian Red Cross Society

The music-lovers of Belleville are greatly indebted to Mrs. James Grant for a Saturday evening concert of unalloyed pleasure.

Under the patronage of the Canadian Red Cross Society, Mr. Donald MacBeath, the celebrated Australian violinist, who is attached to the Royal Flying Corps at Mohawk Camp, generously presented a most attractive and delightful programme in the High School Assembly Hall. Mrs. Duff presided at the piano as accompanist and performed her difficult task admirably. Mrs. James Grant and Miss Dorothy M. Grant were the soloists of the evening. All of the talented artists were rapturously encored by the large audience.

Every number played by Mr. MacBeath was a masterpiece and held the audience spell-bound. Mr. MacBeath began to study the violin at the age of eight years. In a few years, and while very young, he was esteemed the best violinist in Australia, and was selected to play with the world-renowned Quinlan Symphony Company. Mr. MacBeath appeared in khaki, and is going to the front to do his "bit". He has given his services artistically in support of the "old flag" in its hour of trial. Let us hope, and expect, that as an airman he will achieve as marked and signal a success as he has as a violinist.

Travelling for six years with the celebrated John McCormack, that gentleman has declared that Mr. MacBeath is the equal of any of the great masters, not even excepting Ysaye and Kreisler.

A hearty vote of thanks was moved by Mrs. Hunt, carried enthusiastically and presented to those taking part in the programme by Mrs. O'Flynn, who presided in her usual charming manner.

The programme was as follows:

Chanson San Paroles ..... *Tschaikowski*
Daddy's Sweetheart ..... *Lehman*
God Send You Back to Me ..... *Adams*
Miss Dorothy Grant.
Old Vienna Waltzes ..... *Kreisler*
(1) Schan Romarea.
(2) Liebesfreud.
(3) Libesleid.
"Vale" ..... *A Russell*
Miss Dorothy Grant.
Romance ..... *Wieniawski*
Le Cygne ..... *Saint Saens*
Minuet ..... *Berthoven*
The Rosary (by request) .....
Mrs. Jas. Grant.
(Violin obligato by Mr. MacBeath.)
Reper d'Amour ..... *Liloen*
Miss Dorothy Grant.
(With violin obligato)
Zigeunerweisin ..... *Sorsole*
Canlo Amoroso ..... *Lenarcike*
God Save the King.

VOL. 8 BELLEVILLE, ONTARIO, TUESDAY, NOVEMBER 13, 1917. NO. 191

WAR POLICY OF THE UNION GOVERNMENT

Premier Borden's Manifesto

WAR WILL BE PROSECUTED WITH CEASELESS VIGOR—NATIONAL UNITY TO BE STRIVEN FOR — ECONOMY AND EFFICIENCY THE WATCHWORDS, AND ELIMINATION OF PATRONAGE EVIL — PUBLIC OWNERSHIP OF RAILWAYS — MILITARY SERVICE ACT AND OTHER PROBLEMS — NECESSITY OF UNION GOVERNMENT — FRANCHISE FOR WOMEN.

Sir Robert Borden, Premier of Can. pulsory military service upon all able citizens of Canada between the ages of eighteen and sixty inclusive. The selection under that law is to be made by ballot, that is by chance. Under present conditions the public interest cannot be served by a chance selection, but it demands an absolutely certain selection based upon a wise and careful consideration of the country's needs, both in the fighting line and at home, and accordingly a new measure to effect a selective draft of persons between the age of twenty and forty-five was prepared and submitted to Parliament. Much care was taken to ensure that the measure would not be unfair or unjust in its provisions, that there would be no prejudicial interference with agriculture or industry, that no attention whatever to provincial or racial boundaries or racial groupings, but calls up all young Canadians of the same circumstance wherever they may live. It is the most effective method possible, for it impartially selects the men who can go abroad and fight, and the men who should stay at home and work, with an eye single to their fitness so those two closely related services, and so assuring that every man is precisely where he belongs or where his labor tells best. In enforcing this law the Government will proceed upon the principle that the service and sacrifice of any family which already sent men to the front must be taken into account in considering the exemption of other members of the same family.

Compulsion Became Imperative

There was no thought of compulsion until compulsion became imperative. The voluntary system of raising the military forces of the country was adequate to all requirements for a time, but gradually it became inadequate, and the Government, after full consideration, decided that it was necessary to have authority for enrolment by selection when the necessity for greater numbers and more immediate mobilization arose. It was the enemy—not the Government—which instead the call to arms and compelled a mobilization of the resources of the Empire. The Government appeals to the people with confidence that the vigorous prosecution of the war will be immediate and supreme concern, and that the Military Service Act, which authorized the selective draft, will be administered in the proper and will of the nation.

The Administration in whose name this appeal is made is not the agent or organ of any group, section or party. Upon the issues among its members who must assume responsibility for the military effort of the war this Government alone must be held responsible. There are those also among its members who have no such responsibility. For the Military Service Act all assume the fullest responsibility, as do all for the future conduct of the war and for future measures of policy and acts of administration. It is not suggested that the Government which held office for six years is immune from criticism because a Union Government has been organized, but only that the war is the supreme consideration and that it is energetic and successful prosecution

YOUNG MAN NOT GUILTY OF MANSLAUGHTER

Horace Creasy, Military Guard at Trenton, Who Shot and Killed a Man, Is Acquitted By Grand Jury at Fall Assize

When the assize opened at 10 o'clock this morning before the Hon. Justice Middleton, the Grand Jury returned a true bill in the case and "no bill" in another.

NO BILL.

In the case of Horace Creasy, the young soldier who fatally shot his elderly man named Lapointe at Trenton, the Grand Jury returned no bill on a charge of manslaughter. The accused was formally acquitted.

Lapointe, it will be remembered, was an employee at the chemical works at Trenton, and it was stated that he refused to kneel to his identity when challenged by Creasy, who was on sentry duty.

TRUE BILL.

A true bill was presented in the case of John Evans, an elderly man, who is charged with a serious offence preferred against him by his daughter-in-law. The accused was arraigned and pleaded not guilty, and stated he was prepared for his trial. Mr. E. J. Butler is defending Evans, and his trial was in progress this afternoon. Mr. John Owen, Crown prosecutor is conducting the prosecution.

CIVIL CASES.

Quinn vs. Gillespie and Quinn vs. Thompson and Meagher.—These are two actions brought by the plaintiff, who is a resident of the city of Peterborough, against the defendant Gillespie and the defendants Thompson and Meagher, who are Chief of Police and city detective of the city of Peterborough.

It appears that the defendant, Gillespie, in December, 1915, received a telephone message at Peterborough from Belleville to send to Belleville a man named Butler, of which he was the manufacturer. The butter was sent on and delivered to a person who had come to George Boyle of Belleville and Harry Goodman, a Polish Jew merchant.

The authorities at Peterborough were making every effort to discover the person who had ordered the butter and who had never paid for it. Inquiry information was sent by the Chief of Police here to the authorities at Peterborough, giving a description of the man who had sold the butter, and the authorities brought Goodman to Peterborough to identify the plaintiff as the man from whom he had purchased the butter, which Goodman did, positively identifying Quinn as the person from whom he had purchased the butter at Belleville.

Quinn was therefore arrested and detained at Peterborough for a couple of hours, when it appeared that on the night of the 15th of December he was in Belleville and was attending a Police Court case in Peterborough.

Application was made by the plaintiff to costs on the trial and in the absence of a material witness.

The court granted the application, but upon payment of the costs of the day to be paid by the plaintiff in any defendant in both cases by the 30th of January, 1918, as a condition precedent to the case proceeding.

Fralick & Gilmor for the plaintiffs, and W. Carnew and G. N. Gordon of Peterborough for the defendant.

AMAN vs. AMAN.

This is an action brought by Frederick Aman against Edna Jane Aman, now of Vancouver, and her son Fred Aman of Wellington, to set aside the probate of the will of his brother, the late Thomas St. Aman (who in his lifetime owned "Chidren's Island") on the alleged ground that Mrs. Aman was not the lawful wife of the testator, and divorce proceedings which preceded her marriage to him being claimed by the plaintiff to have been irregular. The action is also brought to set aside a deed of the property to Mrs. Lidstone and also for the administration of the estate of his late sister Rachel Aman, who was carried by the defendant during the last years of her life. Mrs. Aman being ill in Vancouver, Mr. W. N. Ponton, K.C., who appeared for the defendants, obtained yesterday from the presiding judge, on production of a medical certificate to that effect, an adjournment of the trial of the action until the spring assizes. Mr. W. C. Mikel, K.C., appeared for the plaintiff.

LLOYD GEORGE CRITICIZED

Speech in Paris Has Stirred up London Newspapers—One Front one Army

(Special to The Intelligencer)

LONDON, Nov. 13.—Premier Lloyd George's speech in Paris yesterday comes in for severe criticism from some of today's papers, which declare him of wishing to take over the strategic direction of the allied campaign. Some alarm is also expressed with regard to the new allied War Council and it is expected that the Premier will make a statement shortly as to the Commons explaining the Council.

Premier Lloyd George, speaking in Paris yesterday on the Italian situation, intimated he would have resigned had there not been an immediate change in the allied attitude toward Italy. "The war," he said, "will be shortened by solidarity."

Paris, Nov. 13.—A single front, a single army, a single nation that is the agreed requisite for victory, victory," said Premier Painleve at a luncheon in honor of David Lloyd George, the British Prime Minister, who has just returned from the Italian war zone, and Signor Barenini, Italian Minister of Education. "If after 40 months of war, after all the lessons the war has taught us, the allies were not capable of that sacred internationalism, then, in spite of their sacrifices, they would not be worthy of victory."

Speaking Through Cannon Mouths

(Special to The Intelligencer)

PETROGRAD, Nov. 12.—Leon Trotsky, responding to a request for his views on the situation said: "We are making all our statements now by means of cannon. I have nothing to say otherwise."

To The Women of Canada

The women's vote will be a powerful force in the coming election. The women who vote will be the women who have made the great sacrifice for Canada, and the liberty of the human race. They are the women who have given their sons folk.

To these women there is but one thing that matters: "Win the War." Win the war so that such things as the German treatment of Belgium, with its unpitiable story of outrage against women and children can never occur again. Win the war so that liberty, peace and decency shall be the lot of the human race. Win the war so that the sacrifice that our women have made shall not have been in vain.

To win the war the Allies need every ounce of help we can send them. The present situation is critical. To get that help across, to back up the brothers, sons, husbands, sweethearts who have gone, we must keep the selective draft. The new Union Government stands squarely before the people on a compulsory service platform. A vote for a Unionist candidate is a vote to help our men at the front. A vote against a Unionist candidate is a vote to put Canada out of the war, to isolate her from the force, and, worst of all, it is a vote to desert treacherously our boys in the trenches.

The Union government is going to win, but if by any mischance it should be beaten it would be a worse blow to the allies than the Italian retreat; worse than the Russian revolution. It would mean that the British Empire, the strongest single nain in the fight for liberty, was weakening, beginning to break up.

Women of Canada, what is to happen? Find out who is the Unionist candidate in your constituency; cast your vote for him; influence your men to vote for him; back up the boys who have gone from your home, and who are shedding their blood that you may live in liberty, peace and safety.

Victory Bonds on Easy Payments

A man with only $50 can buy a $100 Victory Bond. He can pay for it ten of future savings.

A good many companies are going to let their employees pay for bonds at the rate of $1 or $2 a week. If your firm can't do that—consider this:

When you make your application pay $10. On January 1st pay another $10. Then on the 1st of February pay $30. On March 1st—another $30; another $30 on April 1st, and

The final payment of $20 on May 1st—and the bond is yours.

The very next month, or June 1st 1918, you start to reap your reward, for on that date the Government pays you a full half year's interest at the rate of 5½ per cent. a year. On the following December 1st, once again the Government pays 5 months interest—and every subsequent June 1st and December 1st your interest comes in as regularly as sunset.

"CARRY ON" KEYNOTE OF VICTORY BOND CAMPAIGN

Public Meeting in City Hall Demonstrates Interest of Large and Small Investors in Financing the War—Stocking Hosrds and Rainy Day Nest Eggs Will Help Canada's Army to Victory Over the Hun

The Victory Loan meeting in the City Hall last evening attracted a large audience showing the great interest being taken by people of small and large means in the important line of defence which will back up and make effective the heroic deeds of Canada's army in the field.

Mr. W. B. Deacon, County Chairman of the Victory Loan organization presided, and the principal speaker was Rev. J. R. Patterson, of Toronto, who was introduced by J. W. Johnson, M.P.P., in an eloquent and inspiring address.

His Honor, Mr. Justice Masten, who was to presiding at the Assize Court, had at a short address and was followed by the introduced by Sir Mackenzie Bowell, with the brief and polished address in which he showed the practical value of a Victory Bond purchase as a gilt-as the greatest investment for large and small forty, with the finest security in the world.

The last speaker was Mr. Jones, barrister of Toronto, who is in the city acting as Crown Prosecutor at the Assize Court. Mr. Jones was introduced as Bellevile's Member, which he acknowledged with pride and stated that he was the son of Rev. Canon Septimus Jones who ministered in Belleville in the seventies.

Preceding the meeting the 15th Regiment band marched to the City Hall and played a stirring march outside the hall which was well rendered and greatly appreciated.

A feature of the meeting was the appearance of the hall which resembled an art gallery with the many striking Liberty Bond posters which adorned the walls. One in particular is worthy of special notice among the many artistic designs which testified to the power of publicity in the case depicting the little girl who had arranged her alphabet blocks to spell BY ME A VICTORY BOND and is represented as making an almost tearful appeal to her daddy in this wise:

"Oh, Please Daddy, buy me a Victory Bond."

Another poster pointed out that 1 in 22 of the population of Great Britain bought Liberty Bonds; 1 in 37 in the United States purchased Liberty Bonds, while only 1 in 187 of the population of Canada bought our last war loan. It was to remedy the state of affairs and not all the people in the city of the war that this great campaign was planned, in order to get the man and woman with $50 and $100 savings to invest in Victory Bonds. This was pointed out by the various speakers.

"Carry On"

The keynote of Rev. Mr. Patterson's speech was "Carry On"—the men of must be mobilized at home—the money must be forthcoming—the munitions must be provided—the ships must be built—the food must be produced—the spirit of the people must be maintained—the enemy must be defeated—and all these things are to be done by the people of Canada, and the 1916 Victory Loan must be a success.

THE LIBERTY BONDS

First Day's Subscriptions Far Exceed Estimated Objective and Only Half the County Heard From—Tremendous Enthusiasm Shows Everywhere

The subscriptions reported for the first day of the Victory Loan Campaign in Hastings County are as follows:

Belleville	$85,900.00
Township of Thurlow	9,250.00
Marmora, Deloro village and Marmora Lake Twps	15,000.00
Madoc village and Township	15,400.00
Hungerford Township, Marlbank, Larkin	7,100.00
Stirling	5,500.00
Sidney Township	500.00
N. Tudor, Limerick and etc	250.00
Desoronto	2,000.00
Trenton	1,000.00
	$136,000.00

With not much than half of the County of Hastings heard from the first day of the Victory Loan campaign showed that the good old County is there with the Dollars as well as the Men. The Province of Ontario subscribed $4,000,000 to the Victory Loan yesterday and the County of Hastings supplied $136,000.00 of this huge total, so it can be seen that the people of this County know their duty and intend to do it. Belleville's first day total over $85,000.00, so it will be seen that the County Seat has set a good pace for the rest to keep up to. The returns for, today will be read from the stage of Griffin's Theatre and the Palace tonight, and will be published at the Victory Loan Headquarters, Campbell St.

One subscription of $60,000 was recorded yesterday, but aside from that of the large subscribers are still to be heard from. It was the small subscribers who made up the largest share of yesterday's subscription.

A clock is being erected on Front St. to keep the people of Belleville informed of the progress of the campaign. Watch it and you will see the need advance to the "Million or Bust" sign.

LIEUT. W. H. F. KETCHESON

Mayor Ketcheson received a telegram this morning from the Director of Records at Ottawa stating that his son, Lieut. W. H. F. Ketcheson, had been admitted to hospital in France suffering from wounds in the chest and burns. The many friends of Lieut. Ketcheson in Belleville and vicinity will be glad to hear of his speedy recovery, and sympathise with the family of Mayor Ketcheson in the anxiety they are undergoing pending news from the battlefields of Flanders.

Lieut. W. H. F. Ketcheson left Belleville with the 39th Battalion in 1915 for overseas, and has been in France over two years on active service, being attached to the machine gun service, and after being risen to second in command of his section. He has served his country gallantly and well in many strenuous battles and was a member of the brave group of Canadian heroes who held an important salient at St. Eloi for ten days, in the face of tremendous odds and refused to budge, but by sheer pluck and grit, relief only coming after ten terrible days of heroic effort when a sap was constructed to the position and an avenue of escape furnished.

Another son of Mayor Ketcheson, is now in the city recovering from wounds received at the front, having invalided home with a gallant record of heroic service for the Empire, for which he was singled out for Royal honors.

Always Had Headaches

Liver Was Torpid and Bilious Spells Brought Sick Headaches—Lost Much Time, But is Now Completely Cured.

NEWTOWN, Nov. 12. — Here is convincing evidence that however much you may suffer from liver trouble and consequent biliousness there is cure in the use of Dr. Chase's Kidney-Liver Pills.

Overeating is the most common cause of sluggish liver action. You lose your appetite, have distressing bilious attacks usually accompanied by headache and vomiting, the bowels become irregular, constipation and looseness alternating, digestion is upset and you get irritable and downhearted.

No treatment so quickly awakens the action of the liver and bowels as Dr. Chase's Kidney-Liver Pills, and this reason this medicine is wonderfully popular and has enormous sales.

Mr. Charles R. Tait, Newtown, N. B., writes: "I was nearly always troubled with headaches, and would often have to stop work for a day or two. I lost many a night's sleep and although I tried doctors' medicines and also many other patent medicines, I was without success. When I had these headaches I would vomit, and could keep nothing on my stomach.

"I purchased a box of Dr. Chase's Kidney-Liver Pills from G. E. Fash's store, Dorchester, N.B., and after taking one box I was so much relieved that I continued to take them until I am now completely cured. My advice to anyone suffering from sick headaches is to try Dr. Chase's Kidney-Liver Pills and be completely cured."

Mr. A. E. Mace, J.P., endorses the above statement, and says: "This is to certify that I am personally acquainted with Charles R. Tait, and believe his statement in every way to be true and correct."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers or Edmanson, Bates & Co., Limited, Toronto. Substitutes will only disappoint. Insist on getting what you ask for.

Dandruffy Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will complete it; dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

He wore medals and clasps for service in South Africa, and elsewhere, and was one of the 100 honoured by Lord Kitchener, for the relief of Kimberly so gallantly effected.

British Capture Ancient Askalon

LONDON, Nov. 18.—Capture of Askalon, ten miles beyond Gaza, and only 30 miles from Jerusalem, by the British was officially announced in a report from the Egyptian front today.

Askalon is on the Mediterranean, practically due north of Gaza, which was occupied by the British last week. The familiar quotation in the Bible, "Tell it not in Gath; publish it not in the street of Askalon," refers to the same cities, Gaza and Askalon, now in the hands of the British.

In Semetic periods of history Askalon belonged to the Philistines. The tribe of Judah captured it in 1406 B.C., but it was retaken by the Philistines. . . fell successively into the hands of the Egyptians, the Greeks and the Romans. It was besieged by the Crusaders in the year 1100 and again in 1148 without success. It was captured and burned in 1191, and restored by Richard I. of England in 1192.

The British official statement of the Palestine front follows:

"General Allenby reports, that yesterday mounted troops moved forward rapidly and captured another 400 prisoners and 10 guns. Our line now runs in a south-eastern direction from two miles north of Hamabeh, which is two miles from the coast and four miles north-east of Askalon, to two miles south of Arak-El-Menshiyeh, on the central railway. This line generally six to ten miles north of the Wadi-Hesi, one of the streams that has been occupied by infantry and artillery.

"North of Beersheba there were no developments. Nov. 18."

Ten thousand Turks have been killed and wounded by the British in their advance against Jerusalem, the official statement declared. This is exclusive of prisoners.

Wrink is the winner of the 3rd Carter Scholarship value $40 cash. This is the fourth year that the Carter Scholarships have been awarded, that in all 13 scholarships have been awarded, and Belleville High School has secured eleven of these scholarships at the total value of $700 cash.

INJURIES PROVE FATAL

As the result of the accident which occurred on Tuesday morning last at Sidney Crossing on the line of the G. T. R., when an automobile containing Mr. Bert Ketcheson and his aunt, Miss Deborah Benistead, was struck by a passing train, both are dead. The latter was instantly killed and at a late hour last night Mr. Ketcheson succumbed to his injuries, which were of a serious nature about the head. Mr. Burton L. W. Ketcheson was born in Kingston in 1857, but had resided the greater portion of his life in Sidney Township. For the past years he had lived in Belleville, where he was well known and held a host of friends. He was a grandson of the late Col. Elijah Ketcheson of Sidney. Deceased was in religion an Anglican, being a member of Christ Church. He was a member of Eureka Lodge A. F. & A. M., and Belleville Lodge No. 8 of I.O.O.F. of this city. By profession he was a machinist. A widow and one daughter, Miss Beulah, survives. To the bereaved will be extended the heartfelt sympathy of all citizens. Mr. Ketcheson was deservedly popular with all who knew him, and his death is deeply regretted.

SPLENDID RALLY AT MARMORA

The Town Hall at Marmora was crowded last night to hear the War Victory Loan explained and advocated by Colonel W. N. Ponton, K.C., of Belleville, who took up the various phases and significance and the appealing advantages of the national investment offered. He described the load of the last appraisal left to our business and bosoms, to our hard fist common sense and business instincts as well as to our practical loyalty and patriotism, translated into action. Bullets win battles, but money, the denominator of value and the common evidence of purchasing power, wins wars, and the present conflict is not merely a battle of armies but it is a war of nations. There is a dreadful place of mystery, death and darkness, known as No Man's Land, but to us in Canada is now given an opportunity of coming out into the light of day and owning a section of "Every Man's Land." The enjoyment of the evening was much added to by the splendid music furnished by Mr. and Mrs. Wright of Deloro, by Miss Anna Poulton of Belleville, who sang appropriately the song with the refrain, "Take off your Jackets, and Roll up your Sleeves, and Keep on Pegging Away," and by a selection splendidly given by Charley Sankey of Belleville, entitled "The Lion and the Cubs."

Mr. Saline occupied the chair, and Reeve Gray also spoke. Marmora subscribed $14,000 yesterday in Liberty Bonds.

Liberals Disgusted

Direct Hits in Toronto Globe, an Ally of Canadians

The Toronto Globe has always been looked up to as the foremost Liberal newspaper in Canada and one of the principal cogs in the Liberal party machinery, next only to Sir Wilfrid Laurier. The Globe parted with Laurier on the Canadian war policy and points out that the success of Laurier would be a calamity to Canada. Here are a few observations from The Globe of Monday:

Liberalism in a stalwart Liberal is deposed from a candidature in an Ontario constituency because he thinks the reinforcements provided by the Military Service Act should not be withheld, it is thus that other stalwart Liberals began to inquire as to where they are being led.

Our country first.

The Globe is still against Bourassa.

Let the Military Service Act finish its work.

Quebec has begun to cheer for the Allies. But cheers don't win wars.

Probably there is less grumbling in the Canadians at the front than among Canadians at home.

Sir Wilfrid Laurier stands for voluntary service. His hearers in Quebec also stand for voluntary service—of some other fellow.

The Liberals of Ontario who are against Union Government must make Bourassa, the anti-British demagogue, their leader.

Whether you are a "draftee" or an "exemption" you can no longer be pointed to as a slacker. That is one compensation of the draft system.

Y.M.C.A. Notes

BASKETBALL AT Y. M. C. A.

Submarines and Torpedoes winners in the Basketball League. Senior League Basketball got away to a good start on Friday evening when the Dreadnoughts and Submarines came together. Games started with a bang with every man on the job, after about five minutes of play, the players settled down to steady playing when some very fine playing was seen by both teams. Late that year the first half the Torpedoes led by a score of 17 to 6 at full time 27 to 11. Deeton, Hurley and Robertson starred for the Torpedoes, while Andrews and Meather were the best.

The lineups were:—Deeton, c; Deacon [illegible]; Hurley, r.f.; Hurley r.f.; Robertson [illegible]; Buchanan s.

Wensley c.; H. Watson l.d.; Weir r.f.; Meather r.f.; Andrews l.f.; Coppin s.

The second game was between the Submarines and the Invincibles, each was out for each other's scalps, both sides were off on shooting, although for the first of the season the game was fast and a good many fine plays was pulled off. In the first half the Submarines led by a score of 17 to 9 and the final score was 31 to 19 in favor of the Submarines. Yeomans, Dunsberry and Chute were in fine form for the Submarines, they being responsible for a great many of the baskets. Line up:

Chute c.; Blackburn l.d.; Hitchon r.d.; Dunsberry l.f.; Yeomans r.f.

Gibson c.; Barlow l.d.; Wims r.d.; Holland l.f.; Lazier r.f.

Y.M.C.A. Paper Chase.

On Saturday morning at eleven o'clock about fifteen boys lined for the first paper chase of the season. Dunsberry and Cooper acted as the hards and made two very good ones. They were successful in laying a several false trails an' by that way leading the hounds off in gaining time, the hounds got within sight of the hares finishing the trail and bringing in the sacks but the hares gained thirty minutes start, though the course covered was eight miles. Everybody enjoyed being somewhat stiff after the run.

Junior Basketball League Organized

On Friday afternoon the boys of the Junior Department had a meeting in regards to forming a basketball league, four captains were chosen, and in turn these captains picked out their teams and a schedule was then drawn up as follows:

Prince Edward Partizans Back

Laurier Candidate and Absolute Union Government Rebuked by a Patriot

Picton Gazette

At a mass meeting of Prince Edward County Liberals held at the Town Hall on Saturday last, the resignation of Mr. H. H. Horsey as Liberal candidate for this county was accepted. A resolution was, however, passed, endorsing Mr. Horsey's candidature as an Independent.

The speakers with one notable exception were not favorably disposed towards the present Union Government. This exception was Mr. James Parielle of Bloomfield, who came out strongly in favor of the Borden Union Government. The other speakers devoted a good bit of their time to praising Sir Wilfrid Laurier. From their standpoint this was about the only thing to praise in Canada and the rest of their time was used in condemning the old Borden Government, criticising the platform of the Union administration and abusing the Toronto Globe and the Toronto Star.

Mr. Allison, the secretary, read the platform of the Conservative Convention published in last week's Gazette and offered a resolution rejecting the same which was carried by a standing vote.

Mr. Horsey acknowledged the compliment that was given him and said that he had from the first favored union government. He believed, however, that this Union Government was formed in an arbitrary way and he quite confidence in the ability of the men composing it, especially Blondin and Sevigny, the French-Canadian members. Referring to Colonel Blondin, the Postmaster-General in the Union Cabinet, Mr. Horsey said that Mr. Blondin, while pretending to be a win-the-war patriot was a colonel in the overseas forces, had taken off his uniform and was now safe at home. Colonel Blondin had for many months been attempting to recruit his battalion up to strength, but finding west overseas with only a handful of French-Canadian soldiers.

The speaker criticised Hon. W. T. Crothers, Hon. Dr. Reid, Sir George Foster, Sir Robert Borden and Sir Thomas White, and said that in fact there was not a union government to which he could give his confidence. He then proceeded to enter an eulogy of Sir Wilfrid Laurier and attempted to make a defence of the old Liberal leader, and ended with the statement that while he differed from him on the conscription bill, he still owed him his allegiance as the greatest man in Canadian history.

He then dwelt at some length on the taxation of war profits and declared himself as an independent winthe-war candidate.

Mr. Horsey's address was an eulogy of Sir Wilfrid Laurier and a criticism of the old Borden and Union Governments.

VOICE OF PATRIOTISM.

The next speaker was Mr. James Parielle of Bloomfield. He made a most impressive address which could not fail to influence his hearers. Mr. Parielle in his introduction paid a compliment to Mr. Horsey. This, said he, was a dark period in the history of the world, and things are apparently not growing any brighter. He was there not to make a speech but a statement. He was a Liberal ever since he could remember. He had read The Globe all these years and had stood by it. He stood by it at other times when it championed the popular cause and he stood by it today. For two years he had been anxious for union government. He was a great admirer of Hon. N. W. Rowell. He believed in the other prominent Liberals before they joined the Union Government and he had just as much confidence in them now as ever he ever had. "In a word," said Mr.

PUGSLEY NOW A UNIONIST.

"Sweet William"—such is the name by which the Hon. William Pugsley, late M.P. for St. John, N.B., has been known and styled among politicians for years past. He is now Lieutenant-Governor of his native Province, New Brunswick. In the past he has been on all sides of politics—a Conservative, an Independent, a Liberal of the Laurier type, a Borden-Monk supporter, and a Laurier out-and-out admirer.

A Union Government having been formed—although he and his leader opposed it—he at once, finding it was accepted by the vast majority of the electors, and seeing that there was no chance for any anti-Unionist at the coming election, true to his political instincts, became a practical Unionist. To prove it he consented to accept the position of Lieutenant-Governor of the Province of New Brunswick for the next five years at a salary of $10,000 per year.

Truly "Sweet William" is a Unionist of the profitable class.

Well, in any event, he is removed for a time from the political field of action, and that makes his appointment to the honorable position of Lieutenant-Governor acceptable to honest politicians.

Referring to the hon. gentleman's appointment, the Toronto Globe says:

"Those who have been complaining that the Union Government has given all the plums to Conservatives will have to explain Hon. Mr. Pugsley's appointment as Lieutenant-Governor of New Brunswick. They may repudiate Liberal members of the Government, but how can they repudiate the Liberalism of Sir Wilfrid Laurier's parliamentary lieutenant?"

The explanation is not difficult. It was the surest and easiest way of converting him to Unionism. It was also a master stroke of policy on the part of the Hon. Mr. Carvell; he knew his man, and how to get rid of him—and he did it.

THE LOGICAL CANDIDATE.

The small attendance which responded to the call for a Liberal convention for West Hastings's constituency Saturday last may be fairly taken as an endorsation of the Union Government and that no fault is found with the member who represented West Hastings in the last and previous Parliaments. Mr. Porter as a firm supporter of the war policy of the Union government and in full accord with the policy of the Union Government is the logical candidate for the approaching election and is entitled to an election by acclamation. That the Liberals who attended the meeting referred to passed a resolution favoring an election by acclamation and then diligently searched for a candidate seems rather inconsistent. Under all the circumstances an election would be a waste of time and would only serve to stir up strife and bitterness altogether unnecessary. If the Liberals who attended the meeting, though limited in numbers, are really in earnest in their expressed desire to avoid an election contest they have only to rally around the Union Government candidate.

A COMMENDABLE ACTION.

Every loyal citizen of Belleville is proud of that great national educational institution, Albert College, and the misfortune which came to the college through the disastrous fire which wiped out that magnificent building and important department of the college activities, Massey Hall, was mourned by all as a civic calamity. Undaunted by this severe check and the difficulty attending reconstruct on on account of war conditions, the college management has determined that a new and greater Albert College shall arise from the ashes of Massey Hall, and it's this praiseworthy spirit are backed up by every loyal citizen of Belleville. The action of the City Council last evening in agreeing to provide a suitable site for it in with the plans for college reconstruction and extension is a most commendable one and in the best interests of the city as ensuring the retention of this valuable and important institution in this city.

INCONSISTENCY.

"The complaint of Liberals that some members of the Union Government have had no experience in the Federal arena is not serious. When Sir Wilfrid Laurier formed his Cabinet in 1896 he went to the provincial field for several of his colleagues."—Toronto Globe.

Consistency is not a cardinal virtue with a certain class of politicians who condemn in Borden what they declared a virtue in Laurier.

Put yourself for a moment in the place of the Kaiser. Which would you regard as the more favorable to the headlines—a cross-the manifesto of Sir Wilfrid Laurier, or that of the Union Government of Canada?

The Norwegian newspapers are warned by a leading German statesman that if they don't quit protesting against the murder of Norwegian seamen by German sinkers on the high seas, something sudden and unpleasant will happen to Norway. Unhappy Norway. She is not to be allowed even the privilege of howling when she is hurt.

Brantford Expositor (Lib.)
A handful of "old guard" Liberals in North Toronto at a meeting held on Friday night last decided to "fire" Hon. N. W. Rowell and the other Liberal members of the Union Government, and declared that the people of Ontario is to be controlled by the "interests." Mr. Rowell's action in accepting office under the administration which was given it by the big Liberal convention held at Hamilton, Nov. 1st, has the Liberal press saying nothing to apologize for. It is indeed controlled by the "interests," but the "interests" are those of the people of Canada and of the cause of democracy.

The Limit in Laurierism.

Here is a typical Laurier supporter. In his speech at Vars last Monday, Hon. Charles Murphy is reported as follows:

"War or no war, I will not desert Sir Wilfrid Laurier, no matter what policy he pursues. For I am a supporter of Sir Wilfrid Laurier through thick and thin, although all others may desert him."

What a statesmanlike attitude! If Sir Wilfrid were to declare himself in favor of a separate peace for Canada tomorrow, the late Secretary of State would be with him, heart and soul.

It is an eloquent commentary on the spirit of which calmness is very large number of those who are opposed to Union Government.

a Liberal Union Government, supporter, member of the last Parliament, is in the field, the Conservatives are not opposing him and the same loyal spirit of compromise should be applied here.

Every loyal citizen of Belleville is proud of that great national educational institution, Albert College, and the misfortune which came to the college through the disastrous fire which wiped out that magnificent building and important department of the college activities, Massey Hall, was mourned by all as a civic calamity. Undaunted by this severe check and the difficulty attending reconstruct on on account of war conditions, the college management has determined that a new and greater Albert College shall arise from the ashes of Massey Hall, and it's this praiseworthy spirit are backed up by every loyal citizen of Belleville. The action of the City Council last evening in agreeing to provide a suitable site for it in with the plans for college reconstruction and extension is a most commendable one and in the best interests of the city as ensuring the retention of this valuable and important institution in this city.

INCONSISTENCY.

"The complaint of Liberals that some members of the Union Government have had no experience in the Federal arena is not serious. When Sir Wilfrid Laurier formed his Cabinet in 1896 he went to the provincial field for several of his colleagues. lieutenants."—Toronto Globe.

Consistency is not a cardinal virtue with a certain class of politicians who condemn in Borden what they declared a virtue in Laurier.

Cut Out the Contests!

The date for the election has been fixed. As pledges have been rendered necessary in consequence of the suspension of the period in the life of the last Parliament and the refusal of a minority of that Parliament to agree to a further extension of its life. But, although pledges must be an election a contested election is not necessary. At all such times, the public men like the great mass of electors are divided into two parties holding contrary and irreconcilable views on some line of national policy, and the election is a plebiscite on which rests the whole effect on the country. An election in such circumstances carries with the arguments for and against these important measures are urged on the people by the leaders of the two parties, and the public in every constituency, eventually cast in their representative to Parliament the candidate who supports the view commending itself to the majority of the electors.

In the forthcoming election there is no such difference of opinion. The one subject of paramount importance to Canada is the successful prosecution of the war and the organization of the country with that end in view. In the forthcoming election there will be no room for difference of opinion on this supreme question. Premier Borden's statement, from every part of Canada have accepted the invitation of the Premier-Minister to join him in a Government constituted for the express purpose of assembling around the council table the leaders of both parties who are in hearty agreement with the policy of "winning the war."

The criticism and discussion of the various problems connected with the war will be carried on within the Cabinet with a minimum of standing of the difficulties than could be obtained if the ordinary machinery of party government were in play. For this reason, among others, the Government at its dissolution will be in a position to say the Government now to be elected will not be representative of one party more than another.

It is a "Win-the-War" Government. And the election to be held should be a "Win-the-War" election. There is no other issue before there should be no introduction of other issues which are at present of a character that must remain in abeyance until the war is ended. The presence of so many Liberals in the Government is the strongest guarantee that no issues which sharply divide the Conservatives from Liberals will be allowed to arise during the existence of the Government; and the determination of the Liberals themselves to keep their appeal to the public strictly on their opinions in regard to any of those issues. Every Union candidate can say: "I am for the War!" faith is needed in such a declaration. If any candidate can be found in English-speaking Canada who are opposed to winning the war, let them be known by their supporters or opponents and the election will show which of the two opinions is the more popular. But there should be no divided allegiance as between two candidates, both in favor of "winning the war" but opposed on minor issues or for party purposes. For upon this there is absolutely no room in the present election and in the lifetime of the present Union Government.

Daily Progress Of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

H. B. Morphy is chosen union candidate for North Perth.

Liberals of Glengarry and Stormont renominated John McMartin.

North Essex union convention names Lieut.-Col. E. S. Wigle as candidate.

Hon. W. L. Mackenzie King has been nominated Laurier Liberal candidate in North York.

The Social-Democratic party has decided to contest West Toronto and has nominated J. Bruce as candidate.

Gen. W. Allan is chosen fusionist candidate for South Winnipeg at big convention.

Mass meeting at Woodstock nominated Lieut.-Col. Sutherland as withdraw candidacy.

A strong effort is being made to agree on a fusionist for Brant and Brantford.

Lincoln Liberals are standing by Capt. E. J. Lovelace and approve anti-union address.

The Greater Toronto Labor Party has chosen Ald. Joseph Gibbons to contest East Toronto.

Electors of Peel County at a meeting in Brampton passed a resolution asking the electors—not Conservatives or Liberals—to support Sam Charters.

West York union convention at Weston on Saturday failed to agree on a candidate and appointed a committee of five Conservatives and five Liberals to decide whether Capt. Tom Wallace or Dr. Jas. Gilmour will be the union candidate.

At a Liberal convention held at Peterborough Friday afternoon Mr. R. E. Hall was named as a candidate to contest the election in West Peterborough. The nomination was anything but unanimous, and considerably less than one half of the two hundred men present endorsed the candidature.

The Poet's Corner

The One Choice.

Taking the bad with the good, taking
the good with the bad,
Cheerful to faith in our sorrow, living
the days that are glad.
Bidding we follow the pathways mapped out for all mortals to know—
This is the battle called living, and
this is the road that we go.

The goal of our strife isn't told us, we know not what waits at the end—
Nor the length of the journey we're making, nor many years we shall spend;
As soldiers who go into battle, arm't told of its purpose or plan,
So we come to this world under orders to take up the labors of man.

We are here, and it's not of our choosing, nor the ultimate goal may we choose,
We shall learn from the Master who sent us the final result of life's cruise;
But we have one choice that's unhampered, nor threats and yet we are free—
We may choose from life's good and its evil, we may say what the soul is to be.

It isn't for us to determine how long we shall live, but how well;
The purpose of life and its struggle is something mortal can tell;
We can choose not our coming or passing, that summons the Master must give,
But each, to his fancy or thinking, may pick out the way he shall live.

Bourassa Brands Laurier Candidates

QUEBEC, Nov. 11.—Henri Bourassa, leader of the Nationalist party, was in Quebec today and met with his Nationalists here. It was decided not to oppose the candidacy of Lucien Cannon, Liberal, in Dorchester, and Ald. Du Tremblay had signed the following manifesto:

"I, the undersigned, declare that, for the duration of the present war, these presents, agree, and I hereby declare, to grant the immediate suspension of the Militia Act, Service Act of 1917, and of all its effects, (Conscription). Whereas electors have been consulted here yesterday, and whereas electors cannot hold their decision of the people condemns conscription in this referendum, I agree to repeal the Act 4 (the Military Act) be considered as void and without effect from the very day I said that in consequence the conscripts be liberated from service and discharged.

"I also agree to vote against any Government that would refuse to adopt the above mentioned policy."

Lucien Cannon has signed this engagement, but Mr. Sevigny flatly refused to affix his signature to it. It is understood this statement from the Nationalist party will be presented to every candidate in Quebec.

CAPTURED GERMAN SUB AND TANK ARE COMING

MONTREAL, Nov. 12.—The British Government has agreed to send a tank and a captured German submarine to Montreal to figure in the Victory Loan demonstration here. The cost of hauling the tank to Montreal will be defrayed by the Shell Committee. James Carruthers, of the Canada Steamship Lines, has agreed to cover the cost of towing the submarine to Montreal. The difficult engineering feat of removing the U-boat from the water, placing it and mounting it in a public square will be undertaken on behalf of the Canadian Vickers, Ltd., by J. W. Newcross.

It is understood that the British naval officer who actually took possession of the vessel will accompany it to Montreal and explain the method by which it and other underwater craft are fracked and hauled to the surface.

The tank will take part in a huge parade which is being organized ...

AUSTRALIAN PREMIER COMING

NEW YORK, Nov. 12.—An Associated Press cable despatch from Sydney, New South Wales, dated Thursday, November 8, says: "Crawford Vaughan, former Premier of South Australia, has sailed for America to take part in the conscription campaign in Canada." David Hall, Attorney-General of New South Wales, expects to go to the United States in December.

SOLDIERS DISLIKE LAURIER

What kind of a reception Sir Wilfrid Laurier will receive in the question heard everywhere. Soldiers are bitterly hostile at his coming, and as there are thousands of returned men here convalescent besides those in training, trouble is anticipated. Tickets alone will admit those who desire to be present at meeting.

Western Women For Union Gov't

Flock in Union Meetings But are Not Seen at Laurierite Gatherings

WINNIPEG, Nov. 12.—A feature of the many women's government conventions in Winnipeg and the West, and mixed meetings called under union auspices is the large attendance of women, many of which take part in the discussions, this is very encouraging to union supporters and indicates that the women's vote at the coming elections will be large in the West and will be cast almost solidly for union candidates. In contrast to this, very few women have yet been seen at Laurier conventions or meetings.

With the nominations only a few days away it becomes clear that Manitoba this year is to witness as big a war election as was ever experienced in its history. Unionism is strong everywhere, adherents of the party declare, but they are not discounting the energy with which is being done, not only by Laurier liberals but by the out-and-out anti-conscription and anti-war elements. This is particularly evident among the social democrats in the Labor party and element which almost controls the city Council and will certainly do as after the coming civic elections.

1,200,000 WOMEN ENTITLED TO VOTE

General Returning Officers Extends of Relatives of Soldiers.

OTTAWA, Nov. 12.—Over one hundred thousand women will be capable of voting in the coming election under the general provisions of the Dominion election act according to the estimate of the Dominion Returning Officer. This is exclusive of the soldiers' vote or the naval service vote, which under regulations to soldiers (all British subjects) and to the Wives, widows, mothers and sisters of soldiers and naval men will probably add a large number of women to vote. The total voters' list will contain many voters.

WAR-NOT INJURIOUS

TO CHRISTIANITY

NEW YORK, Nov. 12.—The Rt. Rev. A. P. Garvie, Lord Abbot of Caldy, has returned to America after his war tour in London. Although he was the leader of a prominent Church of England clergymen who went over to the Roman Catholic Church in 1913.

The whole group lives in Caldy, Wales. The mission of the Abbot in America is to study German Catholic industrial schools and their methods and to give retired soldiers here work of the sort being done there.

"Christianity has not suffered because of the war," said the Abbot. "Fifteen thousand men have been converted—at the front in the trenches—and I found none before the war started."

The Church of England Church has voted a unanimous call to the Archbishop to Rev. R. H. Edmed in Calgary.

The Wanderer

Novelized by William A. Page From Maurice V. Samuels' Great Biblical Drama of the Prodical Son, Presented at the Manhattan Opera House, New York

Copyrighted, 1917, by William Elliott, P. Ray Comstock and Maurice V. Samuels.

And here all shall be over his shoulder and repeated under the table for the children. Old Omri came from a room within and, seeing the feast spread, he hastened his steps.

Then the old man, washed, bathed, and cleanly. "As for thee, my child," said Jether himself, I pray not my reward in heaven."

Aland did prompter love.

"Jether," he said, "I fear my father is angry for having let sheep or goats go astray. Another thing, I met with one, named me with my neglect. One thing I know. Come with me, and I will tell you all." Jether replied he was at with them.

Then the two silly sentiments upon his back.

"Now, my good lad, after all," he said, "I am not sure that I have done wrong. All I want then here with them, and I will keep them."

Jether made no reply, for he knew his father's temper, and he was in a dreadful dream.

"And I, too, dreamed a dream!" cried Jether, as she shortly after he had told her the new note in the voice of the young lover. "But my dream was not the kind that's bred from having eaten of raising barley in the fields and of the sun's scant care to be. For they read the ripened grapes—no, nor the kind of my dream. Brother dreams are to adds up the wonder's gain. Ishmael all the while. Two-thirds of all there is still among my house, with all my father's servants and this house, and then, purchasers, Naomi, for his bride."

"And wouldst thou then marry him after all?"

Naomi's large blue eyes filled with tears, and she looked appealingly to Jether as if to subject their that!" she said reproachfully.

"Shall not my brother grieve? Behold, Naomi, how slightly I have failed! Doth Dadi not know the seasons of the land thy father left them?"

"That is true," admitted Naomi, dryly.

"Then," he said, "Aye, the fields are brown, in thy father's care, but they have been rich in harvest. Perchance I shall have to ask the favor of thy elder brother," she added, with irony.

Only the blind anger at the headstrong perversity of him for whom he was ready to die, and the strong, stood by her then. Naomi, with a frightened cry, drew back to let him pass, as he came down the steps directly toward Jether.

"So there then art!" he cried gruffly, "and what knowest thou of him?"

"My brother Gaal," he said, terribly, "pretended observer. "Sir, thee within, Naomi. I fear a storm

British Officer Tells of Treachery and Atrocities of Human Beasts

NEW YORK, Nov. 12.—Captain David Yalon, a young Irish-Australian, veteran of Gallipoli and Belgium, thrilled 300 artists in the Society of Illustrators' dinner in the Hotel des Artistes, with the story of German atrocities he had seen.

"In Belgium," said the young captain, "I saw a Mother Superior crucified to the door of her convent, and within the bodies of nine women who had consecrated their lives to the teaching of the young and ministering to the poor, cut to pieces and mutilated.

"In Belgium I saw an aged blacksmith, his folded hands pinned to his anvil, and a note on his breast proclaiming in German: 'He will shoe no more of the horses of our enemies.'

"When it came our turn our boys went into the trenches to do their bit. And, as happened to your boys, our trenches were raided, and when the clash was over some of our boys were missing.

"The next day we saw their heads. Cutting them from their bodies, the Boches had stuck them on bayonets above the trenches, scarce fifty yards away. That time, when the word came, our boys needed no spur to send them over to and into the enemy's trenches. There we found our comrades crucified and disemboweled and otherwise mutilated. And then and there, gentlemen, we vowed that never again would we spare a German life.

"Once in the trenches, I asked a German captain for a truce in which to bury the dead and aid the wounded. He agreed, and we approached each other under the white flag. As we neared, the Germans suddenly dropped to the ground, and over them poured a hail of machine gun fire.

DISHONORABLE TRICKS.

"Again, when we had some trapped in a corner of a dugout and I was about to bomb them, they threw up their hands, crying 'Merci, kamerad!' I lowered my arm, and, as I did so, a soldier cried, 'They are attacking you from behind, sir.' I gave them the bomb and cut our way out as best we could. The only time a German cries 'kamerad' is when he has no more bombs, no more cartridges, no more chance to use knife or bayonet.

"But we don't fool with bombs any more. When they cry out from a dugout for 'Merci, kamerad!' we ask how many there are down there. If the answer comes back, 'Six,' we chuck in a bomb and tell them to divide it between them.

"What has happened to our boys will happen to your boys. The world won't know of it until some of them come trickling home. Then you'll know how their heads were cut off, how they were crucified, how they were mutilated, just to show how brave Germany is and how great is kultur.

"I have just come from Atlanta. While in the South I visited the German detention camp. There were 840 of the Germans there living on the fat of the land, in magnificent huts, with every comfort—everything, even to the tennis courts, that go to make life worth while. In Germany our prisoners are being starved."

STORE ON WHEELS TO AID CONSUMER

ELIZABETH, N.J., Nov. 12.—There were filed yesterday at the office of the County Clerk here papers of incorporation of a concern that is going to build grocery stores that come to the customer instead of the customer having to go to the store.

The new travelling grocery stores will be operated by motor. Inside every tack will be utilized. There will be compartments or racks for everything the ordinary grocery store handles.

While the movable grocery is primarily intended for country and suburban districts, it can be used in more thickly settled sections. In those it will save the grocer a trip, for instead of having to go back to the store as he does now and put up the order and then drive around his route to deliver them, he will make only the one trip, as what is ordered will be outside in the movable store.

NO NATIONAL TRAINS

National Board Will Continue Commission's Policy.

MONTREAL, Nov. 12.—The special train for whimsical millionaires or for theatrical comedies, picnics, conventions, or political purposes, is to be a thing of the past in Canada, for the duration of the war. Owing to the necessity of keeping every pound of coal for actual necessary hauling of trains, the Canadian Railway Association for National Defence issued this new dictum yesterday. So closely are the associated railways watching the use of coal, that they are teaching their engineers and firemen that every time an engine "pops" or blows off its extra steam pressure two pounds of coal are wasted, and the supply available for the country needlessly reduced.

The ban on special trains has been in effect since early in the year by order of the Railway Commission.

Two Peterboro Men Drowned

PETERBORO, Nov. 13.—Two residents of Peterboro, John Henry and William Grose, were drowned in Rice Lake. They had gone up to the lake accompanied by S. Garside in Garside's launch, and in some manner the launch was capsized, and the three men were thrown into the water. Garside was rescued by William Thompson, a fish inspector at Rice Lake. The bodies of the two victims have not yet been recovered. Henry was a machinist and unmarried, while Grose was married and leaves five children.

Don't Say— "Call Again."

Yesterday an army of men started out to sell Victory Bonds.

For the next three weeks theirs will be a colossal task.

From Cape Breton to the Yukon, they will try to call at every city home, every farm home, and every office, factory, and business institution to ask people to buy Victory Bonds.

Conceive, if you can, the magnitude of their work; the hard labour it involves, and the high necessity for it.

Then, realizing all these things, do your utmost to make their task easier.

Decide now to buy.

Decide the amount you will buy.

Be ready to sign your application when the salesman calls.

You should and will buy Victory Bonds, but, don't—please don't—ask the salesman to call again.

The worker's time is limited. He has hundreds of calls to make; and although there is an army of workers, each one has a large field to cover.

Don't say you're going to hold your application for someone else, because each worker is limited to his own district.

The salesman will not accept money. The application blank includes a form of cheque, payable to the Minister of Finance, which you can draw upon your bank; or, if you have not a bank account, there is a form of undertaking which you can use.

"THE ONLY GIRL"

Nobody objects to good music in musical comedy, and as Victor Herbert composes it—and he does so when Henry Blossom writes the accompanying book, no one need really forget the delightful gems the tions of fun and melody writen they supplied in "Mlle. Modiste," "The Red Mill" and other works of that description.

This new happy combination is a worthy mark in the presentation of the great musical comedy success, "The Only Girl," announced to be seen at Griffin's Opera House tonight. "The Only Girl" which has run for a month at long and successful season of 48 weeks at the Lyric Theatre, New York, is filled with music that is melodious, dashing and oftentimes the very best inspiration of its brilliant composer. Henry Blossom, too, has written both in story and in its lyrics, work of such quality that proves there is still left such an article as a sane, well constructed, smartly written libretta in a musical play.

"THE WHIP"

When "The Whip" which is to be screened at Griffin's tomorrow night for the last time was first shown privately in New York City to a little group of leading film men, the verdict was unanimous that here was a wonderful picture.

The audience is amazed by the magnificent and immensity of the production of the big scenes; they are being thrilled by the exciting train wreck and the automobile wreck and the exciting home race at Saratoga, and they are leaving the theatre after seeing "The Whip" declaring it to be the really great photoplay of the year.

The Mutual News Weekly with its interesting review of all the latest important news events will also be screened.

FANNIE WARD IN

"HER STRANGE WEDDING"

Fannie Ward, the brilliant stage and screen star who will be seen at the Pal ace to-night and Wednesday night in the Lasky production of "Her Strange Wedding," is the most frequently married person in the films, and as she says, "Life at the studio is just one marriage after another." As Miss Ward is always noted for her unusual collection of gowns, she feels the necessity of appearing herself with a new wedding dress for each time she is led to the altar. The wedding gown regal veil worn in this production is the last word in modern fashion for those occasions and were made especially for Miss Ward from designs sent her from her costumer in Paris.

The latest chapter of the "Gray Ghost" series, and an amusing Vitagraph comedy entitled "Pluck and Luck" will also be screened.

"THE BIRD OF PARADISE"

The biggest money-maker on the American stage is "Sen-Hur," with "The Bird of Paradise," a close second. It is a question whether "Peg O' My Heart" or "Within the Law" ranks third. These plays had no former claim for appearances on the road a few seasons ago, while Oliver Morosco religiously refrained from going after the very successful "Bird" which Richard Walton Tully's great story of a woman's heart. The producer preferred to keep up the standard of his own and to give the theatre-going public the best talent obtainable, rather than send out mediocre casts and disappointed audiences. That is the reason that "The Bird of Paradise," although now in its seventh year, is still a new comer to a large portion of the country.

Mr. Morosco is sending a superb cast headed by Celeste Hopkins as the Hawaiian princess, to Griffin's Opera House next Monday night. The production is brand new throughout, and the native Island singers and players are a feature of the play.

CAPTIVATED THE AUDIENCE

Mlle. Nelli Gardini is a finished actress as well as the possessor of a sweet and high soprano voice of breadth and volume. Her intelligent interpretation of both score and libretto won instant favor, which reached its climax in the final scene in the prison cell. It was hard to believe that she had been singing this same score all the season with all the demands it make upon her for the freshness as well as the volume of tone increased rather than diminished as the opera progressed. She has won a place in the affections of Halifax music lovers that will not soon be lost. Her personality seems as charming as her voice.—Halifax "Chronicle."

City Will Provide the Necessary Sum for the Proposed New Buildings Which Will Cost Over $200,000—Proposition Endorsed by City Council

At the City Council meeting last evening the chief business transacted was the adoption of the report of a special committee in granting an option to Albert College to purchase the property on the Dundas street side of the City Hall Building for the purpose of the erection of new College buildings after the present building has outlived its usefulness. The letter presented to the Council and the report explains the situation. Some other business of a routine nature was disposed of. The Council was graced with the presence of Mr. Malcolm Bowen, K.C., Dr. Baker, Principal of Albert College, Prof. Staples of the College, and Mr. C. M. Reid, a member of the Board of Management.

Members present were: Mayor Ketcheson, Aldermen Woodley, Platt, Robinson, Whelan, St Charles.

Minutes of the last meeting were read and confirmed.

Communications, petitions, etc., were on motion laid upon the table, and the Council went into committee of the whole on reports, etc., Ald. Woodley in the chair.

The accounts recommended to be paid by the various committees were passed without discussion as were also the following recommendations:—

That the usual grant of $25.00 to the Muskoka Free Hospital be made.

That the purchase of a certain lot of property next to the Home of the Friendless on Moira street, for the sum of two hundred dollars be made, and that the taxes be remitted on St. Agnes School property for the year 1917 to the amount of $292.00.

That all board walks in the city that are considered unsafe be taken up and replaced with cinders or gravel and advisable to contract granolithic walks.

That such buildings in the city [illegible] dangerous to life and property be brought to the attention of the Public Works Department immediately.

That a petition for a granolithic walk on west side of Chatham street as requested by Mr. Bailey be referred to contain [illegible] property owned by Albert College

The following communication from the management of Albert College was read:

To

The Mayor and the Municipal Corporation of the City of

Belleville.

Gentlemen:—

The destruction by fire of Massey Hall brought the Board of Management of Albert College face to face with the question of the future of Albert College. It was apparent that the erection of new colleges were considered, to move the college to another city, or into the suburbs, that if sufficient subscriptions be raised to justify the Board now building on the present site, and on the site of the City on a site on Dundas street, overlooking the Bay.

The object of this Board now is the raising of $1,000,000.00; half of which will be expended in buildings, and the other half invested for endowment. The immediate objective is the raising of half million dollars. Three hundred thousand to be expended in buildings and the rest applied for endowments. Already $100,000.00 has been subscribed for endowments. We have made a conservative estimate and we believe, a conservative one that the world bring to the City an expenditure of $200,000.00 per year.

In prestige it would crown the educational system of Belleville. Excellent public schools have been erected; a first-class collegiate institute we hope to have; a business college with more than confidential reputation; and a girl's school with fine plant and good outlook are in our midst. We have a splendid group of buildings under the government direction in the Ontario School for the Deaf. With the buildings that would be erected in connection with the new project for Albert College there would be an educational centre second to none in any City in the Dominion outside of a few large centers. Cities are glad to offer large sums to induce companies to erect factories or plants in their midst. How much more then we should seek to have a plant that would not only be a source of great financial gain to the City but would also induce the best type of people to come to the City because of the educational advantages it has to offer.

The Board feel they are assuming a heavy responsibility which will be a great advantage to the City, and respectfully ask the Council of the City of Belleville to donate the site as per enclosed plan, also to close up Wallbridge Street from Dundas Street to Parker Street and open up Hoodless Street from Parker Street to Dundas Street, and to grant to the new College water at an actual cost price to the City.

The Board of Management of Albert College will undertake as soon as possible after the war is over to commence the erection of buildings to cost at least a quarter of a million dollars.

(Signed) C. M. REID,

Chairman Executive Committee.

(Signed) H. W. ACKERMAN,

Bursar Albert College.

The report of the Special Committee which considered the matter was presented, being as follows:—

Belleville, November 7, 1917.

To the Mayor and Aldermen

of the City of Belleville.

Gentlemen:—

We, the committee, appointed by you to confer with the Board of Albert College re the placing of their new College buildings within the limits of the City of Belleville, beg to report as follows:—

1st. We find that for over sixty years Albert College has been a successful educational institution and has added much to the prestige and business of this City.

2nd. That through the unfortunate fire which occurred last summer and destroyed that part of the College buildings known as Massey Hall the usefulness of the College has been very much impaired.

3rd. We find through the Board of Management of Albert College that it is their intention in the near future to build a new and very much larger College, in fact from information furnished we know it is their intention to spend over $250,000 on these new buildings.

4th. As Albert College has been associated with Belleville since its inception we feel that it would be an irreparable loss to our City should these new buildings be erected at any other place than Belleville.

5th. We understand that the Board of Albert College has secured an option on a block of land inside our City limits, said land to cost about $28,000, and we believe it would be in the interest of the City of Belleville to purchase this land and convey same to the Board of Management of Albert College with the understanding that they build their new College inside our City limits, and on this land to be presented by the City, they agree to erect buildings of a value not less than $200,000.

(Signed) Ald. A. Robinson, Mayor H. F. Ketcheson, Ald W. A. Woodley.

Moved by Alderman Robinson, seconded by Mayor Ketcheson.

Recommended that the report of the committee re Albert College be received and adopted and that the City Solicitor be requested to prepare the necessary by-law to carry into effect the purchase suggested in the committee's report.—Carried.

Ald. Robinson said he had much pleasure in moving the adoption of the report as the erection of such an educational institution would enhance the value of property all over the city. We do not desire to allow Albert College to be removed from the city. It would be a mistake not to adopt the report. As the expenditure would only mean an addition of ¾ of a mill on the rate of the city for a few years which was not a burden.

Mayor Ketcheson seconded the motion and endorsed all that Ald. Robinson had said. We were proud of Albert College and we want to have that College remain in this city and we would be doing the city an injustice if we did not assist as is suggested. He was in hearty accord of the report.

The report was unanimously adopted.

Rev. Dr. Baker, Principal of Albert College, being called upon, spoke briefly complimenting the Council on their action concerning Albert College. The city is guarded in every way in this transaction. The action of the Council links the College more closely to the city. The city will share in the benefits which will follow.

Mr. C. M. Reid thanked the Council for what it had done. It was a business proposition, and it was a splendid asset for the city. There was a danger of the College going from Belleville after the fire, which destroyed Massey Hall. More than $200,000 had been promised, and the buildings erected would be a credit to the city and the College.

Prof. Staples expressed his thanks for what the Council had done for the College with which he was identified.

Mayor Ketcheson thanked the deputation for their presence at the meeting.

Motions

Moved by Ald. Robinson, seconded by Ald. Platt: That should the price of furnace stove and nut coal be advanced beyond $10 per ton by the local dealers, the Coal committee are hereby authorized to take such action as might be necessary to procure a supply of coal in the name of the municipality for the purpose of supplying to a moderate extent ratepayers as may be deemed advisable.—Carried.

Council adjourned.

P. H. Walsh, a coal merchant at Brantford for thirty years, and formerly an engineer, haying driven the first train over the old B. W. & L. E. Railway, is dead.

Just Apply This Paste and the Hairs Will Vanish

(Boudoir Secrets)

The judicious use of a depilatous paste lingers my woman a clear hairless skin. To prepare the paste, mix a little of the powdered depilatous with some water, then apply to the objectionable hairs for 2 or 3 minutes. When the paste is removed, age the skin washed, every trace of hair will have vanished. No pain attends the use of the depilatous and it will not mar the most sensitive skin, but to insure results, see that you get real depilatous.

Lord Mayor Of London Writes

Has Many Pleasant Memories of His Residence In Belleville

Mr. David Price, City Treasurer, is in receipt of the following communication from the Lord Mayor of London, Chas. A. Hanson, who was at one time pastor of Bridge Street Methodist church in this city:

99 Gresham Street,
London, E.C., Oct. 31.

David Price, Esq.,
City Treasurers' Office,
Belleville, Ontario.

My Dear Mr. Price,—So many thanks for your very kind letter of the 4th, and please accept for Mrs. Price and yourself the sincere thanks of myself and my wife for your congratulations and good wishes.

Belleville has for me and my wife many cherished associations. Without exception we left with nothing but kindness and it is to me a great pleasure to look upon my three years of residence there.

With kind regards to your wife and yourself and to any of my friends who may still linger, believe me to be,

Affectionately yours,

(Sgd.) CHAS. A. HANSON,
Lord Mayor Elect.

P.S.—Many thanks for the photographs of the church and organ which I have duly received.

Deserved Bons.

Bilson Procks—This cake is awful nice, mum, and delicious. This cake is awful nice, mumm.

"Well, what of it?"

"Oh, nothing; only when the minister says it you always say him to have more.

Hopeful.

"Cheer up!" says a Georgia philosopher. "High prices are sure to come down some time or other. If only to get the place where you buried what they didn't get."

War Policy Of The Union Gov't

Continued from page one

union among the people is as necessary as the coalition of political leaders.

Necessary to Sink Differences

No claim of exceptional patriotism or public virtue is made for those who have united to constitute a coalition Cabinet. But it was necessary to sink differences and overcome prejudices if that object was to be attained. If the object was great enough to justify union and co-operation of political leaders divided by old quarrels and acute differences in feeling and opinion, it surely great enough to justify the like unity of purpose and endeavor among the electors upon whom the decision the fate of the Government and the measures to be taken for the further prosecution of the war depend. In the trenches Liberals and Conservatives fight and die for a common Canada and a common Empire. No party rail divides the wounded in the hospitals. Nor do those who minister to their wounds and ease their sufferings ask, to what party, the afflicted belong. Is it too much to expect that the spirit by which the army lives and triumphs will be as active, and as powerful among the people at home when they cast their ballots and that here as there the general cause for which we contend will unify and inspire the nation? But there are other reasons why the Union Government should be entrusted with power. It has pledged itself to the extirpation of old abuses and to a wise and bold policy of constructive reform.

Patronage Abuses

The system of patronage in the distribution of contracts and offices which has prevailed in Canada for generations has been the root of many political evils. It has fostered local and sectional interests incompatible with the national welfare and injurious to the efficiency of the nation's services. It has, indeed, misrepresentatives of the people, permitted the ascendancy of organized minorities in the constituencies and affected the independence of Parliament itself. It may be that these evils should have been overcome long ago. Everyone may be upon measures Government which have polarized the system. But inveterate diseases succumb only to heroic remedies. Patronage has not distinguished Canadian practice in dealings with patronage. Governments have lived long in Canada and when they go, they usually distribution of patronage has been confined to the party in power; there is a national disposition to adjust the balance when at length the other party succeeds to office.

Once committed to the system inevitable results follow. A machine is created that are not easily resisted or dislodged. It is believed that a Government period from both political parties and strengthened by special representation of agriculture and organized labor can act with greater freedom and independence than a Government which held office under the old conditions. Hence the resolution of British public men not to seek to fill public office by merit, and not by favoritism, and to establish honest and open methods of dealing regarding contracts and buying supplies.

Control of Public Ministry

It is not necessary to repeat in full the announcement of policy already made public. In carrying out these policies the Government, it is believed, will stop wasteful expenditure by unwise duplication of railways, and to arrange effective co-operation between the public services in order to avoid items. With the acquisition of the Canadian Northern Railway the state becomes the owner of 10,000 miles of passengers and products. If public management is to be satisfactory, there must be vigor in administration and wise counsel concerning the outlook. Efficiency must be secured, consideration of personal or political patronage. Appointments must be made on the recommendation of competent authorities. Railway policy was determined not so much by the needs of transportation as by the ambitions of rival groups of railway builders. As a result, we have a great railway mileage, constructed at heavy cost, with long stretches of parallel lines where a single system could have handled all the traffic and slower charges, upon which interest investment of capital, it is believed, however, that Canada will yet develop traffic in excess of present rail facilities; and in the meantime the Government will endeavor to coordinate existing services and improve and protect the national railways without, however, entering into competition.

Revise Systems of Taxation

As old methods of railway building have to be abandoned so old systems of taxation have to be revised in order to meet the ever-increasing expenditure for war purposes and also to ensure that all shall share in common service and sacrifice, wealth will be conscripted by adequate taxation of war profits and increased taxation of incomes.

There will be close enquiry into expenditures in order to protect the Treasury against purely local demands and to eliminate undertakings of purely political origin and object. Permanent committees of the Cabinet have been established for war and reconstruction. The very difficult and intricate problems inevitably arising out of war conditions are being considered and studied earnestly and assiduously with a view to effective action with the least possible delay. Immigration and colonization will receive careful and continuous attention, always with a sympathetic regard for labor and in full recognition of the necessity for greater production. Thorough and effective co-operation among agricultural producers will be encouraged.

The men by whose sacrifice and endurance the free institutions of Canada will be preserved, must be regulated where necessary and re-established on the land or in such other pursuits or vocations as they may desire to follow. The maimed and the broken will be protected; the widow and the orphan will be helped and cherished. Duty and decency demand that those who are saving democracy shall not find democracy a house of privilege or a school of poverty and hardship. The franchise will be extended to women, not chiefly in recognition of devoted and capable service in the war, but as a measure of justice too long delayed. If men die, women suffer. If they are maimed, women heal lodeeper; if not wounded, women heal, if they are maimed, women labor. And since there can be no separation in suffering and sacrifice, there should be none in citizenship.

Stimulate Patriotism

The Government will strive to develop and stimulate a common patriotism in all elements of the people and all portions of the Dominion. It inherits no hatreds legacies, it cherishes no grievances or animosities. East and West are equal at the council table, and in the new Parliament all the provinces will have equal and adequate representation. In the electoral campaign it is greatly to be desired that reticence should be observed in the treatment of all questions in which smoulder the fires of old racial and religious quarrels and contention. Those who gave their lives for us on far away fields of battle cherished the vision of a united Canada. To deny the vision would be treason to their memory.

The Government thoroughly realizes that in this gathering emergency there is imperative necessity for fulfillment of its policies with the least possible delay. It pledges itself to prosecute the war with ceaseless vigor, to strive for national unity, to administer the public departments with economy and efficiency, to devise measures of taxation and to neglect nothing that may be required to sustain the soldiers on service or to comfort those of them dependents whom they have left behind. Firmly convinced that these objects can best be achieved by a Government representing all parties, classes, creeds and interests, I appeal will confidence on the loyalty, the courage and support of the Canadian people.

(Signed) R. BORDEN.

A Great Singer Coming Here

Nelli Gardini Concert Company Will Appear Here Under Auspices of Veterans

Those who have never heard Mme. Nelli Gardini, as well as those who have had that privilege, will be pleased to learn that she has been secured for one concert in Belleville, assisted by that eminent pianist, Mr. Frederick C. Perin, the one pianist chosen by Jan Paderewski to complete his concert tour of America last season, when his health failed and compelled him to return to Poland.

The association of two such eminent artists has seldom been vouchsafed a Canadian audience, and our music-lovers will not be slow to voice their appreciation. The concert will be under the auspices of the Great War Veterans' Association.

A committee of ladies is being arranged to greet Madam Gardini when she arrives and to act as patronesses during her stay in the city.

During her tour of South America in the past season, she was accorded every courtesy of the South American cities by the leading citizens and American Consuls at the various cafe, ports which she visited.

BUY A VICTORY BOND

Buy More Than One if You Can

But Make Sure of that One

Here Are Three Reasons Why We Consider That Every Man Should Buy One or More Victory Bonds

Patriotism

In lending your money to your country you are performing a patriotic duty—in fact it is an obligation you owe your country. If you cannot lend your physical assistance lend your money.

Business

The money you lend your country in return for a "Victory Bond" is all spent in Canada to pay Canadian workmen. If the workingman prospers, then all business prospers.

It is an absolutely sure investment backed by all the resources of the Dominion of Canada.

Personal Interest

Your investment in a Victory Bond will be a remarkable one because it will fill both the above obligations and yet remain to return a handsome cash profit.

WHATEVER WAY YOU LOOK AT IT, A VICTORY BOND DIRECTLY BENEFITS YOU

FREDERICK PALOS

Many were yesterday afternoon in attendance at the obsequies of the late Mr. Frederick Palos, which was an evidence of the esteem in which deceased was held. The funeral took place from the residence of his daughter, Mrs. William Symons, 19 Bridge Street, to Christ Church, where the burial services of the Anglican church was conducted by the rector, Rev. Dr. Bigrave. Interment took place at Belleville cemetery. A large number of beautiful floral designs were the gifts of relatives and friends. The bearers were Messrs. H. Dement, Jr., Forrester, W. H. Gorton, Geo. Kilaih, D. Harrison and T. H. Marshall.

ROBERT BURRIS

The funeral of the late Mr. Robert Burris took place yesterday afternoon from the residence of his daughter, Mrs. Roe, 36 Chatham Street. At the house and interment at Belleville cemetery Rev. S. C. Moore, pastor of the Tabernacle Methodist church, conducted burial services. A number of flowers were the gifts of relatives and friends. The bearers were Messrs. James Reid, Jas. Feeney, E. A. Hobston, J. M. Devolin, F. Montgomery and F. Fletcher.

FUNERAL NOTICE

The officers and brethren of Eureka Lodge, No. 283 A. F. & A. M., are requested to assemble at the Lodge room at 1.30 P.M. on Thursday the 15th inst., for the purpose of attending the funeral of late Bro. Percy E. Ketcheson. The Brethren and Sister Lodges are invited. Blue regalia to be worn.

INTERESTING EVENTS IN TRENTON TOWN

Current Events in Trenton and Vicinity Reported by the Intelligencer's Correspondent—Deaths, Fires and Accidents

(From our own correspondent)

TRENTON, Nov. 14—Several employees of the British Chemical Company were in Belleville for the Assizes court on the Rex. vs. Horace Creasy case.

Mr. Max Drury, a well known and much respected citizen of the village of Smithfield, passed away very suddenly at his residence on Sunday morning. Last winter he was thrown from his rig and sustained an injury from which he had complained of feeling severe pain in his head at times since. Mr. Drury is a member of the Methodist church and has a large circle of friends in the village and surrounding country, as for many years he has been operating a grist and flour mill in that vicinity. He leaves a widow.

The condition of Mrs. Paul Twiddy, of Smithfield, who was severely injured by a train crashing into the buggy when she and her husband were crossing the railway track a week ago, is somewhat improved and hopes are now entertained for her recovery. Mr. Twiddy was more fortunate and escaped with a few severe bruises but Mrs. Twiddy was caught in the wheel and dragged some distance by the train and injured internally.

The death occurred recently at their circuit near Warkworth, of Mrs. (Rev.) Gladstone McKee, Mrs. McKee was formerly Miss Opal Miller, and she was well known here, having taught school in the vicinity of Belleville for several seasons. She leaves two little children. Her mother, Mrs. Twiddy, is Smithfield, and a brother, Bert, who is "Somewhere in France." The clever young Methodist minister, Rev. McKee, is well known here, having attended Albert College, Belleville, and he has the sympathy of the entire community. His father, the late Rev. McKee, also was on the Smithfield circuit several years ago.

Early on Monday morning the fire bells rang in Trenton for a fire which had broken out in the Cooperage Mills. Fortunately it was discovered in its early stages and controlled promptly, doing little damage. Considerable excitement was occasioned a short time after when the fire whistles began to give forth peal after peal, but finally the worried faces were all smiles when it was understood that the alarm was in this manner announcing the advent of the Victory Bonds.

OFFER ROWELL DURHAM SEAT

Conservatives Take Initiative and Union Convention Likely to Ratify

PORT HOPE, Nov. 14.—Moved by C. Jonas Thornton, ex-M.P., seconded by John H. Devitt, M.P.P., that this Joint committee recommend to that the Conservative convention to be held in Orono Tuesday approve the Hon. N. W. Rowell as the candidate of a Union convention to be called for Thursday next at Orono, the Executive of the Reform Association having pledged their party to likewise approve the said nomination, and their candidate, Mr. Bartram, having resigned."

Notwithstanding that the introduction of the above resolution by two prominent Conservatives came as a complete surprise, it was unanimously carried by the Union meeting of ten Liberals and ten Conservatives held here Monday afternoon. Few of the representatives were aware that such action was to be taken, and when the resolution was ready they could scarcely realize the move.

Mr. N. Rowell's name will be submitted to the Conservative convention at Orono, and leading Conservatives do not anticipate any opposition. The Executive of the Reform Association have pledged their support and the Union convention will meet at Orono on Thursday.

The selection of the Hon. Mr. Rowell has met with favor by both parties in Port Hope, and they all feel quite elated that Durham is to be represented by a Minister of the Crown. Mayor Mulholland, who was to be the Conservative candidate, says he is pleased to step aside for such an able representative as Hon. N. W. Rowell, an "all-Canadian, win-the-war" candidate and a Union Minister.

TO ARREST ALL MEN NOT REPORTING

Major Cooke, district registrar, is receiving anonymous letters from people all through this district, asking him the names of eligible men under the Military Service Act who have not and do not intend to report for service. It is the intention of the Department of Justice to take the strongest action in these cases as an example to the remainder. There are some regulations under consideration to allow a man to report for service at the Depot Battalion for the next few days, after that every man, whether medically unfit or not, will be subjected to the punishment which any other deserter from the Canadian Expeditionary Force receives. In all probability there will be some of these cases started by the crown attorney in the near future.

UNION GOVERNMENT CONVENTION

Volunteer autos to convey delegates to the Win-the-War Convention at Marmora on Thursday next will be at the committee room, Corbett Block, Front street, at ten o'clock sharp. All delegates who can attend are requested to be at the place named sharp on time.

W. H. NUGENT,
Secretary.

Sister Basil's Case Before The Court

Evidence of Sister Mary Gabriel Taken in Mosse Jaw

KINGSTON, Nov. 14.—The action brought by Sister Mary Basil against Archbishop Spratt et al for $20,000 for damages for alleged abduction will come before the Supreme Court sittings here, presided over by Justice Britton. The trial will be held in the City Hall.

D'Arcy Cunningham has been in charge of the case for the plaintiff. His counsel at the trial will be W. N. Tilley, K.C., of Toronto; J. J. Hegarty, K.C., and Lally McCarthy, K.C., the latter of Toronto, will appear for the defence.

Sister Mary Basil, the plaintiff, was formerly Miss Johanna Curran of Holyoke, Mass., where a brother, Martine Curran, an attorney, still resides. For some months Sister Basil has been living with friends in Kingston. She is a woman of good address, over twenty-nine years in the convent of the Order of the Sisters of Charity whose mother house is in the city.

Sister Gabriel's Evidence

The evidence of Sister Mary Gabriel has been taken on commission at Moose Jaw, and will be presented at the Basil vs. Spratt case which opens at Kingston Tuesday. She is well known here. Her evidence covers certain matters while she was in charge of the Belleville convent.

Clothed in her religious garb, Sister Mary Basil was the central figure in the court-room when evidence was partly unfolded today before an audience which filled the City Hall. In simple, direct language, the Sister, cool, calm, dignified, told part of her story of alleged assault and abduction. Sister Mary Basil, who is a member of the Sisters of Charity, is suing Archbishop Spratt and others for $20,000 damages, alleging assault, conspiracy, false arrest and imprisonment. Her evidence had been only partly taken when the court adjourned.

W. N. Tilley, K.C., of Toronto, is leading counsel for the defendant and Lally McCarthy, K.C., of Toronto, is the chief lawyer for the plaintiff.

Napanee Boy Badly Burned

Mother of Little Fellow Burned While Beating Out the Flames

NAPANEE, Nov. 14.—A distressing accident occurred at the home of Mr. Gleeson, East Street, when his little son, Jack, aged four, who so severely burned that no hope is held out for his recovery. In trying to save her little fellow with a chum, Billy Millsap, were left in the kitchen while Mrs. Gleeson went up stairs to do her work. A newspaper was procured and the little fellow set fire to a paper bag which quickly ignited his clothing, and before Mrs. Gleeson could beat the flames out the child was badly burned. Mrs. Gleeson's burns, although severe are not considered serious, but Dr. Smith can hold out no hope for the little fellow.

FIRST ARREST UNDER M.S.A.

Young Kingston Farmer Had Not Complied—Claims to Have Married on July Sixth

KINGSTON, Nov. 14.—The first arrest under the Military Service Act was made to-day when local officials took into custody a young farmer who had failed to report, apply for exemption, or report for service. He claims that he was married at Syracuse on July 6th, and his history is being investigated.

Col. Hepburn Cannot Return To Canada

Has Therefore Definitely Resigned as Candidate For Prince Edward County

PICTON, Nov. 14.—A cable has been received from the military authorities definitely refusing to release Col. R. H. Hepburn, the former member for this county, from his duties as second in command of the Forestry Division, to allow him to return to Canada for the approaching election campaign. Col. Hepburn has therefore decided to resign his nomination as candidate for Prince Edward and has forwarded his resignation in favor of a Unionist win-the-war candidate. In view of these facts a Unionist mass meeting has been called for Saturday next, Nov. 17th, to be held in the Town Hall, Picton, for the purpose of renominating Col. Hepburn as Unionist candidate, or to select some other candidate who is an unswerving supporter of the Union Government.

Hun Advance Has Been Halted

Italian Headquarters in Northern Italy, Nov. 14.—The Italians are holding the Austro-German advance on the Piave line. Early reports from the front were favorable. Heavy shelling is in progress all along the new front.

The Italians are entrenched back of the west bank of the Piave River and the Austro-German main force is now taking the place of the advanced guard on the east bank. The strip of water between the opposing lines is about half a mile, widening at some points to a mile.

SAYS LAURIER IS "ONLY LESSOR EVIL"

MONTREAL, Nov. 14.—Henri Bourassa seems not very happy in casting in his lot with Laurier in this election. He wound up a series of articles in his paper Le Devoir on the Laurier manifesto by stating:

"Needless to say, we are no more united to the liberal party than we were to the Conservatives in 1911."

In stating that Nationalism is not a party, he says:

"The immediate evil to combat is the policy of the ministry, the policy of dissension of nationalities and although the opposition is far from satisfactory, it is less evil than the ministry."

He is not in favor of putting Nationalist candidates in the field. He says:

"To bring out Nationalist candidates would be risking the success of the ministerial candidates, while in supporting the opposition we are working to defeat the Government, which is urgent. If Laurier fails, it will not be our fault."

NOMINATED FOR KINGSTON

KINGSTON, Nov. 14.—Dr. A. W. Richardson was last night chosen by the Liberal Association to run as a Win-the-War Liberal in the coming election.

DEFECTIVE CHILDREN ALLOWED TO DIE

Chicago Physician Does Not Believe Defective Children Should Be Doomed to Years of Misery and Families Penalized —Put to Death Painlessly

CHICAGO, Nov. 14.—Dr. Harry J. Haiselden of the German-American Hospital, who has allowed several children born defectives to die, is now treating such unfortunates so as to assure painless death. Lethal drugs are used.

One of the patients who will soon die under the influence of the opiates is Paul Hodesein, a child with an abnormally small head. Dr. Haiselden defends his action in administering drugs in this way by explaining that the child is doomed to live for years in agony unless put out of his misery a month or case, declared by Dr. Haiselden, when he announced that he was administering the drugs, was that of an aged woman who had been found during a blizzard last winter. Her arms were frozen, she had fallen and broken her hip, and she was suffering from cancer. A painless death was assured her by the lethal drugs.

According to Dr. Haiselden the lethal drugs relieve the pain of the patient and take away the horror of death.

"Under the influence of these drugs," said the physician, "the patient passes the dreary existence of the lobus eater. Indian hemp and other milder drugs lessen the desire for food and the patient passes to the second stage within a month."

BRITISH DEFEATED POWERFUL HUN ATTACK

Strong Forces of the Enemy Attacked British Positions on High Ground But Met Complete and Disastrous Defeat—First Counter Attack For Some Time

(Special to The Intelligencer)

LONDON, Nov. 14.—The War Office reports that following a heavy bombardment the Germans late yesterday launched a powerful attack against the positions held by the British on the high ground north of Passchaendaele but that the attack was completely defeated, all points being securely held by the British. This the first counter-attack of any strength made by the Germans since Haig's successful drives last week.

Russian Revolt Seems Crushed

(Special to The Intelligencer)

LONDON, Nov. 14.—Despite yesterday's official statement from rebel sources at Petrograd reporting that the Kerensky-Kornilof forces had each defeated despatches from Finland and Stockholm today declare that the whole of Russia, except a small part of Petrograd, is now in the hands of the Kerensky government.

URGES SUPPORT FOR UNION GOVERNMENT

MONTREAL, Nov. 14.—Bishop Farthing, of the Anglican diocese of Montreal, has issued a circular letter to the clergy of the diocese, urging them to support the Union Government, and especially the Victory Loan.

MONTREAL, Nov. 14.—Having offered their aid to the Victory Loan committee in the big procession here next Monday, the members of the Protestant Ministerial Association will walk, side by side with the Roman Catholic clergy, in the procession through the city. This was decided at a meeting of the association today.

(Special to The Intelligencer)

ROME, Nov. 14.—A despatch from Italian headquarters says the Piave line still holds in the face of the heavy and continuous artillery fire from the eastern bank. Several enemy battalions crossed the river on pontoons but were caught by the Italian artillery fire and either destroyed in midstream or passed back at a meeting of the association today. on the river bank.

GOVERNMENT CONTROL OF PACKING HOUSES

Drastic Plan is Officially Announced at Ottawa—Government Will Take Half of Profits Above Seven Per Cent. on Capital and All of Profits Over Fifteen Per Cent.

OTTAWA, Nov. 14.—Official announcement is made of the Government's plan to establish effective control over all packing houses in Canada by a step which Sir Robert Borden announced would be taken shortly after the organization of the present Union administration. The plan, which also provides for a control of the profits of the packers, and provides also for the establishment of Government control of all profits in excess of 15 per cent. One-half of all profits in excess of 7 per cent. and up to 15 per cent. will be taken by the Government. The official announcement is as follows:

"In carrying out the policy of the Union Government as announced by the Prime Minister during the early days of its formation, it has been decided to establish effective control over all packing houses in Canada.

"The control of profits shall be as follows:

"1. No packer shall be entitled to profit of more than 8 per cent. of his total annual turnover, that is, his total sales during any one year.

"2. If the 8 per cent. on annual turnover exceeds 7 per cent. on the actual capital invested in the business, the profits shall be further restricted as follows:

"(a) Up to 7 per cent. on capital the packer may retain the profits.

"(b) If the profits exceed 7 per cent. and do not exceed 15 per cent. one-half of the profits in excess of 7 per cent. shall belong to the packer and one-half to the Government.

"(c) All profits in excess of 15 per cent. shall belong to the Government.

"Suitable regulations shall be made to insure the carrying out of this policy."

The above is the fulfilment of a plan which has been in course of preparation for some time, and announced at Winnipeg on the 23rd of October.

PARIS, Nov. 14.—The War Office reports that the artillery was very active last night on the right bank of the Meuse (Verdun front), but that elsewhere the night was calm.

Obey The Law Says Shaughnessy

MONTREAL, Nov. 14.—The following has been sent out by Lord Shaughnessy, president of the C.P.R., as a "gentle reminder" to employees preference over all other messages, and is communicated to every employe of the company:

"Under the Military Service Law, it is illegal to engage or to continue in the company's service, any person within class 1, who has not on or before November 10, 1917, reported for military service, or applied for exemption, and the company is required forthwith after said date to ascertain and report to the Government the names, addresses and whereabouts of all employes within class one who have not so reported for service or applied for exemption. Please take measures to secure observation of the law in these respects. (Signed) Shaughnessy."

Canadians Repulse Counter-Attacks

Canadian Army Headquarters in France, via London, Nov. 14.—During an intense artillery fire last Saturday, two counter-attacks were launched by the enemy against our lines. The first was broken up by our artillery fire, which swept the assembly area, inflicting heavy casualties, while the second attack, though further advanced, was equally unsuccessful, the attacking forces being driven off with heavy losses by our artillery, machine gun, and rifle fire. Since then the enemy has made no further infantry attempt against our lines.

The prisoners captured pay tribute to our artillery fire of the tenth, men of the 3rd Battalion, 214th Regiment, reporting that their battalion suffered tremendous losses and were withdrawn from the line after experiencing twelve hours' shelling.

Enemy aircraft has been unusually active, dropping bombs on our forward back areas, machine-gunning our troops in line and worrying carrying parties. Fights between our own and enemy machines have been frequent, and, despite the strength of his air patrols, one of our machines, after six ineffectual attempts to cross the line in order to reconnoitre the enemy positions, succeeded despite repeated attacks.

Dutch Trawler Sunk By Sub

AMSTERDAM, Nov. 14.—The Dutch trawler Hulbertje was torpedoed by a German submarine Monday, 35 miles off the Dutch coast. The survivors were rescued from a small boat.

CANADIAN GIRL MAY BE QUEEN OF BRITAIN

LONDON, Nov. 14.—Speaking at the Canada Club, London, Minister George Perley, yesterday, Sir Hamar Greenwood said: "We have a chance of having a Canadian girl as Queen of England, and I for one expect His Royal Highness the Prince of Wales not to neglect Canada in making a selection which is vital to the interests of the mother country and the Empire.

"I won't suggest that one branch has done better than another, but I think we may be justifiably proud of what our Canadians have done."

(Cheers).

Sir George Perley spoke of the important work accomplished by the Railway and Forestry battalions, and made a generous reference to the manner in which he had been supported by Generals Turner and Currie.

Speaking of Canada's internal affairs Mr. Perley remarked "Instead of being a borrowing country we become a lending country.' Some said we had borrowed too much but I frankly tell you we could not do so in a country like Canada. I believe we may anticipate the time when we shall have a population as large as the United States has to-day.

ALLEGED TRAIN WRECKERS PLACED ON TRIAL

Several Charges Preferred Against Three Youths—Many Witnesses to be Examined in the Train Wrecking Case Imposing Array of Legal Talent

When the Assize opened this morning before the Hon. Justice Britton the Grand Jury presented true bills against Roy Sandford, Frank Wilson, and Clarence Lloyd on charges of train wrecking. The three young men were charged with tampering with C.N.R. and C.P.R. switches and placing obstructions upon the track, thereby causing a wreck. To the various indictments the young men when arraigned pleaded not guilty and stated that they were prepared for their trials.

Mr. J. E. Jones, Crown Prosecutor, conducted the case on behalf of the Crown, Mr. J. M. White, K.C., was presenting the C.N.R., Col. Ponton, K.C., representing the C.P.R., and Cassidy & Cassidy, Wm.-Carney were associated with the Crown counsel in the case.

Messrs. W. C. Mikel, K.C., and A. J. Abbott, were defending Wilson and Sandford.

There are many witnesses to be heard in the case, the full particulars of which were published at the time of the preliminary trial of the accused.

CIVIL ACTION.

Ridley vs. Parks.—This was an action brought by Luella Ridley, daughter of the late Emerson Parks, who died at Trenton in 1914, to recover his estate after the debts and expenses were paid, or to recover compensation for services rendered her parents prior to their death. It was contended by the executors, the defendants, who were brothers of the deceased, that any acts or services performed by her were merely what a daughter would naturally perform for her parents free of charge, also that the deceased had given the plaintiff a house and lot or loaned her money to buy it, which would be ample compensation for any services she performed, and at any rate, the plaintiff having been given an equal share of the estate under the will, it would be a redemption or payment of any claim. The executors also set up that the plaintiff had received loads of furniture belonging to her late parents at the time of their death.

Judgment was given for the plaintiff for $600. W. C. Mikel, K.C., for the plaintiff; R. J. Butler, K.C., and T. J. O'Rourke for the defendants.

FARMER SHOT ON PUBLIC HIGHWAY

Joan Wood Died From Gunshot Wounds Received While Driving Near Actinolite—Two Boys Implicated—Details Meagre—Inquest So Be Held

On Saturday afternoon last a fatal shooting affray took place near Actinolite, in the Township of Elsevir, Hastings County, but at the present time it is not known whether it was accidental or otherwise. The details are somewhat meagre, but it has been ascertained that a man named John Wood, accompanied by his wife and child, were driving along a highway, when they overtook two boys who were walking. It appears that one of the boys was in possession of a gun, and Mr. Wood stopped his horse and entered into conversation with the lads. During the conversation the gun was discharged and the contents entered the body of Mr. Wood, inflicting wounds, from which he died on Monday.

Dr. H. C. Kindred, coroner, was notified of the occurrence, and on Monday empanelled a jury, who viewed the remains, after which a post mortem was held. The taking of evidence in the case was adjourned until 1 o'clock on Friday at Actinolite.

The victim of the unfortunate affair was well and favorably known in the community, where he resided and his untimely death has caused universal expressions of regret. Mr. Carney, County Attorney, will represent the Crown at the investigation of the affair.

Unable To Work For Six Months

"Tanlac Has Brought Me Out Of My Trouble: Something Wonderful," He Says

"Honestly, if it hadn't been for Tanlac I might have lost my job that I have held now for eighteen years, and my wife is so delighted over my improvement that she has started taking Tanlac too," declared George Shields, a long time employe of the Grand Trunk Railway, and residing on High street, London, the other day.

"When I came down with that spell of typhoid fever some time ago," he continued, "I wasn't able to do a lick of work for six months. My appetite left me and I just had to force down enough to keep alive and it looked like I never would get back my strength. Anything but the lightest kind of diet would tear me all to pieces and make me miserable all day. My nerves were all unstrung and the least little thing would excite me so I couldn't rest. I would wake up half a dozen times during the night, and felt so wretched it was all I could do to get up in the mornings. I was so weak and rundown that I couldn't even lift a trunk without feeling the strain in my side for two or three days afterwards, and I had so little life and energy left that I just felt like dropping down anywhere and staying there.

"I heard so much about Tanlac that I got me a bottle and it has certainly brought me out of my troubles something wonderful! My appetite has increased so I feel hungry all the time and I can eat such things as cabbage and pork without the least trouble. I have gained three pounds and can handle heavy baggage with ease or do any other hard work that comes in my line. My nerves are in fine shape, I sleep as sound as a log all night and get up ready to tackle anything. I never have that tired, worn-out feeling any more and at the rate I am now improving, I am sure that I will soon make me as well and strong as I ever was."

"Tanlac is sold in Belleville by Ostrom's Drug Store; in Trenton by J. H. Dickey, in Deseronto by W. J. Maher, in Stirling by J. E. Mallory, in Frankford by W. H. Lattimer, in Madoc by J. Will Vince and in Marysville by T. J. McAlpine."

MILITARY NOTES.

Major W. J. McManus left on Monday for Belleville on duty.

Lieut. W. A. B. Mark has been appointed to the Depot Battalion.

Capt. E. B. Manning has been struck off the strength of the C.E.F.

Capt. E. H. McLean, 235th Battalion, recently appointed a judge, has been appointed to the C.E.F. reserve.

Lieut.-Col. E. W. Rathburn has been reinstated in the C.E.F., and is returning to England at his own expense.

JURYMEN SUMMONED TO COURT

At the opening of the Assize this morning and the roll of petit jurors had been called a few did not answer to their names. His Lordship Justice Masten ordered the Sheriff to summon to the court the jurors who had failed to respond to be dealt with as the cases warrant. His Lordship stated it was unfair to the other jurymen who had responded that some should not attend. In some cases medical certificates, as to unfitness, had been presented, which were accepted.

DEATH OF AN EX-WARDEN.

Word has been received in the city that on Sunday last, Mr. Alexander Lecaster, a well-known resident of Dungannon township, passed away after suffering ill for some time. Deceased, who was about 65 years of age had resided in the northern part of Hastings county for many years, engaged in his life. For a number of years, Mr. Lancaster was Reeve of Dungannon Township and for one year was Warden of the County. These positions he filled with marked ability and credit to the municipality and county alike. Deceased was a respected popular and had a host of friends who will regret to learn of his demise. Mr. Lancaster was a successful farmer. He was a member of the A.F. and A. M. Society, and in religion, an Anglican. A widow and one son at home survives.

CALLED BY DEATH.

ROBERT G. WEESE

Mr. Robert George Weese, a well known and much respected resident of this city, died last night at Kingston, after being in ill health for some time. Deceased, who was in his 77th year, was the youngest son of the late Mr. John Weese, of Belleville, where he was born and resided all his life. Mr. Weese was in religion, a Presbyterian. Four years ago his wife predeceased him and surviving is one daughter, Mrs. Harry A. Naylor, 187 Church street, in this city. The remains were today brought to the city and taken to the home of his daughter.

Would not be Without Zutoo Tablets At Any Cost

Such is the statement of Mr. A. O. Norton, of Boston, the largest Jack Manufacturer in the world. In a voluntary testimonial regarding ZUTOO TABLETS follows:

"265 Congress St., Boston, Mass.

"I have been a sufferer from Headache since childhood and have used all or nearly all the so-called 'cures' on the market. Some months since my attention was called to Zutoo Tablets and I have been using them ever since with the most gratifying results. They cure a 'sick' or 'nervous' headache in a few minutes and leave no bad effects. Finally, as a tonic, Zutoo Tablets work with equally good results. I have frequently given them to friends who were suffering from Headache and they never failed to give satisfaction. I always carry Zutoo Tablets in my grip on the road and WOULD NOT BE WITHOUT THEM AT ANY COST."

MUSIC AND DRAMA

"POLLY OF THE CIRCUS" IS PACKED WITH THRILLS

"Polly of the Circus" an elaborate screen presentation with Margaret Mayo's great drama of circus life, is the first of the beautiful productions to be released by the new Goldwyn Pictures Corporation. Mae Marsh is the star of this immense photo-spectacle which is being shown at Griffin's tomorrow till Saturday with a matinee Saturday.

"Polly of the Circus," as a drama, was one of the greatest successes of the American stage, and made a fortune for its authors and owners. In the picture form it is one of the most remarkable productions ever made.

"Polly of the Circus" tells the story of a little circus orphan (Mae Marsh), who has been raised by Toby, the clown (Charles Eldridge). Polly is hurt in an accident and has to remain behind while the show goes on. She is taken to the home of the minister, where her presence in the house is turned into scandal by the narrow-minded village gossips.

This is a picture of laughter and tears; a picture of a score of circus thrills and, in fact, you see a complete circus performance on the screen. The most amazing of all the scenes is the burning of the main tent during the evening performance and the wild stampede of the audience.

"THE WHIP"

"The Whip," offered a rarely inviting subject to the famous photoplay director Maurice Tourneur. Tremendous effects have been secured, as for instance, the gigantic train wreck in which a whole train was smashed to bits at a huge cost for the sole purpose of securing one scene for this picture. The story is of the race track and the intrigue revolving around a famous race horse named "The Whip," this special offering is announced for exhibition for the last time tonight along with the Mutual News Weekly with its breezy review of important news events gathered the world over.

"BARBARY SHEEP"

At the Palace theatre commencing to-morrow, Elsie Ferguson, the most beautiful artist of the American drama, makes her motion picture debut in "Barbary Sheep."

In "Barbary Sheep," adapted from Robert Hichens most popular book since "The Garden of Allah," Miss Ferguson is given a vehicle that not only is particularly adapted to her capabilities, but one that offers her a most lavishly artistic background. Under the direction of Maurice Tourneur, the well known French producer, some of the most elaborate sets ever staged for a photoplay are presented in novel display. The romantic story of Algeria, which tells of the infatuation of an English nobleman for a dark-skinned army officer, as told on the screen, is a readily felt, will achieve greater popularity than even the book experienced.

Bushman and Bayne in "the Great Secret" series and a good comedy will also be screened.

"THE ONLY GIRL"

A large audience witnessed the production of "The Only Girl", a Victor Herbert musical farce, at Griffin's Theatre last evening, and enjoyed the merry, tuneful melange. The entertainment is light and airy, but perfectly clean and wholesome and gave general satisfaction. The cast was capable and the many song hits were well rendered, particularly the quartette numbers and the male trio "When Your Ankle Wears the Ball and Chain," which found special favor with the audience.

A feature of the program was the appeal made to the audience by Charles Hall, a member of the company to purchase Liberty Bonds, while the entire company passed among the audience soliciting applications for the bonds. As a result nearly $1,000 of the Liberty Bonds were sold in the theatre.

THINGS WHICH REMAIN

By Rev. A. M. Hisby,

Heb. xii-26-27.

When the Emperor of Germany said in July, 1914, "We will astonish the world," there was more truth than poetry in the assertion. But if he was himself to be witness astonishment he made a great mistake. The astounding has not been all on one side.

The old world, and all the great things therein have been shaken, but not altogether by the will and purpose of men and nations on either side of the battle forces. There are periods in the life of every man, when all his props and strongholds seem to be shaken. The hurricane, the rain, and the floods came, and the building thought to be secure against all tempests was shaked and fell! The cyclone sweeps the city and great structures which promised to outlast the mountains collapsed like an Indian's wigwam.

"The waters roar and are troubled and the mountains shake with the swelling thereof"! I remember the Saxby gale of 1869, how, along the rock-bound coast of Nova Scotia, lighthouses built to defy the battering waves of the mighty ocean fell, wicked, guiding buoys were snapped from their moorings, and vessels from their anchor chains, and storehouses filled with hogsheads, and barrels of the fauna of the deep, riches of old ocean, were swept away by wind and flood. I happened to be in the vicinity of St. Margaret's Bay, having left Halifax the day before.

I was therefore able to visit along the shore of the bay and see the awful devastation and destruction of property belonging to the fishermen, and to witness their astonishment and hear them tell of their loss. I had not learned then, as I have since, that men breed the destructive elements at time to teach them the difference between things which can be shaken and things which cannot be shaken, that they may set their affections on things above and not on things upon earth.

Nations live longer than men, and therefore their tranquility may be less frequently disturbed, but, here, too, the unexpected sooner or later happens. Easy going national traditionalism may be all upset by a single blast of a jingo's fool breath. Conventional standards or honor, truth and justice, which seem as immutably fixed as the barriers of creation are scattered like chaff before the wind.

Political economics, and safeguards of national peace are as unstable as bits of paper swept into the flame of our study fire.

Business security—the structure of trade and commerce go down like the fisherman's stores before the Saxby gale, or like a rotten wharf before an angry sea. Such is our experience for the past three years. All the customary foundations of national peace and security of life's necessities are shaken, and some destroyers beyond hope of restoration. This is not caused by the storms of heaven, but by the angrier, fiercer storms of human sinful passions. Large areas of our earth are being scarred and torn and defiled with blood and putrid bodies of our brother men! The sea, tossed as storm-swept, by bursting engines of death!

The heavens are blackened as like beetling cloud-monsters, the broad winged warriors march and countermarch across beneath its ethereal blue. Thus, amid all these violation of our national ideals, and the quenching of individual hopes in this riot of all and barbarism, and unutterable sorrow of millions, and wounding and suffering of millions more, where can we find solid ground?

In trying to answer that question I would first prayerfully remind you of the danger we have been in, for decades back, of resting upon false security, of building upon quicksands, instead of digging deep and founding our life structure upon the rock.

Insensate materialism has dominated the mind in all enterprise, and all effort, put forth with moral and good intent often, and yet more often, with degrading deception.

The columns of the daily press, in the interest of morality, and truth are forced to give revelations of dishonest scheming, of graft, and base political achievement, in almost every issue.

Then we have the moral life of the young people contaminated, with impurity, by institutions of questionable amusements, and the hope of religious training for the youth of our land blasted by wicked literature, and glaring examples of loose living, and gross indulgences, Sabbath desecration and forgetfulness of God.

With all these things outraging the senses we have become victims of the deceptive, trans tory things of time. We have been reveling in prosperity and pleasure without a thought of the fact that all the forces that make them possible are subject to a greater and mightier force, which hides behind that which is seen. We have been sporting with time and its responsibilities, as children chasing butterflies trample on the grass and the flowers, forgetting that the master of the garden might call us to account for the misleading of every moment. We have been charmed with the things which are seen and can be shaken, and have forgotten the greater things which are unseen, and that cannot be shaken. Let us remember that the power of truth can never be shaken. We see the reality of the unseen through the tempest tossing in fury its waves mountains high, but deep down beneath the surface lies the great silent power of the sea, unmoved by the raging tempest, or two boisterous dashing waters.

Again, we see the hurricane prostrate the mountain pines, and the lightning bolt, shot like vengeance from the piled-up cloud, shiver and rend the mountain top, but beneath all the shattered scene is the solid unseen strata of the mountain unshaken.

O, God! "Thy righteousness is like the great mountain: Thy judgments are a great deep: O, Lord, thou preservest man and beast. How excellent is thy loving kindness, O, God! Therefore the children of men put their trust under the shadow of thy wings. They shall be abundantly satisfied with the fatness of thy house: and thou shalt make them drink of the river of thy pleasures." Here then, we find solid ground amid things which cannot be shaken, resting upon the righteous judgment and truth of God, we are safe and satisfied.

We were in danger of doing as the people of God did in the days of Isaiah.

"We have made a covenant with death and with hell are we at agreement: when the overflowing scourge shall pass through, it shall not come unto us, for we have made lies our refuge, and under falsehood have we hid ourselves." This is the prophet's charge. Those people put their trust in the false and feeble. But their trust not vanquished by their doing so, and she was not idle. Neither is she ever idle. She is mighty in her principles.

This mighty unshakable power is in the conflict which is engaging the energies of our Empire, and trying the fidelity of every British subject. This war is forcing many profitable lessons upon us, that we have, in our years of prosperity and peace, refused to learn.

Let me mention some lessons that are being forced upon us by some sovereign power gentle in its mightiness, yet mighty in its gentleness. Have you noticed that our Government is about to cease the great sin of pouring into that great black reservoir of degradation, suffering, and death the golden grain of our goodly land, given to make bread to feed the millions? If nothing but cruel war and a famine of bread could teach us the lesson, then thanks be to our Sovereign Lord for both famine and war.

Truth is ever appealing for the enlistment of men and women into her army which must continue waging war against the false and the evil.

No one who has any proper sense of individual responsibility to the nation can close their eyes and ears to the things that increase national liabilities. Think for a moment of what straws, with wrecks of human life the "pilgrim way."

The liquor habit having seen its millions slain, are we successfully combating it. The cigarette habit, though we know much of its terrible effect on both heart and brain, still scoops that we shall have to see many insane victims of it, before we are brought to know, that craving is better than poison.

But why specialize? Vulgarity, selfish indulgence, masterly habit, or coarse conduct that blurs the vision of the soul, and leads away from high ideals, loyalty, and truth.

The things which undermine the strength of youth, that sully its purity, and reduce its efficiency for loyal service to both God and country, are as much to be dreaded as to make life less than the hostile armies of Europe.

How shall we overcome these great evils, and be faithful in combatting the same? We are given one host of the things that can be shaken for the purpose of shakable things. We need an army of such for our sons, husbands, sweethearts and brothers to defend with their persons even unto death our King and empire. When we have given these soldiers, there is another imperishable things which we would withhold, that would add to their comfort, their safety, and insure their victorious return. We refer to look our returned soldiers in the face, with a countenance lighted with an inward consciousness that we did what we could to aid them in the fight.

"When the martial music changing, Breaks time of home sweet home;
When is heard the thrilling story of the valor and the valley;
How they kept undimmed the glory, Of the dear old Maple Leaf.
When the thoughtful throng is making Loud rejoicing with one blind,
We will stand with heads high; shrine We will stand with heart that's breaking."

For the loved ones left behind."

With this victorious return of the Maple Leaf warriors in view, let us inquire, first, as far as we can, to spend to the appeal, now being so loudly made by our Government, for a loan of one hundred and fifty million dollars on equitable financial basis.

The appeal papers are headed "Canada's Victory Loan."

Let us not fail to give the government our sympathy, and those who can, back that sympathy with dollars, that, by needs of our gallant armies may be met. But, while doing so, set before us a higher ideal than "Canada's victory." Let our desire ascend to the throne of God in prayer given to the Christian world by the Great Head of the universal church—"Thy kingdom come, thy will be done in earth as it is in heaven."

We are all aware of the present stage of this terrible, protracted, cruel war, eW are called to do our share to meet this awful crisis, with a view to the conservation of human life, and the establishing of a lasting peace among the nations of the earth. It is quite right, and proper for us to give of our substance, and even our lives to that end if need be.

It is quite natural for us to desire that we be victorious and, as the term goes, "Win the war." But we have seen enough to know that the battle is the Lord's. No man, nation, or kingdom can order the conflict, or determine what the end of it shall be.

In view of this it is a commendable thing that our King George of England, has called the country to pray to Almighty God for victory to our arms and the establishment of peace." While complying with out King's request, let us not insult the Lord and King of heaven.

Let our prayer, by all means, be unto God as our only help in the days of national struggling need, but let each and every one remember, and lay to heart as truth, the word of the psalmist: "If I regard iniquity in my heart, the Lord will not hear me." We are all aware of our sins being very great in the sight of God, and that our prayer for a victorious, righteous peace, be prefaced with thanksgiving for God's long-suffering mercy toward us, and with sincere repentance and confession, and supplication for forgiveness. Then shall our patriotism be a kind that constrains itself to both earth and heaven, in both service and sacrifice.

"Thy Lord reigneth!" His sovereignty cannot be shaken. But let not this great fact lull us into careless laxity and ease. Let us not be indolent in regarding the responsibility of citizenship in either of the two kingdoms to which we belong.

The kingdom of Britain and the kingdom of heaven: each alike demand our zeal.

Make our patriotism a matter of religion, consecration, and it will become a spiritual force energized by the very life of God, which cannot be shaken by all the material convulsions of earth, nor by the powers and principalities of darkness.

WEDDING BELLS

DUNLOP—VANDERVOORT.

At Sunbolm at the residence of Mr. and Mrs. Morden, High-Park, Boulevard, Toronto, on the marriage of Miss Lolita Vandervoort and Phillip Marion Dunlop was solemnized by the Rev. Dr. Cleaver. The bride looked very handsome in a gown of Metron crepe, eclipsed in white velvet with rare old lace and touches of silver. She wore only a few relatives of the contracting parties witnessed the ceremony which was performed in the large and handsomely decorated drawing room. After a sumptuous wedding breakfast served by Dr. Cleaver's maid, Miss Jessie Bell, the happy couple left for a short honeymoon trip, the bride's travelling dress being of navy blue velvet with hat to match, with silver cording and seal furs. Mr. and Mrs. Dunlop left immediately for Florida to spend the winter, later motoring through to California. A host of friends wish the happy couple a long life among the sunshine and flowers.

SASKATCHEWAN ALL UNION

In Saskatchewan, Union Government candidates will carry every seat, and the majority of them by acclamation. Indeed, it seems pretty clear that the Liberals cannot carry over a dozen seats west of Lake Superior. Nevertheless there will be some bitter fights in certain districts in Manitoba and Alberta.

SEAT IN TORONTO.

At a meeting of the Central Conservative Association held last evening a resolution was passed recommending that one of the Toronto constituencies be given to a Liberal-Unionist, and also that Liberal-Unionists be permitted to attend Conservative-Unionist Conventions in the city as delegates. Mr. J. R. L. Starr, president of the association, presided.

THE APPLE OF DISCORD.

The Winnipeg Telegram more than intimates that the apple of discord has been thrown by some ambitious Liberals into the Union Government camp in Manitoba. The agreement was that in Conservative districts Liberals nominate and be responsible for the success of the candidates in eight ridings, while the Liberals would look after the other seven. Now, according to The Telegram, the Liberals are trying to get their men nominated as Union Government candidates in ridings allotted to the Conservatives under the agreement, such as, for example, Brandon. The Telegram intimates that Sir Robert Borden may have to interfere with a heavy hand, and says:

"Both parties must sacrifice their ambitions and prejudices. They must get together and work together with one object only in view. That object is to return a Unionist in every constituency where it is possible to return one.

"Both parties must keep faith. Both parties agreed to the division of seats—therefore, both parties must carry out that agreement in the field without resort to trickery or underhand.

"In any constituency where either party fails to carry out this agreement the other party should regard itself as being at perfect liberty to hold a convention of its own, nominate its own candidate, and run upon Sir Robert Borden to allot the soldiers overseas vote to that candidate as being the loyal one. Under such a step in this course will soon bring the local tricksters to time."

BOURASSA BACKS LAURIER.

Henri Bourassa seems not very happy in casting in his lot with Laurier in this election. He wound up a series of articles on the Laurier manifesto in his paper, Le Devoir, today by stating:

"Needless to say, we are no more united to the Liberal party than we were to the Conservatives in 1911." After declaring that nationalism is not a party, Bourassa says: "The immediate evil to combat is the policy of the Ministry, the policy of disunion and of national treason, and although the opposition is far from satisfactory, it is less an evil than the Ministry." He is not in favor of putting National candidates in the field. He says: "To bring out Nationalist candidates would be risking the success of the ministerial candidates, while in supporting the Opposition we are working to defeat the Government, which is urgent. If Laurier fails he will not be our fault."

CRUCIFY HIM!

Some dyed-in-the-wool partizans who have been schooled in the political warfare which uses clubs for weapons instead of the more genteel rapier of modern days and wider vision, see in the Union Government cessation of political hostilities an opportunity to even up old partizan scores and try and avenge the scars of many political contests. The target of these vindictive political "savages" is always the much-maligned individual of opposite faith who represented the constituency in the last parliament, and the head-hunters are willing to accept most any old candidate rather than him. Crucify him! Crucify him! and give us Barabbas! The aged-old cry still finds echo in certain small minds warped by petty partizan politics, who try to make a noise like a crowd but do not represent the best element of either party.

LIBERAL TO HAVE SEAT IN TORONTO.

At a meeting of the Central Conservative Association held last evening a resolution was passed recommending that one of the Toronto constituencies be given to a Liberal-Unionist, and also that Liberal-Unionists be permitted to attend Conservative-Unionist conventions in the city as delegates.—Toronto Globe, Nov. 13.

This is, the spirit that should govern every honest Unionist.

CONTEST IN RENFREW.

The Ottawa Evening Journal, a strong Union Government supporter, says that a political contest may be expected in Renfrew County. There are a large number of German-Canadians in both ridings, and I. E. Pedlow is running as a Laurier Liberal. His opponent is Dr. Maloney, who contested the riding in the Conservative interest in the general election of 1911 and in a by-election the following year. In North Renfrew an effort is being made to have the sitting member, Lt.-Col. Gerald White, re-

HAGAR, WIFE OF ESHTER.

Godly man was cold and hard as his metal; besides, Jether himself, as one would over have suspected that these two men had loved each other with more in their hearts and virgin lives only in their forms were really brothers. Three men, and these only, had ever stirred both and wept unashamed, with clasping arms here to the shoulder, there to the neck, and head to head—these three—the simple shepherd

Gaal, making a sudden rush, sought to overthrow his opponent headfirst. But Jether was quick of foot and agile in maneuvering for his brother's grasp. Again they clinched and one sought to throw the other, yet Gaal in spite of his superior strength and size could use his equal match for the energetic Jether. Suddenly a voice, strong, deep, commanding, made both brothers pause, and involuntarily relax their holds.

"Children!"

Upon the upper step in the doorway of the house stood the aged patriarch, Jesse of the tribe of Judah, his staff in hand, his left hand raised in an imperative gesture, his face flushed and heard making him seem almost like an inspired prophet. Slowly and with majestic mien the aged Jesse, he who sixty years before had been the boyhood friend of the great King David, came down the steps, while the two brothers fell back before him. The patriarch gazed reprovingly from one to the other and about his head ner-vously. Gaal took this effort, then, as a reflection upon himself and sought to make his peace with his father.

"I did but reprove him for his last sass, my father, and he buried an insult into my very heart," he cried ungently. "Didst thou but know one half of Jether's sins, my father—"

Gaal hesitated as if the indictment were too great to lay upon his father's head, but Jether haughtily and mockingly bade him go on.

"Speak, my brother," jeered Jether. "Thou hast me before lost my reason to speak ill of me. This time thou canst have many witnesses to see me. My father listens. Speak."

Jesse raised his hand for silence.

"Peace, both of ye!" he cried. "I am the master here, Gaal; thou art the elder. Thou shouldst be calm, wise. Then Jether, thou hast too high a pride and too lofty a mind to be ashamed that an act does not please thy brother ready for the evening meal."

Jether sullenly and lightly turned on his heel and strode toward the well.

"Gaal, I chide he," he answered "Then I do not please thee, my father, in trying his wits with directly?" Gaal, after swearing to the am, to bring the bruiser in before the holy day, father and I and all of us down to the lowest servant, were soundly shirked like two lads like the other lads idled by day and night, responsible to the worthless in the village or in the back a-saring at the sky how time must be of the same ne ence as myself I cannot see. Yet thou art my brother and one day I might give thee a third of all there is, and a third, by thou servered?"

Jether listened contemptuously. Before Him stood the well; the pitcher of water which Elnah had but recently drawn to fill within the house and the cup from which the servants quenched their thirst. Jether took the cup with weary, and, turning to the direction of his elder brother, whose face was raised in a threatening manner as though to strike him, the young fellow with the weary fall in the eyes of the elder. Gaal staggered back in surprise and anger.

"Take thou my blessing for thy curse," cried Jether as Gaal, temporarily thought to dry his slaking lips. "May the bitter cool thy wrath and gently thee for the festival, thou pious, self conceited brother!"

In another moment the two men were clasped in each others arms as

JETHER, SON OF JESSE.

Gaal hesitated and rose an angry shout at the sound of his name.

"Go, I say," commanded the reserved patriarch, pointing toward the house. "With a shattered and humiliated remark Gaal slowly re-entered the house.

"And thou, Jether," continued Jesse, laying his hand in kindly affection upon the shoulder of his younger son, "thou hast done wrong to lift thy hand against thy brother. Never again let words be strike between you. To night before I eat God's blessing upon my household, yea, even before we gather at the table, thou shalt (et thy heart or that thou dost repent of thy child ish act."

"I—ask pardon of Gaal?" replied Jether incredulously, drawing back in amazement. "Ask pardon of Gaal?"

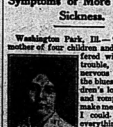
The kindly face of the venerable patriarch looked indignantly as he gazed upon the headstrong boy.

"Not less for thine own sake than for his," he continued. "Thou art too quick of speech. Thy pride is overgreat and unbecoming. Be honorable in moderation. Thine tit mercied, may bring thee to calamity."

NERVOUSNESS AND BLUES

Symptoms of More Serious Sickness.

Washington Park, Ill.—"I am the mother of four children and have suffered



from female trouble, backache, nervousness and the blues. My children and vomiting would make me so nervous I could not bear everything in places and I would take a dizzy spell over and feel so sick that I would not want anything to eat

to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I was also quite a bit of trouble and worry but it does not affect my youthful looks. Mrs. Harold Say, 717 Jay St., Washington Park, Illinois.

If you have any symptoms about which you would like to know write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

"I'll not have Gaal the master over me," muttered Jether.

"Nor shalt thou," agreed Jesse approvingly. "Only to thy father shalt thou be subject. Were God not pleased last night? From the high watchtower I saw my sheep upon the hills at dawn this morning, but one I did not see. Whose midst thou spend me not."

Jether came to his father petulantly, almost pleading. "Am I a child?"

The old man looked with a kind eye upon the lad.

"Thou hast years upon art, and yet the fault is not all thine. Thy mother hath indulged thee overmuch, and I have been perhaps remiss. Now I shall know how thee thou art to us, thou child of our old age, and such a child never was beautiful."

Once more Jether clinched his fists and muttered unrestrainedly.

"A child—again always a child," he protested. "Canst thou not understand I am a grown man? Thou, my father, canst treat me as Gaal does—else I am no longer a child, but a man full grown."

Jesse nodded his head in approval.

"Thou'rt a man then art, in truth," he bare thee, and with children of thine own. It is thy mother's dearest wish and mine that what age shall claim no due from us we may sit in peace beneath that very tree and behold thy mother's children and God's gifts also, play in the shade before us."

The anger of the young boy again flashed fire.

"Not my children with Gaal's!" he yelled. "Not my children with Gaal's, as I have said," responded Jesse, raising his voice and speaking with the authority of a master. "My father's father built this house, and it shall shelter both my children and their children. Gaal is the eldest born and by the law of God and man he shall succeed me as master of this house and all that is in it. Thou shalt be subject to him as I am subject to thee, and thy children to his children. Thou hast heard my words. Of greater importance than the wishes of the aged Jesse are the words of God. Hast thou forgotten that all things are subject to Him? Hast thou forgotten that I have served Him during years? How much weight has God given to Jether, then we would not speak of Jether's children born into the house of the servant? Then art a prodigal of speech, but not of judgment."

Jether angrily kicked a stubble of grain with his foot.

"I'll not have God Almighty over me," he replied. "Neither shall I obey thee, nor to Him."

Jesse gathered his robes about him and turned to go into the house, where already lights indicated that the evening meal was almost ready.

"I will not quarrel on only day with sacred heart," said Jesse softly. "Thou dost try my patience sorely, Jether. It is in thy power to make me sad and clothe thyself as doth befit the household, but it is my wish that thou shalt not stint thy kind words with thy brother."

Slowly the patriarch and Jesse climbed the half dozen stone steps that led into the house and were seen slowly to disappeared, and Jether, with a tumult raging in his soul and his whole nature in revolt, threw himself madly upon the grass in impotent rage. For several minutes he clinched his fists in anger. Then he struck by a sudden thought, he sprang to his feet and with his hounded to the long flight of steps outside the house which led past the apartments of the servants and of the house and to the roof. But he did not ascend to the roof. Reaching the first stone steps toward a window in which could be seen a light, he whispered softly:

"Mother, mother!"

CHAPTER III.

Hadah, Wife of Jesse.

IN Ain-Judah there lived at a more devoted wife and mother than Hadah, she who had been united in marriage to the patriarch Jesse for more than forty years. With her husband she had reached nearly a half century in that same great stone house which Jesse's father had built in his youth and made the center of a vast estate. Here her boy Gaal had been born forty years before, and here he had attained man's estate and grown to stalwart manhood. Here, too, had had been born the younger son, Jether, regarded by both Hadah and Jesse as God's most sweet gift to them in their old age.

Hadah loved her boy Jether. No greater affection was ever borne by a mother for her youngest than the deep, maternal devotion of Hadah for the boy. Therefore when Jether decided to make his appeal in the matter referred to in the stern and aged Jesse the boy knew that his plea would not be passed over lightly.

From within the window was heard the patient, softly modulated voice of the mother as she asked:

"What is my son in trouble?"

Jether answered impatiently:

ANDREW WILSON & CO TORONTO

He Lives in Constant Fear Who Has Neurasthenia

Fear of Self—Fear of Others—Fear of the Future

SUCH ideas often dominate the mind of the sufferer from nervous exhaustion or neurasthenia.

He may be strong and active physically, but he finds himself unable to concentrate the mind, fearful to depend on himself, and shrinking at the thought of any responsibility.

Some fear to be in a crowd, while others dread to be left alone. Some dislike meeting people, while others live in constant, morbid dread of the future, fearing insanity or accident or disease.

Fear brings worry and an irritation of the nerves, so that sleep is interrupted and digestion fails. In this way is formed the vicious circle of neurasthenia, and the nervous system becomes weaker and weaker, until it collapses, and the result is some form of paralysis.

The Food Cure

Mr. Laurence E. Dorsey, 39 Stanley Street, London, Ont., writes:—"About three years ago I got my foot smashed in an elevator in Detroit, which completely wrecked my nerves.... I doctored with the doctors there, but they did not seem to be able to help me. My nerves were in such a state that I could not go down town alone, or go any place where there was a crowd. Sometimes my mother would have to sit and watch over me all night, and sometimes I could not get any sleep at all. But one day last winter I commenced using Dr. Chase's Nerve Food, and before I had completely used the first box I could see a difference in my condition. I continued using these pills for some time. The result was splendid. I feel so much better, can sleep well at night, can go out on the street, and attend gatherings like the rest of people. I am so pleased to be able to tell you what Dr. Chase's Nerve Food has done for me, and to recommend it to other people."

New vigor and energy and vitality must be instilled into the depleted nerve cells if cure is to be effected, and this is most certainly accomplished by such treatment as Dr. Chase's Nerve Food.

Since the digestive system is incapacitated it is most essential to get into the blood stream the very elements which are found in this great food cure.

The blood is made rich and red, the starved nerve cells are restored and revitalised, and with returning vigor and strength and confidence the harmful notions of a diseased brain soon disappear.

Nervous diseases take different forms with different people, but to effect cure in any case the depleted nerve cells must be nourished back to health and vigor by such reconstructive treatment as Dr. Chase's Nerve Food.

Heavy Fog Caused Accident

Better Protection at Railway Crossing Recommended by Coroner's Jury

We, the jurors empanelled, to enquire how, where, when, and by what means Deborah Bonisteel came to her death and deceased was on Tuesday the 6th of November, 1917, as the result of being hit by an east-bound G.T.R. freight train at what is known as Vandervaeter's Crossing in the Township of Sidney, and whilst in a motor car.

The accident was the result of a heavy fog, which prevailed at the time obscuring from view of the driver of the motor car, the approaching train.

We are of the opinion that the train crew are in no wise to blame for the accident.

We would suggest that some means of protection be placed at this crossing for the better safety of the public.

Such was the verdict rendered last evening by the coroners jury in the accident, which occurred on Tuesday the 6th inst. at what is known as Vandervaeter's R.R. Crossing, resulting at the time in the death of Miss Deborah Bonisteel and later the death of Mr. Burton Ketcheson, both of this city. Dr. Boyce, coroner, presided over the deliberation, and Mr. Carnew, County Attorney, conducted the examination of witnesses of which there were quite a number. Cor. E. D. O'Flynn was present on behalf of the family of the victim, and the G. T. R. was represented. A summary of the evidence submitted was as follows:

Engineer's Evidence

William Boyce testified that he was a G. T. R. engineer, residing in Belleville. He was on engine 182 on the morning of the 6th of November coming east toward Belleville from Mimico. He was due at Belleville about 7.30. The weather conditions were good until near Sidney Crossing when it became foggy. The whistle was distinctly sounded approaching the crossing where the accident occurred. The train was going about 25 or 30 miles an hour at this point, and there was a west bound freight approaching on the other track. Just as the engine, witness was in charge of, reached the crossing, an auto came upon the track and was hit by the engine. The sides of the auto were apparently down. The fog was quite thick at this point. The centre of the pilot hit the car and threw it northward. Witness could not see the occupants of the car. The train was stopped as soon as possible, and witness went back and met the conductor who informed him that two persons had been injured. Witness went and placed signals on the west bound track, owing to the auto being on that track. The auto was in motion when struck by the engine. The train going west had passed the crossing where the accident occurred some minutes before witness' train arrived upon the scene. His engine lamp was lit with 150 candle power electric light.

To Col. E. O'Flynn—The driver of the car should have seen the train approaching. We ran into the fog a short distance west of where the accident occurred.

Medical Evidence

Dr. Gibson testified that he was called on the morning of November 6th, to go to Sidney Crossing where an accident had occurred. When he arrived upon the scene the woman, Miss Bonisteel, was dead. The latter was an unrecognizable mass. Mr. Ketcheson was lying beside the track and was moaning considerable. His witness had Ketcheson conveyed to the hospital. There is a clear observation for the railway at this crossing. Mr. Ketcheson died as the result of a fracture of the skull. Witness did not make an examination of the injuries sustained by Miss Bonisteel, as she was dead when he examined her.

Other witnesses were:

Alfred Huhn, fireman under Engineer Boyce who corroborated the latter's evidence.

Harry Smith, engineer on west bound freight, who knew nothing of the accident; and George Gould, his fireman.

L. Waite and Harry Waite, of the second concession of Sidney, who arrived on the scene shortly after the accident happened.

George Smith and Fred Smith, who lives near the railway crossing, gave evidence as to weather conditions.

Charles J. Symons, of Belleville, testified that Mr. Ketcheson was a careful driver, and told him at the hospital that he had waited for the train to pass and neither saw nor heard the train which struck him.

A Lively Interlude

An Interesting Incident of the "Day's Work" in France
Written by Belleville Soldier

It was at the close of a nice day in July when everything seemed quiet and peaceful. The days toil was over and we had decided on a walk. We might have been a thousand miles away but for the never-ceasing stream of transport. The drivers of the ammunition columns were nodding and harnessing their horses preparatory to delivering some (iron rations) for Fritz, when suddenly a sound like an express train is heard, then wood, earth and splinters of shell fly in all directions, some men that were working near by dashed for shelter, others donned their steel helmets, while the men on the ammunition column went calmly on hitching up their horses.

When all was ready they started as orderly as though on parade and then passed the danger zone at a gallop; they seemed to have charmed lives, as nobody was hit; although the shells were bursting all round them. A short distance behind is number of remounts are coming. Will they stop? No. Forward. We watch them as a shell drops over. They make a run between that one and the next. A man is riding one horse and leading, or rather pulling (L.) other. We ask ourselves the question. Will they get through? Yes, they are through.

His here comes struggler: the left horse does not want to run, a shell bursts between them and the other ahead, now he must make a rush and get through before Fritz sends over the next, that is, if Fritz will allow him to get over, so he puts spurs to his horse and away she darts, but the other horse does not want to run and his soldiers arm is nearly pulled out of its socket as the reins tighten then it begins to move, but painfully slow, 'Good God will he do it, or will he be blown to pieces.' The next shell is nearly due. Go on, go on; why doesn't the horse move. Good heavens he'll be caught, ha, he leaves it and puts spurs to his horse again just as another shell bursts within a hundred yards of him, but fortunately he gets safely by and other horse follows at a canter, the soldier waits for it a short way down the road, and there he catches it. The shelling finishes and we resume our walk after a lively interlude.

155th Bandsmen Play In France

Concert of Massed Bands Behind the Firing Line—Belleville Bandsmen Take Part

The programme below is one played by the massed bands of the 20th and 21st Battalion bands, C.E.F., at the 4th Canadian Infantry Brigade Headquarters, "somewhere in France" recently, by permission of Lieut.-Col. and Lieut.-Col. H. V. Rorke, D.S.O., C.O. 20th Batt. It may interest readers to know that the 21st Batt. band is our own 155th Battalion band, which delighted Belleville audiences, as well as audiences in other towns and cities of eastern Ontario, by their splendid rendering of just such programmes as this one. The personnel of the band was changed somewhat on its departure for overseas, fourteen of its members being struck off on account of physical unfitness. The number which survived, twenty-two, has been increased by the addition of seven more, making the total strength twenty-nine. The other band mentioned numbers thirty-six. The concert was given on October 22nd, and pleased everyone present.

PROGRAMME.

March—"Sons of the Brave" ..... *Rimmer*
Selection—"Scene" ..... *J. W. Tate*
Waltz—"Destiny" ..... *S. Baynes*
Selection—"Theodore & Co." ..... *Ivor Novello*

CITY RESPONDS NOBLY COUNTY IS SLOWER

Belleville Buys $139,000.00 Victory Bonds Out of $226,000.00 Sold in County—Great Success in City—County Slow in Starting

Belleville	$ 54,500

First day	136,000

Total for two days $226,000

While the returns from the country are rather discouraging to the hard-working local committee, the result in Belleville of the second day's canvass raises their enthusiasm to the highest pitch. What has been done in Belleville can be done all over the County, so it is up to the citizens of this city to take hold and make the people of the rest of the County awaken to their responsibilities. The campaign will last for the next three weeks, so every commercial traveller, pleasure traveller or business travelling man who leaves Belleville is to visit the sections of the county can do his country a service by calling at Hepburn's on Campbell street, and offering his services in whatever way the committee can use them. There is a lot of missionary work to be done throughout the county, and there is no fund to pay for this work. It is therefore up to volunteers who are travelling to help with the good work as the members of the committee in Belleville have worked to let the people of this city know that they are expected to meet the greatest crisis in their country's history. Members of the publicity committee visited Frankford, Wooler, Trenton and Brighton on Monday by automobile and spread posters, advertising literature, stickers, etc., everywhere they went. Watch Sidney township take hold now!

At Griffin's Theatre last night the members of "The Only Girl" Company gave their services to the Publicity Committee and sent amongst the audience and occupied stalls people there for nearly a thousand dollars of bonds—more than some towns have bought in a day. This is a very trying task for the ladies and gentlemen of the stage, and the Publicity Committee appreciating this, thank them for their unselfish effort. Griffin's theatres have assisted greatly with the publicity from the beginning of the campaign, and intend to continue. Mr. Geo. Forbes, the popular manager of Griffin's interests in Belleville, has been untiring in his efforts to assist the committee, and serves himself on the Stunts Sub-Committee of the publicity end.

Arrangements have been made with the theatres to give coupons away with the tickets, and the one holding the lucky number on Saturday night in each of the local houses will be presented with a $50.00 Victory Bond, donated by Mr. John and Peter Griffin. Mr. Griffin has also presented each manager on his circuit with five Victory Bonds, and an offer to finance any man in Belleville who wishes to buy. That is taking hold with a right spirit.

The local committee will be glad to take any suggestions as to prizes to be given, dances to be held (proceeds buying Victory Bonds for a worthy charity), or any other plan for the welfare of the Victory Loan in the city of Belleville or the county of Hastings.

EXECUTORS SALE

Cash Tenders will be received for the stock in trade owned by the late Mrs. Frankagh now in the premises on Mc-Donald street, Belleville. Tenders to be received by Mr. Wm. Ponton, executor for the executors, up to the 20th November inst. Full inventory may be obtained at the office of Ponton, Ponton and Ponton, over the Standard Bank. n14-4d

German Socialists Urge Armistice

(Special to The Intelligencer)

AMSTERDAM, Nov. 14.—The German independent socialists, according to the Berlin Vorwaerts, have issued a manifesto calling upon the German proletariats resident to the proposals of the Russian Maximalists, according to a Berlin despatch to Reuter's Limited.

The manifesto declares in favor of a general armistice to discuss peace.

Austrians Strong For Early Peace

(Special to The Intelligencer)

GENEVA, Nov. 14.—Despatches from Vienna reports that a monster Mass meeting of social democrats at Vienna adopted resolutions urging the Central Powers immediately to propose an armistice for the purpose of bringing belligerents to begin peace negotiations.

Berlin Press Favors Armistice

(Special to The Intelligencer)

BERLIN, Nov. 14.—The Berlin press generally reports favorably to the Russian Maximalist peace manifesto. The Vorwarts, the Socialist organ, says the question whether the belligerents ready for a three months armistice for the purpose of discussing peace, can be answered by the German Government only affirmatively.

Every Man to His Job!

The man who has education, but who lacks the moral courage to fight strenuously, who will not go to the mat at the drop of the handkerchief when ever a principle is involved regardless of the size of his opponent, and who will not fight doggedly—employing every resource within the scope of the business game allow, keeping at it when the cool head and a clear judgment—had better be content with those quiet paths which may be traversed with safety, or keep in starched collar and white cuffs.

The Most Formative Years.

In the Woman's Realm appeared a writer says:

Mothers, most realize, as well as mothers, that the first five years of the child's life are the most important in the child's development. It is then that he is most formative, most impressionable. It is then that he needs most sympathetic and expert thought from both parents. And if the child is properly handled through this period half the battles of the future man in the child

Who Will Lead Drafts?

Who will command the drafts placed under the Military Service Act of 1917? Of course commanders and under officers there is no dearth in Canada and the second lieutenants but lately added to be decidedly scarce. The original recommendation was that subalterns who had served a year or more overseas be allowed to come home to take appointments in the drafts secured when conscription was enforced. This recommendation has not received the sanction of Ottawa and it is even stated that General Sir Arthur Currie thinks it impossible to sanction the release of any junior officers now with the Canadian forces in France.

Three Hundred Each Year.

G. W. Stark, writing in the Outlook, finds that the Great Lakes are peculiarly rich in records of shipwreck. He says:

"It is interesting to note that no less than a tree of any sort of timber, by stripped of its volume of water, would expose to human gaze a larger number of sunken ships or more valuable cargoes than lie at the bottom of these inland waters. Record kept between the years 1678 and 1898 reveals the startling fact that in that period 5,999 ships were wrecked on Great Lakes, and 1,091 of these were total losses. The loss of cargo during the score of years was nearly $8,000,000.

Hun Thanks to Britain.

At the recent conference held at The Hague by British and German delegates to discuss the question of treatment and exchange of prisoners, the Germans entered the conference room from a door on one side of the room and the English from a door on the opposite side. The Dutch delegates were already seated at the table in the midst of the room. No conversation took place except upon the business of the conference.

Before the conference ended, the chief of the German delegation rose and handed upon the table the British warmly for the way in which their prisoners had been treated. He said no other country had behaved so well. The British commissioners waved their thanks, but did not return the compliment.

Roumania is Firm.

Members of a Roumanian commission which has arrived in Tokio to purchase medicine and surgical supplies expressed the conviction that their country, though one-third occupied by the enemy, would fight to the last.

All Faced the Flag.

Justice Pendleton, of the New York supreme court was examining applicants for citizenship recently when a man in the court began playing the Star Spangled Banner." It was written by Francis Scott Key, Justice Pendleton's grandfather. The justice turned his head toward the window, and the hubbub in the court ceased. Then the justice rose to his feet, and the men who were seeking the right to take the flag as their own rose with him. Everybody faced the flag that was drawing the last courtroom will. Not a soul moved until the music ceased. Then the justice bowed and resumed his seat, and the work of making citizens went on again.

Made a Lock For the Key.

An old and curious key and lock are attached to the door of Trinity church in Fleet street, London. The key weighs seven pounds, is eighteen inches long, and, unlike other keys, it was not made for the lock. On the contrary, the lock was made for it. Both key and lock have been in use since the crusades, the church itself having been built by the Knights Templars in 1185.—London Spectator.

Clever Painters.

As far as precocity is concerned, Paul Painleve can compare his record to the Pascals, Newtons, and d'Alemberts. He knew enough of mathematics at the age of eleven and a half to get his bachelor's degree. What he has done since is a matter of history and admiration all over France and elsewhere. To quite a remarkable degree the career of M. Painleve offers the combination of academic learning and brilliant public service. There lies his strength. He is at once and the same time a member of the Academy of Science, a professor at the Sorbonne, and a member of the Chamber of Deputies. Since the war began he has been, in turn, Minister of Public Education, Under-secretary for Inventions, and Minister for War, and now he is Premier.

LLOYD GEORGE DEFENDS NEW WAR COUNCIL

Emphasizes the Point that Body Will Have No Executive Power —Final Decisions as to Strategy and Movements Best with Governments

LONDON, Nov. 15.—The fight against Premier Lloyd George's support of an inter-allied war council came to a head in the House of Commons yesterday afternoon, when the Premier himself took the floor to explain the agreement creating the organization. He emphasized that the inter-allied War Council had "no executive power."

"Final decisions as to strategy and as to the movement of troops will rest with the Governments," he declared. "The allies' object in the plan was to have a representative central body which should watch the wide operations of the war and coordinate plans, and if necessary propose new ones."

Lloyd George suggested that the House of Commons devote next Monday to a detailed debate on the whole War Council plan. He then read in full the agreement between the three Governments of England, France and Italy, creating the War Council.

Macklem Free, Charge Dismissed

DETROIT, Mich., Nov. 15.—The charges against Col. Omar L. Macklem, on which he has been held here for the past ten days, was dismissed at two-fifty-five this afternoon.

Money was forthcoming from outside parties to make restitution to Hiram Peck, complainant. The prosecuting attorney stated he had no recommendation to make.

Judge Stein in making his finding for the defence criticized Peck's conduct.

Col. Macklem was apparently ignorant of the fact that money had been put up to satisfy Peck's interest, E. P. Hudgins, counsel for defence, took full responsibility for this action.

Acting prosecuting attorney Stevens stated that the case was completed against Col. Macklem would have been difficult to proceed with it much further.

Col. Macklem is now freed of the charge.

The charge arose out of a transaction which took place previous to Macklem's services in the war. Earlier in the proceedings Macklem refused to allow friends to tender restitution, stating that he was entirely innocent.

Turks On The Run In Palestine

LONDON, Nov. 15.—British forces in Palestine yesterday attacked the new Turkish positions in Palestine and drove back the enemy a distance of seven miles, it was announced today by Major-Gen. F. B. Maurice, chief director of the military operations at the war office.

Withdrawal on a wholesale scale of Turkish forces opposing the British north of Hadjar was reported in a statement from the Mesopotamian expedition to-day.

"Nearly the whole of the Turkish forces are withdrawn from thirty to fifty miles north of Tekrit," the report asserted.

Tekrit is a small village on the Tigris, 97 miles north-west of Bagdad. It is famous in history as the birthplace of Saladin.

GEN. DAVID WATSON HOPES FOR REAL UNION

Uniting All That is Best in Canada to Keep Her Worthy of Her Glorious Future—To Him Election Can Only End One Way

LONDON, Nov. 15.—I asked General David Watson of Quebec, if he had any message on the election in Canada," cables F. A. McKenzie, the Toronto Star overseas correspondent, "and in reply he said":

"We in the army appreciate in the highest possible degree the splendid conduct and self-sacrifice of those gentlemen who, laying aside all hope of political advantage, have come out united for the single purpose of winning the war with us in the army. Nothing else counts much just this. No other issue is worth consideration save that of helping to bring about in the shortest possible time our complete and coming victory.

"When the war is over I hope to see emerge as a result of the present coalition a real Union party, which, abandoning the struggle for mere political advantage, will place the public life of Canada, upon a higher plane, uniting all that is best in our nation in order to keep Canada worthy of the glorious and greater future which lies before it."

"Gen. Watson declares it unthinkable with the war issue so vital and so directly presented to the Canadian people that the election can end in any but one way."

Canada needs $150,000,000. She is offering Victory Bonds to get it.

When you buy a Victory Bond—even a fifty-dollar one—you are helping Canada. You are doing a real service to your country.

Aviation Camps Are Now Closed

Aviators of Camps Mohawk and Rathbun Left This Morning For Texas

The aviators have departed. Camps Mohawk and Rathbun are now practically deserted, and the daily visits of the gallant young birdmen over Belleville and the surrounding country will have ceased, for the trek is on and most of the staff, cadets in training, and most of the mechanics are on their way to the winter training camps situated near Fort Worth, Texas.

Early this morning the lejies started under the direction of Lord Willesley and staff and now both camps are practically deserted. The planes have been left behind, however, and more or less mechanical work will continue during the winter months to prepare for next season.

Three special trains passed through Belleville at 7.45, 8.30 and 9.30 this morning, and although many friends of the aviators had gathered at the stations, good-bye and farewell and lunch-boxes no stop was made here and much disappointment was the result.

Best wishes for success and safety follow Lord Willesley, his efficient staff, cadets in training and mechanics to the new training camp, for during their stay here they conducted themselves as gentlemen, kindly and courteous, and from the highest officer to the newest recruit have a record of good behaviour without a blemish.

Good luck to the aviators, and may they all have an important part in bringing the war to a speedy and triumphant close.

SANK IN THE STORM

QUEBEC, Que. Nov. 15.—With her funnel looking more like a corkscrew than anything else, her deck work in a wrecked condition. Pilot house smashed, the tug tug J. H. Hackett, waterlogged and damaged, limped into port last night after a most harrowing experience.

A barge which the tug was towing was sunk in the storm, and the first mate, Victor Senecal, of Valleyfield, was drowned.

British Aircraft Bomb Enemy

(Special to The Intelligencer)

LONDON, Nov. 15.—An official statement issued by the war office reports that despite a heavy ground mist, the British aircraft Tuesday, carried out some successful bombardments and took a few photographs. Two hostile aircrafts were brought down, and four others driven down out of control, in the course of the day.

Armored Cars Held Back Run Host

Italian Headquarters in Northern Italy, Nov. 15.—A section of Italian motor cars, each of which mounts three quick-firers, is just back from one of the most thrilling experiences of the war.

The orders were to "hold to the death" the bridges at Sacile, Pordenone, Santa Lucia, and San Giovanni until the Artillery and cavalry had crossed. That they succeeded is shown by the fact that all the rearguards made their way over the bridges, that all the bridges were burned, and that the section returned, leaving only one damaged machine to the enemy, although the fighting of the forty cars was in such crippled condition that it was necessary to abandon them after the bridges were burned.

The bridge at Giovanni bridge one car took its station during the night midway across the bridge. Early in the morning it was ordered to reconnoitre by a German car which bore the Imperial crest and carried a German captain and two lieutenants. Instead of reconnoitring the officers explains and four gunners suddenly opened the steel door and sprang out with carbines. Two German captains and one lieutenant were killed. The other lieutenant and the German car were captured and brought back.

HELD BRIDGE 22 HOURS.

At Sacile Bridge the cars and orders held the bridge 22 hours, but they held for thirty-two hours. At Santa Lucia the commander ordered one of his machines to advance against an enemy patrol and the machine gunners rear. The car rushed forward, sweeping the enemy from its double turrets, but when this mission was accomplished and the car started back it was found that the bridge was on fire. The only way to cross the burning bridge was to drive the car steered straight over the smoking structure while the burning planks crashed under its huge weight. It crossed safely and was one of the cars brought back. The ammunition of another car was exhausted after it had fired 30,000 rounds.

SHOT THE GIRL HE LOVED

Mysterious Shooting Affray in Toronto Which Lands Both Participants in Hospital

TORONTO, Nov. 15. — Samuel Goldsmith, of 178 Manning avenue, shot and severely wounded Winnifred Hughes, aged 16, of the same address. The bullet was fired from a Smith and Wesson revolver of recent pattern, passing through the right thigh and lodging in the left. Goldsmith, who is the owner of the house, and from whom the young woman and her mother sub-let, was also taken to the Western Hospital for medical attention, it being believed that he was under the influence of some drug or the essence of ginger. The hospital authorities last night repeated that Goldsmith he left there for the night as his condition did not warrant his removal, so an officer was detailed to guard the case.

As far as could be ascertained Goldsmith walked up to the girl in the kitchen of the house and demanded a kiss. This being refused he put his hand into his coat pocket and pulled the trigger of the gun, firing through his coat, the flash of the discharge burning a large hole in the garment. If his condition permits he will be removed from the hospital and placed under arrest. Goldsmith is held on a charge of shooting with intent.

The attention of the Assize Court, yesterday and today was engaged on the case of the three young men, Wilson, Sanford and Lloyd, who are being tried on a charge of train-wrecking. An evening session of the Court was held yesterday in order to hear some evidence. A large number of witnesses were summoned for the Crown's side of the case and the defence also have a number of witnesses. During the progress of the trial, the Court room is crowded with interested spectators.

Disgraceful Electioneering Tactics

LIE NAILED

Several prominent Conservatives of the Township of Sidney have reported that within the last day or two they have been canvassed by one Herbert Finkle on behalf of Mr. R. J. Graham who has announced himself as an independent candidate in the approaching election for West Hastings. In order to induce persons to sign his nomination paper he stated that Mr. Porter who is likely to be the Union Government Win-the-War candidate selected at the Liberal Conservative convention to be held at Marmora on Friday the 16th inst. "was ill in bed again that Mr. Graham had consulted Dr. Gibson "(Mr. Porter's doctor) who stated that Mr. Porter was so ill that he "would never be any better, that he had dropped out of the campaign "and Mr. Graham was going to the convention to explain Mr. Porter's "condition."

It is almost needless for us to say to people of the city that such statements are wholly false as Mr. Porter, as is well known, has recovered from his recent illness and has been working at his business and in his office for some weeks.

In order to nail the lie beyond any question we append the certificate of Dr. Gibson.

Belleville, November 14, 1917.

To the Editor of the Intelligencer and the Public.

It has been reported to me that the person obtaining a nomination paper to be signed on behalf of Mr. R. J. Graham (and acting as his agent) stated that I had been consulted by Mr. Graham as to Mr. R. Gean Porter's health, and that I had stated that Mr. Porter was ill "again and would never be any better and was not able to conduct an "Election Campaign." Such statements or any "statement of that "kind attributed to me are absolutely false. I have never spoken to "Mr. Graham or any other person on the subject, on the contrary "am pleased to state that Mr. Porter is organically as good as 99 out of "100 and is conducting his business every day and perfectly able to "conduct a campaign."

Yours Truly,
(Signed) W. J. GIBSON.

To all right thinking persons such a manner of conducting a campaign is mean and contemptible and will surely do Mr. Graham more harm than good.

BELLEVILLE IS STILL LEADING THE WAY

Hastings Covers One-Third of Journey Towards Million Dollar Mark—$374,000 Total for Three Days Canvass—Belleville Buys $211,000—Yesterday Big Day For Victory Loan

Belleville	$ 72,000
Trenton	4,650
Tweed and Hungerford	2,000
Marlbank and vicinity	4,000
Madoc Village and Township	24,400
Marmora and Deloro district	2,300
Stirling and Rawdon	10,300
Sidney Township	6,100
Thurlow Township	3,000
Huntingdon Township	2,950
Limerick and Cashel	2,000
Coe Hill and Wollaston	2,000
Tyendinaga	3,300
	$140,650
First two days' total	$226,000
	$366,650

While some sections of the county are still lagging behind in the race for a million dollars for the Victory Loan, other sections made decided improvements yesterday.

Mr. Nelson McCutcheon has sent in $14,000 to the small village of Marlbank. Anyone knowing Marlbank's patriotic record in the war can hardly be surprised at the way they have taken hold out there.

Madoc came across yesterday with $24,000. How's that for Madoc?

Mr. W. R. Northrup, K.C., M.P., and D. D. V. Sinclair of Belleville spoke at a public meeting at Madoc Tuesday evening, and as results speak for themselves, comment would be superfluous. Mr. L. E. Allen drove the speakers out in his car. Public meetings do get results. The people are anxious to buy the bonds but most of them do not understand them.

On Friday night Col. Ponton and Col. O'Flynn will speak in Trenton, as well as the most prominent speakers of Trenton. Then watch Trenton come up.

BELLEVILLE LEADS THE WAY.

Belleville yesterday supplied $72,000 of the $140,000 collected. That represents some work, as practically all of that was sold by the canvassers, and does not represent one dollar of special subscriptions.

The largest single subscription to be recorded to date is that of Mr. R. J. Graham for $50,000. There should be several like this before the campaign closes.

Everyone buying a bond should insist upon getting a button, and everybody, man, woman or child who owns a bond should wear a button to make the other fellow ashamed to be seen in public without a Victory Bond button. If you have bought a bond for everyone in the family, even the baby, they should all wear their buttons. It is your patriotic duty to do this.

On Wednesday evening next there will be a public meeting at Dolorc Mines, when a speaker from Belleville will address the workers there at their weekly picture show.

LITTLE CHILD SHALL LEAD THEM

One of the most attractive bits of advertising that the Victory Loan has received in Belleville is that of the window display in Ansley McFee's jewelry store. It is neatness itself, and is fringed about with the campaign slogans, and the subject represents the familiar Victory Loan poster of the little child with the blocks which spell "Help me a Victory Bond." There are also some trophies of the battlefield consisting of German bombs, bayonets, etc., with an appropriate allusion to the part that should be borne our boys from these horrors. Other merchants would receive the thanks of the publicity committee if they would follow the example of Mr. McFee.

Subscribers to the Victory Loan can be assured that their subscriptions are kept secret. The employee is sworn to secrecy, and one team does not know the details of any other team's work. They only know if a subscription is made public is when the subscriber's permission has been obtained to do so.

A. R. Tibbels, inspector of Harbor Commissions in Canada, will, it is understood, shortly be appointed assistant Deputy Minister of the Naval Service.

Fifty Dollars in Your Pocket Has Little On no Bearing on the WAR

Five dollars, paid in as an initial payment on even one Victory Bond, becomes a part of the river that turns the wheels of our war machine—to destroy German Militarism.

And, like water, your money is never lost. It returns to you and in the meantime earns a high "wage."

ARREST MILITARY DEFAULTERS

Circulars have been sent out from Ottawa to the chiefs of police in all Canadian cities and towns and to other police officers, instructing them to apprehend men who, as deserters are in default under the Military Service Act. It is explained that the instructions are to take in the "ringleaders" who have not reported themselves, and who have been an example of defiance to others. Major Cook, deputy registrar, will furnish names of those who have not reported to the police, and they will be given instruction to round up the defaulters. Those who have inadvertently or without due appreciation of the situation, failed to report will find all be got after, but will be given another chance, either to surrender themselves or to claim exemption, through the medium, not of the post office, but of the military authorities.

If You Want Evidence

That Hemmorrhoids, or Piles, Can be Completely Cured Read These Letters—Both Are Sworn Statements.

Toronto, Ont., Nov. 15.—Next to personal experience the sworn statements of reliable people is the strongest evidence obtainable. If you have any doubt that Dr. Chase's Ointment will positively and completely cure piles, these letters should convince you.

Mr. Samuel Parker, fruit grower, Grimsby, Ont., has made the following declaration before Mr. W. W. Kidd, Notary Public of the same place: "I do solemnly declare that I was troubled with bleeding piles and was advised to go to the hospital to have an operation performed. My wife said 'No, get a box of Dr. Chase's Ointment.' I did so and have used it according to directions while living in Manitoba, and obtained a complete cure, for I have never been troubled with piles since. I am now nearly 70 years of age and want to recommend Dr. Chase's Ointment to all sufferers from piles. My wife has used it for itching skin and obtained complete cure."

Mr. Donald N. Campbell, Campbell's Mountain, N.S., writes: "I have used Dr. Chase's Ointment with great success for hemorrhoids or piles of fifteen years' standing. After trying all kinds of so-called pile cures, three boxes of Dr. Chase's Ointment gave me a complete cure. I have also used Dr. Chase's Kidney-Liver Pills and there are no others so good. You can use this letter, if you like, for the benefit of others who may suffer as I did."

Sworn before me, Murdoch Gordon Campbell, J.P., in the County and for Inverness County.

If you would like to try Dr. Chase's Ointment at our expense, send a two-cent stamp to pay postage and we shall mail you a sample box free. Full size box 60 cents, at all dealers or Edmanson, Bates & Co., Limited, Toronto.

Dyspeptics Should Avoid Drugs And Medicines

Try a Little sloppy instead. Sloppy people instinctively shut their eyes to danger, and it may be that Wheatley's custom of habit causes dyspeptics to take drugs, patent foods and medicines, artificial digestants, etc.

But closing the eyes does not banish the danger, and it is certain that neither drugs nor medicines possess the power to destroy the harmful excessive acid in the stomach, which is the underlying cause of most forms of indigestion and dyspepsia. They may give temporary relief, but ever increasing suffering must follow, and all the time the acid remains in the stomach as dangerous as ever.

Physicians know this and that is why their advice so often differs from digestive and stomach troubles is "Drink a glass of water before meals." This will instantly neutralize all the harmful acid in the stomach, and when all food is properly digested, thus enabling the bowels to move freely without experiencing the usual constipation afterwards.

CALLED BY DEATH.

MR. JOSEPH TEMPLETON

Mr. Joseph Templeton, a well-known resident of this city, passed away quite unexpectedly at the City Hospital yesterday afternoon where he had been a few days previously for treatment. He was suffering from diabetes and later a large carbuncle developed which assumed a malignant form and hastened the end.

The late Mr. Templeton was a native of Belleville, where he was born 57 years ago. He was the son of the late Wm. Templeton, who for many years conducted a large wholesale and retail grocery business on Front street.

After the death of their father, Joseph and his elder brother, William Templeton, went to Vancouver, B.C., and embarked in the same line of business as in Belleville. This was in 1886, when Vancouver was only a rough western village. The phenomenal growth of Vancouver brought prosperity to the Templeton firm and they soon became the leaders in their line along the Pacific Coast. They erected the first brick building in the city. William Templeton died a prominent figure in public affairs and in 1897 was elected mayor of Vancouver. The following January he died.

The damp climate of British Columbia was not favorable to Joseph's health. He contracted inflammatory rheumatism and sought relief in Southern California. He later returned to the old home in Belleville where he has since remained, with the exception of a year being the change of government in 1911 Mr. Templeton was appointed to the Inland Revenue branch of the Civil Service in this city. After the change was effected he missed from his position, although there was no charge whatever against him.

Mr. Templeton was a cripple from early childhood, but that fact and his subsequent attacks of illness never interfered with his equable temperament and buoyant disposition. He never complained, and even his most intimate friends did not know of the frequent agony of suffering and pain that he was compelled to endure.

Educated at the Belleville public and high schools he was a great reader, and had a particularly well stored mind. He was an ardent lover of nature. When a branch of the Forest and Stream Club was organized here he became its secretary. He was frequently seen remonstrating with the boys when they showed a disposition towards cruelty to birds or animals.

He was an ardent Liberal. For many years he had been the secretary of the Belleville Liberal Club. His fellow members of the Liberal executive will greatly miss his wise counsel and efficient services.

Mr. Templeton is survived by two sisters, Mrs. E. A. Brickman, now of Phillips, Alta., but formerly of Prince Edward County, and Miss Sarah of the teaching staff of the Ontario School for the Deaf of this city. Two brothers, William and John, predeceased him some years ago.

EDMUND BAKER MULLETT

The death of Edmund Baker Mullett, aged 75, took place last evening at his home, 12 Benjamin street, after an illness of eight months. Mr. Mullett had many friends who regret his death, and his genial, kindly disposition will be greatly missed by family and friends. He was born in Huntingdon in 1842, the son of the late James C. Mullett, and in early life followed the occupation of a blacksmith. He has been a resident of Belleville nine year, and is survived by the widow, four brothers and two sisters, William and Henry of Huntington, John L. of Saskatchewan, and Joseph of British Prairie; Mrs. Hoke, Kerr of Otawa, and Mrs. A. Aylesworth of Chicago.

The late Mr. Mullett was a member of Stirling Lodge, A. F. & A. M., and of Moira Chapter, Belleville.

Interment will be in Vantassel burying ground with services in Moira Methodist church.

"THE THREE LITTLE TAILORS OF TOOLEY STREET."

The Three Little Tailors of Tooley Street in their famous manifesto as "We the people of England" have won still greater posthumous fame by being copied so literally in the city of Belleville, Canada, in the year of our Lord, 1917.

"We the Liberals of West Hastings," gathered in Belleville last Saturday to discuss Union Government, Laurier and other things. The call had gone forth in printed bills and newspaper advertising for a party convention, and from the length and breadth of West Hastings on a perfect day only a handful responded, some say fifteen to twenty, but not more than thirty at the most. This would seem to indicate that the Liberals of West Hastings were satisfied to allow the local member of the Union Government re-election without opposition and that the meeting having failed of its object should be abandoned.

Not so, however, for the few who were there proceeded to constitute themselves the entire Liberal party in West Hastings, and while professing by resolution a desire to avoid an election contest, searched out a candidate to ensure if possible that there would be a contest. In the meantime the thirty or less brave souls who posed as "We the Liberals of West Hastings" had faded away and dissolved into three stalwarts still bearing the banner of "We the Liberals of West Hastings" and these three descended upon the tents of the Union Government candidate's supporters and demanded a conference and consideration of the claims of "any one of the half a dozen candidates" they had evidently selected.

The delegation was courteously received, but obviously there could be no basis of negotiation other than to report the proposition to the convention to be held this week. If that convention shows anything like the lack of attendance and interest which characterized the Liberal convention last Saturday then it should be declared null and void and the whole question of candidates thrown open for a joint convention of Liberals and Conservatives to decide.

In the meantime there should be no sharpening of knives or crossing and recrossing, which, if street rumor is correct, is in progress under rather slim cover.

CAMOUFLAGE.

There is well-grounded suspicion that the selection of a Liberal candidate for West Hastings by a handful of Liberals, or virtually three Liberals, last Saturday was but an incident of a more or less elaborate system of camouflage designed to screen a bigger gun behind. The same men, it is said, have been concerned in both the Opposition candidate revealed and the candidate concealed, but whether both the little gun and the big gun will be used in action, or the little gun withdrawn when the battle opens remains to be seen. It is quietly that the opposition will fizzle out entirely before nomination day as there seems no good this time.

One thing stands revealed, however, that there are those who, while posing as patriots, for political reasons are trying to knife the sitting member for West Hastings, and in this endeavour are willing to use the cross and double cross in an effort to manipulate the votes of the electors for their purpose.

Beware the men with the knife!

OTHER VIEWS

THE LAURIERITES

(Mail and Empire)

No 100 per cent. wind-the-war man is on the Laurier side in this election campaign. The Laurier candidates and Laurier adherents who protest that they are heart and soul for winning the war are in some cases really deceiving themselves and in most cases are attempting to deceive the public. Some of them are so passionately partisan, so feeble themselves with personal ambition, so completely "mesmerized" by Sir Wilfrid Laurier, that they are incapable of concentrating their thought to the problem of winning the war.

UNSATISFACTORY

(Woodstock Sentinel-Review (Liberal)

Both sides are agreed as to the advisability of carrying on the war. The Union party offers something definite; the Laurier candidate simply proposes a further delay, when there has been far too much delay already. There would be, under the Laurier policy, an attempt to revive the voluntary system, which has been shand ned by every country actively engaged in the war. Should the attempt fail—and it seems bound to fail—there would be a referendum. Our experience with the referendum in this country has not been very satisfactory; it has usually been treated as a means of avoiding rather than of solving a difficult problem.

BOURASSA AND LAURIER

(Kingston Standard)

For some years now the mad celebrated partnership in the world has been "Me and Gott."

Now it has a rival in the new partnership just formed between Laurier and Bourassa, whereby these two anti-conscriptionists unite in a spirit of glee and proud anti-Imperialist satisfaction to help the Germans along by endeavoring to have Canada refuse to send reinforcements to the front.

It's a strong combination—Me and Gott plus Laurier and Bourassa—but strong as it is Canada will not sink from the field but will continue in the fight to the end. The loyal people of the Dominion far outweigh in numbers the Lauriérites and the Bourassaites.

A CRIME AGAINST CANADA

(Toronto News)

Sir Wilfrid Laurier's opposition to Coalition, Conscription and the extension of Parliament has precipitated a distracting general election in the most critical stage of the war, when the efforts of the Government and people should be centred upon the achievement of victory. For more than a week the members of the Cabinet have been scattered all over the Dominion and they must be drawn from their offices for the greater part of the next six weeks. They must be absent during the period when Canada was confronted with problems, involving most departments of the Government and calling for Council meetings, are continually coming up for settlement.

Long cables are received daily from the overseas forces and the Imperial Government, cables which require prompt decisions and replies. From how until Christmas time the vitally important issues thus arising will have to be neglected. Either the war or the election has to be left largely to itself. The members of the Government are forced to make a choice between two evils. It would be a fatal blow for the Canadian Army and disastrous development for the Allied cause, if the Union Government were to suffer defeat at the hands of an Opposition which promises to suspend the Military Service Act. Sir Wilfrid Laurier was guilty of a grave crime against Canada, the Canadian Army and the cause of civilization when he forced the present political contest and when he called for the support of all the anti-British, pro-German and slacker elements in the population.

It is probable that the latter two will be chosen, but whatever are chosen will be opposed by two Labor men.

Daily Progress Of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

Attempt to secure fusion candidate in Brant County fails.

Queen's-Shelburne Liberals nominate Hon. W. S. Fielding.

Lloyd Harris definitely accepts the Liberal nomination in Brantford.

Sir George E. Foster was chosen union candidate for North Toronto.

Grenville Laurier Liberals nominate Dr. F. A. MacIntosh, of Spencerville.

Sir Edward Kemp denounced the Quebec Liberal leaders at the East Toronto convention, which unanimously nominated him.

South Ontario Liberals reject union proposals, go on record as opposed to union government, and nominate W. A. Sinclair, Oshawa, as straight Laurier candidate.

Will Run Against Sir Sam Hughes

Mr. George Isaacs, a well-known farmer, has accepted the Laurier nomination for the constituency of Victoria and Haliburton, where he will oppose General Sir Sam Hughes, Minister of Militia in the Borden Cabinet.

Opposing Hon. Frank Cochrane.

Arthur W. Roebuck, Toronto lawyer, formerly editor of the New Liskeard Herald, and defeated Liberal candidate in the last election for the Legislature, is the Laurier-Labor candidate for Temiskaming in opposition to Hon. Frank Cochrane.

Premier Brewster

For Union Government

Laurier Liberals of Victoria, B.C., have decided to hold an open convention on Thursday night at which a candidate will be chosen to oppose Premier Brewster, Union candidate, according to a resolution previously passed, will oppose Union Government without opposition, but will support conscription. Premier Brewster advocates that the Liberals sink their differences and support the Government.

Liberals Spirit.

The Liberals of South Ontario met in convention at Whitby. The outcome was a break in the ranks over the question of Union Government. The majority of the Liberals present declared against holding a Union convention with the Conservatives and emphatically supported the Laurier policy. A small but influential minority, however, supported the Union principles.

Eerden, Fielding, MacLean

Until the Unionist nominations are definitely made in Halifax city the constituencies in which Sir Robert Borden, Hon. A. K. MacLean and Hon. W. S. Fielding will be the Union candidates will not be definitely known. At present there are three constituencies in which the prominent Liberals are to be candidates, Halifax, King's and Queen's and Shelburne. Sir Robert Borden may run in either Halifax or King's, Hon. A. K. MacLean in any one of three, and Hon. W. S. Fielding in Queen's-Shelburne.

In Cape Breton,

In Cape Breton, the possibility of a Laurierite candidate is better than in Nova Scotia it is maintained. There it is generally conceded that Dr. Chisholm, Inverness, and D. D. McKenzie, North Cape Breton and Victoria will be nominated as straight Laurier supporters. South Cape Breton and Richmond constituency have two representatives. In the old Parliament these were W. F. Carroll and D. D. McKenzie, Liberals, and they were renominated as Liberals, but they have declared themselves supporters of Union Government. Conservative candidates nominated before the formation of Union Government are J. J. Donoghue and R. H. Butts, members of the Legislature.

An attempt has been made to arrange a compromise on the basis of Liberal Unionists and Conservative Unionists. The Liberals have declared for Messrs. Douglas and Kyte, while the Conservative Venite Messrs Douglas and Carroll.

It is probable that the latter two will be chosen, but whatever are chosen will be opposed by two Labor men.

THE POETS' CORNER

My Only Son.

He sailed away, so blithe and gay,
From Canada's fair shore,
A gallant youth in khaki of
The Royal Flying Corps.
A striding tall, six feet and so fair,
And eyes of azure blue,
A ray of sunshine in his smile,
A heart both true and true.

He waved his hand in last farewell
From off the crowded deck,
I watched the ship until it vanished
Out on the sea of wreck.
And then, ah, me! I stood alone:
My boy, my only boy!
When shall I ever see again
My boy, my Jessie boy?

For though my eyes are falling fast
My heart is proud withal,
For I know in ranks of Right
He'll fight manly and well.
And though I lonely am and sad,
I'll not be sad to-day,
I daily at the Throne of Grace
So earnestly will pray:

"O God, be Thou his Guard and Guide
Until he duty's done,
Then home to me in safety bring
My son, my only son."

—Isabella B. Watson.

Particulars Of The Election Act

In Ontario those entitled to have their names on the voters' lists and to vote in the Dominion general election, 1917, are as follows:

1. All those (except in the cities) whose names are on the Ontario voters' lists used in 1916. In cities a special and entirely new list will be prepared.

2. All women (except Indian women) who are the wives, widows, mothers, sisters and daughters of the Canadian forces overseas and naval forces in addition to those who are themselves members of such forces have been at any time resident in Canada or not.

3. All electors and voters, male and female, not in receipt of pension on account of age, and British subjects by birth or naturalization, and according to the Dominion Elections Act, 1917, section 32, the elector is to reside for one year in the province and have his residence and domicile in the electoral district for thirty days, and his qualification to be fixed by reference to the date of the writ of election, 1917.

4. Those aforesaid who are not entitled to vote. These are all persons of enemy birth or alien European birth within certain specified limits, and of whom the Dominion Elections Act of 1917 in more language who have been naturalized in Canada since March 31, 1902. In this class, however, persons who have sons, grandsons or brothers in the overseas forces or who can produce certificates of service of applicants to enable them to be entitled to vote.

5. The sons of those men who have been naturalized since 1902 who were born naturalized aliens are disqualified. Neither are the sons born in Canada, whether the fathers were naturalized or not. All of the foregoing classes naturalized previous to 1902, with their sons, are not disqualified, nor are the female voters under section 41 of the Dominion Elections Act.

6. The Russian Mennonites who settled in Manitoba under order-in-council dated August 13, 1873, as well as the Mennonites who settled in Canada under order-in-council dated December 6, 1899, are disqualified, unless they have residence for 12 months in the overseas forces. All other Mennonites resident in Manitoba and Mennonites resident elsewhere in Canada are not disqualified to vote.

7. All who apply for exemption from combatant naval or military service on conscientious grounds are disqualified unless and until they are refused exemption.

8. Those who apply for exemption from combatant service and disqualified, whether refused or not, and clergymen, although not required to perform military service, are entitled to vote.

9. Returned soldiers are entitled to vote whether they are on the voters' list or of age.

10. Armenians and Syrians known to be out of sympathy with Turkey are not disqualified.

All enumerators take the list of 1916 and add to it the names of the female voters and strike off the names of those disqualified as above. There are not many in Ontario disqualified.

Modern Destroyer Dread Of U-Boat

Progress Made in Locating Submarines and Ending Their Activities

WASHINGTON, D.C., Nov. 15.—Important progress has been made in the problem of locating submarines after which their destruction is a comparatively simple matter, Secretary Daniels said today in a statement in which he discussed the 40,000 separate suggestions, plans, or means of defence submitted to the Naval Consulting Committee since the United States entered the war against Germany.

"The idea that the submarine will be overcome by a miraculous invention is now pretty generally considered," the Secretary said.

"The more intimate knowledge a civilian obtains on this subject the more convinced he is that the submarine can be conquered by persistently hunting him down by the weapons of which he is most afraid. This is the armed service boat, equipped with all the latest scientific devices and typified in the modern torpedo boat destroyers. Foreign naval authorities have frankly stated their admiration of the degree of perfection reached by leader of the Montmidable series, for two years Secretary Daniels has had his headquarters for a special board of experts, engaged in perfecting devices in Washington and at the navy yard at Montreal, for the destruction submarine. Many of these devices are very active in the Mediterranean Sea and several more have been tried very successfully in Hampton Roads.

"The submarine has proved very active in the Mediterranean Sea and several more have been tried very successfully in Hampton Roads.

"This is the fourteenth day of the Parliament has been prolonged."

...ness and goods in plenty. There too, he hath many friends of highest rank who, for his sake will grant me favor and protection."

The nameless terror gripped the heart of Huldah again.

"Of what nature is it bid ye or Jerusalem?" she queried anxiously.

"Of naught that I know," declared Jether, warming with enthusiasm at the prospect of the journey to the south. "But of this I am sure, that as, content thou, but one as I am when from the distant hilltops I gaze upon the Holy City, my heart is filled and dream of that upon which they sometimes strayed at the great city of Jerusalem. Shall with palaces of gold and ivory, where dwell victorious captains and powerful princes. Shall again in the high city walls that open gateways to many countries, even Babylon and Nineveh and Egypt, places I know as not only by name, but personally. Indeed, Huldah, I am sorry that thou hast only 16 as an age, for I would that thou couldst see and as a man others seek wealth I am. Even now who has not heard of the wealth that Hiram of Tyre hath amassed by commandeering on a royal scale the products of the mines of Ophir? Soon will Israel be the richest country in the world, and I, Jether, am the one who is about to share in the glory. Yet, Huldah, I am not so vain as to think that I alone am worthy of this great honor. Thou, too, art worthy, and I have striven to aid her safety.

"Therefore, I say to you that my wife and I have decided that you shall be our adopted daughter and I shall be to you as a father. Thou shalt have no more worries. Thou shalt be clothed in the finest linen and garments of silk. Thou shalt have servants to wait upon thee. Thou shalt ride in a chariot and thou shalt be the envy of every maiden in Jerusalem. Another Ruth I shall find for Naomi with mine own hand I shall place thee in the arms of Boaz."

Huldah knew not what to say. Jether's words had left her dazed and bewildered. Her brain refused to grasp the full import of her fate. Her heart told her that she should not go, but her mind argued against it.

"Jether, I am grateful for your kindness," she said at last, "but I cannot go. I cannot leave my father. He is old and feeble and I am all he has. Besides, I am betrothed to Jether, the son of Ezra, the scribe, and I love him. I cannot leave him."

"Jether, the son of Ezra, the scribe!" repeated Jether, scornfully. "Is he the one who is to be thy husband? Then I am glad that I have come to you in time. Jether, the son of Ezra, the scribe, is dead. He was slain by the Romans in the battle of Jericho. Thou hast no husband now, Huldah, and thou hast no father. Thy father is dead, too. He died this morning. Thou hast only me to look to for protection. Thou must go with me to Jerusalem."

Huldah sank down upon the couch and buried her head in her hands. Her sobs came in deep, convulsive gasps. Jether stood over her, waiting for her grief to spend itself. Then he spoke again.

"Thou must go with me to Jerusalem," he repeated. "Thou must go with me to-night. Thou must be ready to start with me at daybreak. Thou must not delay. Thou must not stop to bid thy father farewell. Thou must not stop to bid Jether farewell. Thou must not stop to bid anyone farewell. Thou must not stop to do anything. Thou must go with me to-night. Thou must be ready to start with me at daybreak. Thou must go with me to-night. Thou must be ready to start with me at daybreak. Thou must go with me to-night. Thou must be ready to start with me at daybreak

Like Taking an Axe To a Corn

Some methods of removing corns are as old. They are cruel. They attack live tissue as well as the corn. And accomplish other evil.

Some are newer. Some revolve frequent applications. All cause discomfort, all unscientific, until Blue-jay comes.

Now, with Blue-jay, you apply a thin protector, which stops the pain at once. In the counter-acting on the corn alone—in a gentle, efficient way. And a few days later the corn vanishes in ache.

Blue-jay is applied in a jiffy. When applied, you forget the corn. In two days you find it gone.

About one corn in ten needs a second application. But no corn can resist this new-day method.

At least a million corns a month are ended in that easy, gentle way. Users of Blue-jay apply it as soon as a corn is felt. And it never pains again.

Try it tonight—on any corn, old or new. What it does to that corn, it will do to all. And that means lifeless freedom. You will be amazed to know how easily the trouble can be ended.

Blue-jay Corn Plasters are sold by all druggists. Also Blue-jay Bunion Plasters.

How Blue-jay Acts

B is the B&B wax, which gently undermines the corn. Usually it takes only 48 hours to end the corn completely.

C, the rubber adhesive which strips the B&B wax off the corn. It allows you to make the plaster snug and comfortable.

Blue-jay is applied in a jiffy. After that, one doesn't feel the corn. The pain is relieved, and applied to the corn absorbs the corn dissipates without soreness.

A is a thin, soft pad which stops the pain by relieving the pressure.

Suit Against An Archbishop

Sister of Charity Gives Evidence Before Kingston Court—Treated as a Lunatic

KINGSTON, Nov. 15.—Sister Mary Basil, who is a member of the Sisters of Charity, gave evidence in her suit against Archbishop Spratt and others for $20,000 for alleged assault, subscription, false arrest and imprisonment.

Despite the objections of the defence the plaintiff's counsel succeeded in having an interesting report and letter submitted. The report, which had to do with affairs at the St. Mary's-on-the-Lake Orphanage, with which the plaintiff was connected, was addressed to Mother-General Mary Francis Regis, of the Sisters of Charity of the House of Providence, the mother house. The report, which was dated April 19, 1916, said, among other things that the rules and regulations were disobeyed at the orphanage; that there was no order, but complete anarchy; that the Mother Superior, Sister Ida Magdalen, treated every rule with contempt; that the name "Sister of Charity" was an empty title; that the orphans contained in the institution were treated like animals, being kept in a filthy condition, poorly fed and not enough clothes to protect them from the elements; that some of the children were kept in dark subterranean passages, where no light ever penetrated, and there consorted with tramps and imbeciles, becoming moral degenerates.

Appealed to Archbishop

The sisters and novices," said the report, "lived in luxury, while they dragged the institution down into the mud.

The report told further that in order that Frank McPherson, the nephew of the Mother-General, might have a chance to make some money the plumbing system, which had been installed at the orphanage only a few years, was torn out, much against the advice of a protestant foreman, and replaced, as the report stated, by an inferior system. The plaintiff said that a few days after she made the report she repeated to Archbishop Spratt the charges and criticisms set out therein. His Grace, according to the plaintiff, said that the novices were merely to blame for any criticisms or conditions that might be found to exist in the orphanage. He said that he did not know it was proposed to change the heating plant, and said that he would give permission to change the heating plant again next week. The Archbishop became angry as she pressed her criticisms, and finally jumped off his chair. She told him, however, that if matters weren't remedied she would report to Rome, but he said he didn't care. A few days later the Archbishop had a further conversation with her and urged her not to write to Rome, saying that if she didn't maybe he would do some thing for her or give her something. To this she replied: "I want nothing from your Grace. All I want is what the rules give me, a room, a bed, to eat, clothes to wear, and decent treatment."

Nothing having come of the report the plaintiff then addressed a letter to Archbishop Spratt, under date of May 8th, 1916, in which she alleged that the Mother Superior exercised undue influence over his Grace. She referred to the "strange friendship" between him and Mother Superior and Archbishop, which made him like clay in her hands. It was further alleged that the Mother Superior was a hypocrite, spending her time out of the community. No steps being taken to remedy the abuses complained of, the plaintiff on September 5th, 1916, forwarded a petition and report to Rome in regard to the affairs of the order. To nullify the action of the plaintiff, the defendants, as the plaintiff charges, entered into a conspiracy to quietly have

Plaintiff's Story

On the evening of September 14th she was assaulted and abducted. One of the defendants, John Naylon, one of the field priests, entered her room while she had only a light garment on, and with violence threw her on the bed where she was forcibly dressed in some cast-off garments. Sisters Mary Magdalen, Mary Vincent and Mary Alice Tobin, also aided the policeman, who had sent him and he said it was the Archbishop and the Kingston Chief of Police had given him his instructions. The officer said they were going to take her to an asylum in Montreal, but she asked him if he thought that she was crazy, and he replied that she didn't act like it. She was forced to descend to an automobile waiting at the door. She had asked to see Father Mes, the chaplain. She was not permitted to do so, as she was being dragged out of the door she screamed, "Father Mes, Father Mes, I want to see Father Mes." Father Mes heard her cries and rushed to the door clothed in both robe and slippers. Finding that no idea had that they were taking Sister Mary Basil to an asylum in Montreal, said he would accompany them gowned as he was. The chauffeur said he would wait until Father Mes dressed. The party then started out for Kingston Junction. And on the way Father Mes's threat of appealing to the public on the station platform, and, if this failed, to accompany the party to Montreal, when he would institute proceedings in the courts, caused a halt in the proceedings, and the plaintiff was finally returned to the orphanage.

Clauses Objected To

When the case was opened before Mr. Justice Britton, Lally McCarthy, K.C., of Toronto, chief counsel for the defendants, said that certain clauses be struck out of plaintiff's claim, on the ground that they were irrevelant and embarrassing and likely to prejudice a fair trial of the action. He said the Roman Catholic Episcopal Corporation could not be guilty of the acts charged. He held further that the alleged irregularities in the management of the orphanage, of which the plaintiff complained, and which led up to the alleged offences for which the plaintiff was claiming damages, should not be investigated by the court. They were matters that concerned the authorities at Rome, and he understood that the sister had carried her case there.

W. N. Tilley, K.C., Toronto, for the plaintiff, said that the plaintiff was entitled as a member of the community to make certain reports on what she believed to be improper conditions.

STOLE NECKLACE IN INDIA

NEW ORLEANS, La., Nov. 15 — Extradition proceedings against R. G. Collins, of London, England, were begun here yesterday before the United States Commissioner, Mr. Browne, on papers filed by the British Government counsel. Collins is charged with the theft in Bombay, India, of a pearl necklace valued at 75,000 rupees, was arrested several days ago, at the request of the Department of Justice and the British Consul at New York. Collins and a woman companion have been confined to prison since their arrest.

MEETING BROKEN UP.

DULUTH, Minn., Nov. 15.—An attempt to hold a secret session of the People's Council of America here last night, resulted in the arrest of Prof. Scott Nearing, of New York, president of the Council, on a charge of vagrancy, until he could be turned over to the Federal authorities today. The police were "tipped off" that a meeting was to be held, and sent a stenographer who copied all the speeches. At the conclusion of the speeches sixty policemen rushed in and arrested Prof. Nearing and four others.

MUSIC AND DRAMA

"POLLY OF THE CIRCUS"

"Polly of the Circus," Margaret Mayo's world famous classic of the "Big Top" and now converted from the celebrated play into a tremendous photo-spectacle, will be screened at Griffin's to-night till Saturday, with a matinee Saturday. "Polly of the Circus" literally abounds in sentiment and thrills for people of all sets. There is a remarkable exciting finish, now the reproduction of an entire circus performance, including all the animal and riding acts; the arrival of the circus in a village at daybreak and its departure in the night; the burning of the main tent and the stampede of the audience. And there is a love story of greater charm and beauty than has been revealed on the screen in many months. Mae Marsh, who takes the part of Polly, will be remembered as having the lead in "The Birth of a Nation."

HAWAIIAN BAND OF SINGERS AND PLAYERS

In "The Bird of Paradise," which will be seen at Griffin's Opera House next Monday night, Richard Walton Tully, the author, presents an alluring region in a beautiful land. The scene is Hawaii, and the tale of romance, intrigue and superstition is cunningly woven. The period is in the early 70's. Luana, a native princess, falls in love with Dr. Wilson, an American who has come to Hawaii for the bacillus of leprosy. Instead, he marries the little girl and gradually sinks lower and lower. Mr. Morosco, under whose direction the piece is produced, has collected a clever cast, headed by Celeste Scudder, a nineteen year old actress of exceptional ability.

It's a big play that grips the heart and brings the sob to the voice, Oliver Morosco's stage settings have received unstinted praise for their truthfulness. A native Hawaiin band of singers will sing the plaintiff Hawaiin and other songs of the South Seas during the action of the play.

ELSIE FERGUSON MOST BEAUTIFUL WOMAN

In keeping with the progressive policy of his theatre, Manager Forshan of the Palace announces one of the greatest coups in the history of his playhouse in popular Elsie Ferguson's first motion picture, "Barby Sheen," at the Palace to-night to Saturday matinee daily. One of the most luminous stars in the theatrical firmament, Miss Ferguson left the orbit of the stage several months ago to appear before the motion picture camera for Aircraft Pictures, in a screen version of this famous book by Robert Hichens.

One of the theatre's faithful exponents of the true dramatic art, Elsie Ferguson's advent to the screen marks a distinct achievement for the motion picture patrons.

"The Great Secret" series and an amusing comedy will also be screened.

A JOY TO LISTEN TO

Mlle. Gardini is a charmingly graceful woman, with a very pleasing stage presence and magnificent singing notes; always pure and possessing great volume as in the final prison scene, or again sweetly subdued as in her singing of the "King of Thule"—were a constant joy to listen to. Her singing and acting in the garden scene which is Marguerite's great opportunity were both highly artistic.—Ottawa (Can.) "Citizen."

Try This If You Have Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need. This simple remedy has never been known to fail.

Allies Must Work Together

Premier Lloyd George States Disasters Have Resulted From Lack of Unity

Premier Lloyd George, alluding to a centralized direction of the allied efforts, said:

"Unfortunately we did not have time to consult the United States or Russia before creating this council. The Italian disaster necessitated action without delay to repair it. This made the indispensable to commence right now with the powers whose forces may be employed on the Italian front. But in order to assure the complete success of this great experiment which I believe is essential to the victory of our cause, it will be necessary that all our great allies be represented in the deliberations. I am persuaded that we shall obtain the consent of these two great countries and their co-operation in the work of the inter-allied council."

Mr. Lloyd George explained the reasons for not taking the step earlier. The allies had committed a great fault, he said, in not adequately assisting Serbia in the autumn of 1915, with the result that the central empires broke the blockade and procured men and supplies from the east, without which Germany doubtless would have been unable to maintain the forces of her armies.

"Why was this unbelievable fault committed?" asked the premier. "The reply is simple. It was because no one in particular was charged with guarding the Balkan gate. The unique front had not become a reality. France and England were absorbed by other problems in other regions. Italy thought only of the Carso. Russia was mounting guard over a frontier of a thousand miles, and even without that she could not have passed through to have helped Serbia, because Roumania was neutral. It is true that we sent troops to Salonica to succor Serbia, but, as always, they were sent too late. Half the men who fell in vain effort to pierce the western front in September that same year would have saved Serbia, saved the Balkans, and completed the blockade of Germany.

The Balkan Tragedies

"You may say this is an old story. I grant you that. It was simply the first chapter of a series that has continued to the present hour. Nineteen fifteen was the year of the Serbian tragedy; 1916 was the year of the Roumanian tragedy, which was a repetition of the Serbian story almost without change. This is unbelievable when you think of the consequences to the allies' cause of the Roumanian wheat fields and rich petroleum wells which passed to the enemy and Germany was able to escape us. Throughout the harvest of 1917 the siege of the central powers was raised once more, and the horrible war was once more prolonged. That would not have happened had there existed some central allied body in charge of the conduct of the war."

After reviewing the Italian campaign the premier said: "As far as I am concerned I had arrived at the conclusion that if nothing was changed I could no longer accept the responsibility for the direction of a war condemned to disaster from lack of unity. Italy's misfortune may still save the alliance, because without it I do not think that even to-day we would have created a veritable superior council. National and professional traditions, questions of prestige and susceptibilities all conspired to render our best decisions vain. No one in particular bore the blame. The guilt was in the natural difficulty of obtaining of so many nations, of so many independent organizations, that they should amalgamate all their individual characteristics to act together as if they were but one people."

PTE. HOGAN KILLED.

An official telegram was received yesterday that Pte. William Patrick Hogan, was killed in action on October 31. Pte. Hogan lived in Belleville all his life and was employed at Marsh and Hanthorn's foundry. He had many friends who sincerely regret his death and sympathize with the bereaved relatives. He went overseas with the 155th. Battalion and was attached to the machine gun section.

ENJOYABLE AT HOME

St. Michael's Academy last evening was the center of attraction, the occasion being the first of a series of card parties to be held by the young ladies of St. Michael's. About nine o'clock seventy-five tables commenced what proved to be a keen competition for the prizes which were awarded. Rev. Father Hyland occupied the chair and announced the prizewinners at midnight. Miss Dewey, Miss M. Kelleher, Mrs. P. Donovan and Miss L. O'Rourke; Mr. P. Doran, Mr. J. Ross, Mr. Mr. Flagler and Mr. Day. After the cards dainty refreshments were served. About an hour was then spent in social intercourse, and the singing of the National Anthem brought to a close one of the most successful card parties of St. Michael's.

VINOL CREATES STRENGTH

Positive—Convincing Proof

It is all very well to make claims, but can they be proved? We publish the formula of Vinol to prove the statements we make about it.

Ed Lineau, Lynn, Mass., says: "I was all run down, had no appetite, was nervous and could not sleep. Vinol built me up splendidly and I gained 10 pounds in weight."

Any doctor will tell you that the medicinal value of Vinol as published above, combine the very elements needed to make strength.

Nervous, run-down, overworked nervous men and women may prove it at our expense.

There is nothing like Vinol to restore strength and vitality to feeble old people, delicate children and all persons who have lost strength.

Try it. If you are not entirely satisfied we will return your money without question. That proves our confidence and your protection.

It is officially reported from Ottawa that Lieut. R. Cooper of this city was wounded on November 3rd. This young officer is the son of Mr. and Mrs. L. B. Cooper and hasn't overseas with the 254th Battalion.

No details are available as to the extent of the wounds which these officers have received, but their many friends in this city hope their injuries are not serious and that their recovery will be speedy.

"Hanky" Shower To Trenton Belle

(From our own Correspondent)

TRENTON, Nov. 15.—A very pleasant evening was spent at the home of Mr. and Mrs. H. M. Louis, Maemora street, on Tuesday evening, 13th inst., when some twenty-five girls, being in the British Chemical Company, met to give a surprise shower of handkerchiefs to one of their number, Miss Louis' sister, Miss A. A. Louis. After the parcels had been opened, revealing every kind, color and description of handkerchief, each accompanied by a "witty or wise little verse, Marie smilingly expressed her appreciation. Just then some of the young men of the Company arrived, and each contributing their "bit" to the evening's amusement, it was spent very pleasantly indeed, after which a dainty lunch was served and the crowd laughingly dispersed about midnight. Miss Louis is a well known and very popular young lady. Her home is near Deseronto, but she had spent some time in Ottawa with the C.N.R. before coming to Trenton.

Notable Subscriptions to Canada's New War Loan and General Campaign Notes—Millions From Big Corporations But Small Investors Allotments are Guaranteed

MONTREAL, Nov. 15.—The Canadian Pacific Railway Company has subscribed $5,000,000 to the Victory Loan; and at a meeting of the Victory Loan campaign committee, in the Windsor Hotel, Lord Shaughnessy aroused great enthusiasm by announcing that if the remainder of Canada contributed $200,000,000, as he believed would be the case, the C. P. R. Company would give another $5,000,000, thus making its contribution $10,000,000.

Lord Shaughnessy said that since the war began the C. P. R. Company has invested in loans and guarantees in one form or another, to the allied nations, nearly $70,000,000.

OTTAWA, Ont., Nov. 15.—The first subscription to the Victory Loan received by the Finance Department was from the Duke of Devonshire, whose subscription was sent direct to the department. The amount was not given out.

An aviator flew over the city dropping "programs" bearing the signature of Sir Thomas White, urging every person to support the loan. In the plaza square, a huge indicator, in the form of an electric dynamo, has been installed, and it will register the progress which is made from day to-day.

Big Montreal Subscriptions.

MONTREAL, Nov. 15.—Among the subscriptions already reported is one from the Hudson's Bay Company for $1,000,000 and from Lord Atholston for $100,000. Hon. Aldred Tessier of A. Racine and Company, Limited, has personally subscribed $30,000 and has undertaken to underwrite a further $30,000 on behalf of his employes. The Steel Company of Canada announces that it will underwrite Victory bonds to any amount subscribed by its employes and carry them free of interest for one year.

"UNION" CONVENTION AT MADOC WAS A FIASCO

"Dales" Convention With Liberals Left Out and Evidently Coventry Arranged to Nominate a Certain Candidate. Much Ill Feeling and "Scrap" Narrowly Averted

The "Win-the-War Unionist Convention" held at Madoc village yesterday, turned out to be nothing more or less than a carefully selected, hand-picked collection of delegates assembled to wish the nomination upon Thomas Thompson, Reeve of Madoc township. The position calling the meeting designated it as a "Union Convention" but no Liberal delegates were present nor were they given opportunity to take part. The whole gathering was a tame, motionless were proceedings and resolutions, without constant bickering and at times it seemed as if personalities would lead to blows, so tense was the atmosphere.

Mr. Northrup, the sitting member for the constituency, addressed the gathering and quietly dignified manner, taking exception to the manner in which the selection of delegates had been manipulated and declining to allow his name to go before a gathering masquerading as a joint convention of Liberals and Conservatives but with the Liberals left out and the delegates selected with a majority looking to one man.

A feature of the meeting was the discovery by the Credentials Committee that few of the delegates were legally elected the whole proceedings being irregular.

The meeting was held in the Masonic hall which was filled with delegates and others, including a few ladies.

Dr. W. A. Harper, of Madoc village, who is President of the Conservative Association, occupied the chair, and associated with him on the platform were, Mr. W. R. Sterling, K.C., M.P., of the riding, Rev. E. A. Sanderson, Mr. W. J. Hill and others.

The chairman after calling the meeting to order, referred to the fact that it was a pleasure to see so many persons from all parts of the riding. The first thing to be done, he said, was to appoint a Credential Committee and it was to see that the delegates present had been properly selected. This proved to be the commencement of trouble which continued throughout the entire session.

A committee was appointed, and after some deliberation, presented a report to the effect that the delegates from Deseronto, Tyendinaga and Montaegle, had not been properly selected and should not have a voice in the selection of a candidate.

This report distinctly raised considerable dissatisfaction, and a number of those present protested vigorously against such a proceeding. The result was no definite action was taken in the matter.

Mr. T. H. Thompson said his name had been spoken of as a candidate, and he was a candidate for nomination and he would not withdraw his name. There should be harmony in the selection of a candidate, and whoever was chosen should have the united support of the convention.

Dr. Harper, in reply to the calling of the meeting of the Executive and that the Liberal Executive had been invited to attend a meeting, but, for some reason, they had not responded. The bills had been printed and scattered throughout the riding, advertising the meeting, and he knew anything else a Conservative convention. The point to decide, was this a union convention?

Mr. S. R. Rollins—The convention was called as a win-the-war convention, combining Liberals to support the union government.

Mr. Thos. Johnson thought the Liberals were invited to conferences from the Conservative Executive and the meeting should proceed in the selection of a candidate.

A motion was submitted that those nominated should pledge themselves to abide by the decision of the convention and ballot, their support to the person selected by those present.

This motion did not meet with favor from several quarters of the hall and was not put, although it was discussed pro and con.

Patriotic Liberals

Mr. W. R. Northrup—We should understand just where we are at, at the present time. A union government had been formed by Sir Robert Borden, because of the Military Service Act. A number of Eastern Liberal members supported that measure, and if they had not done so the Conservative government would have been defeated. The government owed their existence to the action of these Liberals. A union government was formed, and it is a government pledged to win-the-war, and we are asked to assist in that. The present convention was not a unionist convention. It is a convention to bring out a Conservative candidate. I might have been a Liberal-Conservative meeting, but it is not. He (the speaker) was a supporter of the union government, and objected to be bound by a pledge to support the candidate selected at such a convention. He was prepared to support a candidate the two political parties selected. Under the circumstances he deemed it his duty to decline to be bound, and was prepared to support the Union Government, and would remain in the field until the close of the poll on the afternoon of December the 17th. Mr. Northrup also explained to those present that the Government would not recognize a union candidate, and such a candidate would no doubt be supported by the Conservatives who would have a vote. There may be three candidates in the field and the Government may lose the seat. Before he would run in such a way, we should be careful what we do.

The President read a letter from Hon. Dr. Reid, M.P., of Grenville, who regretted his inability to be present, and stated that he would not be a candidate. He urged strongly on the selection of a candidate at the present time.

Nomination of Candidates

The nomination of candidates was then proceeded with, and the following names were submitted:

Mr. H. K. Denyes, nominated by Mr. John Ray and seconded by Mr. Benjamin Sayers.

Mr. Thos. Jermyn, H. Thompson, nominated by Mr. S. B. Rollins and seconded by Mr. Thos. Turriff.

Mr. W. R. Northrup, K.C., ex-M.P., nominated by Mr. S. Mouck, and seconded by Mr. John Sherman.

Mr. Denyes said he did not come to the convention expecting to be nominated, and he was not a candidate. He expressed thanks to the gentlemen who nominated him.

Mr. T. H. Thompson, being called upon, said he was sorry the convention was so unanimous in the choice of a candidate. He could not see any need for friction. There had been an understanding that all work to defeat the wish of the people. He claimed the meeting had been framed up in Belleville in favor of Hon. Mr. Marcher and was not stand as a candidate of this meeting but be a candidate to support the Union Government and Win-the-War policy. He (the speaker) would do the same. He had done much to encourage recruiting, and had also contributed much in soldiers' aid work. He referred to the part he had taken in giving the soldier boys a banquet before they left, and had extended a hearty welcome to those who had returned home. Give the boys at the front a ballot and he was not afraid of the result. He had done all he could for the locality in which he resided, and for the County as a whole. He was a Win-the-War candidate. He resented the dictation of any paper or person outside the riding as to who should be the candidate. For a number of years the riding had been represented by Mr. Northrup, who lived outside the constituency. He had every respect for Mr. Northrup, but Belleville might have an object in making him as the candidate. He referred to what he had done in the interest of the County, while he had been a member of the County Council. In conclusion the speaker stated that if he was the candidate and was elected he would support Sir Robert Borden and his progressive Win-the-War policy.

Upon a vote being taken, a majority of those present voted for Mr. Thompson as the candidate, and he was declared to be the nominee by the convention.

Mr. Northrup would not permit his name to go before the meeting.

Mr. Thompson expressed his thanks for the honor conferred upon him.

The meeting closed by cheers for the King and the candidate named.

Appeal To Dominion To Stand By Union Gov't

SIR ROBERT BORDEN AT HALIFAX

FUTURE OF BRITANNIC COMMONWEALTH AND WORLD IT-SELF AT STAKE, DECLARES PREMIER BORDEN IN OPENING THE UNION GOVERNMENT CAMPAIGN — NO POSSIBILITY OF FULFILLING DUTY TO CANADIANS AT THE FRONT SAVE BY SELECTIVE DRAFT — REFERENDUM DENOUNCED.

HALIFAX, N.S., Nov. 15.—Sir Robert Borden, founder of Union Government, gave his own home town of Halifax a practical demonstration of the underlying principles of Union last night, when, nominated by a large convention as one of the two Unionist candidates for the city and county of Halifax, which he has represented in Parliament for twenty-one years, Sir Robert withdrew in order to make a place for his Liberal colleague in the Union Cabinet, Hon. A. K. Maclean.

The Prime Minister opened his Dominion campaign for Union last night at an enthusiastic Union mass meeting in the market hall, which was attended by over 5,000 people, hundreds being turned away, but the dramatic incident was that which occurred before a mass meeting at the Unionist Convention in the Masonic Hall. That Convention had adjourned the previous night in the hope of coming to some agreement with the Liberal Convention that would make a political contest in Halifax unnecessary. In this hope they were disappointed. It was the duty of the Unionist Convention, which met at 6.30, to name two candidates to oppose the two named by the straight Liberal party convention the night before. One of these candidates to be a Protestant, the other a Catholic. The name of Sir Robert Borden was first placed in nomination, that of Senator Crosby, of Halifax. Both at once withdrew in favor of Hon. Mr. Maclean. "I think it is exceedingly desirable," said Sir Robert, "that this Convention should unite one Liberal and one Conservative to stand as their candidates, in saying this my purpose is entirely along the lines that I have followed during the past five months."

Amid vociferous cheers Mr. Maclean was nominated unanimously without the preliminary of taking a ballot. For the Catholic candidate John W. Regan and Mayor Martin were put forward, the latter winning the nomination by a vote of 141 to 90.

The Unionist candidates in Halifax are thus the Hon. A. K. Maclean (Liberal) and Peter Martin (Conservative). They are opposed by two straight Liberals, George A. Redmond and Edward Blackadar. Sir Robert will present himself as the Unionist candidate in his native constituency of Kings, the nomination for which was accepted by acclamation the day afternoon. It is expected that he will not be opposed.

NEED FOR NATIONAL GOVERNMENT

The Prime Minister was given a splendid reception when he went direct from the convention to the meeting in Market Hall, which opened the Union Government campaign in Nova Canada, and inaugurated Sir Robert's campaign tour. The great hall was packed to the doors, and one distinguishing feature was the large number of men in khaki in the crowd.

The Prime Minister's speech was a

TWENTY LIBERALS WITH GOV'T ENDORSATION

Government Will Officially Designate Union Government Candidates For Guidance of Soldiers Overseas—Hitzup in Some Constituencies

OTTAWA, Nov. 16.—With Federal nominations only a few days away, final preparations are being made for Government endorsation of candidates. The prediction made some weeks ago that the Liberal-Unionists would probably have twenty candidates endorsed is said to have been modified as to the precise procedure adopted, though not as to the number. That is, there will be about twenty Liberal candidates against whom the Government will not endorse a Conservative. The majority of these will receive the official O.K. and will therefore be entitled to the benefit of soldiers' ballots on which a cross has been marked opposite "Government candidate." In a few constituencies the Government is likely to avoid choice of an official candidate altogether. One of these is said to be West Middlesex, where Duncan Ross, who voted for conscription in the House as a Liberal M.P., is opposed by a Conservative member, who also voted for conscription, the two being drawn into the one riding by redistribution of the county.

SOLDIERS' VOTES A PROBLEM

Just what will be done with the soldiers' votes in such constituencies is a problem as to which no announcement has been made. The Act provides that ballots marked "for the Government candidate" shall be awarded to the candidate designated as such by Sir Robert Borden. Should Sir Robert don't not designate such a candidate, where will these votes go? Where in a constituency like Ottawa which elects two members, the soldier vote is divided between the two designated. If Sir Robert designated two candidates in a riding where only one can be elected, would the soldier vote be split similarly?

It is being suggested that the only solution in ridings where no particular candidate is endorsed by the Government is to have the officials who are taking the soldiers' votes instruct them from the constituencies in question that their ballots will be spoiled if they put a cross opposite "Government candidates," and that in order to vote for a constituency, they must write the name of the candidate whom they favor upon their ballot. The ballot has a space in which an elector may thus vote for a candidate by name, but it is feared that few soldiers will go to this trouble when it is so much easier to make a cross.

WHERE WILL GRAHAM GO?

It is not known whether the twenty Liberal-Unionists and one Laborite-Unionist (Carey of Toronto) whom the Government will not oppose, include Hon. Frank Cochrane. His attitude in his speech in Essex it was regarded as certain that he'd be O.K.'d by Sir Robert Borden. But at the meeting there Mr. Graham took a peculiar stand. He said in effect that anyone believing that he had severed his connection with the old leader (Sir Wilfrid Laurier) had better send a wire to that gentleman and see. Mr. Graham's reference was meant to have his words interpreted as literally as they have been, but rumor says that his utterances have complicated matters considerably, and that a safe seat for George P. Graham, Unionist, is not at present in sight.

NEWS SUMMARY

Donald MacLean has been elected House leader of the Opposition by the Conservatives of Saskatchewan.

Presiding officers to take the soldiers' votes overseas have been appointed, and voting may commence next Tuesday.

Antonio Pafirano, an elderly merchant at Welland, was shot and seriously wounded by two robbers, compatriots, who entered his store.

The Hanleville Local Tribunal members had a lively struggle with a young farmer whom they refused to exempt, and had to call in the Chief of Police before he was overpowered.

Pete Jeloff, an Austrian, and Nicola Stocoff, a Pole, were badly beaten and robbed of about $2,100, which with $1,070 more, they were carrying about them, having withdrawn it from the bank, fearing the Victory Loan was soon to be closed against them.

Dr. Frederick Torrance of the Department of Agriculture, who has charge of the new cheese-grading section, says that oleomargarine will probably be on sale on the 1st of December, and the best grade should sell for about four cents less than the best grade of butter.

Eight airplanes were winged by the French flyers.

The trial of the newsprint manufacturers was begun in New York city.

126,186 Canadians in Casualties

Thus Far Shows What Canada is Doing for the Empire

OTTAWA, Nov. 16.—Sir Thomas White, Minister of Finance; Major-Gen. S. C. Mewburn, Minister of Militia, and Hon. Mr. Simmonds, of the American army, all addressed a large meeting last night in support of the Victory Loan.

In the course of his speech, the Minister of Militia said that there were 295,000 troops from Canada overseas. Casualties killed in the service of these 145,000 were in France and 116,000 in England. In Canada there were available to-day about 25,000 men, trained and being trained.

These figures showed the necessity of reinforcements. Up until October 24 there had been 5,145 officers reported in the casualties, of whom 1,019 had been killed, and of other ranks 121,041. Dealing with the list in the last few days, since the battle of Passchendaele, from Oct. 24 to Nov. 12, was 122 officers killed, 350 wounded, and seven missing, and among the rank and file 778 killed, 7,397 wounded and 905 missing.

Sir Thomas White said: "The Canadian war outlay is $1,000,000 per day. We are meeting a large part of this expenditure from our revenues. Last year it was $400,000,000, and $600,000,000, and this year—for six months—the same period, $665,000,000, or about forty per cent. of the principal of military expenditure in that period."

HENDERSON ARRESTED IN BRIDGEPORT, CONN.

Posed as Sergt. McDonald of Military Police—Stole An Automobile in Plattsburgh, N.Y.—Was at His Old Game of Impersonating Canadian Officer

KINGSTON, Nov. 16.—Pte. James Henderson, whom the police and military authorities have been looking for for the past two weeks, was arrested on Sunday in Bridgeport, Conn., and is now in the county jail at Kingston, where he will remain for a week when he will face trial. Henderson is accused of passing a number of fraudulent cheques in this vicinity and other places. He posed as Sergeant McDonald, of the Canadian Military Police and successfully passed himself off as a sergeant of the Canadian army and a sergeant of the American army, left prisoner in a cell at Paterson police headquarters on Tuesday of last week, directing that he be detained for them for deportation to Canada as a deserter. Since then the actions of the two sergeants and the private and the protests of the prisoner have been such as to arouse the suspicions of the police.

After a Paterson bank had notified the police chief that Sergeant McDonald, accompanied by a Sergeant McCarthy, of the American army, had tried to have a cheque cashed there, the chief sent round to the United States Hotel and found Private Matthew J. Wall of the Canadian Army.

Henderson, alias McDonald, was apprehended on the following Sunday, cheques in the different places he worked.

When describing himself as Sergeant McDonald, afterwards found to be Henderson, of the Canadian Military Police, and accusing the private of the Canadian army and a sergeant of the American army, left prisoner in a cell at Paterson police headquarters on Tuesday of last week, directing that he be detained for them for deportation to Canada as a deserter. Since then the actions of the two sergeants and the private and the protests of the prisoner have been such as to arouse the suspicions of the police.

Take 30,000 Turks As War Prisoners

Big Hauls of Germans—123,000 Square Miles Are Conquered

LONDON, Nov. 16.—In the house of commons during a speech Henry William Forster, financial secretary of war, said that since July 1, 1916, the British had captured from the Turks 30,197 prisoners and 126 guns and from the Germans on the western front 101,354 prisoners and 513 guns. The approximate area of territory conquered or reconquered by the British in the same time, said Mr. Forster, was 40,000. The total number of prisoners captured on all fronts since the beginning of the war was 186,000 while the captured guns numbered 800.

An official statement issued by the British war office on August 24 said that the number of prisoners captured by the British since the beginning of the war, exclusive of African victories, at that time aggregated 111,776.

Russian Situation Still Obscure

LONDON, Nov. 16—Varied reports are still coming through concerning the situation in Russia, but out of the mass it has been impossible to discover any statement that may be considered trustworthy. One report has Petrograd in flames, and another has 5000 persons killed in the streets of Moscow during the fighting between the Kerensky and Bolshevik factions. Still another is to the effect that coalition government has been formed in Moscow with members of the Bolshevik holding portfolios in it. Other unconfirmed reports are to the effect that anarchy reigns in Kiev and other Russian cities and that extermination of the Jews are being committed.

Durham Unionists Nominate Rowell

Former Provincial Liberal Leader is Enthusiastically Received

ORONO, Nov. 16.—Hon. N. W. Rowell, K.C., was tendered and accepted the Union nomination for Durham County at a win-the-war mass meeting held in the town hall here this afternoon. The nomination was unanimous. In reply to the resolution naming him and speaking in support of the Union Government's five associations the candidate gave one of the finest addresses of his career.

It was the first real union convention in the Province. Hon. Mr. Rowell answered his critics with sincerity and made a strong plea for national unity until Prussian militarism is no longer a menace to civilization. One of the chief interruptions came over to put him in even better form, and when asked if he were Grit or Tory he answered: "You can call me what you like, but after seeing the Canadians giving their life blood on the fields of France I don't care what you call me as long as I can do something to help them."

Floods Descend on German Forces

(Special to The Intelligencer)

LONDON, Nov. 16.—A despatch from the Italian army headquarters announces that the flood gates of the Piave and Sile rivers, northeast of Venice, have been opened by Italian engineers. It is believed this action means an attempt to drown out the Austro-German forces which crossed the lower Piave several days ago at Grisolera, 17 miles northeast of Venice.

Geo. P. Graham For South Essex

ESSEX, Ont., Nov. 16.—Hon. Geo. P. Graham, M.P., minister of railways nominated as Liberal candidate for South Essex at an adjourned meeting of the Liberals, which yesterday afternoon broke up in a riot last Friday was today quite harmonious. Norman Backus, president of the association, occupied the chair.

Six names besides that of Mr. Graham were before the meeting, but all retired in favor of the candidate.

SPY BETRAYED HIMSELF

A Pacific Port, Nov. 16.—The story of how a German spy betrayed himself was told to-day by Dr. M. A. Jeller of a steamer that has arrived here from Europe. He professed to be not an Englishman until going through the Red Sea, when he forgot himself and broke into German. Dr. Jeller understands he was arrested, convicted, and shot in Ceylon.

Making World Safe For Democracy

An audience that filled to overflowing the auditorium of the High School last night composed of the members of the joint Canadian Clubs of the city, greeted Rev. Dr. Cody of Toronto when he delivered his lecture entitled: "How Can the World be Made Safe for Democracy?" Dr. Cody is a prime favorite with the Belleville Canadian Clubs and was received with immense eclat. Dr. Yeomans, president of the men's club, occupied the chair. Miss Bowerman of Albert College, rendered two solos in pleasing voice.

A summary of the lecturer's conception of what will constitute a democratic world as a result of this present world war may be stated as follows:

1—Pan-Germanism must be smashed forever, including the Hohenzollern dynasty.

2—Selfish and arrogant Teuton Kultur must give place to efficiency for service and helpfulness for others, particularly the inefficient and the unfit. Alsace and not kultur must be the world's ruling passion.

3—Democracy, in its truest form, i.e., the rule of the people, for the people and by the people, for the highest good of all, must be enthroned upon the ashes of a ruined and discredited autocracy and militarism. This democracy must be educated, honest and God-fearing and God-serving. Class antipathies and demagogism and selfishness must give place to Christian brotherhood, mutual helpfulness and Christian stewardship of wealth, learning, wisdom and talents.

4—There must be a spirit of true consecration upon the part of every true citizen of our empire and of the Anglo-Saxon allies. And it must be not only "Pro aris et focis" (i.e., for altars and for firesides), but it must reach out towards a true cosmopolitan spirit of service for all mankind.

Dr. Cody outlined, in a masterful and eloquent fashion the pan-German program of world-conquest that reached its climax in the reign of the present Kaiser. The Teutonic corridor was the program, and the watchword was "Deutschland uber alles." The plan was to gain "by peaceful penetration" by the Hamburg and Bagdad railway, or more control and leadership of all the territories and people from Berlin to Calais and Berlin to Riga, and from Hamburg to Salonika and the Gulf of Persia, commonly spoken of in pre-war times as "Berlin to Bagdad." Dr. Cody declared that nine-tenths of this "Teutonic corridor" program has been realized; but he added, "it is the one-tenth that remains unfulfilled that will queer the whole." The resistance of Great Britain and the preparedness of her fleet was the first and greatest bar of steel flung across this great corridor, declared the lecturer, and before this war is over the whole corridor will be blocked forever to the eternal blessing and peace of Europe and the world. Dr. Cody declared that Austria-Hungary must be freed from Germanic rule and reconstituted under the tutorship of the Entente Allies. He quoted from Napoleon's memoirs in exile to the effect that Bonaparte regretted not dethroning the Hohenzollerns after the battle of Jena and instituting a regime of red caps and democracy, declaring almost prophetically, as we now see, that the Prussians were a wolf-tribe, like Attila and the Huns, and would cause perpetual trouble in Europe. Dr. Cody also quoted from Professor Lord Bang's book—"Hurrah and Hallelujah"—showing that the teaching of Germany's poets, prophets, preachers and professors constitutes a terrific arraignment of Germany's brutal spirit of world-conquest.

A hearty vote of thanks was passed to the lecturer on motion of Rev. Dr. Scott and Mrs. S. D. Lazier. The meeting closed with the National Anthem.

The City

Devoted to Soldering Even in Times of Peace

THE career of Lieutenant-General Sir Arthur Currie, K.C.B., is now commander of the Canadian Corps in France, is one of the romances of the War. Four years ago he was just an ordinary insurance agent and real estate broker in Victoria, British Columbia. To-day he is in supreme command of the whole of the Dominion forces, a body of fighting men of a quality probably unsurpassed in the world's history, and in point of actual numbers larger than the original small fighting British Army.

Born forty-one years ago in Ontario, he went "out West" at an early age, and for a time turned his hand to a schoolmaster. But his real bent was as a militia soldier. He was one of the earliest amongst the settlers in British Columbia to join the old Canadian Militia. Most of his fellow-militiamen did not take their obligations very seriously. They turned up to drill, or not, as they accordingly as they felt inclined.

Currie, on the other hand, regarded his very seriously indeed. He commanded a drill. For the first time in the name down for every "course" that came along. Musketry, "Bag-swagging," mounted infantry, gunnery—it was all the same to him. He made it his business to become proficient in them all.

As a result he passed quickly through the various grades of non-commissioned rank, and eventually rose to command the Victorian Garrison Artillery. Shortly before the war broke out, however, his period of command of this unit came automatically to an end.

But, meanwhile, he had prospered in business, and what to a less enthusiastic man might have meant the end of volunteer soldiering for good and all, was for him the beginning of a new departure. He straightway set to work to raise a corps of his own. The men responding to his appeal were, like himself, of Scottish extraction, and he soon had organized a new unit the Canadian Gordon Highlanders.

Many people out there shrugged their shoulders and smiled. War, or any thought of war, seemed very distant from the peaceful valleys and mountains of Canada—so far away British Columbia. Mostly the people out there did not seriously believe in the possibility even; a view which is not to be greatly wondered at when we consider that it was shared, at that time, by the majority of the inhabitants of our Empire.

Thus it happened that when the call to arms sounded, Currie was able to place at the disposal of the Canadian Government a fine body equipped and highly efficient fighting unit. Just the very thing was urgently needed in order to stiffen the raw levies hastily being raised, in the more thickly populated eastern provinces—Ontario and Nova Scotia—in fact all eastern Canada.

He hurried with his battalion four thousand miles across Canada to the great training camp at Valcartier. Here it was placed at the disposal of a brigade. Then came the journey to England, the long, weary bout of training on Salisbury Plain, and finally set at last by the crossing to France and the Front.

Currie is one of those cool, quiet men who do not know the full meaning of nerves. One he was commanding the artillery in the line between Poelcapelle and St. Julien amid a hail of bullets. A high explosive shell fell close to him. Some one saw him duck his head, but did not exclaim. "I've got a bullet no more inches," he remarked afterwards to a friend.

Since war honors have come his way. Promotion has followed upon promotion. Recently the King of England has made him a K.C.M.G. and a K.C.B. Yet he is still known as "Come on, boys!" in his favorite fighting battle. When out of the fighting line it is "Hello, Dick!" or "What cheer, Harry?"

Fame has taken away by him, and are ready to follow him anywhere. Only the other day, when he has accomplished the seemingly impossible.

ESCAPED FROM GERMANY.

Soldier Says That Huns Expect Peace by February.

Five Canadians recently reached London, having escaped from Germany. They are: 77685, C. F. H. McArthur, Toronto battalion; 133537, Corp. E. Cunningham, Montreal Highlanders; and 109477, W. Master; 109131, John Evans, and 1310, J. Watts, Edmonton Rifles. Cunningham was captured in September last year on the Somme. McArthur in the second battle of Ypres. When seen by the Canadian Associated Press correspondent, Cunningham declared that Germany was on the verge of revolution. Conditions as regards food and clothing were terrible. He witnessed riots by soldiers and civilians at Dusseldorf, where two civilians were shot. The Germans expect an armistice by Christmas, and the end of the war by February. They imagine the conditions in England regarding food are as bad as with them.

Cunningham was captured when assisting a Scotch, with eighteen others, ten yards from the enemy trenches. An officer and eleven men were killed and the remainder were taken prisoners, but all except Cunningham were killed on the way to the Cambrai rear by British artillery. During a sortie he received a bullet wound in the leg, and was taken before a German officer, who, he declared him a book containing the records of the Canadian Army in France. He pressed him for information concerning Bethmann-Hollweg. Next morning he was taken to German headquarters, into a dugout, 150 feet underground, presumably he was told Cambrai. He was then a hospital at Valenciennes, was treated for his wounds, and after a time was placed in a brigade. Then came the journey to England, the long, weary bout of training on Salisbury Plain, and finally set at last by the crossing to France and the Front.

Currie is one of those cool, quiet men who do not know the full meaning of nerves. One he was commanding the artillery in the line between Poelcapelle and St. Julien amid a hail of bullets. Graham Employees Called A Meeting

Address By Mr. E. J. Graham Candidate For Parliamentary Honors in West Hastings

A meeting was held in the City Hall last evening, called by employees of Grahams Limited to hear an address from Mr. E. J. Graham, the candidate which consisted entirely of men, filled the hall. Mr. Duckworth occupied the chair and several took seats on the platform at the request of Mr. Graham.

The meeting was preceded by a band parade and music was furnished in the hall by the band, and Mr. Wm. McIntosh, who played the bagpipes.

Mr. Graham announced himself as a candidate for West Hastings at the coming election. He would run as an Independent Conservative, and would support the Borden government, but would have no political affiliations.

Mr. Graham sketched his personal history, and devoted some time to the war. He said that he had nothing against the sailing number for West Hastings, Mr. E. Guss Porter, but thought it was time for a change.

He stated that he had never received a cent from the Munition Government, except a small harbor contract on James Bay.

Mr. Graham did Mr. Porter "get you that?

"No. I never received anything from Mr. Porter but abuse. He ruined me financially, cleaned me out of every dollar I possessed and I have the records in my pocket, which will be produced on nomination day," said Mr. Graham.

Mr. Graham was followed by several brief addresses of encouragement, merely referring to the candidates qualifications for parliamentary honors.

Father Mea Gives Evidence

In Suit Brought Against Archbishop By Sister Basil

KINGSTON, Nov. 16.—Rev. Father Mea, who was chaplain of St. Mary's Orphanage, Orphanage when Sister Mary Basil, who is suing Archbishop Spratt and others for assault and abduction, was called to the witness box and gave testimony in favor of the plaintiff. Months ago he told the sister that if she found it necessary to seek redress in the civil courts he would be on hand to help her. He was as good as his word, and his evidence this day was entirely in favor of the plaintiff. He proved to be an ideal witness, imperturbable, courteous, quick to see the point in a question, and possessing the ability to express himself in direct and forcible language.

Father Mea's Evidence

Father Mea, chaplain of the St. Mary's-on-the-Lake Orphanage, said that when Sister Mary Basil came to the orphanage he noticed in a few days that she was being treated differently from other sisters in that she had no office nor employment. Realizing that this was a hardship on her, he took the matter up with the archbishop, and his Grace promised to consult with the mother-general. Subsequently the complaints of Sister Basil were being circulated, and the archbishop suspected Sister Mary Basil of being the writer. Witness told Archbishop Spratt that he was convinced of her innocence, but his Grace was not convinced, however, and said that the cards were evidence of a diseased mind, and told him to tell Sister Mary Basil that she would be placed in an asylum. The witness counselled the archbishop's message to the sister, who asked his Grace if he had sent such a message. Some time later witness met the archbishop, who asked him why he had told Sister Mary Basil that she would be placed in an asylum. His Grace said that he did not say that the sister would be placed in an asylum, but that she should be placed there. "What's the difference?" the witness asked the archbishop. "A big difference," was the reply. "Lots of people are in the asylum who are not put there by me."

The witness then passed on to speak of the abduction of the plaintiff from the orphanage on the morning of Sept. 14th, 1916. He heard someone scream, "Father Mea!" and, thinking that some sick child was being taken to the hospital as an end to see him, he rushed to the door in his bathrobe and slippers. To his consternation he found Sister Mary Basil seated in an automobile. Asked what was meant by this, he was told that the sister was being taken to an asylum. He replied that she was not insane, and asked Police-Magistrate Ward what his authority was for taking possession of the sister. The officer replied that he was acting on instructions from the Archbishop. Father Mea reminded him that the Archbishop had no authority to order the arrest of anybody.

Shortly after the abduction the Archbishop called to see Father Mea, and asked him what he meant by interfering with his acts of administration. "Surely," replied the witness, "this abduction was not one of your acts." His Grace told him that he was injuring his (Father Mea's) future. The priest replied that his Grace need not try to scare or intimidate him. They both smiled. He was in a year, and then what would their future matter. The Archbishop added that Father Mea's friends realized, too, that he was injuring his future. "The trouble with you and my friends," the witness told his Grace, "is that you and they are getting information secondhand, while I am getting it first-hand, being on the ground floor."

The witness told of having received a letter from the plaintiff in which she informed him of an assault that had been made on her in the convent. He went up to investigate and found that the Sister had not exaggerated the injuries which she had received. Both her eyes were blackened, one being closed. Her jaw was bruised and the teeth attached to a bridge had been loosened.

Cross-examined by Mr. McCarthy, the witness said he had known the plaintiff since 1898 and had always regarded her as a most religious person. She was a woman of strong personality and objected to yielding blind obedience. Asked what kind of obedience she should yield the witness replied, "Rational obedience, not blind obedience."

Served Him Right.

"Serves me right for pretending."

"How?"

"I talked a lot of highbrow talk to my new girl, and now she has gone and bought me one of Emerson's books for a birthday present. I could have used a fancy vest."

Bad Habits.

Shun bad habits. Every evil and wasteful habit draws upon our strength and resources without making any proper return. On the other hand, every task faithfully done, every respectability manfully borne in the path of duty, steadies us like well bestowed ballast.

Utility.

"They're going to build a sauage factory on the golf course."

"What for?"

"To make use of the links, I presume."

Its Nature.

"My dog can scent a storm hours off."

"Then his nose must be something of a storm scenter."

The Russian Embassy and all the Russian officials in London "wish it known that they do not recognize the authority of a band of traitors who have temporarily gained the upper hand in the capital and call themselves the Russian Government.

Holds People

A MONG those who are wonderful of the Russian people are students of the Russian religion, and the values who know what a hold it upon the people. It is hard indeed to believe that a people who clings to the religious simplicity of the Russian would accept the materialistic creed of the Kaiser, and yet we see both Protestants and Catholics and even Mohammedans fighting enthusiastically for a ruler whose creed is a flat contradiction of everything their spiritual guides have taught them. It is believed, however, that the Russians will never be able to reconcile themselves to the gross materialism of Kaiser, even though they bore the yoke of Czardom more or less complainingly for centuries. However, the Russian weakness was of the kind, and not the kind that might naturally lead to submission to a War Lord.

The Russians are members of what is called the Greek Orthodox Church, which is neither Catholic nor Protestant, but combines features of both and contributes some others peculiar to itself. The Czar is head of the Church, but the Church is absolutely free from State rule, like the Church of England. The Church, like all Christian churches, claims to be the old traditional Church of Christ, and its "Creed of the Liturgy" is the "Creed of Faith that will overcome the world." Some three hundred years ago there was a schism in the Church, which existed until the masterful Peter the Great got an end to it. He "did away with the authority of the Patriarch of Moscow and entrusted it to the Holy Synod, placing at its head the Procurator as an absolute dictator under the Czar, as to matters that might or might not be discussed. Peter, by the way, whose name is remembered outside of Russia, was Pobiedonostzef, a famous Russian secretary, but "than of great attainments. The Czar of the Russian Church must possess great influence in such a Church as this, Russia is now facing. It consists of monks and the secular priests. The former have great influence in the humbler ranks of the Church, but the latter come into closer and intimate contact with the people. The monks, or the "black clergy," as they resemble in appearance the Roman Catholic monastics, take vows of poverty, chastity, and obedience, and live in seclusion. They live ascetic lives, and their higher ranks the bishops of the Church are chosen. The secular priests, known as the "white clergy," are the parish priests. They are not ascetic. They are all married, and it is customary for a white clergyman to marry the daughter of another white clergyman, thus tending to establish a sort of tribe of Aaron. Priests not only visit the people in sickness and health and expound the Gospels in church, but they are the official registrars of marriage and other vital statistics. Celibacy marriages are unknown in Russia, the parish priests are thus sought out in the great crises of life and death, and since they are presumably better educated than their parishioners, it is only natural that they should wield great influence with them.

It is said that in the Russian Church there is a wonderful freedom from caste. The words "The rich and the poor meet together," and the Lord is the Father of them all," have for the Russians a reality that they have for few other people. Peasant and prince kneel side by side. The moujik has his own peculiar notions of religion. He sees in Christ a poor suffering man who is his own idealized image. He pictures Him as originally tolling with a heavy cross. To be like Christ is the duty of all true believers. One must love and pray and be patient on earth to death. Russian folk-lore ties his icon, or holy picture or emblem, everywhere, he goes, and as he lies dying on the battlefield he presses it to his lips in token that he has kept the faith. In many ways he expects the moujik lives a life that would not be approved by Western censors. He drinks a good deal, or did until deprived of vodka, and his youth has morals are not fastened after St. Anthony.

But when the Russian becomes a man, he is apt to put away childish things. A French critic has said that when a man become too old to set others a bad example, he gives them good advice. Someone else has observed that men do not grow better as they grow older. The average Russian is an exception. He improves with age, and from the moment that he begins to contemplate the possibility of dying some day he seeks to fit himself for the other world. He may fear death, but he has been taught that it is something higher and nobler than life. On the whole, the religion of the Russians is the best religion the Russians could have. It suits them. It enables them to bear their present hardships in the light of a glorious Resurrection, and to meet death when it comes like the martyrs of blessed memory. It is the Russian's religion of faith that makes him as good a soldier as the best.

Beautiful Floors.

The finest floors are said to be seen in Russian houses. For those of the highest grade imported woods are exclusively employed. Fir and pine are never used. In consequence of their sticky character they attract and retain dust and dirt, and thereby add to the work and dirt, and thereby soon become blackened. Pitch-pine has a like tendency, even after being well seasoned. The mosaic wood floors in Russia are often of extraordinary beauty.

Heavy Fighting on Plave Fr ont

LONDON, Nov. 16.—Everywhere along the battlefront from Lake Garda eastward, and thence southward along the Plave River to the Adriatic Sea,—the Italians are holding the enemy at check, except in the hilly region in the vicinity of the Asiago Plateau, where additional gains have been made by the invaders. The new advances by the Teutonic allies, as observed on the war map to-day, indicate that pockets of extremely great strategic value have been won, but rather that the Italians on various sectors have given ground before superior numbers and at the same time have straightened out and lessened the length of their front.

In the north near the Austrian Plain General Diaz, the new commander-in-chief of the Italians, has withdrawn his advanced posts south of the Plave River the German and Austro-Hungarian forces are adding strength to their attack, doubtless hoping to drive through the Italian country to the Plains of Venetia, before the expected arrival of British and French reinforcements becomes a fact.

"One Meatless Meal a Day"

is a good food slogan for war time, or any time—better make it two meatless meals a day—it would mean health and strength for the nation. But be sure and get the right substitute for meat in a digestible form. Shredded Wheat Biscuit is the ideal substitute for meat. It is 100 per cent. whole wheat prepared in a digestible form. Two or three of these little loaves of baked white wheat make a nourishing, satisfying meal at a cost of only a few cents. Delicious with milk or cream or fruits of any kind.

GADSBY JOINS THE UNION.

No newspaper writer has penned more eulogies of Sir Wilfrid Laurier than Gadsby of the Sarcastic Pen. Now Gadsby is busy writing Laurier's political obituary in a strenuous advocacy of Union Government.

PASSING STRANGE!

It may seem strange to some unprejudiced observers that a professed Independent Conservative win-the-war candidate should spend so much time in the office of a Laurierite newspaper, but sources of information are often found in strange places.

BRITISH FAIR PLAY.

It is not considered good form or British fair play to try and hit a man when he is down, neither is it fair tactics to endeavor to injure an opponent's chances by spreading a report that he is too sick to contest an election. Picking on a "sick" man for an easy mark will meet with a very healthy comeback.

CONSERVATIVE PARTY NOT CONSULTED.

No fusion candidate proposal has been refused by the Conservative party of West Hastings despite statements to the contrary published and circulated for a purpose. No one was authorized or in a position to make any promise for the Conservative party, and no proposals of any kind could be considered except by the Conservative party in convention assembled.

THE TRUTH.

When two officers of the West Hastings Conservative Association very properly declined to pledge that association at the request of a committee from an unrepresentative gathering of Liberals, would it not be a great strain on the truth to say that the Conservative Association had refused to consider the Liberals of West Hastings in reference to a Union Government candidate? And yet that statement was published and reiterated in an effort to make people believe that it was the truth.

BOURASSAISM.

The Catholic Register is under no illusions as to the meaning of Bourassaism. After analyzing carefully and exposing the fallacies of a recent article by Devoir, from the pen of the Nationalist leader, The Register says:

"Mr. Bourassa is using all the talents which God gave him, whether he knows it or not, in the self-assumed task of isolating his native province from the Catholic Church in a false position in Canada, and of starving minds and souls against the service and welfare of their country."

BIG ALEC'S VISIT.

Alexander Smith, familiarly known as "Big Alec," who has ... ner for the Laurierites. "Big Alec" is a skilled manipulator of political underground machinery, and it is worthy of note that he was entertained in Belleville last week. Coincident with "Big Alec's" visit several things happened of an interesting nature, including the appearance of two candidates, one Liberal and one independent Conservative. Strange coincidence, but then things always do happen after a visit of this astute political organizer. Big Alec's visit was unheralded and unsung. He slipped in quietly, did his work, and as quietly slipped away again. Big Alec is working for Laurier, and Big Alec loses no time, hence his mission here was in the interests of the Quebec party. Strange also that following Big Alec's visit to Belleville, two-headed opposition candidates develop in the logical Union Government candidate of West Hastings. Big Alec is gone, but Laurier's trusted resident agent is still on the job and carrying out his master's instructions.

INTOLERANCE AND TREASON

Quebec separatists are always railing against Ontario as "intolerant" and "bigoted." Last Sunday Hon. Mr. Sevigny, member of the Union Government of Canada, was stoned in Quebec while trying to tell the habitants the truth about the great issues of the day. Not much bigotry, booted and reviled; but the honorable minister was shot at and obliged to flee for his life. The Laurier-Bourassa agents in Quebec have poisoned the minds of the illiterate habitant and inflamed his prejudices until he feels a murderous hate against all who do not bow before the Laurier-Bourassa shrine. And the separatists dare to call Ontario intolerant and bigoted! Toleration which seeks to prevent public discussion and only permits the people to hear one side of the question is the Quebec way.

In Ontario a fair hearing is assured even the most disloyal of Laurier's Quebec supporters.

And certain partizan papers in Ontario whine and wheeze because treason and intolerance in Quebec is attacked by Conservative newspapers. In their partizan hypocrisy they advocate letting the fires of treason and intolerance and separation blaze away in Quebec, unnoticed by Ontario and the rest of Canada, heedless of the probability of the conflagration getting beyond control and disgusting Canada forever with rebellious acts.

In the eyes of rabid Laurierite editors and political manipulators it is a crime to say a word disparagingly of Quebec because centred there is the hope of another Laurier regime in power, with another wild debauch of the nation's resources in patronage and pap.

Ontario partizans who advocate drawing a veil of secrecy over disloyalty in Quebec are worse than the rabid Laurierites who preach separatism in Quebec because with their opportunities they should know better.

Shipbuilding in Canada.

Shipbuilding within the past two years has become a vital issue to Canadian industry. Every little port on the seaboard, and on the inland lakes, where yards have been long in disuse, is a hive of industry and many big concerns not hitherto in the shipbuilding business have established their regular work and taken in the building of boats. There are at the present time nearly two hundred vessels being built in the Dominion. Of these 18 are steel steamers for the Atlantic Coast, 13 on the Pacific, and 15 on the Great Lakes. The Polson Iron Works, in Toronto, are building two steel cargo steamers and six steel trawlers; Midland Dry Dock Company, three steel cargo steamers; Georgian Bay Shipbuilding & Repairing Company, Midland, two steel cargo steamers; Collingwood Shipbuilding Company, two steel cargo steamers; Port Arthur Shipbuilding Company, the seven steel cargo steamers and six steel trawlers. The total tonnage of these Ontario built vessels is 46,324 gross.

INSURANCE Against Sudden Death.

Before the Insurance Company will insure your life, it must be satisfied that you are sound, either organically, nervously, or functionally. Many people, otherwise well, are dying from Kidney Trouble and don't know it. Take the first symptom—backache—as a case in point. The Rev. Father Phelan, of Niagara Falls, N.Y., lived 10 years beyond the time the doctors gave him over. He says: "Anyone who suffers from backache and sends a sample of urine for test to Dr. Pierre's Institute, Buffalo, N.Y., will receive by return mail an explanation of the trouble and a prescription for the kidneys which will overcome the disease and restore health. Being so many years a sufferer from kidney trouble myself, I have tried many of my sandy substances which may clog and cause the disease, but found all the blood remedies useless as regulating blood pressure. Dr. Pierre's Anuric Tablets are the only remedy I have ever found that will relieve for all big meal sickness and those who digest little suffer in their joints. Let the struggle for "Anuric" put up by Dr. Pierre, in Buffalo, N.Y."

STRENGTH AND BEAUTY

Come with Dr. Pierre's Golden Medical Discovery. This is a blood purifier and alterative that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the body, nerves, brain and organs of the body. The organs work speedily into healthy running in all. You feel clean, strong and strenuous instead of weak and slow.

THE PARALLEL OF 1864.

Parties Joined Hands in Union to Support Confederation.

There is only one parallel to the present situation at Ottawa in the history of Canada, and that is the formation of the coalition of 1864. It is true that the union of that day embraced the leader of the party opposed to the Government, namely, George Brown. The union of to-day does not include Sir Wilfrid Laurier, but it does include leading men of the Liberal party in numbers to justify a comparison.

As in 1917, so in 1864. The union followed a long period of uncertainty and to some extent stalemate. The coalition of 1864 solved the federation issue. The union of to-day is expected to solve the problems of the proper prosecution of the war and give force and harmony to the application of conscription. In both cases the proceeding has been bold and stroke, a heroic attempt to end an impossible condition.

At this moment there are probably thousands of men in both parties who think all is lost because their party has merged with the other. In their belief in the value of party distinctions they think the loss is greater than any one can gain. It is worth recalling the conditions of 1864. Premier Taché and A. T. Macdonald had been political and personal friends for years. They bitterly assailed each other, and it was the last thing in the world to be said that they would ever bury the hatchet. And yet this is just what they did. They cast aside personal prejudices and differences for the welfare of their country. They formed a coalition and one Cabinet after another had been broken. Everywhere in the Conservative members one day in the House found themselves with the Government that would settle the constitutional difficulty. The result was a reconciliation on the floor of Parliament. At Quebec, Hon. Brown and Macdonald, stating in the centre of the assembly they had discussed the situation and arranged an interview which resulted in success.

It is worth recalling that this achievement was regarded as sensational. Speaking at the time of it, James Ferrier, of Montreal, during the debate on Confederation, declares in 1865, said the legislators of Canada were a political Messiah millennium had arrived." Sir Richard Cartwright then an obscure member of the House, said the delightful picture of an incident of the time.

"In that memorable afternoon," he said of the Canadian Clio in 1906, "when Mr. Brown, not without a struggle, rose in his statement to a hushed and expectant House, and declared that he was about to ally himself with Sir George Cartier and his friends for the purpose of carrying out Confederation, I was an excitable, elderly little French member sat scrambling and climbing up on Mr. Brown, who, as you remember, was of a stupendous height and gigantic, fling his arms about his neck, and hang several seconds there suspended, to the huge delight amusement of Mr. Brown and to the infinity joy of all beholders, my box, and gallery included."

While this Joy was evident in some quarters, it was not everywhere. There was the inevitable opposition to coalition in Lower Canada as there is in Upper Canada. Alexander Mackenzie, Archibald Macdonald, M. C. Cameron, and others were at the time in opposition to Confederation, as were A. A. Dorion, Christopher Dunkin and others in Lower Canada, but they lived to change their minds, accept the new conditions loyally, and render valuable service under the new constitution.

Must Kill Cattle.

Owing to the expected scarcity of feed during autumn, the stock of live cattle in Sweden will be reduced, approximately 15 per cent, and steps are now being taken to arrange saleing and packing the enormous quantity of beef which will result from the slaughter of cattle.

One hundred pounds of beef contain 67 pounds after ordinary roasting.

Unionists in Quebec

Marcus O. Gosselin, of Richmond, Quebec, was chosen as the Unionist candidate for the united Counties of Richmond and Wolfe.

H. G. HOCKEN NOMINATED

H. C. Hocken, editor of the Orange Sentinel, was nominated as a candidate to fight West Toronto Conservative convention held last night. Although Liberals hearing cards from the Central Conservative Association were invited, none voted.

ACCLAMATION FOR BURRELL

MIDWAY, B.C., Nov. 14.—Everything points to an acclamation for Hon. Martin Burrell, British Columbia's representative in the Union Cabinet. There is no suggestion of opposition, and no Laurier agents have made their appearance in Yale.

Hon. Arthur Sevigny, according to the statement of his organizers will hold a meeting St. Isidore, Dorchester county, on Sunday next, despite the condition, yesterday about a dozen persons, mostly young men, created violence which denied him a hearing last Sunday.

Hon. A. J. Calder was unanimously chosen as a Federal candidate at a Union Government convention at Moose Jaw, Sask., of Liberals, Conservatives, Great War Veterans and the British Nationality League. A. A. Heaps, president of the United Grain Growers, also endorsed the nomination.

LEMIEUX ACCUSES GOVERNMENT

Hon. Rodolphe Lemieux, speaking at a meeting held in support of the candidature of R. P. Pitteneiby, in the Laurier-Outremont division, said: "I accuse the Government of having attempted to incite revolt and rebellion in the Province of Quebec, so that the regiments from the other provinces might march against the French-Canadians. This is their disloyal method with the people. They have even had the audacity to say, and I repeat it, Canadians as a race of cowards."

The political pucks in Mipissing seem clear cut. Sheriff Farquharson, Conservative representative, Union convention at North Bay, endorsed the candidature of Charles Harrison, Independent Labor candidate, whose platform stands first and foremost for win-the-war to the abolishation of isms and nonsenses in Canada, in which he pledges himself to the Union Government in this respect. Conservatives and conscriptionists Liberals unanimously of the opinion that this convention should not place a further candidate in the field," subscribed to Harrison's candidature without a dissenting voice. It is not a straight fight between E. Lapierre, Laurierite, whose candidature is not endorsed by anyone with respect to the militant wing of the French-Canadians of the riding, and Harrison, endorsed by labor, throughout the district, the Conservatives and Conscriptionist Liberals. It will be a still fight. A letter from the Conservative executive to the Liberal executive of the riding suggesting an agreement on the Harrison candidature in view of the pronouncement on win-the-war being the supreme issue with Canadians was totally ignored without even the courtesy of a reply. The fight is resolving itself into almost a complete racial issue, with the the boldest attempt the French-Canadian vote has ever made to ascendency in Nipissing or Northern Ontario.

The Value of Fisheries.

The food yield of the waters of the English Channel or the North Sea—the least fish producing seas—is equal to the yield of a hundred acres of land of average fertility.

A cod produces some 5,000,000 eggs, and when the poultry farmer is getting the best results he can get one a day per pullet, the wonder of it is the number of eggs that produce 10,000, whilst salmon take the cream of the prize for every pound of their weight. No wonder the fishing rights of Scotland are nearly sold with them!

Just before the war it was computed by statistics that the catch of the North Sea fishermen handled during one year 2,100,000,000 fishes of all sorts and sizes, and the two ports of Lowestoft and Yarmouth alone had received 250,000,000 herrings in a single season.—211-Bit.

GOVERNORS-GENERAL WHO DESERVE GRATITUDE

Wisdom of Durham, Sydenham and Elgin Saved Our Country From Disloyalty During the Time-Tried Epoch of Our Struggle for Responsible Government and Self Control.

In the days of the early Victorian statesmen Canada would, had it have been formed a graveyard of political careers. While this declaration may strike the reader as melodramatic, it is undoubtedly in keeping with the unsavory reputation which the North American colonies had acquired in Downing Street. It must also be remembered that our forefathers' conception of the science of government was crude and elementary; that there was no system of parliamentary representation by the people; and that, for months at a time the business of the colonies was suspended while the legislative halls resounded with the echoes of petty party squabbles. In fact, things came to such a pass that the governing powers failed completely to cope with the situation, and the country was tottering at the verge of anarchy and ruin.

To save the struggling colonies and to bring order out of chaos was the first concern of the early British statesmen, and in an effort to reconcile the warring party factions one governor after another was sent to the colonies; and one after another the short-lived incumbents relinquished their posts disillusioned and discouraged. So persistent: ly did failure dog their steps that within a comparatively short space of time one of the highest posts within the gift of the Sovereign went abegging. That power was finally restored to the stricken country was done alone by the wisdom and genius of a triumvirate unique in the history of our nation—Lord Durham, Sydenham, and Elgin, but chiefly to Elgin. Durham, it has been said, diagnosed the malady and Sydenham applied the remedy. It might be added that to Elgin fell the laborious task of all, that of nursing the shattered nation back to health. He carried out his skill and tact and his firmness and the political dexterity of the colonies would have been thrown back many decades. Yet he proved to be the most unpopular governor in Canadian history, and his administration was marked by an abnormal combination of abuse, calumny and misrepresentation which has never been equalled in the annals of British colonial history. Yet, despite all this, he was rewarded with the gratitude, and it is to be regretted that historians in the past have not appreciated to the full extent their great work he accomplished for the nation during his administration.

In "The Winning of Popular Government," one of the "Makers of Canada series, Archibald MacMechan has written an excellent historical sketch of the period of transition through which the colonies passed during the Elgin administration. To the enemy and factious Reformers, he says, Elgin was a "Tory governor," to the Tories a "Reform governor." His notable document, "The Report on the Affairs of North America," is "MacMechan rightly says that the nation owes much. Durham went directly to the root of the trouble and found it in one word, 'Race.' Lower Canada, he said, was an oligarchy; in Lower Canada he found 'two nations warring in the bosom of one State.'" Continuing, he says: "The remedy for the time had gone by for a Federal Union; another must be either open or shut; the Province must be united definitely a British province and find the blame for it in the long and everlasting deadlock between the Executive and the Assembly, which the people the executive should be responsible to the assembly." When Durham fell into the political assaults of his opponents, he met successfully Lafontaine Viger, Lord Sydenham and Toronto. He was followed by Bagot, described as the "peacemaker" and the "peaceful governor." His tactics were eminently successful. When he died in office the colonists had just weathered a second rebellion. Then Canada as the old scores were bleeding fresh, and the air was thick with worry and disease a few years later Metcalfe arrived. Responsible rule had been established and, as the author says, "Metcalfe's part was to keep playing a regular game of 'tea party' politics according to modern procedure.

Though ignorance and hate had been conquered, the battle for freedom was being carried on under modern conditions that was of vital import. It done before the Canadas could fairly enter upon the political era. The germ of reform was being sprouting it had to be carefully nursed into full bloom. Elgin, it is said, was sent out to James, Earl of Elgin and Kincardine; and a distinguished governing task it proved to be. In the words of the author, "Never before was a more critical period, and never before were a man who called for a more careful hand to direct the future of the nation was swaying in the balance. Elgin was to be the guide its destinies at this critical moment, to inaugurate the system of constitutional government on a broad and liberal basis, to secure fair, but this was not accomplished for the Parliamentary Buildings in Montreal were burned by a mob, and before the Governor-General was allowed to sign his final assent in the streets of the same city.

Such was the political crisis that Mr. MacMechan says: "Of Elgin's conduct during this long-drawn ordeal it is impossible to say in terms of moderate praise. He must have been less of more than human not to feel bitterly the insults heaped upon him. The natural man spoke in the American who could

The Argentine Congress will grant authorisation to the Government to arrange for a Military Mission to France, and a Naval Mission to England or the United States.

AS CHARLIE SAYS:

But Elgin stood out as the saviour man; but as the Christian and the statesman. He refused to meet violence with violence! And he refused to nullify the principles of popular government by bowing before the will of popular clamor. But a more unsparing, Governor-General never held office in Canada."

Of Elgin's character also says of Lord Elgin: "No Governor of Canada was more trusted by the people; and yet no pro-consul is entitled to a more grateful remembrance in Canada."

WOMEN IN THE ARMY.

Seven Thousand Will Go overseas From Winnipeg.

Seven Winnipeg Tommettes are going to France to help beat the Germans.

In the next division of Canadians overseas the following will be found: Miss Ellen Douglas, lieutenant-colonel in command of the battalion of the Winnipeg Women's Volunteers. Miss Douglas has been the moving spirit in the organization. Lieutenants Dorothy Thaling, W. H. McQuade and Rod Shackleton, Adjutant Lawrence Barratt, and Privates A. Gray and Jessie Gray.

The call has come from the British War Office that Tommettes are ready for active service. The Tommettes met on Monday night in order to sail.

"It is the Women's Army Auxiliary Corps, who have mobilized 4,000 strong, enrolled in first-aid, nursing, drilling, driving motors, camp cooking and trailer cooking, signalling, telegraphy, and a dozen other kinds of war work.

Canadian nurses in France will have no terrors for them. They had ten days in the Winnipeg Tommettes' training camp life, at Gimli a year ago.

The Tommettes' motto is to go.

"The only thing we regret is that we were not called long ago," said Dr. Douglass recently.

Coal in Alberta.

Some interesting figures are given in the preliminary report of the Dominion mines branch for the quarter ending June 30 last as to the monthly production of the coal mining districts in Alberta and the total sales of the different kinds of coal mined.

The total number of tons of lignite, bituminous, and anthracite mined in Alberta during the months of April, May, and June was 416,745 tons, and the total number of persons employed in the mines is given at 11,956.

The total number of tons of lignite coal sold during the second quarter is given as 113,181 tons by the province of Alberta, and the total amount of coal sold for consumption in Alberta, British Columbia, Manitoba, Saskatchewan, and the United States 416,745.

The number of tons of bituminous coal sold from each of the coal mining districts in the province for the second quarter was: Bellevue-West Pass, 37,522; Canmore, 8,831; Cascade, 3,912; Jasper Park, 14,882; Yellowhead Pass, 1,000; Mountain Park, 37,127.

The total output of anthracite coal from the Banff district for the second quarter is given at 2,000 tons. This was practically all sold within the province.

The total output of lignite coal for the first six months of the present year exceeds that for the first six months of last year by 40,502 tons. The output for the first quarter was considerably in excess of that for the last, but it will be remembered that the record amount was obtained during the second quarter of the present year. Even with the output, was greatly reduced during that period.

ATTRACTIVE BREAKFASTS.

How to Serve Them Without Fuss and Fatty Assistants.

To be thing up to the best hospitable breakfast should be:

First—Very attractive, because persons are up earlier than at the morning.

Second—Quickly prepared, because one-tenths of American women have no servants, and even servants appreciate a few minutes' rest at the end of the morning.

Third—Decidedly nourishing, because it is a light meal, and what there is to it must give up sufficient energy to warm one off although the day.

The wise housewife takes especial pains to have a dainty breakfast table, and she is also careful to give attention to the preparation of breakfast dishes with a view to their digestibility. Besides seeing that the table is neat and attractive, and the special breakfast dishes are carefully prepared, she must also see that the table is neatly arranged.

In order to make it possible to give pure breakfast in the minimum amount of time, certain preparations should be done the night before. At least have the table set, everything ready and all is going to have to do is to put on the plates. Orange juice can be squeezed and put in the refrigerator in a carefully covered, and it is also possible to loose over and wash fruit that is to be served. Cereals require but little or no very further attention, if they are cooked in a fireless cooker, and for the reason it is worth while for any housewife to have one of these useful articles. It is composed of only a single compartment.

A Canadian Lord Mayor.

Charles A. Hanbon, alderman, of London and member of Parliament for the borough of Finsbury, is the next ward, was elected Lord Mayor of London recently. He will succeed Sir William Henry Dunn, Canadian born financier. He is the founder of the firm of Hanson Brothers, stock brokers, of Montreal, and brother of Edwin Hanson, senator of Canada, the present member of the Montreal Stock Exchange. He is married and about twenty-five years ago, Miss Hanson, now Lady Hanson, was in business in London. Gossip at the time had it that she was the first woman stock broker in London. Mr. Hanson, Canadian born, is a member of several of the leading London clubs, is also a member of the Canadian Club of London.

The new Lady Mayoress is the first Canadian lady to occupy that position.

POTATO STARCH.

Just How to Make It From Unmarketable Spuds.

Bruised and otherwise unmarketable potatoes may be used in making potato starch, a very desirable and beautiful food.

Potato starch can be used in many ways for food purposes—in making salads, puddings, milk dishes, etc. In every potato section of the country thousands of bushels of potatoes are wasted every year which could just as well be utilized in making potato starch.

Get plenty of water and a vegetable scrubbing brush in washing the potatoes. Seat yourself in a convenient position with a vessel containing potatoes at one side and an empty vessel for the gratings on the other. Have a dishpan with grater on a low table and, without removing the skins, grate your potatoes by hand or run them through the sausage grinder. Empty gratings into second tub or vessel.

Over the gratings pour clean water. Stir well, so as to saturate every particle of the potatoes. Allow to stand for a little time and then remove the peelings and other floating material from the top of the water. Stir again, add a little more clear water and allow the same to stand for several hours or overnight. The starch granules will settle to the bottom, and all pulp and potato skins will rise to the top of the water or settle on top of the starch granules. Remove the water carefully, also the pulp and skins. Scrape the dark coat off the top of the starch formation, being careful not to remove any of the starch.

Now put the starch in a strainer and pour a second time pure fresh clean water over the starch. Stir thoroughly. Allow to stand for several hours or overnight. Remove water and pulp as before and add another application of water. Continue this as often as necessary to render your starch perfectly white and free, not only from the pulp, but from all sand or sediment of any kind which is not pure starch.

This operation can be abbreviated by rinsing the first time and then straining the pulp, starch and water through cheesecloth or cloth of finer mesh.—National Emergency Food Garden Commission.

Be Decisive!

It is a true woman who has the capacity to decide a thing swiftly and then unswervingly carry out her decision.

Knowing it is a weakness of the sex, it is strange that girls are not taught from childhood to make up their minds quickly. If they were the world would be spared numberless inefficient and ineffectual women.

This average woman easily suffers in making up her mind about an important matter, and more often than not she does not get it safely made up and her family and friends are stirring with relief because the ordeal is over and again is straw-like confusion and they are called upon to make it up for her again.

It is not difficult to train a girl in the habit of decision, and it will be a comfort for a mother to know that if she has decreed that her daughter must have a life insurance or the support of family and friends she can make her decision clearly, no matter by what strange paths it may lead her, and live up to it unfalteringly.

HASTINGS CO. PASSES HALF MILLION MARK

Victory Loan Subscriptions Keep Pouring In—City Keeps Up the Good Work—Victory Loan a Sure Winner—How the Campaign is Going

Yesterday was the most gratifying day that has yet been reported for the Victory Loan. The total amount of bonds sold yesterday reached the high sum of $508,000, or more than half a million dollars. This is more than half of the objective set by the Local Committee. The objective set by the Provincial Committee for Hastings County is $800,000; but as more than half a million dollars has been sold in four days of canvass, and there is still 14 days to go, it's hand to tell where the result will go. However, one thing is sure, it can't go too high. In the United States, in the last Liberty Loan sale, one out of every 11 in the country subscribed, and good old Belleville is going to go them one better, or 1 in every 10. In that case there will have to be 1,300 subscribers in Belleville. So when buying for the baby, and all the family, you are doing just as much of a patriotic duty as if you had subscribed more in a lump sum. Canada wants all her children, young and old, as her creditor, so buy a bond for the baby, and the future that baby can tell the future generation that it had a part in the Great War. Buy a bond for all the family. Every one one home in Belleville is doing its duty. The father and mother each has a bond; the one remaining boy at home, age 18 years, is buying one from his own wages. Then there are two boys overseas, each below twenty years. These boys have been assigned their pay home, and it has been kept for them. The father is turning this saving into Victory Bonds, so they will have a good investment when they come home and their money will help to bring them home.

There will be a public meeting in Trenton to-night. Col. O'Flynn and Col. Pontot will be the speakers from Belleville.

The Others Don't Count

The Toronto Globe is kept busy denying charges that it has sold itself to the Tories, or been sold to them in whole or part by somebody, all because it has had the patriotism and the common sense to support Union Government. What The Globe should do in reply to these silly accusations and suspicions is to print a list of the other Liberal newspapers which have done the same thing. Or, rather, print a list of the chief ones, for a complete list would be long and expensive in these days of high-priced newsprint. As the Journal-Press remarked the other day, we are aware of only about three important Liberal daily papers in Canada which are not supporting the Union Government—and they are not very important ones either.

Among the Liberal papers which are lined up with The Globe in support of Union are the following: Winnipeg Free Press, Toronto Star, Hamilton Times, Regina Leader, Brantford Expositor, Woodstock Sentinel-Review, Kingston Whig, St. John Globe, Halifax Chronicle, Vancouver Sun, Victoria Times, Calgary Albertan, Guelph Mercury, Moose Jaw Times—and many others.

And incidentally all the independent newspapers of the country are lined up similarly, such as The Hamilton Herald, The Vancouver World, The Ottawa Citizen, The Grain Growers' Guide. Add to such a list of newspapers the fact that the great majority of English-speaking Liberals who have been prominent in either Dominion or Provincial politics are supporting the Union Government and you get a good line on the stupidity of the lies that the Toronto Globe needed some mercenary reason to place country before party in the matter of the war.—Ottawa Journal.

My Limbs Would Twitch

And Waken Me—Unable to Rest or Sleep, I Walked the Floor in Nervous State — When Specialists Failed I Found a Cure.

Windsor, Ont., Nov. 16.—This is the kind of cure that has set Windsor people thinking and talking about Dr. Chase's Nerve Food. The action of this food cure is so radically different to the usual treatments for the nerves that everybody wants to try it. Gradually and certainly it has established the starved nerves back to health and vigor and the benefits obtained are both thorough and lasting.

Mrs. Smithson, 37 Arthur street, Windsor, Ont., writes: "I was suffering from nervous breakdown, which was caused by a shock that nearly broke out in the adjoining house. My nerves were in such a state that, after going to bed I could not get my nerves quieted down sufficiently to go to sleep. I used to get up and walk around the room, or go downstairs. Even when I would be dropping off to sleep my limbs would twitch and waken me. I used to have cold, nervous, night sweats, sometimes would become unconscious and in that way get quite a little while. I was always cold and it seemed impossible for me to get warm or keep warm. When I left the street I would see two or three objects at once, and did not want any person to speak to me or bother me. Any little noise irritated and annoyed me very much. I had consulted specialists and tried many remedies during this time, but could not get relief. At last I tried Dr. Chase's Nerve Food, and before long could see that this treatment was proving of benefit. I am now feeling so much better that I can go out on the street without any difficulty, can go across the river and get about the same as myself. I sleep well at night, and am feeling much improved every day. I am pleased to be able to write you to tell you how good the Nerve Food has been to me. It has strengthened and built up my whole system. I am recommending it to everybody I find suffering from nervousness of any kind."

APPEAL TO DOMINION TO STAND BY UNION GOVT

Continued from Page One.

clear and eloquent exposition of the need for a national government. In a few words he put this need as follows: "A regenerating sense of the nation at peril, a clear vision of the national destinies involved, a compelling conviction that the future of this Dominion, of this Britannic Commonwealth, yea, of the world itself, is at stake." It was a unique address in a political campaign in that no political issue was mentioned.

ONLY ONE ISSUE.

"Not from the living alone," exclaimed Sir Robert, "but from the fallen also, comes to Canada, their beloved and benign mother, the call for help. Their appeal, whether from the quick or the dead, tells you more eloquently than words of mine that there is presently but one issue—no opposite issue, before the Canadian people.

"Shall Canada's effort in this war be maintained or withdrawn—Shall the gallant men, at the front, be supported or deserted? Such is the issue. I speak with all the earnestness of the deepest conviction. I appeal to one upon whom very trying responsibilities have been imposed during the past three years—responsibilities which would have been gladly laid aside but for the silent appeal from the trenches. The responsibility is now yours."

With the Union Government Sir Robert dealt at length. He admitted that in persisting in his Union negotiations he had been bitterly assailed by his own party, and declared that him that a Conservative victory was certain.

"I did not pause to consider the prospects of a party victory," said Sir Robert, amid cheers. "Its absolute certainty would not have altered the course I pursued which had at heart to give representation in the Government to all elements of our population that strove to maintain the national endeavor in this war."

As regards the referendum policy of Sir Wilfrid Laurier the Prime Minister expressed himself in emphatic terms. He declared that if a referendum were ordered it would be a year before any men could be brought under arms.

"This is a war," he said, "in which the last hundred thousand men may mean victory, the lack of them defeat. Make no mistake about it. The proposal for a referendum has but one meaning. It means that the Canadian forces at the front will be left to their fate, without support and without reinforcements. Whether or not that be the purpose is immaterial. That, beyond question, will be the result. It would be hailed with joy and mirth by the German high command."

DENOUNCES REFERENDUM

While dealing with the question of compulsory service Sir Robert brought out one point that has not been emphasized before. He declared that service already rendered by near kindred at the front would be taken into account in considering whether there should be exemption.

Demands for wage increases averaging forty-two per cent. are involved in a secret vote being taken this week by conductors and brakemen on all railroads in the United States.

INQUEST BEGINS TODAY

Lad Named Albert Beckwith Charged With Shooting John Wood, a Farmer—Victim a Young Man of 29—Supposed to be Accidental

At Actinolite this afternoon before Coroner Dr. Kindred an inquest to enquire into the circumstances regarding the fatal shooting of Mr. John Wood, a yeoman of Elsevir Township. Rumors are rife as to the actual facts of the case, but it is generally believed to have been an accident. The shooting was done by a boy named Albert Beckwith, aged 12 years. It appears that he latter was in company with a companion on the road in Johnson's settlement, Elsevir Township, when they were overtaken by Wood, who was in a buggy with his wife and child. The parties were engaged in a conversation, and a gun was in Beckwith's hand. He held the gun in such a position that the muzzle was close to Wood. The weapon was discharged, and the contents lodged in Wood's body with the result that death ensued within an hour. The victim of the deplorable affair was 29 years of age, and was deservedly popular in the community in which he resided.

Was Hardly Able To Walk, He Says

Gets About as Well as Anybody Since Tanlac Overcame His Rheumatism

"You can see for yourself how well I can use my limbs now, but before I began taking this Tanlac I was so crippled up with rheumatism it was difficult for me to walk at all." This statement was made by Edwin Morgan of 20 Cartwright street, London, in a conversation with the Tanlac representative at Standard Drug Company, Ltd., recently.

"The rheumatism," he continued, "was in both my legs and hurt me so bad I could hardly get up the doorsteps. In fact I could hardly walk at all, and besides this I had pains in my back and my kidneys were out of order all the time. I had very little appetite, was always tired and all the treatment and medicines I tried did me no good. Finally the rheumatism got me down, and when I first commenced on Tanlac I had been in bed for a week or more.

"No sir, I never did notice a change for the better until I got to taking Tanlac. Then I soon got up and about and the fact that I can now get about so well proves to me that Tanlac is remarkable. Why, I can run up a flight of stairs without any trouble and, today for the first time in a long time I have put in a full day's work. My limbs don't hurt me now, the pain is gone out of my back and my kidneys are in fine shape, I have a fine appetite and sleep good every night, and although I am sixty-eight years old I am beginning to feel almost like a young man again. All my misery is gone and at the rate I am taking on strength I'll soon be as robust as ever. I am just going to keep on my third bottle, and I will be glad to tell anyone how it is helping me."

Tanlac is sold in Belleville by Mortimer Bowe, in Trenton by J. H. Dickey, in Deseronto by W. J. Malley, in Stirling by J. S. Morton, in Frankford by W. H. Latimer, in Madoc by J. Will Vince, and in Marysville by T. J. McAlpine.

Hamilton Trial Ended Suddenly

Judge Took McRobbie Case From Jury and Discharged Prisoners

HAMILTON, Nov. 15.—The trial of Harry Smith, manager of the Crescent Oil Company; J. J. McAuliffe, real estate operator; Walter Smith, architect, and Herbert Aeschlimann, caretaker of the oil company's premises, on a charge of manslaughter in connection with the death of Dr. D. G. McRobbie, a well-known Hamilton physician, came to a sudden termination when Mr. Justice Latchford took the case from the jury and dismissed the charge, holding that no evidence had been produced to substantiate the charge.

TESTIFIES AGAINST DAN SHAY.

INDIANAPOLIS, Nov. 16.—Miss Elizabeth Brakhelt, cashier in the Hotel Cafe in which Dan Shay, formerly manager of the Kansas City and Milwaukee American Association baseball teams, shot and killed a negro waiter last May, testified today at Shay's trial on the charge of second degree murder. She said she did not hear the cause of the trouble, but asserted that the waiter did not attack Shay until after Shay had shot him.

The London Graphic reports that the Duke and Duchess of Marlborough, separated for many years, are now at Blenheim palace.

Miss St. Louie having been with the B. C. Co. from the time the plant was first erected in Trenton.

Election Orders To Enumerators

OTTAWA, Nov. 16—Returning officers throughout Canada are being instructed by the general returning officer, W. F. O'Connor, to telegraph the names, addresses and occupations of candidates nominated without delay to Ottawa. The object of the notification is that the names of candidates may be called overseas at once for the information of military electors in England, France and other countries. Under the Military Voters' Act soldiers and sailors may vote for the Government, the Opposition or independent candidates or they may vote for an individual by name. An effort is being made to inform as large a proportion as possible of the military voters abroad of the names of the candidates. In view of that fact, although legally, voting might commence at military or naval polls overseas on the day after nomination day, that is, on November 30, it is likely that the polling will not be in full swing for some days, perhaps not until December 20th.

Col. Charles W. Winter, formerly military secretary of the Department of Militia and Defence, has been selected to act as returning officer to take the votes of Canadian soldiers doing garrison duty in Bermuda.

Sitting of Enumerators.

The attention of returning officers has also drawn to the provision in the law that naturalized citizens, not disfranchised by the new Election Act, must present their naturalization papers in order to be placed on the voters' list by the enumerators. In polling sub-division in Ontario, except in cities and county and district towns of more than 5,000 population at the time of the last Dominion census, enumerators will on December 1st post up the lists which they have made. They will at the same time give notice where they will sit from December 7th to December 15th inclusively, except on Sunday, for two hours daily and all day polling day. They will complete the revision of lists on December 11th and certify them on December 18th. On December 18th, 12th, 14th and 15th the enumerators will sit to answer enquiries. On the day of polling they will sit all day for the purpose of hearing applications from persons which have not been previously placed on the list, and who claim the right to vote. In cities and county and district towns of 5,000 population and over the enumerators will post their lists on December 2nd. Revision of the lists will be in the hands of the Boards of Appeal. Appeals must be made within four days of the posting up of the enumerators' lists. That is December 6th will be the last day for giving notice of appeal. The hearing of the appeals will begin on December 7, and the last day of the sittings of the Boards of Appeal will be December 12.

THEY WAITED NAKED FOR OVER TWO HOURS

TORONTO, Nov. 16—Testimony of the conditions under which men were kept without any clothing on while waiting to be examined by the doctors at the armories was given by six young men in Class A2 when they were called to give evidence at the inquest to determine whether or not William A. Bartett came to his death as a result of that exposure.

All o the draftees were firm in their statements regarding the procedure at the examination.

When asked as to the length of time men were kept waiting without any clothing on to appear before the doctors, the witnesses declared that they had waited from one half to two hours.

The presence of the Prince of Wales at the Italian front has already had a most pleasant effect upon the Italians.

BEAUTIFUL ELSIE FERGUSON

Conceded to be one of the most beautiful women on the American stage today, Elsie Ferguson takes none of her charm on the screen in her first Artcraft picture, "Barbary Sheep" at the Palace theatre to-night and Saturday matinee and night. Miss Ferguson, it is expected, will become known as the most beautiful woman on the screen shortly after her appearance in her initial photoplay. Her rare personal charm is faithfully reproduced by the camera, and that her popularity of England will prove more than be disputed on the screen is readily anticipated.

The latest chapter of "The Great Secret" series and "Flirting Dogs," an amusing comedy featuring Polaa and Jabbs will also be screened.

TEXAS CONGRESS OF MOTHERS IS "POLLY" ADMIRER

Striking Endorsement of Goldwyn Production as Ideal for Children.

The Texas Congress of Mothers, and the permit teachers association, through their chairman, Mrs. R. A. Sadler, of Dallas, Texas, have endorsed "Polly of the Circus," the first of the beautiful Goldwyn productions, which is being screened at Griffin's to-night and Saturday matinee and night and of which Mae Marsh is the star, as a production suitable for children to see. This endorsement came to Miss Marsh in a personal letter from Mrs. Sadler, who highly approved of this kind of picture as one mothers should take their children to see.

The Texas Congress of Mothers is working for the betterment of motion pictures and seeking to get for that state pictures that are clean and wholesome. More than twenty thousand women are taking an active interest in this movement throughout the state, and this approval of "Polly of the Circus" is a tremendously significant step. "Polly of the Circus" is a filmplay that should appeal particularly to mothers and little children. There is not a doubtful situation in the whole of the story; not an unpleasant feature nor an unwholesome one.

FAIR HAWAII SHOWN IN "THE BIRD OF PAFADISE"

"The Bird of Paradise," Richard Walton Tully's super-melodrama of fair Hawaii, is announced for presentation at Griffin's Opera House next Monday night.

Despite it is now in its seventh year, there are no signs of waning interest with the theatre-going public. Each year a new face has appeared in the leading role. This season the part of Luana, the little Hawaiian princess, is to be enacted by Miss Celeste Scudder, one of the youngest leading women to portray this famous role. Miss Scudder gained recognition last season by her clever interpretation of the role of Frailty in "Experience", which won for her the much coveted part in which she will be seen in "The Bird of Paradise."

The popularity of this attraction is enhanced by the weird and beautiful music blended into the play by the five Hawaiian singers, whose singing is one of the fascinating charms of the drama.

Dead Artist Honored.

In memory of the late Tom Thompson, the distinguished young Canadian Artist, an imposing cairn has been erected in the wilds of Algonquin Park. It overlooks Canoe Lake, whose beauties the young artist made everlasting and is situated close to the spot where he met death by drowning last July. The memorial is 6½ feet from the native stone and a bronze plate with the following inscription is imbedded in the solid rock:

"To the memory of Tom Thompson, artist, woodsman and guide, who was drowned in Canoe Lake, July 8th, 1917.

"He lived humbly but passionately with the wild. It made him brother to all untamed things of nature. It gave him heart and revealed itself wonderfully to him. It sent him out from the woods, only to show these revelations through his art, and it took him to itself at last.

"His fellow artists and other friends and admirers join gladly in this tribute to his character and genius."

His body is buried at Owen Sound, Ontario, near where he was born, August, 1877.

Clear Spruce for Airplanes.

The increasing demand for clear spruce for the construction of airplanes and the sharp advance from $50 to $90 per thousand feet of this lumber have created great activity in the timber districts of Northern British Columbia, and especially on the Queen Charlotte Islands, where spruce is found in large quantities. A new sawmill is being erected by the Emerson Interests at Prince Rupert, B. C., the intention being to supply it with logs rafted across Queens Strait. The old sawmill plant at the mouth of the Skidegate River has been acquired by Vancouver capitalists, and its capacity will be increased to 75,000 feet per day. Improvements are being made at other sawmill properties that have either been idle or working on half time, and every effort is being made to push production as rapidly as possible. The cut of this lumber in this part and the one at Kbeyex River are expected to employ about 100 men each.

PREMIER'S BEST WISHES

The following was received this morning from Mr. Wesley Hearst, Minister of Agriculture for Ontario:—"Please convey my best wishes and deepest sympathy to your big conference for success. The urgent call of the Allies for food is another opportunity for Ontario to contribute to the success of the cause. Ontario has responded nobly to every call in the past, and I am confident will do so this time. I believe you are fully justified, on account of world shortage of meats, in emphasizing a strong market outlook which will make production profitable as well as patriotic. If the facts are laid fully before the people I am sure the response will be most satisfactory."

BOYS ACQUITTED

At the Assize sitting yesterday, Frank Wilson and Roy Sanford were acquitted of the charge of interfering with a switch and placing obstructions on the line of the Canadian Northern Railway, and thereby causing a wreck. The accused still have to be tried on a charge of tampering with a C. P. R. switch. This morning the young lad Lloyd was charged with assisting Fowler to those preferred against Wilson and Sanford, and pleaded not guilty. His trial was continued. Mr. Jones, Crown Prosecutor, and Messrs. W. C. Mikel, K.C., and A. Abott for the defence.

SAFEGUARD FOODSTUFFS IN TRANSIT, IS APPEAL MADE TO RAILWAYMEN

President Howard G. Kelley has issued to all Grand Trunk men in Canada and in the United States the following message:

"In the interest of conserving the foodstuffs of the country by the elimination of waste, it is urgently requested that employes of the carriers engaged in the transportation of foodstuffs, exercise such care and diligence as will minimize the damage to this class of freight when in carrier's custody for transportation and lessen the economic loss. I appeal to all Grand Trunk employes, particularly those engaged in station, yard and train service, as a patriotic duty to the Dominion to exercise such precaution in providing proper refrigeration, ventilation, protection from the weather, and care in loading, switch and train handling of carload and less than carload shipments of food products, as will eliminate waste. Observe the slogan, EFFICIENT, MAXIMUM SERVICE, and in so doing you will render an enduring service to your country. THE DOMINION IS COUNTING ON YOU."

GRAND TRUNK WORKERS WILL SUPPORT MEN FIGHTING AT FRONT

President Howard G. Kelley of the Grand Trunk is asking the railroad's employes to subscribe generously for Canada's Victory Loan campaign.

"More than three thousand Grand Trunk men are fighting with the Canadian forces overseas in view of the nature of their employment the majority of railway men cannot, however, secure their country in the battle line—the efficient operation of the railroads being indispensable to national defense. Those at home have a patriotic duty to perform that is important and urgent. They must provide the money to feed, clothe, equip and protect the fighting forces."

The Grand Trunk is assisting its workers to purchase the Victory Bonds, giving the employes the opportunity of spreading the payments over a period of ten months.

GIANT LOCOMOTIVE

MONTREAL, Nov. 16.—The Grand Trunk has just received delivery of six Mikado type locomotives from the Canadian Locomotive Company at Kingston, Ont. These giant engines have been placed in service on the Canadian lines of the railway. Nine additional locomotives are on order, five of these being for Western lines. Including tender each engine will weigh 441,800 lbs., and can haul a train of six thousand tons. They was of the same name.

Dynamiters Tell The Whole Story

MONTREAL, Nov. 16.—Joseph Tremblay, who is now telling all he knows of the machinations of the alleged conspirators in the same manner as those who refused to have anything to say at the preliminary examination, after having formally confessed, on the ground that by telling anything he would jeopardize the lives of his family. Counsel for Meunete and Lalumiere followed up Tremblay's announced decision to turn King's evidence by stating that his charges were true and that they would also take the stand and tell everything. A session was produced when Tremblay stated in his evidence that the Valcartier now in the prison docks was not the Wishmister, who offered to direct the dynamiters to Lord Atholstan's residence at all, but that he approximately $50,000 each, an advance of fifty per cent. over pre-war prices.

MUSIC MART

"A life a pleasure when one has an instrument like Grafonola."—Scattering the gladness without care. The ideal gift anyone to interest himself (herself) own enjoyment.

SUCH is the impressionistic conception one had of Geo. Brancombe's three song recitations continue to rouse those of the famed "green fiddle," although she is mated and nested and filled, Care.

Said the music critic, Dr. J. D. Logan in his article published recently, entitled "Canadian Creative Composers": "Canada has four such—Calixa Lavallee, Clarence Lucas, Healey Octavius Forsyth, and Geo. Brancombe. Another writer on musical matters whose judgment may be trusted has placed this composer in the same relation to lyrical Canada which Liza Lehmann bears to England and Chaminade to France. But the final proof of this power is the fact that the song compositions of the new composer are appearing on many of the most important programmes that artists both of America and of Europe.

In private life Geo. Brancombe is Mr. Jean Tenny, and his "local habitation" is a certain "Hyacinth Court" on the Hudson, in the neighborhood of Riverside Drive in New York City. An enchanted land it sounds, does it not, with sobriquets, high-up, an open window, giving forth songs?

The atmosphere surrounding the artist is certainly to the last degree romantic. It constrained a presumably impervious male to write about the lady to label himself, in the act, as a gallant by the unequivocal protest that he spoke as a critic, and not as a gallant in declaring Geo. Brancombe "fancy as among a thousand," also "an orange in her set and the glory of her proud Canadian homeland." He writes about to go creakingly down on his knee-caps. And he might have done worse as worshipper of realms; for her songs have floated naturally forth from the heart of Geo. Brancombe and have found the old world's heart and set it beating.

Canada claims this brilliant musician, who has lived a considerable portion of her life in Europe and in the United States, by reason of her having been born in Picton, Ontario. She manifested her talent early, and while she was distinction in Chicago in her studies there directed by Emilio Sarawski, she already had made a professional impression in the musical realities of both pianist and teacher. But the desire to create inflamed the young musician, and to satisfy it ultimately she went to study in Europe, where her masters were famous in the city of Berlin were the celebrated Humperdinck and Rudolph Gans. Her ardor in the study abroad was inexhaustible, and she had endeavor to master the difficult technique of musical form and has produced numbers of original songsettings and tone-poems for various instruments, and of these many reveal a most lovable beauty.

"Katherine Hale," the writer, also music critic, has written very intelligently of Geo. Brancombe as follows:

"I came upon her work by way of a quest for sources of Canadian songs, and after weeks of study in the French-Canadian lore was fascinated to spend a good deal of time interesting than the past. Some one announced that Geo. Brancombe was to give a recital in Toronto and, armed in ignorance, I went to hear her. The programme was composed entirely of her work, interpreted by a quartette of singers with the composer at the piano. The words of Alice—Home of the Soul, Beautiful isle of Somewhere

Chas. S. Clapp

Major Forest, Ottawa's Clerk of the Crown in Chancery, is making trial arrangements in Ottawa before leaving for England, where he will take in hand the work of provision for taking the votes of all Canadian soldiers resident in the overseas dominions. Presiding officers have to be appointed, polling places selected, and a score of details arranged in connection with the taking and counting of the overseas vote.

The vote will be absentee, the naval and military vote, both in Canada and overseas, having necessitated the prohibition that has been law, to determine the constituency in which the vote shall go. In the event of the voter not designating any such constituency, the vote will be given by name.

The government rules on which the military vote will be taken are:—

(1) If the elector can indicate the name of the electoral district in which he last continuously resided for at least four months of the two months preceding his enlistment or appointment, his vote goes to that electoral district.

(2) If he cannot name an electoral district, but can name a place within an electoral district at which he resided for the period mentioned, his vote will be applied to the electoral district in which the place is situated.

(3) If he cannot specify an electoral district or place of residence during the time indicated, but can name the electoral district in the electoral district in which he has resided at some other time, his vote will go to the constituency specified.

(4) If, by reason of residence in Canada, or from any other reason, the elector is unable to indicate any particular constituency, then he may stipulate to which electoral district in Canada his vote shall be applied.

(5) Returning officers or other military or naval electors who, if they were on active service, would be entitled to vote at naval or military polls, may overseas civilians in Canada, whose names are not on the voters' list. Production of the discharge certificate will be necessary in the case of a soldier or sailor, or equivalent documents in the case of an officer.

A further unusual feature will mark the coming elections. Each candidate, to secure military votes, must be nominated by the leader of his party. In the case of the Government party the nomination will be by the Prime Minister; in the case of the leader of the Opposition; in the case of an independent or other party, the recognized leader of that party. Recognition must be made within five days after the nomination papers of names of recognized candidates have been published in the Canada Gazette. The Canada Gazette will thus indicate the party standing of every candidate.

Doomed Pack of Salmon

With the ten-o'clock summer salmon on the packing list as much as is certain there will be a large stop in the catch for that district, which in the past has packed about 100,000 of the total pack of British Columbia. Reviews the pack of 54,000 cases in the estimate of the pack to date, according to the chief fishery officer of fisheries for British Columbia.

The fall spring salmon came about August 25, and there are now on the fall run of sockeyes follows. This may add to the season's pack to some extent, but it is scarcely likely that more than 100,000 cases will be packed.

Sockeyes used to be a close season from August 25 to September, but the fishing goes on until October 1 for sockeye, and November 15 for cohoe season starts on November 15.

The pack of the Fraser salmon pack amounted to 106,440 cases, and a glance at the figures with the present figures will equal it.

The pack of 1913 was "big run," and in the last similar year, 1913, there were 732,059 cases packed on the Fraser River, or 25,000 cases more than half of the total pack of 2,353,000 cases packed in the province of British Columbia.

The record pack on the Fraser River for the past ten years has been 1901, 1,048,000; 1905, 1,039,000; 1909, 1,026,000; 1913, 732,059; 1911, 1,015,000; 1912, 1,039,000; 1909, 1,026,000; 1908, 1,039,000; 1907, 1,015,000; 1906, 1,039,000; 1905, 1,039,000; 1904, 1,039,000; 1903, 1,039,000; 1902, 1,039,000; 1901, 1,039,000; 1900, 1,039,000; 1899, 1,039,000; 1898, 1,039,000; 1897, 1,039,000; 1896, 1,039,000; 1895, 1,039,000; 1894, 1,039,000; 1893, 1,039,000; 1892, 1,039,000; 1891, 1,039,000; 1890, 1,039,000; 1889, 1,039,000; 1888, 1,039,000; 1887, 1,039,000;

SLIGHT WITHDRAWALS OF FORCES OF ITALIANS

Italy's Troops Hold Major Portion of Piave Front—Regains Most of Attacks of Teutons—British and French Troops Save Not Reached Defense Line

LONDON, Nov. 16.—While the Italians continue to hold to most of the new line along the Piave River from the Adriatic Sea to the region of Feltre, and through the northern hills westward from Feltre to Lake Garda, they again have been compelled to give ground in both sectors to the Teutonic allied armies. Upon the shoulders of the Italians alone for several days must rest the security of the Piave line and of historic Venice, for the information has been vouchsafed by Major-General Maurice, chief director of military operations at the British war office, that it will be some days yet before British and French fighting forces can be placed in the field to reinforce the Italians.

Meanwhile the enemy is striving to force passages of the Piave at various points, and again has been successful on the southern reaches in crossing the stream at Grisolfo, four miles distant from its mouth, and some 32 miles northeast of Venice. Here, however, in the swampy regions, the Teutons are being held by the Italians.

BRITISH TROOPS TAKE 1100 TURKISH PRISONERS

Allenby's Forces Drive Enemy Back Seven Miles in Palestine Theatre—British Troops Now Near Junction on Railway Route to Jerusalem

LONDON, Nov. 16.—British forces in Palestine Tuesday attacked the new Turkish positions in Palestine and drove back the enemy a distance of seven miles, it was announced by Major-General F. B. Maurice, chief director of military operations at the war office.

The Turkish force confronting Gen. Allenby, the British commander, has now lost half its entire effectives, Gen. Maurice continued. He said the number of prisoners and booty taken in yesterday's attack had not bet been reported, but that one cavalry division, which was only a small part of the force engaged, took 1100 prisoners, two guns and 14 machine guns. Gen. Maurice said the British front in Palestine now ran along the Wadi Surar, which was the Biblical brook Kedron. This position immediately covers Jaffa, and the railway junction on the road to Jerusalem.

"The keynote of our operations in the east," said Gen. Maurice, "is the defeat of the plans for the capture of Bagdad. General Maude has destroyed the munitions piled up for this enterprise.

"Meanwhile General Allenby has been striking a powerful blow on the Palestine front. The forces opposing Allenby have been very roughly handled. They have lost half of their effectives and must be reinforced from other fronts, while Gen. Falkenhayn has been preparing at Aleppo for the Bagdad attack."

FIRST ARREST UNDER M. S. A.

A Number Who Failed to Report are now Surrendering to Authorities

OTTAWA, Ont., Nov. 16.—Harold Morris, 21 years of age, and an employe of the Labels Patent branch of the Interior Department, is the first resident of the capital to be charged with unlawful desertion under the Military Service Act. He appeared in the police court in a non-penitent mood. He was remanded for a week. When arrested last night Morris vehemently declared that the Government had no right to decide whether or not he should become a soldier.

FARMER FATALLY BURNED

Thresher Engine Falls on Him From Road Embankment

STRATFORD, Nov. 16—John Green, aged 41, a prominent Downie farmer, met with an accident Tuesday that resulted in his death to-day. Deceased with two brothers-in-law, John and George Schneider, was returning a threshing engine to the Macdonald Thresher Company, Stratford. They stopped to take water at a culvert and in doing so stopped too close to the edge of the bank and the heavy engine toppled over backwards, pinning Mr. Green between one of the wheels and the running board. The lower part of the body was terribly mangled, while he was also severely scalded about the face and body. After working half an hour to extricate the unfortunate man, he was rushed to the Stratford Hospital, where an effort was made to save his life, but he only lived a few hours after reaching town.

HINDUS COMPLAIN

VANCOUVER, Nov. 16.—Claiming that they had not been accorded "full rights as real citizens" of Canada, and that they had been "brutally deprived of the lawful and natural rights of humanity," 465 of the Hindus in this province have sought to be exempted from compulsory military service, a deputation representing the Hindus at Vancouver called on Provincial Registrar Lennie under the Military Service Act. The deputation presented a petition emphasizing their loyalty and setting out their grievances—they had no right to vote; their wives and children were refused entrance to the country; they were not being treated as human beings.

Registrar Lennie told the deputation he could not alter the law on their behalf and they must report for service if in class one. Nearly one hundred men will be affected of the 600 or 700 Hindus here.

SAVED A LIFE

Miss Dorothy Alger, a girl of fifteen, and member of the Girl Guides in Stirling, has been given the bronze medal of the Royal Canadian Humane Society for the rescue of Mrs. H. Green from drowning in the Trent River in August last. Mr. T. E. Butler Yeats presented the medal, and Mrs. Green, who is the wife of Major Green, pinned the honor upon her rescuer. Miss Alger is the daughter of Col. Alger, who went overseas with the 80th Battalion, and is now in France attached to the Governor-General's Body Guard.

NEARLY HALF A TON OF EXPLOSIVES STOLEN

TORONTO, Nov. 15.—The magazine of the Don Valley Brick Works, a cave in a hillside and lined with brick, steel and cement, was broken into during the night and eighteen boxes of dualine, an explosive used to blast clay, were stolen. The thieves pried the door open with an axe and pick and tore the door away. After taking out the explosive they built a fire inside the place.

The boxes weighed 50 pounds each and how the men got eighteen away is a mystery. The watchman was at the plant 100 yards away. The works are in the Don Valley, half a mile above the viaduct.

The police have notified all munition plants and other works where war contracts are being carried on to keep a closer guard on their premises, and ask that every citizen cooperate in a watch for strangers prowling about.

VENICE EVACUATED

VENICE, Nov. 16.—The evacuation of Venice is almost complete. Many art treasures were so numerous that an army of workmen was required to transport them. The great pictures, the bronze horses, the statues and frescos and similar art treasures were transported easily, being removed at the beginning of the war.

The present removal of art treasures included the heavier pieces which previously had been hidden in cellars.

HASTENS TO FORM MINISTRY

PARIS, Nov. 16.—The Painleve ministry was defeated by a direct vote in the chamber of deputies today and later resigned.

The ministerial crisis comes on the eve of the inter-allied conference here and effort will be made to settle it quickly.

The Feathers of the White Plume

M all and Empire."

In the election campaign of 1911 Sir Wilfrid Laurier pointed to one of his silvery locks, called it his "White Plume," and bade his hearers follow it. The White Plume may now suggest to some friends the White Feather as a fitting mark of the kind of leadership he is offering. If he had been the man of courage and principle a political leader ought to be he would not have shirked his duty in Quebec and left to his handful of ministers of British connection in that Province. His duty was to have gone boldly among the French-Canadian people and thrown all his powers of persuasion into the recruiting movement that lagged so miserably there. He was afraid to do that. He was afraid of the opposition of the sedition-mongers. He was afraid of Bourassa, and has bowed to the terms of that more than disloyal demagogue. And he writhes in shame of English-speaking Canada. But his fear there does not lead him to bend to the will of English-speaking Canada. He could not do that and at the same time be the faithful servant of the Quebec Soviet. His method with the people of English-speaking Canada is to feel sympathetic to them, but to seem in some degree to do so. What is the reason for this difference of procedure? The reason is that he regards the English-speaking people as dupes. He considers that he has enough Frenchmen here to assist him in hum-hugging the voters as there are enough incendiaries in Quebec to keep the people there incited against conscription. The whole conspiracy existing in the Canadian soldiers at the front is in the highest degree infamous, and if there is in English-speaking Canadians at home a spark of the spirit their fighting brethren are showing abroad, they will not let a supporter of Sir Wilfrid Laurier get a seat on this side of the Ottawa River. His aiders and abettors in this Province ought to be made to feel that in clinging to him they are separating themselves from the men of all parties who stand for stalwart Canadianism.

BEATEN, LAWYER ENTERS SUIT

QUEBEC, Nov. 16.—Aime Dion, lawyer, of Quebec city, one of the Conservatives that were assaulted Sunday by the populace of Dorchester county, when the people refused to hear Hon. Mr. Sevigny, to-day entered action against two citizens of Dorchester county for assault. He claims damages from Maurice Roy of St. Anselme and from Cleophas Bourn, farmer, of St. Claire. Mr. Dion was badly beaten about the head and chased out of town over the railway track, and he claims the two defendants were among his assailants.

ENLIST FOR FEAR OF ARREST

MONTREAL, Nov. 16.—The first conscript under the Military Service Act in this district called at the militiary headquarters yesterday, the majority of them being English-speaking men, who had not registered, and had become alarmed lest they might be arrested. There were fifty of them, but only about half a dozen were put in Class A, and these were provided with uniforms at No. 1 Depot Battalion, commanded by Lt.-Col. M. A. Pitche.

Year's Delay In Referendum

HALIFAX, N.S., Nov. 16.—In a speech in which he contended that the coming election was a test of what Canada thought of the war and the necessity for the troops of the Dominion remaining in it, and which was largely watched by Germany, Sir Robert Borden, Prime Minister of Canada, inaugurated his tour of the Maritime Provinces at a great meeting in Market Hall last evening.

Sir Robert announced that he considered the immediate enforcement of the Military Service Act, the only method by which the imperatively necessary reinforcements for the Canadian troops in France could be supplied, and he contended that the referendum proposal of Sir Wilfrid Laurier, if carried out, would delay the arrival of support for a year, something that would be hailed by the German High Command with great joy and not a little mirth.

Discussing Union Government, Sir Robert intimated that in his effort to give representation to all elements of the population that strove to maintain the national endeavor in the war, he had offered a Cabinet position to three Laurel French-Canadians, who had declined it. The Premier was given a warm reception. Between four and five thousand persons attended the meeting, including many women. The chair was taken by John W. Regan. Hon. A. K. Maclean, who followed the Prime Minister, defended his decision to enter the Union Cabinet as a Minister without portfolio.

There was a large attendance at Barrie Presbytery when Prof. Law, of Knox College, gave an address on "The Church and Its Relation to the War."

Everyone Sympathized With Her—She could not Live!

"She was so severely burned," said Mrs. Archie Brukm of West Northfield, N.S., of her little daughter, whose clothes caught fire while she was playing at a bon-fire.

"As soon as the accident occurred I spread Zam-Buk on cotton cloths and applied it to the burns. At first she suffered agonies, but soon Zam-Buk began to relieve her, and gradually it drew out all the pain and soreness. We persevered with the balm, and it completely healed the burns."

Although Zam-Buk is so splendid for such serious burns as this, it is just as necessary for the little burns which are of far more frequent occurrence—the burns sustained while ironing, opening the oven door, handling a stove lid, striking a match, or a scald from the kettle or boiling fat.

As soon as the injury is sustained smear on a little Zam-Buk. You will be amazed how quickly the pain disappears and healing begins. Every housekeeper should keep a box on hand for emergencies.

For cuts, bruises, sore lips, chapped hands and chilblains Zam-Buk is indispensable, and nothing can equal its healing power in cases of eczema, ringworm, scalp sores, ulcers, abscesses, bad legs, boils, pimples, old sores, blood-poisoning and piles. Hindy Fails To Move Canadians

Canadian Headquarters in France, via London, Nov. 16.—Hindenburg has failed. The boasted attack which was to have swept our troops off Passchendaele Ridge was launched late yesterday afternoon.

From Vindictive Crossroads to Varation Farm the enemy advanced in force, only to be met by the terrific fire of our artillery, causing him heavy losses every step of the advance. Those of the enemy who survived our barrage were caught by rifle and machine gun fire and repulsed all along the line by our infantry.

As he has failed to blast our men out of the position, so the enemy has failed to drive them out. Canada is secure on the ridge. Our troops have been daily strengthening the forward line, while our guns have been advancing to new positions.

Prepared for yesterday's attack our artillery and infantry co-operated in the decisive defeat of picked fighting troops of the Central Empires.

OUR GUNS BLASTING FOE'S

Behind are Mosselmarkt, Meetcheele, Bellevue Crest farm, huge mounds of concrete that were enemy pill-boxes, blasted trees, mud and desolation. Enemy shells are blasting Passchendaele, our guns are blasting his, while our men are toiling in the mud. From Passchendaele to Ypres, mist hangs over the land, veiling the desolation. Our men have won their way through the valley of the shadow, that is the salient to the heights that represent domination, the crown of their great achievement.

The dead of the Empire lie in the valley, the dead of three years, our dead of Langemarck, St. Julien, of yesterday and of today. Because of them, the living who fought with them, and followed on after them, the ridge is ours. The tragedy of low graves is relieved by the victory of high lines. For the triumph that is Passchendaele is shared by us all. The shadow over the salient is lifting. Up to the ridge and on to the ridge the Canadian corps stormed its way in a remarkable series of battles.

Half a dozen of them who were found fit for duty and declared exemption were handed over to the depot battalion commanders at Exhibition Camp.

FIRST CEMENT BOAT

Slight Hitches Delay the Launching Proceedings at Montreal

MONTREAL, Nov. 16.—Montrealers today got their first sight of a cement boat. The Montreal Drydock & Ship Repairing Company started eight weeks ago to pour cement into the frame of a boat intended for ocean trade. To-day the boat was to be launched, and a large crowd gathered to see the concrete ship take the water. But unfortunately some hitches occurred in the launching proceedings and it will be a few days before the boat is afloat. The innovation looks like a real boat. It is 136 feet long, has a draft of eleven feet, and will carry a cargo of about four hundred tons. The hull is built of steel-reinforced concrete, and gives every appearance of being a seaworthy, steady, reliable craft. The owners state that cement boats can be built in seven to eight weeks, and at a much lower cost than either wooden or steel vessels. Mr. Wm. Rutherford, one of Montreal's big business men, and a former Mayor of Westmount, is President of the company building the boat. He states that if this venture proves satisfactory, and it gives every evidence of being that, many similar boats will be rushed to completion and put into service.

The body of Mrs. Thomas Powell was found in Lake Timiskaming, near the Salisbury shipyard. She left her home Sunday morning saying she was going for a walk.

PROF. W. J. MICKLE IS DEAD

ALLANDALE, Nov. 15.—Professor William Julius Mickle, an authority on general paralysis of the insane, died here this morning at 9 o'clock, aged 70 years.

Professor Mickle was born in Guelph, and was educated at the Model school, later going to Toronto University, where he was gold medallist in 1884. He had a very distinguished course at the University and later went to England, and was made a Fellow of the Royal College of Surgeons of London. He was also made lecturer at London University and Middlesex College.

At the meeting of the British Medical Association in Toronto in 1906 he was made chairman of the psychological section and held this for eight years.

At the time of the outbreak of war Prof. Mickle was living in England. He was a friend of Lord Kitchener.

Prof. Mickle had one sister, Mrs. Bell, wife of Mr. Bell of the Geological Survey at Ottawa, and a brother, Henry Mickle, a Toronto lawyer.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

The sole head of a family, or any male over 18 years old, who was at the commencement of the war and has since continued to be a British subject, intending to settle on a homestead or pre-emption must appear in person at the Dominion Land Office or Sub-Agency for the district. Entry by proxy may be made on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon and cultivation of land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

A settler who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price $3 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth $300.

Holder of entry may count time of enlistment as time spent on homestead in case of subsequent residence duties under the Homestead Act.

Before making application for patent, settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so. If not convenient to visit the Dominion Land Office for information, write the Secretary of the Department of the Interior, Ottawa, or any Dominion Land Agent or Sub-Agent for information as to how to obtain homesteads, timber limits, coal lands, mineral claims, etc.

LAURIER'S MANIFESTO DISSECTED BY LIBERAL

H.F. Gadsby, Noted For His Pronounced Liberal Views and Writings, Riddles Laurier Proclamation — Sir Wilfrid Trying To Ride a Dead Horse, Says Gadsby

OTTAWA, November 16.—Sir Wilfrid Laurier makes a game fight, age and political condition considered, but he didn't like a beaten man. Sir Wilfrid's manifesto says so plain as day. "Who's the man?" Somehow or other it sounds like the pale echo of the Liberal platform of 1905 which Sir Wilfrid swept for fifteen years and more could tell who.

Sir Wilfrid's manifesto shows that his main reliance is on the anti-conscription vote. If returned he will repeal the Military Service Act and "submit to the people a measure for voluntary recruiting." My own opinion is that those who make conscription the main issue, whether for or against, put the emphasis in the wrong place and that the real function of union government is to cut out party and shape our domestic politics with a view to reconstruction. Sir Wilfrid's outlook is Quaint. But these matters can be threshed better after the election has been won and union government has shaken down to its work of accomplishing the greatest good for the greatest number, and to hell with the Interests.

LAURIER RIDES A DEAD HORSE.

The operation of the Military Service Act proves most conclusively that voluntary recruiting is a dead horse. And you can't ride to victory on a dead horse—even when Sir Wilfrid is the rider. A dead horse cannot get up enough action to stir the White Plume and make it behave like an ordinary steed.

And yet to defeat conscription would be a dirty trick—a breach of faith with our brave soldiers at the front to whom we would be saying "We got you into this hole. Now get yourselves out of it."

Sir Wilfrid says he will repeal the Military Service Act while he gives voluntary recruiting another chance. This is as much as to say that he will do nothing more for the war for the next six months. At least that is what it amounts to when he says he will take a referendum which is sure to put conscription out of business. Conscription is our only means of raising men and, conscription defeated, only voluntary recruiting is left. The conscription figures show what a fat chance voluntary recruiting would have especially when tried out by a French-Canadian Premier with a hike-some Quebec as his chief support. If Sir Wilfrid's programme wins out then our brave boys are stuck fast and for keeps in the Flanders mud, and they die there before anything is done to get them out.

HEAD OFFICE IN QUEBEC.

The general election is not a great deal more than conscription. For instance whether this British country, which has so nobly done its bit for freedom and the Mother Land, is to remain a British country and to have a British government or is to become an independent republic with the head office in Quebec. Incidentally Mr. Bourassa in his Devoir is making a lot of noise for Union Government right now. The incorrigible Henri has taken the side of the Kaiser, whom he recognizes as the enemy of Anglo-Saxon domination, a thing to which Mr. Bourassa is bitterly opposed himself. Mr. Bourassa is now fighting Sir Wilfrid's battle, which is perhaps more than Sir Wilfrid expected four months ago when he refused to go into a Union Government.

Union Government may reasonably count on the votes of three hundred and fifty thousand soldiers and overseas, also on the votes of five hundred thousand women who are privileged to lend their men folk to the service of King and country, also on the votes of staunch patriots the Dominion over who say that Canada must not put her hand to the plough and then turn back. There will be enough votes to win.

CAN'T AFFORD PARTY GOVERNMENT.

Union Government is a partnership of thrift and fortitude. It is the port from all sensible persons who believe that Canada is going to pave things pretty close to the bone for the next ten years. An intelligent electorate will watch public affairs closely and any government that tries to put a raw one over will get short shrift. Party government is a luxury we can no longer afford. Jobs in the civil service where no jobs were before, jobs made as party rewards for party heelers—these we must forego as too expensive. Paying two prices to government contractors because the contractors are party friends—we must cut that out too. The old party system of bonuses for the friends of the Ins and bumps for the friends of the Outs is too costly for these hard times. From now on the man who has service or goods to sell to his country must do it on merit.

THE EMPTY CUPBOARD.

Union Government is an experiment in altruism which is worthy of supply government that can look an empty cupboard in the face and take the proper, stern measures to fill it without fear or favor to anybody. Union Government—if it acts up to its opportunity, and I have no reason to doubt that it will—must squeeze every dollar of revenue for every cent of value there is in it. A partisanship—as I said—of thrift and fortitude. That is the only way we can meet our troubles. Indeed that is the chief reason why all good patriots should stand behind Union Government. It means courage, straight thinking and money saved. And here is the paradox of all our national finance for the next ten years—if we don't save money we won't have any to save. Only Union Government can do the trick.

A Blow at Quebec

Montreal Star.

Organized thuggery is a rusty blunderbuss, much more likely to injure the man who directs it than the object aimed at.

The roughs who on Sunday last at St. Anselme bowled at and stoned Honorable Albert Sevigny and knocked down and kicked in the face the two or three individuals have enough to criticise their action were not, as they perhaps imagined, doing the cause for which Mr. Sevigny stood the least harm. They prevented the speaker from stating his case in a free, fair way, and succeeded by force of numbers in establishing a little reign of terror in a quiet village for a few hours. It would be interesting to know just what the people of Dorchester County think of the whole performance, to estimate just how many voters with sense enough to be ashamed of their own cowardice will vote for the Minister who might not otherwise have done so.

This, however, is the least important consideration where Sunday's rowdyism is concerned. The Quebec stone-throwers have no doubt—if they have attended many public meetings—joined in protests against the idea of an "isolated" Quebec. Their action of Sunday was the sort of thing best calculated to bring about this very condition which we would all give much to prevent. The men who imported these rowdies into St. Anselme last Sunday have done our Province an injury which they may live to regret.

Greater Love Hath No Man Than This

In the files of the London Gazette, where it is set forth with all the ponderousness of official language, is a story of self-sacrifice that stands out pre-eminently, even in this age of deeds of supreme courage and super-chivalry.

The record is contained in the announcement of the award of the Albert Medal of the First Class to Lance-Corporal Charles Henry Anderson, late of the 7-14th Battalion of the London Regiment, who lost his life in France in November last. The official narrative is as follows:—On November 26, 1916, Lance-Corporal Anderson was in a hut in France, with eleven other men, when, accidentally, the safety-pin was withdrawn from a bomb. In the semi-darkness he shouted a warning to the men, rushed to the door, and endeavored to open it so as to throw the bomb into a field.

Failing to do this, when he judged that the five seconds during which the fuse was timed to burn had elapsed, he held the bomb as close to his body as possible with both hands in order to screen the other men in the hut. Anderson himself and one other man were mortally wounded by the explosion, and five men were injured. The remaining five escaped unhurt. Anderson sacrificed his life to save his comrades.

When history opens the purple testament of bleeding war . . . .

every man and woman who has played a part will bear a record.

Your name may not be writ among those of the immortals—

But for honour's sake—for the sake of men like Anderson—see to it that it is writ on the Scroll with those who at least placed their money at the service of their country.

Shall it be said that Canada spares not her sons from the sacrifice of death, yet withholds her dollars needed to give them victory?

FRENCH CRISIS CAME AT A VERY BAD TIME

PARIS, Nov. 16.—The Painleve Ministry was defeated by a direct vote in the Chamber of Deputies to-day after midnight. This is the first time such action has been taken by the Chamber since the beginning of the war, as up to the present it has been a point of honor with many deputies not to vote against the Government, but to express criticism by abstaining from recording their votes.

Strong dissatisfaction with the Government's handling of the Bolo Pasha affair is believed to be the motive which changed the passive discontent to active opposition. Two other things thought to have a part in the downfall of the Painleve Cabinet were the Premier's statement regarding M. Malvy, the former Minister of the Interior, and the Bunco steering the prosecution of d'Anieu Franchise, edited by Leon Daudet, the accuser of M. Malvy.

The Ministerial crisis comes on the eve of the inter-allied conference here and every effort will be made to settle it quickly. President Poincare will begin consultations with political leaders to-morrow morning.

The Painleve Ministry had only been in power forty-eight days. The vote of lack of confidence was 377 to 176.

DESERTERS HAVE CHANCE TO REGISTER

No Action Will be Taken if They Report at Once

MONTREAL, Nov. 16.—Up to noon to-day 65,181 registrations under the Military Service Act had been entered up by Registrar Godin. This represents an advance of 9,182 over the total given out at Ottawa last night and means that Montreal is now less than five thousand short of the allotted 70,000 class one man in this military district. As returns are still coming in it is evident that the authorities will have to deal with very few cases of desertion. General Wilson, commanding the district was to-day informed in order to give the deserters one more chance. If they report immediately no action will be taken against them.

"Father, my son; thou shalt not go! she cried, pleadingly. "Thou shalt not go now less than ever, for it is to bring my worst foe. Sly art that I have suffered for thy sake, the night that I hate so! awake by thee when thou must kill me! Jehovah bless thee for this thy sacrifice! Jehovah bless thee and keep thee! Jehovah make His face to shine upon thee and be gracious unto thee! Jehovah lift up His countenance upon thee and give thee peace!"

Jether, benefitted at this display of affection, pressed his head against his mother's tearful cheek, roughly pulled himself away from her outstretched hands, and with an important gesture to his utmost power. Without in the least attempting to do as she desired, he caught the terrified mother to full fervent, and with a cry of anguish to her son, she fell upon the bosom of the earth.

Jether then strode to him already dead. "Thou art a bad son!" he chastised. Then he struck thy mother to the heart. Thou shalt have thy portion, but never shalt thou look upon my

JESSE, FATHER OF JETHER.

face again. Thou shalt have thy portion, and may the gold burn in thy hands as thy heart burns in thy breast!"

Angrily he turned and went into the house. This climaxed Jether's fury.

Huldah, supported by the terrified Naomi, cast an appealing glance at the boy.

"Then shalt not go without thy mother's blessing!" she cried. "Oh, my boy, thou didst not mean it! Thou shalt not! Father's gold will buy thee what then remains for thy journey! but it cannot buy thee what will remind thee of our love for thee. Here, take this ring, Jether, and wear it for my sake. For the first time it now leaves my finger since my father placed it there. I shall be in my grave before heaven then hast it then were I buried."

"My mother," spoke Jether tenderly, as he kissed the ring, "I cannot take thy ring from my finger.

"And thou will not leave with anger in thy heart toward God," pleaded Huldah.

"He will slay me truly. Let him slay me! Jether replied.

"And thy cousin Naomi—she loves thee dearly!"

"I will send her a fine present from the city," he answered. Naomi turned away sobbing.

Shiloh came from the house, carrying a bag of sheepskin with a strap which passed over his shoulder. He set the bag upon the ground between his feet and looked around to see the gruesome eyes of the waiting Tola glare down brightly.

"Shiloh, my son, thou dids this bag of leather," Count Ki growled Shiloh, in the most cruel treatment of Jesse, at the hands of the Philistines. "Thou hast placed forward eagerly, threw the bag indignantly at his feet, and said excitedly: "His sword is truer than my own. Go, my son, and back to your mother, and in her home shalt thou find the will forget his anger, for I shall slay him with his own sword!"

"Accept thou but come back thyself, my son," pleaded the mother. But fired and clashing his sword on the ground the eagerly.

Jether put them angrily with my gold, mother. I must away."

Huldah, with a gesture of pain around her neck and approached the boy.

"I shall always think of thee, Jether," she said tenderly, "and pray for thee."

The boy stood the scarf around his neck and kissed her forehead.

"Who takes this from me shall first take my life!" he cried. "One day, however, I shall return to you. Then I will bring a present for you, and a silver coin, dismissed the Nubian, and the gates were alone.

Jether knelt before Huldah. Her hands trembled as she invoked the Almighty.

"Oh, Lord God, grant thou unto my boy. Cause the light of thy countenance to shine upon him and give him peace. And bring—oh, bring him back to me."

She paused. Her eyes filled with tears and she embraced him. Then she held in herself to Naomi and sprang forward into the path of the high priest of Jesse, where already the evil Tola awaited him. He pointed to the sword which hung unobtrusively as the two women wept in each other's arms.

"Jerusalem!"

E. Guss Porter is the Win-the-War Candidate

Unanimously Nominated at Marmora

LARGELY ATTENDED, REPRESENTATIVE AND ENTHUSIASTIC CONVENTION YESTERDAY AT MARMORA ENDORSES E. GUSS PORTER, K.C., M.P., AS THE UNION GOVERNMENT CANDIDATE FOR WEST HASTINGS—NO OTHER NAME MENTIONED AND PERFECT HARMONY MANIFESTED—INSPIRING ADDRESS OF THE CANDIDATE — ENTHUSIASM OF THE REPRESENTATIVES PRESENT FROM EVERY SECTION OF THE CONSTITUENCY A HAPPY AUGURY OF SUCCESS — WEST HASTINGS WILL UPHOLD UNION NON-PARTIZAN WIN-THE-WAR GOVERNMENT IN DECISIVE MANNER — LIBERALS AND CONSERVATIVES TAKE PART IN THE CONVENTION.

At a large, representative and enthusiastic convention held in the village of Marmora yesterday afternoon, Mr. E. G. Porter, K.C., the popular representative for West Hastings in the Parliament recently dissolved, was unanimously chosen as the Union Government candidate for the constituency. The gathering was thoroughly representative, as every municipality in the extensive riding was represented. When the meeting was called to order every available seat in the spacious hall was filled and a number were compelled to stand. A few ladies graced the gathering by their appearance and evidently took a deep interest in the proceedings and addresses given. The popularity of Mr. Porter was attested to, by the fact that when the nomination of candidates was proposed, his name only was mentioned, although every opportunity was given by the president for any person present to rise to place in nomination another name if they desired, none was forthcoming.

The gathering, at the opening stages of the proceeding, was presided over by Mr. S. T. Vandercourt, of this city, and associated with him on the platform were the following gentlemen: Messrs. R. J. Cook, M.P.P. for North Hastings; E. A. Hardy, K.C., ex-M.P.; Mayor Ketcheson of Belleville, Mayor Ireland of Trenton, W. H. Matthews, Thomas Fuller, Robt. Davis, Chas. Rollins, Reeve of Wallaston, J. Sargeant, Geo. Bailey, Wm. Boulter, Henry Walker, W. Wiggins, R. Weddell, W. H. Matthews and R. J. Graham.

Mr. S. T. Vanderveort, President of the Conservative Association, occupied the chair, and stated the business of the convention, namely, to select a candidate.

The election of officers was proceeded with resulting as follows:

President—Walter Wiggins, Bancroft.

Vice-President—John Sargeant, of Stirling.

Secretary—A. R. Walker, of Belleville.

Treasurer—C. W. Thompson, of Rawdon.

Mr. Walter Wiggins in accepting the office of President, thanked all present for the honor conferred upon him. He was not a speechmaker, but he would endeavor to forward the interests of the Conservative Association for greater West Hastings.

Mayor Ketcheson, of Belleville, was called upon and gave a brief but appropriate address in reference to Victory War Loans. The cry is for men and money. We should lend our money to the Government and secure 5½ per cent. We want this loan distributed all over the country, "If you cannot take a large sum, take a small bond. There should not be a man in Canada but should take out a bond. What the Government want is to feel that every man in Canada is behind this loan. It is only a $50 loan take it. We want to be able to say that the good old County of Hastings has done its share in this great cause.

Nomination of Candidate.

Mr. W. H. Matthew, of Trenton, nominated Mr. E. G. Porter and Mr. Thos. Fuller of Bancroft, seconded the nomination.

There was no other nomination and the President declared Mr. Porter was the unanimous choice of the convention, which was most enthusiastically received by all present.

Mr. R. J. Graham, was called upon and addressed the convention at considerable length. He spoke of the Victory Loan and the necessity there was of subscribing to the Loan. He hoped every person would take out a Victory Loan bond. He thanked Mr. Porter for the privilege given him to speak at the meeting. Some months ago, he was approached by prominent Liberals to be their Win-the-War candidate, but he did not accept their proposition. He had always been a Conservative in principle, but was independent in his view. He had in the past, voted against the Conservative party. The Liberal party say they will not allow Mr. E. G. Porter to be elected by acclamation, and a nomination has been tendered to a Liberal. If there is to be a contest he, the speaker, would be the people's candidate. Why was he the Conservatives friend? Because he employed more laborers than any man in the riding. The Government placed a business tax on excess profits and the speaker had contributed over $246,000 which went into the coffers of the Dominion Government to assist in the war. He was not a profiteer. He did not put the money down in a pocket but he had bonds of several of the allied Governments engaged in the war. This is a time when party politics be no party politics, but we should be as one. Sir Robert has recognized this, and had called to his aid leading lights in the cabinet. We are ready to sacrifice everything to win the war. He would ask that we could take upon himself another job, he could perhaps do it better than it has been done. In closing, Mr. Graham referred to the fact that he had considerable farm lands, and were developing the same to assist in winning the war. He was followed by a forcible argument organizer to see if an election in the riding could be avoided. He (the speaker) had the authority from Col. O'Flynn to say that he, Col. O'Flynn, would retire if Mr. Porter would retire and a union candidate be selected. Could not Mr. Porter withdraw and give him (the speaker) the seat by acclamation. I will withdraw in favor candidate than Mr. Porter is elected.

Cries of no, no.

Mr. Walter Wiggins said he never knew there were two Conservative parties, but evidently there was according to Mr. Graham's argument.

The reception tendered to Mr. Porter when he arose to speak was most cordial. He was repeatedly cheered and the audience arose and sang "For he's a jolly good fellow." In his opening remarks Mr. Porter stated that he was not appearing before those present to blow his own horn but to thank them for the unanimous support they had given him in the past and the selection of him as a candidate at this convention. Mr. Porter then spoke as follows:

MR. PORTER'S ADDRESS

We are meeting together today under very distressing conditions; conditions which have never before in the history of our country existed, and which it is sincerely hoped will soon be ended in such a manner as to forever prevent its recurrence. We are meeting to make preparation to fight out with our fellow-citizens a general election when every true and loyal Canadian should be putting forth unitedly every effort to fight the common enemy of right, justice and civilization that has driven us into the calamitous and devastating war which is now threatening our liberties and our Empire and the welfare of the world.

ELECTION UNNECESSARY

It is to be regretted that we have been forced into a fight with fellow Canadians at this particular time, but I am happy to be able to say that such a condition has not been brought upon the Canadian people by the Liberal-Conservative party, but by Sir Wilfrid Laurier and those who follow his leadership, and upon him and them must rest the blame.

The Liberal-Conservative party, through its representatives in the last Parliament in Canada and in which I

E. GUSS PORTER, K.C.

had the honor to be a member, did all in its power to avoid the present election, and when the Government found that it was impossible to avoid it, they did all in their power to have the election postponed until after the war was over, but the Opposition refused to agree to any such proposition. Then the Government found that it was impossible to carry on the business of the country with the House of Commons constituted as it was, and that it was necessary to have a new House of Commons elected by the people, and that the people should have the opportunity of saying whether they were in favor of the Government's policy of conscription or not. Then the Government found that it was impossible to carry on the business of the country with the House of Commons constituted as it was, and that it was necessary to have a new House of Commons elected by the people, and that the people should have the opportunity of saying whether they were in favor of the Government's policy of conscription or not. GUN-RUNNING GREAT MENACE

That and Hostile Leading in Ireland Made Almost Impossible.

LONDON, Nov. 17.—Viscount Chaplin in the House of Lords called attention to the grave situation in Ireland. He referred especially to the Sinn Fein campaign in favor of an independent republic.

Baron Winborne, Lord Lieutenant of Ireland, replying, said he did not share Viscount Chaplin's gloomy anticipations. Despite the inflammable material in Ireland, the gravest danger was the gun-running and the importation of arms on a hostile landing. But he had been assured that in view of the steps taken neither possibility was likely to arise. As to the internal situation in Ireland, that was not out of hand, and generally the country was progressing, in declaring further in the situation was the Irish convention, which he believed had been rewarded with substantial progress.

CAUTION IS IMPERATIVE

After alluding to the expected rising in Ireland last Sunday week, which did not materialize, he said that while the Executive taken precipitate action the convention would have been killed. This insistence on the Executive's present policy not to seek trouble, but to be prepared.

"The Sinn Feiners, said Lord Winborne, were divided into either by feeling or impulse. Their idea of Ireland becoming a republic must always remain a dream," he declared. The Government how had an adequate military establishment in Ireland.

May Have Liquor In Standard Hotel

Provincial Legislation Inoffensive Where Canada Act is Operative

TORONTO, Nov. 17.—Those districts in Ontario where the Canada Temperance Act is in effect are not subject to the much more stringent regulations of the Ontario Temperance Act. In consequence guests at a standard hotel may have in their room an in-quier possession liquor intended for their own consumption and may without fear of penalty give liquor to another person. This is the result of traffic in alcoholic beverages they do not break the law.

Mr. John Kasten, in a decision which he handed down at Osgoode Hall, made a ruling to the above effect. The case in point was that of Rex v. Monge R. Theburn, a motion to quash a conviction. The conviction in question was made by C. E. Kingston—J. C. Cook. Treasurer of Manitoulin, for that "the defendant on or about the 20th day of April, 1917, at the Township of Billings, in the District of Manitoulin, did have and give liquor at the Havelock Hotel, being a place other than the private dwelling house which he resided, contrary to the provisions of the Ontario Temperance Act." The facts are that the defendant had a bottle of rye whiskey in his room and gave one, Ramsbottam, a drink from it. The room in question formed part of a building which was formerly a licensed hotel.

DRESSED FOR COURT WALKED INTO BAY

Body Of Judge Morrison Of Picton Found In The Bay Four Feet From Wharf At Picton—Left His Residence Fully Dressed

PICTON, Nov. 17—The body of County Court Judge Duncan Merrian was discovered in the Bay of Quinte yesterday morning by Chief of Police Portland and Mr. Angus Brisbin. Judge Morrison had been in failing health for the past year, and it is presumed, unable to sleep, left his residence at 3 o'clock in the morning for a walk in the early morning. As he did not return his family became alarmed, and after search had been made, his hat was found floating on the water. Dragging the bottom of the bay was immediately begun, and the body was found in ten feet of water, only four feet from Herchen's wharf, and between the steamer Rideau Queen and the dock. No reasons are at present available for his presence at such an early hour in the vicinity of the pier. He was wearing gloves buttoned, coat buttoned, and collar turned up, and was dressed as though sitting on the Bench. He was 75 years of age, and a fine type of man, beloved by all for his sterling qualities as a conscientious Judge and a gentleman.

He is survived by his wife, two daughters, and two sons. He came here some ten years ago from Owen Sound on his appointment.

Judge Morrison was a native of Glasgow, the eldest son of the late Rev. Duncan Morrison, D.D. of Owen Sound. He was educated at Owen Sound Grammar School and Queen's University, graduating as B.A. in 1866. He later married Miss Annie Petrie, daughter of the late David Christie. He studied law in Bothwell, and later at Toronto. On the then firm of Blake, Kerr and Cox becoming a barrister in 1869, and entering into partnership at Owen Sound with the late Judge Owen in which firm he continued for 21 years. He was Mayor of Owen Sound in 1887-88. During his student days he took out a first-class certificate in the Royal Military School at Toronto, and served at the front in the war of 1866.

In 1890 he was appointed Junior Judge of the county of Grey and was in 1906 transferred to Prince Edward County as County Court Judge, Surrogate Judge, and Local Master. He was a Presbyterian.

The Eastern Ontario District, of which the County of Hastings forms a part, are leading the other districts of the Province in the race for the sale of Victory Bonds Hamilton and London Districts are the runners up. Hastings County, however, is not by any means the leader of the district. Leeds and Grenville expects to pass the million mark to-day, and they as well as Dundas, Stormont and Frontenac have exceeded their objective by a wide margin. The County of Hastings has to still sell about $100,000 worth of Victory Bonds in the county to reach its objective, and the county is doing strong every day, so next week should see us well on to the million mark. The Eastern District has reached 70 per cent of its objective, and Hastings County 75 per cent. Lennox and Addington has almost reached its objective. A great deal of hard work is still to be done.

The Board Of Education Meets

A regular meeting of the Board of Education was held last evening attended by a majority of the members.

Mr. B. Mallory, chairman, presided.

The chief business transacted was the decision of the Board to dissolve the school union which has existed for some years with the city and that portion of the Township at Thurlow on College Hill and the district north of the G. T. R., designated as the broken front. The matter was discussed pro and con before being decided,

Mr. T. C. McLaurin, Principal of the High School asked the Board to relieve him from duty from the 26th inst. until after the Christmas holidays. The reason for the request was to attend to some domestic matters.

The Board acquiesed in the request and a supply for Principal McLaurin will be secured.

The Board received an invitation to be present at Queen Alexandra school on Monday morning when Mr. James L. Hughes of Toronto, will be present and distribute medals won by two pupils in target shooting.

After some other routine business had been transacted, the Board adjourned.

The Assize was in session last night until after the hour when usually the attention of the court being engaged in the case of King vs Evans. The latter is a middle aged man and he was charged with a serious offence which was brought against him by his daughter-in-law. The jury were not long in arriving at a verdict when they retired to consider same, and it was not guilty. The accused was formally discharged. Mr. A. E. Ames ably discharged. Mr. A. E. Jones the accused.

PRESENTED WITH WRIST WATCHES.

A very pleasant event occurred last evening when the members of the Iroquois Club gathered in their club rooms to do honor to two of the members, Messrs. R. A. Creed and R. E. Splan, who have enlisted in the 73rd Battery at Kingston for service overseas. As a token of appreciation was read to the young men and both were presented with wrist watches as a mark of the esteem of their fellow members, while many warm expressions of good will and friendship were made.

MILLIONS OF WHITEFISH.

The work of collecting whitefish spawn for the Dominion fish hatchery here has been completed and eighty-five million prospective whitefish have been placed in the development receptacles at the hatchery while forty-five million lake trout spawn have arrived at the local hatchery from Manitoulin Island and will be developed during the winter months and the fish fry placed in the lakes in the spring. With today's catch the sale of fish will cease at the hatchery. Many took advantage of the Government's offer of cheap fish and secured a winter supply.

WEDDING BELLS

WALKER—HOWARD

A very pretty wedding took place last Wednesday afternoon, Nov. 14th when the Rev. L. Walker united in bonds of holy matrimony at St. Saint's Church Grace Howard, second eldest daughter of Mr. and Mrs. Dalzeil Howard to Mr. Noble Walker the youngest son of Mr. and Mrs. Chas. Walker of Shannonville. The bride was attired in a very becoming cream silk gown, with a white plush hat to match. The groom was very ably supported by Mr. W. Claus and Miss Irene, sister to the bride, acted as bridesmaid. She wore a very pretty pink silk gown. After the marriage ceremony, the bridal party motored to the residence of the bride, where a limited number of sixty of the most intimate relatives and friends assembled to partake of the very sumptuous wedding supper. The wedding presents were very useful, numerous and costly, many of which were on display.

CLAPP—MITCHELL

On Wednesday evening, November 14th, a very pleasant event took place at the home of Mrs. Chas. A. Mitchell, Front Street, when her only daughter, Ilis Mildred, was united in Holy Bonds of matrimony to Mr. Clarence Roblin Clapp, of Belleville, by the Rev. Mr. Moore, of the Tabernacle Church. As the strains of the wedding march pealed forth Miss Hazel Mitchell the bride and groom took their place beneath an arch of evergreens, the color scheme of which hung a large bell and artificial flowers. A large number of beautiful and costly presents show'd the high esteem in which the bride was held by the large circle of her friends. The groom's gift to the bride being a beautiful gold wrist watch, to the bridesmaid a silver purse, to the groomsman a set of gold cuff links and to the officiating clergyman the church by Rev. Smith and Rev. Clarry. Masons of No. 69 Stirling had charge of service at grave. Bearers were members of lodge: H. Carlton, J. Johnson, A. Hardy, B. Bedford, J. Kingston, A. E. Bailey.

Acid-Test Unionists

Mail and Empire.

There are to be Laurier candidates in most of the constituencies of this Province. Some of them will openly flaunt the White Feather; others will seem to deny their leader and disgrace with honorable Canadians the title of Union Government candidate. The party ranks is bad enough, but the party morale is ten times worse. And the Laurierite who disembarks his spaniel-like attachment to the Old Chief so far as to come out under Union Government colors to the open confusion of politicians and it is of the same kind of danger to the country as is that other disguised nuisance, the enemy spy. If the Union camouflage adopted by Laurier candidates is to any considerable degree successful in this Province the people will be betrayed in the next Parliament, and, what is worse, our men on the firing line will be stabbed in the back. Every candidate who, clinging to Laurier to the last moment, suddenly makes a show of renouncing him and embracing Unionism ought to be punished and would to be denied recognition as a supporter of the existing Government. Men of the Mackenzie King type who think they can win under the open auspices of Laurier leadership have a great conceit of themselves and a poor opinion of the loyalty of the voters. They, however, are shortsighted, and the people can be trusted to take care of themselves accordingly. But the people must be protected from the Laurierites who masquerade as Unionists. The only way to protect the people is to prevent any of these gentry from running with the Union stamp upon them.

No sincere Unionist, whatever his party stripe, will oppose an ex-member of the last Parliament, whatever his party stripe, who supported Sir Robert Borden's measures of war policy. Liberal ex-members of that Parliament, the Hon. Hugh Guthrie, Hon. A. K. MacLean and Dr. Michael Clark, are among the men who made Union Government possible.

R. GUSS PORTER IS THE WIN-THE-WAR CANDIDATE

Continued from page 1.

had the great honor of representing you, did all in their power to avoid the stress, dissension and waste of force which would be caused by a general election, our leader going so far even as to offer an equal representation with Sir Wilfrid and his followers in the Government of Canada during the war and extending the life of the Government for such time, but the Liberal leader, either through love or fear of his following in Quebec or the advantage he hoped to reap by causing dissension and bitter strife amongst our people, or by his disloyalty or indifference to the success of our common cause of Empire, would agree to no proposals made but instead adopted a course of delay and dissimion which if acceded to meant the everlasting disgrace and degradation of Canada and the abandonment of our brave men at the front who are fighting for our liberties and ours, our honor and to uphold the principles of right and justice.

To any one who knows Sir Robert Borden and the principles he stands for it is no wonder that he did not agree to such a proposition as that made by Sir Wilfrid, and to every one who remembers the history of Sir Wilfrid's political career the course he took and is now advocating and trying to force on the people of Canada is just what might have been expected for his course has ever been one of opposition to the Empire and Canada participating in its greatness, as evidenced in the North-West Rebellion, South African War and the present European war.

DEFEND THE EMPIRE.

But Sir Robert Borden and his supporters were not to be denied the right to defend the Empire and the good name of Canada by Sir Wilfrid's refusal to take his part and help to do so and with the support of his loyal followers he set about to enlist the cooperation of Empire-loving Liberals who refused to follow the disloyal dictates and policy of Sir Wilfrid, and so persistently and effective did he advocate the cause of Canada and Empire, the justice of our cause and the necessity of supplying men, money and everything possible to reinforce and support our gallant soldiers overseas to whom Canada had pledged herself to the full extent of her resources and not only to our soldiers but to their wives and children when they left behind them when they voluntarily took up arms, that he was successful in gathering around him the best and ablest element of the Liberal party in Canada with whom he has formed a Union Government pledged to carry out the policy of Win-the-War.

APPEALS TO LOYAL CANADIANS.

For such a Government and such a policy he now appeals to you as loyal Canadians for support, and as your candidate I pledge you if elected to give such Government my fullest and best assistance.

NO VOTES FOR ALIEN ENMIES

The fact that as loyal subjects of the Empire we are now assembled in the greatest war the world has ever witnessed and the further fact that with the borders of Canada there are harboring a great many of foreign and alien birth and who very naturally hold alien sympathies, it became necessary for our own protection that the will and aim of the Canadian people should not be defeated by any action on their part, and as this foreign element had been granted in time of peace citizenship in Canada which carried with it the right to exercise the franchise then arose the serious question as to whether such persons should be allowed to vote when the question upon which they would vote was the welfare of Canada and the Empire in a war waged against them by the countries from which they came and to which they were bound by the ties of birth, religion and blood. The countries to which they were so bound had shown their solemn decision that such persons should be interned into by them in times of advantage were treated as mere "scraps of paper," and the individual of such a country could not be considered any more reliable than the collection of individuals who make up such a country, and the oath of allegiance taken by such individuals on becoming a citizen of Canada would in all human probability in time of advantage to their native country also be treated as a "scrap of paper" and their votes would be cast against the interests of Canada and in favor of the country of their birth.

PROTECTING CANADA.

Under these circumstances and in order to remove temptation from them to violate their oaths, and to protect Canada, our leader and his supporters —amongst whom were some Liberals— thought the right to vote, should be suspended so far as the present time is concerned and passed an Act which prohibits them from voting at this election. But so-called Laurier Liberals and those who support him opposed this measure and since it was passed have never ceased to condemn it and the action of the Government in passing it and have urged that all the Germans, Austrians and Bulgarians should be allowed to vote, kill the votes of such loyal Canadians before his eyes to add their strength to the Laurier party in the Province of Quebec in support of his policy of a referendum which is its final stand-point a referendum to break up Canada and her noble boys in maintaining the glorious and imperishable monuments to their bravery which they have left in the blood and sacrifices on the battle fields of Europe.

CANADA PROUD.

Canada is too proud of her sons and too honorable to her promises to ever allow the personal ambition of Sir Wilfrid Laurier backed by Germans, Turks or Bulgarians' votes to bedood their vision or stay their hand in any effort to defeat the foe to freedom now warring against us in Europe, but will give them a Vimy Ridge and a Passchendaele in succession until they are humbled in the dust.

War is a new thing to this young Canadian nation. Like every other country we have had domestic troubles and even been subject to foreign attack, but these were in her very early history and were mere atoms compared with the gigantic struggle she is now engaged in. These earlier episodes were important in their time and made history in the formation of the great and growing nation which we now possess, but they did not teach us to prepare for such an event as we are now experiencing. We had been living so long in peace and prosperity striving to maintain friendly relations with all other countries that we had no reason to expect that we would be waged against us, or that the Government or set of Governments would in the light of civilization in the world had attained ever attempt to enforce such a doctrine as "Might is right" for the domination of the world by power. We were mistaken in our estimate of Central Europe, and almost like a bolt from the blue in August, 1914, there came the invasion of Belgium and the Germans began the invasion of Belgium in violation of national treaty and of the expectation of the civilized world.

UNPREPARED FOR WAR.

Like most other countries now engaged on the part of the Allies we were found unprepared. We had no thought of war, and no fear of attack against civilization, but we quickly realized that our liberty, our country, our homes and everything we value were at stake and would certainly be lost should Great Britain and her allies be defeated in their attempt to crush the monster who has reared his bloody head in Germany. Like every other portion of the British Empire we immediately began to assemble such forces as we could and available and within six weeks sent 33,000 volunteers overseas to do their bit for the honor of Canada, the good of the Empire and the welfare of humanity. Since then 400,000 more have gone over, many of them never to return and many more will return maimed, disfigured and incapacitated for life. When these men volunteered in the service of their country as they proudly marched away we cheered them for the love and confidence we had in them and we made them the solemn promise that we would support them with our last man and last dollar and would take care of their dependents while they were doing our fighting. Have we forgotten our promise? God grant that we have not.

The policy of the Union Government under Sir Robert Borden is to implement our promise and in the approaching election let us look to it that men are elected to support him that will enable him to stand by and through and bring hope to our men at the front and success to our cause.

In the stand of unprecedented to which I just referred we have a record with which we were obliged to act to make our forces effective it was almost impossible to avoid mistakes as he who takes did occur, but it is no time to discuss such mistakes or lay bare our short-comings in the face of the enemy, there will be plenty of time for such after this cruel war is over.

VOLUNTEER RECRUITING

There are those who think the volunteer system of recruiting was a mistake and that there should have been conscription from the commencement. There are others who believe conscription should never be employed and that any man who did not see fit to volunteer should be left at home. I do not stop to discuss which is the better principle; perhaps some of both principles is best, but be that as we are in the war. We did not go in for fun nor to satisfy any personal or national ambition for aggrandizement, but we went in solely to defend ourselves against oppression and degradation.

THE CALL FROM THE TRENCHES

We have over 400,000 of our best men at the front (less those already killed and wounded), their ranks are becoming thinner every day. They erament recognized the necessities of

WHICH?

"This bulk tea is the best I could buy at the price, Mrs. Brown, but I believe you will like Red Rose better.

"We use Red Rose at home and like the rich flavor. My wife says it goes further."

Hundreds of grocers are making statements somewhat like this.

They have sold Red Rose Tea for many years and have found the quality so good that they use it in their homes.

Most grocers naturally like to make as large profit as they can on their teas, they can and do sell vending Red Rose Tea because they know it's worth the price.

They know it goes further because it is rich, chiefly of the teas from Assam in Northern India, the strongest, richest teas grown anywhere in the world.

Red Rose tastes better and goes further.

The Need for Union

Toronto Globe

The friends of Union Government have barely a week in which to arrange their nominations. In the Western and Maritime Provinces local difficulties are yielding to the national interest, but in Ontario the progress has been slow. An earnest attempt should be made to combine the Union forces in every constituency, and to reach a fairer division of Union endorsements between the parties than some partisan politicians in this Province seem disposed to entertain. Reasonable satisfaction, the Government can do much to bring its supporters together where merely personal matters stand in the way of co-operation.

The manifesto of Sir Wilfrid Laurier has left the position of [illegible] clearly defined that no Liberals can be any longer under illusions as to what allegiance to him involves in this campaign. The action of the pro-Laurier convention in Mugwump by casting aside a tradition of long standing because he pleaded that the men enrolled for the Military Service Act should be called to the colors, was at least logical. The man who carries the Wilfrid's standard is pledged, if he be honest, to the withholding from the Canadian army of the reinforcements provided by the Military Service Act. The defeat of the Government would mean that some months would be spent in giving another trial to the voluntary system, which broke down nearly two years ago. If it failed again more precious time would be consumed by a referendum which would muster against compulsory service an almost solid Quebec and every man in the province who seeks to evade his duty or objecting to further sacrifices for the cause. In the meantime the Canadian infantry divisions would be ebbing away. This is the most critical hour for the Allies since the battle of the Marne. Is it an hour in which Canadians should listen to counsels of delay?

The country is now in the process of calling up for military service a hundred thousand men. By the end of January the whole army can be spared, without loss to any essential producing interest. These reinforcements would insure for a period which may decide the issue of the war the maintenance of the present army of [illegible] at the front. To withhold them at this crucial time in order to experiment again with another recruiting campaign, which every soldier and civilian who went through the heart-breaking struggle of the last one believes would be an absolute failure, would be a betrayal of our fighting men in their hour of direct need. Canadians cannot for the honor of their country, for what history will say, follow now. They ought to stand firmly at heart and support the Government. The Military Service Act shall not be destroyed. Let its supporters take pattern and warning from the actions of its enemies in Quebec. The Nationalists have already declared their determination to oppose every Union candidate in the Province. Sir Wilfrid Laurier's manifesto has converted Bourassa, who spends the bugle call to his followers to join with the Liberal party in a campaign on that issue. Clearly the man who denounced the Nationalist propaganda in 1911 must be disgusted by having Bourassa as a political bed-fellow in 1917. His enmity six years ago was a tribute to the Laurier Government. Does he cherish enmity to-day count in the Union Government's favor? He frankly declares against any further military effort by this country. This is not Sir Wilfrid's view, but Bourassa, though unable to command the confidence of the French-Canadian people, prefers the Laurier policy to the disarmadists, because he believes the suspension of the Military Service Act would do something to stay Canada's hand.

How the Vicious Circle of Neurasthenia is Formed

WHEN the nerves are overstrained by mental exertion, by accident or by shock the irritation makes rest or sleep impossible, and consequently there is no restoration of the wasted nerve force.

In its turn digestion fails, because there is lack of nervous energy to control the flow of gastric juices in the stomach and to operate the other organs of digestion.

Failing to obtain the necessary nourishment, the blood becomes thin and watery, and as a result the nerves are further starved and rendered less capable of standing the strain put upon them.

In this way is formed the vicious circle of neurasthenia or nervous prostration, and there is no magical way in which the circle may be broken up.

Overstrained Nerves, Loss of Sleep, Indigestion

The nerve cells are starved and must have nourishment. The blood fails to supply this want, so you must give to the blood in condensed and easily assimilated form the elements from which Nature forms new blood and new nervous energy.

This is exactly what Dr. Chase's Nerve Food does, and it does it so well that no treatment for the nerves has ever met with the enormous success of this great food cure.

The Food Cure

Mrs. George Ross, Augusta street, Cornwall, Ont., writes: "About two years ago I was attacked with neurasthenia, or nervous prostration. I doctored with different doctors without any good results, and even took a trip to a distant city to see if I could not recuperate. But upon returning I found I was no better — in fact, I kept getting worse all the time. I had no appetite, could not sleep, and had to be helped up and down stairs. I also had terrible headaches. One day a book was left at the door telling about Dr. Chase's Nerve Food, and I decided to try it. My folks derided the idea, but I went ahead and secured a box, and before finishing that first box I could see that I was getting better. I continued to use it was delighted to find a remedy that would give me relief. I continued taking them, and recovered so thoroughly that I was able to resume my dressmaking business that spring. During my illness, collapse, I had fallen from 115 pounds to 80, and since my recovery have weighed as much as 110 pounds. I still keep Dr. Chase's Nerve Food in the house, and use them when I feel the need of them. I have recommended them to a great many people around Cornwall, as I feel that I cannot speak too highly of them."

You can scarcely take up a newspaper without reading of someone who has been restored to health and vigor and happiness by means of this reconstructive treatment. This is Nature's way of effecting cure, and is, therefore, both certain and lasting. A little patience is required, but once the building-up process is under way you will find daily evidence that you are regaining health and the joy of living.

Dr. Chase's Nerve Food

are crying out to us: "Send us help! You promised to do it!"

What shall we do? Go back on our promise like curs or stand behind the boys with all our men and all our resources.

The volunteer system, even if a mistake, was tried out until it utterly failed to furnish the reinforcements necessary to meet the wastage at the front. Something had to be done or we had to drop out and lose our place in the Empire, merit the contempt of every civilized country and be a fettered sore upon the body of humanity.

The only alternative was compulsion, but in this Sir Robert Borden's Government pledged to carry out the policy of Win-the-War.

Have we forgotten our promise? God grant that we have not.

The policy of the Union Government under Sir Robert Borden is to implement our promise and in the approaching election let us look to it that men are elected to support him that will enable him to stand by and through and bring hope to our men at the front and success to our cause.

In the stand of unprecedented to which I just referred we have a record with which we were obliged to act to make our forces effective it was almost impossible to avoid mistakes as he who takes did occur, but it is no time to discuss such mistakes or lay bare our short-comings in the face of the enemy, there will be plenty of time for such after this cruel war is over.

VOLUNTEER RECRUITING

There are those who think the volunteer system of recruiting was a mistake and that there should have been conscription from the commencement. There are others who believe conscription should never be employed and that any man who did not see fit to volunteer should be left at home. I do not stop to discuss which is the better principle; perhaps some of both principles is best, but be that as we are in the war. We did not go in for fun nor to satisfy any personal or national ambition for aggrandizement, but we went in solely to defend ourselves against oppression and degradation.

THE CALL FROM THE TRENCHES

We have over 400,000 of our best men at the front (less those already killed and wounded), their ranks are becoming thinner every day. They erament recognized the necessities of the nation to support Ewll and contribute to the support of its army in the field. It would not do to take all the eligible men away. Enough must be left to produce the requisite foodstuffs, to take care of transportation, to put into useful form raw materials, etc., and all the while to keep such a manner as to give our armies the forces as much support as possible and at the same time afford the greatest production in the country.

THE BOURASSA-LAURIER ALLIANCE.

These two political worthies have returned to their first love, and are again cooing in the same boat—Bourassa at the helm, steering a course of ultimate political separation from the Empire. This is no joke, for Bourassa has announced that Sir Wilfrid has taken his attitude; is reassuring for the future and better than the "radically-bad politics" of what he terms "the government of national treason" and that therefore the Nationalists will help Sir Wilfrid to throw that government out. This is just what has long been expected. Though Bourassa has in the past frequently denounced Laurier for not adhering to the National doctrines taught him in days gone by he now sees him on the repentant stool and welcomes him back to his first love. True the leader of the Quebec National malcontents does not think Sir Wilfrid has gone far enough, but expects in the parting return to the principles his Bourassa, learned at the footstool of the champion of the non-conscriptionists and earnestly recommends French Nationalists to support him at the approaching election, believing that the time is not far off when he will be again revelling in Nationalism.

A telegram from Montreal of the 8th inst. says:

"Henri Bourassa has come out straight for Laurier in his paper, *Le Devoir*. In today's issue he says:

"We ask nothing better than to assist Laurier in upsetting the Government of national treason and conscription, however, that he should surround himself as well as he can party, with barriers solid and high enough to keep out Monk and the Nantelle's and Sifton brand from crowding into the party and by corrupting the standard and ensuring the watchdogs."

Mr. Bourassa says that Laurier is the interpreter and champion of the principles of Nationalism. Then he says:

"The Liberal programme is the antithesis of all we abhor. It is what we believe, and all we desire; while in the Government of the day, part, of all we despise, both in men, and policy. Nationalism, in fact, is our sole consolation in this conflict.

We are at one with Laurier in contesting the right of the Tories to rule this country, as they have acted for the past six years."

Mr. Bourassa tells us which of the Liberal members of the Government. He says:

"We in no way share the opinion of the opposition leader as to the respectability of the Ontario Liberals who have rallied to the Borden Government. We see nothing of respectability in the monstrous cupidity of a Sifton, in the hypocrisy of a Fielding, or a Howell, or in the cynicism of a Ballantyne, a Guthrie or a Pringle. We see in them but the satyr but the coalition of the most unsavoury appetites and the most contemptible tendencies."

Here is a characteristic Bourassa touch, namely, that of the editorial put in the first person:

"What I cannot understand is that a really respectable man like Laurier should consent to put upon his heart for these repugnant personages the cancer-eating something like our re-calling it "Nationalism" sheep's eyes at Jos Ratcville or Senator Dandurand, or Mr. Lemieux."

Commenting upon this loving embrace of Bourassa and Laurier the Montreal Star adds:

"The open alliance proclaimed between the Laurier Opposition and the Bourassa Nationalists finally establishes the character of the Opposition war policy. No doubt satisfaction of this will without a shock to many who have been supporting the Opposition without knowing the real meaning of opinion such support entailed.

REPISSING ESPERALS OPPOSED LAURIERITE

Liberals and Conservatives in Nipissing District have united in support of Charles Harrison, Independent Labor candidate, who will support Union Government. Mr. Harrison is a passenger conductor on the C.P.R. and for years has been the business agent of the Railway Trainmen's organization in dealing with the company, being head of what is known as the Grievance Committee for the C.P.R. Lake Superior Division.

Mr. Harrison is very popular with everybody in the north country where he is regarded as a splendid citizen in every way.

Opposed to him will be the candidate of the French-Canadians, E. Lapierre, who is running on a straight Laurier ticket, having secured the nomination after a Laurier convention had deposed the regular candidate, Mr. A. J. Young who has three sons in khaki and would not agree with the Laurier manifesto that the Military Service Act should be interfered with in the event of the Laurierites coming into election. Mr. Young has served the Liberal party faithfully and well and is President of the Ontario Liberal Association. He followed Laurier as far as he decently could, but when it came to a question of deserting his own sons on the battlefield or deserting Laurier, the latter had to go. The French-Canadian element in Nipissing crucified A. J. Young on direct orders from Laurier headquarters at Ottawa.

CRISP COMMENT

The Quebec party is not sleeping, and in constituencies where there is no chance in the world of a Laurier candidate winning by fair means, trickery is resorted to. In East and West Hastings, represented by Union Government supporters, the plan is to enforce a fight between two Conservatives, and then in a three-cornered fight try to slip in a Laurierite or a Nationalist-Laurierite. The ploy is that disgruntled Liberals will allow themselves to be hoodwinked by such tricksters.

If the good old loyal constituencies of East and West Hastings are sacrificed in this election to help the Quebec party, the responsibility will be held on account by an indignant electorate. This is no time for doubtful politics, or catering to personal ambition. *Above all else is for the party but all for the state*, and take the only absolutely safe course by supporting Union Government the last parliament who helped to make Government possible and of whom Canada has a right to expect the next parliament no doubt will be entertained.

The big question to be decided in the coming election is whether Quebec is to rule Canada. The challenge has been issued, brazenly cast in the face of Ontario and the West, and the call to solid Quebec behind Laurier is determined to get enough seats in the other provinces to form a majority in the next Government and policy on Canada. Electors of Ontario have an important duty to perform in the coming election, one which they will no doubt fully exercised. It is not a question of men or the ambitions of men but the vital question of whether Canada is a dependation or a dual language parish playing the game of the enemies of the Empire.

Mr. H. J. Graham, who has announced himself as an independent candidate for Parliament, stated at the Farmers' convention yesterday that he would retire and that Mr. O'Flynn would also retire from the field if any other candida te but Mr. Porter was selected. This removes the sharp point of the knife directed against Mr. Porter. Mr. Graham has already in a public statement intimated that he had a great personal grudge against Mr. Porter for real or fancied injuries. Must the public suffer all the strife, bitterness and expense of an election because Mr. Graham wishes to "get even" with Mr. Porter? Now, if he is, it Mr. Graham is an independent Conservative candidate, as he claims, that he can secure the retirement of the Liberal candidate as well as his own? Looks as if the two-headed opposition to Mr. Porter had one source and inspiration, and if that is proved it will be found unfavorable to Union Government.

Daily Progress Of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

A three-cornered contest in Wentworth is assured.

Dr. A. C. Hanna will be unionist candidate in Lanark.

Lloyd Harris has retired as Liberal nominee in Brantford.

J. A. Halliday will be independent win-the-war candidate in Frontenac.

Sir Sam Hughes advises all true Canadians to back the Union Government.

Stormont and Dundas Conservatives decide to support unionist now in field.

Supporters of Union Government in North Waterloo nominate W. G. Weichel.

Liberals of East Toronto nominate Frank Regan to oppose Sir Edward Kemp.

Parties fail to agree on a man in East Simcoe and Liberals nominate Manley Chew.

Edmund Bristol was, without opposition, nominated as unionist candidate in Centre Toronto.

Union mass meeting at Milton endorses Hon. P. M. Anderson as union candidate in Halton County.

R. L. Richardson, editor of The Winnipeg Tribune, will contest Springfield, Man., as a unionist candidate. A Laurier man has entered the field.

LAURIERITE FOR FRONTENAC

James A. Halliday, of Portsmouth, an ex-warden of Frontenac, will run against Dr. J. W. Edwards for the Ottawa House in the elections on December 17. This announcement was made at a meeting of the Frontenac Liberals.

W. G. WEICHEL NOMINATED

Supporters of the Union Government in North Waterloo, consisting of a large representation of both political parties, unanimously endorsed the candidature of W. G. Weichel as M.P., at the Union convention held in Waterloo. Only two nominations were submitted, J. F. Honsberger and W. G. Weichel. Each nominee delivered a fifteen-minute address, after which a standing vote was taken, Mr. Weichel being supported by a vote of 910 to 60. Dr. Honsberger moved that the vote be made unanimous, which was carried with a standing vote amid unbounded enthusiasm.

SIR SAM ENDORSES UNION GOVERNMENT

There having been some misstatements made in connection with the refusal of Sir Sam Hughes in regard to Union Government, the following statement, which appeared in the Lindsay Daily Warder, clears matters up.

"Now that Henri Bourassa has openly aligned himself with Sir Wilfrid Laurier in every instance and is not putting his own candidates in the field, there is only one position left for true Canadians and that is to stand behind the Union Government and fight the issue out."

That is the stand that Sir Sam Hughes is taking, and the one on which he will fight the issue.

PREMIER CURTAILS TOUR

Sir Robert Borden, Prime Minister of Canada, on account of the opening of the Dominion election campaign and the urgent need for his presence in Ottawa, has decided to curtail his Maritime Province trip. He left Halifax for Sydney, to address a Unionist meeting. After the meeting he left on a special train for Kentville, King's County, N.S., which constituency he has been invited to run, an invitation he will probably accept. Sir Robert will speak in Kentville Saturday afternoon and immediately afterwards will begin his return journey to Ottawa, which city he expects to reach Sunday night. Sir Robert expects to return to the Maritime Provinces later in the campaign and address a number of meetings in different cities.

TORIES FOR LIBERAL-UNIONIST

A decided step for fusion was taken at Cornwall, a meeting of the Conservative Association of Glengarry and Stormont, to which supporters of Union Government were invited, was held in the Music Hall.

A letter was read from John McNaughton, who had been given the Liberal nomination at Alexandria the week before, stating that he would support Union Government for the term of the war. It was later moved by W. Gilmour, seconded by R. T. Nicholson of Lancaster, "That in view of the fact that a supporter of the Union Government will be in the field in the Glengarry riding, no nomination be made at this meeting, but that we pledge ourselves to support the Union Government candidate in the coming election." This was carried unanimously. A resolution expressing confidence in the Union Government was also carried with enthusiastic applause.

OTHER VIEWS

NOT THAT SORT

(Vancouver World)

At any rate, the British army and navy will not make peace until they have won the war.

ROWELL IN DURHAM

(Kingston Standard)

It is to be hoped that Durham was the Conservatives in Durham who took the initiative in offering Hon. Mr. Rowell the seat there by acclamation, and that as a consequence the Ontario leader is finally and safely "landed," much to the satisfaction of all believers in the Union Government. It is a good sign, and one which speaks well for the future of Unionism, if Durham gives the lead as fairly on all sides as it has been placed in Durham.

THE CONSCRIPTION TEST

(New York Times)

In a way of speaking, the conscription test was submission of the war to universal suffrage. Never was there a more severe test of democracy. Never was the quality of the response better among citizens made up women. High and low, rich and poor, ignorant and educated, alien and aborigine and immigrant responded with one accord. Millionaires and their sons are in the ranks. Twenty New England colleges lost 8,200, nearly half their students, to service of the colors or with the colors. Harvard has a fifth of its membership. Harvard has a total of 5,000 in the war against kaiserism.

CLEARING THE AIR

St. John Globe (Lib.)

Sir Wilfrid Laurier's manifesto has cleared the political atmosphere. It has established, out of his own pen, the truth of statements made by those Liberals who left many members of the National Government. It has made plain, beyond any possibility of misunderstanding, that Sir Wilfrid is absolutely opposed to the Military Service Bill, and, if entrusted with power, will adopt a policy which will mean little if any further Canadian support for our boys overseas.

LAURIER-LA FLETTE

Boston Transcript.

Sir Wilfrid Laurier's manifesto to the Canadian electors is very unfortunate in its opposition "not to proceed any further under the provisions of the conscription act until the people have an opportunity to pronounce upon it by way of a referendum." That was the pacifist and German proposition in this country with regard to the draft, and Sir Wilfrid's manifesto echoes the La Follette and Vardaman campaign in its objection to the draft on the ground that it "conscripts human life only, and does not attempt to conscript wealth." In fact, following for the difference of expression, due to the difference in political organization, and everything in Sir Wilfrid's manifesto echoes the Senate speeches of La Follette's speeches. A "slacker" suggestion runs all the way through it. It is an appeal to the pacifist in the electorate, having put its hand to the plow, will turn back in the way that Sir Wilfrid now suggests. His appeal is practically addressed to the Province of Quebec only.

NO PARTY DISSENSION THERE

(London Daily Telegraph)

On the great issue of the war the country is still entirely sound. The Unionist, the Liberal and the Labor parties present an unbroken front. Mr. Asquith's recent speeches at Leeds and Liverpool could not have required the alteration of a single word if he had been a member of the Government instead of a leader of a patriotic Opposition, and it is a national blessing that the late Prime Ministership is at present Prime Minister found speaking on the supreme subject of peace and war in the same voice and the same key. That is the feature of the Liverpool speech which really matters, and who will compute what it means to the country that Mr. Asquith supports with all his might the Allies to enter the Conference Chamber, and resorting to every intrigue to sow discord between them, the Leader of the Opposition rejects them all with the same emphasis as the head of the British Government? The united public opinion here would be worth to Germany at this moment many of Hindenburg's much-practised victories.

A BRAZEN BID

Toronto Globe, (Lib.)

The French-Canadians would do their duty as in other days if Canada's soil were invaded, but they do not realize, and the leaders of opinion in Quebec have made no adequate attempt to impress on them, that Canada's first line of defence is in France and Flanders. In the mass they regard the war as external to Canada, and imagine that Canadians have been fighting only for Britain and France. Public men who know better do not scruple to encourage this ignorance of the real issue. So able a Parliamentarian as Mr. Ethier of Vaudreuil-Soulanges, one of Sir Wilfrid Laurier's lieutenants, makes a brazen bid for re-election by declaring against further war effort even by voluntary system. Sir Wilfrid can reward such a patriotic service by combatting this miserable spirit but all his eloquence in Quebec, and all the eloquence of all others in other provinces, will not do or begin to do, what is being done by the Military Service Act. To suspend the Act, as Sir Wilfrid Laurier is pledged to do if he returns to power, would be to keep reinforcements from the Canadians at the decisive hour for the Allies since they stayed the rush to Paris.

Want Sons Left On The Farm

Perth Farmers Parade In Protest At Rulings of Exemption Tribunal

PERTH, Ont., Nov. 17.—Under the auspices of the Farmers' Club of Perth five hundred farmers paraded the streets of the town here last night to the Town Hall, and later many of them were joined in voicing their opposition to the manner in which the tribunals were interpreting the Military Service Act and the manner in which it was affecting them in depleting their farms.

A chairman and secretary were appointed. T. A. Poole, one of the leading farmers in Lanark County, acted as chairman. "The farming community is not getting a square deal" he said. "The help problem has handicapped us seriously, but now we are confronted by a more serious problem, the taking of many men who are urgently needed in order that production may be kept up. The exemption tribunal here has not been exempting men whose services are just as important on the farm as on the battlefield. Are we to have justice?"

Dr. A. E. Hanna, ex-M.P., who thoroughly endorsed the selective draft, also championed the movement, and referred to the exemption tribunal at Perth. It was not using good judgment, he said, in that it did not exempt men who were needed on the farms. It was not the purpose of the Military Service Act to take the boys off the farms. He had personally told a number of farmers that their boys would not be taken but when they appeared before the local tribunal exemption was not granted them. The local exemption tribunal was composed of honorable and upright men, but all men could not see alike.

As a result of the meeting a resolution was drawn up and forwarded to the Minister of Agriculture explaining the grounds of complaint. The resolution was as follows:

A. P. Crerar, Minister of Agriculture: "We the united farmers of the County of Lanark surrounding the town of Perth, wish to protest against the manner in which the local tribunals are interpreting the Military Service Act, and the manner in which it is affecting them in depleting their farms.

"We ask that the Military Service Act as framed by the Union Government be administered in such a manner as to exempt from military service all those whose services are necessary to the production of foodstuffs, and that the Military Service Act, having regard to your present speech in the Chateau Laurier, Ottawa, before the five stock breeders' conference, in which you declared that men necessary for production would in no case be taken from the farms.

"Before the tribunal in Perth during the four days' sitting appeals from nearly one hundred applications for exemption have been considered. About twenty have been ordered for immediate service and about eighty have been granted exemption of varying periods of from one to six months. About 25 per cent of the total applicants are farmers' sons. In view of the acute shortage of farm labor which the farmers of this district have to contend with, this number is altogether too large. We, therefore, respectfully ask you to use your utmost endeavor to have more specific and more definite instructions made in regard to the drafting of farm labor forwarded to this and other tribunals, and we would further ask that applicants who have been refused exemption at this tribunal be granted a further hearing before another tribunal.

It is a pleasure for us to announce to the readers of this paper that my directors and I are to obtain this space, which is the property of Canada's Victory Bonds.

THE SINGING MOUSE.

This mouse lived in an old house in the country. He was a very fat mouse, for he was by no means a shy and always forgot to put the cover on the sugar bowl.

As his living came so easily, he had plenty of time to do as he liked, and as he thought he would learn to sing. The genius fanned he had a fine voice. So he began practicing the scale in the kitchen after the family had gone to bed.

But he didn't get along very well. He began with a bit of cricket's living next door to him, and he said it was because they would always start up whenever he began. He practiced now some around.

So, although the little mouse thought that it was only the cricket's unfriendliness that he disliked his mouse's singing, he moved up to the garret.

But there he found that it was no better. He began practicing the scale in the middle of the night.

But he didn't get along very well. For he

BALANCE YOUR CALORIES.

To Avoid Serving Too Many Proteins, Both Animal and Vegetable, or Too Many Starches, You Must Know How to Portion Your Foodstuffs.

Steaks or chops are best served, either baked or broiled, with French fried, creamed, baked, sweet or Irish potatoes. Serve also any one of the following vegetables: Eggplant, peas, stewed tomatoes, onions, squash, green corn, brussels sprouts, best beans, new beets, maranval with cheese or salisfy. For dessert serve some light dish, such as cottage pudding or fruit whip.

Roast beef may be served with potatoes, mashed or fried or fricanveal style. In addition serve any one or two of the vegetables mentioned above. For salad choose plain lettuce or endive, with French dressing. For dessert serve a fruit whip or a blancmange would be acceptable.

Roast pork may be served with white or sweet potatoes and any one of the following vegetables: Spinach, parsnips, apple sauce, creamed cabbage, onions, mashed squash. By the way, all the vegetables, with the exception of cabbage, spinach and parsnips, will be improved by baking. For dessert order either baked apples with cream, indian pudding, pumpkin pie or ice cream.

Roast lamb should be served with potatoes or rice and one of the following vegetables: Spinach, peas, squash, turnips. For a relish, either mint jelly or mint sauce is recommended. For dessert, baked apple dumplings, fruit jelly or pudding, with the upper crust only, would be good.

Roast chicken or turkey may be served with sweet or white potatoes, and any of the following vegetables or cereals: Rice, hominy, squash, onions or celery. For a relish, serve spiced pickle, jelly or cranberry sauce. For dessert, serve a sweet steamed pudding, ice cream, or cranberry, apple or mince pie.

If the lamb is boiled, serve with potato and one of the following vegetables: Onions, parsnips. Egg sauce may sometimes be fish. The dessert may be heavy—a shortcake in season, a cottage pudding or a lemon pie. With fried fish serve mince Tartare, French fried potatoes and peas. For a relish, choose cucumbers and French dressing. A fruit whip is very good to serve after a fried fish.

Creamed salt codfish is best served with baked potatoes and sliced beets, fried in salt pork scraps. A plain lettuce salad, with toasted crackers and cheese, flakes no acceptable dessert.

Salted ham may be served with spinach and creamed, sliced potatoes. Baked apples or cider apple sauce make an excellent relish. Baked Indian pudding, with or without ice cream, would be a good dessert for this dish.

Baked ham should be served with baked new or white potatoes, cauliflower or spinach, and some kind of jelly as relish. Horseradish is acceptable with this dish, but the original make a good dessert for this combination.

DOLLARS THAT ARE SAVED.

What Society Women Say They Make by Wearing Old Clothes.

What work does the saved dollar do to help make this country the best place for the saved? At a meeting of the American Civic Association several intelligent answers were made by a man who is well qualified to speak. He said:

"While a dollar saved by a workman helps to give to some workman a job, the saved other dollar's earning, whether it comes from wages, interest or profits,

"The economic effect of a dollar saved and invested is just the same. Whether one owner is a wage earner, an employer or an heir of inherited wealth, I suppose, however it originates, that is saved and put to reproductive use performs an inevitable service for society.

"Every form of savings finally seeks investment, and if you will follow the investment through to its ultimate reaction you will see it putting men to work; you will see it stimulating the agricultural, the industrial or the transportation equipment of the country; you will see it creating new demands for labor, raising the rate of wages and increasing the productivity of things which men desire.

"If savings are devoted to necessities purposes, it makes no difference whether they are the savings of the workmen or of the millionaire, they ultimately accomplish the same result —they increase the supply of things and the whole community is enriched.

F. A. Vanderlip said that. It is true, too. For $25 in the savings bank stands at the same jobs to which the $250,000 of the rich man is sent.

If the men who manage the Work are honest and capable they use our saved dollars to make this country worth living in, worth working by, worth being proud of, worth fighting to preserve.—John H. Oakhon.

THE BURDEN OF WORRY.

Today's Is Enough; Never Mind Yesterday or Tomorrow.

A wayfarer carried a heavy sack, under which he walked unemployed, and creakingly. From none could he get help or comfort.

Then there slowly journeyed, grasping under his burden, the Angel of Opportunity, came to him and spoke kindly, saying:

"Brother, what carriest thou?"

The man answered sullenly, "My worries."

The angel smiled pitifully upon him and said: "Let us look into the burden and examine thy worries."

And so they looked in. But, lo, the sack was empty!

"Why, surely," cried the man, "there were two great worries, too heavy for man to bear! But—ah, yes, I had forgotten—there was a worry of yesterday and so it is gone."

"And the other?"

"Behold, that was a worry of tomorrow, and it—it has not yet come."

Then the angel smiled with infinite pity, saying:

"Brother, He who hews himself loads of burden with the worries of yesterday and tomorrow wears himself out for naught. And he who carries not the worries of today has no need of a sack for his sorrows. If thou wilt cast this sack from thee and go on with only the strength and cheer and courage to the things of today real misfortune never overtakes thee."

Wondering, the man did as the angel commanded.

And as he took up his journey and went lightly, swiftly on, his heart and his mind were free to receive the love of brother wayfarer of his burdens and the sweet fruits and flowers along the wayside.

And when he came at last to the setting of the sun it was with smiles and a song.

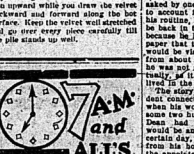
Going to Extremes.

"I tell you what," said Gotham, exterminator, to his wife cousin, "every thing is so high here it's almost impossible to keep a house going."

"Well," replied the cousin, "the winds are so high out our way it's almost impossible to keep a house from going!"

Ironing Velvet.

Velvet must be ironed over the iron so as not to touch the cloth. The best way is to get some one to hold a hot iron over it while you draw the velvet backward and forward along the hot surface. Keep the velvet well stretched and over every piece carefully till the pile stands up well.



A glass of this bubbling tonic is like a shaft of inner sunshine. Gloom or a grouch cannot live in the same body with it.

GERMANY'S AIR FLEETS.

Plans Are Thrilling to Contemplate, Even Though Impracticable.

If this war had never been, had it Germany's plans been carried out, she had established sailings of fleets of aerial passenger carriers across the North Sea to England, carrying tons of merchandise, delivering it regularly, swiftly, surely. Other regular fleets would be flying to Italy; the whole world would have been astonished at the swiftness with which the world would have been centered on that subterranean, that subterranean sails!

That has come at last, the conquest of the air.

Germany has done that very thing, except that it has come in the form of bombs, instead of merchandise. For the fleets of Zeppelins and the fleets have sailed regularly with their cargoes of tons of bombs which they threw broadcast where they chose in England. And they have served, in fact, to serve not for the guns of war there would be little doubt that England, with her fleets, the airships have been lost through any cause except inefficiency.

England, too, has established a regular passenger line of airships between her coast and France. The planes sail almost hourly, carrying scores of persons and a ton or more of freight, and so far there have been no accidents.

We have been so intent upon the war, we Americans and, as it is, airplane battles above the war fronts, that there has been little note of the boom-boom in England, the fleets have failed to appraise the achievements of the British Government in relation to future trade and trade routes. But Dr. Dernburg has appraised those feats at their proper value and already they are planning air routes for German commerce after the war.

Before the war Germany specialized in the manufacture of a number of articles which could be made more cheaper there than anywhere else, and Germany had almost a world monopoly on those articles. Among them were a large line of dyes, by-products such as dyes and medicines. Among them also were thousands of different kinds of materials and the many kinds of delicate instruments. Germany had a world trade of a billion dollars' worth of them take place annually. Dr. Dernburg has said, a submarine, with not much more cargo space than a big seppelin airship, would be worth more than $4,000,000 worth of this stuff in one trip.

A London newspaper has started the idea that after the war Germany will send from Germany to the west coast of Ireland without stop, and from there to Newfoundland, a fleet to Nova Scotia, and from there to Boston and New York. The voyage of airships will sail to India and the Orient, and to various other countries of the Mediterranean.

The airplane says Germany is saying: "Our fleet of merchant ships is captured or destroyed, we know, and our fleet of warships and battleships and submarines and airships to replace them. But we have yet two units all of that trade we have lost, and get it at once through our airships. Our plans are made for the new trade, our resumed manufacture at once, we can make more than ever before, and we can carry by airship quickly and at low cost.

That is what we say Germany there is enough of fact in it to warrant its being taken seriously. Here in the newspapers of England are printing columns about it, and it is interesting enough for the world here, as indicating one of the speculative possibilities after the war.

To See an Eclipse.

The Manchester Guardian, in England, makes itself responsible for the following story: Not long ago, when, in the usual order of events, there was to be an eclipse of the moon visible at Greenwich—a man whose work brought him daily into Manchester, but who lived in Rusholme, about two hours earlier than usual. Upon being asked by one of his fellow passengers to account for the sudden break in his habits, he replied that he had to be back in the city before 9 o'clock, because he had read in his morning paper that the eclipse of the moon would be visible from Albert Square at about that time, and, as he said, he was not going to miss the opportunity, as it was a thing which lived in the country!

The same paper tells the famous incident connected with Dean Swift, when his word was 'law in Dublin, soon to be known as Swift's Asylum. Dean had announced that there would be a collection of alms on a certain day, at a certain time, visible from his house. At the time appointed the appointed hour, large crowds of people flocked from all parts of the city. A congregation assembled. Dean's house, much to his annoyance, was much thinned, and in forlorn him, that he finally sent out word that the manifestation of what the eclipse had been postponed, and would not take place for some weeks. The people at once returned to their homes, disappointed, but unquestioning.

His Choice.

"Is he making any special claim for wanting you?"

"No. Says he'd rather die in battle than live the rest of his life as a liar."

One way to teach children to be good is to set the example.

A good start has all the requirements of a bad finish.

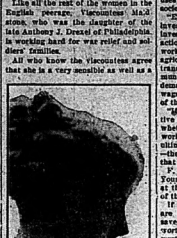
Wife of Viscount Maidstone Was Miss Drexel of Philadelphia.

INTERESTED IN WAR RELIEF.

In the Growing Circle of American Wives of English Noblemen None Is More Beautiful Than the One Time Margarita Drexel.

Like all the rest of the women in the English peerage, Viscountess Maidstone, who was the daughter of the late Anthony J. Drexel of Philadelphia, is working hard for war relief and not merely ornamentally.

All who know the viscountess agree that she is a very sensible as well as a



VISCOUNTESS MAIDSTONE.

very handsome woman. Nothing that has been said, no limelight that has been shed on her, has turned her head. She has remained natural, spontaneous, unaffected and girlish. Her marriage to the Viscount Maidstone was not a matter of ambition. It was a love match. While the viscount is not a wealthy man, he has a social position in England which is unimpeachable.

A remarkable medieval romance connected with the Pinches, the family name of Viscount Maidstone's ancestors, was revived by the marriage of Miss Drexel to the viscount.

Tradition states that many long years ago one of the Pinches sold himself to the devil, who, when he came to claim his bargain, took his victim's heart, hence the bloody hand in the Pinches' crest; also the name of Bleeding Heart yard, which existed in the neighborhood of Hatton garden and which was formerly a Pinch property.

One year exists whereby this bargain with the devil can be wiped out, and it is recorded that several members of this family, filled with superstition, have endeavored to accomplish this penance. It consists of solitary confinement for seven years in a room called the Butler on the Hill. Food or drink of any kind desired is provided, but the original must not either see or speak to any one, though he may emerge from his prison eighty-one walk within limits prescribed limits.

It is asserted that within living memory one member of the Finch family attempted to fulfill these conditions and lived out for two years, when he died insane.

Salt Fish an Appetizer.

Serve salt fish often, as it seems to add zest to the appetite. Soak a half pound nice salt codfish overnight in cold water. Pick up into small bits and be careful to take out every bone. Put a quart of milk on to scald, add a quarter of celery cut up in small pieces. Chicken fish, a dash of paprika, a little pepper and a little flour, first wet in a little cold water to thicken the gravy. Put on buttered crackers. It can be made in the chafing dish also.

Soak a pound of codfish. Do not pick up, but keep to nice slices; wipe dry, then roll each piece in beaten egg, then in cracker crumbs, and fry a nice brown in pork fat. Serve with mashed potatoes.

Soak and pick in the usual way half pound of codfish, now put through the meat grinder as onion, a cupful of breadcrumbs, two hard boiled eggs and the codfish. Add salt, pepper and paprika and form into croquettes. Fry in pork fat a nice brown. Serve with mashed potatoes, drawn butter sauce and peas.

Sweets For Kiddies.

We consider Herbert Spencer to teach when that children should have sweets. But let the mothers see that the sweets they have are wholesome. A simple one and a sweet that cannot but delight, made in fancy shapes, is animal crackers in a simple icing permitted to harden. Dates are of themselves healthful. If the pit of the date is removed and the cavity filled with a bit of pure sugar candy or the date rolled in sugar or dipped in melted chocolate, a wholesome confection results. Raisins may be dipped in fudge or melted chocolate and will be relished the more by the children because of the novelty.

WAS GASSING A TRAITOR!

Surrender of Metz Was Never Put Explained.

Francois Achille Bazaine was born near Piron in 1811. Determining in youth to seek the bubble reputation in the cannon's mouth, he entered the army. Using the scion of a wealthy family, he could have readily begun to work his way through the ranks, but he elected to begin with the smallest of a private soldier and earn promotion by efficient service in the ranks. With such a spirit it was easy for him to win promotion, and almost before he knew it he was a general. He performed distinguished service in both the Crimea and Italy, and when the unhappy Maximillian was established himself in Mexico, Bazaine, in command of the French troops, conquered and held that country for the ill-starred Austrian prince.

After the early disaster of Sedan in the Franco-Prussian war all France looked to Bazaine to save it from the oncoming Teutons. His name was upon every lip. The fate of a nation was in the palm of his hand.

While the eyes of his countrymen were upon him, Bazaine made a move that stunned all France to stand agape. Retiring with his vast army into Metz, he made no effort to feeble resistance, which allowed the Germans to surround the city and bottle him up in a siege; and therefore his defenses of Metz showed a ragtag, pass their hands over the blank sheet that was the screen and shout lamentations of woe, as they sobbed or both them.

Gradually established pictures theatres throughout the country until now there are eighty of them.

Bazaine was shut up into a Chinese jail, but finally made his escape after getting the whole populace into the city of Metz. Before surrendering to the Prussians Bazaine succeeded in getting the people and made them change their minds by telling them that he would fight them to the last extremity, and make them work there forever.

CONTRARY ORIENTALS.

They Have a Habit of Doing All Things Just as the Other Fellow Does.

Every European who has lived long in the east will, I suppose, agree with me when I say that Cromer in the Quarterly Review, when I say that in the great trivial acts of life the Oriental somehow or other manages always to do or say exactly opposite to what we should do or say in the same circumstances.

I was one day looking out of the window of the viceroy's house at Barrackpore and noticed that a native policeman was walking up and down the terrace. His attention was attracted by a piece of paper which had blown to his feet. He stopped and eyed it intently. I conceive that under similar circumstances a policeman of any western nation, even if he had been barefooted and his feet had not, from the constant use of boots, lost their prehensile qualities, would, had he found a piece of paper, have picked it up. But the Bengali policeman kicked it with the wooden shoe from his right foot, seized the bit of paper between his two feet, brought up his foot to the level of the face, and, without stopping, conveyed the paper from his toes to the handkerchief held in his hand.

A friend of mine who was a very acute observer of eastern ways told me that on one occasion he had put to test the intelligence of an Egyptian, who had been in his service for years. The most uneducated member of any European nation, supposing he understood the English alphabet at all, would, he said, certainly have seized the paper and looked at it with his hand. The Egyptian, however, passed the right hand over the top of his head and with that hand took hold of the top of his left ear.

Petroleum in Canada.

According to Victor Ross in his book "Petroleum in Canada," commercial petroleum was brought into existence in Canada in 1857 by Dr. Williams, of Hamilton, who was attracted to the spot by the sight of the "gum beds" of Oil Springs. The name he gave to the famous oil was the discovery of petroleum in the old country. He was successful in extracting what he believed to be the same sort of naphtha as that produced by the gum beds. His first effort took the form of a retort and still, and from two barrels of crude petroleum by digging beneath the surface of the ground he excavated a well, and found that the deeper he went the more oil he got, the greater the yield. This was really the first oil well in Canada, and it was dug a year before Drake's well in Pennsylvania. Although it did not pierce the limestone.

The experiment attracted many persons to Oil Springs, and in the next twelve shallow wells were opened and worked in the immediate area of Oil Springs. It was not until Petrolea, in 1866, that any large yield could be termed the first real oil well was struck. This was the achievement of James Shaw, a poor Irishman, who had lived in the vicinity for many years, and had noticed the appearance of oil rock at a depth of 165 feet at Oil Springs. The result was a well that produced thousands of gallons an hour and flowed for a considerable long period.

Shaw received no permanent benefit from his discovery, and is said to have died in poverty. He was offered $35,000 in gold for his property when the well began to flow, but declined all proposals and lived to see the property which he had given to a "pumper" of a few barrels a day.

MOTION PICTURES IN CHINA.

There Were Lively Times For the Man Who Introduced Them.

A high cost of the fitness Japanese way says the Los Angeles Times-Mirror, a native of Odessa, Russia came to San Francisco. After the great San Francisco fire he left the city with an old-motion picture machine and a couple of reels of film. With that he sailed for the Orient. The moving picture was unknown in China when he reached there with his paraphernalia, and he ran into trouble almost at the beginning of wars. To the natives his camera and projector machine was a "magic box." He had to pay his fare and success to enter his theater, which, by the way, was also a tent, and he was to finally won the crowds.

Matters were progressing well with Brodsky one day put on a wild west film in which a band of cowboys appeared on the scenes, charging straight at the spectators and firing revolvers The moment the audience saw those shooting cowboys it made a break for the theater, pushing, panic stricken, over the tent theater, cutting their way out with knives.

After that the cautious natives were slow to come to the show. The Russian sky hit upon the plan of having a few Chinese come and animate the spectators, pass their hands over the blank sheet that was the screen and shout lamentations of woe, as they sobbed or both them.

Gradually established pictures theatres throughout the country until now there are eighty of them.

Bazaine was shut up into a Chinese jail, but finally made his escape after getting the whole populace into the city of Metz. Before surrendering to the Prussians Bazaine succeeded in getting the people and made them change their minds by telling them that he would fight them to the last extremity, and make them work there forever.

DISCHARGED SOLDIERS ANGER LORD MAYOR

LONDON, Nov. 17.—The new Lord Mayor, Alderman Hanson, formerly of Montreal, was presiding at a meeting called to promote the new Society for Discharged Soldiers. There was some opposition from advocates of a rival society, who, by the Lord Mayor's orders, were removed by the police. His Lordship remarked that this only showed the appalling manner in which German money can find its way even into the Mansion House. The disturbers, it is stated represented a society promoted by the discharged men themselves.

Under the captain, "Mansion House insolence," the Star tonight remarks that the men who have fought and bled for the stay-at-home heroes like the Lord Mayor and Lord Rutherford are to be denounced as Bolos as soon as they interrupt. This reference to stay-at-home heroes is scarcely fair either, for the Lord Mayor is seventy-two.

E. GUS PORTER IS THE WIN-THE-WAR CANDIDATE

Continued from page 1

ported by some of the best Liberals in opposition, thought it best not to enforce the Militia Act then in force, which would have enabled a call-up or draft of every eligible man to be made, but rather that it would be better to make a selective draft, taking only the men who could best be spared from the country and leaving those who could be best employed at home, and this was the Selective Militia Act that is now being made. Was this not a wise and a fair thing to do? It bears equally upon the rich and the poor, upon the society man as well as the laborer. It will furnish the support we promised to our men at the front, doing as little harm as possible to agriculture and other basic industries of the country.

AGRICULTURE PROTECTED.

People who are opposed to the place we occupy in the war or who are indifferent, as to our success, and who have no care or feeling for our men at the front have been industriously circulating the report that the policy of the Government would destroy the agricultural interests of the country by taking all the farmer boys and workmen so that it would be impossible to profitably carry on that important branch of industry.

People who talk that way are those in sympathy with the policy of Sir Wilfrid Laurier and of abandoning our boys at the front and degrading our country in the eyes of all other countries. They are enemies of the country because they are by such doctrine trying to diminish our force and thus helping our enemies. Nothing could be farther from the truth than such statements. On the contrary the late Government exercised the greatest care in the framing of the Military Act to see that it should bear lightly as possible upon the agricultural interests and other industries necessary in the development and progress of the country and general welfare of the people, and regulations have from time to time been passed to put this policy where it has been seen that a strict enforcement of the provisions of the Act might work an unnecessary hardship.

These few but important matters that I have mentioned are really the only ones in issue in the present election. For the time being the people are asked to forego political considerations and centre all their power upon the one proposition of winning the war.

BIG CANADIANS.

The people of Canada will prove themselves big enough and strong enough to do this, and no matter what efforts may be made by those who are trying to play the hide-and-seek political opinions to assist in this noble effort I feel sure that success will be ours because our cause is just and right.

If I may be pardoned for speaking of personal matters I would say that I have not had the honor of representing West Hastings for nearly 17 years. Up until the war crisis came I have been always in the best of my ability and without any wobbling supported the principles of the Liberal-Conservative party, and when I took part as your representative in passing the legislation to which I have made reference and in declaring myself a supporter of Sir Robert Borden's Union Government and its policy of Win-The-War I did not feel that I was forsaking any of the principles to which I have so long held as I have always considered the principles of the Liberal-Conservative party to be the best for the progress of Canada and the prosperity of the people, and as I now believe the present policy of our leader in the present extraordinary crisis is time to be best for Canada and so have had no hesitation in giving it my earnest and undivided support.

SEVENTEEN YEARS SERVICE.

During the 17 years I have had the honor of representing you I can with safety hesitation or reservation say that I have always to the best of my ability endeavored to do my full duty to my country and to this Riding, and I have never yet had either a written or verbal complaint by any elector as to my public conduct.

I naturally feel very proud of such a record, but I do not attribute it all to what I have done but a great deal to the faithfulness which the electors of West Hastings have shown me.

I might if I would take the time tell your attention to many things I have done for you in the way of service ed for our Riding since I have been its member in the way of public improvements and so forth, but I will refrain because they are already known to you or most of you, and my action in all such matters has been as your servant, trusted with your confidence which I have never abused, and the credit for it all is as much or more yours as it is mine.

I thank you for the confidence you have placed in me in the past and for the renewal of confidence you have expressed today and tomorrow you shall labor as best I can to uphold Sir Robert Borden's Government and its policy in the war and the special interests of West Hastings.

RESOLUTIONS

The following resolutions were unanimously adopted:

Moved by Mayor Ketcheson, seconded by C. S. Rollins, and resolved, that at a meeting of Liberal-Conservative electors of West Hastings, held at Marmora the sixteenth day of November, 1917, for the purpose of selecting a candidate to represent the Riding in the next Parliament, comprising all the qualifications of a Union Government candidate, the undersigned subscription of wealth, the economic use and the nationalising of all Dominion railway and transportation services together with war industries, in the best manner possible, for the public welfare and interest, to win the war, this being the true spirit of the resolutions.

And this meeting seeing no object of a contest in this Riding at the present time until after the war,

The present member, E. Gus Porter, K.C., being the logical candidate of the Union Government, is considered in all the qualifications necessary in retaining such position, having performed his duties during the various terms as a member for this Riding faithfully and earnestly to the electors whenever his services were called and with honor to himself.

We, the commissioned delegates and electors assembled, pledge the unanimous support of this convention to support E. Gus Porter, K.C., in the forthcoming election as a member of Parliament, believing it would be to the best interests of all parties in the Riding, the unanimous election by acclamation of E. Gus Porter, K.C., as their candidate for the war.

Moved by Mr. Robt. Cook, M.P.P., and seconded by Mayor Ireland of Trenton, that this convention, assembled to select a Union candidate for West Hastings hereby record their appreciation and confidence in the record already established by the Union Government and desire to add this to record our determination to give it our most hearty support.

The meeting was brought to a close by cheers for the King, Mr. Porter and she singing of the National Anthem.

LETTERS TO THE EDITOR

MR. FINKLE DENIES

Belleville, Nov. 16, 1917

Editor of The Intelligencer,

Dear Sir:—Having read in yesterday's issue of The Intelligencer a paragraph headed "Disgraceful Electioneering Tactics," I beg that you will kindly give me space in your valuable paper to answer the statements made by the "Prominent Conservatives" selected to, "Finkle Down" stated. There is scarcely an attack that will not rebut if the writer is addressed in connection with the "E. B. Leaning."

The trouble originally starts from Constipation. The Colon becomes decayed, and the filth each day sent to the Appendix at the lower right side of the Colon becomes irritated and inflamed.

By flushing this Colon with warm water in which an antiseptic powder has been dissolved the little sack is cleaned and the inflammation subsides.

Hundreds of operations for Appendicitis have been avoided by Dr. W. H. L. Cascade," and thousands of others who have had appendicitis attacks and constipation for years have regained their health completely. Most troubles of which the human family are heir arise from poison accumulated in the Colon which is absorbed into the system. Internal Bathing keeps the system clean, cures constipation and the hundreds of ills which are directly traceable to it.

These letters from among thousands in our possession should convince you that Internal Bathing brings positive results. Mr. James McLaughlin, 341 Evanston street, Winnipeg, writes:

"I bought a "J. B. L. Cascade" for the cure of a bad case of Appendicitis. It has done what you told me it would, save an operation at once. I had spent over fifty dollars in doctor's bills, but the Cascade completely removed in a few days every trace of trouble and gave me a feel and action well now, have regained my former health and strength. I feel like a new man. No doctor's advice."

A mother from R. R. No. 1, Leamington, Ont., writes:

"About two weeks ago our oldest son took sick with cramps in his bowels so bad he could not move. Our doctor gave him hypodermic injections and ordered him to the hospital to be operated on at once. Country to our doctor's advice we decided first to use the "J. B. L. Cascade," and in less than a week he was up and around, and has been well ever since. It also cured me of severe headaches and constipation. I cannot praise the Cascade enough, it certainly is a wonderful invention."

If you have Constipation, Headaches, Appendicitis, or feel languid and not just right, don't drug yourself—Bath Internally. Let us send you our free little book all about Constipation and Internal Bathing. It is free, and will well repay for your reading. Write Dr. Chas. A. Tyrrell, Room 120, 153 College street, Toronto, and the book will gladly be sent to you by return mail. Better write to-day —NOW, before you forget it. The J. B. L. Cascade is being shown and explained in Belleville by J. S. McKeown, Druggist.

MILITARY NOTES.

Major R. D. Ponton and Lieuts. F. C. Hanabrook and T. W. Quinn have been transferred to the C.E.F., Reserve of Officers.

Capt. D. Wilson, Dental Corps, recently returned from overseas, and was at headquarters on Thursday. Capt. Wilson is a brother of Lieut.-Col. J. M. Wilson, A.D.D.S.

The exemption tribunal composed of G. M. Macdonnell, James Stewart and Capt. Lickett state that they do not refuse to give the press information as to the cases before them. They have been very busy, and find it impossible at times to hand out any detailed statement.

The many friends of Major J. M. Wilson, Assistant Director of Dental Services for this district, will be pleased to learn that the authorities have seen fit to put a star over the crown of the popular officer. Col. Wilson has proven of great value in the organization of the Dental Corps, and his ability has been recognized by the numerous occasions in which he is called to act at headquarters in Ottawa on Dominion business.

A Grand Medicine For Little Ones

Baby's Own Tablets are a grand medicine for little ones. They are a mild but thorough laxative; are absolutely safe; easy to give and never fail to cure any of the minor ills of little ones. Concerning them Mrs. Jas. S. Hanley, Gleason Road, N. B., says:—"I have used Baby's Own Tablets and have found them perfectly satisfactory for my little one." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Rheumatism Cured

In the days of our fathers and grandfathers rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as many young people. Medical science did not understand the trouble—did not know that it was rooted in the blood. It was thought that rheumatism was the sure effect of exposure to cold and damp, and it was treated with liniments and hot applications, which sometimes gave temporary relief, but did not cure the trouble. In these days there were thousands of rheumatic cripples. Now, medical science understands that rheumatism is a disease of the blood—and that with good, rich, red blood any man or woman of any age can defy it. Rheumatism can be cured by killing the poisons in the blood which causes it. There are many elderly people who have never felt a twinge of rheumatism, and many who have conquered it by simply keeping their blood rich and red. The blood making, blood enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and it is the more general use of these pills that has settled rheumatism of its terrors. At the first sign of poor blood, which is shown by loss of appetite, pallid complexion, dull skin and dim eyes, protect yourself against the first symptoms of disease by taking Dr. Williams' Pink Pills. They have cured thousands of people—if you give them a fair trial they will not disappoint you.

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Appendicitis

Warm Water, Properly Applied, Prevents Operation and Has Cured Many Advanced Cases.

There is no doubt whatever that a great many serious operations for Appendicitis could have been avoided and the patient rendered immune from future attacks by the application of warm water by internal bathing of the intestines and stomach as prescribed. There is scarcely an attack that will not yield to this method if used in connection with the "J. B. L. Cascade."

The trouble originally starts from Constipation. The Colon becomes decayed, and the filth each day sent to the Appendix at the lower right side of the Colon becomes irritated and inflamed.

MYSTERIOUS MURDER OF CANADIAN SOLDIER

LONDON, Nov. 17.—A mysterious story concerning the death of Pte. Oliver Gilbert, Infty. in Canadian, in London, was investigated to-day by the Coroner. John McKinley, another Canadian of the same battalion, was handcuffed, marched to and met Imley on "Thursday night on Waterloo road. An Australian soldier asked them to buy him coffee. They did so. They later met this Australian with another and a civilian. The Australians told the Canadians not to stay at the Y.M.C.A., but to come to a certain house ,where they could have beer and a good time. The Canadians proceeded back to the Y.M.C.A., but in a dark place encountered this civilian again, who demanded money. The witness refused and a scuffle followed and says Imley was likewise assaulted. Imley died later in a hospital.

LETTER OF SYMPATHY

The following letter of sympathy has been received by Mrs. Hogan, of this city, in reference to Pte. Wm. Patrick Hogan, was killed in action October 19 17:

Dear Mrs. Hogan:—

I desire to express my sincere sympathy with you in your bereavement. The death of Wm. P. Hogan is a great blow to you and also to us all, his comrades in arms, and out of the many who have seen the path of duty and volunteered from these shops this is the first fatality.

"Bill" as he was known to us all, was part of our organization for many years and was a general favorite with everybody, and whose loss will not easily be forgotten.

All the members of the staff, all the men in the shops join with me in this expression of their good opinion of "Bill" and their sympathy with you.

I have taken the liberty of arranging with Father Killeen for a requiem mass, the date of which he will announce on Sunday.

Believe me, Dear Mrs. Hogan,

Yours very truly,

THE BUBONIC CURE

MURDER TRIAL TRAVERSED

It was expected that the trial of Samuel Rogers, of Marmora, Township, against whom the Grand Jury returned a true bill of murder, would have been proceeded with to-day, but Hon. Justice Masten, presiding over the case until the opening assizes, on application for the removal of bail was granted the accused in $5,000 and two securities of $2,000 each. The sureties were Messrs Daniel Rogers and William Farrell.

ELZIVER SHOOTING CASE

Before Dr. Kilgore, Coroner, at Actinolite yesterday afternoon, an inquest was held to enquire into the circumstances of the fatal shooting of Mr. John Wood. From the evidence it would appear that the shooting was accidental. Alfred Beckwater, a lady 13 years of age, discharged the gun, which caused the victim's death. The verdict of the jury has not been received in this city. Mr. Carney, County Attorney, represented the Crown in the case.

DEATH OF COL. HARRISON

Col. Edward Harrison, a former well-known and prominent resident of Belleville, is dead at Ottawa. Deceased was a son of the late Mr. Harrison, barrister, and for many years was a merchant of this city. Col. Harrison always took an active interest in military matters. Some years was the esteemed commanding officer of the 49th Hastings Regiment. Of late years he has been residing in Ottawa, in the civil service department. The body will be brought here on Monday afternoon per C.P.R. and will be taken to Thomas Cluni's where the services of the Anglican Church will take place.

Train Wrecking Cases Dismissed

Hard Fought Case Resulted in Dismissal of Five Charges Against Three Boys

After three days and a half of evidence, addresses and hair-splitting legal argument before three different juries, five charges against Roy Sanford and five charges against Frank Wilson for train wrecking on the Canadian Northern Railway at Thurlow station, east of Belleville, were dismissed, and five charges against Charles Lloyd for tampering with a switch on the C.P.R. were also dismissed. The last cases were not disposed of till the early hours of Saturday morning. The costs and every night since the cases started. There was a strenuous battle over the alleged written confessions of Wilson and Lloyd. Mr. Mikel, acting for the prosecutions argued that the tampering with the C.P.R. switch on June 19th last by which the switch light was thrown off and broken, and the switch turned so as to throw the approaching train off the track. Fortunately the trouble was discovered before any serious damage occurred. The C.N.R. prosecutions consist of the taking of the switch lamp and opening the switch as in the other cases, but in this case stones were placed between the switch rail and the rail of the main track and a number of cars were wrecked and other damage done. A number of prominent citizens were at the time on the train returning from Ottawa, including Sir William Mackenzie, Sir John Aird, K. B. Wood, K. A. Lash, K.C., W. H. Wesbrook, M.P., H. B. Murphy, K.C., M.P., Col. Hugh Clark, M.P., and Col. E. N. Lewis, M.P. Fortunately no one was hurt, but about $15,000 damage that the idea of causing the train wreck was inspired by one of the boys charged having attended the play known as "The Whip," in which a sensational train wreck occurs. There are still some other charges against the boys which the Judge could not preside to dispose of, but the more important one are those on which the boys were acquitted. The prosecution was conducted by Crown Prosecutor A. E. Jones of Toronto, assisted by Peter White, K.C., and W. N. Powell, K.C. The defence was looked after by W. C. Mikel, K.C. and A. Abbott.

Hun Warships Chased To Cover

(Special to The Intelligencer)

LONDON, Nov. 17.—An Admiralty statement issued today reports that British light naval forces met German light cruisers in Heligoland Bight early this morning and forced them to flee. The Germans, it is added, are being chased by the British.

houses, by special permission.

One canvasser had an interesting experience yesterday. He called at a house, and the servant answered the bell. The canvasser was informed that there was no one at home, and he call again in the evening. He was turning away from the door when the maid said "It's a wonder you didn't ask me." With that she sold her a bond, and upon calling back again in the evening to see the man of the house, he served another bond. This is a people's Loan, and the Government wants every one of the people to participate.

Belleville still leads the County by about $2,000, but the County, we are glad to say is creeping up on the city. The total to date for the County is $584,900 of this Belleville has bought $394,200. Keep the good work up Belleville. The County needs your money.

Various Claims For Exemption

Cases Dealt With By Toronto Tribunals Which are Typical

An idea of the work of the Exemption Tribunals may be gleaned from the following cases which came before Toronto boards:

Should Have Come.

David Watson Rose, 217 Grace street, a clerk at the Methodist Book Room, sent in a batch of testimonials from his pastor and family physician testifying that he is the sole support of his mother and grandmother.

He was in earnest he would be here to back up these statements, declared Mr. Tim O'Rourke, military representative. He can give his number more money in separation allowance than he can out of his $20 a week. Exemption was refused.

No Exemption for Crown Officer

Eyre, Mr. Melville W. Wilson's position as assistant Crown Attorney in the Police Court failed to save him from carrying out his military obligations. He was given until February 1st in which to get his affairs straightened out. Mr. Wilson, who is single, and resides at 55 Alexander street, and the application was made before Judge Coatsworth's tribunal.

Missionary Claims Immunity

Taking up his case the clause in the Act which provides exemption for the applicant is engaged in work of national importance, Norman J. Wellington Walker, a student at the Toronto Bible College, applied to Tribunal 100 for exemption. He was told to appear yesterday. He failed to do so, and at 4 o'clock Judge Morson and Brig.-Gen. Sentinel Davison, who composed the Tribunal, refused his claim. His application was not accompanied by a medical certificate.

Walker has been a student at the Bible College for two years, and has done missionary work in northern Ontario and Toronto. He advanced the claim that missionary work was essential to the welfare of the Empire, and quoted extracts from an address of a British Cabinet Minister to a British denomination, asking it to take over missionary work in the German colony on the West Gold Coast. In his claim, which was a lengthy typewritten document, he sought to point out to his advantage that missionaries had often settled disputes among natives when others had failed. He made no mention in his claim of being a conscientious objector.

Tears For His Mother.

"Twaddle," exclaimed General Sapinton Denison, when Wilfrid H. Sessions stated that his mother might lose her reason. The claim was refused.

Colored Minister.

W. H. Perry, colored, 167 Markham street, was granted exemption on the grounds of being in the ministry.

Tractors Save Money.

A writer says in that Farm and Fireside: "With the best implements, I judge that orders for fully 100,000 tractors will be placed by farmers who have come to the conclusion that mechanical power is better and cheaper than horses for the heavy farm work. Here is a little thought which may prove very influential, but I hope those seriously interested in tractors will appreciate its true significance. At the demonstration I met two young men who were brothers. They already had a tractor which they owned in common and which they bought last fall. First they went to their state short course, and learned all they could about the mechanics and the other took a course in tractors and soils. Then they both went to last year's tractor demonstration, picked out a machine that suited them, and placed their order immediately. A month later it was delivered, and they use it for fall plowing, also for belt work during the winter. By spring they had got their machine perfectly and were able to put crop into about twice the prepared seed beds. The year before we paid $860 for the extra help and horse labor we needed on our 240-acre farm; one of the brothers told me, but in the year since we have had the tractor we have cut that cost to a fifth—one man and the man. The total cost of running the tractor for the year was between $190 and $200, including fuel and oil."

Rabbits and Nut Pudding.

One pound rabbit, cut up small, two tablespoonfuls cocoa, of grated cocoanut, half pint cocoanut milk, two tablespoonfuls thick cream, half ounce (one tablespoonful) butter (two ounces desiccated cocoanut may be used instead of fresh), quarter pint (half cupful) stock, two tablespoonfuls extract, salt, pepper, vanilla extract and beat until creamy. Return to the flame, stir gently until dissolved and pour into a greased tin. When cool cut into squares.

Allies' Supply Of Oil Menaced

Much Concern Over Carranza's Determination to Quell Felaya Rebels

WASHINGTON, Nov. 17.—International apprehension has been aroused by the apparent determination of President Carranzan of Mexico to drive the long unmolested Manuel Palaez and his little rebel army from the oil fields near Tampico. It was trying today in all the embassies here that German influence had played a part in starting this move, which may prove embarrassing to the Kaiser's enemies.

General Manuel Diegues has been sent into the field at the head of a considerable force, with orders to clear the country between San Luis Potosi and Tampico of rebels. Official reports reaching Washington indicate the effectiveness of his work. Already he has defeated one body of rebel troops and killed Cedillo brothers, who have long been the leaders of the revolutionists in that part of Mexico. Unless ordered by the War Department to change his plans, it is expected General Diegues will move towards the coast and attack Palaez.

Representatives of foreign Governments display more concern over the news of the campaign against Palaez than they have over any recent development in Mexico, because of the fact that the Tampico situation is of vital concern because of the huge petroleum oil shipped from that port to the allies.

The fear now frankly expressed is that a determined action just now by the Carranza Government may result in the long-feared attempt to destroy the oil properties. In some quarters here, however, it is believed that Carranza will hesitate to drive the rebels to that point, in view of the political

ARMY BACKS LLOYD GEORGE

Crisis Over Speech at Paris Ended and Government Wins

LONDON, Nov. 17.—The political opponents of Lloyd George, having heard from the country, are dropping their crusade against him almost as suddenly as they started it. The Premier's enemies have utterly misjudged the verdict both of the country and the army on his Paris speech giving his plan for closer military co-operation. Many of the Premier's critics found in it the text of an agreement among Britain, France and Italy. When it was made public it was seen that the plan was not so bad as the Paris speech suggested. There is much grumbling still heard, but it is confined to a limited number of chronic opponents. Published letters in the newspapers and other expressions indicate that the army, instead of regarding the speech as an insult and derogation of its achievements, almost unanimously endorses the Premier's stand and vigorous statement. When the subject is debated next Monday in the Commons there will be little to reflect any hostile evidence of the critical fury which at first greeted the Premier's statement. Nearly all the newspapers in their Parliamentary columns to-day agreed that the crisis had passed, and the Government had won a complete victory.

MIRE BEAU—KERENSKY OR ROBISPIERRE—LENINE

Information from Russia continues to be sketchy in the extreme and to reach us only at the bidding of the forces which have for the moment gained the upper hand in Petrograd.

If we may believe these Maximalist reports, the siege appears to be all set for a civil war. Kerensky is reported in one despatch to have escaped to Moscow. If this is so, it means that he will rally to his support opponents of the Bolshevik propaganda and duplicate Korniloff's attempted coup de main of last September with much better chances of success. If he can succeed, this will quickly enough, and before the Maximalist element gets too firmly in the saddle, he can avert from Russia the danger of civil war.

The key to the situation rests, of course, with the army; it is probable that the heart of the army is nowhere near as bad as has been generally believed. Korniloff tried to use it against the Provisional Government only a few months ago and after it had been subjected to demoralizing delicate brought about by Petrograd Bolshevi. He found that for his ambitious purpose the army was not available and was saved from the consequence of his rashness only by Kerensky's well-known aversion to adopt stern measures. It is this same timid quality of indecision where his opponents are involved which has cost the ex-Premier so dearly. It is this which may result in the supreme power of Russian affairs passing from the hands of Mirebeau-Kerensky to those of Robespierre-Lenine.

How far will the army co-operate with Maximalist dreams? The answer to the whole involved Russian situation lies in it. A London despatch of yesterday says that "three Cossack regiments have declared their willingness to stand by the Provisional Government provided no surrender to the Bolsheviki is contemplated, it is too much to hope that this will give a lead which the rest of the army will eventually follow? The army is merely another name for the peasantry in uniform and the Russian peasant has a profound distrust for interference from without. Kerensky's pledges to the principal of peace with a land tenure, is quite qualified to peasant support in Russia for many years. Probably his failure to live up with this reform lies first with the peasant-soldiery for there with is a reference to the necessity of carrying up this propaganda among the Bolsheviki announcements.

More than ever, then, Russia's future centres around the personality of Kerensky. There is no need of recapitulating here the consequences to Russia of a final Bolshevik triumph and the conclusion of a "democratic peace" with Germany. The disastrous results of such a thing stand work out only through generations of enslavement to something which is far from democratic. If the Kerensky idea can be preserved through the ill will weather the storm. It will not do, moreover, to magnify the importance of this latest upheaval in

May Put Prelate In Witness Box

In Sister Mary Basil's Case, Judge Declines Opinion on Non-suit Motion

KINGSTON, Nov. 16.—It is expected that the evidence in the case of Sister Mary Basil vs. Archbishop Spratt and others will be all in by this afternoon, and the case given to the jury by evening. This case has now been in progress two days and a half, and has been full of sensational incidents, and at all sessions the City Hall has been filled with spectators, chiefly women. At this afternoon's sitting Mr. Justice Britton had to request the Court Crier to read the notice to the effect that there was too much noise in the hall, and to impress upon the assemblage that the court was not assembled as a place of entertainment. On several occasions the crowd had showed its feelings in a very marked way.

Mr. Justice Britton reserved his decision upon a motion made by counsel for the defence for non-suit of the actions against the episcopal corporation of the diocese, the Sisters of Charity, and Archbishop Spratt. His Lordship stated that he could not give an opinion until he had heard the evidence of Archbishop Spratt. Mr. McCarthy remarked that this rather embarrassed him in proceeding with the case. Whether the defence will put the Archbishop in the witness box was not known the evening.

Evidence of Several Persons.

The afternoon proceedings consisted of evidence for the defence by inspector Jack of the Children's Aid Society, Mrs. Kate Toye, Mrs. Mary Sullivan, and Mrs. H. F. Smith, with regard to food conditions at St. Mary's Orphanage, by Constable John Negros as to the part he took in the removal of Sister Mary Basil from the Orphanage, and by Dr. Daniel Phelan as to the mental condition of Sister Mary Basil.

Constable Tells His Story.

Constable Naylon denied that he used violence on Sister Mary Basil when he entered her room to take her away to Montreal. He denied gagging her or putting his knee in her abdomen. He said that at the conclusion of the epoch he remarked that a fine mess he had been made of it. Sisters on one side telling him to do one thing and a priest, Father Mee, on the other side telling him to do another.

Was Told Woman Was Insane.

To Mr. Tilley the witness said he was given to understand that he was dealing with an insane person.

"When did you come to the conclusion that you were not?" asked Mr. Tilley. "In the automobile and at the House of Providence," replied Constable Naylon.

"Has the Archbishop ever come to you and said what you said on him on that night?" asked Mr. Tilley.

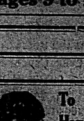
"Only, on one occasion," replied Constable Naylon. "The Archbishop came to my house without a doubt or afterwards." Witness did not see him as he was not at home. The Archbishop did not tell him that he came to see him. In a day or so he went to the Palace and the Archbishop asked him if it was what he had heard. That witness had put his knee on Sister Mary Basil's chest. Witness said he could not true. He also asked him how he came to mention his name. Witness replied that he had told that to Father Mee just to put him off, and to get away.

Dr. Phelan's Testimony.

Dr. Daniel Phelan was next examined for the defence. He said he had been practising in Kingston thirty-seven years, and had for years been honorary physician and physician to the House of Providence. He met Sister Basil several times in 1888 and 1896, when she was ill. She refused to eat, having an idea that she was being bloated up. Sometimes she thought she "food was poisoned, and at others that she could not swallow. A medical examination was made and nothing organically or physically wrong was found.

Not Asked For a Certificate.

Dr. Phelan denied that he had ever been asked by the Mother-General for a certificate regarding the condition of Sister Mary Basil. The Mother-General had asked him for a personal letter. When she asked him he could not tell. He did not know the name of the asylum in Montreal to which Sister Mary Basil was to be sent, as he had not heard it mentioned. He declared to Mr.



To Have Beautiful Hair Use

NEWBRO'S HERPICIDE

No woman can afford to be indifferent to the appearance of her hair. A mass of nice-looking hair, properly dressed, will add years to a woman's face than a pretty face, or expensive clothes. Don't allow the hair to become clogged with dirt and dandruff. Don't allow dandruff to destroy your hair. If your hair is inert, dead, dull and brittle and coming out by the handful every time you draw a comb through it, dandruff is the cause. To rid your scalp of the dandruff and check the loss of hair should be your first anxiety. NEWBRO'S HERPICIDE will do this and at the same time put the hair quickly in a healthy condition. HERPICIDE is a delightful hair dressing, greatest refinement on account of its vegetable color, fragrance and cleanliness. It contains no grease and does not stain or dye. There is nothing more delightful than this remarkable scalp preparation. It will help responds readily to a regular and intelligent use of NEWBRO'S HERPICIDE.

Tilley that he had never discussed plans about getting the plaintiff to Montreal.

He gave a letter to the Mother-General, on the evening of the day when Sister Mary Basil was to be removed. He understood it was to be shown to Father Mee, if necessary.

In reply to Mr. Tilley's question as to whether his letter was given to get Sister Mary Basil away, the doctor replied: "No."

Dr. Phelan said he could not answer Mr. Tilley's question if Sister Mary Basil was perfectly sane. He had never examined her. His advice was never sought as to the best place to send Sister Mary Basil. He denied telling Dr. William Gibson that it was not necessary to give a certificate.

C. P. R. Subscribe $10,000,000 if the People of Canada Subscribe $300,000,000 to Victory Loan.

"Spoil the war boys," said Sir Thomas Shaughnessy, at a great Victory Loan meeting in the Canadian Pacific Railway Company's new offices in Montreal last week. "Spoil the war boys and we will make it easier for the rest of Canada." Sir Thomas was referring to the $10,000,000 which the C. P. R. will subscribe to the Victory Loan on the close of an inquiry as to how much of the $300,000,000 which the people of Canada should give in support to the war.

The matter is settled now. If the people of Canada shall give $300,000,000 to the Victory Loan, the C. P. R. will subscribe $10,000,000 to the same loan. The people have given their answer to the question as follows:—The Victory Loan for $300,000,000 is covered by subscriptions already received, and by bonuses which are guaranteed. The determination that the Victory Loan of 1917 shall be the last war loan of the Dominion, and that the whole of the people of the Dominion, notwithstanding the inroads which the war has made upon their resources, shall provide the money by investment when the province is asked, indeed, maligned, by some whom efforts it should be, to bear its share of the expense of the war, and to help to maintain the credit and constitute.

The wealth of the land has now well entered on the fourth year of its duty. The burden which rests upon it in these days involves financial obligations of an amount and of a character never contemplated in the past; and though that load never been anticipated, and though that burden continues, the country has more resources and more endurance than the most sanguine of its friends would have dared to hope. Britain has been particularly great, because, in the hour of need, she responded to the finest necessary for her own purposes, and because of her continued position in the money world, she was compelled to assist in very large measure of the Allied nations who have financed.

The resources of our great neighbor to the south into the war relieved, to a large extent, the financial strain, because it brought to the support of the Allies the wealth of one of the three great nations, but the people of the United States, and very naturally, that "while we are willing, indeed, anxious, to lend all to the Allies that can be reasonably expected of the war, we expect that the interest shall be the greatest possible, the money should be expended in the country." Canada is in a novel condition and one to which no precedent obtains for the world.

A LOAN TO OURSELVES.

"Canada naturally wishes to continue to participate in the business of supplying the sinews of war and profits of the loan to the Allied armies, and with all other matters connected with it; but there is only one process by which this can be accomplished. The country must itself provide the requisite money, and, therefore, the Government is simply able to do so. Heretofore Sir Robert Borden has placed in Canada three domestic loans, the last getting, I think, about $150,000,000. In the present loan, the amount of the proposed was over-subscribed. Unfortunately, the people of the country are to-day in a much better position to participate in the loan to almost than they were in any previous loan. After the Victory Loan, as the Victory Loan, we are merely loaning money to ourselves. It is handed over to the Government and is paid back again to the people of the country. Whether the goods or services are purchased by Government war contractors or by any such small amount as it may be necessary to send abroad for the use of the war, that is very large portion of the funds comes from Canada and is charged or handed to the original source, and after a while it is paid back to the bankers and the people will have this money to lend to the Government again should it be necessary for the loaning. In manner has safely put away his Government or bonds representing the amount of his subscription, a security of the highest possible class unquestionable and unquestioned. Carrying a rate of interest which applies to Government loans only in exceptional circumstances as the present, and which, after peace has come and normal conditions have been established could never be secured by, least of advance in the market to a much increased rate in the face value.

"It is desirable beyond all things that a very large percentage of this Victory Loan should be subscribed by the people of the country generally, and which can be accomplished only if there will be evidence of the spirit of patriotism prevailing throughout the country, and that it is not left to the few, financially. Corporations and wealthy individuals, familiar with financial matters, will not be slow to see the value of this opportunity for them, should not have too much of the loan allotted to them. Every man, woman, and child in the country should be given the opportunity to participate in the loan, and it is the duty of the Government to see that this is done. The Quebec Loyalists

The reported death of Captain Pelletier, of the Princess Pats, reminds us that there is a splendid minority of French-Canadians who are gallantly fulfilling their whole duty towards the Dominion. Their conduct is all the finer because they have had to face the opposition of a large majority led astray by Sir Wilfrid Laurier and other false politicians. There is no warmer admirer of British institutions and no more jealous servant of the Crown and flag than Sir F. D. Lehmann, Lieutenant-Governor of Quebec. Hon. Mr. Seyers, Hon. Mr. Perodin and Mr. Balantyne are standing firmly by the Union Government and the Selective Draft.

Had Sir Wilfrid Laurier possessed the virtue and the statesmanship to accept the Prime Minister's offer of coalition, he could undoubtedly have brought a majority in Quebec into accord with the other eight Provinces of Confederation. Had he chosen to take this patriotic course a very ugly situation would have been averted. Canada would not have been faced with a division of the country into two hostile racial camps. The isolation of Quebec from the rest of the Dominion would have been avoided. In view of the apparent choice made by the Opposition leader, we think it would be wise if Conscriptionist Liberals would cease praising the man who has left them in the lurch. He and his policy cannot be fought with such weapons as the homage rendered to him by such politicians as Mr. G. P. Graham. The Opposition leader has made it plain that, in the event of his return to power, he will not enforce the Military Service Act, but will fall back on the voluntary system and a referendum. In thus deserting the Canadian army overseas he has surrendered to Bourassa. It is reported that the Nationalist leader will place no candidates in the field to endanger the success of the Laurier campaign. Every treasonable utterance of Le Devoir is a gun fired in the interests of the Laurier cause.

In face of this menacing combination the French members of the Union Government and the supporting leaders of the Wood Block, who gave consistent support to Sir John Macdonald, have been organized with a view to contesting as many as possible, if not all, the French-Canadian constituencies. L'Evenement warns the Province against the political impotency of French Canada, if it places itself in hostile opposition to all the English-speaking Provinces. Even La Presse urges the Mayors of all rural municipalities to explain the working of the Military Service Act to their people. It is problematic observers have conceded most of the sixty-five seats in Quebec to the Opposition leader, but acute students of the situation are saying that the Government may secure from twelve to fifteen constituencies. It has even been said that the return by acclamation of 35 or 40 Unionist members from English-speaking constituencies would have a powerful moral effect upon the French-Canadians and that in such an event many Quebec seats might declare for the Borden Administration on election day.

SOLDIER FARMERS AS HOMESTEADERS

The vocational training centres of the Military Hospitals Commission are turning out a new model in homesteaders, experts instead of novices who, according to the authorities, will advance the development of the western provinces fully fifty years in the next decade.

Returned soldiers, who because of their inability to follow their pre-war trades are taking up farming as a vocation, are going after the agricultural business with a vim and thoroughness that insures not only their own success but that of Canada declare the teachers in charge.

Scientific Pioneering.

Scientific training is stripping pioneering of its picturesqueness, but with the passing of the man with the hoe comes the man with the motor, and a new impetus for agriculture, to the infusion of young enthusiasm.

Introducing big business methods on the farm has attracted the interest of the soldiers. The world wide call for production has brought the importance of the farmer to the attention of the city men, and agriculture as a profession is drawing some of the finest and ablest of the returned soldiers to its standard, especially in the west.

College Courses

In the Institute of Technology at Calgary and the University of Saskatchewan there are large classes of convalescent soldiers absorbed in the style of filling the soil. The courses are the class rooms in many of the courses, and to see a big threshers or traction engine hailed mid-field and surrounded by an intent body of soldier students is a familiar sight to motorists in the vicinity.

A course in motor mechanics is of invaluable worth to the future farmer who will do much of his field work with motor power, and the farmer must be able to handle all parts of the machine. He will do his own repair work, and run a tractor economically as a result, and save much valuable time in harvesting season, as well as money.

Opportunity for Cripples

Men trained in such mechanical work even though their legs may have been sacrificed in France can earn good salaries running machines and repairing them. Not only can such a man be valuable in this way, but in the new era of electrical devices for the farm, a man of such knowledge is essential.

Poultry, dairying, and stock breeding are other branches which attract many men to the open country. The long years of experience which are thought necessary in the old days to bring a man to success in these businesses have been reduced by scientific instruction to the matter of a few months intensive study. The courses for students, who go about learning in a leisurely fashion in the agricultural colleges, have been condensed to eliminate all but the essentials.

New Interest in Books

The men are eager to learn, and anxious to get to work at their new profession. Not a minute is lost and discipline is a thing unheard of. The man who scorned "book learning" finds that coupled with practical application it is the only way to success in the fields it speeds one up. The man who new interest in text books proves later to take the theory into farm life the years of propaganda would never have done.

RUSSIAN IKONS

Ikons, or Holy Pictures, as they are made by artists in Russia to the icons which are found in such profession in all parts of the Empire, and which are a distinguishing feature of Russian national life.

These icons are used for devotional purposes and are not images as some suppose, but pictures of the Saviour, the Virgin Mary and the Saints. In these pictures all but the faces and hands are covered with metal-gold or silver gilt—and the gorgeous ornamentation of the setting fixes the price of the ikon.

Icons are generally painted by postulants for the religious life, who use as their guide a twelfth-century manuscript written by Dionysius, the famous prior of Mount Athos. Black Virgin ikons are not uncommon, while a favorite Madonna was brought from Mount Athos in 1648. This is known as the Iberian Mother of God, the Czar 'Alexis built a splendid chapel to house this sacred picture in Kiden Moscow. It is known as the Iberian chapel, and thirteen silver chandeliers with tapers constantly burning stand before the ikon which is decorated with a crown of diamonds and a veil of traction engine hailed mid-field and surrounded by an intent body of soldier students is a familiar sight to motorists in the vicinity.

A course in motor mechanics is of invaluable worth to the future farmer who will do much of his field work with motor power, and the farmer must be able to handle all parts of the machine. He will do his own repair work, and run a tractor economically as a result, and save much valuable time in harvesting season, as well as money.

Short Shrift Now For The Disloyal

Former Pastful Tells of the Activities of American Secret Service

Bishop Charles Edward Mitchell of St. Patel Mitel, located in Toronto, on "The New America."

So far as the present war was concerned, the people of the American Republic were long in finding themselves. Dr. Mitchell himself had been a violent pacifist. But his pacifism has been suspended until Germany was beaten to the dust. He described the vast army of Germans and Austrians in the United States. He spoke of the spy menace, and of the insults piled upon insults. Then, he said, the American people finally woke up. President Wilson saw that he could depend upon a united nation, and war was declared.

Uncle Sam Awake To-day

"Uncle Sam was asleep a long time," said the speaker, "but make no mistake, he is wide awake today. Last week as I was travelling in the Middle West two men sitting before me in the car looked out of the window at some soldiers guarding a bridge. 'Look at them damned soldiers,' said one of them, in hostile tones.

Across the aisle, reading a newspaper, looked across, but said nothing. At the station, the newspaper reader, tapped the other on the shoulder and said "Cs come with me." The man who had cast a slur on the soldiers replied swiftly enough "You go to ——." "You come," rejoined the other, flashing the badge of the United States Secret Service."

German Minister Caught.

A German minister in my conference," he continued, received a Liberty Loan circular. His wrote scurrilous words on the margin and returned it to the central office, of course, not signing his name. In five hours the Secret Service men had him. I telephoned, suspending him from his office, and a committee met immediately and deprived him from his Ministry. He is out on $10,000 bail. He will be tried next week. I hope he gets ten years."

Thus, with incident and description, with appeals to history and humanity, with flaming compliments to Canada and the noble army of St. Julien and Vimy Ridge, Bishop Mitchell stirred his hearers to the very depths and held them entranced for two splendid hours.

RUSSIAN OFFICERS COURAGEOUS MEN

A destroyer hitting an enemy mine and going to the bottom is, even in the Russian fleet, such a small item in a war on the scale of the present that it hardly deserves more than record, especially as many of the crew, and perhaps all, were saved. But the loss by Russia of the destroyer "Okhotnik" which means "Sportsman," has remarkable points that bear upon the general situation of affairs in the Russian fighting forces.

The accident happened quite near the coast, and 11 sailors got ashore in a boat, reporting that the rest of the crew had also taken to the boats. These are being searched for. But every officer of that destroyer had chosen rather to go down with his ship. It is evident there was time enough for disciplined men to get away clear in the boats, for there were even wounded among those saved. It is patent, therefore, that the officers deliberately chose death at the first fair opportunity in preference to further service under prevailing conditions.

DAUNTLESS COURAGE.

The officers of the Russian fighting force, whether by land or sea, have never before been so highly honored for their dauntless courage than in these days of internal trials, miseries and folly. With the enemy in front, storms and possibly assassins under their command, and the rear in a constant state of turmoil, these men stick to their posts, hoping against hope that the politicianing cloud which eclipses the real Russia may soon disperse and the sun of freedom with honor shine out once more.

I had recently to quote the opinion of British officers on the unparalleled bravery shown by Russian officers on the Galician front, where hundreds died at the hands of their own men, and hundreds sought certain death from the Germans to wipe out a disgrace that was never theirs. The tragedy of the "Okhotnik" tells the same story. It has been discovered that there are sailors at Helsingfors who are in receipt of pay from sources that cannot be accounted for amounting to 200 roubles per month, say $5000 per annum. The German naval staff has drawn up a list, said to include 400 names of Russian naval officers, who are regarded as "undesirables" and before these lists were discovered here some of these named had left this world forever.

Lend to your Country - All Canada is your Security

"The man, be he rich or poor, is little to be envied, who at this supreme moment fails to bring forward his service for the security of his country."

TISHA, DAUGHTER OF HADINA

"And what shall please them ot my honey?" inquired the smiling Hadina, turning abruptly from Tosi.

"To-one the city from the country," replied Jether, his accustomed light heartedness returning.

"Nay, that I will not do," she retorted. "The last time from Jerusalem."

Hadina quickly plaited her head over the girl's mouth to choke off any repetition of the mother's slighting remark.

"Now, by our lady Ishtar, then shalt do my bidding," she added sharply. The girl bowed her head in submission and saluted Jether by half kneeling before him.

"Then Tisha stands before thee, Jether," she said obediently, "and would have knelt, but Jether restrained her by taking her hand.

"Thou shalt not kneel," he commanded. "Thou art beautiful."

Tisha laughed, a melodious, rippling laugh.

"My servant is glad if she pleases thee," she answered coquettishly, "I but do the bidding of my mother, for her word is law to Tisha. Still, in my own behalf, I would welcome thee to Jerusalem and bring thee wine and food after thy journey. Didst come far?" she added, after bidding the Nubians bring refreshments.

"From Hebron," explained Jether, seating himself on a divan and motioning to the seat beside him. Tisha and Nadina, with a nod of understanding, left them, and as they walked toward the house it could be seen that the two had come to a mutual agreement as to the amount of Tisha's commission for bringing the rich young Jether to this resort of pleasure.

"And stayest thou long?" inquired Tisha.

"As long as thou dost make me welcome," replied Jether, for the boy had now lost the sense of awe in the beautiful girl set beside him and cast smiling glances at her big dimples. The girl laughed and leaned slightly in his direction. A perfume delicate and sweet wreathed his senses. His head reeled and took her hand.

"As long as thou dost desire to stay so long will we make thee welcome," whispered Tisha, "thou son of Judea."

The girl leaned toward him, her head was tilted back. Jether's eyes filled with a mist. The odor of her perfume was irresistible. She laughed and showed her wonderful gleaming teeth of pearl white. Impulsively he put by throw his arms around her. He felt her sweet and supple body and clasp him tightly to her. They kissed, and in that kiss the soul of Jether for the first time in his life was bruised and tarnished by contact with the world.

CHAPTER VI.

"In the House of Nadina."

FOR days and nights Jether lived in the house of Nadina and Tisha, the favorite of Jerusalem.

Days of heavy and insatiably, long sleep, followed by nights of drinking and carousing, of dicing with the men of the gay throng who frequented the house of Nadina. Of wonderful hours spent in the company of Tisha, who for his sake abandoned all others and fatagged not when they begged her to drink a goblet of wine with them.

And it was indeed a strange company who frequented the house of Nadina. The favorite of the Nubians of Put, the son of the wealthy shaalon, a handsome and athletic young man with long, curly hair, for that was almost black. Not only for the money, but for his good looks, was Put a popular with the two score or more of fashionable ladies who found the house and garden of Nadina a comfortable resting place. Hadramut, an Arab horse dealer, who passed heavily with Put at the dice table; Purandias, a Mede, who carried in Jerusalem on a secret mission, and Hadji, the sayer, who were other friends who spent much time in the house of Nadina.

One day Barzil, the tax collector for King Solomon, brought with him Hagipal, a stern and sonous visaged Judean, who gazed disapprovingly at the statue of Ishtar, goddess of love, in the shrine in the garden. Hagipal found Jether by the arm and sought to reason with him.

"Thou art a son of Judea," said Hagipal kindly. "Dost know that all of these people are idolaters, worshippers of the gods of Babylon, and that Nadina and her daughter Tisha are all Babylonians?"

Put Jether, overcome by the fumes of wine, laughed.

"What matter?" he cried. "I care if they do worship the gods of Babylon and wood. Does that make Tisha less fairer? I care not. I myself am a Judean."

Haggai shook his head sorrowfully and would have wept.

And there, too, came Sadyk, the jeweler, that crafty old man, with his wares always in his pockets for the delectation of Nadina and the naughty young girls enthusiastically, after which they would proceed to something which made the

evening sunlight as she raised one hand to brush back some rebellious locks of hair.

"What now dost thou desire of me, my mother?" she asked, with a bored air, a favorite pose when taking to the youthful Jether and a look of resentment that was toward the smirking face at the entrance.

Nadina came to the naughty young girl enthusiastically, after which they would proceed to something which made the mighty prince of Judea," directed the beautiful Jether hath come to Jerusalem to see the great city, and thou must be his handmaiden."

Tisha drew herself up proudly.

"Nay, that I will not do," she retorted. "The last time from Jerusalem."

Nadina quickly plaited her head over the girl's mouth to choke off any repetition of the mother's slighting remark.

The girl laughed and leaned slightly in his direction. A perfume delicate and sweet wreathed his senses. His head reeled and took her hand.

"As long as thou dost desire to stay so long will we make thee welcome," whispered Tisha, "thou son of Judea."

The girl leaned toward him, her head was tilted back. Jether's eyes filled with a mist. The odor of her perfume was irresistible. She laughed and showed her wonderful gleaming teeth of pearl white. Impulsively he put by throw his arms around her. He felt her sweet and supple body and clasp him tightly to her. They kissed, and in that kiss the soul of Jether for the first time in his life was bruised and tarnished by contact with the world.

CHAPTER VI.

"In the House of Nadina."

FOR days and nights Jether lived in the house of Nadina and Tisha, the favorite of Jerusalem.

Days of heavy and insatiably, long sleep, followed by nights of drinking and carousing, of dicing with the men of the gay throng who frequented the house of Nadina. Of wonderful hours spent in the company of Tisha, who for his sake abandoned all others and fatagged not when they begged her to drink a goblet of wine with them.

And it was indeed a strange company who frequented the house of Nadina. The favorite of the Nubians of Put, the son of the wealthy shaalon, a handsome and athletic young man with long, curly hair, for that was almost black. Not only for the money, but for his good looks, was Putiphar with the two score or more of fashionable ladies who found the house and garden of Nadina a comfortable resting place. Hadramut, an Arab horse dealer, who passed heavily with Put at the dice table; Purandias, a Mede, who carried in Jerusalem on a secret mission, and Hadji, the sayer, who were other friends who spent much time in the house of Nadina.

One day Barzil, the tax collector for King Solomon, brought with him Hagipal, a stern and sonous visaged Judean, who gazed disapprovingly at the statue of Ishtar, goddess of love, in the shrine in the garden. Hagipal found Jether by the arm and sought to reason with him.

"Thou art a son of Judea," said Hagipal kindly. "Dost know that all of these people are idolaters, worshippers of the gods of Babylon, and that Nadina and her daughter Tisha are all Babylonians?"

Put Jether, overcome by the fumes of wine, laughed.

"What matter?" he cried. "I care if they do worship the gods of Babylon and wood. Does that make Tisha less fairer? I care not. I myself am a Judean."

Haggai shook his head sorrowfully and would have wept.

And there, too, came Sadyk, the jeweler, that crafty old man, with his wares always in his pockets for the delectation of Nadina and the naughty young girls enthusiastically, after which they would proceed to something which made the

evening sunlight as she raised one hand to brush back some rebellious locks of hair.

"What now dost thou desire of me, my mother?" she asked, with a bored air, a favorite pose when taking to the youthful Jether and a look of resentment that was toward the smirking face at the entrance.

Nadina came to the naughty young girl enthusiastically, after which they would proceed to something which made the

have I scorned and all because my heart holds me with such thin. Come day, I tell thee, my mother will go too far, and then Tisha will refuse."

Jether drew back sharply as he realized the true sentiment behind her remarks.

"When first I came," he said slowly, whilst thou not say thy love was mine and mine only? Didst thou not then speak, unlike thy merchants and by the other sailors, I did not talk forever of gains and losses. Thou didst love to hear the childish tales of old Judea. Did not thy mother, in her greed, bid me to give to thee the best room in all her house? Didst thou not, then, love me here, I changed? True, I have lived among the Nubians and lack some things they have who live in cities, but are not qualities that could love thee so I do," he added, seeking to take him in his arms.

Tisha eluded him. "Of all the friends who accompanied me with the one would fain to show me great favor?" she asked, her voice retorted. "Take notice, then Judean, I swear by my lady Ishtar, and she pointed to the statue in the shrine, "that I am not one of those maids who Tisha love then hate, then must show thy love before."

"Tisha, I love but thee!" cried Jether, in his arms, but she eluded him. He sought to catch her, but she rounded the edge of the fountain and when he had finally caught her and held her in his arms, he kissed her. The girl, her passion spent, lay quiet, and Jether, softly in his arms until a voice made them realize that they had been interrupted. They turned. It was Nadina, and behind her stood Sadyk, the Jew merchant.

Nadina came toward Jether, smiling, with Sadyk, the jeweler, close behind her. They bowed low before the young Jether, and Nadina, who had not been slow to observe the ways of Sadyk on more than one occasion.

"Well, what now, then now?" he inquired, while Tisha, a new light in her eyes as she beheld the wonderful jewels of Sadyk, clung close to Jether.

"Ah, Jether, a wonderful necklace I have made me wait upon thee. Behold! Such a necklace then shalt give to Tisha, as Sadyk, the jeweler, hath just completed for a five-piece set of pearls. Jether, a wonderful necklace I have bath pearled for strings of golden beads. How Tisha will love thee, then, which, if given to her by thee, would ever hold thee in her thoughts even when thou hadst left Jerusalem. How would you her from thee."

Jether angrily dismissed her with a wave of the hand.

"Nay, it is thy wish, not Tisha's, for thy lavish love of gold," he declared.

"And in my Tisha's words has thou gold?" demanded Nadina insistently. "Look at my child! Where hast thou seen a love like hers? Is a pearl of equal grace? See how like a tower of precious ivory her neck upholds a head nourished by the milk from Lebanon to Egypt. Thou must have seen many another maiden on thy travels. Was there any? Come now, my daughter."

Tisha, laughing coquettishly, turned and cast a languishing glance toward Jether, then spun on one foot and bowed gracefully.

"To thy mortals, Jether, does she not wait the fragrance of myrrh and of cinnamon? What, a pearl of equal? Then the possession of such beauty. And hast thou ever seen a daintier foot? Yet though this priceless gem flashes for thee alone, thou dost begrudge not a paltry ornament she hath set her heart upon."

Compulsion the Only Fair Way

Speedy in supplying the reinforcements for our fighting units in the very early Spring, when they will be most urgently needed and the present supply exhausted, is the first and most compelling argument for an immediate enforcement of conscription.

We must, however, not overlook the obvious defects of our old voluntary system, some of which have been well stated as follows: "It tends to deplete the country of its most patriotic and self-sacrificing citizens and to leave slackers in possession. It allows men to enlist for the front whose services would be invaluable at home, while others who could easily be spared thrive and fatten by increased wages and profits. It fails to consider the task of defending our freedom. It fails to bring out the full strength of the country at once. We can see all this as we look back. The magnitude of the effort still to be made leaves us no option but to look to the limit the Union Government which is enforcing conscription, the only just method in a democratic country. For, where the citizenship is equal, every citizen is equally responsible for its defence. Delay is fraught with the utmost peril. Every seat carried in the approaching election by a candidate who withholds his absolute support from the Union Government is like shelter for submarine. Let the Hun hear the good news of a Fighting Parade backing the Fighting Canadian at the coming election and so hasten the end of the war.

ADVERTISE IN THE INTELLIGENCER

War At Hill 70 Cost British $2,800,000

But Germans Lost the Position, and Glorious Page Added to Union Jack History

Herbert Lyon, late Canadian War Correspondent at the front, was the guest of the Toronto Canadian Club, and spoke to one of the largest audiences that had ever assembled in the history of the club, in addition to the members at luncheon, who filled every available seat, a large audience assembled in the gallery to hear the address an hour before the time of speaking. Mr. Lyon received a great ovation and spent the short time at his disposal in a detailed description with the aid of maps of Canadian operations at Hill 70, with the object of extolling the fine initiative, resource and courage of the Canadian army. He spoke in terms of praise of the work of Col. Mitchell, the chief of the Intelligence Staff of the 2nd Canadian Army. The thoroughness of the organization, he said, had made possible the splendid success of the advance on September 20 as compared with that on July 31st. No greater service had been done than that of sending Col. Mitchell to modernize the intelligence department of the 2nd army.

In describing the operations at Hill 70, Mr. Lyon said that the hill was protected by an elaborate system of barbed wire entanglements. It was the strongest defence line of the German trade. The problem was to sweep away the wire by gun fire. For weeks, day by day, hundreds of guns pounded away to get rid of the wire and day by day aeroplanes went over and recorded progress by means of photographs taken in the air at a height of 7,000 feet. These photographs were examined under a microscope and by the detection of a series of minute dots on the prints the Intelligence Department was able to find out the movements of the enemy, as well as their own progress.

The destruction of these wire entanglements Mr. Lyon showed was a most elaborate and costly affair.

There were 2,500 yards of wire involved in the Hill 70 operations. For the destruction of every square yard of wire one shell was needed, so that a front line trench of 2,500 yards long would require 35,000 shells. But that front was not all that was required in the operations. There were four lines to be cut and that meant 140,000 yards of wire. Each of these required ten shells because the wire was thirty feet thick. The average cost of each shell was $32.50. The total cost in shells of these operations was $2,800,000.

This was the work that Gen. Currie had done in taking Hill 70 and this was an illustration of the mechanical work required in carrying through a battle that did not last more than three hours.

It was a splendid example of thoroughness in preparation and in saving of the lives of Canadian soldiers.

Mr. Lyon gave a similar illustration in connection with the work of Gen. Rennie of the 4th Brigade.

Because of the success of the Canadians of Hill 70 in the wire operations they were chosen by the Commander-in-Chief to break the new German method of shell hole warfare. These were very difficult to discover and some of them contained machine guns cunningly concealed. The object is to force the British guns to pound away at empty shell holes covered over with wire.

JACK FROST MUST BE RECKONED WITH

There has never been a European war on a big scale in which Jack Frost has not participated.

The year 1812 saw the conception of Napoleon's scheme to invade Russia. Before inaugurating his plans he was careful to enquire of the experts at what date winter usually sets in in Southern Russia. They told him the middle of December.

It was on June 24 that he invaded Russia with 600,000 men, and he reached Moscow Sept. 14. That night fire broke out, and within five days the city was burned to the ground. Even then he remained until October before beginning to retreat.

In the last week of October began the worst frost which Europe had known for three generations. The ing sight of floating ice. The Hellespont and the Dardanelles were frozen. Jack Frost's icy fingers lay heavy even upon North Africa. Drifts appeared in the Nile and there were snow storms in Tripoli and Morocco.

Napoleon's huge army was almost wiped out. Four hundred thousand men perished. They froze to death in battalions as they bivouacked, and when at last on Dec. 6 Napoleon reached German soil, there remained of his army but 130,000 men.

During the winter of 1853-1854 the Turks were battling along the Danube against hordes of Russians. In the following September 25,000 British troops, a similar number of French and 8,000 Turks were landed in the Crimea.

ANOTHER TERRIBLE WINTER

Again came a terrible winter, and from the west of Ireland right across into Asia frost fell heavy upon land and sea. At London it froze for six weeks without a break. From Jan. 14 to Feb. 24 the thermometer was below freezing point every night. In the Crimea the cold was fearful, and the British army lost 20,058, and of these only 12 per cent. fell in battle. The rest were reduced by cold and disease.

FRANCO-PRUSSIAN WAR.

In 1870 came the biggest war of the latter half of the century, the titanic conflict between France and Prussia. By October 99 days 850,000 Prussian troops in France. Paris was besieged and there began the four-month investment, with furious fighting on both sides. Again Jack Frost came to the aid of the Prussians. A long spell of intense cold weather made life almost impossible to the half-starved French, while the Prussians, who had the whole country to draw on, besides their own excellent commissariat, suffered but little. Turkey and Russia was 1877, when the Turks were attacked by an enormously superior force of Russians with the Czar in command. Osman Pasha with 40,000 men, hurried inland to Plevna, a village which stood upon a hill, and there hastily entrenched himself. Time after time the Russians attacked him, but were driven back with terrible slaughter. Finally they settled down to starve him out. Osman's position was desperate. Weeks earlier than usual the Turks had no winter clothing and little to eat other than mouse porridge and horse flesh. They surrendered, and at last on Dec. 9 they marched to a break out. There were only 40,000

Over 1,000,000 People have heard this test!

The NEW EDISON

"The Phonograph with a Soul."

This host of people went to these concerts critical, doubting and curious. They came away amazed, dumfounded and *convinced*—convinced that Thos. A. Edison had given to the world a new art—the re-creation of music so flawlessly that it is absolutely impossible to tell the *real* from the re-creation.

No "talking machine" ever dared make such a test. None but the NEW EDISON could successfully sustain such comparison and have over 500 music critics confess that one could not be distinguished from the other.

When you hear the NEW EDISON pouring forth *real* music, in all its original beauty and warmth, you too will realize the wonder of this marvelous invention and will long to add to your home the happiness, pleasure, inspiration and comfort that only good music can bring.

We cordially invite you to hear this, Mr. Edison's favorite invention, in our showrooms. A visit entails no obligation to purchase.

Bourassa and Laurier One

So Says The Toronto Globe

"Mr. Bourassa," says the Globe, has publicly declared in the columns of Le Devoir that the attitude of Sir Wilfrid Laurier and his followers justifies the Nationalists in supporting Liberal candidates in preference to Ministerial. "But," he adds, "this does not eliminate, so he it well understood, the opportunity, the obligation even, possible, not alone against conscription, but against all additional war effort."

The pledge required by the Nationalists against the Military Service Act has been signed by Mr. Cannon, the Liberal candidate in Dorchester. It reads as follows:

"I, the undersigned candidate for the Federal deputation, by these presents, agree, if I am elected, to exact the immediate repeal or suspension of the Military Service Act of 1917, and all its effects, until the Canadian electors have been consulted by a plebiscite, and, should the majority of the people oppose conscription in this referendum, I agree to require that it (the Military Act) be considered as void and without effect from its very origin, and that in consequence the contingent be liberated from service and discharged.

"I also agree to vote against any Government that would refuse to adopt the above mentioned policy."

This pledge, which is to be exacted from the candidates of Sir Wilfrid Laurier in the Province of Quebec, and wherever else throughout the Dominion Nationalist influence extends, ought to be enough for even the most dictatorial of dictators.

"It may be said," continues the Globe, "that Sir Wilfrid Laurier's Quebec followers in signing the Nationalist pledge go so far that Sir Wilfrid himself has gone in his manifesto. The suspension of the operation of the Military Service Act until it has been referred to the people, as proposed by Sir Wilfrid, implies its abrogation if the popular verdict is against its maintenance. The suspension is therefore, demanded no more than by implication Sir Wilfrid Laurier is prepared to concede."

DEAF PEOPLE

HEARING AND NOISES IN THE HEAD can now be most certainly cured by the newly discovered Wonderful Electric Ear Drums, which restore right to the natural seat of the trouble. Call or write for booklet telling how I myself was cured.

One box is ample to cure any ordinary case, and the drums almost defy detection. I am in hundreds of cases which had been considered incurable.

Mr. D. Borthwick, of Dalhousie, N.B., writes: "They are comfort when I go to bed. I can hear perfectly. They are INDEED WONDERFUL. CURED me ago, and NOTICEABLY IMPROVED MY HEARING AFTER ONE YEAR TWENTY YEARS' DEAFNESS. am still pleased to recommend it to all my friends."

Dozens of other equally good reports. Drums are very tiny, which can be forwarded securely packed and post paid to any address upon the receipt of a postal or money order for $1. There is nothing further to pay.

TENDERS FOR PULPWOOD LIMIT

Tenders will be received by the undersigned up to and including the seventh day of December next for the right to cut pulpwood and mine timber on a limit containing 65 square miles, more or less, situated in the District of Timiskaming and Algoma.

Tenders must state the price per cord for all classes of pulpwood, whether spruce or poplar, which the successful tenderer shall be required to pay for the right and privilege to cut the same, at the time of the delivery of the scaled returns.

The successful tenderer shall also be required to erect a mill or mills on or near the limit and to manufacture all the wood into pulp and paper in the Province of Ontario, from some one of the mills mentioned in the Interim Timiskaming and Algoma Act.

Parties making tenders will be required to deposit with their tender a marked cheque payable to, if successful, the Treasurer of the Province of Ontario, for the sum of Twenty Dollars ($20.00), which amount will be forfeited in the event of their not entering into an agreement to carry out conditions, etc. The said limit will be put up for sale at $10,000.00 will be held by the Department for the period of the terms and conditions of the said agreement to be observed, to be have been complied with and the said mills erected and in operation as aforesaid. The said sum may then be applied to the payment of such dues as may be due the Minister of Lands, Forests and Mines, any arrears of ground rent, or any other moneys payable to the Crown in connection with the said the whole sum has been applied. The highest or any tender not necessarily accepted.

For particulars as to description of territory, capital to be invested, etc. apply to the undersigned

The Railroad Situation

In rigorous youth and old nations can survive errors that would destroy them in middle life. The American people have made mistakes during their history which would have been fatal to a nation less richly endowed by nature and less fortunate in all the conditions of its life. The lavish and reckless picture of some of our essential resources, soil and timber, most conspicuously, was a policy to which we have only lately awakened. It is not pleasant to think of our heedlessness and of foresight, but it is becoming necessary to do so. What material mistakes America could commit without immediate punishment are becoming fewer each year. We must learn to think ahead for another spirit than the lavish optimism of the American dream. The war with its great pressure is forcing us swiftly out of our complacency while it is creating conditions which will demand for a long time a more careful consideration of ways and means in private and public life, a stouter foresight, a more thorough habit in treating our problems.

One of the chapters of American policy least creditable to our intelligence is that dealing with the railroads. For a generation an enterprising and intelligent nation has bungled this problem, adopting a makeshift, one-sided system of regulation which only the very great prosperity of this country has been able to sustain. The regulation of rates and the prohibition of rebates have accomplished good. There is no thought of ever departing from the principle of public regulation of this central and vital public service. It is no less regulation we need, but better regulation, a balanced and inclusive regulation. If increase is to be regulated at its largest, it must be regulated at its still. If the price paid to railroads for their commodity is to be controlled by government, the price paid by the railroads for the constituents of their commodity must be brought under control also. This is basic, yet we have ignored it for a quarter of a century. The point is that we have reached a stage in our evolution in which we can no longer ignore it. We must make the forces of regulation protective not merely of the shipping public but of the transportation agencies also. Regulation must be rounded out. It must be no more than merely inhabitive upon the railroads. It must be constructive.

The present condition of the railroads calls not only for immediate measures of relief, but for the soundest and most broad minded consideration of constructive policy. The protection of the shipped from extortionate or excessive rates is only one element of the problem. If we are to have an efficient system of transportation we must protect the credit and other resources of the railroads so that efficiency may be maintained.

Under stress of war the government lately has taken upon itself to fix the prices of certain commodities, but for years it has been fixing the price of the railroads' commodity and of late the pressure from above and below has become so great, the cost of labor and supplies and maintenance, including taxation, has so increased, while the resistance to rate increases has hardly lessened, that the situation has become critical. If the pressure continues our system of transportation will be destroyed.

To-day the American railroads are giving an exhibition of patriotic efficiency which throws in each with the facts of our war preparation recognize. This ought to create an atmosphere more favorable to a fair consideration of the railroads' needs than has prevailed for many years. It ought to be coming home to the American people with special force during these days of testing that the legitimate needs of the railroads are basic needs of the nation. With a deteriorating transportation system national prosperity and national strength must surely deteriorate. The railroads are the arteries of the nation and the nation, like the individual human being, cannot thrive with defective arteries.

We have many urgent problems before us, some of these new. But the evolution of a constructive policy of railroad regulation in the interest of the public and therefore in that of the railroads is a war necessity as well as a peace necessity. We ought to be able, after a generation of experience experiment, and discussion, to determine upon and establish such a policy without further delay.

Meanwhile, however, the question of more adequate revenue for the railroads calls for immediate attention. The railroads have applied for an increase in rates, and we believe for reasons we shall outline another time, they should be granted without further postponement. Delay is gravely hurtful and we do not think it is necessary. Parts are available. Principles should be clear. The interstate commerce commission, we hope, will not show itself the only government body which the crisis of war has failed to stimulate to expeditious action.

SHOULD HAVE HELD RUSSIAN AGITATOR

William G. Shepherd, who has just returned from Petrograd, where he had been for some months a correspondent of the United Press, said that he did not believe there would be any civil war in Russia apart from the street fighting in Petrograd. If Kerensky escaped from his would-be captors and reached Moscow, he would be able to establish a new government in the old capital of Russia and get out of the army to remain loyal to the country to keep the Germans from making any further advances.

"If Lenine and Trotsky made a separate peace, it will be a separate peace for only a portion of the Russian army which has been poisoned by the Lenine doctrines.

"I am astonished after having been in all the warring countries of Europe to see the freedom with which the German aliens and sympathizers in the United States move about in perfect liberty. It was the Germans who poisoned and paralyzed Russia. The greatest piece of diplomacy in the world was achieved by the German who first worked out the scheme of getting Lenine to pass through Germany to Russia.

"I was on the steamship Kristiania fjord going from New York to Bergen last spring, when the Canadian officials removed Leon Trotsky from our midst at Halifax and detained him there for some time. If the Dominion Government had held him for an indefinite period, the history of Russia might have been different."

The authorities at Halifax refuse to give out any information regarding Leon Trotsky, who was reported as being at this port on the steamer Kristianiafjord en route to Bergen from New York. The steamer was here, but none of her passengers were removed while she was here. All passengers, however, underwent examination before the steamship sailed for Bergen.

MUST LAUGH, OR GO MAD.

That's Why There Is Humor as Well as Gloom in Col. Denison's Mill of Justice, Writes Woodsworth.

Mr. H. M. Wodson, the well-known Toronto newspaperman, has put the fruits of his years' experience of the Toronto Police Court into a book of 300 pages. The tragic part of his story he touches with a rare sympathy, and, for the humorous part, he makes this apology: "People have wondered what there could possibly be to laugh at in a police court. If those whose work takes them there day after day didn't laugh they would go mad." His book is called "The Whirlpool: Science From the Toronto Police Court," and is dedicated to Colonel George Taylor Denison, Police Magistrate of Toronto, and privately printed.

The Police Court, says Mr. Wodson, "is a place of tragic gloom; it is a whirlpool into which offenders against law and order are sucked; a public shop where men are tested against and sinning receive their deserts; a pit of pseudventure into which men sometimes slip; a purgatory time which falls with shuddering swiftness upon the necks of those who would menace society; a house of tears and sighs and evil temper; a clearing house where parcels of humanity are valued and classified; and sometimes—not too often—it is a mercy seat."

IT WORKED TWO WAYS.

Pat was eating hash for dinner when the priest arrived at his house to order a load of wood to replenish his fuel pile. Noticing the food on Pat's plate, he asked:

"Do you know this is Friday?"

"Yes, your reverence," replied Pat.

"Then why are you eating meat?"

"It's mince meat I'm eating," said Pat.

"Nonsense," said the priest, "meat is meat, in whatever form it is served."

An hour later Pat drove up to the priest's house with a load of sawdust.

"What do you mean by this?" demanded the priest. "It was wood I ordered."

"Yes, and this is wood," replied Pat.

"It is not. It is sawdust," said the priest.

"Well, your reverence, wood is wood in whatever form it is served."

AGE IS NO BARRIER TO KNITTING SOCKS

Mrs. Margaret McKay, 53 Belmont street, Toronto, is a real friend of the soldier boys. Although well on in her eighties she has knitted over 500 pairs of socks and intends to "carry on."

All alone in the world with the exception of a few devoted friends, Mrs. McKay spends all her time outside of her church work in slipping stitch after stitch over her needles in an effort to keep up the supply of khaki knit socks which every soldier asks for.

"My heart goes out to the boys on the firing line," said Mrs. McKay, "while taking an interest in motherless boys has been a life hobby with me I feel that at a time like this everybody should devote all their energies to bring cheer into the lives of the men at the front."

Mrs. McKay was born in Scotland, and her heart quickens to the tune of the bagpipes. Canada loomed large on her horizon when a young girl, and she came out to this country as a very young woman and settled in Beaverton.

After the death of her husband and son, also seven brothers and sisters, she took up residence in Toronto with her only daughter, Maly, both of whom were well-known members of St. Andrew's Church.

Copying The Hawk In Air-Fighting

How Major Bishop Has Won Victory Out of Tight Places

Much as has been said about Major Bishop, V.C., D.S.O., M.C., the hero aviator, very little is known of his methods of attack when in the air and in this connection it is interesting to note that Major Bishop was always a student of bird life. From childhood he had an interest for birds, and as a very young boy, it is said, he indirectly became interested in aviation in this way.

Since his return to Canada the famous aviator has hardly spoken a word about himself, but pressed for at least a little insight into his wonderful experiences at the front a few days ago, he told in answer to many questions just one or two things which to those who have admired his work are very interesting.

Of all the kinds of prey he chose to copy the flight methods of the hawk, and to the hawk he owes the fact that he has brought down so many enemy airplanes. Only those who have tried to bring down a hawk know how difficult that is, and only those who have come into contact with Major Bishop in the air know or know how hard it is to win against such methods.

And so, the hawk's method is Bishop's method, and now his great task will be, in his return to Britain, to teach others the way of bringing down the enemy and saving one self.

One Against Five

On one occasion Major Bishop was up to attack three enemy machines. To his amazement when he was well up he spied a fourth machine coming from the left, and a fifth coming from the right. It is known that he brought down four out of the five, but that was also the time he himself was wounded, and his machine partially wrecked. Hawk-like manoeuvers gave him the advantage over the great handicap of five against one, and although his own plane was rendered useless by quick judgment and unfailing nerve he managed to land into a tree which he spotted, thus breaking his fall and getting down with the least possible injury. Fortunately he had alighted within the British lines, although he did not know that until he had reached the ground.

There is something else, however, besides hawk methods that his figure in his success, and that is the spirit with which he has gone into each battle. That spirit said: "This may be my last fight. I will get this fellow whatever happens." In other words, each time Major Bishop has gone up he has determined to win, believing that if he were killed the enemy would also be one man and one machine short.

THE BOLSHEVIKI

It has been a little hard for Americans to understand precisely who the Bolsheviki (or Maximalists as they are coming more commonly to be called) are and what in this crisis of Russian affairs they really want.

A dozen years ago, when the party first got its name of Bolsheviki (which means in Russian those who demand the most, of which "Maximalist" is a Latinized equivalent), it was merely the radical faction of the Social Democratic party. Today it is stretching a point to call it Socialistic at all. The years during which the decaying Imperial regime disorganized every thinking man with its frivolous incompetence, the treachery and recklessness with which it mismanaged the war, the terrible toll of suffering and death its feebleness and corruption exacted from the nation, have driven the Bolsheviki beyond the point where they can reason coolly or hold themselves to so intellectual a political doctrine as a socialism. They are anarchists in feeling if not in name; they hate the idea of any government, unless it be the unbridled rule of the laboring class. They insist on the folly of making any further sacrifice for "national causes" since they care nothing for the nation as a unity, but only for the interests of their own individuals and now suddenly emancipated class.

Peasant is King.

The Bolsheviki are by no means a majority of the nation, although by their domination, their assurance and their fervor they have gained control of the workmen's councils and have spread their spirit far and wide among the people. Among the peasants, who dwell upon the soil they have never made great headway. The struggle in Russia today is for the support of the peasantry, the figures being upon that. Will they follow Kerensky toward a constitutional democratic state, or will they support the Bolsheviki in intrigues with this poison of class hatred and anarchism?

It is almost certain that Russia, if it escapes reaction, will establish a government and a social system that are much nearer a pure democracy than our federal system. Capitalists and industrialism will not flourish among the Slavs as they have flourished in Western Europe and in America. But the Bolsheviki, even if we grant them sincerity and a certain individuality as a protest against the greed and cruelty of the aristocratic regime, are not the sort of men who can establish or govern a state. If they can desperate enough, they can plunge Russia into civil war, destroy it, or tie its enemy, and even, conceivably, bring the czars back to the throne. But if Russia, like France, must face its Reign of Terror, there is no reason to doubt that, like France, it will end by dispersing and crushing the forces that threaten its national existence.

SEND BOARDS TO STATES TO HEAR CLAIMS

A novel feature in connection with the Military Service Act may be the establishment of Canadian exemption tribunals in the United States. When the proclamation calling out the first class of men was published a similar notice was issued the length and breadth of the United States. Its purport was that Canadians coming with the class were required to comply with the terms of the proclamation.

Urged to Report Here

Canadians resident across the boundary are urged, wherever possible, to return in Canada for the hearing of their applications for exemption, if such applications have been made. It may, however, be found that where large numbers of Canadians have settled in a particular district, it would be more practicable to send a tribunal across the line.

For this purpose, an Order-in-Council has been passed which relates that:

"That Minister of Justice may provide for the despatch to such within any class called out by a proclamation, who are residing outside of the Dominion of Canada, of forms of record for service and claims for exemption from service, for the proper recording of such reports and claims when executed and evidence and such medical examination as may be required and for the constitution of local tribunals within or out of Canada for the hearing of and determination of the claims for exemption which may be received from men living outside of Canada.

With Consent of United States

"Establishment of any Canadian tribunals across the line would necessarily be with the consent of the United States Government.

"Men who have served with the C.E.F. in Canada but have not been overseas are required to report or to claim exemption as the case may be.

Overseas Men Exempted

An exception in the Military Service Act, respecting discharged soldiers, had given rise to some misunderstanding. It excepts "men who have since August 4, 1914, served in the military or naval forces of Great Britain or her allies in any theatre of actual war and have been honorably discharged therefrom." The difficulty lay in defining a "theatre of actual war," whether or not men would be accepted who had merely been to England. An authoritative definition of phrase is that it covers the case of men "who have served overseas whether or not they have been in direct contact with the enemy infantry." Men who have been overseas and honorably discharged, will therefore be excepted.

To clear up prevalent misconceptions, the press has been requested to state that all men coming within the class 1, no matter what medical category (and not excepted by the act) are required either to report for service or to claim exemption. Only A men will actually be called up for the time being at any rate. But B, C, D, and E men must fill up their forms and if they wish to secure exemption must claim it.

A current idea that drafted men cannot rise to non-commissioned or commissioned rank is described as "rot."

PATRIOTIC MODES

What War Has Done to Modify Fall Styles Described

The government needs all the textiles and olive drab woollen material it can get, either leather, and therefore it stands to reason that women shouldn't try to make dress colors fashionable at the present moment. There is no such immediate prospect of their doing so. The smartest color today is brown in its various shades, from dun to bay.

Woman's patriotism may have something to do with her fashionable independence in the matter of clothes. She no longer submits to a complete change in each and in every six months. It is a fact undeniable that she has demanded plainer and more comfortable clothes—not that Paris has told her to wear this sort; not that the war has cut off the call of fashion—but because she must. Her clothes are not sombre; nor sad, nor plain. They are simply sensible, and that they will be from now on—or the signs of the times are to be misinterpreted—is not unlikely. In some cycles would have you believe, that women clothes will not be beautiful. It means that she refuses absolutely to be a party to any freakishness fashioned primarily for some person with an eye only to his own bank account.

The call for knitting fell upon the country with the advent of the war, and we are lightly encroached upon wide ecclesiast crotonne bags to hold the summer's sweater allowance. But now we are taking it all more seriously, and bags are being done to match the more elaborate costumes of knitting must be indulged in at all times, then certainly it must have its proper setting at all times.

There are knitting bags of the most expensive of materials. A black satin one has a medallion of bine Chinese embroidery applique conspicuously on its side. One of black and gold brocade has its rings wound with gold galloon and is adorned with tassels of gold. A silk one is made from a Polret print colored the gayest of red and blue and white. There are also interlaced ones of velvet and duretyn, also those with bright silver and enameled tops for knitting needles, protectors for their pointed ends, and devices for holding the yarn and myriads of other accessories of knitting.

BEAUTY HINTS.

How to Take Care of Your Complexion After Motoring.

Either hot or cold water applied to the complexion directly after a long automobile ride may do harm to the skin. And water need not be expected to take out the grime unless that layer of facing wind and dust have driven into the pores. A vigorous scrubbing at the beginning and will only make the flesh stiff and shiny and leave a painful, burning sensation or hours thereafter.

Defer the hot water bath for an hour and apply, when you come in from your ride, a thick cold cream, thus piercing it thickly over the face, around the ears and on the neck. Then rub it off with a soft cloth and powder lightly with talcum. The cool, fresh feeling is very refreshing and gives the stiff, hot sensation following a soap and water scrubbing. Before starting out on a motor trip protect the complexion by rubbing in a little vanishing (or grease-less) cream. A handy lotion for the purpose may be made at home, using an ounce of precipitated chalk, an ounce of glycerine and about a cupful of water. Shake thoroughly before using.

To Pick Up Broken Glass.

To pick up broken glass, which may be in very small pieces, wet a piece of cotton batting and rub it over the floor. All of glass will adhere to wet cotton. The cotton may then be put in the fire and there is no danger of getting particles of glass in your hands.

Packing Overshoes For Travel.

The best way to pack rubber overshoes when traveling is to put them on a pair of shoes. They will then take up practically no space and will not be crushed out of shape.

There was a large attendance at Barrie Presbytery when Prof. Law, of Toronto, gave an address on "The Church and its Relation to the War."

RUSSIAN CABINET IS MAINLY JEWISH

WASHINGTON, Nov. 16—It is considered in diplomatic circles that the cabinet as announced by the Maximalist-Bolshevik faction indicates control by the Jewish element. With the exception of Lenine, all the ministers are said to be Jews.

This is the first time Jews have attained open control. While it is true some of the members of the ministry under the Kerensky regime were Jews, and Jews have figured in Russian revolutions for many years, it is unsettled here that their assumption of power will lead to a renewal of the old anti-Semitic feeling, which may end in civil war.

The Modern Means.

New Railway Organization In Canada Will Make Sure That All Equipment Does A Maximum Service

Even the humble freight car trudging doggedly along on endless errands, carrying all manner of strange burdens at the behest of orders that never cease to come to us "do his bit," has extra duties looming to win the war. Along with all railroad rolling stock and other equipment the Canadian freight car is now the subject of special attention by the Canadian Railway Association for National Defence. This Association, which was recently formed at the request of the Canadian Government, is really a joint committee of all the Canadian railways, and is headed by the President of the various roads. This body has undertaken, to get at least a dollar's worth of service out of every dollar's worth of railway equipment in Canada. Unnecessary competition, the duplication of services and the wasteful use of engines and cars in other ways, are all to be done away with under this Association.

One of the worst forms of waste in this country is the unnecessarily large number of cars about that are only about three-sixths per cent of the maximum capacity of the average freight car is made use of by the shipping public. That same is even more serious when it is understood that the actual capacity of cars is at least ten per cent higher than the marked capacity. The betterment of such waste is easily appreciated when one knows that Canada has for some time been unable to get all the freight cars needed to carry crops manifests. One huge order for cars for the Armies in France was held up for many weeks owing to the lack of cars. New cars not only cost more than formerly—the price is practically three times the pre-war price, but the demand for new cars is greater than the supply, and Great Britain, France, and Russia have been placing orders in addition to the usual Canadian and American orders.

Now, however, in place of trying to buy enough new cars, the railways have united among other things to induce shippers to load their cars at least to the marked capacity. Of course shippers don't always like to do this. It is convenient sometimes to ship just one order in a car, or to pack a car only to a certain point owing to the additional cost of labor for packing more efficiently. Such practices are being made the subject of a vigorous educational campaign. The freight car must carry a full load hereafter.

Just to show how space can be saved it has been demonstrated by one of the implement makers that 3,500 binders, 3 mows, that a car are to be offered in almost every class of settlement. The Canadian Railway Association for National Defence intends to make a save of the new country where other tools

LARGE NUMBER OF TURKS CAPTURED IN HOLY LAND

Over 400 Dead Turks Counted After Yeomanry Captured the Sanjacke Ridge With 300 Prisoners—Australians Take a Large Number

LONDON, Nov. 19.—The following official statement was issued:

"Gen. Allenby reports that on Friday there were slow advances in certain sectors of our front. Our yeomanry, who on Thursday took Abu Schuche Ridge, five miles southeast of Es-Kantie, captured 300 prisoners and one gun. They carried the Turkish position at a gallop and 431 Turks were counted on the ground. The Australians in taking El Tine, captured large numbers of prisoners, one gun, three airplanes, and considerable quantities of ammunition and stores. On Thursday one hostile airplane was brought down.

"The Turks are reported to be endeavoring to prepare an entrenched position north of Jaffa roughly parallel to the River Aujer (Nahr El-Aujer)."

The centre of this group of returned men discussing Victory Bonds is Sunny "Jock" Waddell, who was one of the first Canadians to see fig hting in France. He has lost both legs, has suffered 26 operations, but is as cheerful as a cricket. The photo was taken at the Spadina Hospital, Toronto.

Take Pity On Poor Little Kid

Incident of Toronto Exemption Tribunal in Appeal of Diminutive French Canadian

TORONTO, Nov. 1.— Morally, mentally and physically "below" the standard of a soldier, according to General Denison, who said it was apparent from a casual glance, Joseph Henri Freed-Ley, was granted full exemption without a medical examination. His case became stronger with a letter he presented to the court. It read:

"I must have my exemption. I am only four feet five inches in height. Not able to take a gun in my hand. I am afraid. I must have my exemption because I am in bad health and have nervous trouble. I'm for much afraid of that. You die for your country, others say so that I am unable to fight and suffer as much as they can't. I will make do me old God you may be responsible for my death, if you don't give me my exemption. My father gives an exemption. Now is unable to walk and is sick and I have to go home my in order to help him. If I can't get exemption he will die. I am sure he will be too much sorry for it."

He said that he could not go and fight because he was not able to run or walk long walk. I am sure that as there is a God in Heaven I will die before going to war. Please, if you are a just and honest man, you will give me exemption."

The letter concluded with a plea to "take pity on a poor little kid like me." He said he would go fighting if he was not so nervous and weighed three hundred pounds.

LITTLE LAD KILLED GOING TO SCHOOL

Sad Accident This Morning at Latta's Mills When Ten-Year-Old Son of Joseph Gow Was Killed By Tweed Motor Stage

A sad accident occurred this morning at Latta's Mills when Carman John Gow, aged ten years, eldest son of Mr. Joseph Gow, was run over by the Tweed motor stage and instantly killed. The lad was on his way to school and had been given a lift in an automobile. Not seeing the approaching motor bus he stepped out of the auto directly in front of the bus and was knocked down, the heavy wheels passing over the little boy's body and causing almost instantaneous death.

Dr. Fladers, of Roslin was hurried for when he arrived at the scene of the accident he returned from Peterborough and was going to work his father's farm, which is the old James place, near Actinolite Station. He had just put in about one day's ploughing. He was a fine young man and was greatly liked by all the neighbors.

The funeral was held on Wednesday morning at 10 o'clock in the Methodist Church, Flinton, and was conducted by Rev. W. H. Webber, of Actinolite. It was very largely attended, the church being filled to capacity.

ACTINOLITE TRAGEDY WAS AN ACCIDENT

Shooting of John D. Woods of Peterboro, Who Was Killed While Driving With Wife and Child, By a Boy, Declared Accidental By Coroner's Jury

On Friday afternoon at Actinolite before coroner Dr. Kindred an inquest was held to inquire into the circumstances regarding the fatal shooting of Mr. John Wood, by a lad named Beckwith. The result was that a verdict of accidental death was reported.

The following composed the jury:— John Burns, foreman; Jas. Lavry, Albert Kleinstenber, Murdock Minnes, John B. Clarke, Theodore Kleinsteber, Robert VanMeer, Neil McGahey, Nelson Daniels, Neil Woodcock and Moses Demore.

Additional particulars of the unfortunate affair have been received and are as follows:

THE TRAGEDY.

Mr. John David Woods o. Peterborough, with his wife and child, was visiting his father, Mr. David Woods, of Actinolite. After spending a short time with his parents they went on to Johnston's Corners, where Mr. Woods was brought up and knew several people in the district.

They were driving along the main road and overtook two boys, by the names of Alfred Beckwith and Gordon Young. Beckwith was carrying a .22 calibre rifle and the couple had evidently been out hunting. They drove along a short distance with the boys, when in front of Moses Demore's house, Beckwith suddenly placed the rifle he was carrying next to Wood's side and pulled the trigger. He did not say anything but just pulled up short with the gun. The bullet entered the right side, penetrating the liver, duodenum and the mysenteny, and lodged under the skin on the left side. Woods dropped from the buggy and was carried into Demore's house, where he remained until he died.

WOODS' STATEMENT.

Drs. Kindred and Mather of Madoc were summoned immediately and spent the afternoon with the injured man. Woods, and at times did not think he would live until morning, owing to the great loss of blood. It was seen, however, that the injured man could not live long, and he passed away at noon Monday. Before he died he made the following statement to Dr. Mather:

"My wife and baby and myself were driving in a rig on the main road and overtook two boys. The Beckwith boy walked up and stuck the gun to my side and shot. The boy did not say anything before he shot. I said: "Oh, oh, that boy," and staggered out of the buggy. The Beckwith boy said after he shot me that he did not know the gun was loaded. I do not think the boy meant anything and do not want to see him punished."

STRANGE ACCIDENT

The accident was very strange. Young Beckwith, who is a son of Roland Beckwith, well known in the neighborhood, bore no grudge against Woods and possibly had not seen him since his moving to Peterborough over two years ago. Beckwith is about 18 or 19 years old and is of a rather careless and adventurous nature. Young Sedore, his companion, is 15 years of age. Beckwith said he didn't know the gun was loaded. He is at present at his home and is not being held by the authorities.

Deceased was 29 years of age and is survived by his wife and child, his parents and three brothers. He formerly resided near Johnston's Corners but had been living in Peterborough for the last two years. Shortly before the accident he returned from Peterborough and was going to work his father's farm, which is the old James place, near Actinolite Station. He had just put in about one day's ploughing. He was a fine young man and was greatly liked by all the neighbors.

The funeral was held on Wednesday morning at 10 o'clock in the Methodist Church, Flinton, and was conducted by Rev. W. H. Webber, of Actinolite. It was very largely attended, the church being filled to capacity.

CORP. JUBY KILLED

Word has been received that Corp. B. Juby, who left Belleville with the 39th Battalion, has been killed in action. He was wounded in the great German offensive in 1916, but recovered and returned to active service. His parents reside at Mountain View, across the bay, and his brother is employed at the Sinclair store. Many friends still regret the death of this gallant young soldier.

DIED AT HAMILTON

The death occurred very suddenly at noon Monday, October 29th, at Hamilton Military Hospital of Pte. Orval Herrington, eldest son of Delbert and the late Martha Herrington. Seventy of Belleville. Being a general favorite with all who knew him his death came as a great shock, although he had been in poor health for some time. Besides his father he leaves to mourn his loss two sisters, Mrs. Charles Collard of Galt, and Mrs. Fred Bidwell of Toronto, also one brother, Roy of Galt.

RESIDENCE DESTROYED BY FIRE.

On Sunday morning, a large frame residence, situated on the Canifton Road, a short distance north of the city limits, was destroyed by fire. The construction hoarding, and all efforts to stay the progress of the flames proved unavailing. The building was the property of Mr. Cornelius Donovan of Thurlow, and was occupied by O. T. E. employes. A considerable quantity of the household effects of the occupants were burned, but nothing of consequence was partially covered by insurance.

TWO DANGEROUS FIRES

Efficient Fire Protection Service Minimizes Danger—Powder Cars Removed From Fire Zone—Broken Arm—Wedding Bells—Death of Dr. Jacques

(From our own correspondent)

TRENTON, Nov. 19.—There was high excitement in Trenton at about 4 o'clock on Saturday afternoon when fire broke out in the first residence of Mr. Thomas Kingsley, on Victoria Crescent. In spite of the firemen's splendid work the building was burned to the ground. It took the combined incessant efforts of both fire fighters and citizens to keep the fire from spreading to the nearby residences on the hill. Mr. Kingsley's residence was ignited in several places on the roof by sparks, but fortunately this was quenched. A barn near by was partially destroyed. When it was found that the beautiful large home was doomed to destruction the firemen succeeded in removing a few articles of furniture but the main part was ruined. It is understood that Mr. Kingsley, who is a traveller, was away at the time and the loss is partly covered by insurance.

On account of the fire hose lying across the C.N.R. track the Ottawa passenger train was held up for about twenty minutes, the fire then being at its height. The north freight was also held up about ten minutes. They were finally allowed to pass and the hose being quickly connected again, continued to play on the house, which was now reduced to a mass of smouldering debris.

DEATH OF DR. JACQUES

The death occurred recently of one of Trenton's oldest and best known citizens, Dr. W. S. Jacques, at the age of seventy years.

Dr. Jacques was born in Consecon and when a young man went to the United States to take a course in the practice of medicine. He graduated from the Eclectric Institute in Cincinnati and later the Surgical College in St. Louis. After practising for twenty-seven years he returned to his native land, having retired from the profession. He took an active part in the town's affairs, being Chief Magistrate for a number of years, a director of the Canadian Northern, chairman of the Board of Education, president of St. George's Society, a member of the Canadian Club, etc. He leaves a widow, formerly Miss Sara E. Whitcomb, daughter of James Whitcomb, Esq., Trenton. Dr. Jacques was a member of the Methodist Church and the funeral service conducted from his late residence was attended by the officers of the Masonic Order and by Mr. W. D. Harrison of King Street Methodist Church. Rev. Mr. Hicks of Belleville and Rev. G. Hill, Rose of Grace Church.

HAULED POWDER AWAY.

A Brockville might have resulted in serious damage but for the promptness and efficiency of the fire brigade which occurred on Thursday last in the C.N.R. plant operated by the British Chemical Company. Considerable anxiety was occasioned among the employes both outside and in the near-by buildings, until the C.N.R. promptly responded to a call and hauled a quantity of powder away from the danger zone.

BROKE HIS ARM.

An accident occurred in the nitrating house of the British Chemical Co. with the result that Mr. J. Spafford had his left arm badly broken by being struck by a broken arm. He was attempting to turn a nitrating still which had become jammed slightly. Mr. Spafford has recently returned from seeing service in France.

LEE—GOULD.

The marriage of Miss Olive Gould to Mr. Fred Lee took place quietly in Trenton on Monday morning, 12th inst. Miss Gould is one of Trenton's popular young business girls, she having spent several seasons in the Dominion Organ and Piano Co. office on Dundas street, where she gained many friends, and Mr. Lee is an employee of the C.N.R. and is associated with the mail service between Trenton and the northern towns.

Havelock Excited Over Three Fires

PETERBORO, Nov. 18 — Exciting developments have occurred in Havelock during the past forty-eight hours which have culminated in the arrest of three men who are held in connection with three alleged incendiary fires which took place in the village Friday night. The prisoners are said to have grown out of threats by men affected by the decisions of the Exemption Tribunal sitting in the village.

The first fire occurred in the warehouse of J. L. Squires, which was burned to the ground the other fires were A. McIntyre's garage which was damaged somewhat, and a small blaze on C. P. R. property which was extinguished before much damage was done. The men under arrest are: Walter Varty and William and Earl McMullin.

Varty, when his case came before the Exemption Tribunal which is being presided over by Mr. Squires, was at first allowed exemption. However, it was allowed later that Varty's statements were false, and the decision was reversed. It is alleged that after the reversal of the decision Varty made threats that he would get even. Shortly thereafter the fires occurred.

The charge against Varty is arson, and the other two men are held for illegal infringements of the Military Service Act, in having defied the authorities by failing to report for service or claim exemption.

The arrests were made by Chief of Police Thompson and Detective Nesball and P. C. Slade of Peterboro. They arrived in Havelock on Saturday night and arrested Varty at 3 o'clock Sunday morning. The whole village is stirred, and few retire before the streets yesterday morning.

New Processes Invented And Discoveries Made By Germans in Wartime

THE Neue Zurcher Zeitung recently publishes a review of German inventions and technical matters in the field of war economics in which it is stated that systematic investigations into the properties of explosives have been carried on by the Kaiser Wilhelm Institute for Kohlenforschung and have resulted in a number of (trial) results, says the British Board of Trade Journal. The treatment of coal with nitrous oxide at ordinary temperatures has produced viscous, golden-yellow mineral oils, the amount of which is stated to be 60 per metric ton (11 pounds per ton of 2,240 pounds). A similar process has been elaborated by which through reaction with hydrogen under pressure, in the presence of nickel oxide as catalyst, it is produced that coal be liquefied to the extent of 70 per cent. Many manager as petroleum. Finally, by the use of nitrous oxide there have been found possible to alter the carbon compounds of coal in such compounds soluble in water, the chemical nature of which cannot at present be estimated.

The utilization of lignite has been greatly extended, and it is now stated that it is being used extensively as a fuel for the production of motor spirit, which have recently sprung up in the Central German lignite fields, especially in the neighborhood of Bitterfeld and Halle, where the German air-nitrate factories are located. A process has been discovered by which from lignite and other varieties of coal acetone can be obtained from lignite, and a method has been devised of using it for heating and smelting.

In the field of the investigations of explosives, a new "explosive" has been passed by the Ontario Government at the request of farmers' demand for grape juice, Dr. Geneve Caverhill, Director of Agriculture, Agricultural College urged the farmers of Essex county to "grow more grapes," when he spoke at Amherstburg's annual fair. The mild climate and rich soil of Essex county, he said, were ideally adapted for the cultivation of grapes and he hoped that the recommendations to the Department would lead to encourage grape-growing in the Essex peninsular district.

EIGHTY PER CENT. PROFIT REALIZED BY PACKERS

Commission on Business of Wm. Davies Company and Matthews—Blackwell Finds Gains of Concerned to be Exceptionally High

OTTAWA, Nov. 19.—That the profits made by the William Davies Company, Limited, and Matthews-Blackwell, Limited, more particularly the former, were exceptionally high during the war period and yielded "an extraordinary profit on the capital invested" is the most important statement made in the report of the commission appointed to investigate further the businesses of these two companies.

The commission, which consisted of G. F. Henderson, K.C., chairman, and A. B. Brodie and G. F. Clarkson, has made an unanimous report to Hon. T. W. Crothers, Minister of Labor. The report, after being under review by a sub-committee of the Cabinet, of which Hon. N. W. Rowell, president of the Privy Council, is chairman, has been made public in its entirety. Incidentally, it is pointed out that owing to action taken by the government recently it will be impossible in the future for packing companies to make excessive profits. Under the terms of the order-in-council packers in future can make by way of profit a maximum of 17 per cent. only. They can retain seven per cent. clear and one-half of their earnings on the money invested between seven and 15 per cent. Above 15 per cent. all profits are confiscated.

Profits made, according to the report of the commission, ran as high as 80 per cent. on the money invested.

The report was made by the Davies Company during the year 1916.

CANADA'S VICTORY BONDS STILL GO MARCHING ON

Hasting's County Ends First Week With $684,000 Victory Bonds, While County is Behind Total Objective—Million Mark Should Be Reached This Week

The result of the first week's campaign for the sale of Victory Bonds has been more than satisfactory in Belleville, where $350,000 has been sold to the loyal citizens of the loyal city. This is nearly double the objective set for the campaign, which was $180,000. County as a whole is still short $141,000 of objective. However, after a good rest yesterday it is expected that the canvassers in the northern part of the county will be able to pull up a big total for to-day and with the assistance of the lower part of the county bring Hastings past its objective to-day. For some reason the north part of the County has not taken hold as yet, but it may be that the people out there are more reserved, and will require a little more time to acquaint with the proposition before they subscribe. Even here it has been as it should be, a popular position which requires no consideration or thought. Buy and think afterwards is the motto. It is very hard on a canvasser to have to call back several times when the business could be settled at once.

Tonight at the Bird of Paradise production at the Griffin Theatre, Mr. Bailey, the manager of the company will address the audience on the advantages of the Victory Bonds not only as a patriotic offering, but as an excellent investment. Mr. Smith is a holder of both the Liberty Bonds of the United States, but has bought his Victory Bonds here in Canada. His film, "Miss Canada," will be shown to-night at the Palace Theatre.

Mr. W. B. Evans, the Hastings County organizer, has returned from Toronto, where he was attending a conference of the Organizers of the Province, held yesterday afternoon. Mr. Evans reports the keenest enthusiasm for the success of the Victory Loan from all parts of the province. The objective set for the Dominion of Canada was $150,000,000. This has been increased to $300,000,000. The objective for Ontario was $100,000,000. It is now $150,000,000. Of this Toronto must supply $75,000,000 and the balance of the province the same. So some business must be done before the next two weeks. Mr. Evans will also proceed to report that the Eastern District still leads the province, and expects to pass its objective to-day. Lennox and Addington and Leeds and Grenville have raised their quota now, and Hastings should get in that class to-day or to-morrow. Everyone should buy a Victory Bond. To bring this County up where it belongs, with the leaders of the province.

First Application of 1912 Redistribution Act Operates at Nominations

OTTAWA, Nov. 18.—Nominations for the general elections occurring on Monday next, will be the first application of the redistribution act which was passed in 1915 because Speaker, only since the last parliament was elected. There are many changes in the electoral map and candidates who have been accustomed to nominations in places now entirely new constituencies, in the east, several ridings lose their identity by being joined with others, while in the west, especially the increased population gives the last census, new divisions have been created out of old ones.

The membership of the house has been increased from 221 to 235.

For today's nominations and the subsequent election proceedings, two hundred and thirty returning officers have been appointed. The counties of Halifax and John City, with the counties of St. John and Albert, Gaspe, Bonaventure, Kent, North Cape Breton and Richmond and Pictou each elect two members jointly. Elsewhere, each riding will have one representative. Nominations are to be held between twelve noon and two o'clock, and one may be nominated who is a male British subject of age and otherwise qualified because of corrupt practices, or because of being a Government contractor, Government employe or member of the Legislature. There is no really qualification, but a $200 deposit is required.

Changes now becoming effective on the basis of electoral representation are reflected in every Province in the East; there are new constituencies and those which are wiped out. In the West, none has disappeared, but there are many new ones.

In Ontario, Brockville goes out as a separate seat and goes on to Leeds. The constituency will be broken as Leeds, North Grey, which formerly was with Bunbury, is now merged with Kinge and South East Grey are merged into one. West Huron goes out, and, is divided between North and South Huron. Where there used to be two Kents, there is now but one; the same with the Lanarks, with Middlesex and the two Northumberlands become one.

New constituencies in Ontario are Parkdale, in Toronto; lost instead of three seats in the Yorks; Port Williams and Rainy River, Port Arthur and Kenora and Thunder Bay.

Read instants in Quebec.

In Quebec, the representative is stationary at 65, but there are many various readjustments which gives the populous centers more and the rural districts less representation. There are numerous mergers in adjoining counties, which will now elect one member instead of two as in the past, for, Charlevoix and Montmorency are united; Chateauguay and Huntingdon; Laval and Two Mountains, St. Hyacinthe and Rouville and Verchères and Soulanges; New Westminster, whose constituencies are Georges, Elmore-Cartier, Laurier, Outremont and Maisonneuve and St. Denis, in Montreal, Hull and Ottawa.

New Scotia redistributions joins Antigonish and Guysboro, Cape Breton South and Richmond, and Annapolis and Digby.

The Acadian township of Clare, which used to be part of Digby, is put on to Yarmouth, making it the Liberal stronghold of the Dominion outside of Quebec.

In New Brunswick there is an all round shake up. Albert, that used to be with Kings, is joined to St. John City and County, the two electing two members.

Queen's, which formerly was with Sunbury, is now merged with Kings and known as Royal Sunbury goes on to York. Victoria is added to Carleton and Restigouche to Madawaska.

In Prince Edward Island, there is no change.

Going to the Western Provinces, no constituencies disappear, but new ones are numerous in Manitoba. Brandon has three seats instead of one, and the other new ridings are Neepawa, Nelson and Portage la Prairie.

In Saskatchewan, the new divisions are Kindersley, Lost Mountain, Maple Creek, North Battleford, Swift Current and Weyburn.

In Alberta, Calgary and Edmonton each have two seats instead of one, and other new divisions are Battle River, Bowriver and Lethbridge.

In British Columbia, Vancouver City gets two members, while in the suburbs is the new constituency of Burnaby.

Kootenay is divided into east and west. Other new divisions are Skeena and Westminster Districts as good as new Westminster. The Yukon, where the election is always deferred, stays with one member. Many constituents which retain their old names are changed considerably by the addition or subtraction of new wards or townships.

In the offices of the Clerk of the Crown in Chancery and the general returning officer, staffs have been working day and night for a month expediting election papers. The voters' lists have many typographical errors in Monday next, but it is not expected to get under way till a few days later, when the party leaders endorse their candidates and make public the military voters to know who is who.

When The Kidneys Fail

Poisons Remain in the Blood Which Cause Pains and Aches—Read Here of the Surest Way of Setting the Kidneys Right.

BROCKVILLE, Ont., Nov. 19.—It is a well known fact that besides backache, rheumatic pains you have reason to suspect the kidneys. Pain in gumed by poisons left in the blood when the kidneys fail, defective and fail to do their work.

Mrs. Brockville lady has reported her case because she believes that a great many people are suffering as she did without knowing the cause of their pain.

Mrs. Frank Noyes, 9 Stuart street, Brockville, Ont., writes: "For years I was afflicted with kidney complaints and backache. Sometimes I was nearly worried and had frequent headaches and a constant pain, especially through the back. I had indigestion, dizziness and the blood had not color. I was bothered with weak spells. I commenced using Dr. Chase's Kidney-Liver Pills and had used only two boxes when I felt greatly relieved. I continued the treatment, however, until I was completely cured, in all I took about ten boxes, and I do not been troubled in this way since. I highly recommend Dr. Chase's Kidney-Liver Pills, and I think also that the Plasters and Ointment can't be excelled.

Here is another letter to show how rheumatic pains disappear when the action of the kidneys is awakened by Dr. Chase's Kidney-Liver Pills:

Mr. John May, Walkerton, Ont., writes: "I was troubled with rheumatism in my legs and I became so lame that I could scarcely get around. Dr. Chase's Kidney-Liver Pills were recommended to me, and so I commenced using them. After I had been taking them for awhile I was delighted to find that my rheumatism had left me, and to-day I am as sound as a bell, able to get around and attend to business. I have made use of Dr. Chase's medicines in many ways for the last forty years, and can truly speak too well of their good qualities.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto. You cannot expect good results from substitutes. Insist on getting the genuine.

PTE. BRANT RECOVERING

Pte. Hugh Brant who went overseas with the 155th Battalion in October of last year has returned to the front. A reception was held for him at the home of his sister, Mrs. Elias Rogers, Bonnycastle Crescent, Tuesday evening of last week when friends from Belleville, Point Anne and the Reserve gathered to welcome him home. Pte. Brant is fast recovering from the wounds received in action on Sunday, June 4th, 1916, when he was struck in the head and face, and affected by gas. He has had to undergo three operations to save his eyesight, and will have to undergo another, more by hospital at Kingston for further treatment. A purse of money was presented to Pte. Brant at the reception.

CONSTRUCTION BATTALIONS DO GOOD WORK IN FRANCE

German Pay a Great Deal of Attention to the Men at Work Just Behind the Front Lines and Many Deeds of Heroism Are Performed by Canadians Facing Artillery Fire.

In the present phase of warfare on the Western front, the work of trench lines have practically disappeared and advanced posts have taken their place, the Germans evidently does not expect a further front-line barrages that made life in the trenches so uncomfortable. It is their intention, apparently, to defend these new posts that comes in for the constant attention of the enemy and it is in this area that the Canadian railway troops have been winning great praise from all sections of the army.

In this devastated country, where a pile of broken bricks, overgrown with weeds, and a sign with a map location, designates a village, and where roads have altogether disappeared, and even cross-country trails built in a single night, the Canadian railway men construct and maintain their lines. They also have the Portuguese, Germans, if anything, more personality and in greater volume than the infantry, as their need for large lines of ammunition and rations and men on different fronts requires that they be used and seen alike. The experiences of the railway troops are not lacking in excitement.

Lieut. Colonel F. Hiram Rowe, and his battalion from Alberta, is one of these who knows to look after, in a district which can be compared for ease with Hamilton and Dundas they have constructed one thousand and fifty miles of light railway. It has been planned so that if any line is suddenly destroyed by shells, traffic can be sent around in some way. The men and guns head peter way for anything. They are not supposed to be operating under fire, but the hottest times come, they are always found running trains and locomotive, in addition to doing their own repairs. And the trouble-hunting is one of the first lines of communication.

During one of the visits of Sergt. Oscar Samson, of Alberta, was seriously wounded in the arm. Samson, who is looking for medical assistance back in the rear, he almost came to grief at his task of mending lines destroyed by the German shells, as he found that communication could be rushed up. Finally his arm got so painful he decided to go forward, on the track that had been mended, to an advanced dressing station. But as a result of wound he had been fired by a comrade, and his arm was in an awful mess. Samson climbed on a tractor, which was a tractor of the gun ammunition. When they got to a dressing station near the front line, the guard and driver were wounded by splinters from a high explosive shell. The driver was had the presence of the grade and was gathering momentum. He was faced with the driver of the tractor hanging limp and unconscious from his seat. Samson pulled him up to a place of safety and shut off the engine of the tractor. He then had too much headway to be stopped, and in addition the brake gear had been damaged by the explosive shell. Climbing back to try and set the brakes on the car, Samson came across the wounded guard. He had been knocked off the seat of the truck, and his foot catching in the framework of the car he was being dragged along with his head and shoulders bumping on the ballast. Samson stopped, released the wounded foot, but failed in his attempt to gather him into the car, the moving car. About one hundred yards ahead was a sunken road. Samson's train, its cargo of high explosive shells being unloaded at a better position. The good fellow, at the risk of leaping and braking learned on the train, and by the time Samson managed to slow down his train just as it reached the sunken road, there was a serious collision and explosion of shells. Then, although the shell fire was extremely heavy, the sergeant went back and rescued the wounded guard, for which the Military Medal for this splendid exhibition of pluck.

Jackman's Position.

The Jackman's batsmen is described as "a veritable jackman's position." Mountains of wire bottles are piled high above the roads and in the billets formerly occupied by German officers. These bottles are worth 2c to 3c cents each. "Old iron, steel, brass and rubber are the cause of a rush with no attempt to salvage it, because the spreading disease can be seen the line and men. Thousands of miles of barbed wire are intact, not even rusted.

MRS. ROBERT LANSING.

Having been graduated from Smith college, Miss Lansing, as she was then known, was sufficient to give her an entrance into society, as it now she is one to practical advantage.

She is a good conversationalist, quick at repartee and somewhat of a wit. Furthermore, Mrs. Lansing is the possessor of a fine voice and the ability of leading the cabinet's social affairs has fallen in many years.

Miss Lansing was married to Mr. Lansing in 1900 in the home of her father, 1 street, Washington, where the Foster's lived for many years. Mr. Lansing wedding was attended by a notable gathering, including President Harrison and family, Vice President Morton and his family and other important officials and diplomats.

Mr. Lansing took his bride to a new home in Watertown, N. Y., where they have always lived except for the time spent in Washington.

Recently Mrs. Lansing made a unique affair or a "dicy luncheon," given to ponder of Washington, at which all courses were some form of dried fruits and vegetables that the government officials are strongly at food stuffs for the country.

THE DUTY OF THE HOUR.

When Sir Robert Borden undertook the task of creating a Union non-partisan government for Canada during war-time, he assumed a duty of a mammoth proportions which developments have shown. The political prejudices of years were not easy to overcome and difficulty after difficulty rose in the path of Union Government as Sir Robert strove to unravel skein after skein of the tangled mass known as party politics. With patriotism before politics as his slogan and a sincerity which could not be questioned the Premier met with infinite patience and fact the strong opposition in both political parties to any cessation of partizan warfare. Dire results to the future of the parties was prophesied as the sure outcome of what was regarded as the Utopian dream of Canada's Premier.

Quebec Opposition.

Quebec, with visions of a Laurier Government and a milk and water policy, fought all. Union Government proposals with a viciousness which approached open rebellion, and even now Union Government supporters in that province are decked the right of free speech on the public platform and are hooted, jeered, stoned and shot at, while on several occasions they have been refused to run for their lives from an infuriated organized rabble who see red when anything in the nature of opposition to Laurier is even whispered. This of course is the result of the pernicious agitation and intemperate speeches of French Canadian political leaders who apparently desire to segregate Quebec into a little kingdom apart from Canada, which they can rule to their own advantage. Their ability to manage anything is shown in the French Canadian administration of Montreal which has put that city on the financial rocks, practically bankrupt, to such an extent that the same portion of the population have appealed to have a commission appointed to conduct the business of the city and rescue it from the ditch where incompetence has landed it.

Sir Robert Borden, despite every discouragement, has broken down the walls of prejudice to a great extent and Union non-partian government is now assured if backed up by the electors at the coming election.

The Larger Canadianism.

Leading parliamentarians of both parties with experience and national outlook were first to see the advantage and necessity of submerging politics until after the war, and this was strikingly demonstrated by the number of prominent Liberals who joined the Premier in his statesmanlike effort. To the constituencies, however, there was small many disgruntled Liberals and Conservatives who see in the Union Government success the death-knell of their respective parties, each side believing that their party is getting the worst of the coalition. These partizans are making the path of union doubly difficult by interposing obstacles in the return of Union

Signs are multiplying every day however, that the political barriers are being swept away in a tide of patriotism which is submerging politics, and we hear of Conservatives withdrawing opposition from Rowell, Guthrie, Pardee and others while Tory Toronto provides a seat for a Mowat Liberal of the old school, and even Sir Robert Borden gives up a safe and easy seat for a Liberal in Halifax. Canada is showing that it breeds big men who are willing to work in a larger and better Canadianism which can be accomplished only under a Union non-partizan government.

A United Nation.

All Canada should join in this movement which is menaced only by the deep-rooted political prejudices of some of the electors who as yet fail to get the larger vision of a united nation pledged to bend every effort to win the war and to lay after foundation for stability, progress and prosperity of the Greater Canada which will arise from the sacrifice of blood and treasure caused by the ambition of the Hohenzollern barbarian to enslave the world.

The opposition of Quebec will melt away in the face of a united Canada pledged to a square deal for every section of the nation and an elimination of the abuses which have crept in under the party system. All that is needed is a decisive mandate for Union Government, which means clean and efficient government of the people, for the people and by the people.

A victory for the Quebec party would be a national calamity, with the retention of the patronage system, a withdrawal of support from our soldier heroes overseas, and worse than all, the planting firmly at Ottawa of a made-in-Quebec policy for the national administration.

Political Tricks.

Every effort is being made by the Quebec party to have the election result in their favor. Straight Laurier candidates are being nominated where poss'ble, three-cornered fights are being encouraged in strong Conservative constituencies with the hope of dividing the Conservative vote and getting the Liberal elected, Laurierite if they can get one, revealed or concealed according to local conditions, endorsing Labor candidates where a straight Laurierite candidate would have no chance, and many other shady tricks to wrest the administration of Canada from patriotic Canadians.

The nation is in danger for the result of this election may make or mar the future history, its progress and prosperity. The duty of the hour is for all citizens, regardless of party, to rally round the Union Government candidates and end with their ballot "do their bit" for victory over the Huns and a Greater Canada, and it will be well for each voter to make sure that the candidate he votes for is a real Union Government supporter and not a counterfeit.

None for party but all for Canada.

CRISP COMMENT.

The Chicago Herald says Senator La Follette will go down the ages titus, vupi, Hun-honored, and Hun-sung.

"A heart-breaking disappointment," is the view of Sir Wilfrid Laurier on the manifesto, taken by The Brantford Expositor, one of the most influential of Ontario Liberal newspapers.

The revolutions in Russia to "abolish the death penalty" are there enough in purpose to make Russia seem destined in the near future to produce more death than they will prevent, says the Toronto Star.

Some smart little Charlie Chaplin imitations are to be seen in the army, but one may be punished to much that the authorities will really get as much satisfaction out of forbidding them as the press embarrass all out of wear-

Daily Progress Of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

CHOOSE CONNOR'S BROTHER

At a Winnipeg conference of Unionists it was decided to nominate Dr. R. M. Gordon, brother of Rev. Dr. C. W. Gordon, Novelist, in place of Major Andrews and Rev. Dr. Bland, who retired to facilitate the nomination of a "unionist." Dr. Gordon went overseas with an ambulance corps.

UNION CANDIDATE IN WELLAND

At a Union Government convention held at Welland, and attended by 250 electors, the nomination was tendered to Major Rees E. Fraser and accepted. No other name was offered. The chair was taken by Rev. Canon Piper, of Thorold, previously chaplain at the front. A resolution was passed expressing appreciation of Sir Robert Borden, endorsing the Military Service Act and pledging support of the Union Government and the candidate of such Government as designated by Sir Robert Borden.

PARDEE UNION CANDIDATE

Albert E. Johnson, Conservative Union candidate here and who was to oppose Fred Pardee at the coming election, dropped out of the fight and leaves the field to Mr. Pardee and Dr. J. G. Merrison, who was placed in the field by straight Liberals on Wednesday night. The following letter in part has been given to the electors by Mr. Johnson: "In view of the fact that Mr. Pardee has been named as the Government candidate and as the Government earnestly appealed to me that no obstruction should be placed in the way of the Union Government in West Lambton and in view of the crisis in which the nation now stands, and having absolute confidence that the Union Government is necessary to throw the best efforts of Canada into the war, I bow to the exigencies of the situation without bitterness or recrimination and with the approval of the executive of the Conservative Association, I retire and Mr. Pardee becomes the Union candidate."

WILD SCENES AT PETERBORO'

Scenes of wild disorder featured an attempt to hold a Union convention at Peterboro. The trouble started when Ald. F. H. Dobbs, chairman of the meeting declined to allow Mr. J. H. Burnham's name to go before the meeting as a nominee, claiming that Mr. Burnham was nominated four years ago at a party convention, and therefore was not entitled to be nominated at a Union convention. An organized gathering, assembled in the gallery at Victoria Hall, shouted for Mr. Burnham and finally broke up the meeting. Mr. Guise Bagley appeared on behalf of Mr. Burnham, who was absent, and claimed that the chairman of the meeting was in error in his ruling as to the purpose of splitting the Conservative vote and facilitating the election of Mr. R. R. Hall, who is running on a straight Liberal platform.

The meeting proceeded smoothly until all the nominations were in. The four nominees were G. N. Gordon, E. A. Peck, Mayor J. J. Duffus and Mr. J. H. Burnham. The latter was endorsed at a meeting of the Great War Veterans, held a week ago.

LIBERALS ENDORSE GUTHRIE

At the largest convention of Liberals ever held in South Wellington, the decision was rendered late at a meeting in Guelph not to nominate a candidate for Parliament. This should

LAST MINUTE LAURIER CANDIDATES

The decision of Laurierites in every Unionist district in Ontario is to be expected does not mean that a Laurier Liberal will run in every constituency. In Toronto and East York, for instance, there is to be no Laurierite nomination in the following: Ridings: East Toronto, West York, South York; and South Toronto. Vicky and Ballantyne, the Labor candidates in East Toronto and East York respectively are to retire for Wilfrid's endorsation. It is said that he will Q. K. as official "Opposition candidates" practically all the Liberals who are running in opposition to where no Laurier Liberal will be in the field. The O. K'd also by the Labor organization will be entitled to call the Labor and the Opposition votes cast by the soldiers. By this token, Sir Wilfrid is supposed to be angling for labor support in other constituencies. Apart from the constituencies mentioned, there will be a Laurierite candidate in almost every York or Toronto riding, according to leading Toronto followers of Sir Wilfrid. They have made full preparation of nominating last-minute Laurier candidates is to be followed through. The Laurierites and claim that they have several dark horses, who will make a good showing in Toronto.

W. F. Maclean in the Field

W. F. Maclean, who has represented East York and Toronto in the Dominion Parliament since 1892, gave out the following statement to the press: "I have this morning withdrawn my nomination papers with the Returning Officer for South York, Toronto, and I wish to state that I was candidate for the field of Commons in the ruling in the coming election. I stood for conscription, and I stand for conscription. The War-Time Elections Act as the recent session of Parliament, which I supported, is the only way to get the reinforcements needed. It is already stated that the Conservative members of the old Parliament who voted against the principle of Union Government either will not run or will be opposed." I think I was the only member of Parliament to commend on the floor of the House the Unionist Conservative Government supporters, which formally authorized Sir Robert Borden to proceed with the formation of Union Government.

I hope to be at the public meeting at the Town Hall in North Toronto on Monday after the official proceedings are over."

ROUGH ON PROFITEERS

At a convention attended by 350 delegates held at Shoal Lake, Manitoba, Hon. T. A. Crerar, Minister of Agriculture in the new Union Government, was unanimously chosen as the Unionist candidate for Marquette.

Mr. Crerar will be opposed by R. A. Hamilton of Winnipeg, who was nominated at a Laurier Liberal convention held at Stonewall.

R. H. Dennison, formerly nominated as a Grain Growers' candidate, explained to the convention the reason of his withdrawal, which was that the Grain Growers realized it was a case to get behind the Union Government, leaving the field clear to Mr. Crerar.

In the course of his speech accepting the nomination, Mr. Crerar said that the conscription of wealth should be applied to incomes and profits, but not to capital production. The profiteer in Canada would have a conscience in Canada henceforth, he said, when the Government took upon itself to say that a man had made enough and a better right, to touch the rich man's income. If the boys went to the front and risked their lives to help maintain them there.

Asked about conscription of labor, Mr. Crerar said the Government would be glad to have assurance that it was the Government's intention to strip the farmer of skilled labor, he added, the unemployed were wanted on the farms.

CONSERVATIVES FAVOR CARVELL

The Conservative party of Carleton (Victoria), at a convention held at Woodstock, N.B., decided not to nominate a candidate in opposition to Hon. Frank B. Carvell, Minister of Public Works, in the new Union Government. The Conservative opposition to Mr. Carvell was based on the prevailing notion that the Conservatives should not contest with Ministers who are to be members of the Union Government.

The Laurier Liberals will nominate next later, but the opposition will be decidedly, a number of Liberals declaring that in staging during the address of Laurier in the House of Commons they showed their colors. To avoid what looked like a clash the Laurier men of the fights, and the Union officials cheered Laurier and disclosed the crowd.

Mr. Foster says his nomination papers will be filed Monday.

UNION OPPOSITION TO C. P. GRAHAM

South Essex, at a convention held at Leamington, nominated Col. A. T. W. Brien, of Essex, a native of Kent, to be Union standard bearer at the forthcoming election, and as his name was presented to the three hundred and more delegates, including many ladies present, the convention rose en masse and sang the National Anthem, followed by "Rule Britannia." Dr. Brien, who holds rank of captain in the Canadian forces, having come overseas with the 36th Battalion, is at present, being on duty with the Pensions Board of Ottawa. He sent a telegram, however, expressing appreciation of the honor tendered, and said he would be glad to make the race. His opponent will be Hon. Geo. P. Graham and Robt. Atkin, both Laurier Liberals.

The Town Hall, where the convention was held, was packed to the doors by the audience, including many fair women relatives of Essex County soldiers now serving in France. Throughout the afternoon a strong tide of patriotism marked the speeches.

At a preconvention session the executive of the Conservative Association decided by unanimous vote that the Hon. George P. Graham, who was elected as Laurierite candidate by the Liberals of the riding on Thursday, could not represent win-the-war supporters in the constituency.

"Graham, by accepting the nomination of Laurier, shows that he is still intoned with 'Laurierism,'" said a member of the executive. "His efforts to obtain the Union nomination of this riding have discredited him in the finds of many of his former friends who are now associated with us in fighting for Union Government principles."

CONSERVATIVES NOMINATE LIBERAL

The committee appointed at the Conservative-Unionist convention for East Simcoe, at Midland on Wednesday to choose a candidate in case the negotiations with the Liberal convention for an agreement on a candidate for a Unionist should fail them, met at Colebrater and unanimously recommended the nomination to Mr. J. B. Tudhope, of Orillia, the fact that the committee was composed exclusively of Conservatives, representatives, representing every municipality in the riding, is evidence of the strength of the Unionist sentiment and of the good feeling that has grown up between the supporters of the Union Government in the two parties. Mr. Tudhope is a Liberal by birth, and represented East Simcoe in the Ontario Legislature for two terms. His nomination as Unionist candidate is the result of negotiations which have been going on for the past week and which have satisfied both parties of the sincerity and good faith of the Unionist of the other political stripe. Both parties were ready to go to great length in order to arrange in the Unionist ranks. A strong effort was made to induce the Liberal convention at Midland to agree on a Union candidate, but the decision was that in case of the riding were not sympathetic, and insisted upon the nomination of Mr. Manley Osler, of Midland, as a straight Laurier candidate. The Liberal Unionists then intimated their readiness to accept the candidate named by the Conservatives, and the latter, in turn, reciprocated by naming Mr. Tudhope, who can thus count on the pre-election support of both the Unionist forces. Mr. Tudhope has the offer under consideration, and will give his decision in time for a Unionist rally to be held in Orillia on Monday morning prior to the nomination meeting. Should he accept, as it is confidently hoped he will do, his chief opposition in East Simcoe with such a union of forces is a foregone conclusion."

MOWAT CHOICE OF CONSERVATIVES

Herbert Mackenzie Mowat, K.C., nephew of the late Sir Oliver Mowat, and a Liberal of the Liberals, will be the Unionist standardbearer for the strongest Conservative riding in the Province of Ontario. Mr. Mowat was unanimously nominated to represent the new Federal constituency of Parkdale, and the convention that made him its choice, while including many win-the-war Liberals, was in the main made up of Conservatives. To make it possible for the Conservative-Unionists of Toronto to give practical expression that night to an attempt by Sir Robert Borden and the Liberal-Conservative party to secure a Liberal win-the-war sentiment

196 BLACKERRS UNDER ARREST AT WINNIPEG

WINNIPEG, Nov. 12.—Winnipeg city policemen joined forces with the military authorities to-night and 196 Class One men under the Military Service Act who have attempted to evade conscription by failing to report.

Civilian and military authorities acting on telegraphed instructions from Ottawa began to accost in the streets all young men who appeared to be eligible to Class One. . . .

All who could not give satisfactory answers to questions sent quickly to the city and military police headquarters for examination. 196 arrests are already made.

Providence and not mistake have asked the Government to "re fuse to make it possible for one class to be exempted from military service." "Star Spangled Banner" is a popular favorite.

JETHER THE PRODIGAL.

Jether turned sorrowly upon the jeweler, who stood leering and nodding his head.

"Ah, you do I know the value of thy gift, Bagoas!"

Then faced his angrily and stamped his foot. Bagoas!"

"Were every hand of common clay and beneath every hand of a beggar's head does, if thou didst trip it's ten ten, would give thy fortune for it. Then cease brigade your fingers and blame are as ugly as they are."

"I do not bargain," protested Jether, wanting to calm her.

"I say it is very much and always fixed a great price generous, 'tis—"

"I say it is pretty Sadyk. But Jether would not be moved.

"Another time I may buy something of thee, but not now," and turned forward away, leaving mother and daughter gazing after him in silent and fond contemplation. For the first time Jether, the gilded, fast and showy, was gone from their sight, the city was quickly indulged in by these two women.

Jether strolled through the garden, angry at the obvious attempt to force him to pay some outrageous price for a bauble of almost nothing value. On the matter and daughter debated as to how to bring more money to his purse and make him open the strings, which had been so loosely held by the prodigal son.

"I tell thee, daughter, he loves thee not," declared Tisha emphatically.

"They never now hear these jealous love. But what need then expect from a man who has been our lady, lubar and who hath never told a gift upon her hand? Tisha, thou art to idle only a handmaiden that would prefer a bauble cheap. Thy time is wasted."

The daughter pouted and wicked sneering face of the lovely Tisha flashed to the floor. Her mother's face grew into her voice at this slighting remark from her mother.

"I tell thee, daughter, he loves thee not," declared Tisha forcibly, her arm around his waist. "For gold I care not," she snapped her fingers contemptuously. "Could I not have the gold of Jerusalem kneel to the dust before me if I cared only for gold and precious stones? But I am wearied of these things, what they have given—a proof of love. Thy words—what are thy words? All men talk words when they would have a woman. Actions, not traps—by these then have I not put away what I have, give me before its coming? Now I would have thee give proofs to me."

Jether stroked her hand fondly. What could the little child mean? Yet he was filled with a vague foreboding that some new scheme would be attempted by the clever daughter of the crafty Nadina, whom he had given to understand:

"What proof is lacking?" he asked tenderly.

"That I will explain later. Why should thou refuse to buy me the necklace?"

Sadyk drinks his pretts with 'thy' and 'thee.' It hurt her ear.

"And thou hast no other reason?"

"Well, know the truth then," declared Jether curtly. "I am out of humor. I like not the way that thou didst act when but my friends were here."

"What did I say to them?" angrily demanded Tisha, breaking away from him.

"It was not so much what thou didst say as thy overfree manner with them."

Tisha clutched her little fists with anger at this jealous rebuke.

"What? Thou wouldst not have me satisfied the friends thou intimate to me, and they to feast with their host?"

But Jether hesitated. What was on his mind he will know, and now he determined to speak plainly to her.

"My friends bring friends, and some may I not know," he said, taking her by the hands and bringing her to a seat. In front of the shrine of Ishtar. "Let them dost smile upon them all. Oh, Tisha, I would have thee all mine own. When thou smilest upon another I seem to see a red cloud before mine eyes. How know I but what one of these friends kissed thy fingers, or may not have loved thee ere I came to love thee? Now, Tisha, dost thou say back? I want thee all mine own. I would lasty always thy rhymes of thy love and my." This is mine. To feel thy soft arms encircling my neck as they did when I was never done the like before. And when thou dost dance I would think of it as a moonbeam falling on the face of the first time. And yet I know the truth—that thou hast been to others what I am a fool to miss me, Tisha, kiss me."

Her face sought his in a long and lingering kiss.

"Thou art the wine that maidens me. But yet I love thee, Ishtar," as thou didst say if when first I came to you."

"When first thou camest," replied Tisha softly, "I had lot to say and thou didst act. 'Tis thou who art jealous."

"Nay, I want thee more and more," declared Jether. Tisha rose quickly and seated him on a couch or more at the same time preserving one for herself. The boy drank his wine feverish by at one gulp.

"Now, Tisha, I am ready to buy the necklace," he said, and Tisha let fall her arms around him. This he held for her.

"Now do I know the value of thy gold, Bagoas!"

SADYK, SELLER OF JEWELRY.

Sadyk, seller of jewelry, did release herself. Arm in arm they strolled back toward the shrine of Ishtar.

C.N.R. WILL NOT APPLY

FOR ANY EXEMPTIONS

The executive officers of the Canadian Northern Railway have said they will not apply for exemption for any employe in Class One regardless of the capacity in which he is employed, according to an official statement made by Mr. D. H. Hanna, third vice-president, and sent to the heads of all departments in the C.N.R. service.

The policy of the company is that while it is essential that the railway be maintained and operated, the question of whether any employe should be retained in the service or released for military duty is for the tribunals to decide. The Canadian Northern will not jeopardize the country's interests by putting the company's interests first.

HUN SPIES IN FIRST DAYS

A Train Caught in Polygon Wood Crashed in the Week—Dead Bodies Were Thirteenfold—Sixty-two Were Detained When Search Was Made For Only One

For tales of spies up to the artillery. Never in the war's first year did German shells rain on a battery position or flag fierce with an ammunition salvage but the commander on the blame on "that dd swine who sells eggs" or the seemingly harmless tiller of the soil. While a good many of the spy stories were more or less legendary, there can be no doubt that the German espionage system near the battlefield was amazingly complete, and not until the authorities instituted a drastic scheme of civilian registration and the removal of suspects into the vicinity of the fighting zone was the atmosphere of distrust and suspicion dispelled.

Following the battle of the Marne, colonies of spies' descended on the rear of the British army. Heaven knows where they came from. Little bands of Red Cross workers speaking French with an accent that puzzled the local inhabitants moved about from place to place unmolested. A squad of uniform colonials, engaged in repairing telegraph wires near Soissons were roped in, found to be 60 Teutons with an elaborate field telephone equipment. There were German carrier pigeons housed in almost every village between the Aisne and Paris.

A German firm of desiccated soup manufacturers had, previous to the outbreak of war, distributed enamelled advertisement signs all over Northern France, and the inhabitants of the invaded towns were thunderstruck to discover the officer of an advanced Uhlan patrol take down these signs and carefully copy the coded letters.

A Hotbed of Spies

Ypres in November, 1914, was a hotbed of spies. The town was packed with refugees from Roulers, Courtrai, Bruges, and all other Flanders towns. It was utterly impossible to distinguish the just from the unjust. There were hundreds who could not be identified with any Belgian community.

At the Polygon Wood we laid violent hands on a youth in khaki whose speech, himself, while only exhibitory up to a certain point. Speaking perfect dialectic English, he said that he was in the Welsh Fusiliers, his colonel's name was Jones, and his captain's Evans. He himself was named Williams, and he had strayed from his regiment before the war he had been stationed at Pembroke Dock. It was all very Welsh and quite plausible but what made him the principal in a five o'clock in the morning scene was the fact that his spelling was unmistakably Hunish and his handwriting showed that soldier spidery lettering never taught in the schools of Wales. Few German spies are clever enough to cultivate the British style of writing.

A shell had disturbed the work of the clock in the church tower of Neuve Eglise, for several weeks the hands had stood at twenty minutes past three. Our orderly-room sergeant, whose powers of observation were notorious, and who, in consequence enjoyed a fair degree of unpopularity, noticed one day that the hands in some mysterious manner moved on to minute to six. Three days later there was another change in their position, and suspicion a raid was decided on. To the clock tower, after a merry little fight, three German soldiers were secured How they got there I cannot say, but they had been employing the early hours of each morning in signalling information to the German lines.

The Red-Headed Woman

I am not going to vouch for the truth of the story of the red-headed woman. It is a tale of the guns, and guns are prone to regard infantrymen's tales hatters regard hatters; but the story goes that the provost-marshall sent a message to the battery commander telling him to keep an eye open for a red-headed woman who was collecting items of news in the neighborhood. The commander passed the message on to his sergeant-major and went off to lunch.

Ten minutes later the sergeant-major was ushered into the mess-room and informed the commander that "We've got that red-headed woman, sir." "All right, sergeant-major; I'll see her when we've finished lunch." In five minutes the mess waiter entered and said, "Beg pardon, sir, the sergeant-major says the red-headed woman 'asn't got 'air, 'asn't, I've already told the sergeant-major that I'll see her when I've finished lunch." But before the meal was completed a fearful clamor, in which the best known of French cuss words were easily distinguishable, drew the officer to the window, and his eye fell upon an interesting group of six stolid Bayonetted armies, three screeching lunatics with hair of fiery hue, and one greatly harassed sergeant-major.

Promptly he went to the A.P.M. "Have three red-headed women. Where shall I send them?" And the reply, "Don't dare to send them here. Have already sixty-two in my courtyard fighting like a colony of wild cats, and twenty-six more advised. Release your three. Do what you like with them. Don't send them here. I'm going to the hospital!"

OLD KINGSTON BOY

Dr. J. A. Graham, of Hammond, Indiana, in the U.S. Army Medical Reserve Corps.

Dr. J. A. Graham, of Hammond, Indiana, is on his way east as a First Lieutenant in the United States Army Medical Reserve Corps. He is an old Kingston boy, and a graduate of Queen's University. Like many another son of Canada who has been living beneath some other flag, he has felt the irresistible call of the Empire. What he sacrifices may be gathered from the fact that he is thereby giving up an income of $12,000 yearly to work in the army for $166 a month.

GOVERNMENT TAKING OVER G. N. W. TELEGRAPHS?

MONTREAL, Nov. 12.—Because the Great North Western Telegraph Co. has not reinstated the six girls discharged in Montreal after the settlement of the recent strike, although permanently ordered by the Minister of Labor several weeks ago to take back the girls and pay them for the time they were off, there seems to be coming to a head. It was rumored here tonight that the Government was preparing to take over the G. N. W. as a war measures.

It was stated at the department minister had served a mandatory notice on the company in this matter, and had given warning as to penalties which might be imposed.

KILLED AT THRASHING

A. T. H. Raby Caught on Pulley and Whirled Around Three Times

COBOURG, Nov. 13.—By an accident on the farm of Mr. Albert Stott, Clarke township, Albert Thomas Harold Raby, son of Thomas Raby, lost his life. The young man was assisting in threshing, and in some way, in trying to put a belt on the fast-running machine was caught on the pulley and carried around three times before he was rescued. His left arm was torn off, and he was otherwise cut and bruised. An attempt was made to remove him to a hospital, but he died in the ambulance on the way. He was twenty-seven years of age.

NO HOMESTEADS FOR ALIENS

OTTAWA, Nov. 13.—An order-in-Council has been passed providing that no applications for a homestead in Western Canada shall be granted unless the applicant was a British subject at the commencement of war and has since continued to be a British subject or a subject of one of the allied nations.

Freedom Must by Freemen be Upheld

IN Canada there is no Prussian autocracy to reach out and take the possessions of the people by force. There is no tyranny of an "all highest" overlord with "divine right" to make the people fight and pay.

The people of Canada themselves decide to do the fighting and the paying.

Canadians are asked to lend their money, not forced to give their money.

Buy Victory Bonds and lend your money to the fight for freedom.

The canvassers in your neighborhood will tell you all about the Victory Loan. Subscribe for bonds yourself and use your influence to get others to do the same.

"Her Money Troubles"—They get more vexatious as the cost of foods climbs skyward. Meat, eggs and vegetables are almost beyond the family purse. Happy is the housewife who knows Shredded Wheat, its low cost and its high food value. A better balanced ration than meat or eggs and costs much less. Two Shredded Wheat Biscuits with milk or cream make a complete, perfect meal; supplying all the nutriment needed for a half day's work at a cost of a few cents. Delicious for any meal with milk or cream, or with fresh or stewed fruits. Made in Canada.

DESERONTO SOLDIERS WOUNDED

Deseronto—Pte. George Albert Williams' wife officially notified that he is wounded on October 26th. Pte. Fred. Stilborne was officially reported wounded by gun shot in the leg, October 26th. Pte. Arthur W. Matthews also officially reported admitted to General Hospital with gas poisoning on Nov. 1st. Word was also received that Pte. Roy Houston, of Toronto, was reported wounded. The message came to Deseronto, though Mrs. Houston was in Toronto at the time.

A MASTERLY ADDRESS

Marmora Herald: A patriotic meeting was held in the town hall on Monday evening in connection with the campaign to sell Victory Loan Bonds. The hall was fairly well filled by an interested and appreciative audience. The speaker of the evening was Col. W. N. Ponton, of Belleville, an orator who is by his reputation as a public speaker he has seldom appeared to better advantage. While he showed very clearly the value of the Victory Bonds as an investment, and their absolute security, his great appeal was on the higher grounds of patriotism. It was a masterly address and we are satisfied that when the campaign is closed Col. Ponton will feel that Marmora and district has lived up to the ideal he set before them. Miss Ponton, daughter of Col. Ponton, sang a solo which was greatly enjoyed. The people of Marmora hope to hear them again at an early date. Master Charlie Ponton Sankey, of Belleville, gave two recitations which won great applause. He is exceptionally good for a lad of his age. Another very pleasing feature of the meeting was a violin solo by Mr. S. B. Wright. Altogether the meeting was a big success.

LETTERS FROM OVERSEAS

Miss Kathleen Arnott, of Albert College, received the following letter on Saturday last:

Somewhere with 46th Battalion, F. Coy.

Dear Miss Arnott,—

In acknowledgment for the spleudid parcel that I received yesterday October, 29th, that was sent on April 21st. I wish to heartily thank you and the "crew" of the Belleville ladies who so kindly donated towards it. Although it has been travelling for this last six months, I received it as sound as the day it was packed and although I am not in France, at the present time. I can assure you every article was very acceptable. I am now in training at the second Canadian Command Depot and expect to be ready for France again in the near future.

Thanking you all once more I remain,

Yours sincerely,
T. A. HOOPER.

Her Friends All Talking About It

Mrs. Lawson Tells of Her Wonderful Recovery With Tanlac

"My friends are all talking about my wonderful improvement on Tanlac," said Mrs. Ruth Lawson, of 425 Ontario street, London, a few days ago.

"Over a year ago," continued Mrs. Lawson, "I took sick. My health began to fail. I lost my appetite and my system became so rundown that I was unable to do anything about the house. My suffering gradually grew but my nervousness increased. I was too restless to sleep hardly any at all and even to lay up here would exhaust me so I couldn't get on a street car. My back hurt so I could hardly stoop over and my head ached almost all the time. Constipation up again. Nobody seemed to know what was the matter with me and I kept getting worse till I was on the verge of a nervous breakdown. I was so nervous every little noise, starting relief from their trouble by writing me. Well, I got into such a state I couldn't sleep a wink. Those pains in my back were at all goes and I was so weak, though how I do all my housework and can even bring in a big scuttle of coal now I don't like without getting tired."

"Tanlac is sold in Belleville by Corbett's Drug Store, in Trenton by J. H. Wallbridge, in Picton by W. J. Mercer, in Stirling by J. H. Morton, in Frankford by W. H. Lattimer, in Madoc by Dafoe's Drug Store and in Marysville by T. J. McAlpine."

TO SISTER MARY BASIL

Kingston Jury Awards Nun Twenty-Four Thousand Dollars—Audience in Court Applauses Finding—Eight Questions Answered By Jurymen—Dr. Phelan to Pay $4000.

KINGSTON, Ont., Nov. 15.—Sister Mary Basil, of the order of Archbishop Spratt hill, others for $25,000 for assault and abduction, was awarded $24,000 by the jury. Of this amount the Archbishop, the Roman Catholic Corporation, Mother-General Mary Frances Regis and the Sisters of Charity are to pay $20,000 and Dr. Daniel Phelan $4,000. The Archbishop and the Roman Catholic Nation are assessed $nil-ths. The jury after being out for 14½ hours and three-quarters tonight in their findings at 11.45 Saturday night.

The city hall was unable to hold all who desired to see the final proceedings, and all waited patiently through the long hours in order to hear the jury's decision. When the foreman of the jury, A. E. Weller, announced their findings, the great audience broke into applause and cheered the findings of the jury. Immediately court was adjourned, throngs of people crowding around the victorious and happy plaintiff and warmly congratulating her. Her lawyers, W. M. Tilley, K.C., Toronto, and Lt.-Col. Cunningham, Kingston, also received many congratulations, and the jury were complimented by scores on the findings.

At a conference of the lawyers, eight questions were agreed upon, and with the approval of Mr. Justice Britton were submitted to the jury.

Eight Questions

The questions and the answers which the jury decided upon were as follows:

1. For what purpose was the plaintiff being taken from Kingston to Montreal? A.—To confine in an insane asylum.

2 Which, if any, of the defendants authorized the removal? A.—M. J. Spratt, Archbishop; Rev. Dr. Phelan, Rector, Mother General Mary Frances Regis, and the Sisters of Charity.

3. Was the plaintiff insane before or excuse for such removal? A.—No.

4. If so, what was the justification or excuse? A.—None.

5. Was the plaintiff unlawfully in any way responsible for the alleged removal of the plaintiff? A.—No.

6. If not, was the plaintiff unlawfully attempting with the chief of police to have Constable John Marlow on hand when the time came for the removal of the plaintiff? A.—I am ignorant.

7. Did the defendant Nation at the time he entered plaintiff's room, have reasonable grounds for believing the plaintiff to be insane. A.—Yes.

8. If so did the latter know, or attempt to know from her, who was insane? A.—Yes.

If so when? A.—After she had quieted down in the presence of witnesses of being allowed to see Father Kiley.

How do you arrive at damages? A.—Twenty thousand dollars on the defendants named in clause two, Archbishop Spratt, the Roman Catholic Corporation, the Mother-General Mary Frances Regis and the Sisters of Charity; $4,000 on Phelan; Nation $nil.

The Judge's Charge.

In his charge to the jury, Mr. Justice Britton told them that they must not pay any attention to the illustrations which had been thrown from time to time during the trial and which might be calculated to prejudice their minds.

The evidence, his lordship said, showed that there had been an assault on the plaintiff, and that it was substantially as she had described it. The assailant entered her room, believing her to be crazy, otherwise he might have acted differently. The evidence as to whether he had treated her roughly was for the jury. They were reminded that the sanity or insanity of the plaintiff was one of the questions before them. If she was not charged with being insane and there was nothing in evidence to show that she had been insane. The judge pointed out that the defendants were not responsible for the assaults committed at the convent in Belleville, those concerned only the management there.

He emphasized that the jury would have to decide whether the plaintiff was being taken to the hospital at Montreal for the purpose of getting rid of her, as she contended, or whether as the Mother-General testified she was to be taken there to determine whether or not she was insane.

Application for Non-Suit

After the jury's finding had been announced, Lally Cassidy, K.C., Toronto, for the defence, made a motion for the application he had made during the trial for a non-suit in the charge against the archbishop, the Roman Catholic Corporation and the Sisters of Charity. His lordship announced that he would reserve his decision on the application.

Lieut. A. G. McGie Gassed By Huns

Mr. A. McGie, 32 Bridge Street, received the following message yesterday morning regarding his son, Lieut. A. Grenfley McGie, who went overseas as a machine gun officer of the 155th Battalion:

"Sincerely regret to inform you Lieut. A. Grenfley McGie, infantry, officially reported admitted to No. 1 British Red Cross Hospital, Letrepot, Nov. 11th, 1917, gas poisoning, slight. Director of Records."

Last evening he received the following cable message from his son, dated Bristol, England, yesterday:

"Slightly gassed, in England, feeling fine."

Lieut. McGie's many friends will be glad to learn that the poisoning is not of a serious nature, and wish for him a speedy recovery.

Folly To Argue Need For Men

In the course of his address on "My Experiences at the Front," Sir Sam Lyon, author of the Globe, told the members of Toronto Empire Club that it is utter and absolute folly that we should be arguing at this time as to the advisability of sending reinforcements to the boys at the front. In two weeks we have allowed twenty thousand A men under the Military Service Act, for the purpose of sending men to the front. Am we going to allow men who oppose conscription to get into power, suspend the Military Service Act, and suspend the sending of reinforcements? This question was met with emphatic replies of "No, No." Mr. Lyon then declared that men not in politics at this time should get into politics in the right way and see that the sending of reinforcements is not arrested.

Mr. Lyon said that possibly by next spring the German positions at Ostend and Zeebrugge will be rendered untenable and the enemy will thus lose a base for submarine and aeroplane operations against England.

WRECK NEAR WHITBY TIED UP G.T.R. LINE

WHITBY, Nov. 19.—A wreck occurred on the main line of the Grand Trunk at 2.10 Sunday morning, half a mile west of Whitby Junction station. No. 15 passenger from Montreal, due here at 4.24 a.m., but 15 minutes late, met in collision with a freight car from the centre of an eastbound freight train.

The derailed car struck the front of engine 183, throwing the engine over into the ditch, which fortunately was a shallow one at the spot. The engineer and fireman were in their seats and were not injured in the slightest. Passengers on the express train were shaken up, but no one was reported injured. The freight cars were thrown diagonally across the tracks; two of them were left standing on end all but one of the others were torn from their tracks. The roadbed and banks to the west of the track were plowed up. The forward express car, loaded with fish, plunged into the side of a freight car, considering the shock to the following coaches, which probably accounts for the fact that no one was hurt. The wrecked cars were loaded with fish and some merchandise, all of which was lost. The passenger coaches were sent around by Manilla Junction to Toronto. A wrecking crew from Belleville arrived on the scene about 9 o'clock. Traffic was blocked all day.

Naval Victory Won By British

LONDON, Nov. 19.—German light cruisers which fled through Heligoland Bight Saturday before British warships of similar type, were pursued to within 20 miles of the German coast, they came under the protection of the German battle fleet and mine fields, the Admiralty announced to-day. One of the German light cruisers was observed to be in flames and the machinery of another was seen to be damaged, while one German mine sweeper was sunk. The British light forces returned without losses, with but little material damage, and the admiralty announced only slight casualties among the personnel.

An early announcement made by the admiralty says:

"There is no further detailed information yet regarding the operations of our light cruisers in the Heligoland Bight, yesterday beyond the fact that the enemy's light cruisers were chased by them to within 30 miles of Heligoland, until they got under the protection of their battle fleet and mine fields, when our light forces returned.

"One of the enemy's light cruisers was seen to be on fire, another appeared damaged in her machinery, as she was dropping astern. An enemy mine sweeper was sunk in action. We had no losses and only slight material damage to our ships. Our casualties in personnel were slight."

TWO CANDIDATES IN FIELD FOR WEST HASTINGS

E. Guss Porter, K. C., Sitting Member, Renominated—Opposed by R. J. Graham who Announces Himself as an Independent Conservative—Candidates Address Public Meeting

Nomination for West Hastings was held this afternoon at the Village of Stirling, and it was apparent from an unbiased point of view that a large majority of those present were supporters of the able and popular ex-member Mr. E. G. Porter, K.C., of this city, who is the renominated Union Government candidate. Many ladies were in attendance and evidenced much interest in the affair. Shortly after the hour of noon the men who the war. The Town Hall, where the gathering took place, was at 2 o'clock filled to overflowing and many remained standing whilst the meeting was in progress. At times, and especially at the close, there was some warm discussion and the many ballons points scored by Mr. Porter were loudly applauded. The challenge issued by Mr. Graham as to what Mr. Porter had done for the riding since he had been the member was accepted, and most satisfactorily answered by the member. He showed clearly that he had ever been alert to the interests of the riding, and had secured many concessions which were of great benefit.

Nomination of Candidates

The nomination proceedings opened at the hour of noon and closed at 1 o'clock, at the time for candidates to have retired to even placed in nomination. Mr. Porter's nomination papers were signed by the following electors:

PARLIAMENTARY TRIUMPH

LONDON, Nov. 20.—Premier Lloyd George's speech in the House of Commons yesterday is conceded even by his opponents to have been delivered in the Premier's best manner and was a parliamentary triumph.

French Start Drive on Right Meuse

PARIS, Nov. 20.—The official communication from the War Office last night reads:

"In the Champagne, in a raid on the German lines southwest of the Butte de Mesnil we took prisoners.

"On the right bank of the Meuse we carried out a detailed operation this morning in the region of the Chaume Wood, making an appreciable advance and collecting some on the enemy.

"Artillery fighting was maintained actively along the whole front."

WILL RAISE MORE HOGS.

KINGSTON, Nov. 20.—The reeves and clerks of twenty townships met in the office of A. W. Brett, district agricultural representative. It was the result of a provincial conference held in Toronto to increase the production of hogs in the Province. The matter was discussed over and an effort will be made to persuade the farmers of the county to realize the importance of increasing the number of hogs.

DROWNING ACCIDENT AT PRESQUE ISLE

COLBORNE, Nov. 20—The body of J. Colville, a well-known resident of Presqu'ile, was found in the water on the bay shore at Presqu'ile Point. His boat was got on the bay. He had been out shooting in his boat.

GREAT BATTLE IN ITALY

Foe Seeks to Crush Italians Before Anglo-French Forces Arrive

NEW YORK, Nov. 20.—The Associated Press issued the following last night:—

"While the Italians are holding the middle and lower reaches of the Piave River successfully against the Teutonic allied invaders, and have thrown back the greater portion of those who crossed this stream and gained the western bank, the enemy is trying with strong forces in the north to beat back the troops of General Diaz, pierce the line and force a retirement westward, from the region from the region of Vidor to the Adriatic Sea.

"In this endeavor, the invaders have captured several important points of vantage—notably the village of Quero and Monte Cornelio—and have compelled the Italians under a deep bombardment to evacuate their strongly-fortified position on Monte Tomba, almost the last stronghold barring the way to the northern side of the Venetian plains. These captures are reported by the German War Office, but the statement has been made previously by Rome that the enemy was attacking in this region without success, and that despite them reinforcements which it had been known for several weeks they were hurrying southward.

Foe Claims 1,100 Prisoners

The Germans announced also the taking of 1,100 prisoners during the fighting.

Nothing as yet has been heard of the arrival of British and French reinforcements to aid the Italians in fighting their line, but the "last days" that would elapse before they could reach the front, in the opinion of experts, it is not improbable that shortly the front in the north will perceptibly stiffen, and so bring to an end the inroads of the enemy.

VENICE, Nov. 20.—The rumble of guns is heard throughout the city by night and day, and the people of Venice coast batteries shell the enemy at the mouth of the Piave. At 3 o'clock yesterday afternoon an Austrian airplane flew over the city, but it dropped no bombs. The batteries of Venice did not fire, but when the machine flew over the Grand Canal Italian torpedo-boats discharged a score of shots with effect.

The city's water supply has not been interrupted, although it is feared the mains coming from the north will be cut.

GENERAL MAUDE IS DEAD IN MESOPOTAMIA

British Commander Was One of the "Finds" of the Great War—Well-Known in Dominion—Brilliant Work Brought Him Very Rapid Promotion

LONDON, Nov. 20.—An official announcement says Gen. Maude died in Mesopotamia Sunday evening after a brief illness.

Lieut.-General Sir Frederick Stanley Maude, K.C.B., C.M.G., D.S.O., was one of the "finds" of the war. When war broke out he was a plain colonel, but his brilliant work in the field, which reached its climax in Mesopotamia, for him rapid promotion that is probably unequalled in the history of the British army. His career was watched with particular interest in Canada, by reason of the fact that he was well known in the Dominion, having served from 1903 to 1904 as military secretary to Lord Minto, then Governor-General of Canada.

General Maude was one of the "First Hundred Thousand"—the original British expeditionary force—and he was also one of the first officers to be mentioned in despatches, earning this distinction during the retreat from Mons. In a very short time he was given the rank of brigadier-general, and as such was wounded in action in April, 1915. He was promoted major-general in June, 1916. Later he was entrusted with the command of the operations in Mesopotamia he received the rank of lieutenant general.

It took General Maude just three months to capture Bagdad. The British offensive began near Kut on December 13. On February 16, Kut was captured, and two days later the Turks were in full retreat and fighting a rearguard action to safeguard Bagdad. On February 23 the British cavalry reached a point 46 miles from Bagdad. On March 6 there was a cavalry fight 27 miles from the city. On March 6 Cteaiphon was passed, and by March 11 Bagdad was taken. General Maude was born on June 24, 1864, the youngest son of the late General Sir F. Maude, who won his V.C. in the Crimea, and entered the army in 1884, served in the Sudan in 1885, and won his D.S.O. in South Africa.

Auto Turned Turtle at Trenton

(From our own Correspondent)

DESPERATE BATTLE RAGES IN ITALY

Indications that River Defence Line May be Abandoned and Venice Evacuated to Prepare for an Offensive Movement—Hard Fighting Going on

Special to The Intelligencer.

LONDON, Nov. 20.—Censored despatches received to-day from the Italian army headquarters indicates the possible abandonment of the River Piave line in order to complete preparations to assume the offensive. Such withdrawal would mean the lost of Venice. The Austro-German forces are concentrating against the Quober sector and a desperate battle is now in progress in which the safety of the defence line depends.

VERY FEW MEMBERS ELECTED BY ACCLAMATION

Quebec Sends Back Twelve Laurier Liberals Without Opposition—Hon. Geo. P. Graham Out—Union Strong in West

OTTAWA, Nov. 20.—Official returns indicate that there have been 30 acclamations throughout Canada. The Unionists elected without opposition are: Glengarry and Stormont, Alex. Martin; Queen's-Shelburne, Hon. W. S. Fielding; Yale, British Columbia, Hon. Martin Burrell; Dauphin, Man., Robert Cruise; Lord Montcalm, Robert Johnston; Maple Creek, McHarg; Qu'Appelle, Levi Thompson; Weyburn, Sask., Simpson.

There is a possibility that in addition Hon. Arthur Meighen may be elected by acclamation in Portage la Prairie, Man. The nomination papers of his opponent have been declared irregular by the returning officer and are held in suspense.

The following Laurier Liberals have been elected by acclamation: Dr. Beland in Beauce, Pelletier in Beauharnois, Brouillard in Drummond-Arthabaska, Dr. Fontaine in Hull, H. A. Fortier in Laval, L. J. Gauthier in Megantic, Delisle in Port Neuf, Bolvin in Shefford, Gauthier in Ste. Hyacinthe-Rouville, Dr. Deslauriers in St. Mary's, Montreal, Hon. Jacques Bureau, Three Rivers, Dr. Prevost, in Terrebone.

Government acclamations in Ontario and the West are fewer than expected, but in about 25 constituencies candidates were secured on the last day to oppose the Unionists. Many of these are classed as Labor Independent, Socialist, Non-partisan or Liberal-Unionist candidates, and have little hope of success, being nominated to prevent acclamations which might have had effect on Sir Wilfrid Laurier's Quebec campaign. All the Ministers are opposed, but none of them are in danger of defeat, the Opposition in each instance being to force the respective Minister to devote more time to his own constituency and less to others. In King's, N.S., six men were nominated before the opponents could secure one to contest the constituency. In the West the opponent of Hon. A. L. Sifton was selected from Calgary, and Hon. T. A. Crerar's opponent in Mackenzie was chosen in Winnipeg. The opposition to Hon. J. A. Calder in Moose Jaw comes from a Labor candidate, J. A. Somerville, who has but little following.

ONTARIO'S MINISTERS

Hon. N. W. Rowell is candidate in Durham, which is a safe Conservative constituency. Mr. Rowell is opposed by J. Lauriette, but his election is conceded. Hon. Geo. P. Graham was to have been a Unionist candidate in North Renfrew, but Laurierite, however, would not retire, and the fight is between h'n and Dr. Bryan, Conservative-Unionist. Hon. Hugh Guthrie is opposed in South Wellington by a Socialist, but the Solicitor-General has the combined support of all the Conservatives and the vast majority of the Liberals. Sir Edward Kemp has a Labor candidate against him in East Toronto, as have Hon. Frank Cochrane in Nipissing, and Gen. Mewburn in East Hamilton. Dr. Reid, Hon. T. W. Crothers, and Sir George Foster are opposed by Liberals unpledged in either party.

In Nova Scotia Dr. Dugald S. Stewart, Conservative member in the late Parliament, retired from the contest and was succeeded as Unionist candidate by J. W. Margaron, M.P.P., for this county. Prince Edward Island has straight party fights in its four constituencies, with the Conservatives supporting Union Government and the Liberals pledged to Sir Wilfrid Laurier. The only change in New Brunswick is the withdrawal of Dr. D. H. McAllister from the contest in Royal, leaving Geo. H. H. McLean as the only Unionist candidate. Hon. Frank Carvell is opposed by a Laurierite in Carleton.

A feature of the situation is the presence of Labor or Socialist candidates in about thirty constituencies in all parts of the Dominion. In four Montreal seats the candidates are declared to be "Labor-Laurier" men, in one Western seat there is a "Farmer-Labor" contestant, and in Brantford there is an "Independent Labor party Unionist" in the field.

Government candidates for the purpose of voting overseas are being named by the Prime Minister, and his list will be ready to-morrow night. Sir Wilfrid Laurier must also name his candidates in the several constituencies. His will support, is it expected, Labor and Socialist candidates in constituencies where he has not a Liberal supporter in the field. Overseas voting will commence on Saturday, but it will not be general in France and Flanders before Monday.

Nominations

BOWLING

The Y.M.C.A. bowling alleys and billiard room is now running after a thorough overhauling and repairing. Everything has been put in tip-top shape for the use of those who are interested in these things. Leagues and tournaments will be arranged and a good season is expected. A new set of mineralite, five pin balls has been secured and it is anticipated that five-pins will become popular as a result, provision will be made for ladies who wish to bowl.

SENIOR LEAGUE BASKET BALL

Friday evening witnessed two very exciting games of basket ball. In the first game the Dreadnots closed with the Cruisers. The game was fast from start to finish and many good plays were pulled off. The score for both time was 7 to 15 in favor of the Dreadnots and at full time 26 to 15. Cooper and Holland were the best men for the Cruisers, while Weir and Andrews did the scoring for the Dreadnots. Fouls made by Dreadnots 11, by Cruisers 7. The line-up:—

Dreadnots—Weir, f., Coppin r.f., Andrews c., Watton l.f., Weasley r.d. Cruisers—Cooper l.d., Armstrong r. d., Holland c., Barker l.f., Rose r.f.

In the second game the Torpedoes lined up against the Submarines and the score was out for each other's scalps. The game started off with a rush down to the Submarines' basket, but no harm was done at this point, but after a few minutes of play they were successful in getting down near enough to the Submarines' basket to secure two points. Along about this stage of the game Chute, for the Submarines, fell and hurt his arm, which weakened his team somewhat. The first half ended 20 to 5 in favor of the Torpedoes. In the second half the Submarines came back on the floor determined to hold the Torpedoes down. They did somewhat, but were unable to secure equal baskets. The final score was 32 to 10. Hurley, Johnson and Deeton were the shining lights for the Torpedoes, while Duesberry, Chute and Towers were the men for the Submarines. Fouls made by Torpedoes 6, by Submarines 4. If the game continues to increase in speed the way they have been going we will have some very fast men for the new Senior League, which will start after the New Year.

The line-up:—

Torpedoes—Deeton l.d., Hurley c., Robertson r.f., Buchanan l.f., Deeton r.d.

Submarines—Towers l.d., Chute c., Dunsberry r.f., Yeomans l.f., Blackburn r.d.

Timekeeper and scorer, J. McGie; referee, H. P. Ellis.

In and About The City

INTOXICANT ARRESTED

The police yesterday afternoon made an arrest, the victim being an intoxicant from a neighboring town. This is the first arrest made in over two weeks, which speaks well for the city.

SHIPMENT OF HOGS

Mr. R. Empson and sons to-day shipped a consignment of live hogs to Montreal. The price paid was $18.75 per hundred weights, which is an advance over the price paid a week ago.

HEAVY FINES FOR INTOXICANTS

A young man was this morning by Police Magistrate Masson fined $200 and costs for having in his possession a broken package of liquor at a place other than his residence, namely on Pinnacle road, $100 and costs for being intoxicated. The fines were paid.

WOUNDED IN ACTION

Mr. D. Lawrence, Canifton, received a message from the Director of Records, stating that Fred B. Lawrence had been seriously wounded in action, per 9th, gunshot wound in thigh and chest, and had been admitted to Hospital. Fred was with the 39th Battery, 10th Artillery Brigade, 3rd Canadian Division, in France, when wounded.

REMAINS INTERRED HERE

The remains of the late Col. E. Harrison of Ottawa, arrived by yesterday afternoon per C.P.R. for interment in Belleville cemetery. The body was met at the station by a number of citizens, and was taken to St. Thomas church, where Rev. Canon Armstrong of Trenton, conducted the burial services of the Anglican church. At the interment Ven. Archdeacon Beamish, rector of St. Thomas church, officiated. A number of floral designs were the gifts of relatives and friends. Messrs. F. G. Harrison and Mr. Hudson accompanied the remains to this city. The bearers were Col. Hanley, Col. Farley, Col. Marsh, Col. Barrager, Col. Ponton and Mr. R. Tannahill. The pall bearers were Sir H. Bowell, Messrs. T. Ritchie, J. W. Johnson, M. P., P. Slater, W. S. Cook and F. Ridley.

PRESENTATION OF MEDALS

At Queen Alexandra School in this city, yesterday afternoon an interesting event took place, namely the presentation of medals to Richard Arnold and J. Bunnett, for efficiency in target shooting. Dr. James L. Hughes of Toronto, was in attendance, and made the presentation to the successful competitors. Messrs. B. Mallory, chairman of the Board of Education for the city, C. M. Reid and J. Elliott, also members of the Board, were present. The pupils of the school gathered in the assembly room, where the proceedings took place. Dr. Hughes, in making the presentation to the boys, spoke at some length, outlining the object for which the medals were presented. He also complimented the winners upon the success attending their efforts. Brief but appropriate addresses were given by the members of

How You Can Make Hairs Quickly Disappear

(Helps to Beauty)

Even a stubborn growth of hair will quickly vanish from the face, neck or arms after a single treatment with delatone. To remove the hairs, make a stiff paste with a little powdered delatone and water, apply to hairy surface and after about 2 minutes rub off, when the skin and it will be left free from hair or blemish. To avoid disappointment, be quite certain you get real delatone.

FORMER RESIDENT PASSES AWAY

Word was received in the city last evening announcing the death of Mrs. Peter Williams at North Bay, Ont., aged 72 years. Deceased was a native of Belleville, and was born in this city. She was married to Mr. Williams in Belleville, and in the time of her marriage, which period she had lived at North Bay. Mr. Williams being a conductor on the C.P.R., running from North Bay to Chalk Lake. Mrs. Wilson was taken ill a few weeks ago, and despite all attention at the end passed away. She was a devoted member of the Anglican Church, and always took an active part in church work. Deceased had many friends in Belleville, who will deeply regret to learn of her demise. The sincere sympathy of all will be extended to Mr. Wm. Chief and members of his family in this their second bereavement within a few weeks. In addition to the husband two sons, one an infant, survive. The remains will be interred at North Bay.

DEAD HEROES HONORED.

Two More From the Dominion Regiment—Victoria Cross.

Two Victoria Crosses have recently been awarded to Canadians who fought in the Dominion Regiment. The distinction is going to Sergt. Frederick Hobson, enlisted at Toronto, 7/1914, at Toronto. He served over 4½ years overseas, and has been decorated on this occasion with the Distinguished Conduct Medal. Mrs. F. Hobson, 1281 Landowne avenue, Toronto.

"During a strong enemy counter-attack a Lewis gunner in a front line post leading to the enemy lines, was killed by a shell. The crew, with the exception of one man, were also killed. Sergt. Hobson, though not a gunner, grasped the Lewis gun from the side of the post, and rushed from his trench under fire to the gun position into action against the enemy, who were massing preparatory to a counter-attack from the open. A lam cannister of the gun is now lying. Though wounded, he left the gunner in charge of the weapon, and rushed forward to the gun position, where, with his bayonet-shaved rifle, Sergt. Hobson found he had been wounded himself was killed by a rifle shot, which broke his bayonet. He then got his own spare gun in action, and reinforced the gunner forward, arriving, the enemy was beaten off. The valuable devotion to duty displayed by Sergt. Hobson undoubtedly saved the gunner the time required again to get the gun in action, and was of a most serious attention."

Sergt. Harry Brown, enlisted in London, Ont., August, 1916. He was aged 24 years, a farmer, by trade. Mrs. Helen McAndrew, Bad Lands, Ont. For conspicuous bravery, courage, and devotion to duty, Ont. the 2nd of August, 1918, the enemy massed in strength for a counter-attack. The situation became critical, all the officers having fallen. It was of the utmost importance to hold back the counter-attack. This soldier and one other were detailed by Sergt. Brown in order to deliver the same at all costs. The other man became badly rifled, and Brown had his arm shattered by a bomb. Although in extreme barrage until he arrived at the support line, where he found the officer in charge. He then led down the dugout steps, but he refused to accompany them, and he remained on the parapet, saying it was his duty to remain there. Then he became unconscious and died in a few minutes. Sergt. Brown's splendid devotion to duty was of the highest possible degree imaginable. The successful delivery of the message undoubtedly saved the loss of the position, and at the same time prevented many casualties.

Pleasant Words.

Post—I met a phrase that shall cheer you for the rest of life in two words. Can you suggest anything? Unfeeling Friend—Received payment.—Judge.

Jack—Did your friend, Miss Howler, ever reach high C? Maud—Yes; one day at the dentist's I believe she did.

To the Electors Of West Hastings

I am writing this letter to explain my reasons for refusing to accept the party nomination for West Hastings. My reasons are as follows:—

1st. My health is such that I could not stand the strain of an active campaign.

2nd. I was absent from my business for three years and feel that I cannot devote any more time to it for the purpose of fighting an election.

I appreciate the kindness of those who supported my nomination and those who so kindly offered to give me their support, and although I will not contest the election myself I will support Mr. H. J. Graham, the man who I feel will do the most to bring this war to a successful end and bring your boys with him as soon as possible.

GENERAL FOCH IS GREAT FIGHTING GENIUS

No Flamboyant Impressions Here as Was Seen in Joffre—Foch Is Unassuming and Unostentatious—Methods Are Masterly and Effective.

(By Irvin S. Cobb.)

GENERAL FOCH, who succeeded General Joffre as chief of the French armies at the beginning of the great war, is a fighting general and not a politician. He is personally known to the French people and has won their confidence by his masterly work in the Marne battle and in the battle of Ypres. He was born on October 5, 1851, at Tarbes, in the Department of the Hautes Pyrenees, and is therefore sixty-seven years of age. He is personally known to the British people, who have come to regard him as a great soldier and a great leader. He is a devoted member of the Roman Catholic Church, and always took an active part in church work. Deceased had many friends in Belleville, who will deeply regret to learn of her demise. The sincere sympathy of all will be extended to Mr. Wm. Chief and members of his family in this their second bereavement within a few weeks. In addition to the husband two sons, one an infant, survive. The remains will be interred at North Bay.

GENERAL FOCH

assumed of the 20th Army Corps, and he took part in the victorious battle of Lorraine in August, 1914. After the battle of Lorraine he conducted the retreat of his army corps, and was ordered to take part in the battle of Charleroi.

At the time of the battle of the Marne General Foch was in command of an army intermediate between that of General Langle de Cary and that of General Franchet d'Esperey, and it was his troops who had the honor of entering the city of Fresnes-en-Woevre, which broke the line of the Germans in the Trenton centre, and his later efforts broke the line as has been pronounced by military writers as one of the few strategic organs shown by the generals in the present war. It was this fact and by his general conduct of the battle of the Marne and a leading part in the winning of the battle of the Ourcq, that the Kaiser later commanded the group of the Armies of Germany, and Foch was in command of two offensives, in Artois in 1915 and on the Somme in 1916. At the end of last year General Foch was reappointed by General Franchet d'Esperey, and he has since been employed on various missions, notably in France and Italy.

Kerensky an Unknown.

The rise of Kerensky as one of the most significant statesmen of the war is the story of the man of determination that is abroad. He has behind him no long years of parliamentary training; he reverses no traditions of a bureaucratic order. He was simply a revolutionary member of the Duma, with legal training and a direct and rather fascinating style of eloquence. It was within those Czarridden walls of the Duma long enough to interpret that he learned the lesson that resulted in one of the complacents of effective radicalism.

So when the Duma became the centre of revolution during that inestimable third week in March, Kerensky dominated each successive gathering—landlord and peasant, workman and capitalist, socialist and democrat, conservative bourgeois, and anarchistic socialist—by the sheer human intensity of his oratory and the downright honesty of his arguments. He took command himself and what suggestion from anyone, because he knew that the salvation of a young man who recognized the value of his own opinion and had the courage to use them. No other type would have dared lead the Russian armies into an offensive within fifteen weeks of an upheaval that affected 170,000,000 people.—Henry Beach Needham, "Kerensky: The Compromiser," by Henry Baydan, in The American Review of Reviews.

BE THANKFUL TO REST.

How to Relieve Your Eyes If You Must Read at Night.

There are not many devotees of the embroidery needle whose eyes and heads do not grow weary and aching more than just so long. Yet at times when the interests or demands that a lady is more be accomplished, in order to finish the piece in hand at the time required, does a very distressing result be found in a certain change of position. When the sight and back muscles begin to tire try taking a soft sofa pillow—one with a smooth cover—into the lap and allow the elbows to rest on it slightly. The altered position will be found to relieve the muscles of the body, and the change will rest also both the eyes at the same time. This latter "kink" is not sufficient—well known among those having rather unusual eyesight. Today it is recommended by specialists that those who have to do close work should exercise the eyes every hour—by looking intently at objects as far away as possible. Also certain young dressmaker asserts that she derives extra activity rest the eyes after a day's work over the board.

Thirst Quenchers For The Soldiers

Women Give up Their Trinkets to Help Canada's Soldiers Overseas

The Ontario W.C.T.U. is endeavouring to raise a fund of $20,000 for tea-rooms, coffee and lemonade, being the National T.M.C.A., whom the Ontario W.C.T.U. is aiding, will need $50,000 to cover their share of the work. The W.C.T.U. has already sent to France, mainly for this purpose, about $11,000, but the need grows more insistent. In addition to the free drinkables, the Ontario W.C.T.U. has become responsible for the cost of printing a weekly sheet of their own, called Daily Bread, which is being sent through the mails to all the soldiers in the forward trenches, whose comforts it is hoped to receive it. The appreciation of the men for this bit of comfort can be judged by the fact that in one division alone, 50,000 letters were written in the time began; 15,000 soldiers asked that their names be entered on the "Pay Book Roll" of Daily Bread. The fact is explained from the fact that they are designed to fit into the soldiers' pay books.

To aid in raising the necessary funds the W.C.T.U. and "T" of this city will shortly hold a "Silver Thimble and Trinket Day." It is said that in each every citizen for broken, wicked, unwanted bits of gold and silver (children's cherished jewelry or table silver, gold or triple plate, etc.) Any type of cance and embedding, watch charms, broken spectacles, old bills, gold coins, in sterling silver or triple plate, coins in gold or silver, which have been discontinued as legal tender, etc.

All articles will be melted down and then proceeds sent to food for the soldiers overseas. Mrs. Archer that would give more money if sold, than as trinkets will be sold. Fuller particulars will be given later.

BE LIBERAL PRESS AND THE UNION GOV'T

A JUST CLAIM.

Huntington Gleaner.—"It is a new attitude," complains largely of Liberals, of men who had neither part nor lot in the mischief which Sir Wilfrid Laurier, Messrs. Lemieux, Bureau and Rowell to do with profiteering or Mr. Graham with munition contracts! Half the Cabinet is composed of men against whom none of these has a shadow of a charge, yet they have a just claim on the electors to be given a fair show. It must be kept constantly in mind that the country has reached a juncture which compels the electors to declare once have got to leave the scores aside until we have settled the Germans' which danger is knocking at our door. To grapple with it and to do so effectively have to make differences between us one man. On this one great issue looming over Canada, Sir Wilfrid is as weak and indefinite as ever. He wants to send the war a message to Sir Robert Borden, he declares, and proposes to end it by referendum and consultation.

PREMIER BREWSTER'S STAND

Vancouver World:—Driven by the logic of events, Premier Brewster, like many other members of his party, has definitely taken his stand in favor of Union Government.

His position is consistent. He is on record in the matter of compulsory military service and of the mobilization of Canada's resources—financial and material—for winning the war. He finds that the leaders of his party, with one exception, an utterly unfit, that is particularly regrettable, have agreed to drop party politics and combine with certain Liberals in order to conduct the government of the country on the basis of thorough preparation for the prosecution of the great conflict now engaging us. Hence he is irresistibly compelled to adopt the same course of action and make the political sacrifices the situation demands.

DELAY-THE-WAR

St. John Globe—Since Hon. Sydney Fisher declared that Sir Robert Borden and his colleagues had resorted to a trick in calling themselves the Win-the-War party, Sir Wilfrid Laurier has issued his manifesto. Canada now knows, from the lips of Mr. Fisher's leader himself, that his policy is not win-the-war, but delay-the-war; that a referendum can be held on the subject of military service; that policy of the National Government means prompt and effective support of our boys in France. The policy of Sir Wilfrid means no action for months, perhaps no action even after months. No Canadian father, mother, brother or friend of soldiers in France can favor relandoning them to the way the Laurier policy would abandon them.

UNITE FOR THE WAR

Hamilton Times—The conscription of man-power and of material resources and the blending of both in the melting pot every activity that can help on the prosecution of the war can best be done by a united country, represented by a united Government. There are only two things for Canada to do: either to do as Russia is doing, practically withdrawing from the struggle, or take steps to carry on the war with unabated energy and strength. The Liberal convention refuses propose to fight it out no matter how long it takes. To do otherwise would mean disaster, disgrace and ruin to Canada.

ORDER REQUIRED

Vancouver Sun—It matters little what the idea or the ideals of the individual may be, if those placed in power, and holding the reins of government, desire to carry out a measure that they consider for the general good. They have adopted the conscription law, by carrying out its provisions to the letter. Individuals and communities must accept the mandate, and should do so without friction of any kind. The British people will not permit of any disturbance in any part of the empire, that will break the unity now existing.

NO USE FOR BOURASSA

Toronto Globe—The Liberals of English-speaking Canada will not swallow Bourassa. His pledges stink in their nostrils. They believe that the honor of Canada and the security of Canadian homes is more than party, that such as for many shame due to party of free speech.

THE ISSUE IS CLEAR

Winnipeg Free Press.—Sir Wilfrid Laurier's manifesto is a remarkable document. It is clear, however, that so far as this campaign is concerned it really consists of the one brief paragraph in which he asks for a free and untrammelled election. The issue is clear.

A GREAT DOUBLE-BY

Manitoba Free Press.—Canada is unfortunately, as Sir Robert Borden's manifesto declares, engaged in a "great double-by" struggle. The Premier says: "Upon the result of the general election depends the decision of the Canadian people the character Canada will take in the highest task and the spirit of true patriotism actuated by any strain of political expediency, raises itself far above the mists of ordinary party-making, shows sympathy with the cause of human grace and with the trials of those who are engaged in the struggle to defend its cause and the President of the United on if the full mark of elasticity is plain to be seen by all but those who, by will or prejudice, are blind to its true complexion."

THE SUPREME ISSUE

Toronto Telegram.—Sir Wilfrid Laurier's economic program—the three drastic taxation of wealth and the promotion of trade with the United States—is identical with that of the Union Government except in respect of some of the details. The national which did the revivet during the years 1911 to the cost of dividing the forces behind the Military Service Act. With unanimity behind the Union Government's organization and for what is uppermost in the public mind, the Press underlines conscription as the supreme issue. Against the imperative necessity of maintaining Canada's strength and honor at the front, matters of party controversy count for little with private people at this fateful time.

SHOULD HAVE RETIRED

Kingston Whig.—It is to the everlasting credit of the Liberal leader still, not having resigned—that before there was a vote on the Military Service Bill he committed his supporters to do as their conscience dictated, and with an expression of regret that it was necessary. Likewise Sir Laurier rose to give his approval to the measure. That was the time that Sir Wilfrid should have retired from the leadership. He could not have made it the basis of a choice quite conscientious and discreet; and he would have had the consciousness that he lived in the affections of the Liberal party.

THE ONE AND ONLY SOLUTION

Manitoba Free Press :—The consolidation of public opinion in the West in support of the Union Government of Sir Robert Borden is the most satisfactory. In a few constituencies there is in evidence some reluctance to sink party differences in deference to the overwhelming importance of complete unity between all the elements desiring the energetic prosecution of the war will overcome lesser considerations.

THE UNION MINISTRY

Halifax Chronicle: That they and those in the party ranks who sympathize with and support them, were patriotic and disinterested in their motives, we do not believe any intelligent Canadian whose judgment is not warped by ingrained partisanship can seriously doubt. Each of them might honest.

THE FICTION FACTORY.

Mr. E. Goss Porter will be the candidate of the Conservatives, and has announced himself as a supporter of the Union Government.

The above paragraph appeared in last night's local Laurierite sheet. A paper that up to now has not said one word in favor of Union Government. Isn't the paragraph absurd? Isn't it crude? Everyone knows that Mr. Porter is the Union Conservative candidate and will be endorsed by the Government as the Union candidate. Does the Laurierite editor think he can hoodwink the electorate with such utter rot? It is about in keeping with the vaporing of "A Measure" to be brought upon us by fellow citizens of the Roman Catholic faith that emanated from the same brainy source a few weeks ago. Try another Editor-in-Chief! Your fiction is fine and does credit to an over-heated imagination.

MR. THOMPSON — AND DICTATION.

At the Conservative meeting held in the village of Madoc on the 14th inst. for the purpose of nominating a Union Win-the-War candidate to contest the East Riding of the County of Hastings at the coming election, Mr. Thomas Thompson, who received the nomination—Mr. Northrup having declined to be put in nomination—took upon himself the responsibility of charging The Intelligencer with having "dictated" to the electors of the Riding who that candidate should be. Mr. Thompson never could have read the editorial articles which had appeared in The Intelligencer dealing with the subject of the ensuing election. Had he done so he would never have made the charge, unless forgetfulness unworthy of a Conservative candidate. Had he read them and understood what he read, he could not have found a line or sentence to justify such an accusation.

The Maximalist may find that they have been crying peace when no peace with the Huns is possible which rests on the "yellow Reds" of Russia would accept.

The Canadian who is not prepared to make further sacrifices for the war is not worthy of the sacrifices that have been made for him by the men at the front.

President Woodrow Wilson wants peace "for more than a few minutes." For that reason he will not make peace with a victorious German autocracy.

"Patience as the dreamers of Russia," says President Wilson, "are the two Ridings had been returned by majorities numbering over four figures, and had proved themselves representatives of which any County might be proud.

Hastings has had the proud satisfaction of knowing that no County in Canada has had representatives in the Dominion Parliament who stood higher in the estimation of their fellows than did Messrs. Northrup and Porter, and their present and industry commanded that confidence and respect.

The Intelligencer has not changed its opinion, whether it pleases Mr. Thompson or not. The most astute intellect will fail to find in that recommendation a word of dictation.

Fingers

The fingers were those of Mr. F. W. Bossard, of 329 Craig St., Montreal. He says, "I had a bad lung, back pain and a severe cold. Your Sagara were so strongly recommended that I decided that I would have to be amputated. Accidentally I didn't wait that, but decided to try Zam-Buk first. I soaked Zam-Buk and lay on the limb. I had used $4 worth, the limb was completely healed. My fingers were saved."

Just another illustration of the healing power of Zam-Buk. Accidents will happen. It may be your turn next. Better get a box and keep it handy. Accidents are sure to prevent when skin diseases and remember this.

Zam-Buk is just as good for eczema, ulcers, skin diseases, sore piles, as for cuts, burns, bruises.

Liberal candidates in Ontario who are in favor of giving the Military Service Act a fair trial should ask themselves what sort of trial it will get from a Quebec delegation pledged by Laurier to immediate suspension.

Another Laurier candidate, Mayor Lavigueur of Quebec, has signed the Nationalist pledge. Sir Wilfrid Laurier pretends not to have anything to do with Bourassa, but that does not seem to prevent Bourassa from having a lot to do with Sir Wilfrid's candidates.

Sir Thomas White's figures show that the Canadian people can easily raise the amount asked for in the Victory Loan. The aggregate wealth of Canada, despite the war expenses, is greater now than at the beginning of the war. The automobile ans in Ontario last year are a fair indication. The rank and file of Canadian people have not yet begun to get into the war-load habit.

Daily Progress Of Union Gov't

What is Transpiring in the Various Parliamentary Districts for and Against Union Government.

Premier Supports Fielding

Sir Robert Borden has returned to Ottawa after very strenuous week spent in the Maritime Provinces in the interests of Union Government. The political situation down by the sea is still somewhat confused, but the Prime Minister was able, by virtue of his personal influence as leader of the government, to reconcile conflicting political influences in many constituencies. A nomination was offered to Sir Robert Borden in Halifax, where he has been returned by Conservative candidates for 31 years. He declined the nomination and asked the convention to nominate Hon. A. K. Maclean in his stead. Mr. Maclean accepted the nomination and is expected to be returned by a large majority.

The Prime Minister induced the Conservative convention for Halifax County to adjourn for 24 hours in the interest of securing an arrangement, by which a contest would be avoided, and there is still some hope that this may be effected.

Supports Fielding

In Queen's-Shelburne Hon. W. S. Fielding was nominated by the Liberal convention and Hon. A. K. Maclean by the Conservative convention. Mr. Maclean declined to run against Mr. Fielding and accepted the nomination in Halifax County. The Prime Minister had a long interview with the members of the committee who proposed to nominate a candidate to run against Mr. Fielding, and addressed each member the following, which speaks for itself:

"Referring to the conversation which I had at Halifax with you and the other gentlemen of the committee which was appointed by the Liberal-Conservative convention of Liverpool, I now venture to repeat what at that time I urged upon the committee.

"The Union Government has been formed with the sincere desire and purpose of bringing together in one administration representative men of both political parties, with a special representation of agriculture and of labor. The task was a difficult one, but it has been successfully accomplished, although further additions to the government will be necessary in the immediate future.

Fielding for Union

"Mr. Fielding has taken a strong stand in support of Union government, and his long and notable connection with public affairs as a member of the Liberal party makes his adherence to the cause of union most important in its influence throughout the Dominion. I realize the circumstances alluded to in your letter, which have naturally created embarrassment and aroused certain irritation among the Conservatives of Queen's and Shelburne, in this solemn hour it is our bounden duty to overlook all such matters and to take such action as may be conducive to the common weath. I, therefore, desire to urge upon you with all the earnestness of which I am capable that there should be no opposition by

Borden for King's

Nomination as a Conservative candidate in King's County at the general election was unanimously given to Sir Robert Borden the Prime Minister, at a party convention in Kentville on Saturday afternoon. The premier, in accepting the nomination, spoke in his usual vein, and was given a hearing of very much interest. He referred to his early association with the riding, and to the fact that he had represented it for over 20 years. He also spoke in appreciative terms of the action of his colleagues Hon. A. K. Maclean, the offer of the nomination in King's constituency, and the withdrawal of his name.

Sir Robert is the center of a conference of the Union Government, presided over by Premier Rodd of Nova Scotia, at which Premier Murray and Hon. W. S. Fielding, and Messrs. Pugsley and Mr. Fielding, are to be elected by acclamation for Queen's Shelburne.

The Premier touched upon Canada's duty in the war. He uttered a strong warning against war weariness and stressed that the failure to provide the soldiers at the front with reinforcements would be regarded by them as a betrayal. If a referendum on the question of conscription were to be taken, the Military Service Act, which was to provide the men needed, would be rendered inoperative.

After recalling the rapid development of aeroplanes and submarines during the present war, the Premier said that one hold not tell when this country might be brought within the actual zone of the war's devastation.

Speaking of the situation, Sir Robert said the issue in the election was nothing else but the national destiny. He himself was not a candidate, and felt that they would remain in the conflict with the undiminished resolution which had animated them for three years.

A. De Witt Foster, former member for Kings, was present and endorsed the Premier's candidature.

Burnham Endorsed by Union Forces

The election contest in Peterborough has narrowed down to a fight between Mr. R. E. Hall, representing the Borden Government, and Mr. H. Burnham, for the Borden Government. Following the failure Friday evening to agree upon a single Union candidate, the Union party has decided to throw its strength to Mr. Burnham, and with that object in view, have acclaimed him the Union Candidate. At the close of the Union convention, which broke up in disorder, a meeting was held, when Chairman F. H. Dobbin, chairman of the meeting, claimed that the nomination was in favor of Mr. Burnham. Mr. Peck. Yesterday Mr. Peck in a signed statement, said that it would have required a much stronger expression of opinion than was manifested last evening to have persuaded him to enter the contest as the nominee of the Union party. "There only other course," said Mr. Peck, is to fall in line behind Mr. Burnham and endeavor to roll up for him as overwhelming majority."

The Globe quotes Mr. George E. Gibbons, the Laurier candidate, in London, as saying: "There is grave reason to believe that the Borden Government has already given a pledge to its Nationalist followers in the Province of Quebec to practically exempt the Province of Quebec from participation in the Conscription Act and place the burden on the other Provinces." This is the kind of balderdash that the Laurierites are uttering in the hope of influencing the electors.

An Ottawa despatch published in Le Devoir, Quebec, reads:

"Sir Wilfrid Laurier on his return from Quebec will rest here until after Nomination Day—Nov. 19th. The Liberal Leader will approve the candidature of Independent Liberals favoring conscription in those ridings where a straight Laurier candidate cannot be obtained.

This is the policy that the Quebec statesman will retain's great coat of his old-time craft.

WANDERER

Novelized by William A. Page From Marion V. Somers' Great Biblical Drama, of the Prodical Son, Presented at the Manhattan Opera House, New York

Copyrighted, 1917, by William Fox, F. Ray Comstock and Morris Gest.

"Then if Isaac does love a maid of Babylon whenever Tisha tells you, come to me and tell me, for I am a friend of the father of her boy, already has my heart for the sake of Isaac and his bride." "If they consider love a maid of Babylon then must be prepared to give them the proper punishment," said Jether.

Jether stood, pulling at his goatee. She had spoken and said in the tabernacle of Jehovah.

"Is anybody then wouldst refuse you, my father?"

The father looked at his son.

"What meanest thou?" he said, dully.

"I would have the greatest proof of my love for you, my father, that I can give you by the strongest proof, my father," Jether said.

"Jether, speaking that a great son was the comfort of Hon. Jether said, trembling.

"Then stand Tisha triumphantly. "Then you have a maid of Babylon shall give herself to the Hebrew God, for the sacrifice of Jether, our goodly son of love and father pride in his heart. Say now with me, as I speak! Say now the sacrifice upon the altar of Jehovah. For Jether, my love!"

Jether, then shut; though thy god this day! Then did I command thee, Jether, that thy father Tisha Cosin, beloved, to the Lady Zebbah."

Tisha led Jether to the very foot of the altar, and bowed yet another goddess of wine.

Above them towering alloy Fest Mah. Yet the great curtain hangs of a heavy tapestry of the Babylonian. A great tabernacle stands of wood and stone. Jether looked down that with any partiality of the tabernacle of the Lord, and the altar was covered. Jether looked at the tabernacle, and in Sophia Talbi or terrace, and yet the most hungryst of the Hebrew God, and the great altar of the Lord, and the great altar of the Lord, and the great altar of the Lord.

Tisha, the wife in honor of our God, Jether, and the great altar of the Lord, and the great altar of the Lord.

Jether, even though infatuated by wine and excitement by the hundreds of the feast of Jether, could not refrain, and the great altar of the Lord.

MUSIC AND DRAMA

THE BIRD OF PARADISE

Apparently everyone in Belleville and the surrounding country had an overpowering desire to witness the Morosco production of Richard Walton Tully's successful mixture of Hawaiian scenery, music and sensuousness for Griffin's theatre could only hold about half the number last evening that wished to see the play. The reserved seat plan sold out in an hour or so the day it opened, and last evening Bridge street looked like a Saturday evening on Yonge street, Toronto, near Lowe's theatre with a rush seat crowd stretched out to Front street, six deep.

The result was that the theatre was packed to the rafters and there wasn't even standing room. As usual the players who come early to enjoy every minute of the show were imposed upon and stepped on by late comers who in droves swept down the aisles and destroyed the enjoyment of the first act completely. Belleville holds the championship for this kind of boorishness in all Canada and the cause of the late-coming disease is hard to diagnose. It should be easy to reach the theatre at eight o'clock and get seated and settled before the curtain rises Why not leave the dishes to be washed after the show if that is going to interfere with anyone's enjoyment?

But to return to "The Bird of Paradise" which despite unfavorable conditions last evening gave thorough satisfaction with an excellent cast and fine scenic effects. The soft, sweet haunting music of the South Pacific with its appeal to the passions, which is the undertone of the satire's story never ceases and the jazz band carried never seemed to weary.

The leana of Miss Celeste Scudder is a triumph of the stage in making natural and unaffected this most difficult of all parts. A delightful piece of acting was that of Mr. John Waller as the "beachcomber one of those human derelicts so often found cast up by the sea in many out-of-the way places of the world, seeking forgetfulness and to be forgotten and courting oblivion in the rotten gin of the Southseas trader or the no less deadly effect of the native liquor. Mr. Waller presents a picture of a "beachcomber" which should even while it repels and the redemption of the outcast is one of the finest sentiments of the story.

The other members of the cast were fully equal to the demands of their parts and the scenery was appropriate and fitting particularly the volcano scene which terminates the story and with its accompaniment of Voudoo rites and human sacrifice is most thrilling.

The Crescent.

The crescent was not originally the emblem of the Turk. It was first used by the primitive Christians of Constantinople and the Eastern Provinces of the old Roman Empire as an emblem of the growing influence of Christianity. It was not until about the year 1453, after the Turks had overrun Asia Minor and part of Southern Europe, and had captured Constantinople, that the Turks adopted the crescent as their national emblem.

HON. N. W. ROWELL OPPOSED AT DURHAM

PORT HOPE, Nov. 20.—Hon. N. W. Rowell was formally nominated at Orono as the Union Government candidate for Durham, and C. W. Jones of Newtonville, as Independent. A mass meeting was held later, which was addressed by J. E. Barrett, of Toronto, and Col. R. J. Manning, of Port Hope, on behalf of Hon. Mr. Rowell. In a clear and convincing manner they placed before the audience the great advantages of the Union Government, which was formed by Sir Robert Borden with the prime object of devoting every ounce of Canadian energy to the winning of the war.

Jones and his supporter, Mr. Waldron, of the Toronto Sun, also delivered addresses, in which they advocated taking a referendum on the question of conscription.

Fred Morrison, Returning Officer, opened over the gathering, and announced on the platform were Mr. G. C. Porter, K.C., M.P., Mr. Graham, S. Sherrow, Ald. Deacon, Roger Ketcheson, W. Mallory, Geo. Boyes, Reeve Reid, H. Dash, M.P.P., and Kerr.

Mr. R. J. Graham was the first speaker and said in a short time we were present and discuss the vital questions which at the present time were being discussed over Canada. He said he was an Independent Conservative and in favor of a Union Government, with Sir Robert Borden at the head. For some time past your humble servant Sir Robert Borden has eliminated party politics. There was no party politics in it. He said the candidates were of the people of all ranks. There should be but one issue and that to back up this war. Mr. Porter, for 17 years has represented this constituency. And he will tell you what he has done. What is the platform of the Union Government? The patronage system will be abolished, which is a good think. There will be a reward for merit. In the past, positions have been given to party men. He heartily endorsed the policy of the Union Government, in this regard in regard to the Military Service, a young man should earn his commission as his son had earned it. He is speaking of his business, Mr. Graham said he was not a professor, and this was no time for prodding. The Government, he claimed, was not to be benefitted by the business he had been engaged in.

Mr. Porter was next called upon and received a most flattering reception. He thanked all present and especially the ladies for their presence. In his opening remarks the speaker referred to the fact that Mr. Graham stated he was not brought out by any party. Who is he brought out by? Did he bring himself out? As the old sitting member he, possibly, thought it only right to attend holding a Conservative convention until it was ascertained what the Liberals contemplated and so man could be found to be the nominee. A committee of three was appointed to wait upon Col. E. F. O'Flynn to tender him the nomination and he asked for 48 hours in which to decide. Col. O'Flynn has not yet accepted the nomination. Mr. Graham was waited upon by Liberals and he was brought out by the "Ontario" newspaper. Al Marmon, Mr. Graham stated he had been waited upon by such Liberals as Mr. Hertly, Dr. Ostarle; Mr. F. B. O'Flynn and Mr. D. V. Sinclair. These were the men who were supporting Mr. Graham. If there is any Tammany methods as suggested by Mr. Graham, those in favor of such methods should support Mr. Graham, for if elected he will support the issue. The principle enunciated by Mr. Graham in reference to patronage of merit, he said is perfect accord with, and had done so where appointment had been made. The Postmaster at Belleville had served 38 years in the office before being promoted, and the late A. McGinnis was in the Custom's Department 14 years before he was promoted. In these matters as to others consistency was a jewel. Mr. Porter then touched upon the question of enlistment and clearly demonstrated where he stood in this matter. His, the speaker's son and only child was in England and in khaki, and he went to Kingston and qualified for his commission. When Mr. Porter believed he was connected with, was broken up, he left the infantry and today was attached to a machine gun section, that he was a little over 17 years when he joined the colors (cheers). He would not say that Mr. Graham was a professor, but he had made a lot of money. The speaker here read an extract from a Government inspector in reference to the condition of the Graham shoe creating factory in this city last year which was not of a complimentary nature. Mr. Graham had a right to make his money in Government bonds, but he does not state that by so doing he "should pass" and would escape succession duties. These profits have been made how? Well, Mr. Graham will tell you. If he has made a million dollars since the war commenced he is no doubt anxious for the war to continue. The great issue of today was, shall we be loyal Canadians standing behind the boys at the front. When we sent those boys boys away with cheers we promised to protect them and their dependents and we do it. Are we going to take Sir Wilfrid Laurier's policy in regard to obtain

It is more than words or song or acting. His "Vesti la Giubba" is the breaking of a heart in music—sorrow beyond words, hidden beneath a smiling mask to face the call of duty—as but one of us has not sometimes laughed with Pagliaccio! Lazaro, Metropolitan Opera tenor, in this appealing record his made his singing live. 49020—$3.00.

THE records individually mentioned are only a few of the splendid Christmas list of Columbia Records. It includes many other operatic numbers, 22 new popular song hits, 14 whistling dance numbers, patriotic songs, fairy stories for the children, and a number of beautiful Christmas carols and hymns.

Stracciari's song of love and hate

Love struggling with hate in dramatic melody —that is the theme of "Eri tu!" from Verdi's "Masked Ball." A song that requires much of the artist, and in this record Stracciari, leading baritone of the Chicago Opera, has given of his art in full measure.49221—$1.50.

Barrientos, crystal clear in Lakme's Bell Song

Soaring joyously through her bell-like notes of Delibes' lyric, Barrientos makes music more musical by the matchless cadence of her voice. A record in which the great soprano of the Metropolitan Opera surpasses herself. 49151—$3.00.

Ald. Wallace, Mayor of Sidney, said he was proud of one fellow and that was all seen in West Hastings were Conservatives. He must honor the President for what he had done in forming a Union Government for Canada at this present time. He, the speaker, supported Mr. Porter because he was a supporter of Sir Robt. Borden. Mr. Mallory spoke enlogistically of Mr. Graham as an agriculturalist and what he was doing for the farmers. He was opposed to the Government's embargo on barley as reported into this country to enter in competition with our dairy butter. The agriculturalists should be in Parliament.

Mr. J. R. Cook, M.P.P. for North Hastings, was heartily received, and in his opening remarks said all realized the existing circumstances in this country today. He would speak of the most vital question in the country at the present time, which was not a political question. It was one to-day who in the past were bitter opponents joined as Unionists in a great cause, the freedom of nations from tyranny. The chief issue to-day in Canada was the Military Service Act. That is the issue that will be decided at this election. It means much for Canada. Was this Act necessary, and is it just and right? Governments in all the world could not be justified in making such a proposal without a just cause. Three years ago Europe broke out and Canada was enjoying all the could possibly enjoy. What were our interest? Germany, Austria, Turkey and Bulgaria were opposed to Great Britain and her allies. They were nations that would subjugate rights under military despotism. Sir Wilfrid said that Great Britain was never greater than she was to-day, but how is he living up to that sentiment to-day? Canada has sent over thousands of her young men to fight the enemy and the question is, why we sincere when we encouraged these men to go. If it was right for them to go, is it not right that others go. The voluntary system has gone its strength. In Quebec volunteering did not have its results, and a selective draft was necessary. It was on this policy is carried out in this election.

Ex-Ald. Duckworth of Belleville, spoke in support of Mr. Graham, claiming that he should receive the votes of the working men, as he was an employer of labor.

Mayor Ketcheson of Belleville, being called upon to speak, was accorded a hearty reception. His Worship said he was glad to be present to-day, and we do not know just when or how we may fall. Conservatives and Liberals have formed a Union Government, and it is a Great Government. It is a win-the-war Government, and it is the life of the nation and our boys we are fighting for in this election. The man who assisted in helping to secure this Union Government was our ex-member, Sir Wm. Hearst, who is the choice of the Union Government. This is a War Government, and will last only while the war lasts. The best party politics should be put to one side. We to assist that Government, and our ex-member, Sir Porter, is such a member. Canada was at one time a great alley, but divisions among the people has disrupted that country. We must stand by the man the United Government has selected as its leaders. This tremendous crisis was the cause of the speaker appearing on a political platform for the first time in his life.

He had been associated with this city, and he had, recruiting officer, boys and women to Mr. Porter, and who had done much for the boys and the dependents of those who have gone overseas. We expected to have many of our boys home this Christmas but they could not come for want of reinforcements, which were not forthcoming. Let us be true to Canada and the Empire and support the union candidate, Mr. Porter. If we do this we will be assisting to win the war. We will support Mr. Porter and send him back to Parliament.

Ald. Deacon of Belleville, who was called upon to speak for Mr. Graham, said he was here a Liberal but he supported the National Policy, and had been a Conservative ever since. No one could say a word against Mr. Graham. As a business man he, the speaker, supported Mr. Graham, because he was a business man and a farmer. The past should be forgotten, and we should be as one in this contest.

Mr. R. J. Graham was given an opportunity to reply, and in doing so said he was proud of Roger Porter, and had no intention in any way of belittling him, but his boy went to the front without any political pull. It was not the fault of the Liberals a Union Convention was not held in West Hastings. He, the speaker, was not a candidate of his own choice, but had been requested to come out by a large petition presented to him. He had the support of such men as Mr. Hertly, O'Flynn and Sinclair, and was proud of it.

Mr. Porter replied briefly but effectively.

Two Candidates In the Field For West Hastings

Continued from page 7

erely. He was the candidate of the Liberal convention, and he had no doubt of the result. The Liberals had done all they could to get a candidate before they could not get a Liberal Mr. Graham came forward, because as he stated, he was requested to do so, owing to a petition presented to him. Signatures to that petition were procured under false pretenses, and this the speaker could prove. One Mr. Finkle in obtaining signatures to the petition, had stated that he, the speaker, was ill and that his physicians had stated that he would not be able to be a candidate owing to his physical condition. Mr. Finkle states he did not use that statement, but there were three respectable citizens of Sidney in the audience, who are prepared to make affadavits that such are the facts. He, the speaker, was not in the habit of blowing his own horn, but if Mr. Graham desired to know what he had done for the riding since he had been the representative he would tell him. He was instrumental in securing the expenditure of $200,000 in Belleville for new dock and a warehouse for the use of business men such as Mr. Graham; he had secured the Post Office of Belleville to be placed in the status of a city office, and had secured the delivery of mail twice a day in the city by letter carriers; he had had stables established throughout the riding free rural deliveries; for the Town of Trenton he had secured $97,000 to assist in the erection of the fine bridge which spans the river, and had the Post Office in that town enlarged. The British Chemical Works would have gone out of the riding had it not been for the persistency of the speaker to secure assistance. He could not get it for Belleville, but he had it located in Trenton, and it meant much for that town and the riding. He had stood true to the riding and had even filled vacancies by returned soldiers. He had also helped to destroy reciprocity, which some upon platform declared not to have. Mr. Graham stated at Marmore he had been on both sides of the fence, and where is he to-day? Addington said he was barn a Liberal, yet he, the speaker, had assisted in procuring for that gentleman who is a manufacturer of shirts, a contract from the Government for army shirts; and Addington had asked him to do so. This was the reward of gratitude he, the speaker, was receiving from Addington for what he had done for him. In conclusion Mr. Porter stated he had no fear of the result, for he felt assured he had the confidence of the majority of the electorate of the riding.

This concluded the speech making and three cheers was brought to a close by cheers for the King, the candidates and the singing of the National Anthem.

THREE-CORNERED FIGHT IN EAST HASTINGS

Liberal Candidate Nominated in East Hastings at Eleventh Hour in Effort to Win Riding for Laurier With Two Conservatives in the Field

The nominations for East Hastings were held yesterday at Tweed and attracted a large attendance. Three were filed for the follow nominees:

WILLIAM BARTON NORTHRUP, Liberal; Belleville, Colborne, Cobourg.

THOMAS HENRY THOMPSON, Chemist-buyer, of Madoc.

Union, who appointed as his agent Robert M. Geck, Deseronto.

Conservative, James Whytock, Madoc.

WILLIAM C. CROSS, Barrister, Madoc, Liberal, agent J. L. Newton, Tweed.

The nominations were held in the Town Hall McCamus Block, Tweed, and afterwards a public meeting addressed by the candidates was held in the Auditorium Theatre, which was packed to the doors. Mr. W. R. Timmon, of Crookston, addressed the meeting on behalf of the Liberty Loan, previous to the candidates being heard.

The expected happened in East Hastings when opposition to the sitting member and Union Government candidate resulted in a Liberal being placed in the field to oppose Laurier, hour, and as Laurier-Liberal at that, that who hesitated not on the platform to denounce the "dirty deal" in Ottawa, acrimoniously expressing his regret that he was arrayed by the Military Secretary from discussing conscription at length. Mr. Thompson's assistance of a divided Conservative party in East Hastings is likely to result in a Liberal being returned with Canada's soldier vote overwhelmingly Unionist.

Mr. Peter Ryckman, of Colborne, County, was selected as chairman, an office he filled very acceptably. D. M. Alger was appointed secretary of the meeting.

W. B. Northrup, K. C., M.P.

Mr. Northrup was the first speaker and referred to the fact that it was about thirty years since he had first had the pleasure of taking part in the election in East Hastings. The past twelve years was unique to say the least. An election was forced through the refusal of Sir Wilfrid Laurier to consent to the extension of the life parliament. It was a matter of regret that a wartime election had been forced upon the nation in East Hastings an election was entirely unnecessary under the circumstances, the sitting member being a supporter of the Union Government, and a contest at this time could only result in injury. In England the people had sunk their prejudices and united to in the war throwing all their energies to one side as they realized how serious was the world struggle in which they were engaged. All efforts should be concentrated upon winning the war.

Mr. Northrup heartily endorsed the Borden Government, and spoke very optimistically of the possibilities of the new union Government. Notices of return and expansion Sir Clifford explained that while not a resident of the riding he had left no stone unturned during the last few months in the interests of the electors of East Hastings, enumerating many instances where the constituency had been benefited through his efforts. Should he be favored with the continued support of the electors he pledged himself to do his best for East Hastings in every possible way.

Mr. Thompson

Mr. Thomas Thompson, was the next speaker, and from a carefully prepared statement proceeded to enlighten and entertain the electors present. He felt he should have the privilege of all as he was placed between two lawyers, but stated that he had no apology to make for coming out at any time, and at the present, some time there had been a growing feeling that East Hastings should be represented by a man living in the riding. His promise given at points of the compass had ventured upon him and asked him to be their candidate. He was appealing as a Union Win-the-War candidate and was in favor of Sir Robert Borden and his policy. Mr. Thompson considered Sir Robert Borden one of the greatest statesman of the 20th century, and that on December 18 he would receive the thanks of the whole Dominion of Canada and all the nations of the world except our enemies, in justification for his claim of the honor of being elected member for East Hastings. Mr. Thompson said that he had been ten years in municipal life and six years in the County Council, four of which was spent on the executive committee. He was the last man to make little exercise training to qualify him for the position. With reference to Mr. Northrup he thought that twenty years was long enough out of civil life and in fact he would be satisfied with half that time at Ottawa.

The Liberal Candidate

William Cross, the Liberal candidate, was the last to appeared before the electors as a Liberal candidate, as he had been requested to become a candidate by the executive of the East Hastings Liberal Association. He expressed his regret that under the Military Service Act it was an obligation on all classes, things above conscription, but he was against it, yet and if elected would do his utmost to get it repealed.

Regrettable Tactics

Mr. Thompson again took the platform and indulged in personalities and caustic references to both Mr. Cross and Mr. Northrup, saying that during Mr. Northrup's absence overseas in Parliament he knew of nothing to be done but foster his divorce bill, and that as far as Mr. Cross was concerned he would like to see him in the speech which he read was from the Gaelic of old.

Mr. Northrup, replying to the insinuations of Mr. Thompson with a good natured purpose he himself to ask for a question, responded to the amusement of the gathering. He showed that there had been a divorce bill in existence for years and that his activities in this connection were solely in the interest of the people. He was the last stood the cost of procuring a divorce, which is expensive. In almost any court case a psychiatrist would be appointed to take evidence in Vancouver, Montreal or other distant places, but unfortunately, under the present divorce act it to the chairman stating that he had required the presence of all witnesses and applicants at Ottawa before the Senate committee. He was not the father of the divorce act but was merely seeking to have such needed amendment in the interest of the poor man.

The attitude of Mr. Thompson in beginning a personal controversy brought the meeting to a sudden close since Chairman McLaren said that he wouldn't allow any discussion whatever along personal lines.

Eczema Cured Five Years Ago

A Treatment Which Has Proven a Wonderful Healer of the Skin—Certified Statement of Cure.

Jordan, Ont., Nov. 20.—"I feel no fear in stating that eczema is a disease of the blood and is called 'itch' by many people. It is a disease that is caused by impurities in the blood and is not cured by local applications, but must be cured through the blood. This is what Chase's Ointment, and it gave almost instant relief. It relieved the itching sensation, but had not quite finished the second box when the sore began to heal. It is now about five years since then, and it has not returned. We certainly can recommend Dr. Chase's Ointment to any person suffering as we did." (Signed) Mrs. Stephen G. Twaites, Box 205, Jordan, Ont., writes: "My brother was troubled with eczema on his face. He was troubled nearly all one fall with it, which we think would cost him work for days at a time. He tried different kinds of advertised remedies, but none cured him. He was induced to try Dr. Chase's Ointment, and it gave almost instant relief. It relieved the itching sensation, but had not quite finished the second box when he was cured. It is now about five years since then, and it has not returned. We certainly can recommend Dr. Chase's Ointment to any person suffering as my brother's was." (Signed) Rev. S. J. Coffman, Vineland, Ont. Dr. Chase's Ointment is the remedy that I know Mrs. Twaites and the party to whom I refer, and her statements are correct."

Mr. J. E. Jones, 225 University avenue, Toronto, writes: "My daughter had eczema in my hand for about five years. I tried different remedies, but never found that while some of them relieved the itching, they did not permanently cure. Finally I tried Dr. Chase's Ointment, and in six weeks my hand was completely better. I have not do with out a box of Dr. Chase's Ointment in the house for the last 12 years. I am giving my name to this firm so that I will get to those who suffer as I did."

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Substitutes are dangerous. Insist on getting what you ask for.

Washing Won't Rid Head of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring, a few drops at the parting and rub it in gently with the finger tips.

Do this tonight and by morning most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and wavy, and you will feel a hundred times better after your very first application. You can get arvon at any drug store. It is inexpensive and never fails to do the work.

Laurier Hopes Dimmed By Unionist Action

Several Withdrawals Simplify Matters

"THE FALSE FACES"—LAURIERITES RUN UNDER MANY NAMES—GENERAL DISPOSITION TO HEDGE IN SUPPORT OF SIR WILFRID'S PLATFORM—MANY LAURIER CANDIDATES IN "CAMOUFLAGE" CLASS, ONLY AS A BLUFF TO FOOL QUEBEC AS TO ONTARIO'S FEELING AGAINST LAURIER.

OTTAWA, Nov. 21—The feature of Monday's nominations was the number of last-minute Laurier candidates who took the field and the varied disguises under which Laurierites are running in Ontario. These two things emphasize the inherent weakness of Sir Wilfrid's appeal to British-minded people. It is obvious that the throwing in of last-minute hats-in-the-ring candidates is a scheme to bolster up Laurierite confidence in ridings where the candidates have been longer in the field. It is equally obvious that the desire of many Laurier candidates to hedge on the conscription issue is due to their knowledge that Sir Wilfrid's policy will not "go down" with their constituents. Remembering that Sir Wilfrid's platform includes a paralysis of the Military Service Act until a referendum on conscription could be taken, and that Sir Wilfrid himself wisely advise the electors to vote "no" on such a referendum, it is amusing to see how many of his followers are calling themselves by "six-the-gar Liberals," or "independent Liberals," or some similar term. "Independent" of what? They leave the inference to be drawn by conscriptionists that they are "independent" of Sir Wilfrid. But when they are scratched, they are generally found to be Laurierites beneath their skin of protective paint.

The combination of John Mackay Eaton, Liberal unionist in Glengarry and Stormont came somewhat as a surprise. The constituency has a large French population and it was reported that the Laurierites would make an effort to capture it. But the French outside of Quebec have not the same blind veneration for Sir Wilfrid as those of his native Province.

A feature of the nominations was

Queen Buried With Pomp and Ceremony

Aloha-Oe, Last of Hawaii's Royal Race Laid to Rest

HONOLULU, Nov. 20.—With all the pomp and ceremony of the ancient Hawaiian funeral rite, befitting the last monarch of the islands, who had held tenaciously to the traditions of her former domain, Queen Liliuokalani was buried yesterday in the Nounana cemetery. Practically the entire population of the city lined the route from the throne room, where the funeral services were held, to the burial ground, while the procession of five thousand persons passed. The United States Government was officially represented and the procession included infantry, cavalry and artillery units of the regular army, the national guard, school cadets, Japan societies, boy scouts and many natives.

The catafalque was drawn by two hundred and ten native Hawaiians, surrounded by sixty Kalii bearers attired in the primitive feather cloaks of the time of King Kamehameha. Prince and Princess Kalanianaole were the chief mourners.

The body of the monarch was enclosed in a rich koa casket, upon which lay a wreath sent by President Wilson.

Hindenburg Line Is Smashed By British

Great Victory In Flanders

THOUSANDS OF PRISONERS CAPTURED—CONSIDERABLE QUANTITY OF MATERIAL FALLS INTO HANDS OF BRITISH TROOPS IN OFFENSIVE LAUNCHED BETWEEN ST. QUENTIN AND THE SCARPE RIVER—BERLIN ADMITS DEFEAT.

LONDON, NOV. 21.—FOLLOWING MANY DAYS OF HURRICANE ARTILLERY FIRE ALONG OTHER SECTORS OF THE FRONT, GENERAL HAIG SUDDENLY SHIFTED THE SCENE OF HIS PRINCIPAL EFFORT YESTERDAY TO A COMPARATIVELY QUIET PART OF THE LINE, AND SENT HIS INFANTRY STORMING FORWARD ON THE THIRTY-FIVE MILE FRONT BETWEEN THE RIVER SCARPE, OR JUST EAST OF ARRAS AND ST. QUENTIN.

THE BERLIN OFFICIAL STATEMENT LAST NIGHT ADMITTED A BRITISH SUCCESS. IT IS STATED THAT HAIG HAD GAINED GROUND ON THE FRONT BETWEEN THE ROADS LEADING FROM BAPAUME AND PERONNE TOWARDS CAMBRAI, A SECTOR ABOUT EIGHT MILES IN LENGTH. "THE BRITISH HEADQUARTERS' STATEMENT TONIGHT DECLARED A CONSIDERABLE QUANTITY OF MATERIAL AND A NUMBER OF PRISONERS HAD BEEN TAKEN, BUT NO ENUMERATION HAD BEEN MADE.

SIR THOMAS WHITE BROCKVILLE NOMINEE

ONE MILLION DOLLARS FOR VICTORY LOAN

Hastings County Workers Expect to Roll Up a Million Dollars For the Victory Loan—Objective Has Been Passed Great Celebration Planned

BROCKVILLE, Ont., Nov. 21.—Sir Thomas White, Minister of Finance in the Union Government, and A. C. Hardy, Laurier Liberal, were nominated for the riding of Leeds.

Sir Thomas in his nomination address characterized the present war situation as a period of real danger and peril and asked if Canadians were going to continue in the struggle or drop out. "Are we to continue to send the Canadian reinforcements so that their lines may be maintained is the question facing Canada to-day," he said. Speaking of Sir Wilfrid Laurier's platform he asked why his leading supporters had deserted him. Men of sound intelligence, McLean, Carvell, Russell, and Calder, had joined the Union Government to have unity for the vigorous prosecution of the war. Every Prime Minister in Canada outside of the Province of Quebec was obliged to desert the Liberal leader. If Sir Wilfrid was returned to Power no referendum on conscription would be needed because the voice of the people would say that Canada intends to quit and abandon her brave sons in France and Flanders.

RED CROSS LOCATES "TED" YEOMANS

Dr. Yeomans has received a cable message from the Geneva Red Cross stating that his son, Lieut. "Ted" Yeomans of the Royal Flying Corps, recently reported missing, is a prisoner at Karlshad Germany. This confirms the message received this week by Dr. Yeomans to the same effect.

The greatest enthusiasm prevails throughout the entire county today because of Hastings having passed the objective set for it by the Victory Loan organization. This objective was $1,000,000 placed forward last fall according to the total assessment of the county, therefore we have cause to celebrate, as some of the richest centres in Canada are still away behind their objective. Of course, they will often be before the campaign is over, but by that time Hastings county will have passed the new objective that they themselves placed—One Million Dollars, add be well on their way to a further objective. Everyone must put the shoulder to the wheel, because while we have done well, other communities in this district have done far better, so we must have no let-up. Belleville has bought more than double its objective. The county can do like wise. When the million mark is passed the committee hopes to pull off a celebration the like of which has never been heard in this good old city since the Old Boys' Reunion. Everyone with an automobile should get busy to decorate it, and there'll be noise galore. A parade will be held on the night this objective is passed, with plenty of red fire and noise. Workmen are also expected to decorate for the occasion and every householder should put a flag out of the window.

AMUSING EXPERIENCE.

Many amusing experiences are enjoyed by the canvasers on their rounds. One canvasser reports a visit to a home where the man of the house was holding a baby in his arms, the mother being away from home. After the canvasser had taken his application for a Victory Bond he was about to leave, but the applicant decided that he wanted another one for his mother, and as the canvasser produced the application blank the baby reached out and took possession of it with the autocratic decisiveness which is the right of his babyship. There was nothing left to do but buy a baby bond for the baby, which was quickly done. Now every member of the household holds a Victory Bond.

MARLBANK HUSTLER.

McCutcheon of Marlbank is some hustler. Yesterday he came home with another $5,000. He never misses a day. Monday was rather slow because of it being nomination day; but not so for Mr. McCutcheon. He rabbled off $600 at the nomination at Tweed. That's the speed that puts the objective over.

POINT ANN RETURNS.

Point Ann is coming across liberally. Geo. Reid and Henry Denyes have Thurlow under cover and polled $18,700 yesterday. They are some hustlers.

The Eastern District has passed it's objective of $6,198,000, and Frontenac was the first county in the province to pass its objective. Belleville was one of the first cities to do it.

One canvasser while selling the head of the house $4,000 was approached by his daughter, who asked for $2,000. Then the hired man asked for $1,000, and while the canvasser was writing the application he changed his mind and told him to stretch it to $3,000. He stretched.

OPEN LETTER

TO THE LADIES OF WEST HASTINGS:

The mother, wife, widow, daughters and sisters of Canadian heroes who have gone overseas to fight for us the battle for freedom and liberty, rights and justice and civilization of the world will for the first time be privileged to exercise the right to vote in the General Election to be held on the 17th of December next. Their names are now being enrolled on the Voters' Lists for that purpose. The sorrow and suffering these women have endured and the sacrifices they have made in the world of mine could adequately describe—suffice it to say that the granting of the franchise is no adequate compensation, but at least it is an acknowledgement of the justice of your right to have a say as to what shall be the fate of your men and boys.

The Government of Sir Robert Borden, in which I had the honor of being the candidate for West Hastings, recognizing your right, passed the legislation which gives each of you the right to vote in this election.

No more sacred duty could be placed upon these ladies than that of exercising their right to vote and to vote in such a way and for such a candidate as will bring the greatest good to the greatest number and to the greatest comfort to yourselves. Sir Robert Borden's Union Government promises you the only hope for relief of the men at the front and their return of your loved ones to your home and fireside. I am the chosen candidate of that Government, in this election to advocate your cause, and I solemnly promise to stand by you and do all I can. Many of you during the past three years have had occasion to make use of my services in regard to your husband, your sons or yourselves, which you know has always been promptly and willingly and without any charge or fee given. You know how faithfully I have looked after the interests of returned men and their families filling position in the public service that has become vacant by one of them. I shall always use my best efforts and abilities in the same way. My opponent, Mr. R. J. Graham, poses as a supporter of the Union Government of Sir Robert Borden, but he has not the approval of that Government, and I have, and if any of you have been or are employed by him it is because it is to his very personal gain that you are so employed and you have given faithful labor for all the pay you get and you are under no obligation to him. Nor do I wish it inferred that you are under any obligation to me. You know whether you want your men and boys back or not. You know who can help you to get them back. I appeal to you to help me. I will do everything I can to help win the war and hasten the return of your husband or son or other relative who already have covered themselves with undying glory back to their happy homes and to a grateful Canada.

In fulfilling your sacred duty I most respectfully ask you for your vote and influence in my behalf.

I have the honor to be,
Your obedient servant,

LYING FOR LAURIER!

The Laurier organ which is so anxious to encompass the defeat of Mr. E. Guss Porter, the Union Government representative for West Hastings, finds it is giving those same rods into those days stirred a glaring falsehood in its issue of yesterday in an attempt to help the candidature and campaign of Mr. Graham, which it is so apparent had its inception in that office and is being directed under cover by the versatile "Editor-in-chief" whose paper has had nothing but zeners for Union Government.

Last night's Ontario, in its report of the West Hastings nomination proceedings, has what purports to be a list of names appended to Mr. Graham's nomination paper, under this caption;

Among the names appearing on Mr. Graham's nomination paper were:

Then follows a long list of names of electors which the Ontario says were appended to Mr. Graham's nomination paper. The list is an impudent falsehood, containing one hundred and seven names which did not appear at all on Mr. Graham's nomination paper.

These tactics savor of the crookest methods for which Quebec is so well and unfavorably known, but West Hastings might be spared such ill-smelling misrepresentation even if the candidate opposed to the Union Government candidate is endorsed by the Laurier organ.

"Director of Records."

Pte. Bunton returned to was previous to enlistment a trustworthy employee of The Intelligencer Office. Before he was familiarly called, enlisted and went overseas with the 8th C. M. R. of Kingston. He was a fine young man and had a host of friends in the city, who will hope for his speedy recovery.

An Important Discovery Swollen Veins Relieved

That Absorbine, Jr. would relieve varicose veins was discovered by an old gentleman who had suffered with swollen veins for nearly fifty years. He had made many unsuccessful efforts to get relief and finally tried Absorbine, Jr. knowing its value in reducing swellings, aches, pains and soreness.

Absorbine, Jr., relieved him and after he had applied it regularly for a few weeks he told us that the big leg was as smooth as when he was a boy and all the pain and soreness had departed.

Thousands have since used this antiseptic liniment for this purpose with remarkably good results.

Absorbine, Jr., is made of oils and extracts from pure herbs and when rubbed upon the skin is quickly taken up by the pores; the blood circulation in surrounding parts is thereby stimulated and healing helped.

CELEBRATION SATURDAY NIGHT

Hastings County passed its objective of $600,000 for the Victory Loan last night, and is on to-day for the $1 Million Dollar mark. Just how much that will be accomplished it is impossible to say, but it's a safe bet that the mark will be passed long before Saturday night. However, as some workers have not yet reported, and as many subscriptions are coming in, it has been decided on Saturday night, the celebration the Publicity Committee has decided on Saturday night, when, at every citizen of Belleville sets his or her watch on Saturday night and then cut loose. Get a fog-horn, rattle, or some device for the making of noise, if your have to work. It is every one's duty to whoop it up for the Million Dollar Victory Loan. Every association in the city is asked to decorate its windows in a radius of fifty miles should be in town on Saturday night and get into the parade. Lay in a good stock of confetti. The red fire will be supplied by the committee. We want noise and noise, and more noise to show that the good old county of Hastings has thrown a million silver bullets at the Kaiser. Front street should look like Mardi Gras, and Bridge street, Canal street, New Orleans, during the Mardi Gras. Just wait until Saturday night!

STIRLING VETERAN BOUGHT BOND.

Stirling yesterday was the scene of one most interesting happening that has come in the wake of the Victory Loan. Mr. Robert Ker, who is a veteran of the rail in 1866, bought his Victory Bond yesterday, that is, he paid all. Mr. Ker was recently granted $100 for his services on that occasion, but with true patriotic spirit he returned his $100 to the Government as a contribution to his country's need, and besides has bought a Victory Bond out of his own savings. Every citizen of this county has too few of this type of citizen, and Stirling is to be congratulated upon another evidence of disinterested patriotism which has become the rule in this loyal town.

BRITISH TANK PASSED THRU'.

Yesterday the famous British tank, which came from the battlefield of Ypres, had his inken part in the Liberty Loan celebration in New York and the Victory Loan celebration in Montreal, passed through Belleville on its way to the big Victory Loan parade to be held today in Toronto. The original crew accompanied this terror of the battlefield. Some American armored cars were also upon the same train.

TRENTONIS GOOD WORK.

Trenton has taken hold in good shape the past couple of days, and if the present pace continues it will reach their objective in a day or two. The employees of the chemical works and of the C.G.E. are subscribing liberally.

While Belleville on the way to the $600,000 objective there is a large amount still outstanding for this good old town, i.e., the Grand Trunk, for these subscriptions have been going in steadily. But Mr. Bean is going after the central committee to give Belleville credit for these amounts which will greatly swell our total. This is also the case with the Steel Company and the other two railways. Belleville will have a showing, the like of which it is doubtful will be reached by any other city in Canada, per capita. Keep these things are counted.

Keep on the sunny side. In will tell you as the time goes how gone Hastings County and the Victory Loan.

VICTORY LOAN WINDOW.

The Ritchie Company has a most attractive Victory Loan window. Mr. Wotten of the Publicity Committee is responsible for this. He is to be congratulated upon the success of his efforts, as the comments heard on every side are most complimentary.

Deseronto-Quite so yet but the stride, but much is expected from this town for the balance of the campaign. Tommy Naylor has finished killing bears, and is now shooting and is going after the scalps of some of the unexpired men of his district, so we'll hear from them all right.

Forget anything else you like, but DON'T FORGET THE MILLION DOLLAR CELEBRATION SATURDAY NIGHT.

WAR MADE THEM RICH.

Pork Packers Got Eighty Per Cent. Profit on Bacon.

OTTAWA, Nov. 10.—That the profits made by the William Davies Company, Limited, and the Harris Abattoir, Limited, more particularly the former, were exceptionally high during the war period and yielded an extraordinary return upon the capital invested is the most important statement made in the report of the commission appointed to investigate further the businesses of these two companies.

The commission, which consisted of G. F. Henderson, K.C., chairman, and Messrs. A. E. Brodie and G. F. Clarkson, has a unanimous report to him. T. W. Crothers, Minister of Labor. This report, also being under review by a sub-committee of the Cabinet, of which Hon. N. W. Rowell, president of the Privy Council, is chairman, has been made public in its entirety. Incidentally it is pointed out that owing to the action taken by the Government recently, it will be impossible in the future for packing companies to make excessive profits. Under the terms of the order-in-Council recently in force no one may make by way of profit a maximum of 11 per cent. only. They can retain 7 per cent. clear and pay half of their earnings on the money invested between 7 and 15 per cent. Above 15 per cent. all profits are confiscated.

Profits made according to the report of the commission, ran as high as eighty per cent. on the money invested. This profit was made by the William Davies Company during the year 1916.

FAINTING FAITH: FALTERING FIDELITY.

By Rev. A. M. Hoby.

"I shall not perish one day by the hand of Saul."—I Sam. xxvii 1.

In these words David here confesses to his awful fear. He may not speak the truth; for he could have uttered no greater falsehood.

The awful fact was cast before the church and stamped of God as the gross stupid of what man could do unto him. David, the son of Jesse, had the Lord's hand upon the Almighty's shoulder, this fact is the history of the life of one called and anointed for service in the kingdom of God. The Christian believer is also in a similar fainting faith. When a person who has had evidence of being called of God to take up the responsibilities of a soldier and follower of Jesus Christ gives way to distracting fears he is in serious danger; first of letting go of the Lord's upholding hand, and second, of associating with the ungodly. We have many incidents of fainting faith and faltering fidelity recorded in the Bible where we would not expect them. Abraham, when he left the place he should go to receive an inheritance, which was afterwards translated him from Ur to Palestine.

When Israel encamped at the base of Mount Sinai because of the progressive absence of their leader, Moses, they let go their hold upon God and bowed down to the work of man. Their fainting faith and faltering fidelity brought in these suffering, bloodshedding and death. When Saul the King of Israel lost faith in God he transferred it to the Witch of Endor and hastened to an ignominious death on Mount Gilboa. When Elijah, the hero of Carmel, let go his hold on God he fell to grovelling. He who had the strength of the Lord to brave the ire of King Ahab and fell do his priests of Baal, fled before the wrath of a wicked woman, and sought death in a desert alone. His life-witnessing for God on earth could not then be relied upon. He was removed from his prophetic place of service, and Elisha, the herdsman was given the holy prophetic office.

Peter the fisherman, fearful of the threatenings, were, on the night of his walking with Christ, let his faith fail, and would have found a grave beneath the waters, but for the Almighty's hand that saves. Once again he let go his hold on God, and we find him among the enemies of his divine Lord, and with curses denying that he ever knew Him. When Judas suffered from fainting faith, "thirty pieces of silver" became greater than his faithful friendship of one who had the ill-will of human priests and rulers of the Jewish people, he could hush the keen pest and raise the dead. Judas went away from God and from holiness. "Thou art not and it was night." His feet trod the "way that goeth down" "It was dark" all the way! The end of the way was "death!" "Every man goeth to his own place!"

It is always dangerous to lose faith in the Almighty. To be discouraged by reason of what he may say and do is a fatal evidence of deficiency in one's faith and Christian fidelity. "Shall man, when a mere youth, in the Lord, slow a lion and a bear in defence of the flock he was shepherding. He also when a mere stripling slew one of the Philistine armies and with a pebble from the brook and a boy's sling slew their champion, Goliath of Gath.

Strange is it not, that he should ever forget the keeping power of the God of Israel in whose name he had found such strength and courage?

Nevertheless the truth must be told. The half-hearted Saul had a greater power as an enemy than the God of Israel as a friend in the mind of David. Distrust in the soul is as a forward and traitor in the camp, and fainting results where faith should triumph.

We learn from this incident in the life of David that present circumstances may lead us to forget former occasions of divine mercy, blessing and deliverance. With all his faiths and failings we must regard David as a man of considerable faith in the character and word of God, and yet we meet him here full of distrust and in deep despair. Such, however, was not generally characteristic of him. He frequently uses language indicative of great faith. Here is a sample: "Because Thou hast been my help, therefore in the shadow of Thy wings will I rejoice. My soul followeth hard after Thee: Thy right hand upholdeth me." He also says: "The merciful unto me will I show mercy." Again he says: "Thou art my refuge and my portion in the land of the living." In fact, in the shadow of the wings will I make my refuge, until the destruction be overpast." Expressed in the forty-sixth psalm: "God is our refuge and strength, a very present help in trouble; therefore will we not fear, though the earth be removed, etc. Truly, the strong man of God was slow to learn the lesson.

When faith fails, fidelity fails. Unfaithfulness is the way to be free from difficult duty. Such ignoble action is generally the result of fainting faith and resulting upon God when things go well with us.

There is a remedy for fainting faith. Take a retrospect! Call up past experiences. Count your blessings! Let memory do her perfect work. "Verily, my Israel say: If it had not been the Lord who was on our side, when men rose up against us: Then they had swallowed us up quick, when their wrath was kindled against us. . . . . Blessed be the Lord who hath not given us as a prey to their teeth. Our help is in the name [illegible] the Lord, who made heaven and earth." If David would have remembered when he was [illegible] he should serve because of his anointing and the many signal deliverances he had experienced, his memory and reason would have strengthened him and the record of moral failure would not have issued. Then his song would have been: "The Lord are a shield for me, my glory and the lifter up of my head. I will not be afraid of ten thousands of people that have set themselves against me." "My soul will make her boast in the Lord, the humble shall hear thereof and be glad."

Would we cultivate faith in God and serve Him faithfully? Then remember His wonderful works.

We all admire fidelity in men. Faithfulness to duty in time of peril immortalizes the remembrances of heroes and persons. "England expects that every man this day will do his duty." These words shall ever live to inspire men to deeds of valor, and no greater exhibition of the power of courage in them for at the close of that day his mangled body, on the quarter-deck of his gallant ship, bore testimony to his fidelity to his King and country. We are thankful for many examples of faithful men, warriors, statesmen, missionaries, ministers and soldiers of the cross. What we want to remember is that there are many present circumstances in every life that without confidence in One mighty to save the strength for right against the awful power of evil will be given up as hopeless. Hence the drifting away from religious moorings of faith and fidelity. As soon as David failed to remember that God had him in His keeping he ceased to seek divine direction. Prayer was neglected. The result was desertion from home and alliance with Philistines. He said: "I shall now perish one day at the hand of Saul; there is nothing better for me than that I should speedily escape into the land of the Philistines." He took his own course and became, outwardly a traitor, a traitor to his own country and people. The Philistine king was a friend to David, therefore his own people must not play him false. Our extremities will expose our infirmities, and no man can say how far he may be tempted, but if a man choose to associate with the workers of iniquity he cannot expect to continue innocent of their transgressions.

It is ours to hold fast by God in present circumstances be they ever so trying, and by so doing confessing past mercies expect great salvation by a great Saviour.

We shall not, like Israel at Mount Sinai, turn from God to worship the world's idols of gold and silver.

We shall not as Abraham did, prevaricate excuse for fainting faith and faltering fidelity; nor shall we as like demented King Saul turn from the counsel of the Most High, to enquire of a witch what shall be; nor like present-day dupes listen to table-rappings; nor as David seek refuge among the unsanctified, to get rid of covenant duties and sacred responsibilities.

We shall not warm ourselves at the fire kindled for the comfort of Christ's enemies; nor sell our Lord for thirty pieces of silver or anything that the crucifiers of the Christ of today might be willing to give for a present-day traitor. Beloved, let us not boast of what we shall or shall not do unless we abide in Him! He assures us in His Word of grace sufficient if we trust in Him. Only as with strong faith and unfaltering fidelity we stay ourselves upon God through Christ Jesus can we fulfil the purpose of His love to us and ours.

It is said that Germans and I. W. W.'s are planning to destroy large Cleveland building in which are stored clothing and foodstuffs.

OBSEQUIES.

DELILAH REED

Yesterday after the remains of the late Mrs. Delilah Reed, of Foxboro, were consigned to the tomb. At her late residence a service was conducted by the Rev. Mr. Carlisle, Pastor of the Presbyterian church in Foxboro, assisted by Rev. M. Kemp and Rev. S. Kerr, of this city. Many were in attendance at the obsequies and a number of beautiful floral designs were placed upon the casket. At Stirewood cemetery interment took place. The bearers were nephews and neighbors of deceased.

OTTAWA, Nov. 21.—The Food Controller now has the power to prohibit manufacturers, wholesalers or retail men, merchants, brokers, retailers or partnerships, syndicates or associations carrying on business as manufacturers, wholesalers or retail, in all food commodities, from selling or cause from his office. An order-in-council has been passed to this effect. It also authorizes the Food Controller to make regulations governing the distribution or sale of food products and given him the power to prescribe the maximum of profit or the maximum price (or both) to be charged on the sale in Canada, or in any part or parts of Canada, designated by the Food Controller, of any food or foods or of any food product or food products designated by the Food Controller.

The order-in-Council provides that a fee may be charged for licenses to do business, but that in no case may such fee exceed $600. Any person may be subject to cancellation or suspension for violation of any of the Food Controller's regulations.

Other powers vested in the Food Controller under the order-in-Council are:

1. Subject to the provision of any law now in force, to prohibit units of weights or measures to be used in the selling of food commodities.

2. To prescribe the manner in which food products may be designated, marked, branded or packed.

3. To prescribe the maximum amount of any food or food product that may be held at one time by any person bought or sold by any person or persons.

While the powers thus given to the Food Controller are wide, Mr. Hanna stated today that before any particular trade, representatives of that trade would be consulted as to the conditions of licensing and the license fee, in order that no injustice would be done.

PARTED IN MOSCOW MET IN BELLEVILLE

Two Globe Trotters Bind Together Twice, First in Russia Then in Belleville, and the Years Roll Between—A Far Cry From a Moscow Cabaret to the Bridge Dining Room

In these days of rapid transit distance is annihilated and the world seems much smaller than in the old days before Jules Verne's dream of "Around the World in Eighty Days" became more than a reality. Travellers who meet and become acquainted on the other side of the world speedily note that acquaintance on this side of the world.

This is well illustrated by a chance meeting which took place recently in the Hotel Quinte, at Belleville. Mr. Rose, manager of "The Only Girl" dramatic company, was sitting at a table in the dining room. To the same table was ushered Mr. B. Covey of Brockville, travelling inspector for the Imperial Munition Board.

A conversation was struck up in the course of which Mr. Rose mentioned a tour of Russia he once made on theatrical business. The scene of which Mr. Covey, who spent some time in Russia several years ago as representative of the Westinghouse Air Brake Co., of an incident which occurred in a Moscow cabaret, where he met and fraternized with a New Yorker. Up to this time in the conversation in the Hotel Quinte dining room between courses no names had been mentioned. Mr. Covey said that the New Yorker whom he had met in Moscow, was named Rose, and then it was revealed that the person who had met in a cabaret in Moscow was none other than the same two years ago, and the two were soon busily engaged in swapping notes on their adventures since they were last together. Mr. Rose is a citizen of the United States and they spent a good part of the night telling stories of their adventures in Russia, Mr. Rose being under the Imperial Municipal Council to accept a commission with the Czar of Russia during the Russian-Japanese war. Mr. Covey was with the Imperial Munitions Department. Needless to say the meeting was a decidedly pleasant one, and both Mr. Rose and Mr. Covey had something more than usual to talk about.

Next meeting will be in Belleville.

A Yarmouth Cur.

A car of Yarmouth apples arrived and received in Winnipeg recently containing 1,200 bushels, and containing 2,150 bushels, with an invoice value and proceeds of the car, less freight and charges, $4,464.74. The gross weight of the wheat car measured 80,000 pounds. The car of apples was loaded by George H. Simmonds of Nictaux, Bank, Nova Scotia.

Daily Inspection.

The value of dairy products marketed in Manitoba during last year amounted to over $1,914,000 and the increase of 16½ per cent. on the figures for the previous year.

What Would It Be Worth to You To Be Free of Indigestion

And Rid of the Poisons Which Cause Pain, Tired Feelings?

INDIGESTION becomes a habit to a certain extent. Many of the conditions under which we live are artificial. We eat too much, take too little natural exercise, and have too much worry and anxiety. The digestive system does not get a chance.

The liver is usually first to get out of kilter, then the bowels become constipated, and the whole process of digestion is disorganized. Instead of being properly digested, the food ferments and causes sour stomach, belching of wind, pressure of gas about the heart, suffocating feelings and fainting spells.

Headaches, pains in the limbs and back, tired, depressed feelings, irritability and discouragement are other symptoms.

You may have tried stomach medicines and aids to digestion until you have given up in despair.

Operation Avoided

Mrs. Annie Watkins, Ghost Bay, Nova Scotia, writes: "I feel it is my duty for me to give my experience with your wonderful Kidney-Liver Pills. For six months I suffered with what the doctor called indigestion, but whatever it was I suffered terribly. The pain would start under my left shoulder and pass across my side until it reached the pit of my stomach. It just seemed as if the flesh were being torn from the bone. At times I used to cry without food for the morning until the next. I had no energy but was just tired all the time. My doctor sent me to the hospital for six months. For four days and nights I could not take up fast except for a drink of water. After four weeks in the hospital there I returned home, and was back only four days when the pains were as bad as were then ever. Then I was told I would have to undergo an operation, but still I kept on using them, and by the time four boxes were used I was perfectly well again. That was in 1914, so you see I can safely say that I was cured. I shall always be grateful to Dr. Chase's Kidney-Liver Pills, as they did more for me than four doctors."

But what would it be worth to you to be free of all this trouble, to feel again the old energy and vigor, and to enjoy healthful living?

Dr. Chase's Kidney-Liver Pills are not offered to you as an experiment. There is no question as to what they will do by way of awakening the action of the liver, kidneys and bowels, and removing the cause of indigestion and kindred ills.

Their curative powers have been proven in hundreds of thousands of cases, until they are established in the great majority of homes as the one family medicine which is indispensable.

It is for you to apply this treatment in your own case. It will only cost you a quarter to make the test, and we do not hesitate to predict that the results will surprise and delight you.

Dr. Chase's Kidney-Liver Pills

One pill a dose, 25c a box, 5 for $1.00, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

CHAPTER VIII.

The Captive Bride.

JUDITH, appalled at the mentality of his crime in thus exposing the gold of Jethro, the priest, to the greedy eyes of the Ishmaelites, and Tisha, carding up in his arms in the great divan of the courtyard of the house of Jether, the priest, where later he'd entertained Ishmael and his men, and sold with a soft word.

"And now, my beloved, thou will see how I've saved thee!" he cried, "Ishmael will be here!"

"Why," then shook here thy nacklace, I sensed it was a signal to some one hid in him. But she ended his grave, and, with a sigh, "Ishmael has showed greatly last generosity!"

"Yes," said Tisha, "Ishmael is generous, I'm sure, to you, Judith, my beloved!"

"But, my Beloved, then will not Ishmael be here?" she cried, "Ishmael will be here!"

"Why, then shook here thy nacklace, I sensed it was a signal to some one hid in him. He

Smash Through to Victory
BUY VICTORY BONDS

OVER at the battlefront, rolling onward remorselessly, its guns belching forth disaster and death to the enemy, the Tank smashes through all obstacles that bar the way.

And here in Canada the Victory Loan brings to every one of us the privilege of helping to crush the Hun with our money.

We cannot all serve in the trenches; we cannot all fire a gun or help to man a Tank; but we can all buy Victory Bonds.

What of your money? Is it helping to smash through to Victory?

The amount of the Victory Bonds you buy is the measure of your fighting power.

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

Premiers Can Make Contracts Because Irritated Over Stone Pile

The annual report of the inspectors of penitentiaries for the fiscal year ending March 31st, 1918, shows that on that date there were 386 convicts in custody in Portsmouth penitentiary. Although accused in the number of hospital and disciplinary cases treated the cost per capita for each case for the Portsmouth penitentiary was the lowest, being only 10c. Stephen costs. The British Columbia penitentiary was the highest with a cost of $1.36.

Portsmouth penitentiary also showed the highest revenue and the lowest net cost per capita, although cost of maintenance of the convicts was the highest in Canada. The report is eminently satisfactory from a superficial glance over it.

In the warden's report by Robert H. Creighton he urges that the Government give the penitentiary more orders for such commodities as the convicts are able to make. During the year many overalls, shirts and boots were made and kept a large number of men employed in the shops. In the report he says: "If the stone-day is and day out, as we much has been said in the past re- garding the undesirability of keeping men capable of better things, break- ing the stones day in and day out, as we turned by the most working hours for another job.

That the majority of the inmates are capable of better things is evidenced by the fact that the whole institution has been built for them from time to time and is a monument to their labour."

The Lurch in Labrador

The soil and atmosphere are so dried and dry in Labrador that scarcely any vegetation thrives at all. The larch is a species of pine tree which is found in all northern countries, and its growth is so stunted in Labrador that a man, standing on the most southern part of that country and reaching up with his hands, can add the trunk was but three-eighths of an inch in diameter. A careful examination of the vegetation is needed for a year to be at least thirty-two years, for there are not annual rings showing growths shown in the small trunks. The very severe currents pouring down from the north and the fact that Labrador has such sensibilities than Alaska, together with several inland climatic conditions make the summer seasons shorter and colder than are those of Alaska.

WOULD BE DISHONOR FOR QUEBEC TO FAIL

LONDON, Nov. 21.—Col. the Hon. P. E. Blondin, who brought over reinforcements for a Quebec regiment, has returned to London after a trip to France on the course of which he visited the British and French front from Ypres to Verdun, accompanied by Capt. Turgeon and Secretary Le Sanme. Speaking of the general morale of the troops, the Canadian Commissioner-General was himself astonished at the cheerfulness of Australians and tired men, who evidently regarded their task as if it were perfect yeoman. Politics were thankful, but there was a profound interest mingled with an anxiety regarding conscription. In fact, Mr. Blondin declared, if the soldiers could visit home they would be able to deal with an enormous enthusiasm to arouse all of Canada to take steps to succour. Among the French Canadians it was felt it would be a dishonor for Quebec not to support the State of the war now particularly the fall of Montreal. Mr. Blondin found the French Canadian special to the Canadians, and was sure the British military mission had done much. He was struck by the hospital courage and bearing of the French, especially in districts where the worst atrocities were committed.

The Minister visited Laval Hospital which is under the command of Col. Beaudoin, and the St. Cloud Hospital, which is under Col. Gagnon. Paying a tribute to the Canadian nurses in the field he said nothing moved him more deeply than their tender care of the wounded amid the cold and danger.

It is understood Col. Blondin's visit to England may be prolonged beyond the original intention.

CALLS FOR INVESTIGATION

KINGSTON, Ont., Nov. 21.—The Kingston Daily Standard, discussing the Sister Mary Basil case, comes out to-day editorially under the heading, "The Case Stands." It declares that there must be a change in the manner Catholic administration in this diocese and out to that end the apostolic delegate or some other equally high church official must come here and make a complete and searching investigation into the conduct of the diocese and its administration.

To The Electors Of West Hastings

Having been solicited to become a candidate for West Hastings in the present election, by many prominent electors of the constituency both Conservatives and Liberals and having been advised that the executive of the Unionist party refused to join with the executive of the Liberal party in endeavouring to avoid an election by the selection of a candidate that would be acceptable to both parties, I have decided to offer myself for election, without any political party connection. To an independent supporter of the present Government in the War, and solicit the support of all those who think it is time to drop party politics and unite our efforts to overthrow the Germans. I believe in this most serious time that we should adopt what the Romans did, when none were for the party and all were for the State.

Gamble on Peace By Next Spring

COPENHAGEN, Nov. 21.—The view that the German authorities are pursuing a policy of bluff at the present time, in granting food allowances considerably higher than are justified by the corps of the country, is seemingly is confirmed by the recent food debates in the Prussian Diet. It was stated in these debates that it probably would be necessary to reduce both the meat and bread rations March 1, in order to make the stocks last through.

The bread ration has already been reduced once, and the extent of the wheat and rye crops, it is considered undoubtedly will necessitate another heavy reduction in the spring. It was stated in the debates that the latter the reduction was postponed the more drastic would be the cut.

The laboring classes generally are complaining that the present potato allowance of a pound a day is inadequate, but it is said there is no prospect of the allowance being increased, as the surplus will be required for the feeding of animals in order to keep afire through the winter. The indispensable minimum of cattle and swine has also for the production of alcohol required for the army.

The food authorities, according to all information reaching here, appear to be gambling on the chance of peace before spring, and now have great hopes on the results of the Russian and Italian developments.

Great Saving In Meat In N. Y.

NEW YORK, Nov. 20.—Five million pounds of meat a week are being saved by the nation's hotels through the strict enforcement of meatless days, according to estimates of the National Hotel Men's exposition here today. Five hundred thousand pounds of meat a week is being saved in New York alone. One New York hotel reported for its second meatless day a saving of 700 pounds of beef, 200 pounds of lamb, 300 pounds of pork and seventy pounds of veal.

A meat dealer who supplies several big hotels here reported his Tuesday sales dropped more than 100,000 pounds.

Another hotel announced a total saving of 2,027 pounds on the second meatless day.

But this is not enough. Even bigger reductions in meat consumption are wanted by John McE. Bowman, of the Department of Hotels, Restaurants, Dining Cars and Passenger Boats of the Food Administration. He appealed to-day for concerted action by hotel men all over the United States. Meatless hash is suggested as one means of conserving the supply.

Thomas D. Green, president of the New York Hotelmen's Association urged members to put their chefs to work inventing new dishes and reporting their successes to the Food Administration.

To save lard, for example, one chef devised a method of boiling fish cakes in the same water in which the ham had been boiled. Every hotel in the country will be advised of the successful experiments.

A. R. Tibbits, inspector of harbor commissioners in the Department of Marine, has been appointed assistant deputy minister of the Naval Department.

MUSIC AND DRAMA

"SEVEN KEYS TO BALDPATE" A FUNNY ONE

"Seven Keys to Baldpate" which is being screened at Griffin's tonight for the last time, George M. Cohen presents a picture that is home, Cohen-sque by far than even "Broadway Jones." Last evening the mystery and humor of this story was appreciated by a large audience.

The Mutual News Weekly with its review of the latest important news events is also being screened on the same program.

MME. GARDINI

There is not a doting father or a loving mother in Belleville who has a daughter who is musically inclined, who should neglect the opportunity of the great musical event of the season the appearance of Mme Gardini the grand opera artiste of world wide fame and Frederick C. Trois the eminent pianist who will appear at Griffin's Opera House on the evening of November 28 for the benefit of the Greet War Veterans' Association to pass unheeded as it will afford an opportunity to see and hear the greatest artists ever before the public, and at a most liberal occasion in being able to get the method which has placed them both among the musical lovers of the entire world.

WHO IS YOUR NEIGHBOR?

A theme that will have a universal appeal is found in "Double Crossed," a Paramount picture starring Pauline Frederick at the Palace, commencing Saturday, matinee and night. This is the fact that not one of us really knows all about the persons nearest to us in daily life. For instance in "Double Crossed" a devoted young wife learns for the first time of a youthful slip on the part of her husband whom she adored and whom she had unconsciously placed upon a pedestal too high for any man. What happened when she found out his crime and how a new and deeper understanding was brought about between them, is pictured by Miss Frederick with all the wondrous artistry of which she is capable.

The latest chapter of "The Great Secret" series featuring Francis X. Bushman and Beverly Bayne will also be screened on the same program along with a good comedy.

ROBERT WARWICK IN THE SILENT MASTER

Robert Warwick in "The Silent Master," will be the attraction at the Griffin's to-morrow till Saturday with a matinee Saturday. The story is Parker's Bullivant Opposite a popular novel, "The Court of St. Simon." "The Silent Master" takes its name

A lady girl, a boy, have brighten the home of Mr. and Mrs. O. Bradshaw.

At an early hour on Saturday morning there passed away at the Belleville Hospital, Mr. Randall Smith. Mr. Smith had been ill for the past two months, but the end came as a great shock to the community. Deceased, was born in Richmond 42 years ago, and had a host of friends throughout the neighboring townships. Mr. Smith proceeded him to the tomb only which morning ago. A sorrow is left to mourn the loss of a devoted uncle. The funeral left his late residence on Sid., on Monday, to the Anglican church, Shannonville, where the solemn rites of that sacred office were performed. The Rev. Mr. Young officiated. The remains were interred in the family plot, Deseronto.

Sleep thy last sleep,
Free from care and sorrow;
Rest where none weep,
Till the eternal morrow.

Thouth dark waves roll
O'er the silent river,
Thy fainting soul,
Jesus can deliver.

Service was conducted in the Methodist church on Sunday by Mr. Lane, Albert College, and the Rev. Mr. Atkinson.

Belleville Soldier Killed In Action

Mrs. E. Miller, residing in this city, yesterday received the following telegram from Ottawa, which gave no other home, owing to a loved one having made the supreme sacrifice:

Mrs. E. Miller,
'36 Sinclair Street.

Deeply regret to inform you 400081 Pte John Miller, infantry, officially reported killed in action between Nov. 3rd and 4th, 1917.

Director of Records.

Pte. Miller enlisted and went overseas with the 21st Battalion, in September, 1916, he was wounded in such an extent that he was unable to return to the firing line until September of this year. Details of his death are not known. He was 30 years of age, and was born in Scotland. At the time he enlisted he was selling, but previously had been for some time employed in the look works in this city. He was a young man of exemplary character, and had many friends in the city, who will regret to learn of his death.

The family have the deepest sympathy in their loss. These surviving are his mother, three sisters, Mrs. K. Bonnett, Misses Mary and Lilla, and one brother, James, of this city.

from a young man of wealthy who forms an alliance for philanthropic purposes with the Apaches of Paris. He brings to a secret tribunal, the Court of St. Simon, powerful and unscrupulous persecutors of the poor who cannot be reached by law, and punishes them in his own way. In succession, he introduces to a career of crime the brother of the woman he later meets and loves. Fearing to gain her affection he denies knowing the daughter, when he finally discovers the relationship. After mastering the truth is discovered, and the manner in which "The Silent Master" who back his place in his wife's affection is an absorbing story.

BAD NIGHT IN BERLIN CASUALTY ROLL LARGE

LONDON, Nov. 21.—Serious rioting took place in Berlin last Sunday, according to despatches received by the Wireless Press and the Exchange Telegraph Company from Amsterdam. A message to the Exchange Telegraph Company says the fighting was very fierce and that there was a large casualty list.

The Wireless Press says the military and police were called upon to suppress the progress of the Independents Socialist demonstrators. In the riots it seems which followed the police were forced to fire with their rifles and revolvers and the organizers of the meeting responded with firearms and knives.

The German press, the despatches say, has been forbidden to publish details of the affray. No passengers have arrived in Amsterdam from Berlin.

Five Hun Subs Sent to Bottom

LONDON, Nov. 21.—Five German submarines were destroyed on Saturday alone, Premier Lloyd George told the House of Commons this afternoon.

The Premier said he had no fears or fear of submarines.

The London cable says that great pressure is being brought to bear on Northcliffe to enter the Government, which, it says, no one alone is deemed capable of bolstering up.

He Now Feels Like His Old Self Again

Simpson, Now Undertaker, Why So Many People Praise Tanlac.

"I can now understand why so many people everywhere are praising Tanlac since I have taken it myself, for it sure put me on my feet again and I am now as well and strong as I ever declared Richard Simpson, an employe of the Wm. Davies Company, Ltd., and living at 81 Ralph Avenue, Toronto, the other day.

"Several months ago," he continued, "my health began to fail and almost before I knew it I was just about all in. I had my appetite completely and lost flesh and energy hardly did me any good. I would get up with a tired, morning feeling so tired and worn out I could hardly drag myself along, and when I got home at night I would be almost dead from exhaustion. I had no life nor energy left, and felt like if I didn't find relief soon I would just have to give up.

"I heard so much about Tanlac and how many people took it, I got me a bottle and as soon as I started on it I began to improve. I have taken four bottles so far, have a big appetite and I sleep everything fine, have actually gained all my old strength and energy and that tired, worn out feeling has entirely disappeared. I am feeling tip-top ever since I started taking Tanlac, and am so much pleased with what it has done for me that I am telling all my friends about it."

Tanlac is sold in Belleville by Ormond's Drug Store, in Trenton by F. H. Dickey, in Deseronto by W. J. Meyler, in Stirling by J. S. Morton, in Frankford by W. H. Lattimer, in Madoc by J. Will Vance and in Marysville by T. J. McAlpine.

FRANK MILETO, AGED 18 SHOT IN G.T.R. SHOPS

TORONTO, Nov. 21.—Frank Mileto, an Italian, aged 18, of 23 Mansfield, a Grand Trunk employe was shot and instantly killed in the Grand Trunk shops, foot of Spadina avenue at 12.30 to-day.

A warrant is out for the arrest of Charles Kiki, alias Richard Pitillo, another Italian, of 18 Hayter street.

The slayer fired two shots from an automatic gun. One bullet went through Mileto's left jaw, and the other entered his left breast. He died instantly.

The shooting occurred in the paint shop. The two men were sitting together eating their lunch when an argument started, and the first thing Detective Hall, another workmen, heard was a shot. They saw Mileto reel against the wall. Another shot was fired and Mileto fell over dead.

The man who did the shooting ran out of the shop into the railway yards and disappeared among a mass of freight trains. The other workmen, terrorized by the shooting, made an attempt to stop him, and he got away.

The police, being notified, raised a general alarm. All stations were notified, and the G.T.R. and C.P.R. police detectives were warned to keep a sharp lookout.

Dr. Gordon Rice, G.T.R. surgeon, was notified, but the man was dead. The detectives from the headquarters rushed to the scene of the shooting in police autos, and are scouring the city. Workmen and officials are unable to account for the shooting.

Kiki's room was searched by the police, and a jar of bullets and literature about automatic guns were found.

The last month that occurred in Toronto was in July, when Carmen Lepello, alias Tony Rose, was found murdered on Salisbury avenue, Hudson Bay.

TWICE LAURIER MISSED CHANCE TO AID IN WAR

Though Appealed to, he Did Nothing to Get Voluntary Recruits —Borden Tells Story—Will Keep Matter Under Advisement, Said Laurier—He Still is

SYDNEY, N.S., Nov. 21.—Speaking at a large meeting here Sir Robert Borden gave two instances where Sir Wilfrid Laurier had failed to co-operate with him when, as head of the Government, he had inaugurated and warmly encouraged movements to secure voluntary reinforcements for the men at the front.

After a reference to Sir Wilfrid Laurier's manifesto in which he asserted that sufficient reinforcements could have been raised by voluntary means and commenting on the Government's alleged inadequate effort, the Premier continued: "In August, 1914, I entrusted him to give his aid and co-operation in an appeal to the Canadian people, which might have brought about increased enlistment. He declined to give that co-operation. A letter was sent to him by the Recruiting Committee of the Canadian Club of Montreal, asking him to give a written endorsement to their efforts to arouse new interest and activity in recruiting."

Rowell Endorsed Appeal.

"A similar appeal was made to Mr. Rowell and to myself. I was in England at the time, and I sent in reply the following message:

"London, Feb. 26, 1917.—The war's climax is rapidly approaching, and it may be reached at any moment. I strongly commend and support the scope of the Canadian Club of Hamilton in its recruiting campaign. The most vigorous effort is now vitally necessary, and I hope for a splendid result from your efforts."

Mr. Rowell warmly endorsed the club's efforts.

Laurier's Exact Reply.

"I will give the exact terms of Sir Wilfrid Laurier's reply. Here is his reply, given on the 20th of February last:

"Ottawa, Ont., Feb. 26, 1917.

"Dear Sir: I have the honor to acknowledge the receipt of your favor of the 24th inst., and I am sorry that I cannot send you at once an affirmative answer. I will look into the matter, but will keep it under advisement. Believe me, yours sincerely, Sir. Wilfrid Laurier."

"The matter is still under advisement, as I am informed that he has made no further reply. This took place in the third year of the greatest war that humanity has ever experienced, a war which menaced the future of civilization and human liberty. The urgent need for reinforcements at the front was known to all Canada. He declined, on that occasion, to say one word which would aid in the national purpose or give support to the men who are holding Canada's battle line. He had to look into the situation some more. I will look into it ever since. What has the Canadian Army Corps to expect from such a spirit?"

Sourasse's Support.

Sir Robert Borden then referred to the "school of thought" in Canada, which held precisely the German view of what Canada should do in war. If Sir Wilfrid Laurier won it would be by the support of these men.

Afterwards the Premier touched on Sir Wilfrid's refusal to join either a Coalition or a National Government and his criticism of the C. N. R. proposal, which, the Prime Minister declared, was the result of conditions in the railway which had developed under Sir Wilfrid's own leadership.

The wastage of infantry in October was 3,648, while the number of recruits was 1,750, only 631 of whom were obtained in Canada.

DOCTOR SAYS VINOL IS THE BEST TONIC

Honest Opinion Doctor Gave His Patient

Bedford, Ohio.—"I was in a pitiful condition, weak, nervous and run down. Often I could not do my usual work. I had doctored for years and had tried everything under the sun. LIBERAL PAPER'S STRONG APPEAL FOR UNION

Kingston Whig Sounds a Ringing Patriotic Call to Its Liberal Readers to Rally Round the Banner of Union Government and the Larger Canadianism

The British Whig, one of the oldest newspapers in Canada, which has always been a steadfast supporter of the Liberal party, is one of the many Liberal newspapers in Canada which has placed patriotism before party and refused in the present crisis in Canadian affairs to follow the former Liberal leadership. Its Wilfrid fanatics into the narrow provincialism which he seeks to impose on Canada. The Whig publishes a declaration of principles, in part, as follows:

WHERE THE BRITISH WHIG STANDS

God give us men. The time demands
Strong minds, great hearts, true faith and willing hands;
Men whom the lust of office does not kill;
Men whom the spoils of office cannot buy;
Men who posses opinions and a will;
Men who have honor; men who will not lie;
Men who can stand before a demagogue
And dam his treacherous flatteries without winking;
Tall men, sun-crowned, who live above the fog
In public duty and in private thinking.

The above words very aptly and very forcibly apply to the conditions that exist to-day, to-day which is not alone for true-hearted and courageous men; it is for true-hearted and courageous newspapers as well. Thank God, the English-speaking press, with scarcely an exception, has measured up to that standard. The one on a great responsibility was laid upon the publishers and the path of duty, once clearly seen, has been faithfully followed.

True to the traditions of the noble name it bears, the British Whig has unswervingly stood for Empire, King and Country. It has advocated the policies it considered in the best interests of the country, not hesitating to differ with the party to which it was allied when it thought that party's policies were wrong. The path of duty is not always the easy one—nor is the promise path of dalliance, by any means. It sometimes means the severance of long-established ties, and the blazing of new and untried trails.

Since the very inception of the war the British Whig has lent its every strength toward the successful prosecution of the war. It was one of the first papers in Canada to advocate conscription, as the only fair and satisfactory manner of vigorously prosecuting the war. It could see no other course open to it. Therefore, it was in duty bound to notice the demand for a Ministerial or Union Government to support the Military Service Act, and if part consented—regretfully to be it admitted—with Sir Wilfrid Laurier.

When recruiting failed—as it lamentably did fail—there was no alternative but conscription. Critical days are still ahead of us. Empires are crumbling. Even the Allies are growing weary and dropping out of the conflict. Our small but heroic army in France is fast growing smaller. They call to us for help, for reinforcement.

Are we at home going to be quitters?

If so, then we are not worth the sacrifice these gallant boys have made for us.

They, then, shall have died in vain!

There only one way to avoid this ignoble, contemptible, debasing situation. It is by adopting conscription, and reinforcing the rapidly depleting ranks overseas by means of compulsive enlistment. No other course is available. Sir Wilfrid's manifesto of delay will not suffice.

Action, not words, are wanted to-day.

Therefore, the British Whig, holding these views, is implied to sustain the Military Service Act, and, consequently, the Union Government. In taking this position it is in good company. Practically every Liberal newspaper, from the Atlantic to the Pacific, has adopted the same course. Trusted Liberal leaders hold the same views—men like Fielding, Pugsley, Rowell, Carvell, Sifton, Crerar, Calder, Meighen, Ballantyne, Gibson, Murray, Morris, Martin, Brewster. If the Whig errs, it errs in good—mighty good—Liberal company.

LANDED IN BUCKET OF TAR

Russia To Seek An Armistice

Windsor, Nov. 22.—Joseph Lalonde, a building contractor, was thrown head-first through the windshield of his automobile and landed squarely in a kettle of linkem tar, while he was driving down London street in a hurry today. The car struck an obstruction and left Joe Lalonde out of the seat. He was unhurt and says the experience was not unpleasant.

ROWELL MAKES NO APOLOGY

Would Consider He Owed One If He Refused to Join Union Government

BOWMANVILLE, Nov. 22.—Terse, and effectually Hon. N. W. Rowell answered his critics before a record meeting in the Town Hall here, "I owe no apology to the people of Ontario," he said, "for having entered a Union Government. In the face of world disaster I would be ashamed of myself if I could not put aside party differences and unite with the Government to help win the war.

The big audience of one thousand men and women, which had hitherto given attentive but somewhat unresponsive hearing, broke into vigorous applause. Mr. Rowell waited for it to subside, then continued:

"If I had refused the invitation of the Prime Minister, if I had withdrawn, if I had said to him, 'No, you must, first through this crisis single-handed and alone,' then I would have felt I owed an apology to the people of this county and of this Province for failing to do my public duty in a great national crisis."

Again the ex-leader of the Ontario Opposition was forced to pause until the applause subsided. Then he concluded the reference: "In view of the present national situation criticisms are no reflection upon us. They reveal the characters of the men who make them."

The meeting was absolutely devoid of disorder. Hon. Mr. Rowell, Mr. J. A. H. Bartram and Mr. C. J. Thornton, the chief sitting members, listened to without a single interruption. Major J. B. Mitchell acted as Chairman, and conferred on the Unionist Cabinet Minister the freedom of the town.

FICTION FACTORY AGAIN REBUKED

Trenton, Ont., Star'oor' Office, Nov. 20th, 1917.

To The Intelligencer:

Last week in discussing the political situation in reference to candidates in West Hastings, the Ontario had the following lines in reference to myself:

"The latest possibility along this line is Mr. W. H. Ireland, Mayor of Trenton, who is being seriously proposed by influential backers in that town, as an Independent Liberal candidate. Mayor Ireland is exceedingly popular in his own town and was known outside. It is a late hour, but Trenton is not whether he will favorably consider the proposal."

In a later issue, the Ontario was pleased to state that I had retired from the field and had announced myself as a supporter of Mr. R. J. Graham.

Permit me to say (1) that I never for a moment entertained the idea of being an Independent Liberal candidate in West Hastings and (2) that I have not announced myself as a supporter of Mr. R. J. Graham.

Yours truly,
W. H. IRELAND.

Plave Battle Bitter Struggle

Special to The Intelligencer.

LONDON, Nov. 22—Reuse despatches report that the tremendous battle along the Plave continues and that the pressure of the enemy is increasing hourly. No move has yet been made by the Italians to abandon the Plave line.

Some of the Benefits Mr. Porter Has Secured For West Hastings

He was instrumental in securing the expenditure of $350,000 for the new wharf and warehouse at Belleville for the use of the business men and producers of the district.

Arranged to have the Belleville Post Office raised to the status of a city office with a house-to-house mail delivery twice daily by letter carriers.

Secured the establishment of Rural Free Mail Delivery throughout the county district.

Secured $87,000 to assist in the erection of the fine bridge which spans the river at Trenton, and had the Post Office in that town enlarged.

The British Chemical Works, which has brought thousands of dollars to West Hastings was secured through the persistent efforts of Mr. Porter.

The welfare of returned soldiers and their dependants has always been first thought of Mr. Porter and he has always been at their service. Special positions have been secured for many returned soldiers through Mr. Porter's efforts, and he has been able to help the returned heroes and their dependants in many ways.

These are a few of the things that Mr. Porter has done for West Hastings, and this five cent editorial the last by may means. His opponent insinuated that Mr. Porter had done nothing for the Riding.

Has not Mr. Porter faithfully served the electors of West Hastings? Why should he be cast aside just because Mr. Graham wants the position.

Eight Thousand Prisoners Taken

Sweeping Victory of British

SURPRISE ATTACK SMASHES GERMANY'S LINES ON THIRTY-TWO MILE FRONT—TWO GERMAN DEFENSIVE LINES BREACHED IN DRIVE WHICH CARRIED BRITISH FIVE MILES INTO ENEMY TERRITORY—FRENCH ALSO LAUNCH BIG NEW OFFENSIVE—HINDENBURG LINE BENT AND BROKEN AND SMASHED TO SMITHEREENS.

LONDON, Nov. 22.—The great Hindenburg defence line, upon which the German commander-in-chief had built his hopes of holding the British from invading it into the open territory beyond, has been smashed. And the task apparently was an easy one.

Attacking over a front of 32 miles, extending from the Scarpe River east of Arras to St. Quentin, Field Marshal Haig with his English, Scotch, Irish and Welsh troops has made one of the most rapid and spectacular drives of the present war, catching the Germans completely by surprise in the onslaught, capturing numerous positions which were considered impregnable and taking in addition thousands of prisoners and numerous guns.

The apex of the offensive apparently is centred on the important railway junction of Cambrai, lying to the east of the old line midway between Arras and St. Quentin. Here, having taken the Towns of Marcoing, Anneux, Graincourt and Noyelles, the victorious troops at last accounts were well within gun range of Cambrai, with its railroad lines and roadways branching out toward all the main points of the compass.

The latest advices indicate that the British have not yet ceased their attack, but aided by monster tanks, which are leading the way, followed by infantry and machine gun detachments, are pressing forward for further conquest.

Synchronously to the south around St. Quentin and east of that point in the Alsne region the French have begun an offensive. While no details of this movement have been received, it doubtless has the object of pushing back the Germans eastward in the former section and forward in the latter region toward Laon—strategic moves which, if successful, doubtless will compel that portion of the German line north of St. Quentin which is still intact to fall back precipitately.

NO ARTILLERY PREPARATION

The British drive was begun without the usual artillery prelude, and as the tanks and infantry-men made their way through the wire entanglements and pressed into the German first positions the surprised enemy began setting up myriads of signal rockets calling for assistance. Whether aid was rushed up is not definitely known, but seemingly the surprised Germans fled in disorder, leaving all kinds of equipment behind and in most cases did not even take time, as is usual, to apply the torch to villages they evacuated.

The British casualties are described as extremely light, while German dead covered the ground as the British pressed forward. Reports to date indicate that the depth of the penetration in the region of Cambrai has exceeded five miles, and that one point at least the troops swept on five miles beyond the German lines, capturing additional villages.

The offensive was under direct command of General Sir Julian Hedgworth George Byng, and General John J. Pershing, commander-in-chief of the American forces in France, was an interested observer of it.

EIGHT THOUSAND PRISONERS.

LONDON, Nov. 22—Andrew Bonar Law announced this evening in the House of Commons that eight thousand prisoners, including several hundred officers, have been taken by the British in their present operations. At one point the British penetrated five miles behind the German lines, and several villages in addition to those already announced have been taken.

FRENCH ALSO ATTACK.

LONDON, Nov. 22.—The French opened a strong attack on the Germans on a six-mile front north of the Aisne River, to-day afternoon, according to the official report from general headquarters tonight. The British were still using powerful force against the Hindenburg line in the Cambrai sector.

BRITISH TWO MILES FROM CAMBRAI

(Special to The Intelligencer)

LONDON, Nov. 22.—Reuse's despatch—The War Office announces that advancing north of Contain the British have captured Fontaine Notre Dame and are within two and a quarter miles of Cambrai. The German have been driven from the high ground to west, southwest and south of Cambrai and the city under the fire of the British guns. The Germans are fighting desperately to prevent further losses.

British Airplanes Help In Drive

(Special to The Intelligencer)

LONDON, Nov. 22.—An official statement says the British airplanes attempted to work their way throughout Tuesday in conjunction with the military operations, between St. Quentin and the River Scarpe, but misty weather interfered greatly. Much good work was done, however, many bombs being dropped on enemy batteries, airdromes, transports, etc., while batteries and large groups of infantry were attacked with machine guns. Only five hostile machines were seen all day.

John McGraw is talking of supporting Dave Robertson. Probably because Dave wants John to provide a wheel chair so he can move around the infield in comfort.

Why Not Tell the Truth?

The nomination paper of R. J. Graham filed with the Returning Officer for West Hastings contained the signatures of thirty-nine electors. The local Laurierite newspaper is reporting the nomination proceedings gave a list of one hundred and forty-six names, as being signed to Mr. Graham's nomination paper. To the thirty-nine actual signed the Ontario for good measure adds 107 names which were not signed to the paper.

The Ontario must have a poor opinion of the intelligence of its readers to attempt to deceive them in such a like manner as this or with other moves in the campaign in the interest of the opposition candidate the reverse of straightforward.

Such tactics can only result in the public being suspicious of all statements bearing upon the election from the same source.

The added names were no doubt secured from the discredited petition circulated as a request for Mr. Graham to come out on the ground that Mr. Porter was not fit to be a candidate.

The Ontario could have secured a few more names by inserting a few pages of the Voter's list and with just as good chances of getting away with it.

CERTIFICATE OF RETURNING OFFICER

The following certificate of the Returning officer effectually nails another campaign misrepresentation used in the interest of the opposition candidate, Mr. Graham:

Belleville, Nov. 22, 1917.

I hereby certify that the nomination papers filed with me at the nomination of the candidates for West Hastings for the coming election there are the following number of names:—

E. Guss Porter's Nomination Paper 73
R. J. Graham's Nomination Paper 39

W. S. MORRISON, Returning Officer for West Hastings.

PREMIER ENDORSES UNION GOVERNMENT CANDIDATES

Official Endorsement Completed With Exception of Seven Ontario Ridings—Fourteen Ontario Liberal Candidates Endorsed by Premier Borden

OTTAWA, Nov. 22.—Endorsation of candidates for the purpose of the polling of votes overseas, under the Military Voters' Act, has been completed by Sir Governments in all the provinces except Ontario. In regard to Ontario consciencetious the choice of a man for opposition by the Prime Minister has not yet been made, pending the conclusion of the negotiations still in progress looking to the retirement of a nominee now in the field. The seven ridings are Kent, North Welllington, Welland, South Bruce, North Essex, North Middlesex and Carleton.

SOME SURPRISES.

The list of endorsed candidates includes some surprises. W. F. Maclean has been recognized as the Government candidate in South York, although he was not the choice of the riding convention.

In East Hastings, Thomas Thompson, Conservative Unionist, has been endorsed in the stead of W. B. Northrup, K.C. (conservative), who has given rise to a belief there that Mr. Northrup is probably retiring from public life.

Fourteen Liberals are included in the Premier's list of candidates: Hon. R. C. Mewburn in West Hamilton, Hon. Hugh Guthrie in South Wellington, Hon. N. W. Rowell in Durham, Col. MacKie in North Renfrew, Lieut.-Col. T. Martin in Renfrew South, W. A. Charlton in Norfolk, J. B. Tudhope in East Simcoe, Major Hume Cronyn in London; H. M. Mowat in Parkdale, F. F. Darden in Lambton West, R. W. Nesbitt in North Oxford, D. A. Mannion in Fort William and Rainy River, John McMartin (elected by acclamation) in Glengarry; John Harold in Brant, In Nipissing, C. R. Ramsay, a Labor candidate, has been endorsed.

Berlin Report On Naval Battle

Special to The Intelligencer

BERLIN, Nov. 22.—A statement issued by the Admiralty says six battle cruisers participated on the British side in the recent engagement in the Heligoland. In addition to a large number of small cruisers and destroyers. The loss of the British, it is declared, was opposed quickly by the German forces who forced them to retreat. A number of direct hits were obtained on enemy ships and destroyers. German airplanes took part in the battle and bombarded the large British ships.

WIDE WEDGE DRIVEN THROUGH HUN LINE

Despite Heavy Rain British Troops Sweep Forward in Flanders Smashing Hindenberg Line—Germans Flee in Terror or Surrender—Ominous Silence Precedes Attack

LONDON, Nov. 21.—Reuter's correspondent at the British headquarters in France reports:

"It has been raining hard since yesterday morning and it is raining still, but somewhere beyond the veil of the storm our troops and tanks are still pushing forward. We get reports of them even on the Marcoing-Masnieres line and of patrols penetrating in the direction of Noyelles. (Noyelles is 5 1-4 miles from Cambrai).

"The heavy blanket which the German has driven a wide wedge through the Hindenburg line, in which there is every evidence of the enemy fleeing or surrendering without making a serious attempt to hold the defences

Up to the actual hour of the British attack there were moments when great stillness reigned over the battle front, and it seemed impossible that within a short time the British would be leading cadrons. At 6.20 a long line of tanks, distributed over a wide front, started forward. At the same time the British infantry on either side of the land Monitors, made threats at the German line. Within a few seconds the entire enemy front was lit for a distance of many miles was flaming with varicolored signals which called frantically for help from the German gunners in the rear. Red, green, white and blue lights shot up in every direction and the rockets showered a myriad of stars down through the air.

RETURN OF DRIVER SAUNDERS

Word was received in the city last night by Mrs. Chas. Saunders, stating that her husband, Driver C. Saunders, will arrive home to-morrow, Friday, on the C.P.R. from Kingston. Driver Saunders left Belleville with the 59th Battery in 1914, and is now returning after being in hospital for several months.

SOCIAL AND PERSONAL

Mrs. John Asceline, 272 John St., who has been having treatment in the Belleville hospital for eye trouble, is progressing nicely.

Miss Beatrice Telworth, 269 William street, is progressing favorably after undergoing an operation yesterday in Belleville hospital for appendicitis.

Hamilton Spectator—Despite the pressure of patriotic duties, many visitors found time yesterday afternoon to call on Mrs. H. J. Waddle, formerly Miss Martha Elliott, of Belleville, who was receiving for the first time since her marriage, at her home 51 Markland street. Bronze mums, those queenup flowers of the autumn, were seen in the hall on entering, while in the drawing room, where the guests were welcomed, American beauty roses were in profusion as decoration. Mrs. Waddle received in a gown of delft blue georgette crepe with beaded trimming. In the dining room sunset roses and mums in silver vases formed an artistic setting for the dainty teacups, over which Mrs. H. H. Champ and Mrs. Charles Graham presided, assisted by Miss Nora Elliott, Belleville, sister of the bride, Miss Jean Hamilton of Winnipeg, and Miss Naomi Grant. Mrs. Waddle will be at home on the first Friday of every month.

Belleville's New Rubber Industry

Buildings of the Mackintosh Rubber Company of Canada Limited, Practically Completed

All over Canada, communities are reaching out for new industries, and while this movement has been somewhat obscured by war conditions the extension of Canada's industrial activities steadily continues. In fact the war and Canada's magnificent participation in it has turned the attention of the world upon the wonderful possibilities for growth and prosperity sure to follow the construction period. Among the centres which have a bright future in the industrial world the city of Belleville with its excellent shipping facilities, cheap electrical power and proximity to the best markets, takes second place to none, and even now the germs of industrial expansion are stirring in this city. Quietly, without any blowing of horns, great promises, or applications for civic assistance a young industry is rapidly approaching the productive stage in Belleville, which has abundant indications of being an important factor in the future prosperity that will. Reference is made to The Mackintosh Rubber Company of Canada, Limited which is erecting a factory here for the manufacture of rubber goods of which there is great demand.

A representative of The Intelligencer visited the site of this new business concern at the corner of Moira and Yeomans streets, north of the G. T. R. tracks, yesterday, and found the large buildings of the company practically completed and ready for the installation of the machinery. The main building is 251 feet long by 71 feet wide, of modern reinforced concrete construction, and there are seven buildings for chemist houses, stories, stores, etc. Large windows afford plenty of natural light for the operatives and the factory will be a model one in every respect.

The buildings have been laid out with a view to sooner or later of enlarging the whole of the main building for the heavier machinery, the unit of which may run from five to thirty tons in weight. An interesting feature of the factory layout is the fact that all shafting, pipes, etc., for the heavier machinery will be placed under the floors instead of overhead in the old way, the new method having many advantages, in space saving, and removal of noise and dirt.

Individual Electric Motors

All of the machine units will have individual motor drives with motors from one horse power to 70 h.p. A battery of boilers has been provided for vulcanizing and heating purposes only. The factory will use a large quantity of water for manufacturing purposes and an abundant water supply has been found on the premises from springs located three feet below the surface. A water reservoir with a capacity of 600,000 gallons has been constructed, also a water tower, 45 feet high, which will contain 15,000 gallons.

Forty workmen were found busily engaged putting the finishing touches on the various buildings, which are admirably adapted for the use of the industry.

The plant being outside the present radius of the city gas service has erected its own gasometer and will manufacture its own gas.

The plant will use 30,000 gallons of water daily for cooling and washing purposes alone, and no detail will be missing to constitute a model rubber factory.

Waterproof Clothing

Acid and vaporizing chambers have been constructed, detached from the main building for the production of the finest textiles in waterproof clothing, silk textures, etc, which are not made in Canada. Rubbers, boots and shoes for lumbermen, fishermen and others will be made, also automobile tires and automobile tops. In waterproof shoes alone the plant will have a capacity of 2,500 per day for the first six months, after which the production can be increased. In the finishing table alone where twelve girls will be kept busy 240 pairs can be turned out each day.

Waterproof coats will be made spread with the new gum known as Gabbisoe which readily takes any color or shade, and is superior in many respects to rubber. Mr. MacIntosh, the Managing Director of the company, is the discoverer of this, a secret process for treating Gabbisoe, and acquired its use in this country.

Great Demand for Rubber Goods.

With the expansion of the automobile industry and improved methods in rubber goods of all kinds the demand has become enormous and one factory alone in the United States employs over 20,000 hands and has increased its capital from $100,000 a few years ago to $57,300,000. From this the importance and prospects of the rubber goods manufacturing industry can be readily understood, and the future holds almost unlimited value.

To Nervous To Sleep

Nerves Wrecked by Accident—Was Afraid to Go in a Crowd or to Stay Alone—Tells of His Cure.

London, Nov. 22.—Much sympathy was felt in this city for Mr. Dorsey, whose nerves, as a distressing accident when his foot was smashed in an elevator.

The shock to the nervous system was so great that Mr. Dorsey was in a pitiable condition for a long time. He was like a child in that he required his daughters care nearly all the time. He feared a crowd, could not stay alone, and could not sleep because of the weakened, nervous condition of his nerves.

Detroit people did what they could for him, but he could not get back his strength and vigor until he fortunately heard of Dr. Chase's Nerve Food.

It is no more accident that Dr. Chase's Nerve Food proves to be essential when needed to so many cases of exhausted nerves. It is composed of the ingredients which nature requires to form new blood and create new nerve force. For this reason it cannot fail and for the reason it does. It needs when ordinary medicines fail.

Mr. Leslie D. Dorsey, 39 Richmond street, London, Ont., writes: "About three years ago I got my foot smashed in an elevator in Detroit, which completely shattered my nerves. I doctored with the doctors there, but they did not seem to be able to help me. My nerves were in such a state that I could not go down town alone, or go in a church where there was a crowd. Sometimes my mother would have to sit all night over me at night, and could not get any sleep at all. But one day last summer a commercial traveling Dr. Chase's Nerve Food, and before I had completely used the first box I could see a difference in my condition. I continued using these pills for some time. The result was splendid, and so much better can sleep well at night, can go out on the street and attend gatherings like the rest of people. I am so pleased to be able to tell you what Dr. Chase's Nerve Food has done me, that to recommend it to other people."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment, at all dealers, or Edmanson, Bates & Co., Toronto. Be sure to get Dr. Chase's. Not be talked into accepting a substitute. Imitations only disappoint.

Aims and Objects Of War Veterans

Association of Returned Soldiers "Looks After Interests of Soldiers and Families

Madame Nelli Gerdini, the great Montreal singer is giving her services, gratis on Wednesday evening, the 28th of November next, for an operatic concert in aid of the Great War Veterans Association of Canada. The Griffin Amusement Co. are giving the use of the Opera House at a very low rental and every assistance possible to the G.W.V.

For the benefit of the Great War Veterans' Association the H. Corby Distillery Co. has given their splendidly fitted office building for a club or meeting place for the returned boys free of rent.

A number of our citizens have given donations to assist in furnishing these rooms, and perhaps there are some of our people who do not know we have a Great War Veterans Association in our midst, and still some others who are not personally with its noble aims and objects. For the information of the public in general, let us state briefly, that the work of the association is an effort on the part of the returned soldiers to help themselves and their comrades who are returning daily. It is their desire to have a comfortable, home-like meeting place for the betterment of the returning men, and other topics of general interest may be considered and discussed, to see that justice is done in so far as can possibly be effected, by wise and reasonable administration to those who are disabled by reason of wounds received or unfortunate circumstances connected with their service, in peace and defence; and that the lives of those whose breadwinners have been killed in the line of duty, may be made as free from care and anxiety for the future as it is possible for a grateful people to render them. Their desire is to perpetuate the close and kindly ties of mutual service in The Great War, the recollections and association of comradeship, and to foster a spirit of honorable pride and honor in the returned soldiery, to preserve the glorious record of those who have suffered and died for the nation, to secure the erection of monuments to their valour, and the provision of suitable Rolls of Honor and the establishment of an annual memorial day; to insure that proper provision is made for the care and welfare of the sick, wounded and needy, among those who have served, including reasonable employment for such as are capable, soldier's homes, medical care, equitable provision for dependent families of enlisted men, and to so constantly inculcate loyalty to the Crown and the Empire and unstinted service in their interest.

The local organization is not at the present begging, but with the assistance of the local newspapers trying to "Do" for themselves, and at the same time furnishing the citizens of Belleville and surrounding country, the musical feast of the season in presenting Madame Gerdini and her company on the 28th inst., Wednesday night, of which further reference is made elsewhere in these columns.

Come along and help the boys out and get double value for your dollar; they guarantee every cents worth in the musical treat, and thanking you for your assistance financially to them.

TEN-ACRE FARM MAY YIELD $200,000 YEARLY

What Mayer L. Shapiro, a boy and cloak maker of Jerome avenue and Rockaway avenue, Brooklyn, has exchanged these two-family houses in Woodhaven for a ten-acre farm near Woodhaven. Long Island. Some few years ago, his friends looked upon the transaction as anything but a wise one. Woodhaven property represented a value of about $12,500, and Shapiro's friends told him they doubted if the farm he took in exchange would be a profitable one for 100 years to come. But Shapiro and everybody that he had always wanted to be a farmer on a farm of his own, and that he didn't care if it never did turn out a paying investment.

Secretly, however, he had some misgivings, and less than a year ago he sold his farm. He has been glad to sell his ten acres, with the comfortable fifteen-room house thereon, for a much sum. Then along came the war, and the salesman for the government officials of the Yaphank site for a cantonment where the drafted men could be trained. Shapiro's property happened to be opposite the Camp Upton railroad station and the main entrance to the camp. Immediately there was a demand for Shapiro's land on the part of big and small business interests, which saw the commercial possibilities and expressed as eagerness to lease parcels for fabulous sums. Now Shapiro expects to collect at the rate of $200,000 yearly in rentals. When the Government decided on the camp site several months ago Shapiro turned down a $100,000 cash offer for his property.

Mr. Shapiro, who now spends most of his time at Yaphank looking after his interests, told as "Eagle" reporter recently that the farm on Long Island road was purchased by Edward Schultz, a butcher, and several others, for his Woodhaven property.—Brooklyn Eagle.

If Food Disagrees Drink Hot Water

When food lies like lead in the stomach and you have indigestion, table, distended feeling. It is because the food sufficient digestive juice in the stomach, combined with acid and starts fermentation. In such cases try the effect of a cup of hot water sipped and advised by many eminent physicians of taking a teaspoonful of pure, disinfected magnesia in half a glass of water, as hot as you can comfortably drink it. The hot water dissolves the tasteless magnesia and the disinfected magnesia as any physician will tell you, instantly neutralizes the acid and stops food fermentation. Try this simple plan and you will be astonished at the immediate relief and comfort that always follows the restoration of the normal process of digestion. Also a hot water drink is of inconvenience at times to secure hot water and travelers who are frequently obliged to take hasty meals poorly prepared, should always take two or three five-grain tablets of Bisurated Magnesia after meals to prevent fermentation and neutralize the acid in their stomach.

UNIONISTS TUNE UP

Get Ready For Concerted Action All Over Canada—Establish Union Headquarters.

OTTAWA, Ont., Nov. 22.—Union headquarters have been established in the Castle Building, Ottawa, to be under the direction of Mr. James F. Smith, and Mr. Alastair W. Grosm. The office if for the purpose of giving general information to candidates and others interested in the election and co-ordinating the platform campaign.

The Union Government expresses the hope that Provincial organizations will keep in touch with Union headquarters in respect to all these matters. It is also desired that speakers' leagues and other such organizations in arranging for meetings within their Provinces or districts will keep them in touch therewith and in order that there may be no unnecessary duplication of effort.

15-YEAR-OLD SOLDIER HAS BEEN WOUNDED

KINGSTON, Nov. 22.—Driver Harvey Edward Brouse, the 15-year-old son of Mr. and Mrs. H. Brouse, of this city, and brother of "Bonnee" Brouse, the well-known Kingston bookyist, has been seriously wounded in action. He went overseas with the 73rd Queen's Battery, and is Kingston's youngest soldier at the front.

GREEK PREMIER CONFIDENT

London, Nov. 22.—Premier Venizelos of Greece, who came to London from Italy with Premier Lloyd George, has shown the spirits of the Greek people were rising and that they were preparing to participate more wholeheartedly in the war.

Premier Venizelos, who appeared to be in splendid health, said that only the faint-hearted could be affected by the vicissitudes of the conflict, and that the determination to win the victory could not be shaken.

TWO CANDIDATES QUIT

Two withdrawals are announced from the candidates in Ontario as nominated on November 4. Sandy Brube the Independent, W. Bellworth, has retired from the field while in the Liberal interest, Dr. Lemuel Isaac, Alex. Saunders, has withdrawn. This leaves but two candidates in each case.

HUNTER SHOOTS LYNX

BROCKVILLE, Nov. 22.—A lynx measuring more than five feet in length and weighing forty pounds was shot by ex-Warden Ferguson in the Township of Yonge and Escott. Once the animal jumped from a tree and attacked Mr. Ferguson, but his dog beat it off long enough to give the hunter an opportunity of disposing of it with his shotgun after an exciting chase.

THE NOMINATIONS

Lauriette Tattles

The nominations of candidates for the Federal elections prove one thing, and that is that Laurier outfits had received instructions not to allow an election in Ontario, the North-West or British Columbia, to go by default, for no matter how certain the result might be of the election of a Union Candidate a Laurierite appeared to fill the gap. This was most apparent in constituencies which were beyond doubt Conservative and Union by a large majority and those where Conservative candidates had retired in favor of prominent Liberals who had avowed adherence to the Union Government, and sought seats in what is hoped to be a Unionist House of Commons. Take two or three cases as examples.

In Queens-Shelburne, Nova Scotia, which was carried by a Conservative at the election of 1911, the Conservative candidate retired to allow the election by acclamation of Hon. Mr. Rhodenizing. Sir Wilfrid's Finance Minister, Hon. Mr. Fielding, others of the Liberal party, had pronounced opinions in favor of the Union Cabinet and against the policy of his former leader Sir Wilfrid in relation to conscription.

In West Durham, Ontario, which was represented both in the Dominion and Ontario Legislatures by Conservatives, both Conservative candidates withdrew their claims and proposed the Hon. Mr. Rowell, former leader of the Ontario Liberals, to be the Unionist candidate. A Laurierite candidate was at the last moment nominated, not, we venture the opinion, with any expectation of winning, but to make a showing for Laurier's principles. Quebec, because a number of acclamations in Ontario for Union Government would probably have stampeded some Quebec constituencies from Laurier.

Another case will suffice to prove the venom with which the Laurierites hound the very footsteps of their former friends and admirers, who no longer support Laurier's Quebec policy of no assistance for our boys in the trenches in Belgium. South Toronto, a live of Conservatives, was tendered to a nephew of the late Sir Oliver Mowat, now president of the Lib ral Association. All Conservative aspirants for the honor of representing the constituency retired in his favor. All soon, however, as it was learned by the Laurier tribe of politicians that Mr. Mowat was in favor of Union Government, a nobody was rushed into the field, and a contest is on.

Honest and loyal Liberals are resisting these tactics.

In East Hastings another policy is pursued. The Laurierites wait and watch events, and finally, that on account of local jealousies there is a split in the Unionist party, bring out a Laurierite who is honest enough to tell the electors he is a supporter of Laurier and will if elected assist in repealing the Military Service Act. This candidate crops up on the day of nomination, and is now in the field confident of success owing to the division in the Union ranks. Mr. Cross, the Laurier Liberal candidate in East Hastings, is a man of strong character, and will be a power for good in the House of Commons, but he is not the candidate of the Union Government, and sought seats in what is hoped to be a Unionist House of Commons. Take two or three cases as examples.

THE NEXT PARLIAMENT

A writer in The Globe says he is a win-the-war man "but it is anxious to know if this Union Government is formed for the duration of the war only, and if when the war is over there will be a general election on the other hand, will the Union Government remain in power for five years. The Globe replies that:

> "The next Parliament will be elected for the normal term, Liberals and Conservative Unionist have agreed to call a truce to differences on domestic questions until the war has ended. After that it is not altogether likely that those differences on the tariff for instance—will emerge again, and that it may be necessary to hold another election before the regular parliamentary term expires. Much will depend on the length of the war."

The Globe might with propriety have added that there would be too many questions to answer and numerous subjects to consider after the war, that would require the united minds of both parties to adjust. What is to be done when the important epoch in Canada's history arrives it will be time enough then to worry about. Old party lines and who are to solve the many and pressing problems that will present themselves for solution need cause no concern now for they will work themselves out satisfactorily. History informs us that all coalitions have ended by some returning to their old views and opinions while others have remained with the new order of party lines. Such no doubt will be the end of the present combination and party lines will be readjusted. Let controversy be avoided until war troubles are at an end.

THE VOICE OF LABOR.

Mr. John G. O'Donoghue, the well-known legal adviser of organized labor, well put into words his own views and those of many others when he said:

> "I very early realised that all I held most sacred was at stake, and that, with honor—is death, the very basic principles of democracy. Once that was settled there was only one thing for me to do, and loyally, to advocate the union of all party forces to bring about success. I have therefore consistently advocated the formation of a Union Government as a beginning. That has been done, and now I'll support it, at the same time using my best endeavors to force that Government to go ahead with the further conscription of wealth, and the utilization of all our resources to the successful prosecution of the war."

"Shrapnel Corners" and Its Heroes

"SHRAPNEL CORNERS." Assuredly the very name is a reminder of the war. Yet thousands of people pass and repass it daily seemingly without a thought of what it has meant or of what it still involves. Is it thoughtlessness? Or, is it not an awkward proof of the cynical claim of some that in wartime our gift accustomed to full and ruthless things and that humanity hardens?

"Shrapnel Corners" to the reflecting person is one of the saddest spots in Toronto, though, oddly enough, actually one of the cheeriest. It is the name that has stuck, some say that when it over it may be even historic, to the corner of Yonge and Bulwer streets, where the Red Cross motor benches may be seen every afternoon from half-past thirty or forty. Injured wounded men from the Central Military Hospital come by. Mained and re-clutched for the moment, all limping or with an armless sleeve, they form a quite picturesque group as they sit on the benches, chattering as so many monkeys, enjoying their convalescence.

Of course some of the severer cases cannot be public view. Up in the top ward of that dull red brick building there are sadder things than one is less thousand of those who pass can fancy. There are in the ward at the hospital, and there are about 100 outdoor cases. Of the latter this case is treated at North Toronto, so that one sees these Cobourg cases as not the reflection of the worst war has brought the record.

But the boys are our best exemplification at the enormous distance to go about the matter further on which has added Canada's quota to the millions of the British army. Wet or fine; storm or sunshine, these wounded boys never cease to stop smiling. What they do of mental distress they conceal. If they are not smiling they are smoking. These young fellows seem to find in pipe or cigarette the recollected comfort. "My Lady Nicotine" brought them in the vile mud of the Flanders field or inspired them of the solace it gave when after their wound the fumes carried away the stifling stench of the dead between the trenches. For is it not, as true to-day as that of entrenched warfare, as of Waterloo, that

> "This mass of living valor, rolling on the rain,
> Accumulates and leaps on shot, shell
> moulder cold and low."

No one of them speaks willingly of what it has been their duty to do, to forget, to pass the whole war moment into the background of the mind, intentionally to "disremember." Doctors and nurses encourage that. They thought only retards recovery. What they clearly like is the cheery greeting of the fragment of a "Hello, old dog" and the "How's the leg?" All of this is natural to the Tommy Scott of them are big babies yet—heroic babies.

One lost his leg at Moque Farm, in Belgium, a year ago. He spent the summer at the Thousand Islands and came back to the hospital on the embankment. Yesterday he met the other, a French-Canadian, delighted to find another who would stand up like in French, called a comrade "Comrade." Both have lost the leg, had lost a little more leg! Then will come the hard part. Those fellows seemed to love the open-air cure. The mocking spirit of France has not left this old of war. That is what is helping to break the Hun's spirit.

There are very few cases of arm amputations. Army surgeons make wounds seem more amenable to treatment to-day. One man from near Wiarton was in the ward. He pleased as Punch because he had not lost the left arm. Now he is sure of getting back into work when he is discharged. The numerous and marvelous optimism of the Canadian soldier.

But they observe things, too, these boys. "We don't get so many people notice us now as a few months ago," said one of them, half-regretfully. Are we, too, in loyal Toronto getting a bit war-weary and weary of war work? There used to be many more invitations for these boys to motor rides and to evenings at homes than now, it appears. They miss it, for they do not differ, these modern heroes, from those of an older but not happy time, which Kipling has told us of in "The Deserted Village," when at the minister's home, "the broken soldier, kindly bade to stay," sat by his fire and talked the night away;
Wept o'er his wounds, or, tales of sorrow done,
Shouldered his crutch and showed how fields were won."

This and much more of heroism, of true nobility, of patience, and of all that the constituents of the word means, these boys can tell, and much it does tell if one will but familiarize oneself with the Province. But it beckons to you most of all in Toronto at "Shrapnel Corners."

Canada's Fixed Determination.

We in Canada have been at war for over three years and we are weary. The strain has been great, the sacrifices have been terrible. We have had to bear the anguish of bereavement and the anguish of bereavement we have given in generous toil and effort. We need rest, and we want rest. But, if we are to be true to Canada, we will not take rest until the war is ended and victory is achieved.

Up to now we have done well. We have enlisted about 400,000 men, an equal is proportion to 5,000,000 in the United States. But we are falling in the proportion we should omit from the increase in population and the French-Canadian enlistments, it would be equal to 7,000,000 in the United States. Already we have raised about a billion of dollars, which is less than the proportionate wealth of the two nations, would be raised in some $15,000,000,000 from the United States. We have been paying a quadruple rate of munitions. We have kept up the production of our farms and our factories. We have done our duty. But the performance of our duty, it must be from now on be under government direction and government compulsion.

We have said again and again that we were in this war to the last man and the last dollar. We have said this clearly and flatly; we have not qualified it by saying to the last reluctant man, to the last willing dollar. There are timid men and timid dollars; if we are to use them we must take them; if we are invited to invite them and say that they will be welcome.—Atlantic Monthly.

HARRY GOODMAN

The Home Town.

Most people grow up with the home-town idea, and the old town—the town where they were young. Here, where the new every day and every hour, every new thing and every alley, every cracker barrel and every candy counter, schoolyard and every thing, at least for many a block around. It was not, of course, a feeling of which you were uncomfortably conscious. As likely as not you never knew that you had it until you came back after a summer in the country or a winter in a home from school for the holidays. It was then that the home-town feeling grew large within you—a fine, big feeling.

If it happened that you lived in a modern-sized town in those days, the light of the station was a deeply satisfying thing. It seemed as you rattled along in the little old hack, that the courthouse square and across the city street car line, that you had come back to yourself—a very comfortable, solid feeling indeed.

Perhaps you lived in or near a much smaller town, but you had the same home-town feeling you had as you climbed under the bed's canopy, and the rumble of the "buzz" carriage down the street. The general store, the white church, the brick house on the hill, the family lived, and the patched-up cabin where the old man your friend were so familiar to you that you were immediately conscious of every new sign in the store window and every new patch in the roof. And if, perhaps, you lived in a much larger town, the distant smoke, the imminent dinner, the crowds, and the rush of traffic were the things you were most aware of, and the things that satisfied the home-town feeling.

MUSIC AND DRAMA

YOUNG WIFE STEALS TO SAVE HUSBAND

A story of exceptional interest together with the usual excellence of Pauline Frederick's acting has made of "Double Crossed" a Paramount picture which will be screened at the Palace to-night till Saturday, matinee daily, a remarkable production.

The theme deals with Eleanor Stratton, a young society matron in love with her husband, who overhears a so called detective trying to blackmail him. Shameless in playing eavesdropper, Eleanor learns in the early life of her husband, whom she had been inclined to place upon a sort of pedestal, as an example of perfection, and committed a rather serious theft.

The "Detective" is attempting to get him to commit still another by threatening to expose the first. Touched by her husband's terrible fear lest she herself should learn of his early crime, Eleanor resolves to prevent his becoming a thief again by obtaining the paper the "Detective" wants for him, herself.

From this point the photoplay sweeps through a serious of unexpected and thrilling situations until the climax wherein Miss Frederick reaches her highest standards of acting, brings the story to an end and Eleanor and her husband are reunited.

The latest chapter of "The Great Secret" series, featuring Francis X. Bushman and Beverly Bayne will also be screened on the same program with a very amusing comedy.

ROBERT WARWICK AND RUTH ROLAND

"The Silent Master," a fascinating story of adventure and romance on two continents, ranging from the Paris underworld to fashionable society of New York will be the feature at Griffin's Grand till Saturday, with matinee Saturday.

It is the story of a man of wealth in Paris who, in league with the Apaches, holds a mysterious court of Si Simon, in which wrongdoers who cannot be reached by the ordinary processes of law are punished.

In this production Mr. Warwick has the support of an unusually distinguished cast.

The latest chapter of "The Neglected Wife" series, and "Secrets of a Beauty Parlor," an amusing 2-part Keystone comedy will also be exhibited.

There may be some cloud around Pete Herman's bantamweight title, but no one will deny he's in a class by himself when it comes to filing exemption for military duty.

AVIATORS TO VOTE

Arrangements are being made for taking the vote of the aviators in the Canadian camp in Texas. All of the Canadian aviators, mechanics and full staff numbering from four to five thousand men are now located in Texas. Permission will be asked from the American War Office at Washington to hold the election, but no trouble on that score is expected. Outside of the aviation camp, there are only a few Canadian soldiers in the United States. A special returning officer will be appointed for the purpose.

FUNERAL AT PLAINFIELD

Yesterday afternoon the funeral of Carman J. Gow, of Plainfield, the lad who on Monday last met an untimely death by being killed by a motor car, took place and was largely attended. The remains were taken from the uncle's residence to the Methodist church at Plainfield, and were followed by a large concourse of relatives and friends. When the services commenced the sacred edifice was filled to the doors. Rev. Mr. White, pastor of the circuit, conducted an impressive service and was assisted by the Rev. Mr. Kemp. The school children of the school where the lad was a pupil, attended in a body, and seven little girls acted as floral bearers. The floral tributes were numerous and very beautiful. At Plainfield cemetery the remains were laid away at rest. The bereaved have our sympathies of the deceased, namely, Sherman Parks, Clare White, Clifford Hudgins, Murray Hall, Robbie and Orval Rollins.

Easiest Way to Remove Ugly Hairy Growths

(Beauty Culture)

Here is a method for removing hair or fuzz that is unfailing and is quite inexpensive; Mix a thick paste with some powdered delatone and water and spread on hairy surface. After 2 or 3 minutes, rub it off, wash the skin and every trace of hair has vanished. No harm or inconvenience results from this treatment, but be careful to get genuine delatone.

CALLED BY DEATH.

MRS. JOHANNAH HANNERS

Mrs. Johannah Hanners died yesterday afternoon in this city. Deceased, who was about 30 years of age, was born at Coe Hill, where she resided until a year ago, when she came to Belleville to live. She was a daughter of the late Mr. Wm. Ferguson of Coe Hill. In religion deceased was a Methodist. Beside the husband two children survive. The remains will be taken to the northern part of the county for interment.

FELT LIKE A NEW PERSON

After Taking Only One Box Of "Fruit-a-tives"

Lac Saint Hannons, N. S.

"It is with great pleasure that I write to tell you of the wonderful benefit I have received from taking "Fruit-a-tives". For years, I was a dreadful sufferer from Constipation, Indigestion, and Liver trouble and was unable to rest very well. Nothing in the way of medicines seemed to help me. Then I finally tried "Fruit-a-tives" and the effect was splendid. After taking one box, I felt like a new person, to have relief from those sickening Headaches."

Miss MARTHA DEWOLFE.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

People Entitled To The Franchise

Provisions in the Act Respecting Male and Female Voters

In the instructions issued to enumerators the following facts are set forth as to those entitled to the franchise in the coming Dominion election:

QUALIFICATIONS FOR MALES

Residence one year in province and for thirty days in the constituency, immediately prior to Nov. 1st, 1917.

QUALIFICATIONS FOR FEMALES

(a) Same as male persons: That they shall be British subjects and not Indians, and 21 years of age.

(b) They shall be either wives, widows, mothers, sisters or daughters of persons, male or female, living or dead, who are serving or have served out of Canada in any of the military forces of Canada or of Great Britain or within or out of Canada in any of the naval forces of Canada or of Great Britain in the present war.

(c) No female relative of military or naval persons, who have been discharged for dishonorable conduct shall be placed upon the list.

(d) No female relative of persons who joined the naval forces of Canada since the passing of the War-Time Elections Act on the 20th September, 1917, shall be placed on the lists.

DISQUALIFIED PERSONS.

(a) Every naturalized British subject who was born in an enemy country and naturalized subsequent to the 31st March, 1902.

(b) Every naturalized British subject who was born in a European country (whether or not the sovereign or government thereof is in alliance with His Majesty in the present war) whose natural tongue otherwise described as "mother tongue," is the language of an enemy country, and who was naturalized subsequent to the 31st March, 1902.

(c) Any person who shall have applied for a certificate of exemption from combatant military service on conscientious grounds, whether or not a certificate of exemption shall have been granted, and unless and until it has been refused.

(d) Any person belonging to the Order of Mennonites or Doukhobors who have not volunteered for and have been placed on active service in the present war.

(e) Shall not apply to persons who are serving or who have served without Canada in the military or within or without Canada in the naval forces of Canada or of His Majesty, or of any of its allies in the present war.

(f) Shall not apply to those who produce a certificate signed by the commanding officer of the military district stating that the person is or has been a member of any such forces or is or has been engaged in active service within or without Canada during the present war.

(g) Or who is a person who has applied for exemption as a member of such forces so to serve, and has been rejected only because medically unfit, or is a grandparent, parent, son or brother of a person who is or has been engaged in active service, or is a person who has so applied, and been so rejected.

Exemption For Railway Men

TORONTO, Nov. 22—Mr. Farrel, Superintendent of the Grand Trunk Railway system, personally appeared before Tribunal 361 to press the claims for exemption for a number of his employees. He told the Tribunal that they were having great difficulty in securing brakemen, yardmen and men for clerical work and assured the members that the number of not any exemption for any man unless he had seen six months' service with the company. In a statement submitted by the G. T. R. asked for the complete exemption of 647 employes from the power department out of a total of 7,677 employes, of whom 322 are in the list class under the M.S.A.

"We are ready to suffer," pleaded Mr. Farrel, "and let any clerk go who is following routine, but the clerical end in the yard is different. Yard clerks are just as essential as brakemen, or other yard work."

"I might say", he added, "that at Minnico and Toronto 300 men have been hired in the last six months, and I don't think one in twenty stay with us as brakemen or firemen. We have to resort to hiring foreigners."

45 Laurierites In All Ontario

Is 37 Ridings Opponents of Union Government Favor Conscription—West Encouraging

OTTAWA, Nov. 22.—Scrutiny of the list of candidates nominated in Ontario gives rise to the belief that in only forty-five of the eighty-two constituencies are straight Laurier candidates in the field. In thirty-seven of these Sir Wilfrid Laurier has had to be satisfied with opposition to Union Government candidates by men not of his own way of thinking on the main issue of the present campaign.

Although only one Unionist was elected by acclamation in Ontario the nominees are much more favorable to Union Government and less favorable to the Laurier cause than this would indicate. In at least fifteen constituencies the second candidate is a supporter of union.

MILITARY NOTES.

Where soldiers who have served overseas have now been placed on the strength of depot battalions, they must strictly conform with the dress prescribed for such unit, and must not be permitted to wear the badges of the units with which they served overseas. All members of the depot battalions must be clothed alike, in accordance with the regulations in force.

Brig.-Gen. T. D. R. Hemming left on Tuesday for Brockville on inspection duty of the forestry battalion.

Capt. P. W. Geen has been struck off the strength of the C.E.F.

Major P. G. Ketcheson, 80th Battalion, has been transferred to the C. E. F. reserve.

CONTROLLING RIVER FRESHETS

A Subject of Vital Importance to Western Ontario.

Mr. Breithaupt, a well-known Canadian civil engineer, has given much time and thought to the problem of controlling destructive freshets on the Grand River and other streams that rise on the Western plateau of Ontario and empty into the perimeter lakes or rivers. He stated continuously from Kingston to Collingwood. The conclusions at which he has arrived, are the result of his personal observations and surveys, refer entirely to the Grand River, but, with necessary adaptations, his conclusions would apply to several other streams that rise on the same plateau and radiate to the lake. Lowering them in different directions: the Thames, Maitland, Saugeen, Sydenham, Beaver, Nottawasaga, and Credit. All of these cooperate in draining the water from the plateau with great rapidity, leaving it unsatisfactory and at times disastrously high, while the accumulated waters are destroying bridges, dams, and utilities by their rushing descent to the level of the lakes.

Speaking of the Grand River, Mr. Breithaupt said: "Relief could only be effected by retardation of the waters by checking them with small dams built at suitable points on the tributary streams. These would have an effect analogous to that of sponges and other debris that held back the water in the swamps when they were forested, and when beaver dams were numerous. The more of such artificial dams there are the greater the amount of retardation, and the less the sum total of effect on the channel. The effect in ameliorating the climate of the plateau by establishing much retarded water must be quite appreciable, and the larger the amount of it the greater the effect of the water on the air over the whole plateau. Before the advent of the settler the swamps, which are mostly filled with lakes, held much water like springs. Arterial drainage has satisfied many of them, and this is another reason for holding up artificially the equivalent of the water that has been artificially and prematurely carried away. According to Mr. Breithaupt nearly all the land already reclaimed from local works; it is worth considering whether on the whole problem is not of sufficient importance and difficulty to be taken up as a provincial enterprise.

Lower Canada.

As the train from Buffalo to Toronto was winding around the escarpment at Dundas, an enchanted American soldier gazed from the Pullman upon the beautiful scene far below.

"Gosh, it must be Lower Canada," he remarked.

Vacuum cleaners have been designed especially for cleansing school blackboards.

VOL. 88 BELLEVILLE, ONTARIO, THURSDAY., NOVEMBER 22, 1917. NO. 111

DISORDERLY MOB AT DOHERTY MEETING

MONTREAL, Nov. 22.—"Go ahead, Judge," were the encouraging words from a portion of the gathering in St. Ann's Hall when Hon. C. J. Doherty, Minister of Justice, was trying to deliver an address in support of the Government, while from the rear of the hall came disorder and disrespect for the minister. As an explanation of disapproval of the conscription act the noisy element finally gathered up several chairs and swung them around so threateningly that a number of peaceful citizens made a wild dash for the forward part of the hall and jumped over chairs in their flight. Policemen were present, but the disturbers paid little heed to them, rather showing a disposition to fight the police, if dealt with harshly. Some of the disturbers were thrown out of the window in the early part of the meeting, but they returned reinforced in numbers and throughout the time in which Mr. Doherty was endeavoring to make a speech there was almost a continuous ruction near the door. There were no arrests.

IN UNION THERE IS STRENGTH.

If I'm willing to shed my blood for you, you should shed your coat for me.

TO PLEDGE SUPPORT TO UNION GOVERNMENT

The women of Ward Four Liberal-Conservative Association held a meeting to organize for the coming election campaign. Mrs. R. H. Cameron presided, and all the ladies present were strongly in favor of conscription and a Union Government.

VOTE FOR SOLDIERS 19 YEARS OR OVER

LONDON, Nov. 21.—The House of Commons unanimously agreed to an amendment to the Electoral Reform Bill giving the vote to sailors and soldiers 19 years of age, instead of 21, as fixed by the bill.

A. G.'S DEPT. REORGANIZED

LONDON, Nov. 22.—In the reorganization of the Adjutant-General's Department, Colonel Morrison becomes deputy A. G.; Lt.-Col. Pope, Kingston, A. G.; one Lt.-Col. Camerun, Halifax, two; Major Cassels, Toronto, three.

The Distinguished Service Cross has been awarded to Flight Lieut. Stanley Wallace Boscrae, Naval air Service, of Port Arthur for destroying several enemy machines which were attacking in formation infantry at a low altitude.

CROCKERY BATTLE

Toronto, Nov. 22.—A small riot, in which plates and cups were used as weapons, was staged this morning in Child's Restaurant, when Constable Kerr, of No. 1 Division, attempted to eject an unwelcome guest at the request of the management. Immediately Kerr touched his man things started to happen, and before the end the restaurant crockery was badly damaged and the officer had fought a single-handed battle between about fifteen enraged patrons. Although the cause of the trouble managed to escape, Kerr succeeded in securing two other prisoners, who are now in Court street station charged with assaulting the police. He finally fought them into a corner of the restaurant, and with his baton held off the would-be rescuers until Acting Patrol-Sergt. Wilson and a couple of constables arrived to aid Kerr. The latter was somewhat damaged by the fray, and is suffering from a cut head and a black eye. The two prisoners are Goring Oliver, a returned soldier, now of Spadina Military Hospital, and Leo Sourii, of the Grand Opera Hotel. The police are also looking for two other men said to have been in the battle. As a number of returned men and soldiers were also of the raiding party, the military are co-operating with the police in an effort to round up the fighters.

HUN ORIENT POLICY IN DANGER

Copenhagen, Nov. 22.—An article by Captain von Salzmann, printed in the Berlin Vossiche Zeitung, calls attention to the great importance of the British successes in Palestine. The writer says the capture of Jerusalem would threaten Germany's entire policy in the Orient.

Other writers in German newspapers try to comfort the Turks with the hope of a satisfactory adjustment of the situation at the peace conference, though they say there is no indication that Germany and Austria, which are using Turkish troops, contemplate sacrificing any of their conquests to help Turkey regain her lost territories.

MESSAGE TO KING ALBERT

Washington, Nov. 22.—Renewed expressions of sympathy for Belgium's sufferings and assurances of the determination of the United States to prosecute the war against its oppressor to a successful conclusion were sent to King Albert by President Wilson in a message congratulating the King on his birthday. The message follows:

"I take pleasure in extending to your Majesty greetings of friendship and good will on this your birthday.

"For the people of the United States I take this occasion to renew expressions of deep sympathy for the sufferings which Belgium has endured under the wilful, cruel and barbaric force of a disappointed Prussian autocracy.

"The people of the United States were never more in earnest than in their determination to prosecute to a successful conclusion this war against that Power and to secure for the future, obedience to the laws of nations and respect for the rights of humanity."

INDIAN TRIBES IN B.C. OPPOSE CONSCRIPTION

VICTORIA, B.C., Nov. 22.—The committee of the Allied Indian Tribes of British Columbia have protested to Sir Robert Borden against Indians coming within the scope of the Military Service Act on account of the land question not being settled and citizenship withheld. The opinion is expressed in the communication forwarded to the Premier that any attempted enforcement of the Act against Indians would be forcibly resisted, and probably cause bloodshed.

SEIZING EX-CZAR'S MILLIONS IN N. Y.

Writ of Attachment Is Signed Against Nicholas Romanoff

NEW YORK, Nov. 22.—A writ of attachment on the personal property here of Nicholas Romanoff, former Emperor of Russia, was signed by State Supreme Court Justice Russell Benedict in a suit for $2,500,000 brought against Mr. Romanoff by the Marine Transportation Service Corporation for legal lawsuit of counsel. According to Bernhard Nussburg, attorney for the corporation, the former Czar of all the Russians has several millions dollars worth of property in this city, mostly in banks, which will be seized under the writ as soon as located.

The corporation alleges that it contracted with the Russian Government in 1915 to transport goods to Russia and in so doing incurred liabilities.

The Russian Government defaulted on the contract, the corporation alleges and in order to pay off these liabilities the corporation turned over to its creditors the $3,000,000 steamship Vigilancia, since sunk.

It was explained that the suit was brought against the Czar as constituting the then Russian Government.

GOOD SPORT—GOOD FARMER

Last week Almeric Gamsby, 80 years of age last April, a resident of Orono, returned from the north country with two deer. This was Mr. Gamsby's 52nd annual hunt. Since his first hunt, undertaken as a young man, he has not missed more than three seasons in the deer country. In one season his party brought back 20 fine bucks.

It is doubtful if anyone in all Ontario can surpass that record. But Mr. Gamsby is more than a hunter. In the past season he did a man's work almost every day on his farm, which adjoins the village in which he has his home.

BOMBS DROP ON TURKEY

LONDON, Nov. 22.—During a recent air raid over the Gallipoli peninsula and Constantinople by British aviators, the German cruiser Goeben, now the Turkish warship Sultan Selim, was hit and a large explosion caused, it was officially announced today. A vessel named the Stambul and reported to be the German headquarters at Constantinople was twice hit by bombs the latter dropped. Two hits also were obtained upon the Turkish War Office.

MONETTE GETS LIFE IN JAIL

One of Alleged Montreal Dynamiters Sentenced For Charge of Attempting to Murder

MONTREAL, Nov. 22.—Charles Edward Monette, one of the gang of alleged dynamiters now on trial here, was this morning sentenced to life imprisonment by Justice Pelletier on a charge of attempting to murder Conrad Therrien, a chauffeur, whose automobiles was stolen.

GREAT BRITAIN FROWNS ON SWISS PEACE MEET

LONDON, Nov. 22.—Great Britain has not only decided not to issue passports to any one desiring to attend the Lausanne peace conference in Switzerland, but, it was stated to-day, the Government will also consider the withdrawal of passports from any British subject resident in Switzerland who may attend the conference.

MILITARY NOTES.

Capt. H. E. Proctor has been taken on the strength of the Cobourg Military Hospital.

The Great War Veterans have signed a contract for the appearance of Mme. Nellie Gardini, Chicago, a grand opera singer, to appear here for patriotic purposes.

The medical examinations for this military district show about half of those examined to be less than class A. The total number examined up to the last report is 15,813, of which 7,344 are less than "A".

ARMY SURGEON'S FEAT.

Canadian army surgeons in England have performed an operation that puts any of "Ironsetter" Reese's accomplishments in the shade. Ernie Maddock, the well-known ball player, had his right arm shattered while serving with the Heavy Howitzer Brigade at the first battle of Lens. The arm was useless for a time, but the surgeons removed a bone from Maddock's left leg and grafted it in his right arm with which he throws. Nine months in hospital effected a complete cure and the ball player-soldier has recently played with a Canadian team which toured Ireland playing exhibition games in the interests of the British Red Cross. Maddock has gotten part in 33 games and shows no ill-effects of the wound or the operation.

In a recent game at Dublin Lord Decies, whose guests the teams were, presented each of the players with a silver trophy. The Canadians beat the Americans 10 to 6 in this game, which was attended by 15,000 people.

GAVE FOUR SONS A N TWO SONS-IN-LAW

SYDNEY, C.B., Nov. 22.—While here Sir Robert Borden called upon John McLean of the steel plant, whose family has a wonderful record of service and sacrifice for Canada and the Empire. Mr. McLean is a South African veteran, and with his four sons and two sons-in-law enlisted in the German army. He was steadfast at home. His four sons and two sons-in-law sleep their last sleep in Flanders with the other gallant Canadians who died that Canada might live. Sir Robert expressed to Mr. McLean the country's deep appreciation of the heroic self-sacrifice made by himself and his family. Another instance of the sterling patriotism of the Cape Breton people is seen in a message received by the Prime Minister from some of the women of North Cape Breton and Victoria who have lost sons in the war, asking him to assist them of the intolerable representation of D. D. McKenzie, who represented that constituency in the late Parliament and voted against the Compulsory Service Bill.

LICENSES APPLIED FOR OLEOMARGARINE

OTTAWA, Nov. 22.—Additional regulations to govern the manufacture of oleomargarine in Canada and importation have been issued by the Food Controller. Many applications for licenses have been received and the latter will be issued from the office of the Veterinary Director-General, Department of Agriculture, Ottawa, so as to be effective on and after December 10. Persons who desire licenses and who have not already applied should make application at once to the Veterinary Director-General's office.

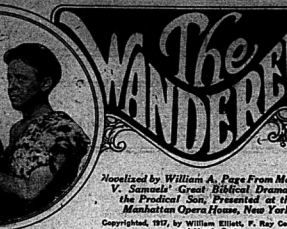
ONE GIGANTIC CHRISTMAS MEAL

LONDON, Nov. 22.—One Canadian battalion in France at least is resolved to have a good Christmas dinner. Lieut-General Howard has been instructed to ascertain their requirements, and has received an order for 900 pounds of turkey, goose or chicken, turkey preferred, 115 pounds of cranberries, four barrels of apples, 225 pounds of candies, 225 plum puddings and 115 pounds of carrots. It is understood the City of Halifax will foot the bill.

SELL TEA AT COST IS PLAN IN BRITAIN

Edinburgh, Nov. 22.—Baron Rhondda, the Food Controller, in an address here, said that although the country imposed over the small number of ships sunk by German submarines last week, the seriousness of the food situation had not diminished. The speaker said he intended buying all stocks of tea in Ceylon and India, and selling them here at cost price. He added that he was also going to provide cheaper milk for expectant and nursing mothers, and for children at the cost of the state.



Tishbi shook her roughly by the arm.

"The man is a great sea captain with much wealth. Couldst thou but win his favor, thy fortune is assured. Pay no more attention to the young fool now, while, then mightest even have the merchant prince for thine own. Willst not bring him?"

CHAPTER IX.

Phaeris, Sea Captain.

At, turned and gazed in awe and surprise at the giant figure which now emerged from the shadows. Tall, broad-shouldered, he stood and a half in height, with a great mustard beard, which made him look taller than he was. Clothed in rich and flowing garments, Phaeris, the great sea captain, with bushy beard and long hair, with his blackened hair, made an imposing and barbaric figure as he stood at the divan where Tisha had been reclining when a sassy boy saw the giant upon her. Then, as she poured him a goblet of wine and tauntingly leaned forward to hand it to him, the great Phaeris emitted a guttural remark which might almost have been the roar of a bull.

"Thee, girl," he spoke, a deep breath showing the emotion he felt at seeing this beautiful creature before him—Tisha, girl, thou art fair. Dost know who I am?"

Tisha daunted herself before him, smiling first around at the other women and admire the beauty of her back. Then, with a little gurgling laugh, she motioned him to sit upon the divan, while she climbed upon one knee and stroked the great hairy head. Whereat Phaeris laughed, a hearty, reverberating laugh, which made Jether involuntarily turn and say the same to the servant maid.

"Tisha," he cried, drawing his friend to him anxiously, "who is that man who speaks with Tisha?"

"Phaeris, Jether," said he, who sails by night, that none may trace his course," explained Tola. "He goes on distant voyages to some land unmarked upon his chart alone, and then brings back cargoes of tin, worth more than its weight in gold for use they make of it. For his secrets I know many merchants who would pay the ransom of a king could Tisha tempt it from him in his glee."

Jether turned upon his friend angrily. "Say not thou that—yet art thou a friend of mine?" he demanded.

"So good a friend I'll lose a bag of shekels for thee," answered Tola. "And tell Tisha nothing."

Jether heard the rippling laugh of the temptress as she played with the beard of the sea captain. He strode to her angrily, grasped her by the arm and led her standing before her avowed from the captain's knee. The girl faced him angrily, and the giant of a man stepped forward as if to smite him with one blow, had not Nadina interfered as called Jether back.

"Then shalt not stay here," declared Jether. "Thou will come with me, Tisha."

The girl twisted herself from his embrace.

"Where is the necklace thou didst promise her?"

"My friends have borrowed what I had with me, but thy mother knows where one is in my chambers. Get her her luck and key. Come with me, and I will get the gold for the necklace."

"Nay, I shall not leave Phaeris," she cried, a knowing smile at Phaeris.

"Then shalt not stay here," commanded Jether.

"And I bid thee dost not good thy pleasure," retorted, turning to the sea captain. Jether looked at Tola and said to him quietly: "Thou art my friend, Tola. If this man seek to speak with Tisha in my absence thou will guard her well."

Tola smiled sardonically.

"I will guard her as tenderly as if she were mine own—again," he added softly. But the boy heard the last word. "Again!" he cried. "Then thou wert her lover after all!"

But Tisha quickly sprang between them ere Jether could strike him.

"How quarrel with thy friend," she said, patting them, "for I am glad to see thou mayest save thy money."

"Then shalt have the necklace," cried Jether, plunging quickly into the mansion and going to his room for his trifling chest. The boy returned quickly to Tisha:

"Thou art cruel toward thee. He is worth a hundred Jethers could'st thou but win his favor," he added and glided away as he saw the sea captain come to her.

Phaeris grasped her with his mighty hands. He turned her around and round. He rubbed the great thick fingers through her hair, and Tisha laughed, for she knew that he was in the toils of the siren and that she could make this mighty giant do her bidding. Suddenly he spoke gruffly:

"Desire for a girl."

The harpists played, the girl danced. Slowly she swung, writhing, like a snake. Like a cobra charming the victim, Tisha danced for the sea captain, swaying in rhythm with the music. Another sat, his dashed wife's breast while swaying

skirt, still finally Phaeris, with a great cry of joy, seized her and lifted her bodily from her feet so that he might kiss her face. Tisha screamed and laughed when the great bushy whiskers tickled her fair face.

"Dost know who I am?" demanded Phaeris. The girl wriggled from his embrace and faced him with an artful upward glance as she nestled snugly against his giant frame.

"Aye," she mocked him. "Thou art Phaeris, who if he would could bring me on his next voyage a little creature with hands that are like feet and with a face like an ape and man's fur on my shoulder and do each thing that I do and make me laugh. I have heard of such animals. Monkeys they are called. Hast thou perchance seen such?"

The giant laughed, a veritable roar.

"Thousands of them," he cried, "swinging on trees taller than masts of vessels. Thou shalt have one, in truth. Its ugly face peeping over thy shoulder will make thee seem even fairer than thou art."

He paused a moment, once more look ed her over critically from head to foot, and added:

"Or, better still, girl, wouldst go with Pharis on a voyage?"

"Where?" asked Tisha in surprise.

"I have long wanted to seek a distant land, where there are men with bodies like a horse, who roam in forests, and in the sea nearby are maidens who dress fair, with tails like fishes."

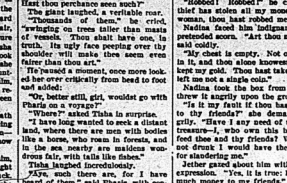
Tisha laughed incredulously.

"Aye, such there are, for I have heard of them," said Pharis, with confidence. "Thou shalt go with me?"

"But shall I know that thou lovest me?"

"Let no man touch thy hand. When it doth please me, thou shalt know my thought."

Pharis passed on for a moment to speak with a beautiful blond girl, who



had been making vain efforts to attract his attention. He sat with her upon a divan, while the angry Tisha fumed and raged at the attentions bestowed upon them. Suddenly, with uncontrollable rage, Tisha snatched up the blond girl, pulled her by the hair so that the girl gave a shriek of pain, and demanded of the giant:

"What means not, thou?"

The girl who had been so roughly assaulted turned to Pharis for protection. "I wished thou not see me to go on a voyage?" demanded Tisha. "Then what of her?"

The giant sea captain looked from the blond girl to the brunette. Then he half smiled:

"Girls, please me," he said gruffly, with a sardonic grin. "I think I shall have both back, for one may die."

Suddenly the merrymakers ceased their laughter. A shrill cry from within the house of Nadina made them pause. Jether rushed madly among them, carrying an empty taskwood box, which had been broken open.

"Robbed! Robbed!" he cried. "A thief has stolen all my money. Then woman, thou hast robbed me."

Nadina faced him indignantly, with upraised arms. "Art thou mad? she said coldly.

"My chest is empty. Not one shekel in it, and thou alone knowest where I kept my gold. Thou hast taken all and left me not a single coin."

Nadina took the box from him and threw it angrily upon the ground.

"Is it my fault if thou hast lent all to thy friends?" she demanded angrily. "I have kept my word of honor. I treasure—I, who own this house and all that it and thy friends? Were I not drunk I would have thee flogged for slandering me."

Jether paced about him with a dazed expression. "Yes, it is true: I did lend them all—all but one. And he stammered. "I had forgot the money I did lend them, but still there was plenty left in the chest, and this stolen."

Nadina struck with a sudden thought, with eyes flashing fire, seized his arm and spoke to him aside.

"Hast thou no money elsewhere?" she whispered.

Jether shook his head. "None."

"But thou hast a father who is rich in lands. Send to him for more."

"I have already had my portion," admitted Jether sadly. "He will give me naught."

Nadina shook him angrily and turned aside contemptuously.

"What thou hast loaned is lost," she cried. "But if all thy money is gone bow will thou pay me all that thou owest me?"

Jether proudly raised his head. "Thou dost wrong my friends," he said calmly. "They are men of honor. They will repay me."

He started toward the group of friends. Nadina again bade him pause.

"Wilt," she whispered. "There is a way by which thou mayest once more have gold in plenty." Jether looked at her anxiously, not comprehending, and she continued: "Put, the wealthy son of Atossim, doth ever gamble with the dice and for large stakes. Thou hast thine shekels. With the dice that I shall give thee thou will never lose. But use thy skill carefully so that no one else standa close to thee."

From her dress she took two dice and sought to have him take them.

"Never lose?" repeated Jether, incredulous. Then as he understood that the dice must be loaded with some heavy substance to make a certain side always show on top he cried indignantly: "Thou meanest to play with false dice? Woman, I have full well I am a fool, but a cheat I am not. Take thy false dice with thee."

He turned away; put the dice back in the pocket of her dress, but there was an evil light in her eyes as she saw the young lad go to his friends, and she murmured under her breath, "Fool, well, Master Jether, but thou shalt not cheat me either."

Jether linked his arm in that of Tola. "Tola," he hailed them on entering, "Tola, he said easily and confidently. "How I need shekels. Or canst thou repay a thousand? 'Tis but a small part of that which I have loaned thee."

Tola threw back his head and laughed uproariously. Madia and Merbel, noticing the laughter, approached to learn the cause of Tola's hilarity.

"Art thou indeed mad," cried Tola, almost in convulsions with laughter, "or is it the wine that speaks through thy lips and bids something come out of nothing?"

Jether looked at Tola in amazement, dimly comprehending. Tola turned away with a laugh as Jether took his arm and spoke to Madia.

"And thou, Madia, thou will repay a small part of the loan I have made thee?"

Madia bowed to mock gravity as he replied, "Are, truly, that I shall with great joy if thou will lend it to me."

"But art like the other," muttered Jether bitterly. "Art a friend of having been swindled by these false dice. I shall be forced upon him. He had still one hope, however—Merbel had seemed like a true friend, as he had never borrowed. He turned to Merbel, smiling.

"But thou, Merbel, thou art a true friend surely. Never once hast thou ever asked me for a shekel. Now that I am in need?"

Merbel, with a look of unutterable disappointment, waved him aside in dismay.

"If I have not borrowed, Jether, am I not punished for my delay? I meant to borrow this very day, and now thou hast brought it to me. Tola, Tola, what hast thou done to me? Thou didst say this man was made of gold, and like a fool, I waited my turn when there's no turn at all for me. A cup of water, cup of wine is better days when friends speak truth to friends!"

As the disconsolate Jether turned sadly away from the group of parasites who had feasted and wined at his expense Tola drew him aside confidentially.

"Hast thou in truth already spent thine all?" he asked.

"I have now only that which is due me from you and others."

"Then thou dost know how true a friend I am to thee. I give"—

"Ah, what?"

"What thou shalt not repay—advice. Get ye away from here as fast as legs will carry thee before Nadina learns that you have not yet paid her and has the police arrest you for getting your good friend Tola into trouble. Remember thou dost care to use the dice Nadina has for those of her friends who use them well. She told me that she had spurned the chance she gave thee to gamble with. Put aside my advice—for thee or else play with the dice Nadina's house."

And Jether, sore in spirit and troubled in mind, involuntarily cast his eyes above toward that God he had spurned and forgotten, and as he turned away from his foe, "Oh, why did I leave my father's house?"

Prize Dice.

PHARIS, the sea captain, reclining upon cushions, with Tisha on one side and Phaeris, the blond hourt who had fascinated him, on the other, summoned Sabek, the jeweler. Pharis began with a liberal hand, decking each of the girls with bracelets and anklets of gold and large gold rings. Then he slaves with the treasure chest paid out many golden shekels to the overjoyed Sadyk.

"Let this girl have whatever pleases her," commanded Pharis, and Sadyk held on the glittering golden necklaces, which he had selected and designed to fasten

GAVE HER DELICATE CHILD VINOL

It Built Him Up and Made Him Strong

Newaygo, Mich.—"My little boy was in a delicate, weak, emaciated condition and had a cough so we had to keep him out of school for a year. Nothing seemed to help him until Vinol was recommended, and the change it made in him was remarkable. It has built him up and made him strong, so his cough is almost entirely gone. We can not recommend Vinol too highly."—Mrs. E. H. Hanlon.

The Union Platform

A real Union meeting took place in Durham County, when Mr. Rowell was nominated as the Government candidate. He was proposed by R. R. Mulholland, who was to have been the Conservative candidate, seconded by J. H. Plummer, president of the County Reform Association, and enthusiastically supported in a stirring speech by J. H. Bartram, who was to have been the Liberal standard-bearer, and there was a party split. The chairman of the meeting, Franklin Allin, was formerly president of the West Durham Reform Association, and the secretary, Mr. Chisholm, was a Conservative. There was very little opposition to the nomination. A few objections were raised, but Mr. Rowell carried the meeting with him.

Mr. Rowell summarized his position thus:—

"It may of you want to know why I am now on a Union Government platform, the reason is this: I have seen with my own eyes the ruin of Belgium and northern France. I have seen the cities laid waste. I have heard of the atrocities of the Huns from the lips of those who have witnessed the barbarities practised in Belgium and France. I have seen the cheerful courage of our soldiers, who have faced death in order to roll back the tide of Prussian militarism; and, having seen all these things, and knowing what it would mean to Canada, to the men and women of Canada, and the boys and girls of Canada, if Prussian militarism were to win this war, I would not be true to my convictions when the call came to me to serve the country if, forgetting all else, I did not respond to it and help to send reinforcements to our gallant men at the front." (Cheers.)

Mr. Rowell, like the majority of the foremost Liberals of Canada, feels that the Laurier platform means cessation of Canadian war effort. That is his argument for deciding to co-operate with the Conservatives. A correspondent says that the Journal-Press should not refer to the Lauriertes as a quit-the-war party. But it is exactly and only because that is what the Laurier side implies that a majority of the leading Liberals of the Dominion have joined to form a new fighting party for the balance of the war.

FOUND NO SYMPATHY FOR KERENSKY

Educated People are Infuriated at Premier's Laxity in Permitting Agitation—Real Longing For Law and Order—Cossack Movement Guarantees Complete Order

Nowhere throughout a journey from the Caucasus to Petrograd did a correspondent of the Daily Telegraph hear a word of sympathy for Premier Kerensky. The elated passengers he met, he says, in a despatch sent from Petrograd on Monday, were infuriated at Kerensky's laxity in permitting the Bolsheviki agitation, and soldiers were indignant that the Premier was unable to maintain authority and order. Railway men, the correspondent adds, said that Kerensky, and Lenine and Trotsky, the Bolsheviki leaders, all ought to be thrown into the Neva.

For the Provisional Government nowhere was there a spark of enthusiasm, he adds, as it was felt to have deserved its fate. Everywhere, however, the correspondent found a longing for real order and real authority and for somebody who would save Russia from trouble.

Garrison in a Ferment

Throughout the ten Kuban territories order was undisturbed and on arriving at Rostov-on-the-Don on November 9, the correspondent found the garrison and workers in a ferment. They had passed a resolution in favor of the Bolsheviki, but in the neighboring town of Novo Tcherkask, the capital of the Don territory, the Cossack government under General Kaledines had declared for the Provisional Government, assumed full power in its own territories and had established conduct with Cossack governments in the neighboring territories.

A few days before the Don Cossacks rose, backed by the Cossacks in the Provinces of Kuban and Astrakhan, the Kalmuks of the Steppes and the mountain tribes of Daghestan and the Black Sea coast had formed a league of autonomous states with a common Federal Government over the whole territory north of the Caucasus between the Caspian and Black Seas. Existence of this league, the correspondent says, guarantees complete order in that territory which includes the richest granary in Russia.

The Cossack Congress which happened to be sitting at Kiev, took command of the situation there and immediately arrested the Ukrainen Council and suppressed the Bolshevikl.

Indignant at Bolsheviki

From Rostov onward, order prevailed at all stations and fewer soldiers than usual besieged the train. The more intelligent soldiers with whom the correspondent talked were indignant at the Bolsheviki, while the Socialists declared they were for General Korniloff.

The train was stopped on the outskirts of Moscow. "We heard the sound of guns," the Telegraph's correspondent says, "and were told by officers that the training school was being bombarded. Women told terrible stories of fighting and bloodshed throughout Saturday and Sunday. They declared that entire broad lines were mown down by machine guns.

"At the station I could only gather vague rumors of continuous fighting, of houses destroyed by artillery, and of thousands killed and wounded. At the train let the station the sound of a volley came from somewhere near the central post-office. The only passenger who boarded the train at Moscow was a soldier, whose information was confused and fragmentary. He said that the foreigners were helping the Government troops."

Arriving in Petrograd the correspondent found the residents guarding the doors and gateways to their dwellings. He concluded: "I then plunged into a flood of rumors party wrangling and furious recrimination. Outside Petrograd it is more easy to believe in Russia. Here the atmosphere of catastrophe is stifling."

AMERICAN SOLDIER SHOT FOR MURDER

WASHINGTON, Nov. 22—An American soldier of Gen. Pershing's forces, found guilty by court martial of a serious offence and murder of a French woman, has been executed by a firing squad.

All details of this, the first death penalty imposed since the troops landed in Europe, are being withheld by the War Department.

Women, the War and the Election

By a Woman.

Canada's Appeal:

Vote for Union Government and the Selective Draft. The voice of women enfranchised to represent men at the front may decide this election. You must show that Canada is overwhelmingly in favor of Winning the War. Do not stay at home and refrain from voting because you feel sure that Union Government will win. A great majority will mean a united Canada. Do not be persuaded that any candidates, except those endorsed by the Union Government, can help, or will help, to win the war. Union Government is pledged to carry out the Selective Draft without delay. The Opposition—in any constituency where there is an Opposition candidate—is pledged to grant delay. Vote for Union Government and the Selective Draft.

The Reply of the Women:

"We are coming, Mother Canada, a million women strong, to ensure our armies the most speedy possible Victory, and for ourselves the sparing of the lives of countless men."

To shorten this War for Righteous Peace by a single day means the saving of the most precious life in the world for thousands of women, and the prevention of misery which need not be added to an already incredible total.

Vote for Union Government and the Selective Draft.

VOTES FOR ALL WOMEN IF UNION GOVT. IS RETURNED

Franchise Act Explained as It Applies to Women in the Coming Election—Those Who Can Vote—How to Get Your Name On The Lists

The Union Government for the Dominion Parliament is now well established fact, and a general election will be held on December 17th, which will decide whether the general public is going to let it stand. The Government of Canada at this critical juncture. It is earnestly to be hoped that patriotic people, first and foremost, alike, will see their way to sink all party prejudices and will work and vote to return this non-partisan Government to power. It seems a fitting commemoration of the jubilee of Confederation on which occasion men rose to the call of country before party, that this year once again "principle before party" should be the issue.

This election is going to be fought on a new franchise, with a few minor exceptions, the basis of the voters' lists will be the old provincial lists in use in the provinces before provincial woman's suffrage was granted, with the addition of certain women's names and the cutting out of those of certain men.

The following women are enfranchised under the Act:—Every female in any province or in the Yukon Territory, who, (being a British subject and qualified as to age, rate, and residence as required in case of a male person in such Province or the Yukon Territory, as the case may be) is the wife, widow, mother, sister, or daughter of any person, male or female, living or dead, who is serving or has served overseas in any of the military services, or within or without Canada in any of the naval forces of Canada or Great Britain in the present war—except that if a man has joined the navy since September 20th, 1917, his womenfolk will not be able to vote unless he has gone overseas."

EXTEND FRANCHISE TO ALL.

This is a radical change, and one which only holds for the duration of the war and until the Canadian forces are demobilized. The Union Government has, however, included in its election manifesto a promise that, if it be returned to power, it will extend the Federal franchise to women on the same terms as to men, and will also change the Naturalization law so that a woman may decide what nationality she desires to be, independent of her husband or father. But, besides enfranchising certain women, the Dominion Elections Act of 1917 has disfranchised the following men: (1) Doukhobors and Mennonites; (2) Men of alien enemy birth who have been naturalized since 1902; (3) Men of alien birth who have been naturalized since 1903, but who were born in neutral countries, if their 'mother tongue' were that of an enemy country—i.e., if it was from those parts of Switzerland where German is spoken; (4) Men who claim exemption from military service on "conscientious grounds."

But if any man who would otherwise come under one of the above categories, but who is also the grandparent, parent, son, or brother of someone who has served, or has tried to serve, or has been rejected for physical reasons, in Canada or overseas in the present war, may retain his vote. So also may a man who has been a member of a Provincial or Dominion House of Commons during the present war, or if he be a Christian Armenia or Syrian. Similarly a woman alien born, but naturalized since 1902, may vote if she is an immediate relative of a soldier or sailor.

TO GET ON THE LISTS.

The procedure for compiling the lists is bew and differs according as a polling division is wholly within a city or within county and district towns whether in provinces or the Yukon than 9,000. In either case the Governor-in-Council (i.e., in practice the Government of the day) appoints the enumerators and the returning officer, and the latter allocates one enumerator to each polling sub-division. He or she (for both men and women have been appointed enumerators) has at once proceeded to make the voters' list for the sub-division by taking the last provincial voters' lists before Provincial Woman's Franchise was in force, and adding to it the names of the enfranchised women, and taking from it those of the disfranchised men. This work must be finished fifteen days before the election, and the lists hung up in two conspicuous places in the sub-division to which they refer. The enumerators must publish in the local press where the lists are to be found.

In the larger places (i.e., of more than 9,000 population) the enumerators must also send a copy of this list to the Voters' Registration Board, and here the duties end. Except in so far as granting voting certificates to aliens naturalized since 1902, who served in Canada before their birthplace became a part of Germany or Austria (as, for instance, natives of Alsace-Lorraine who came to Canada while it still belonged to France). With this exception the duties of the enumerators cease when the lists have been posted and the Voters' Registration Board becomes the Board of Appeal. Appeals must be made within four days of the posting of the lists, and the Boards will sit from the tenth to the fourth day before the election, when they will deliver their amended lists to the returning officer, and this list shall be final.

APPEAL ON ELECTION DAY.

In the smaller places the enumerators continue office right up to the end of the election, as there are very serious and far-reaching duties to perform. In posting up their lists fifteen days before election they must also post up a notice stating when and where they will hear appeals from women and aliens only. They must be available for two hours daily for the next succeeding ten days, after which they must deliver their amended lists to the candidates and the deputy returning officer of their sub-division. On the election day itself, they must be available all day, to hear further such appeals. If they are satisfied that the appeal is bonafide they may give the would-be elector a certificate which will entitle him or her to vote —the ordinary elector. If they are not entitle the would-be elector to vote, but voter another certificate which shall entitle the would-be elector to vote, but his vote will be kept in a separate and sealed envelope, on the outside of which all particulars will be written, and his vote will not be counted until a recount be called for and the judge decides from the outside of the envelope that it should be opened and the vote counted.

In the same way—at the smaller places only—a candidate or his agent may challenge the vote of a woman or an alien at the moment of polling, and such vote shall be polled, but placed in an envelope and dealt counted except on a recount, etc., as before.

Any British subject may be a candidate for a seat in the House of Commons, and no qualification in real estate shall be required of any candidate, who must be nominated in writing by 20 electors, and a sum of $200 must be deposited, which will be forfeited to the Crown if the candidate polls less than one-half the number of votes which were polled by the successful candidate.

NOT DISFRANCHISED UNLESS CONVICTED

OTTAWA, Nov. 22.—The position has been taken by some Returning Officers, and in a number...of cases communicated by them to...that men in Class One who have not claimed exemption...reported for service are disqualified from voting, and that their names should be struck from the electoral lists. It is understood also that in several instances the position has been taken that even a man who has applied for exemption from military service is disfranchised.

"This contention," W. F. O'Connor, General Returning Officer, declared to-day, "is thoroughly unjustifiable. There is not a line or a word in the Dominion Elections Act, the War Time Election Act, the Military Voters Act, or the Military Service Act which in any way justifies such a conclusion. There is a provision in the War Time Elections Act, now incorporated in the Dominion Election Act, that a person who has been convicted of any offence against the Military Service Act becomes disqualified from voting. But to be convicted a man must be charged and tried in a court. Unless there is a conviction there is no disfranchisement."

Corns in 1860

Were Attacked—As Many Corns Are Yet

The old-time way of ending corns was by harsh attack. And those methods still exist.

The new way—the scientific way—is very gentle, yet absolutely sure. It was invented in the well-known laboratory, and is known as Blue-Jay.

It ends the pain—and at once —by relieving pressure. It ends the corn by gently acting on the corn alone.

It isn't mussy. It wraps the corn with adhesive tape. One application.

Millions of people, by its use, keep free from corns.

See how it acts tonight.

C is rubber adhesive which sticks without wetting. It wraps around the toe without a wrinkle. Thus it holds the parts in place.

Blue-Jay is applied in a jiffy. After the corn is gone, the rubber adhesive strip is gentle, and applied to the toe, holds the corn dampers without pressure.

Why Shoes Cost So Much More

Profits are Smaller, While Materials and Labor Have Gone Up

Men engaged in the shoe trade feel that they have been subjected to unfair criticism because of the increase in the retail price of their goods. They are quite certain that the buying public would take a different attitude toward them if they understood all the conditions which enter into the question. The following statement is submitted by a concern that is not only one of the greatest manufacturers of shoes, but also one of the largest retail dealers in the United States:

"There has been much talk of exorbitant prices exacted by shoe retailers, arbitrary raising of prices, excessive profits, etc. This warrants attention because the shoe manufacturing industry is one of the great industries of the world, and American shoe manufacturers occupy the commanding position at the top in this world-industry. A survey of this industry ought to lead people to see clearly. Such a canvass shows convincingly that the shoe retailer is not responsible for the great increase in prices. The following illustrates quite as clearly that the shoe manufacturer is not a robber, shark or pirate.

"It was in 1915 that the prices of shoes began to soar. Look at the following table and ponder. It gives the costs to the shoe manufacturers in cents per foot of upper leather:

	P.C. of 1913	Nov. 1st	
Black calfskin	.30	.69	100
Black side leather	.27	.43	59.3
Black vici	.33	.55	120
Colored vici	.33	.70	112
Russia calfskin	.32	.65	103
Russia side leather	.29	.52	79.6
Patent	.30	.60	100
Total	2.05	4.05	97.6

"This means that the average cost of upper leather, a very important factor in shoe production, has increased 97.6 per cent. Sole leather has risen from 42 cents per pound in 1915 to, at this writing, 85 cents per pound —an increase of 102 per cent.

"In 1915 the findings bought by one of the country's biggest shoe manufacturers cost 18½ cents for the average pair of shoes. The identical findings today cost 23½ cents, an increase of 27 per cent.

Bottom stock is 35 per cent. higher, labor 20 per cent. up, overhead 36.7 per cent. more. Summarized, the cost of production in the average pair of shoes has increased 26.7 per cent. The retail price is only 31 per cent. high-er.

"In other words, the shoe manufacturer has taken a shorter profit than he enjoyed before manufacturers' costs began to soar, and retail prices have not increased to correspond with these higher manufacturing costs."

Italians Hold Invaders Back

Desperately Resist the Teuton Troops Along the Entire Front

NEW YORK, Nov. 22.—In the House of Commons Richard Cudmore asked, regarding the activities of Lord Northcliffe in Canada, which had led Henri Bourassa to describe him as a brigand, whether the Prime Minister would state on what grounds the practice of non-interference in affairs of a self-governing Dominion has been departed from.

Donald MacMaster, before the question was answered: "May I ask whether there is the slightest basis for the suggestion that Lord Northcliffe interfered in any way with the fullest right and privilege of Canada, and, further, whether this House proposes to assume responsibility for the epithets used in the Canadian election."

Bonar Law, replying, said: "I do not know what the member means by intervention. Lord Northcliffe visited Canada on the express invitation of the Canadian Premier. I know the visit was most useful and appreciated by the Dominion Government."

Prices Of Hogs Remain Steady

Cattle Market Dragging—Demand for Sheep and Lambs Active at Prevailing Quotations

Union Stock Yard, Toronto, Nov. 21 —prices for all classes of live stock held firm on Tuesday's market, though the run was light and business a trifle dragging. Less than 800 hogs arrived for sale, and all these quite a few were old sows and other undesirables. The price for the best ones, however, stayed at $18.00, with sellers asking for a size. The trade in sheep and lambs, which has been extraordinarily active during the past month, especially for females, continued to-day, but is expected to fall off with the close of the breeding season. Business in the distribution of breeding lambs among the farms still continues, but very few suited to the purpose were forthcoming to-day.

Butcher cattle were decidedly off in quality, and the same criticism applies to all the classes of killers. One man on the locktst for a typical steer for demonstration purposes was unable to find a satisfactory animal in the whole of the yards. The best line just now is feeders which are piled high as regards supply and demand. The demand for stockers is, however, about over.

The receipts yesterday were 33 cars, with 316 cattle, 33 calves, 773 hogs and 1,001 sheep and lambs.

VOL. 63 BELLEVILLE, ONTARIO, FRIDAY, NOVEMBER 23, 1917. NO. 112

PREMIER BORDEN SELECTS MR. PORTER AS UNION GOV'T. CANDIDATE

UNION WIPES OUT PATRONAGE

Two outstanding national reforms are already in sight as a result of Union Government.

The first is Civil Service Reform.

The second is abolition of patronage in the purchase of Government supplies.

Civil Service reform, which is the first plank in the new Government's platform, is a policy which, translated into effect, will do more than any one single measure to revolutionize political life in Canada for the better. Patronage performed, in appointments to office has been a curse to Canadian public life. It has made our politics low-and petty and sordid, has given politics a wrong meaning in the minds of the people, and has made the very word "politician" a term of reproach, thus endangering the integrity and stability of our government.

Civil Service reform, reform that will eliminate "pull" and party favoritism in the appointments necessary for the requirement of jobs in the public service, and substitute in their stead merit, integrity and ability, will purify public life as nothing else can, will fasten upon the popular consciousness a truer and more healthy meaning of government, and will make for greater honesty and efficiency in national service.

Hardly less beneficial to the nation should be the decision already arrived at, to eliminate all patronage lists from the various departments of the Government. Patronage lists, that is to say lists of partizans of the Government in power, kept in all Government Departments for preference in the letting of contracts and the purchase of supplies, have existed in Canada since Confederation. Sanctioned by Canadian leaders from Sir John Macdonald to Sir Wilfrid Laurier, and entrenched by custom, the practice had eaten its way into the very heart of our political system, with most disastrous results for the honesty and efficiency of the public service. All the great and petty scandals that have degraded Canadian politics have had their source in patronage. And mainly because of the old, unreasoning partizanship, the partizanship whose creed was that to the victors belonged the spoils, no Government-ever dared to relinquish such a powerful weapon as the patronage list in retaining office and power.

With the two parties united and partizanship dethroned, the new Government will be in a position to bring about the reform that in a party system practically made impossible. No longer will Government contracts be the sole preserves of party vampires and bosses, nor purchase of public supplies the medium through which men who feed at the party trough shall fatten at the nation's expense. For the elimination of patronage lists means that in the future the country's business will be transacted in a business-like way, that waste will extravagance and rake-offs have come to an end, that greater honesty and efficiency must prevail.

Let the country be thankful that UNION has brought about such a wholesome change. Let it be thankful that the curse of patronage that has besmirched public life and trailed politics in the mire, is at last to be consigned to the scrap-heap of political infamies. If UNION achieved nothing else, it has justified itself by this alone.

Second Class Not Needed Yet

False Rumor Circulated That 2nd Class Would be Called Out in February

OTTAWA, Nov. 23.—Reports that the second class of men under the Military Service Act are to be called out in February are officially declared here to be absolutely without foundation.

E. L. Newcombe, chairman of the Military Service Council, was shown the statement alleged to have been made by Judge Winchester, of Toronto, to, as to such rumors being current. "The calling out of the second class," Mr. Newcombe said, "has not been discussed, and there is nothing in the present situation to make it necessary to consider the question."

The second class comprises those who have attained the age of twenty years and were born no earlier than 1896 and are married, or are widowers who have a child or children."

No Call Coming To Married Men

Sir Robert Borden Comments Upon the Intimation of Judge Winchester

TORONTO, Nov. 23.—The first statement Sir Robert Borden on his arrival in Toronto was one making it clear that there would be no call of the married men—Class 2—to the overseas army in February, as intimated by Judge Winchester at a Tribunal session held on Tuesday.

"It is anticipated that all requirements can be met out of the class already called up," declared the Premier. "I observed this statement with surprise. There is no authority whatever for any such statement, and there is no necessity, so far as I am aware, for any such course being taken. Up to the present time no such course has been considered either by the Minister of Militia or the Government as a whole."

Some of the Benefits Mr. Porter Has Secured For West Hastings

He was instrumental in securing the expenditure of $250,000 for the new wharf and warehouse at Belleville for the use of the business men and producers of the district.

Arranged to have the Belleville Post Office raised to the status of a city office with a house-to-house mail delivery twice daily by letter carriers.

Secured the establishment of Rural Free Mail Delivery throughout the country district.

Secured $87,000 to assist in the erection of the fine bridge which spans the river at Trenton, and had the Post Office in that town enlarged.

The British Chemical Works, which has brought thousands of dollars to West Hastings was secured through the persistent efforts of Mr. Porter.

The welfare of returned soldiers and their dependants has always been the first thought of Mr. Porter and he has always been at their service. Good positions have been secured for many returned soldiers through Mr. Porter's efforts, and he has been able to help the returned heroes and their dependants in many ways.

These are a few of the things that Mr. Porter has done for West Hastings and this does not exhaust the list by any means. His opponent insinuated that Mr. Porter had done nothing for the Riding.

Has not Mr. Porter faithfully served the electors of West Hastings? Why should he be cast aside just because Mr. Graham wants the position.

THE FALL OF JERUSALEM

(Special to The Intelligencer)

AMSTERDAM, Nov. 23.—The German press is preparing the public for the loss of Jerusalem, states that the city is not prepared for defence and therefore it will probably be abandoned by the Turks. German military critics admit the difficulty of reinforcing the Turks with German troops.

MANY YOUNG CANADIANS ARE IN THE BRITISH TANKS

Went Over the Top and Stormed Through Hun Defence Lines Over 9060 Prisoners Taken Thus Far and More Coming In

LONDON, Nov. 23.—The British casualties in the advance toward Cambrai are reported to be very considerably less than the number of prisoners taken—now placed at over 9,000—it was announced by Major-General F. B. Maurice, Chief Director of Military Operations at the War Office.

The British, said General Maurice, had advanced to a depth of six and a half miles at the farthest point on a front of ten miles, which was a record advance in twenty-four hours on the Western front, and was farther than the progress made during three months fighting at Ypres.

The victory at Cambrai, General Maurice continued, was the direct result of the fighting at Ypres and therefore the men who fought at Ypres deserved equal credit for the success at Cambrai.

"We were able to give the Germans a surprise blow at Cambrai," said General Maurice, "because they had skimmed this sector like they did along the remainder of the line, in order to prevent us from taking Passchendaele. After we took Passchendaele they brought up a division from the Russian front in an effort to retake it.

"The fighting in the Cambrai operations is all in the open, enabling the cavalry to assist the tanks and infantry. There are no German defences prepared in this sector, and their next line evidently is beyond Cambrai.

"The Ypres-Cambrai battles must be linked together because the former made possible the latter, and the men who fought at Ypres deserve as much credit for the success at Cambrai. Our operations are continuing satisfactorily."

CANADIANS LIKE THE TANKS

Canada will be intensely interested in the splendidly successful attack on the River Scarpe. The credit of the victory goes to General Byng, the Canadians' former commander. With him are some Dominion staff officers who elected to go with him when he left the Canadians. One unit was led by a Canadian officer, who, since the Passchendaele battle, joined Byng's splendid army. The tanks which broke through the German defences have hundreds of adventure s Canadians in them. This service is becoming as popular with the Dominion troops as the Flying Corps.

ONE MILLION DOLLARS FOR THE VICTORY LOAN

Hastings County Passes the Million Mark—$1,040,400 Reported by County Last Night—Belleville to Celebrate the Occasion by Street Parade

The good old County of Hastings has upheld it's traditional patriotism in a grand manner. More than one Million Dollars has been subscribed to the Victory Loan in ten days. While the objective for the whole campaign was only $805,000, the Million mark has been passed, and now we are on our way to double our objective. This will take some work, but the way the County is 'coming across the past few days it is hoped that the huge sum of $1,611,000 will be rolled up in this loyal old county to help make hash of the Huns. If this can be accomplished our boys overseas will have cause to be proud of the spot where they were born. They won't have to be ashamed when the totals for the Victory Loan will be published. They have given Canada reason to be proud of them, and now it's up to us at home to make them proud of Canada. There are only six working days left to pile up the remaining half a million dollars, and it is to be hoped that the people will forget everything, but the success of the Loan. Belleville is falling back badly the past couple of days. Of course, Belleville has done nobly so far, having more than doubled its objective, but there must be no let-up any place in the County if we are to get Half Million Dollars in the next six days.

City Subscribes $30,000

At last night's meeting of the Committees of the City Council it, was decided wisely by the City Fathers to buy $30,000 worth of the War Loan. This will make $140,000 of the city's Sinking Fund which is employed in defeating the despoilers of Belgium and the enemies of civilization. Besides the patriotic side to the question, it is a mighty wise stroke of business, as Belleville is now getting thousands of dollars more in interest.

Celebration Saturday Night.

To-morrow night at 8 o'clock a procession will form at the Market Square, which will consist of automobiles, floats, marchers, etc., and headed by the band, will parade to the Upper Bridge and back to let the people of Belleville know that the city is celebrating the passing of the Million Dollar mark by the good old County of Hastings, and is on the way towards the million and a half. Everyone should get for horns and confetti and join in.

No Weak Spot Here.

Here's some going at Canada Cement Co. plant at Point Ann there are 218 employees. Of these 183 have bought Victory Bonds. The amount subscribed was $19,656. That is some record. There's no weak spot in Point Ann, and Geo. Reid and Director H. E. Dingle wear the smile which refuses to be eradicated.

Trenton Coming Strong.

Trenton has asked for 1,000 more application papers to be used at the British Chemical Works. Belleville will have to get a gait on or Hasting's first town will be on our tail. They are coming along fine.

Bond Given Away at Griffin's

On Saturday night at Griffin's, theatre the person holding the lucky bond on will receive the script for the Victory Bond. The person holding the lucky number must himself or herself be in the house to claim the prize otherwise another number will be pulled. A member of the Committee will be on hand to see that there is fair play and award the Victory Bond to the lucky person.

Clever Victory Loan Window.

The Angus McFee Jewellery store has an added attraction to it's Victory Loan window. An aeroplane is floating in mid-air with an arrow pointing to figures upon a larger arrow pointing upwards to $1,611,000. Hastings now decide what and the subscriptions pour in the aeroplane will rise. It is quite a novel idea, and Mr. Victory Tulley will be responsible for the entire display deserves the highest congratulations as he has received the thanks of the Publicity Committee of which he is a member. The aeroplane, which is the work of art, was made by Master Fred Jones, 13 year old son of Mr. Arthur Jones, manager of Molsons Bank. Master Jones is to be congratulated upon his clever achievement.

It was necessary to order 2,000 more buttons for Hastings. They are going the hot-cake way, and the button habit is growing hourly. Have you got yours?

Torontonians never missed the water wagon until the town went dry.

Former politicians who could get their views on things in the paper by the column, can now hardly get their names in the hotel arrivals.

CONSERVATIVE AUXILIARY CLUB ROOMS

The Ontario in it's campaign of falsehood says:

The Rooms occupied for committee rooms by Mr. Graham in the Robertson Block of which John Meagher is caretaker, are the Liberal-Conservative Club Rooms for West Hastings.

Neither the rooms nor the caretaker now or ever had any connection with the Liberal-Conservative party of West Hastings.

These rooms were opened up some fifteen or more years ago as a recreation club for young Conservatives of this city. Meagher was some time after it was opened, employed as caretaker. Upon the death of the late James Reeves who was very active in keeping the club on its feet, it fell into disuse and died a natural death from want of patronage. Meagher was still the caretaker, and no one taking any interest in it, he hung on using the billiard tables therein and renting the rooms to different associations as some of them arose ever since. Whenever the Rooms were used by the Conservative party for any purpose, they paid Meagher for it. Recently it was discovered by the Executive of the Liberal-Conservative party that Meagher was falsely representing that the rooms were the Club Rooms of the party and he was without any authority from them selling tickets to members of the party for such sums as he could get, they believing they were thereby becoming members of a Liberal-Conservative Club and all the money received by Meagher for tickets or other sources he put in his own pocket, not one cent ever going for the Liberal-Conservative party, and last spring, the executive of the Liberal-Conservative Association, through the public press, repudiated him and his dealings. Under these conditions Mr. Porter felt that he could not use these rooms in the present contest or for any purpose, hence engaged rooms in the Corbett Block for his Committee Rooms.

Meagher is the manager and these are rooms the Laurierite organ proclaims are the Conservative Club Rooms which it's candidate, Mr. Graham, is using in this contest, inferring that as a part of the Conservative organization, Graham had captured it. The Manager and his rooms never had any connection with the Conservative party, and if Mr. Graham thinks he has a plum in Meagher and his rooms, he is welcome to both, as the Union Government party has no use for either of them.

WOUNDED THE SECOND TIME.

Word was received in the city this morning that Captain D. M. Goudy of the 21st Battalion, brother of Miss Marjorie Goudy of this city, was wounded on the 12th inst. Captain Goudy was wounded in action last February and returned to the trenches September last.

54TH BAND DISBANDED

From a letter received in the city it conveys the information that the 254th band which went overseas from this city, under command of Bandmaster Lieut. R. Hinchey, has been disbanded. Messrs. R. Burke, E. Bland and others are temporarily engaged in enlisting at a Y.M.C.A. canteen, while others are in the trenches.

GAVE HIS LIFE.

Mrs. Elina Sero, residing on the Mohawk Reserve, Tyendinaga Township, has received official notification that her son, 637,184, Pte. Reuben Sero, was killed in action on October 30th. He went overseas with the 155th Battalion from this city, and was transferred to the Princess Patricia regiment. The young soldier was only 20 years of age. The sympathy of many will be extended to the mother in her hour of sorrow.

DEATH OF AGED LADY

Mrs. Jane Warner, wife of Mr. Isaac Warner, passed away this morning at the residence of her daughter, Mrs. E. H. Bell, 365 Bridge Street East, in this city. Three weeks ago Mr. and Mrs. Warner came to Belleville to visit their daughter, and the latter was taken ill with fatal results. Deceased, who was in her 87th year was born in the Township of Richmond, and had resided all her life in that township and Napanee. She had been for many years a member of the Methodist church, and a lady highly esteemed in the community where she resided. In addition to the husband two daughters, Mrs. E. R. Bell of Belleville, and Mrs. J. B. Taylor of Napanee survive. Also one brother, Mr. Henry Evans of Napanee. The remains will be taken to the latter place for interment.

Your Daughter's Happiness This Christmas!

She is a bright, joyous bunch of happiness—but rapidly growing into womanhood, when she must "come out", mingle with people and select her intimate friends and her future associates.

She must be able to talk on topics of the day, to discuss interesting subjects and to entertain in her own home.

She will be able to do these things just to the extent that you afford her the opportunity—just to the extent that you help her to attain the social accomplishments.

And of social accomplishments the most important is music. Is your daughter studying to play the piano? Are you encouraging her to love the best music? Have you provided her with a piano she will be proud to own?

Williams Piano
"Ever Sealed"
ENDORSED BY GREAT MUSICIANS

This piano has received the enthusiastic endorsement of many of the world's most celebrated musicians. It possesses a pure, rich tone, and a quick responsiveness, as well as great beauty of design. It is the product of 68 years of experience in piano-making, its makers being the oldest in Canada, established in the year 1849. The Williams Piano is made to "last a lifetime." Among several exclusive mechanical features that lift it above the commonplace is the Harmonic Tone-prolonging Bridge. This is the feature that produces the perfect tone so much appreciated by the great musicians.

So, in selecting the Christmas Gift for your daughter, do not decide until you have learned all the particulars concerning the Williams New Scale.

We invite you to call to see and hear this wonderful instrument.

Who Are Electors and Who Can Vote

Some Misunderstandings Cleared Up Officially at Ottawa—The Women's Vote

OTTAWA, Nov. 23.—The position has been taken by some Returning Officers, and in a number of cases communicated by them to enumerators, that men in Class 1 who have not claimed exemption or reported for service are disqualified from voting, and that their names are to be struck from the electoral lists. It is understood also that in several instances the position has been taken that even a man who has applied for exemption from military service is disfranchised. This statement, W. F. O'Connor, General Returning Officer, declared "is thoroughly unjustifiable. There is not a line or a word in the Dominion Election Act, the War Time Election Act, the Military Voters Act, or the Military Service Act which in any way justifies such a conclusion. There is a provision in the War Times Elections Act, now incorporated in the Dominion Election Act, that a person who has been convicted of any offence against the Military Service Act becomes disqualified from voting. But to be convicted a man must be charged and tried in a court. Unless there is a conviction there is no disfranchisement."

In the Shadow Of Mt. of Olives

LONDON, Nov. 23.—British troops marching on Jerusalem were on Monday last within five miles of the city and carried at the bayonet's point a village almost in the shadow of the Mount of Olives. It was on the top of this elevation that the Kaiser endowed what ostensibly was a hospital, but this "hospital" turned out to be a fortress with guns commanding the surrounding region.

An official despatch issued today read:

"There is no change in the situation north of Jaffa.

"On Monday Kuryet-el-Enab, six miles west of Jerusalem, was carried at the point of the bayonet by territorial infantry, and Beit Likia, some five miles to the north-west, was occupied by Scottish troops.

"Yesterday our mounted troops were in contact with the enemy four miles west of Bireh, on the Jerusalem-Shechem road."

MR. McADOO DOES NOT WANT BONDS TO CROSS BORDER

There will be no public promotion of the Victory Loan in Wall Street, New York, nor elsewhere in the United States. It is known that, Secretary McAdoo put the foot down on the idea—put it down good and hard. Washington wants no foreign loans while the United States must be concerned primarily with its own war time financing; its own money requirements must come first, and only.

A portion of Canada's new war bonds, however, are certain to drift over the border. While there will be no promiscuous stumping for the new Victory Loan in New York there will be private, quiet buying. A number of Canadians resident in the United States have taken a deep interest in all of the Dominion's war issues and these will doubtless come forward along with a few Americans who are specially desirous of evidencing their warm friendship for the Dominion. It is not to be expected that the aggregate of these outside applications will reach the figures attained on the occasions of preceding domestic loans.

Kindly Welcome Was Appreciated

To the Rainbow Knitting Circle of the Women's Red Cross: and Patriotic Circle: Sergt.-Major Gerald Spafford tenders his heartfelt thanks for the beautiful bouquet of flowers sent as a token of welcome home by Mrs. H. A. Yeomans and Miss A. Hurley on behalf of the above organization; also to Miss Anna Fenton for her kindly thought in sending a basket of "goodies" appropriately decorated with miniature flags and patriotic colors.

Miss Florence Clark, 61 Grier street, gave a surprise party in honor of the returned soldiers, a delightful evening of surprises too numerous to mention—music, songs and tales of adventure, during which refreshments were served.

The returned soldiers find it difficult to express in words the language of the heart; suffice it to say to the numerous friends, and particularly the ladies of Belleville to whom they are indebted not only at present but in the past for the loyal and sincere welcome accorded not only in words and gratitude but through so many sources of expression that it is difficult to express the appreciation and encouragement which fills the war-worn souls of the soldiers to find their loyal lady friends, after months and years of patriotic endeavor still faithfully administering to the wants and comforts of the brave lads in the trenches in far off Flanders.

We thank you, ladies. We often shout "Long live the King!" We go a bit further and shout "Long live the loyal and true patriotic women of Belleville."

Belleville has good cause to be proud of her soldier boys, but let me say the soldier boys of Belleville have good cause to be proud of the ladies of Belleville who have so very loyally supported the organizations which have done so much for the comfort of our boys, and the good work done such to win the war, writes Sergt-Major Spafford to The Intelligencer.

Death Sentence Passed On Maltese

BRANTFORD, Nov. 23—Carmello Calleja, Maltese, will hang on Jan. 8 next for the murder of Gio Batta Bonnello, a fellowcountryman. A verdict of "guilty" was returned by the jury after a consultation of three hours and thirty minutes, and sentence was passed by Mr. Justice Masten. A sad incident of the case was that the court interpreter had left the room before the jury returned their verdict, and to Louie Tonna, brother-in-law of the prisoner, fell the task of informing the latter of his fate. Calleja volubly affirmed his innocence.

Calleja was one in company of Bonnello on the morning of the latter's disappearance, and was later seen returning alone from West Brantford, where the body was found. A shirt found in Calleja's room matched a pair of drawers found upon the scene of the crime. Calleja, the day following Bonnello's disappearance and the day before the finding of the body went to Toronto and there sent the sum of $100 to his wife in Malta. A similar sum was found in his possession when arrested. It was upon these points in the evidence that the conviction was registered.

MUSIC AND DRAMA

PETITE ANNA LITTLE, SCREEN FAVORITE

Anna Little, who is seen in the Robert Warwick-Selznick Picture, "The Silent Master," at Griffin's tonight and Saturday matinee and night, as the girl who is rescued from the slums and develops into a wonderful dancer, had been for some time one of the most popular of the younger motion picture actors. She began her career in public as a prima donna in musical comedy, where she met with instantaneous success. Attracted by her charm of face and manner, the Triangle "scouts" induced her to abandon the stage for pictures, and she consented when the lure was added sufficiently attractive. She worked in the Pacific Coast studios for a time, but at length came to the conclusion that the biggest opportunities were in the East, and took train for New York. She was immediately engaged for an important role in "The Silent Master" and is one of the few Californians who is not constantly bragging about the superiority of the Golden State.

The latest chapter of "The Neglected Wife" series and "Secrets of a Beauty Parlor," an amazing 2-part Keystone comedy will also be screened on the same programme.

PAULINE FREDERICK IN 'DOUBLE CROSSED' AT PALACE TONIGHT

Riley Hatch, as the "Detective" and Pauline Frederick as the political boss in Pauline Frederick's newest Paramount picture, "Double Crossed," which is announced for exhibition at the Palace to-night and Saturday matinee and night, was the originator of the famous role of the sea captain in "Paid in Full," which had an exceptionally long run on Broadway. He has since then created many original roles in Paramount pictures, most of them being, like his role in this picture what is known in the theatrical world as "Heavy" parts. That a weakened character may be strengthened by long association with a strong one is wonderfully demonstrated in this Mid-Week's latest picture.

The 13th chapter of "The Great Secret" series featuring Francis X. Bushman and Beverly Bayne will be screened on the same program, along with "Their Installment Furniture," an amusing comedy.

THE MAN THAT HATH NO MUSIC

In fis for "treasons, stratagems and spoils"; come, and prove that you are in hearty accord with our War Veterans who, remembering what music it meant for them in camp and trench, and seeking to keep their organization efficiently helpful to their comrades, have secured in Madame Gerdini and company an artistic treat for the citizens of this district. Come to the Opera House next Wednesday night, it will be inspiring. A good cause and a good programme combine in their appeal.

New Cure Announced For Blood Diseases—Called "A-189"

PHILADELPHIA, Nov. 22.—At the annual meeting of the National Academy of Sciences held at the University of Pennsylvania today, Dr. Simon Flexner of the Rockfeller Institute announced a new cure for blood diseases known as "A-189," which, he said, was an improvement over "606," and cost 6 cents a dose against $3 a dose for salvarsan, the German remedy.

According to Dr. Flexner, the new blood cure is less injurious to the human tissues than salvarsan. It is also more readily manufactured. The designation "A-189" indicates the number of experiments of arsenic contained in the cure.

Dr. Samuel Meltzer, also of the Rockefeller Institute, showed lantern slides portraying how scientists of the institution had cured tetanus with injections of Epsom salts. He displayed photographic plates of different stages of his experiment on an animal into which lockjaw germs had been injected. Within an hour after the animal was rigid and unable to move it was shown on its feet able to walk.

"The war, with the large number of infected wounds, which develop into lockjaw," said Dr. Meltzer, "has demanded a successful treatment for the disease."

FIGHTS NOMINATION

Hon. Charles Murphy's Suit Over Independent Nominee

OTTAWA, Nov. 22.—Hon. Charles Murphy, Liberal candidate in Russell County, has served notices on the Clerk of the Crown in Chancery, James G. Foley; the general returning officer, W. F. O'Connor, and the returning officer for Russell County, John E. Ashwith for action in the Supreme Court of Ontario to set aside the nomination paper filed on behalf of James Barrette Charette, independent candidate in the riding. Among the grounds alleged by Mr. Murphy for his action are that the nomination paper does not contain the names of twenty-five duly qualified electors; that some of those signing Charette's paper also signed the paper of another, and that corrupt practices were resorted to.

WHAT UNION GOVERNMENT STANDS FOR:

The Union Government offered the only solution for a vigorous and sustained prosecution of the war. Upholding this was the Quebec attitude of "not a man, not a dollar." To give them credit, they have fairly well lived up to it.

Again, the platform enunciated by the Union Government is one that we can whole-heartedly support. It embraces:

Abolition of patronage.
Franchise to women.
Adequate taxation of war profits.
Progressive policy of immigration.
Care and provision for returning soldiers.
Development of transportation.
Reduction of excess profits.
Development of Canadian resources.
Co-operation in agricultural production, with a view to the reduction of cost.
Adequate consideration for the needs of the industrial population.

Policy aimed at bringing the east and the west to a closer understanding.

That platform is a commendable one. It appeals alike to the Liberal Conservative, Independent and Labor elements. It is broad enough for all to stand on. It is worthy the support of all loyal Canadians. It should be given a fair trial.

A vote for E. Guss Porter is a vote for Union Government and the larger Canadianism.

AN APPEAL FOR UNITY.

Above all let us cultivate patience, endurance, steadfastness. Waiting means winning. Let us keep together. Beware of people who try to sow dissension, distrust, suspicion, disunion. The enemy, beaten on most of the battlefields, is organizing with deadly care and ingenuity an offensive behind the lines. I know what I am talking about. See what has happened in France. They discovered it in time—and look out for Bolshevism in all its shapes and forms. It is the latest and most formidable weapon in the German armory. Dissension among ourselves will be fatal to any and every campaign. Wait and have patience, endurance, concentration, unity. Personal and sectional differences, suspicions, resentments, must be forgotten, or at any rate postponed; this is no time to talk of parties; there must be one party—and that is the nation. Let us help to defend the nation, the State, the Allied Governments. Let us resist the attempt of those who try to sow mistrust among us and seek to shake our nerves. Keep steady and we shall win.—Mr. Lloyd George.

THE CANDIDATES.

E. Guss Porter, K.C., M.P., endorsed by the Union Government of Canada which seeks to submerge politics in united national effort to win the war. Seventeen years parliamentary experience, during which period he has worked hard in the interests of West Hastings with much benefit to the constituency.

Robert J. Graham, endorsed by Laurier, Bourassa and Rodolphe Lemieux. No parliamentary experience. Has worked hard for Graham, and cheerfully admits having made a large fortune on food contracts for British soldiers.

TAKE NO CHANCES.

If Laurier can command a majority in the next Parliament he is pledged to suspend the operation of the Military Service Act. There is a possibility of a mixed up bunch of Unionists, Laurierites and near-Laurierites and "Independents" being returned, with an opportunity for the Quebec party to try and false all the odds and ends elected behind Laurier and Little-Canadianism. A victory for Laurier—anything but a decisive defeat for all that Laurierism stands for in the present election will mean a calamity for Canada. Electors can make sure of doing their whole duty by marking their ballot for the candidate officially endorsed by the Union Government at Ottawa. Candidates who are endorsed by Laurierites and being boosted by enemies of Union Government can not be trusted no matter what kind of a tag they are decorated with. By their friends shall ye know them.

A vote for E. Guss Porter is a vote for Union Government and the protection of the soldier boys in the trenches.

LITTLE ORPHANT ANNIE!

The opposition candidate poses as a Union candidate, also a Conservative candidate. As Mr. Porter has been officially designated by Sir Robert Borden, Premier of Canada, as the candidate of Union Government for West Hastings, that prop is gone from the opposition candidate; nor can he show any endorsation from any kind of a convention. He is the candidate of the local Laurierite newspaper and no doubt is very acceptable to all the Laurierites in the Riding who prefer not to show their Quebec party colors openly for obvious reasons. The opposition candidate then is not the Union candidate—and he is certainly not the Conservative candidate. As he is officially backed by the local Laurierite organ he should go the whole distance and ask for the open benediction and official approval of Sir Wilfrid Laurier, which he no doubt enjoys privately at least.

SHADES OF ANANNIAS!

"Mr. Graham is the nominee of 148 of the foremost citizens of West Hastings and their names are signed and duly attested on his nomination paper. Less than half that number of names appear on Mr. Porter's nomination paper."—The Ontario.

The above appeared in the editorial columns of the local Laurierite organ Wednesday, following a statement to that effect in its news columns Tuesday, and in Thursday's issue it tries to cover up the untruth by a column of camouflage rubbish pleading that "almost at the last moment it was discovered that there was a slight irregularity in Mr. Graham's nomination papers . . . . . and these sheets were not officially used at the nomination."

Thus does the Laurierite organ try to squirm out of the unenviable position its misrepresentation has placed it in. "The slight irregularity" referred to is no doubt the misrepresentation used to secure names to a petition asking Mr. Graham to be a candidate. That was so thoroughly exposed that the evident intention of slipping these names in as signatures on the nomination paper at the nomination meeting was considered injudicious, especially as there were some sturdy yeomen present who had been duped into appending their signatures to the document in question and whose strong resentment would have made things rather unpleasant for the opposition. So, as the Ontario says, "at the last moment it was discovered that there was a slight irregularity . . . . . and the sheets were not used." But that did not prevent the Laurierite organ from trying to make its readers believe that 148 names appeared on the nomination papers, as it certainly is by "Returning Officer Morrison."

The Laurier organ repeats the untruth in its Tuesday, Wednesday and Thursday issues.

Repetition does not make this untruth any more truthful, and following the statement of Returning Officer Morrison, the official with whom the nomination papers were filed as required by law, that Mr. Porter's nomination paper contained seventy-three names and Mr. Graham's 39 shows how far from the truth the Laurierite organ has wandered. There is a vast difference between one hundred and forty-eight names and thirty-nine admitting of no possible excuse for the poorest of counters.

Certificate of Returning Officer.

Belleville, Nov. 22, 1917.

I hereby certify that the nomination papers filed with me at the nomination of the candidates for West Hastings for the coming election there are the following number of names:

E. Guss Porter's nomination paper 73

R. J. Graham's nomination paper 39

M. B. MORRISON,
Returning Officer
for West Hastings.

Why all this misrepresentation from the beginning in seeking to boost Mr. Graham's chances to get revenge for a personal grudge (according to the opposition candidate's own admission)?

Why the "retirement on account of illness" story to secure supporters for Mr. Graham?

Why the misstatements in regard to Mayor Ireland of Trenton?

Why the insinuations that Mr. Porter is not the candidate of the Union Government?

Why the bitter opposition of the Laurierite organ to Mr. Porter?

Why, indeed! Are not the orders from the Quebec party headquarters "ANYTHING TO DEFEAT PORTER"?

CRISP COMMENT

Mr. David Carey, the Labor candidate in South Toronto, has wired Sir Wilfrid Laurier to say that he does not wish to be associated with opposition to the Military Service Act, and positively will not accept the Laurier endorsation. Mr. Carey has a son at the front, and stands by his boy.

Some people may mistake noise for argument, but not many, and the big band wagon and circus parades are only reminiscent of Barnum's famous saying that "the people like to be bumbugged". Well, that might have been true in Barnum's day, but the people are not so easy in this day of enlightenment and daily papers, and are not to be so easily beguiled into exchanging their franchise for brass band music and free rides. The next thing may be free lunches, a la carte, on the road to Trenton, with deviled eggs, frapped pomme de terre, and turnip a la mud.

Now that the Ontario has nearly finished its overdose of evidence in the Sister Mary Basil case and some of its columns are free for other subjects than devoting it to the support of a candidate, R. J. Graham. The ban of the Quebec party is on Mr. Porter and Union Government and the call to Hastings to get a Laurier candidate or any candidate to knife Porter, has been answered. The attempt to swing loyal Liberal electors away from the Union Government candidate has been apparent from the first, but Liberals are the best interests of Canada at heart will take no chances. There has been a great deal of trickery already resorted to against Mr. Porter which will be resented by all fair-minded electors. The orders from the Ottawa headquarters of the Quebec party are to defeat Mr. Porter, the Union Government candidate, and from present appearances nothing will be spared to accomplish this by fair means or foul.

MR. DOOLEY ON GRAHAM.

Mr. Graham is finagically in the field.

He is backed by much money made since the war began.

He is backed by many machines of the McLaughlin make.

He has turned turtle many times, going under, over, and between the fence.

He is some wobbler and has veered in many devious windings.

He travels through the country with brass bands which only circuses and very large profits can afford.

He is the independent supporter of dessicated onions.

He is not the Union Government candidate—he is the joy of the local Laurierites, and some scorehands.

He will be defeated December 17th, Dooley says so.

CANADA'S VICTORY LOAN

The standing of the counties in the Eastern Division is given below. The objective for each county was figured on three per cent. of the assessment. If this is reached by every county in Ontario, and the objective placed for special subscriptions is also reached, Ontario would subscribe $130,000,000; but as Quebec is not doing her part so far, it is up to Ontario to place her objective higher, and the amount we are after is $150,000,000.

EASTERN DIVISION.

Total subscriptions	$7,592,450
Special subscription	520,000
Team members	$7,072,450

County	Percentage of objective
Frontenac	193
Lennox and Addington . . .	166
Prince Edward	147
Leeds and Grenville . . .	135
Dundas, Stormont and Glengarry	132
Northumberland	125
Lanark	118
Hastings	113
Peterborough	84

Hastings county must not be satisfied with ninth place in a list of ten counties. Let us pull hard. Let every one do his best and let us say, not, "I will buy a bond," but, "I will buy all I can possibly pay for, taking advantage of the easy payments to do this."

While Hastings is ninth in the Eastern District, we are well ahead of most of the other counties, and the Eastern Division is away ahead of the rest of the province, the standing by division being as follows:

	Per cent.
Eastern	123.94
Southern	87.83
Hamilton and London . . .	87.43
Ottawa	79.75
Central	72.55

PTE. O'CONNELL WOUNDED

Word received by Miss Wattard from Pte. J. O'Connell of the 39th, M.G.C., of Belleville, states that he has been wounded in the leg and arm. He was also gassed a year ago.

MAKE SUPREME SACRIFICE.

Wm. Reber and Leslie Robbins, who went overseas with the 155th and 254th Battalions ,respectively, have been reported killed. These two young heroes resided in the northern part of Hastings County.

MORE CARE NEEDED.

Parties who are in the habit of putting out poison for foxes and wolves should be very careful to place it where live stock cannot have access to it. A Mountain farmer this week came near losing a valuable cow, and the symptoms pointed strongly to strychnine poisoning.

ACCIDENTALLY KILLED

Mr. Fred Glynn of Highland Grove, accidentally shot himself on Monday last while out hunting and died almost instantly. The accident occurred a short distance from the L. R. & O. station, and the unfortunate man was alone at the time.

WORK OF TRIBUNAL DISORGANIZED.

The work of the Military Tribunal at Brancroft has been badly disorganized on account of the illness of the members—Messrs. F. Mallett and G. L. Jarman. Messrs. W. A. Davy and D. H. Morrison have been acting temporarily pending the recovery of the original appointees. Mr. Mallett is suffering from an attack of pneumonia and is seriously ill.

SAVING BACON

A meeting of the restaurant and the hotel proprietors of the City of Belleville, will be held at the Police Court Rooms Monday the 26th day of November, 8 p.m., for purpose of defining the hours at which beef and bacon might be served under the Food Controller's regulations owing to the food shortage, and to the fact that there are no united hours at which beef or bacon may be served, some people are in the habit of going to one restaurant for beef, or bacon at one meal and to another restaurant for tea or breakfast for a second meal, thus evading the regulations and working hardship on the law-abiding restaurant keeper. It is suggested that the breakfast hours should mean from 6 a.m. to 10 a. m., the dinner hour 11.30 to 2.30, with no hours specified for supper.

A FREE TRIP TO EGYPT

"The Story of Egypt," full of historical interest and thrilling events will be told in St. Thomas Parish Hall this evening, by Rev. Mr. Anderson, who spent years with the British navy ashore and afloat, and whose talks are interesting and instructive with a fund of anecdote and humor which gives the spicy flavor of laughter to his stories of British prowess on the sea. This evening he will speak of the great men and gallant deeds in that land of mystery, Egypt.

FOR COLORED MISSIONS

Miss Annie Wilson is in the city on her annual visit soliciting offerings to aid the British Methodist church (colored) in Canada. Miss Wilson has been coming to the city for the past eight years; last year and this year as the general representative for the entire organization, which consists of 25 churches and missions in Ontario, 7 in Quebec and Nova Scotia, and 8 in Canada. The most notable feature of the work is that the organization has a colored regiment consisting of 2,000 young men who are now serving in France.

LETTERS FROM OVERSEAS

Pte. L. F. Orr, son of Mr. and Mrs. J. F. Orr, 7 Grove Street, writes home from overseas.

West Sandling,
Nov. 5, 1917.

Dear Father and Mother:—

The mind ever here is six inches deep on the training area. This morning it was terrible, especially the bombing and bayonet fighting. Every time one threw a bomb it was buried in the mud and you were well covered. The bayonet fighting was very difficult, as the mud is very slippery. Stanley Brown was hit in the knee with a bayonet and is now in the brigade hospital.

We went over the final assault course this morning. It lasted about two minutes but was very exciting. We started at the upper end of the course, about 150 yards, and went through wire, over trenches and everything else. The Germans are represented by willow faggots about four feet long and a foot thick. Some are hung up and some are left on the ground. When all was ready we advanced on the double and the faggots on the ground were used for long jabs, and for those hanging we used the short thrust jab and butt stroke. You should see the ferocious way they go at it. Jabbing a man with a bayonet is no child's play.

We have had considerable rain so bad that all the trenches are held in the dead ville. We used to have physical training every morning on it, but now we have to run in the mud, run in the country. The only thing we don't like about it is returning, as the camp is on a high hill and it's a steep road coming up.

She Went Days Without Food

When Hospital Treatment Failed an Operation Was Advised — But Cure Was Effected Without the Use of the Knife.

Glace Bay, N.S., Nov. 22.—Here is a case which sorely puzzled the hospital doctors. It was evident that the great suffering from pain under the left shoulder-blade was due to torpidity of the liver, but no medical treatment seemed to do any good.

In fact medicines failed, and the doctors said an operation was the only hope. But Mrs. Watkins hesitated before the enormous risk of an operation and decided to try Dr. Chase's Kidney-Liver Pills first.

The result was that she was perfectly cured three years ago, and feels now that she can report the cure as thorough and lasting. This is not an isolated case, but proves that this great medicine cures when ordinary prescriptions fail.

Mrs. Annie Watkins, Glace Bay, New Harbor, N.S., writes: "I think it is time for me to give my experience with your wonderful Kidney-Liver Pills. For seven months I suffered with what the doctor called indigestion; but whatever it was, I suffered terribly. The pain would start under my left shoulder and pass down my side until it reached the pit of my stomach. It just seemed as if the flesh were being torn from the bone. At times I used to go without food from one morning until the next. I had no energy left for work at all. At last our doctor sent me to the hospital for a month. For four days and nights I never broke my fast except for a drink of water. After four weeks' treatment there I returned home, and was back only four days when the pain came back worse than ever. Then I was told I would have to undergo an operation, but I would not consent to that. At last I read about Dr. Chase's Kidney-Liver Pills and started to take them. At first I did not notice much difference, but still I kept on using them, and by the time four boxes were used I was perfectly well again. That was in 1914, so you see I can safely say that I was cured. I shall always be grateful to Dr. Chase's Kidney-Liver Pills, as they did more for me than four doctors."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers or Edmanson, Bates & Co., Limited, Toronto. Refuse substitutes, for they only disappoint.

Y. M. C. A. Notes

A meeting was held at the Y.M.C.A. last night at which the delegates to the Ottawa Convention reported to those present. The main inspiration of the Convention came from the great work being done for soldiers overseas. The Y.M.C.A. has rendered magnificent service to the troops following them wherever they have gone. Dr. J. R. Mott of New York, told how while in Russia he was asked to send 200 secretaries to Russia. He sent 200 to France and 200 to the Italian army. The Y. M. C. A. in the U.S. have just raised $35,000,000 to carry on this work to July 1st, 1918. This would be about equal to what Canada has already done. Pro Rata for the population. Reports were also brought in and brought by Mr. J. J. Virgo of the British National Council who had recently been in many places where British troops are stationed. He said the Red Triangle and the Red Cross were the two great forces for good among soldiers everywhere. After the Convention report, Mr. Ackerman, the chairman, called upon Mr. John Elliott to unveil the Honor Roll of names of C. A. members who have enlisted. There were 189 names on this list and others to be added. Some have paid the supreme sacrifice, others are prisoners of war and some are back in Canada. This has taken the majority of the young men of the Y.M.C.A. membership and the boys of to-day must take their place. The local work has suffered but has not suffered much if top speed for the sake of the fuller. Efforts will be made by the Association in the near future to enroll additional new members to fill the vacancies made by those gone overseas. Mr. E. A. Ridley sang very effectively, "Keep the Home Fires Burning." Mr. H. Poste presided at the piano.

Bolsheviki Will Last Four Weeks

STOCKHOLM, Nov. 23.—"No matter how dark the situation in Russia is today—and it is dark indeed—it must not be forgotten that Russia is a country of unlimited possibilities," said Dr. David Soskice, confidential secretary to J. F. Kerensky, the deposed Russian Premier, and his right hand man, to the Associated Press correspondent today.

"The Bolsheviki were in control of Petrograd and many other places when I left the capital on Friday," continued Dr. Soskice, "but they cannot maintain power. I consider four weeks the utmost length of time they can last.

They have no support except that which they have won by false promises They are today saying to their adherents: 'We have given you land, peace and bread.' The decree issued on Friday declaring all the factories and workshops the property of the workmen."

The future Government, Dr. Soskice believes, will be a homogeneous all-Socialist Government. In regard to whether the future Government of Russia would be forced to conclude peace, Dr. Soskice expressed the opinion that this would not be the case.

Railway Must Be Protected

Chief Clerk of G. T. R. is Granted Exemption For a Year

TORONTO, Nov. 23.—Superintendent Farrell, representing the Grand Trunk Railway, appeared before Tribunal 370 and stated that the company was appealing for 107 men in all classes. There are 33 men now in category "A" and 23 men have yet to be examined. Out of these there may be a few more "A" men forthcoming, but it is estimated that the total will not exceed 58 names for the Toronto terminals. The G. T. R. has 52 per cent. of its employes at the front.

IN NATION'S INTERESTS.

Gerald O'Flaherty, chief clerk of the G. T. R., and general car distributor, was given exemption for one year, on account of his national service, by Judge Denton in Tribunal 350. "I am as keen as anyone to send Class A men to the war, but we must also protect the railways in the interest of the nation."

BANK CLERKS.

At Tribunal 346 Mr. J. McLeod, of the Bank of Nova Scotia, sought exemption for a number of clerks employed for a number of clerks employed in banks at Jamaica, Cuba and Newfoundland. Mr. McLeod pointed out that a large number of men from the bank had already enlisted and gone to the front. Messrs. McDonald and McIntyre, two of the banks' local employes, were exempted until March 1, the employes abroad being given total exemption.

Six men came up for consideration, four of whom, R. H. Hagan, E. G. Spencer, H. F. Cunningham and R. T. Adam, were exempted.

Biggest Surprise Of His Life He Says

Williamson Overcomes Troubles of Five Years Standing By Taking Tanlac

"I have never been so surprised over anything as I have over the results of Tanlac in my case," said William Williamson, a well-known brick mason living at 1115 St. Clarens Avenue, Toronto, recently.

"My kidneys have been bothering me for four or five years," he continued, "but during the past year other ailments in my body made me feeling miserable nearly all the time. I had terrible pains across my back, especially when I stooped over or tried to lift anything. My stomach was settled in my right leg, and at times I simply suffered torture from it. The pain was so sharp and cutting at times I would almost drop in my tracks. My appetite went quare back on me and nothing I would eat tasted right. I was very nervous—could hardly sleep —and I would just roll from one side of the bed to the other, and many a night I have not slept a wink. I got so I dreaded to go to bed, had no energy and didn't care for anything.

"One day a friend of mine said: 'Why don't you try Tanlac, I have taken it, and it surely did me good.' So with that I began taking Tanlac and improving every day. I have now taken four bottles, the rheumatism never troubles me at all, and my kidneys are in fine shape. My appetite is fine and everything I eat tastes good and agrees with me. My nerves are strong and steady now, I sleep like a log, and all my tired, depressed feelings are gone. I now have my old strength and energy and feel like myself again. Tanlac has certainly been a great thing for me and I can't praise it too highly."

Tanlac is sold in Belleville by Ostrom's Drug Store, in Trenton by J. H. Dickey, in Deseronto by W. J. Maley, in Stirling by J. S. Morton, in Frankford by W. H. Latimer, in Madoc by J. Will Vince and in Marysville by T. J. McAlpine.

God Save the King

Support Official Candidates

Toronto Globe.

The Unionists throughout the country should practise unity in the election, following the example of their leaders, Liberals and Conservatives. The only safe course is the concentration of the Unionist forces behind the Unionist candidates. It may be taken for granted that all the enemies of the Government and of the Military Service Act in every constituency will combine with the object of defeating the official Unionist nominee. In the twenty Ontario contests where there are more than two men in the field there is a special danger in the division of the pro-conscription vote. Where this occurs in any riding the anti-conscriptionist will be almost certain of election. A number of candidates who accept Sir Wilfrid Laurier's endorsement are trying to hold conscription Liberals by promises to maintain the Military Service Act. This is an impossible position. Either they must repudiate Sir Wilfrid or repudiate the Act. There should be no trifling with the supreme issue of Canada's honor and duty. The return of the present Government is the only possible means of preventing the suspension of the Military Service Act, which Sir Wilfrid would immediately bring about if he could command a majority in the next House. Canadians who wish to prevent this national calamity must rally to the Union Government, and to the candidates who bear its seal of approval.

BRITISH TANK SMASHES AUTO

Unique Demonstration in Toronto of Power of British Battle Tank

A somewhat age-worn limousine polished up to look as new and bright as any 1913 model could be made to look, was dragged from the Toronto Armouries and placed in the centre of University Avenue. In five minutes all that remained of that limousine was a mass of splinters, wires, engine parts, leather upholstery, and four rubber tires. And at 1.30 there was hardly a visible trace of the limousine left to view.

The reason for this state of affairs was the demonstration of a real British tank in action, staged by Tank Commander Haig, M.C., of the British army. It was a distinguished gathering that witnessed the demonstration. On the platform were Sir John Hendrie, the Lieutenant-Governor; Mayor Church, Col. Sir John Eaton, General Logie, Col. Bickford and Mr. Joseph Harding, of the American Liberty Loan Committee, and in the square that had been cordoned off by the police hundreds of Toronto's most prominent citizens were gathered.

TIRES ALONE STOOD TEST.

There was not the slightest hesitation on the part of the great, green monster as it started to roll over the limousine. Raising its nose in the air just as in the pictures that have from time to time come across the ocean, it proceeded to crush that automobile without mercy. All that was left intact after the first attack was the radiator hood and four rubber tires. Not wishing to leave even this much behind the tank turned around and again rolled over the limousine. This time the engine gave way, but the rubber tires were literally ground up.

"A picture of that would be worth $5,000 to the manufacturers of those tires," remarked General Logie, "Thirty-one tons twice over them, and not a scratch."

Then the real fun started. Someone ran over to the limousine and picked up a piece of wood as a souvenir, and immediately five thousand men, women and children followed in his example. The police were powerless to hold back the crowds, and after one feeble attempt they left the automobile, or rather its remains, to the tender mercies of the struggling mob. There were splinters enough to go around, for the tank had done its work well. One little boy got the face off the speedometer, and others shared as well.

Following its desecration of a perfectly good example of the motor manufacturer's art, the tank was taken back to Queen's Park, where it remained on exhibition all afternoon.

Labor In Favor Of Conscription

BUFFALO, N.Y., Nov. 23.—The favorable report of a resolution in favor for the conscription of citizens of allied nations in this country brought on one of the most heated debates of the annual convention of the American Federation of Labor. It reached a climax when Thomas Black a Canadian delegate, who characterized conscription laws as dastardly legislation," was called upon to retract or leave the floor of the convention.

The committee's report endorsing the resolution was adopted by a vote of 241 to 20, and a storm of cheers, but not until a large number of the delegates and President Gompers had replied to Black, and Delegate Carey, from Montreal, had declared that Black's statement did not represent the sentiment of Canadian trades unionists.

The demand for a retraction from Black was not put in the form of a motion, the matter was dropped, after the adoption of the committee report.

Moscow Threatened By Cossack Army

Eight Thousand Reported Killed During Riots in That City

WASHINGTON, Nov. 23.—Swedish press reports on the situation in Russia received by the State Department today said General Kaledines with an army of Cossacks was moving against Moscow, where 8,000 persons were reported to have been killed in riots. The state department has no official information to confirm the reports.

AWAIT GENERAL'S ARRIVAL

Petrograd, Nov. 23.—After the arrest of Vladimir Purishkevich, a former member of the Duma, who is charged with being at the head of a monarchist plot, a letter found in his possession, addressed to General Kaledines, the Cossack leader, was published. After describing political conditions in Petrograd, the letter asserts that officers and military cadets are organized and are only awaiting the arrival of the General, whose movements are asked.

Artillery Turned On Russian Rebels

LONDON, Nov. 23.—Official report of a mutiny of 10,000 Russian troops in France has been published by the Provisional Government in the Russian press. Soon after the revolution in Russia had broken out there appeared in Paris a number of newspapers of the most extreme views. These papers reached the Russian troops in France and began to spread frantic Maximalist propaganda. Serious agitation sprang up amongst the troops, which resulted itself in an unpleasant hostility towards their officers. Finally a mutiny broke out.

Drastic measures were adopted, by the French military authorities. Four was shot off, but the mutiny went on. Finally the artillery was turned on the rebels and they surrendered.

The Russian losses were eight killed and forty-four wounded. The French casualties were one killed and one wounded, and of the Russian loyal troops, one was killed and five wounded.

In the course of disarming the rebels eight-one arrests were made. Then the rest were formed up in battalions, two of which, composed of the most agitated elements, were sent to Bourg, the other to the Isle of Aix. The others will remain in La Courtine until the end of an inquiry ordered by the Provisional government.

COAL ROBBERY

Supplies Being Forcibly Taken From Cars en Route

Wholesale coal robbery in Ohio has been unearthed by the United States Fuel Administration. In some places railroad tracks have been torn up, through freights stopped, and loaded coal cars confiscated. In other places cars of coal have been taken from sidings. The thefts have been directed by mayors and city officials of towns which have been allowed only enough coal for their immediate needs and where the people have become fearful from seeing hundreds of coal trains go rattling through the State headed for Lake ports and the North-west.

Cavalry Mop Up Enemy Ground

British Army Headquarters in France, Nov. 23.—Thousands of British cavalry co-operated with the main army of tanks and infantry in the successful assaults by the British troops against the Hindenburg defences over a wide front in the Cambrai sector.

Open fighting has been going on at many places and the horse troops, who long had waited for a chance to vindicate their existence in this war, were rendering invaluable service in "mopping up" the enemy territory.

RICH AMERICAN WAS BOUND TO FIGHT

Joseph Bullington Roberts, of Cleveland, O., was rejected by a medical board in his native city, but this did not dampen his ardor to serve in the war. He hastened to Montreal, armed himself with credentials, and came to Ottawa with a letter to the Premier. He was passed at the base recruiting office and is now in Toronto, where he will serve as a private in the mechanical transport.

Pte. Roberts is a man of wealth and standing in Cleveland. He is 33 years of age, but was refused admittance as an officer in the American army because of a defect in one eye.

During the afternoon he was medically examined and passed. He left his comfortable quarters in the Chateau Laurier and took the night train for Toronto, where tomorrow, dressed in plain khaki, he will assume the duties of a private in the ranks of the Mechanical Transport.

VETERANS WILL VOTE AS CITIZENS

OTTAWA, Nov. 23.—The light of a returned soldier to vote is the subject of a number of messages sent to the general Returning Officer, W. F. O'Connor. In reply, Mr. O'Connor has stated that returned soldiers who have been discharged from service will vote in the ordinary civil polls in the divisions in which they are residing on polling day. Returned soldiers who have not been discharged may vote as military electors at any military poll wherever they may go. Military polls will be established within easy reach of practically every district.

"If a returned soldier," Mr. O'Connor adds, "whether discharged or otherwise, is in his own civil electoral polling district on polling day, and will claim the right to vote at any civil polling station where, if he had not been absent on military duty, his name would rightfully be on the lists, he may vote at that polling station, although his name is not on the lists."

QUEBEC EXEMPTIONS ONLY FARCE, HE SAYS

TORONTO, Nov. 23.—"If the exemption tribunals in the province of Quebec keep on exempting men at the rate they have been exempting them it will be in time little short of a farce," declared Venerable Archdeacon Cody in the course of an address last night to the Irish Protestant Benevolent Society at the Normal School.

"In the interest of Quebec as well as in the interest of the Dominion," he added, "I hope and pray that the leaders of Quebec will not do dishonor to the ancient name and fame of those who came of gallant French stock."

The Archdeacon made the reference to the eastern province in the course of an address on "the new era in Canada."

Facts, he added, bore out the assertion that one section of the Dominion was holding itself aloof from its responsibilities and evading its share of the burden of the war. Persistence in this course, he pointed out, must result in the continued isolation of that province as long as Canada remains a nation.

FLOODESS ON OCEAN LEDGE FOR 16 DAYS

PRINCE RUPERT, B.C., Nov. 23.—Half-starved, chilled, drenched by waves and rain, Stephen Ryan, a Metlakatla native, has been rescued after 16 days which he spent on a small ledge in the open sea off Dunlap's Island, where his launch was wrecked and his two companions, Peter and Richard Robinson, succumbed to exposure and were washed off the rock.

Ryan made a raft from the shattered launch, but it upset and he swam back to the rock. At every high tide he was almost submerged. At night he tied himself with ropes to the rock that he might not be swept away. He lived on two raw potatoes each day and drank rain water. He was a stout man two weeks ago but when rescued he weighed less than 100 pounds.

U. S. To Declare War On Austria

ROME, Nov. 23.—Prevailing opinion here in well-informed circles is that declaration of war between the United States and Austria will follow immediately upon the allied conference in Paris. The point is made that complete unity in the future conduct of the war otherwise will be impossible, especially as the enemy now is centring his main efforts against Italy.

MAY DISFRANCHISE BRITISH OBJECTORS

LONDON, Nov. 22— The House of Commons by a vote of 260 to 171, adopted an amendment to the electoral bill, disfranchising conscientious objectors to the war. In the course of the debate, which lasted throughout the afternoon, Andrew Bonar Law, Chancellor of the Exchequer, announced that the Government did not intend to interfere, but would leave the members free to vote as their consciences dictated.

DIDN'T KNOW THERE WAS A WAR ON

BRIDGEBURG, Ont., Nov. 23—The local exemption tribunal yesterday ordered into the army a Bertie Township farmer, 24-years old, who did not know that there was a war on, so far as the questioning of the members of the tribunal could ascertain. They gave it up when he said he had never read a newspaper.

He has lived on the farm all his life. His father entered the claim for him.

An older brother, of a different type, was exempted on agricultural grounds.

The Wonder

PUT, SON OF ABSALOM.
"I always liked Ishac, Jether. What has thes to say?"

"So then thou art a cheat! and all his believe that dolce kill a lion with thy knife, on foot, single handed. Methinks then art also a liar and should be punished for thy misdeeds."

With that Xarsadius drew his jewel sted sword and made as if to dash the affair on the spot had not Talia, hearing the quarrel, thrown herself in front of him and made the fierce Medo sold his sword. The others crowded round Xarsadius and sought to reconcile him, fearing the the guard might be called, bringing disgrace upon the house of Nadius.

"Kill him not here within my mother's house!" cried Chalcheiriny Talia, as she led a beast to slaughter," shouted the Jew, "and he was one of the most highly comprehended of the magnates through their fumes of wine. And so he eased, appealingly toward Thabo the latter seemed and said contemptuously:

"Thou knowest I do not think I did him injure thy life for any love I bear thee. Thou commonly fool, thou didst come upon me unawares, and I would and many friends, dided claim me as thy

by the shoulder and spun him around. The boy, crushed, broken hearted, overcome by one disaster after another, would die like dumbly at the angry son of Judea.

"Tell her she lies!" thundered Xarsadius. "Tell her she lies!"

Jether hung his head in shame and did not reply.

"So then it is true, thou dog! I guess that!" cried Elagnat.

The avaricious eyes of Thabo. The girl clapped her hands and gave a cry of joy.

Jether, watching furtively at this by play, and mad with jealousy and rage, Xarsadius turned just as Thabo was about to place the necklace upon her shoulders. He grabbed the bauble roughly from the old jeweler and turned defiantly toward the sea captain.

"I have bought this necklace!" cried loudly.

"Aye, at a thousand shekels," agreed Sedyn humbly. "But, then, hast not yet paid for it."

"Wait but a moment for thy money!" commanded Jether as he placed the necklace around the neck of the girl. Thaba, who did not yet suspect that Jether's gold had vanished, gave a pleased cry and involuntarily threw her arms around the neck of the Jew.

"My Jether!" she whispered. "Thou dost love me after all."

Sadyk, the jeweler, coughed nervously.

"I will bring thee thy money in a moment," said Jether madly and turned toward the house. Servants of Nadina had already brought out a table, and Put, with servgal others, was doling. As Jether approached him Harsh mut, the Arabian, had just won 2,000 shekels from Put and roughly demanded the money, which Put reluctantly paid over. Suddenly Jether noticed that Nadina was close by his side and that she was trying to hand him some thing unobserved.

"The dice," she whispered. "Thou canst not lose."

Jether felt his fingers close over the two small squares of ivory. He clutch ed them nervously. He pushed his way through the throng. This time Harsh mut and Put threw again, and once more Hafraout won a thousand shekels.

The game seemed so easy, Jether hesitated, overcome by a nameless fear. He shook and trembled as though chilled. Suddenly a laughing cry from Thaba as she returned to the arms of the sea captain made him intoxicated with jealousy. He pushed his way through the throng.

"I will cast dice with thee," he said unsteadily. Tola and Nadina exchanged glances and nodded, while Merbel, who bnc a moment ago had refused to lend Jether a single shekel, looked at her boy by keeper wondering why he had secured money with which to gamble.

"Ah, Jether, throw thou," cried Put gladly, for he liked Jether, "for a thousand shekels."

"For a thousand shekels, aye. But throw thou first," replied Jether. "I have drunk much, and my hand is not steady."

Put laughed, picked up the dice and threw them. The two squares of ivory rolled over and over and settled on their sides.

"Seven," he cried, annoyed.

Jether picked up the two dice. He drew back as if to adjust his sive. He held his hands out of sight behind the cloth for a moment and changed the dice. He threw.

MERBEL, FRIEND OF JETHER.
"If I have not borrowed, Jether, am I not punished for my delay?"

"Twelve."

A cry of surprise at Jether's lucky throw came from all.

"My money," demanded Jether nervously.

"Why, thou shalt not quit a winner. Two thousand shekels," insisted Put.

Jether picked up the two dice, quickly changed them for the honest ones and tossed the ivory squares to his friend Put.

"Two thousand shekels. Throw thou," he said huskily.

Put picked up the dice upon the table. "Nine," he cried.

Jether again picked up the dice, made the same substitution, and threw the false dice upon the board. Once more there was a murmur of surprise over the result.

"Twelve," spoke Jether cruitanily. "Thy money."

"Nay, let us again double the stakes," said Put, half angrily at the turn of fortune. "Four thousand shekels I will put on this throw."

"Agreed," replied Jether. "Four thousand shekels."

He was about to throw with the false dice when he felt his arm gripped as in a vise. He turned. Merbel, the false friend who had listened to the rumor and had put it off until too late, held his arm and seized the dice from his nerveless fingers.

"One moment, friends," he cried. "Hold and see. Look!"

He tossed the dice upon the table. "Twelve," he said soberly, looking at Jether, who hung his head in shame as he felt the inevitable exposure. "Again it is twelve once more twelve. Thou will find it is always twelve."

Slowly Put reached across the table. He picked up the false dice and cried:

"Twelve," he whispered in surprise. Again he tried. "Twelve, always twelve."

The men drew aside from Jether, as if he were stricken with some foul plague.

"A cheat!" cried Merbel. "Thou wouldst cheat my good friend Put! I got upon thee." he added contemptuously.

Put leaned across the table in amazement, unable to realize that Jether, the wealthy spendthrift Jether, could really be a common cheat and play with false dice.

"I always liked thee, Jether. What hast thou to say?" he asked.

Jether, without a word, let his head fall forward upon his breast. His humiliation was complete. Nadina and Tola meanwhile were whispering together. Tola turned to the little group and said:

"Witness, my friends. I brought this house to you thinking his honest. I am hurt and grieved to learn he is a cheat."

"We blame thee not," answered Merbel. "Yet, 'twas well him to ask. I'll call the guard and have him thrown into prison."

"Nay; wait," commanded Put. "Proclaim him to the public market place and shackle him."

CHAPTER XI.

The Wrath of God."

TISHA looked up at the sea rap ture and smiled. "Why wouldst have me go with thee?" she said softly.

Thaba picked her up in his mighty arms as if she were a mere child. With a shrill peal of laughter Tisha abandoned herself to the novel experience. By a sign the sea captain indicated to Sedyn that he should give Tisha the necklace.

"For 2,000 shekels, great captain," he said, bowing, and the slave at a sign from their master paid the money. Thaba looked longingly at the bauble of sin in his arms.

"Thou girl, thou dost make me mad!" he vowed. "We sail with the tide within the week, but now thou comest with me to my ship. Henceforth thou art mine, all mine. I will cover thee with jewels and golden bracelets, and thy neck shall sparkle with diamonds Come, my Tisha; we go."

And as the gathering instinctively made way before the giant sea cap tain he carried the laughing and happy Tisha boldly through the gate and down the road toward the waiting caravan which should convey him and his slaves to the ship at Jaffa.

Just as Pharis and the fair daughter of Sedyn left forever the garden of Nadina that worthy lady cried out shrilly:

"My daughter! My daughter! He hath taken away my fair child, my lovely Tisha, and he hath not paid me a single shekel for her. Stop him! stop him! I say!"

But Tola and the others, without even a glance of sympathy at either her or at the broken hearted father, standing alone, laughed and went their way. The servants started to with draw, the bandmaidens entered the house, and Jether was left alone with the infuriated and raging Nadina. She rushed to him angrily.

"And thou," screamed Nadina—"thou art the cause of all my misfortune! Thou cannst here under false pretense. Thou thought wealthy I was, and didst win my daughter's love, only to prove a cheat and a beggar. Now will

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

The sole head of a family, or any male over 18 years old, may enter for a homestead in any of the provinces named, and since continued to be, a British subject or a subject of a country which grants similar privileges to British subjects. Application must be made in person at the Dominion Lands Agency or Sub-Agency for the district. No proxy may be made on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

In certain districts a homesteader may pre-empt a quarter section alongside his homestead. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate 30 acres extra. May obtain pre-emption patent as soon as homestead patent on certain conditions.

A settler who has exhausted his homestead right may purchase pre-emption, may take a purchased homestead in certain districts. Price $3.00 per acre. Must reside six months in each of three years, cultivate 50 acres and erect a house worth $300.

Number of entries may count time of enlistment and service in Canada during 1917, as residence duties under certain conditions.

When Dominion Lands are advertised for disposal for sale, returned soldiers who have served overseas and have been honorably discharged, receive one day's preference in addition to the day at local Agent's Office for each day's service at the front. Full particulars may be procured from

A C. V. B. FOR CHRISTMAS

There is no better Christmas present than a Victory Bond of whatever denomination you can afford.

A lot of Christmas presents—some quite costly, too—are broken or worn out inside of a few months. Very few last five years, to say nothing of ten or twenty years. And still fewer are worth as much at the end of five, ten or twenty years as they were originally.

But consider the Victory Bond. It can be bought to last for either one of the periods mentioned, and at the end of the period it is absolutely as good as new. This is beyond dispute. For at the end of the period Canada pays the holder in gold the amount which was originally paid for the bond. Moreover, this payment will be made promptly in one lump sum, while the original buyer is allowed to spread his purchase of the bond over a period of five months.

So the Victory Bond is an ideal present. It does not "wear out." It is never forgotten. Every six months there comes a reminder of it in the shape of interest at five and a half per cent. per annum.

The Victory Loan is in keeping with the spirit of Christmastide. It is a loan for the liberation of the world. It will be Canada's Christmas gift to the Allied cause. It is a contribution to the birth of a new era, in which oppression shall no longer be able to stalk abroad under the guise of *Prussianism*.

Viewed practically or viewed sentimentally, there is no Christmas present like a Victory Bond.

SICK WOMAN HAD CRYING SPELLS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Enhaut, Pa.—"I was all run down and weak inwardly. I had female troubles and nervous feelings and my head bothered me. I would often have crying spells and feel as if I was not safe. I heard anyone coming I would run and lock the door so they would not see me. I tried several doctors and they did not help me so I said to my mother I guess I will have to die as there is no help for me. She got me one of your little books and my husband said I should use a bottle." I stopped the doctor's medicine and took Lydia E. Pinkham's Vegetable Compound. It soon made a change in me and now I am strong and do all my work."—MRS. AUGUSTUS HARDSHAW, Box 86, Enhaut, Pa.

Why will women continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

Small Buyers Are Favoring 5-Year Bonds

While Large Investors Are Leaning Towards Longer Term Investments

So far as the choice of maturities is concerned, in connection with the sale of Victory Bonds, one fact stands out prominently so far and that is that, practically all the small subscriptions, those up to $50 or $100, are for five-year bonds. The larger subscriptions, by individuals, are pretty evenly divided between the ten and twenty year maturities, older people favoring the ten-year bond. The big subscriptions by the insurance companies, the large manufacturers and other institutional investors are varied, with the majority favoring the twenty-year bonds. The conversion privilege bonds of the former issues is being generally taken advantage of, with a result favorable to the government in extending the term of its obligations until 1937.

An Interesting Sidelight.

An interesting sidelight is shed on the problem of maturities by the recent action of Dominion of Canada bonds in the New York market. It will be recalled that three issues were floated in that market in the spring of 1916, these consisting of five, ten and fifteen year five and that these have since been actively traded in. The latest prices were 99.56 for the five-year bonds; 97.13 for the ten-year bonds and 94.94 for the fifteen-year bonds.

On Monday last the five-year maturities sold at 94⅛ or a decline of approximately five points from the issue price; the ten-year maturities at 90 5-8, or a decline of about 6c points and the fifteen-year maturities at 91⅛ or ¼ decline of 3¼ points. The low points previously touched for the three issues were 93¼, 90⅛ and 91½.

The significant point about the present position of the three issues is that, whereas, on flotation, the order in point of price was first, the five; second, the tens and third, the fifteens, the order has now become first, the five; second the fifteens and third, the tens. In other words, the longest term bonds have changed places with the middle-term or ten-year bonds.

An Obvious Inference

On any inference o drawn from this movement? Undoubtedly it points to the fact that the market, as a composite body of bond buyers, thinks that a fifteen-year Dominion of Canada bond is preferable to a ten-year bond. The five-year bond still holds first place with a good margin, indicating that the market believes that a re-investment can be made at the end of five years for a further period of five or ten years, which will be more advantageous than a present investment in ten or fifteen-year bonds.

On the other hand, the fact that the ten-year bond is cheaper than the fifteen-year bond points to the conclusion that an investment to-day in a ten-year bond, with a revenue for five years, is not regarded as being as favorable as a straight investment in a fifteen-year bond. On this theory it would appear as if the market anticipated that the decline in interest rates would commence some time between five and ten years from now and that money would be increasingly cheap in the ten to fifteen-year period.

If this theory is applied to the present Victory Loan in Canada, it would apparently be most advantageous to invest in the five-year bonds, after which the choice would lie with the twenty-year bonds in preference to the ten-year variety. Of course all this is based on a market condition, which might be altered at any moment but it shows how the wind blows at present in the bond market.

Subsequent Trading.

With an immense issue like, the present and with a very much larger number of subscribers interested in it, subsequent buying and selling of the bonds on the stock exchanges will doubtless be on a large scale. The fact that the country will be saturated with bonds points not unnaturally to the conclusion that for a while at least selling will be on a heavier scale than buying, with a resultant shading of in values. Ordinarily the five-year bonds might be expected to hold their price best, with the greatest weakness appearing in the fifteen-term bonds. However, in view of the position of the New York market as regards Canadian five, ten and fifteen-year bonds, the chances are that the ten-year bonds will undersell the twenty-year bonds.

It must be assumed, however, that there will be any pronounced break in the price of the Victory Bonds The conversation privilege should guarantee a close adherence to the 100 mark. This has been true to a large extent of the bonds of the first three issues. The first loan bonds have always been convertible at 97½ and have never sold more than a point or so below that figure. The second and third loan bonds were unconvertible from the date of issue until the privilege was added this summer and during the weak spell of last spring they dropped to around 93. As soon, however, as convertibility was attached, they bracked up appreciably.

A $350 belt was one of the things Bill Brennan and Jim Coffey fought for. They probably would have shown more appreciation if it had been a meat ticket. That's the way with heavyweights.

THIRD PARTY ARISES IN AMERICAN POLITICS

BUFFALO, N.Y., Nov. 23.—By a vote of 215 to 21 the American Federation of Labor decided to abandon its lifelong non-partisan attitude and actively enter American politics next year. The epochal action took the form of a resolution to change the federation's constitution to provide for the annual convention in June of each year, a few months prior to the elections, instead of in November, after the elections.

It is said by labor leaders to change the entire complexion of the organized labor movement in this country, amounting virtually to the organization of a third party, in opposition to both the old line Republican and Democratic organizations. The vote assures a strong labor tinge to the Congressional elections next fall. The A. F. of L. convention hereafter, it is expected, will be looked upon as almost as much of a Presidential nominating convention as either the Republican or Democratic conventions.

"The next solacing fact is this: That most of this debt will be a debt we owe to ourselves. Great Britain is borrowing in the main from her own children. The debt is in the family . . . and the more we lend the less will Great Britain owe to others. And that is the most important fact in our national security and national wealth."

—Premier Lloyd George in Albert Hall, London, October 22nd last.

Happy will be the Nation which Owes its War Debts to its Own People

THE interest on Canada's war debt is now about $25,000,000 a year.

If that interest is paid in Canada to the Canadian people it will go back into circulation in Canada, instead of being sent out to foreign creditors.

Likewise when the principal comes due it will be kept in Canada for re-investment and thus will aid in the development of the nation and its resources.

And that is a most important fact in Canada's national security following the war, just as it is important to Great Britain's National security that her war debt shall be owed to her own children, when the war is over.

So when you buy Victory Bonds you not only directly help Canada to fight the war but you contribute to the national security after the war.

Mr. F.E. Leonard Favors Union

LONDON, Ont., Nov. 23.—Major Hume Cronyn, candidate for the Union Government, has received a letter from Mr. F. E. Leonard of the firm of E. Leonard & Sons, and a prominent Liberal, in which he says he will support Major Cronyn at the coming election. He says that his only reason for doing so is that he cannot comply with the position his honored chief, Sir Wilfrid Laurier, has taken in regard to his manifesto relating to the referendum.

Mr. Leonard gives his objections to a referendum as follows:—

(1) It would signify hesitation on Canada's part to proceed farther with the war.

(2) It would take nine or ten months to assemble the new Government, pass a recruiting bill, and get the men.

(3) It would be a severe setback for those at the front to see that reinforcements could not be forthcoming, perhaps until next fall.

(4) Sir Wilfrid Laurier's government sent soldiers to South Africa without a referendum, and

(5) The North and the South engaged in civil war without a referendum.

Mr. Leonard adds that, if he and his political friends fail to see alike in this crisis he wants to say on the other hand:—"If you and the Union Government are elected and do not send every available man into the ranks and carry out a policy for prosecuting the war on a broad and deep basis you cannot have my continued support, as I shall certainly revert back to the Reform party."

15 TIMES THE MONEY

was spent on doctors' bills, without any benefit, as was spent on Zam-Buk, which effected a complete cure!" says Mrs. Fred Gerrie, of 126 Bleury St., Montreal.

"A rash broke out on my baby's skin, and she became very fretful and lost weight. I took her to a doctor, who gave me some lotion to supply, but it did not do baby any good. I then took her to another doctor, but with the same result.

"After I had spent 15 times the addition baby was so brought me down heartbroad, which she was highly recommended that I commenced using it. In one week's time baby looked much better, and before a month had elapsed she was quite well again.

"Baby is now the picture of health, and I think it wonderful that $1 worth of Zam-Buk brought about this cure when $20 spent in doctors' treatment did no good whatever. I certainly advise other mothers not to experiment with useless remedies, but to save their little ones unnecessary suffering and themselves needless anxiety and expense by using Zam-Buk in the first place."

ENGLISH GIRL SMOKERS ANGRY

LONDON, Nov. 23—"Well, of all the cheek." This is the popular comment by girl smokers on the suggestion of the Tobacco Controller that they give up smoking in view of the serious shortage of tobacco in the country. Smoking by English women and girls has increased to an enormous extent since the war began and they resent the suggestion that they should do all the giving up.

Sir Robert Borden At Massey Hall

"I want this to sink into the heart and mind of every man and woman in this country; it will matter little to us or to our children after us as to what happens to the fortunes of any individual or any political party, but it will mean much as to whether the effort which we have made in this war is to be remembered or not. For it the people of the enemy nations are not taught that war is not a profitable enterprise that the dead they brought in vain, and more than 200 thousand Canadians who lie beneath the soil in France and Flanders will have died in vain." Firmly believing that the purpose of the Canadian people as expressed by their votes on the 17th of December next will affirm in no uncertain tones that that sacrifice has not been and shall not be in vain."

In these words, ringing out like a challenge to the great audience facing him, Sir Robert Borden, speaking in Massey Hall Wednesday night, wound up a masterly declaration of Government policy. And from every corner of the great auditorium came responses burst of applause and the assurance that the Prime Minister had truly gauged the sentiment and the determination of the Canadian people. The opening of the Ontario campaign in Toronto must have given comfort and inspiration to Sir Robert Borden and his colleagues. The weather could hardly have been worse, the rain pelting down steadily all evening, but long before the opening of the meeting a cordon of police were busy turning away the hundreds of people who had to be denied admission. Inside the hall every seat right to the last row in the top gallery was occupied. The place of honor was given to some two hundred returned soldiers, who held the front rows on the ground floor, and each crowned showed its tenure by standing and cheering while some of the khaki-clad heroes, arriving late, hobbled in on crutches.

Upon the platform were many of the leading men of all ranks of life, both Conservatives and Liberals being strongly represented. Sir William Hearst and practically the whole Ontario Cabinet were present. Representatives of the City Council, the churches and the bench rubbed shoulders and mingled freely. Among them were scores of returned soldiers.

To Sir Robert Borden was accorded such a reception as he never received in Toronto in the old days — and the Prime Minister has had more than one rousing welcome from his supporters in the first city of the Province. When he entered the building the thousands in the hall stood up and cheered him time and again. The women, of whom there were hundreds present, waved their handkerchiefs with an enthusiasm that rivalled that of their men-folks.

A Convincing Address.

The Prime Minister's address was a characteristic effort. It was a measured, convincing recital of events leading up to conscription and the formation of a Union Government. There was no appeal to passion, no attempt to stir up racial feeling, but set one part of the Dominion against another. His references to conscription were couched in reassuring terms, but beneath them could be felt an unswerving determination to see that come what may the men at the front will not be left without support. Sir Robert repeated his earlier statement that there was no thought of calling out the married men or single men except those in category A. He held out to those who feel that fuller claims for exemption have been refused the opportunity of having their cases reviewed and injustices removed, but at the same time he declared with considerable emphasis that the Government will not tolerate exemptions en masse.

"The Government," he said, "is taking good care to see that appeals are taken out on its behalf against any decisions which may be based upon wholesale or indiscriminate exemption."

The Prime Minister did not mention Quebec, but the crowd apparently interpreted his reference to an assurance that the wholesale exemption given at Montreal and other Quebec points would not be permitted to stand, for the declaration was received with enthusiastic applause.

Sir Robert spent some time in dealing with domestic problems having relation to the war and the audience cheered his pledge that men dealing in the necessaries of life would not be permitted to pile up huge profits. He reviewed the radical measures the Government had already taken, declaring that when the new Government was relieved of the extra burdens the present campaign was placing upon them, further action would be taken to guard the people against exploitation.

Mr. Rowell to the Fore.

Hon. M. W. Rowell roused the audience with a fighting speech, in which he made short work of the attempts of the Laurier-Liberal element to pillory Unionist Liberals as Conservatives and renegades. "We are real Liberals," said Mr. Rowell. The former Liberal leader in Ontario did not attempt to make a defence on behalf of those who had left the party of Sir Robert Borden's Government. None was necessary. Mr. Rowell declared that the men who had joined Sir Robert Borden in a Union Government were the very men who would have formed a Government had Liberals been returned to power prior to the present crisis.

The meeting not only endorsed Union Government by its enthusiastic applause, but it went definitely upon record. With a striking demonstration of approval, it passed, without a dissenting voice, a resolution moved by Sir William Hearst and seconded by Premier Hearst, pledging "our hearty and loyal support, expressing full confidence in Union Government under the leadership of Sir Robert Borden, and calling upon patriotic citizens of every creed to rise above party considerations in order that the country might, to its full duty to the men at the front."

In introducing the Prime Minister of Canada to the audience, Premier Hearst said that if, at this time last year, anyone had told him he would stand on a platform as one of the Liberals, he would not have believed him. "The Liberals on the platform," he said, "are just as loyal to Canada and the British flag as are the Conservatives, and as solid behind Sir Robert Borden as are the members of Sir Robert's own party."

"The man who brought this union about is on the platform," he said, addressing Dr. Beattie Nesbitt, Sir Harry Drayton, and Again Sir Robert was cheered. The chairman referred to the great patriotism with which Sir Robert had negotiated for Union, and declared that if a modern parson were to write this Book of Job he would be in duty bound to refer to the great and patient figure who figured and directed the destiny of Canada.

MOVINGS UBMARINE WAS A COSTLY JOB

MONTREAL, Nov. 23.—With very few people outside of those concerned in the bringing of the German submarine from New York to Montreal by the Victory Loan campaign, realized the work involved. It has been. At one time the obstacles seemed so great, it appears, that the project was almost dropped.

The efforts to get the submarine to Montreal began over a month ago. J. W. McConnell, on behalf of the Montreal Victory Loan campaign, and R. A. Stephenson, on behalf of the Dominion Publicity Committee, began negotiations with the owners and got it and ran up against a big difficulty—expense.

It was found that Lord Shaughnessy was, as usual, willing to do more than his share, and would have had the C. P. R. bring the boat to Montreal, but the submarine was too large to get in the captured German mine-layer would not go under the elevated railroad in New York and was over 200 feet long through the railroad tunnels loaded on flat cars.

This difficulty held up the project for the time being; then somebody thought of bringing it up by water, and when water transportation was thought of the name of James Carruthers, president of the Canada Steamship Lines, came up.

It would cost about $5,000 to take the boat apart in Central Park and put it on a barge. It would cost several thousands more to get it to Montreal and several thousands more to unload it here and set it up on Dominion Square.

"You're on," said Mr. Carruthers, to whom thousands are nothing when there is a patriotic job on.

The upshot is that the boat is now

Thirsty, Out—"I was wonderfully helped by taking 'Anuric.' For years I had suffered from kidney trouble and rheumatism. My limbs were full of rheumatic pains, my muscles would swell and ache, and I had to get up nearly every hour in the night. My back was always stiff and sore. I was nearly done my work. They said I was becoming partly paralyzed. At last I saw 'Anuric' advertised, and I got two bottles completely cured me of my troubles, and I think it was unequaled for that was a year ago and I have not had any return of the pains. I have never found a medicine so good as 'Anuric'."—Mrs. R. H. Hovey, Otterburn, Que.

One Tank Took Entire Village In Its Debut

Made Bow With Byng-Bang-Smash

TANK CREWS' LOSS LIGHT ON FIRST DAY—MASNIERES MAN HID IN A CELLAR THREE LONG YEARS—FRENCH CIVILIANS WEPT FOR JOY AT THE SIGHT OF BRITISH TANKS—WOMEN CONDEMNED TO MENIAL TASKS BY GERMAN TASKMASTERS—A GREAT DAY FOR FRANCE.

British Army Headquarters in France, Nov. 24.—Casting fell before one tank which never had been within until that time. It charged into the village, making it untenable by the vigorous action of its guns. Twelve tanks led the way into Masnieres.

Their crews previously had studied maps that been assigned parts, and the last word about the business methodically, each one taking up their positions. These twelve movable forts completely encircled the place. At 8 o'clock the tanks arrived just as the Germans were sitting down to breakfast. The crews of the tanks got their morning meal from the food prepared for the enemy.

These are not only places which tanks assisted in taking. They have been swarming over the whole great territory annexed by the British, and when the full story of their exploits is told it will make remarkable history.

Tank Loss Light.

The casualties among the crews of the tanks have been very light on the opening day, which is the only one for which reports have so far been received. It is impossible to state how many tanks were in action, but there were several hundred, and out of all the men who went forward in them it appears that less than twenty were killed and less than 100 wounded.

Many of these casualties were due to the fact that men left the tanks to perform some work in the open, where they came under the fire of snipers.

The performance of the tanks was the more remarkable because there was only a short time to prepare for their use. Some of the tanks were veterans, but many had never been in an engagement before, and the crews lacked actual fighting experience. Moreover, it was necessary to train the infantry to co-operate with them. All this was accomplished in a very few weeks. In addition, a great amount of work was done to get the tanks into position and bring forward their fuel. Many hundred tons of petroleum was brought up secretly and stored pending the attack. It was done so quietly that few soldiers in the territory involved knew what was proceeding.

Tank General Led Way.

The advance of the tanks, with their general leading the way in the monitor flying his flag, was the most impressive sight imaginable.

For miles they were lined up along of the British front, and when they started forward it was like a great ceremonial parade. Back of them came the infantry, giving the final touch to the picture.

Tanks have been engaged in some bitter fighting since they entered enemy territory. They crushed their way through barbed wire easily, tearing great gaps for the infantry to use. It was not until they made a considerable advance that strong resistance was encountered. The stiffest fighting was at Lateau Wood, south of Masnieres. There the tanks engaged a number of German field and heavy guns and won the day against them.

One tank deliberately charged a 6-inch gun and cleaned out its crew with its machine guns.

Wept With Joy.

Civilians who were rushed from Masnieres told something of their experiences in the last three years. They rejoiced at their new found freedom and many of them today still wept with joy. They were immediately thrown into a state of excitement and viewed the coming of friends from every vantage point available. They had first sight of the advancing forces at the bridgehead and saw coming with the attacking troops strange machines such as they never knew existed. They were the great tanks and the people stared in amazement as these mighty engines ploughed their way forward.

Only 339 Germans were holding the town, and all, except a few left in the cellars, withdrew five minutes before the British entered. With the civilians who greeted the British were two German soldiers, one from Alsace-Lorraine, who had deserted and were waiting to give themselves up to the British, with whom they sympathized.

Hid in Cellar Three Years.

During the three years of their captivity the civilians were fed by the American relief committee. All other food was requisitioned by the Germans, who placed very heavy penalties on those who concealed any. The Germans stripped all the houses of the town of their furniture as soon as they captured. Among the loot this pillaged were five magnificent chateaux. All men of military age were deported to Germany almost at once. Women were compelled to do all manner of work, such as sweeping streets and acting as orderlies of German officers, and waiting on officers. The mayor declared that Germany was actually starving.

Among the most interesting of the refugees was a man of military age who had hidden in a cellar for three years to escape the Germans and had been fed by his wife with an extra ration of food allowed her because she had a baby. German officers came to live in his house, but they never discovered his hiding place.

When the British entered the town his wife, after making sure that they were indeed British, went home and breathed out her husband, who had not left glimpse of the outside world since August, 1914. He seemed to be in fair health, but his nerves were badly shattered and he wept continually.

Byng is Promoted

King George has promoted Lieut.-Gen. Byng to the rank of general in recognition of his distinguished services in the field in the Canadian operations, it was officially announced today.

Mothers With Babes

March to Freedom

This has been a battle of strange sights, but no more striking spectacle has been witnessed than that of the French civilians from the captured villages marching toward homes and comfort back of the British front. Through the very gaps which the tanks had torn in the famous Hindenburg line, mothers yesterday and today were pushing baby carriages containing infants or tramping happily along with their babies clutched to their breasts. Beside them toddled other youngsters, many of them carrying their treasured dolls and not a few clinging determinedly to squirming puppies which they dared not trust to run on the ground. Old men and women were bringing away all the household effects they could pack on pushcarts or carry on their backs.

Huns and Russians Talk Armistice

(Special to The Intelligencer)

COPENHAGEN, Nov. 24.—According to despatches received here today formal negotiations for an armistice have been opened on the eastern front between the Germans and Russians.

SEPARATION INCREASE ANNOUNCEMENT SOON

OTTAWA, Nov. 24.—It is stated here that an order-in-Council is in preparation for an increase in the separation allowance and that at an early date the Government will make an announcement regarding the matter. The present separation allowance for a private soldier amounts to $20 a month. It is understood that it is proposed to bring it up to $25.

BYNG BANGS THE BOCHES, IS BELLEVILLE BEHIND BYNG?

Yesterday Belleville's Worst Day Since Campaign Started—Should be no Let Up Until New Objective is Reached—Million Dollar Celebration Tonight.

While the British armies in France are keeping on top of the Huns, and smashing him back from the land he has dispoiled, it is fitting time for the citizens of Belleville and Canada to begin with renewed vigor the attacks upon the new objective set by the Victory Loan Committee. Every worker should keep right on the job, and every non-worker should keep right on boosting for the Victory Bonds and by that means make the work lighter for the canvassers. If there is any man, woman or child in Belleville who has not been canvassed they should go themselves to the committee rooms on Campbell Street, and have the advantages of the Victory Bonds explained to them. There are only five more working days left so don't delay another day, buy your bond at once.

While the county only subscribed $32,500, yesterday, and Belleville only $14,300, the day was not without its bright spot, and that bright spot is located immediately to the east of this city, and is called Thurlow Township, and the bright spotters who are spotting the bright spots are George Reid and Henry Denyes. They are some little spotters. It is a steady thing with them. Yesterday they brought in $6,000, which rounds them past the $100,000 mark, some going for a farming community, and the best is yet to come.

One thing is sure. The money is to be had. It is up to the canvassers to keep right after it, and the people should come across to the limit, then the double objective will be reached without a doubt.

The Victory Bond will be given away at Griffin's to-night and the greatest interest has been shown in the contest.

To-night at 8 o'clock at the Market Square every automobile in Belleville should be on hand to celebrate the passing of the Million Dollar mark. The band will lead the procession, which goes up Front Street to the Upper Bridge and then back to the Market Square. Everyone should get in on the big noise and boost for the double objective.

GREAT BATTLE RAGING IN THE MOUNTAINS

Italians are Repelling Fierce Attacks of Great Bodies of Enemy Troops—Have Recaptured From Huns Positions Lost Last Thursday.—Enemy Loss Very Heavy

(SPECIAL TO THE INTELLIGENCER)

ROME, NOV. 24.—TO-DAY'S DESPATCHES FROM ITALIAN ARMY HEADQUARTERS IN NORTHERN ITALY, SAY THE BATTLE OF THE MOUNTAINS IS RAGING WITH UNEXAMPLED VIOLENCE. THE ITALIANS AGAIN HOLD THE MONTE TOMBA AND MONTE PERSICA POSITIONS, WHICH WERE LOST LAST THURSDAY NIGHT. THEIR LOSSES HAVE BEEN VERY GREAT, BUT THE ENEMY'S LOSSES ARE FAR GREATER. THE FIRST ARMY IS HOLDING ITS GROUND AGAINST HEAVY ATTACKS WEST OF THE BRENTA RIVER.

Why an Election?

In his manifesto Sir Wilfrid Laurier seeks to evade responsibility for a war time election by suggesting that coalition government entailed an appeal to the electorate on the issue of compulsory service. This is but a half truth if coalition was to be followed by an election such procedure was due solely to the position taken by Sir Wilfrid Laurier and Sir Lomer Gouin.

Sir Robert Borden proposed coalition to Sir Wilfrid Laurier to secure that unity which would have made compulsory service practicable without a war-time election. Both Sir Wilfrid Laurier and Sir Lomer Gouin expressed their repugnance to forcing military service on their compatriots without a mandate. To remove this obstacle in the desire for national unity Sir Robert Borden proposed that after the formation of the coalition cabinet an appeal to the country should be made on the issue of compulsory service.

Sir Wilfrid Laurier's objection to coalition led to the broadening of the terms whereby an election would ensue. It was to avoid an election and at the same time make effective provision for reinforcing troops at the front that led to the offer of coalition. It was the desire for unity that led Sir Robert to consent to an election if coalition was impossible otherwise. Sir Wilfrid had the offer of coalition, conscription and no election and a subsequent offer of coalition, conscription and an election. He refused both. The responsibility for an election rests entirely on Sir Wilfrid Laurier.

BAY OF QUINTE CANDIDATES ENDORSED BY LAURIER

Parliamentary Candidates in This District Who Bear the Hall Mark of Laurier's Approval—Opponents of Military Service Act

The following candidates in the Bay of Quinte District have been officially endorsed by Sir Wilfrid Laurier as acceptable to him and his policy of antagonism to the Military Service Act and Union Government, which means deserting Canada's soldiers overseas and breaking faith with them to the extent of national disgrace:

East Hastings—W. C. Cross.
Prince Edward—P. P. Hersey.
Northumberland—S. G. Dudley.
Durham—George Jones.
Lennox and Addington—E. W. Grange.

CANADIAN POLLS IN UNITED STATES

Have to Be Established For R. F. C. Men—Their Female Relatives Have Vote.

For the first time in the history of the Dominion, Canadian polls will be established in the United States. Many Canadians have joined the Royal Flying Corps and are stationed in one of the southern States. For these military polls will be established, and the men will cast their vote in the elections as though still in Canada. Further, once a soldier leaves Canada his female relatives are entitled to vote. Therefore, female relatives of Canadians in British or Canadian units in the States will vote as well as the soldiers themselves; female relatives of soldiers in Canada do not vote.

Mewburn Wires Congrats. To Byng

Unbounded Admiration of the Gallantry of the Mother Country's Soldiers

OTTAWA, Nov. 24.—Major-General S. C. Mewburn, Minister of Militia, has addressed the following cablegram to General Sir Julian Byng, congratulating him on the success which attended the advance of the army under his command:

Ottawa, Nov. 23, 1917. Lieutenant-General Sir Julian Byng, B.E.F., France: On behalf of the Canadian Militia forces now training in Canada for overseas service, I heartily congratulate you and express unbounded admiration for the gallant behaviour of the soldiers of the Mother Country, and we rejoice in the thought that they are led to victory by a former commander of the Canadian Army Corps.

(Signed) General Mewburn, Minister of Militia.

NEW FRENCH MINISTER

(Special to The Intelligencer)

PARIS, Nov. 24.—M. Pennet resigned as Minister of Blockade today because of ill health. President Pebrun, of the Budget Commission, has been nominated to succeed him.

Some of the Benefits Mr. Porter Has Secured For West Hastings

He was instrumental in securing the expenditure of $250,000 for the new wharf and warehouse at Belleville for the use of the business men and producers of the district.

Arranged to have the Belleville Post Office raised to the status of a city office with a house-to-house mail delivery twice daily by letter carriers.

Rural Mail Delivery

Secured the establishment of Rural Free Mail Delivery throughout the country district.

Trenton Bridge

Secured $87,000 to assist in the erection of the fine bridge which spans the river at Trenton, and had the Post Office in that town enlarged.

British Chemical Works.

The British Chemical Works, which has brought thousands of dollars to West Hastings was secured through the persistent efforts of Mr. Porter.

Returned Soldiers

The welfare of returned soldiers and their dependents has always been the first thought of Mr. Porter and he has always been at their service. Good positions have been secured for many returned soldiers through Mr. Porter's efforts, and he has been able to help the returned heroes and their dependents in many ways.

Compensation For Land.

Compelled the Government to pay proper compensation for land taken for and damages sustained by reason of the Trent Canal.

Assisted Mineral Industry.

Procured a remission of duty on raw mineral products shipped to the United States for refining and reshipment into Canada in the finished article.

Mineral Land Survey

Advocated a re-survey for mineral products in Hastings County (some having been made for 30 years) and work will begin this next spring.

Patriotic Contributions

Has given thousands of dollars for Patriotic and Red Cross work and bought War Bonds to the extent of his ability, being a man of very moderate means.

Fought For City.

Fought the city's case to compel the C.N.R. and C.P.R. to build subways on Front St. South and on the west side of the river, spending weeks of time and making many journeys to Ottawa free of any cost or charge to the city.

Dredging

Secured the dredging of the harbours of Belleville and Trenton.

Increased Railway Facilities

Insisted on and procured increased railway facilities for North Hastings, keeping up daily mail service, after service had been reduced to three trains per week owing to war conditions.

Wallbridge Post Office Established

Had established a number of new post offices where there was no rural mail delivery.

Business For Trenton

Procured contracts for local contractors on Trent Canal and the finishing of the Trenton end of the Canal first; whether large amounts for material and labor was expended to the advantage of the people of West Hastings.

Helped The Business Man

Procured inter-switching of freight between all railways running through Belleville.

Railway Crossings Protected.

Procured by his advocacy orders from the Railway Commission to properly protect the dangerous crossings of the C.N.R. and C.P.R. in Sidney township near the cemetery and at the Bay Bridge.

Abolished Net Fishing.

Procured the abolition of net fishing in the Bay of Quinte from the Murray Canal to the Telegraph Light for the benefit of sportsmen and the protection of fishing interests.

Dredged the Narrows

Procured the dredging of the Telegraph Light to allow deep draught boats to navigate our bay.

Natural Highway

Advocated and was one of a Special Committee to urge upon the Government the construction of a National Highway from Montreal to Detroit which would pass through Hastings County, but the Bill was killed by the Senate.

Immigration Agent

Secured the appointment of an Immigration Agent to West Hastings to encourage British labourers to locate here; many scores of whom did so.

Military Headquarters

Procured Belleville to be made a Military Headquarters for recruiting and mobolizing by which many thousands of dollars were expended here; our merchants getting the benefit.

Brought Business to Belleville

Was instrumental in procuring contracts for various local manufacturers to produce clothing, munitions and war material, which brought many more thousands of dollars to Belleville.

Nearly all this, has it is true, been done in the last six years, for during the remainder of the time Mr. Porter was in opposition to Sir Wilfrid Laurier's Government, with which he had little chance to do anything.

Hastings Marble for Ottawa

Arranged to have the marble, quarried at the Bancroft quarries, used in the new wing of the Parliament Buildings, thus giving great prominence and valuable advertising to that product.

Frontford Steel Bridge

Obtained grant of $12,500 for construction of steel bridge at Frankford and the free use of the Government grounds there for a Recreation Park for the citizens.

Even this does not exhaust the list of Mr. Porter's activities, and he has reason to be proud of his record, and West Hastings should show it's gratitude for it—and it will do so.

Kaiser Confers On Italian Front

(Special to the Intelligencer)

ROME, Nov. 24.—Swiss despatches today report that Kaiser Wilhelm of Germany, Emperor Charles of Austria-Hungary, Czar Ferdinand of Bulgaria and Envoy Pasha of Turkey, are in conference on the Italian front. A new Central Powers agreement, particularly as to Germany's and Austria's division of the spoils of war, is understood to be the purpose of the meeting.

The Huns Must Abandon Cambrai

(Special to The Intelligencer)

LONDON, Nov. 24.—To-day's despatches from the Army headquarters in Flanders intimated that the Germans will be forced to abandon Cambrai as a stronghold for bringing troops. The British attack at Bourlon wood is described as progressing well.

Put Vim In Jaded Muscles

by stimulating and arousing the circulation with light applications of Absorbine, Jr., rubbed in thoroughly. This invigorating liniment acts quickly and surely. It is fragrant and pleasant to leave no greasy residue on the skin.

As Absorbine, Jr., is a powerful germicide as well as a liniment. It is effective for prophylactic and aseptic uses; it destroys the germs in cuts and sores; it may be diluted and used successfully as an antiseptic and germicide for the mouth and throat.

Athletes will find it efficient for limbering sore, stiff muscles. A good formula for a rub-down is one ounce of Absorbine, Jr., to a quart of water or witch hazel.

It is composed of vegetable extracts and essential oils and is positively harmless. Get a bottle today, and keep it in your desk, in your travelling bag, in your medicine cabinet or in the side pocket of your automobile. It is health insurance of a high type.

At most druggists or sent postpaid upon receipt of $1.00. Trial bottle for 10c. in stamps.

The annual meeting of the South Hastings Dairy Association was held in this city this afternoon. Prof. G. G. Publow of Kingston, was the principal speaker.

RETURN OF PTE. O'BRIEN

Pte. O'Brien, who served overseas with the 21st Battalion, and was invalided home, has arrived in Belleville, and is recuperating at his home Church street on leave from Kingston Military Hospital.

SUDDEN DEATH

Mr. Stephen Flagler, residing at 211 Coleman street, in this city, passed away suddenly this morning. He ceased, who was employed at the McLaughlin warehouse here, was about the premises performing some duties when he went home. Shortly after his arrival home he collapsed, and passed away from an attack of heart trouble. Mr. Flagler was in his 68th year, and had lived in this city for many years. He was born in Prince Edward County. A widow and family survive.

Aroused by the plans of the railway men's brotherhoods to demand wage increases, United States President Wilson has set the machinery of the government in motion to avert, if possible, the threat of a paralysis of the country's transportation systems so vital to the war.

MUSIC AND DRAMA

MLLE. GARDINI.

Mlle. Nelli Gardini will not only make triumph in her rendition and interpretation of Lennox's her sweet high notes arousing pleasure so tone as almost resembled pain.—Hamilton Spectator.

In Mlle. Nelli Gardini there was an opportunity of hearing the best Margherite since Melba won fame and fortune for her interpretation.—Mlle. Gardini's voice has crystal brilliancy. Trained in the French school, she has always been the finished artiste, and in the Jewel Song she reached heights of rare vocal accomplishment.—Halifax Chronicle.

THE UNSUNG HEROES

Rear Chaplain George Anderson of the Royal Naval Institutes answer the very live question, "What is the difference between navalism and militarism?" This question has been asked many times. Dr. Anderson will try to answer it. Then he will proceed with his lecture on, "The Unsung Heroes of the Sea," concluding with more views of the navy at work.

This will take place in Griffin's Theatre on Sunday evening at eight thirty. Admission free. Collection in aid of the naval institutes of Canada, a branch of the British sailors society, a work that touches every part of the Empire. Canada has ten branches out of one hundred. This will conclude the chaplain's work in Belleville. A cordial invitation is extended to all to assist in the great cause.

Dr. Anderson has been unfortunate in the time chosen to visit Belleville with his great message. The various calls upon the patriotic purses has him asking for a public canvass as he has in other towns, so he has to depend upon his hearers to bring in Belleville's share for the great work of assisting sailors of our navy and mercantile marine. Dr. Anderson receives no remuneration for his work; outside local expenses all that is made goes direct to the cause he is advocating.

"LOST IN TRANSIT"

A superannuated aunt of corduroy, a red bandana handkerchief, some decrepit dogs and horses and a baby and George Behan, noted Italian impersonator, is ready for the camera, say the scoffers. But those who know him best realize that besides these ingredients it takes one large and "understanding" heart and a wide experience among the people whose very lives he depicts upon the screen, in addition to the heterogeneous collection of "props" customarily used by Mr. Behan.

In "Lost in Transit," his newest Paramount picture, which is appearing at the Palace Monday to Wednesday, matinee daily, mentioned articles are in evidence, and the baby "Bob White" who bids fair to become one of the screen's favorite juveniles. This is "Bob White's" third Paramount production.

"THE BRAT", ANOTHER MORSCO ATTRACTION AT GRIFFIN'S FRIDAY.

For the coming attraction at Griffin Theatre, The United Producing Co., Ltd., by special arrangement with Oliver Morosco, will present "The Brat" Friday night, November 30. Manager Forbes is to be congratulated upon his foresight in getting this stellar attraction. It is not often that a play comes to Belleville before it has been through the big territories, but in this case "The Brat" has never been played outside of New York with the exception of a one month's run at the Lyric Theatre, Philadelphia.

It is comedy bubbling over with clean wholesome laughter, and at the same time has enough heart interest to please the most loveable of minds. It is the story of a wealthy writer of "best sellers" and the action of the comedy starts just the moment when the novelist has to use his own expressions "run dry of material."

He has already started a few chapters of a book called "The Brat" and for his inspiration goes to the night court. He gets more than inspiration from the little "brat" whom he launches into his wealthy home. He gets a lesson which ran true as a bell from this little orphan of the streets.

There are some wonderfully drawn figures of everyday aristocrat life, and the cast which have been given the opportunity of presenting it are without a single exception, well able to interpret. Every member of the cast have played in recent Broadway successes, and in the title role Miss Rae Martin of whom Alan Dale, New York's most careful dramatic critic is speaking of her performance in Polander Walk said, "the greatest young actress in America." She has in her support such well and favorably known names as Arthur La Rue, Arthur Price-Ripple, Burt L. Robinson, Edna M. Holland, (daughter of the late E. M. Holland), Leonora Gentz, and Dorothy Baldwin. The entire production was designed by Mr. Seymour Parker of Daly's Theatre, New York.

WOMANHOOD THE GLORY OF THE NATION

J. Stuart Blackton and Cyrus Townsend Brady's soul stirring production, "Womanhood the Glory of the Nation," featuring Alice Joyce and Harry Morey, and a long list of famous screen stars, is announced for exhibition at Griffin's this Monday and Tuesday.

"Womanhood" is the supreme revelation of the three noblest passions—motherhood, love, Right from the love of the screen," it depicts the love of a maid for a man, the love of a mother for her child, and the love of a woman for her country.

So vivid is the story, so gripping is the intensity of the action, that it conveys to the mind and heart emotions as vital, and thoughts so powerful that its presentation will leave its indelible impress on your memory. At a time when the big world movements are converging to a crescendo, and democracy, this highly dramatic spectacle will be a moulder of sentiment of the country, an inspirer to the people and perhaps the mightiest force to strike home the imperative needs of the moment.

Graham Not a Friend of Labor

To The Editor of Intelligencer:

Belleville, Nov. 24th, 1917.

Dear Sir,—For the purpose of enlightening working people who are supposed to be holding up Mr. Graham as their staunch friend at the election, I take my pen in hand to let them know that Mr. Graham is no friend of the old people, and the following is the proof:—When Mr. Graham was Mayor I got the City Council to pass a resolution recommending the passage of an old age pension measure by our Dominion Parliament. Mr. Graham was in the chair. Mr. Graham put the question to the Council and it carried nearly unanimous. Mayor Graham remained silent and did not sign the document.

I believed the old age pension measure ought to have the Mayor's signature and therefore I went up to Mr. Graham's office and asked for his signature and Mr. Graham refused to sign on the ground that he did not believe in old age pensions, although I used very impressive arguments to the effect that labor is always discounted too much by the employer in wages and is further discounted too much from the high cost of living, and they are justly entitled to at least a portion of their own discount returned to them in old age. Although he admitted his justice he would not consent to the reward and would not sign an old age pension as Mayor. There was a witness present that heard every word. Therefore the old age pension had to be handled by Mr. E. Guss Porter with the recommendation of the Council only and without the signature or sanction of the Mayor.

Now, what better proof of the infidelity of Mr. Graham than the evidence I have herein written and proved that Mr. Graham is not a safe man to trust in the House of Commons, we would not be represented at all. I have been asked why we don't run a Labor Candidate in this Riding and I will say and have repeatedly said that we have got one in Mr. Porter, and I say Mr. Guss Porter, and I feel proud of living in a city that is represented by a representative that passed the first old age pension measure on the order board of the Parliament of Canada and also introduced on the floor of the House of Commons the justice we demand and co-operated with Mr. Bordean in organizing a committee to deal with old age pensions which was successful in reporting favorable, but owing to the Finance Minister complaining of shortage in his finances the old age pension was allowed to stand over but as the finances at present are overflowing with revenues and other sources it may come up with soldiers' pensions the next session and be passed.

When Mr. Porter's services is not required at Ottawa, you will all find him in the courts pleading for justice and damage for working people that had been injured by big corporations. His clients are always the poor and distressed for whom he is always successful in getting redress. The case against the C. N. O. R. and C. P. R. ought to be brought on by the City Council but was brought on by the freshet sufferers' themselves. Mr. Porter was successful in getting damages for each.

Now, sir, if I was to itemize all, your paper would not have space to hold it, and as I don't wish to monopolize all the space with arguments I will conclude, wishing that E. G. Porter may long live to represent us.

GREAT BRITISH AIR FEAT

LONDON, Nov. 22.—The Admiralty announces that a success-ful air attack in the vicinity of Constantinople has been fully accomplished by a large British bombing airplane, which flew from England to a British base in the Mediterranean in a series of eight flights. The stopping places included Lyons and Rouge, and the total distance covered was nearly two thousand miles.

The machine was actually in the air thirty-one hours. This is believed to be a world's record for a cross country journey and for the weight carried. During some parts of the flight strong winds and heavy rainstorms were experienced, and there was one stretch of two hundred miles over a mountainous country where it would be impossible for any machine to land.

It is regarded as practically certain that the U. S. Congress will take up the question of extending the draft law to cover men who have attained the age of twenty-one since it was enacted. Should this be done it is probable that perhaps 600,000 would be added to class number 1 automatically by next March.

You don't like the cheap tea you are using. Do you?

Pretty Poor Tea, Mother

Before the war so increased the cost of living, many people used to drink better tea than they are now using.

Perhaps, this is true in your case?

Of course, you are not drinking poor tea because you like it, but because you think it necessary to save money.

But, are you really saving anything?

Cheap, common teas only make about 150 cups to the pound. You are lucky if you can stretch them out to 185 or 200.

On the other hand, Red Rose Tea easily makes 250 cups. It goes further because of its fine quality, consisting chiefly of Assam teas, the richest and strongest in the world.

You may almost doubt if so many cups of tea can be made from a pound of even such good tea as Red Rose, but you can readily prove the economy of Red Rose without waiting for a package to be used up. Just use a few leaves less of Red Rose for a brewing than you use of common tea—the result we are sure will please and surprise you.

Study the Inside Nerves

WITH the brain as its centre, the nervous system reaches out to every organ of the human body. From the spinal column and from the various nerve centres the thread like nerve fibres find their way to every nook and corner of the body, controlling all movements and action, and making a living being of the mass of flesh and bone.

Without the nerve force which is manufactured in the brain there could be no beating of the heart, no breathing of the lungs, no digestion, no activity, no life.

It is only when you think of the nervous system in this way that you begin to realize its true importance and to appreciate the far-reaching effects of any derangement of the nerves. Any break in this connection with the brain, or any pressure on the nerve fibres to interfere with the transmission of nervous energy, means helplessness or paralysis of the part affected. It may be the loss of power to use the hand or failure of the stomach to do the work for which it was intended.

If there is ever a time when sympathy is needed it is when the nerves give way. But you must have more than sympathy if you are to recover your nervous energy. The feeble, exhausted nerve cells must be nourished back to health by the use of such treatment as Dr. Chase's Nerve Food.

This treatment is so gentle and natural in action that it admirably suits the delicate condition of the exhausted nervous system, and at the same time is wonderfully potent in restoring vigor and strength.

A little patience is necessary in order to build up the nervous system so far run down, but as headaches disappear, digestion improves, and you rest and sleep better, you will be encouraged to continue this treatment until restoration is complete.

WHAT UNION GOVERNMENT STANDS FOR.

The Union Government offered the only solution for a vigorous and sustained prosecution of the war. Opposed to this was the Quebec attitude of "not a man, not a dollar." To give them credit, they have fairly well lived up to it.

Again, the platform enunciated by the Union Government is one that we can whole-heartedly support. It embraces:

Abolition of patronage.

Franchise to women.

Adequate taxation of war profits.

Progressive policy of immigration.

Care and provision for returning soldiers.

Development of transportation.

Reduction of excess profits.

Development of Canadian resources.

Co-operation in agricultural production, with a view to the reduction of cost.

Adequate consideration for the needs of the industrial population.

Policy aimed at bringing the east and the west to a closer understanding.

That platform is a commendable one. It appeals alike to the Liberal, Conservative, Independent and Labor elements. It is broad enough for all to vote on. It is worthy the support of all loyal Canadians. It should be given a fair trial.

A vote for E. Guss Porter is a vote for Union Government and the larger Canadianism.

WEST HASTINGS ELECTION—MR. GRAHAM'S ADDRESS.

Mr. Graham, in announcing his candidature for parliamentary honors, has issued an address in which an explanation is given why he came to the conclusion that it was his duty to enter the contest, which explanation is not only innocent, bland and child-like, but worthy of the proverbial heathen Chinese, whose ways are described as "cunning and peculiar." It is as follows:

"Having been advised that the executive of the Conservative Party in this district are desirous of the Liberal Party in endeavoring to avoid an election by the selection of a candidate that would be acceptable to both parties, I have decided to offer myself for election, without any political recognition."

Nonsense, Mr. Graham! This reason is the personification of innocence. Surely it was not necessary for you to have been "advised" of what had taken place in reference to the securing of a Win-the-War candidate to contest the West Riding of the County of Hastings at the coming election. You are a student and reader of current events, hence must have known that the intellectual giant, the

NO FRIEND OF THE SOLDIER

It seems incredible that in the loyal constituency of East Hastings a man should be found who would accept the nomination as a Laurier anti-conscription candidate. Mr. Cross, who has the unenviable distinction, says that if elected he will work for the repeal of the Military Service Act. Think of it—a candidate in East Hastings who appeals for votes on the ground that if elected he will support the forces pledged to desert Canada's soldier sons overseas! Candidates of this stripe are common enough in Quebec, but they are mighty scarce in the rest of Canada, where supporters of the Quebec policy are careful to cover themselves with various disguises in an effort to deceive the electors.

What do you electors of East Hastings, particularly those of you who have loved sons and relatives wounded and others who have given up their lives in defence of their country, think of a man asking your vote under the circumstances.

SUPPORT APPROVED UNION GOVERNMENT CANDIDATE

The Toronto Globe in its issue of the 23rd inst. advises Canadians who wish to prevent the calamity of repeal of the Military Service Act by Sir Wilfrid Laurier "to rally to "the candidate who bears the Government's seal of approval."

Mr. Porter is the only candidate in West Hastings who has the Union Government's seal of approval. A vote for him is the only way to support Union Government.

of a non-conscriptionist leader, even though it might be Sir Wilfrid Laurier. He had suffered too long in the trenches, returning to his home only on account of ill health, to become the cat's paw of a party desirous of dragging Laurier out of a fire in which he was burning his fingers.

What followed? A few days elapsed, and finding their little scheme was fully understood, three of the others, two of whom should have known better, sent a letter to the officials of the Liberal-Conservative Association of West Hastings requesting concurrent action in the selection of a Union candidate, knowing at the time, that following the example set them by the Liberals, they had called a meeting of the Conservative party to be held in Marmora to select a Union-Win-the-War candidate.

This small piece of political jugglery was too transparent to humbug and deceive anyone. The overture made under such circumstances was rejected, and properly so. The electors may fairly ask "Is it possible that in these days of reading, Mr. Graham did not know what was transpiring in the Riding which he seeks to represent,—particularly as they were fully discussed by what is now considered his political organ and godfather?" Hence it was not necessary that such an astute politician should hold of be "advised" of passing events before making up his mind what he would do. To use a common but expressive phrase, "It's too thin" to bamboozle even Grits or sorehead.

Bank Of Montreal Reports Assets In Excess Of $400,000,000

Following 100th Anniversary, Bank Makes History by Establishing New Records in all Principal Accounts. Liquid Assets Equivalent to More than 70%—Deposits Continue to Expand Steadily.

MONTREAL, Nov. 21.—(Special)—The Bank of Montreal, following its 100th anniversary, is out with its strongest statement and establishes new high records in all principal accounts.

The position shown by an examination of the statement for the fiscal year ending October 31st, 1917, is as remarkable as it is reassuring.

Hand in hand with tremendous gains in assets—making it possible for the Bank to report total assets in excess of four hundred million dollars (the first time such a figure has been reached in Canadian banking) it has developed a position of still greater strength as represented by liquid assets equivalent to over 75% of liabilities to public. At the same time the various accounts reflect the large and important undertaking in connection with the war, which the Bank is carrying out on behalf of the Dominion and British Governments. It has also been possible to meet the larger requirements of customers as evidenced by a substantial gain in current loans.

STEADY EXPANSION OF DEPOSITS

On the other hand it is evident that the Bank has benefited from the maintenance of such a strong position, as the savings accounts of the people of the country continue to pile up steadily and now amount to over $246,000,000, an increase of almost $36,000,000 for the year, or at the rate of close to $3,000,000 a month.

It is doubtful whether any Canadian bank has ever had such complicated problems to work out as they have had during the period of the war. As the bankers of the Government, the Bank of Montreal has evidently assumed its full share in providing for the country's needs, as indicated by an increase of twenty-eight million dollars in the value of Dominion and Provincial Government securities, an increase of seven million in the Deposit in Central Gold Reserves; balance due to the Dominion Government of $13,638,962, the latter account appearing for the first time in the Bank's statement.

The Bank has perhaps rendered a still greater service to the country by keeping itself in such shape as to create complete confidence in Canada's financial position during a most trying period.

SUBSTANTIAL GAIN IN EARNINGS.

The profits and loss account shows that earnings allow a comfortable margin over the dividend and bonus requirements. They are substantially above those of the previous year. The net profits for the twelve months amounted to $2,477, 969.09, equivalent to 15.49% on the paid-up capital. Added to the balance of profit and loss, they brought the total amount available for distribution up to $3,932,292. Of this amount, dividends and bonus required $1,920,000; war tax on bank note circulation, $160,000; subscriptions to patriotic fund, $73,500 (of which paid $47,500); reserve for bank premises, $100,000, leaving a balance to be carried forward into the new year of $1,664,823, as compared with $1,414,423 at the end of the previous year.

FEATURES OF GENERAL STATEMENT.

The principal accounts and comparison with those of the previous year are as follows:

"I FEEL LIKE A NEW BEING"

"WRIGHT-O-TYDOL" Brought The Joy Of Health To Mr. Lapalme.

Mr. Rene Lapalme,
93 St. Rose St., Montreal, April 6th.

"For over two years I was sick and suffered from a terrible form of Indigestion, and had Palpitation of the Heart so badly that I feared I would die. There was times when I was a lump in my stomach and the Constipation, terrible. I suffered from Pain in the Back and Kidney Disease.

I was treated by a physician for a year and a half but he did me no good at all.

I tried "Wright-O-Tydol" as a last resort. After using three bottles, I was greatly improved and twelve bottes made me well. I work all day and there are no Headaches, no Palpitation, no Heart Trouble, no Constipation, no Pain or Kidney Trouble and I feel like a new being—and it was "Wright-O-Tydol" that gave me back my health".

ELECTION CAMPAIGN AMONG THE SOLDIERS

Canadian Soldiers Overseas Taking Lively Interest in Election —Laurier Manifesto Issued By W. T. R. Preston Makes Charges—Voting Begins at Once

LONDON, Nov. 24.—The political contest among the Canadian soldier electors here began to grow really lively Tuesday, when manifestoes began to be issued on behalf of both the Laurierites and Bordenites.

The Laurierite manifesto, is signed by W. T. R. Preston, who announces that he acts for the "London committee, which is representing Sir Wilfrid Laurier and the Opposition candidates."

It charges that the Union Government has authorized Canadian Officers holding "safety" jobs in England to organize the soldiers vote for the Government and to manipulate it so that it may be utilized in doubtful constituencies. A strong appeal for votes for Laurier is made on this ground.

The Government Manifesto

The Borden manifesto says:

"Discussion of Canada," Soldiers and comrades:

"This is our election because the only issue is selective conscription. Without its immediate enforcement, there can be no rest or relief for Canadians at the front. Vote for the Unionist Government which is pledged to and is already beginning, the selection of drafts.

"Sir Wilfrid Laurier, leader of the Opposition, is opposing this. He says: 'My policy will be not to proceed further under the provisions of the conscription act until the people have had an opportunity to pronounce upon it by a referendum.'

"That would mean at least twelve months' delay. What would become of our victorious army corps, in the meantime? It would dwindle and disappear.

"The Union Government is neither Tory nor Tory. It is composed of the following former Liberals and Conservatives, (List follows) also Labor, Senator Robertson. Every provincial premier except the Premier of Quebec, is supporting the Government. Other prominent public men support the Union Government. The list includes H. M. Mowatt and A. J. Young, and also "a host of others."

"Who are then supporting the opposition? Mainly those who are not willing to take their share in the fighting. Soldier, do you want to be behind fellows of such men?"

Allegations Denied

When questioned regarding Mr. Preston's allegations affecting the High Commissioner's office and the soldier's vote, Sir George Perley stated definitely that no instructions whatever had been issued to officers or men in connection with the approaching elections.

Magnificent Response to Victory Loan Arouses Enthusiasm at Toronto Headquarters

The following telegrams were received at the local Victory Loans headquarters on the occasion of Hastings County passing the million dollar mark:

Toronto, Nov. 23, 1917.
W. B. Deacon, Esq.,
Chairman, Canada's Victory Loan,
Belleville, Ont.

Many happy return of your first million; may your generous example be followed by many millions. Your good old county is responding splendidly to leadership and determination. May the last half of your campaign be even more intensive that the first for the need is great and Ontario's dollars must back Ontario's sons.

G. H. WOOD,
Chairman Ontario Committee.

Toronto, Nov. 23, 1917.
W. B. Evans,
Organizer Canada's Victory Loan,
Belleville, Ont.

Last night our campaign passed the half-way post with Ontario having rolled up the magnificent total over seventy-six millions. Accept for yourself and those working with you my heartiest congratulations on your part in this great work. The real hall of the race will be the hardest, but we have utmost confidence in your county and in the power of your city. Ontario to keep up the splendid present pace until the finish.

G. H. WOOD,
Chairman Ontario Committee.

The Old Scratchy Needle

WHO to-day wants a talking machine equipped with a digging, scratchy needle that wears out your best records and necessitates the nuisance of ever changing needles. The Pathe genuine smooth polished Sapphire Ball never wears out, never requires changing. It reproduces the music in richer, more natural tones—for it completely fills the grooves of the record and gathers the music from a greater surface of contact, so that it does not lose the slightest shading or tonal effect.

Thus does this Pathe' Sapphire Ball give you better music and more enjoyment from your instrument, as well as ensures longer life to your records Here's the Pathe' guarantee:

"Every Pathe' Record is guaranteed to play at least one thousand times without impairment to the unqualified beauty of tone."

Pathephone

If you are planning to buy a phonograph, you should certainly hear the Pathe'. You will be enchanted by its wonderful tone. If you already have a phonograph, it can be easily equipped to play Pathe' Records—or — better still — any Pathe' agent will make you a liberal allowance for it in exchange for one of the new Pathe Period Designs

Send for the PATHE' CATALOGUE. It contains scientific explanation of exclusive and right methods of recording and reproducing sound, together with interesting chats on Period Furniture. Will be mailed free upon request.

BOLSHEVIKI REQUEST FOR AN ARMISTICE

Commanders Told to Negotiate With Enemy at Front—Allies Refuse Recognition—Trotsky Sends Nervy Demand For Revised Allied War Aims

PETROGRAD, Nov. 24.—The Russian Government has ordered General Dukhonin, the Commander-in-Chief, to open negotiations for an armistice with the commanders of the enemy armies. The proposal to negotiate peace was officially conveyed to the Ambassadors of the Allied nations at Petrograd.

The formal offer of an armistice to all the belligerents is not interpreted to forecast any effort toward a separate peace. On the contrary, it is considered definitely here that not only is a separate peace not desired, but that the rejection by Germany of the armistice proposal would mean a renewal of the war by the new revolutionary army with vigor against German imperialism, until the German people, "inspired by Russian democratic ideas," overthrow their rulers and demand peace.

London, Nov. 24.—An official wireless statement from Petrograd today says that General Vlkhonin has been deposed by the Council of the People's Commissaries for "refusing to obey their orders by offering an armistice."

THREE MONTHS' ARMISTICE

Confidence is expressed here, however, that Russia's initiative will bring the desired results, if not with the Allied Governments, then through the insistance of the people of the Allied countries, who, it is predicted, will bring pressure to bear on their Governments.

DEMANDS REVISED WAR AIMS

Copenhagen, Nov. 24.—The "Foreign Minister" of the Russian Bolshevik forces, Trotsky, has sent a message to all the Allies asking a revision of their war aims, and threatening that, if his request is not answered, the Bolsheviki will consider that they are justified in making a separate peace. A message to this effect was received here today from Haparanda.

ALLIES IGNORE BOLSHEVIKI.

Washington, Nov. 24.—The Allied Governments have refused to have any relations whatever with the Bolshevik administration in Petrograd, refraining from recognizing it even as the de facto authority. Leon Trotsky, Maximalist Foreign Minister, received a buff from the British Ambassador to Russia, who declined to receive a visit from the Bolshevik official.

MILITARY APPOINTMENTS

Major W. J. McManus, Garrison Adjutant, Kingston, is absent in Belleville on duty.

Serious Illness Avoided

Many a serious illness has been avoided by the prompt use of Dr. Williams' Pink Pills. These pills actually enrich and purify the blood, and in this way build up the system, tone and strengthen the nerves and prevent the vital organs.

Serious diseases generally come from some simple disorder that has been neglected. Therefore any thinning of the blood should be looked upon as a warning sign, and more serious illness should be avoided by the use of Dr. Williams' Pink Pills. Even in the case of young girls and women the blood is peculiarly liable to get out of order—to become thin and watery—and to lead to a general breakdown in health. This may be avoided by the occasional use of Dr. Williams' Pink Pills, which are suitable for the most delicate constitution. These pills will give you a new appetite, improve your digestion, tone and strengthen your nerves, banish depression and lack of energy, clear the complexion of pimples and blotches, and bring back and keep a general weakness, cause the disappearance of headaches, dizziness and heart fluttering. Give these pills a fair trial and you will soon note a wonderful change in your condition. Your spirits will brighten, good-health and strength will return, and you will feel like a new person. You can confirm these statements by enquiring among your friends almost anywhere, as thousands and thousands of hopeless sufferers have been restored to new health and energy by using Dr. Williams' Pink Pills.

You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WHEN FLAX WAS USED FOR THE MAKING OF HARNESS

Stopped in the Woods by a Log Fire at Night Until First Sleety Was Built—Early Days in this District When Our Forefathers Conquered the Wilderness

The first court of King's Bench that ever assembled in the counties of Northumberland and Durham was held on a farm on the premises of a Mr. Rose, who then resided in the now prosperous township of Hope. Upon this occasion it is told that the Judge (Mr. McGregor Rogers), lawyers, and other officials, chose sides and played a game of ball to determine who should pay the expenses at a dinner. Ephriam Gifford, a man well-known throughout the country, acted as constable upon that occasion. The county of Northumberland at this time extended as far north as there were any settlers, and included East and West Peterboro.

Previous to this, however, there was a Court of Assize for the Newcastle district, in which Northumberland and Durham counties were included, held in the year 1801. In an act of Parliament, passed July 7th, 1800, and called "an act to provide for the administration of justice in the district of Newcastle, there is this clause, "that it shall be lawful for the authority aforesaid, that jail and court house for the district of Newcastle in such a manner, and under the same rules and regulations, as are provided by a former act."

The First Newcastle

This town of Newcastle was at Presque'Ile Point, near Brighton, and the jail and court house built there are said to have been the first constructed in the district between Kingston and Toronto. It was built by Captain Tulloch, acting under instructed from the Lieut. Governor, and was a log structure, which was afterwards used as a barn. A part of the foundation is said to remain to mark the historic spot. After the fatality on the lake and the loss of the schooner Speedy, en route from Toronto, or rather York, to Presqu'Ile, with the Judge, Solicitor-General, prisoner, counsel and witnesses all of whom were drowned, court was never again held at this place.

A plan of this original town of Newcastle (which, however, never materialized) was filed in the office of the Registrar at Colborne. There was included in the plan lots for a church, market, school, burying ground, prison and rectory. Thus did these early settlers of our county try to provide for the needs of the generations who would succeed them.

When Cobourg Began

It is said that after the loss of the Speedy the place of court was removed to Cobourg, which place then went by the name of Amherst. Cobourg is also said to have been known in early days by the names of Hamilton and Hamilton, after Peter Hamilton, who was an acting Governor in Canada in 1785 and 1788, and the whole township of Hamilton, to which Cobourg is attached, is named. The more homely name of "Buckhorn" was colloquially applied to Cobourg also, but this name does not appear to have ever been sanctioned by authority. Hamilton and Haldimand townships, Cobourg and Port Hope all received a few settlers in the last two decades of the 18th century.

Among the greatest difficulties of the early settlers in the locality was that of finding a market for their produce. Residents here had the advantage of those farther back from the lake, as they could go by boat to Kingston, and thus be one of the nearest points of call. In 1794 a mill was erected at Belleville, which served the settlers on the lake front between that place and York, or Toronto, and shortened the distance by about forty miles.

Slept by Log Fire

Four families, who settled in Haldimand township, on what is known now as the Kingston road, before the year 1796, had no home to go to on their arrival but the wilderness. With others they spent a winter at Sorrell, then a year in Prince Edward county they pushed farther west. At nights they slept beside a big fire that they served the double purpose of warmth and of keeping at bay the wild animals that were then numerous. On arriving at their location trees were cut down, and log shanties built. These were covered with boughs and were soon ready for occupation.

Many of the early settlers were good hunters, and consequently their tables were supplied the year around with an abundance of game. A good description of one of the oldest, at present one of the best known families of the locality, tells that his late grandfather's eldest brother and other contemporary young men were their hair at full length, braided and hanging down the back, and that those who could afford it adorned this with a ribbon on the Sabbath. One of these young men, being of an independent turn of mind, electrified all the settlers in the locality by one day appearing shorn of his long tresses. At first he was laughed at, and regarded for a time as we now do the ultra-fashionable young dude. But he had the honor of setting the fashion, and it was not long before the male population adopted the same style. Tonsorial supplies was a very meagre in those days, and methods of barbering primitive. There were mothers, it is said, who solved the difficulty by combing their boys hair down straight, fitting a basin or a sea cut article over it and then with a sharp pair of shears "mowing," a swath around."

Old-time Shoemakers

Travelling shoemakers went from home to house, finding usually a week's work in each. Getting out his kit of tools, he would sit quietly down and proceed to make shoes for each member of the family. "There were no "lasts" used in those days," in fact the material used was reliable and substantial. Some settlers themselves made their skin, out of which foot wear of the entire families was made.

The settler, as he started out on his

DISTURB MEETINGS

Evidently there's an organized gang of young men and boys in Montreal whose business it is to go from meeting to meeting of Ministers of the Crown or Government for the deliberate purpose of causing an uproar and interrupting the speakers. Last night it was the Hon. C. C. Ballantyne's turn to experience this disturbing element. He held a meeting in the Auditorium Hall. The gang entered in large and noisy numbers, and howled and yelled and asked impertinent questions, and made all the remarks possible, yet with a number of policemen within call, if needed. The performance was a disgrace to the city. A young fellow from arrest. Bernard Rose, the chairman called them con-

ELECTION DEPOSITS SEIZED

The official deposit in money made by candidates in the Dominion election at election have been seized for debt. The deposit of Mr. P. Burns, of Quebec City, Dominion candidate in Bonaventure County, Quebec, has been seized for debt, as was that of Mr. H. Grenier, also of this city, candidate in Bellechasse on the Unionist ticket.

WAR ECONOMY IN ELECTIONS

The cries of extravagance are going up all parties are united to bring about the end—to win the war. The sentiment manifested in the House of Commons was in evidence. We are spending vast by sums in the munitions factories and we are willing to be extravagant in winning the war without delay.

One thing upon which we are fully agreed, to retain out of that flood of money, food and work; just enough only upon the necessities of the war. It is the part of patriotism to deny ourselves any considerable expenditure that is fruitless in the direction.

Now there is a very large expenditure largely over-done in the way of a general election. In these days when we shall energize with bread, beef and bacon, men who will spend thousands of dollars in efforts to win the country's hands off our throats and to get our hands on the, but in wrestling with one another? Is there much in anything that we need to wrestle about, but just from force of habit, to satisfy the idea that an election must be a contest of political force.

The question is how to carry through an election in a war-time country? That is the problem. The usual expenditure of time and money. When we once get going an election it is like a low cut, there is no saying how much it will cost. Let us therefore settle it out of court. Much of an election is settled beforehand anyway. For a majority of the people the result is usually not in doubt. One of the candidates is only brought forward to make the party flag. Both seats might, on the present occasion be properly filled by acclamation. The question is whether all seats should not the managers who support the Union Government, come to an agreement as to the seats which that it will be futile for an unreconciled minority to contest the election.

Canadians To Vote In U. S.

OTTAWA, Nov. 24.—For the first time in the history of the Dominion Canadian polls will be established in the United States. Many Canadians have joined the Royal Flying Corps, and are stationed in one of the Southern States. For these, military polls will be established, and the men will cast their vote in the elections as though still in Canada. Further, once a soldier leaves Canada his female relatives are entitled to vote. Therefore, female relatives of Canadians in the States will vote as well as the soldiers themselves.

A fine programme of dances was arranged for, in which all present took part. At midnight a dainty lunch was partaken of. The Patronesses were Mrs. (Col.) S. S. Lazier, Mrs. W. B. Clarke, Mrs. G. N. Simmons and Mrs. J. L. Ticket.

ANOTHER ADDED TO THE LIST.

On Sunday last another name was added to the ever-growing list of Prince Edward County boys who have made the supreme sacrifice when Clifford Wilson, only son of Mr. and Mrs. A. B. Wilson of Hallowell, was reported killed in action in France on November 4th. Clifford Wilson was one of the Prince Edward boys who enlisted with the 254th Battalion. He went overseas with this battalion last spring and had only spent a few weeks in France before he was killed. Before enlistment he spent some years with the Bank of Nova Scotia, entering that institution at Wellington, later being transferred to the branch at Picton. He was also for a time at the head office, Toronto.

He was well known throughout the county and was very popular among his associates as with the public generally.

The annual meeting of the Belleville Golf Club was held in due form some months ago and officers elected. This was duly published at the time by the Intelligencer, and the copy carefully filed away in a pigeonhole for reference. This week, during a burst of housecleaning and the galley copy was disturbed, and from the tomb of dead copy managed to find its way among the live ones and it seemed to the current columns of the paper. The same old members are in office, but have not been re-elected and the incident only goes to show that people who think that golfers are all "dead ones" may be considerably surprised on investigation to find them very much alive, and many a "dead one" owes his resurrection to the good old game of golf.

DEATH OF AGED GENTLEMAN

Mr. James P. Roblin, father of Sir R. P. Roblin, ex-Premier of Manitoba, passed away yesterday morning at his late home in the Township of Sophiasburg, Prince Edward County. Deceased was one of the oldest residents of that county. In the year 1837, nearly 85 years ago deceased was born in the township where he died. He was a U. E. Loyalist descendant, and a gentleman who loyally upheld the patriotic traditions of the first settlers in this section of the country. Mr. Roblin was well known and deservedly popular, with a large circle of friends. Deceased was a member of the Methodist church. Mrs. Roblin predeceased him a few years ago. At the funeral services on Monday, Rev. J. P. D. Wilson of this city, will assist.

THE NELSON CROSS

Dr. Anderson, formerly a chaplain in the British Navy, called at the office of the Intelligencer today and decorated the proprietor with the Nelson Cross of Duty and Honour. The Chaplain feels how much he is indebted to the press who so freely give space without charge to advance his work. Without the newspapers the work would not be the success it is and the very courteous treatment received at the hands of the city papers of Belleville is greatly appreciated by Dr. Anderson on behalf of the Society he represents. The Nelson Cross of Duty and Honour is in the form of a Maltese cross and is made of copper. This copper is taken from the British ship Victory, the ship on which Nelson fought the battle of Trafalgar and won it, the ship on which he received his death wound. The Victory is still in service and is now stationed in Portsmouth harbour and is visited by thousands yearly. It is also a training school for the boys of the fleet. A few years ago the ship was taken in to dry dock to be repaired and all the copper on her was stripped and at the instigation of King Edward the Seventh was presented by the Lords of the Admiralty to the British Sailors Society. Then the copper was equally distributed among the various ports of the Empire. This cross of which the recipients are duly proud, was cast in the year 1916 and is inscribed with the names and dates of the battles of Trafalgar and Waterloo. On the reverse side is the names of our allies as they were then. The cross cannot be purchased but is given to those who assist the society.

THE ONLY MEDICINE FOR LITTLE ONES

Mrs. H. Blanche, St. Pamphile, Que., writes:—"I have obtained great results from the use of Baby's Own Tablets. They are the only medicine I know of that one can depend upon to promptly cure bowel and stomach troubles. The Tablets never fail to relieve the little one and besides the mother has the guarantee of a government analyst that they are absolutely safe. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

After taking 1000 ZUTOO TABLETS Says they are flarmless

(Mrs. (Col.) Sherrill, of Coalicook, says "Zutoo Tablets must have cured $50 of my headaches, for I have taken 1000 tablets. After trying every remedy within reach, I discarded them all four years ago for ZUTOO, which I have taken ever since.

I find the tablets a harmless and efficient cure for all kinds of headache.

25 cents per box—at all dealers.

The Markets

The attendance upon the market today was not large, owing no doubt to the somewhat inclement weather. Prices were good for all produce offered for sale, and in the majority of cases were the same as a week ago. Fresh eggs were in better demand and sold rapidly at from 55c. to 60c. per dozen. Our quotations are as follows:

Musical Event Of The Season

Great War Veterans Present Mme. Gardini Concert Co.

The Women's Canadian Club, Patriotic and Red Cross Societies, Rainbow Knitting Circles and The local Chapters of the I.O.D.E. are working like beavers, and leaving no stone unturned to make a huge success of the Great War Veteran's Association operatic concert on Wednesday evening next, and this will undoubtedly be the musical event of the season. The War Veterans are to be congratulated on being fortunate enough to secure the services of the Madame Gardini Concert Company, who are playing but twelve (1) cities in Canada; Mme Gardini is today one of the foremost Opera Stars of the world; and for the past year Madame Gardini, Ignace Padeyewski the world famous pianist, and Sarah Barnhardt have given a genuine portion of their time and services free for Patriotic purposes throughout the continent.

The citizens of Belleville should turn out and pack the Opera House to S.R.D. next Wednesday in reward for the tireless efforts of the ladies and for so worthy a cause as the Great War Veterans' Association.

The Madame Gardini Company give their services free to the boys, and therefore every penny over and above actual expenses will go to the G. W. V. A.

A SET OF

Special Order Drapes

Miss Early Shopper Says:

I have just had the extreme pleasure of a view through the second floor of The Ritchie Store, and I must say that it was a most utterly impossible for any advertisement to do credit to the magnificent assemblage of Gift things for the Home displayed there. I must, however, tell you of one thing I did see. It was a Beautiful Cushion that measured 20x20 inches and was covered with prettily patterned sateen and all around it's edge ran a Rose Cord with Rosettes in every corner—and what do you think? The price complete was only $2.95!

Miss Early Shopper

What a wonderful present to hang at some window of your home on Christmas morn. We are prepared to make them up at the shortest notice from our large stock of artistic Drapery Fabrics.—2nd Floor.

Eiderdown Comforters

VOL. 83 BELLEVILLE, ONTARIO, SATURDAY, NOVEMBER 24, 1917. NO. 118

A Victory Bond Helps Pave the Way to Berlin!

FIRST DRAFT WILL BE IN KHAKI ON DECEMBER 28

Class A Men Will Report for Actual Service Three Days After Christmas—A Pen Picture of Military Life—The Boys Like it

On December 28—three days after Christmas—several thousand young Canadians coming within "Class A" under the Military Service Act will lay aside their semi-Norfolk suits, white collars and colored ties and don the sober khaki habit of a new way of life. At least this is the approximate date, according to the latest forecast of the Government's plans. With the memory of Christmas turkey and plum pudding still lingering pleasantly in their minds these young men will line up, form fours, and march off to an entirely new world, where one eats out of a mess tin and sleeps o' nights on a palliasse filled with straw.

What a complete revolution in their manner of living and their status in the world this involves will become apparent to most of these young men only after their first few days of squad drill under the eye of a hypercritical drill sergeant and their first tour of "fixed duty."

The apparent loss of his identity as a separate reasoning individual will be the first jolt to the ego of Henry Jones, Frank Wesson, or perhaps been very largely his own boss in the world, where hitherto he has earned his daily bread and butter and lorded it a bit over his fellows.

When Henry Jones arrives with a variously garbed lot of other young men at the headquarters of his depot battalion he is assigned to a company and instructed to report to the company quarter-sergeant for his uniform and kit. He receives no more deference from the quartermaster sergeant than any of the other young men. It rather piques him to note that the C.Q.M.S. is apparently unaware of Mr. Jones' superiority to the ordinary man in the ranks. He goes on his uniform, finding it necessary in the process to obtain some advice on the matter of winding puttees so that they do not look like a tangled typewriter ribbon. He glances over his kit and finds that it includes a mysterious contraption called a "housewif," containing needles, threads, buttons, etc. The inference that he is expected to mend his own clothes rather startles Henry Jones.

First Squad Drill

Presently a loud-voiced individual (known professionally as the "orderly sergeant") comes through the lines shouting like a town crier:

"All new men will parade immediately on the square in the orderly room. Look lively now, you fellows!"

And Henry lines up with the other men, now clothed like himself in khaki and looking strangely similar, but he feels awkward and uncomfortable in the coarse serge uniform. There is a strange sense of something lacking in the region of his neck, where he has been used to feeling the smooth surface of a starched collar. The jacket is loose and distinctly ill-fitting. He devoutly hopes that he does not look as unstylish as those other chaps. But glancing along the line he cannot avoid the feeling of belonging to the staves in a picket fence.

How Discipline Works

Then one is insulted thus;

"Number seven in the front rank! Look up! Look up! Never mind your feet. They won't bother you if you don't bother them."

Henry looks up with a start and a flush—His impulse is to step quickly off and settle the matter in question once and for all. But somehow he is rooted to the ground. And the sergeant goes imperturbably on. He "went over the top" at Courcellette, and bears two gold stripes on his sleeves for wounds received in action. And very soon Henry and the rest of the squad are marching briskly up and down the length of the parade ground with an energy that precludes the maturing of uncharitable designs on the sergeant and a monotonous chant which becomes the sergeant's staccato 'A—bout turn" as a thirsty man does a drink of water. Henry begins to understand the inner significance of the word "drill."

Responsibilities Serve.

What a relief it is to be free of the responsibilities that beset one in civilian life, thinks Henry to himself. No worry about clothes or food or housing. No bother with the landlady or the laundryman or life rather. One does one's little bit and takes what the gods in command provide. After the day's work is done, there is no worry about what comes next. Life lives from day to day.

And Henry suddenly becomes aware of the fact that he is feeling extremely well. The food, if not dainty, is wholesome and plentiful. The fresh air gives him a glorious appetite, and he sleeps at nights like a log. His body feels like a well-oiled machine, rejoicing in activity. He has never felt like that in the old life. He looks forward with equanimity to whatever task may lie before him. War does not seem such a formidable thing after all. It is merely the next day's work. He has no time to worry about fancied dangers and experiences in France, he feels confident that he can meet them as they come.

Swinging along on a route march, with the blood throbbing warmly through his veins, Henry fails to thinking it all over. After all, it is a wonderful system, this army system. The chain of authority stretching all the way down from the fountain head of responsibility through all grades to the private soldier. Each has his work, which each must do faithfully in letter and spirit, or else the machine will not go smoothly and body. In its different functionings, like a great department store, like a newspaper, life itself, when properly planned. The elimination of chaos, the establishment of order, the division of work.

Thus Henry thinks it over as he swings along on the march He is indeed just a humble unit in the vast machine. But he has his work to do. And later on, when perhaps he is called to greater responsibility, he will be ready for it.

$4,000 TO SALVEV CONSCIENCE

OTTAWA, Nov. 24—Four thousand dollars "conscience money" has been received by the Department of Finance, from—St. John, N.B. The amount is in four $1,000 notes. This is an exceptionally large amount of money to be thus received at one time by the department.

Must Not Treat Draftees Harshly

Military Orders Put Check on Inconsiderate Treatment

TORONTO, Nov. 24.—Anyone who has been cherishing the viewpoint—and there are some—that the draftee army is to receive treatment at the hands of the military authorities which will constantly remind them that they are not volunteers, and therefore not entitled to the same consideration as other soldiers, are doomed to disappointment, in view of an order which has just been issued by military headquarters. The order, which is published at the instigation of Major-General Logie; instructs all who come in contact with the draftees that the men are to be treated in a considerate manner, and are not to be reminded in any way that they are drafters or in any respect different from the soldiers who volunteered.

REPORTED DEAD; DENIES IT.

KINGSTON, Nov. 24. — Gunner Robert Campbell, who was reported dead on September 13, 1915, walked into the office of a local newspaper to deny the report of his death. He explained that he was severely gassed in the second battle of Ypres and was left for dead on the field. Later, however, he showed signs of life and was rushed to the hospital where he recovered. Campbell was born in Scotland, but was a resident of Kingston when the war broke out.

EXEMPTING CHEESE MAKERTS

KINGSTON, Nov. 24.—At its meeting the Frontenac Cheese Board decided to ask the Dominion Minister of Agriculture to use his influence to have as many cheesemakers as possible exempted from military duty, many in this district have been refused exemption, and the board feels that if this is continued the cheese-making industry will be seriously crippled next year.

PREMIER WILL REMEDY AN EXEMPTION EVIL

Premier Borden Proposes to Deal With Wholesale Slacking—Big Meeting at London—Faith Will Be Kept With the Liberals—Mother of Two Soldiers Spoke

LONDON, Ont., Nov. 24.—London gave Sir Robert Borden and the representatives of Union Government an impressive reception. The huge Princess Winter Garden was crowded to the doors and bedecked with bunting and patriotic streamers. It was a bi-partisan—or more properly a non-partisan—demonstration. The ovation of 5by night went to an eloquent and earnest lady, Mrs. P. D. Crerar, of Hamilton who, as the mother of two soldier sons at the front, made a thrilling appeal. The Premier likewise received enthusiastic acclaim, as did Hon. C. C. Ballantyne, Major Hume B. Cronyn, Sir Adam Beck, and Col. W. M. Garthshore, the Liberal chairman of the meeting.

Sir Robert Borden followed closely the lines of his Toronto address. Speaking of the origin of Union Government he said that he had it in mind in the autumn of 1915, but "Out certain incidents during the winter of 1916, of which I will not now speak, made it absolutely impossible to bring about Union at that time."

With the strong party sentiment which existed in Canada, Union was hardly ever possible until it became inevitable. He appealed to the people to give confidence and co-operation to the members of the Union until their great war aims were completed, and reiterated with additional emphasis his previous declaration that Ontario Liberalism and Labor were to secure immediate additional recognition.

"I desire to assure my Liberal friends through the Province of Ontario that the consummation of this promise will be brought about in the early future," Sir Robert declared. "And that organized labor, outside the railway organizations, will be adequately represented in the Government at no distant date."

JUTICE OF M. S. ACT.

Having reiterated his declaration that the election of the Union Administration would mean the carrying out of the Military Service Act, the Premier reminded the audience that it was much less drastic than the old Militia Act.

"We propose," he said, "to get the best service of which the men called out are capable." To this end 1,350 tribunals had been appointed to adjudicate upon claims for exemption.

"I am aware that difficulties have arisen," observed the Premier, "I am aware that certain tribunals have dealt harshly with men entitled to exemption under the purpose of Parliament. If a man can give better service at home he ought to be kept at home. I am satisfied that Canada will send forward the 100,000 men in detachments of 20,000, all out of the class already called out and without disturbance of the national interest. Every man unjustly treated by an tribunal has the right of appeal, and even if the three days allowed for appeal have gone by he may take his case to the Minister of Justice. It will be brought before the Appeal Court of the Province, and if necessary before the Supreme Appeal Judge, Mr. Justice Duff."

ADMINISTER JUSTLY.

"The Government has also a remedy," continued *Sir Robert, "and proposes to exercise it in the case of a community, district or province where exemptions have been granted indiscriminately, and by wholesale. (Cheers). It is the intention of the Unionist Government to see to-it that the Military Service Act is administered justly, considerately, impartially and firmly."*

Sir Robert Borden told the audience that he returned from Britain in 1919 "as satisfied that this war was going to take place as I was of my existence." The spoken word of any responsible man might, however, have meant the spark which would set the conflict ablaze, and that word was not spoken.

Women Are Aiding Union Government

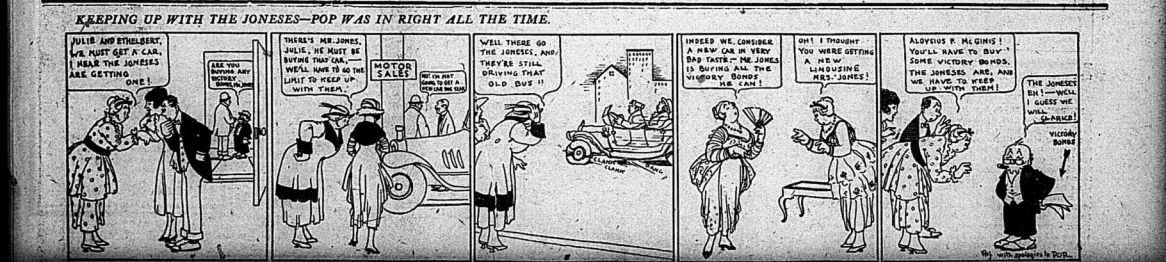
Conservative and Liberal Workers Have Joined Forces For Campaign

TORONTO, Nov. 24.—Negotiations which had been going on for a number of days culminated some days ago in the joining together of Conservative and Liberal women of Toronto in an effort for the period of the war to do all this lies may to bring about victory for the Union Government. Mrs. Arthur VanKoughnet and Mrs. Geo. G. S. Lindsay successfully worked together to produce this result, at the request of the officers of the Union Government General Committee of men.

Committee rooms have been opened in every Toronto riding, with a central committee room at No. 289 College street. Canvass books and all needed literature is ready. All women of Toronto anxious to help in this movement are earnestly requested to volunteer their services without any delay, to supplement the workers already in the field. It is felt that a thorough canvass should be made of the city before the lists of the enumerators are closed eight days hence, so that no one may be left off those lists who supports Union Government.

Under the old method of securing manhood franchise voters the registration of that vote was always the most vital feature of a campaign, and as enumeration has now replaced registration, that will now occupy the first position of importance.

KEEPING UP WITH THE JONESES—POP WAS IN RIGHT ALL THE TIME.



WHEN HELL BROKE LOOSE ON FLANDERS FRONT

War Correspondents Were Called Up Just Before the Big Drive Started—"A Little While, and Then Hell Broke Loose"—Away Go the Tanks and Death and Destruction Smashes Through Hindenberg's Line

Beyond the Hindenburg Line, Nov. 23.—The correspondents were summoned to the line during Tuesday night. We stood in the light just before the dawn, in the midst of great droves of tanks—still camouflaged and bedizened in variable multitude of the things.

They were a great herd of gentle-looking shield creatures, that seemed to browse on the grass covered battle field, sheltered somewhat by trees whose branches showed no nipping by sheep. The scene was like some abandoned farm in the Kentucky blue grass region. One could imagine the tanks either as bovine herds or as cluttered up finger-holding neglected farm machinery scattered about.

It was still. Only a few desultory shells exploded in the distance—the regular, monotonous, every morning interchange. We could not see the infinite preparations on all the gigantic front. Columns after columns, mass after mass of men and machines and horses and paraphernalia had slid through the early night shadows and were lined up at the moment for the greatest of the war dramas then about to start.

Of a sudden the moment came. It was the "kick off." Nothing but the tense moment when the ball is put into play so aptly expressed that moment.

A little while—and hell broke loose.

It seems almost preposterous that the Germans in a great many places on their lines did not awaken with the first great snorting of the tanks as they crushed great swaths through the Boche wires. But there were countless instances when it was not until behemoths themselves, their tongues flaming ahead, their steel bellies flattening the earth, actually came over the German trenches that the Boche came to life. Your German is a creature of habit. He knew it was customary for artillery to precede an attack.

There was no artillery. Hence there could be no attack.

No wonder he was dazed. The inferno of British artillery did not start until the tanks were well over their first objectives. Then it came, a deluge, a molten flame, it seemed. From Lens to St. Quentin, I am told today, the British artillery speeded up to feverish violence.

WHAT THE TANKS DID.

The tanks corps expects every tank to do its damndest"—and the tanks did it with full damnation to the Boches.

The ground over which they wriggled was practically flat, where there were not shell holes. Mighty few of the monsters got stuck. A few were knocked out around Flequieres—later on. A heavy German field gun, mounted depressed, fired point-blank at a range of 150 yards.

Behind the tanks trooped the infantry, taking it easy, laughing in glee at the astonished Boches and their frenzied cries of "kamerad," or disregarding the stavcato machine gun fire that the nests, sidesteps and courageous of the enemy poured into their ranks. There were several spots where the Hindenburg line was ruptured without a single casualty among the British attackers.

WHEN THE CAVALRY WENT IN

Here and there behind the tanks and the infantry, the cavalry swept forward, sometimes, later in the fighting, dashing ahead of the slow-moving tanks to swing their sabres and overwhelm the enemy. They had waited long years, these cavalrymen, for a chance at the enemy, and they made the most of the holiday opportunity. British infantrymen who arrogantly turned up their noses in other days at the cavalrymen, holding that it was the trench boys who were the real soldiers, had to revise their opinion.

The cavalry carved itself a niche in the war's history by the two days' work just past. Today they were still carving. Their speed gives them the edge. In several towns captured yesterday the mounted troopers swarmed in while the Boches were lunching.

The Germans were beginning to recover from their daze today and headquarters reported frenzied opposition at half a dozen points around Cambrai. But the suddenness of the blow and two days of tremendous sweeping gains over that Hindenburg line has immeasurably lowered the German soldier's morale.

He had been told the Hindenburg line couldn't be taken. It has been taken. Perhaps he is beginning to think there may be other untruths in what his commander tells him.

Newspaper correspondents had their thrilling periods late yesterday. They were the objects of assiduous attention from German snipers at Ribecourt.

Is It Fusion or Confusion?

"Then none was for a party, but all were for the State."

Every Canadian worthy of the name says "We must win the war," but it is not every Canadian who has a definite policy by which to win the war. Conscription is a definite policy—the details may not satisfy everyone, but the principle is certainly sound, for voluntary effort has been exhausted—and if any one says we should have continued to try it, but on a larger national scale, then surely the large numbers who are now seeking exemption from national conscription show the absolute futility of such a suggestion. When the house is on fire we must unite to put it out, and if some men in the fire-bucket line have had differences between themselves as to the building of the house, or the furnishing of the house, they would be guilty of the most supreme folly, or rather of the deepest criminality if they declined to help to save the building. The world is now on fire and Canada, as part of it, is on fire—it is surely the act of elementary patriotism to unite as one man to quench the flames and serve the nation. Let the settlement of other questions be suspended meanwhile, and let us support the National Union Government. Old party ties must meanwhile be broken and thus courage and true patriotism united as, as far as has been, vindicated. It is not the case of the greater, including the less, but it is that the greater—that is the supreme safety of the people—so preponderates that it extinguishes the less—at least until the war is ended or won, which is the same thing. The great English dramatist has it:

> "Now all the youth of England are on fire,
> And silken dalliance in the wardrobe lies;
> Now thrive the armourers, and honour's thought
> Reigns solely in the breast of every man."

Let this be so with Canada—if not then we are unworthy descendents of noble ancestors. Like some well known table vegetables, the best of us lie underground. To the question at the head of this article the answer is "Fusion of the best."

122 BRITISH SHIPS LOST WITHOUT TRACE

LONDON, Nov. 24.—In the House of Lords Admiral Lord Beresford, retired, called attention to the increasing number of ships that are "missing without trace" and to the disclosure in the communications of Count von Luxburg, former German Minister to Argentine, of Germany's plans for the sinking of vessels in this manner. Lord Lytton, Civil Lord of the Admiralty, replying to Lord Beresford, said that in the three years, ending with October last, 122 vessels had been lost "without trace." The normal average in peace times, he added, was 15 vessels yearly. As the result of careful enquiry, Lord Lytton added, he had no reason to believe that such disasters were increasing.

SURVEY OF SITUATION AS VIEWED AT OTTAWA

How the Campaign Looks From the Capital—Last Minute Developments Before Nomination Helped Union—Laurier His Few Regular Speaking Platform Speakers

OTTAWA, Nov. 23.—Now that the candidates are all in the field, it is much easier for Ottawa political people to size up the situation, writes the Ottawa correspondent of the Daily News. The Unionist organizers are much more enthusiastic and much more optimistic than a week ago, when they had a fit of the dumps, largely due to the apparent utter inability of Unionists to agree on candidates. A much better spirit of harmony has prevailed than seemed possible and except in a few riding the Unionist are harmonious in their support of one strong candidate.

From now on the campaign will be in full swing and the Unionists are confident that they will develop strength with an educational platform programme. The platform discussion of the issue, which has been much clearer by the open alliance of Henri Bourassa with Laurier, and which is whether Canada is to continue or quit will, it is believed, start a tremendous swing towards unionism.

Platform Strength

The Government is in a much stronger position from a platform standpoint than Laurier, who has been deserted by all his ablest English-speaking Liberal leaders. Hon. Geo. P. Graham straddled the fence so long that he failed to get a nomination despite his boasts that he would secure a seat. It is expected he will drop out of politics permanently.

Hon. William Pugsley saw the cyclone coming and secured shelter in the Lieutenant-Governorship of New Brunswick. Mr. E. M. MacDonald decided discretion was the better part of valor and has retired for "personal reasons."

The only English-speaking House leaders left to Laurier are Hon. Chas. Murphy and Hon. Frank Oliver, both of these men are so busy on their own riding they will not have much time for outside platform campaign. Mr. Murphy has his hand full in a three-cornered fight in Russell, and Hon. Frank Oliver, it is believed, here, will be beaten in West Edmonton by General Griesbach.

Looks Better For Union

Outside of Quebec where the Unionists realize the situation is almost hopeless, thanks to the Laurier-Bourassa alliance, the situation looks better for Union than was anticipated. In Nova Scotia the Unionists concede only one seat, Inverness, to Laurier. Dr. Chisholm is almost impossible to beat.

It is believed that D. D. Mackenzie will be beaten in the old Liberal hive of North Cape Breton. With a three-cornered fight between Unionists Laurierites and Laborites in South Cape Breton the election of a Unionist seems certain. Hon. W. S. Fielding has, of course, an acclamation in Shelburne-Queens. The two Halifax seats Guysboro, Kings, Cumberland and Pictou are regarded as sure Unionist ridings, and the Unionists have a good chance now of sweeping the Province.

Splits All Heated

The threatened Unionists splits in New Brunswick were all heated before nomination day, and under the aggressive leadership of Hon. Frank B. Carvell, the Government will make a good showing. There is a growing French vote in the Province which may affect the situation, but the Acadians, who are numerous, have not united well, and have shown no sympathy with the unreasoning Quebec attitude. There was a threat of Conservative opposition to Mr. Carvell, but his old and bitter opponents showed a fine spirit and decided not to force a fight. It is upon his able and active Mr. Carvell will largely have to depend for election. His return is assured. There was trouble in the new seat of Royal and on Chesterfield, where there were two Unionists in the field, but the second man withdrew in each case, and General McLean and Thos. Hartt are being enthusiastically supported. The only ridings where Laurierites are conceded as having good chance are de Lery or partiel French seats of Restigouche, Westmoreland, Victoria and Kent.

No Doubt in Ontario.

The Ontario situation has been cleared up by the nominations, and there is less throat-cutting than expected. Unionists know that the heart of Ontario is sound on the war, and for that reason it is believed when the siege is thoroughly understood, there will be no doubt of the result. The greatest danger in Ontario is from Liberals endorsed by Laurier, who claim they are supporting conscription. It is an impossible situation and conscientious who vote for such candidates might as well cast their ballot for Bourassa.

Situation in the West

The reports from the West are exceedingly optimistic for Union, and the outside figure the Unionists concede Laurier is twelve out of the fifty-six seats. In Manitoba a lot of strangmen have been nominated, while in Winnipeg Centre and North Labor men will be endorsed by Laurier. There are four seats where Unionists concede the Laurierites a fighting chance. These are Winnipeg North, which is a Labor stronghold, and a hot-bed of Socialism; Springfield, which includes St. Boniface; Provencher, where Dr. Molloy, running as a Laurierite, is strong, and Selkirk, with a large foreign population.

Hon. J. A. Calder has certainly delivered the goods in Saskatchewan. There are four acclamations, and several more ridings as good as acclamations. The only ridings where Laurier is thought to have a chance are in the two Battlefords, where there are two Unionists in the field, and Prince Albert, which has a large French vote. Before Union Saskatchewan was regarded as the most difficult Province in the West to carry. A splendid spirit of unity has been developed by Mr. Calder, who has, without doubt, great organizing ability.

Hon. Frank Oliver and Hon. Chas. Cross are fighting for Laurier in Alberta and British Columbia. In Alberta the five northern seats will be fighting ground; the south is looked as certain to go solid for Union.

The British Columbia situation is confused by the cabal which is in progress against Premier Brewster by the Vancouver junta, who object to his policy of elimination of patronage. They are the root of the Laurier campaign British Columbia, and it is inconceivable they can make much progress in this riding, which has the reputation of being ultra-loyal.

REAL HEART OF RUSSIA

Whatever the main purpose of the great Teutonic offensive against Italy, the hammering blows have had an effect which has aroused little comment among the military critics.

It has, temporarily at least, saved Petrograd.

Less than four weeks ago it seemed as if Petrograd would fall into the hands of German invaders. True, the possible capture of the city did not excite any great apprehension. Russians knew that their capital was in no condition to withstand one of the sledgehammer blows that Germany has dealt her enemies during the war. But Russia was complacent.

She had the city of her heart, her old capital. She had Moscow.

The City of Seven Hills.

Built like Rome on seven hills, Moscow radiates outwards, circle by circle from the central height of the Kremlin, the old or "Chinese" city, encircled with its white wall, cut off sharply from the "white" town of shops and public buildings and fine houses; which dwindle into the first ring of dusty boulevards. Then the suburbs begin, vague, interminable and seeming, long before they have reached the ramparts, which close in the thirty six miles of the city's circumference, to have passed into the open country.

Like everything else in Russia Moscow impresses you first by its size. Vast, vaguely defined, so casual in its division of time of day and night, this city next to the largest city of Europe has much of the aspect of some colossal country village which has sprung up and widened gradually about a citadel. Its seven hills have also gone to leave more than usual of the open air about it in wide winding spaces, brooded over by wings of innumerable pigeons.

Everywhere in Moscow are vast unpaved squares, surrounded by a rope of twisted wire stretched from post to post or, by temporary wooden railings propped up at vague intervals. Across the river by the bridge that lies between Kremlin and the Church of the Saviour, ducks are floating at the weir while a ferryman is waiting to take the people over. Here and there are to be seen red figures paddling by the banks or wading across with tucked up trousers and petticoats. Hard by clothes are being washed on a row of planks which stretch from the dusty shore to the green little sailing boats that are anchored mid-stream.

An Overgrown Village

Everywhere you will find village scenes, the trees and water and width, the fields even, of the real country. And the life of the people, the arrangement of their houses have the characteristics of village life. These houses, still only one story high rarely more than two storeys, are built often of wood like log huts and with a wooden palisade in front of them—strip of garden or wide dusty coast, in which one hears the flutter of fowls or the gobble of turkeys.

Outside of the irregular roadway with a sound like that of a marching army go the cabs laboring slowly at full speed like the primitive vehicles of a past century. Market days are frequent and then the streets are covered with stalls and stacked carts while open baskets overflow on the narrow pavements. Even the people who tend the stalls and the carts are unusual with their red shirts and high top boots.

Set in such a frame, itself so strange in shape and color at all points, the Kremlin and the churches with their glittering domes on which the symbolical Russian cross has made a feint of the crescent; are but the last of the series of shocks with which this enchantastic city greets the visitor. For all Moscow is distorted by eccentricity, the hand of a madman is everywhere visible upon it. Not only the unfortunate architect but the incalculable brain of Ivan the Terrible gave insane disobedience to her monuments.

The Kremlin itself is probably the most grotesque thing in Europe. It stands like the creation of some Arabian sorcerer called up out of the mists and snows of the north, a Pantagon pagoda in the midst of the citadel of Holy Russia.

Lincoln J. Carter, who has provided the New York Winter Garden with all its spectacular effects during recent years, has volunteered his services to the American Government to act in the department of Camouflage. The Carter way will be considered as the most adept and expert artist in devices to thick the eye in this country, having long been looked on as what may well be called "dramatic camouflage." During he past twenty-five years he has been the most successful inventor of startling spectacular effects known to the American stage.

Some of Mr. Carter's most striking spectacular effects have been the railroad collision in "The Heart of Chicago"; the race between the automobile and locomotive in "The Honeymoon Express"; the pursuit of the Edinburgh express in "Dancing Around"; the raid of the United States cavalry on the Mexican border in "The Passing Show of 1916"; the football game at Yale bowl, and the mountain room in "The Passing Show of 1917"; and the effect in the present Winter Garden extravaganza, "Doing Our Bit."

WOMEN'S VOTE

Misunderstandings in regard to the women's vote are apparently fairly common. Some returning officers appear to have given the opinion that the female relatives of soldiers or sailors in the British army or navy are not fitted to vote unless the soldier or sailor relatives have been at some time resident in Canada. Mr. W. F. O'Conor, General Returning Officer, states that this view is incorrect. Female relatives (within the degrees of relationship contained in the act) of all soldiers or sailors in the Canadian or British army or navy, whether or not such soldiers or sailors have ever resided in Canada, are entitled to vote, regardless of the female relatives have themselves the necessary racial or residential qualification.

The position of the squaw has also raised some doubt. If she has a husband on the front she entitled to vote? The answer is that where an Indian has been disfranchised under Provincial law his female relatives will not vote. Where, on the other hand, a male Indian is entitled to vote under Provincial law, the female relatives of an Indian husband will vote. In certain Provinces, therefore, Indian women will have the franchise.

Mr. O'Connor also expresses the view that the stepmother, grandmother or mother-in-law of a soldier is not entitled to vote. A half-sister may vote, however.

CHILD KILLED BY AUTO

WOODSTOCK, Nov. 24.—Helen Davis, the 3-year-old daughter of Edward Davis, who resides four miles east of this city, was instantly killed by an auto when returning from school. Two auto trucks proceeding to Toronto came along at a fair speed and the little girl became confused and stepped directly in front of one of the trucks. No blame is attached to the driver.

Old Time Monk Predicted War

Said It Would Last Three Years and Five Months—Written in 1701

While raising the old Monastery of the Holy Ghost in Wismar, Mecklenburg, two months ago, an old Bible was found which contained a remarkable prophecy regarding the present world war. It was written in 1701 by one of the monks on parchment that is now yellow and seared with age. It is now on exhibition in a glass case in the city hall of Wismar. So much publicity has been given to the prophecy by the papers of Germany that thousands have flocked to Wismar to see it.

"The prophecy not only gives the cause of the war, but also indicates the countries engaged. Up to the present it has been amazingly accurate. It does not exactly state that Germany will not be victorious, but indicates how long the war will last, when the decisive battle will be fought, and where and when peace will come, and adds that Germany will continue to exist as a power for many years. A translation of the writing on the parchment is as follows:

"Lord, have mercy on Thy people despite the fact that they are turning more and more away from Thee; that they are destroying Thy monasteries and cloisters and forgetting Thee. A time will come in Europe when these people will feel the weight of Thy hand, when malignity and hatred will rule. It will be vacant, and the conflagration will come as the result of the murder of a prince. Seven nations will rise against the eagel with one head and the eagle with two heads. The birds will defend themselves viciously with their talons, and their wings will protect their peoples. A prince from their very midst, a sovereign who mounts his horse from the wrong side, will be encompassed by a wall of enemies. His slogan will be "Onward with God!" The Almighty God will lead him from victory to victory and many will meet their death.

"There will be wagons without horses, and fiery dragons will fly in the air dropping fire and sulphur and destroying cities and villages. The people will turn to God. This terrible war will last three years and five months. The time will come when food can neither be sold nor bought and bread will be carefully distributed. The seas will be tinged with blood, and will lie in wait under the waves for their prey."

Here follows a reference to America, which was in those times often referred to as the "country of the seven stars."

"The people of the seven stars will attack the ring of steel and suddenly fall upon the bearded nation in the rear and rend it in twain. The whole of the lower Rhine will tremble, but nevertheless will endure to the end.

"The land in the west will be one vast desolation, and the land in the ocean will, with its king, be crushed and suffer all the pangs of hunger. The land of the bearded people will still endure for a long time to come, and following the war the world will be united in one great brotherhood.

"The victors will carry a cross, and between four small cities and four steeples of equal height the decisive battle will be fought. Between two linden trees the victor will fall upon his knees before his army, lift his hands to heaven and thank God. Following this all ungodliness will disappear, the indecent dances that prevailed before the war will be seen no more, and God will reign in church, state and family."

General Currie To Take a Rest

OTTAWA, Nov. 24.—Private reports received here from England indicate that important temporary changes in the higher Canadian military commands are imminent. Lieut.-General Sir Arthur Currie, K.C.M.G., has, it is understood, expressed a desire to be relieved of the command of the Canadian army in France for a time to recuperate. The tremendous strain under which the force fighting has placed him has told on his health and a furlough is indispensable for him. He has been continuously in the fighting line since the Canadian troops landed in France, and for months past has been in sole command in the bitter offensive at Lens and again in the Ypres salient. If the report is correct he will probably have as his successor during his furlough Major-General Lipsett, commanding the 3rd Division, or Brig.-General J. Seely McBrien, commanding the 11th Brigade. General McBrien is but 30 years of age, and before the war was a major in the Royal Canadian Dragoons, and if he secures the command of the Canadians his career will rank as one of the romances of the war. He served in the South African war from 1900 to 1902, and holds the Queen's medal with five clasps. General McBrien succeeded Brig.-General Lord Brooke in the command of the 11th Brigade, in which he has achieved remarkable success.

Major-General J. J. Lipsett is an Imperial officer, who served in Canada as general staff officer in military district No. 10 before the outbreak of war. He is a comparatively young man, and had considerable experience in frontier wars in India in the Royal Irish Regiment, for which he holds a medal with two clasps. He has also achieved for himself a splendid reputation in the present war with the Canadians, the commanded the 8th Battalion, "The Little Black Devils," in the first division.

If it is possible to stow the Canadian commander who snatched victory, lough, he will probably inspect the Canadian forces in England and Canada before returning to take charge of the Canadian fighting corps in France.

ITALIAN SOLDIERS CERTAIN THEY WILL HOLD INVADERS

ROME, Nov. 24.—With all the Arctic rigors and bloody work at the front, the morale and confidence of the Italian troops is at the top notch. Regiments of Alpini were seen parading to the front. They did not wear those fanatty Alpine hats with a cock's feather, as one sees them in Rome, but were figures in gray, topped with steel. They swung forward rapidly, as though eager to arrive, and to every enquiry they replied with confidence, lacking every trace of reluctancy. It is this confidence which is Italy's greatest asset at this critical moment, for the heroic defenders really believe that they will hold the enemy back.

MANY GREEK DIVISIONS HAVE JOINED SALONICA ARMY

WASHINGTON, D.C., Nov. 24.—Greece is rapidly preparing to take her part in the war. A cablegram received here from Athens, via Switzerland, says many new divisions of Greek troops swiftly formed have taken their places at the front. The morale of the new troops is declared to be excellent.

The Woman Voter

The importance in the election of the woman voter must not be underestimated. It is no disparagement to other voters to say that she at least has a real stake in the country's welfare. That stake is nothing less than the life of a husband, son, brother or father whose life has either been sacrificed on the empire, or whose life has been or will be in jeopardy. Few of these voters have been intimately associated with either of the old political parties. All of them will be wishful of polling their first vote for a candidate in whose direction they, or their representatives, have had some voice. In an almost overwhelming majority of instances they will naturally array themselves behind the pledged supporter of the Union Government which in turn is behind the enforcement of the Military Service Act. They will blame Borden for having staked his political life on introducing this bill when he had seen, in the trenches with his own eyes, the need which these voters had long known from the personal letters of their sons and husbands and brothers at the front. Just as the loyal Liberals behind the Union Government are willing to postpone tariff and other minor matters till after the end of the war, so these loyal women voters will be ready to postpone many cherished ideals, which they may have expected to enforce by their votes, until peace is won. Their answer to Laurier's manifesto with referendum as the main plank will inevitably be the cry of the anguished heart, "How long, oh Lord, how long." How long before the prisoner in Germany is freed; how long till the fighter of three long years can have furlough; how long till the reinforcements for our fighting units make them so strong that the heroic deeds of Vimy Ridge and of Passchendaele can be repeated, and till resistance on the Western front is broken down and victory is won?

HERPICIDE WILL SAVE IT HERPICIDE WILL SAVE IT TOO LATE FOR HERPICIDE

IS YOUR HAIR SLIPPING?

The presence of dandruff and falling hair conveys a warning which it is best to heed. At first the loss of hair may be so slight as to be hardly noticeable. But no matter how little may be the fall each day, it is working toward the same and inevitable result, and that is total baldness.

If you may have hair enough today, how about tomorrow and the day after? Dandruff and falling hair mean baldness sooner or later and demand the immediate regular and energetic use of Newbro's Herpicide.

It keeps the scalp free from dirt and dandruff and allows the hair to grow abundantly and naturally. By this means total incurable baldness may be prevented.

Herpicide does not stain or dye and has a most exquisite fragrance which makes it especially pleasing to the ladies. It stops itching almost instantly.

You may be told that there are remedies "just as good as Herpicide." You cannot afford to take chances with nor can you expect to obtain results from "an off brand" article. Insist on having genuine Herpicide, the Original Germ-Remedy for Dandruff.

You can get a sample of this delightful hair dressing and a booklet on the care of the hair by sending ten cents in silver or postage to The Herpicide Co., Dept. S, Detroit, Mich. Try Herpicide once and you will never be without it.

Sold everywhere in 50 cent and $1.00 sizes and guaranteed to give satisfaction or money refunded.

Applications obtained at the better barber shops and beauty parlors.

Whitby Publishes Clever Paper

"Soft Diet," a Sheet for Convalescent Soldiers, Will Appear Every Fortnight

"Soft Diet," published by the boys of the Whitby Military Convalescent Hospital, was served to its patients' palate for the first time in October.

Written and edited entirely by the men themselves, it proves that the only apology which they need advance is the one they hit upon in the leading editorial, the pity they had not done it months before.

Inspired by shoe-shop arguments wicera "the weighty problems settled daily," it rolled out flat and placid end to end would stretch from Pay and Records Office, London, to No. 1 Queen's Park," it seems to be a chopficking mixture of wit and wisdom, calculated to tickle a Tired Business Man and Frayed Veteran in the same speck.

It has no political affiliations. "It does not own allegiance to any clique or party and it subscribes to no creed except the faith of the men who gave up their lives in Flanders, that freedom might not perish from off the face of the earth."

The fact noted that in the month of September 62 per cent. of the total available hospital strength attended the vocational training classes, and in the first week of October the percentage rose to 76.

"It should be a matter of pride with us to see that our records are never passed by any other hospital," declares the editor, "but there is a wider and more serious truth to be taught by these figures.

"It is the silent and contemptuous answer flung in the teeth of those who preach that the returned soldier expects to be a drone in the hive and drag on the country.

"It is no exaggeration to state that every man—never mind what his disability may be—will be given opportunity to fit himself to become a self-supporting citizen."

Special Dishes For One-Armed Boys

Dishes designed to keep the food of the one-armed veteran within bounds of his plate, and to lessen the fuss of single handed feeding are now being manufactured in England. Dr. Edward A. Bott, director of functional re-education at Hart House, has brought samples from England for the consideration of the authorities of the Orthopaedic Hospital in North Toronto, where the crippled Canadian soldiers returned from overseas as convalescents are being treated under the direction of the Military Hospitals Commission.

Orthopaedic dishes as they are technically designated have become a necessity widely demanded in England and France, where many men early in the war lost an arm. Some were designed by men themselves who were handless, others by professional potters.

Dr. Bott brought back with him a plate and a plate designed for general service. The soup plate differs from the ordinary soup dish in having a second declivity into which the last two or three spoonfuls can and may be secured without tipping the plate—a breach of good manners common enough among busy, hungry men to warrant no serious consideration.

The plate for general service in turn resembles a very shallow soup plate, the centre being sunk slightly so as to prevent the food from slipping over the edge as the fork pursues.

A combination knife and fork which has also been devised, works with great success. Only one arm and hand are able to prepare their own food for eating with out difficulty.

TEUTONS ARE NOW HELD AS THOUGH IN A VICE

Italian Right Wing Along the Piave Cannot be Beat—But Enemy Forces are Three to Two of those of Defenders

Headquarters of the Italian Army, Northern Italy, Nov. 21.—The fourth Italian army under General Robilant is meeting the full force of the tremendous shock the enemy has concentrated between the Piave and Brenta Rivers. In authoritative quarters the correspondent was told that the enemy forces delivering this blow are in the proportion of three to two as compared with the Italian forces, and this is practically the relative strength on the two wings west of the Brenta, where General Pecori commands the first Italian army and the right wing along the Piave, where the Duke of Aosta holds the enemy as in a vise.

It is in this position that the Fourth army is experiencing the intensest action, with attacks following in rapid succession. Reports early in the day were satisfactory, as the main fighting ground was further north, on the enemy's positions, though at once point the enemy succeeded in breaking through the Italian lines on the foothills of Monte Fontana Secca, compelling the reformation of the defensive lines a little further back.

These fortifications are marked by the bloodiest fighting, with the enemy reserves coming forward for three successive attacks, which were met at the point of the bayonet and driven back.

Just west of this main field of action the Italian first army rushed the enemy positions near the Brenta River, and in two attacks and counter-attacks held the occupied ground, which was stirred with enemy corpses.

On the lower Piave the enemy forces in the bushes on the west bank of Zenson are now placed at 200 lires, who are being raked by the artillery, as they have tried to set up a line of machine guns across the small area they occupy.

REACH MAXIMUM INTENSITY.

An officer accompanied by a civilian observer has just arrived here from the northern fighting front, where they have been watching the operations just to the west of the point where the enemy's mass attacks were reaching their maximum intensity today. The centre of this action is along the Brenta River, leading to the large city of Bassano, and thence southward, fanned, into the Venetian plains. The observers were so close to the fighting line that their arrival astonished narrowly escaped falling into the hands of the enemy.

GROUND STREWN WITH BODIES.

The fighting ground gave evidence of the intensity of the struggle during the last few days. The positions and trenches lately occupied by the Austrians were strewn with bodies, which lay half covered with snow, as it was impossible to bury the slain owing to the rapid shifting of both lines.

The most desperate fighting was around Monte Melleta, where the Italians held one side of the eminence and Austro-Germans the other. The enemy's object was to advance through the two valleys of Fremsin and Valstagna which open directly into Bassano and the plains. Plans found on Austrian officers on the battlefield give directions of the hour and these two valleys to Bassano shall be buried no doubt existed of his success, minute by which the advance was carried out, as though the enemy had already

STOP!

DO not use Edison records on any but a NEW EDISON phonograph. Played with *any other* than the Edison reproducer, which floats evenly over the surface, delicately balanced and finely adjusted, the record is distinctly injured with each playing and rapidly deteriorates in tone quality.

You cannot get even approximately the full glory of an Edison "Re-Creation" with any other phonograph than

The NEW EDISON

"The Phonograph with a Soul"

The record is only one of three factors inseparable for Edison's perfect Re-Creation of music. Edison earned his triumph by five years' exhaustive experiments, perfecting these three factors together.

THE RECORDING: By his new recording methods, Edison is able to record every delicate tone value, or shading of expression, even to the most minute overtone, in any artist's voice or instrument.

THE RECORD: Played on a NEW EDISON, the records will preserve this music indefinitely—without wear.

THE REPRODUCER: The New Edison Reproducer is absolutely essential to Edison perfection. Edison tried out 1500 different materials and compositions before he was satisfied with his reproducer diaphragm. This acoustic research work involved an expenditure of over a million dollars, and it *alone* can bring out the real music in an Edison record in all its original beauty.

In justice to the public and to the high standard of Edison tone quality, we earnestly warn against the use of Edison records on any "talking machine."

Those who seek the privilege of enjoying in their homes the perfect Re-Creation of music should select the NEW EDISON.

We gladly welcome your request for a thorough demonstration of the New Edison.

IS MR. GRAHAM A LABOR REPRESENTATIVE?

A Workingman Challenges Claim Put Forward on Behalf of Opposition Candidate That He Should Be Supported By the Labor Vote

Belleville, November 24, 1917.

To the Editor of the Intelligencer:

Dear Sir,—In looking over your report of the nomination meeting at Stirling on November 19th I notice that several persons give their reasons for supporting Mr. R. J. Graham who claims to be the "peoples" candidate in the coming election. At this meeting exAld. Duckworth stated that Mr. Graham should receive the votes of the working men as he was an employer of labor.

As a working man myself I am surprised at a gentleman of Mr. Duckworth's calibre putting forth such an argument.

DOES MR. DUCKWORTH THINK FOR ONE MOMENT THAT IT IS OF ANY BENEFIT TO THE WAGE EARNER OF THIS CITY OR IN FACT THE WHOLE DOMINION TO HAVE AN EMPLOYER OF LABOR ELECTED TO THE HOUSE OF COMMONS? WOULD SUCH A MAN LOOK TO HIS OWN INTEREST FIRST?

If the laboring class should begin a Dominion wide campaign for an eight hour day's work with ten hours pay, and should they ask the Government of Canada to make a law to that effect does Mr. Duckworth or any other right-thinking working man believe that Mr. Graham or any other employer of labor would take the floor in the House of Commons and ask to be put on record in support of such a law. I think not.

WAS IT THE FRIENDS OF THE LABORING CLASS THAT OPPOSED THE WORKMANS COMPENSATION ACT OR WAS IT THE MANUFACTURERS ASSOCIATION?

I am sure the working man should think over this matter before marking his ballot, and I consider it was nothing short of an insult to the working men when Mr. Proud Mallory, of Sidney, at the same meeting stated that Mr. Graham was opposed to the Government allowing oleomargarine to be imported into this country to compete with the dairy butter. Now if this is Mr. Graham's policy, which it looks to be, coming as it does through such a prominent supporter as Mr. Mallory, do the working men think that Mr. Graham, if elected, would work for their interest, when he objects to substitute coming in to the country, which we can obtain for about one-third less than the original, and is always as well. All these actions mean a big thing to the man who is working for two dollars a day and has to keep a family and pay rent, as in my case. Does the working man think for a moment that Mr. Mallory or Mr. Graham could get agricultural implements imported into this country, and they could procure them at one-third less than the case manufactured in Canada, would they condemn the Government. I think not. Would like to see YOU WOULD FIND THEM GOING THROUGH THE COUNTRY WITH BRASS BANDS AND TOOTING HORNS LIKE SOME PEOPLE ARE DOING AT PRESENT TO HELP KEEP THE POOR MAN POORER AND AN HONEST GOVERNMENT OUT OF POWER.

ONE OF THE WORKING CLASS.

LAST CHANCE THIS WEEK TO BUY VICTORY BONDS

Saturday Night Will See End of Victory Loan Campaign—Hastings Must Hurry to Double Objective—Saturday Night Parade Celebrates Million Dollar Victory

While there are just five more working days left in which to buy Victory Bonds, Hastings County must travel some to come up with the record established in the other Eastern District Counties. Hastings still stands 9th in the list of counties, with only one county lower than Hastings, and that is Peterborough. It is to be hoped that the workers will this week take hold and "boost" Hastings up to where it belongs, beside Frontenac which is now leading. This can only be done by harder work on the part of the canvassers in the lower part of the County.

The canvassers in Belleville on Saturday only brought in $13,2000, but the banks reported $95,200, showing that the people have the money and are willingly buying Bonds. It is only necessary to get after them. It is to be hoped that the Victory Loan workers will forget the week-end for this last week and help to make a success of the greatest undertaking ever entered into by the people of Canada. If the Victory Loan is a failure, then Canada's part in the war is a failure. So let every man, woman and child in the good old City of Belleville, put together, figure on the last dollar to be squeezed out of the next year's income and buy Victory Bonds accordingly.

Belleville has done nobly so far in this contest. The objective for this city was $187,000, and on Saturday last the loyal old city had subscribed $684,654. Close onto half a million dollars; but we must not stop at that. The Canadian boys in France are famous throughout the world because they never stop when they reach their objective. Let our republican lads in training these boys be the same. Keep up the good work until the last minute of the contest and Hastings County will be amongst the leaders.

Victory Loan Parade

While the parade Saturday night lacked music, it made up in fireworks an enthusiasm what it lacked in music. The members of the band were unable to parade because of other obligations, and because of the war and tear of electioneering throughout the week.

BAY OF QUINTE CANDIDATES ENDORSED BY LAURIER

The following candidates in the Bay of Quinte District have been officially endorsed by Sir Wilfrid Laurier as acceptable to him and to the Liberal opposition to the Military Service Act and Union Government, which means Canada's soldiers overseas and breaking faith with them to the extent of national disgrace:

East Hastings—W. C. Cross.
Prince Edward—F. P. Hervey.
Northumberland—S. G. Dudley.
Durham—George Jones.
Lennox and Addington—E. W. Grange.

ELECTORS, DO NOT FORGET THAT LAURIER HAS BEEN APPROVED BY BOURASSA, WHO RECOMMENDS ALL TO VOTE FOR LAURIER'S RETURN TO POWER, HE BEING THE MOST ACCEPTABLE TO THE ANTI-BRITISH PROGRAMME FRENCH CLIQUE WHOM BOURASSA CONTROLS.

WHAT HAS PORTER DONE FOR WEST HASTINGS?

Is Frequently and Hypocritically Asked by the Opposition—Electors Can Examine the Record and See For Themselves Some of the Benefits Which Mr. Porter Has Secured for West Hastings

He was instrumental in securing the expenditure of $250,000 for the new ship and warehouse at Belleville for the use of the business men and producers of the district.

Arranged to have the Belleville Post Office raised to the status of a city office with 9 house-to-house mail delivery, twice daily by letter carriers.

Rural Mail Delivery

Secured the establishment of Rural Free Mail Delivery throughout the country district.

Trenton Bridge

Secured $87,000 to assist in the erection of the fine bridge which spans the river at Trenton, and had the Post Office in that town enlarged.

British Chemical Works.

The British Chemical Works, which has brought thousands of dollars to West Hastings was secured through the persistent efforts of Mr. Porter.

Returned Soldiers

The welfare of returned soldiers and their dependents has always been the first thought of Mr. Porter and he has always kept in their service. Good positions have been secured for many returned soldiers through Mr. Porter's efforts, and he has been able to help the returned heroes and their dependents in many ways.

Compensation For Land.

Compelled the Government to pay proper compensation for land taken for and damages sustained by reason of the Trent Canal.

Assisted Mineral Industry.

Procured a remission of duty on raw mineral products shipped to the United States for refining and reshipment into Canada in the finished article.

Mineral Land Survey

Advocated a resurvey for mineral products in Hastings County (none having been made for 30 years) and work will begin this next spring.

Patriotic Contributions

Has given thousands of dollars for Patriotic and War purposes, and bought Victory Bonds to the extent of his ability, and has over $7,000 Bonds to his credit.

Fought For City.

Fought the city's case to compel the C.N.R. and C.P.R. to build subways on Front St. South and at the west side of the river, spending weeks of time and making many journeys to Ottawa free of expense or charge to the city.

Dredging

Secured the dredging of the harbours of Belleville and Trenton.

Increased Railway Facilities

Insisted on and procured increased railway facilities for North Hastings, keeping up daily mail service, after service had been reduced to three trains per week owing to war conditions.

New Postoffices Established

Has established a number of new post offices where there was no rural mail delivery.

Business For Trenton

Procured contracts for coal contractors on Trent Canal and the finishing of the Trenton end of the Canal first; whether large amounts for material and labor was expended to the advantage of the people of West Hastings.

Helped The Business Man

Procured interswitching of freight between all railways running through Belleville.

Railway Crossings Protected.

Procured by his advocacy orders from the Railway Commission to properly protect the Railway Crossings on the C.N.R. and C.P.R. in Sidney township near the cemetery and at the Bay Bridge.

Abolished Net Fishing.

Procured the abolition of net fishing in the Bay of Quinte from the Murray Canal to the Telegraph Light for the benefit of sportsmen and the protection of fishing interests.

Dredged the Narrows

Procured the dredging of the narrows at Telegraph Light to allow deep draught boats to navigate our bay.

Natural Highway

Advocated and was one of a deputation Committee to urge upon the Government the construction of a National Highway from Montreal to Detroit? which would pass through Hastings County, but the Bill was killed by the Senate.

Immigration Agent

Secured the appointment of an Immigration Agent in West Hastings to encourage British labourers to locate here; many scores of whom did so.

Military Headquarters

Procured Belleville to be made a Military Headquarters for recruiting and mobilizing by which many thousands of dollars were expended here; our merchants getting the benefit.

Brought Business to Belleville

Was instrumental in procuring contracts for various local manufacturers to produce clothing, munitions and war material, which brought many more thousands of dollars to Belleville.

Nearly all this has it is true, been done in the last six years, for during the remainder of the time Mr. Porter was in opposition to Sir Wilfrid Laurier's Government, with which he had little chance to do anything.

Hastings Marble for Ottawa

Arranged to have the marble, quarried at the Bancroft quarries, used in the new wing of the Parliament Buildings, thus giving great prominence and valuable advertising to that product.

Frontfort Steel Bridge

Obtained grant of $22,500 for construction of steel bridge at Frankfort and the free use of the Government grounds there for a Recreation Park for the citizens.

Even this does not exhaust the list of Mr. Porter's activities, and he has reason to be proud of his record, and West Hastings should show it's gratitude for it—and it will do so.

WOMEN'S RIFLE CLUB

At a recent shoot by members of the Woman's Rifle Club, the following scores were made:

Mrs. Symons	90
Miss Falkiner	89
Miss Panter	89
Miss McLean	87
Mrs. Allen	87
Miss Hall	87
Miss Ketcheson	86
Miss Hall	86

Enthusiasm Marks Porter Campaign

Largely Attended Meeting of Supporters Organize in Mr. Porter's Interest

A large and enthusiastic meeting of the supporters of Mr. E. G. Porter, K. C., the Union Government candidate, was held on Saturday evening at the committee rooms on Front street. Representatives from the various polling subdivisions were present, and all entered heartily into the spirit of the campaign to re-elect Mr. Porter as the representative for West Hastings.

Previous to the gathering breaking up, brief but inspiring addresses were given by Mayor Ketcheson and the popular candidate. The latter referred to the fact that he was pleased to see so many of his friends present who were taking an active interest in his election. The prospects throughout the riding for his re-election were bright. Mr. Porter in speaking of women voters stated that he gratuitously done all he could for the soldier boys and their dependents and would continue to do so. He had written hundreds of letters and done other acts and had never charged a cent for his services. He was confident the lady voters were his friends in this contest. If the work of organization which had been commenced throughout the riding was continued until the day of election he had no doubt whatever of the result.

The committee rooms in the Corbett block on the east side of Front street, will be opened day and evening, excepting Sunday, and any supporter of Mr. Porter will be welcomed.

MUSIC AND DRAMA

MOVIE STARS IN "THE BRAT"

An unusual opportunity to see and meet 10 screen stars in real (not reel) life will be given the movie fans of Belleville on next Friday night, when Oliver Morosco's screen laughing success, "The Brat," is presented by the United Producing Co.

The title role of "The Brat" is played by Miss Rea Martin, the beautiful little actress who was so long associated with the Biograph and more recently featured in the Kalem screen offering "The Cossette."

In the same cast will also be Edna M. Holland, the talented daughter of the well-known character actor, the late E. M. Holland. Miss Holland, who was seen on the stage in "The Feud Girl" with Hazel Dawn and in "The World's Great Snare" with Pauline Frederick just concluded an engagement with the Vitagraph Co. prior to joining "The Brat."

While in Belleville Miss Martin and Miss Holland will be glad to meet any young people interested in this line of work.

GEO. BEBAN'S IN "LOST IN TRANSIT"

During the early part of his stage career, Geo. Beban devoted himself almost entirely to comedy and his entrance into the more serious form of dramatic art came about through one of the little circumstances that so often change a man's whole life.

He had heard a recitation in verse of a little Italian child called "Issa." The simple little story appealed to to Mr. Beban that one night at a large bachelor dinner in Chicago, he found himself telling it dialect. It was his first bit of serious acting, and the fact that it made cause him to include it in his repertoire. Later he wrote a sketch around the idea and called it "The Sign of the Rose." It was an instantaneous hit as was the motion picture, "An Alien" which she wrote from the same theme and which became one of the marked successes of the screen world. Mr. Beban's appearing at the Palace tonight to Wednesday in "Lost in Transit," his newest Paramount Picture Photoplay.

The closing chapter of the "Gray Ghost" series and a new comedy will also be screened.

ALICE JOYCE BOUGHT $12,000 OF LIBERTY BONDS

Vitagraph players at the Brooklyn studios bought liberally of the last Liberty loan in the States. On that occasion Alice Joyce had $12,000 in a Brooklyn Bank and notified the cashier to put it all in Bonds which was done, Miss Joyce announces that she is now stinting herself in luxuries to be ready for the next Loan when it is announced. Miss Joyce and Harry Morey co-star in J. Stuart Blackton's soul stirring drama, "Womanhood the glory of the Nation" which will be screened at Griffin's tonight, and Tuesday night only. "Womanhood" is the three noblest passions of a woman's life. Rightly called "The love epic of the screen," it depicts the love of a maid for a man, the love of a mother for her child, and the love of a woman for her country.

The Mutual News Weekly will also be screened on the same program.

THE GREAT WAR VETERANS ASSOCIATION PRESENT MADAME GARDINI

Without doubt no local audience ever heard "Il Travatore" sung better, nor witnessed a more finished production throughout, than was the case Tuesday night when the Boston English Opera Company, headed by Madame Gilda Gardini sang the immortal masterpiece of Verdi-Cammarano. This statement is a direct compliment to Madame Gardini, for local audiences have heard before many times the other principals of the cast, yet it is not disparaging to previous performances to say the company headed by Mr. Sheehan has ever given a good production here. The fact remains that Mr. Sheehan and his manager Edmond M. Beck, have strengthened their cast wonderfully by the addition of Mlle. Gardini, a French prima donna who has the voice, physique and capabilities of acting that combine to make the ideal prima donna. The story of "The Troubador" is well known, and the fact that Mlle. Gardini sang her role in Italian did not detract from the presentation. Mlle Gardini appeared in the role of Leonora; she has a voice of beautiful quality and unusual volume. Her tones are perfect, her range is wide and she won her audience at once from her opening number, "How Calm, How Placid" to the "Miserere" and her closing song sung between the acts of oxyma of death.—Toronto Globe.

Madame Gardini will appear at Griffin's Opera House Wednesday, November 28th, for the benefit of the Belleville branch of The Great War Veterans' Association. Those who have not already done so should secure their tickets at once as the Opera House will be packed with the people of the city and surrounding country. The citizens are particularly fortunate in having this opportunity

In and About The City

FINED FOR INTOXICATION

Joseph Brant, a stranger in the city, was this morning before Police Magistrate Masson charged with being intoxicated. He pleaded guilty to the offence, and was fined $10 and costs, which he paid.

BELLEVILLE BOY WOUNDED.

Mrs. Joe. Lingman, residing on George street, in this city, received word this morning that her grandson, W. O. Lingam, son of D. A. Lingman, a former well known Belleville boy, now in Australia, had been wounded. The brave soldier, who is but 19 years old, was attached to the British aviation service.

PLACED UNDER ARREST.

H. H. Cook, formerly hotel keeper at Trenton, was arrested here this afternoon upon a warrant issued by the Police Department of Toronto.

FORMER BELLEVILLIAN KILLED.

In Saturday's casualty list appeared the name of Arthur Ostrom, who had been killed in action. Deceased was a son of Mr. Arthur Ostrom, of Vancouver, B.C., but who formerly resided on Cedar street in this city. The brave young soldier was a member of the Princess Patricia Battalion.

WOUNDED IN KNEE

A telegram received from Ottawa by relatives residing at 57 Queen street in this city states that a cable received from England says that Bombadier E. Hugh Oliver is at Central Military Hospital, Weymouth, suffering from gunshot wound in left knee, but is progressing satisfactorily. Further particulars will be sent when received.

AN APPRECIATED ADDRESS

A large audience assembled at Griffin's Opera House Sunday evening, after church service, and heard a most interesting and inspiring address delivered by Dr. Anderson, Chaplain of the Royal Naval Institutes. His subject was "What is the difference between Navyism and Militarism?" and was treated in a manner by the learned doctor that was most convincing to all present. The various addresses given in this city by Rev. Dr. Anderson have been of an edifying nature and last night's was no exception.

AIRMEN KILLED

IN TEXAS CAMP

DALLAS, Texas, Nov. 24.—One member of the Royal Flying Corps, training at Taliaferro Field, was killed Saturday, one died of injuries received Friday, and two were injured, one probably fatally, Saturday evening.

The dead are: Cadet W. E. Alcock of England and Cadet Biddle of England.

The injured aviators are: Cadet Gish of Canada, probably fatally, and Cadet Thompson of Canada, seriously.

Alcock was instantly killed to-day when his machine collided with another airplane driven by Thompson at an altitude of 2,000 feet. Both machines were demolished and Thompson seriously injured.

Biddle was fatally injured late yesterday when his machine crashed into the ground near Riverside.

Have You Seen SINCLAIRS Plush Coats?

LONDON, Nov. 26.—The War Office reports that on the extreme right of the new battle line the British have made more gains. Bourion village and all high ground in that vicinity have been captured. All Bourin wood is now in British hands. Operations against Gonnelieu continue, and the battle is nearing the outskirts of the city. British aviators attacked German troop and supply trains arriving in Cambrai region.

MATTERS OF INTEREST TO DAIRYMEN DISCUSSED

Annual District Dairy Meeting Held in City—Prof. Publow and Others Impart Information—Mr. J.A. Kerr Was Elected District Representative

The annual meeting of the South Hastings District Dairy Association was held in this city Saturday afternoon, presided over by Mr. F. R. Malloy, District Representative of the Eastern Ontario Dairy Association, who explained the object of the gathering.

Mr. H. Howie, District Inspector, presented his annual report, which showed that the season just closed had been beneficial in some respects, and the reverse in some instances, owing to the high cost of production. All the cheese was not gilt edge, but on the whole the quality was good. The by-products were being carefully handled in some factories. In three factories in the district the whey is pasteurized and two factories partially pasteurized the whey. Where whey is pasteurized the profit at the factory is the production of better cheese. He had made 800 tests of milk and found an improvement over last year. He had made 2,000 tests for adulteration and in some cases adulteration was found and the patrons paid dearly for their folly.

Representative Elected

The election of the District Representative to the Eastern Ontario Dairymen's Association, was next proceeded with and returned his thanks for the honor conferred upon him.

Mr. Alex. Moore of Thurlow, retreated the attendance of dairymen at the meeting was not more largely represented. Much valuable information is imparted to those who attend and something should be done to try to have a more representative gathering.

Prof. Publow and Mr. J. A. Kerr spoke of the necessity there was of having district meetings held in centres where there is dairying and in this way a good attendance would be assured.

Mr. J. B. Lower, who is engaged in cow testing work, said he had been six years in this occupation, and this year had tested 3 times as many cows as he did when he commenced. Some farmers have been engaged in this work for years, and its object is to find out what each individual cow can do. A statement is given every month as to what the cow can do, and another report is given at the close of the season. He would organize the work and see that it is properly conducted.

Mr. Rothwell, of the Experimental Farm, Ottawa, in his opening remarks said there had been criticisms made of the Department of Agriculture on the part of giving too much advice and not so much information. Action is what is desired. He had been through several districts of the country, and was in the premium district at present. Many do not realize what it is to keep dairy cows for the production of milk. The need to produce cheese is great. Before the war there was but little profit in dairying. Since the war the cost of production has greatly increased. At the present time the prospects were good financially for the dairyman. There is one thing we must not forget, and that is Great Britain is looking to Canada for a greater production of food, and even dairy products. Our boys at the front are undertaking a great work and working hard. If they are doing this, cannot some of us work somewhat harder. The young man who is exempted on account of being engaged in farming work, is engaged in as much of a national work as the boys at the front. Our stocks during the past three years have been greatly depleted on account of the war. While some say reduce our stock some are adding more cows to their herd. Increased production was necessary. The speaker referred to the dairy cow and the necessity there was of keeping the very best and not breeders. As farmers will have in the future less help the best cows he can keep will be of greater benefit to him and the country. Care for the dairy cow for increase production. If we are going to cut down our dairy cattle, weed out the undesirables. Improve the herd and this will assist in preparedness for a greater production. Give the cow every chance this winter by feeding her well. This year of all years we want the cows to do all they can and we cannot neglect them. The speaker advocated the erection of a silo on all dairy farms. Silage was a great food and cannot be overestimated. Farmers now realize that they must raise their own calves, and whey, skim milk and butter milk are excellent food. Ground meal and flax seed was also excellent food for calves. A number of labor saving devices have been placed upon the market lately, and the milking machine is prominent. Some are enthusiastic in their use, and some are utterly opposed to them. It is a machine that is severely criticized by many. Out and all are able to do the work they were intended to do. At the experimental farm six different makes have been used and a seventh is being used. Cleanliness is the chief object in a milking machine. It is a complicated machine and difficult to keep clean. Some of the care, given to these machines is scandalous. It has, however, been demonstrated that cleaner milk has been secured by milking by hand, but this was on account of the milking machine not being kept properly clean. They are a good war time measure, provided you take the best care of them. They will save much labor, and the best machine possible should be procured.

Mr. Mallory thought that thousands of pounds of cheese were lost this year owing to pasture getting short this fall, and the farmers were caught napping for food. When cows should have been giving a good deal of milk they went down for want of proper food.

Mr. D. A. Macintosh of Stirling, District Representative of Agriculture, spoke briefly on the subject of the farmers to be prepared for any emergency food may might arise. He advised all young men on farms and also any who could to attend a short winter course at the Guelph Agricultural College. This winter there was only for a month a course of instruction held at Springbrook. He advocated a better production of hogs, milk and cheese.

Prof. G. G. Publow, Chief Dairy Instructor for Eastern Ontario, said he desired to assist all he could in factories and dairy conditions. The people do not need to be told what to do, but to stimulate them to do what they can do and as well as they can possibly do. Do not neglect to provide the thing necessary in order to produce the best foods. As a war measure he had no objection to the selling of oleomargarine while the war lasts, but not imported after the war. Let it be sold on its merit as a cheaper fat for poorer people. He predicted that the rennett situation would be improved next year, but in the meantime he would advocate the buying of the pepsin and dissolve it yourself. This would be better than some other acids used. Use enough of it. Buy your supplies for the cheese factories as early as possible. If the cheesemaker has been a success this year in the factory he has been engaged in, engage him even at an increase of salary. He would not say that cheese factories would suffer if it was found necessary to have women as helpers in the cheese factories. The introduction of steel to the building of whey butter machinery in factories, he would not advocate it. It may receive some of the fat lost in the whey. He would recommend that if whey butter is being made pay the cheesemaker a salary for making same, and not allow him a certain rate in the profits of the sale of the butter. The skimming of the whey separator to 25 per cent. of its feeding qualities. He would have the whey pasteurized and not skimmed. Generally speaking the factories that have installed a whey butter machine is not paying a greater dividend than factories that do not make whey butter. Prof. Publow made an earnest appeal for greater production of all food stuff. Our boys are giving their lives, and it was our duty to do more for greater production. If we do this we will have done our duty. He hoped this coming year would be the most prosperous year for the dairymen of this district.

After a few remarks from the chairman and the passing of a vote of thanks a splendid meeting was concluded by the singing of the National Anthem.

WHAT IS A COWARD ?

That allowances are being made by the Medical Department of the United States Army for men who are subject to nervous and mental disorders, was the statement made by Major Pearce Bailey of the Department to Clara Savage, who interviewed him for Good Housekeeping. Major Bailey said:

"Men who have been found guilty of cowardice or desertion in war time were formerly shot or imprisoned. But today we know they are sick men and treat them accordingly. Fear has a physical basis. It is due to a shock such cases which will develop at the front that each base hospital which goes abroad with our troops will be equipped with a neuropsychopathic unit. Here men who are suffering nervously and mentally will be given sedative baths and psychotherapic treatment. Women nurses are especially suited to administer such treatment. They do better work than do men. Many patients will be able to return to the firing-line.

"There are some men who, while apparently physically strong, will never make soldiers because of mental instability. Others are unfit be-

Had Piles For Ten Years

And Tried Nearly Everything Except a Surgical Operation Without Obtaining Relief or Veils How Complete Cure Was Effected.

Brantford, Ont., Nov. 26.—There is reported another cure of remarkable cases of piles. In all three cases many treatments were tried before the discovery that Dr. Chase's Ointment is about the only real cure for this distressing ailment.

Mrs. A. Owen, 22 Gilbertson street, Brantford, Ont., writes: "I have used Dr. Chase's Ointment as a household remedy for over ten years, and can truthfully say everything I heard. After using Dr. Chase's Ointment a short while I was completely cured."

Mrs. Wm. Stanell, Gilbert street, Kitchener, Ont., writes: "For several years I was troubled with bleeding piles. I tried different remedies for relief without success. I read in the papers about Dr. Chase's Ointment other people were receiving from Dr. Chase's Ointment. I sent to the local office for a sample box. I found it gave me relief. I got a full box from the drug store and purchased a full-sized box. I have used several boxes since, and I am pleased to say that I am cured. It is one than any remedy I have ever used."

Mrs. Cassells, Victoria street, informs us that she suffered from piles for years and a half ago I was suffering from Piles. I had tried many different remedies but I got no permanent trouble, but nothing helped me. Finally a box of Dr. Chase's Ointment, and after using it found that I was completely cured, and have not been bothered in this way since. I can cheerfully recommend Dr. Chase's Ointment to anyone suffering as I did."

Dr. Chase's Ointment, 60 cents a box, at all dealers or Edmanson, Bates & Co., Limited, Toronto. There are no rivals to Dr. Chase's Ointment as a treatment for Piles.

Experience Counts

Particularly so in buying a watch. We venture to say that ninety-nine people out of hundred could be left a hundred dollar watch movement from a five dollar one.

Such being the case, the wisest thing to do is to borrow our experience.

The watches we now sell are the result of half a century's experience in choosing the best —coupled with a buying power that enables us to buy where we please.

We have in mind particularly our 12 size, men's solid 14 kt. thin model watch at $50.00. It has a durable gold case, an inviting dial, and the "works" will serve you faithfully and well.

Altogether a little jewel of a watch—and again we say experience counts.

WHAT UNION GOVERNMENT STANDS FOR.

The Union Government offered the only solution for a vigorous and sustained prosecution of the war. Opposed to this was the Quebec attitude of "not a man, not a dollar." To give them credit, they have fairly well lived up to it.

Again, the platform enunciated by the Union Government is one that we can whole-heartedly support. It embodies:

Abolition of patronage.

Franchise to women.

Adequate taxation of war profits.

Progressive policy of immigration.

Care and provision for returning soldiers.

Development of transportation.

Retention of excess profits.

Development of Canadian resources.

Co-operation in agricultural production, with a view to the reduction of cost.

Adequate consideration for the needs of the industrial population.

Policy aimed at bringing the east and the west to a closer understanding.

That platform is a commendable one. It appeals alike to the Liberal Conservative, Independent and Labor elements. It is broad enough for all to stand on. It is worthy the support of all loyal Canadians. It should be given a fair trial.

A vote for E. Guss Porter is a vote for Union Government and the larger Canadianism.

WHAT'S THE USE?

It's no use; the heathen is wedded to his idols no less firmly than the Laurierite publicity department which is boosting the opposition candidate is wedded to deceit and falsehood. Caught red-handed trying to get forty-nine signatures as one-hundred and forty-eight it refuses to admit the lie and only wakes into hysterical rage when confronted with indisputable evidence of its perfidy. It was one of the Machemsy, would-be cute tricks which deceived nobody, but performed in harmony with the whole campaign of misrepresentation which has sought to win supporters to the opposition candidate from the beginning, starting with the affair of the petition to which signatures were obtained on the pretence that Mr. Porter would not be a candidate. Apparently trying to cover convicted guilt by noise the opposition candidate's publicity department on Saturday issued a manifesto of hysteria covering several columns of shrieking denunciations, but tucked away, very inconspicuously in the centre of the wordy mess this paragraph appeared.

> As a grand finale a most unusual document is produced, signed by the returning officer for West Hastings, M. B. Morrison, in which it is stated that Mr. Porter's nomination paper contains 73 names and Mr. Graham's paper 30 names.
>
> What Mr. Morrison says is true, but it is only part of the truth.

The admission is made that Returning Officer Morrison told the truth, but in the same breath the accusation is made that he only told a part truth. Thus the honorable gentleman is accused of being guilty of that abomination of abominations, a hybrid falsehood—half truth, half lie.

In the face of such mendacity what is the use in the great jugging fest, which out-Heenans Heenan still retains the championship—39 is converted into 148 without straining anything but the truth and public credulity.

"Oh what a tangled web we weave when first we practice to deceive" is a saying which fits the case exactly. On Tuesday the deception was tried and apparently escaped detection for on Wednesday it was editorially endorsed, reiterated with rising emphasis and more camouflage on Thursday, on Friday tearfully insisted upon, and on Saturday in a loud hysterical outburst clung to desperately while even the Returning Officer was accused of trifling with the truth.

So what's the use?

LAURIER THE OPPORTUNIST

Laurier is clever enough to realize that voluntary recruiting has failed in Canada and that conscription is the only fair way of keeping faith with the soldiers overseas. And he considered long before surrendering to the necessity. But opportunism which seemed to hold out the promise of a return to power on the votes of the slackers, aliens and a solid Quebec. He is even bold enough to promise definitely in a bid for disloyal votes that if returned to power he will let the operation of the Military Service Act and leave the soldier boys overseas to shift for themselves in the mud of Flanders. Is it any wonder that loyal Liberals with sons, relatives and friends overseas fighting the battles of the Empire can no longer follow his leadership. Opportunism is the enemy of patriotism and Canada will place the great seal of ignominious defeat on opportunists with their ballots when the appointed time comes.

HARTLEY DEWART, M.P.P.

This gentleman, who through a combination of anti-prohibitionists and Liberals was elected M.P.P. for one of the Ridings in the city of Toronto, is becoming reckless in his advocacy of Laurierism and consequently vicious in his denunciation of the press which supports the Union Government. At a Laurierite convention held in Stratford, on the 16th inst., he gave utterance to the following condemnation of the press:

> "There isn't a paper in Canada that isn't for the rich men in Toronto and Ottawa, and the time has arrived for the newspapers to dictate to the people."

There is a short word in the English language which answers this charge so far at least as it relates to the Conservative press, and that word can be spelled with three letters.

MR. BICKERDIKE'S APPROVAL

Hon. C. C. Ballantyne, the Union Government candidate in St. Lawrence-St. George divisions, could receive no stronger support than the unqualified approval of his candidature first expressed by Mr. Robert Bickerdike, who represented this constituency in Parliament for seventeen years.—Montreal Star.

This is an indication of how the English speaking people of the Province of Quebec feel in reference to the win-the-war Union Government. Mr. Bickerdike is a Liberal of the Liberals, and one of the most devoted followers, in the past, of Sir Wilfrid Laurier.

CRISP COMMENT

The forethought of the local Laurierites is—"Anything to beat Porter."

Mr. Porter spent most of Friday in Trenton and reports that in all his contacts he never found Trenton electors so enthusiastically in his favor as now.

What is an "Independent People's" candidate? In West Hastings an "independent people's" candidate is neither one thing nor the other—just a brass band, and a fat pocket book—in a word, an opportunist.

Graham for years has been an imitation Conservative. He is now the imitation Union candidate. Porter is the genuine Union Government candidate endorsed by Premier Borden and Hon. N. W. Rowell.

There will be no more of those excessive profits made in the packing business in Canada, during the war, if Mr. Graham's pet, the Trade Commissioner, is appointed to them. This is as it should be and the principle of absolutely stopping the other kinds of business making huge profits as the result of war conditions.

Graham is such a "friend of the farmer" that what one would think that he had divided up his huge profits with them is not the case. He has been kept so late, however, of the opposition candidate paying the farmers any more than he had to pay for goods. Nor has he cut any juicy melon with them or distributed any beefsteaks. Perhaps that his profits were enormous but the workingmen and farmers who helped to make them didn't get a look in.

Graham is a most remarkable politician. He admits being a manufacturer, a Liberal, a labor man, an independent, a Conservative, a Liberal capable of sitting on the fence, rolling under it, hence or jumping either on the home or the adoptable little candidate is this that if Laurier needed only one vote to grab the premiership he might consider the chance good of capturing this versatile lightning-change artist from West Hastings. Surely any chance the opposition candidate should be elected and Laurier should come that close to victory.

Pro-German Bomb Killed Ten

MILWAUKEE, Nov. 28.—A bomb found in an Italian church here and taken to police headquarters for examination exploded killing seven detectives, two policemen and one woman.

THE POETS' CORNER

FALLEN IDOLS

Here is a poem worth reading, by Sara Beaumont Keaned. It is called "The Soul of Germany:"

The soul of Germany! How fair it shone
Once in the eyes of all the world, soaring in upward flight to sunlit heights,
Its gleaming pinions wide unfurled.

The soul of Germany was Wagner, Bach;
Was Mozart singing in the stars,
Was Goethe opening Hertha's heart with Dreaming;
Was Schiller letting down the day-spring's bars—

Was Heine calling through the paling night—
Holbein and Hofman with uplifted
Or Glück's or great Beethoven's wonder touch
Sonorous in the universal hush.

These and their kindred Genii were the soul
Of Germany before there fell
Upon her that direst Hohenzollern blight—
With lust of power and all its scorch of hell—

Her soul before her war crazed men forgot
The heights for which her 'science' stood;
Her soul before her unshamed women sent
"Conscript" to unwed motherhood.

But now, where Schumann sang the despot rules,
Sordid with hate the land that Handel knew—
The "soul" of Germany takes far its flight
And vultures wheel where once its 'radiance flew!

NEW WINNIPEG TRAINS

Travel between Eastern and Western Canada is always heavy in the winter months, particularly during December with its holiday season. To meet the requirements of the public, therefore, a special Daily Service between Toronto and Winnipeg is announced by the Canadian Northern Railway; Westbound, December 1st to January 2nd, 1918 only; Eastbound, December 1st to January 5th, 1918 only. Thereafter, regular tri-weekly service will be resumed. A through Tourist Sleeping Car will also be operated daily between Toronto and Calgary as part of the above special service, and connection will be made with regular daily trains between Winnipeg and Edmonton. Service between Toronto and Vancouver remains tri-weekly leaving Toronto on Mondays, Wednesdays and Fridays, as at present.

MINISTERS AT NAPANEE

NAPANEE, Nov. 24.—Sir George Foster and Hon. Hugh Guthrie addressed a large meeting in the Armories yesterday afternoon in the interests of Mr. W. J. Paul, Conservative Unionist candidate in Lennox and Addington. Mayor Dracass, a Liberal, was in the chair.

Edward Earle Has Gained 14 Pounds

Gets Complete Relief From Suffering of Five Years Standing

"When I tell you I have gotten complete relief from five years of misery and have actually gained fourteen pounds, in weight since I began using Fruit-a-tives, you will think so highly of them," said Mr. Edward Earle, 112 Walmsley avenue, Toronto. Mr. Earle is well known among carpenter and contractors and has lived in Toronto for the past 30 years.

"My stomach was all upset, the gas would bloat me out so much that I couldn't digest anything. I had no appetite for food of any kind and what little I would eat by force, by no means satisfied. I would bloat up terribly with gas and sharp pains in my sides and all around my heart. My condition was always the same, a bad taste in my mouth and would have dizzy spells when it seemed like a film or skin would form on my eyes and my vision would fail me. My sleep was poor, I was out of sorts all the time, felt tired and sluggish and had no energy. I really dreaded to eat anything because I knew how I would suffer afterwards.

"Such was the condition I had been in for five years, and while I tried all kinds of medicines I kept getting gradually worse until I read in the papers about Fruit-a-tives. It's the only medicine I have found in all these years that I could continue taking and get any benefit from. My stomach trouble has disappeared entirely with all the gas, pain and other bad feelings and I'm feeling fine and strong in every way. My appetite is fine and I can eat anything without fear of pain. I have gained as much as fourteen pounds in weight. I sleep good every night now, all my worries and misery are gone and I can say I am a well man. I have taken six boxes of Fruit-a-tives and I'm willing to say that they have done me more good than all the other medicines I have taken put together. I am glad to recommend Fruit-a-tives to all who suffer from Indigestion, Stomach Trouble or Constipation, and if I did will do well to try them."

Fruit-a-tives is sold by Dr. Morton's Drug Store, in Trenton by J. Deacon and Deacon's Drug Store, in Madley, in Stirling by Dr. Thrasher, in Frankford by W. H. Lattimer, in Marmora by J. Wilson, in Marysville by T. J. McAlpine and in Ormsby by Jas. Campbell."

HOW TO APPEAL FOR EXEMPTION

Write a Letter to Ontario Registrar Setting Forth Grounds For Hearing

TORONTO, Nov. 28.—Men in Class 1 who wish to appeal for exemption should be made is by writing a letter to the Ontario Registrar, Mr. Glyn Osler, setting out the grounds on which the new hearing of the case is asked. Any kind of informal letter will answer the purpose, as the main thing is to get the case in time so that the applicant wishes to appeal against the ruling of the Local Tribunal. This information is given so that men who want to appeal will direct their requests to the proper residence of the body inquiring at Military Headquarters, which has nothing whatever to do with the machinery of the Military Service Act.

It must be borne in mind that the appeals are to be mailed so that the postmark on the letter carries a date within three days of the time that the appellant received the official notification of the decision of the Local Tribunal.

Men Who Are In Default.

Since November 19 there have been 122 defaulters who have presented themselves at the Armories and with their own consent were placed under arrest. Of this number 54 were Category A men, and they are now in uniform at Exhibition Camp. The remaining 68 were men being in Category A, were exempted until their categories are called out. It is pointed out that if any man is in default still, he should report without delay, as there is yet a possibility that any claim for exemption he has may be considered, while failure to do so is liable to be cancelled any day.

Reinforcements Needed At Once

HAMILTON, Nov. 24.—During an evening meeting in this city Colonel Mesbers said he hoped to have 10,000 or 15,000 troops in England by the second week in January. He said:

"I feel it my duty to tell twenty thousand men overseas by the first of January." This was the important statement of Major-General the Hon. S. C. Mesbers, Minister of Militia and Defence, to a mass meeting of women supporters of the Union Government in the Oddfellows' Temple. General Mesbers explained that the 5th Division had been broken up in order to reinforce the other four divisions at the front, the number of casualties in the Canadian Corps since the 2nd of October up to last night totalling 15,058. The 5th Division now numbers less than ten thousand men, who will probably have to be split up "like plate" in order to reinforce the men on the fighting-line, he said, for that reason he felt it his duty to suggest as much time electioneering should be cut 20,000 men overseas by the last of January. He spoke as a returned soldier to the women of Hamilton, and asked the Union Government in order that the much needed reserves may be sent forward to the war zone. He explained that "one million or more" women with relatives in the fighting-line will have the vote in the coming election, including no less than 30,000 women in Hamilton alone, because Hamilton has given no fewer than ten thousand men to the cause. "If the women of Hamilton will league together they will be able to swing this election any way they like," declared General Mesburn.

It was for that purpose that the meeting was called, and hundreds of Hamilton's women, whose husbands, sons or brothers are with the colors in Flanders fields answered that call. Mrs. W. R. Sanford presided, and sitting on the platform with her were Lady Gibson, Mrs. Wm. Hendrie, Miss Kay Rennie, Miss Florence Meakin, Mrs. J. W. Morden, Mrs. Walter Langrill, Mrs. T. J. Stewart, Mrs. (Canon) Plumptre of Toronto, Mrs. Fred Carpenter, Mrs. S. F. Washington, Mrs. John Forth, Mrs. Hobson, Mrs. Hatch and Mrs. Manley Morden.

The speakers were Sir George Foster, Hon. Newton Rowell, Major General S. C. Mesburn, Senator Lynch-Staunton.

WOMEN ARE STRONG FOR CONSCRIPTION

TORONTO, Nov. 25.—In these days women are forgetting that they are Conservative or Liberal, and are remembering only that they are Canadian, with boys at the front who must be reinforced. In order that this reinforcement may materialize as speedily as possible, Toronto women are coming together in a league pledged to support the Union Government, which will send the soldiers overseas immediate help. At a meeting the Women's Union Government League Committee received loyal support. The work of the Unionist ward organization and to co-operate in every way possible.

FIVE FUNERALS IN THREE YEARS

Family Almost Wiped Out By Consumption.

From a novel in the real of motherprotection's buildings comes a gripping tale, one that in this fairy-tale-for-ours seems almost incredible; yet, for those who know the ravages of consumption, it is but a typical case.

Grief stricken, the mother tells of her five small children buried from this lowly home during the past three years, of her lonely remaining child suffering from a tuberculous hip, and then as though in mercy of their misery, the father, too, was stricken. He is now a patient at the Muskoka Free Hospital for Consumptives and is being made to save his life. The Muskoka Free Hospital for Consumptives is appealing for help to carry on this fight against the Great White Plague. The money you give will help them stop other consumptive families and give them a fighting chance for their lives.

Contributions may be sent to W. J. Gage, Chairman, 84 Spadina Avenue, Toronto, or Geo. A. Reid, Secretary-Treasurer, 223 College St., Toronto.

Fire In G. T. R. Shops at Brockville

BROCKVILLE, Nov. 24.—The Grand Trunk Railway shops narrowly escaped destruction last night by a fire which broke out in the oil room and spread to the northern annex, wherein were located the works of the blacksmiths and fitters. This was completely gutted and much valuable machinery was ruined. The fire brigade succeeded in saving the main structure with the exception of a portion of the roof. Several engines in the building were safely removed.

The blaze threatened surrounding residential property, which was saved by the roofs being covered with snow. The loss will run into the thousands, and is covered by insurance.

The Under Dog

Novelized by William A. Page From Maurice V. Samuels' Great Biblical Drama of the Prodical Son, Presented at the Manhattan Opera House, New York

Copyrighted, 1917, by William Elliott, F. Ray Comstock and Morris Gest.

"But they art here!" tandered Gaal, with new bitterness in his voice. "Now mess I plan to keep thee from thy father and thy mother, for thou art a disgrace to me all, and thou must do as I say if thee will have thy home. Thee canst not stay—yet thou must stay with me for the night. I must think—yes, thee shall spend the night in one of the dog kennels, where thou dost belong, for I hate thee and always have."

CHAPTER XIII.

Gaal, Harder Than Stael.

THE night passed. Gaal cruel struck the younger brother as Jether. with all the strength he could command, forced him deliberately down," she took new life and strength. It's a powerful, invigorating tonic and nerve tonic was discovered and used by an eminent physician for many years, in his large medical practice among women. For young girls just entering womanhood, for women in middle life, the "Favorite Prescription" in the only medicine put up without secrecy, and can be had in tablet as well as liquid form. It's not a secret prescription for its ingredients are printed on wrapper. Send 50c for trial package to Dr. V. M. Pierce, Invalids' Hotel, Surgical Institute, Buffalo, N. Y., or branch in Bridgeburg, Ont.

Hamilton, Ont. — "When passing through middle life, as is usual with most of this kind, I began to fail in health. I was always tired, had no energy, could not sleep, my back ached and I had pains in my sides. My appetite was poor and nervous. I took medicine which only gave relief until I took Dr. Pierce's Favorite Prescription. In a few months I was better in health and strength and I came through this critical period in good condition." Mrs. Sarah Cayen, 196 Rubin Ave.

Jether turned into his dog-kennel and soon was asleep.

With a snap of the finger Gaal turned away from him.

"Bah!" he said roughly. "I could smite thee to the earth with my one finger, yet I spare thee. And as I spare thee so would I spare her. Should she come unto me, when her strength fails her almost unto death, see I treat this art when I have told her that father has spoken wisely and that thou and her own honor in a distant city—then her death would be upon thy head."

"I have indeed sinned enough of woe. The goat shed or the kennels shall suffice me, as thou wishest. I am the vilest sought of thy portion. A young goat with a tinder heart than thou shall share in mother's milk with me as I kneel down beside it. Then I shall go down out into the darkness."

Slowly his laborious footsteps carried the tottering, wretched frame across the courtyard and into the Jetharite where were kept the dogs and the goats. A dog barked in the distance. Then another, and another. Then there was silence.

Jesse strode forth from the house to listen wonderingly. He found Gaal standing toward the goat shed with anxious eyes.

"Why dost thou remain here?" asked Jesse. "Is aught wrong with the dogs?"

"Nay, my father," answered Gaal quickly. "But go thou within."

"I am anxious about the stranger who hath passed through Hebron and who may have news of Ahimelech," said Jesse sadly. "But now hath almost the last of my sons come to me."

"If thou hearest me worst thy strength may leave thee," argued Gaal.

"Nay, I shall hope again. But thou, Gaal, go thou within and bid thy mother place a plate for the stranger next to-me—for I am empty one."

The old man's voice choked as he turned and walked away.

"Thou wilt hear no good, I warn thee," said Gaal gruffly.

"And thou"—and Jesse bitterly "if thou hadst shown a kinder heart unto thy brother he might have stayed with us."

"If thou hadst made him tell as I have told thee of—of Gaal, then thou mightest have less cause to fear the stranger," replied Gaal.

Angrily he strode into the house. Again the dog barked in the distance. Gaal turned—then joined in, and from the dog house and the goat inclosure there arose a perfect chorus of dogs, some angrily, some joyfully.

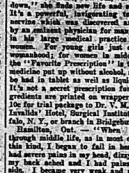
"Why do the dogs bark thus, Sheiah? Were they not fed?" asked Jesse.

"I myself left food for them a little while ago," replied Sheiah wonderingly.

"Go to them, for there is something. And remember, Sheiah, though naught is lower than a dog, yet a good master is kind unto it."

As Sheiah left to investigate, Huldah, hearing the barking of the dogs, came from the house and approached Jesse anxiously.

"Go thou within," commanded the patriarch. "The air is chill, and I will



GAAL, SON OF JESSE.

"I could smite thee to the earth with my one finger, but I spare thee."

Join thee presently, after Sheiah reports about the dogs that do bark so strangely."

"I, too, have noted the barking of the dogs. But come within, Jesse. The evening meal awaits thee."

A loud cry from Sheiah interrupted Huldah. He came to them in great excitement.

"Master," he cried, "what shall I do? There was a man, a beggar, among the dogs, gnawing a bone that they had turned from. He lay upon the ground in agony, for one had set upon him. I could not see his face the way he lay, but I did beat the dogs away from him and close the gate upon him."

"Hadst go with Sheiah," Jesse said thoughtfully. "There are many, now why I must remain here. Thou hast my words ware, and ask perhaps hath a desire me man to sustenance. Sometimes, too, such men have holy visions from their feelings. Speak soft to him and step down the road, only to hasten back at hearing a fearful cry of agony from the direction of the shed. The voice was that of Huldah, and anguish was very note.

Through the gathering darkness Jesse saw her aiding Sheiah to half carry, half drag a limp and senseless form clad only in rags. He started to-ward her eagerly, but something made him pause. The mother dropped her burden at his feet, and he saw that it was the body of a man fainting from exhaustion. He leaned over, when the mother, facing him piteously, cried:

"Master, the boy has come home!"

"What?" cried Jesse, with a cry of pain and sorrow, striking at the sight of the poor, wounded body lying before him and remembering, in spite of former anxiety over Jether, that he had sworn a mighty oath that never should the boy look upon his face again. "Our boy? Nay, I have sworn that he shall not look upon my face again."

But the man, murderous gesture he resolutely turned his back upon the

Richmond, Ind.—"For two years I was so sick I could not walk upright from my age that I had to climb a going up stairs I had to go very slowly with my hands on the side steps, then sit down a little, like going to bed. The doctor said he thought I would have an operation, and my friends thought I would not live. I suffered terribly from my new home. My neighbors advised me

to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, and before the bottle was all gone I began to feel better. I kept on taking it, and in a few months I was entirely relieved of all my troubles. I can now do all kinds of housework, do my own washing, and I also raise chickens and do my own laundry work. I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound and Liver Pills for what they have done for me, and will answer letters of inquiry." Mrs. Ida Hoover, Route D, Box 190, Richmond, Ind.

WHAT'S NEW IN TRENTON TOWN

Interesting Budget of Recent Happenings to Busy Trent Town and Vicinity—Soldier Brevets Who Died in Flanders—Weddings and Accidents

(From our own correspondent)

TRENTON, Nov. 26.—A painful accident occurred recently when Mrs. Richard Whitley fell on the wall curb at her home, Marmora street, breaking three of her ribs as well as injuring her arm.

MADE SUPREME SACRIFICE.

The people of Cobourg, Trenton and vicinity were very much shocked when the sad news was conveyed to them this week that Aubrey Peck, K.C., another of Prince Edward County's finest young men, as well as a graduate of Queen's University, had given his young life, a supreme sacrifice on the battlefield of Flanders, for the cause of freedom and for Canada and the Empire. The early part of Mr. Bush's life was spent on the family farming community along the shore of Consecon Lake between the villages of Consecon and Melville. After finishing public school in Consecon he attended high school in Trenton, where he prepared himself to serve an exceptionally clever student. He is also well and favorably known in Picton where he attended the Collegiate Institute. At an early age he graduated as a matriculant in arts. For a term he taught at a country school at West Point and his services in the Epworth League and all branches of the Methodist church were freely and cheerfully given at all times and under all circumstances. Later he took a four year course in Arts at Queen's University, Kingston, where his frank and genial disposition and his sterling uprightness of character won for him many strong and lasting friendships, and here he was also recognized by those who were privileged to come in contact with him as a brilliant, clever student and a rising young man. His vacations were for the most part spent in the west where as a school teacher he was favorably known in different sections of Manitoba and Saskatchewan, or at his home in Prince Edward. After graduating from Queen's University he spent three years as principal of a school near Newboyne, when his high sense of honor and duty caused him to resign and respond some eleven months ago, to the urgent call for men to go to France in the defence of freedom and right, and although all who knew him regret his untimely end "somewhere in France," still they will proudly cherish the memory of one who gave his young life so freely and whole-heartedly in the service of his country.

CONSECON SOLDIER KILLED.

The sad news reached Mr. and Mrs. Simmons this week of the death "somewhere in France" of their son Percy. This sad intelligence came to us over the village of Consecon and vicinity, where he was so well and favorably known. Percy was the second son who has responded to the call of the colors, Edgar, the younger boy, having been invalided home some few months ago.

WEDDING BELLS.

A quiet but pretty wedding took place at St. Peter's, Trenton, on Monday, 19th inst., when Miss Marie Louise Palen was united in matrimony to Mr. Hodgson of Three Rivers. Mr. Hodgson is well and favorably known in Trenton, having spent some six months with the Bell Telephone Co.'s staff. After the ceremony the couple, accompanied by Mr. and Mrs. Rogers of Marmora street and Miss Myra Gonchio, who played the wedding march, took the early morning train for Deseronto, where a wedding breakfast was served at the home of the bride, a number of guests, relatives and friends being present to welcome them.

PATRIOTIC DANCE.

The patriotic dance given at the Quinte Hall, Trenton, on Monday, 19th inst., was largely attended and a decided success. There were representatives present from Brighton, Belleville, Picton and neighboring villages and all report an enjoyable evening.

GAVE HIS LIFE FOR COUNTRY.

Another brave young Trenton lad called from active life his life that Canada might live is Dr. R. A. Ireland, who offered his services for overseas in the summer of 1915 and later went over to the front with the 76th battalion of Niagara after acquiring his captaincy in that battalion. Soon after arriving in England he became attached to the 7th Canadian Mounted Rifles and in but a few weeks he was on French soil, where he witnessed some hard and bitter fighting, being ever present and faithful in the performance of his duties. His good work was well recognized at both the Somme and Vimy Ridge, where he was always found faithfully and untiringly attending to every detail of his soldier duties, while lists bath in the trenches and along the front line of battle, for with the exception of a short time spent in La Harve hospital he has been steadily on duty until called by death while cheerfully taking his life in behalf of the mainmed to whom he was ministering on the field of strife. Captain Ireland was only 27. He was a native of Trenton and a younger brother of Wm. Ireland, Mayor of Trenton. Early in his teens he graduated from Trenton High School and took up the study of medicine at Toronto University, from which institution he very creditably graduated in the year 1911. His first practice was in St. John's, Newfoundland, and after spending about a year in the east he accepted a call to the staff of the Hinewood Sanitarium, at Guelph, and it was from here that he so grandly responded in the early hour of need by offering his services for his King and the Empire.

TROPHIES OF THE HUNT.

A considerable number of fine specimens of deer as well as a large bear were brought in to Trenton station from the north country this week "trophies of the hunt." One party reports five bucks, after spending a couple of weeks in the vicinity of Maroon Lake. The party included W. A. Bleecker, B. Weddell, H. E. Whittier, O. Fortune, R. Maunder and Frank Felion.

THE BATTLE TANK.

Considerable interest and curiosity was occasioned by the "tank" which passed through Trenton this week, making a short stop at the station on Tuesday of this week while en route to Montreal where it was to give a demonstration of strength and endurance and mountain climbing.

ENJOYED SUPPER AT Y.M.C.A.

On Friday evening 18 boys of the "Live Wire" class of the Baptist Sunday School enjoyed a Been feed. This class is taking up the Canadian Standard Efficiency Test work and meet every Friday evening for an hour and a half. Bible study is taken up, talks and tests, also physical work. The idea is to develop the all-round boy and help make him a good citizen.

BASKETBALL.

On Thursday evening the Tommies and Frenchies met in the second game of the junior basketball series. The Frenchies seemed to be the best in shooting, they securing four baskets and one foul to the Tommies one foul. At full time the score stood 18 to 3 in favor of the Frenchies. The line up:—

Tommies—J. Herity r., A. Marshall l.f., W. Bongard r.f., L. Allen c.g., H. Collins l.g., W. Macintosh, spare.

Frenchies—T. McCole c., L. Palmer l.f., G. Poste r.f., M. French r.g., R. Hutchinson l.g., R. Ross, spare.

SENIOR BASKETBALL.

Friday evening the Invincibles and Torpedoes clashed. The game was a whirlwind from start to finish and it was either team's game all the time the whistle was blown. Every player was on the job from start to finish. The Torpedoes seemed to be a bit the strongest in the first half. The score stood 15 to 31 in favor of the Torpedoes at half time, but in the second half the Invincibles came back at them and scored two baskets to their opponents' one and won out by a score of 34 to 33. Herity and Bongard were the men who did the scoring for the Invincibles, while Deeton, Nurse, Robertson and Buchanan scored for the Torpedoes. The line-up:

Invincibles—Max Herity c., R. Lasher r.f., V. Weir l.f., A. Wims l.g., C. Gibson r.g.

Torpedoes—S. Nurse r., G. Robertson r.f., A. Buchanan l.f., Lorne Deeton l.g., F. Deacon r.g.

In the second game the Submarines and Cruisers met. The game was not as close as the first although every man was on the job. Close checking was a feature of the game. The Cruisers were never in danger, winning out by a score of 24 to 18. Holland, Cooper and Barlow were successful in winning baskets, while Dueberry, Yeomans and Hitchon did the scoring for the Submarines. The next two games will be played by the Dreadnots vs. Invincibles and Torpedoes vs. Cruisers.

The line-up:

Submarines—A. Dueberry l.f., A. Yeomans r.f., B. Tower c., A. Hitchon l.d., A. Blackburn r.d.

Cruisers—J. Barlow l.f., R. Cooper r.f., o. Armstrong c., H. Holland l.d., L. Ross r.d.

Time-keeper—E. VanBoskirk, secretary, R. Watson; referee, H. F. Ellis.

THE LATE COL. F. HARRISON

The Ottawa Evening Journal in its issue of the 19th inst., has the following reference to Lieut.-Col. E. Harrison, a former well-known Bellevilian, who died at Ottawa.

The funeral of Lieut.-Col. Edward Harrison, whose death occurred on Friday evening after a short illness from pneumonia, took place this morning at 8.15 o'clock from 359 McLaren Street, to Bronk Street Station. The body is being taken to Belleville, where interment will take place.

Lieut.-Col. Harrison was a son of the late Captain Edward Harrison of Belleville, and brother of John J. Harrison of this city. He was born in Toronto and received his education at private schools in Montreal and Quebec and at Upper Canada College. In 1882 he came to Ottawa and from that time until his death was employed in the Department of the Secretary of State.

Lieut.-Col. Harrison was for the greater part of his life connected with the Canadian Militia and entered all the ranks to the command of the 43th Hastings Rifles. In 1903 he retired from this command and was placed on the Reserve of Officers. He saw active service in the Fenian Raid of 1866, in which he served as a bugler, the Red River Expedition of 1870, and the Northwest Rebellion of 1885. He was in possession of the Fenian Raid medal and clasp, the Northwest medal and clasp, and the officer's long service decoration.

He was an Anglican in religion and a regular attendant of St. George's church. His quiet, sterling character endeared him to all who knew him and in his department and among his military associates, and a large number of friends, his loss will be deeply felt.

DEATH NOTICES.

PRY—In Belleville, on Sunday, November 25th, 1917, Cecelia S. Pry, widow of the late Albert E. Pry, aged 72 years and 3 months.

The funeral will take place from the residence of her brother, George W. Rabbie, 354 Moira street, West, to-morrow, Tuesday at 3 o'clock. Services at the house at 2.30 p.m. Interment Belleville cemetery.

BISHOP ISSUES APPEAL ON COMING ELECTIONS

KINGSTON, Nov. 24.—Under the heading, "The Coming Election," Bishop Mahrad has issued a pastoral in which he impresses upon the people the extremely solemn obligation they are under at the present time of laying aside all other considerations in the casting of their vote except the one paramount object of maintaining at full vigor the effort now being made by this Dominion in common with the rest of the Empire, to save the world from coming under the domination of an "incredibly ruthless and cruel despotism."

WELCOME

A meeting for the ladies of Belleville (and their escorts, and especially the mothers, wives, widows, daughters and sisters of our overseas soldier heroes) will be held in the City Hall to-night at 7.30 o'clock. The meeting will be addressed by Mrs. J. B. CLEVELAND, lady orator from Toronto. LADY CHAIRMAN.

TO-NIGHT

HASTINGS DIGS DOWN FOR VICTORY LOAN

Million Mark Has Been Passed and Workers are Now Out to Double Objective—Every Dollar That Can Possibly be Spared is Needed

Thurlow is certainly doing its duty with a vengeance. On Saturday night the Thurlow hustlers brought in $22,000. This makes over $125,000 for the township since the campaign started. In spite of the fact that the chief hustler, George Reid, requested the publicity dept. to keep the names of the hustlers out of the papers for once, we still must congratulate himself and his worthy associate, Henry Denyes, once more—Don't let this stop you George. Go to it.

Won a Bond

The first week's contest for a Victory Loan at Griffin's Opera House was concluded Saturday night, and Mr. W. B. Deacon, County Chairman, and Mr. W. J. Doyle, County Publicity Manager, were there on behalf of the Victory Loan Committee. Mr. Deacon gave the very large audience present a good strong talk on the necessity of buying Victory Bonds, and also advised them to go to hear Miss Gardiner on Wednesday evening, thereby helping the Great War Veterans' Association to get established in Belleville, as Mr. Deacon explained to the audience that every cent of the proceeds over and above the actual expenses would go to the Veterans. Mr. Doyle then drew the lucky number, which was 1618, and was held by Mrs. Geo. H. Taylor, 110 Pinnacle Street. Mrs. Taylor upon her appearance on the stage to receive her bond was greeted with enthusiastic applause showing that the decree of late had been a popular one. The Griffin Company will present another $50.00 bond on Saturday night next. This time every one purchasing a seat in Griffin's Opera House, either 10c., 15c., or 25c., will receive a coupon and will have an even chance of getting the Bond.

Last evening a number of the office staff of the County Headquarters, Canada's Victory Loan, together with their numerous friends, had the pleasure of attending a unique gathering in the school house of No. 23 School Section, Sidney Township. The splendid programme put on by the teacher and scholars was to celebrate their investment in a Victory Bond. The crowded school house gave substantiable evidence of the interest of the whole neighborhood in so laudable an event.

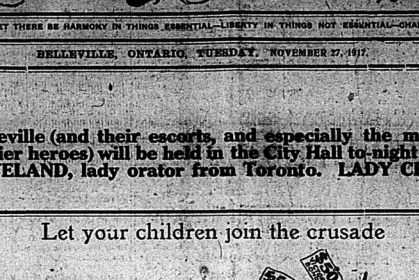
So far as known this is the first school to take such a step and the clever young teacher, Miss Florence Rose of Frankford, is to be congratulated on so happy a thought, combining as it does a patriotic duty and a fine opportunity of educating the young people in the principles of true citizenship and sound business.

The development of our young people into the highest type of honest Christian citizens is a subject of especially vital interest to every Canadian at this time if the depleted ranks of our fine young manhood are to be worthily filled in the next generation. What more effective method could be found of making a bunch of lads intelligent boys realize that they have a personal stake in their country than that they toil and saving should contribute to their country's need? What better way of teaching a group of bright clever girls that they too must learn to share the responsibilities of the nation than by giving them a chance, with their own efforts and little self sacrifices to help secure their country's peace and liberty?

Hastings County is still in 9th place in the Eastern District Counties, but yesterday was a decided improvement in position. There were only five other counties that reported as much as Hastings yesterday, and if the workers of Belleville would only get right down to hard grinding for the balance of the campaign Hastings would outstrip the most of them yet. Yesterday only five canvassers in Belleville reported at all, and their total was $12,650, or just $100 less than the Township of Thurlow which turned in $12,750 by only two canvassers. These two are some hustlers and have turned in nearly $150,000 so far. This represents third work as their territory is large, but is being thoroughly covered.

The total for Hastings County is $1,239,650, and for Belleville $518,994. The city has done nobly, and the people know their duty and are doing it. Yesterday there was $60,600 turned in by the banks. This amount represents the unsolicited offerings. It is up to the canvassers to at least beat the Banks. Some of the workers in Belleville have been working constantly and hard while others have been laying down. Now let every worker put aside every consideration for these last few days and make Belleville topple it's objective, or make $551,000 in all. The people are willing so go to them.

Let your children join the crusade



Every one of the Victory Bonds is a weapon that *cannot fail to hit* the Kaiser. Arm your child and when he or she is a little older—back comes the "wea on."

ONE LARGE BITE BY THE FRENCH AT VERDUN

Annulled All the Ribbies Germans Have Made North of Verdun —Fortified in the Ravines—But Enemy Positions Were Captured, Together With Their Occupants

With the French Armies in France, Nov. 27.—The French troops Sunday in one large bite to the north of Verdun annulled all the numerous nibble which the Germans have made in the French line since the Crown Prince's defeat at the end of August.

Along a front stretching from Samogneux eastward to the southern portion of Cueres Wood, the French artillery opened heavy-gun preparation early Sunday, which the Germans evidently regarded merely as intensification of the artillery fire daily proceeding in this sector.

Four hours later the French infantry went over the top and in one dash reached the first sections of the German line. Following the first waves came other waves, which overwhelmed and captured more than 800 Germans who had held strongly the fortified positions in two ravines leading eastward and northward into Caure Wood.

The result of this extremely successful operation is to give the French full freedom of movement in the neighborhood of Hill 344, the northern crest of which has had to resist incessant German onslaughts for two months. The German artillery continued throughout the night and today to pour a heavy rain of shells on the lost positions, but the French were able to consolidate their guns.

Edmonton Not Bombed

AN ALARMING RUMOR, FORTUNATELY UNTRUE

Bad news travels quickly and many Belleville citizens were alarmed last night by a rumor which spread about the city that Hun airships had appeared over Edmonton and dropped bombs on the city causing appalling loss of life and destruction of property.

The rumor was entirely without foundation in fact and its origin was traced to a scare article in a local newspaper purporting to be a clipping from an Edmonton paper. Whatever reason lay behind the publication of such a mischievous story the effect was to cause great grief and anxiety to many who have relatives and friends in Edmonton, and some even went so far as to send telegraph messages enquiring as to the safety of friends and relatives.

HEART FAILURE CAUSED FISHERMAN'S DEATH

Fell Out of Boat Near Presque Isle—Was Dead Before Striking the Water—Trenton Man Broke His Leg

(From our own correspondent)

TRENTON, Nov. 27.—An autopsy on the body of Mr. Covell, found in the bay at Presqu'ile Point, revealed the fact that death resulted from natural causes and not by drowning. It is presumed that Mr. Covell, while attending to his nets, was suddenly stricken with heart failure and probably fell to the side of the boat, caused it to overturn, precipitating his body into the water. Mr. Covell, whose home is in Brighton, leaves a widow and one son, Elihu.

A BROKEN LEG.

An accident occurred on Saturday, 24th inst., in Trenton when J. Summers, one of the British Chemical Co. employes, slipped on the ice coming out of the side of the main buildings, and broke his leg.

THE ONLY WAY TO SUPPORT UNION GOVERNMENT

IS BY VOTING FOR CANDIDATES ENDORSED BY PREMIER

When the Electors go to the Polls they will have to take one of two courses—they must either support the Union Government by marking their ballots for the Candidates Endorsed by the Government, or set the forces of Laurier by marking their ballots for Candidates opposing the endorsed candidates of the Government. There is no third course when it comes to marking the ballot. There is no such thing as an Independent Unionist or Independent Liberal. All Candidates are either the accredited representatives of the Union Government or opponents to that Government. It is for the people to say by their votes whether they favor a Union Government or the policy of Laurier.

HUNS DIED LIKE FLIES

Butchered With British Bayonets as They Were Recklessly Driven Forward

With the British Armies at the Front, Nov. 27.—Packed German troops perished like flies in the hand to hand struggle around Bourlon village yesterday.

Fighting with almost insane frenzy they doggedly advanced inch by inch in the face of fearful fire. Then they came to a halt in hand to hand battle, literally balled in their tracks by utter exhaustion. The British, holding strong against the desperate onslaught, wielded their bayonets with deadly effect.

German corpses littered the street of Bourlon. They spread in twisted contorted groups out over the battlefield adjoining. The ruined town was a shambles of blood, of mangled bodies, of smoking ruins. The slight hold which the Germans kept on the town was at fearful cost in men.

French Complete Verdun Victory

(Special to The Intelligencer)

PARIS, Nov. 27.—The war office reports that the French last night overcame the resistance of the Germans still holding out against the attack on the Verdun front. Prisoners were taken in raids elsewhere on the battle line.

ACTUAL FARMERS TO BE DISCHARGED IF THEY ARE DRAFTED

"I will see to it," said General Mewburn, Minister of Militia, speaking at Dundas on Saturday, "that if any farmer's son, honestly working on the farm for the production of food, is drafted he will be discharged from the Canadian Expeditionary Force, if he goes back to the farm."

Bolsheviki In Control At Moscow

(Special to The Intelligencer)

LONDON, Nov. 27.—Moscow is under the complete control of the Bolsheviki military committee, according to a Petrograd despatch. A private soldier has been appointed commander-in-chief of the Moscow military district.

PREMIER BELIEVES 100,000 WILL SUFFICE

OSHAWA, Nov. 27.—The 100,000 men to be called up under the Military Service Act will, in the opinion of Sir Robert Borden, be sufficient to keep the Canadian force up to strength until the end of the war. At a meeting in the Armouries last night a heckler asked Sir Robert how he proposed to reinforce the men now being called out.

"We believe," said Sir Robert, in reply, "that the 100,000 men who are now being called up will be sufficient to reinforce our army until victory crowns our efforts and peace is reached. If my confident anticipation in that regard is not realized, then we would have to go back to Parliament again and consider the matter with a view to seeing that the Canadian army at the front will not be left without reinforcements."

Hun Counter-Attack Falls in Flanders

(Special to The Intelligencer)

LONDON, Nov. 27.—Today's war office statement says that during the night the Germans undertook another counter-attack against the British position in the north-east corner of Bourlon woods but that the attack failed. There is nothing of special importance to report from the remainder of the front. The weather is stormy and wet.

Kitchener Men Appear In Court

Foreigner Arrested at Bordan Meeting Paid Big Fine For Carrying Revolver

KITCHENER, Ont., Nov. 27.—Fines aggregating $236 were imposed on Samuel Orsanck, the young Pole who was placed under arrest at the Auditorium on Saturday night during the disturbances at the Unionist meeting. He was engaged in an argument with several soldiers' wives when arrested. He pleaded guilty to three charges and was fined $200 for having whiskey in his possession, $20 for carrying firearms, $10 for being intoxicated and $6 costs. The fine was paid by his employer, P. Gies. He declared that he had been out shooting during Saturday afternoon and forgotten to leave the revolver at his home. It was found that he carried a supply of sawdusk balls, which he said had been given to him to throw into the crowd, thus emitting a malodorous gas.

Three young men, Otto Lilla, Truman Schuter, and Albert Nahrgang, have been summoned to appear in Police Court tomorrow, charged with disorderly conduct in connection with Saturday night's disturbances.

(Special to The Intelligencer)

PETROGRAD, Nov. 27.—The Council of People's Commissaries has declared a two months moratorium from the day of the beginning of the recent revolt.

Blizzard Helps The Italians

(Special to The Intelligencer)

ROME, Nov. 27.—Despatches from the Italian headquarters says that heavy blizzards sweeping over the mountains in the north today aided the Italians in holding back the Austro-Germans. A heavy fall of snow formed the enemy today setting up his heavy artillery and made the movement of his reinforcements practically impossible.

Bolsheviki Is Soon To Fall

(Special to The Intelligencer)

LONDON, Nov. 27.—Petrograd despatches received today states that General Kaledine, head of the Cossack and other forces, is now in control of the Russian wheat lands, while the gold reserves of the Imperial banks are also in his hands and that the indications are that he will control the country after the expected early fall of the Bolsheviki.

In and About The City

LAID AT REST

The funeral of the late Mr. Stephen Flagler took place yesterday afternoon from the family residence, Coleman Street, city, and a number were in attendance. At the house and St. Thomas Church Ven. Archdeacon Beamish conducted the burial services of the Anglican Church. A number of floral tributes were placed upon the casket. Interment took place at Belleville cemetery, and the bearrse were relatives of the deceased.

WOMEN, THE WAR, AND THE ELECTION

The election will have an important bearing on Canada's participation in the war. The success of the Laurier-Quebec bible Canadian party means that needed reinforcements will be withheld from the brave boys in Flanders until an election is held to tell Laurier whether the people of all Canada are willing to join with him and his Quebec friends in the dastardly task of deserting Canada's heroes overseas. The women of Belleville in common with her sisters of the nation have sacrificed their loved ones, have given their time and their money to help the great cause of freedom and are, perhaps, more closely interested, in the issues of the war, than the men folks. The election is a war time election, and the votes of the women will be a big factor in determining the fate of the boys overseas and the future littleness or greatness of Canada. Who can doubt what the women will do in the light of their splendid spirit of self sacrifice during three years of war? The women of Belleville should turn out in large numbers this evening at the first women's election meeting ever held here, and hear the great issue discussed by Union Government speakers. Mrs. Cleveland of Toronto and others will address the meeting and there will also be a musical program. The Union Government is behind the boys at the front, and Mr. Porter is a member of that Union Government, pledged to the full justice to Canada's heroes overseas. Come to the City Hall at 7.30 this evening.

"PLAY THE GAME"

On Friday afternoon last Dr. Anderson addressed in the Royal Hotel, Napanee, the teachers and pupils of Queen Alexandra School on the "Navy" a subject of world wide interest at the present time. He delivered the methodical way in which the boys are trained from the time they enter at 14 and fourteen years of age until they are qualified as Jacks. They are taught to "Play the Game" and for each object that they carry that serve country. He referred to the formation of Bermuda and the assets it is to the British navy. In a very apt illustration the chaplain showed how, like the coral insect, each boy and girl, however small, has a duty to perform for the Empire. He closed with the Dr. were Canon Beamish who strongly supplemented his remarks and Mr. F. R. Dresser, trustee of the School Board.

WHAT HAS PORTER DONE FOR WEST HASTINGS?

Is Frequently and Hypocritically Asked by the Opposition—Electors Can Examine the Record and See For Themselves Some of the Benefits Which Mr. Porter Has Secured for West Hastings

He was instrumental in securing the expenditure of $250,000 for the new wharf and warehouse at Belleville for the use of the business men and producers of the city.

Arranged to have the Belleville Post Office raised to the status of a city office with a house-to-house mail delivery twice daily by letter carriers,

Rural Mail Delivery

Secured the establishment of Rural Free Mail Delivery throughout the country district.

Trenton Bridge

Secured $87,000 to assist in the erection of the fine bridge which spans the river at Trenton, and had the Post Office in that town enlarged.

British Chemical Works.

The British Chemical Works, which has brought thousands of dollars to West Hastings was secured through the persistent efforts of Mr. Porter.

Returned Soldiers

The welfare of returned soldiers and their dependents has always been the first thought of Mr. Porter and he has always been at their service. Good positions have been secured for many returned soldiers through Mr. Porter's efforts, and he has been able to help the returned heroes and their dependents in many ways.

Compensation For Land.

Compelled the Government to pay proper compensation for land taken for and damages sustained by reason of the Trent Canal.

Assisted Mineral Industry.

Procured a remission of duty on raw mineral products shipped to the United States for refining and reshipment into Canada, in the finished article,

Mineral Land Survey

Advocated a re-survey for mineral products in Hastings County (none having been made for 30 years) and work will begin this next spring.

Patriotic Contributions

Has given thousands of dollars for Patriotic and Red Cross work and bought War Bonds to the extent of his ability, being a man of very moderate means.

Fought For City.

Fought the city's case to compel the C.N.R. and C.P.R. to build subways on Front St. South and on the west side of the river, spending weeks of time and making many journeys to Ottawa free of any cost or charge to the city.

Dredging

Secured the dredging of the harbours of Belleville and Trenton.

Increased Railway Facilities

Insisted on and procured increased railway facilities for North Hastings, keeping up daily mail service, after service had been reduced to three trains per week owing to war conditions.

New Postoffices Established

Had established a number of new post offices where there was no rural mail delivery.

Business For Trenton

Procured contracts for local contractors on Trent Canal and the finishing of the Trenton end of the Canal first; whether large amounts for material and labor was expended to the advantage of the people of West Hastings.

Helped The Business Man

Procured inter-switching of freight between all railways running through Belleville.

Railway Crossings Protected.

Procured by his advocacy orders from the Railway Commission to properly protect the Railway Crossings of the C.N.R. and C.P.R. in Sidney township near the cemetery and at the Bay Bridge.

Abolished Net Fishing.

Procured the abolition of net fishing in the Bay of Quinte from the Murray Canal to the Telegraph Light for the benefit of sportsmen and the protection of fishing interests.

Dredged the Narrows

Procured the dredging of the Narrows at Telegraph Light to allow deep draught boats to navigate our bay.

Natural Highway

Advocated and was one of a Special Committee to urge upon the Government the construction of a Natural Highway from Montreal to Detroit which would pass through Hastings County, but the Bill was killed by the Senate.

Immigration Agent

Secured the appointment of an Immigration Agent in West Hastings to encourage British labourers to locate here; many scores of whom did so,

Military Headquarters

Procured Belleville to be made a Military Headquarters for recruiting and mobilizing by which many thousands of dollars were expended here; our merchants getting the benefit.

Brought Business to Belleville

Was instrumental in procuring contracts for various local manufacturers to produce clothing, munitions and war material, which brought many more thousands of dollars to Belleville.

Nearly all this, has it is true, been done in the last six years, for during the remainder of the time Mr. Porter was in opposition to Sir Wilfrid Laurier's Government, with which he had little chance to do anything,

Hastings Marble for Ottawa

Arranged to have the marble, quarried at the Bancroft quarries, used in the new wing of the Parliament Buildings, thus giving great prominence and valuable advertising to that product.

Frankford Steel Bridge

Obtained grant of $23,500 for construction of steel bridge at Frankford and the free use of the Government grounds there for a Recreation Park for the citizens.

Even this does not exhaust the list of Mr. Porter's activities, and he has reason to be proud of his record, and West Hastings should show its gratitude for it—and it will so do.

Dominion Election.

A meeting for the ladies of Belleville (and their escorts) and especially for the mothers, wives, widowed daughters and sisters of our overseas soldiers, will be held in the City Hall on Tuesday evening next the 27 inst. at 7.30 o'clock.

Addresses will be delivered by Mrs. R. Goss Porter—Sir Robert Borden's Union Government Candidate—who will explain your right to vote, why you should vote for him and other matters.

His Worship Mayor Ketcheson will speak on the War-the War policy of the Union Government.

This is something new—You will be interested and enjoy it. Please favour the meeting with your attendance. Ushers will show you to seats.

Mrs. Grant and Miss Tuit have kindly consented to sing and recite at this meeting.

HENIER BORDEN'S STATEMENT RESPECTING THE ROWDYISM

"There was a deliberate and successful attempt to break up the meeting at Kitchener on Saturday evening. From what has since transpired it is apparent that the arrangements for this purpose were organized several days in advance of the meeting. The disturbance which prevented Mr. Mowat and myself from speaking was the work of three or four hundred roughs and hoodlums, and cannot in any wise be attributed to the respectable people of Kitchener. In 21 years of public life this is the only occasion upon which I have been prevented from speaking to a meeting that I sought to address."—Sir Robert Borden.

The British Empire

Dr. Patterson, of Toronto, Gave Inspiring Address in Trenton on Empire Topic

(From Our Own Correspondent.)

TRENTON, Nov. 26.—Dr. Patterson of Toronto, addressed a large gathering in the King St. Methodist church, the subject of his address being "The British Empire, Its Origin and Destiny." The meeting was under the auspices of the Canadian Club and was presided over by its President, R. Whyte, B.A. The gallery was reserved for the pupils of the High School and senior pupils of the Public School, who were out in force, and were later complimented by the speaker for their excellent behavior.

Dr. Patterson devoted the major portion of his address to showing that Great Britain and her handling Empire fits exactly into Biblical prophesy and that she and her great sister Democracy, the American nation, are destined under Providence to be the great civilizing and Christianizing forces of the future. In the latter part of his address the speaker admirably fully arraigned and held up to public scorn those who are taking advantage of their country's present extremity to devote all their time and business acumen to the selfish accumulation of ill-gotten gains, regardless of who may suffer in consequence, citing in evidence the heads of the meat trust, who are reported to have made such enormous profits on their contracts with the British and Canadian Governments. Neither did he overlook the farmer who altered his potatoes to ice rather than dig and sell them at what he considered was an insufficient profit. Such men, he characterized as traitors to their country and unworthy of the privileges that citizenship in a free country confers.

He expressed it as his opinion that the war would continue until Great Britain had struck off the shackle of strong drink. There was no doubt, however, in the speaker's mind, but that this would take place and that she would emerge victorious from the present struggle. The Empire that had forever broken the power of the Great Philip of Spain at one stroke, and that had not and could not fail on the field of Waterloo the all-conquering Napoleon, would in the present world conflict overwhelm the German Kaiser and forever dispel his ambitious dream of World-Empire.

The Dr. had a very attentive and appreciative audience, which gave frequent demonstrations of approval. His address lasted considerably over an hour, and was given with all his old time vigor.

Prior to the address Mr. Palmer, organist of the King Street Church, formerly of the Metropolitan church, Toronto, rendered an organ solo "The Death of Nelson". An exceptional skill.

Mr. Cliffe also contributed two fine solos, one being in response to an encore.

The Hon. Mr. Justice Sutherland of Toronto-ex-Speaker of the House of Commons, will address the Club in the Masonic rooms next Monday evening, the 26th inst. on "Anglo-Saxons and their Constitutions."

Most of the Canadian towns and cities yesterday celebrated Gen. Byng's victory.

The cars will be open from 10 a.m. to 5.30 p.m. with special lectures for school children from 10 a.m. to 12 noon. An evening meeting will be held in the City Hall beginning at 8 p.m.

The cars will visit Brighton on Thursday, December 6th and Stirling on Tuesday, Dec. 11.

Two comfortably heated baggage cars will be devoted to exhibits illustrating selection and testing of seeds; under-drainage and soil moisture control; water supply and sewage disposal; the use of fertilizers and lime; production of corn, cereals, roots, potatoes and garden vegetables, with samples of the best types; commercial feeds with their comparative values at present prices; dairying, including dairy herd improvement by the use of the Babcock tester and scales, cooling apparatus and sanitary dairy equipment; insect pests and plant diseases and their control; the proper method of preparing wool for market, with samples of standard market grades; poultry house equipment and desirable types of utility breeds; poultry feed, etc. Bulletins and leaflets on agricultural topics will be distributed.

10 a.m. until 5.30 p.m. each day. Competent demonstrators and lecturers in charge of the exhibits will be ready and willing to answer all questions asked and will give all assistance possible to those requiring help with special problems.

A special effort is being made to reach the school children. Trustees and teachers are requested to allow all children of the higher grades in the public schools and all the students in the High Schools to visit the cars. Particular attention will be devoted to th children from 10 a.m. until 12 a.m. noon, each day.

Evening meetings will be held at most places visited. At these meetings one or more addresses will be given on topics of interest to the people of that locality.

Moving pictures illustrative of practical, up-to-date agriculture will also be shown at the evening meetings. The pictures will include desirable types of live stock, dairy cattle and hogs, poultry raising, grading of wool, tractors at work, the agriculture of Northern Ontario, road construction, canning of vegetables, handling of bees, etc.

The staff in charge will be made up of men who have had practical experience and special training in the lines of agriculture of which they will have charge. Permanent employees of the Dominion and Provincial Departments of Agriculture and successful practical farmers will assist in the work.

Everybody will be made welcome to the cars and lectures.

Reception For Madame Gardini

Will be Guest of Ladies of Belleville Ladies Wednesday Afternoon at the Club

On Wednesday afternoon November 28th, at four o'clock, at the Belleville Club, the Patriotic and Red Cross Society, the Chapters of the Daughters of the Empire and the Knitting Circles, are tendering a social reception to Madame Gardini who appears that night at the Opera House for the benefit of the Belleville branch of the Soldiers' Wives' League. Madame will take this opportunity of extending a cordial invitation to all the members of these societies and their friends. This reception is to take the form of an afternoon tea and the ladies in charge have left nothing undone which can in any manner add to the beauty and success of the occasion.

It is expected that the ladies of Belleville will turn out in large number to welcome Mrs. Gardini to the city at the Belleville Club tomorrow afternoon. A silver collection will be taken at the door and the proceeds will go to the War Veterans Association.

The appearance of Mrs. Gardini will not only be enjoyed by our ladies for the international reputation which she enjoys, but upon the beautiful gowns she will wear upon this occasion. Among the number of magnificent creations which will be worn by her at the reception and at the concert, which she gives at Griffin's Opera House on the evening of the 29th, the wonderful costume worn by her in "Madame Butterfly" will create side admiration among the ladies of the city. This gown was purchased by Madame Gardini during her recent visit to Japan and is indeed a work of art, it being exceptionally rich even in the famous Madame Butterfly costume.

WHAT UNION GOVERNMENT STANDS FOR.

The Union Government offered the only solution for a vigorous and sustained prosecution of the war. Opposed to this was the Quebec attitude of "not a man, not a dollar." To give them credit, they have fairly well lived up to it.

Again, the platform enunciated by the Union Government is one that we can whole-heartedly support. It embraces:

Abolition of patronage.
Franchise to women.
Adequate taxation of war profits.
Progressive policy of immigration.
Care and provision for returning soldiers.
Development of transportation.
Reduction of excess profits.
Development of Canadian resources.
Co-operation in agricultural production, with a view to the reduction of cost.
Adequate consideration for the needs of the industrial population.

Policy aimed at bringing the east and the west to a closer understanding.

That platform is a commendable one. It appeals alike to the Liberal, Conservative, Independent and Labor elements. It is broad enough for all to stand on. It is worthy the support of all loyal Canadians. It should be given a fair trial.

A vote for E. Guss Porter is a vote for Union Government and the larger Canadianism.

EXEMPTIONS.

Exemptions from military duty have been so numerous in the Province of Quebec that it has created general comment. This evasion of the law will be met by the Government. Sir Robert Borden, in discussing this question, told an audience: "The spoken word of any regiment has a remedy and proposes to exercise it in the case of a community, district or Province where exemptions have been granted indiscriminately, and by wholesale." It is the intention of the Unionist Government to see to it that the Military Service Act is administered justly, considerately, impartially and firmly."

Sir Robert added that he returned from Britain in 1912 "as satisfied that this war was going to take place as I was of my existence." The spoken word of any responsible man might, however, have meant the spark which would set the conflict ablaze, and that word was not spoken."

BRITAIN NEEDS SOLDIERS.

A cable despatch says that Major-General Sir C. F. McCready, Adjutant-General of the British army, declares that Britain needs more soldiers. His words are:

"Every man that can be spared from the industries is needed—that is by needed. Every woman that comes forward helps her country by releasing a man. We appeal to them to answer the call."

Sir Wilfrid Laurier demands practically that Canada shall not send any more men to help fight the battle of Canada, of Britain, of the world. He is not only against conscription, but in his election manifesto he intimated that it is unwise to supply any more soldiers by any method. He says the men are more needed here.

It is no wonder, therefore, that honest Liberals have deserted him. Holding such views as it any wonder that honest, loyal Liberals have left him to wallow alone in his own beloved Quebec puddle?

A VIVID IMAGINATION ALARMS CITIZENS.

The Fiction Factory has gone entirely "loco" apparently, for not satisfied with throwing a scare into people some months ago by accusing our good Roman Catholic citizens of planning a massacre of Protestants, the Laurierite organ last evening printed as news an imaginary tale of a Hun Zeppelin raid on Edmonton with great destruction of property and loss of life. The story had absolutely no foundation in fact, but despite the utter unreliability of the Laurierite organ caused a number of citizens to call friends and relatives in Edmonton great uneasiness. The over-heated imagination of the fiction expert is also busily engaged in computing imaginary majorities for the opposition candidate, but these, like the imaginary names on his nomination paper, will not be counted by the official Returning Officer, for of course the latter is not permitted to exercise his imagination in that way. Exaggerated reports of meetings and enthusiasm which does not exist must also be judged by the same standard of unreliability which characterizes the source of so many weird fiction fancies.

KITCHENER-BERLIN DISGRACED.

The pro-Germans in the Canadian city of Berlin caused trouble enough before the name of the city was changed to Kitchener, but even the possession of a great and honored name is not enough, apparently, to shame the disloyal element there, into silence which the enjoyment of British liberty should evoke, join no matteh what their feelings may be toward the enemy of liberty which so many brave Canadians are fighting.

The organized and studied insult to the Premier of Canada staged so noisily and effectively in Kitchener last Saturday is not only a disgrace to that city but to the whole of Canada as well. No doubt the news of the disgraceful occurrence will be welcomed with every manifestation of joy in the German city of Berlin by the Kaiser and his minions.

Howled down by hoodlums who shrieked their approval of "Laurier and no conscription," the Premier of Canada was denied the British privilege of free speech in a Canadian city where free speech has been persistently abused since the war began to prevent the brutal Huns from enslaving the world.

No wonder the loyal citizens of that city are wild with indignation that such a disgrace should be wantonly visited upon them.

No wonder that the pulpits of the Kitchener churches on Sunday rang with denunciation of the attack on free speech and the Hun tactics resorted to by a mob blinded with ignorant passion unable to lift their narrow intellects from the mean level of a Laurier destroying Canada's high prestige as a nation and reducing this country to the parochial standard of Quebec.

And even the city council, elected last January after a bitter anti-British campaign, refused to pass a motion expressing regret that the honored head of the nation should have been insulted in their city, showing how deep the un-Canadian feeling goes in that transplanted German community.

Electors who had any thought of marking their ballots for a Laurierite candidate should reflect upon the company such exercise of their franchise will place them in and the effect upon Canada's future national greatness if any considerable number vote that way.

Parliamentary leaders of both parties have awakened nobly to the dangers menacing Canada from within and without and have sacrificed party schibboleths to become part and parcel of a new, greater and glorious Canadianism not obscured by petty partizan fog and the blindness of parish politics. The electors have also a sacred duty to perform in marking their ballots for all that is fair and noble in nationhood, backing up the leaders they have been proud to follow in the past and saving Canada from that pit of degradation which the self-seeking politicians of Quebec and their deluded followers in other parts of Canada would plunge the nation into.

A vote for a Union Government candidate, officially recognized by the Government is a vote against the Laurier-Bourassa policy as exemplified in the fanatical outburst of the disloyal Kitchener mob.

GILLETT'S LYE
EATS DIRT

CRISP COMMENT

Back to, before, or then is the question next most decide.

United we stand. Divided we open a clear way for Quebec domination.

Let us put Canada, glorious and true, above all other considerations.

Save, serve and sacrifice. But don't sacrifice your opinions and your ideals.

The best service that partyism can render the country today is to suppress itself.

Canada is spending approximately $800,000 a day on the war. Would Laurier spend 30c.?

"Shall we fight or shall we fly?"... Good Sir Wilfrid, let us know, says the Liberal-Kingston Whig.

The day when the very existence of the nation hangs in the balance is not the time for exploiting the prejudices and passions of parties and sections.

Votes for the Military Service Act should be given to the Union Government. Votes for the Union Government should be given to the candidates approved by it.

Every Unionist candidate in the greater part of Quebec ploughs a lonely furrow. Outside the English districts he is lucky if he can get a hearing.

The humor of the campaign is furnished by the variety of opinion in the anti-Union camp. It is a salad with some ingredient for everybody's taste.

Probably the report that a married man would be conscripted soon had a pro-German origin. Sir Robert Borden has given it the lie. He declares that the requisite number of recruits will be secured from the men in class A.

Mr. R. J. Graham, candidate of the hard-shell Grits, who mourn the fall of Laurier and refuse to be comforted, declares that he is not a profiteer—that the prepared food he sells the British Government only returns a profit of 5 per cent. per month or sixty per cent. a year.

A new department has been established by the opposition candidate's Fiction Factory—free spelling instruction. Charity of this kind begins at home, however, and the attention of the "spelling instructor" is called to the name of the firm on the title page of the Laurierite organ which he should learn to spell correctly before starting in business as an instructor to other people.

Mr. R. R. Finlay K.C., the Laurier candidate in Peterborough, in an interview says: "In our district we believe in the Liberalism and patriotism of the Mackenzie, Blake, Brown, Mowat, and Laurier school." Now, Mr. Hall is a good time to let the electors know what that Liberalism is or was. We venture the opinion that if Mowat, Brown and Mackenzie were alive they would scout the idea of being classed with the Laurier tribe in their present anti-British campaign.

Liberals are leaving Sir Wilfrid Laurier with regret, but with duty as the guiding principle. The latest to go is T. C. Robinette, Liberal candidate in Ottawa in 1911 and president of the Liberal Association of that city. He asks them to support Mr. Arthur Ellis, the Union Government candidate. Mr. Robinette says: "No one regrets more than myself that Sir Wilfrid Laurier has seen fit to take the course he has chosen, and one could polled thousands of tried and true Liberals who loved and followed him for years to say: 'Sir Wilfrid, then far and no further—we go with you.' We must follow the guidance of our leaders, all the more so when the issue is not primarily in the Canadian field, but of national importance to the British Empire and to the civilized peoples of the world."

Some Liberals in Britain are reported as favoring a policy of "hands off" Canadian politics. Everybody knows that the Kaiser wants to vote for Laurier, and if any candidate had a vote in Canada that he'd like to stand out "according to his the Laurier-Quebec policy of not sending any more Canadians fighting men overseas. The Canadians already in Flanders give the Kaiser enough enemy and he thinks there are too many over there now. Even those Brockville hard-drinks who call Sir Wilfrid Laurier conscriptionists should take their medicine, for while the Kaiser prefers straight Laurierite anti-military advice others is "different," so take the Brockville brand as second choice, knowing that Laurier will be able to shape all branches of his support to the Quebec little Canadian standard.

THE POETS' CORNER

A TRIP TO "BLIGHTY."

David Stephen Hamilton, a Belleville soldier overseas, felt constrained to depict some of his experiences in verse and the following is the result of his inspiration:

We go over the top and the bullets sing
And if one strikes your helmet it sure makes it ring
Then when one comes along and goes clean through your wrist
We say to ourselves I'll make Blighty with this.

When we are back here in England and training for France,
The Sergeant-Instructors they do make us dance,
And if we go to the doctor and complain
He will turn round and say you' are swinging the lead.

The sergeant comes 'round with the word to fall in
When your only just through shaving your chin
Then we are late on parade and he asks why it should be,
But excuses are drowned with a few days C.B.

The huts that we live in are no good at all
For the cold wintry winds comes in through the wall.
Then in the morning after trying to sleep
We are just about frozen and we can't feed our face.

REYNOLDS AND BLAKER KILLED

COBOURG, Nov. 27.—Pte. John Reynolds of Cobourg and Pte. Victor William Blaker, son of George Blaker, Alderville, are reported killed in action. Official despatches have been received stating that a large number of Cobourg men have been wounded in the recent fighting.

The American Federation of Labor took a strong stand against the Supreme Court's decision forbid the picketing of strikers.

THE ANSWER.

Ottawa Citizen on Saturday night provided the answer to the posted question: "How would the Kaiser vote?"

If there ever was any doubt as to the true nature of some of the elements that are supporting the Laurier-Bourassa campaign against the Union Win-the-War Government, it surely has been dispelled by the prominent position of Canada's Prime Minister in Kitchener.

Kitchener, formerly Berlin, is largely populated by Germans or people of German descent. It is the centre of Waterloo County, the population of which is chiefly made up of Germans. In Kitchener German is to a considerable extent the language of communication.

The English-Canadian citizens of Kitchener have frequently complained of the disloyal talk and actions of many of their German fellow citizens, and recently, following the Italian reverses, enemy sympathizers in that city have, it is stated, been getting very bold. This is the city in which, for the first time, a Dominion Prime Minister has been refused a hearing—has been howled at and hooted until he and a Liberal Cabinet colleague had to abandon all attempts to explain the election war policy of the Union Government.

Canada's Prime Minister was howled down by men carrying Laurier banners, by German sympathizers, by men who acclaimed the "Laurier candidate," by men who had been deliberately organized to do just what they succeeded in doing—one of them, a foreigner, on being arrested was found to have a bottle of whiskey and a loaded revolver on his person.

Who organized them? The mercenaries of the "Hohenzollerns and the Hapsburgs," to be with them," as Watterson would say.

Who is providing the money for the "two-dollar cigar" that is similarly preventing Cabinet ministers from speaking in Montreal? The same gang of German spies that has been exposed recently in Washington?

Canadians, wake up! The enemy is right here! The Germans have already invaded our own land!

AS CHARLIE SAYS.

Politely ask an ARABELLA for one box of unmitigated bliss, and the blessed thing gives it you.
The ever-mild cigar.
(The 10 cent cigar)

Returned Men Vote At The Civil Polls

They May Claim the Right, Even If Their Names Are Not Listed.

OTTAWA, Nov. 27.—The right of a returned soldier to vote is the subject of numerous messages sent to the returning officer, W. F. O'Connor, in town. Mr. O'Connor has been told returned soldiers who have been discharged from service will vote in the ordinary civil polls in all divisions in which they are resident on polling day. Returned soldiers who have not been discharged may vote a military electors at any military poll wherever they may be. Military polls will be established within easy reach of practically every district.

"If a soldier," Mr. O'Connor adds, "whether discharged or otherwise, is on his own civil electoral polling division on polling day and will claim the right to vote at any civil polling station where, if he had not proceeded on military duty, his name would rightfully be on the list, he may vote at that polling station, although his name is not on the list."

The Quebec Provincial Government subscribed one million dollars to the Victory loan.

Mail Bag With Bonds Lost At Sherbrooke

PORTLAND, Me., Nov. 27.—With the recovery of a stolen mail pouch from which $28,000 in bonds had been cut, it became known that another pouch containing $46,000 in securities, in each case the mail bag disappeared after it had been thrown upon a truck for trans-shipment. The second pouch was lost at Sherbrooke, Que., and no trace of it has been found.

The bag recovered today was found by accident when an employe of the Portland terminal machine shops stumbled over it in the under brush near the union station. The contents were intact except for the package of bonds, on which Boston consignees had stopped payment.

LAVERGNE DECIDED TO SETTLE THE BILL

QUEBEC, Nov. 27.—A seizure on the deposit of Armand Lavergne, Nationalist candidate in Montmagny, was made on behalf of the firm of Henry Birks, jewellers of Montreal. The claim was for $41.15, but the seizure was not effected as Lavergne settled up.

Soldiers' Wills

Many Queer Bequests in Queer Form Come From Battlefield

The "last will and testament" which the British private frequently writes into the little army "pay book" which he carries with him wherever he goes, is an interesting study. Wills made in the trenches are legal without witnesses, and the soldiers own signature is all that is required to make such a will acceptable to the courts. Even if the signature is lacking, the will may still be accepted if there is evidence as to the handwriting or intention of the testator. In every case the War Office authorities make every effort to carry out the soldier's wishes, however crudely they are expressed or however fantastic they may be.

Many of these trench wills have Tommy Atkins' characteristic touch of humor. Some are in dialect, some in phonetic spelling. Several have been in cipher which have taxed the War Office experts to solve. Occasionally, they leave purely imaginary possessions to institutions or fictitious persons.

Here is a will in rhyme which was written while the soldier was on duty at a "listening post" in No Man's Land:

I haven't a sweetheart, I haven't a mother,
I've only one sister, not even a brother;
My sister Susan is all I've got.
So of course that's mine she can have the lot./

This will went through the courts without question, despite its unusual form. Another will in rhyme, leaving his money to the "first comer" is the following:

Whoever first sets eyes on this,
Gets everything as I leave,
For my kith and kin are dead and gone,
And I've not a friend to grieve.

There's a tidy bit in the bank you'll find,
And my army pay, though small,
So stranger, breathe one sigh for me.
You're welcome to it all."

This will was forwarded to England by the young sergeant who found it and he shortly afterwards received notification that the "tidy bit" which turned out to be a substantial sum of money, had been deposited to his account.

ALLIES HAVE UNION GOVTS.; CANADA HAS MANY PRECEDENTS

Electors Who Vote for Union Will Not be Trying an Experiment—It Has Been Found a War Necessity Elsewhere

Electors who vote for the Union Government of Canada will not be voting for an "experiment." Union governments, in war necessity, Others of the allies have found it so and have benefited by a coalition of the best men in various political parties. In approving of such a Government, Canada will be in line with the following belligerents:

In Great Britain,

May, 1915—Liberal Government which had held office continuously for almost ten years gave way to Liberal, Unionist, and Labor coalition. Premier Asquith remained at the helm until December, when Lloyd George became Premier.

In Italy

June, 1916—One year after Italy's break with the Central Powers, the Salandra Cabinet (partisan) was replaced by Signor Boselli's National Government. Government has since been a union one.

In France.

August, 1914—Viviani, Ministry of National Defence was formed. Successive Ministries have maintained the feature of union government. M. Briand's reconstruction of December, 1916, adding prominent business men to the Ministry.

In Australia

February, 1917—Premier Hughes formed a Coalition Government, went to the country, and secured a two-to-one majority.

South Australia

August, 1917—Coalition Government was formed under Liberal Premier.

August, 1915—Coalition Cabinet was formed by Premier W. F. Massey, embracing both Liberal and Opposition members.

In South Africa

October, 1915—Elections returned 54 members of the South African (or Boths) party, 40 Unionists, 27 Nationalists, 5 Independents, and 4 Laborites. While there has been no actual Union Government, there has been something like its equivalent by reason of co-operation between the Unionists and South African party against the Nationalist party. The latter would put South Africa out of the war just as surely would do in Canada.

TWO-YEAR SENTENCE ON MAN NOT DEPORTING

PORT ARTHUR, Ont., Nov. 27.—Two years' imprisonment was the sentence imposed by Magistrate Dobie upon Alphine McGregor, the first man arrested for failure to register under the Military Service Act. After being arrested McGregor was given every opportunity to report to the military authorities, but refused, and when sentenced made an impassioned address to the court, declaring the whole thing, including the Military Service Act, illegal.

FARMER WANTED PAY

LONDON, Ont., Nov. 27.—Military service eligibles still come before the seven London tribunals in large numbers and while some are disappointed, farmers, railwaymen and others who have good grounds in the national interest as a rule have no trouble.

A farmer of London Township asked exemption for his son before the tribunal sitting at the county buildings and when his claim was granted demanded payment for coming to the city. That claim failed.

Sergt. Sparling Killed in Action

COBOURG, Nov. 27.—Mr. R. W. Sparling has received a message stating that his brother, Sergt. Thomas Vincent Sparling, a son of Rev. W. W. Sparling, formerly of Cobourg, was killed in action on Oct. 26. Sergt. Sparling was one of three Methodist overseers, the others being Lieut. Col. H. C. Sparling, 4th Divisional Headquarters Staff, who was recently awarded the D.C.M., and Lieut. R. H. Sparling, 16th Battery, 4th Brigade, C.F.A. Sergt. Sparling enlisted in Toronto, and trained with the artillery at Kingston, afterwards transferring to the Cobourg Heavy Battery. Besides his parents and the brothers mentioned he is survived by a brother, F. P. Sparling, at Billings Mountain, while another brother, H. Sparling, is with the Grand Trunk at Oshawa, Ont.

Lauder Exhorts French Of Quebec

Advises Them Not to Let Their Religion Interfere With Their Liberty

MONTREAL, Nov. 27.—Addressing the Rotary Club to-day, Harry Lauder, the comedian, said that if the French of Quebec refused to fight they were not of the same blood as the people of France, but of a bastard blood. Mr. Lauder said that he had noticed that the French of Quebec were a wee bit slow in joining the colors. He advised his audience not to let their religion interfere with liberty, because if they did they would be always fighting. The Frenchmen of Quebec, he said, were not asked to fight for France, but for themselves. He saw a wee bit hill near Vimy Ridge where 10,000 Frenchmen died. Quebec was a big country, but how many of her people had so died? The French of Quebec might think the big country Frenchman was an infidel. If he was, he was the best man the world ever knew, and they were all following him because of his great qualities. Any man who would not rise to-day and go to the front was not natural. He must be a dreamer or schemer. Dreams and schemes would not save them to-day.

OLD DELMONICO'S TO CLOSE

NEW YORK, Nov. 27.—One of the most historic restaurants in America —Old Delmonico's in Beaver street, was closed Saturday. The building in which it has its home was sold last September to the American Metropolitan Marine Co. In 1835 the first restaurant on the same site was built, and in 1890 the structure was torn down and the present building erected. Louis Napoleon during his years of exile in America made the restaurant his headquarters.

BOY ATTEMPTS TO POISON HIS FAMILY

QUEBEC, Nov. 27.—An attempt by fourteen year old Leo Save to poison the members of his family is reported here from Joliette. The boy is alleged to have emptied a quantity of Paris green into the pot of coffee after which was making, but was caught in the act by one of his younger brothers. At the request of his father, the boy was arrested by High Constable Gerald.

ARCHBISHOP WILL SPEAK "AFTER PAINFUL SILENCE"

KINGSTON, Nov. 27.—In St. Mary's Cathedral Sunday morning it was announced that next Friday the community of the Sisters of Providence of Archbishop Spratt, would be marked by the presentation of an address to His Grace by priest of the diocese expressing fealty and loyalty, and that the Archbishop would make an announcement with respect to the case of Sister Basil, heard in the Supreme Court here last week and decided in favor of the plaintiff. It was stated that the Archbishop's statement would be made "after a long and painful silence."

HULDAH AND JETHER.

"Look at our boy, my Jether; see what the devil hath done to him!"

Gaal fiercely swept both women aside and stepped toward the boy as he lay upon the grass.

"That thy son?" he said, of Jether. Before he went away he offended the law of God by offering to exult to our aged father. The Almighty hath brought him to this. Let him be taken above the town, lest into thy master's house. Touch him not at thy peril."

Huldah turned to Jesse, who had never once uttered, but stood, silent as an image, while his back toward the prostrate Jether.

"My husband," she pleaded, "did thy servant obey thy wife. In these many, many years that I have been even as a part of thee never before have I been made to speak twice to thy servants, who now hesitate because they have heard the command of Gaal. For now in thy silence Gaal would play the master. Our boy is ill, so very ill that my heart is trembling. Shall he be kept thus waiting? Speak to thy servants and command them to obey me."

Naomi added her pleadings to those of the mother.

"Speak, uncle," she cried. "Uncover thy face. Our Jether is not dead. Why dost thou still cover thy face?"

Suddenly she realized that the act of uncovering the face meant that in the eyes of Jesse the boy was as dead to him. She cried out in horror and sobbed in Huldah's arms. But the mother was not to be thus cheated of her boy, and when she realized that appeals to Jesse were in vain she knelt again by the prostrate figure, so silent and so weak upon the sward.

"Jether, canst thou not speak?" she went. "Thy voice alone can reach thy father's heart. Raise to no longer music to him. Open thine eyes, and he will rend in them full repentance, though in thy mother he would show only a mentie that hides his wounded pride. Speak from thy mother—her!" he said.

Slowly slowly opened his eyes and half raised himself upon his elbow. He looked at his mother and smiled. He turned toward the stern figure of the father above, and then sadly reverted and his hand to his mother.

"This is what I have wanted, mother," he cried. "Only son hath done wrong to say man save to himself."

Huldah held him convulsively to her arms and, wept, while Gaal sneered at this display of affection.

"Help from thy mother—her!" he said.

"Nay, Gaal wrongs me, mother," said Jether. "I will beg no mercy of thee. And better far did thy kin wear sackcloth for thee, for living or dead thou art accursed of God."

To be Continued.

"So, then," he said contemptuously to his son, "after all thy boasting of sin, thou hast revealed thyself, after all, to thy mother."

Huldah, comprehending the mental knowledge that Gaal all the time possessed of Jether's presence, drew herself up indignantly.

"Thy knowledge!" she cried, in pain and anger.

"Aye, and for thine own sake I kept silence," replied Gaal sternly.

"Then thou knew—and yet told me not!" shrieked the mother.

"It seemed to take food of me," retorted Gaal curtly. "Huldah, be hath disowned me—he also. He went away to find his master—he should have stayed away, then."

Huldah's face had turned ashy.

"Then hast no heart, Gaal," she cried, "or thou would have sent for me. I would have forgiv'n them this. Now may one to carry Jether in."

"Where? Jether's kin? What unto him are they?" asked Gaal.

"I have found his worth," replied the boy, a cheerful light struggling for utterance through her sorrow.

"It shall not come into the house," retorted Gaal coarsely, eating heart from the fact that the aged Jesse had neither interfered nor expressed displeasure.

"Then in the father's house, but mine," she said proudly.

"My father's silence speaks," cried Gaal angrily. "No more than I would he have this disgrace thrust upon me. We have told all that Jether is an hon ored servant who hath grown rich and prosperous and shall thus bring give in his debt. Nay, he shall not enter my father's house."

"Thou speakest only for thyself," she said.

"My father hears, yet speaks not," declared Gaal. "A man amed judge shall settle the matter of his son's sin. Then before my father will but speak I will give orders here that Jether come not into his house. The beast for he is, shall touch neither could scarcely happen to him. If he will go within safety I shall have him carried to some neighbor's house and pay for his care until he can move on."

And as Gaal reached over and looked down at the prostrate form of the youngest son and noted the contemptuous only the mother sprang between them and thrust him back.

"I have asked the wrath of God on Jether who has brought Jether to this plight," she cried passionately. "Shall thy mother's tongue now call down a curse on thee also? Stand back, Gaal. Thou shalt not touch thy brother. His mother will protect him. Naomi, fetch water to bathe his face."

The mother, frantic at the prospect that Gaal might yet be able to send Jether from her and not comprehending the reason for the silence of Jesse to refuse to speak to her son or to uncover his face so that he might look upon his child, cried out aloud as that of might-hear.

"It is our Jether," she called to Hulhuh, as the maiden quickly responded.

The young girl gazed in amazement at the silent figure of the youngest son she had left but a few moments ago.

She found ever him. A single garment wrapped about his neck was the only thing out of range upon his body.

"My scarf!" she cried. "He wears it yet. She knows I gave him."

"Hast, all be pat," pleaded Huldah to the servants. "Jether, our son, hath returned home. It is not as we all expected when the city called him from us, but he comes back very ill and in great suffering. Let us

ROUTINE BUSINESS TRANSACTED BY COUNCIL

A Grievance Caused by the High Grading at the New Bridge Over the G.T.R. Tracks on North Front Street to be Investigated—Other Matters Attended To

At the City Council meeting held evening, the business transacted was of a routine nature. The meeting was adjourned until Thursday evening of this week when some necessary by-laws will be considered, namely, the proposed grant to Albert College, to secure a certain site for the new college building and the municipal coal yard by-law.

The members present were—Mayor Ketcheson; Aldermen Parks, Woodley, Robinson, Deacon, Marshall, Platt and St. Charles.

Minutes of last meeting read and confirmed.

On motion the reports of committees, communications, petitions, etc., were on motion laid upon the table and the Council went into committee of the whole on reports, etc. Ald. Platt, in the chair.

The accounts recommended to be paid by the various committees were passed and the following recommendations were disposed of:

That tenders be asked for the purchase of the old Children's Shelter property on the corner of Metcalfe and Frank streets and that the highest or any tender not necessary be accepted.—Carried.

That the Council supplement the recent collection taken for the British Red Cross by an amount large enough to make the subscription from the city $10,000. The amount required from the Council to be approximately $3,000.—Carried.

That the city grant the sum of $200 to the fund for the relief and aid of the Canadian Sailors of the Navy.—Carried.

That the city subscribe for $30,000 of the Victory Loan bonds, the amount for the subscription to be taken from the city sinking fund, and that the mayor, chairman of Executive and City Treasurer be a committee to purchase the bonds and that the amount be invested one-half in 5-year bonds, and one-half in ten-year bonds.—Carried.

Free Licenses?

Mr. J. B. Brintnell asked the Council to grant a free license for selling tobacco, also that his income tax be struck out.—Referred to the Executive Committee.

A Complaint

Mr. James Merrill, residing on North Front street, addressed the Council in reference to the condition of the sidewalk on the north side of the new bridge erected over the G. T. R. tracks on North Front street. Something should be done as the walk is so much lower at place and higher in some places than the road.

Mayor Ketcheson said that the plans approved of by the Board of Railway Commissioners, and our engineer should be sent to look after the matter.

Ald. Woodley said the grade at Bleecker street was high and would be higher according to the plan proposed.

Ald. Parks said the sidewalk was a good job, and should be repaired. The special committee appointed by the Council should look into this matter.

On motion the matter was referred to the Special Committee to report to the Public Works Committee.

Compensation Wanted.

Mr. W. C. Mikel, K.C., addressed the Council in reference to a grievance which Mr. Tobias Carr claimed he had against the city. At close proximity to Mr. Carr's residence, a sidewalk was built over a ditch and the walk tipped up at a considerable angle. In consequence it was dangerous and caused water to run into Mr. Carr's residence. A sewer had been blocked, and in consequence, water and refuse was forced into Mr. Carr's property. This was complained of and Mr. Carr was told to go on and remedy the existing evil. He did so and is now claiming remuneration from the city. Whatever he did was for the city's benefit. That the work was necessary and was done in an established fact. Mr. Carr considers that $200 would be a reasonable amount for what he had done. Mr. Carr does not wish to be arbitrary in the matter.

Ald. Parks—In the year 1913 the Council received some letters from Mr. Carr, and also lawyer's letters in regard to this matter. Mr. Lindsay was engineer of the city at the time.

Ald. Robinson said the Council would like to know what was the lowest amount Mr. Carr would take.

Mayor Ketcheson—The Council is in possession of the facts and the matter could be taken up by the Public Works Committee.

A motion prevailed that the City Engineer and Chairman of Public Works be requested to look into the matter, and report to the Public Works Committee.

Mayor Ketcheson thanked Mr. Mikel and Mr. Carr for coming to the Council and placing this matter in a proper light.

The Committee rose and reported. The report was received and adopted.

Enquiries.

Ald. Robinson asked if the Special committee appointed some time ago re engaging a typewriter for the city offices had any report to make.

Ald. Woodley—There is no report to make.

Ald. Robinson—What salary is paid for the typewriter now engaged.

Ald. Woodley—$8 per week.

Ald. Parks—Has the crossing on Catherine street been cleared?

Ald. Woodley—The crossing will be fixed.

Ald. Platt—A resolution was passed that the Council have a by-law submitted to the electors relative to the sale of the municipal coal yard. Let us live up to that resolution. It should be submitted to the electors.

Mayor Ketcheson—A by-law can be prepared.

Ald. Parks—Other cities have passed by-laws and submitted same to the electors.

A communication was read from the City Solicitor in regard to such a by-law, which intimated it was not necessary to submit it to the electors, but the consent of the Municipal Board and the Lieut.-Governor in Council should be obtained.

Ald. Robinson—Ald. Platt should see the City Solicitor and by-law should be submitted to the people.

Ald. Marshall—On McDonald Ave. the grading has been pulled up and stringers are left, and build are sticking up making it dangerous.

Referred to the Public Works Committee.

By-Laws.

Under this head, Ald. Woodley said he had a by-law, but as there were other by-laws to be considered it was thought advisable to adjourn the present meeting until Thursday night to consider and pass certain by-laws. This was agreed to by the members.

Unfinished Business.

Under this head Mayor Ketcheson said he had been waited upon by three ladies of the city representing the three Chapters of the Daughters of the Empire in the city, in reference to securing a grant for the Navy League of Canada, the object of which to assist in disseminating literature to impart knowledge in reference to the work of the League. It was for the Council to say what they would do in the matter.

Ald. Robinson—How many more of such appeals are to be made. We are giving all the time.

Ald. Deacon—Give until it hurts, and then give more.

The matter was referred to the Executive Committee.

On motion the Council adjourned until Thursday night.

Nerves of the Stomach

Were Weak and inactive as result of Nervous Prostration — Lost Twenty Pounds — Had to Take Sleeping Powders to Get Any Rest.

St. Catharines, Ont., Nov. 27.—Many people never realize that the nervousness and action of every organ of the human body is dependent on the energy supplied by the nervous system.

When the nervous system gets run down there is weakness throughout the entire body. You feel tired and languid and your stomach and other digestive organs are similarly affected. Appetite fails, digestion is poor, you do not get the good of what you eat and gradually grow weaker and weaker.

This process can only be stopped by such treatment as is found in Nerve Food, which goes directly to create new nerve force and thereby to invigorate the whole human body.

Mrs. Geo. S. Elliss, 46 Davidson street, St. Catharines, Ont., writes: "My husband had an attack of nervous prostration, and although he doctored for some time and tried different other medicines, he could not get relief. He had to resort to sleeping powders given him by the doctor to make him sleep. The greater part of the trouble seemed to be with the nerves of the stomach. He began to lose weight, and kept on going down until he had lost twenty pounds. We had read testimonials about the new papers for Dr. Chase's Nerve Food, and noticing that it seemed to be doing a lot of good for people troubled with nervousness, my husband decided to try it. He found benefit almost from the start, and continued this treatment until he had taken about twelve or thirteen boxes. The results were most satisfactory. He is now enjoying good health, sleeps well, and has gained back almost all the weight he had lost. He also uses Dr. Chase's Kidney-Liver Pills occasionally, and thinks highly of them as a tonic remedy. I have also used this treatment for dizzy spells and other liver troubles, and was completely cured of these complaints. We think a great deal of Dr. Chase's medicines, and cannot speak too highly of them."

Dr. Chase's Nerve Food, 50 cents a box, 5 for $2.25, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

"BOB WHITE" BATHS IN BOILER

Little "Bob White", the clever child actor who appears in the Paramount production of "Lost in Transit" featuring George Beban, the famous Italian impersonator of the scenes, is already a "Veteran" actor—his own estimation at least.

During the filming of "Lost in Transit," "Bob", who is just past two years of age, calls it, experienced many new and thrilling sensations, but perhaps the most thrilling was the one where a man, who wasn't his real dad-dy in the picture, and therefore, and very used to bathing small boys, inserted him into a steam boiler, and to cap the climax, clapped the cover down tight on the splashing youngster who was supposed to "Come up smiling" in the picture. "Lost in Transit" with the boiler episode will be shown at the Palace to-night, and Wednesday matinee and night.

CRITICS PRAISE

VITAGRAPH STAR

A motion picture star is more than great critics and the still greater public say and think she is not what her managers think she is. Take for example Alice Joyce who appears in "Womanhood, the Glory of the Nation," at Griffin's to-night. What the greatest critics in the world say of Miss Joyce in print is of vast importance. It is the discerning comments of these critics that gives you your first mental impression of a star. On these criticisms, most of the time, hinge the success or failure of a man or woman on the stage and screen. Ashton Stevens in the Chicago Examiner says of Miss Joyce: "Alice Joyce is one of the sort that gives us hope that brains and not beauty will be the acid test of the future in establishing screen stars, her overwhelming moon-calfish charm is the most valuable in the long list of film favorites I have seen."

EXCELLENT CAST

WITH "THE BRAT"

Everything points to a record house when "The Brat" is presented at Griffin's Opera House next Friday night, November 30th. During this first visit of New York, "The Brat" has been doing excellent business, far in advance of what was expected. The reason is easily seen when the names of the cast are read. Such names as Rex Martin, Moreno's own star, Lenore Ulric, Edna M. Holland, daughter of E. M. Holland, the late character actor, so well known in America, Bertram L. Robinson, who has just finished a splendid engagement with Julia Dean in "Marie Rose," Arthur Pacie Ripple, who was last season in Klaw & Erlanger's "Fully Annie," Mary Le Rue and Dorothy Baldwin, are seldom seen in one cast. The story of the play which is by Maude Fulton, tells of "The Brat", a homeless waif who is taken from the police court by a novelist who is searching for material for his latest book. The child is progressing as rapidly as it should. He takes "The Brat" to his home that he may study her closely. She upsets the prim and proper home by her peculiar ways, but scatters sunshine about, and in reforming the younger brother, Stephen, who has fallen into a life of drunkenness, works out her own salvation. 'A life of promise lies before her as she leaves with Stephen for his ranch in Wyoming.'

KILLED IN ACTION

Rev. J. R. Patterson, who recently made a public address in Belleville on the Liberty Loan, received the sad news Sunday that his son, Sapper C. F. Patterson, had been killed in action.

ST. ANDREW'S AND VICTORY.

Colonel W. N. Ponton, K.C., was given the privilege of the pulpit, in the "Old Kirk" Sunday morning and spoke convincingly and hopefully on the Victory Loan, or rather the contribution of "corn, wine and oil" we are all called upon to make for the needs and the common weal of our family of nations, so that we may say "Our part is done" and feel certain and cherish our Canadian sons (and daughters) on our frontier line in France. This investment and use of our vital resources appeals to both business and bosoms, and all that we can do over and beyond our solemn duty to our great national fund is dedicated to the noblest purposes. Colonel Ponton quoted nine apposite texts, reading them from his old Armada Bible of 1588 printed by Queen Elizabeth at the Caxton Press during that great crisis of English History:—Exodus 14—Numbers 1—10, Nehemiah 7—70, Matthew 25, Matthew 26, 39 and 40; Romans 13, 6 and 7. 1 Timothy 2—1—3. 1 Timothy 5—1—3. 2 Corinthians 8—2. The safety of the Commonwealth is the Supreme Law and the perfect law of liberty. "Consolidate your gains" is our solemn duty to our sons do at the front, by sharing in the distribution of the consolidated securities of the Empire, and thus hasten peace and coming. Miss Anita Ponton sang very feelingly "Lest we have Peace."

Bishop Bidwell, of Kingston, has issued a pastoral, headed, "The Coming Election," in which he urges on his people to lay aside everything and vote for maintaining Canada's war effort at full vigor.

ESTATE OF SAMUEL T. WOOD

The will of Samuel T. Wood, editorial writer on The Globe, formerly of Belleville, was filed on Saturday for probate. The estate is valued at $9,350. Mr. Wood left a life interest in his home on Dunn Avenue and his household goods to his widow, Mrs. Dora Wood; to his brother, William, the sum of $500; to his son, Frank, his writings, published and unpublished, and to his son, Samuel, his book, geological glasses, botanical and natural history specimens. The remainder of the estate is to be equally divided between his sons, Frank and Samuel. Mr. Wood was the author of the book, "Rambles of a Canadian Naturalist."

MILK CASE

Before Police Magistrate Bedford of Deseronto this afternoon, in the police court room in this city, a case of considerable interest to patrons of Bronk cheese factory was being investigated. Mr. Homar Parr of Tyendinaga was charged with sending deteriorated milk to Bronk factory. The accused denies the charge preferred against him. Mr. E. J. Butler appeared on behalf of the prosecution, and Mr. W. C. Mikel, K.C., for the defendant. A number of witnesses, some of whom are experts, have been summoned to give evidence.

HOW CORP. JUBY DIED

Mr. and Mrs. Fred Juby of Montreal, Que., have received a letter from Pte. Tiese, Armitstead, giving particulars of the death of their soldier son, Corp. Fred Juby, killed in action October 25. He was killed on the Ypres front, says the writer, after having led his boys out on patrol, where he was driven back by two German patrol squads. Corp. Juby and his men were sitting in a shell hole and in rising up for something fell across spoiled he and a companion, both being killed. Pte. Armitstead writes that the boys of Corp. Juby's company thought the world of him and were very sad about his death.

A SERIOUS CHARGE

H. A. Cook, formerly of Trenton, was yesterday afternoon placed under arrest on a charge of city upon a warrant which charged him that he did on March 28th, 1916 at the Town of Trenton, contrary to law unlawfully and without legal justification, excuse or excuse, and without color of right and with intent to defraud, did set fire to a certain building to wit, an hotel known as the King George Hotel, belonging to B. W. Powers and A. A. Cook. After his arrest the accused was brought up before Magistrate Masson, but he was not asked to plead to the charge, but desired to be tried. A remand until the 3rd of December was made. Subsequently Cook was admitted to bail in sureties amounting to $10,000.

Loyal Women United For Union Government

Protect Canada's Soldiers Overseas

ENTHUSIASTIC MEETING OF BELLEVILLE WOMEN VOTERS SHOW UNMISTAKABLY THEIR-LOYALTY TO THE UNION GOVERNMENT IN ITS DETERMINATION TO PROTECT THE INTERESTS OF THE GALLANT LADS OVERSEAS WHO ARE FIGHTING AND DYING TO PROTECT THE HONOR OF CANADIAN WOMEN FROM THE SAVAGE HUN AND TO PRESERVE THE LIBERTY OF THE WORLD—SPLENDID TRIBUTE TO MR PORTER, THE OFFICIAL REPRESENTATIVE OF UNION GOVERNMENT FOR WEST HASTINGS—STIRRING PATRIOTIC SPEECHES RING THE DEATH KNELL OF PARTY POLITICS UNTIL THE WAR IS WON—SOLDIERS SPEAK FOR UNION GOVERNMENT CANDIDATE.

The women of Canada have given unmistakable evidence that they are behind Union Government with every ounce of their patriotic energy and that their every effort and all their influence will be cast for officially proclaimed Union Government candidates pledged to protect the interests of the soldier boys overseas and fight to the last gasp the opportunists who would cowardly desert the soldier heroes who have made the name of Canada a symbol of honor, glory, heroism and gallant achievement the world over.

Belleville ladies are not going to be behind their sisters of other cities and communities in loyalty to the soldiers and supporting Union Government and was amply evidenced last night when the first real women's meeting in this city, either conducted or held in Belleville, The intense interest taken by the ladies in the success of the Union Government was shown by the large number in attendance, the city Hall being crowded to the doors, with standing room at a premium, and only an occasional seat secret being visible in a sea of humanity.

The large attendance was a splendid tribute to the popularity of the non-partisan Union Government and its able representative for West Hastings, R. Oliver Porter, K.C.

The enthusiasm manifested and interest taken in the meeting is a happy augury of the success of Union Government in West Hastings, which will keep faith with the brave soldier heroes battling with poison gas, liquid fire, bullets and every deviltry of the savage Huns overseas, that Canada may enjoy all the blessings of peace.

It was an enthusiastic gathering and the various speakers were accorded a hearty reception, especially Mr. Porter.

Mrs. J. B. Cleveland of Toronto, spoke at some length in regard to the duties of women at the present time, and the great necessity of their support the Union Government. Suitable vocal selections by Mrs. Jas. Grant and recitations by Miss Jessie Tufts delivered in good style.

Mrs. J. A. McFee presided over the meeting and filled the position in a most capable manner, she strongly emphasized the necessity there was of the women to assist in winning the war by supporting the Union Government candidates. The women had done much for the boys at the front, and more was to be done, and the women would do it.

Mayor Ketchesen

Mayor Ketchesen in his opening remarks said this was an unusual gathering. It was evident that the ladies were interested in the great political contest that is taking part at the present time. We are proud of our women and what they have done. They have not done all talking, but many acts of kindness. Those should not have been an election at the present time. It has been forced upon us and we must meet it in the Union Government. We must put all our powers to win the war. This is a war time election, and we must do all we can to see that the Union candidates are elected so that they can help win the war. We are all anxious that this Government should be returned. If Laurier is returned to power it is meant that what we have done since the war commenced would be undone. Liberal Idealists have joined with the Conservatives to form a Union Government which object is to win. He, the speaker, was much interested in this war, and his two sons had donned the uniform and went overseas. The Union Government has selected Mr. Porter as the Union candidate, and we must support him and return him to Parliament. This is a war time election. The man you want to vote for is the Union candidate. The boys at the front will vote for Union Government. Will we vote against the boys. No. We will vote as they vote. He did not think any right thinking mother, father or sister will do anything else but vote for Mr. Porter. He (as Mayor) had come in contact with many who had boys at the front, and most mothers want to get their boys home. We expected that many of the boys would be home for Christmas but they could see some order in the fact that there were no reinforcements to take their place. It was the duty of the young men to take the place of those who have been at the front for months, and some for three years. The women in this election, who have relatives at the front, have been given the franchise, and upon them rests a great responsibility. Vote for the Union Government candidate, which is Mr. E. G. Porter. (Cheers).

Musical Selections

Mrs. James Grant sang "Joan of Arc," in a manner that captivated the audience.

Mrs. Cleveland

Mrs. J. B. Cleveland of Toronto, was the next speaker, and received a cordial reception. She said she believed in the franchise for women, and the women can do much to assist in winning the war. The purchasing of Victory Bonds was one way of assisting to win the war. The country needs the money to keep the factories going to make munitions for the war. The next placing of large orders for shells by the United States Government with Canadian munition firms has given a new impetus to iron mining in this colony. The Canadian foundries depend to a considerable extent on ores imported from Newfoundland, which is sent to smelters in Nova Scotia.

As the demand for miners comes concurrently with a big recruiting drive for the army some of the companies are having difficulty in obtaining sufficient men. Many fishermen at the completion of their season's work have gone into the mines.

FREE SPEECH BARRED IN QUEBEC PROVINCE

MONTREAL, Nov. 28.—The riotous scenes which characterized the meeting held Wednesday night by Sir Herbert Amos in St. Lambert Division were repeated again in St. Joseph's Hall, where Sir Herbert had convened another meeting with the intention of presenting his program to the French-Canadian electors in their own language. If anything, the meeting was even more tumultuous than the previous one and although there was no actual fights as occurred at Mr. Doherty's meeting in St. Anne's, at times the uproar became positively deafening, the boos, jeers and howls of derision merging into one long-drawn wail of discord that echoed and re-echoed through the hall, shaking it to its very rafters.

A slight index to the general character of the audience may be taken from the fact that two representatives of the press, were rushed during the progress of the meeting, one having been despoiled of his overcoat and the other of an attractive looking muffler which dexterously caught the eye of some gangster.

NEWFOUNDLAND MINES RENEW OLD ACTIVITY

ST. JOHN'S Nfld., Nov. 28.—The next placing of large orders for shells by the United States Government with Canadian munition firms has given a new impetus to iron mining in this colony. The Canadian foundries depend to a considerable extent on ores imported from Newfoundland, which is sent to smelters in Nova Scotia.

As the demand for miners comes concurrently with a big recruiting drive for the army some of the companies are having difficulty in obtaining sufficient men. Many fishermen at the completion of their season's work have gone into the mines.

French Victory In Verdun Region

PARIS, Nov. 27.—In an attack in the Verdun region Sunday the French troops captured first and second German lines of defence, including deep dugouts and also took 800 German prisoners, according to the French official communication this evening.

CANADIAN FIRM LOSES

PHILADELPHIA, Nov. 28.—A Federal Jury here decided the suit of the agency of the Canadian Car & Foundry Company against the Pennsylvania Iron Works at Boldystone, Pa., for the return of materials valued at $118,487, in favor of the Pennsylvania concern.

Sues Father-in-Law For Interfering

Canonsville Man Wants $20,000 for Alienation of Wife's Affections—Novel Lived Together.

BROCKVILLE, Nov. 28.—Tuesday Clute was occupied the best part of three days in hearing evidence at the Fall Assize Court in the action of G. R. Webb against Mr. and Mrs. W. Y. Bullock, his father-in-law and mother-in-law, to recover $20,000 damages for alienation of his wife's affections. The testimony revealed a real life romance, involving two of the best known families in Canonsville, and the scene rested upon an alleged parental abduction of Mrs. Webb, immediately after her marriage, and subsequently arranged American divorce proceedings at Cleveland. The case was followed with unusual interest by crowds which packed the court room to overflowing at each sitting. On the stand the plaintiff disclosed that he became engaged to Dora Bullock in April, 1915, and in the following September, during the absence from home of Mr. and Mrs. Bullock the young woman suggested a hurried marriage to overcome parental objection. Webb was at work in a Canonsville garage when the proposition was submitted to him over the telephone by Miss Bullock. He advised her to talk it over with the subject to her people, and in turn she accused him of being a quitter and wanting to back down on the proposal. Webb then at once consented, and the couple were married by Rev. A. E. Oliver, Methodist minister.

Slapped His Face.

The excitement began when Webb and his bride's eight sisters got wind of their marriage to Mr. and Mrs. Bullock at the Bullock home, and Webb was set upon by the entire tongue-thrashing. Bullock threatened to drown himself and Mrs. Bullock to have a fit. The plaintiff and his wife left the house in a hurry, and went to separate them. Mrs. Webb promised to meet her husband next morning, "if her parents did not kill her during the night." The scene was one smiled by the plaintiff being ordered from the house after he was slapped on the face by Mrs. Bullock, who is alleged to have thrown a chair at him and threatened to stone and scald Mr. Webb severely. The plaintiff and his wife went back and his bride continued to reside with her parents. Twelve days later the Bullocks took their daughter West, Webb receiving a letter from his bride at Killarney, Man., in which she said she "thought everything would be all right." The following month the Bullochs returned to Canaouge, and between that time and December 20th, Webb had no opportunities to secretly walk and motor with his wife. That month he met his sister there, she saying they had better not meet again.

"Inferior" Social Standing

Early this year plaintiff was served in proceedings for a divorce issued at Cleveland, the bride being the petitioner, and in her petition setting forth that at the time of the marriage she was irrational. The evidence of Rev. Mr. Oliver, the clergyman who witnessed the marriage ceremony at the clergyman's home went to show that she was nothing but a reluctant bride and seemingly was in good health, both mentally and physically. Mrs. Bullock called at the parsonage to verify the performance of the marriage ceremony, declaring she would never allow the young couple to live together as she blamed the minister for not advising against the marriage. Webb's "social standing" was inferior to his bride and her family."

U. S. Divorce

The defendant was the principal witness on his own behalf, giving a general denial of interfering at all between the relations of Webb and his wife. He stated that he advised his daughter to live with the plaintiff, but it was entirely her wish to do so, preferring rather to spend her life in jail. The divorce had been secured by his daughter, he advancing the money for the action and furnishing as security the deed of an island and some Pennsylvania Railway bonds bequeathed by his daughter by her grandmother. Mrs. Bullock told of the preparations for the trip to Cleveland and of their residence there for one year in order to obtain the divorce.

In reserving judgment for one month, his Lordship expressed the hope that the estranged couple would be reunited in the meantime.

Passenger Bus Struck by Train at Trenton—Woman Killed, Driver Injured

A serious accident occurred at Trenton this morning when a bus taking passengers to the G. T. R. station was struck by a C.N.R. train on the town crossing. A lady named Mrs. Henry of Port Hope, was killed and the bus driver was injured.

The accident happened at about four o'clock this morning. Mrs. Henry, who is the wife of a C. P. R. engineer, was on her way to the G.T.R. station to take the train for Port Hope where a relative was ill.

The bus driver did not see the train which suddenly emerged from a deep cut and the bus struck the express between the engine and the baggage car, killing the woman passenger, and injuring the driver. The latter was brought to Belleville hospital for treatment.

The accident happened just east of the Trent bridge.

39 Hun Subs Bagged In 15 Days

GREATEST MEAT ORDER IN WORLD'S HISTORY

(Special to The Intelligencer)

CHICAGO, Nov. 28.—Jos. F. Cotton, chairman of the meat division of food administration, placed the greatest meat order in the history of the world here today. The purchases were made on behalf of the allied nations, the Red Cross and the Belgian Relief Committee. Fifteen packers are concerned.

Resistance Of Enemy Stronger

British Headquarters in France, Nov. 27.—The German resistance southwest of Cambrai has stiffened to such a degree, whereas only yesterday it was nearly a matter of hard fighting. The enemy, who received a staggering blow has now had time to recover somewhat from the effects of it. His communications here are good, and he concentrated reinforcements fairly rapidly. We have driven off repeated counter attacks and the Germans are bound at least to endeavor to exact a larger toll of casualties for every inch of ground they lose.

The outstanding feature of the past week is that the vaunted invincibility of the Hindenburg system of defence has been crushed through. Henceforth the Germans will be unable to say that any part of their laborious line of resistance is safe. It is a fact of importance at a time when it is a serious matter for the enemy to have more of his reserves tied down.

KITCHENER HOODLUMS PAY THE PRICE

KITCHENER, Nov. 28.—Otto Lüfn and Truman Schnier, who were charged with disorderly conduct on King street during the disturbance last night, were found guilty by Police Magistrate Weir and fined $50 and costs. They defied him when they were arraigned before Mr. Albert Nahrgang, of Waterloo, was fined $10 and costs on a similar charge.

Investigations have been conducted in a number of industries and financial institutions in Kitchener and Waterloo, and employes who participated in the anti-conscription parade and the disturbances at the auditorium last Saturday night have been dismissed by their employers.

ITALIANS HOLD FIRM AGAINST HEAVY DRIVES

Terrific Battle Now On Will Decide Fate of Northern Italy—Splendid Resistance—Austro-German Attacks Met With Determined and Heroic Valor

Italian Army Headquarters in Northern Italy, Nov. 28.—Five determined attacks by Austro-German forces on the left wing of the Italian fourth army near Monte Fortica, between the Brenta and the Piave, were delivered. The enemy rushes were broken by the defensive troops with heavy losses to thoseattackers.

FRENCH TROOPS ARRIVE.

French troops are pouring through the Alpine passes today. Relief is in sight for Italy. Men and guns to roll back the would-be despoilers of Venice are passing in seemingly never-ending streams through the century-channeled valleys and ravines.

ITALIANS REPULSE ATTACK.

The official announcement follows: Monday afternoon the enemy, after bombarding furiously our positions on Col Della Berretta, to the east of the Brenta Valley, launched against it a massed attack of an entire division of infantry. The ensuing struggle was very fierce, and the defending lines held by a violent barrage fire, would perhaps have been compelled to give way in view of the size of the attacking force and the violence of the assault had not their support, composed of splendid Sicilians of the famous and glorious Assia Brigade, with companies of the Ninety-Fourth Infantry and the Brenta Valley battalion of Alpini, arrived in time to check the onrushing tide of the death some with cool, our gallant troops rushed against the enemy with irresistible impetus, carrying all before them, and compelling him to retire with very severe losses, leaving prisoners in our hands."

THE ONLY WAY TO SUPPORT UNION GOVERNMENT

IS BY VOTING FOR CANDIDATES ENDORSED BY PREMIER

When the Electors go to the Polls they will have to take one of two courses—they must either support the Union Government candidates by marking their ballots for the Government candidates, or at the forces of Laurier by marking their ballots for Candidates opposing the endorsed candidates of the Government. There is no third course when it comes to marking the ballot. There is no such thing as an Independent Unionist or independent Liberal. All Candidates are either the accredited representatives of the Union Government or opponents of it. To vote for the people is by no means to vote for the people is by by their votes whether they favor a Union Government or the policy of Laurier.

(SPECIAL TO THE INTELLIGENCER)

ROME, Nov. 28.—THE ITALIAN WAR OFFICE ANNOUNCES THAT WITHIN THE PAST 24 HOURS THE ITALIANS, ASSUMING THE OFFENSIVE, HAVE SMASHED THE GERMAN FIRST AND SECOND LINES INFLICTING TREMENDOUS LOSSES ON THE INVADERS. DETAILS OF THE VICTORY ARE WITHHELD FOR THE PRESENT.

ST. HYACINTHE HOSPITAL DESTROYED BY FIRE

Chief of Police Lost His Life—Thousand Inmates Removed Safely—Hospital Cost $600,000—Fire Fighters Handicapped By Zero Weather—Origin Unknown

(Special to The Intelligencer)

ST. HYACINTHE, Que., Nov. 28.—The Hotel Dieu Hospital, erected at a cost of $600,000, was destroyed by fire this morning. The thousand inmates were all got out safely, despite the fact that the temperature was about zero. Chief of Police Paily lost his life while engaged in this work. The cause of the fire is unknown.

BAY OF QUINTE CANDIDATES ENDORSED BY LAURIER

The following candidates in the Bay of Quinte District have been officially endorsed by Sir Wilfrid Laurier as acceptable to him and his policy, of opposition to the Military Service Act and Union Government, which is made deserting Canada's soldiers overseas and breaking faith with them to the extent of national disgrace:

East Hastings—W. C. Cross.
Prince Edward—P. P. Hersey.
Northumberland—S. G. Dudley.
Durham—George Jones.
Lennox and Addington—E. W. Grange.

ELECTORS, DO NOT FORGET THAT LAURIER HAS BEEN APPROVED BY BOURASSA, WHO RECOMMENDS ALL TO VOTE FOR LAURIER'S RETURN TO POWER, HE BEING THE MOST ACCEPTABLE TO THE ANTI-BRITISH, PRO-GERMAN FRENCH CLIQUE WHOM BOURASSA LEADS.

WHAT HAS PORTER DONE FOR WEST HASTINGS?

Is Frequently and Hypocritically Asked by the Opposition—Electors Can Examine the Record and See For Themselves Some of the Benefits Which Mr. Porter Has Secured for West Hastings

He was instrumental in securing the expenditure of $350,000 for the new wharf and warehouse at Belleville for the use of the business men and producers of the district.

Arranged to have the Belleville Post Office raised to the status of a city office with a house-to-house mail delivery twice daily by letter carriers.

Rural Mail Delivery

Secured the establishment of Rural Free Mail Delivery throughout the country district.

Trenton Bridge

Secured $87,000 to assist in the erection of the fine bridge which spans the river at Trenton, and had the Post Office in that town enlarged.

British Chemical Works.

The British Chemical Works, which has brought thousands of dollars to West Hastings was secured through the persistent efforts of Mr. Porter.

Returned Soldiers

The welfare of returned soldiers and their dependents has always been the first thought of Mr. Porter and he has always been at their service. Good positions have been secured for many returned soldiers through Mr. Porter's efforts, and he has been able to help the returned heroes and their dependents in many ways.

Compensation For Land.

Compelled the Government to pay proper compensation for land taken for and damages sustained by reason of the Trent Canal.

Assisted Mineral Industry.

Procured remission of duty on raw mineral products shipped to the United States for refining and reshipment into Canada in the finished article.

Mineral Land Survey

Advocated a re-survey for mineral products in Hastings County (none having been made for 30 years) and work will begin this next spring.

Patriotic Contributions

Has given thousands of dollars for Patriotic and Red Cross work and bought War Bonds to the extent of his ability, being a man of very moderate means.

Fought For City.

Fought the city's case to compel the C.N.R. and C.P.R. to build subways on Front St. South and on the west side of the river, spending weeks of time and making many journeys to Ottawa free of any cost or charge to the city.

Dredging

Secured the dredging of the harbours of Belleville and Trenton.

Increased Railway Facilities

Insisted on and procured increased railway facilities for. North Hastings, keeping up daily mail service, after service had been reduced to three trains per week owing to war conditions.

New Postoffices Established

Had established a number of new post offices where there was no rural mail delivery.

Business For Trenton

Procured contracts for local contractors on Trent Canal and the finishing of the Trenton end of the Canal first; whether large amounts for material and labor was expended to the advantage of the people of West Hastings.

Helped The Business Man

Procured inter-switching of freight between all railways running through Belleville.

Railway Crossings Protected.

Procured by his advocacy orders from the Railway Commission to properly protect the Railway Crossings of the C.N.R. and C.P.R. in Sidney township near the cemetery and at the Bay Bridge.

Abolished Net Fishing.

Procured the abolition of net fishing in the Bay of Quinte from the Murray Canal to the Telegraph Light for the benefit of sportsmen and the protection of fishing interests.

Dredged the Narrows

Procured the dredging of the Narrows at Telegraph Light to allow deep draught boats to navigate our bay.

Natural Highway

Advocated and was one of a Special Committee to urge upon the Government the construction of a National Highway from Montreal to Detroit which would pass through Hastings County, but the Bill was killed by the Senate.

Immigration Agent

Secured the appointment of an Immigration Agent in West Hastings to encourage British labourers to locate here; many scores of whom did so.

Military Headquarters

Procured Belleville to be made a Military Headquarters for recruiting and mobolizing by which many thousands of dollars were expended here; our merchants getting the benefit.

Brought Business to Belleville

Was instrumental in procuring contracts for various local manufacturers to produce clothing, munitions and war material, which brought many more thousands of dollars to Belleville.

Nearly all this, has it is true, been done in the last six years, for during the remainder of the time Mr. Porter was in opposition to Sir Wilfrid Laurier's Government, with which he had little chance to do anything.

Hastings Marble for Ottawa

Arranged to have the marble, quarried at the Babcroft quarries, used in the new wing of the Parliament Buildings, thus giving great prominence and valuable advertising to that product.

Frantford Steel Bridge

Obtained grant of $12,500 for construction of steel bridge at Frankford and the free use of the Government grounds there for a Recreation Park for the citizens.

Even this does not exhaust the list of Mr. Porter's activities, and he has reason to be proud of his record, and West Hastings should show it's gratitude for it—and it will do so.

MUSIC AND DRAMA

GEORGE BEBAN AT PALACE TONIGHT

"Lost in Transit," George Beban's newest Paramount picture, was written for him by the talented screen authoress, Kathlyn Williams, and contains a number of unusual incidents. The cast is exceptionally strong, and includes Helen Eddy, who has been as Mr. Beban's leading lady for most of his photoplays; and little "Bob White," who is just two and a half years old and has already appeared in two big productions, giving every indication of following his father's footsteps.

The 15th chapter of "The Gray Ghost" serial and "Money Mad Men," a new comedy, will also be screened.

PAULINE FREDERICK AT PALACE TOMORROW

Among the many phases of life depicted in Pauline Frederick's latest Famous Players-Paramount picture, "The Love That Lives," is a vivid portrayal of life and conditions in the slums of our great cities. Tenements are shown where are swarms of children, trying to play in the filth and squalor that surrounds their poor homes; mothers praying for sunshine for their sick babies and men and women living like rats in traps. The picture has been artistically "lightened" by glimpses of luxury, flashes of humor and many human interest touches, so that this dark side is not overdone.

"The Love That Lives," directed by Robert G. Vignola, and one of the finest pictures Pauline Frederick has ever appeared in, will open at the Palace Theatre to-morrow to Saturday, along with the "Great Secret" series and a good comedy.

"BABY MINE" BRINGS NEW STAR TO SCREEN

The first comedy offering of Goldwyn Pictures, Margaret Mayo's screaming farce, "Baby Mine," which will be screened at Griffin's tomorrow night, and Saturday, matinee and night, introduces a new star in motion pictures. She is Madge Kennedy, the famous comedienne of "Twin Beds," Fair and Warmer and other stage productions that have been big successes.

Miss Kennedy plays the role of Zoie in the picture presentation of the comedy, which in stage form had a run of nearly two seasons in New York.

Zoie is a light-hearted bride whose yearning for suppers and theatres leads her unconcerned young husband to abandon her. Her scheme to get him back furnishes the situations around which the comedy revolves. After he has been away for some months, Zoie causes his return with an announcement that a baby boy has come to the household. There is no such thing, but Zoie proposes to get one from a children's home.

MADAME NELLI GARDINI ENTERTAINED

Madame Gardini arrived in the city yesterday afternoon from Lindsay, where she was greeted with a bumper house and noted a goodly sum for The Great War Veterans there. She pleased and delighted were the citizens here that that the only way she could secure her appearance on Belleville was to give a solemn promise that she would return at a latter date.

There are some good seats left, which can be secured at the theatre to-night before the performance, and Madame Gardini should be encouraged in her patriotic work, as she gives her services to the Great War Veterans Association, gratis.

Frederick C. Frein who accompanies Madame Gardini, was chosen by the noted Pederewski to complete his American tour when he was unable to do so through illness.

Let Belleville do her best tonight for the cause of the returned boys, who we

To the Electors of East Hastings

Ladies & Gentlemen—

Your vote and influence is respectfully requested for T. H. Thompson, Unionist candidate, officially endorsed by the Premier and the Union Government.

I AM IN HEARTY ACCORD WITH THE PLATFORM OF THE GOVERNMENT AND FOR EVERY MEASURE OF THE GOVERNMENT TO WIN THE WAR.

I am for the ABOLITION OF THE PATRONAGE SYSTEM FOOD CONTROL AND STRICT REGULATION OF PRICES OF THE NECESSITIES OF LIFE, LIMITATION AND REGULATION OF PROFITS THE BEST TREATMENT FOR RETURNED SOLDIERS, AND FOR THE DEPENDENTS OF THOSE WHO ARE FIGHTING OUR BATTLES OVERSEAS.

I believe that wealth should bear a greater part of the financial burden that it has done in the past, and that labour should have a just share in the Government of the country. I BELIEVE IN THE FRANCHISE FOR WOMEN EQUALLY WITH MEN, AND AM FOR ANY MEASURE THAT WILL AID IN A BETTER SOCIAL AND ECONOMIC RECONSTRUCTION OF CANADA.

BEATRICE J. CROUTER.

Miss Beatrice Jay Crouter, aged 42 years, passed away last evening at the family residence, Carrying Place, Prince Edward County, after being ill for some time. Deceased was well and favorably known in the locality where she resided. She was a member of the Methodist church. A mother, one brother and four sisters survive. The brother, Percy Crouter, lives in Prince Edward County, and the sisters are: Mrs. John Garbett, Redcorvillo; Mrs. S. W. McCutcheon, Ottawa; Mrs. Wilfrid Smith and Mrs. Andrew Allison of Belleville.

Dangerous Antiseptics and Germicides Are Unnecessary

A dependable antiseptic has come to be considered a necessity in most homes. Especially is this true since Absorbine, Jr., has had such a wide introduction, because this liniment is not, only a powerful antiseptic and germicide but it is absolutely safe to use and to have around the house. It is not poisonous and it cannot do any harm even if the children get hold of it. That is a big point to consider. Absorbine, Jr., is concentrated and is therefore economical. It retains its germicidal properties even diluted one part Absorbine, Jr., to 100 parts water—and its antiseptic properties, one part Absorbine, Jr., to 200 parts of water.

The antiseptic and germicidal properties have been repeatedly tested and proven in many prominent chemical laboratories. Detailed laboratory reports mailed upon request.

Absorbine, Jr., combines safety with efficiency. $1.00 a bottle at most druggists or postpaid.

HASTINGS APPROACHES MILLION AND HALF MARK

Yesterday Very Successful For Victory Loan—Belleville and County Both Report Well—City Has Trebled Objective Workers Rally For Final Round-Up

$1,421,000 was the amount reported to date in the County of Hastings last night, Belleville to date is $613,000. More than three times the objective. That is going some, and the best yet, to county. This amount does not include the $200,000 from the city or the large amount which Belleville should be given credit for that is being subscribed by the G.T.R. employees, the C.P.R. employees or the employees of the Canada Steel Co. They have subscribed well over $100,000, and the Local Committee is fighting to get credit for this, and not to help swell Montreal, Hamilton and Toronto. Neither one of these cities have passed their objective as yet, while Belleville is absolutely sure of going four times the objective, which would be $768,000. Belleville's objective was $192,000.

There was a meeting of the workers of Belleville at the Headquarters last night, and every man was present. Mayor Ketchum occupied the chair, and it was decided that from now until the end of the week every man would put aside all considerations and get right down to hustling, so that the city would be combed clean. It is impossible to set a further objective for the good old City of Belleville. We don't know where it will stop. The sky is the limit. Yesterday was one of the best days yet reported from the City and County. Every worker in the City reported, and the total for the day was $61,000. Only one County in the Eastern Division had as large a day as Hastings, and that was Leeds and Grenville. Belleville City alone reported more particulars than the whole County of Frontenac. At this rate we will make some of these leaders train behind before Saturday night.

Baker Drops Out In South York

W. F. Maclean and Two Others Still In the Running For Parliament

TORONTO, Nov. 28.—After conferring with his supporters, and at the request of Sir Robert Borden, Mr. Richard L. Baker has withdrawn from the contest in South York. This fears W. F. Maclean, the endorsed Unionist candidate; Abe Dewlow, the Labor Liberal, and J. T. Gunn, the Labor nominee, in the field.

Mr. Baker had an interview with Sir Robert Borden, when he was in the city last week, and later Sir Robert went to Mr. Baker from London. The Premier pointed out that it was necessary that the Government should not be divided in this campaign, and suggested that the withdrawal of Mr. Baker's candidature under present conditions would best serve the public interest. Sir Robert asked Mr. Baker to first discuss the matter with his supporters before giving his answer, and paid a tribute to his ability.

Diamonds Valued At $20,000 Stolen

CLEVELAND, O., Nov. 28.—Cleveland police and detectives were working on the theft from the crowded lobby of a prominent hotel, of a registered mail package containing diamonds valued at $20,000. Although the theft was committed last Friday, no word of it became public until today, and then every effort was made by police to keep the facts quiet.

It was learned, however, that the diamonds, said to be sixty-five in number, and uncut, were the property of Yankhauer, Newitt and Platt, Jewelry Company, New York.

Was Suffocated By Gasoline Fumes

Toronto Traveler Found Dead in Garage Beside His Automobile

TORONTO, Nov. 29.—Missing since Friday, the body of Albert Edward Peake, a traveler living at 9 Constance Street, was found in his garage in a sitting position and leaning against the rear wheel of his car. As the remains were frozen the police believe that Mr. Peak died shortly after he was seen to leave the garage on Friday last.

From the condition of the automobile it was evident that shortly after Mr. Peake entered his garage he started the engine, and according to medical evidence death was due to the gasoline fumes generated by the running engine. As the spark plug was switched in and the gasoline tank empty, it is deduced that the engine ran until the fuel was exhausted.

The body of Mr. Peake was discovered by his niece, Mrs. Koerner, of Chicago, who was visiting at his home. When she opened the garage door she found her uncle beside the rear wheel of his car, a screwdriver lying beside him, and holding part of a skid chain in his hand. From this and other evidence it is thought that he was in the act of putting chains over the tires, when he was asphyxiated by the gasoline fumes.

The police at once notified Chief Coroner Johnson of the tragedy, and after hearing the circumstances surrounding the case the chief coroner decided that an inquest was not necessary. The body was therefore handed over to friends for burial.

Family's Service To Be Considered

Premier Sir Robert Borden, held an informal Cabinet meeting in Toronto at which several of his colleagues in the Cabinet were present. At the conclusion the Prime Minister handed out the following statement: "It is the intention of the Government that the service of a member or members of any family, during the present war, shall be taken fully into account in considering the exemption of other members of the same family from compulsory service under the Military Service Act. The instructions of the Military Service Council to the Tribunals are along this line, and the case of the Tribunal of Appellate Tribunal should fail to act accordingly the Minister of Militia and Defence, under the powers vested in him, will discharge from military service members of any family to whom exemption has been improperly refused."

Opposition To The Bolsheviki

PETROGRAD, Nov. 27.—A proclamation, signed by Lenine and Trotsky, has been posted stating that the bourgeoise is blocking efforts to provision the army and to provide funds for the support of the government. Another proclamation instructs the soldiers to disband committees opposing the Bolsheviki programme and to arrest their members. The committee on the Salvation of the Revolution in a proclamation to the army and navy, refuse to carry out the Bolsheviki armistice proposal, declaring that this will mean the final ruin of Russia.

THREATENED TO HANG UNIONIST CANDIDATE

QUEBEC, Nov. 28.—Mr. Joseph Barnard, editor of L'Evenement, and Unionist candidate in Quebec county, in opposition to Mayor Lavigueur, of this city, the Liberal nominee, was threatened with hanging by a mob on Lorette, when an attempt was made to hold a "contradictory meeting." Mayor Lavigueur, was given a warm reception, but when Mr. Barnard advanced to speak he was hooted so loudly that he could not make himself heard. Snowballs and other missiles were thrown at him, and a section of the crowd shouting they would hang him, produced a rope, and charged the platform. After a great deal of excitement, the crowd was pacified a little, but when Mr. Barnard was walking towards his automobile on return to the city he was surrounded and struck several times, but was not seriously hurt.

"Dr. Jim" Is Dead, Led Transvaal Raid

A Picturesque South African Career Ends in Death in London

LONDON, Nov. 27.—Sir Leander Starr Jameson died yesterday in London.

He was the leader of the Jameson Raid on the Transvaal in 1895, shortly before the Boer War. He fought the battle of Krugersdorp, and surrendered to the Boers. He and his officers were taken to Pretoria, and sentenced to be shot, but subsequently were turned over to the British. He went to England and was tried for leading the illegal raid, being sentenced to 15 months in prison.

Sir Leander was 61 years old. He went to South Africa in 1878, and after spending several years in the practice of medicine became engaged with Cecil Rhodes in the exploitation of the country. After his release from prison he returned to South Africa and was Premier of Cape Colony from 1904 to 1908. He was made a Privy Councillor in 1907, and knighted in 1911.

Russian Army Is Short Of Food

LONDON, Nov. 27.—A Petrograd despatch published here says the Russian army on the northern front is had no bread for several days, with only two or three days' supply of army biscuits on hand.

The Pallor of Anaemia Calls for Reconstructive Treatment

ANAEMIA comes on so insidiously that you may not realize its presence until a look in your mirror discloses the pallor of the skin and of the gums, the lips and the eyelids.

You may be gaining in weight, but the flesh is soft and flabby, and you are laying on fat rather than muscle. You find yourself disinclined to exertion, and greatly fatigued by any effort. There is weakness, heart palpitation and a disturbance of the digestive system.

The failure of the organs of digestion to derive proper nutrition from the food you eat has reduced the number of red corpuscles in the blood. The blood has become thin and watery, and in spite of the food you eat you are literally starving to death.

As this process continues you must necessarily grow weaker and weaker, and the bodily organs become more and more incapable of performing their natural functions.

There can be no question that Dr. Chase's Nerve Food is the ideal treatment for anaemia or bloodlessness, because it supplies to the blood in condensed form the very elements from which new, rich blood is created. In this way it makes room for the deficiencies of the digestive system, and sets in motion the process of reconstruction.

As the blood improves in quality under this treatment the action of the heart is strengthened, circulation is better, appetite is sharpened, the digestive organs gradually resume their functions, and you gain in strength and vigor.

You will not use this food cure long before you realise the upbuilding influence on your system. With returning strength comes new hope and confidence. The discouraging days will disappear from your life, and you will feel again the joy of health.

The Food Cure

Miss Alice Howes, 21 Haddington Street, Galt, Ont., writes:—"I was very ill with anaemia, could not sleep at night, and my appetite seemed entirely gone. I suffered in this way for nearly three years, and had treatment from two doctors in Toronto, where I was living at the time, but did not get any relief. I became more and more run down, and did not see any immediate hopes of getting better. I was then taken home to my mother in Galt. I thought, perhaps, the change of air might do me good. My mother saw that I was in a bad state, because my eyes were affected, and everywhere I went I used to take dizzy and fainting spells. My hands and limbs would become numb, I would see black specks before my eyes, and cold perspiration would come out on me. My mother had been taking Dr. Chase's Nerve Food with excellent results, and she advised me to do the same. It was hard for me to take pills, so I went to a doctor in Galt instead. However, his treatment did me no good, so I at last decided to follow my mother's advice. I began taking Dr. Chase's Nerve Food, and gradually found improvement setting better. I soon was able to sleep at night without any difficulty, my appetite came back, and I began to gain back my natural color. After taking about twelve boxes of this medicine I was able to return to my work in Toronto. My friends there all noticed the improvement in my condition, and I am now stronger and healthier than I have been for a long, long time. I shall always recommend Dr. Chase's Nerve Food wherever I go, for I really think it is the best treatment obtainable for worn-out nerves and run-down system."

BRITISH FAIR PLAY.

West Hastings has been faithfully and well represented in Parliament for seventeen years by E. Guss Porter, K.C., and the electors should be justly proud of their representative. For the past six years he has been a member of the Government in charge of Canada's destiny and during that time has worked hard and effectively in the interests of his constituency, having every reason to be proud of his record.

Through no fault of his own, but on account of a severe illness, Mr. Porter was unable to take as active a part in the last session of Parliament as he would have wished, but fortunately he is rapidly recovering his old time vigor.

No fault has been found with Mr. Porter's record as representative of West Hastings and no fault can be found, and it would have been a graceful tribute under all the circumstances to have returned him by acclamation. The people of West Hastings, however, who determined if possible to remove Mr. Porter from public life, and the opposition plainly had its source among a very few, irreconcilable political partizans who could not adjust themselves to the new Canadianism and discard politics until after the war. The purpose of the plot was quite apparent. A Liberal convention was called to "select a candidate", and it is worthy of note that a representative of The Intelligencer was refused the privilege of attending this gathering.

Liberals Satisfied with Mr. Porter.

The convention was an utter failure, only about twenty delegates answering the call out of hundreds eligible and with everything favorable to a large attendance—good weather, and with Belleville the meeting place on a Saturday when the city was filled with farmers attending market. The small attendance showed that the Liberals of West Hastings were not interested in the designs of the promoters, considered that there was no necessity for a meeting because the sitting member, as a strong supporter of Union Government, was the logical candidate and sure to get the endorsation of that Government, composed of Conservative and Liberal leaders.

Hand-Picked.

This did not stop the intrigue, however, and with a candidate previously picked out by the principal irreconcilable anti-Union Government manipulator, a pretence was made of negotiations on behalf of the Liberals of West Hastings with one who had not authorized any such move. Considerable camouflage was resorted to before the candidate previously privately selected was revealed.

The Skeleton at the Feast.

The real skeleton at the feast, however, is the "Bunty-who-pulls-the-strings" animated by the one earnest desire of "Anything to Beat Porter." The same influence would prefer a straight out-and-out Laurierite, but that would be too strong a dose for loyal West Hastings.

As an offset to the Union candidate the Liberal vote from the recognized candidate of the non-partisan Union Government, but loyal Liberals of Liberals, have permitted a partial to a substitute when they can get the original and the attempt is bound to fail.

Strong efforts are also being made to split the Conservative vote and no fair or foul means have been overlooked to accomplish this also, but fair play is bonny play, and while it is inevitable that a member of Parliament could not hope to satisfy everybody and must disgruntled ones, the defection few former supporters is read derstood and taken for what worth by the electors.

Striking Below the Belt.

The fact that no fault could found with the record of the member for West Hastings is well illustrated by the fact that the chief argument used against him is that he was ill during the last session of Parliament. No doubt it interfered with some people's plans that he recovered, but it is the reverse of British fair play to try and take advantage of a sick man—hit him when he's down.

Would be good policy to change horses in the experienced Parliamentary midstream for a novice at this critical time in Canada's history?

Nation Building.

When the war is over Canada will face a mighty reconstruction period in which West Hastings as well as every other constituency in Canada will be vitally interested. A new and better nation we must rise from the ashes and sacrifice of war and it is essential that the builders be skilled and experienced.

Will West Hastings be better served by a man without any parliamentary experience or by one with seventeen years experience?

As a plain business-like, transaction the electors can not do justice to themselves and the constituency otherwise than by marking their ballots for Mr. Porter, who has served them well in the past and has the ability to serve them even better in the future. Mr. Porter is endorsed by the Union Government of Liberals and Conservatives who ask the electors to express their confidence in that government and keep party politics under foot by voting for Mr. Porter.

DON'T SPOIL A SOLDIER'S BALLOT.

Electors who have relatives on the battle front should consider well who their ballots should be marked for. If they vote for Mr. Porter they will be voting with the soldiers overseas who will assuredly mark their ballots for the candidate officially endorsed by the Union Government, and which Gifford will be counted for Mr. Porter, who is endorsed by the Premier of Canada. Surely the folks at home will not load the hearts of their relatives in the firing line by voting for the opposition candidate who has no official endorsation of any kind and is not represented on the soldier ballot.

CRISP COMMENT

The soldiers are going to vote for Porter, and whoever votes against him spoils a soldier's vote.

Who would the opposition candidate represent in Parliament—capital or labor? However, the workingmen need not worry. The danger doesn't exist.

Henry Ford made millions and did not borrow them up on the high cost of living card. Hanna's candidature for parliamentary honors he would have some reason to call himself a self-made man.

Anti-Union methods in Kitchener are but a echo of similar tactics in Quebec, where free speech is denied in the interests of little-Canadianism. Electors can protest against such disgraceful practices by marking their ballots for the officially endorsed candidates of Union Government.

Workingmen are not going to be stampeded into supporting a an imitation labor candidate. The workingman is a good judge of a man and is not partial to imitations, even gold-plated ones.

There is only one candidate endorsed by Premier Borden and Hon. N. W. Rowell, and that is Hon. E. Guss Porter, K.C.

Discerning people are always suspicious of substitutes. In this election they are offered an imitation union candidate, tooled at "just right" Institute, Buffalo, N. Y. But the genuine article is the only one that will satisfy. Then try "Ask-us-no" drives the blues away. Makes you feel like a million dollars. Drink it in your coffee, in Asuris tree times a day.

The Laurierite organ seeks to win votes for the opposition candidate by ridiculing the women of Belleville and insulting Canada's brave soldier boys overseas in a long sneering article in yesterday's issue directed at the women's meeting in the City Hall last night. The sarcasm of the spoutle of Laurierism will not divert the women from their support of Union Government, nor will the insulting references to the deeds of Canadian soldiers deprive our boys' votes to the candidate whose union label is only a base imitation.

Loving a child is key
To Heaven's mystery.
Loving a child, and giving
It knowledge, this is living.
Loving a child brings pain,
And is life's greatest gain.

Loving a child is knowing
The fierce joy of a sowing
That shall cause mighty reaping
Loving a child is weeping,
And fearing, too, and praying;
This, there is no gainsaying.

Loving a child is being

ment and more men will be sent overseas. A mother, wife or sister who has a vote should exercise it, and there is only one thing to do, and that is to support the candidate of the Union Government. Mothers knows what it is to give boys to go overseas, and they will not get them back. The only way to get them back is to support the Union Government. Those who went to fight were for the sake of the home—for the sake of principle made we owe to them. If there is any woman who does not know what to do at the present, find it out. Get on the voters' list at once, and get the instructions how to vote. Do not say that this but speak to all women you meet as to their duty. On election day vote and see to it that your lady neighbor and friends vote. The speaker referred to the necessity there was at the present time to conserve food. We cannot take every luxury away from the girls and boys.

Soldiers Singing "Annie Laurie"

The election was the most important matter which was affecting the people of this country, at present, and it behooved the women voters to see

OUR BOYS IN EUROPE AND HOME PROTECTED

The men on the firing line represent the pick of our country's youth. Many of them are married men with families. Many times the fathers were killed.

If we wish to prevent old age coming on us too soon we want to keep our kidneys in a healthy condition. Dr. Pierce's Medical Institute, Buffalo, N. Y., has a remedy for weak kidneys called Anuric. that their votes were polled in the right direction. Special attention was for the Union Government candidate—four boys in the trenches are not voting "Go! Save Borden King" to fight just Anglo-Canadian.

Miss Jessie Fuhs rendered a patriotic selection which was given in a manner as to merit an encore to which the talented lady responded.

Col. De Hertel

Lieut.-Col. De Hertel, of Perth, was called upon and aroused all present by the brief address he gave. The speaker said their was no doubt that the men were here to help win this war. As a returned soldier, he could say he had done his bit. In France and had seen the condition the boys over there were in. The colonel referred to the fact that he had considerable experience in recruiting and duty in Ontario but in Quebec. Had the latter, Province done as well as they have been conscripting, they have to get the men still. The women of the country had done a noble work in assisting recruiting, and now they had the franchise. It was their duty to support the candidate of the Union Government and that was his friend Mr. Porter (cheers). You know him and what he has done for you. Stick to him.

Sergt-Major Spafford

Sergt-Major Spafford followed with a few words of appreciation. He was pleased to have the privilege of meeting so many of his friends in Belleville. He could truthfully say that the Belleville boys at the front have done credit to themselves and the city they represent. Applause. He made an appeal for the boys in the trenches who are fighting the Huns. The boys at the front have faithfully fulfilled their duties and it was the sacred duty for all to support the Union Government. Always keep with the front ranks, for or against Government. Was very facing a great crisis, and there is no time for party politics, but be determined to win out or we will close all our future graves. The franchise is new to the ladies; and the war will not end if the Union Government is sustained. The fathers and mothers are vitally interested in this matter. In the name of the Empire stand by the Union Government. He would appear to all to do their duty at the present time.

Mr. E. G. Porter, K.C.

Mr. E. G. Porter, K.C., was accorded a hearty reception when he arose to speak, which was fittingly acknowledged. In his opening remarks he said this was a unique meeting. The first public meeting he had called in this campaign was for the ladies, and all were deeply interested in its success. He was always glad to have the audience he asked. He could not come to address in reference to any campaigning in the past. Two years at the front, had never been turned away. He had been successful in getting in every meeting he had called. He felt confident the ladies would cast their votes for him. If he was defeated he would ever be ready to serve a soldier's mother or wife. The ladies who are enjoying the franchise at present time should know what the Union Government means and what stands for. Liberals and Conservatives have joined forces together for the single purpose of winning the war. It is to see that the gallant boys record which they have made shall not be tarnished by politics. Women Stand By Union Government

TORONTO, Nov. 27.—Toronto women—Liberals and Conservatives—went "over the top" together at a monster meeting held in the Royal Alexandra Theatre Sunday night, when the Women's Union Government League fired the first shot in the campaign to arouse the women voters of Toronto to support Union Government.

The meeting endorsed the following pledge, moved by Mrs. G. G. S. Lindsay and seconded by Mrs. Arthur Van Koughnet: "In humble thankfulness for the victories of the week, we women of Toronto pledge ourselves anew to do everything in our power to support our brave men overseas, and to send to them at once the necessary reinforcements."

It was a great mass-meeting of the women of Toronto—mothers, wives, sisters, and sweethearts of Canada's sons overseas. There were many men present, too. The spirit of the meeting was, as Mrs. G. G. S. Lindsay put it, in reading an extract from a letter from a soldier overseas: "For God's sake, conscript, get out and work for conscription—get behind any old party or any old men to get reinforcements."

VOTES FOR WOMEN RELATIVES OF SOLDIERS

OTTAWA, Nov. 27.—The privilege of the franchise in the coming election applies to women living in Canada who have male relatives here, but who are serving with Imperial regiments. Such women are entitled to vote. This ruling was made by the General Returning Officer to-day. He has received numerous queries on the point.

Mr. O'Connor also stated that the report that grandmothers of soldiers are entitled to vote is wholly incorrect.

Victory Bonds for Christmas

WHAT about that boy of yours?

—that girl of yours?

—your wife—your mother?

A gift of Victory Bonds works three ways:

The recipient will appreciate it and be benefited;

You have the pleasure of making a valuable gift;

Also you will render a patriotic service to Canada.

And, are you going to give a bonus to your employees this Christmas?

If you are, why not make it in the form of Victory Bonds, fully or partially paid, as you can afford in each case?

Victory Bonds are a little better than cash and Canada needs the money.

Canada's Victory Loan

$150,000,000 5½% Gold Bonds

offered in three maturities

5 year Bonds due December 1st, 1922
10 year Bonds due December 1st, 1927
20 year Bonds due December 1st, 1937

Interest payable without charge, half yearly, 1st June and 1st December, at any branch in Canada of any Chartered Bank.

Bonds may be registered.

Denominations $50, $100, $500 and $1000.

Issue Price Par

Payment to be made as follows:

10% on December 1st, 1917 — 20% on March 1st, 1918
10% on January 2nd, 1918 — 20% on April 1st, 1918
20% on February 1st, 1918 — 20% on May 1st, 1918

A full half year's interest will be paid on 1st June, 1918.

The Bonds therefore give a net yield to the investor of about:

5.61% on the 20 year Bonds
5.68% on the 10 year Bonds
5.81% on the 5 year Bonds

The proceeds of the Loan will be used for War Purposes only, and will be spent wholly in Canada.

Forms of Application may be obtained from any branch in Canada of any Chartered Bank, or from any Victory Loan Committee, or member thereof.

Kitchener Pulpits Resent Insult in Premier by the Anti-Con-scriptionists

KITCHENER, Nov. 26.—The gross insult to Sir Robert Borden by the or-ganized gang of Laurier and Euler anti-conscriptionists supporters at the Auditorium was referred to in a num-ber of city pulpits Sunday. Rev. C. A. Sykes, B.D., pastor of Trinity Methodist Church, who occupied a seat on the platform, was most em-phatic in his denunciation of the tac-tics adopted by the opponents of the Union Government.

"It demonstrated beyond a doubt that there are those amongst us, in this city, who are not with us in the winning of this war, and I was glad that the Prime Minister was brought face to face with conditions as they have existed since the commencement of the war. It only required an elec-tion to round them up and a meeting like that of Saturday night to give them an opportunity to express them-selves. These are the people that would do for Canada what the Bolshe-vists have done for Russia, and what the traitors have done for Italy. They would call the soldiers back from the trenches and let Great Britain, France and the United States finish the war to save democracy."

REVISE IMMIGRATION REGULATIONS.

Rev. Mr. Sykes expressed the opin-ion that the disturbance and insults to Premier Borden were the direct result of mistakes and blunders made in dealing with the peculiar conditions existing in Waterloo County early in the war. It emphasizes the necessity in the future of severe revision of im-migration regulations, which will pre-vent sections of this Dominion being settled with people that are selfish, mean and small in their conceptions of nation building. The meeting also showed that there was an ugly mood prevailing among the working people, who are possessed of a truthful heart (and it is the unfair advantage that has been taken of war conditions by certain men in accumulating wealth by profiteering and grafting. The trouble has been, he said, that party Government during war times has proved a failure, and not until recent-ly it found absolutely necessary to form a Union Government in order that Canada can do her proper share in helping the allies to win the war. Mr. Sykes strongly urged his congre-gation to drop politics and enter the campaign with the one object in view of upholding the nominee of the Union Government.

WATERLOO'S CONDEMNATION.

Waterloo, Nov. 26.—At Sunday morning's service in St. Saviour's Church here, before the usual singing of the National Anthem, the Rector, Rev. P. N. Harding, announced that in view of the disgraceful proceedings in the Auditorium in Kitchener Sat-urday night, when the Premier of the Dominion was grossly insulted and re-fused a hearing by the organized band of disturbers, the second verse of the National Anthem should be restored, and it was accordingly sung with en-ergy:

Oh, Lord our God, arise,
Scatter our enemies,
And make them fall.
Confound their politics,
Frustrate their knavish tricks,
On Thee our hopes are fixed,
God Save the King.

BRITISH MOUNTED TROOPS NEAR JERUSALEM

LONDON, Nov. 27.—British cavalry have captured Bittir Station, about six miles southwest, and Ain Karim, three miles and a half miles west of Jeru-salem, according to a British official communication.

The text of the communication reads: "Our mounted troops have cap-tured bitter Station and Ain Karim, three and a half miles west of Jerusa-lem. Strong bodies of Turks are hold-ing the high ground west of Jerusa-lem and covering the Jerusalem-She-chem road to the north."

Deputy Minister of the Interior.

"Have you a sweetheart?" asked Hulda. "Yes," answered Gaal, "but is fair-ness that should know. With mine own ears I heard it wanton tell while he stood, mute, dangling upright by cord of dead, that out of love for her lether had sacrificed unto the Babylonish goddess Ishtar. He hath renounced the god of Judea."

Hulda read the rest shrank back with horror. Only Jesse remained un-moved, his face still covered, his body bent as a sickle.

"Speak! Do I die?" demanded Has-gal.

Father slowly struggled to his feet, held him and said humbly, "Thou hast not died, Hasgal."

"Then look into mine eyes," cried Hasgal roughly. "Think then not stand before the very altar of the heathen and say it thing so terrible that no man dare repeat it."

Father nodded. "Again then speak-ing truth, Hasgal, and in the name where-in which followed," he added, speaking loudly and with awe of the Almighty, "in the last storm I saw the face of God and too for something that spoke deep in my heart and made me fire and sulf-fur and stone I should have perished there."

Gaal interrupted with a triumphant cry.

"Ah, now ye know my brother as he is—an Idolater, a blasphemer, accursed. Who will now hold a hand to such a one and face God's wrath?"

Huldah, with a piteous cry, clutched father's arm and raised his head to see.

"Then hast done that thing?" she cried, sobbing, and covered her face with her cloak. Father laid out his arms to her beseechingly.

"Mother," he cried, "dear thou also dearest me? Now, when peace had just come to me, thou leavest me?"

Huldah looked at him with supreme mother love, grasped his hand and made room at his side, but while he strove to comfort her.

Gaal sought to bring the unhappy maiden to end as near as he could.

"Into the hands, all of ye, shall Jesse, too, stranger, if thou will be on point," he directed.

Hasgal slung his leaphlen water bot-tle over his shoulder and grasped his staff. "Out of a house accursed," he said gruffly and strode off down the road. He succeeded, as he meant to obey the voice of Gaal, as Jether softly caressed his mother, when suddenly the hitherto stolid figure of Jesse moved. With an imperious gesture he dropped the man-tle from his face. With a kindly and forgiving smile upon his countenance, as though inspired from heaven, the aged patriarch turned.

"Hasgal," he cried in a great voice as though speaking to the ages. "Let no one stir. I hear—I hear."

He paused, as if listening to a dis-tant voice from the angels.

"I hear the message," he cried joy-fully. "Hasgal is come home with me."

He went to Jether and looked at him kindly, as all present showed their as-tonishment except Gaal, who stood aloof.

"My son," continued the patriarch, "thou hast sinned greatly, and thou hast suffered greatly. But if thou hast known God's wrath, it shall also be thy friend peace, on man on earth shall be more full than thee. It is thy greater portion. Thou hast since mine eyes first I may see it."

Jether gazed into those kindly eyes and sobbed as he fell into his father's protecting and affectionate embrace.

"Father! God. ex."

"Thou shalt come into my house again, Jether, shalt there regain thy strength, and there thou shalt abide with us."

"I shall again abide with thee?" re-peated Jether, dazed and yet happy.

"Then shalt not leave home again. Thou shalt be given part of my pos-sessions, as a token of thanksgiving for the atonement. Thy curse hath passed from thee."

"At last—oh, my father, thy words put new strength into me."

Call all the neighbors," continued Jesse, raising his voice and directing servants to summon them from every side. "In the house of Jesse shall be rejoicing. In a world of famine here is abundance. In a world of sor-row—the best by river fountains. Hi-ther shall my guests and do me honor, for while we others into

walked the road our fathers have walked he has gone out and traveled where we have not been, and returned to us. Spread a great feast where all are welcome. Divide the season's store with the needy. He who was dead is now found. He who was dead is now mighty among the living."

Gaal strode to him fiercely as the faithful Eleiah brought Jether a bea-tiful suit of white and led the way to his antechoom.

"Art thou mad?" cried Gaal. "This man is a beggar polished for his sins. Callest thyself just? What sort of justice is this for me, who have never sinned against, nay cry-ed. Yet for me have been starved. My friends there hast not once invited to a feast, not once in all these years."

Jesse frowned to him and smiled be-nignantly.

"Thou hast not gone forth into the world and yet come back, Gaal. Nor couldst thou comprehend the justice of compassion. In my arms my son rests again. No unkind word shall resent my son. Yet, Gaal, I say unto that thou wouldst rejoice with me on his return and forgive thy brother as I have forgiven him."

Gaal turned away angrily. Huldah came to him, placed her hand affec-tionately on his shoulder and pleaded:

"Our son is with us once more, Gaal; our brother, thy younger brother. Will thou not join with us in welcoming home the wanderer?"

Gaal modestly refused to answer. Jether spoke.

"Gaal," he whispered, "my brother"—

The stern and hard heart of the elder brother relented. Perhaps he felt that he, too, had been justly to blame for the misunderstandings of the past. He hesitated, and the gentle voice of his mother and the plight of the boy Je-ther moved him. He turned, paused, and in a moment he and Jether were embracing.

"Jether!" he cried.

"Gaal," answered the boy gladly.

And when the brothers clasped each other and Huldah and Jesse embraced for the sake of their two children the servants silently gave way before them. The gentle Naomi rushed to Jether's side, and, arm in arm, the two brothers, the sweet-natured and old aged patriarch and his wife turned in-silentiary once more to re-enter the house of their ancestors, there fitting to celebrate the evening meal and pre-pare the feast of thanksgiving for the return of the prodigal.

And in the entering twilight, stand-ing upon the threshold across which he had never expected to step again, Jether paused, looked lovingly at his little group about him and said grough-ly, happily, wonderfully:

"My father's house!"

Rogers Feels It His Duty To Speak

Wants Others To Know What Tanlac Will Do—Gains Eleven Pounds

"I have gained eleven pounds by taking Tanlac and nearly everybody I see has something to say about the difference in my looks," said H. Rogers of 218 Belmont avenue, Hamilton. Mr. Rogers has lived in Hamilton nearly all his life and for the past thirty years has been employed by F. W. Fearman, Ltd., packers.

"I don't know," he continued, "when ever I felt as well as I do now, but, before I began taking Tanlac my stomach was so out of order that it couldn't eat anything without suffering afterwards. I lost weight until I was almost a skeleton and got so nervous, weak and run-down I could hardly do my work. I had such horrible dreams at night I would often wake up scared. My sleep didn't rest me and I had that tired, no account feeling all the time. I had been in this fix for two or three years and with all the medicine I took I just kept losing out all the time.

"A medicine to do anyone the good Tanlac has done me is too short a time in bound to be something unusual. Why, I know of several people taking it just from seeing what it has done for me. My appetite is so big I can hardly eat enough to satisfy me and I haven't had the slightest touch of indigestion since I began on Tanlac. My nerves have quieted down so I can sleep good every night and my strength has increased until I can do twice as much work as I could before. My drowsy, tired feelings are gone and I have new life and energy instead. Tanlac has helped me when everything else failed and I feel that I would be guilty of a mighty small thing dot to tell others who are trying to get relief about it."

Tanlac is sold in Belleville by Ostrom's Drug Store, in Trenton by J. H. Dickey, in Deseronto by W. J. Malley, in Stirling by J. S. Morton, in Frankford by W. H. Lattimer, in Madoc by J. Will Vince, in Marysville by T. J. McAlpine and in Ormsby by Jas. Campbell.

SLIGHT BLAZE AT GARAGE.

At a few minutes before six o'clock last evening the fire brigade was called to Simmons garage at the corner of Front and Bridge street. Whilst making some repairs to a car in the repair shop gasoline became ignited, but the blaze was extinguished before any particular damage was done.

TELEPHONE WIRE DOWN.

The police last night were notified that the Bell Telephone wire was laying across Chatham street and was somewhat dangerous to the travelling public.

MOTHER OF NINE CHILDREN

Able to do Housework by taking Lydia E. Pinkham's Vegetable Compound

Springfield, Mass.—"After the birth of my ninth baby I was in a weak, run down condition, had pains in my left side, so I would faint at times. My doctor advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and gained in health. I can now do all my own house work and I hope you may publish this my experience with your Compound for the benefit of other mothers."—MRS. HARRY BOURNE BEDARD, 558 Main Street, Springfield, Mass.

Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills because it contains the tonic, strengthening properties of good old fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, curative influence.

If you want special advice write Lydia E. Pinkham Medicine Co. (Confidential), Lynn, Mass. Your letter will be opened, read, and answered by women only.

TWO FINGERS BLOWN OFF.

Mr. Peter Thompson, a young man residing at Rossmore, Prince Edward County was yesterday the victim of a painful accident. He was endeavoring to extract the contents of a loaded gun which had become jammed when, it exploded with the result that two fingers of his right hand were blown off and the hand badly lacerated. The victim was brought to the Belleville hospital where his injuries were attended to after which he was taken home. Thompson is well known in Belleville, having been for some time a clerk in the Anglo-American hotel previous to the enactment of the Ontario Temperance Act.

Y.M.C.A. Concert Very Pleasing

Large Audience Delighted With Concert Co. Selected For Second Star Course Entertainment

A large audience graced the second concert in the Y.M.C.A. Star Course last evening and the program was very enjoyable. Mr. Hartwell DeMille has a powerful and pleasing baritone voice which was heard to advantage in a wide range of solos. Miss Rachelle Copeland is a clever violinist and played many difficult selections from the old masters with splendid interpretation and expression. Miss Valborg Jolliett Kinghorn, the pianist, was very talented and pleasing in accompaniments, solos and duos. The various numbers in the program elicited hearty applause and repeated encores were insisted upon.

The program was as follows:

26,000 Exemptions In Toronto Dist.

TORONTO, Nov. 28.—There have been 26,113 exemptions granted by exemption tribunals in Toronto Military district; up to November 23. These are the figures handed out today by Glyn Osler, registrar. The figures reveal the fact that two-thirds of the exemption claims heard have been allowed.

Appeals total 5,830, so it would seem that every man refused exemption is appealing. Yesterday was a record day for appeals filed. The mails brought in 688 and over 300 came in this morning.

N. S. EXEMPTION FIGURES

Halifax, Nov. 28.—The exemption tribunals of this district yesterday disposed of 1,367 claims for exemption, of which 1,019 were allowed and 342 refused. The totals for the district to-day are 8,041 claims disposed of, 5,910 being allowed and 828 refused.

NAPANEE WOMEN FOR UNION GOVERNMENT

NAPANEE, Nov. 28.—A well attended meeting of representative women, citizens of Napanee, was held in the Town Hall, and after enthusiastic and harmonious discussion participated in by women of both sides of politics, it was resolved to support the "Unionist Government and without movement." An association was formed to be known as the Women's Union Government League, and the following officers were elected: President, Mrs. John W. Robertson; Vice-President, Mrs. J. R. Dafoe; Secretary, Mrs Henry Creighton; Assistant Secretary, Mrs. W. Powell. Conveners were elected and committees chosen to canvass the town in the interests of the Unionist Government.

SUNKEN STEAMER SOLD

CLEVELAND, O., Nov. 28.—Underwriters have sold the steamer Owen Sound, S. Price, which was lost in Lake Huron in the great storm of November 9-11, 1113, to Canadian parties for $15,000. The Price, which was owned by M. A. Mann and Co., is on the bottom about eleven miles above Port Huron. For nearly a week after foundering she lay bottom up in Lake Huron, with her stern submerged and her bow above the surface. The name "mystery ship" was applied to the wreck, due to the fact that the identity of the ship could not be learned until a diver had examined it. Several efforts have been made to recover the vessel. Captain Canning, wrecking master, who made the latest attempt in 1916, reported that the steamer's machinery had dropped out and that the hull, apparently rotten, gave in the collision, was too badly damaged to justify the effort to raise the wreck.

THE ONLY WAY TO SUPPORT UNION GOVERNMENT

IS BY VOTING FOR CANDIDATES ENDORSED BY PREMIER

When the Electors go to the Polls they will have to take one of two courses—they must either support the Union Government by marking their ballots for the Candidates Endorsed by the Government, or aid the forces of Laurier by marking their ballots for Candidates opposed to the endorsed candidates of the Government. There is no third course when it comes to marking the ballot; there is no such thing as an independent Unionist or independent Liberal. All Candidates are either the accredited representatives of the Union Government or opponents to that Government. It is for the people to say by their votes whether they favor a Union Government or the policy of Laurier.

BELGIAN ARMY IS NOW TEN DIVISIONS STRONG

Ready When Needed to Take Part in the Offensive—The Great Part Taken by Gallant Little Army in the War's Early Days

HAVRE, Nov. 29—Ten divisions strong, the Belgian army is ready to take its part in the offensive in Flanders whenever the word is given. The Belgian Minister of War today told the Associated Press that the Belgian army was composed of 117,000 men at the beginning of the war, increased by 50,000 volunteers in August, 1914, and reduced to 80,000 men after the battle of the Yser. To-day, he said, the ranks are filled by Belgian refugees and the enlistment of volunteers, who have leaped the five wire barriers on the Spanish frontier, to form a force brought up to ten divisions of well-trained troops.

"If our army has not undertaken operations of a wider scope up to this time," said the Minister, "it is because it does not devolve on it to decide the moment when these operations should begin. The army is only a part of the combined Allied forces acting in unison, and in accordance with carefully developed plans. The army has valiantly filled the role, more ungrateful than glorious, that has been assigned to it. It has just proved by its brilliant participation in the last offensive in Flanders that it is ready to strike with fervor and awaits impatiently the hour."

Summarizing the work of the Belgian army during the war, and referring to its difficulties and lack of equipment, the minister recalled that in August, 1914, the army had only one machine gun for each 1,000 men, only three field-guns per 400 men, with ammunition for only about 800 shots for each piece. It had no light mortars, no pontoon crews, not a single motor cycle, no trench equipment, no ambulances, no airplanes, and a few posts of wireless telegraphy.

"In August, 1917," said the Minister, "the Belgian army had twelve times as many machine guns as in 1914, seven times as many field guns and heavy pieces, with five times as much ammunition as was on hand at the outset of hostilities."

The Government has just approved that the Belgian army was reorganized and re-equipped entirely by our Allies in an error. Belgium, exiled and deprived of all her resources, received generous hospitality and powerful aid from her glorious Allies. It was on French and British soil that all was to be done, but Belgians themselves took up the work of reconstruction. The Belgian army created by its own efforts the greater part of what was indispensable for it to live and fight. It is building its own cannon, making its own powder and its own projectiles."

Two German marines were sentenced in Norway to seven months' imprisonment for espionage, but the State Attorney, finding the sentence too lenient, has appealed to the Supreme Court.

A Pledge to the Farmer

The attempt is being made to cripple Canada's war effort by creating disaffection among the farmers of Ontario. The malcontents have been urging the farmers to vote against Union Government on the ground that the enforcement of Military Service Act will strip the farms of the labor without which agricultural operations cannot be carried on. Some of them go further, and boldly declare that the Military Service Act must be repealed, for if under its provisions men are taken from the cities and towns the farmers and other agricultural workers, lured by the high wages paid in the centres of industry, will leave the farms of the province unfilled.

In the answer of General Hughes, Minister of Militia, to all this is so clear and so complete that no one can any longer pretend that the farms of the province are to be stripped of necessary workers. He says:—

"Farmers' sons who are honestly engaged in the production of food will be exempt from military service, and if I continue to be Minister of Militia I will give you my word that if any farmers' sons who are honestly engaged in farm work and in the production of foodstuffs—if they are not exempted by the tribunals and are called up for military service—I will have them honorably discharged from the Canadian Expeditionary Force, provided they go back to the farm, because it is very important that we should increase our production of foodstuffs."

The Intelligencer desires to bring this statement to the attention of the thousands of farmers who read its columns daily, and to ask that they pass on the pledge of General Mewburn to their neighbors who have not heard of it. The world needs food as urgently as it needs munitions, and the province of Ontario must do its part in the production of both, as well as in maintaining the Canadian troops on the front at full strength. To the end there may be need of conscription for farm service as for service in the trenches. For the time General Mewburn's announcement should be sufficient to convince the farmers of the province that they are not being discriminated against, and that the Military Service Act will not be used to strip the farms of necessary labor.

The people of rural Ontario are no less patriotic than those of the cities and towns, and it may be taken for granted that exemption will be sought only for men of the class actually engaged in the production of foodstuffs. All other fit men are badly needed at the front, and no true Canadian patriot will seek to keep them from answering their country's call.

UNION GOV'T PROSPECTS BRIGHT EVERYWHERE

Except in Quebec Where Laurier Faction Headlines Prevent any Public Discussion of National Questions—Returned Soldiers Resent Disloyal Actions and Trouble May Ensue

OTTAWA, Nov. 29.—The reports from the West continue to be optimistic as to the outlook for Union Government. If Union Government is defeated it will be through no fault of the West; the fault will lie with Ontario. If Ontario can offset Laurier's solid Quebec the West will give Union a fine working majority. After the disgraceful exhibition of Saturday in Kitchener, which showed the character of the backing behind Sir Wilfrid Laurier, there should be no doubt of the attitude of Ontario. If Ontario thoroughly appreciated the same campaign of terrorism which is being pursued in Quebec, where free speech is a thing of the past, there is not a Laurier candidate in Ontario who would save his deposit.

Ontario might well emulate the spirit of hardihood in the Union ranks in Western Canada. In the whole of the West there are only two seats where there are two Unionists in the field. Ontario has at least a half dozen ridings, which may be handed over to Laurier as a result of the inability to reach an agreement on candidates. They include such counties as Essex, Lanark, Hamilton, West, North Wellington and Brant.

Great Union Campaign

Manitoba is carrying on a tremendous Union campaign. A hundred meetings a night are being held by the leading orators of the Province. All the members of the Manitoba Government are out on the stump, Hon. A. K. Hudson is assisting Hon. T. A. Crerar in Marquette. Mr. Hike Isaac Campbell, K.C., Isaac Pitblado, K.C., Hon. Dr. Bland, Prof. Osborne and J. T. Haig are on the hustings for Union. As a result of the campaign which is being waged the Unionists are confident of carrying at least thirteen out of the fifteen seats in the Province.

Mr. Bradbury Sizes it up.

Mr. George H. Bradbury, the old member for Selkirk, who retired owing to ill-health, who has been assisting in the Manitoba campaign, has arrived in Ottawa and doubts whether Laurier will carry more than one seat. Provencher, which is largely French and foreign is generally conceded to Dr. Molloy, the Laurier candidate, although he has a strong Union opponent in Rev. W. Amos, formerly pastor of the Union Church in Morris. North Winnipeg is also admitted to be a hard seat. It is a Labor riding with a large Jewish and foreign element. There is a Laurier Labor candidate in R. A. Riggs, the Social-Democrat member of the Local Legislature. The Unionist candidate is Dr. Blake, a popular north-end physician. The only other seat which is regarded as fighting ground is Springfield, which contains the French town of St. Boniface. Mr. R. L. Richardson, the aggressive editor of The Winnipeg Tribune, is the Union candidate and Mr. Bradbury reports he will be elected.

In Saskatchewan.

Hon. J. A. Calder maintained his reputation as an organizer and a politician by delivering to Union Government five seats by acclamation. There are several other ridings where Unionists had two candidates with no Laurierite in the field. There are only four seats where Laurier is bought to have a chance. Two of them are the two Batlefords, where here are two Unionists as well as a Laurier candidate in the field. Prince Albert has a large French and Swedish vote which might make the seat doubtful.

Alberta reports are to the effect that Hon. Chas. Cross has "money to burn" and he is burning it freely in an effort to make a showing in that Province. Hon. Frank Oliver is regarded as sure of defeat in West Edmonton, while his opponent is Edmonton's popular soldier hero, General Griesbach.

Will Beat Oliver.

A report I have received from Edmonton says: "Oliver will be beaten and Cross is secretly shaking in his boots to can to that end." The same report says that Dr. Clark will win by a tremendous majority as well as will Mr. A. W. Buchanan. Hon. Arthur Sifton, in Medicine Hat, my informant reports is having a hard time. Reports from British Columbia are very conflicting, but with the soldiers and women's vote it is looked upon as giving Union almost a sweep.

BELLEVILLE POST OFFICE

To Mr. Porter's Efforts Were Due the Change to City Status With Improved Service For the People—Opposition Statements Refuted

The opposition candidate would like to have the electors believe that all the good things which have come to West Hastings from government sources have come by chance, despite Mr. Porter's active and constant work on behalf of his constituents which has been so successful. It is said that Mr. Graham made a statement yesterday at the Woman's meeting that Mr. Porter had nothing to do with the raising to city status of the Belleville Post Office with all the resultant advantages of better service and house-to-house delivery of mail; that the change was the result of revenue and Mr. Porter was entitled to no credit for it.

The facts are that Mr. Porter had everything to do with the desired change. The Belleville Post Office was reduced to the status of a country office by the Laurier Government in order to dismiss the late John Taylor to make a place for D. Leavens.

When the Laurier Government went out and the Conservative Government came into power, Mr. Porter had Belleville Post Office changed back to a city office where it is now after having vainly tried to accomplish this during the Laurier regime.

The opposition is very short of argument hence resorts to statements false and misleading.

GREAT WELCOME TO PREMIER AT SIMCOE

SIMCOE, Ont., Nov. 29.—Escorted by a body guard of returned soldiers, Sir Robert Borden, who was accompanied by Hon. N. W. Rowell and Hon. Wm. Charlton, the former Liberal speaker in the Legislature and present Unionist candidate for North-ea was greeted when he entered the armories by over 2,000 men and women, rising to their feet and cheering. Many were turned away. The chair was occupied by Thomas Agar. The Ministerial Association of the town were present in a body to support the Union Government and Rev. W. J. Dey offered up a prayer for the Empire, for the Allies and that the purpose of the Premier to sustain Canada's army might be upheld by the people.

"If there ever was a day when Canadians should be united in a common cause that day is now. Canada shall not die, that time is now," declared Hon. Wm. Charlton. "We all hoped that the best might prevail, but it might not unless we supported those struggling for us in the smoke of battle."

Hon. N. W. Rowell's reception was in 1904, he said. When Sir Wilfrid Laurier had amended the Militia Act, which recognized the principle of conscription, he said, the law was passed.

BOLSHEVIKI LEADER THREATENS REPUDIATION

(Special to The Intelligencer)

LONDON, Nov. 29.— Despatches from Petrograd says that the Maximalist troops have seized the Russian State bank there. The last doubtful troops of the Petrograd garrison have joined the Maximilists. A renewal of street fighting is reported. Vast numbers of Russian troops are deserting the various fronts and returning home. The despatches add that Lenine, the Bolshevik leader, today openly threatened to declare Russia's obligations and debts to other nations invalid unless these nations accepted the Bolshevik proposals for a general armistice of all belligerents.

THIS IS A WOMAN'S WAR

BALTIMORE, Nov. 29.—Dr. Anna Howard Shaw, chairman of the woman's committee of the National Council of Defense, at a mass meeting of Maryland mothers termed the war "a woman's war, because it is to Germany." She declared the greatest proof of patriotism in woman was the fact that they gave their sons for war.

Will Confer On Armistice Sunday

(Special to The Intelligencer)

PETROGRAD, Nov. 29—Germany's commander-in-chief have consented to negotiate an armistice with Russia over the entire front. Plenipotentiaries from both sides will confer next Sunday.

Huns Weaken On Italian Front

(Special to The Intelligencer)

ROME, Nov. 29.—A despatch from the Italian army headquarters today says that while the Austro-Germans continue their attempts to break the Italian lines along the Piave, the strength and vitality of their initial attacks are disappeared. The enemy's lines of communication to the north and east are becoming interrupted by heavy snow falls."

Brazil Will Use German Ships

(Special to The Intelligencer)

RIO, JANEIRO, Nov. 28.—The Brazilian Government has decided to use the former German ships held in Brazilian ports in carrying provisions to the Allied countries.

LONDON, Nov. 29.—The Italians have refused a request from the Austrians for an armistice in order that they might bury their numerous dead, owing to boasts of the enemy.

ITALIAN CRISIS PAST, CREDIT DUE ITALIANS

General Maurice, Director of Operations at London Says Italians Alone Have Saved the Situation—Lull in Palestine Fighting While Big Guns are Being Brought Up

LONDON, Nov. 29.—"The Italian crisis is passed," declared General F. B. Maurice, director of operations, in his weekly interview with the United Press. "The credit is due to Italians alone."

General Maurice said there had been no important movement of German troops from the Russian front. Greece

"Our troops are now in sight of Jerusalem," said General Maurice, "but the Turks have had time to get up reserves and make a stand, and it is probable that Jerusalem will not fall without another definite battle.

"The making of the recent lull on the Palestine front is that we must get up fresh troops, guns, supplies and munitions for that battle."

Children Perish Parents At Lecture

CALGARY, Nov., 29.—While their parents were absent in Innisfail last night attending a Chautauqua lecture, five children of Mr. and Mrs. George Oaks were burned to death when the farmhouse, four miles south of the town, was destroyed.

A sixth child was so severely burned that her recovery is doubtful. The dead children range in ages from fifteen months to thirteen years.

Rival Union Candidates

Ottawa Journal-Press

In some constituencies in Canada, two win-the-war candidates are in the field against a Laurierite. In all such cases, one of the two win-the-war men has been designated by the Prime Minister as the representative candidate of the Union Government. The other of the two should retire. To continue in the field under the circumstances is to play the part officially of the pro-Germans as well as Laurierites. Let none of us make a mistake about this. The result of the general elections may turn upon a few constituencies one way or the other; and a few constituencies might be lost to the Union-ist cause in Canada, and thus the general election by contests in which two win-the-war men were fighting each other in the presence of a Laurierite nominee. No patriotic Canadian has a right to ask his country to take such a risk, no matter how strong he or his friends may believe his claim to be for political preference. This is not the time for any man to fight for his own hand, at the risk of Canada's honor, even if he thinks injustice is being done him by somebody.

In Carleton County, for instance, two Unionist candidates, Messrs. Boyce and Bower Henry are in the field. Both are Conservatives. Mr. Boyce received a nomination from a Conservative convention. The Premier has designated Mr. Boyce as the Government candidate. Mr. Henry's friends think Mr. Boyce a "machine candidate," and want Mr. Henry to stay in the field. But if Mr. Henry is the patriotic Canadian we take him to be, he will prefer Mr. Boyce as either is entitled to the chance of electing a Laurierite in Carleton, and so possibly helping to place Laurierites and pro-Germans in power in the Dominion, and destroying our war effort. Mr. Henry is not even obliged to make a difficult choice in this matter, he has done the only thing he really was warrant to do, and the decision ought to be accepted by all Unionists. It is the only safe way for the Union cause. This Parliament will last only until the close of the war, probably not two years, and after that there will be less reason for any one to give way in political candidature to anybody else unless he likes.

Similar considerations apply in some other constituencies in Eastern Canada. It is to be hoped that the patriotism of Unionists will rise above personal feelings everywhere. This is a time when decent Canadians ought to be willing to make sacrifices—any kind of sacrifices, even fair personal claims—for the great cause of their country.

East Hastings Situation

The Intelligencer has not deviated from the stand taken prior to election that members of the last Parliament who supported the Military Service Act should be returned by acclamation whether Liberal or Conservative. In July or August district this matter was pressed to include three Conservative members, but it would have made no difference to The Intelligencer if they had been three Liberals if they were supporters of the Union Government and endorsed by the Government as official candidates. In fact several constituencies formerly strongly Conservative were given Liberal candidates, notably Ontario where Hon. N. W. Rowell who without a seat, was actually nominated by Liberals and Conservatives and is opposed only by a Laurier candidate.

The Intelligencer has considered W. B. Northrup, K.C., as the logical candidate in East Hastings, he having represented that constituency very capably for a number of years, and having supported the Military Service Act and Union Government. It is unfortunate misunderstanding arose which resulted in Mr. Northrup, withdrawing his name from the nomination meeting and Mr. Thompson being selected as the candidate. Following this the Intelligencer endorsed Mr. Thompson, as its official candidate in East Hastings.

With a Laurier candidate in the field in East Hastings, The Intelligencer is of the opinion that disaster would be courted by a contest between two Conservatives and in the event of the Laurierite candidate being elected his election would only be secured by a split in the vote and consequently voters who had not voted for the official Government candidate will actually would have voted the Laurierite into office.

The situation is too serious and there is too much at stake to take any chances. The Government asks all loyal citizens to support officially endorsed candidates and The Intelligencer can do no less than support in its entirety the Government's policy and execute the war to a successful finish.

The Union Government has selected Mr. Thompson, as its standard bearer in East Hastings. Mr. Northrup was the choice of The Intelligencer and we would be only too happy to support him had he the endorsation of the Union Government.

If there is any way out of the mix-up in East Hastings without sacrificing the constituency needlessly to the enemy, and carrying full justice to all concerned The Intelligencer will be only too happy to lend its aid.

We have only the kindest feelings for both Mr. Thompson and Mr. Northrup, but we must support both for Parliament and be consistent with present and past pronouncements. If these feelings and their friends and the Government can come to an amicable arrangement which will settle the difficulty, The Intelligencer will be more than pleased, for a house divided against itself cannot stand.

ASSISTING UNIONIST CANDIDATE

Col. W. N. Ponton will address a meeting in Lennox and Addington constituency to-night on behalf of the Unionist candidate.

DEATH OF A VETERAN.

Mr. Wm. McFarlane, a well known veteran of Tyendinaga township, died suddenly near Melrose, died this morning. Deceased was 80 years of age.

PAID HIS FINE.

James Westley, a stranger in the city, was this morning before Police Magistrate Masson, charged with being intoxicated. He pleaded guilty and a fine of $10 and costs was imposed which were paid.

HUNTER DROWNED.

KINGSTON, Nov. 29.— William Knapp, aged forty-three, was drowned at Mud Bay, near Tichborne, and a companion, Daniel McEwen, was pulled from the water in a partly exhausted condition, when they broke through the ice while on a hunting trip.

REPRESENTATIVE GATHERING

Mr. Porter's committee rooms on Front Street were last evening filled with his supporters, who are actively engaged in the work of organization. Every Ward in the city will well be represented, and the reports received were of a most encouraging nature. The committee rooms are open all day and evening, and persons are in attendance to impart desired information.

NOT ENTHUSIASTIC

The meeting of women called yesterday in the interests of the opposition candidate, had a small attendance to begin with, compared to Mr. Porter's rousing meeting of women electors the previous evening, and before it ended it is said that not more than a dozen remained in the hall.

SEVERELY INJURED

Samuel Clarke, the driver of the auto bus which at Trenton yesterday collided with a C.N.R. train causing the death of a lady, is at the hospital in this city. While he escaped, a fracture of limbs he was severely injured and he is by no means out of danger.

DELINQUENTS ROUNDED UP.

A party of ten delinquents arrived in Kingston yesterday afternoon from Ottawa under guard and were immediately taken to the artillery park barracks, where they will be put in to uniform and into the drill compound. The local authorities have taken charge of a number, who have failed to report and they will be sent into quarters as rapidly as possible.

RELIGIOUS REVIVAL CAMPAIGN

Adjt. N. Richard Trickey, musical revivalist of Montreal, opened his several campaign at the S. A. Hall, Pleasant Street on Tuesday evening. The crowd present thoroughly enjoyed the opening meeting, the new songs caught on and after the Bible address nine came to the front seeking a higher life. Capt. Porter, of Toronto, assisted. Last night the hall on Station street was crowded and four more young people were the penitents. Tonight at the latest speech on "A Queer Catch"; Friday, "Little Things"; and on Saturday, "Rumdom and Bundom." There will be special vocal and instrumental solos, duets and quartettes At the last place there were Sydney Mines C. B. Trenton and Odessa there were enormous crowds and 160 penitents. The service tonight at 8 promises to be very interesting.

WEDDING BELLS

KETCHESON—MAYO

At 10 o'clock this morning at the home of Mr. and Mrs. Benjamin Mayo, 393 Bleecker Avenue, in this city, an interesting event took place, namely the marriage of their youngest daughter, Miss Gladys Helen, to Lieut. David Vanderwater Ketcheson, second son of Mayor and Mrs. Ketcheson of Belleville. The wedding was of a quiet nature, only the immediate relatives of the young couple being in attendance. Rev. S. C. Moore, B.A., B.D., pastor of the Tabernacle Methodist church, officiated. The couple were unattended, but little Miss Dorothy Mayo, a niece of the bride, acted as flower maiden. The bride was tastefully decorated for the occasion. After the ceremony those present were handsomely entertained to a wedding repast. Lieut. Ketcheson and wife left at noon for a wedding trip to Montreal and New York, after which they will return to this city, where they will reside. Both are well known and deservedly popular in this city, and their host of friends will join with The Intelligencer in wishing for them many years of happiness and prosperity.

Plain Speaking On Election Issues

Enthusiastic Campaign in Lenox and Addington for Union Govt. Candidate

The old town of Eath, in the adjoining Riding of Lenox and Addington, had one of the liveliest political meetings Wednesday night, the 28th, held there in many years. The meeting was called on behalf of W. J. Paul, the Union Government candidate, and was addressed by Mr. Paul, Mrs. Powell of Napanee, and W. C. Mikel, K.C. The Rev. Mr. McTear occupied the chair, and A. C. Rattan addressed the meeting on behalf of Mr. Grange, the Laurier candidate. Mr. Paul said there were two processions going through the constituency one supporting the Union Government, the other Laurier. The electors will have to decide which procession they will join. If you mark your ballot for him you join the Union Government procession. If you mark your ballot for Mr. Grange you join the Laurier procession, because Mr. Grange says he is running at the solicitation of Laurier and his Laurier's election. If the Union Government procession you find the leading men of all parties. In the Laurier procession you find the thugs and would-be murderers of Montreal, the disturbers of meetings in Quebec and Kitchener, those who hate Great Britain, Bourassa and others. Each elector must decide where he belongs.

Mr. Mikel said it would have brought joy to the heart of the Kaiser if he had heard Mr. A. C. Rattan's address. It represented the Bolshevik, the spirit now rampant in Russia, Canada and elsewhere.

Scoffing in the audience asked if this was the Dominion Government.

Mr. Mikel pointed out that the prosecution of persons who committed crimes is in the hands of the provincial authorities, and the provincial authorities in Quebec could have been warm friends of Bourassa because they did not lift their hands to punish him. In Ontario the Ontario Government prosecuted persons who utter sedition or commit treason.

He quoted from a letter of Mr. Grange, in which he declared that, in which he said no one was willing to be the Laurier candidate in the Riding but himself or he would have dropped out. Mr. Mikel said he was glad to know that in the loyal old Riding of Lennox and Addington there was no one who would be the Laurier candidate, and an outside had to be secured. There are things in the career of Sir Wilfrid Laurier that make it extremely undesirable that he should be the head of the Government at this particular time. Quebec's attitude in the war is well known. Laurier had always deferred to Quebec; the temperance referendum, his opposition to the Boer War, of Louis Riel who twice raised a rebellion, his opposition to sending troops to South Africa, his support of bilingualism. There is no instance of any importance where Laurier did not follow Quebec. Laurier has addressed only eight recruiting meetings in Quebec province in nearly four years of war, and yet he wants the voluntary system to continue. Why? Because it has the effect of letting Quebec men stay at home while the men of other provinces go and fight their battles. The man who supports Laurier forces the loyal men of Canada to go to war while Quebec men can stay at home, or on the other hand forces Canada to quit.

The meeting broke up with cheers for the King and for the Union Government candidate.

Laurier Posters Avoid The Issue

OTTAWA, Nov. 29.—The Laurier organization is planning "to cover" the country with posters for the last two and a half weeks of the campaign. They are ready, and will be issued December 1st. The posters deal entirely with the cost of food profiteering and extravagance, and do not touch the one big issue of the election, the enforcement of our troops at the front and conscription. The most striking poster which it is proposed to issue is one showing John Bull pointing a finger of scorn at Sir Robert Borden, who is hanging his head in shame. John Bull is accusing him of having allowed profiteering. This is a poster, it is understood, which was prepared in 1915 when the Liberals imagined the Government was preparing to spring an election. John Bull was represented as pointing a finger of scorn at Sir Robert for having brought on a wartime election, this wording had to be changed.

Another poster shows Sir Robert Borden, Sir Thomas White and Hon. Frank Cochrane as extravagantly shoveling out Canada's money to grafters, profiteers, etc.

Tatiana, second daughter of ex-Czar Nicholas of Russia, is said to have escaped from Siberia by means of a fictitious marriage and to be on her way to America.

'CROWDS GAZED SKYWARDS

TORONTO, Nov. 29.—Citizens of Toronto who chanced down town yesterday were thrilled by the daring manoeuvres of an aviator who flew about a thousand feet above the Royal Bank Building. The shopping crowds stopped in the centre of the roads to gaze skyward, much to the annoyance of the drivers of vehicles. The aviator performed the queerest of tricks. At times he climbed out on his seat and his legs hung over the sides of the machine. At other moments the plane turned right over.

Above the aviator three immense kites flew at a height of 2,000 feet and from them was suspended a great banner on which, even at that height, could be read: "Buy a Victory War Bond."

HASTINGS PASSES MILLION AND A HALF MILEPOST

Hastings County Has Bought $1,585,400 of Victory Loan Bonds—Yesterday Biggest Day Yet—Last Two Days Left to Buy—Get Busy.

The Victory Loan Campaign will end on Saturday night. After that day any person wishing to participate in the greatest investment offered in any country, will have to purchase in the open market, if they can purchase at all. Therefore, let every man, woman and child make an inventory of his or her financial resources, and go into the Victory Bond Headquarters on Campbell Street between now and Saturday and make application for the fullest amount that it will be possible to buy and pay for in the next year. The banks will carry the Bond for you for one year, and you can pay in instalments. There will be no interest charge beyond what the Bond pays. If you are unable to keep up the payments, that is, if you have bought more than you find you can pay for, the Banks will take it up, and after the Bond has been sold you will get your money back, but you will be afraid of buying too much; but the dead certain you haven't bought too little, because the opportunity only comes once in a life time, and now is the supreme moment. Do it now, it is the motto. The rooms at No. 19 Campbell Street, are open every evening.

Yesterday was the biggest day yet for the County of Hastings. $163,400 was sold during the day, and this brings the grand total up to $1,585,400, or more than a million and a half. To-day the double objective will be passed, and then look out for the two million mark. Hastings has been second on the list for two days in the Eastern District, but the leaders have been different. Frontenac led yesterday, with $70,000 to this $163,400 was subscribed by the Locomotive Works. This leaves $76,100 secured in ordinary way compared with Hastings $163,000. So we have it on all of them. The city's $50,000 is still uncounted, as of this, $1,585,400, only $30,000 is a special subscription, the rest is out of the pockets of the people. That's what Canada wants. Hastings is doing its duty. Have you done yours?

A very successful meeting was held in Deloro last night. Mr. W. B. Ryans, the Colony Organizer, went out from here and gave the employees of the Smelting and Refining Co., a good talk on Victory Bonds. Mr. F. A. Bapty, the manager of the Company has been working very hard and out there, having secured 82 subscriptions for a total of $25,100, ranging from $4,000 to $50.

The C. W. Kindsay, Limited have a very nicely decorated Victory Loan window. All the merchants should get busy and give Victory Bond windows for the balance of the week.

ONLY TWO MORE DAYS LEFT.
GO TO NUMBER 19 CAMPBELL STREET, AND BUY YOUR VICTORY BOND.

Pleasant Masonic Function Last Night—Grand Officers Confer Degree

One of the most pleasant Masonic evenings ever spent was that enjoyed by a large number of loyal Masons on Wednesday last night at the Masonic Temple, Moira Lodge, No. 11, A. F. & A. M., with more than ordinary interest attaching to the history of Masonic sociability and fraternal achievement has had many notable gatherings, but last night's function was one of the best in its long and eventful history and worshipful Master H. A. Morgan and his excellent staff of officers have every reason to be proud of the success which marked the occasion.

The chief feature of the evening was the conferring of the initiation ceremony by a distinguished degree team composed of Past District Deputy Grand Master, the candidate being the son of one of the Grand Lodge officers.

The officers in charge of this important ceremony were as follows:

Rt. Wor. Bro. H. F. Ketchenson—W. M.

Rt. Wor. Bro. F. E. O'Flynn—S. W.

Rt. Wor. Bro. H. J. Clarke—J. W.

Rt. Wor. Bro. McLeod—S. D.

Rt. Wor. Bro. W. O. Adams—J. D.

Very Wor. Bro. A. R. Walker—I. O.

Rt. Wor. Bro. W. N. Paxton—S. S.

Very Wor. Bro. J. McIntosh—J. S.

Rt. Wor. Bro. J. Newton also assisted in obligating and giving charge to candidate.

After the business of the evening was transacted, an adjournment was made to the banquet hall, where an excellent spread had been prepared with the additional attraction of the annual Cider Treat, provided by Wor. Bro. J. W. Sharpe, whose apple cider is famous for its purity and appetizing flavor.

The banquet was followed by a toast list, which brought out some excellent speeches, serious, witty and instructive, the Worshipful Master of Moira Lodge, Wor. Bro. H. A. Morgan, occupying the chair very acceptably. A pleasant feature of the toast list was a stirring message of patriotism and win-the-war enthusiasm brought from the United States by Bro. W. R. Rutledge of Hyattsville, Maryland, who gave his hearers many interesting instances of the war preparations in the great country to the South and the determination so marked there to assist to the last man and the last dollar the British Empire and the Allies in the decisive overthrow of the enemy of world freedom. Mr. Rutledge is a Belleville "Old Boy", having left here twenty-five years ago, and is now visiting the scenes of his boyhood. Needless to say he found many old-time friends at Moira Lodge last night.

Musical selections by the orchestra aided materially in the enjoyment of the evening, while vocal solos by Prof. Thompson were also a feature.

The toast list was as follows:

The King and the Craft.

Moira Lodge and the Grand Lodge of Canada in the Province of Ontario—Proposed by Mr. F. E. O'Flynn and responded to by Col. W. N. Ponton.

To our members overseas—Proposed by Rev. Dr. Blagrave, responded to by Bro. Ketchenson.

Visiting Brethren—Proposed by Rev. Mr. Kerr, responded to by Messrs. W. Rutledge, A. R. Walker, John Hallett, T. D. Ruston, A. Jones and A. G. Davis.

Newly Initiated Candidates—Proposed by Mr. John Newton.

In response to many appreciative remarks for his annual cider treat, Mr. W. W. Anderson spoke briefly.

The evening was brought to a fitting close by the singing of Auld Lang Syne.

MUSIC AND DRAMA

"BABY MINE"

Madge Kennedy, the famous comedienne of "Twin Beds" and "Fair and Warmer," makes her first appearance as a motion picture star in Margaret Mayo's rollicking farce comedy, "Baby Mine," which is the attraction at Griffin's to-night and Saturday matinee and night.

"Baby Mine" has been elaborated for the picture presentation from a comedy that ranked as one of the most successful of recent years and which made a fortune for its owners and producers.

The story of "Baby Mine" is that of a young wife whose pleasure seeking inclinations cause her sorrow unfounded reason to leave her. Miss Kennedy plays the part of the wife, Zole, and Frank Morgan is the husband.

To entice him home again, Zole announces the arrival of an heir in the family. Alfred, who immediately rushes home, arrives earlier than expected and complicates the scheme of Zole and her friends, Aggie and Jimmie; to provide a baby from a foundling home.

PAULINE FREDERICK

A recent success of the Washington Square players in New York City, the little group of actors who have banded together to make a last stand against commercialized drama, despite the difference between the point of view of a Broadway playwright and that of a short story writer who sees possibilities for romance in the life of every single human being.

Spudder Middleton, brother of Geo. Middleton, who has written many noted photoplays, has shown in "The Love That Lives", the latest Paramount picture starring Pauline Frederick, that true romance, tragedy and sometimes comedy can be found in the lowliest lives, and he takes as the hero of his story a newsboy. Miss Pauline Frederick, one of the screen's greatest emotional actresses, has made the role of Molly, the drudge, one of the most notable of her entire career. "The Love That Lives" will be the attraction at the Grand to-night to Saturday matinee daily, along with the latest chapter of "The Great Secret" series, featuring Francis X. Bushman and Beverly Bayne, and a good comedy.

To the Electors of East Hastings

Ladies & Gentlemen—

Your vote and influence is respectfully requested for T. H. Thompson, Unionist candidate, officially endorsed by the Premier and the Union Government.

I AM IN HEARTY ACCORD WITH THE PLATFORM OF THE GOVERNMENT, AND FOR EVERY MEASURE OF THE GOVERNMENT TO WIN THE WAR.

I am for the ABOLITION OF THE PATRONAGE SYSTEM FOOD CONTROL AND THE REGULATION OF PRICES, OF THE NECESSITIES OF LIFE, LIMITATION AND REGULATION OF PROFITS THE BEST TREATMENT FOR RETURNED SOLDIERS, AND FOR THE DEPENDENTS OF THOSE WHO ARE FIGHTING OUR BATTLES OVERSEAS.

I believe that wealth should bear a greater part of the financial burden that it has done in the past, and that labour should receive a just share to the Government of the country. I BELIEVE IN THE FRANCHISE FOR WOMEN EQUALLY WITH MEN, AND AM FOR ANY MEASURE THAT WILL AID IN A BETTER SOCIAL AND ECONOMIC RECONSTRUCTION OF CANADA.

MME. NELLI GARDINI

The concert given by Mme. Gardini last evening under the auspices of the Great War Veterans' Association was not as largely attended as the merit of the entertainment warranted and the auspices under which it was held. Miss Nelli Gardini charmed the audience with her appearance, her acting and chief of all, her voice. Her singing is delightful, clear and unforced, and there is a freshness and velvet-toned quality about it that is absolutely attractive.

While every one of Mme. Gardini's selections was a gem of vocal excellence particular mention must be made of the airs from Mme. Butterfly by Puccini and with variations highly pleasing and well rendered.

Mr. Frederick C. Trim, pianist, delighted the audience with his artistic and sympathetic rendering of several piano solos and in his accompaniments.

Union Government In Women's Hands

Every Female Relative of Soldier Entitled to Vote at Elections

The names of many women who are entitled to vote at the coming elections have been omitted by the enumerators, from the voters' lists, because in many instances people have declined to give them definite information, when they called at the homes. It should be clearly understood that every female in Canada, who is the wife, widow, mother, sister or daughter of any soldier living or dead who has served or is serving with the military or naval forces of Canada or of Great Britain, or of any nurse so serving is entitled to vote, and to have her name placed on the lists. There is limit to the number of women in any family who may vote provided they come within the degrees of relationship as given above. If any of those persons desire to vote they should make it a special duty to call at the Enumerators' Committee room, near where they live, and give the person in charge their names and relationship to the soldier, and their residence, if not upon the list already. The enumerators have only five more days to complete their tasks. The lists must be posted on Monday next, and four days only are allowed for appeals. Consequently not a moment can be lost in giving the information to the Unionist Committee. It should be noted further that any woman from the Old Land, who has relatives in the Imperial Forces is entitled to vote whether such relatives have ever set foot in Canada or not. The only other qualifications are that the person claiming a vote must have lived in Canada for at least one year, and in the riding in which she desires to vote for four months. This is the law of the writs calling for the holding of the elections. As women will have the right to vote at the coming, it is important they should see that their names are on the lists.

Canada Must See Writing on the Wall

"Our response to this Victory Loan campaign will show whether or not we are worthy of the sacrifices of our men at the front," declared Col. (Rev.) Dr. S. D. Chown, General Superintendent of the Methodist Church, in Canada, speaking in Trinity Methodist Church.

"Canada is only dreaming about the war. She seems to be shaken out of it. The death and the wounded lives of our men are a call to our growth of character. Canada is on trial to-day before all the nations and the God of nations.

VICTORY LOAN MAY SAVE US

"The national calamity has gone to their deaths because they put material things before character. Canada is in danger of having the same thing happen to her. This Victory Loan, thank God, may save us.

The same hand which wrote on the walls of Belshazzar's palace wrote the same words on the walls of the House of Commons at Ottawa during the sitting some years ago and again a few months ago. The same hand is writing over Canada, and it will fall if we do not rise to this occasion. God is calling in judgment over Canada at this time.

"If we cannot raise our people to the plane of self-sacrifice, then we shall plunge into defeat. If we cannot fight the battle with our meanness, our stinginess and our smallness we are sure to fight it.

"Conscription and the Victory Loan are the tests of the nation at this time. Let us make the results show that we have responded to our country our Empire and our God."

The Alabastine Co. of Paris sustained a loss of $50,000 through a fire which destroyed their plant.

Archdeacon Cody Appeals For Union

"The hearts and judgments of men are being tried to-day. If ever it is to be a time of all-times when citizens is in duty bound to use what ever influence he possesses in behalf of what he conscientiously believes to be the right, that time is here and now. For this reason, while in normal times I rather deprecate the action of the clergy intermingling in political conflicts, I have no hesitation in announcing my hearty support of the Union Government, and in giving my reasons for that support."

Thus says Archdeacon Cody, whose readers as a prominent educationist and former is literally Dominion-wide, and who enjoys a deservedly high reputation for sound and sane judgment, and for clarity of thought and vision.

"This," he proceeded, "is a time of crisis, the greatest in the world's history. In great crises there is a need for coalition of all national elements. Fifty years ago, at the time of Confederation, we had a coalition. But there is a far greater crisis today in which not merely Canada and the British Empire, but world freedom, human civilization and Christianity itself, are all involved. A United front must, so far as practicable, be secured. All the belligerent countries, including the other great self-governing of the Empire, have felt this, and have acted accordingly in promoting Union Governments. Here in Canada, there is no use in recrimination as to the date when union should have taken place. It is now an actuality.

A GREAT CRISIS.

"The present crisis is great and grave enough not only to justify, but to demand, a Union Government, or need only point to the Russian withdrawal and the Italian reverses; to the fact that the Bolshevism programme is, at this moment, realized so far as Europe is concerned; to the fact that in the West, where the forces of Canada and the United States and we have the offensive, and that there is the decisive line; to the need for determination and endurance to the end in view of the certainty that victory is achievable by strong, united and efficient effort—and only so; to the truth that a great war can be greatly won by the morale of the whole people behind their fighting men. In addition there are also great relevant problems—those of the returned soldiers, of financial readjustment after the war, of immigration and of transportation—which would inevitably have necessitated united political effort —and for such the Union Government provides the requisite machinery.

"But the demand in the immediate present is for the vigorous prosecution of the war. We must not defer ourselves to be diverted from the real issue, and so risk defeat, by dispersion of effort. The real issue is not the past conduct of the late Government; not the balancing of personal attachments and party loyalties; not the wisdom of exemption tribunals; not the high cost of living. It is how our men at the front may be best and most speedily backed up.

MUST STAY IN THE WAR.

"Did Canada do right in entering the war? Is this OUR war? Is our future at stake in it? Are our shores being defended in France and Belgium? Are more men urgently needed? To all these questions an emphatic affirmative is the only answer. Then the question must stay in the war, bear her share of the struggle and sacrifice, and see that the price which her sons on the front are paying is not paid in vain.

"And to accomplish this end there is absolutely no alternative to the enfranchisement of the Military Service Act. To secure this the Union Government must be supported. Sir Wilfrid Laurier distinctly pledges himself to the suspension of the Act, and its submission to a referendum. But what use is there in TALKING of winning the war if we are to omit DOING the only thing calculated to win it? We are not faced with a theory, but with a condition.

THE WILL TO WIN.

"The Union Government must be supported, moreover, because its overthrow would spell a weakening of the 'will to win,' which might eventuate in disaster and defeat, and in the destruction of the morale of the whole country. It must be supported as the best immediate way to bind Canada more closely to the Empire. It must be supported if we are to preserve unimpaired that high reputation for chivalrous service which our men on the front have won, and which has appealed so strongly to our fellow-dwellers on this continent, the citizens of the United States. What would be the effect in that country of a wrong decision on the part of Canada now? It must be supported, finally, if, as a nation, we are definitely determinedly, unitedly and practically to renew our consecration to the great cause, and to proclaim to our friends and foes alike the unbroken resolve of the free young Dominions to remain in the fight for freedom, justice, mercy, humanity, civilization and Christianity even unto the end."

GLENCOE, Nov. 29—With the village band playing "The British Grenadiers," and the streets lined with hundreds of cheering people, Sir Robert Borden, accompanied by ex-Mayor Joseph Oliver of Toronto, had a warm welcome to Glencoe this afternoon. The scene was the crowd which thronged the Town Hall that the Prime Minister and his followers could not get to the more closely to the Empire. It must platform by the main entrance to the building. Above the platform was a banner bearing the words: "Never let the old flag fall."

Dr. Marion, M.P.P., of East Lambton, presided, and upon the platform with him were the leading local Liberals and Conservatives who are supporting the Union Government.

THAT LAURIER MANIFESTO.

Sir Wilfrid Laurier's manifesto is an application for national extension from the military service of the people of Canada are the exception to the rule, and on December 17th the whole Unionist press of Ontario will having been bought by what he called the capitalists of Canada. The success press may safely count on the conclusion that Sir Laurierite Toronto Liberal, "Heartless," Dewart, had been taking lessons from the man who it is alleged was kicked out of a certain hot place for lying. Dewart, however, is not alone, for the Laurier press of the province of Quebec has become particularly vicious. "Le Canada," Laurier's organ, published in Montreal, has an article on the line of the Dewart slanders, which The Globe denounces as

"One of the most disgraceful instances of bearing false witness that has come to the attention of The Globe since the political campaign opened was contained in Le Canada (the Laurier Liberal organ in Montreal, on Thursday last.

The following is the item which appeared in per Canada, to which The Globe refers:

"The current story, so widely diffused as to leave no trace of its origin, is that the Liberal Party purchased the interest in The Globe formerly held by Lord Strathcona. The late Lord Strathcona held eight hundred odd shares of the stock of The Globe out of a total issue of nine thousand shares."

The Globe is learning and wailing the political outfit with which it has been associated in the past.

CRISP COMMENT

Of Sir Wilfrid Laurier it will be said: "His sun has risen and set while it was yet day" says the Liberal Kingston Whig.

Branches of the Veterans' Association are everywhere endorsing Union Government. Lend them a hand. They know what they are about.

Many people think Canada's fighting for England. That it is her war. If Canada was a nation by herself she would be in the war, not for England's sake, but for principles of justice and righteousness. The United States is in it on those grounds. It is the world against militarism and brutality.

"For God's sake, mother, get out and work for conscription—work for any and party that will send us the reinforcements we need so badly."—This appealing cry came across the waters from a son in Flanders to his mother in Toronto, a former president of the Women's Liberal Club there. And she and thousands of other women will work so that reinforcements already under mobilization can speedily go.

The opposition candidate's women's meeting yesterday afternoon is said by one who was there to have been sparsely attended, and consisted mainly of a clique of Mr. Porter, the Government candidate, by Mr. Graham and Lieut.-Col. O'Flynn, who resigned the Lieutenant-Colonelcy of the "Jolly Three" in Mr. Graham's favor. The lady who presided admitted that she belonged in East Hastings but had jumped the fence to help the opposition candidate.

The deep silence maintained by the local Laurierite organ, official representative of the opposition candidate, as to the disgraceful occurrence in Kitchener last Saturday, where the Premier of Canada was insulted by a pro-German Laurierite mob and free speech in a free country was denied, is significant. Has the Laurierite organ no words of disapproval for the Hun tactics which are finding such lusty expression in pro-German centres?

A recent country meeting in the interest of Mr. Graham is described by one who was there as follows: "A handful of curious folks gathered at the hall and the meeting had all the appearance of a 'free;' until the big band arrived with its boom band and audience from Belleville, and the noise attracted a few more from the village. The music livened things up a bit, and the imported audience made an impressive scenery. The applause was generous and enthusiastic from the Belleville visitors and the reticence but the arguments advanced did not seem to impress the audience, who preferred the band selections to the speeches. The manufactured enthusiasm from the imported audience was inspiring, and with the aid of the band kept the meeting going until the minutes for a funeral. Then the music and the music died, the visitors from the city piled into their cars and left the light to be turned out and the residents turned in—no more or more edified than before.

BOURASSA'S POLICY

(Montreal Mail (Lib.)

Mr. Henri Bourassa, the anti-British agitator, has announced himself as being in accord with the policy of Sir Wilfrid Laurier. This is rather unfortunate for Sir Wilfrid, and should convince him that his policy needs revision. A policy that arouses Bourassa is not going to dissatisfy the great majority of the people of this country.

"DELAY" IS LAURIER'S WATCHWORD

Christian Science Monitor

The keynote of Sir Wilfrid Laurier's manifesto is "delay," and "delay" is also the national defect. At a time when all the Allied countries are calling for quick, decisive action, for honest, disinterested leadership, and for opportunities to make sacrifices and to sink differences, Sir Wilfrid Laurier is described by one of his own supporters as a "heartbreaking disappointment," and the very essence of which is the postponement of action.

AS TO THE FARMERS

The Grain Growers' Guide

The support of the prairie farmers to the new Union administration will be whole-hearted, and in the highest degree patriotic. There are certain well defined and fundamental principles for which the organized grain growers have stood for many years. They believe to those principles as firmly today as ever. But the organized grain growers are not the type of citizens to waste the strength and the resources of the nation by internal strife when the enemy is literally pounding at the gates. We believe that the grain growers are willing to accept any reasonable terms for a cessation of internal political struggles until the enemy is forced to surrender. After that date the organized farmers will push for the fulfilment of their own legitimate aims. In the meantime they will carry on their educational work, and will give the Union Government wholehearted support so long as its actions and conduct warrant that support.

J. B. McWILLIAMS DIES

Public Official, Orangeman, Agriculturist and Active Liberal

PETERBORO', Nov. 29.—J. B. McWilliams, an old and prominent resident, and well known throughout the province, died here at the age of seventy-two years. In his early years he was Deputy Sheriff of Peterborough, Crown Timber Agent for Midland district many years, and also was Superintendent of Woods and Forests of Ontario from 1894 to 1905. He was an active member of the Orange Order for fifty-four years, occupying the highest positions in district and Provincial Orangeism. He was a member of the Town Council and the School Board for several terms, officially associated with agriculturists and horticulture, a veteran of 1866, and in many other ways an active and useful citizen. He was a Presbyterian, and till within the past few years was an active Liberal.

Vote at Front Begins Dec. 1

Canadian Army Will Register Its Opinion Shortly—Good Weather.

Canadian Army Headquarters in France, Nov. 29.—Canadian losses in the strenuous Passchendaele battles are being rapidly replaced with reinforcements. The fair weather of the past week is giving place to high winds, rain and cold, signifying the approach of the third war winter, but all ranks face the ordeal with wonderful spirit, elated over their successes of the year and confident in their superiority over the enemy.

Attention is centering in the Canadian ranks on the coming election. Polling will start in France on December 1. No parties are here to make an appeal, but these things are happenings with those familiar devices of election time at home. The army will register its vote silently. The task of voting them on service is tremendous. Not only Canadian infantry, but Canadian nurses, V.A.D.'s attached to the expeditionary forces, Canadian cavalry, Canadians serving in British and French forces, in the Royal Flying Corps, Canadian railway troops, railway construction battalions and other detached units sprinkled over the western theatre from coast to Switzerland —every person, male or female, on active service, whether as officer, soldier, sailor, nurse, dentist, aviator, or otherwise engaged, will be given equal opportunity to record his ballot. Outside of the Canadian Expeditionary Force, on the lines of communication in such army service corps as the Canadian Army Service Corps, Canadian Battery Commander are responsible for the provision of proper voting facilities for those under their command.

"A VOTE FOR THE GOVT. IS VOTE FOR OUR PALS"

LONDON, Nov. 29.—Londoners are awakened to the fact that on Saturday next over 200,000 Canadian soldiers at Ypres, Courcelette, Vimy, Lens and Passchendaele are to begin voting in the election and that their votes may mean the difference between ads remains effectively in the war. Almost every journal today has some Canadian election comment.

The Daily Mirror begins with the following conversation yesterday between two Canadian soldiers: "Which way are you going to vote?" asked one. "Why for you!" said the other. "How do you make that out," said the first.

The other replied, "Well, I am going to plump for the Government, which is pledged to get on with the war and send us some of those fellows back home whom we want in the trenches. That means that we've got to give to the Government is a vote given to our pals."

The Daily Mail story is headed, "Reinforcements or Delays." The Mail quotes a prominent Canadian as saying: "The true Canadian in voting for the Government is not merely supporting the men in France but is also helping to fight the pacifists and pro-Germans in every province, whose only aim is to drag Canada's record in the mire."

The Daily Express in an article headed: "Canada's Honor at Stake," says: "The one outstanding fact of the election is that every real Canadian in order to win the war will have to turn out to vote down the pro-Germans, the pacifists and anti-conscriptionists at home. The vote of the overseas Canadians will be a vote for Canada's honor."

The Daily News, after noting that many of Sir Wilfrid Laurier's old followers are now against him, adds that the Government candidates in Laurier candidate is opposed by two coalition men, Liberal and Conservative. Neither constituency is likely to draw. That is Laurier's opportunity."

German Gold Aids Laurier's Agents

So Says Sir Sam Hughes in Notable Gathering Held at Lindsay

LINDSAY, Nov. 29.—In the matter of numbers, enthusiasm and patriotic fervor, nothing has yet equalled the opening meeting which Sir Sam Hughes, the Unionist candidate in Victoria, held here last night. The Academy of Music was packed and overflowing. Several came by train from the farthest corners of Victoria and Haliburton. Seven hundred were reserved for the relatives of soldiers.

One of the greatest ovations ever given a speaker in Lindsay greeted Sir Sam Hughes as he arose to address the audience. The band played patriotic airs and then, escorted by Reeve Nelson, M.L.A., of Toronto, filled the air, in part the general said.

"I have long practiced the principles adopted by the recently formed Union Government. During my term of office politics or party were not taken into consideration, and therefore I claim the credit of leading the way where practically all Canada has followed.

"Since Bourassa has joined forces with Laurier, Mr. Isaacs, Laurier candidate, has come out against Union Government and against conscription, and I have no hesitation in crossing swords with him on these grounds. The boys at the front know their duty, and the boys and girls at home know theirs. The union of the democratic and freedom-loving countries of the world in defence of human liberty forms the precedent for the coming together of the patriotic forces of Canada in this one great crisis of conscience, reason, and the overthrow of democracy are the principles upon which Laurier has set them and issues stand. The great heads of this Dominion are clear on the issue and are working hart and hard for Union Government."

Sir Sam then proceeded to review the recruiting situation in regard to Quebec, in which he sweepingly refuted the charges that the Union Government had not received fair treatment. He declared that the young men of Quebec were not responding to certain well-known authorities not to enlist. "I have no doubt but that German gold is exerting its sinister influences in the province by Laurier's agents to their work."

Laurier's Move Angers Liberals

Endorsation of Socialist in South Wellington Came as a Surprise

GUELPH, Nov. 29—There has been considerable indignation in Liberal circles in Guelph since Monday last Saturday, when the announcement was made that Sir Wilfrid Laurier had endorsed the candidature of Mr. Joseph Cunningham, the Socialist candidate for the House of Commons, opposing Hon. Hugh Guthrie.

The announcement was made on the street today that some of the officials, or others, connected with the Liberal party, had had something to do with the move that resulted in Sir Wilfrid in naming Cunningham, the nominee of the Socialist party here, as the accredited Liberal candidate for the riding. The purpose in designating these candidates is that they may get the credit for any anti-war votes that are cast for the Laurier party by voters overseas.

Dr. Angus MacKinnon, the president, and Mr. Alex Stewart, the secretary of the South Wellington Liberal Association, were asked today if they had any statement or denial that they wanted to make.

Dr. MacKinnon said: "I have very plain," replied Mr. Stewart, "that the matter was never discussed by any of the officials of the South Wellington Liberal Association, and that they knew nothing about the matter. The announcement of what has been done came as a surprise and a shock to them."

TOOK HUN OFFICER AND HIS FINERY

An Associated Press correspondent with the British army cables:

Among the prisoners taken by the British were several officers who were caught in the regimental headquarters. The regimental commander was captured and it is reported that his advent into the British lines was a particularly humorous spectacle. He was brought back clad in his full dress uniform, followed by two servants who carried more of his finery. His was swearing loud at the turn of events. The sight of a company of British cavalry threw him almost into a frenzy and the lurid language which he directed at the British drew a smile from even the hardened Tommy, who has a somewhat picturesque vocabulary of his own.

DURHAM HEARS MR. ROWELL

Equal Enthusiasm in Liberal and Conservative Townships

BURKETON, Ont., Nov. 29—If men in agricultural pursuits whose stay upon the farm is essential for food production have not been exempted by the Tribunals, if it is necessary that they should remain at home, then the remedy lies through the Appellate Court, if not, through the final action of the Minister of Militia and Defence declared Hon. N. W. Rowell, addressing the farmers of Durham riding in meetings at Hampton and Blackstock.

Farmers Have Duty of Their Own.

The farmers and their wives and daughters made up almost wholly both meetings, so it was principally from the standpoint of agriculture's share in the responsibilities of war that Mr. Rowell spoke. Under the terms of the Military Service Act, he said, those engaged in occupations of native necessity were entitled to exemption. Farmers, not because they were farmers, but because they were farmers, but because they were food producers and had as absolute part of their own to play in fighting the Hun, were with in reason entitled to exemption.

In its appointment to the post of Minister of Agriculture of the Hon. Mr. Crerar, the unanimous choice of both Liberals and Conservatives as the most efficient man for the position, Mr. Rowell added, Union Government earned another appreciation from Canadian farmers.

Both Townships Enthusiastic

Hon. Mr. Rowell was received with equal enthusiasm in both townships, and while Darlington has been as solidly Liberal as Cartwright has been unanimously Conservative, there was not a single interruption at either meeting. The four hundred odd farmers who heard him during the day were unanimous in applauding the speaker's fervent appeals to Durham electors that the boys at the front were worthy of being backed up by the people of Canada.

Elgin County Council has made a grant of $54,000 to carry on patriotic work during the coming year, also $500 to the overseas war work of the Y.M.C.A.

Laurier "Slacker" In Political Life

PARIS, Ont., Nov. 29.—With the same courage, the returned soldiers, the women and the working men of Brant riding pledged to his support, Col. Harry Cockshutt affirmed his loyalty to the Union Government, and the cause which it represents, that of winning the war.

The meeting, which was a public one, was held in the Borden Clubrooms, Paris, and a crowd comprising equal number of both sexes, thronged the hall, the women being particularly enthusiastic in their support of Col. Cockshutt.

Col. Cockshutt laid the onus of conscription, not at the door of the Borden Government, but at that of Sir Wilfrid Laurier, declaring that if the latter had done his duty by exhorting the Province of Quber to give her fair share, the Military Service Act need never have been passed. He recalled the words of Laurier at the time of the Riel rebellion: "Had I been on the banks of the Saskatchewan, I would have taken up my rifle and shot down the soldiers of the Queen." Col. Cockshutt denounced Sir Wilfrid as a slacker, pointing to his entire political career. Although by supporting conscription he might have proven himself one of Canada's greatest men.

Col. Cockshutt promised to take action toward securing better pensions for returned men, and toward compelling the allen element to contribute adequately to patriotic purposes. He appealed to his hearers as a Canadian, born and bred, one proud of his country and bent upon serving it to the best of his ability.

BISHOP FOR UNION

Rt. Rev. A. J. Doull, D.D., Bishop of Kootenay, has issued a strong appeal in support of Union Government, in which he says:

"This is no party question; the very existence of our homes and our liberties, our very lives, are hanging in the balance, and all true, patriotic Canadians, irrespective of race or creed, should make it a solemn duty to support by their votes and influence the Union Government, and so insure the continuance of the fullest measure of Canadian co-operation in the sacred fight for human liberty, which constitutes the greatest cause ever entrusted by God to mortal man."

Don't Avoid Corns
But Don't Keep Them

With delaty footwear, corns can hardly be avoided. But they matter little when you know that they are easy to get rid of.

As soon as a corn starts, attach a Blue-jay and forget it. The corn ends in 24 hours. In two days, if it is a new corn, it will disappear. Some times old corns need a second application.

It is almost as simple as removing a dirt spot. Blue-jay is applied in a jiffy. It fits the toe like a glove. When it is on

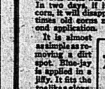
It is the B&B wax, which gently undermines the corn. Usually it takes only 48 hours to end the corn completely.

In rubber adhesive plaster strips and discs, Blue-jay is used to relieve pain and makes the plaster snug and comfortable.

Blue-jay is sealed in a jiffy. After the corn is gone, a touch of the finger and the wax is removed. The corn stays gone. So do the corn troubles.

How Blue-jay Acts



A is a thin, soft pad which stops the pain. It relieves the pressure.

B is the B&B wax, which gently undermines the corn. Usually it takes only 48 hours to end the corn completely.

C is rubber adhesive plaster which holds the pad and wax in place.

FAMILY DOCTOR GIVES GOOD ADVICE

To Go On Taking "Fruit-a-tives" Because They Did Her Good

Rooney, P. Q., Jan. 14th, 1918.
"I was troubled for many years with indigestible Indigestion and Constipation, and frequent dizzy spells and became greatly run down. I decided to submit to my "Fruit-a-tives". I did so and to the surprise of my doctor, I began to improve, and he advised me to go on with "Fruit-a-tives".

I consider that I owe my life to "Fruit-a-tives" and I want to say to those who suffer from Indigestion, Constipation or Headache—"try Fruit-a-tives" and you will get well". CORDE GAUDREAU.

In and About The City

ADJOURNED MEETING.

An adjourned meeting of the City Council will be held this evening to pass some by-laws and transact other business.

GOODLY SUM REALIZED.

The proceeds of the dance given by the Cadet Blue Knitting Circle on November 22rd, after all expenses were paid, amounted to one hundred and seventy-five dollars. This will be handed into the Women's Red Cross and Patriotic Society to buy wool for the soldiers overseas.

ARRESTED AS DESERTER.

Harry D. McMullen, of Campbellford, who was employed at the Nicholson File Works, at Port Hope, had failed to register and was arrested yesterday as a deserter from his Majesty's Service. In court yesterday morning he pleaded guilty and was handed over to the Military authorities at Cobourg to be taken to Kingston.

LATE MRS. WM. SMITH.

Mr. William Smith, of this city, whose death was recorded yesterday, was born at Tweed some 40 years ago, but had lived in Belleville the greater portion of her life. She was a sufferer for the past two years, and had been confined to her bed for months. She was a member of Emmanuel Reformed church, and a lady respected by all who knew her. In addition to the husband three sons, Clifford, Donald and Stanley all of this city, survive. To the bereaved will be extended the heartfelt sympathy of many friends.

RIFLE SHOOTING

A number of members of the Belleville Rifle Club last evening participated in a shoot at the Armouries. The following scores were made out of a possible 100:

J. Dench	97
A. R. Symons	95
C. J. Symons	94
A. Hayward	91
J. C. Wills	90
xJ. S. Pa	88
J. Gandi	88
W. Stanley	84

xWinners of silver spoons.

In Class "C" a tie between J. S. Peck and W. Woolley necessitated a shoot off which resulted a win for Mr. Peck by a score of 86 to 81.

The following score was made by members of the Woman's Rifle Club:

Miss McCarthy	98
Mrs. McLean	96

MANITOBA FRENCHMEN NOW SWING TO UNION

Native Frenchmen and Belgians Work Hard for Return of Unionists

WINNIPEG, Nov. 23.—The political situation throughout Manitoba from the Union'st standpoint is a singularly happy one. Friction and heartburnings consequent upon early attempts to fuse parties have died away. One thing is certain now—the Union vote in each Manitoba riding is consolidated.

Af Union headquarters it was stated with considerable enthusiasm that a distance swing of the French-Canadian sentiment in favor of Union Government was now visible in Manitoba. Many native French-Manitobans, together with a large number of old country Frenchmen who have settled in Canada, some Belgians and other reservists of both Belgium and France, are working might and main in various constituencies for the return of Unionist candidates.

Of the claimants for exemption in Alberta, 78 per cent. have obtained it.

MAN DEEPLY WRONGED

Served Term in Penitentiary For Crime He Did Not Commit

H. G. writes in the Toronto Star Weekly regarding an Owen Sound man who spent two years and a half in Portsmouth Penitentiary on a charge of stealing money in 1910 from a fellow he had formerly known and who had come to town to spend some of his earnings. Some time ago it was learned from the young man himself that he was innocent of the crime he was alleged to have been robbed, that it was a mistake as he found he had put the money he thought he lost in the safe of an hotelkeeper, who had returned it to him. He made no effort to tell the authorities or secure the release of the man he had so deeply wronged. The writer of the article brought influence to bear on the Dominion and Ontario Governments but neither felt it could do anything although the detectives of each repeated the mistake made. He asked that the man so terribly wronged be reinstated at least by an amount that would equal the value of the labor he had performed in the penitentiary, but that was refused. The man who served time in prison for a crime he never committed has lost his nerve and is no longer able to take care of himself.

Miss Margaret Thompson, who has been in jail in London, Ont., for five months for contempt of court, and for whose release thousands of citizens petitioned in vain, is now said to have lost her reason.

Cattle Market Fairly Brisk

Choice Steers and Heifers and Butcher Bulls in Good Demand

UNION STOCK YARDS, Toronto, Nov. 23.—Buyers took all the cattle that were offered on to-day's market at prices ruling even with yesterday's quotations, but a good number of the arrivals overnight and early this morning, at the yards, were held for to-morrow, a rather nice lot of feeders and stockers being among them held back. Choice steers and heifers as well as butchers' bulls and cows were in good demand and a good many more than were present to-day might come forward without endangering the price.

For the first time in weeks there was a slight weakness in demand for sheep and lambs to-day and the price for the latter was down 50 cents on the day's trading, $16.50 being the highest price paid.

A strong effort was made to fulfil the prediction of a higher range in hog prices and in some cases business in this class of live stock was transacted at $17.75, fed and watered, but most of the run, which was a small one, got through at $18.00. Business in calves was dull, with prices steady. The receipts up to noon were 88 cars, with 847 cattle, 163 calves, 1,911 hogs, 2,389 sheep and lambs.

Mrs. Henry Was Instantly Killed Two Drivers Got Serious Injuries

(From our own Correspondent)
TRENTON, Nov. 22.—A very serious accident occurred in Trenton at an early hour yesterday morning whereby one lady, Mrs. John Henry of Cedar street, was killed, and Fred Clare, driver of a livery bus, injured.

The accident happened at the level crossing over the Canadian Northern Railway. It appears that the driver of the livery bus did not see the train until he was almost upon the track and, there in a slight inclination of a road downward to the crossing, and it was impossible for him in this case to control his machine before reaching the track where it was struck squarely by the engine and completely demolished.

Mrs. Henry, who was a passenger in the bus, was hurled about forty feet and killed almost instantly.

Mrs. Henry had left her home to take the 4 o'clock Canadian Pacific train for Port Hope where a relative of hers is critically ill.

Her husband is an engineer on the Canadian Northern Ry. and she leaves also two little children.

The driver of the bus, Foster Clark, a young man, received injuries and was brought to Belleville hospital. He is suffering from bruises and shock but unless injured internally will recover.

REFERENDUM VEILS LAURIER PROGRAMME

LONDON, Nov. 20.—Discussing the Canadian election, the Times observes that Premier Borden has declared with his usual blunt sincerity that if elected he will root up the patronage evil, a system as ingrained in the Canadian administration as the system that threats against it mobilize innumerable vested interests, while public opinion is so used to it that it hardly seems to most men an evil at all.

Against this, and other handicaps, Laurier has several advantages. The anti-conscription programme is decidedly veiled by his support of referendum; his solid numbers of adherents in Quebec, his personal qualities, and long record in service, his eloquence and experience as a politician and campaigner are all very valuable assets.

In spite of all this, the probability is that Premier Borden will have a substantial majority. If that is the result, immediate reinforcements of Canadian troops will be sent, and Quebec, if the people follow the advice of Premier Gouin, will accept the verdict and will abandon active opposition to conscription.

Pains Over Left Kidney

Warned This Captain That the Kidneys Were Responsible for His Pains and Aches — A Case of Pain and Suffering by a Well-known Medicine.

Hereford, Que., Nov. 29.— Captain Peabody is well known all through this section, and his cure by use of Dr. Chase's Kidney-Liver Pills has aroused great interest in this great medicine.

The Captain had been suffering for a long time, and could never get any treatment to afford lasting relief until he began using Dr. Chase's Kidney-Liver Pills.

Captain A. Peabody, Hereford, Que., writes:—"For years I suffered from indigestion, rheumatism and neuralgia. Lightningiike pains would shoot all through my body, and I also had severe pains over my left kidney and through the hips. I doctored for years and tried all kinds of remedies, but in every result was money spent without relief. At last I read in Dr. Chase's Almanac of his Kidney-Liver Pills and decided to try them. One box made such a change that I sent for five more. Before I had finished them the pains in my kidneys and hips had disappeared, and I was clear of those sharp, shooting pains through the body. I still take these Pills occasionally to keep my kidneys regular, and would not be without them as I have them to thank for my cure.

"I can also speak highly of Dr. Chase's Catarrh Powder and Linseed and Turpentine. The former cured me of catarrh in the head, which caused frequent headaches, and was completely cured of this now, and Linseed and Turpentine proved of great benefit for a bad cough which bothered me continually for three winters. Last winter I took one bottle of the Linseed and Turpentine, and have not been bothered with a cough since."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box; all dealers or Edmanson, Bates & Co., Limited, Toronto. Don't be talked into accepting anything said to be just as good. Imitations and substitutes only disappoint.

Tank Charged Enemy Battery

Monster Battered Its Way Between Two of the Guns

LONDON, Nov. 25.—The Daily News prints a despatch from Perry Robinson at the front in France, saying the aggregate casualties in the first advance across the Hindenburg line, in three neighboring battalions, were five men wounded at one of the points where the enemy defence was strongest, the Lateau Wood.

Besides machine guns these woods were held by batteries of field guns. One tank deliberately charged a battery of 42's battering its way through between two guns. Then, turning down the line, the tank's guns killed or scattered the crews so that the battery was silenced and captured. In the Village of Ribecourt, the Germans bolted, leaving uneaten breakfasts behind which the tank crews ate. Some tanks broke down from mechanical difficulties, but where they did so most of them were speedily able to do useful work as stationary strong points, for a tank with its machine guns makes a better redoubt than does a German concrete block house.

HAY FOR U. S. ARMY

Pressing Plant at Montreal Turning Out Many Bales

It is not only munitions that the United States Government is contracting for Canada. Some time ago a hundred thousand dollar pressing plant, one of the best, if not the best, on the continent, was installed in Montreal to take Canadian hay for the British Army. On account of lack of transportation facilities for such bulky freight, the British authorities cut off their purchases and the big Montreal plant ceased operations. More recently the Canadian authorities made a proposition to the United States that the plant already be used at cost in baling hay to be bought in Canada for the use of the American army. The offer was accepted and as a result four to five hundred tons daily are being handled in the plant at a price of $17 a ton at Montreal. So far most of this hay has been shipped by water to New port News, the return cargo being coal.

MAY MARRY IN LENT, AND ALSO IN ADVENT

MONTREAL, Nov. 29.—In future marriages may be celebrated in Catholic churches in Lent and Advent. In a circular letter from Archbishop Bruchesi, read in the Catholic churches, his statute: "It is decreed in the new code of Ca ... that marriages may contract ... at all times during the year. The ... ritual blessing only is forbidden from the first Sunday of Advent until Christmas Day, inclusively, and also from Ash Wednesday until Easter Sunday, inclusively."

Another announcement made by the Archbishop is this: "In future we shall not have the customary fast days of Advent, Fridays alone shall remain days of abstinence."

Ember Week, however, is excepted from this rule.

AUTOS COLLIDE, BOY KILLED

TORONTO, Nov. 29.—Gordon Moyer, the 14-year-old son of Mr. Alfred B. Moyer, of 90 Linsbruer avenue, was fatally injured last night while walking along Nina avenue, accompanied by his nurse, when an automobile, driven by Alexander Brown, of 113 Helena avenue, was hurled upon the sidewalk, following a collision with another car, driven by Mrs. Annie H. Woods, of 72 Walla Hill avenue, wife of Lieut. F. H. Woods, who is a prisoner in Germany. Miss Sarah Gallagher, 135 Lappin avenue, the nurse, is in the General Hospital suffering from concussion and a scalp wound.

Born In Germany Will Fight Kaiser

TORONTO, Nov. 25. — Frank Echelding, 547 Eastern ave., was born in Germany, but came to Canada when three months old. He was sent up for examination several days ago and found to be in Class A.

"Now, Mr. Echelding, won't you withdraw your claim for exemption?" asked Mr. Mickle at Tribunal No. 347.

"I will," he said decidedly.

"Allow me to congratulate you," said Mr. Mickle. They shook hands.

Farmers Fattened Tribunal

Mr. Payne was told last week that her son would not be called until Class E came up, but she is not satisfied with the qualification. She came before Tribunal 350 to see if they could not give unqualified exemption. "You remind me of my brother," she said to Mr. D. J. Coffey, "you can't be hard on me." Then, turning to Mr. R. T. Defries, she said: "I cut your picture out of the paper. I just sent to my boy. There's a nice kind face, and I am going to keep the picture, too."

Mr. Defries: "You flatter me madame. I shall have to be harsh after that, or I shall be accused of accepting bribes."

Mrs. Payne: "You'll be the death of me yet,—all you men. My boy is so delicate. They made him stand on his toes and do such silly things at the Armouries, and he just couldn't do it."

Mr. Defries: "What did they want to do: make a ballet dancer out of him?"

The woman departed satisfied that her son would not be called up."

THE ISSUE.

London Free Press

It has come to this: That the electors of Canada will on December 17th vote for or against the Kaiser of Germany.

More than enough men, it is estimated after a careful review of the situation, have already been secured for Manitoba's share of the first call for 100,000 men.

A special medal probably will be provided for service in the navy of the United States Naval Service who distinguish themselves in the warfare against submarines.

WOULD WRECK CANADIAN ARMY.

LONDON, Nov. 29.—The Daily Mail in an editorial on the Canadian election, calls it a "Great Misfortune." It declares that Laurier's supporters have undertaken to wreck the Canadian army at the most critical moment of the war, and condemns Laurier's contention that voluntary service will give all the men required. It says this has already been tried and has failed, as it failed in Great Britain, adding: "Victory for Laurier would mean that Canada would have to drop out of the war."

EVERYBODY TO VOTE

PETROGRAD, Nov. 29.—Sunday was the first day of the elections to the Constituent Assembly. Both the Bolsheviki and the Opposition have issued appeals to the electors, the former bidding all citizens to bring their wives, sisters, housemaids and housekeepers to the polls, and the latter assisting principally upon the maintenance of order and dissuading from the carrying of arms.

CONDUCTOR FOUND MANGLED.

ST. THOMAS, Nov. 29.—Charles O. Bradshaw, aged fifty, a Michigan Central conductor, was found dead alongside of his train at the yards at Wardsville, Ont., he came to his death is unknown, but his body was terribly mangled. It is thought he had been sitting in switching operations and had fallen beneath the wheels. Mr Bradshaw lived at 44 Woodworth avenue, Detroit, and is survived by his widow and three daughters. He had been on the road twenty-five years.

"MUST STAND BEHIND THE MEN AT THE FRONT"

This is the Only Issue in the Present Dominion Election, Premier Says—Great Gathering Acclaims Sir Robert Borden and Hon. R.W. Rowell

STRATFORD, Ont., Nov. 28. — Union Government was endorsed by perhaps the greatest gathering of citizens ever assembled in the City of Stratford. The largest auditorium of which the city can boast—the Water Street Curling Rink—was called into service, but though it is able to accommodate nearly four thousand people, it proved too small for the crowd that would hear Sir Robert Borden and Hon. Mr. Rowell. Hundreds went away disappointed and scores of others less easily discouraged climbed up into the windows and willingly endured the discomfort of such vantage points. It was a Unionists' meeting in the truest sense of the term, for not only was the chairman, William Preston, a Liberal, but an unusually large percentage of those present were men who cannot follow Sir Wilfrid Laurier in his desertion" of the men at the front. This was patent from the reception given Hon. Mr. Rowell and his eloquent appeal to Liberals to stand with the leaders of true Liberalism in every province in Canada with the exception of Quebec. Sir Robert Borden at Toronto and London received such an expression of public confidence as falls to few public men, but the demonstration at Stratford was fully the equal to those of the larger centres. Sir Robert spoke more briefly than usual, his address being largely along the lines of earlier utterances. He did not make any detailed discussion of issues. Hon. Mr. Rowell, who preceded him, had done this effectively. Instead, Sir Robert with a straight presentation of the great issue before the people, called upon patriotic Canadians to prove that they were less ready than the men at the front to do their full duty for the cause of civilization. His shorter address left the side issues Laurierites are seeking to raise.

"There is but one issue," he said, "and that is whether you are going to stand behind the men at the front."

The answer came in a tremendous roar of applause.

Be The Last Straw

Suppose the Kaiser was a camel. Imagine him groaning under a load of straw, a load growing constantly heavier.

Fancy, for yourself, the whole world standing agape, watching the hideous camel—wondering how soon his back would break.

Hear him groaning on the West front—and roaring on the Italian front!

But his back MUST break soon, and it's just a case of piling on more straw—more.

Maybe you're already piled on some. Perhaps you've given something more precious, than money. But whatever you've given—give more to this Victory Loan. The success of this loan is going to be a hard blow to the Kaiser—a great addition to the camel's load of straw.

Subscribe for ONE more Victory Bond. Who knows? You may prove to be the last straw!

Mizpah Stormed By The British

Troops Make Further Advance on the Way to Jerusalem

LONDON, Nov. 29.—The site of ancient Mizpah, 5,000 yards west of the Jerusalem-Nablus road, has been stormed by the British, the War Office announces. British mounted troops which had advanced northward were forced back by the Turks.

The mounted troops had approached Beit Unis, and after being driven back took up a position at Beit Ur El-Foka (12 miles northwest of Jerusalem).

The statement also says the enemy has bombarded the traditional tomb of the Prophet Samuel.

The town of Nebi Samwil, about five miles northwest of Jerusalem, is generally believed to have been the site of the ancient town of Mizpah, the famous City of Benjamin. Tradition points out this was the birthplace, residence and burial place of the Prophet Samuel, and there is a mosque which contains the traditional tomb of the prophet.

WILL KEEP CHECK ON ENEMY ALIENS

Police and Soldiers Now Guard New York City Waterfront.

NEW YORK, Nov. 29.—New York's many miles of waterfront is to-day guarded by police and soldiers, the latter being posted at some of the more important points to prevent enemy aliens from approaching the barred zones.

By an order to-day received from Attorney-General Gregory, alien enemies will be allowed until 8 a.m. Thursday to vacate the proscribed areas in New York and vicinity.

All employers of alien enemies will be held accountable for any infraction of the regulations by such employes. They must furnish the United States marshal with a complete list, of all employes, with nationality and addresses.

AMERICAN DESTROYERS GET HUN SUBMARINE

WASHINGTON, Nov. 28.—Definite news of the destruction of another German submarine by American destroyers reached the navy department to-day. A cabled report from Vice-Admiral Sims. The submarine, discovered by a depth bomb, went down with all on board after a destroyer had attached a line and was attempting to take her in tow. Two destroyers took part in the action. One, sighting a periscope at 400 yards, headed for it and dropped a deadly depth bomb. Soon afterwards the submarine came to the surface with no sign of life aboard. The second destroyer steamed up and attached a line, but the U-boat, apparently shattered by the bomb, went to the bottom.

What Your Vote Means

Canada's good name will be brightened or tarnished next month. When the votes of her sons and daughters are counted the attention of the world will again be drawn to the Dominion. When the result of the voting is announced every country in the world will say, either that Canada is still in the circle of countries fighting for liberty, or that Canada is finished and is skulking from further battle shock.

Four hundred thousand of our sons have engraved with bayonet points the word CANADA upon the granite pillar of history. The name cannot be chiselled out, but the voters of the land, if a majority declare against the military service measure, can add the words "faltered and failed" to Canada's record on the monument.

The men who volunteered and fought with the Canadian crest on their caps have done their duty. Leaders of the two great political parties who came together to breed strength from union have done their duty. It remains for Canadians, civilian and soldier, to do their duty with the ballot as their weapon.

Whatever excuse and explanation Canadians at home could make to themselves for the defeat of Union Government, the world at large unedcated in the niceties of our differences and prejudices, will carelessly declare that Canada is done.

Germany will rejoice; Britain will regret; the United States will be shocked; and Canada, that towers in the world to-day, will lose the golden opinion of friend and foe.

Our warriors have done their part; it remains for our voters to be true. In this election the marking of ballots should be looked upon as a sarred ceremony. By ballots is Canada to be conversated or condemned.

FRENCH CANADIAN FLAYS BOURASSA

LONDON, Nov. 28.—The Telegraph on Saturday published the following appeal to the French Canadians from one of their number, "Bourassa, in the last three months before the war," says the writer, "was still writing that there was no urgency for armament. Will you still trust his words of hate against everybody outside the ranks of his own partisan followers, when he tells you that the Germans can never take Canada. What is to prevent them, especially since he has inspired you into despising fear of all armaments and fighting?

"The most advanced, the most democratic, and the most civilized nations have all adopted conscription, namely England, France, Italy, Serbia, and other peoples. If you want to be able to call yourselves a nation, and be a nation, you must do as they did, make the necessary sacrifice. If the Allies are the champions of the small nationalities, they will ignore at the Peace Conference, those who did not take sides if the Allies win, and we have neglected to do our duty by the side of our friends for liberty, we shall live despised by all, and we shall lose our privileges in Canada and rightly so.

NEW DEPARTMENT GAZETTED

Minister of Immigration and Colonization to be Paid Salary of $7,000

OTTAWA, Nov. 28.—Formal notice appears in The Canada Gazette of the creation of the department of Immigration and Colonization. The Minister is to receive a salary of $7,000 per annum. The order in Council also provides that, "As the Prime Minister will not longer receive the salary attached to the office of President of the Privy Council a salary should be provided for the Secretary of State for External Affairs (the position held by Sir Robert Borden) whose office by law belongs to the member of the King's Privy Council for Canada who holds the recognized position of First Minister." The salary of the Secretary of State for External Affairs is fixed at $7,000 per annum.

Board Sits at St. Thomas on Claims of Baggagemen and Brakemen.

ST. THOMAS, Nov. 29—The Board of Conciliation to decide the claims of the passenger brakemen and baggagemen on the Michigan Central lines in Canada began its sessions here. The board is composed of Judge Wallace, Woodstock, Chairman; J. Malcolmson, President of the T., H. & B., Hamilton, for the company, and Jas. Murdoch, Toronto, for the men. The request of the men is for the same rates as exists at the C. P. R., the T., H. & B. and the Wabash in Canada and other roads in the United States. Passenger rates now getting $1.60 per hundred miles and baggagemen $1.65, and the wages paid on the competing roads are $1.85 and $2.25.

THREATEN TO HANG UNIONIST CANDIDATE

QUEBEC, Nov. 29.—Mr. Joseph Barnard, editor of L'Evenement, and Unionist candidate in Quebec county, in opposition to Mayor Lavigueur of this city, the Liberal nominee, was threatened with hanging at Ancienne Lorette, when an attempt was made to hold a "contradictory meeting." Mayor Lavingueur was given a warm reception, but when Mr. Barnard advanced to speak he was hooted so loudly that he could not make himself heard. Snowballs and other missiles were thrown at him, and a section of the crowd, shouting they would hang him, produced a rope and charged the platform. After a great deal of excitement the crowd was pacified a little, but when Mr. Barnard was walking toward his automobile to return to the city, he was surrounded and struck several times, but was not seriously hurt.

TRAPPER IS DROWNED

BALA, Ont., Nov. 29.—Frederick Golts was drowned in a bay on Muskquash River three miles below Bala while attempting to cross on the new ly formed ice. Golts had a bark camp in that part of Gibson township, and did some trapping for fur in addition to his lumber ng. While returning from his traps he tried to make a shortcut and lost his life. He was about forty-eight years old, and leaves a wife and three children at Bracebridge. His former home was Bardsville, where he spent most of his life, he being one of a large family well known and highly respected throughout Muskoka.

TREBLE-BARRELED NAMES

A friend of mine, a Canadian soldier told me an amusing story the other day when meeting in the course of conversation, to Sir Genille Cave-Brown-Cave the "cowboy baronet" whose name has recently been somewhat prominently before the public.

It appears that there is a branch of the family living near my friend's house in Vancouver, and they are mightily proud of their treble-barrelled name.

One day a well-known resident of Vancouver named Home, was in conversation with one of them, and accidentally dropped two-thirds of his name. Whereupon I was promptly called to order as follows:

"I say, old chap, don't call me Cave I prefer to be called Cave-Brown-Cave.

Mr. Home apologized, but did not forget. And a little later, when Mr. Cave-Brown-Cave, began a remark with, "I say, Home," the latter one evening. Don't call me Home, call me "Home-Sweet-Home."

EDECTION IN CANADA A GREAT MISFORTUNE

Daily Mail Says Laurierites Have Undertaken to Wreck Canadian Army.

LONDON, Nov. 29.—The Daily Mail in an editorial on the Canadian election calls it "a great misfortune." It declares the Laurier supporters have undertaken to wreck the Canadian army at the most critical moment of the war, and condemns Laurier's contention that voluntary service will give all the men required. It says this has already been tried and has failed, as it failed in Great Britain, adding:

"Victory for Laurier would mean that Canada would have to drop out of the war."

WHAT HAS PORTER DONE FOR WEST HASTINGS?

Is Frequently and Hypocritically Asked by the Opposition—Electors Can Examine the Record and See For Themselves Some of the Benefits Which Mr. Porter Has Secured for West Hastings

He was instrumental in securing the expenditure of $250,000 for the new wharf and warehouse at Belleville for the use of the business men and producers of the district.

He caused to have the Belleville Post Office raised to the status of a city office with a house-to-house mail delivery twice daily by letter carriers.

Rural Mail Delivery

Secured the establishment of Rural Free Mail Delivery throughout his country district.

Trenton Bridge

Secured $71,000 to assist in the erection of the fine bridge which spans the river at Trenton, and had the Post Office in that town enlarged.

British Chemical Works.

The British Chemical Works, which has brought thousands of dollars to West Hastings was secured through the persistent efforts of Mr. Porter.

Returned Soldiers

The welfare of returned soldiers and their dependents has always been the first thought of Mr. Porter and he has always been at their service. Good positions have been secured for many returned soldiers through Mr. Porter's efforts, and he has been able to help the returned heroes and their dependents in many ways.

Compensation For Land.

Compelled the Government to pay proper compensation for land taken for and damages sustained by reason of the Trent Canal.

Assisted Mineral Industry.

Procured a remission of duty on raw mineral products shipped to the United States for refining and reshipment into Canada in the finished article.

Mineral Land Survey

Advocated a re-survey for mineral products in Hastings County (same having been made for 30 years) and work will begin this next spring.

Patriotic Contributions

Has given thousands of dollars for Patriotic and Red Cross work and bought War Bonds to the extent of his ability, being a man of very moderate means.

Fought For City.

Fought the city's case to compel the C.N.R. and C.P.R. to build subways on Front St. South and on the west side of the river, spending weeks of time and making many journeys to Ottawa free of any cost or charge to the city.

Dredging

Secured the dredging of the harbours of Belleville and Trenton.

Increased Railway Facilities

Insisted on and procured increased railway facilities for North Hastings, bringing up daily mail service, after service had been reduced to three trains per week owing to war conditions.

New Postoffices Established

Has established a number of new post offices where there was no rural mail delivery.

Business For Trenton

Procured contracts for local contractors on Trent Canal and the Subway at the Trenton end of the Canal (not; whether large amounts for material and labor was expended to the advantage of the people of West Hastings.

Helped The Business Man

Procured inter-switching of freight between all railways running through Belleville.

Railway Crossings Protected.

Procured by his advocacy orders from the Railway Commission to properly protect the Railway Crossings of the C.N.R. and C.P.R. in Sidney township near the cemetery and at the Bay Bridge.

Abolished Net Fishing.

Procured the abolition of net fishing in the Bay of Quinte from the Murray Canal to the Telegraph Light for the benefit of sportsmen and the protection of fishing interests.

Dredged the Narrows

Procured the dredging of the Narrows at Telegraph Light to allow deep draught boats to navigate our bay.

National Highway

Advocated and was one of a Special Committee to urge upon the Government the construction of a National Highway from Montreal to Detroit which would pass through Hastings County, but the Bill was killed by the Senate.

Immigration Agent

Secured the appointment of an Immigration Agent in West Hastings to encourage British labourers to locate here; many scores of whom did so.

Military Headquarters

Procured Belleville to be made a Military Headquarters for recruiting and mobilizing by which many thousands of dollars were expended here; our merchants getting the benefit.

Brought Business to Belleville

Was instrumental in procuring contracts for various local manufactures to produce clothing, munitions and war material, which brought many more thousands of dollars to Belleville.

Nearly all this, has it is true, been done in the last six years, for during the remainder of the time Mr. Porter was in opposition to Sir Wilfrid Laurier's Government, with which he had little chance to do anything.

Hastings Marble for Ottawa

Attended to have the marble, quarried at the Bancroft quarries, used in the new wing of the Parliament Buildings, thus giving great prominence and valuable advertising to that product.

Frankford Steel Bridge

Obtained grant of $22,500 for construction of steel bridge at Frankford and the free use of the Government grounds there for a Recreation Park for the citizens.

Even this does not exhaust the list of Mr. Porter's activities, and he has reason to be proud of his record, and West Hastings should show it's gratitude for it—and it will do so.

400,000

LIKE CAVALIERS OF YE OLDEN TIME

They Sought Combats With Those Who Would Accept Their Gage—Feat of Fort Carry Horse—Swept Proudly Out From Mauleres Village on Their Chargers

British Headquarters in France, Nov. 20.—The British cavalry have had many thrilling experiences since the battle began in the Cambrai sector last Tuesday, and opened a way for them into the great territory into which they have roamed almost at will, like cavaliers of old seeking combats with those who would accept their gage.

Stories of their gallant charges with German troops, against enemy batteries and going into strong infantry positions have been innumerable. But perhaps none of them had a more exciting time than a squadron of Canadian horsemen, the Fort Carry Horse, who took their way in a north-easterly direction from Mauleres after the eventful smashing of the Hindenburg line.

They swept proudly out of Mauleres on their chargers, with their sabres making merry music against their trapping. They returned afoot, and thereby have a narrative of bravery and strategy which is worth recognition.

For a considerable distance the horsemen cantered through the undulating grass lands, without encountering any enemy. East of Rumilly, however, they came upon certain British tanks which had run almost into a German battery position and were being fired at point blank range by great guns.

CHARGED THE GUN CREWS

The machines were in a tight place and needed assistance badly. They got it. The cavalry came pounding up in column of four—and their leader, slaking up the situation, made a conswerving in on either side of the battery. Then they charged in straight among the gun crews, their sabres flashing. It was over in a moment and the last enemy lay trampled upon.

This brief episode finished, the cavalry trotted off in search of other adventures. Not far away was a sunken road which concealed considerable enemy forces, armed with machine guns. Cavalry scouts discovered this trap, and dashing back, gave the word to the commander. The commander snapped out a command and the squad, most of whom were unaware of the presence of a sunken road, divided into two bodies, one of which decided to ride to the right towards a bend in the wall of the road, while the others drew their sabres and charged straight ahead.

The Germans, not knowing that British cavalry was in operation in that section, still remained in the trap. Suddenly and the Canadians reached the edge of the miniature precipice without seeing the enemy. They saw them in numbers, and realized for the first time that they were headed for a drop of several feet to the level of the road.

NOT A MAN DISMAYED.

Not a horseman hesitated. They took the flying leap straight down amongst the surprised Germans and began their work of death. Half a hundred of the enemy lay dead when the remainder took to their heels and fled toward Rumilly. The cavalry commander then set out to round up the remainder of the advancing British forces and decided to remain in the sunken road for a time until he could get others to join him. He sent back a courier to carry information as to the location of the squad. It was fortunate for that same party of German machine gunners was stationed to a commanding position near by and these opened a grilling fire on the cavalry and succeeded in killing several horses within a short time.

It became apparent that the men and the rest of the horses must suffer the same fate if they remained where they were. The commander knew it would be suicide to ride out into the open, and he seized upon an ingenious plan to outwit the Germans. The troopers stripped off their own empty saddles in the direction of the battery. The ruse worked, for the Germans, peering through the mist, thought the horsemen were escaping.

FOOLED THE ENEMY.

The machine guns came into action against the galloping horses, and the troopers meantime made good their escape from the road. They started back, but losing their way, at one time were actually in the outskirts of Rumilly. This may have given rise to a report which became current that the British had occupied the village.

The Canadians continued their journey toward what they thought were the British lines. As they were proceeding they were challenged by a German officer with nine men. It happened that among the troopers was a little chap who spoke German fluently. He was sent forward with orders to engage the officer in conversation until the rest of the troopers could close in with their sabres.

The little emissary fulfilled his mission by engrossing the attention of the officer with a cock and bull story to which the German listened intently. He did not know that the British cavalry was in his rear. He listened a moment too long; however, for the Canadians rushed in and killed the officer and the others was taken prisoner and was enabled to conduct the horsemen back to their own lines.

Stomach Medicines are Dangerous

DOCTORS NOW ADVISE MAGNESIA

Just how dangerous it is to medicine constantly dose the stomach with drugs and medicines is often not realized until too late. It seems an easy thing to swallow a dose of some special mixture or take tablets of soda, pepsin, bismuth, etc., after meals, and the folly of this drugging is not suspected until, perhaps years afterward, when it is found that gastric ulcers are almost sure to form in the lining of the stomach walls. Regrets are then unavailing; it is the early stage when indigestion, dyspepsia, heartburn, dizziness, and sickness excess-sive acidity of the stomach—the fermentation of food contents that proper caution should be taken. Drugs and medicines are unsuitable, and often dangerous—they have little or no influence upon the harmful acid, and the after effects are disconcerting to them and advising sufferers from indigestion and stomach troubles to get rid of the dangerous acid and keep the food contents bland and sweet by the use of a little pure bisurated magnesia instead. Bisurated Magnesia is the absolutely pure lyptidol which can be readily obtained from any drug store. It is absolutely harmless, is practically tasteless and a teaspoonful taken in a little warm or cold water after meals, will usually be found quite sufficient to instantly neutralize excessive acidity of the stomach and prevent all possibility of the food fermenting.

Hospital for Sick Children

College St., Toronto

ITS CHRISTMAS MESSAGE

Dear Mr. Editor:—

Thanks for your kindness in allowing me the privilege of appealing to your readers this Christmas time on behalf of the Hospital for Sick Children, the "Sweetest of all Charities," which, as little minister the cure of the helpless, the sick, the crippled, the suffering.

There never was a year in the history of the Hospital when there was a call on the work were more needed than now.

Your purse is the Hospital's Hope. Your heart, light, love, and the power of mercy on the Christmas "tree of health that the Hospital bears among the troubled roadway of man's little life.

So I am asking you for aid, for the open purse of the Hospital's friend is the hope of the Hospital's cause, and just as the open door of the Hospital's mercy is the hope of the little children throughout the year.

Calls on generous hearts are many in these times. Calls on the Hospital are many at all times, and especially when food and fuel and drugs and many other costs are soaring high. YOU know the high cost of living. Do you know the high cost of healing—of saving the lives of the little children? What you do to assist is the best investment you will ever make.

Do you realize what this charity is doing for sick children, not only in Toronto, but for all Ontario, for out of the total of 3,746 in-patients were treated 466 came from 254 places outside of Toronto, in every field of the Hospital's service covers the entire province, from the Ottawa to the far-off Keewatin—from the borders of the Great Lakes to the farthest northerly district.

The Hospital is doing a splendid work. If you could see the children with crippled limbs, club feet and other deformities, who have left the Hospital with straightened limbs and perfect correction, your response to our appeal would be instant. In the Orthopedic Departments last year a total of 3,746 patients were treated; and in the Out-Patients' Department there were 1,948 attendances.

Let your money aid the Hospital's mercy lift the burden of misery that curses the lives, cripples the limbs and saddens the mothers of the suffering little children.

Money mobilizes the powers of help and healing for the Hospital's life-day and night against the ravages where disease and death assail the lives of the little ones.

Remember that every dollar given to the Hospital is a dollar subscribed to the Liberty Loan that opens the prison of pain and the Bastilles of disease, and sets little children free from the tyranny of fear and relieves the mercy of God's sunlight.

Will you help? Please do more if you can, to Douglas Davidson, Secretary-Treasurer.

J. ROSS ROBERTSON,
Chairman of the Board of Trustees.

Wales, Mar., Board of Trade has sent a warning to the Mayor of Kitchener as to the probable consequence of any republican activity such as that of last Saturday, or failure to elect a Unionist representative.

CAMPAIGN NOTES

There are 36 seats in Quebec where there are no Unionist endorsations.

Montreal Independent Labor party refuse to withdraw their candidate in favor of W. F. Cockshutt, Unionist.

Mr. Joseph Bernard, Unionist candidate for Quebec county, was injured by a wild bronco at Lacrosse Lorette.

Hon. T. W. Crothers, Minister of Labor, has had a good reception in West Elgin during his series of meetings.

Brother party lies, for the purpose of securing soldiers' vote, singled out candidates either in Kent or St. Mary's.

The names of all candidates nominated have been cabled overseas and to Bermuda for the information of soldiers.

Thirty-seven Labor candidates have been endorsed through Walter R. Rolls who is himself a candidate in West Hamilton.

Sir Wilfrid Laurier is to address a meeting in Ottawa Tuesday next. He will likely speak at Winnipeg on Monday, December 10th.

The Government has not recognized, or endorsed, the North Wellington, Kent, Victoria, Saskatchewan, N.B., and a number of Quebec constituencies.

In addition to those already given the Government has recognized J. D. Chaplin in Rosedale, A. E. McNabb in Northumberland, Dewey Bogue in Stormont, Dundas and Glengarry.

Mr. Percy Cockshutt, Conservative candidate for Brantford, has the support of the soldiers, women and workingmen of Brant and called Sir Wilfrid Laurier to account throughout his political career.

An interesting point in connection with the recent exemption of Sir Wilfrid is in the case of Geo. Washington McPhee, running in Mackenzie, Sask., who has already been approved by Sir Robert Borden.

H. M. Mowat, K.C., Liberal Unionist candidate in Parkdale, pleaded for unity before a Huntsville Conservative Unionist meeting and declared titles were 20,000 young men in Toronto who ought to be drafted.

has wired Sir Wilfrid Laurier objecting to his endorsation. Mayor J. W. Bowlby, of Brantford, says he does not want Laurier's endorsation, but desires to run as an absolutely Independent Liberal.

In eleven seats in which there are contests, Sir Wilfrid Laurier has endorsed no candidates, namely, in South Toronto, York East, Hamilton East, Hamilton West, West Hastings, Welland, North Grey, North Oxford, Kent, Joliette and Yarmouth and Clare, N. S.

In South Bruce a curious situation has arisen. Reuben E. Truax, the former Liberal member of the Commons, who stood for a referendum on compulsory military service and also for the Military Service Act, has been recognized as the Laurier candidate. He is now seeking to escape such endorsation. In consequence of his attitude Sir Wilfrid Laurier has written to the Clerk of the Crown in Chancery asking that if the law will permit the endorsation be withdrawn.

Fought Close To The Ground

British Army Headquarters in France, Nov. 20.—That the Germans attach the greatest importance to Bourlon Wood and the village was fully evidenced by their strenuous resistance and the intense counter-attacks hurled against the British lines. A number of iron machines led the advance to Bourlon Wood Friday, with British planes circling over the enemy at a height of from 30 to 50 feet, and carrying on a vigorous warfare with their machine guns and bombs.

It was hard fighting, but the advance was continued successfully until the most dominant of the wood was reached, where the tanks were held up by a strong force of the enemy. British airmen who had been fighting close to the ground, deliberately charged down on the enemy infantry with machine guns pumping a steady stream of bullets into the German ranks. The battle was short and decisive. The aeroplanes maintained such an intensive fire that the defenders were forced to retire with considerable loss. The tanks then pushed on, the conquest of the wood being completed with an entering wedge having been driven into the village.

KEPT AT THEIR TASK.

The work of the British aeroplanes during the present offensive forms a graphic chapter in itself. Despite the vile weather which compelled them to operate within a few feet of the ground, their gallantry aroused the admiration of the infantry, and rendered invaluable assistance both in reconnaissance and offensive operations.

There have been almost continual battles between German infantry and British airmen flying as low as 20 feet above the ground. Never before has this kind of warfare been carried out on such a large scale. Pilots have attacked infantry and gun crews indiscriminately wherever they encountered them, and inflicted heavy casualties on the enemy with bombs and machine guns.

The nature of the fighting can be seen from the experience of a British pilot whose machine was literally shot to pieces by rifle and machine gun fire, and who finally crashed down behind his own lines, with ten bullet holes through his clothing, although he himself was unhurt. Another airman yesterday presented himself at headquarters, having been shot down by the Hun lines, within two days. He was delighted over his experience and immediately applied for another machine so that he might go up again.

ATTACKED ENEMY COLUMNS

One aviator attacked a column of German infantry marching in close formation, and hurled two high explosive bombs directly among them. The troops scattered, and as the airman whirled away he saw two heaps of dead bent two huge craters which the bombs had torn in the road. There were innumerable cases of airmen successfully bombing aerodromes, troop transports and gun crews. A large number of artillery crews have been wiped out either by machine gun fire at close range or by bombs.

Naturally many of the airmen had miraculous escapes from death, and some, of course, have paid the full price, and have gone to swell the toll of heroes men who have given their lives for King and country. Among the battlefield's escape reported is that of an aviator whose machine was torn by rifle fire as was fighting German infantry with his machine gun. He was caught in the shell fire and the wings of his machine were shot away.

Fortunately he was flying only 20 or 30 feet above the ground and close to his own lines. He crashed in No Man's land and found himself unhurt. He immediately came under rifle and machine gun fire, but he found a German rifle with some ammunition and engaged the enemy single-handed. As he fired he worked himself back until he reached one of his own patrols.

Then, in his much humor in fighting of this nature, but one incident occurred which is making the whole British air service laugh today. One of the youngest British airmen was flying at a low altitude when four Huns

emy machine guns opened fire on him. He swooped down and shot three of his opponents as he swept by. The fourth machine gun kept firing, and the airman in a rage, with his machine chief leaned over the side of the car wiggled his fingers in joyous derision at the Germans. Just as he was in the midst of this interesting performance his opponent sent a bullet squarely through the palm of the airman's open hand.

NERVOUSNESS AND BLUES
Symptoms of More Serious Sickness.

Washington Park, Ill.—"I am the mother of four children, and suffered from female troubles, nervousness, spells and the blues. My children had to run the house and cooking would make me sick. I could not rest everything in pieces all the time. I was overtaxed and had no sick spells. I want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound has entirely restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say "Why do you look so young and well?" I owe it all to the Lydia E. Pinkham remedies." —Mrs. Rose Stoffel, Sage Avenue, Washington Park, Illinois.

If you have any symptoms like those which prompted Mrs. Stoffel to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

RUSSIAN SITUATION DOES NOT IMPROVE

More Fighting in Petrograd Country Cut Off From Communication With Western Allies—Lenine Threatens to Call Russia's Debts

LONDON, Nov. 30—The second edition of the Daily Mail yesterday contains an apparently unfinished telegram from Petrograd, dated four o'clock Wednesday, indicating there has been a renewal of trouble there. It says there has been some firing, and that several persons have been wounded.

CESSATION ON ALL FRONTS EXPECTED

PETROGRAD, Nov. 30—The Bolshevik has received formal notification from Ensign Krylenko, its Commander-in-Chief, that a complete cessation of all hostilities on all fronts was in sight through the acquiescence of all German front commanders to the negotiation of a separate peace. Friendly understandings had indicated that agreement for a meeting to discuss an armistice had been obtained on the Fifth army front. The official report from Krylenko, however, covers all fronts.

At a meeting on Sunday, ratifications for both sides will come. The Germans, it was stated, will be represented by the North army commander, Krylenko says, he said, the situation on the front of the Russian Fifth army is thoroughly upon the staff of the Bolshevik government, and in the meantime cessation of all fighting on the front of the Fifth army has been ordered by the Bolshevik army committee.

Fighting Will Reinforced

From Germany Has Been Sent Back to Help Quell Bolshevik Uprising

Nov. 30.—Until sufficient information is available to take the place of the first contingent men now at the front it is impossible to give them a furlough, said General Newburn, Minister of Militia, this morning.

Newburn was asked whether the report of A. E. Fripp, K.C., M.P., for Ottawa, to the effect that the Minister of Militia had told him that if 100,000 men were obtained by conscription 50 men of the first contingent would be allowed to come home was correct.

General Newburn issued the following official memorial in connection with the matter:

"The department of Militia and Defence cannot give an opinion on the question of the possibility of sending men of the first contingent furlough to come home, especially the married men.

"The militia department would be glad to give its furlough if possible. The lack of reinforcements for the Canadian corps, both in the corps and in the militia organization, is very seriously affecting the efficiency of the corps and its ability to do anything very effective. It is therefore considered that every effort should be made to get reinforcements for the corps as soon as possible. The first contingent men, who have been on the front for nearly three years, should be relieved, but it is not possible at present time to say that not until sufficient reinforcements are available."

MONTREAL LIQUOR HOUSE SEEKING ELECTION ORDERS

TORONTO, Nov. 30—Candidates have received circulars from a Montreal house that is now doing a big business in shipping liquor here, offering to take a deposit from the candidates and have liquor sent to any address.

"No doubt during the coming campaign you will require some refreshments for your friends or prospective friends," says the circular. "Our solicitors advise us that you are strictly within the law. We trust you will give this your consideration. Wishing you all success in your campaign."

Huns May Give Up Invasion

(Special to The Intelligencer)

LONDON, Nov. 30.—A Rome despatch reports a heavy movement of troops behind the German lines and says this is believed to indicate that the invaders, despairing of success in this attempt to breach the Italian line, are moving them for a slow clear-out. The Italian forces are now definitely on the offensive at numerous points.

THREE KILLED AT TRENTON

Serious Accident Results in Death of Three Men, Three Several Were Injured

A fire which occurred at the plant of the British Chemical Co. plant at Trenton, early this morning resulted in the death of three men and the injury of four others. The dead are:

P. D. McDonald, of Perth.
J. R. Smith, of Perth.
S. Months, of Quebec.

Four others were more or less seriously injured, two being burned about the face and two about the body.

Edwin Gorman, of Tyne, is dead, his condition is said to be critical. He is a cousin of George Lee, of this city. The injured men are being treated at the company's hospital at Trenton. None of the men were married.

TRY TO INTIMIDATE BROCKVILLE VOTERS

BROCKVILLE, Nov. 30—It is reported that a dangerous canvass is being conducted in Brockville. The argument used is that if Thomas White and Union Government prove victorious the Military Service Act will be enforced, but that if Sir Quebec will break out into open opposition. The Government authorities are investigating the matter and an investigation will be made under Defence of the Realm regulation.

GERMANY BOASTFUL BUT WANTS PEACE

(Special to The Intelligencer)

BERLIN, Nov. 30—Count Von Hertling, the new Imperial German Chancellor, entered upon his office in the Reichstag today, announcing that German arms had been uniformly successful on the whole western world front. He declared he intended for R. Germany was ready to enter into peace negotiations with Russia, he said, and expressed the hope that the present efforts would lead to a general peace.

AUSTRIAN ARMY FOR GENERAL PEACE

(Special to The Intelligencer)

AMSTERDAM, Nov. 30.—The Austro-Hungarian Government, according to a Vienna despatch, has accepted the Russian Government's proposal to enter into negotiations for an armistice and a general peace treaty.

Lenine Has Been Deposed

(Special to The Intelligencer)

LONDON, Nov. 30.—A despatch from Petrograd says that the government of Lenine has fallen and has been succeeded by a coalition cabinet of advanced socialists, workmen and soldier delegates and peasants. The Bolsheviki party is not represented.

Quiet On The French Front

Special to The Intelligencer

PARIS, Nov. 30.—The French War Office reports a calm over the whole front except in the Argonne, where the artillery on both sides is active.

Sharp Sentence Given Slacker

Two-and-a-Half Years in Pen for Delanitor Under Act

OTTAWA, Nov. 30.—Harold Morris, civil servant, charged with refusing to register under the term of the Military Service Act, was sentenced to two and a half years in the penitentiary.

Morris, who comes from Montreal, was working in the Lands Branch. He was arrested two weeks ago because of certain remarks, he had made publicly to the effect that he would not comply with the Military Service Act.

Being in Class 1 it was his duty to either report for service or claim exemption. When arraigned in police court, he told the court that he was opposed to the war and would not submit his case to the arbitration of a military commission. Sentence was passed on him after he again refused to obey the law.

CANCELLATION OF DEBTS IS SERIOUS

WASHINGTON, Nov. 30.—Cancellation of Russian war debts to the United States would mean sweeping aside a bill of nearly $10,000,000. This amount, already paid out of an authorization of $325,000,000 has been expended in the United States, chiefly in paying munitions debts which otherwise might have gone by the board.

American Government officials have held that it was wise to give Russia support in recent months because of her sore straits, particularly because some American industries would have suffered severely, had their Russian bills not been paid.

Congressmen have manifested a disposition recently to inquire into the Russian loans and to oppose further disposition of funds until Russia appears stable.

While arrangements of a Bolshevik armistice with Germany appeared today to be only a matter of a brief time, some authorities here felt that a strong figure—maybe Kaledines—would arise to stir the nation as a whole to break this agreement.

While the apparent dwindling of the moderate socialist movement proceeds and while the Bolshevik gain in power, still it is felt that there is another spirit in Russia than the peace-at-any-price attitude of the Bolsheviki.

The Entente proposal to warn Russia of its danger would probably be seconded by the United States, inasmuch as an American statement might gain influence from America's position as a free democracy.

BOGUS ENUMERATORS ARE WORKING IN THIS CITY

Returning Officer Morrison Issues Warning to the Public That Men Falsely Representing Themselves to be Enumerators are Working in City

Some peculiar developments are occuring in connection with the election and Belleville homes are being visited by two men who claim to be enumerators appointed for the purpose of compiling the voters' list to be used in the approaching election. As the city enumerators have practically completed their duties, citizens are warned against strangers claiming to be enumerators.

In this connection Mr. M. B. Morrison, Returning Officer for West Hastings, has received the following telegram from the Dominion Returning Officer:

Ottawa, Ont., Nov. 30th, 1917.

"M. B. Morrison,
Returning Officer,
Advised that unauthorized persons being understood to be or representing themselves as enumerators.

Misunderstanding and confusion have resulted in some places. You are authorized and advised to procure and deliver to each enumerator inexpensive badge or button to be worn as indicating his office as such.

W. F. O'CONNOR,
General Returning Officer.

It has been reported that two men have called at residences in this city during the past few days asking for names of voters and giving false information as to who is entitled to vote. By quickly reporting any further occurrences of this kind to the police authorities citizens will be doing a public service.

Mr. Morrison has issued the following warning to the public:

THE OFFICIAL ENUMERATORS

The public is warned that the only authorized enumerators for the city of Belleville are as follows:

Foster Ward No. 1—W. C. Reid, Dundas street.

Samson Ward No. 2—W. L. Doyle, City Hall.

Samson Ward No. 2—Lieut. David Ketcheson, Albert street.

Ketcheson Ward No. 4—W. H. Nugent, Shire Hall.

Ketcheson Ward No. —J. W. Holmes, City Hall.

Baldwin Ward No. 6—Edward Naylor, Peter Arkona.

Baldwin Ward No. 7—R. W. Adams, Campbell Street.

Bleecker Ward No. 8—Hope McGinnis, Mill Street.

Bleecker Ward No. 9—Alfred Doxter, Station Street.

Coleman Ward No. 10—Charles Hanna, Moira Street West.

Coleman Ward No. 11—S. H. Everston, Moira Street West.

Murney Ward No. 13—W. A. Woodley, Catherine Street.

Murney Ward No. 13—S. T. Vandervoort, Catherine Street.

Murney Ward No. 14—R. H. Ketcheson, Everett Street.

Villa Is Out On War Path Again

Four Chihuahua City Will be Attacked in Next 48 Hours

EL PASO, Texas, Nov. 30.—Chihuahua City may be attacked by Villa troops within the next forty-eight hours, according to American refugees here today, who are in close touch with the situation south of the border.

Villa's attack on Monday on the pay train at El Mocho and the troop train near Gallego, has caused much uneasiness here, as this was thought to be preliminary to an attack in force at Chihuahua City. It was predicted that Villa would move today, the anniversary of the date of the capture of the city last year. The Juarez garrison has been practically depleted to furnish reinforcements that south.

The whereabouts of General Hernandez and his column is not known, but Villa was believed to have studied his plan by marching across country from Cuyaco to El Mocho on the Mexican Central Railroad, where he attacked the pay train and killed General Eduardo Chavez, the Paymaster General whose body reached Juarez last night together with a number of wounded.

The Federal losses in dead and wounded in the fighting Monday have not yet been given out, but were estimated at more than one hundred.

KIDNAPPED WOMAN BRANDED AND DAZED

Police of Several Cities Puzzled by Remarkable Case—Victim Was Abducted in Railway Station—Taken to Room and Drugged

CHICAGO, Nov. 30.—Branded on her breast and back, apparently with acid, and dazed as if from drugs, Mrs. Ida Browning, aged 24, of Somonauk, Ill., was found semi-conscious in the union station here last night. She revived two hours later at a hospital, and told of having been kidnapped at a railroad station in South Bend, Ind., and held by a man and a woman, who, under the pretence of helping her, had enticed her into an automobile.

The mystery surrounding the woman was intensified when she was undressed at the hospital. Pinned under the front of her waist with a crudely-made dagger, was a note reading:

"We mind business. Beware."

Concealed in the dress was a note, apparently written by Mrs. Browning: "Notify my husband, Jim Browning, at Somonauk."

"On her back, the physicians found a small patch of skin reddened as from an acid with the letter R. burned distinctly into the flesh. On her breast, a crudely-drawn butterfly had been burned with the same acid.

Mrs. Browning said she had left the train at South Bend to check her baggage for Illinois, when a man and woman informed her she was at the wrong station, and offered to take her to the right place. She said she remembered nothing after entering the car until she woke up confined in a room.

The police of South Bend, Somonauk and Three Rivers, Michigan, which the police believe is the town in which she was held, have been notified.

Several times, Mrs. Browning said, she remembered being given something to drink, after which her mind would become a blank. She said she was unable to tell how she escaped from her captors, nor how long ago it was, nor how she reached the station in Chicago.

QUEBEC HOODLUMS ATTACK UNIONIST MEETING

Roughs Riot for Three Hours—Interior of Theatre Smashed—Women Terrified—Speakers Continued Addresses—Audience Fights Back

SHERBROOKE, Que., Nov. 30.—The most serious disturbance that has occurred in the Province of Quebec in the present election took place here last night at a meeting in His Majesty's Theatre, where Hon. C. J. Doherty, Minister of Justice, and Hon. C. C. Ballantyne, Minister of Marine and Fisheries, sought to give assistance to the Unionist candidates here, W. S. Davidson. It was a riotous crowd of hoodlums who started the trouble, which ended only after the front of the theatre had been wrecked and a cyclonic effect had been given to the interior by, successive fights. The rioters were held back only by the well-directed fire of a fire hose at the disposal of the

they attempted to storm the stage where the speakers were. The riot lasted more than three hours, during which period the howling mob broke through the doors of the theatre and were repelled by the audience on the ground floor, and who, each time that the gang broke into the theatre, rose up in their might and drove them back.

It was a series of pitched battles, and there were at least 20 of them. The whole of the front of His Majesty's Theatre, where the meeting was held, was smashed to splinters. Not a single piece of glass was left intact, and though the broken windows stones of all sizes were hurling

THE ONLY WAY TO SUPPORT UNION GOVERNMENT

IS BY VOTING FOR CANDIDATES ENDORSED BY PREMIER

When the Electors go to the Polls they will have to take one of two courses—they must either support the Union Government by marking their ballots for the Candidates Endorsed by the Government, or aid the forces of Laurier by marking their ballots for Candidates opposing the endorsed candidates of the Government. There is no third course when it comes to marking the ballot. There is only one thing as at Independent Unionist or Independent Liberal. All Candidates are either the accredited representatives of the Union Government or opponents to that Government. It is for the people to say by their votes whether they favor a Union Government or the policy of Laurier.

This applies to the two Hastings and Prince Edward.

Mr. Porter is the accredited Representative for West Hastings.

Mr. Thompson is the accredited Representative for East Hastings.

Col. Hepburn is the accredited Representative for Prince Edward.

All who desire Union Government and a successful termination of the War, should support and cast ballots for Porter, Thompson and Hepburn, leaving the independents and opportunists at home.

EVERY CANADIAN SOLDIER CAN VOTE AT ELECTION

Whether in Trenches or on Leave, in France or England, or Neutral Countries—System Perfect—Appeals of Both Sides in British Press

LONDON, Nov. 30.—Again today, almost every journal has its Canadian election story, specially prominent being given to Gen. Turner's message to Gen. Mewburn making it clear that the Fifth Division must be dispersed to reinforce Gen. Currie's divisions in France unless fresh drafts are immediately forthcoming.

The Union manifesto's published in to-day's papers asserts that at least a year's delay would be caused by Laurier's referendum proposal.

Mr. Preston, on the other hand in a manifesto on behalf of the Liberal candidates, asserts that the referendum will cause no delay, and will secure a united Dominion. Mr. Preston also begs the overseas' electors, to remember that in forty years of political life Laurier has kept every pledge given to the public "you can trust him again."

Union statements tell the Canadian soldier he has the choice between the able to vote. Sweet heralded Canadians in Switzerland will be reached.

Mr. Oliver, Laurier's Lieutenant, who has never ceased to depreciate the work of Canadian generals in the field."

The choice is also between "treachery to our splendid ranks and a creed of shirking betrayal which will stain the fair name of Canada and make the dead of Ypres, Courcelette, Vimy and Passchendaele turn in their graves."

Another published statement is: "Every nation in this war is watching the way Canada goes. Germany is more interested than anybody. Prussia has a good finger in the underground anti-Government propaganda going on throughout the Dominion just now."

Col. Furney, the returning officer, says the polling machinery is so perfected that every overseas elector, whether in the line, hospital or camp, or on leave here or in France, will be

ALLIES SITTING IN PARIS CONFERENCE

Leading Statesmen of Allied Powers Gather at Momentous Council Board to Discuss Actual War Situation and Provide For New Difficulties

PARIS, Nov. 30—The Italian Government will not hesitate energetically and fully to investigate the Italian disaster and fix responsibility therefore," declared the Minister of the Treasury, M. Nitti, on the arrival for the Inter-Allied Conference.

CONFERENCE OPENED

PARIS, Nov. 30.—The first formal session of the Inter-Allied Conference opened promptly at 10 o'clock yesterday morning.

A great deal of the preliminary formal work of organization of the council has already been effected by informal, individual meetings, so that it was expected the statesmen to-day could begin almost at once the discussion of vital points which have called them together.

Foremost in the problems which the meeting will be called upon to consider is the Russian situation. Calculations must be made for the release of a considerable number of German and Austrian troops now on the Russian fronts, now that it appears the Bolsheviki and the Germans will certainly sign an armistice next Sunday.

Fifty-four statesmen for the Allies are sitting in the meeting. The Premiers of England, France, Italy, Serbia, Greece, Portugal and Montenegro head their respective delegations. The Foreign Ministers for England, France, Italy, Belgium, Montenegro and Portugal are present, together with various ambassadors, special envoys, cabinet members, high officials of all the Allied Powers. The meeting is being held in the building of the French Ministry of Foreign Affairs.

Premier Clemenceau's Welcome

Premier Clemenceau, who presided, made a brief speech of welcome, after which the delegates at once began work.

Before beginning consideration of the program submitted for examination, the delegates had to decide upon the order of their deliberations, and the appointment of questions for discussion by various technical committees.

The Conference is called upon above all to discuss concrete problems such as food supplies and the blockade, upon which specialists among the delegates will prepare opinions.

This preliminary work is likely to occupy the first plenary session, after the close of which the various committees will sit separately. Another plenary session will close the conference, which is expected to occupy three days. There will be an official luncheon at the Foreign Office on Saturday.

RELIEF FOR ITALIANS WAS JUST IN TIME

WASHINGTON, Nov. 29—American Red Cross relief for Italian families driven from their homes by the Teutonic invasion came just in time, Despatches to headquarters here to-day told of the plight of the refugees and of energetic relief work carried on by the Red Cross.

"Venice is the critical point," the message said, "both because of the sentiment attaching to the city and on account of actual, impending need. The more prosperous elements of the population are nearly all gone, including workers in industries. Therefore, great need of help for remaining 15,000 families now receiving relief here, both to move and keep them together in self-supporting colony, are planned."

A delayed cablegram from Major Murphy said forty-six carloads of assorted supplies have been shipped into Italy from France, and that condensed milk had been distributed to children and the sick from Genoa and Milan. It also told of railroad lots of supplies at Florence, Bologna, Naples, Catania, Leghorn, Genoa and Milan and twenty-three ambulances with experienced personnel coming overland from Paris, and of plans for increasing the number of Red Cross ambulances with the Italian army . . . 200.

BELLEVILLE CAN MAKE IT TWO MILLION DOLLARS

Double Objective Passed—Now For Two Million Mark—Result of Victory Loan Campaign in Hastings County is Beyond Most Optimistic Expectations

With only one more day left in which it will be possible to buy Victory bonds the rush to get in on the offering is increasing hourly. The staff at headquarters is rushing day and night getting out the reports and receiving the returns, and writing applications. For that reason it will be necessary to keep the headquarters open until 12 o'clock Saturday night to accommodate the late comers, and clear up the big Saturday returns. Therefore, anyone not having yet bought a bond will be accommodated until that hour on Saturday night. If anyone is unable to come down town between and Saturday night, call 800 on the phone and a canvasser will call and explain the Victory bond, and receive the will write the application.

Last night the Citizens' Committee met at the office of Mr. Taylor, manager of the Merchants' Bank, and it was decided to invest the money which is held in trust by the "Ladies' Victory Bonds." The amount is $600. This is a most satisfactory thing to do. The money will be helping to end the war, and after the war is over the Citizens' Celebration Committee will once more become active with a nice little nest egg with which to greet our men upon their return home from the victorious battlefields in conquered Germany.

The interest taken this week in the contest for the Victory bond in Griffin's Opera House was such that Mr. Griffin has decided to make another bond which will be given away. Upon both these occasions if the lucky number is in the house, no matter who brings it, the owner will be given a $50.00 Victory bond.

The northern parts of the county are coming along in great style. While some places were expected to only give about $2,000 they have come across with $25,000. Oh, there's nothing wrong with the good old County of Hastings. Let everyone get together and give ONE MORE GREAT BIG BOOST FOR THE VICTORY LOAN AND TOMORROW NIGHT IT WILL REGISTER $2,000,000.

MUSIC AND DRAMA

"THE BRAT" AN APPEALING COMEDY

At Griffin's Opera House tonight that appealing comedy, "The Brat," will be played by a typical Oliver Morosco cast of players. "The Brat" is by Margaret Mayo, was one of the most successful plays in New York last season, playing at the Harris & Republic Theatre, with over 300 performances. It proved to be another "Peg O' My Heart" for its humor and sweetness. Great care has been exercised by the management to engage a company of players cast in every way to exact the characters they represent. Miss Ina Martin who plays "The Brat" is one of the cleverest young actresses on the stage today, her winsomeness and charm are appealing. She scatters sunshine all about her and in reforming the youngster brother, Stephen, who has fallen into a life of drunkenness and uselessness because of his mother and brother's continual nagging, she works out her own salvation.

Madge Kennedy, the most popular farce comedienne on the American stage and the heroine of many delightful comedy successes, makes her debut in motion pictures in Margaret Mayo's delightful farce, "Baby Mine," which is being shown at Griffin's Saturday, matinee and night.

The acquisition of Miss Kennedy for motion pictures was one of the notable achievements of the Goldwyn Pictures Corporation, which produced "Baby Mine" among a number of big productions. Miss Kennedy was the fourth of an array of stars to be signed by the Goldwyn organization.

Miss Kennedy's entry into the motion picture field brings to the screen one of the youngest, freshest and most delightful of present-day stage favorites.

"THE LOVE THAT LIVES"

Pauline Frederick, one of the screen's greatest emotional actresses, would grace any role that she was given to perform, but in "The Love That Lives" at the Palace tonight, and Saturday matinee and night, she has been accorded a vehicle which allows her to display the splendid scope of her remarkable talent. It can be truthfully said that in this production, Miss Frederick has attained to heights of artistry never before reached even in her brilliant career.

It would seem on first thought that the role of a scrubwoman held few if any possibilities, yet Miss Frederick has imparted to such a role all the charm and pathos and infinite understanding of which she alone is capable and Molly, the office drudge as portrayed by Miss Frederick, becomes a character that is lovable, understandable and charming.

Daughter of a scrubwoman, Molly has a wee baby daughter of her own whom she resolves shall not follow in the steps of her mother and herself and it is to save the baby girl and her little son that Molly fights with all the strength she knows. The tragedy of this battle of Molly's has been depicted with all its sordid, dismal truthfulness, yet lightened by flashes of Miss Frederick's inimitable humor and many attractive glimpses of her two babies, before the one is taken from her by a terrible accident and the other grows up in ignorance of her very existence.

The scenes of the fire in the office where Molly's and her boy's sweetheart are locked up in an office together with a crazed brute of a man are among the most vivid that have ever been shown upon the screen. Molly's battle with the man, the breaking out of the fire and the entrance of her son, the fireman, at the last moment make an unforgetable scene which impresses itself indelibly upon the mind.

To the Editor of The Intelligencer.

Dear Sir:—Tragic and mournful fatality at Trenton, the Crossing of the C. N. Railway, on the east side of the River, Wednesday morning, around 4 A.M.—a narrow escape of the driver and Constable's automobile to the train—no blame to him—snow storm and ice intervening." Just think of your own wife, getting up before that hour in the morning, tuckin' up with all their care, the wee bairns in bed, kissing them, leaving them and your husband, never to see them in life again, and rushing to the help of an errand of mercy, in catching an early morning train, never to get there, never to reach the cave that called her forth, and never to return again, but trapped in the road away from home and all that she left and loved so dearly, brought back, a more a wife, nor a dear mother, but a cold, stiff, mangled corpse, at her old fireside and home.

Who is to blame for such an accident, and fatality? The Railroad, through operating such a dangerous crossing, in a gulley, between two knolls, screened from sight going either way, it seems not visible until too late to avoid an accident or fatality. The Mayor and Council elect, who allowed such a crossing to pass without guarding the public safety by gates or overhead bridge, such as the Railway Commission, in Orders-in-Council provide? Now too late to lock the door (when the horse is stolen, but to avoid such a further mournful and fearful fatality, as we have just experienced, let our city fathers get to work at once and find the remedy and get quit of such dangers to all citizens of Trenton. This is a crying shame.

Yours in sorrow for the sufferers,

R. WEEDMILL.

MISS BEATRICE COULTER

The funeral of the late Miss Beatrice Coulter, of Consecon, took place yesterday and was largely attended. Services were held at Albery Methodist church by Rev. C. J. Call and interment took place at Albery cemetery. The floral tributes were beautiful and consisted of a pillow from the family; a wreath from the Sunday school, and sheafs from the Ladies' Aid and Mr. and Mrs. E. Brickman. The bearers were relatives of deceased as follows: Messrs. John Garbutt, Andrew Allison, W. B. Smith, L. W. McCutcheon, Earl Weese and Flay Weese.

MILITARY NOTES.

"Wilful" is a view to the protection of the community against the transmission of venereal disease, all members of the Canadian expeditionary force shall submit to blood examinations when so required by superior authority.

Militia orders just issued contains the following: "When in the judgment of the military authorities such procedure is necessary, compulsory vaccination against smallpox and compulsory vaccination against typhoid fever, dysentery, cholera and other such infectious diseases, may be resorted to in the cases of members of the Canadian expeditionary force.

"Notwithstanding the foregoing provisions and in addition thereto, it shall be an offence, punishable by court martial, for a soldier belonging to the Canadian expeditionary force to refuse to be inoculated or vaccinated or to submit to the blood examinations above mentioned, and for such offence, shall, on conviction, be subject to the penalty provided for an offence under section 18 of the Army Act."

VANCE—HURST

Yesterday afternoon at Holloway St. parsonage Rev. Mr. Clarry united in matrimony Mr. Gerald B. Vance and Miss Helen Genaviava Hurst, both of this city. They were unattended and left on the 4.30 train for Toronto and points west. On their return they will reside in Belleville.

INHERITS AN ESTATE WORTH HALF A MILLION

NEW YORK, Nov. 30.—By the death of Sir Horace Cooper, the baronetcy and the family estate in England valued at $500,000 are inherited by Frank C. Cooper, chief of the information bureau in the office of District-Attorney Swann, it became known today when Cooper received a letter from the attorneys in England.

Mr. Cooper declared he will not exchange his American citizenship for the baronetcy but will assume ownership of the estate. The title would have gone to Sir Horace's only son, but the young man was killed on the Somme. Mr. Cooper is a nephew of the First Earl Egerton. A younger brother, Major Charles Cooper, is now governor of the Western Soldiers' Home near London.

American Sailors Take Irish Girls As Brides

In the neighborhood of an American Naval Base, Nov. 20.—Though I have not the exact figures, I am told that the number of marriages amongst the American sailors since their arrival here is very great, and that in the flotillas stationed, in Ireland, marriages now nearly number a hundred since they made their headquarters here, just over six months ago. Irish girls and men of the American fleet got on very well together and the smiling blue eyes of Irish colleens captivated the Stranger. A large percage of the American sailors are Irishmen and they have married girls whom they knew before they went to the United States.

JUNIOR BASKETBALL

Last evening the Frenchies and the Sammies lined up against each other and for the first few minutes it was hard to tell what team was going to score the first basket, finally Pringle, for the Sammies, received a pass near the basket and scored. The ball was faced off and the Frenchies made a rush down to the Sammies' goal and before the Frenchies were aware what was happening, the Sammies had notched the basket, the feature of the game was close checking, very few fouls being made. At half time the score stood 4-0 in favor of the Sammies and at full time it to

LADY MACKENZIE DIED YESTERDAY

TORONTO, Nov. 30.—The death of Lady MacKenzie, wife of Sir William MacKenzie, of the Canadian Northern Railway, occurred at "Benvenuto," yesterday. After a very severe operation last June, Lady MacKenzie for a short time seemed to rally but for the last few weeks she had been gradually losing strength.

Lady MacKenzie was born in Eldon Township, Victoria County, sixty-seven years ago. She was the daughter of the late John Merry, of Kirkfield, Ontario, her mother being a Miss Sullivan. She was a Roman Catholic by religion. After her marriage to Sir William, they lived for a time at Kirkfield, going to British Columbia in 1884. They afterwards returned to Toronto.

Lady MacKenzie has two sons living, R. J. MacKenzie and J. M. MacKenzie, and one other son died some years ago. There are also six daughters; Mrs. Andrews, Mrs. Scott-Griffin, Mrs. W. Beardmore, Mrs. Frank McCarthy, Miss Bertha MacKenzie and the Countess De Lesseps who is now in France, the others being with their mother at the time of her death. A sister, Mrs. Mitchell, of Kirkfield, survives her.

Lady MacKenzie was a woman of wide interests and broad sympathies, and a well known charitable figure throughout the country. She was connected with many well known societies.

Her life work was in remodelling Kirkfield, turning an ordinary Canadian hamlet into a most picturesque village, building the Kirkfield Inn, with its village green and having local option adopted not only there but in the surrounding country.

To the Electors of East Hastings

Ladies & Gentlemen—

Your vote and influence is respectfully requested for T. H. Thompson, Unionist candidate, officially endorsed by the Premier and the Union Government.

I AM IN HEARTY ACCORD WITH THE PLATFORM OF THE GOVERNMENT, AND FOR EVERY MEASURE OF THE GOVERNMENT TO WIN THE WAR.

I am for the ABOLITION OF THE PATRONAGE SYSTEM FOOD CONTROL AND THE REGULATION OF PRICES OF THE NECESSITIES OF LIFE, LIMITATION AND REGULATION OF PROFITS, THE BEST TREATMENT FOR RETURNED SOLDIERS, AND FOR THE DEPENDENTS OF THOSE WHO ARE FIGHTING OUR BATTLES OVERSEAS.

I believe that wealth should bear a greater part of the financial burden that it has done in the past, and that labour should have a just share in the Government of the country. I BELIEVE IN THE FINANCIAL RIGHTS OF WOMEN EQUALLY WITH MEN, AND AM FOR ANY MEASURE THAT WILL AID IN A BETTER SOCIAL AND ECONOMIC RECONSTRUCTION OF CANADA.

WEST HASTINGS WILL SUPPORT PREMIER BORDEN'S PERSONAL CANDIDATE.

The sentiment in favor of Union Government in West Hastings is overwhelming. Loyal electors can not countenance the thought of the least lack of faith on the part of Canada to the brave boys who have sacrificed everything they hold dear to carry on a holy crusade in distant lands beyond the seas, to the end that a cruel and savage enemy may be kept from desolating the homes and bringing destruction and dishonor to Canada. The Union Government was formed from the loyal men of both political parties to submerge partizanship in the all-important duty of the hour, the protection of Canada from a ruthless foe and the support of Canada's army overseas. Mr. Porter as a member of the last Parliament loyally supported every patriotic measure and was fully in accord with Premier Borden. He is today the only Union Government candidate in West Hastings, officially endorsed by Sir Robert Borden and Hon. N. W. Rowell, who ask the electors to mark their ballots for Mr. Porter as the Government candidate, and the soldiers overseas are also asked to support Mr. Porter as the only official representative of the Union Government in West Hastings.

Realizing the strong sentiment in favor of Union Government, the opposition candidate, Mr. Graham, has developed a strong regard for that Government and is asking for votes on the strength of promises to support Sir Robert Borden.

Mr. Graham's professions, had he been sincere, would have had more weight and he could have rendered the Union Government a better service by supporting the official candidate of the Government instead of precipitating a contest by becoming a candidate. Any opposition to Union Government in West Hastings is lined up solidly behind Mr. Graham and despite his professions a man is known by his friends. It is but natural that Mr. Graham should follow the current and in his desire to win the election pose as the tried and true friend of the Union Government. He admits himself that his views on public questions have been changeable in the past and there is no guarantee that his opinions may not be subject to vagaries in the future.

Electors who wish to record their votes unmistakably for Union Government and the whole-hearted support of the soldiers overseas can make assurance doubly sure by supporting Mr. Porter, who has the entire confidence and endorsation of both Conservative and Liberal leaders in the Union Government and has the warm-hearted support of that great statesman, Sir Robert Borden, Premier of Canada, whose politics are swallowed up in the determination that Canada will rise to the full stature of grand and glorious nationhood inspired by the noblest and loftiest ideals.

Mr. Porter's record is known to all. He has never been a wobbler, changing his opinions on public questions over night, but the electors of West Hastings always know wind blew, clinging firmly to his convictions and always having the best interests of West Hastings at heart.

All the forces of the Laurier-Bourassa-Quebec party will be used to defeat Mr. Porter, but not openly as of unmask would defeat their object and this sinister influence in Canadian public life at present will be only too glad to combine their votes with Union Government supporters for that purpose if the latter can be deluded into switching their votes from the official Union Government candidate, Mr. Porter.

Mr. Porter as an experienced parliamentarian and an undoubted supporter through thick and thin of the Union Government, is feared by the Laurier-Bourassa tribe who would destroy Canada. The other candidate is not feared as an opponent by the little Canadians, and at best is only a second choice supplanting a straight Laurierite by force of circumstances and the known loyalty of West Hastings electors.

A vote for Porter is a vote for Union Government and a vote against Bourassa.

NO LITTLE CANADIANISM FOR PRINCE EDWARD COUNTY

Prince Edward County, prosperous and loyal, cherishing the memory of a long line of United Empire Loyalist ancestors who sacrificed every comfort and left happy and prosperous homes to plunge into the wilderness and face every hardship and privation because of their deep and fervent loyalty to the British Empire, is asked to vote for H. H. Horsey, endorsed by Sir Wilfrid Laurier as the candidate of the Quebec party which seeks separation from the British Empire. It is an insult to the intelligence and loyalty of the electors of Prince Edward County to think that they would even think of supporting a policy of abandoning our soldier heroes overseas. The harboring of any such thought would be enough to cause the loyal pioneers, long since laid beneath the sod, to turn in their graves in protest at the indignity flaunted in the faces of Prince Edward electors.

Mr. Horsey, Ruthless, has so ably represented Prince Edward County in the Parliament of Canada, answered the call of King and country like the patriotic citizen he is and his services overseas are so valuable to the Empire that he can not be spared to return to Canada to assist in his own election. In fact he was willing to sacrifice his parliamentary career rather than give up his duty to the nation in the hour of peril. Loyal Prince Edward County would be fear of his retirement, however, and cable messages were flashed across the sea asking him to be the Union Government candidate and assuring him that the electors of Prince Edward County were as loyal today than their ancestors and would see that Col. Hepburn was again elected by the greatest majority that the historic county had ever given to a popular candidate.

Prince Edward electors must be up and doing, however, for the Laurier-Bourassa Quebec party will move heaven and earth to win this loyal constituency and no doubt those forces have been busily engaged ere this under cover using every effort, fair and foul, to win votes for the Laurierite candidate. If by any chance, intrigue, or apathy Prince Edward County is disgraced by the defeat of Col. Hepburn there will be joy in Quebec and rejoicing in the halls of the Hohenzollerns, more so than in many other constituencies where loyal traditions are not so firmly rooted as in Prince Edward County.

Every loyal citizen should rally to the support of Col. Hepburn and give a decided and glorious answer to the would-be wreckers of Canada and their Hun well-wishers by rolling up such a rousing majority that the implied insult to the loyalists of the constituency will be thrown back in the teeth of the opponents of Col. Hepburn in a manner which will show the utter folly of ever having loyalty of a county founded upon the noblest principles of loyalty the world has ever seen.

EAST HASTINGS WILL REPUDIATE LAURIER.

Mr. Cross is asking the electors of East Hastings to mark their ballots for him and thus nullify the votes of soldiers overseas who support Union Government. He asks the electors to vote against the support of Canada's soldiers overseas to substitute useless discussion and referendums for much needed reinforcements to Canada's army. He asks for support of the Laurier-Bourassa-Quebec who would separate Canada from the British Empire. What manner of man is this who would dare to insult loyal electors by asking their votes in support of his leader and the little Canadian policy he represents. Canada's future greatness must not be permitted to be imperilled by the substitution of any such insecure foundation of quick-sand as has been prepared by the nation wreckers of Quebec.

CRISP COMMENT

The open bar in the opposition candidate's committee rooms where refreshments are served free of charge may attract attendance and stimulate enthusiasm but it leaves a bad taste in the mouth.

Blood is thicker than water, and also heavier than the party politics during a war. The women who have soldier-relatives at the front will not desert them in their hour of direst need.

The Laurierite organs, which is boosting the opposition candidate in West Hastings should be consistent and openly advocate the election of his friends, Cross and Horsey, Laurierite candidates in East Hastings and Prince Edward. It sounds truthfully deny that it would not rejoice at their election.

The Grahamville circus and medicine show which is playing one-night stands throughout the township, carrying its own audience and enthusiasm, is drawing "good crowds" for the people do not consider the songs, jigs and music worth the price of admission, while the medicine they are asked to take is too unpalatable to be popular.

The Kingston Whig (Liberal) says that the difference between the two sides in the political campaign is as between the phrases "We will" and "We may." The Union party says to the boys overseas: "We will send you help." The Laurierites say: "We may help; we cannot say when, it will be the most heartening to the Canadians in the mud and horrors of war?

An order from the millionaire candidate for a few extra copies spurred up the Grahamville Laurierite sheet to devote thirteen, more or less, columns last night to its master and candidate, who was pushed into the political field by a "Editor-in-Chief" and the petit colonel. What a glorious time these two worthies are having serving such a shameful cause of vituperation and spleen before King Graham. The public, of course, is not considered. They get news, only libelous boastings, fulsome and silly gush from now until December 17th. The next article from the fiction factory may possibly tell what "E" and the B in Belleville, also how the petit colonel will coo to the babies while the mothers are weeping. The next outburst of hysterics and Edmonton "brain storms" may be expected now as the candidate's Uriah Heaps over the country to pay for extra copies of the Daily Boomerang.

What Graham Has Done for Belleville, West Hastings and Canada is the title of two columns of gush in the Laurierite organ, and intended to be read by intelligent people, for like the 20-148 nomination paper misrepresentation, the destruction of Edmonton, and the "brain storms" from the truth in connection with the bringing out of the opposition candidate, the article is only intended to deceive and is utterly silly. "What Graham Has Done for Graham" would be a better heading for the article which contains very little reference to either Belleville or West Hastings and dwells lovingly on factories in the United States, Iron Bridge and Cobalt Concubia as evidences of what Graham has done for Belleville and West Hastings. All this matter is very entertaining, but all that it proves is that Mr. Graham's business interests are of more importance to him and have little time to spend in the House of Commons as representative for West Hastings even if the impossible should happen. Mr. Graham seems to have the parliamentary free passes on the railways so that he could visit his various plants "on the cheap." For the thirty-seven paragraphs of the Laurierite organ's manifesto there is hardly a hint of anything Graham has done for anybody except Graham. The manifesto defends its own object by trying to induce votes for Graham as it says that what the Liberal party has done very little in a public way for Belleville and West Hastings.

THINK OLD MAN CAUSED DISASTER

ST. HYACINTHE, Que. Nov. 30.—Firemen are still working on the smouldering ruins of the Drey Hotel Hotel Dieu here, the central block of which was totally destroyed by fire yesterday morning, when a section hundred of the nuns and inmates are quartered in the village, waiting until it is possible to make accommodations for them in the buildings not touched by the fire.

A lighted match thrown into a paper chute by an old man in the Old People's quarters is thought to have been the cause of the disaster.

The damage is placed at $200,000, $80,000 being covered by insurance.

THE POETS' CORNER

DECEMBER.

By Muriel Alberta Merrick.

December's shroud enfolds the murky meadows,
The sun is pallen and the earth is grim,
The trees like skeletons stand bare and shivering,
The year is waning and the light grows dim.

December's soul is thrilled with mournful music,
The wind is tuned to dirge-like melody,
Which finds an echo in human heart-beats,
And in our souls he touches a minor key.

In vain we try to hide our grief in gladness
Our mirth is choked with sobs, the laughter dies,
The spirit of the month is masked in sadness
We watch earth's obsequies through tear-veiled eyes.

THE REAL STRAIN

Montreal Star.

Kitchener, Ontario, evidently has a real German strain in it. The country has noted an exhibition of "hatred" when Sir Robert Borden was hooted down.

And the evidence continues to come in.

The Kitchener City Council met to consider a resolution of regret to be sent to Sir Robert Borden—and turned it down!

Could anything be more boyishly German?

Kitchener has come forward in good time to justify the Government's Franchise Bill, which disarmed the Hun in Canada.

A RIGHT AND REQUIRED DECISION

Kingston Standard

Sir Robert Borden has announced that it is the intention of the Government that the service of a member or members of a family during the present war shall be taken fully into account in considering the exemption of other members of the same family from compulsory service under the Military Service Act. This is but just. It is only right that men required should be obtained from families who have each more to fight for their country. Everyone will recognize that this decision, we hope, will satisfy the public that the Government is determined to have the Military Service Act enforced fairly. It will have one effect which will be approved of highly, that of making the Act more oppressive in the Province of Quebec. Out of some 400,000 men Quebec has found just under 7,000. So it is obvious that if the people in the other Provinces choose to avail themselves of exemptions allowed under this decision, greater burden will fall upon the French-Canadian families who have so shamefully shirked their share of the war. The rest of Canada has all along felt that Quebec should be forced to do its duty, and this decision gives a somewhat unexpected additional means of making it do so. Perhaps Sir Wilfrid Laurier anticipated this, and it may be some way to account for his determination to kill the act, if he can, in order that he may save "my people" and earn the title of their "saviour" as well as their votes.

The U. S. Railroad Brotherhood chiefs announced that there would not be a strike.

Utility or Futility

A good watch is a utility of the very first order—a poor watch is a positive futility—nay, worse, it is a constant aggravation.

It is really astonishing why so many watches are carried to carry a poor watch, when they might have a real good one at such little expense.

One can easily "fritter away" say $15.00, and see nothing for it, and yet for the same amount we can give you a thoroughly satisfactory gold-filled watch with 15 jewels, expansion balance and Breguet hair-spring.

Guaranteed, of course.

MAKING MARGARINE AND ITS ORIGIN

Story of Butter Substitute and Description of Manufacturing Process and Ingredients, Interesting Now That It is Being Used In Canada

It is interesting to note that war, which has been the deciding factor in inducing the Canadian authorities to allow the manufacture and sale of oleomargrine in this country, should have also been largely instrumental in establishing it firmly as an article of diet in Paris, and in England throughout France. The facts are these:

Emperor Napoleon III. was anxious to furnish the working classes of France with a substance which would serve the purpose of butter, have much the same properties of butter, but be more cheaply produced. He therefore offered a prize for the discovery of such a substance. Chemists at once started experimenting, and at length a chemist working for the Imperial Farm at Vincennes produced a substance which so far met the requirements that he was awarded the coveted prize.

The inventor followed mechanically what he believed was the physiological process which took place when undercut cows produced the butter fat in their milk from the cut grass in their own bodies. He first reduced beef fat to small particles and placed them under heavy pressure, and then supplied heat to it, of low temperature. This separated the stearin from the olein, though crystallization, the result being a fat free from taste and odor, and which melted readily in the mouth. Experiments proved that it was as nutritious as butter, and was capable of being kept for a longer period without becoming rancid.

Shortly after this discovery, in 1870 the Franco-Prussian war broke out, and ultimately Paris was besieged, butter was soon at a premium, and later the supply ceased altogether. The place large quantities of the new substitute, "oleomargarine" were manufactured, and it gained such a strong hold on the public that Paris alone consumes immense quantities every year. It required the great war to result in the introduction of this food into Canada.

From Animal Fat.

Oleomargarine is manufactured from many forms of animal fat, and it is necessary to keep in mind the fact that different kinds of fat melt at a lower temperature than other kinds from the same animal or from other animals. This is illustrated by the well known fact that butter melts at a much lower temperature than tallow, although both are derived from fats. One form of fat which has a very high melting-point is known as "stearin." This is used whether from beef, pork or any other kind of animal fat, or from vegetable oils is the basic ingredient of oleomargarine.

The actual process of manufacturing high-grade oleomargarine is as follows: The fat is taken from the cattle at the time of killing. After thorough washing it is placed in a bath of clean, cold water and surrounded with ice to draw off the animal heat. It is then cut up into small pieces by hand until the off, or fat, is in solid form, has been extracted. This is allowed to settle until it is perfectly clear. The next step is to subject it to pressure, which separates the stearin from the fat which melts at a lower temperature, which is the olein. Also on warm days, or during cold with the addition of milk or cream or both, and possibly a small proportion of creamery butter, the product known as "oleomargarine" is produced.

But this product melts at a low temperature, and would be quite unsuitable for use in warm weather or in hot climates, so stearin is added to raise the melting point. Lard stearin and beef stearin are both used for this purpose as well as the stearin from cottonseed oil. The proportions in which these ingredients are used depend upon the time and place where it is intended the oleomargarine is to be consumed.

Fat Carefully Selected.

Oleomargarine made in the manner described from carefully selected fat, free from all impurities and manufactured under strictly sanitary conditions is, according to Dr. Mitchell, of the Bureau of Preventive Medicine and Hygiene at Harvard College, Dr. Harvery W. Wiley, the well known authority on food, and our own Dr. Hastorby, Medical Officer of health, an article of food regarding which there can be absolutely no objection. As a substitute for butter it has practically all the food properties and costing about half the amount to produce as butter.

DECLINE OF LAURIER

Toronto Globe.

How far will Sir Wilfrid Laurier's Parliamentary following—from the Provinces other than Quebec—remain with him is very well illustrated by the fact that in all the Province outside of Quebec Sir Wilfrid endorsed only seventeen of the members of the last House, who are standing for election. One of the seventeen, Mr. Traux, declined endorsation and only eighteen of Sir Wilfrid's followers in the last Parliament from the English-speaking Provinces carry his support today.

First Aid in Nutrition

Note How Oranges Render it

DON'T let these facts escape you when you buy your daily food.

Your diet, first of all, should be well balanced.

That means fresh fruits and vegetables as well as bread, meat and potatoes.

Our Food Administration said of Belgium, that one of her great perils was the lack of fresh fruits. That lack sometimes means malnutrition.

Nutrition is the vital thing that we all seek in food. Be on the safe side. Be sure you have fresh fruits.

Oranges are peculiarly important. They contain organic salts and acids that help digest all other foods. Also the so-called "vitamines" that are necessary to the balanced diet. Thus oranges aid in giving nourishment that every family needs.

In ordering, ask for Sunkist Oranges. Sunkist are uniformly good. And, best of all, this healthful fruit comes fresh from California the year round. All dealers sell Sunkist.

"ORANGES FOR HEALTH"

IMMIGRATION After The WAR

By Col. J. S. DENNIS

CANADA'S greatest need is agriculture. Out of her population of less than 8,000,000 only slightly more than half are engaged in the occupations of the farm. Compare Canada in this respect with the United States, and Canada is not only relatively backward but absolutely so. In 1870 with a population of 39,818,449, the United States had 5,922,000 persons engaged in agriculture, or 14.87 per cent. of the whole population. In 1910 with a population of 91,972,266, the number engaged in agriculture had increased to 11,592,325, or 12.6 per cent. of the whole population. In 1870 with a population of 3,686,000, Canada had 1,165,000 engaged in agriculture, or 31.6 per cent. of the whole population. In 1911 with a population of 7,206,643, Canada had 1,527,392 engaged in agriculture, or 21.2 per cent. of the whole population. Thus while the United States has increased the number engaged in agriculture by 5,669,676 persons, Canada has increased the number by only 362,392. In relation to the increase of population Canada has increased the number engaged in agriculture by only 1.6 per cent., while the United States has increased the number engaged in agriculture by 38.2 per cent. Canada has not kept pace with the United States in the number engaged in agriculture, and the United States has not kept pace with Canada in the proportion of the population engaged in agriculture.

The reason is plain. Canada has not been able to invite agricultural immigration from the Mother Country after the Great British War, and has had to look to her own agricultural development. Even in a demand for labor there is relatively little to call British immigrants to the farm. The desire of Englishmen to establish a larger position in the British Empire has been largely met by the growth of the cities, and the rapid development of manufacturing and mining, backed up by the large demand for munitions, has made employment in the cities as profitable as possible. It will not be patriotic or good policy to invite agricultural immigrants from the Mother Country after the Great British War will need to look to her own agricultural development. There will be a demand for labor there to rehabilitate British industry, but just the desire of Englishmen to develop

CANADA'S GREAT TIMBER FORESTS

Preparing Logs for the Mill

THERE are outstanding facts connected with the forests of Canada, and about two hundred millions of these acres are covered with timber suitable for trading purposes, many portions of the forests are easily accessible, and interesting features in Alberta parks like Rocky Mountain Park covered with huge timber tracts of great value. In British Columbia these forest area is estimated at about 185,000,000 acres; the forests of Quebec cover about 170,000,000 acres; then the large forests of Manitoba, Nova Scotia, New Brunswick and Yukon are fields from which much valuable timber is taken annually.

With a view to affording farmers protection the Dominion Government has distributed trees for planting along the prairies. The young trees also given away gratis, but definite conditions as to the method of cultivation must be complied with. The Canadian Pacific Railway Company has also given out young trees for a similar object.

In former years many of the Canadian forests, suffered much destruction from fires but of late the most

Galt Man Says He Gained 25 Pounds

And Stomach Trouble So Bad He Couldn't Close Fingers.—Tanlac Made Trouble

"I have actually gained twenty-five pounds and firmly believe if I had gotten Tanlac six months ago I would have been saved the awful suffering I had to endure, besides the hundreds of dollars I paid out for other medicines that did me no good." This remarkable statement was made by Nelson Sloat, a stationary fireman employed by Goldie and McCulloch, and living at 79 Shade Street, Galt, Ontario, recently. "When I began taking Tanlac," continued Mr. Sloat, "I was suffering with rheumatism and stomach trouble, which had robbed me of me out of commission. My stomach went back on me something less than a year ago, it would bloat up with gas after eating and suffer for hours. I also had a terrible hurting in the pit of my stomach. Then rheumatism set in on me and I got in an awful fix. I ached all over, and the pain in my hands was so intense I couldn't close my fingers. Part of the time I was flat on my back, was so nervous and miserable I couldn't sleep or rest, and fell off until I weighed only one hundred and thirty-five pounds. The time I lost from my work and the money I spent trying to get relief would amount to hundreds of dollars, but I kept getting worse.

"The day I started on Tanlac, I hadn't been able to hit a lick of work in fourteen weeks, but Tanlac soon changed things around for me. I now weigh one hundred and sixty-five pounds—have picked up twenty-five pounds and have gone back to work. My appetite is better than in months and my nerves are perfectly calm. I sleep good and get up in the morning thoroughly rested. My rheumatic trouble has left me entirely and my fingers are as nimble as they ever were. In fact, my aches and pains are all gone and I'm feeling about as well as if I hadn't been sick a day. I simply feel like a different man, and can truthfully say Tanlac is what brought me out."

Tanlac is sold in Belleville by Ostrom's Drug Store, in Trenton by J. H. Dickey, in Deseronto by W. J. Mallory, in Stirling by J. S. Morton, in Frankford by W. H. Lauthmer, in Madoc by J. Will Place, in Marysville by T. J. McAlpine and in Ormsby by Jas. Campbell."

FORMER HASTINGS COUNTY BOY

The news has been received at his home in Regina, Sask., of the death of Flight Lieut. J. Shirley Robertson, who was killed on active service. The deceased was a former resident of Bancroft village, and left there with his parents when quite young. He was fifteen months in the trenches and won his commission on the field. He was transferred to the Royal Flying Corps shortly after getting his commission.

TRIUMPH FOR BRITAIN

1915—Battle of Neuve Chapelle. Began on March 10, and ended on March 12, with an advance on a front of 2 miles, and casualties of 12,000.

1915—Battle of Loos.
Began on Sept. 25, and ended on Sept. 30, and carried the enemy's front line on a front of 8,500 yards. Casualties 45,000.

1916—Battle of the Somme.
Began on July 1, and ended on Nov. 9, with an extended advance of 8 miles and an average advance of 2 miles on a front of 30 miles.

1917—Battle of Vimy Ridge.
Began on April 9, and ended May 3, with an advance of 4½ miles on a 12-mile front, and casualties of 15,000.

1917—Battle of Cambrai.
Began on Nov. 20, and is still proceeding, with an extreme advance of 6 miles on a front of 32 miles, and an average advance of 2 miles.

The battle of Cambrai gave the British a greater gain of territory in two days' fighting than the battle of the Somme gave in 132 days' fighting. A capture of 8,000 German prisoners is already reported in the two days' advance toward Cambrai, while a total of 38,000 German prisoners were captured in the 132 days' advance at the Somme.

British soldiers always know the fighting game. British leaders have learned the war game. The advance on Cambrai will be recognized as one of the mightiest triumphs in military history. It is a long way from the struggle of the Somme to the sweep on Cambrai. The men who struggled at the Somme were the pioneers of the triumph that is overwhelming the enemy.

How a College Man Was Reformed

By EVERETT P. CLARKE.

Dear Mater—I received your last fatal issue of fifty recently. We are within a week of examinations, and I am working very hard. I note strawberries are always very plentiful this year, but I don't mind what I have to drink. Lucy is a lovely girl, and I'm sure she'll make a lovely girl, and I'm sure she'll make a excellent wife, but you know, I'm still saving a year from graduation and there will be more years while I am studying my profession. Don't worry, dear old ma, about, I'll not be able to come Thanksgiving. I'm through with anatomy. The cool weather will be coming on soon and I'll need a new overcoat. I trust it won't inconvenience you to send me $20, for some other things. Hoping Sophie is overcoat. Ta ta, mother dearie don't worry about my getting into bad company or neglecting my studies or otherwise disgracing myself. With loads of love, your dutiful son, ELIHU STEVENS.

When Mrs. Stevens received a letter from her dutiful son, or, rather, an envelope purporting to come from him, being an old lady with weak eyes, she turned it over to her niece, Miss Lucy Pennington, to read to her. Lucy took out the letter, and when she got to the first word in it she started. Then, taking her aunt that she would be back in a few minutes, she ran out of the room, opened a door in which Elihu's aunt kept her son's letters, took out one dated several months before, and turned with it and read it to the old lady in place of the one just received. The letter she read is printed above. This is the letter that caused the astonishment.

Dear Aunt Brownie—My last remittance is hard, and I am again in funds. I shall be over to see you in your car this coming afternoon, and I hope you will again be able to lend your dearest nephew aid as the old spot in the woods for a ride. Mother writes me that she is going to be present on my marrying—after I get my profession. I am engaged to Miss Pennington. Lucy is a good girl—too good for me, I'm afraid, but I love her and I'll bet there is to you. She would think it a great favor if you would call on her and her aunt, feeling some are in order, to tell them what a fine boy I am. Also, to endow the aunt with the shabby school order for that Goodrich tire. Please call on her at the hour and place written in your love letter.

ELIHU.

The next letter Mr. Stevens received from his niece was a forgery. Miss Lucy Pennington had written it, inclosing her aunt's handwriting. It informed Elihu that a special car had been placed at his disposal when the weather turned cool, and that he was to call for it. The weather and not study so hard as to injure his health. There was one paragraph which strongly called for special attention. It was this:

I am very sorry to say that I cannot agree with respect to you and Lucy in not thinking it necessary for you to pay more than passing attention lately from a mean of motives which I cannot state. Lucy is a good and steady business man. She doesn't seem to be interested in men and her earnings and looks upon college boys as females, so we shall have to give her up as a bad job.

Mr. Stevens frowned. He was very fond of his cousin. Indeed, when he had left home for college a year ago he had been his sweetheart, and he had since intended when he returned that she should still be his sweetheart, if she would. His mother's plan had met his own unconscious. He was feeling dumpy about this change in her when he noticed another letter lying on the desk. Opening it, he read:

Dear Elihu—Please take notice that the little affair that has been between us is not to be taken as no account matter. I have no forgotten myself as to neglect my studies and devote the girls, to go meandering about with a young man who has been deceiving me. Yours respectfully, BROWNIE.

There were two girls who had given Elihu the cold shoulder at the dance. How could it have happened? He thought the matter over, and then recurred to him that when he had written to his mother or to Brownie he had been suddenly called by the college bell to a lecture and had hurried the two letters into envelopes—He suspected that he had inadvertently put each into the envelope intended for the other. Then he reminisced that he addressed one to his mother's letter and taught the forgery.

He was in a hole. He surmised that his cousin had received a letter from him purporting to come from his mother, and the steady man ten years her senior was a man and had also had written to it in order to appear to turn down Elihu rather than submit to be turned down by him.

He would have eaten humble pie at once if it would have done any good, but it wouldn't. He was down on cold paper as preferring Brownie, and nothing he could say to Lucy would make what had been done. His only chance was to lay it down and by reference to his habits and years of decent treatment of his cousin to win her by the time he had finished the composition.

Fortunately at the coming of trouble with Lucy the temptation to go to driving automobiles had not been removed. Miss Brownie was not a reticent young lady and having a great many confidential friends, completed to each and every one of the way Elihu had deceived her. Each friend had her own circle of friends and the matter was soon common property.

The consequence of all this was that covered that so far as conquests were concerned he might as well devote himself to his books, for during the rest of his college career the girls were all cold to him.

The incident made a new man of him. He devoted himself to his studies, and when he had served some years for Lucy he found that she had committed the forgery to bring him back to the path from which he had strayed.

Sunday schools throughout the United States and Canada will unite in a "Victory Fund Day" on Dec. 2 for the benefit of the American Committee of Armenian and Sicilian Relief.

TEST YOUR LUNGS.

A Simple Method by Which One May Measure His Development.

People often suffer from weak, undeveloped lungs without suspecting it. True, small, feeble lungs are usually associated with a small, narrow or sunken chest, but not invariably. The means of the misuse of physical culture it is possible to develop large chest muscles, thus acquiring a big chest measurement, while the lungs remain small and ill nourished.

Again, lung mischief is often so slow and insidious in its approach that the trouble is not discovered until it is firmly established. Here, however, is a simple test which will tell you whether your lungs are healthy or not.

Take a deep a breath as you can, and then, in a slow but distinct voice count from one onward as far as you can without taking in more breath. The number of seconds you can continue counting is a pretty reliable index to the state of your lungs, so you should have some one to time you.

If your lungs are sound and normally developed your range will be between twenty and thirty-five seconds. If your limit is between ten and twenty seconds there is no need to be alarmed; probably your lungs are merely in need of exercise, to be readily obtained by regular deep breathing exercises. If it begins less than ten seconds, however, points to more or less trouble, and you should not delay in having your lungs examined by a medical man.

Why the Widow Got rien.

The folks were talking gossip with some neighbors who were making a social call. They were discussing a certain man that everybody agreed was such a fine man, and wondering how it was that a rather shy grass widow had succeeded in leading him to the altar. "Well, I kin tell ya," said Uncle Ebenezer, who had continued to smoke his pipe without taking part in the discussion, "he had no chance."

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

The sole head of a family, or any male over 18 years old, who was at the commencement of the present war, and has since been, resident in Canada, (alien subject or a subject of an allied or neutral country), may homestead a quarter section of available Dominion Lands in Manitoba, Saskatchewan or Alberta. Application must be made in person at the Dominion Lands Agency or Sub-Agency for District. Entry by proxy may be made on certain conditions. Duties—Six months' residence upon and cultivation of land in each of three years.

In certain districts a homesteader may secure an adjoining quarter-section as pre-emption. Price $3.00 per acre. Duties—Must reside six months in each of three years after earning homestead patent and cultivate fifty acres. After obtaining homestead patent, if he cannot secure pre-emption, may take it for purchase. Price $3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth $300.00.

Holder of entry for pre-emption or purchased homestead may obtain entry for second homestead, if residence duties under certain conditions.

Where Dominion Lands are advertised or posted for entry, returned soldiers who have been honorably discharged have been given a prior right of application for such entry in applying for entry at local agency. Other than ex-Soldiers' Duties—Proxy papers must be presented to Agent.

MISTOOK STURDY CANADIAN FOR TROUSERLESS REFUGEE

Dear Old Italian Lady Offered the Highlander Money With Which to Buy a Pair—Queen of Italy Gives Up Palace Apartments to Refugees

ROME, Nov. 22.—The Queen of Italy has placed her private apartments in the Quirinal Palace at the disposition of refugees from the invaded provinces, and especially of those children who have got separated from their parents.

The refugees had little time to leave their homes, as the Germans were upon them before they realized the offensive was serious. The few roads between the smaller centres and the city of Udine were so congested with those fleeing from the invaders that it took some of them two days to walk from villages only 15 miles from Udine.

During the long nights families got separated, in the darkness and confusion and it was one of the most touching scenes of this civilian retreat to see mothers vainly seek their little ones. Trains were provided with cars around the coaches on the outside, to which people clung.

The Quirinal state rooms have been turned into a hospital since May, 1916. The entire palace is now devoted to war relief. Now that Venice, Vicenza, Mestre and other cities not actually invaded, but in the new zone of operations, have been evacuated by the civilian population, the refugee question is becoming a problem for Milan, Turin, Bologna and Rome. Many theatres have been closed, and are swiftly being converted into hospitals for those unfortunate people, who have only the clothes they stand in. Public opinion demands the requisition of German-owned villas and palaces for the same purpose. But Orlando waits.

Some stalwart Canadians happened to be here a day or two ago on short leave from Flanders. They wore their kilts. A dear old lady, seeing one pass, mistook him for a trouserless refugee from Friuli. She went out to him and offered him money with which to buy a pair.

After that the Canadians put away their kilts altogether.

Socialist Editor Is Sent To Jail

Isaac Bainbridge Will Serve Nine Months For Seditious Libel

TORONTO, Nov. 29—Isaac Bainbridge, editor of the Canadian Forward, a Socialist publication, was sentenced to serve nine months in jail by Mr. Justice Hodgins, in the Assize Court for seditious libel. Bainbridge was convicted by a jury last week and the jury made a strong recommendation for mercy; but as he was already under a suspended sentence on a similar charge, the court held that he could not be leniently dealt with. When the jury returned its verdict last week, R. T. Harding, counsel for the accused, made a motion for arrest of judgment on the grounds that the indictment against Bainbridge did not comply with the provisions made by the Criminal Code for the drawing up of indictments. Mr. Justice Hodgins reserved judgment on this contention, and yesterday disallowed the motion.

Some Canadians Now In Italy

TORONTO, Nov. 30—The latest mail from abroad would indicate that some of the veterans of the First Canadian Contingent are now on the Italian front. A postcard was received last night from Sergeant F. Morrison, 30 Columbine avenue, a member of a local unit of the First Contingent, and which was posted in Rome on October 20. It is the official active field postcard, and contains nothing more than the brief remark that the sender is "in the land of the Romans."

21 BRITISH SHIPS SUNK BY U-BOATS IN PAST WEEK

LONDON, Nov. 29—Fourteen British merchantmen of 1,600 tons and over were sunk by mines or submarines last week, according to the weekly Admiralty statement issued last evening. This is an increase of four vessels in the larger category over the number reported sunk in last week's report.

McCoig Refuses Unionist Offer

Stand of Kent Liberal Endorsed by His Supporters—Cannot Win Seat

CHATHAM, Ont., Nov. 29.—The fight in Kent Riding after a lull of 24 hours was resumed when a meeting of supporters of A. B. McCoig passed a resolution endorsing his stand as an Independent Liberal candidate. By doing so, Mr. McCoig has refused to accept the ultimatum of the supporters of J. W. Plewes, win-the-war candidate, who offered to concede the seat to the former member if he would sign a statement pledging his support to Union Government and other war measures of the Government and remain an independent support in all its other policies.

It is quite apparent that Mr. McCoig has played the part of the tricky politician in giving assurance verbally that he would support the enforcement of the Military Service Act and other war measures until it was too late for the Union Government to endorse the candidature of Mr. Plewes.

Following the action taken at the Liberal meeting this afternoon the Liberal and Conservative supporters of Mr. Plewes have entered the fight with a new determination to carry it through to a successful conclusion.

H. M. Mowat Was Hardshell Grit

"Now Herb Mowat has joined up with the Union forces, there is no reason why any Liberal should not do so." That is the sort of thing one hears said on all sides with regard to the Liberal Unionist candidate for the Parkdale division of Toronto. It is said that the Tories did a genuine coup when they succeeded in getting up to their Liberal allies the representative of one of the Toronto seats. But one may certainly die a wise one. They did a thing, moreover, which will prove of great benefit to the Union cause far beyond the confines of the city.

For "Herb Mowat" is known far and wide throughout the Province as a nephew of old Sir Oliver Mowat's. As such his is a name to conjure with among the "hardshell grits" of Ontario. When a Mowat will sink all differences with his former party foes for the sake of a common cause, that cause must be one that sending all of Liberals in the Province are taking note of the fact.

Moreover, Mr. Mowat has earned for himself a very considerable name as an efficient political organizer. For six years he was president of the General Reform Association of Ontario, and for a considerable time he was in charge of the Liberal organization in Toronto. His patriotic decision to join the party of Union for the purpose of concentrating on winning the war is of all the more importance and significance by reason of his former close connection with the Liberal "machine."

Mr. Mowat has, in fact, always been intensely interested in politics. It is in his blood. At the last general election he contested North Ontario as a Liberal, but was defeated. He stands on this occasion he should have a thoroughly safe seat. The feeling between the two wings of the Unionist party is reported to be of the best, and the Conservatives are said to be resolved to show their Liberal allies that when they offered them a seat it was a safe one.

Mr. Mowat was born at Kingston fifty-six years ago, his father, the Rev. R. B. Mowat, Sir Oliver's brother, being the professor of Oriental languages at Kingston University. He was educated at that University, and was called to the Bar in 1886, becoming a K. C. thirteen years later. He is head of the firm of Mowat, MacLaren, Hunter and Parkinson, of Toronto. He has been engaged in many important cases in most of the Canadian courts, and was before the Privy Council in England. He was Government counsel in the matter of the Allen Labor Enquiry at Winnipeg, in 1904.

On the platform he makes an excellent impression. He is a lucid and logical speaker, with a fine presence and a very pleasing manner.

Quite recently his brother, Major Mowat, was killed at the front.

For many years Mr. Mowat has been an active member of the Executive Committee of the British Empire League in Canada.

St. Thomas City Council will not allow live pigeons to be used at the International shoot.

MOTHERHOOD WOMAN'S JOY

Suggestions to Childless Women.

[illegible] Mrs. Lydia E. Pinkham, of Lynn, Mass., invites correspondence from childless women. She has helped thousands to become mothers. This fact is proved by the many letters she receives from grateful women. Here is one from Mrs. [illegible] Ill., who writes: "I was married [illegible] years and was childless. I wrote to Mrs. Pinkham for advice, and followed it. Now I have a baby girl [illegible] months old, and I owe my own health and happiness to Lydia E. Pinkham's Vegetable Compound. I cannot praise your medicine too much. I recommend it to all my own former sufferers." Mrs. [illegible], 214 [illegible] Ill., writes: "I was married [illegible] years and had no children. I was induced to try Lydia E. Pinkham's Vegetable Compound, and before I had taken one bottle I felt that I was to be a mother. My health improved in every way, and now I have a baby girl [illegible] months old. Words cannot express my gratitude to you for advice and health." Mrs. [illegible], Ill., writes: "I was married [illegible] years and had no children. I was induced to try Lydia E. THE
Hospital for Sick Children
College St., Toronto

ITS CHRISTMAS MESSAGE

Dear Mr. Editor:

Thanks for your kindness in allowing me the privilege of appealing to your readers this Christmas-tide on behalf of the Hospital for Sick Children, the "Freeside" of all Charities," which has as its mission the care of the helpless, the sick, the crippled and the afflicted.

There is not a week a year in the history of the Hospital when funds to carry on its work were less needed than now.

Your purse is the Hospital's Hope. Your money lights the candles of mercy on the Christmas tree, and hangs the most of healing—of happiness—of life—of salvation in the heart of almost you will ever make.

Do not forget what the Hospital charity is doing for sick children, not only of Toronto, but from all Ontario, for only a total of 3,716 in-patients last year did cases from 264 places outside of Toronto. The field of the Hospital's service covers every County Province from the Ottawa to the far-off Kenora —from the borders of the United States to the farthest northerly district.

The Hospital is doing a marvellous work. It could not see the children with crippled limbs, club feet, and spinal deformities who have left the Hospital with straightened limbs and new position, your own generous and our appeal would be instant. In the Orthopedic Departments last year a total of 339 in-patients were treated; and in the Out-Patient Department there were 1,946 attendances.

Let your self and the Hospital's mercy lift the burden of misery that curses the lives, cripples the limbs and saddens the motives of many a suffering little children.

Money likes the powers of help and healing for the Hospital's drive day and night against the evils where disease and pain and death small the lives of the little ones.

Remember that every dollar given to the Hospital is a dollar subscribed to the Liberty Loan that opens the prisons of pain and the battles of disease, for sick little children to live to breathe the pure air, and to rejoice in the love of God's sunlight.

Will you send a dollar, or more if you can, to Douglas Lyon Greene, Secretary-Treasurer, or

H. ROSS ROBERTSON,
Chairman of the Board of Trustees.

NEW WINNIPEG TRAINS

Travel between Eastern and Western Canada is always heavy in the winter months, particularly during December with its holiday season. To meet these requirements of the public therefore a special Daily Through Train between Toronto and Winnipeg is announced by the Canadian Northern Railway Westbound, December 2nd to January 13th only; Eastbound, December 1st to January 8th, 1918 only. Thereafter, regular tri-weekly service will be resumed. A through Tourist Sleeping Car will also be operated daily between Toronto and Calgary as part of the above special service and connection will be made with regular daily trains between Winnipeg and Edmonton. Service between Toronto and Vancouver remains tri-weekly leaving Toronto on Mondays, Wednesdays and Fridays, as at present.

For further particulars see Local Time Table Folders, or apply to E. M. Fisk, Station Agent, or Y. Nicholson, Town Agent.

Windsor Gives Great Welcome

Much Enthusiasm for Unionist Cause Shown at Borden Meeting—Soldiers Take Part.

WINDSOR, Ont., Nov. 26.—Over seven thousand people, the biggest and most enthusiastic crowd Sir Robert Borden has addressed since opening the Union Government election campaign, filled the Armouries in this city to hear the Premier's message. The great building was jammed to the doors an hour before the meeting was billed to commence. Hundreds went away disappointed, realizing there was no possibility of gaining admission, but a great crowd still remained outside vainly clamoring for admittance, and it was finally decided to hold an overflow meeting in the Salvation Army Hall. Escorted by a guard of honor composed of men who have served their country in Flanders, the Prime Minister was accompanied by ex-Mayor Joseph Gaspard of Toronto, a well-known and prominent Liberal; by the two Union candidates in Essex, Lieut.-Col. Wigle, distinguished himself on Flanders' fields, where he commanded the famous 18th Battalion of Western Ontario, and Capt. (Dr.) J. W. Bireton, Essex, who has also a notable war service with the Army Medical Corps. Enthusiastic cheers greeted the strains of the martial music played by the band of the 21st Essex Fusiliers as the Premier mounted the platform.

"Carry on With Union.

Above the platform appeared the slogan, "Carry on with Union Government," and if the thrilling demonstrations of to-night be any criterion Windsor will by an overwhelming majority send two supporters of Union Government to Ottawa on December 17. The wildest scene of all was witnessed when the Premier declared that "if the men at the front are not sustained I would not want to remain at the helm of Canada." One of the cheering lasted for some minutes, and the Premier was unable to proceed for a considerable time. Right away the Premier added: "And so long as I am Prime Minister there will be no referendum." The audience again cheered wildly at this point.

He proposes that the Military Service Act shall be enforced fairly but equally and impartially in every Province and I propose that we should send overseas every man we have men at the front at the earliest possible moment, and if we send them as fast as we can there will be only just in time, for we shall barely be able to keep that great fighting force, the Canadian Army Corps, up to full strength."

Two Grim Alternatives.

There was another remarkable scene when Sir Robert was speaking of the two grim alternatives before us when voluntary recruiting ceased: Either to introduce compulsory military service or to leave the men at the front to their fate. "I would have settled Canada's honor if I had reached the conclusion that those gallant men should be betrayed," he said.

Soldiers Great Premier

Another incident which caused where Windsor's heart is was enacted when the Premier was expressing his gratitude to the returned wounded soldiers who formed his guard of honor. "I met some of them at the front yesterday after they had captured Courcelette," said the Premier, and one of the wounded men shouted to me and met the Prime Minister in front of the platform.

"Yes," commented Sir Robert. "I remember very well meeting a number of Western Ontario men on that memorable battlefield."

Another soldier exclaimed, amid cheers, that "I got twenty-two bullet holes in me there," and the Premier observed that he had no doubt that the Germans in the opposing trenches had got not twenty-two but forty-four holes in them.

SUFFICIENT NURSES FOR PRESENT NEEDS

OTTAWA, Nov. 26—In view of the many applications to join the Canadian Nursing Service being received, the Militia Department makes the following statement:

"As a great number of Canadian nurses were appointed and sent overseas as Nursing Sisters of the Canadian Army Medical Corps during the first two years of the war, the requirements in the Canadian service overseas have, to a large extent, been filled. Only small drafts are asked for from time to time to fill the places of members resigning or invalided from the service.

"In response to an appeal made by the British authorities in 1916, upwards of 250 Canadian nurses were sent over for duty with the Queen Alexandra's Imperial Military Nursing Service. Numbers of these ladies are being absorbed into the strength of the Canadian Army Medical Corps

WOMEN ARE NEEDED TO HELP IN WAR

"Women are as badly needed in this war as men, and will be equally as valuable," said a lecturer the other night. Many Canadian women are well aware of this fact, and have for some time been doing their bit. For instance, Mrs. Dorey, of Dorey Corners, Bedford, Nova Scotia, writes: "I have taken Pierce's Favorite Prescription in a special, and a few months ago I was taken with a severe attack of grippe. When I got over it I felt very weak, and had no appetite. I tried medicine after medicine, but nothing seemed to do me any good. I was in receipt of a circular telling of Dr. Pierce's Favorite Prescription, so I wrote him. I received a letter in return telling me to take Pierce's Favorite Prescription and Golden Medical Discovery. I did so, and when I got about half through I felt like a new woman. I felt splendid. I have not had a sick day since. I tried my family doctor, but he did me no good. I recommend Dr. Pierce's Favorite Prescription to every sufferer. I will answer all letters I receive."—Mrs. A. Gowsh, 50 Brant St.

Mrs. J. H. Fawcett, 9 Bideford St.

Bideford, Ont.—"I do think Dr. Pierce's Favorite Prescription one of the greatest medicines for women in the shape of a tonic. I had for quite a while been troubled with female weakness. I doctored, but nothing seemed to help me until I started using Dr. Pierce's Favorite Prescription. This medicine gave me such wonderful relief that I can highly recommend it to others."—Mrs. J. H. Fawcett, 9 Bideford St.

Nursing Service overseas, as their terms of service with the British Forces expire.

"In view of the fact that the surplus in Canada to Canadian requirements is still large, and as letters are received daily from eminently qualified nurses offering their services for overseas an inquiry was recently sent to the War Office as to whether they could employ any of our surplus nursing strength. A reply has just been received stating that they have sufficient nurses for immediate requirements."

NAPANEE WOMEN FORM UNION GOVT. LEAGUE

NAPANEE, Nov. 26.—A well-attended meeting of representative women citizens of Napanee was held in the Town Hall last evening, and after enthusiastic and harmonious discussion, participated in by women of both sides of former politics, it was resolved to support the "Unionist Government and Win-the-War movement." An organization was formed to be known as the Women's Union Government league, and the following officers were elected: President, Mrs. John W. Robinson; Vice President, Mrs. J. R. Dafoe; Secretary, Mrs. Henry Creighton; Assistant Secretary, Mrs. W. E. Powell. Committees were elected and committees chosen to canvass the town in the interests of the Unionist Government cause. Women's mass meeting in the armories to be addressed by women on Dec. 7. Committee now at work in every ward and the members mainly made up of voters, will endeavor to secure all the women's votes for the Union Government.

SECOND BELGIUM IN NORTHERN ITALY

MILAN, Italy, Nov. 26.—German-Austrian invading forces make as good a second Belgium out of the provinces in Northern Italy which they have overrun, according to a mass of detailed information collected and published by the Corriere Della Serra today.

The newspaper asserts and supports its allegation with specific information that the invading forces massacred civilian inhabitants of Northern Italy, pillaged their homes and murdered male civilians without regard for military slave drivers, and in general carried out the terrorist program of the early days in Belgium.

Bogus Enumerators Scouring Country

In Reality Only Canvassers—Oth. ers For Overseas Vote

OTTAWA, Nov. 26.—Bogus enumerators are scouring the country. Special instructions have been telegraphed by W. F. O'Connor, General Returning Officer, to all Returning Officers in the Dominion that enumerators must be provided with badges or buttons for purposes of identification. Reports are at hand that men calling themselves enumerators have been going about in various constituencies and using this guise with the electors. "Some of them, according to the information I have," said Mr. O'Connor today, "are only canvassers for political parties, and a great deal of misconception has arisen in consequence."

For-bear special Returning Officers and clerks are being appointed in connection with the taking of the overseas military vote. Twenty-two have been nominated by Sir Robert Borden and twenty-two will go on the nomination of the leader of the Opposition. Half of the special Returning Officers and clerks will go to Paris and half to London. To insure that there has been arranged that the special Returning Officer nominated by one party shall be assisted by clerks nominated by the leader of the other party. No special Returning Officer will be permitted to deal with ballots or ballot papers until in the presence of the two other persons, each the nominee of a different party.

South Waterloo Disvows Kitchener

GALT, Nov. 26.—At a meeting in the City Hall called by Mayor Edwards and attended by representatives of both the Liberal and Unionist of other parts of the south riding of South Waterloo, a movement was set on foot to either form a separate county made from the district or otherwise to have the county buildings removed from Kitchener.

The feeling of opinion at the meeting was that the loyal people of South Waterloo desire it should be decidedly known that they do not absolutely nor sympathy with the element responsible for the insult to Premier Borden on Saturday night, when he was refused a hearing at Kitchener, particularly on account of the fact that the disgraceful action was not apologized for by the City Council.

A committee, with Mayor Edwards as Chairman, was appointed to draft resolutions embodying the sentiments of the meeting, and it was decided to send this resolution to the various Municipal Councils concerned with the request that they appoint three men to act on a general committee.

The delegates expressed themselves as determined that the stigma of the disloyal acts of Kitchener should not rest upon the people of South Waterloo, which has sent at least 3,000 men to the front, besides making a record for Patriotic Fund subscriptions and contributing $1,400,000 to the Victory Loan.

Ruling Governing No. 2 Ontario Wheat

Quotation is on Basis of $2.21 f.o.b. Cars Montreal

WINNIPEG, Nov. 29—In an order issued today relating to the fixed price of No. 2 Ontario wheat by the Board of Grain Supervisors for Canada says:

1. Under Sec. 16 of the board provides that the price of No. 2 Ontario Winter wheat shall be $2.22 per bushel in store, Montreal.

Under the above the following regulations shall apply:

1. To arrive at the price at shipping points, (a) Deduct freight charges plus whatever fraction of a cent per bushel the Government is adding to the local freight rates per bushel from the fixed price per bushel.

2. Eastern flour millers may pay a maximum of one cent per bushel in excess of the fixed price, but no other charges for brokerage, commission or diversion of any kind.

3. The price fixed in the above order and regulations have now legal authority and any deviation from them will be regarded and treated as violation of the orders of the Board of Grain Supervisors for Canada.

Gunner Robt. Campbell, of Kingston, who was reported dead in the second battle of Ypres Sept. 13, 1915 walked in the office of a newspaper in Kingston yesterday to deny the report.

THAT NIGHT COUGH

Could anything be more trying over exhausting or more dangerous than a cough? The long, tiring spells that keep you awake at night—the way it racks your throat and chest—the soreness that follows the irritation, soothes the inflamed membranes and stops the cough.

Mr. John Doucette of Little Current, Ont., says: "I was troubled with an irritating cough that kept me awake at night. Nothing I took gave me relief until I used Peps. They relieved my breathe-side remedy, however, and quickly rid me of my cough."

For asthma, bronchitis, la-grippe, sore throat or colds use Peps. All dealers, 50c. per box.

of Reserves Is Lecture Theme

MONTREAL, Nov. 29.—"The Canadian army is finished for want of reserves."

Such was the startling announcement made by Major Dr. A. McPhail in the course of an address on "Women and War," at the Royal Victoria College. The casualties at Passchendaele, said the doctor, had caused all the available reserves of the first class to be despatched from England to the front and consequently there are no more to deliver. It was now too late to send them reinforcements, as there would have to be an interval before the newcomers had been trained and trained. During that time the Canadian army must be withdrawn or further broken up.

Major McPhail reminded his hearers that they now had to consider how they would exercise the vote they had in the affairs of the country. He was not advising them which way to vote in the forthcoming election, but he would warn them that upon their action much depended. It was no time for private propaganda and the women could help to inform the general public with the danger of the moment and see to it that personal enmity and political animosity were forgotten.

Major McPhail was enthusiastic about his impressions on returning to Montreal after three years' absence overseas. There was a much stronger feeling of true antagonism formerly with other on religious matters. Also there was not the same worth and gentleman for the way, as there was three years ago. Drafts marching through the streets were both depressed and depressing and were not being sent overseas in anything like a heart easing manner. He would remind them that the army, left forsaken, was a dangerous institution and he instanced Cromwell's action in dissolving Parliament. It was worth remembering that the ears of the army were upon them in this election.

In the course of his address, Major McPhail interestingly recounted his experiences in the front with No. 6 Ambulance, and paid a high tribute to the Canadian forces, which, he said, were fully the equal of any.

Would Conscript Alien Labor at $1.10 Per Day

WINNIPEG, Man., Nov. 29.—Conscription of alien labor in Canada at $1.10 per day is the purpose of a campaign launched by the Army and Navy Veterans Association, the Great War Veterans, and the Next-of-Kin Organizations of Manitoba.

A special committee representing these forces conferred with Premier Norris and the Cabinet yesterday afternoon and were assured of solid Provincial Government support. Their slogan will be that no alien enemy representative may be employed in any capacity at wages higher than those earned by the fighting men of the Empire in the trenches, and that all alien enemies must be usefully employed.

All union candidates in Manitoba are approving the conscription of alien enemies for useful work. R. L. Richardson, Union candidate in Springfield, is making this the chief issue of his energetic fight, and is gaining strong support.

Tremendous interest centres in the proposed meeting of pro-Laurierites here December 10 to welcome Sir Wilfrid and hostility toward the anti-conscription leader appearing in Winnipeg is growing. The returned soldiers are most bitter in their denunciation of the Laurierites and a communication has been sent to the Laurier committee having the meeting in charge by the Army and Navy Veterans, urging that in view of the disgraceful treatment of Premier Borden in Kitchener, the welcome to Laurier be declared off here and he engagement to be cancelled. Mr. Sheppard, secretary of the organization, said: "After the treatment of Sir Robert Borden at Kitchener, the boys won't stand for Laurier coming here. It will be like shaking the flag in the face of a bull to have this man preach anti-conscription in the city where so many wounded sleep since the brunt are recuperating. We want the meeting called off."

The Western Provinces are terribly aroused over the Kitchener incident and the press is a unit in declaring that the charter of the municipality should be revoked and the town turned into one vast internment camp. The refusal of the Town Council to apologize for the disgraceful affair has added fuel to the flame of criticism in the West.

United States Crop A Record-Breaker

WASHINGTON D. C., Nov. 29.—Thanksgiving Day yesterday finds America's born of plenty with new high record fulfilled.

Responding faithfully to President Wilson's appeal and the need of a war-torn world American farmers produced a gross total of $21,000,000,000 worth of farm products, equalling in value the nation's total expenditure in one year of war.

That great total, being the value of all crops, animals and animal products, was $6,500,000,000 greater than last year's, and more than the combined value of any two previous years. There were record crops of corn, oats, rye, white and sweet potatoes, tobacco and beans.

The principal farm crops will reach more than $13,000,000,000 in value; minor crops, $2,500,000,000 and animal products including butter, cheese and eggs, about $6,500,000,000. This year's values are based on preliminary production estimates, and prices paid to producers November 1 as reported by the Department of Agriculture. An official farm crop value will be made by the bureau of crop statistics on December 11.

Corn, the country's greatest crop, accounts for about one-third of the increased total farm products value of this year. It is estimated at about $4,500,000,000, compared with $2,966,000,000 last year. In point of quantity corn this year saw its largest production being 68,000,000 bushels more than the 1912 record crop, and 600,000,000 bushels more than last year.

Next in point of value comes cotton with a crop valued at about $1,981,000,000, accounting for more than one-tenth of the year's total value increase. Production this year is about 900,000 bales larger than last year and 2,640,000 bales larger than the 1910 five year average.

Hay is the next most valuable in crop with a total of $1,200,000,000 compared with $1,188,000,000 last year.

Wheat, the fourth crop in point of value is worth more than a billion dollars for the second time in America's farming history. Its value is estimated at $1,232,000,000, compared with $1,025,756,000 last year.

No other crop has reached the billion dollar total, although oats comes within $25,000,000 of that figure, being valued at $975,000,000, compared with $656,000,000 last year.

Remarkable Cure In London Hospital

Soldier Dumb For Fourteen Months From Shell Shock Recovers Voice

LONDON, Oct. Nov. 30—An extraordinary cure just effected at Woolwich Barracks Military Hospital is attracting widespread attention. Fourteen months ago, etc. Tell, a Smith Street man, was blown up by high explosives in France. The result of the shell shock was that he lost his voice and since that time he had not spoken a word. He has struggled to make his wants known in a forced whisper, scarcely audible.

Treatments in hospitals in France and England failed to restore him, and he returned home with a rather dismal prospect before him. He called at the military hospital at Woolwich barracks and made known his condition to Major W. J. Brown, a former Lindsay, Ontario, man, and a graduate of Trinity College, who has just been on overseas duty for the past three years.

Entering the clinic, voiceless, he was given attention, and within a few minutes he emerged with his old-time vocal powers.

"I just rubbed some medicine on his larynx and got his confidence," Major Brown said. "I told him he would be able to speak, and when he tried he could. It was largely a mental condition, resulting from shell shock. I have seen many cases of the kind in England, though the longest I had ever known, before was only seven months. Tell had been without his voice for 14 months.

ENEMY SURRENDERS IN EAST AFRICA

LONDON, Nov. 29.—An official announcement on the operations in East Africa tells of the unconditional surrender of a German force under Colonel Tafel, consisting of twelve German officers, one hundred Germans, and 3,400 natives. The force had advanced southward from the Mahenge area to Nevala apparently in ignorance of the British occupation Nevala.

WHAT HAS PORTER DONE FOR WEST HASTINGS?

Is Frequently and Hypocritically Asked by the Opposition Platform. Let Us Examine the Record and See For Themselves Some of the Benefits Which Mr. Porter Has Secured for West Hastings

He was instrumental in securing the expenditure of $250,000 for the new wharf and warehouse at Belleville for the use of the business men and producers of the district.

Arranged to have the Belleville Post Office raised in the status of a city office with a house-to-house mail delivery twice daily by letter carriers.

Rural Mail Delivery

Secured the establishment of Rural Free Mail Delivery throughout the country district.

Trenton Bridge

Secured $37,000 to assist in the erection of the fine bridge which spans the river at Trenton, and had the Post Office in that town enlarged.

British Chemical Works.

The British Chemical Works, which has brought thousands of dollars to West Hastings was secured through the persistent efforts of Mr. Porter.

Returned Soldiers

The welfare of returned soldiers and their dependents has always been the first thought of Mr. Porter and he has always been at their service. Good positions have been secured for many returned soldiers through Mr. Porter's efforts, and he has been able to help the returned heroes and their dependents in many ways.

Compensation For Land.

Compelled the Government to pay proper compensation for land taken for the Trent Canal.

Kindred Mineral Industry.

Procured a remission of duty on raw mineral products shipped to the United States for refining and reshipment into Canada in the finished article.

Mineral Land Survey.

Advocated a re-survey for mineral products in Hastings County (long boasted made for 30 years) and work will begin this next spring.

Patriotic Contributions

Has given thousands of dollars for Patriotic and Red Cross work and bought Liberty Bonds to the utmost of his ability, being a man of very moderate means.

Fought For City.

Fought the city's case to compel the C.N.R. and C.P.R. to build subways on Front St. South and on the west side of the river, spending weeks of time and making many journeys to Ottawa free of any cost or charge to the city.

Dredging

Secured the dredging of the harbours of Belleville and Trenton.

Increased Railway Facilities

Insisted on and procured increased railway facilities for North Hastings, keeping up daily mail service, and been reduced to three trains per week owing to war conditions.

New Postoffices Established

Had established a number of new post offices where there was no rural mail delivery.

Business For Trenton

Procured contracts for local contractors on Trent Canal, and the finishing of the Trenton end of the Canal first; whether large amounts for material and labor was expended to the advantage of the people of West Hastings.

Helped The Business Man

Procured inter-switching of freight between all railways running through Belleville.

Railway Crossings Protected.

Procured by his advocacy orders from the Railway Commission to properly protect the crossings of the C.N.R. and C.P.R. in Sidney township near the cemetery and at the Bay Bridge.

Abolished Net Fishing.

Procured the abolition of net fishing in the Bay of Quinte from the Murray Canal to the Telegraph Light for the benefit of sportsmen and the protection of fishing interests.

Dredging Harbours

Procured the dredging of the Narrows at Telegraph Light to allow deep draught boats to navigate our bay.

Natural Highway

Advocated and was one of a Special Committee to urge upon the Government the construction of a National Highway from Montreal to Detroit which would pass through Hastings County, but the Bill was killed by the Senate.

Immigration Agent

Secured the appointment of an Immigration Agent in West Hastings to encourage British labourers to locate here; many scores of whom did so.

Military Headquarters

Procured Belleville to be made a Military Headquarters for recruiting and mobolising by which many thousands of dollars were expended here; our merchants getting the benefit.

Brought Business to Belleville

Was instrumental in securing contracts for various local manufacturers to produce clothing, munitions and war material, which brought many more thousands of dollars to Belleville."

Nearly all this has it has been done in the last six years, for during the remainder of the time Mr. Porter was in opposition to Sir Wilfrid Laurier's Government, with which he had little chance to do anything.

Hastings Marble for Ottawa

Arranged to have the marble, quarried at the Bancroft quarries, used in the new wing of the Parliament Buildings, thus giving great prominence and valuable advertising to that product.

Pranford Steel Bridge

Obtained grant of $250,000 for construction of steel bridge at Frankford and the donation of the Government grounds there for a Recreation Park for the citizens.

Even this does not exhaust the list of Mr. Porter's activities, and he has forgotten to be proud of his record, but what Hastings should show its gratitude for it—and it will do so.

The Need of Reinforcements

There are some who appear to believe that there is no longer the need for the reinforcements that will be raised by the drafting of men. There is no room whatever for any doubt. For, in addition to the direct sanctioned of General Sir Arthur Currie, in command of the Canadian forces at the front, official figures of wastage and casualties, given conclusively that our armies on the firing line have been seriously reduced during 1917 and must be reinforced or they will be unable to continue the part they have been so gallantly taking in the war.

For the two first weeks of October the enlistments in Canada exceeded the casualties, that is to say in artillery of military units, declared only 999 men. During the same period 1,419 were discharged "time expired, 1,867. So, that in the two fortnights which the fighting records diminished to the extent of nearly a thousand men, the one full battalion.

This dwindling of our fighting forces has been going on for the past eight or nine months. A recent statement from the Department of Militia and Defence showed that for the seven months of the year ending with July 31, the enlistments in Canada exceeded 40,000; the casualties and discharges for the same period were well over 20,000 men. Here are the figures:

ENLISTMENT, C.E.F., CANADA.

	Infantry	All Others	Total Enlistments
January	5,707	3,467	9,174
February	2,358	4,451	6,809
March	2,299	4,351	6,640
April	1,778	3,520	5,298
May	1,908	3,189	5,097
June	1,583	4,763	6,345
July	1,419	3,663	5,082
	16,362	28,347	44,690

DISCHARGES AND CASUALTIES.

	Discharged in Canada	Casualties Overseas
January	2,402	1,967
February	2,367	1,939
March	2,251	2,707
April	2,379	12,461
May	1,511	10,781
June	1,343	7,406
July	1,638	2,037
	15,291	37,971

During these seven months, according to this official statement, there were 37,971 casualties overseas and 15,290 men discharged in Canada, mostly, it is reasonable to suppose, after having been sent home. The heaviest casualties are in the infantry, not only on account of the service they are in, but because the infantry is the most numerous, and is, in fact the main body of the army. *The casualties of the seven months are shown to be nearly three fifths in money as the enlistments for this main body of the army.* Not only that, but since July 31 recruiting has practically ceased, while casualties have been exceedingly heavy. On August 21, at Hill 70, the Canadian losses for one day were 2,300, and there and around Lens the casualties totalled something like 14,000.

There is each division in England, filled with [illegible]. It was hoped that this division could be [illegible] keep [illegible] division in readiness so that with five divisions there, four could go to the line and one in rest, or in that there could be brigades made up of the line and one in rest, or in that there could be brigades made up of the line and one in rest, or in that there could be brigades [illegible] reserve for the divisions in the line. But now it is reported that in view of the necessity of keeping every possible division in the field, the fifth division will have to remain in England.

These facts and figures speak for themselves. They show that every man are forthcoming in greatly increased numbers, if the fighting strength will be weakened just at the time when it is vital that it should be increased. It is unthinkable that Canada could falter in their country to occupy such an ignominious position after the splendid unsurpassed achievement in this terrible conflict [illegible] Tribune.

Columbia Grafonola and Columbia Records

The Merry Lilt of the Dance

Let it be heard often in the home. It chases gloom, it makes for joy—inspiration—courage. And of all instruments the Grafonola is the greatest exponent of dance music with its mellow purity of tone and its instant readiness to provide music that "won't let your feet keep still."

The electric Grafonola shown above requires no winding, the electric motor is part of the instrument—just attach the cord to a lamp socket. Here is the very height of convenience.

Thousands of homes will delight in a Grafonola this Christmas. Why not yours too? See your Columbia dealer—before the Christmas buying depletes the stocks.

Grafonolas are priced from $24 to $300—every instrument in tone and design is a masterly exposition of Columbia leadership. Easy terms arranged.

QUEBEC HAS BOLSHEVIKI AND POLITICAL TERRORISTS

In Every Constituency—Big Drive Against War and Canadian Army—Returned Soldiers are Becoming Uneasy and Can Hardly Hold Themselves

MONTREAL, Nov. 23—For generations the Province of Quebec has been the home of the joint political brotherhood, the "assemblies contradictoire." For the election the old custom is in abeyance. Those Unionists who are in the field are meeting the electors of each parish in small groups and conducting a canvass, but they are not having themselves open to insult and perhaps assault, from the strong-arm men and Lemieux Terrorists in every constituency.

Down in Quebec district the atmosphere is no more wholesome for Unionists than in Montreal. Mr. Jos. Bernard in Quebec County has been threatened with hanging and warned out of the constituency, and Hon. Mr. Mackenzie is not able to conduct a single public meeting in his constituency of Dorchester. So far in Laurier-Outremont, where Hon. Lieut.-Col. Hughes is a candidate, no Unionist meeting has been held. The Minister is overseas, but his friends are active in the canvass, and there is a rumor that Mme. Blondin will be on the stump before the week is out. There is no likelihood that even a woman would be respected by the Bolshevik of Montreal.

Soldiers' Patience Taxed.

Perhaps the most uneasy portion of the population has been among returned soldiers. A group of them pleaded for a chance to clean up the disturbers at one of the meetings, but, wisely, the Government organizers would not give their consent. Considering that the police are mainly French and that the force contains many men not unfriendly to the Laurier rioters, such a clash would be most unwise. It might result in the soldiers going to jail and being pilloried in the Laurier press as a rampant and riotous soldiery.

The Laurier Press.

The Laurier press is a fearful and wonderful thing. Canada's three days' mine the Messrs. Hare look sane and normal. Le Devoir is not given to daring headings, but falsehoods may be concealed in the typographical garments of impossibility. Let it be thoroughly understood by English Canadians that Le Devoir is the personal organ of the policy supported by Mackenzie King in North York. Mr. Bourassa favors Sir Wilfrid Laurier, and his followers, therefore, will draw Calixta out of the war and leave our overseas forces to perish. Mr. King supports the Laurier party and uses on the pretence that they will do more for the war than the Union Government. Mr. King, Sir Wilfrid Laurier says, should explain the Quebec situation. It is impossible that honest patriots and Canadians sentiments in favor of the one man. If Mr. King does not believe what he says—and that may be suspected of him—he is clearly the man for North York, or for any other decent constituency.

Drive Against the War.

This Laurier-Bourassa understanding is the one great thing in Quebec. The campaign of Laurier immediate following may be found signing a declaration to the effect that they will support no Government which will not abolish Military Service Act and discharge the conscripts. In a word there is a drive in Quebec against the war and against the Canadian Army. "It is not our war," say the French-Canadians," a statement accurate to the last letter. "If it had been their war when voluntary recruiting had been in vogue there would have been no need for conscription. Now that the eligibles are called, they are desperately concerned to dodge their responsibility.

Before the Tribunals

The exemption in some of the Montreal tribunals have been exceptionally high, but there is no evidence of a widespread conspiracy. Some of the tribunals in the French districts have tried to be fair. Some others have been manifestly unfair, but their decisions will stand for good or evil. Appeals will probably be made to the Military Service Board, but the Military Service Act does not provide for any appeal from the decisions of the tribunals. The Government has the power to alter the decisions of the tribunals, but it is not likely to do so. The Government has the power to alter the decisions of the tribunals, but it is not likely to do so. The Government has the power to alter the decisions of the tribunals, but it is not likely to do so.

Women! Look After Your Votes

The right to vote in the coming general election belongs to any woman in this country who, being not less than 21 years of age, is the wife, widow, mother, sister or daughter of a person who is serving or who has served outside of Canada in any of the military forces of this country or of Great Britain or in any of the naval forces of Canada or Great Britain in the present war—that is to say, if such woman is a British subject and not an Indian.

But to exercise this right a woman must have her name on the Voters' List.

It is the business of the enumerators to place on the Voters' List the names of women near of kin to a soldier.

The woman themselves should be on the alert to see that they are not overlooked by the enumerators, and the enumerators should be instructed with the utmost particularity to enquire at every house whether there are there and women kin of soldiers. Cases are reported of women who are entitled to vote being overlooked or refused by enumerators.

The enumerators have until the end of the first month to complete their respective lists. They should in all cases to which it appears they have misunderstood their duties as to the women entranchised.

Women who have discovered that they ought to be on the list, but are not, should hasten to get themselves on.

Even after the enumerators' lists are posted up on Dec. 3 names that were omitted can be put on by the Board of Appeal if application is made within four days after the posting of the list.

A single soldier's service may qualify many women to vote. If he has a wife, a mother, a sister or sisters not less than 21 years of age and a daughter or daughters of not less than that age, all are entitled to vote unless they or the enumerators neglect to get their names on the list.

A woman resident in this country is entitled to vote here if her brother, husband, father or son is serving in the British army or has served in the British army since the beginning of this war, notwithstanding that he may never have set foot in Canada.

RAILWAY MAN KILLED WHILE CLEARING WRECK.

BARRIE, Nov. 29.—A fatal accident occurred near Vine, on the Hamilton line, Robert Stanley, a G.T.R. car foreman at Allandale, meeting his death. Early in the afternoon the auxiliary went to clear up a freight wreck of seven cars. When the last car was being cleared, Mr. Stanley was hit by a pair of trucks and died almost instantly. A man named Jay standing by him, was bruised, but not seriously hurt. Mr. Stanley was a valued employe and highly esteemed.

Previous to coming to Allandale, five years ago, he held a similar position in Gravenhurst. He served in the Riel rebellion of 1885. He was a past master of Golden Rule Lodge, A. F. and A. M., Gravenhurst, and a member of the Burton Avenue Methodist Church.

During the current year twenty-one new centres of treatment and vocational training were erected and equipped by the Military Hospitals Commission. Forty-five other buildings were erected and equipped for the same purpose.
